

G-protein coupled purinergic nucleotide receptor activity

G-protein coupled purinergic nucleotide receptor activity

Enrichment in spots: G-protein coupled purinergic nucleotide receptor activity

Expression of G-protein coupled purinergic nucleotide receptor activity in Spot A

Expression of G-protein coupled purinergic nucleotide receptor activity in Spot B

Expression of G-protein coupled purinergic nucleotide receptor activity in Spot C

Expression of G-protein coupled purinergic nucleotide receptor activity in Spot D

Expression of G-protein coupled purinergic nucleotide receptor activity in Spot E

Expression of G-protein coupled purinergic nucleotide receptor activity in Spot F

Expression of G-protein coupled purinergic nucleotide receptor activity in Spot G

Δe

Expression of G-protein coupled purinergic nucleotide receptor activity in Spot H

Expression of G-protein coupled purinergic nucleotide receptor activity in Spot I

Expression of G-protein coupled purinergic nucleotide receptor activity in Spot J

Expression of G-protein coupled purinergic nucleotide receptor activity in Spot K

Expression of G-protein coupled purinergic nucleotide receptor activity in Spot L

Expression of G-protein coupled purinergic nucleotide receptor activity in Spot M

Expression of G-protein coupled purinergic nucleotide receptor activity in Spot N

Expression of G-protein coupled purinergic nucleotide receptor activity in Spot O
