

Thyroid hormone signaling pathway

all genes

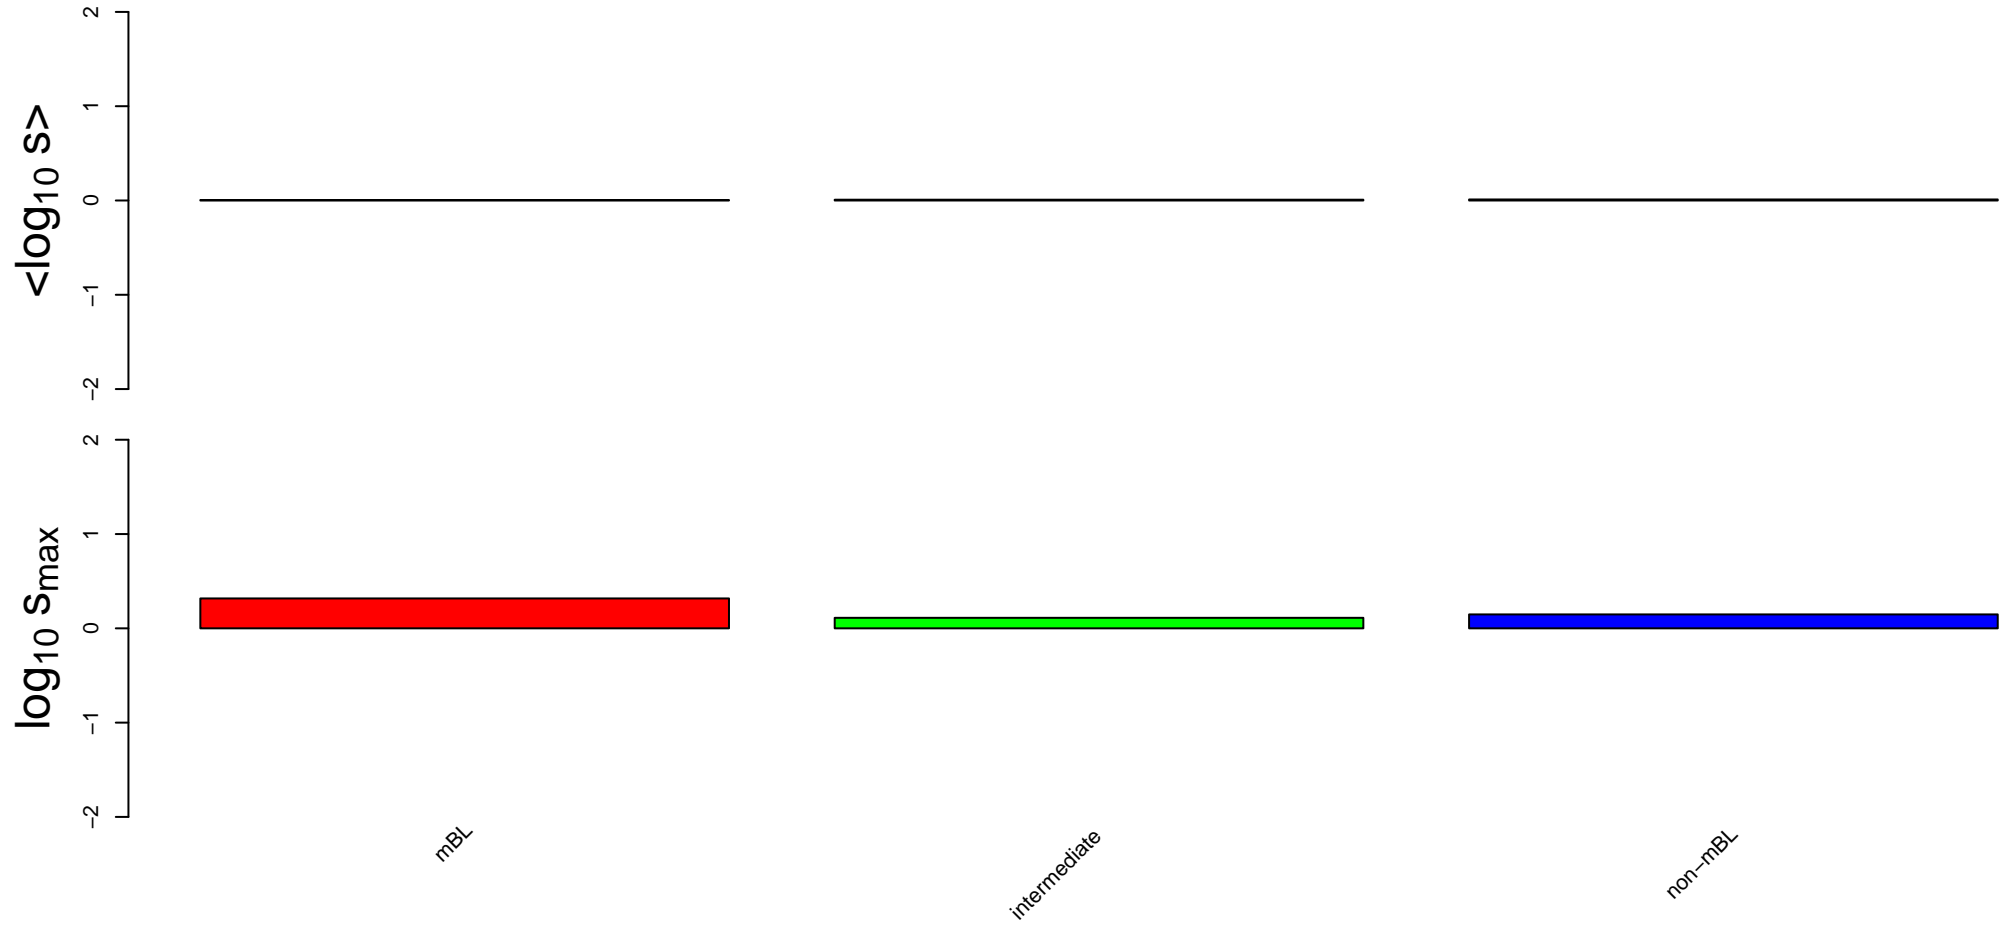

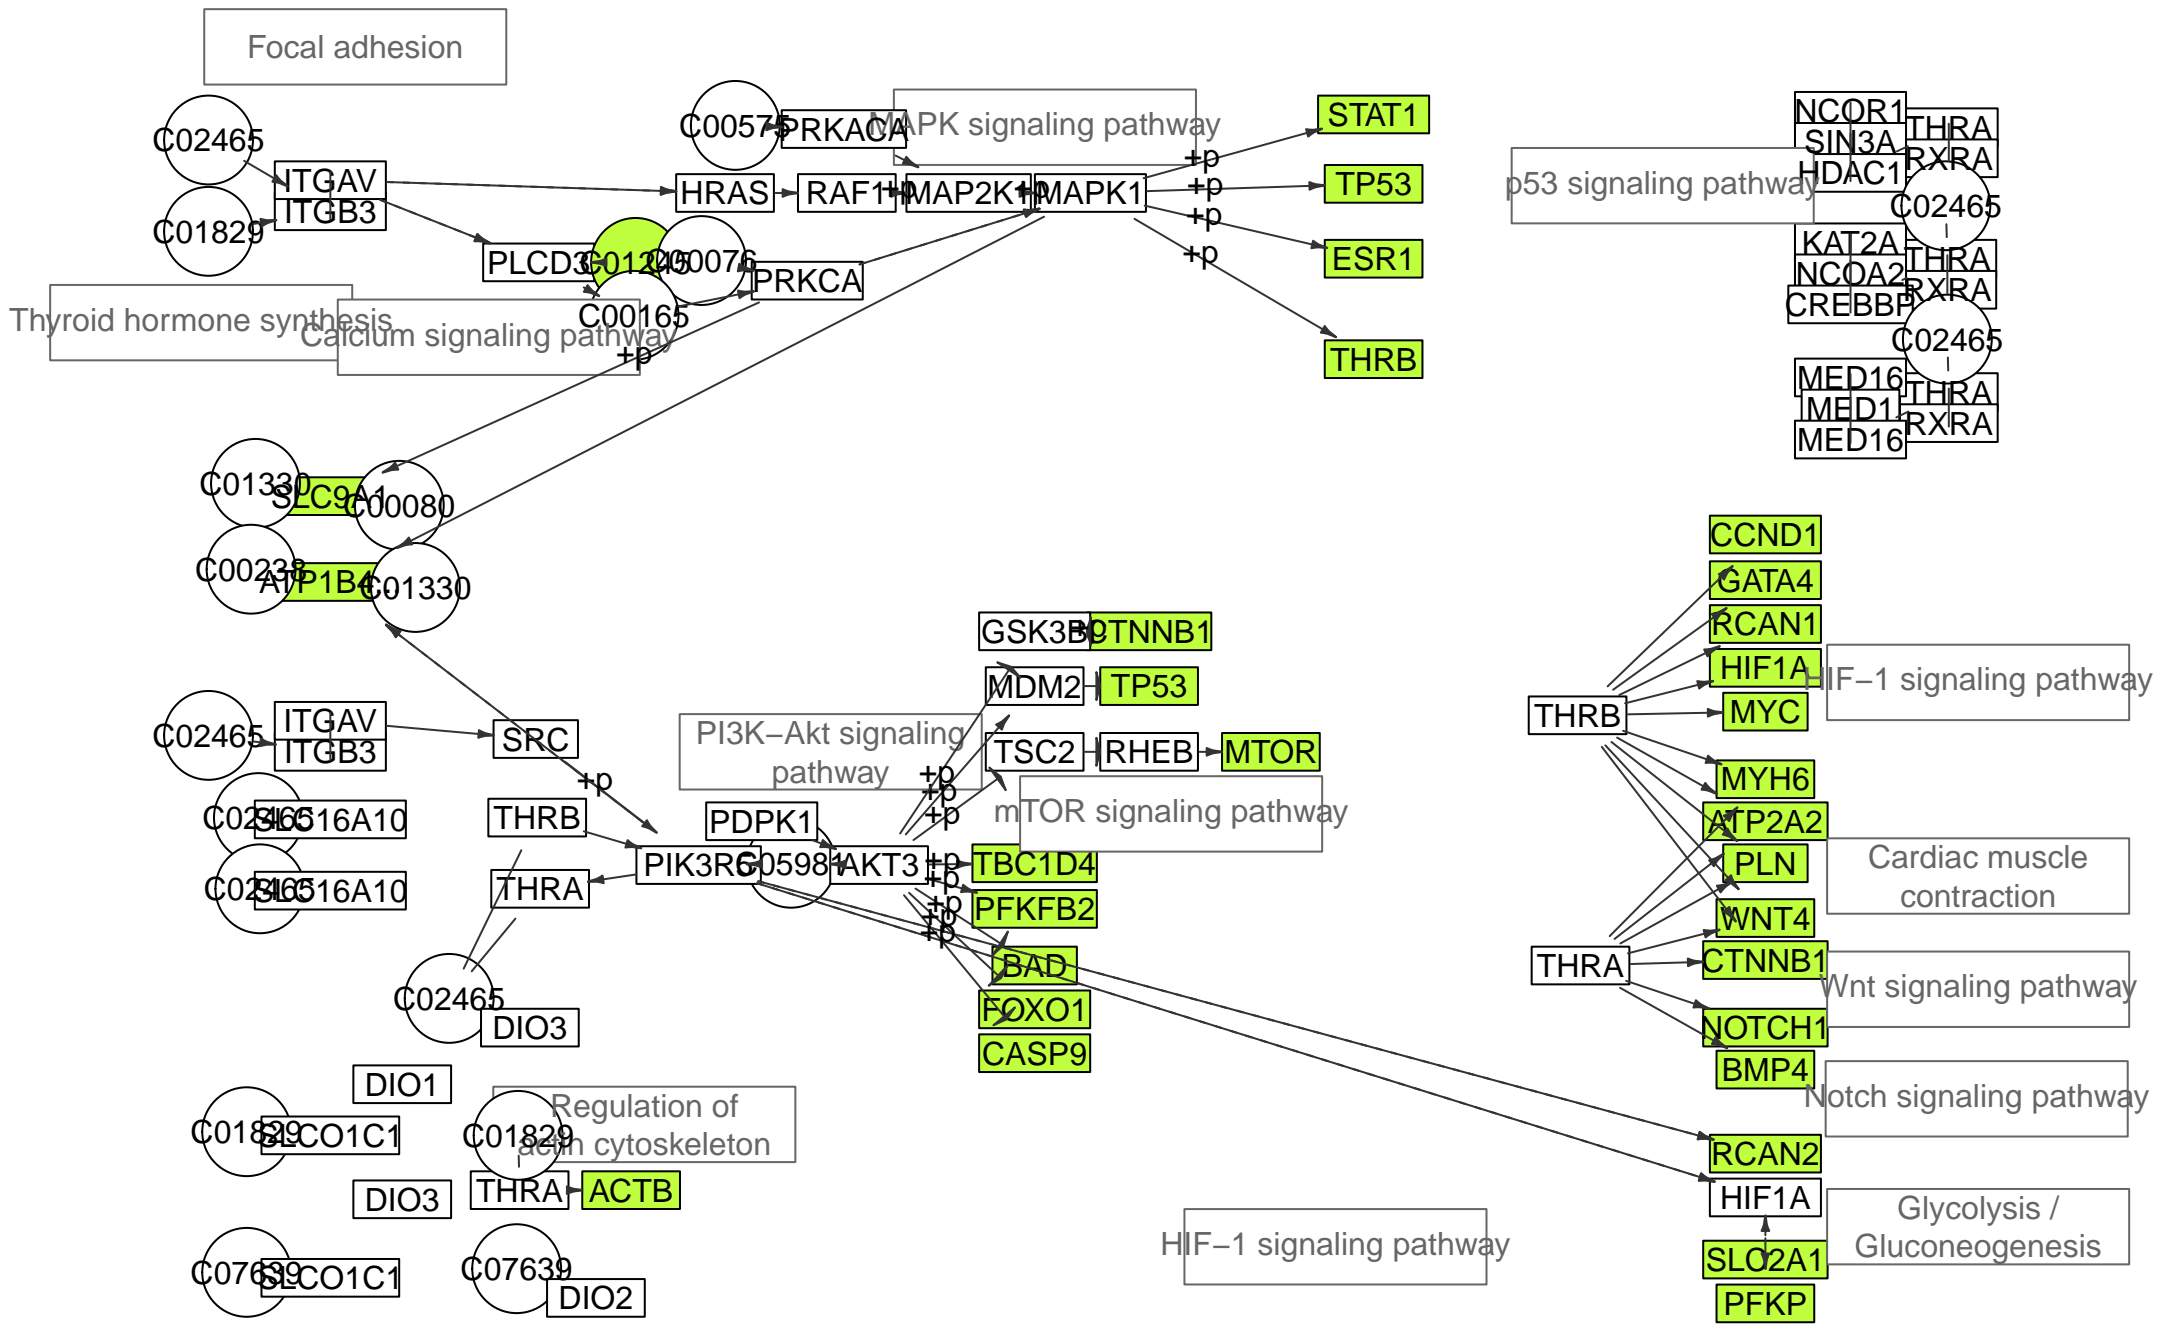

maximum = 5

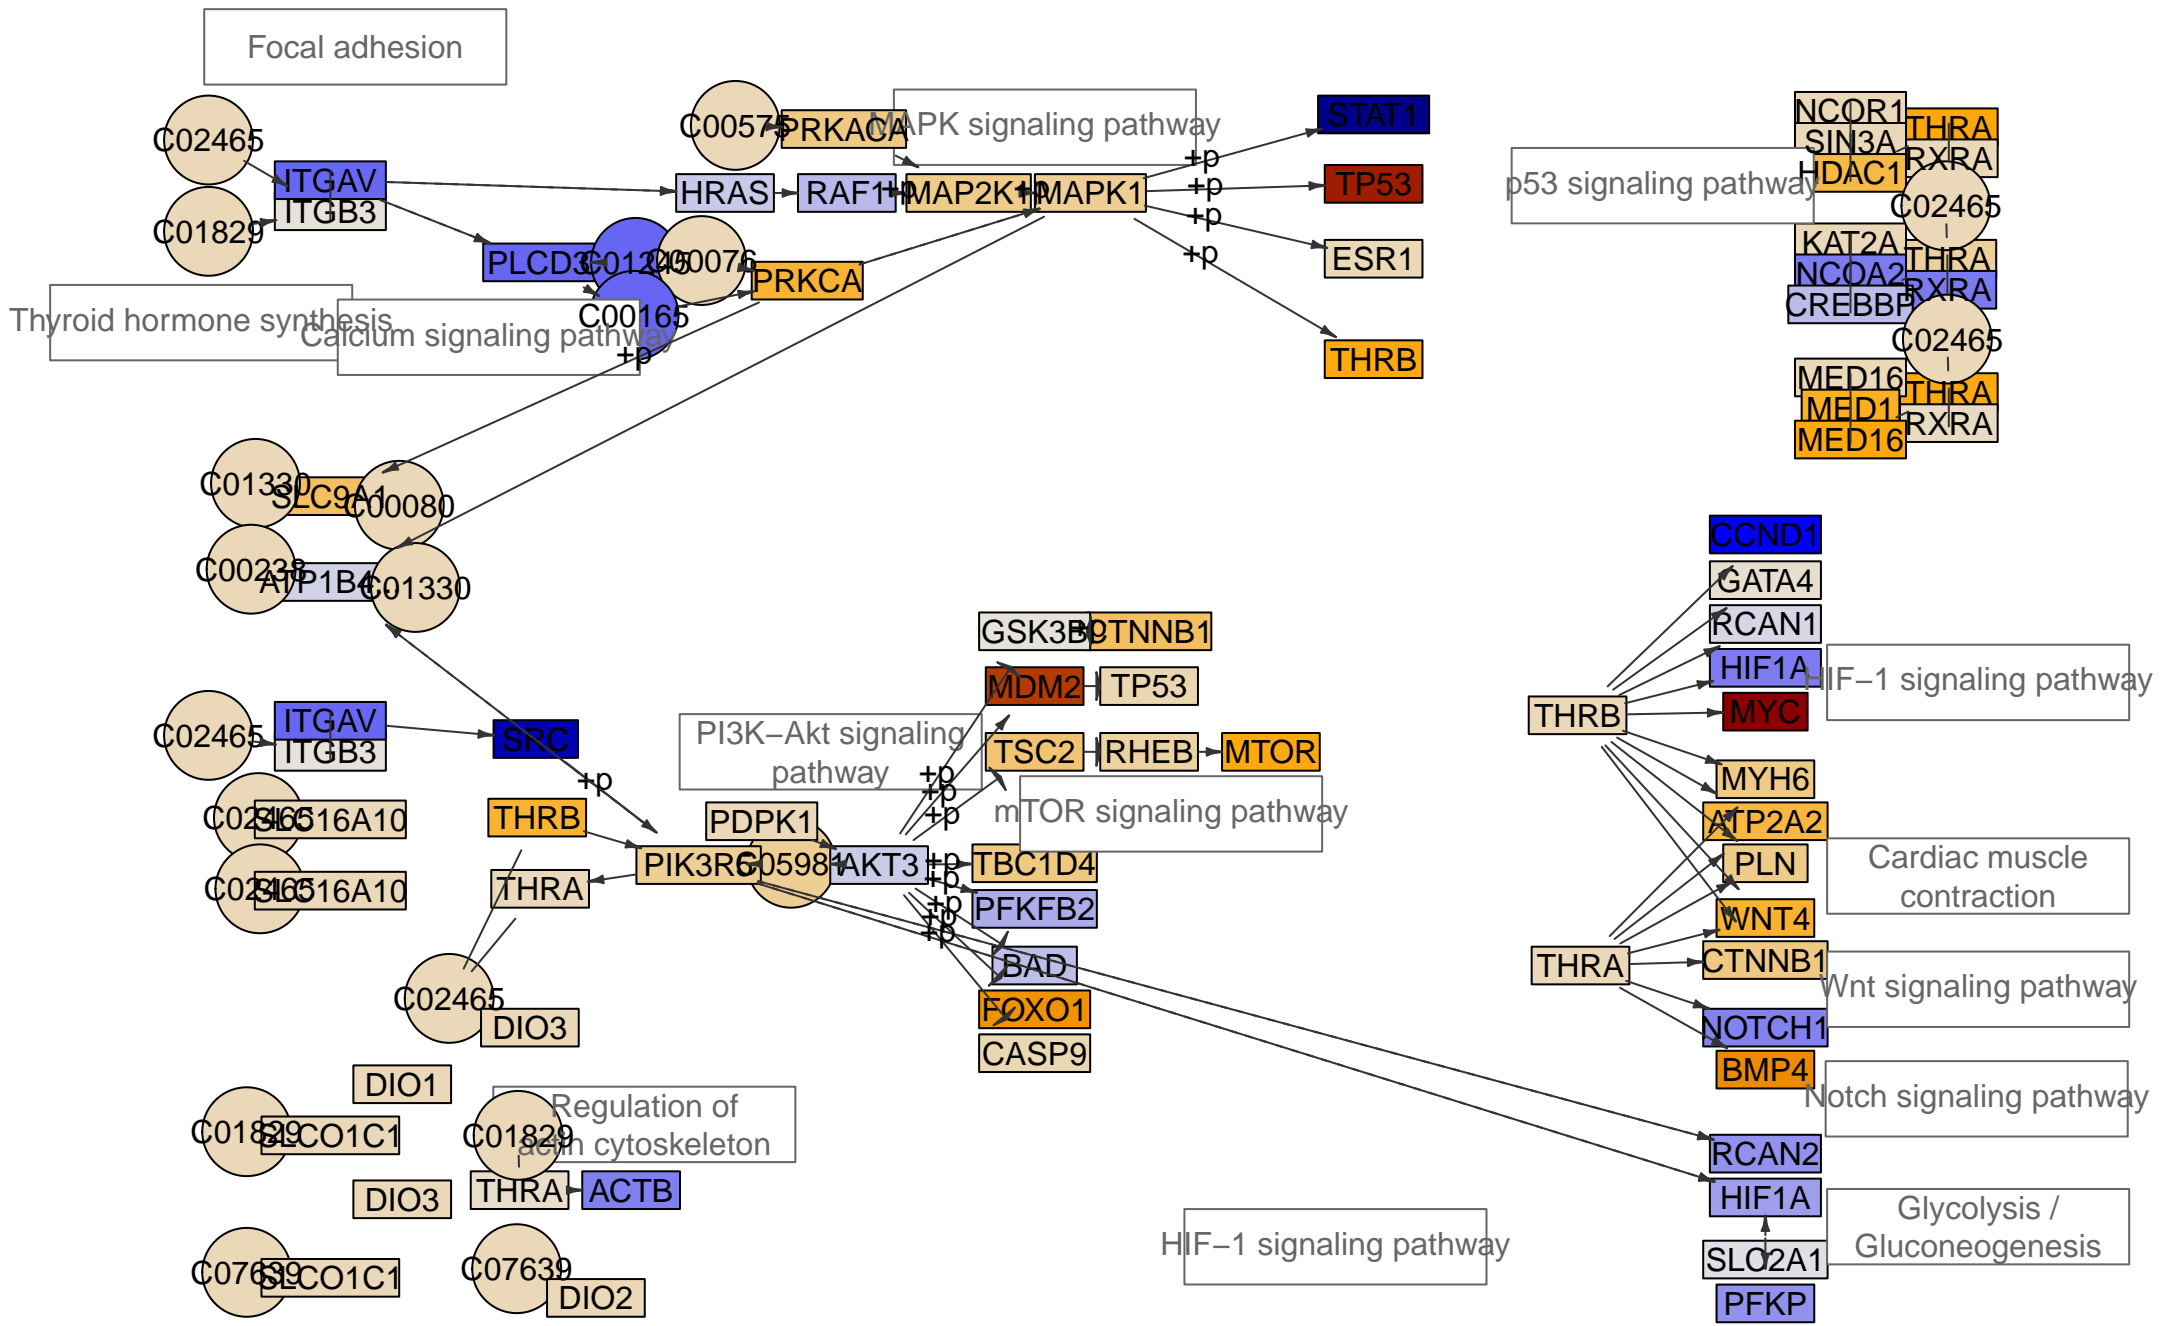

sink node genes

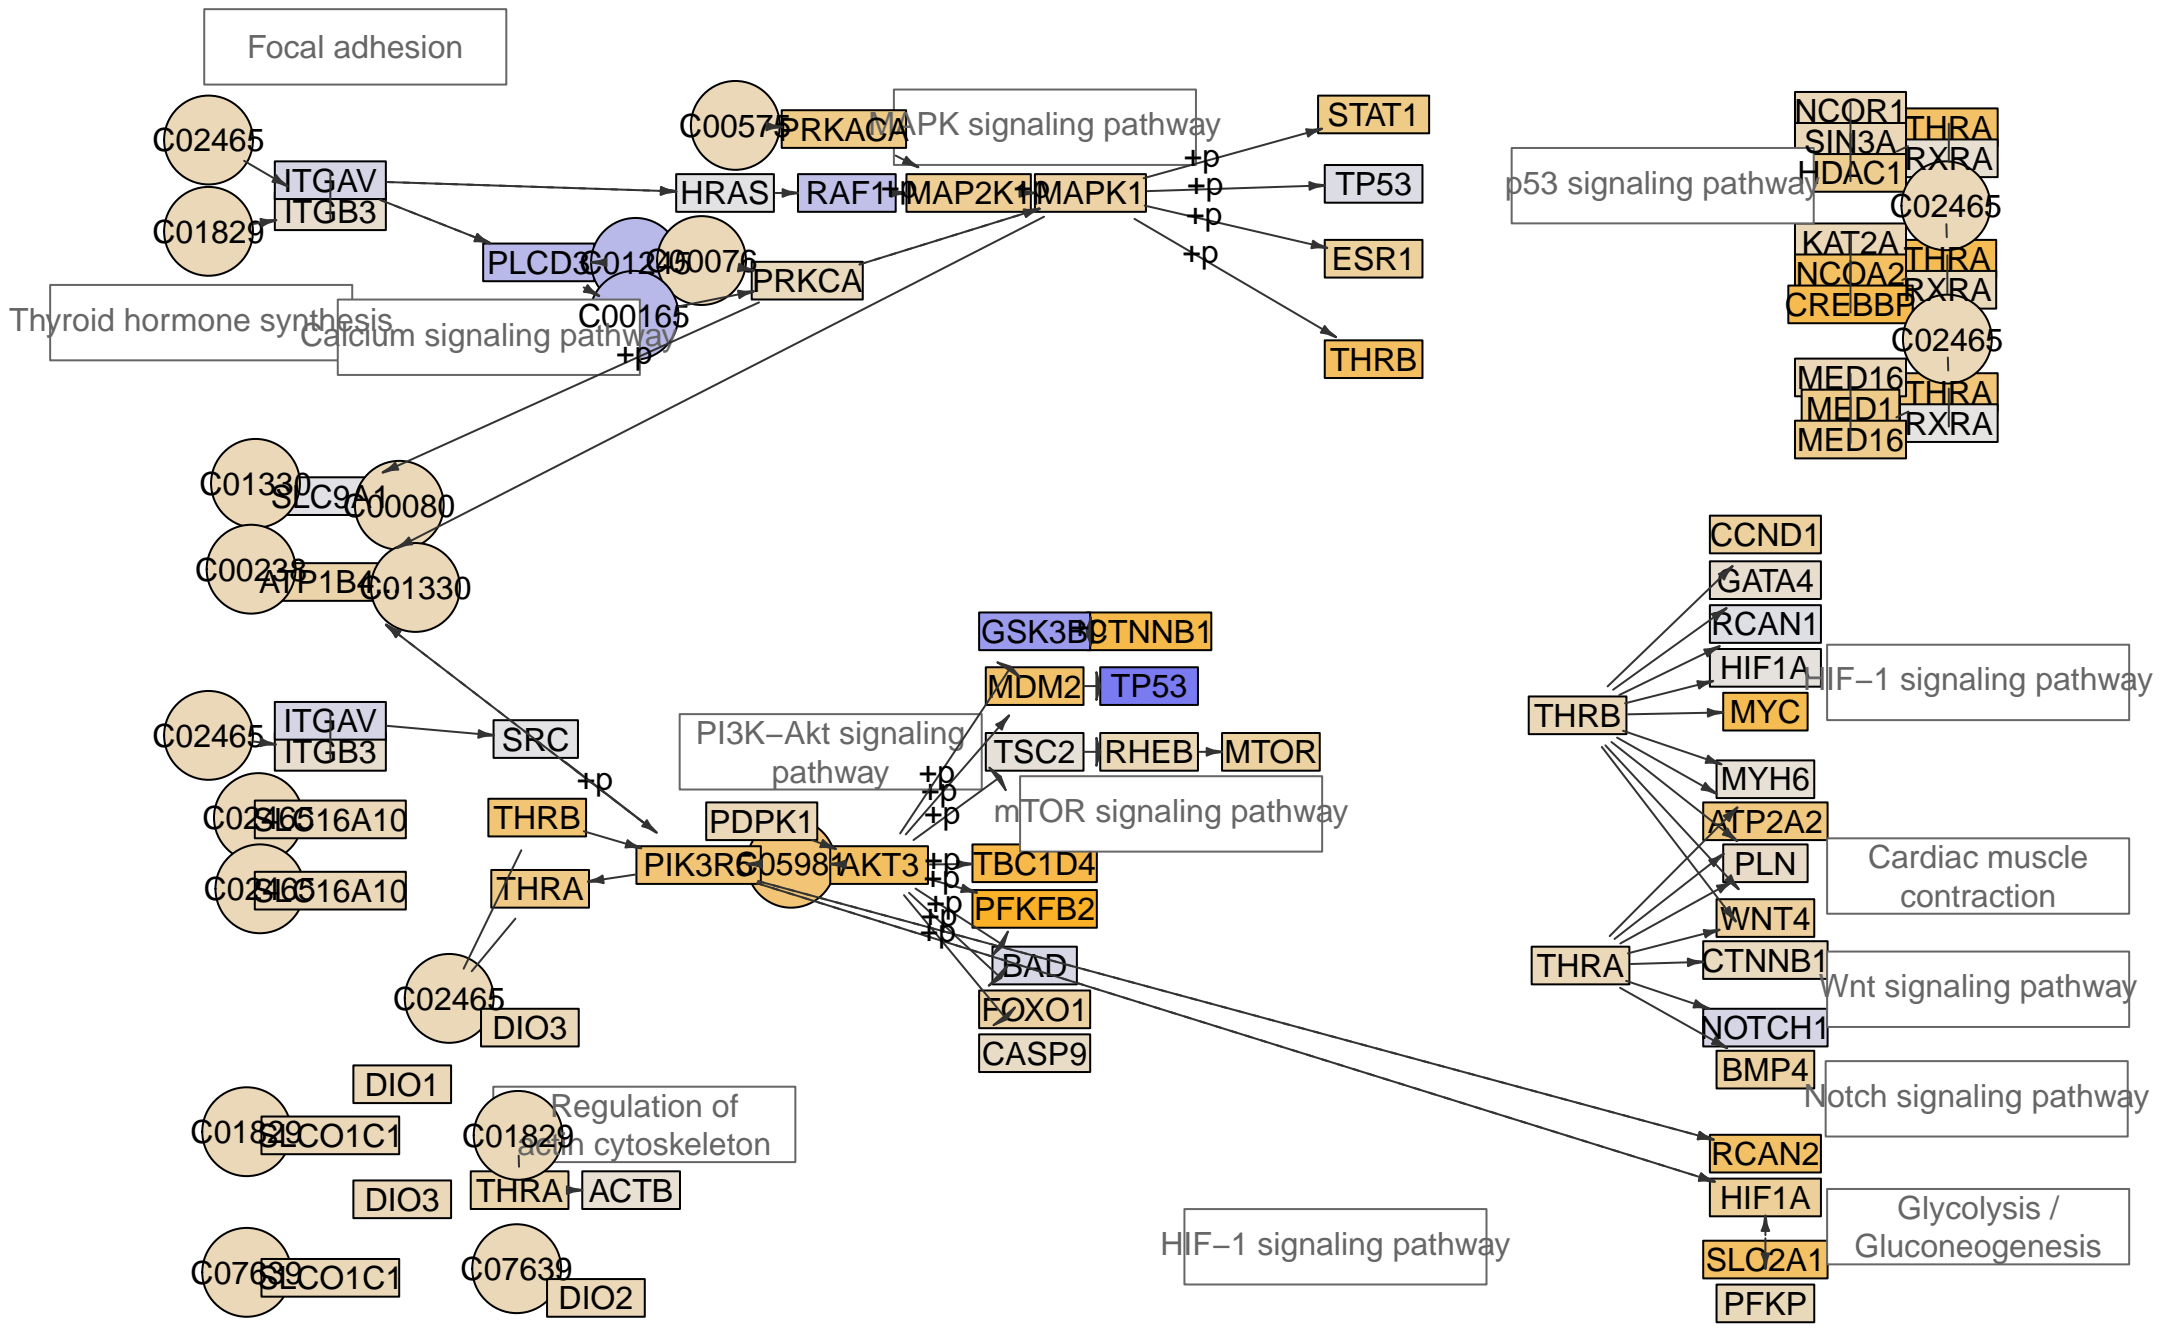

maximum = 5

Focal adhesion

MAPK signaling pathway

p53 signaling pathway

Thyroid hormone synthesis

Calcium signaling pathway

PI3K-Akt signaling pathway

mTOR signaling pathway

HIF-1 signaling pathway

Cardiac muscle contraction

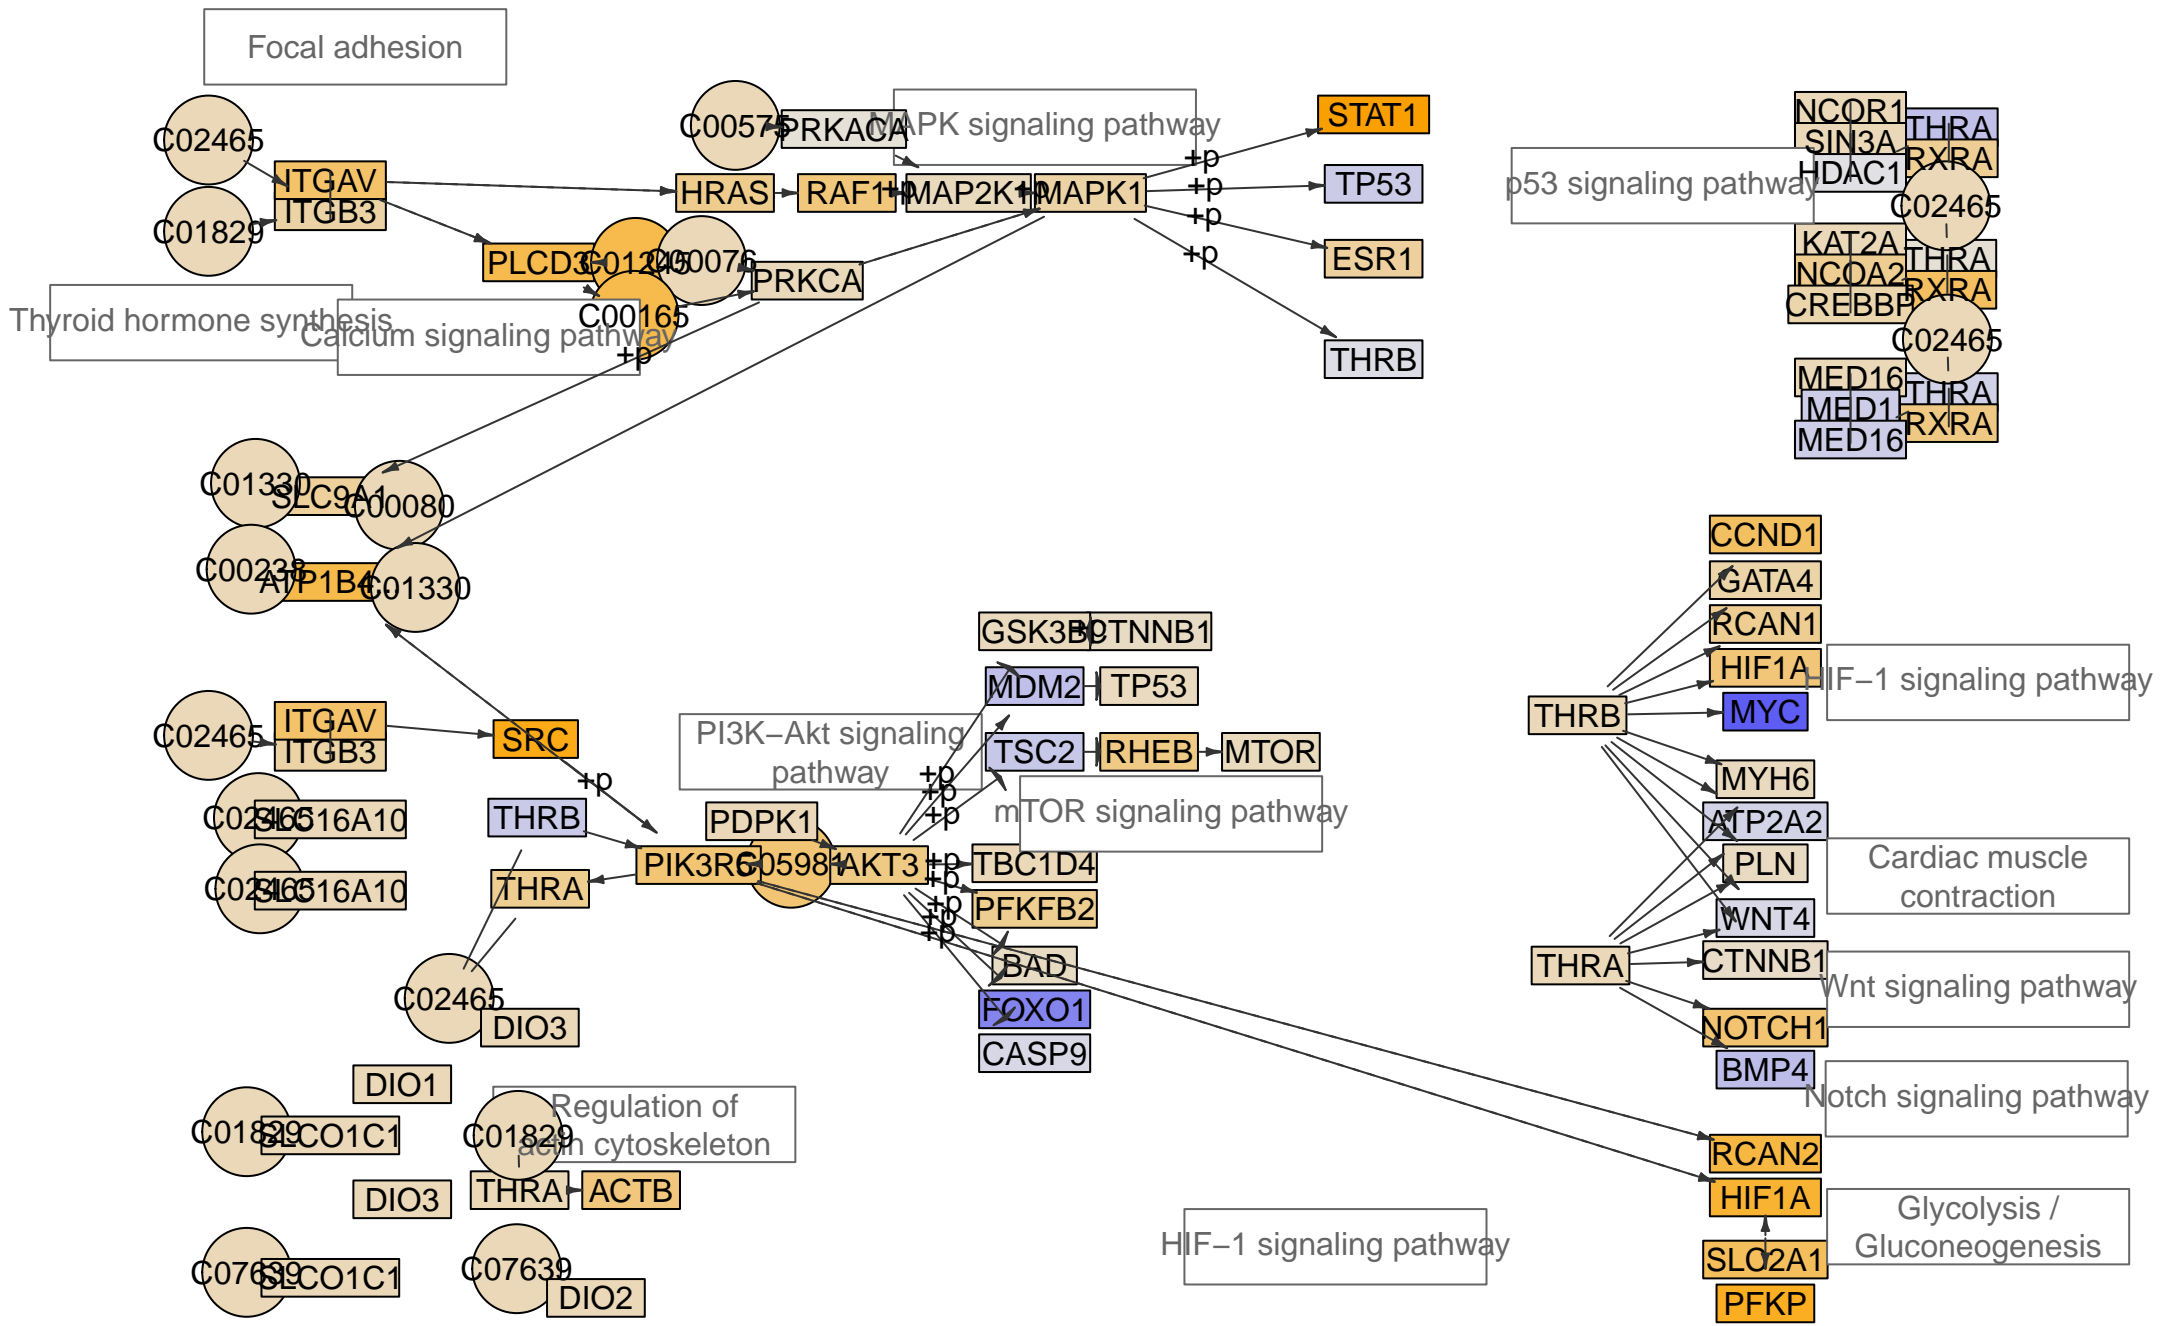

Wnt signaling pathway

Notch signaling pathway

HIF-1 signaling pathway

Glycolysis / Gluconeogenesis

Regulation of actin cytoskeleton

Focal adhesion

Thyroid hormone synthesis

Calcium signaling pathway

PI3K-Akt signaling pathway

mTOR signaling pathway

Regulation of actin cytoskeleton

HIF-1 signaling pathway

p53 signaling pathway

HIF-1 signaling pathway

Cardiac muscle contraction

Wnt signaling pathway

Notch signaling pathway

Glycolysis / Gluconeogenesis
