

Pigmented adrenocortical disease, primary isolated

Pigmented adrenocortical disease, primary isolated

Enrichment in spots: Pigmented adrenocortical disease, primary isolated

Expression of Pigmented adrenocortical disease, primary isolated in Spot A

Expression of Pigmented adrenocortical disease, primary isolated in Spot B

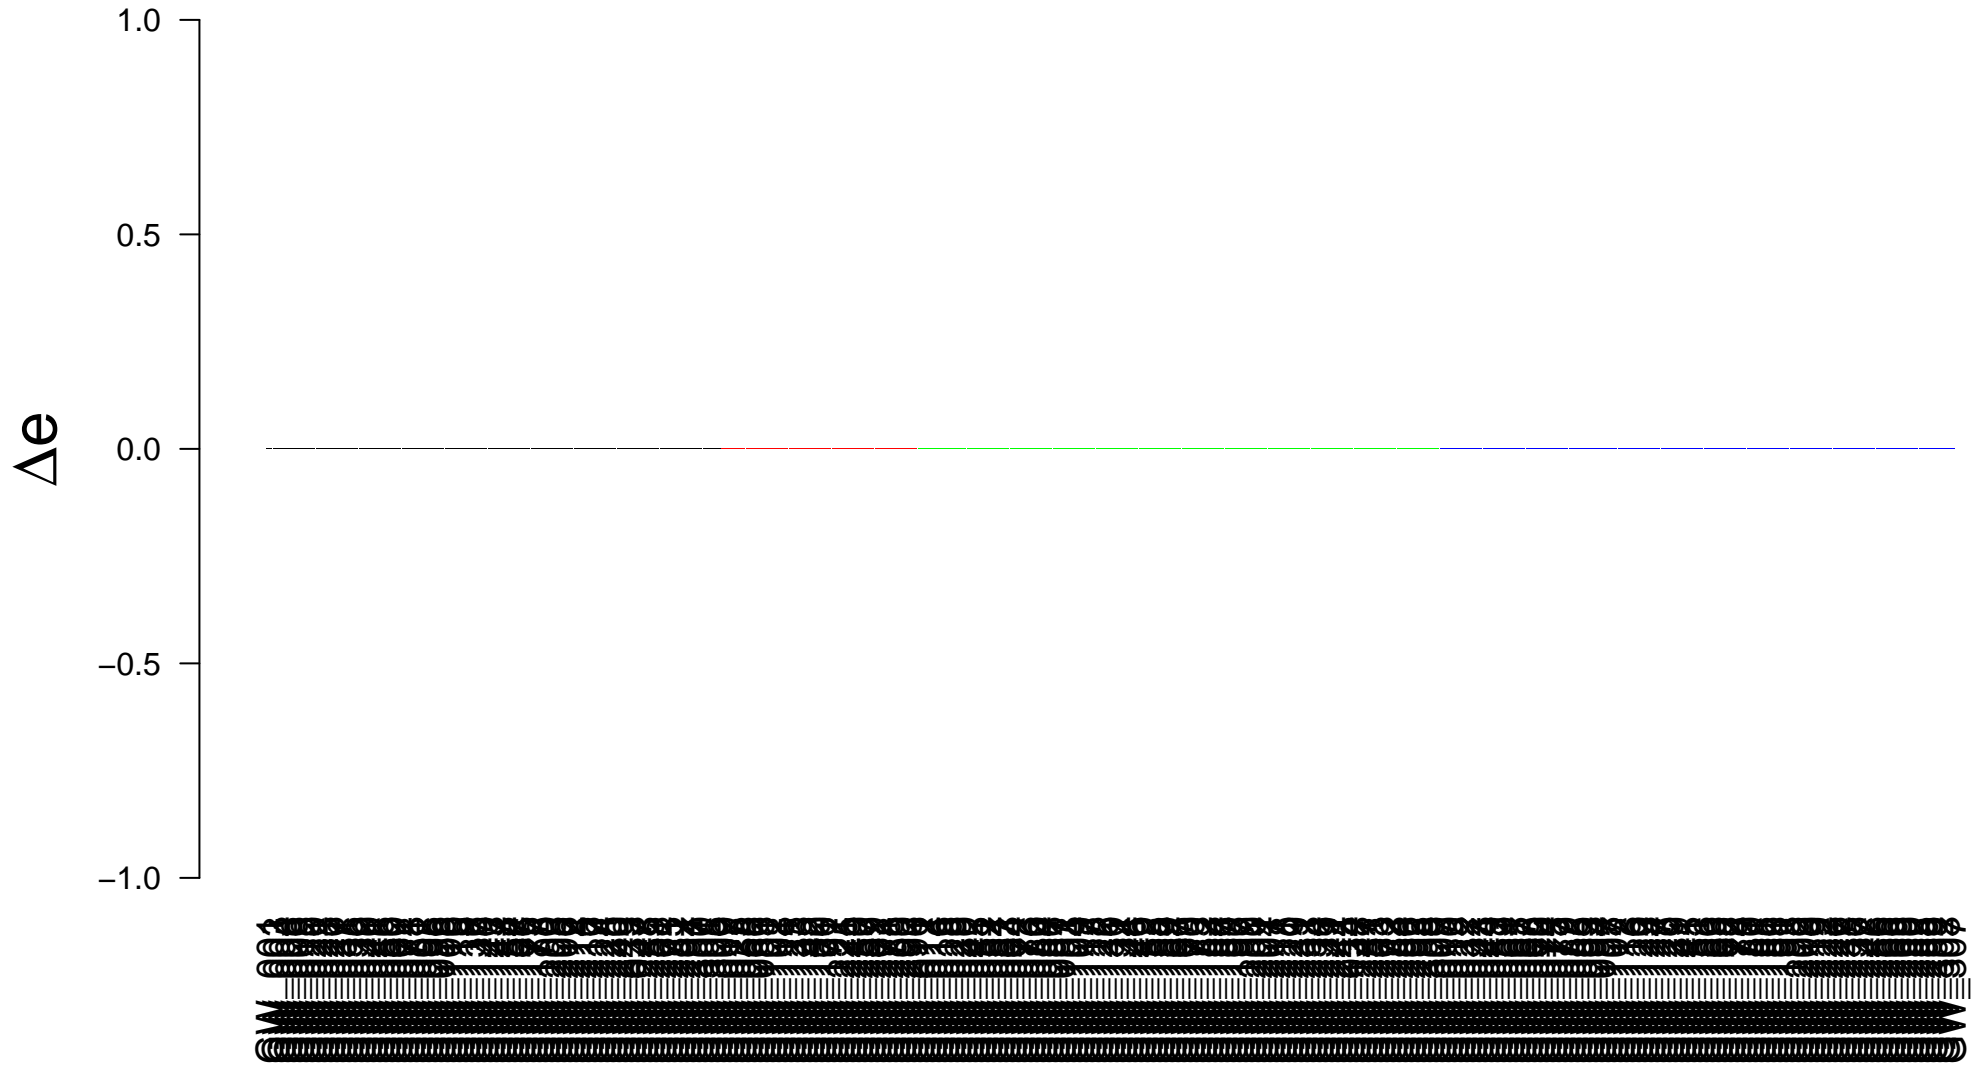

Expression of Pigmented adrenocortical disease, primary isolated in Spot C

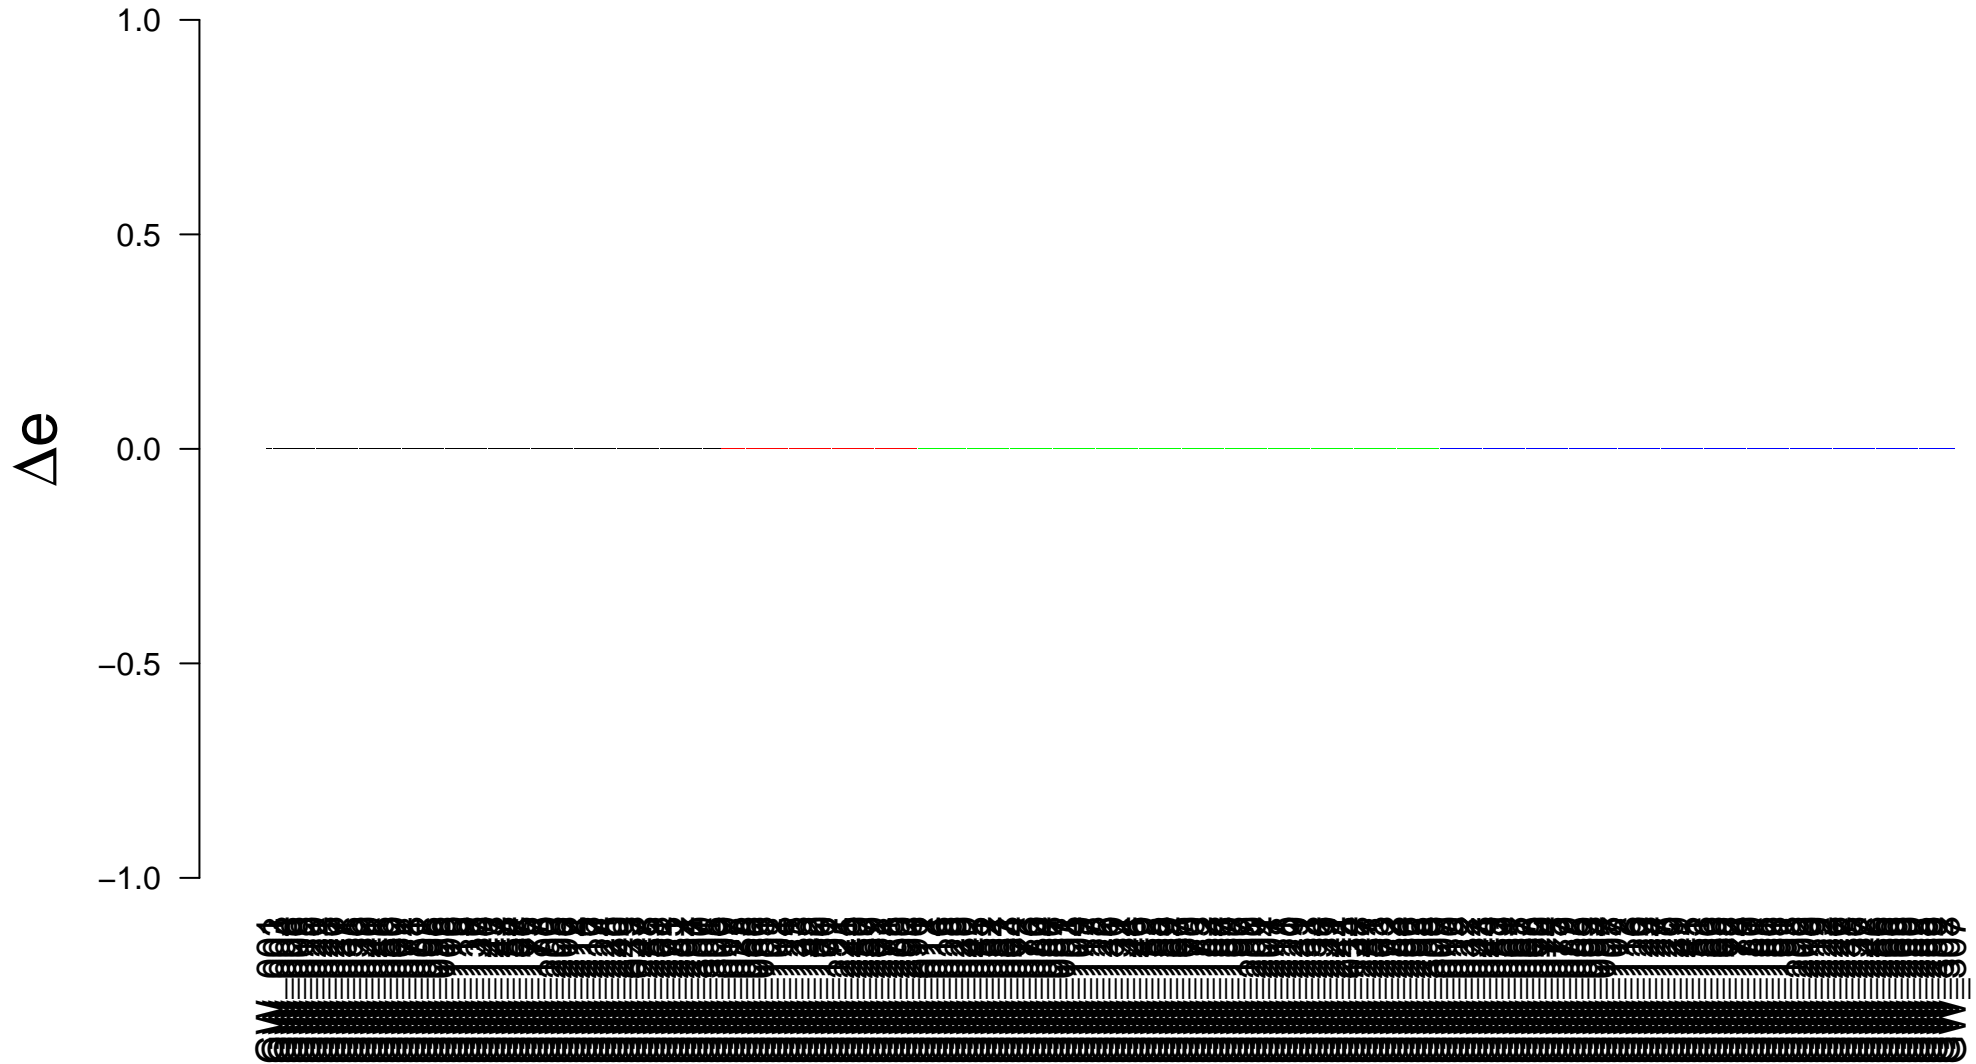

Expression of Pigmented adrenocortical disease, primary isolated in Spot D

Expression of Pigmented adrenocortical disease, primary isolated in Spot E

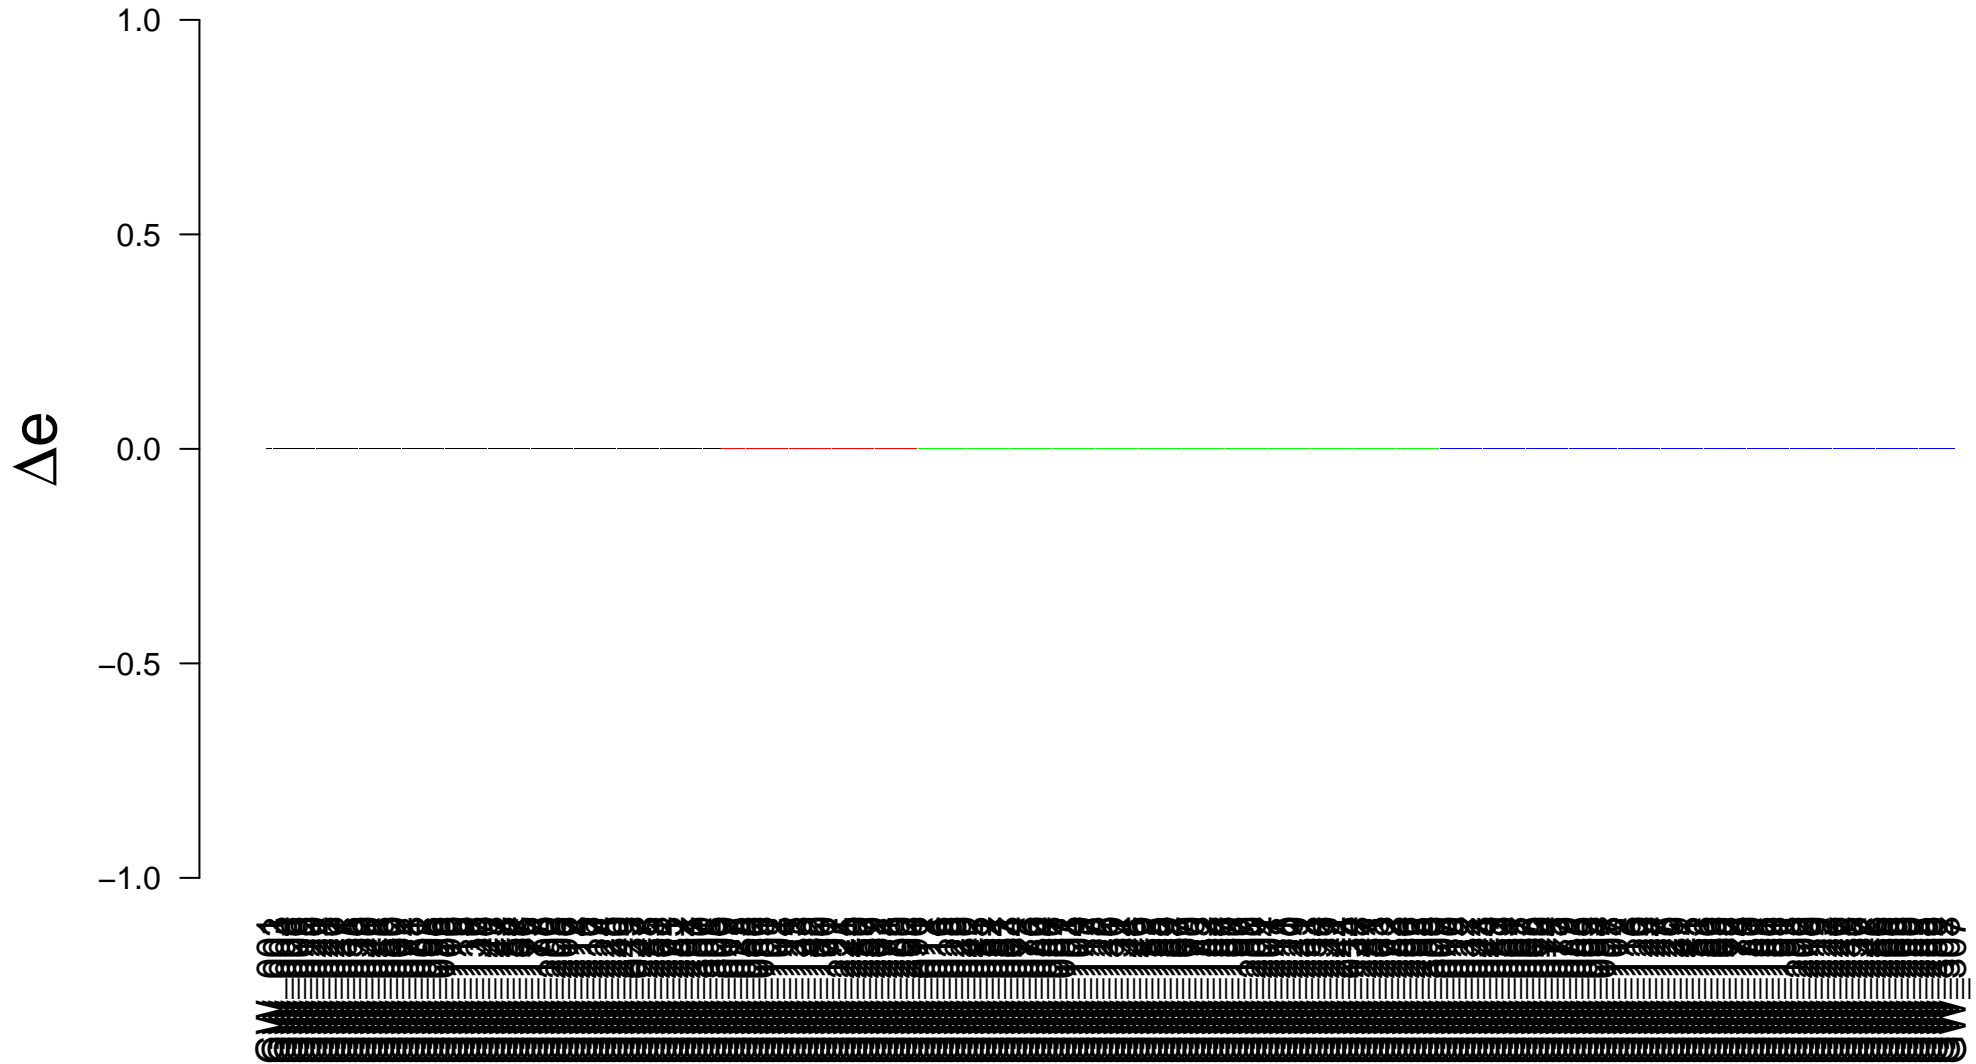

Expression of Pigmented adrenocortical disease, primary isolated in Spot F

Expression of Pigmented adrenocortical disease, primary isolated in Spot G

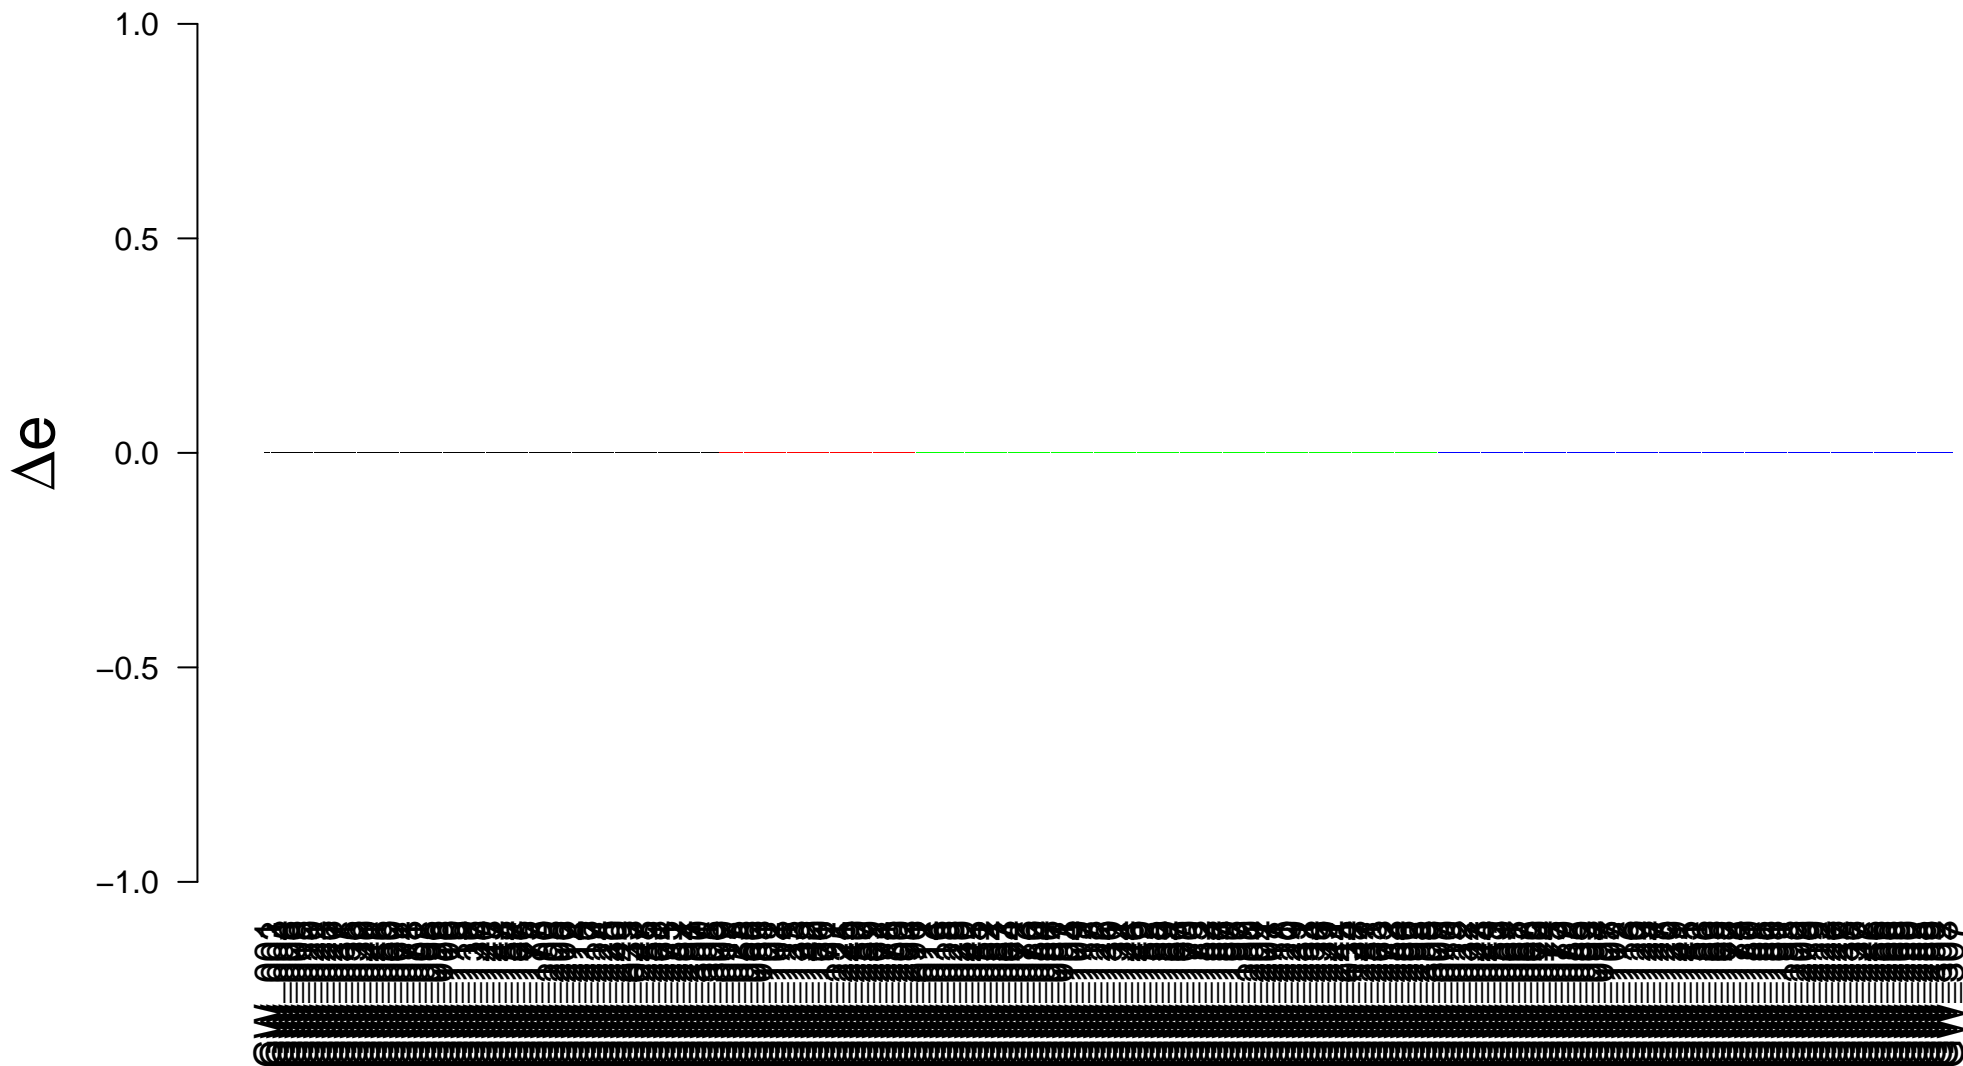

Expression of Pigmented adrenocortical disease, primary isolated in Spot H

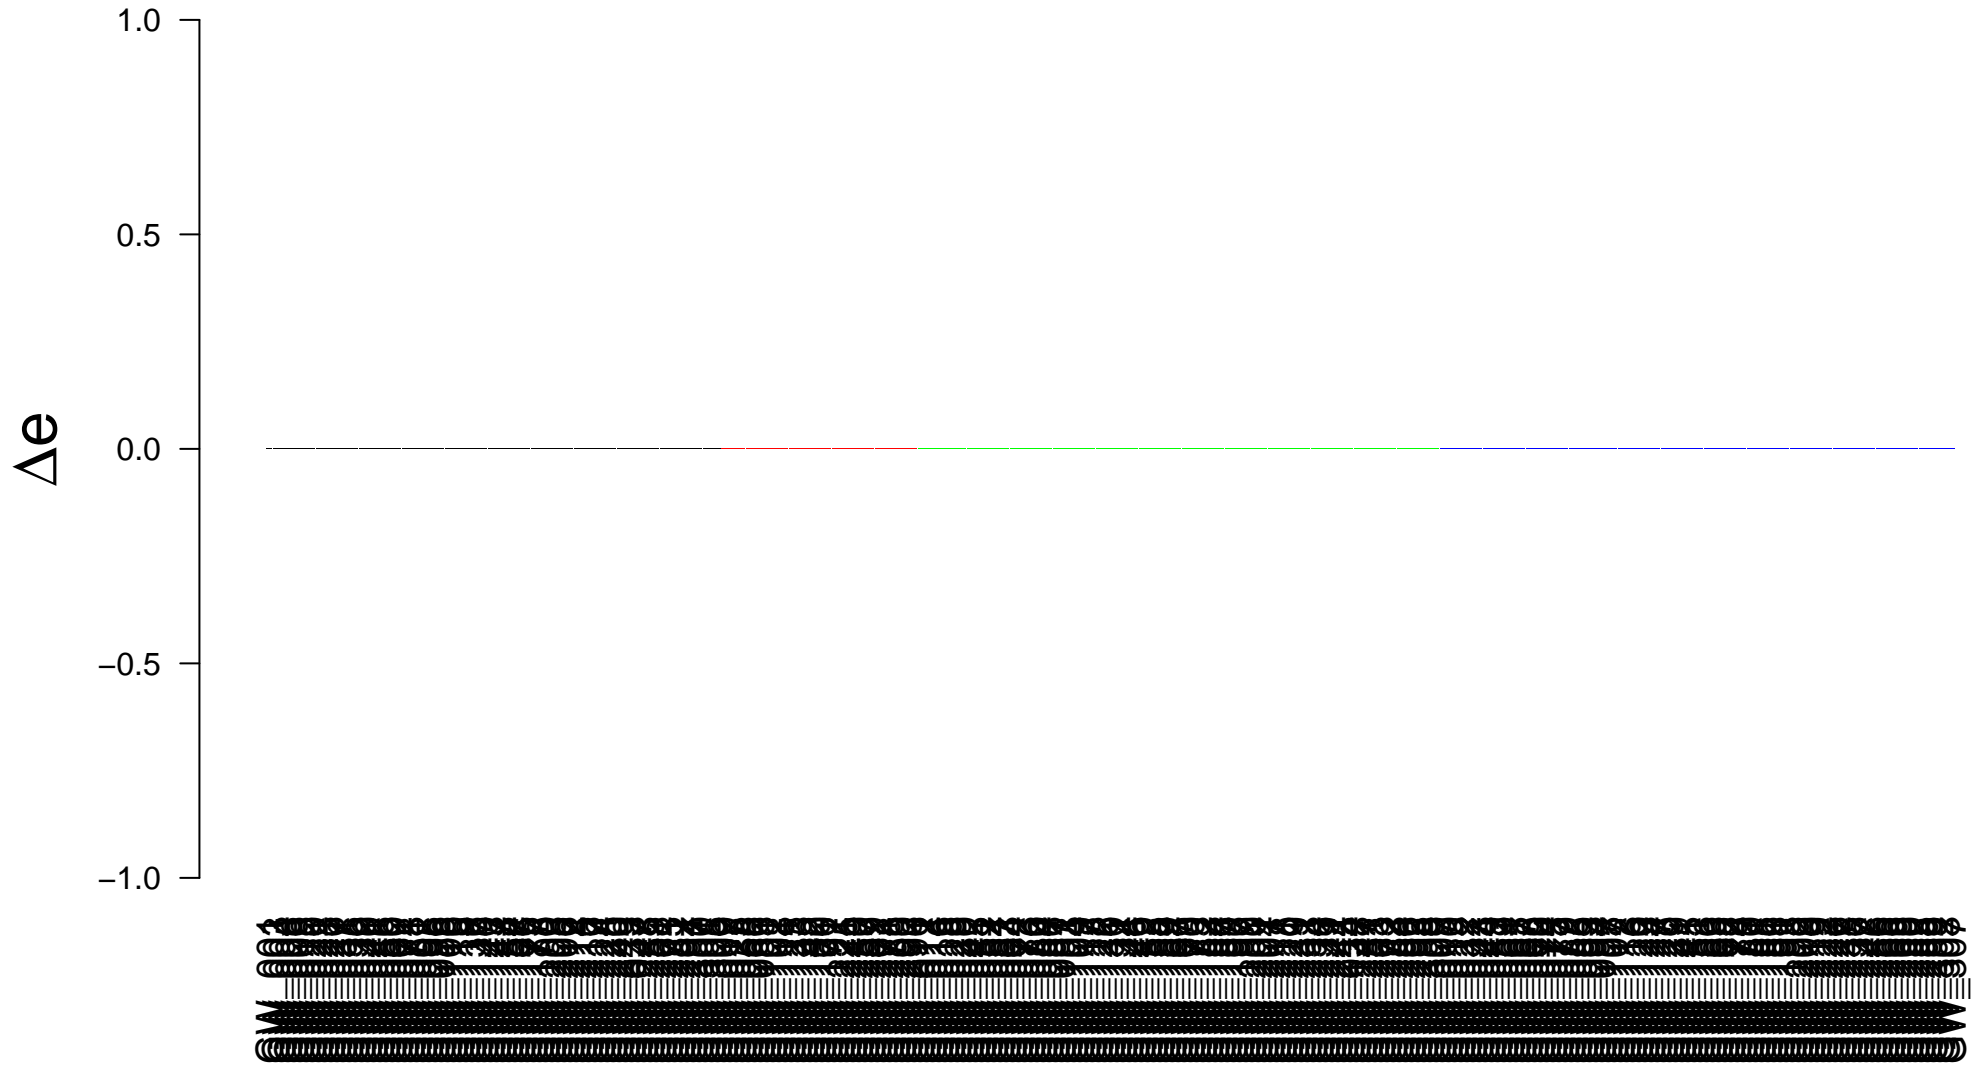

Expression of Pigmented adrenocortical disease, primary isolated in Spot I

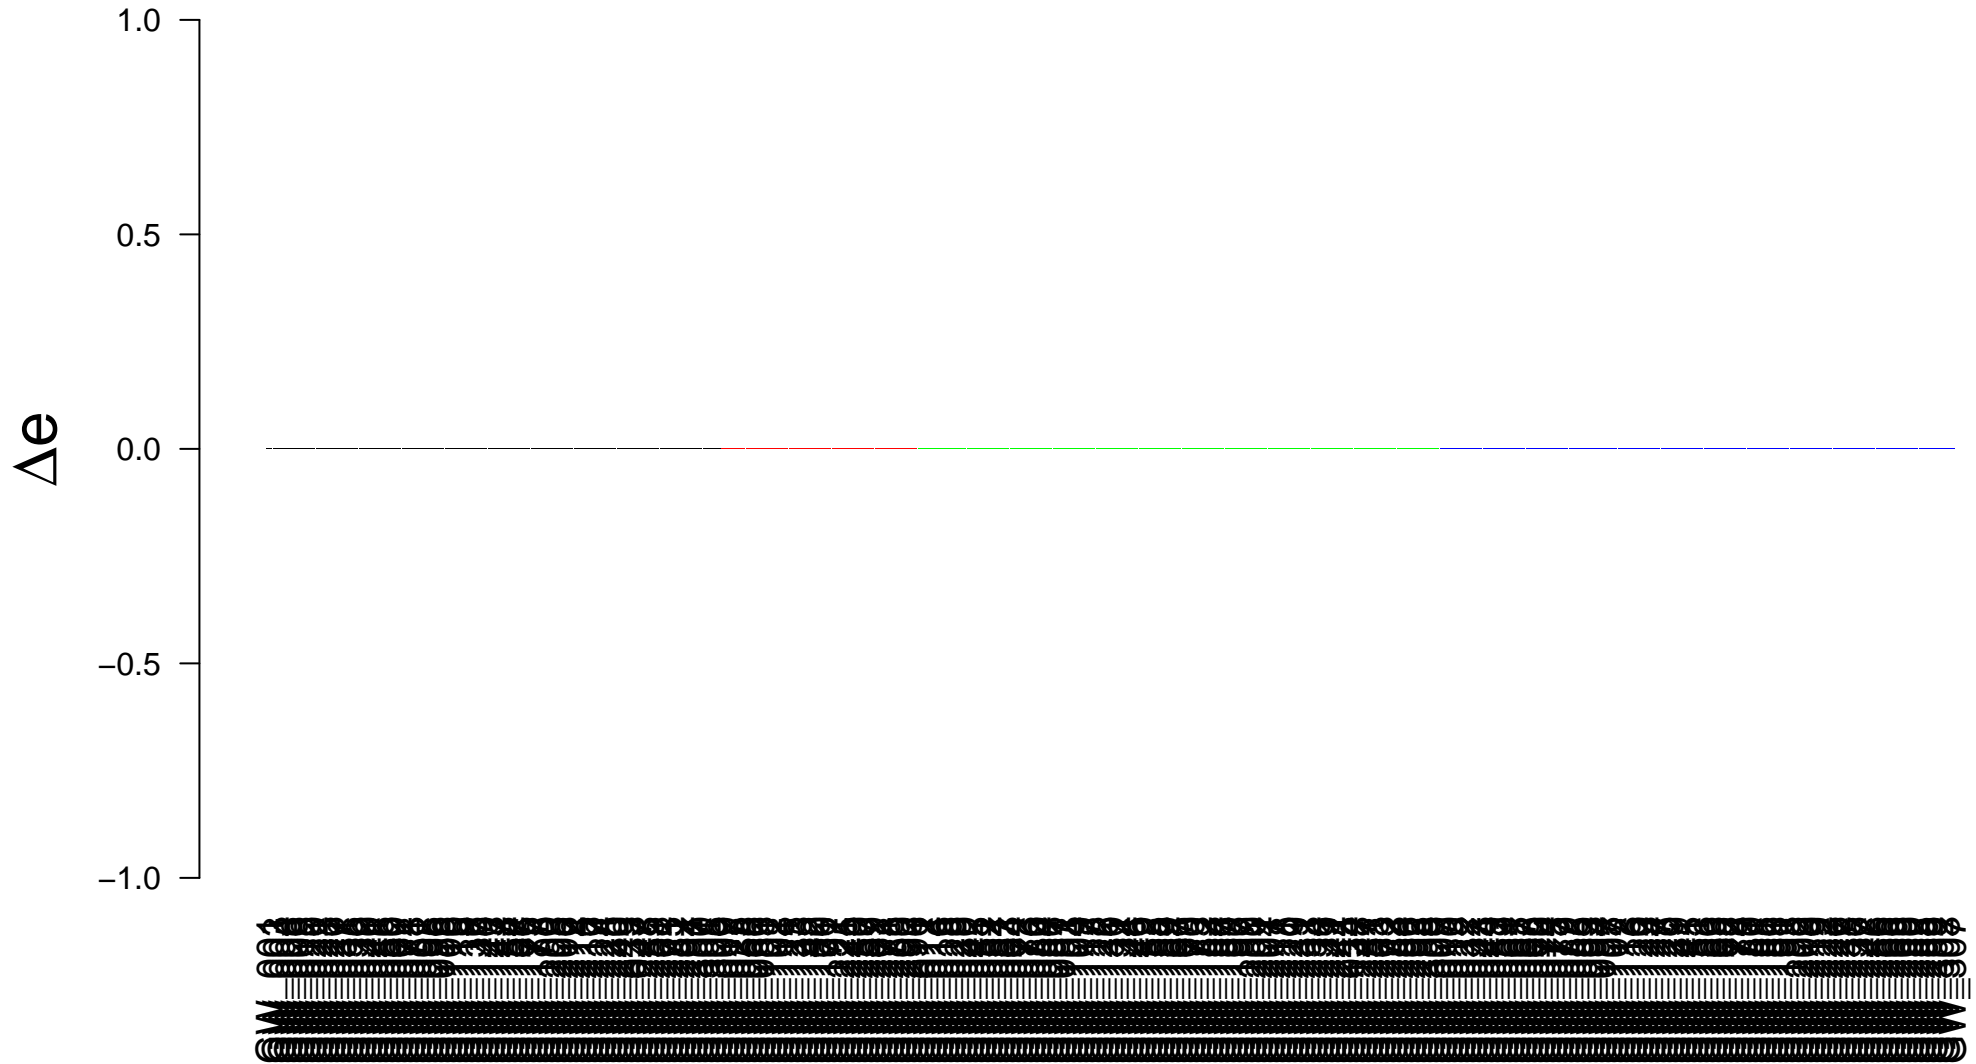

Expression of Pigmented adrenocortical disease, primary isolated in Spot J

Expression of Pigmented adrenocortical disease, primary isolated in Spot K

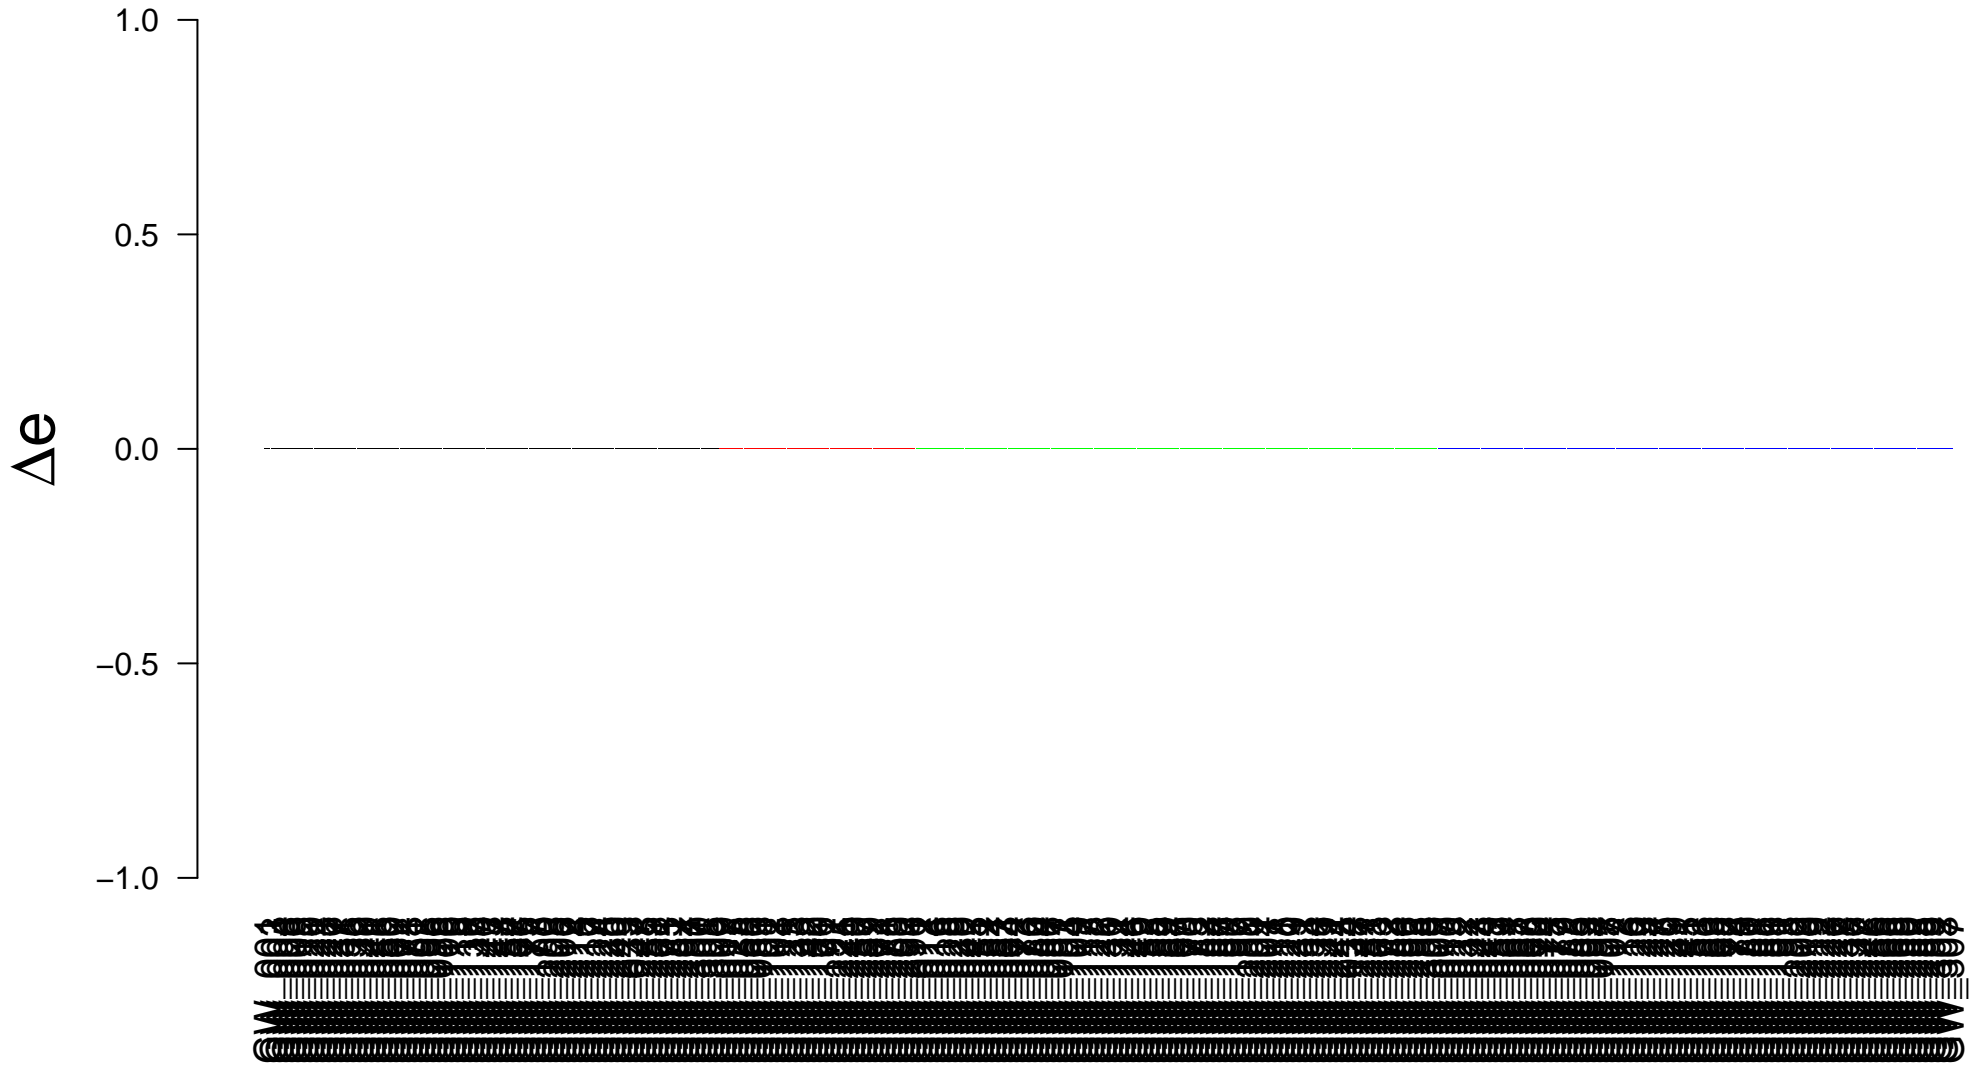

Expression of Pigmented adrenocortical disease, primary isolated in Spot L

Expression of Pigmented adrenocortical disease, primary isolated in Spot M

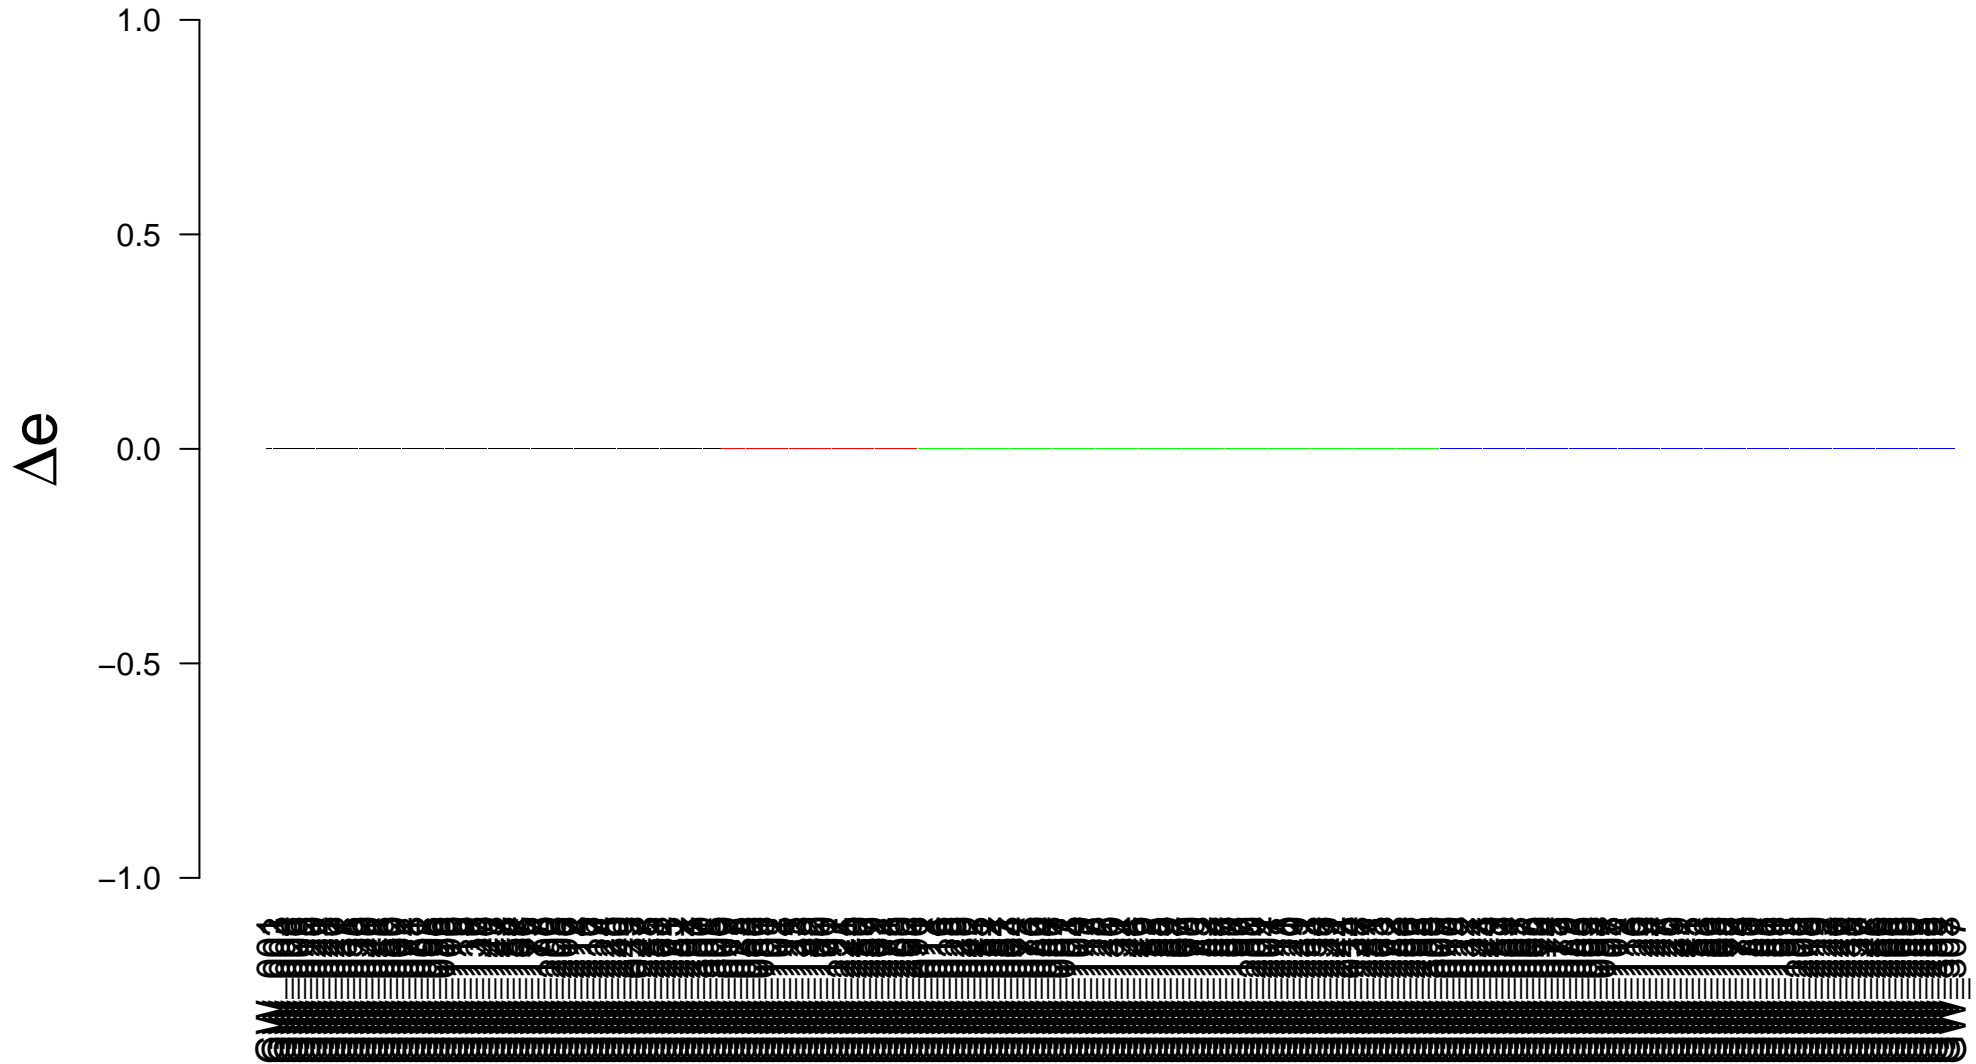

Expression of Pigmented adrenocortical disease, primary isolated in Spot N

Expression of Pigmented adrenocortical disease, primary isolated in Spot O

Expression of Pigmented adrenocortical disease, primary isolated in Spot P

Expression of Pigmented adrenocortical disease, primary isolated in Spot Q

Expression of Pigmented adrenocortical disease, primary isolated in Spot R
