

DNA methylation involved in gamete generation

DNA methylation involved in gamete generation

Enrichment in spots: DNA methylation involved in gamete generation

Expression of DNA methylation involved in gamete generation in Spot A

Expression of DNA methylation involved in gamete generation in Spot B

Expression of DNA methylation involved in gamete generation in Spot C

Expression of DNA methylation involved in gamete generation in Spot D

Expression of DNA methylation involved in gamete generation in Spot E

Expression of DNA methylation involved in gamete generation in Spot F

Expression of DNA methylation involved in gamete generation in Spot G

Expression of DNA methylation involved in gamete generation in Spot H

Expression of DNA methylation involved in gamete generation in Spot I

Expression of DNA methylation involved in gamete generation in Spot J

Expression of DNA methylation involved in gamete generation in Spot K

Expression of DNA methylation involved in gamete generation in Spot L

Expression of DNA methylation involved in gamete generation in Spot M

Expression of DNA methylation involved in gamete generation in Spot N

Expression of DNA methylation involved in gamete generation in Spot O

Expression of DNA methylation involved in gamete generation in Spot P

Expression of DNA methylation involved in gamete generation in Spot Q
