

NAD-dependent histone deacetylase activity (H3-K14 specific)

# NAD-dependent histone deacetylase activity (H3-K14 specific)

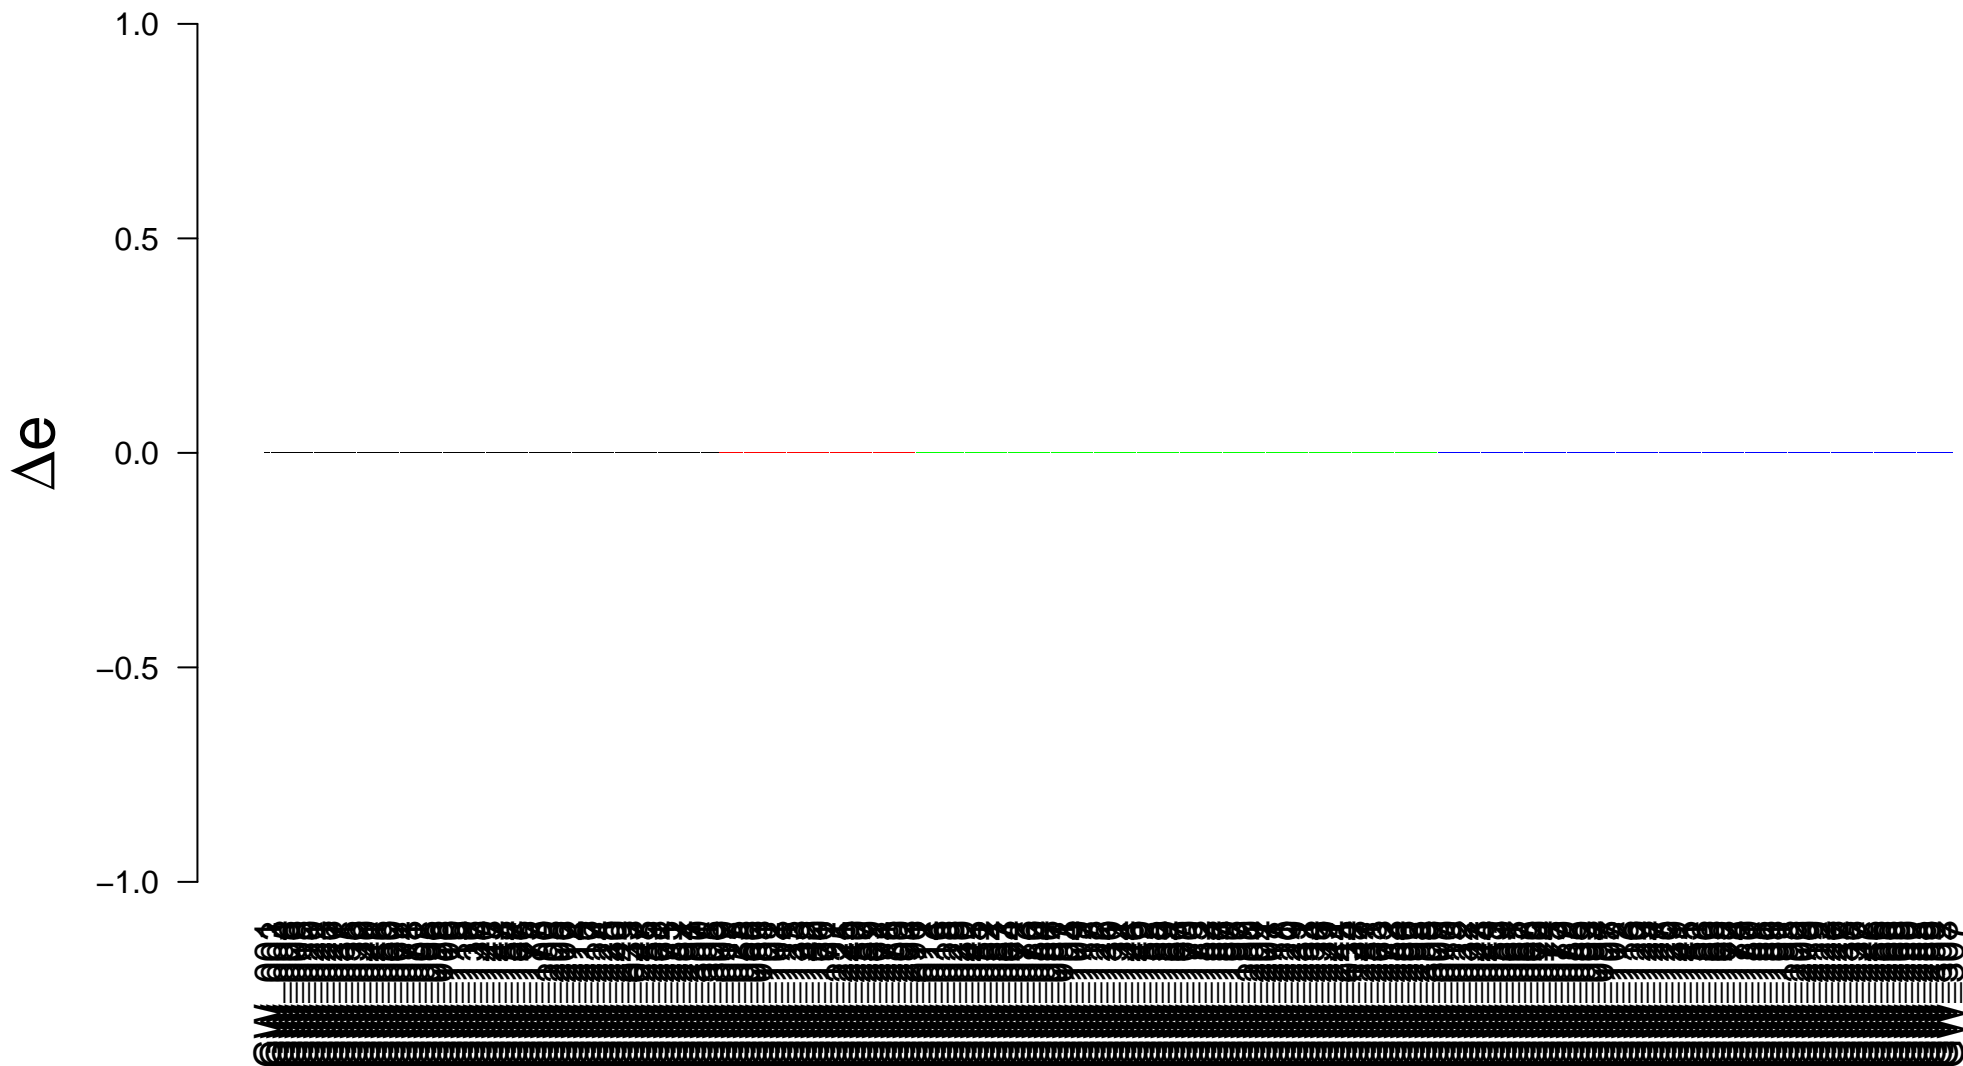

Enrichment in spots: NAD-dependent histone deacetylase activity (H3-K14 specific)

Expression of NAD-dependent histone deacetylase activity (H3-K14 specific) in Spot A

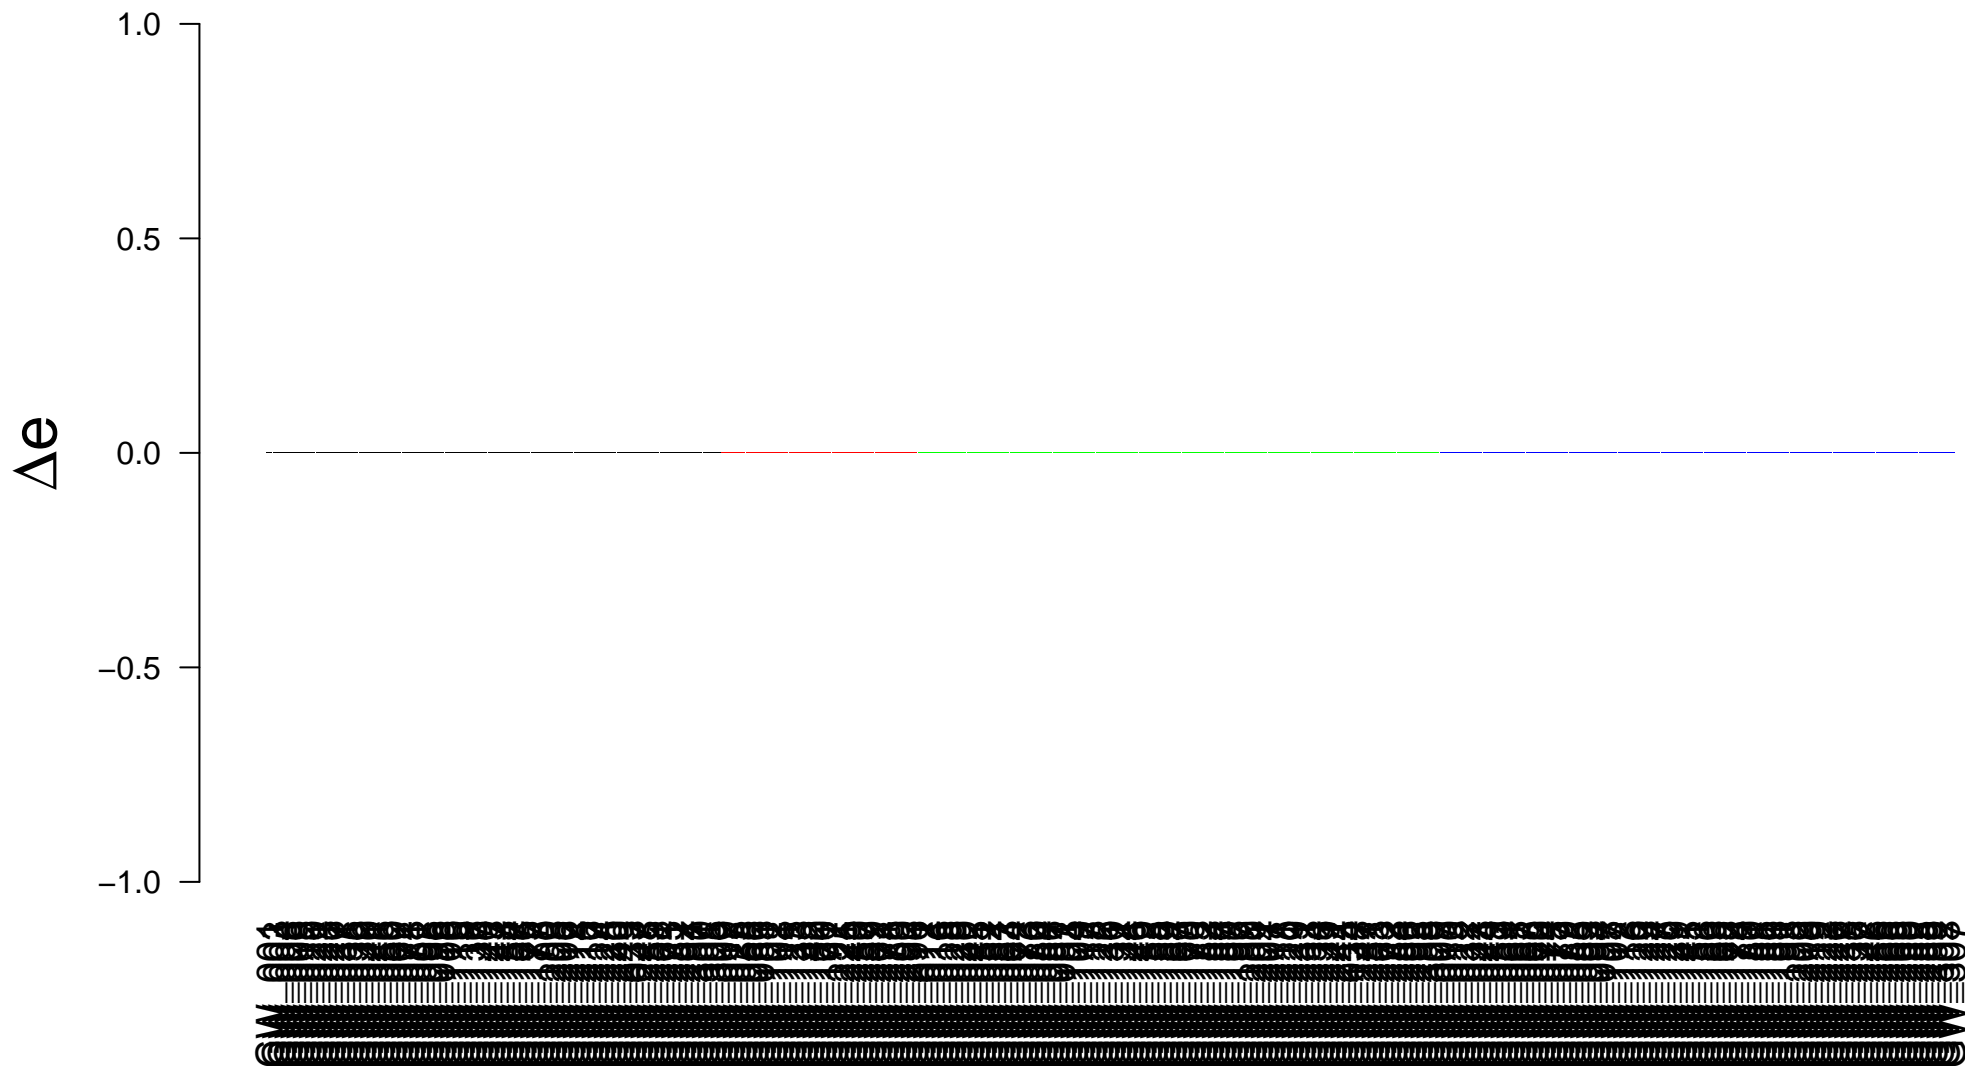

# Expression of NAD-dependent histone deacetylase activity (H3-K14 specific) in Spot B

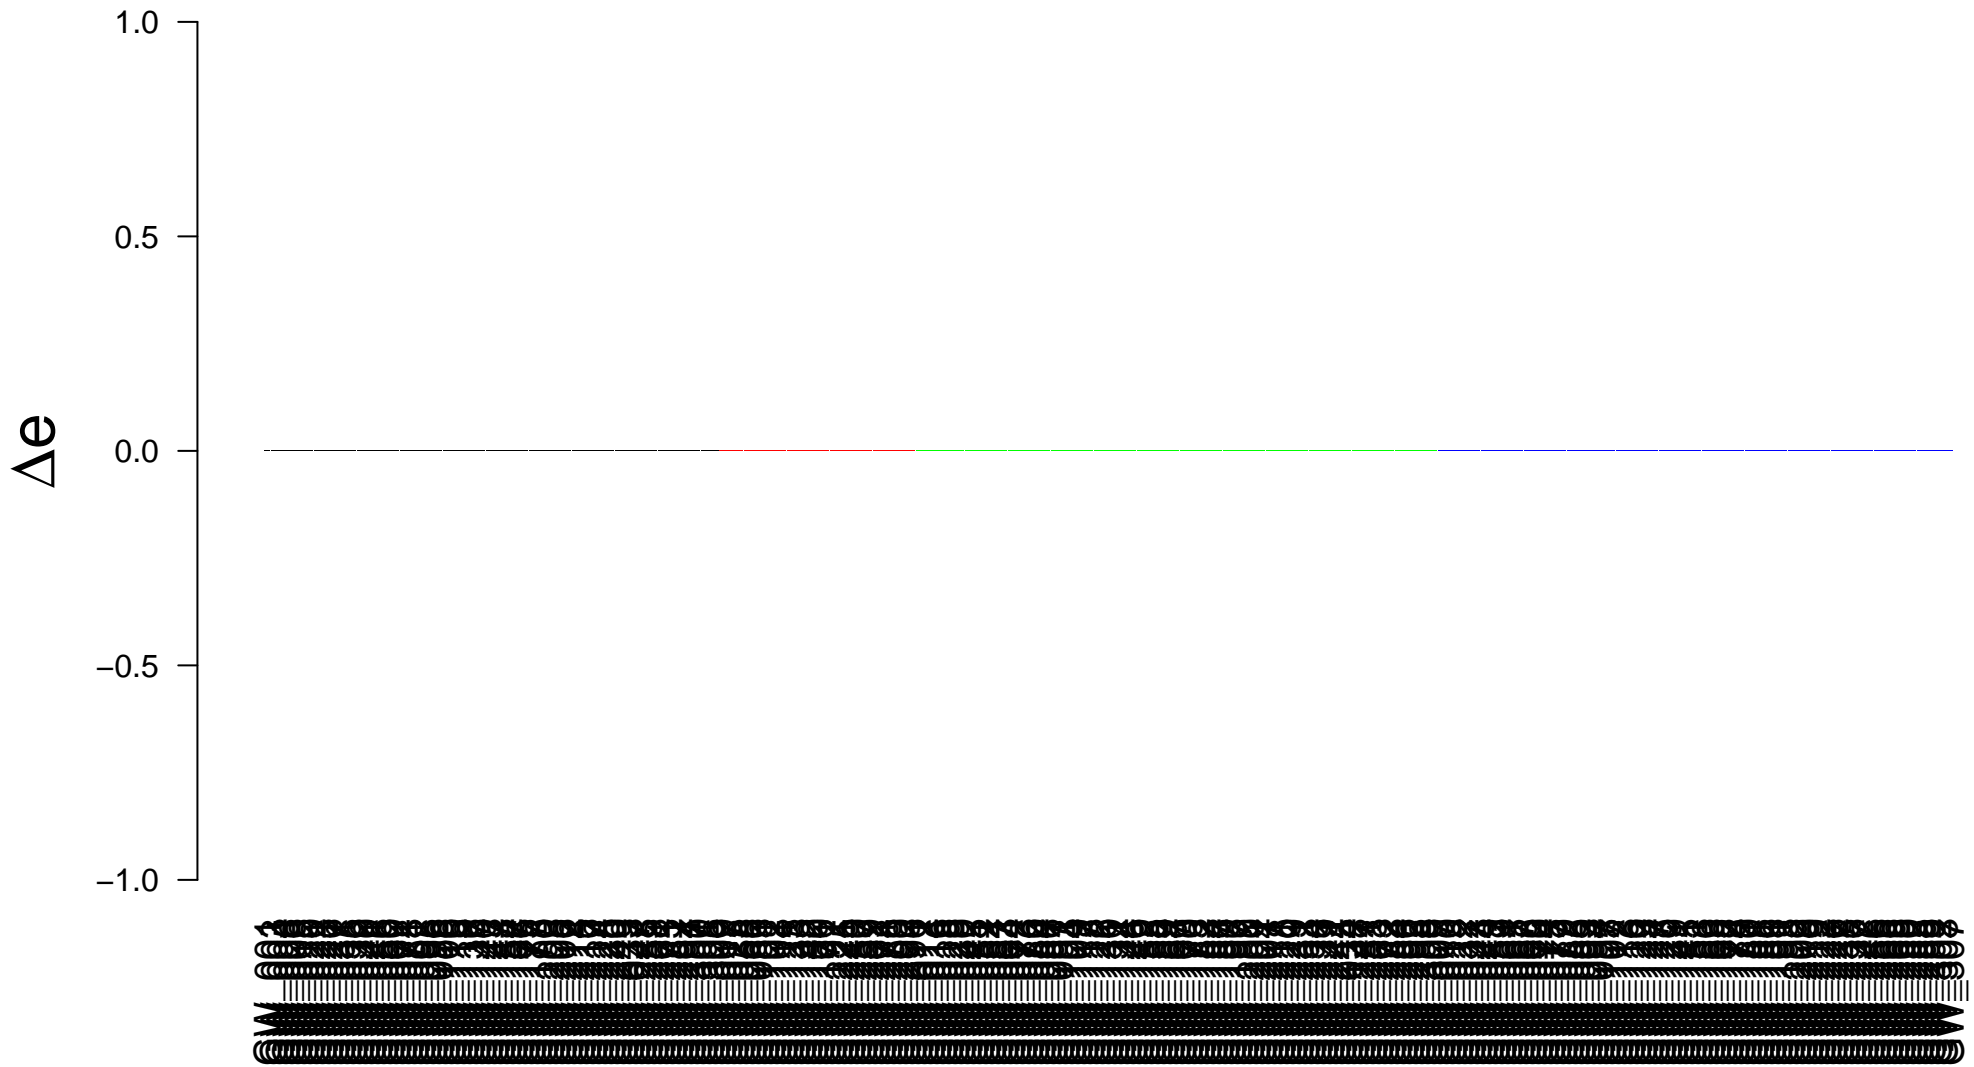

# Expression of NAD-dependent histone deacetylase activity (H3-K14 specific) in Spot C

# Expression of NAD-dependent histone deacetylase activity (H3-K14 specific) in Spot D

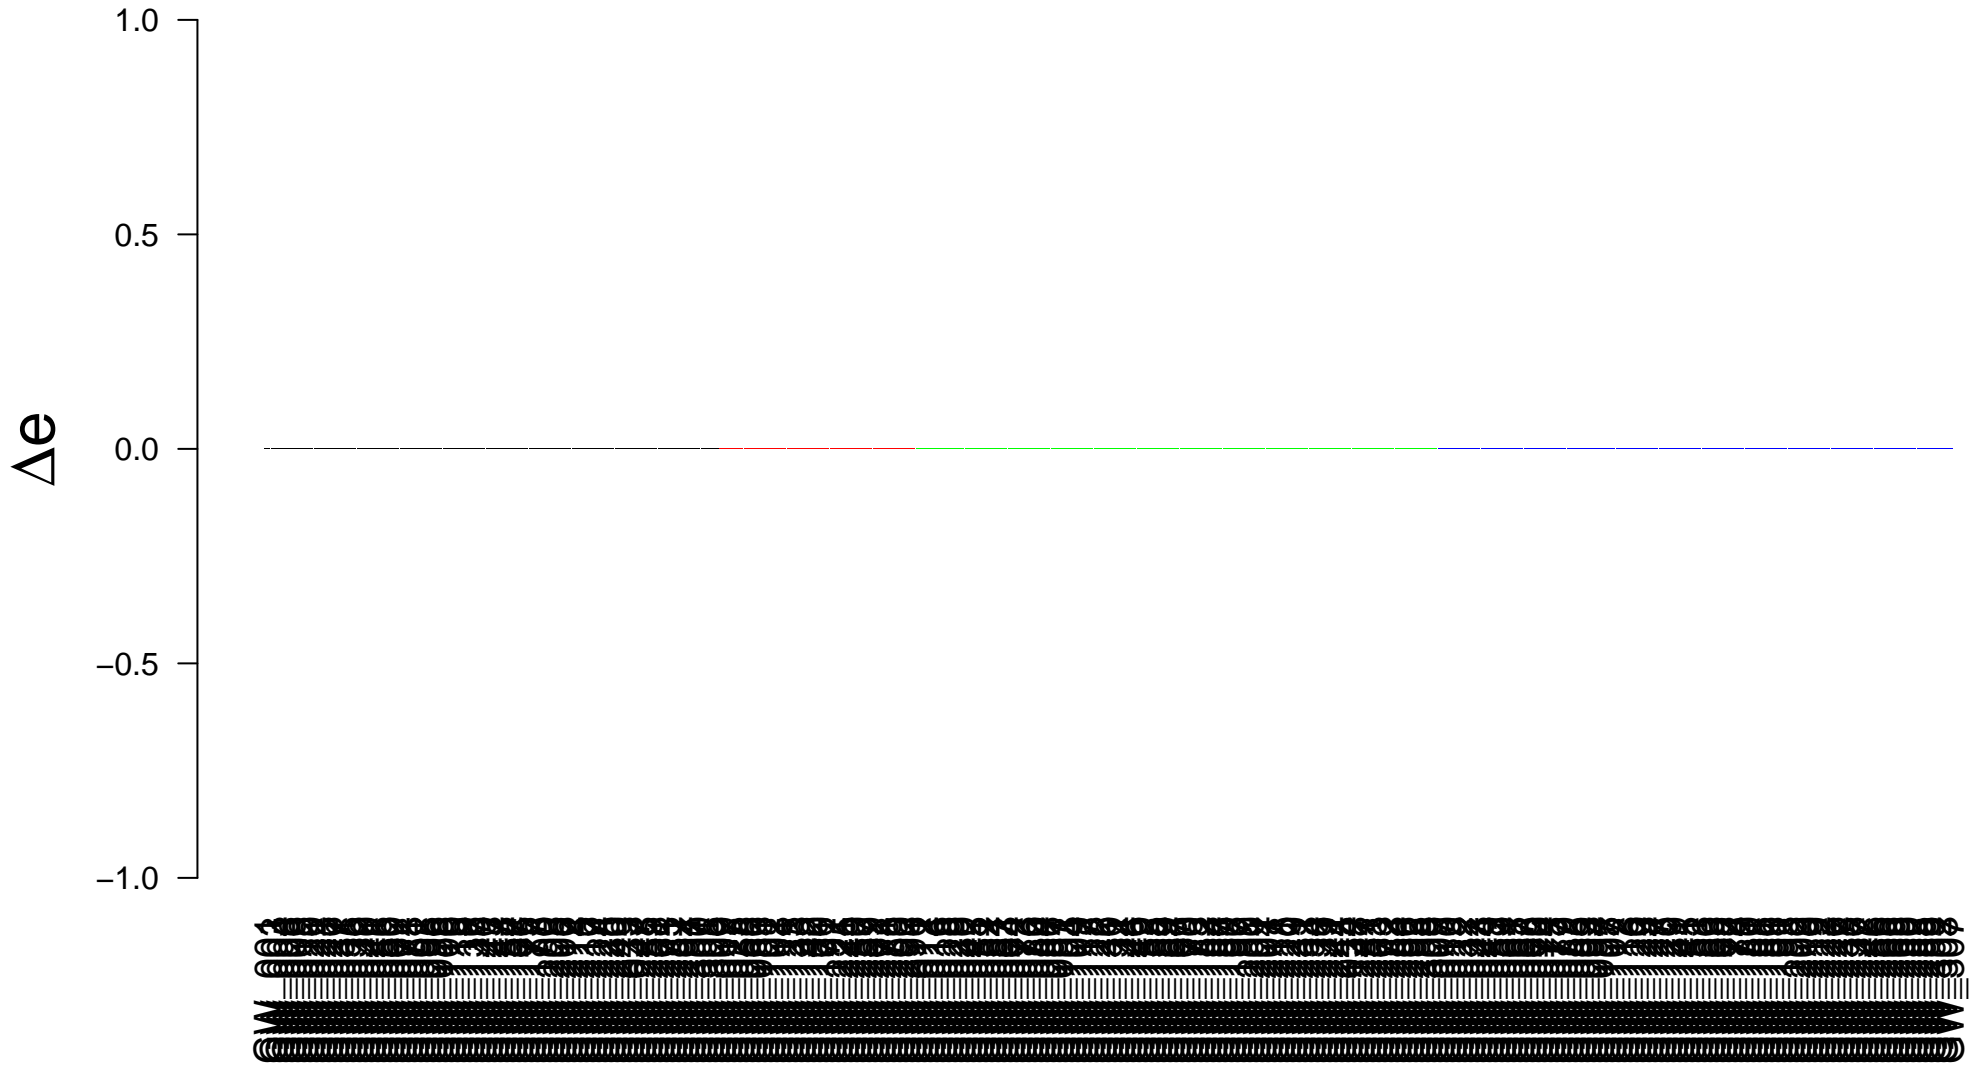

# Expression of NAD-dependent histone deacetylase activity (H3-K14 specific) in Spot E

Expression of NAD-dependent histone deacetylase activity (H3-K14 specific) in Spot F

# Expression of NAD-dependent histone deacetylase activity (H3-K14 specific) in Spot G

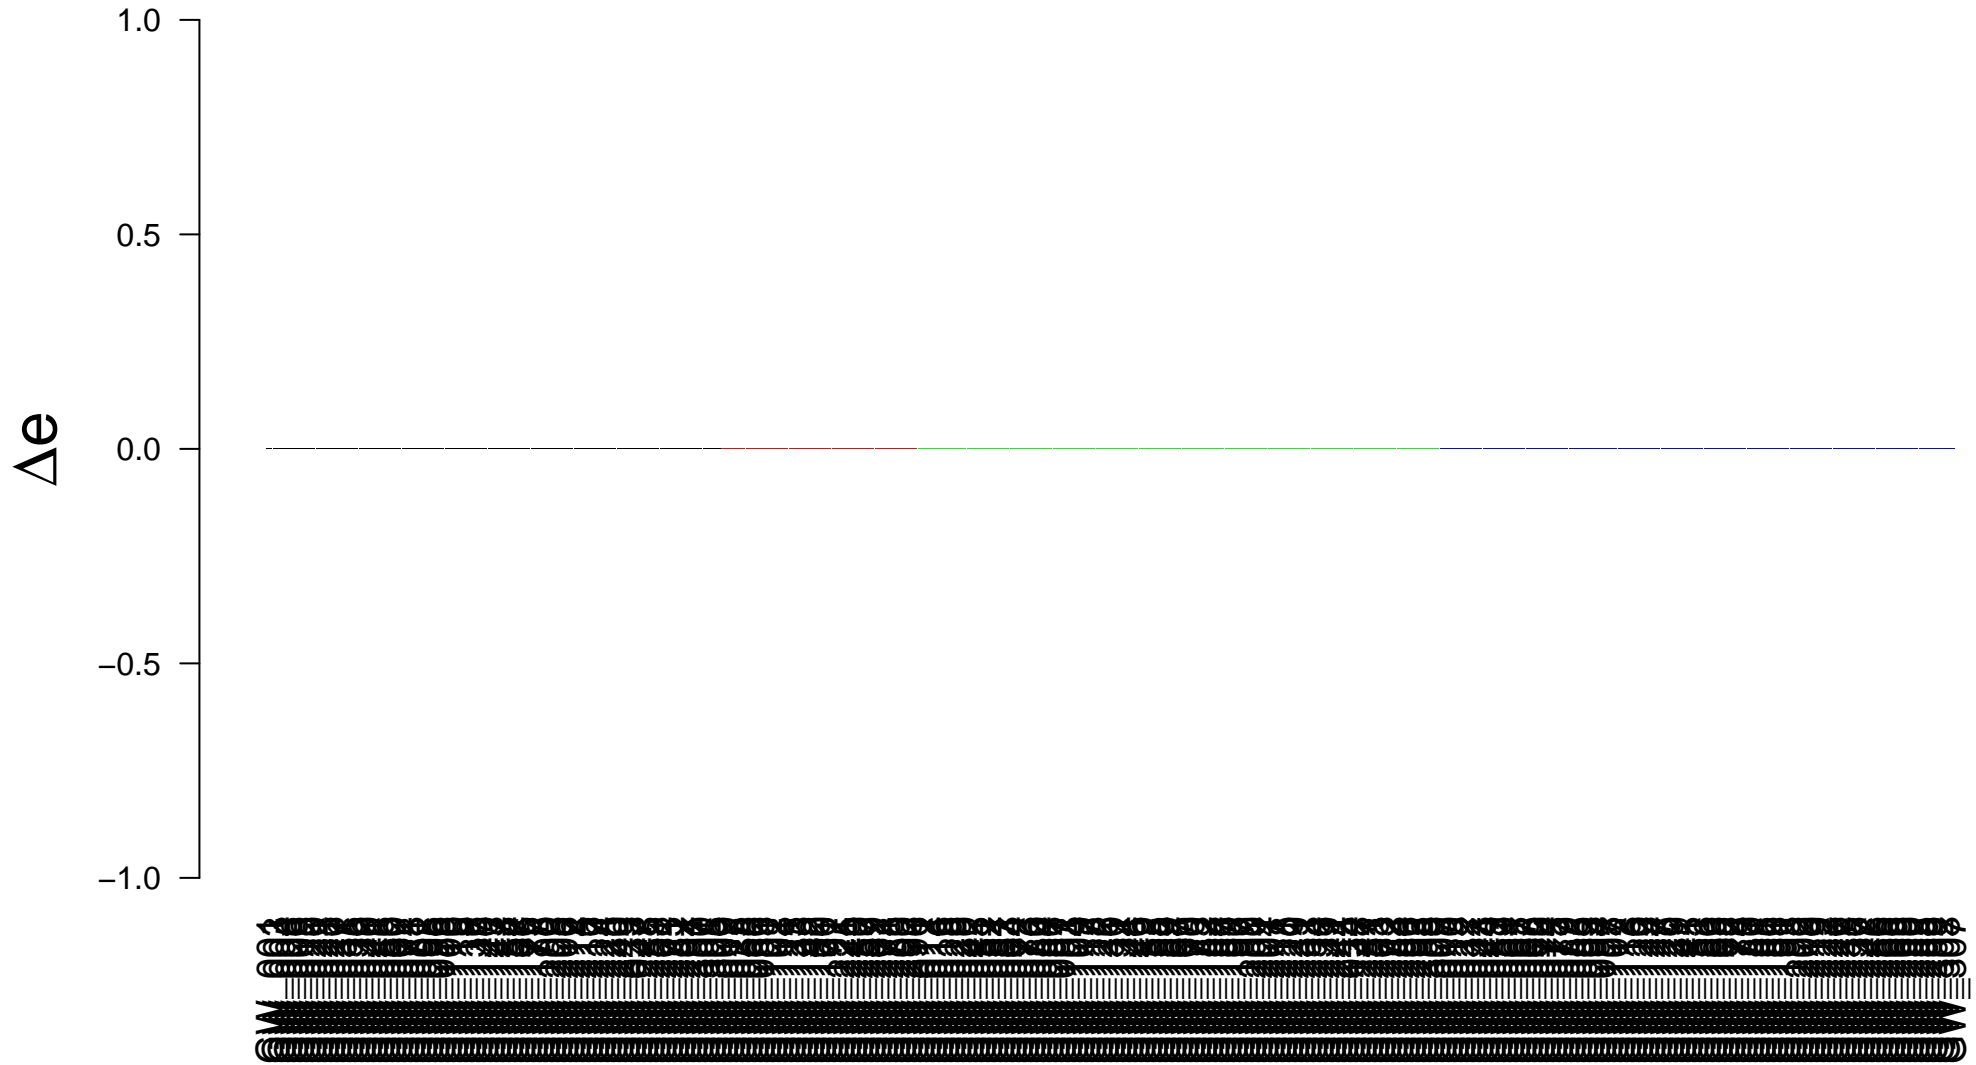

# Expression of NAD-dependent histone deacetylase activity (H3-K14 specific) in Spot H

# Expression of NAD-dependent histone deacetylase activity (H3-K14 specific) in Spot I

Expression of NAD-dependent histone deacetylase activity (H3-K14 specific) in Spot J

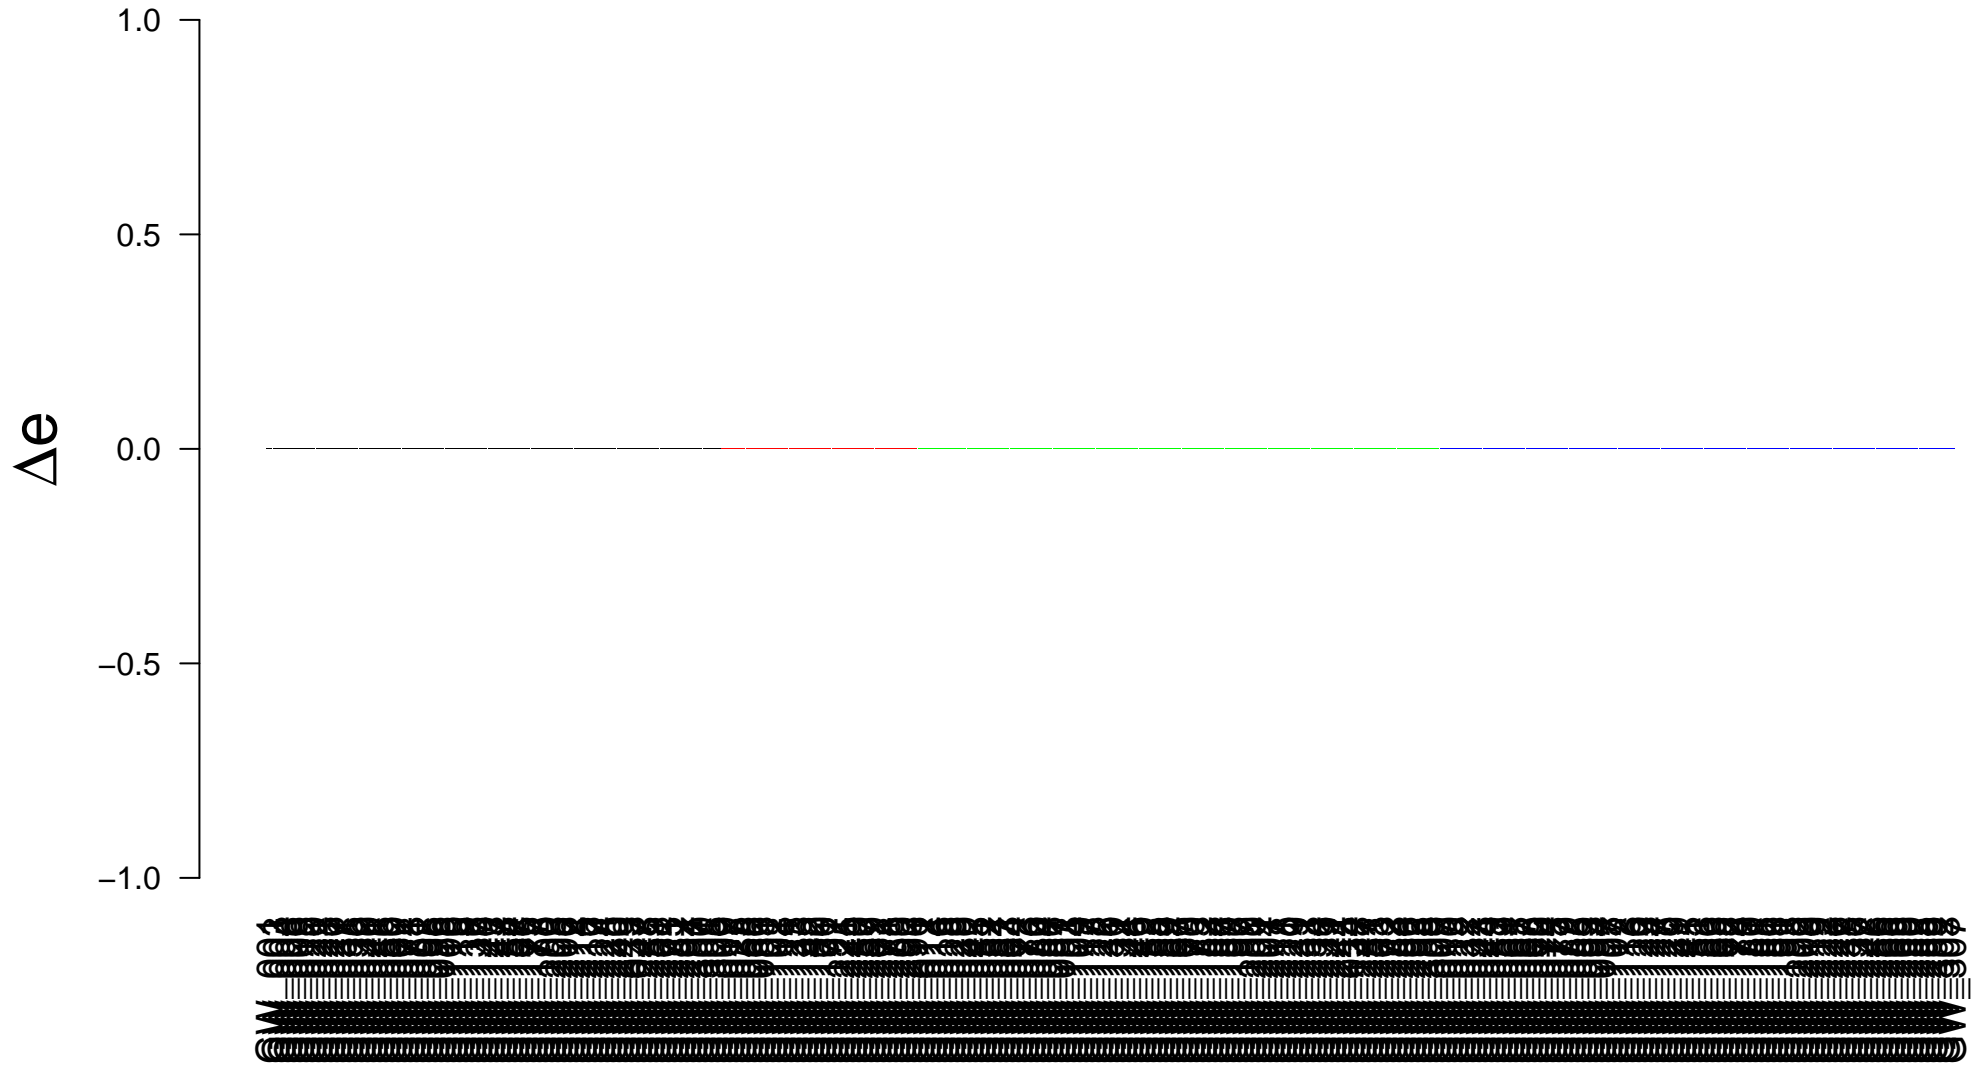

# Expression of NAD-dependent histone deacetylase activity (H3-K14 specific) in Spot K

# Expression of NAD-dependent histone deacetylase activity (H3-K14 specific) in Spot L

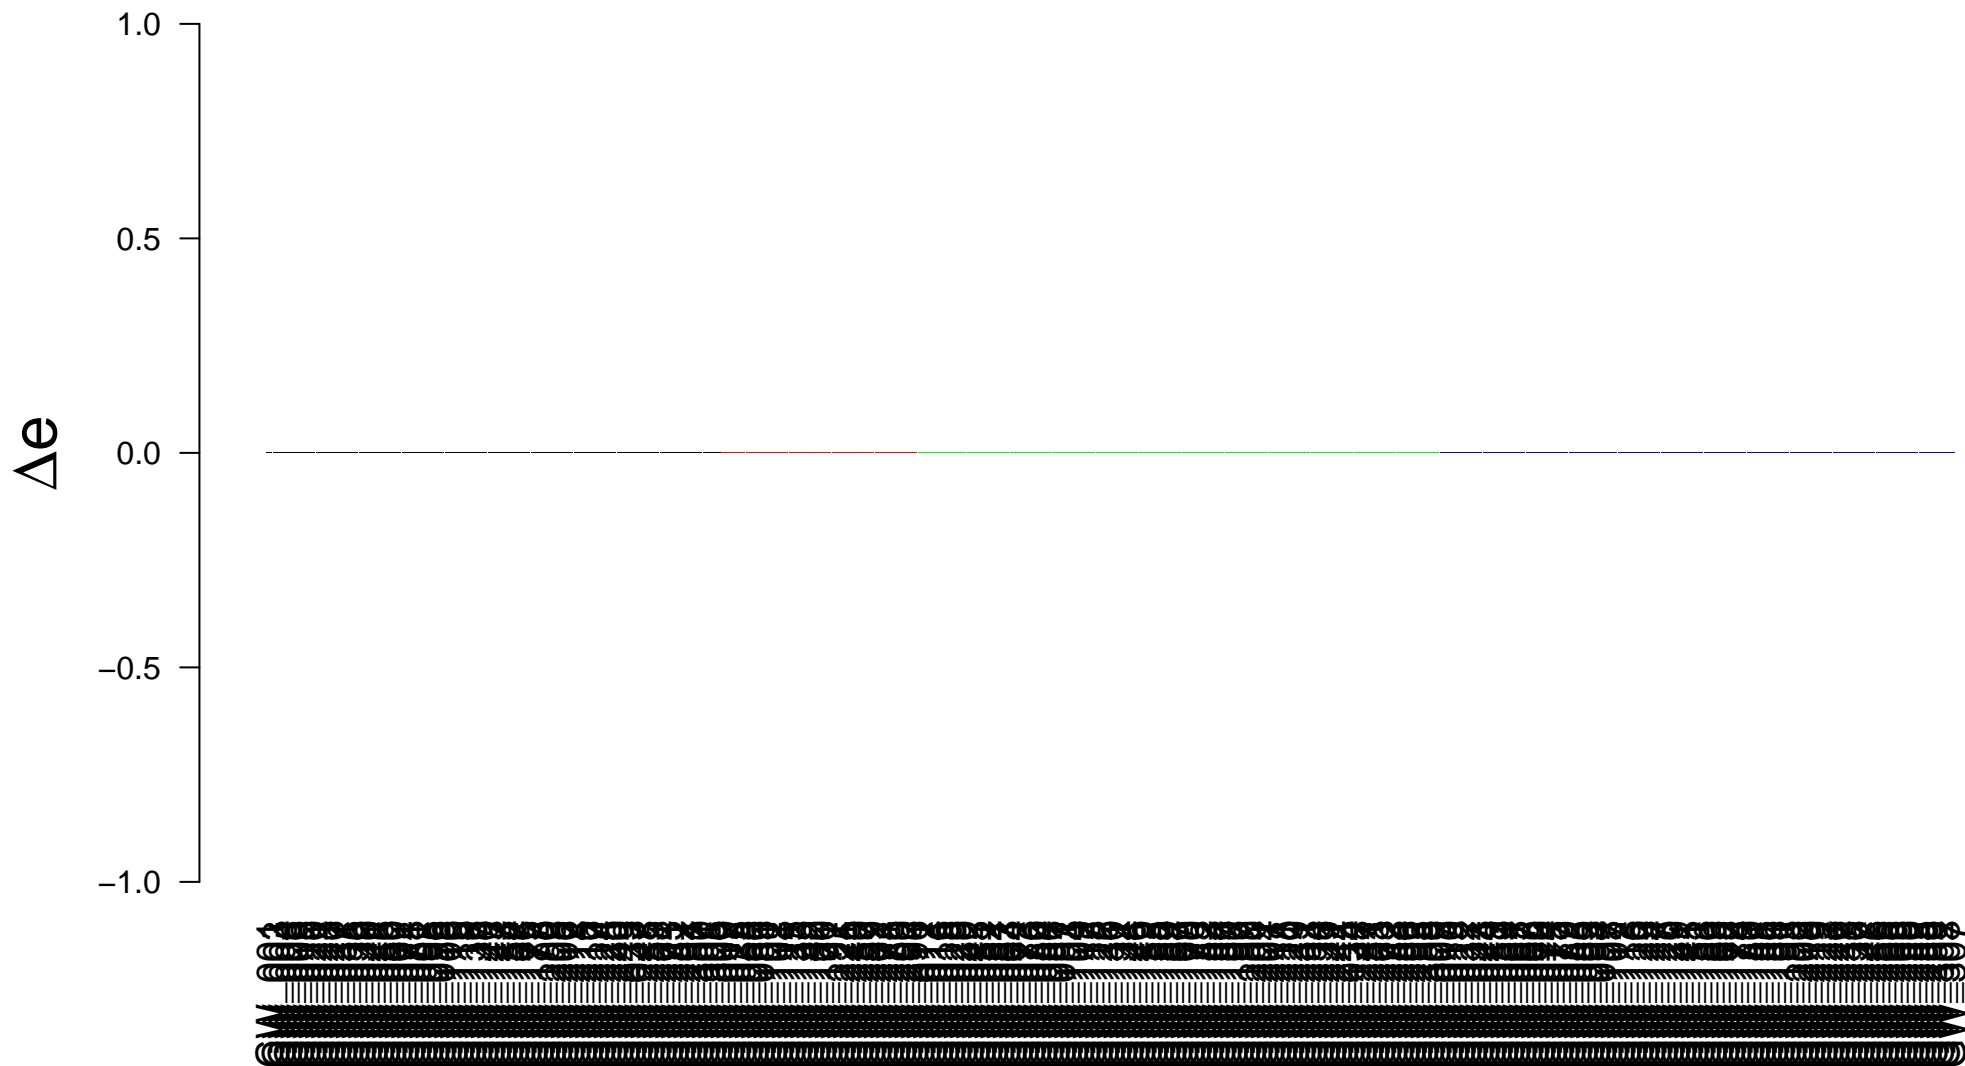

# Expression of NAD-dependent histone deacetylase activity (H3-K14 specific) in Spot M

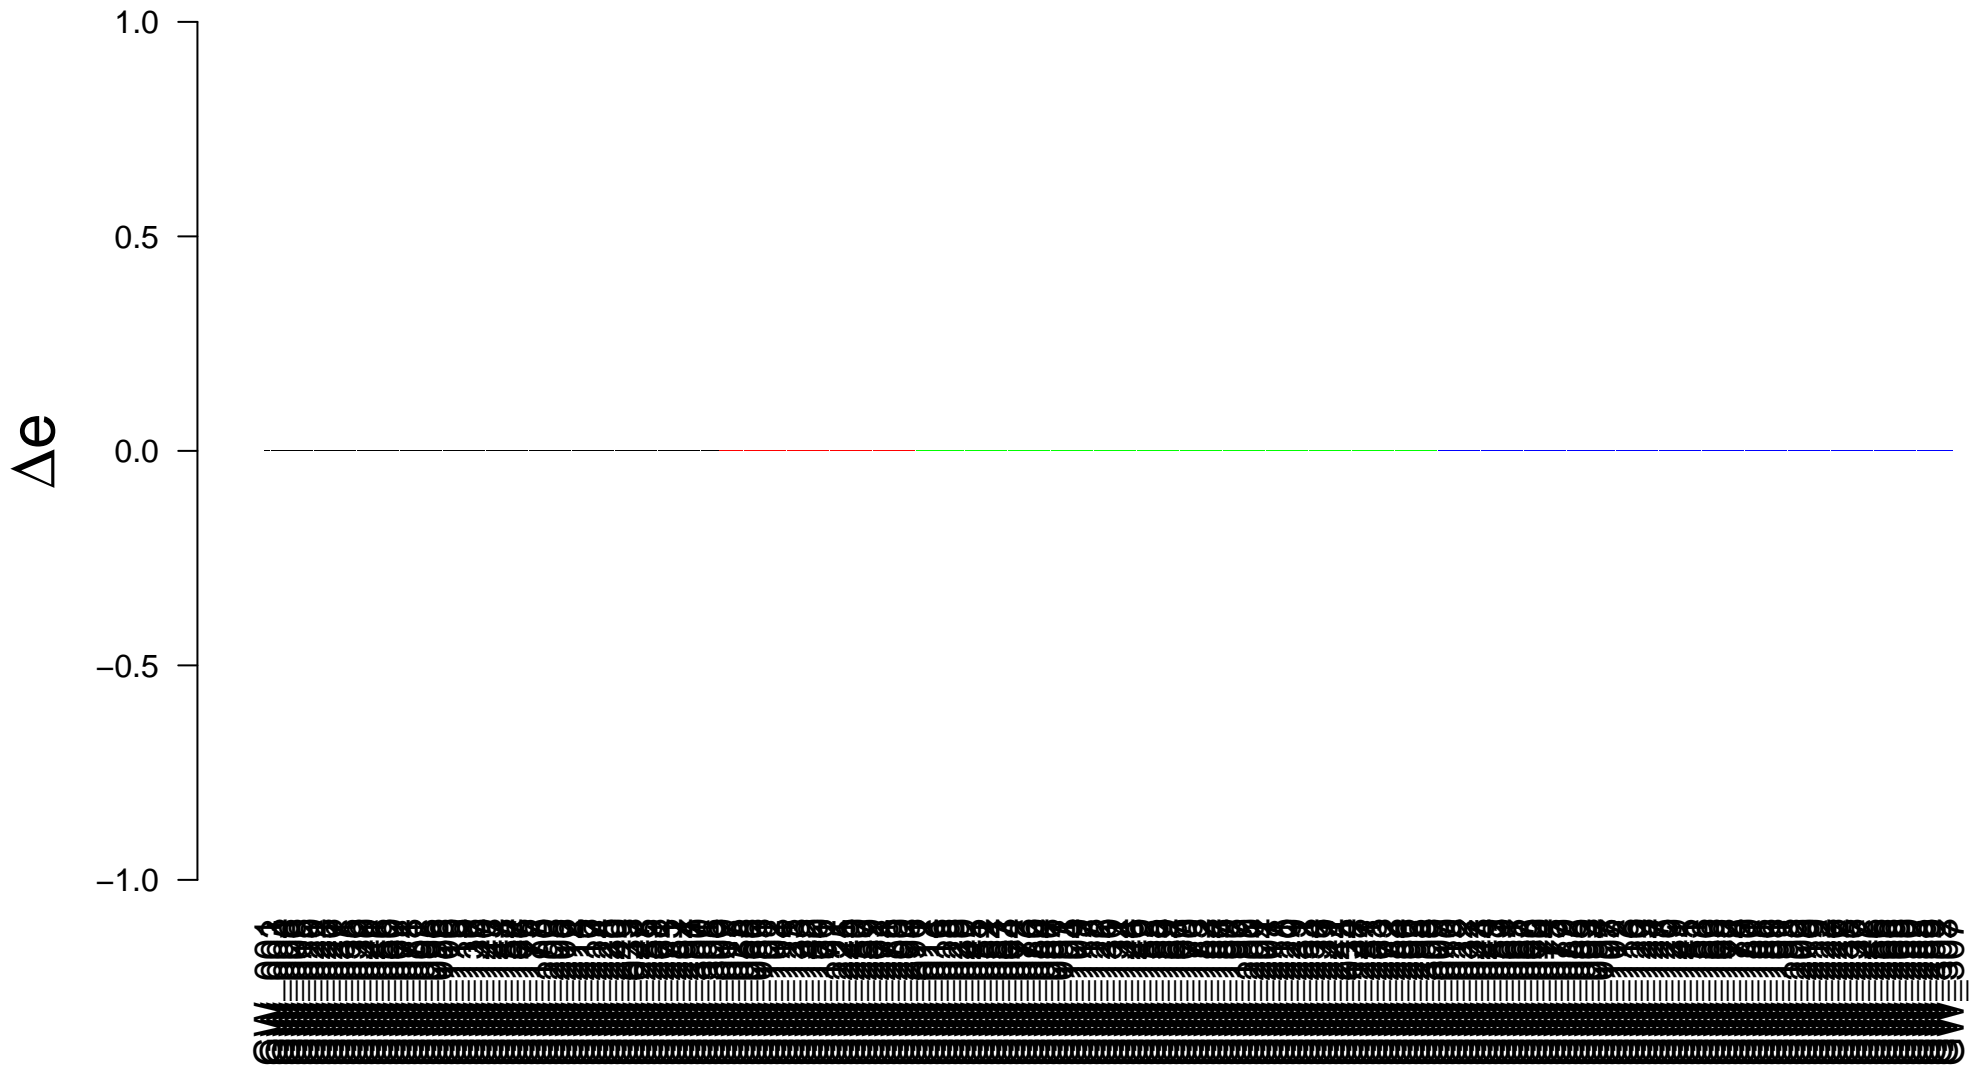

# Expression of NAD-dependent histone deacetylase activity (H3-K14 specific) in Spot N

# Expression of NAD-dependent histone deacetylase activity (H3-K14 specific) in Spot O

Expression of NAD-dependent histone deacetylase activity (H3-K14 specific) in Spot P

# Expression of NAD-dependent histone deacetylase activity (H3-K14 specific) in Spot Q

# Expression of NAD-dependent histone deacetylase activity (H3-K14 specific) in Spot R
