

NAD-dependent histone deacetylase activity (H3-K9 specific)

NAD-dependent histone deacetylase activity (H3-K9 specific)

Enrichment in spots: NAD-dependent histone deacetylase activity (H3-K9 specific)

Expression of NAD-dependent histone deacetylase activity (H3-K9 specific) in Spot A

Expression of NAD-dependent histone deacetylase activity (H3-K9 specific) in Spot B

Expression of NAD-dependent histone deacetylase activity (H3-K9 specific) in Spot C

Expression of NAD-dependent histone deacetylase activity (H3-K9 specific) in Spot D

Expression of NAD-dependent histone deacetylase activity (H3-K9 specific) in Spot E

Expression of NAD-dependent histone deacetylase activity (H3-K9 specific) in Spot F

Expression of NAD-dependent histone deacetylase activity (H3-K9 specific) in Spot G

Expression of NAD-dependent histone deacetylase activity (H3-K9 specific) in Spot H

Expression of NAD-dependent histone deacetylase activity (H3-K9 specific) in Spot I

Expression of NAD-dependent histone deacetylase activity (H3-K9 specific) in Spot J

Expression of NAD-dependent histone deacetylase activity (H3-K9 specific) in Spot K

Expression of NAD-dependent histone deacetylase activity (H3-K9 specific) in Spot L

Expression of NAD-dependent histone deacetylase activity (H3-K9 specific) in Spot M

Expression of NAD-dependent histone deacetylase activity (H3-K9 specific) in Spot N

Expression of NAD-dependent histone deacetylase activity (H3-K9 specific) in Spot O

Expression of NAD-dependent histone deacetylase activity (H3-K9 specific) in Spot P

Expression of NAD-dependent histone deacetylase activity (H3-K9 specific) in Spot Q

Expression of NAD-dependent histone deacetylase activity (H3-K9 specific) in Spot R
