

# G-protein coupled receptor signaling pathway, coupled to cyclic nucleotide second messenger

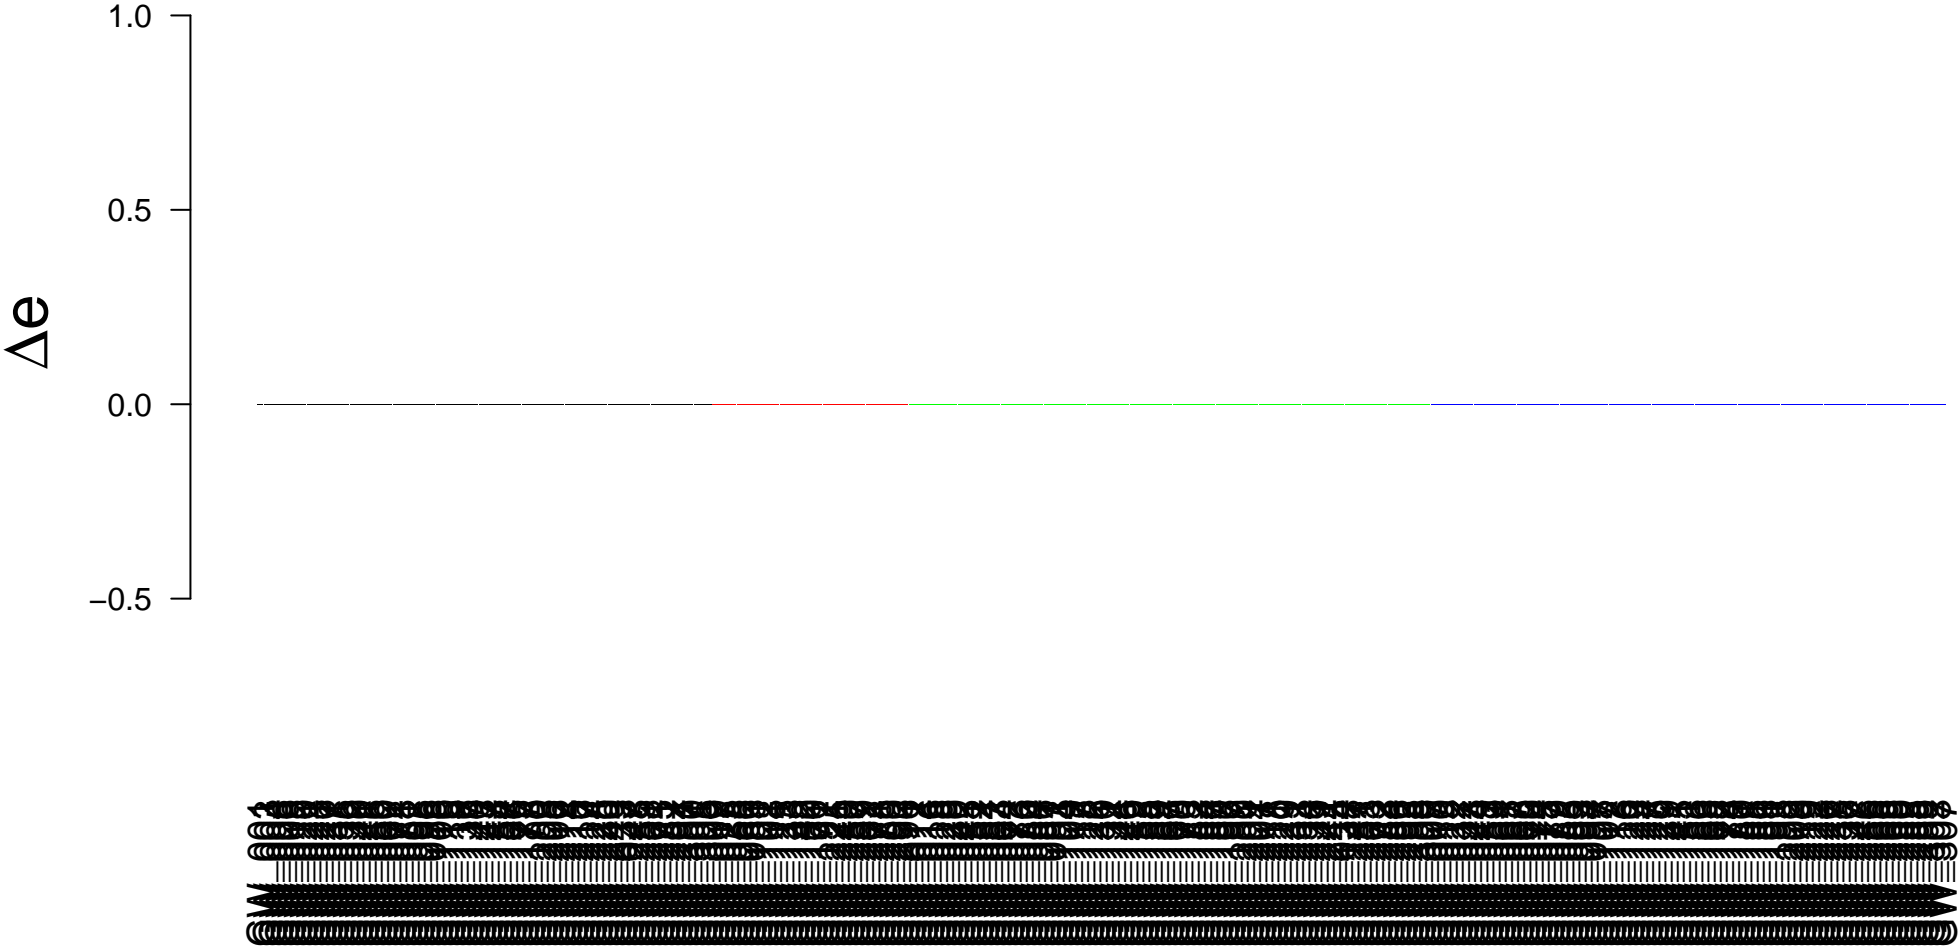

# G-protein coupled receptor signaling pathway, coupled to cyclic nucleotide second messenger

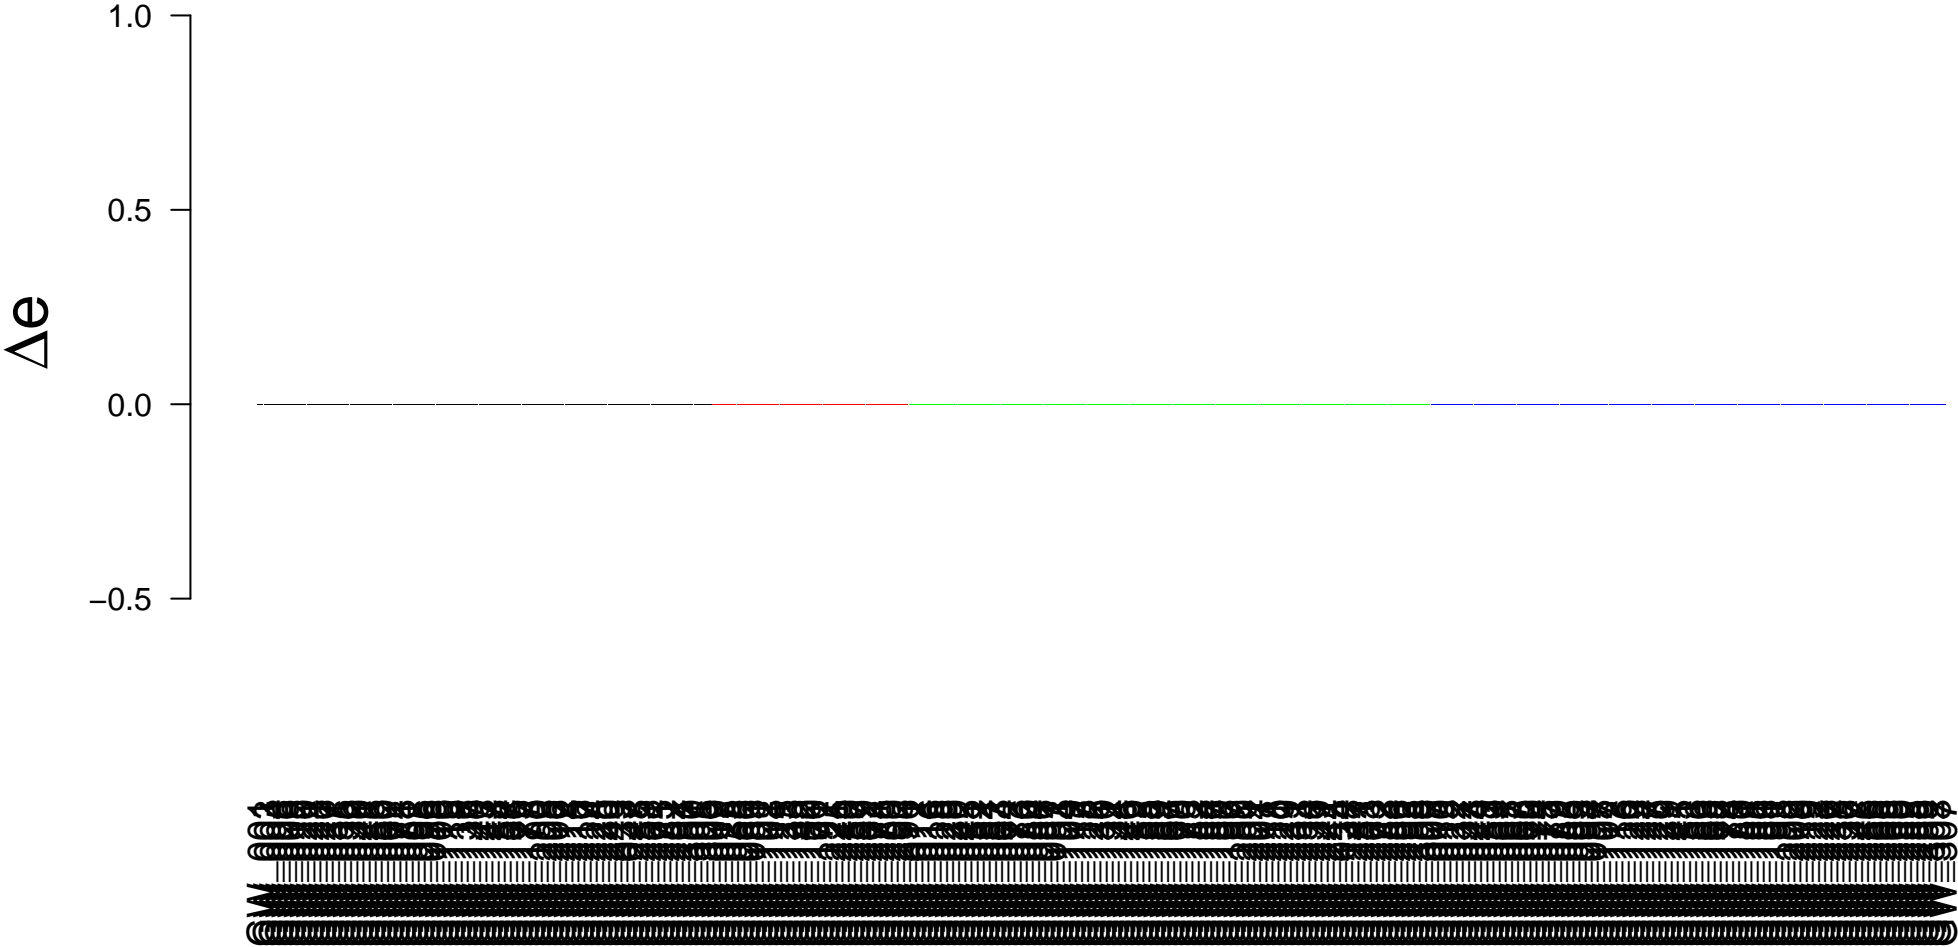

Enrichment in spots: G-protein coupled receptor signaling pathway, coupled to cyclic nucleotide second messenger

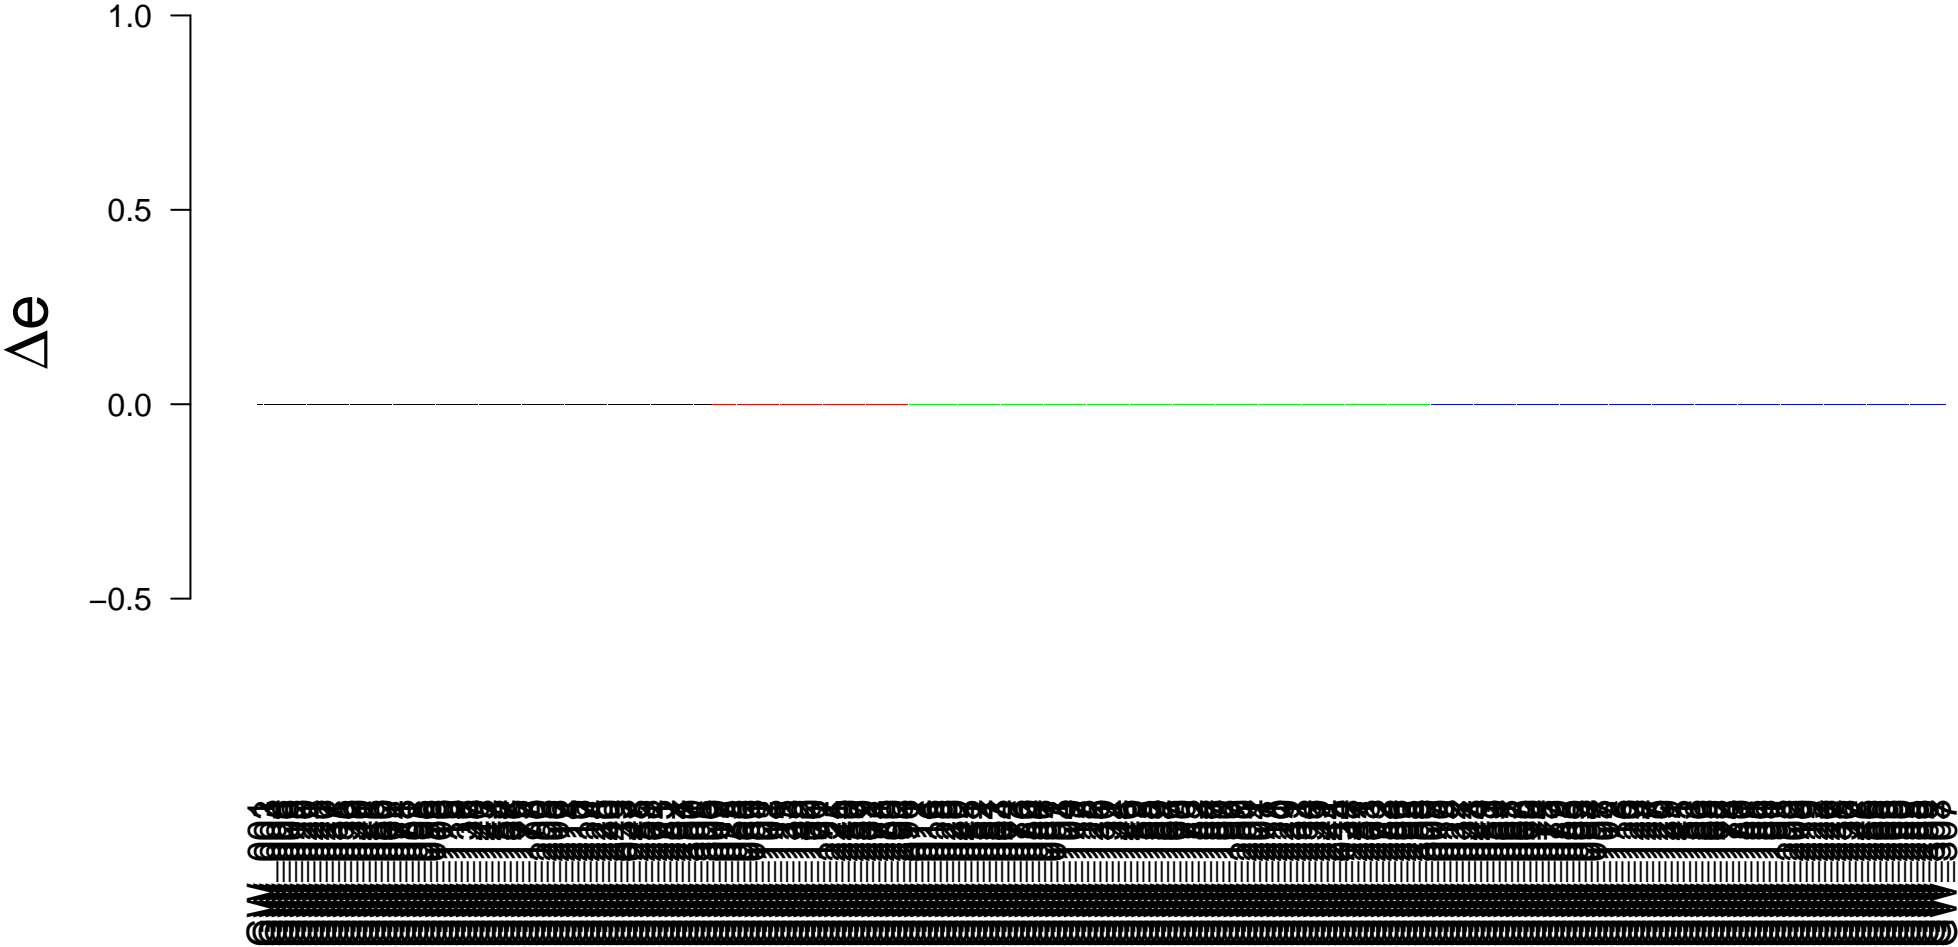

Expression of G-protein coupled receptor signaling pathway, coupled to cyclic nucleotide second messenger in Spot A

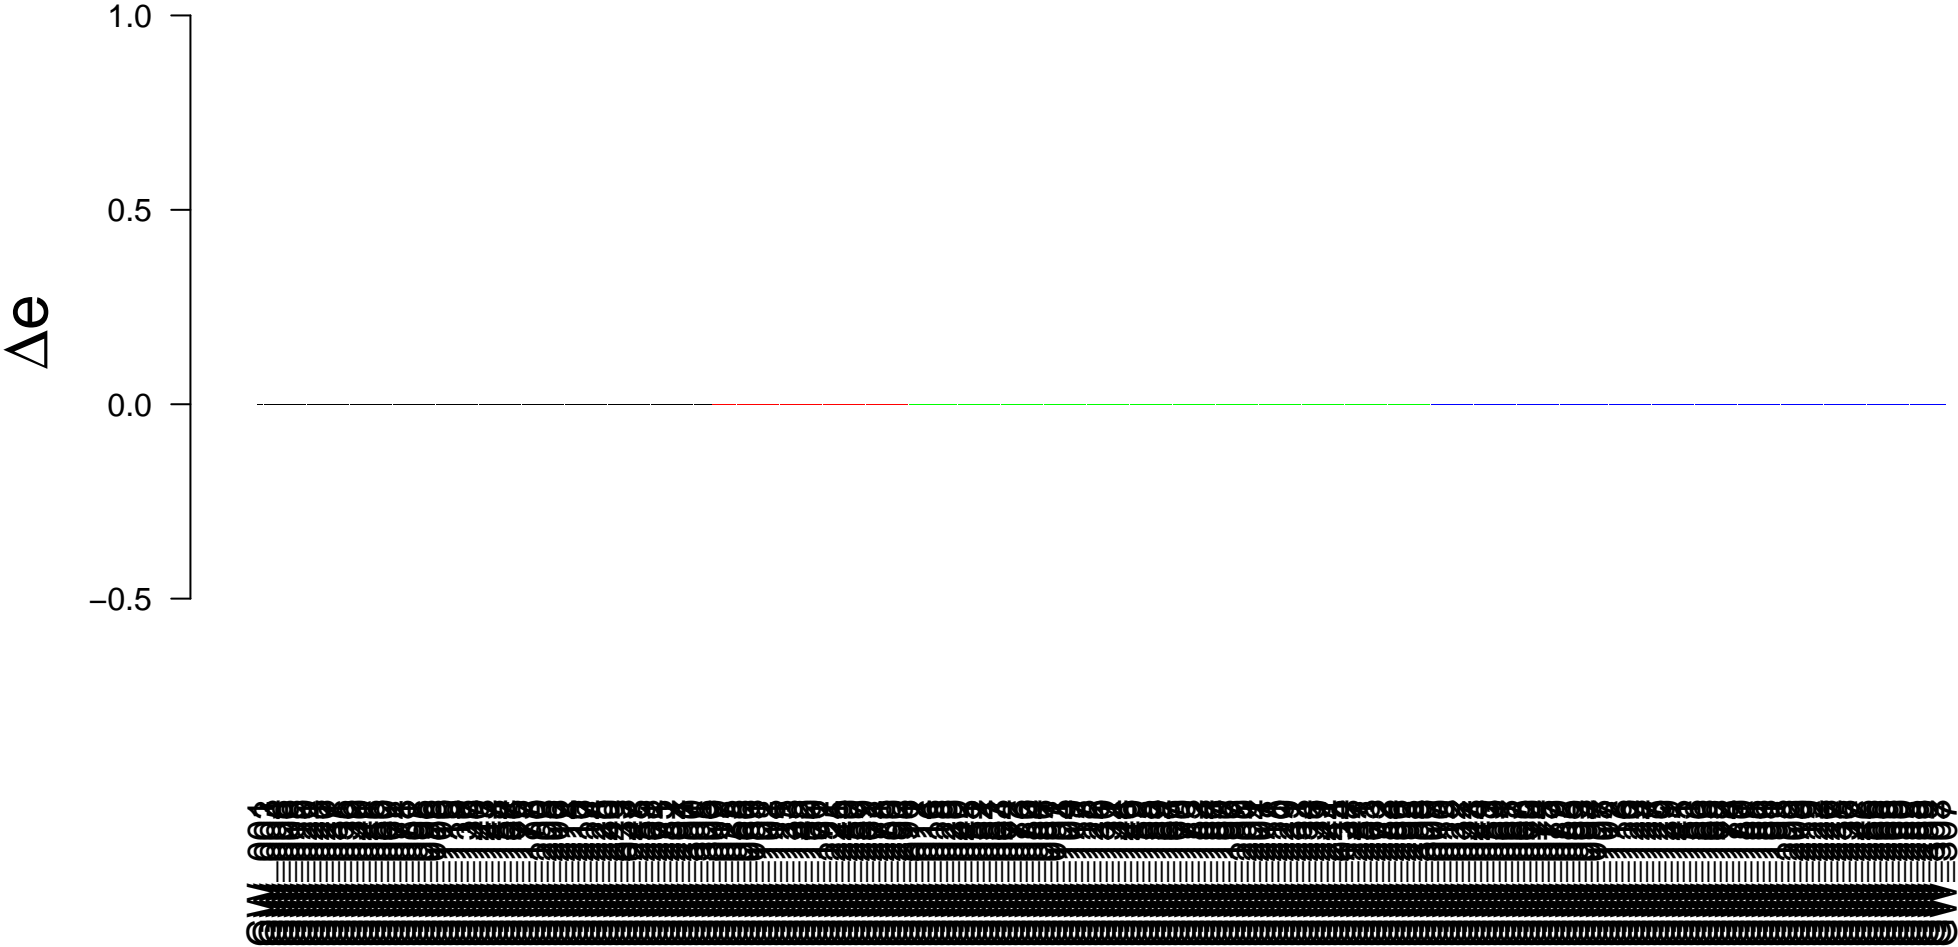

Expression of G-protein coupled receptor signaling pathway, coupled to cyclic nucleotide second messenger in Spot B

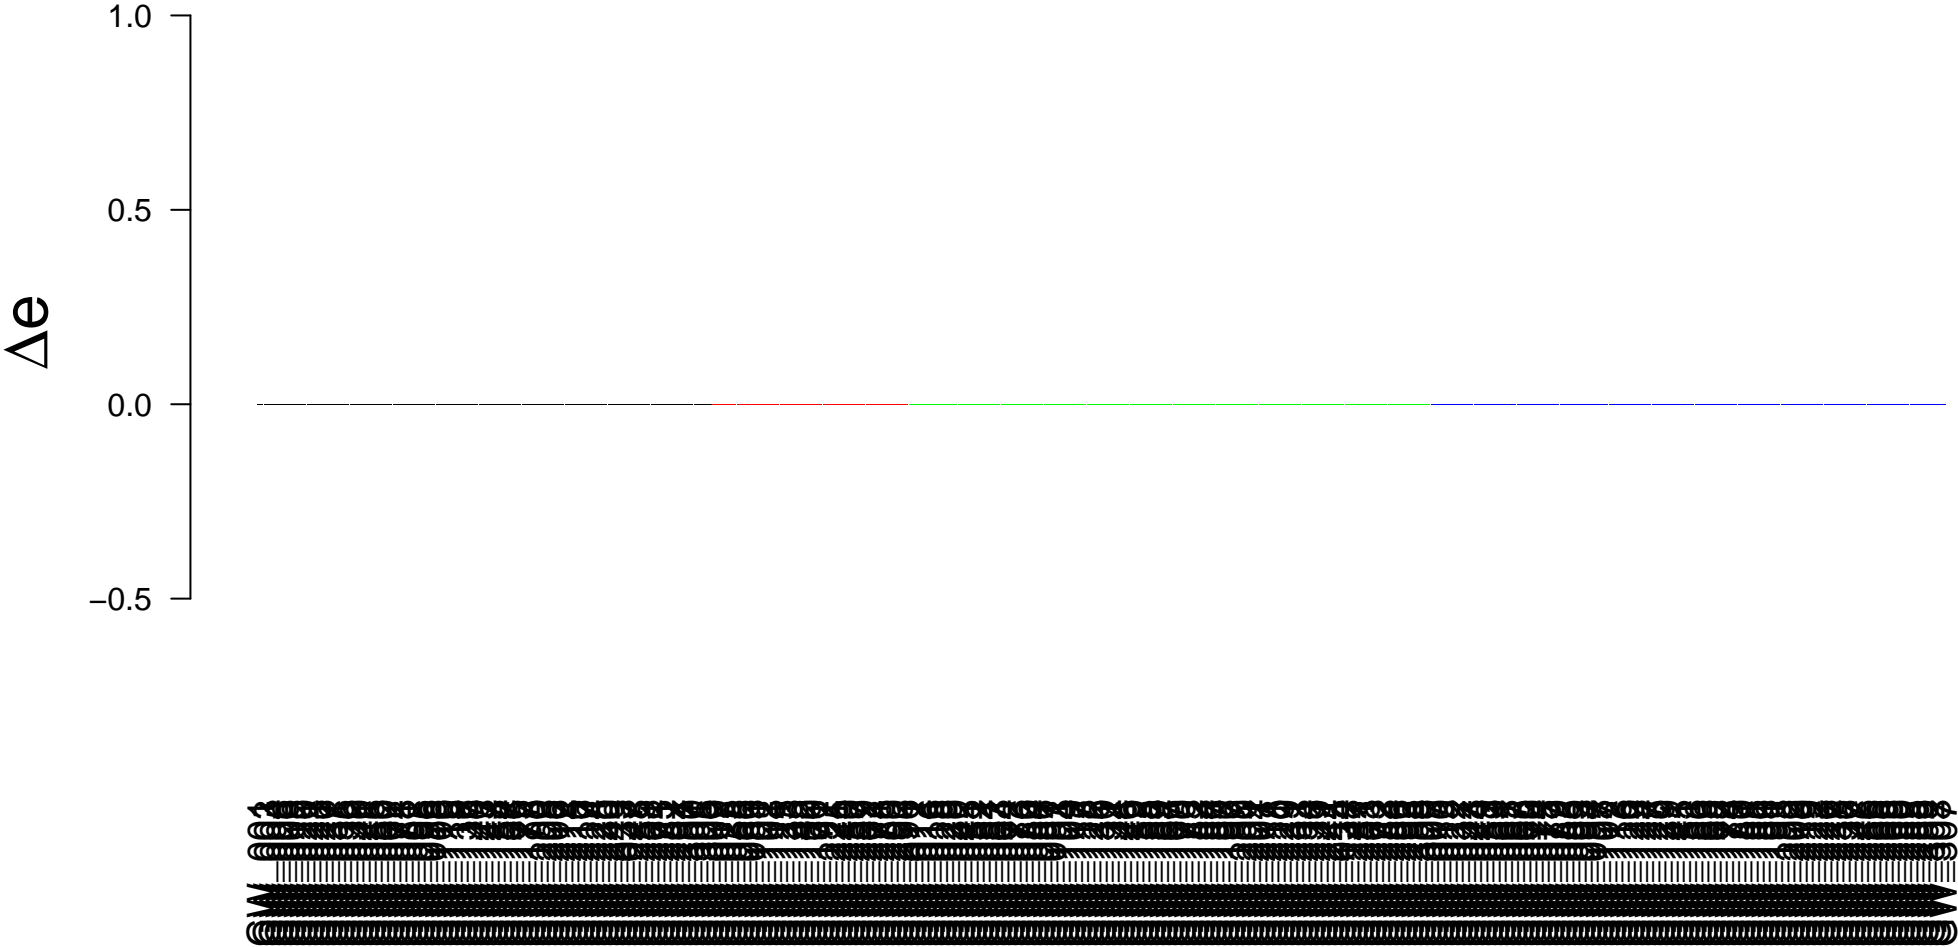

Expression of G-protein coupled receptor signaling pathway, coupled to cyclic nucleotide second messenger in Spot C

Expression of G-protein coupled receptor signaling pathway, coupled to cyclic nucleotide second messenger in Spot D

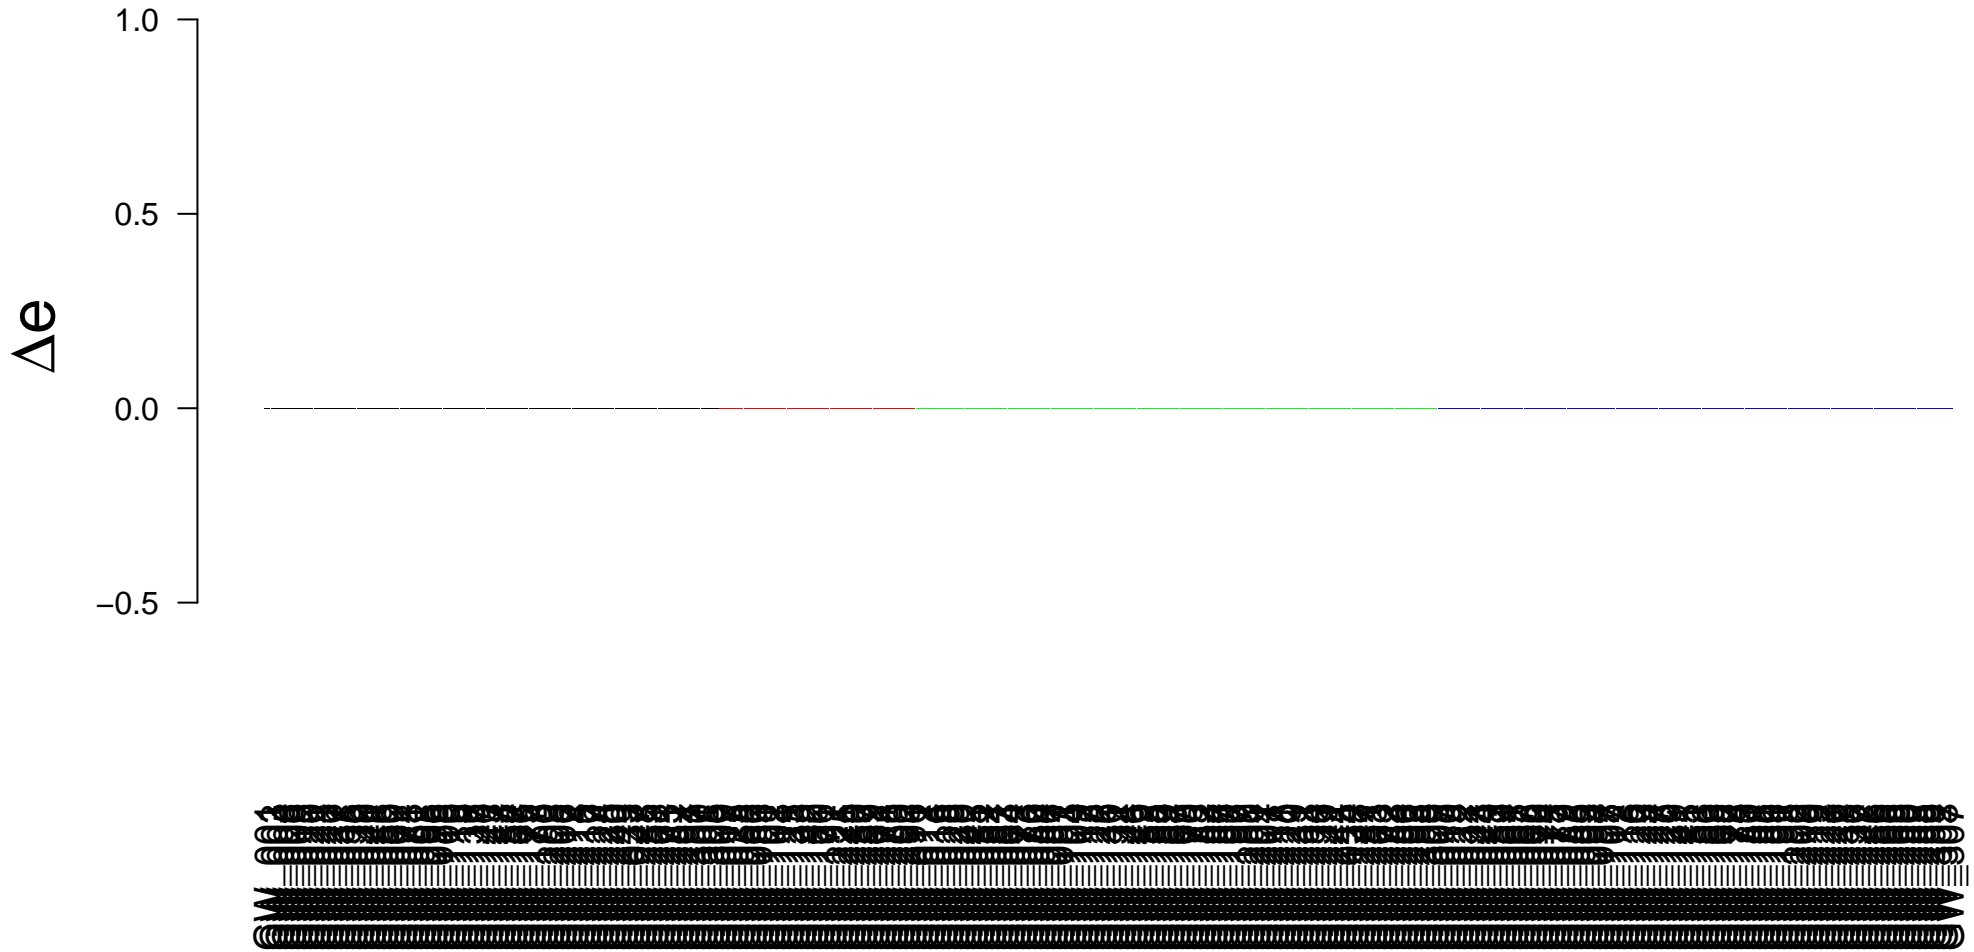

Expression of G-protein coupled receptor signaling pathway, coupled to cyclic nucleotide second messenger in Spot E

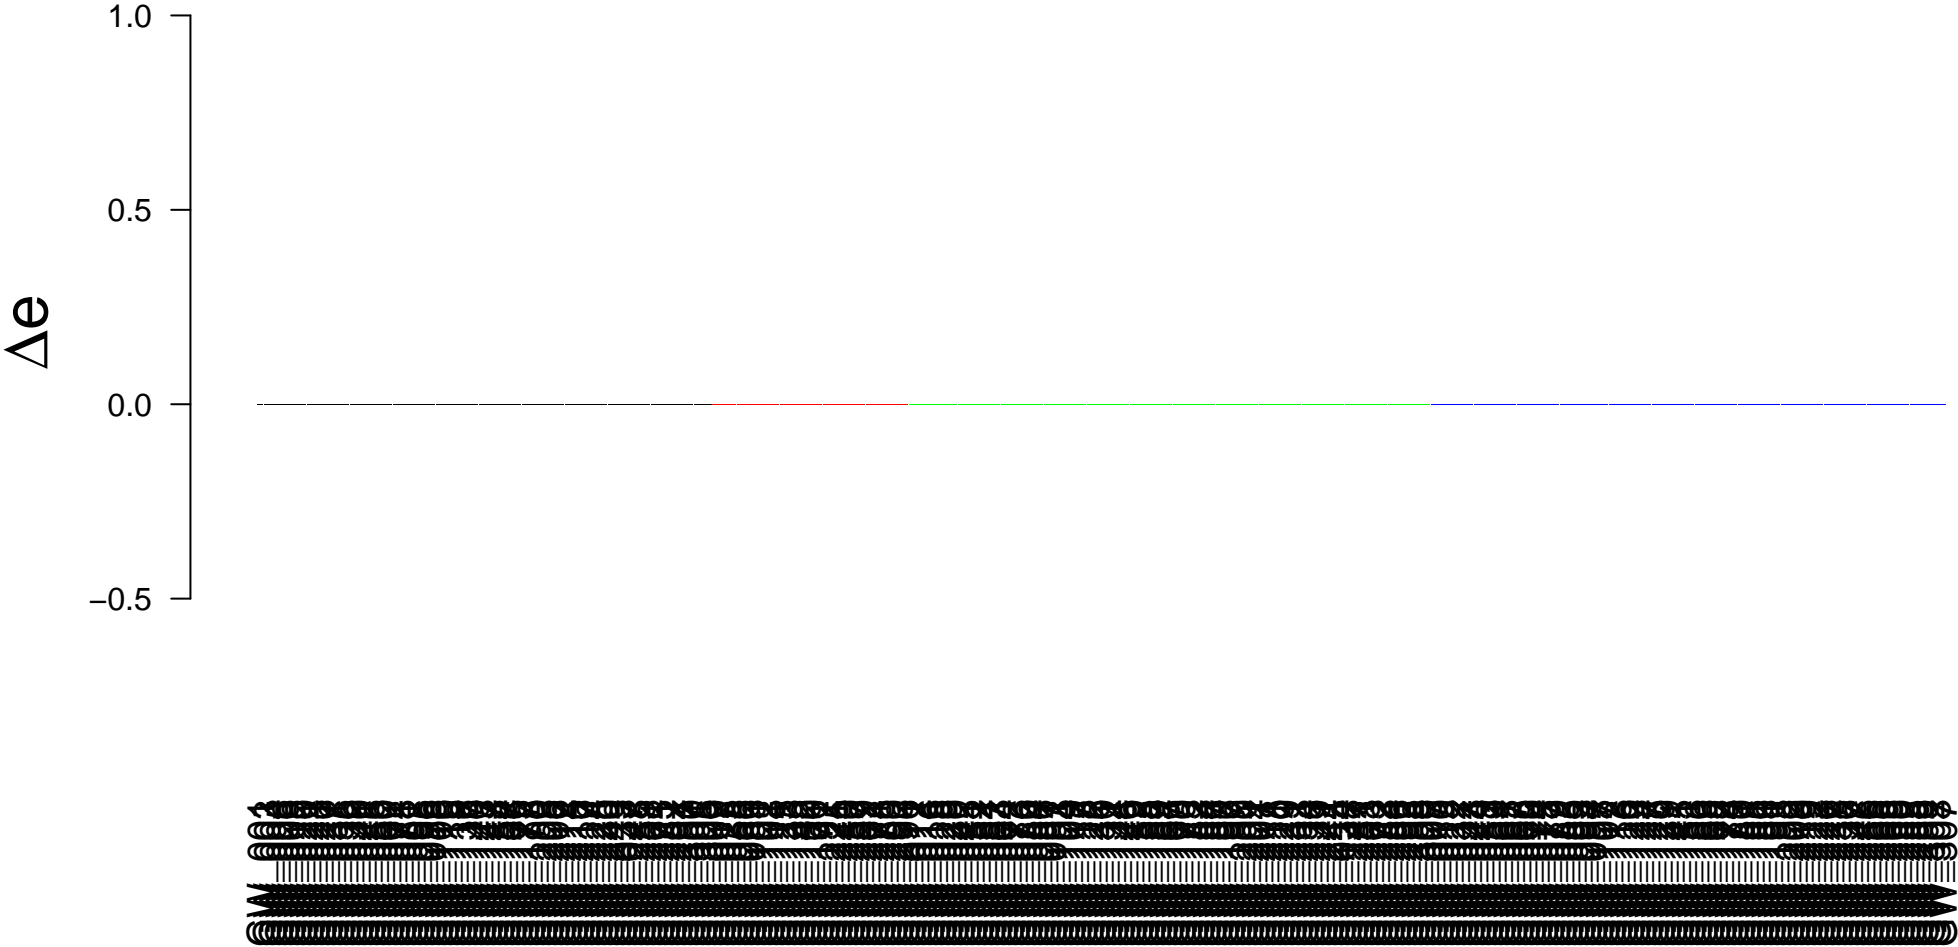

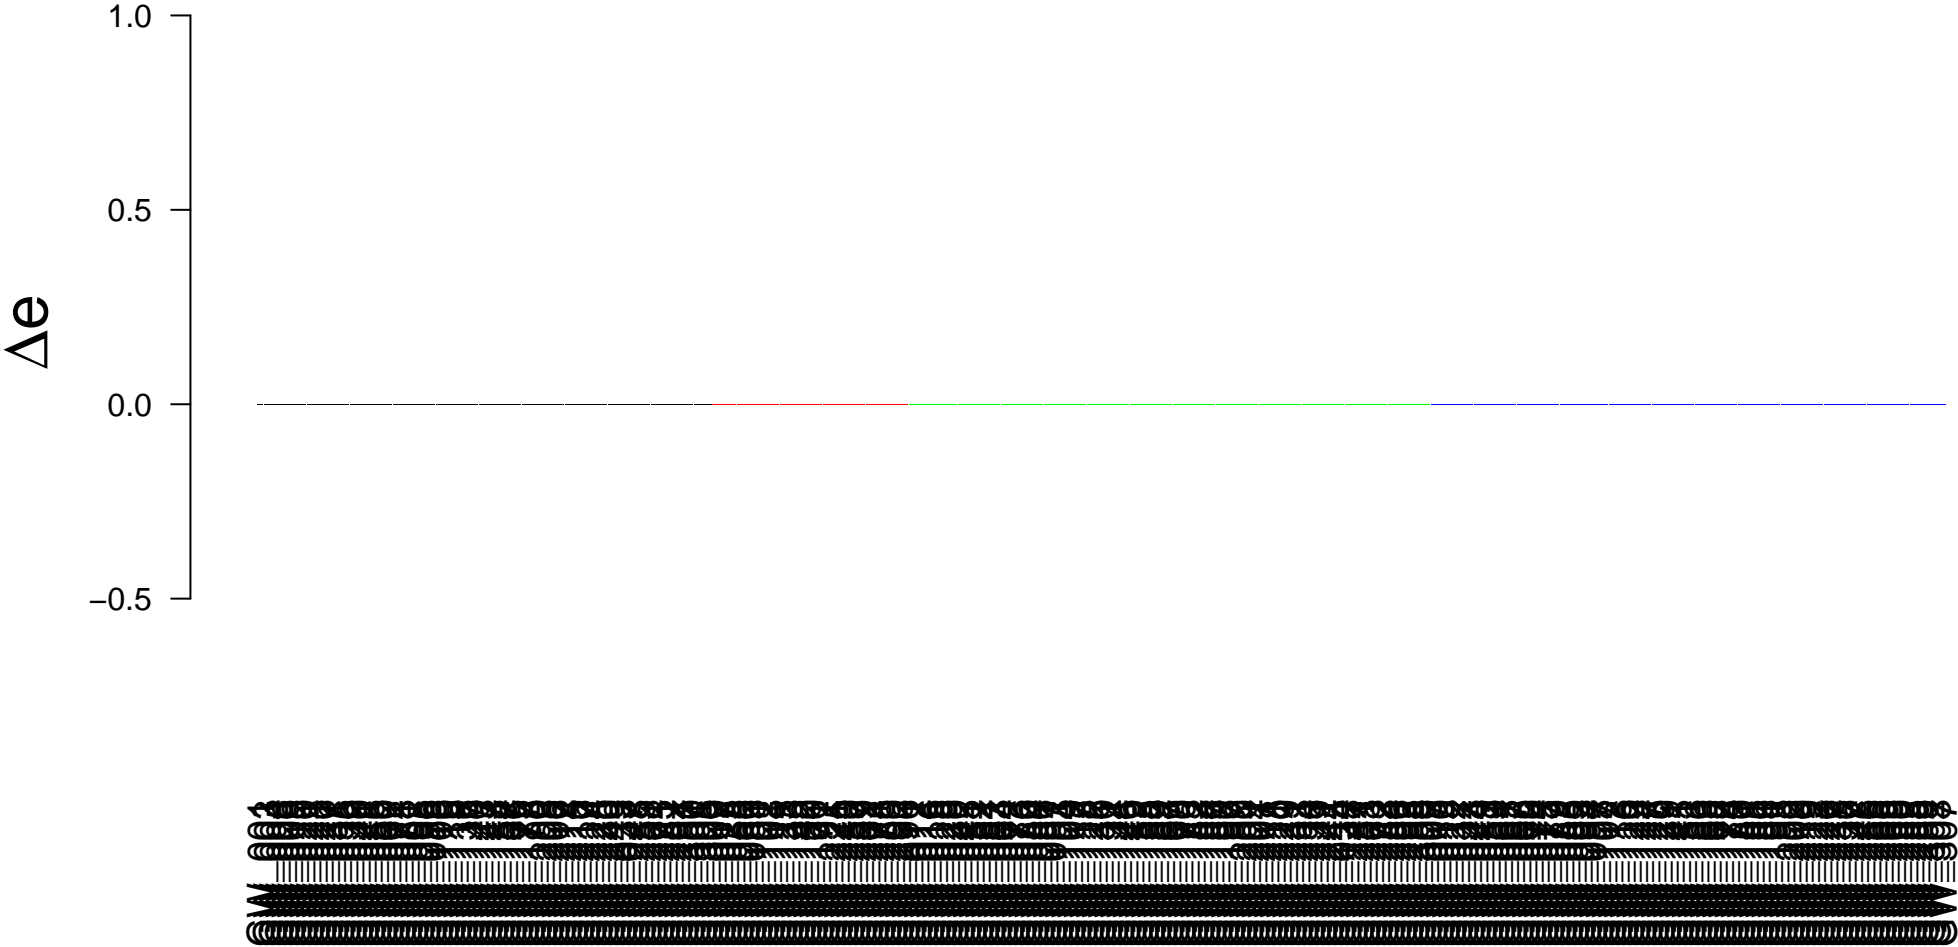

Expression of G-protein coupled receptor signaling pathway, coupled to cyclic nucleotide second messenger in Spot F

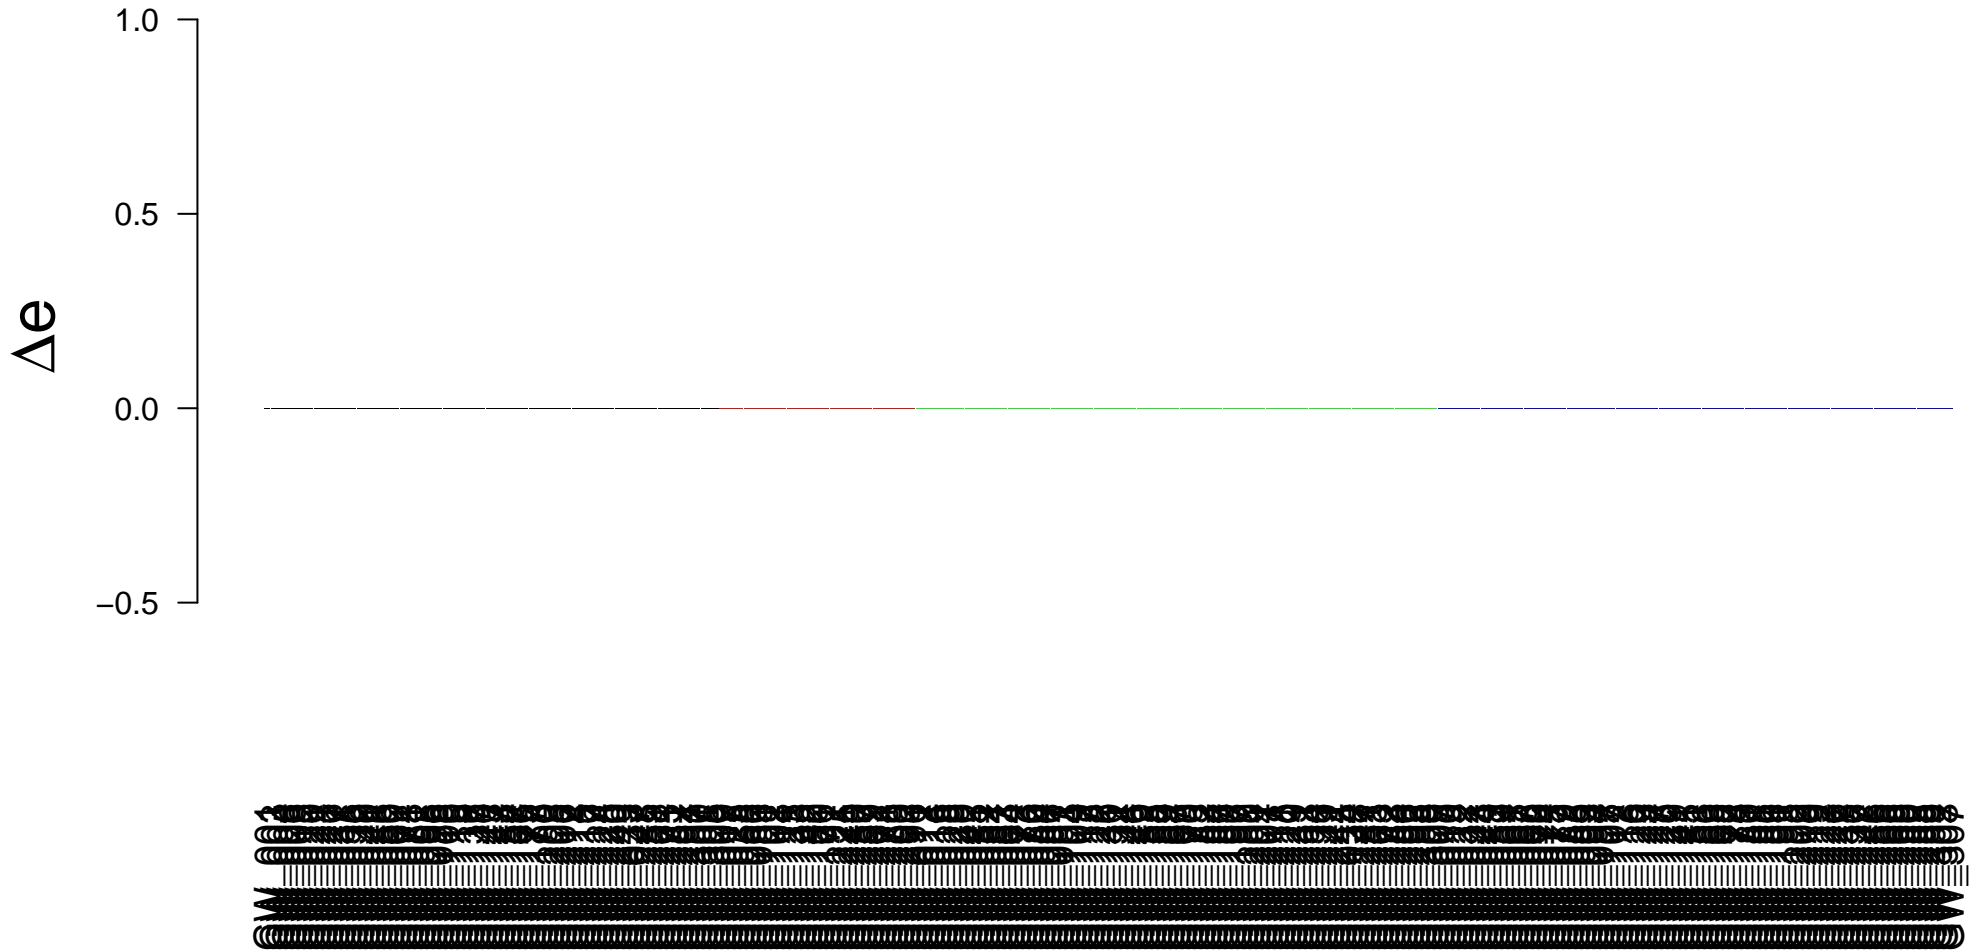

Expression of G-protein coupled receptor signaling pathway, coupled to cyclic nucleotide second messenger in Spot G

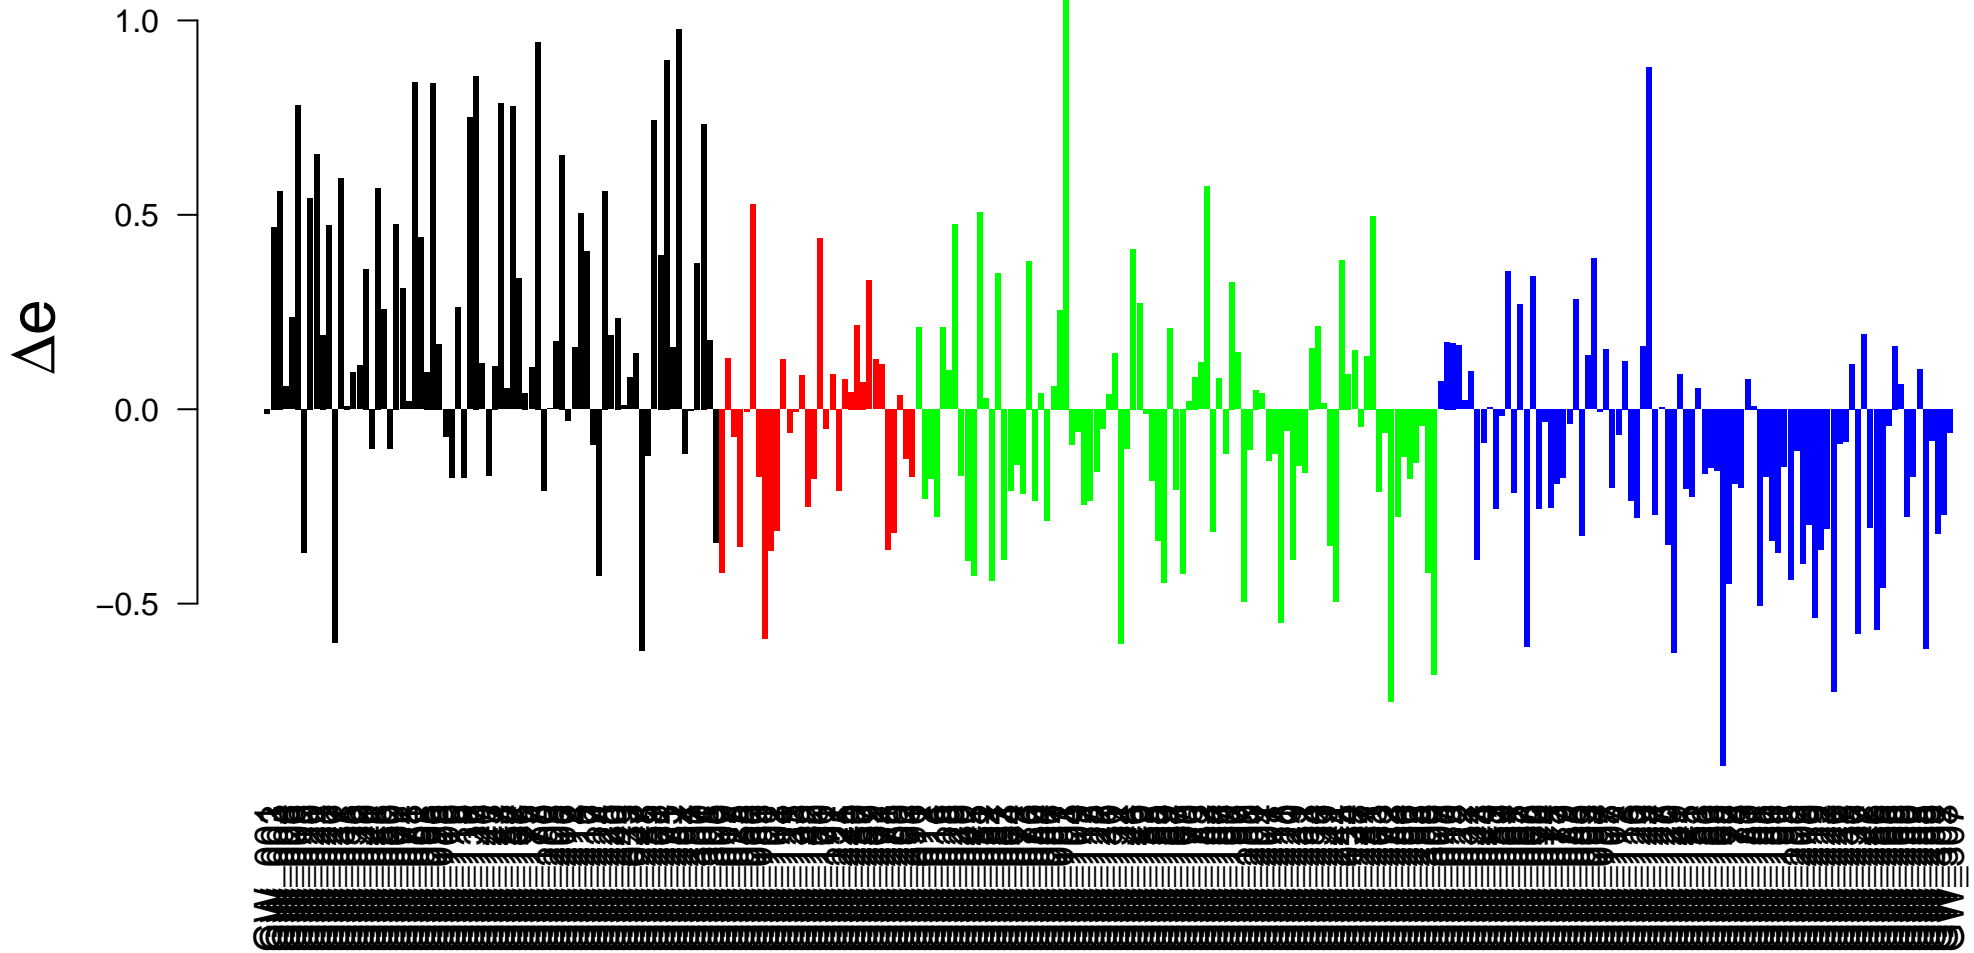

Expression of G-protein coupled receptor signaling pathway, coupled to cyclic nucleotide second messenger in Spot H

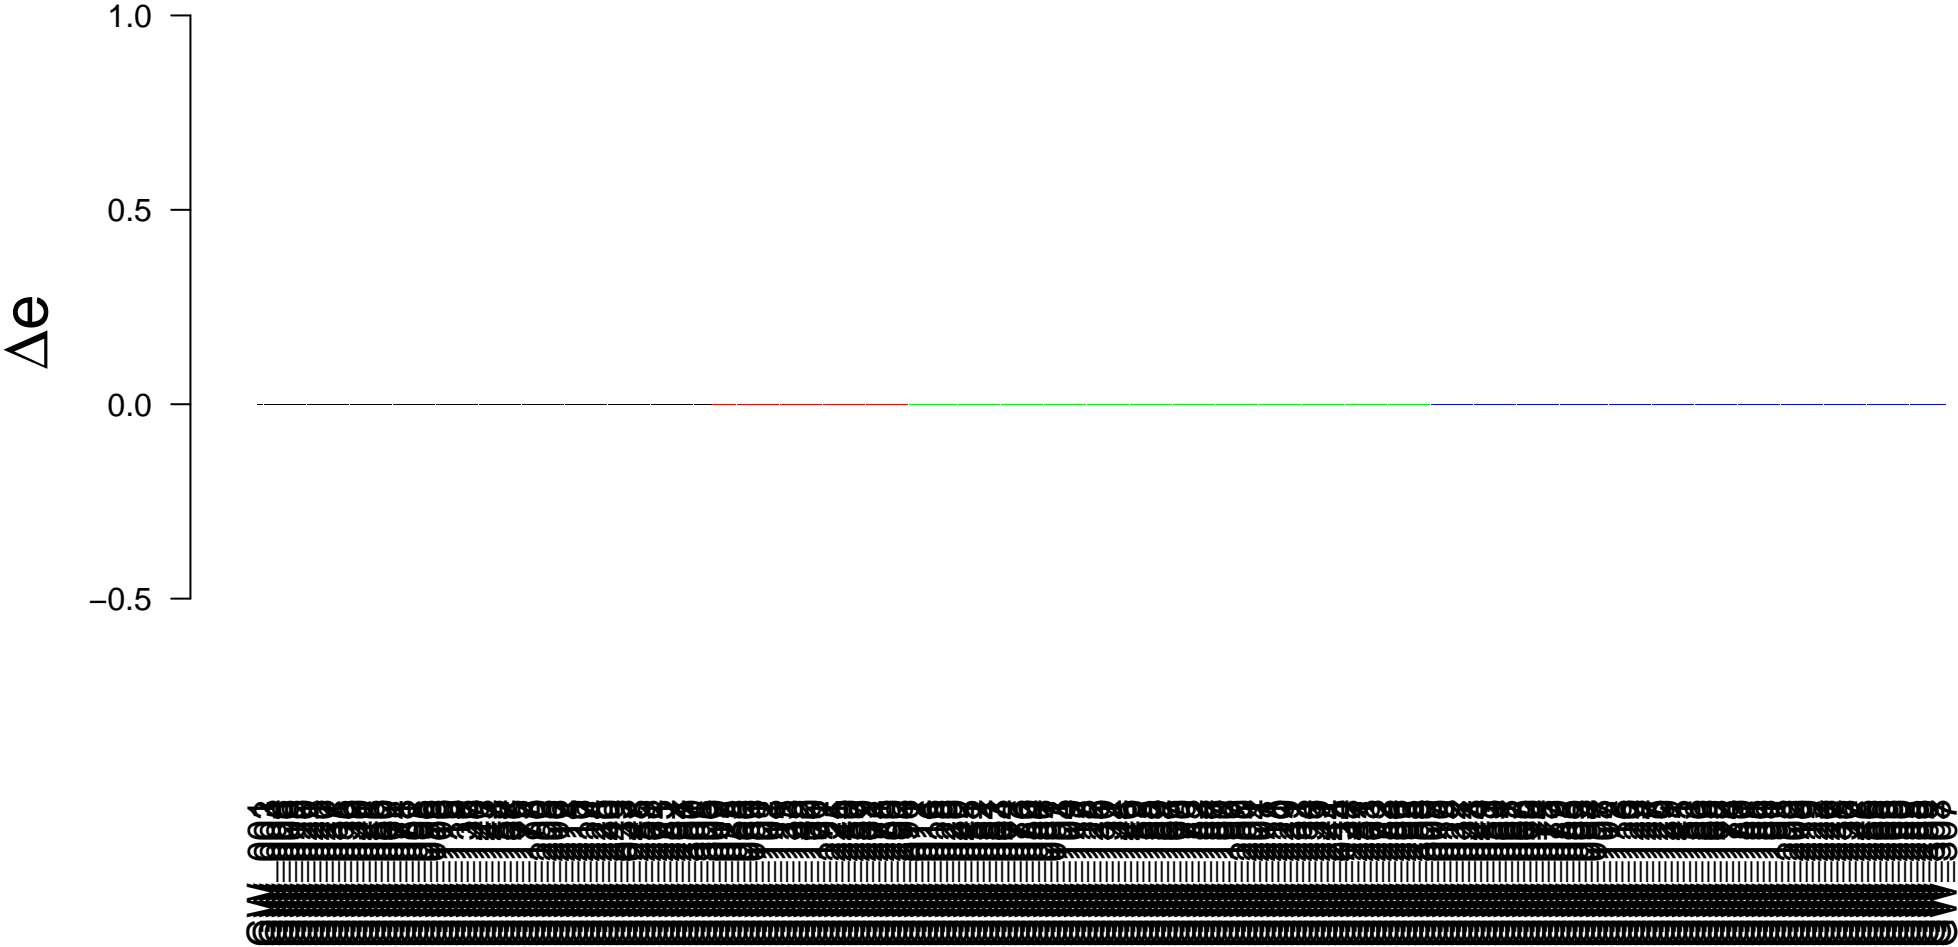

Expression of G-protein coupled receptor signaling pathway, coupled to cyclic nucleotide second messenger in Spot I

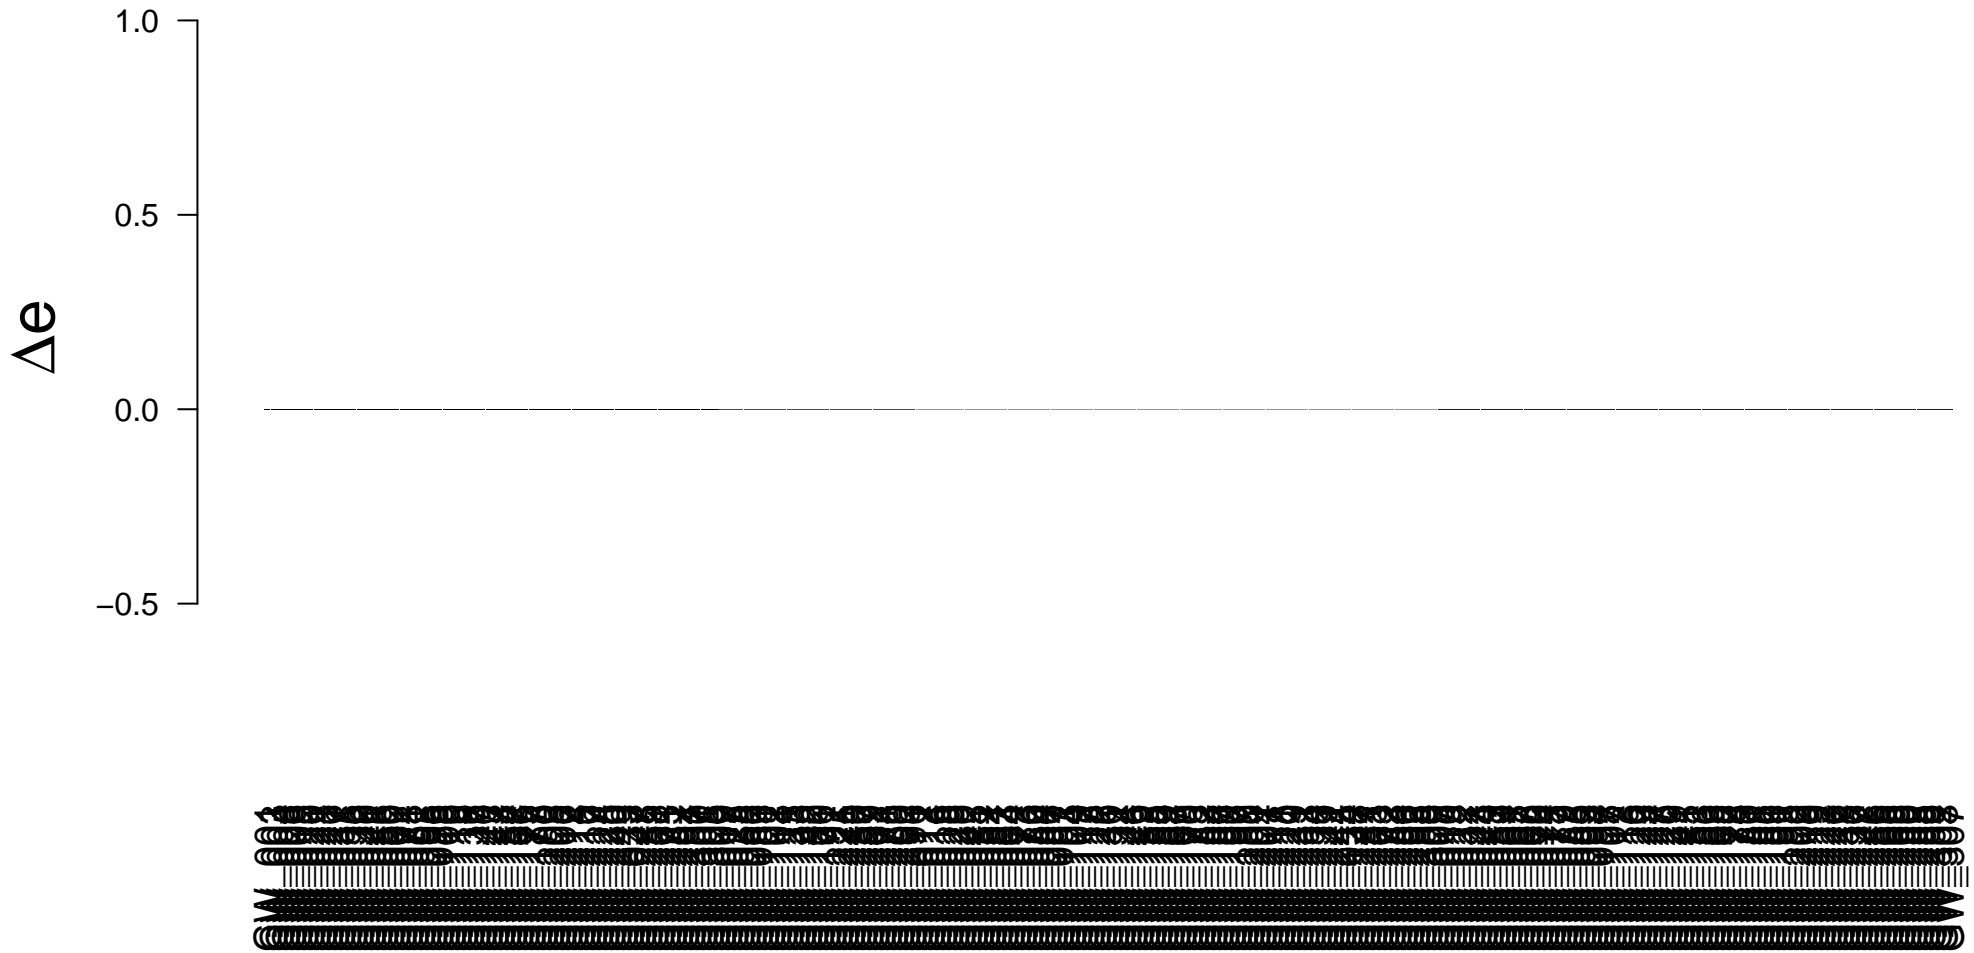

# Expression of G-protein coupled receptor signaling pathway, coupled to cyclic nucleotide second messenger in Spot J

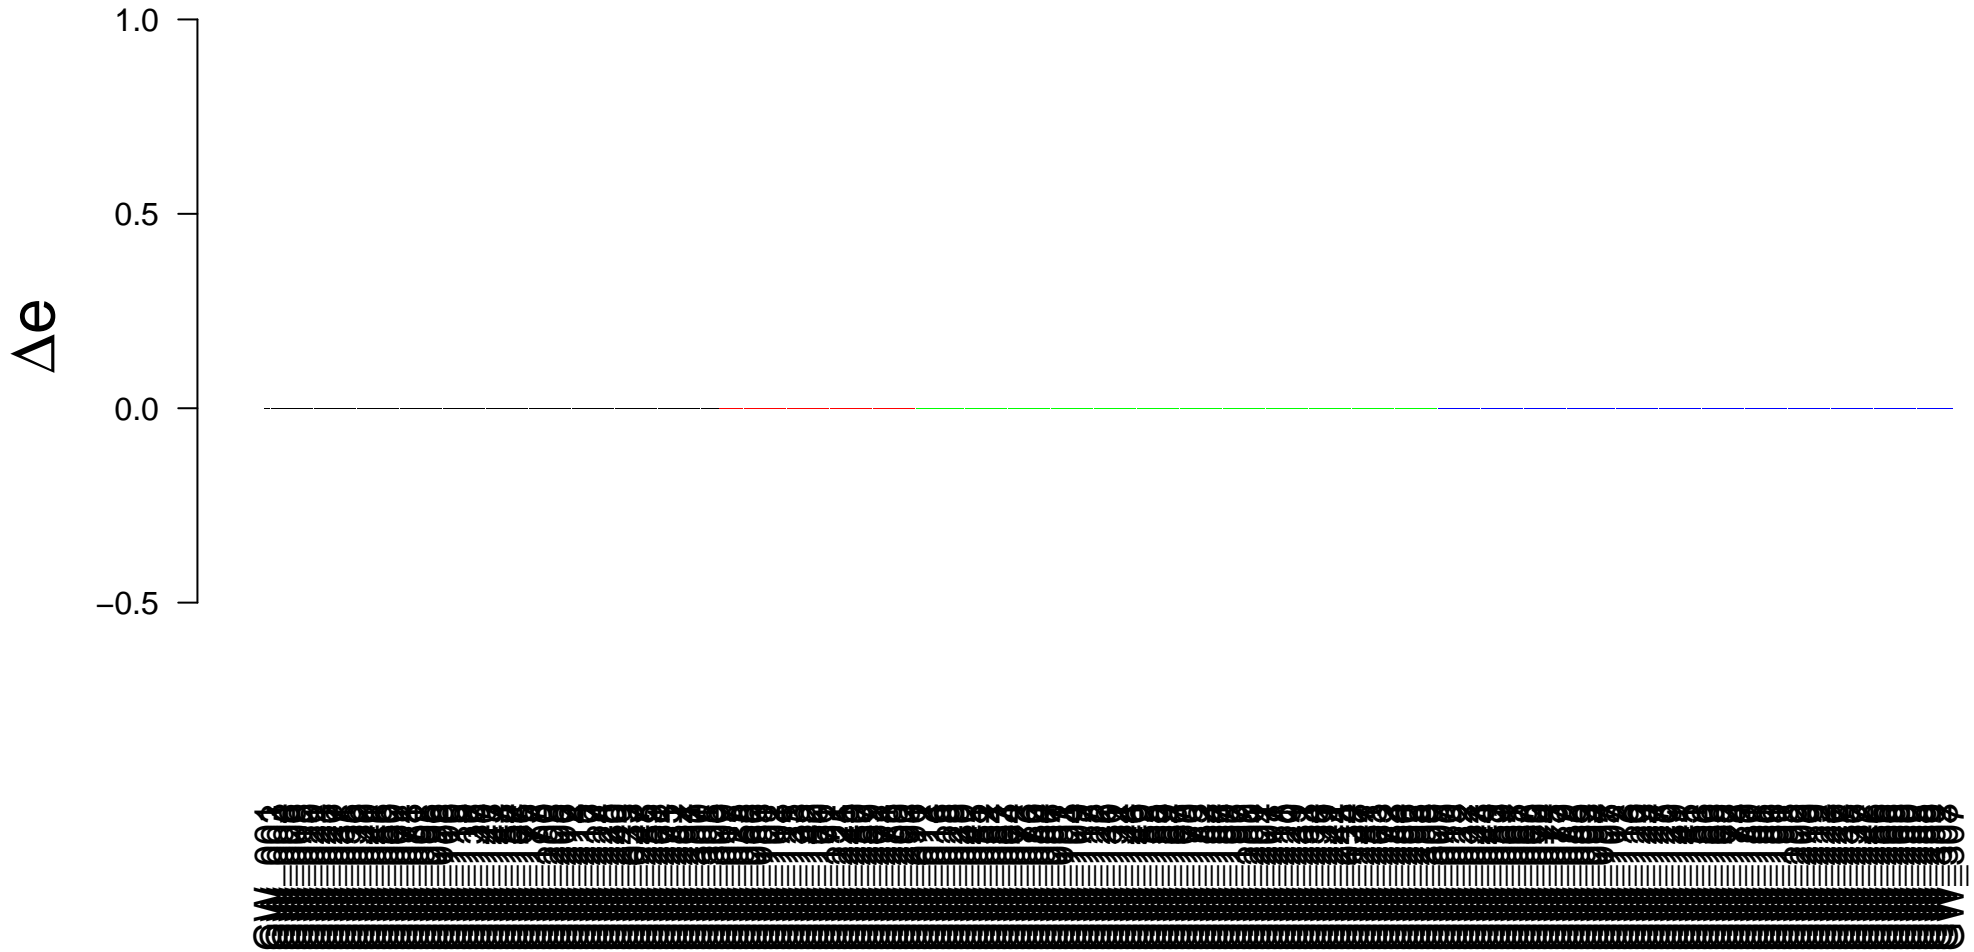

Expression of G-protein coupled receptor signaling pathway, coupled to cyclic nucleotide second messenger in Spot K

Expression of G-protein coupled receptor signaling pathway, coupled to cyclic nucleotide second messenger in Spot L

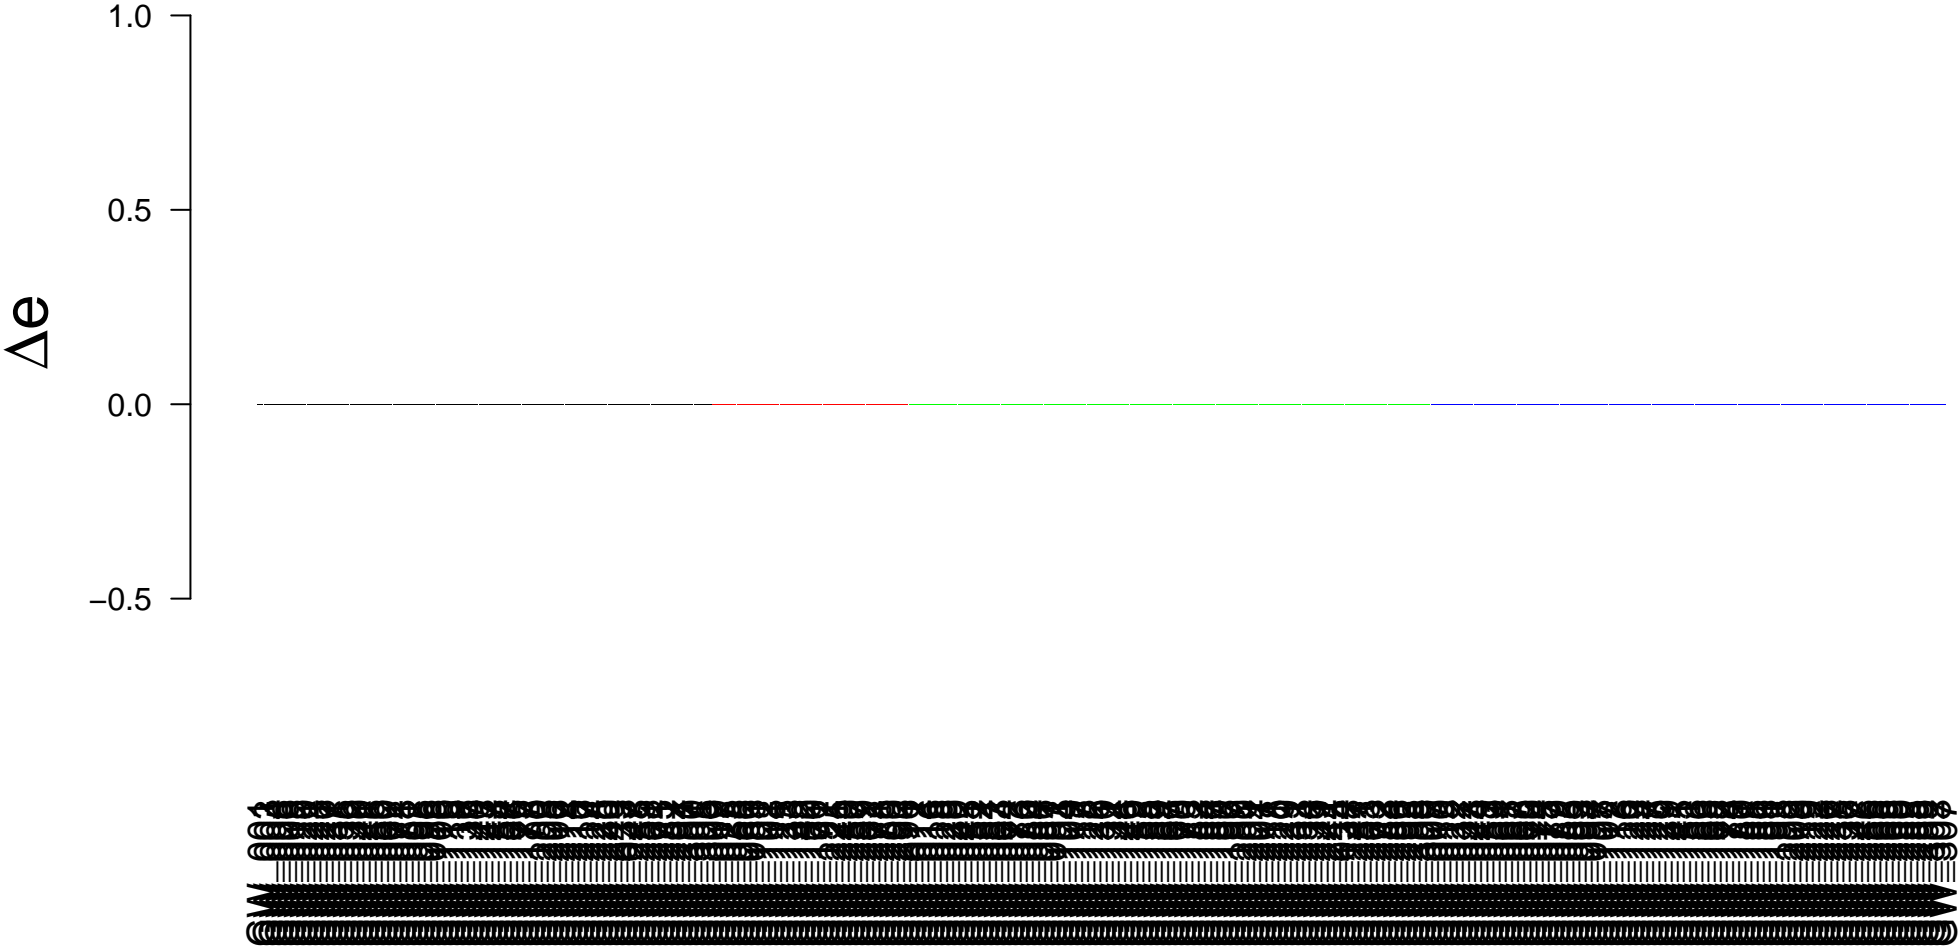

# Expression of G-protein coupled receptor signaling pathway, coupled to cyclic nucleotide second messenger in Spot M

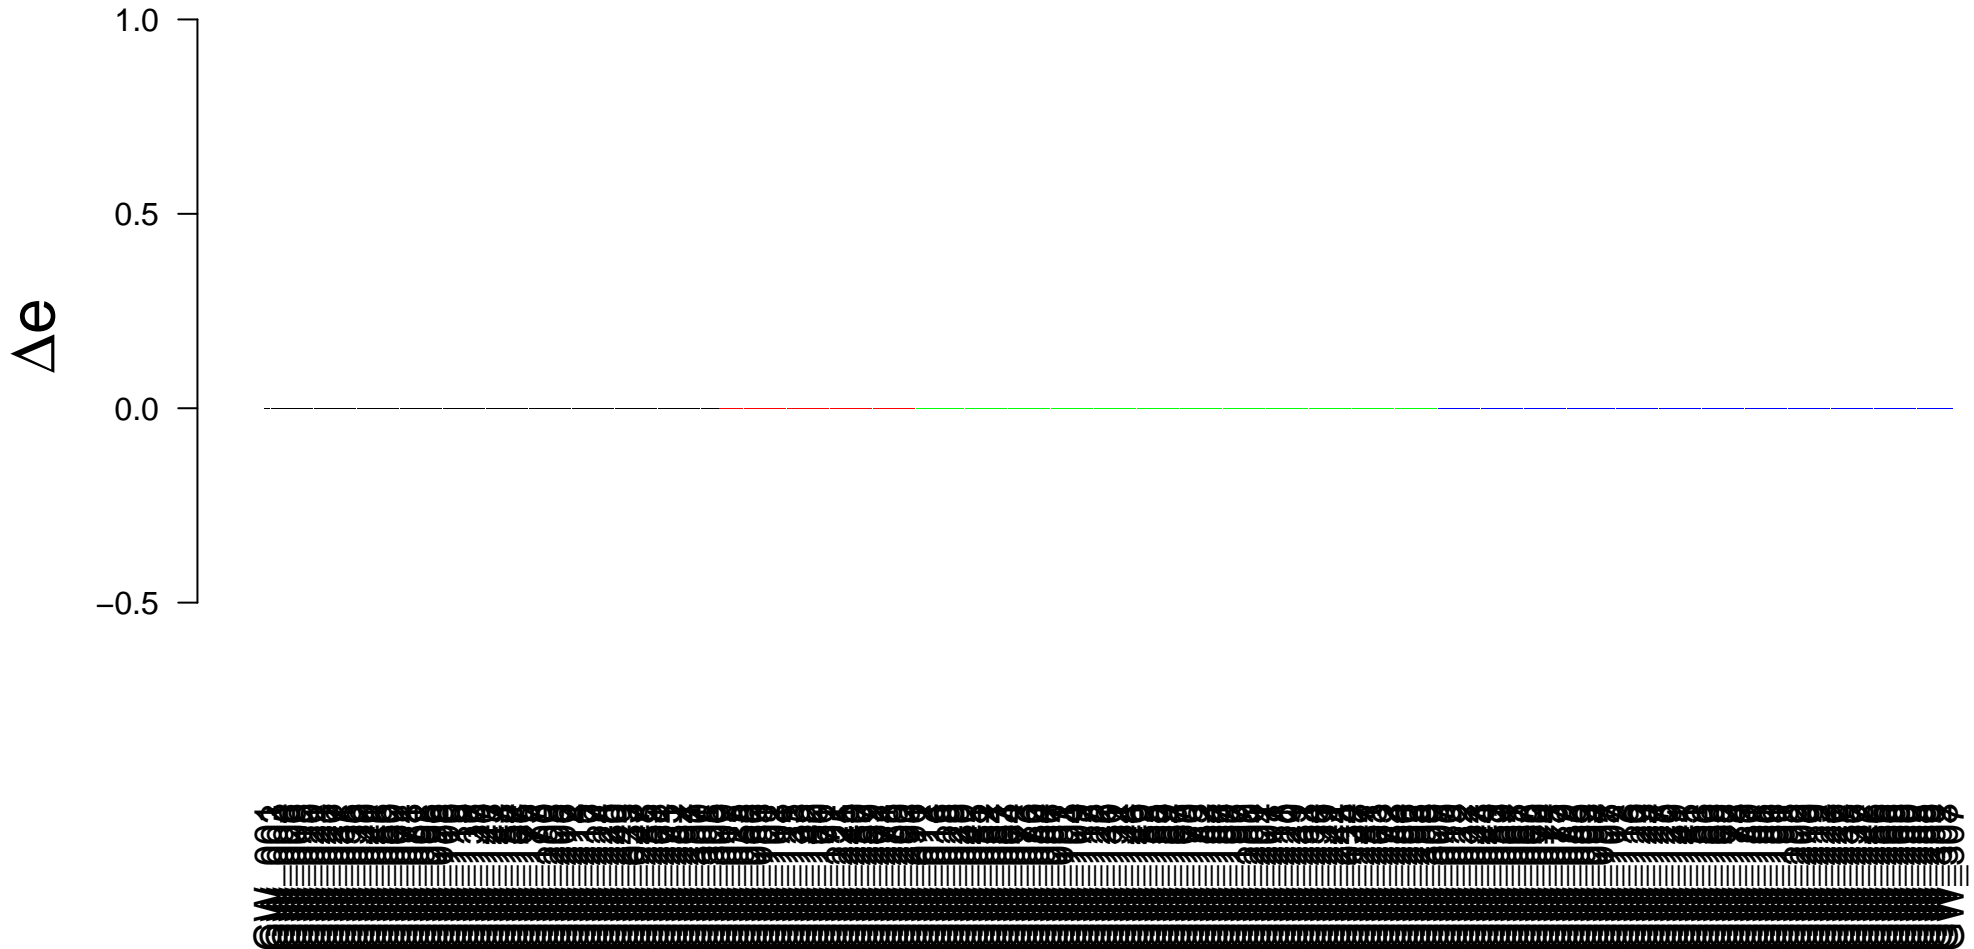

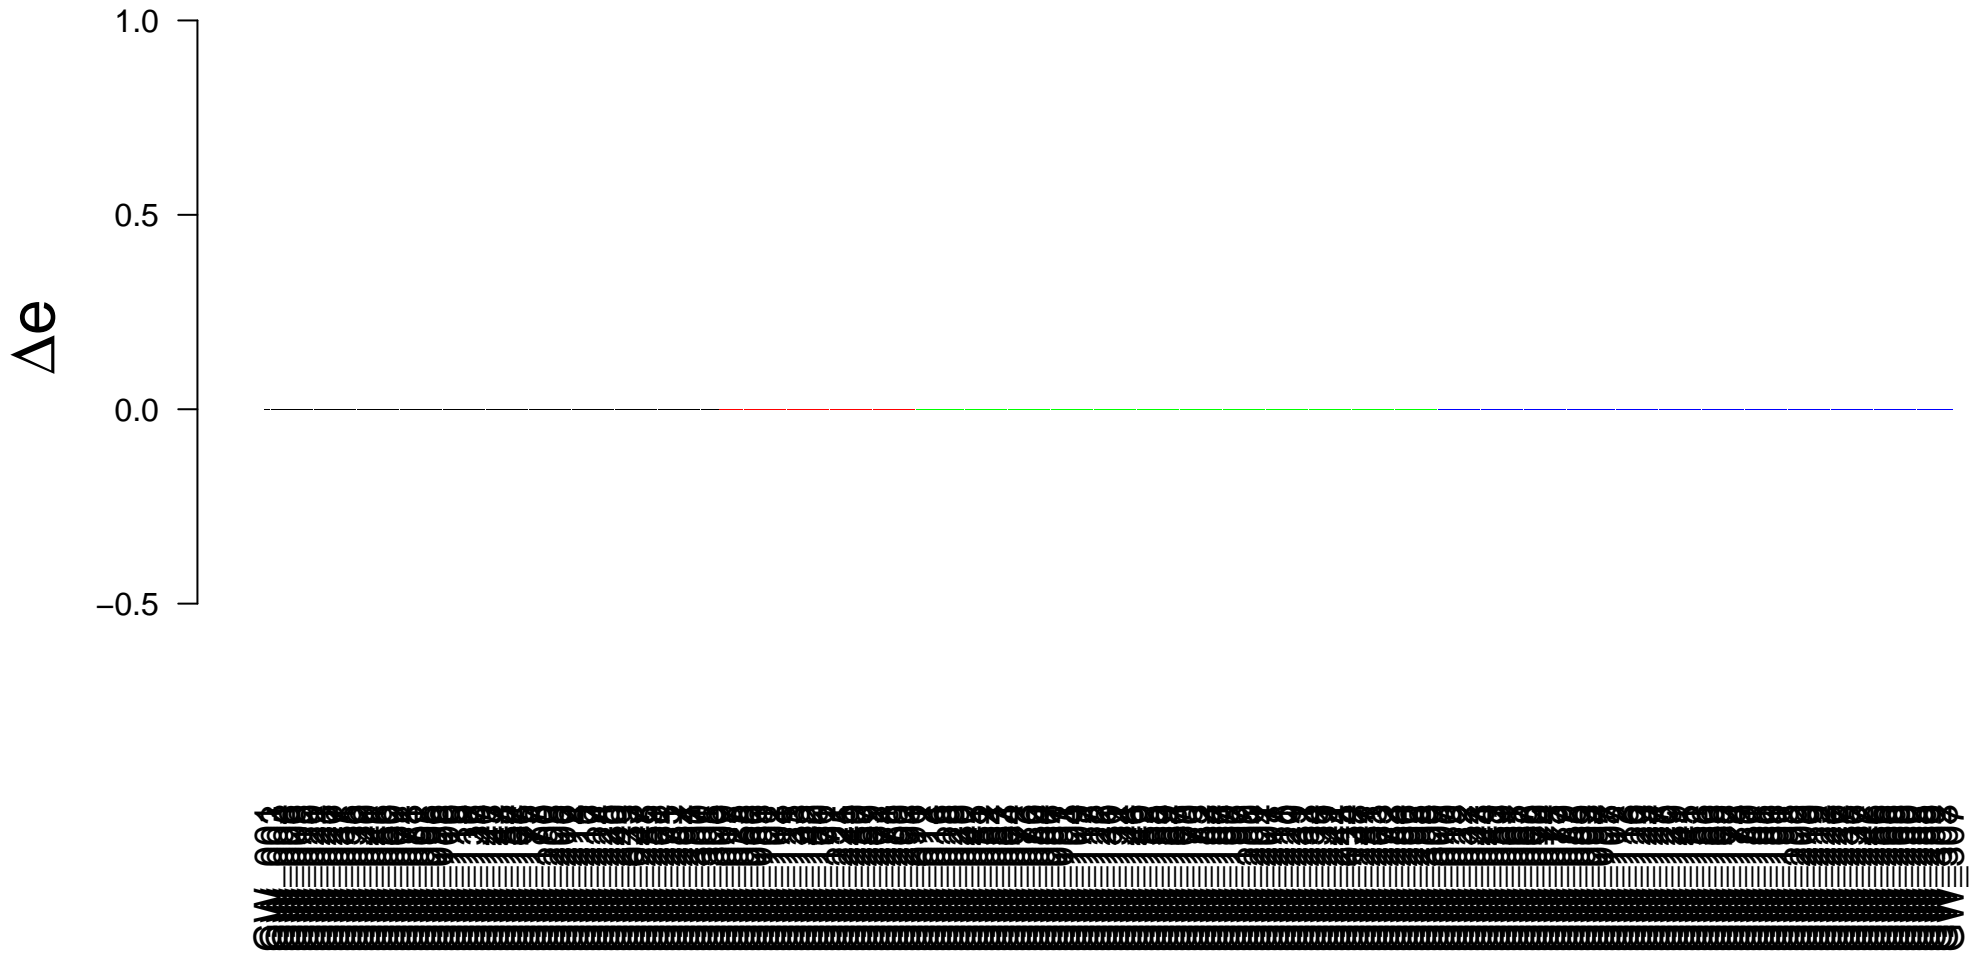

Expression of G-protein coupled receptor signaling pathway, coupled to cyclic nucleotide second messenger in Spot N

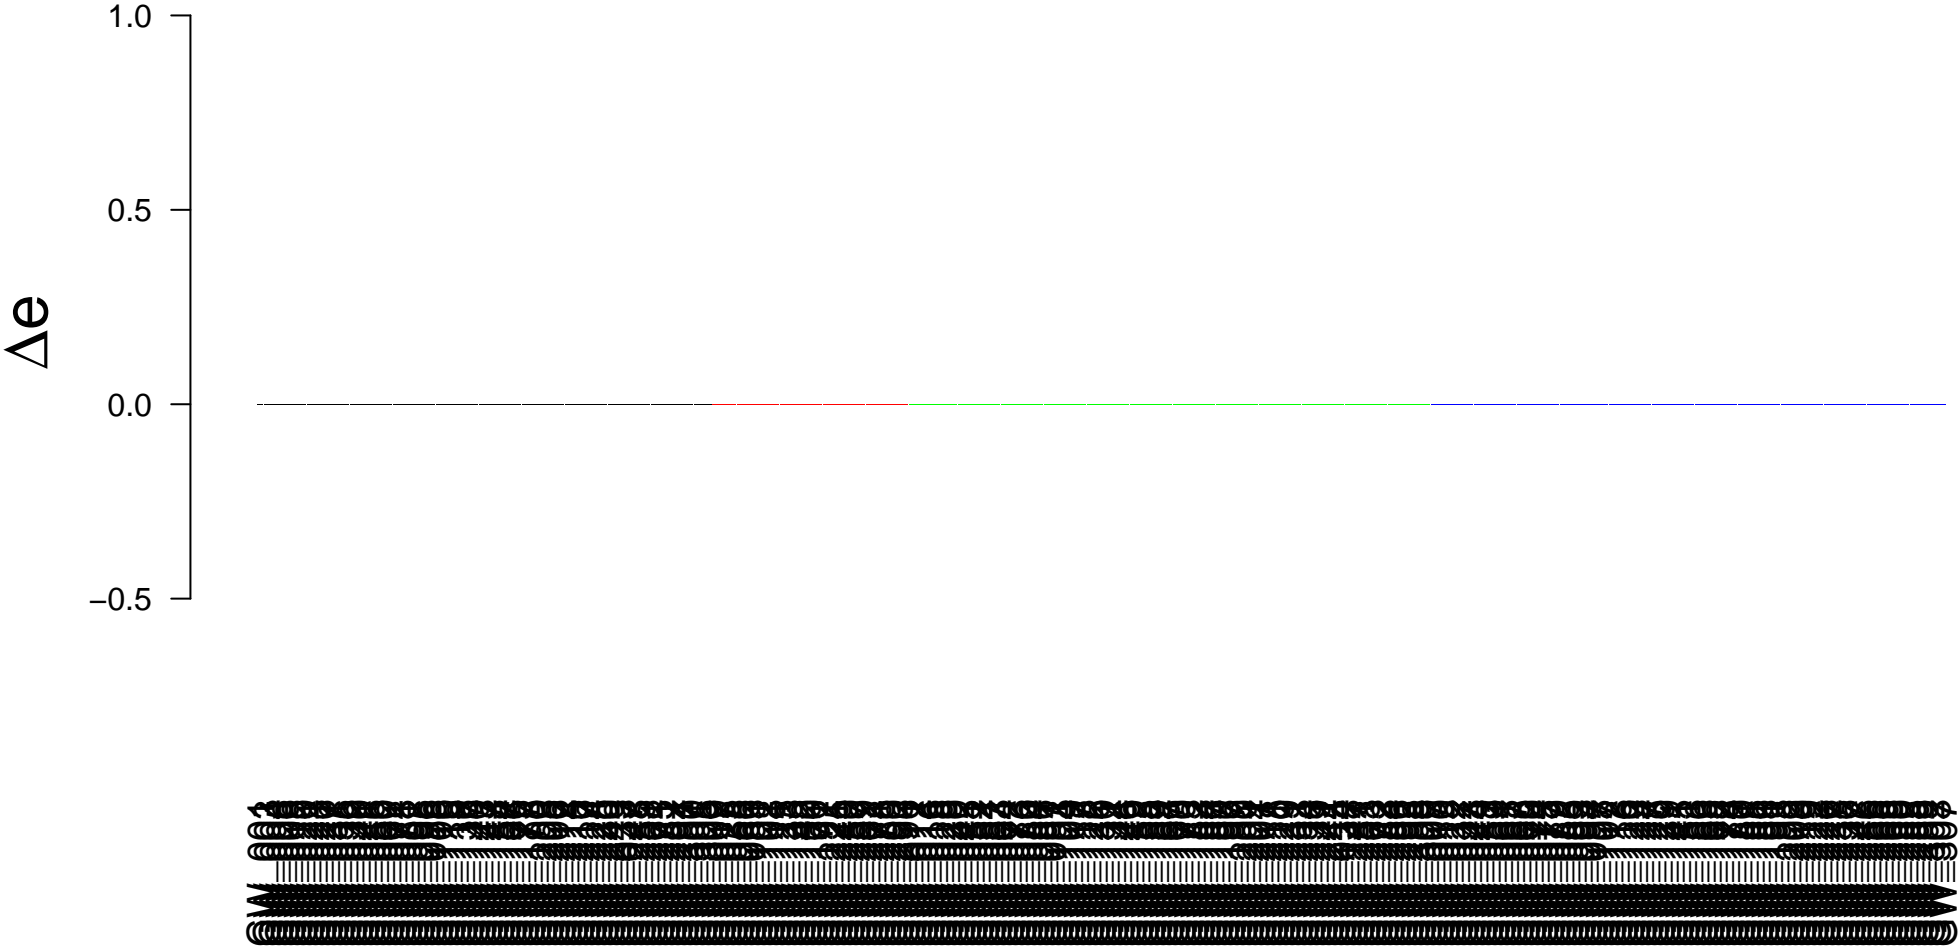

# Expression of G-protein coupled receptor signaling pathway, coupled to cyclic nucleotide second messenger in Spot O

Expression of G-protein coupled receptor signaling pathway, coupled to cyclic nucleotide second messenger in Spot P

Expression of G-protein coupled receptor signaling pathway, coupled to cyclic nucleotide second messenger in Spot Q

Expression of G-protein coupled receptor signaling pathway, coupled to cyclic nucleotide second messenger in Spot R
