

RNA polymerase II repressing transcription factor binding

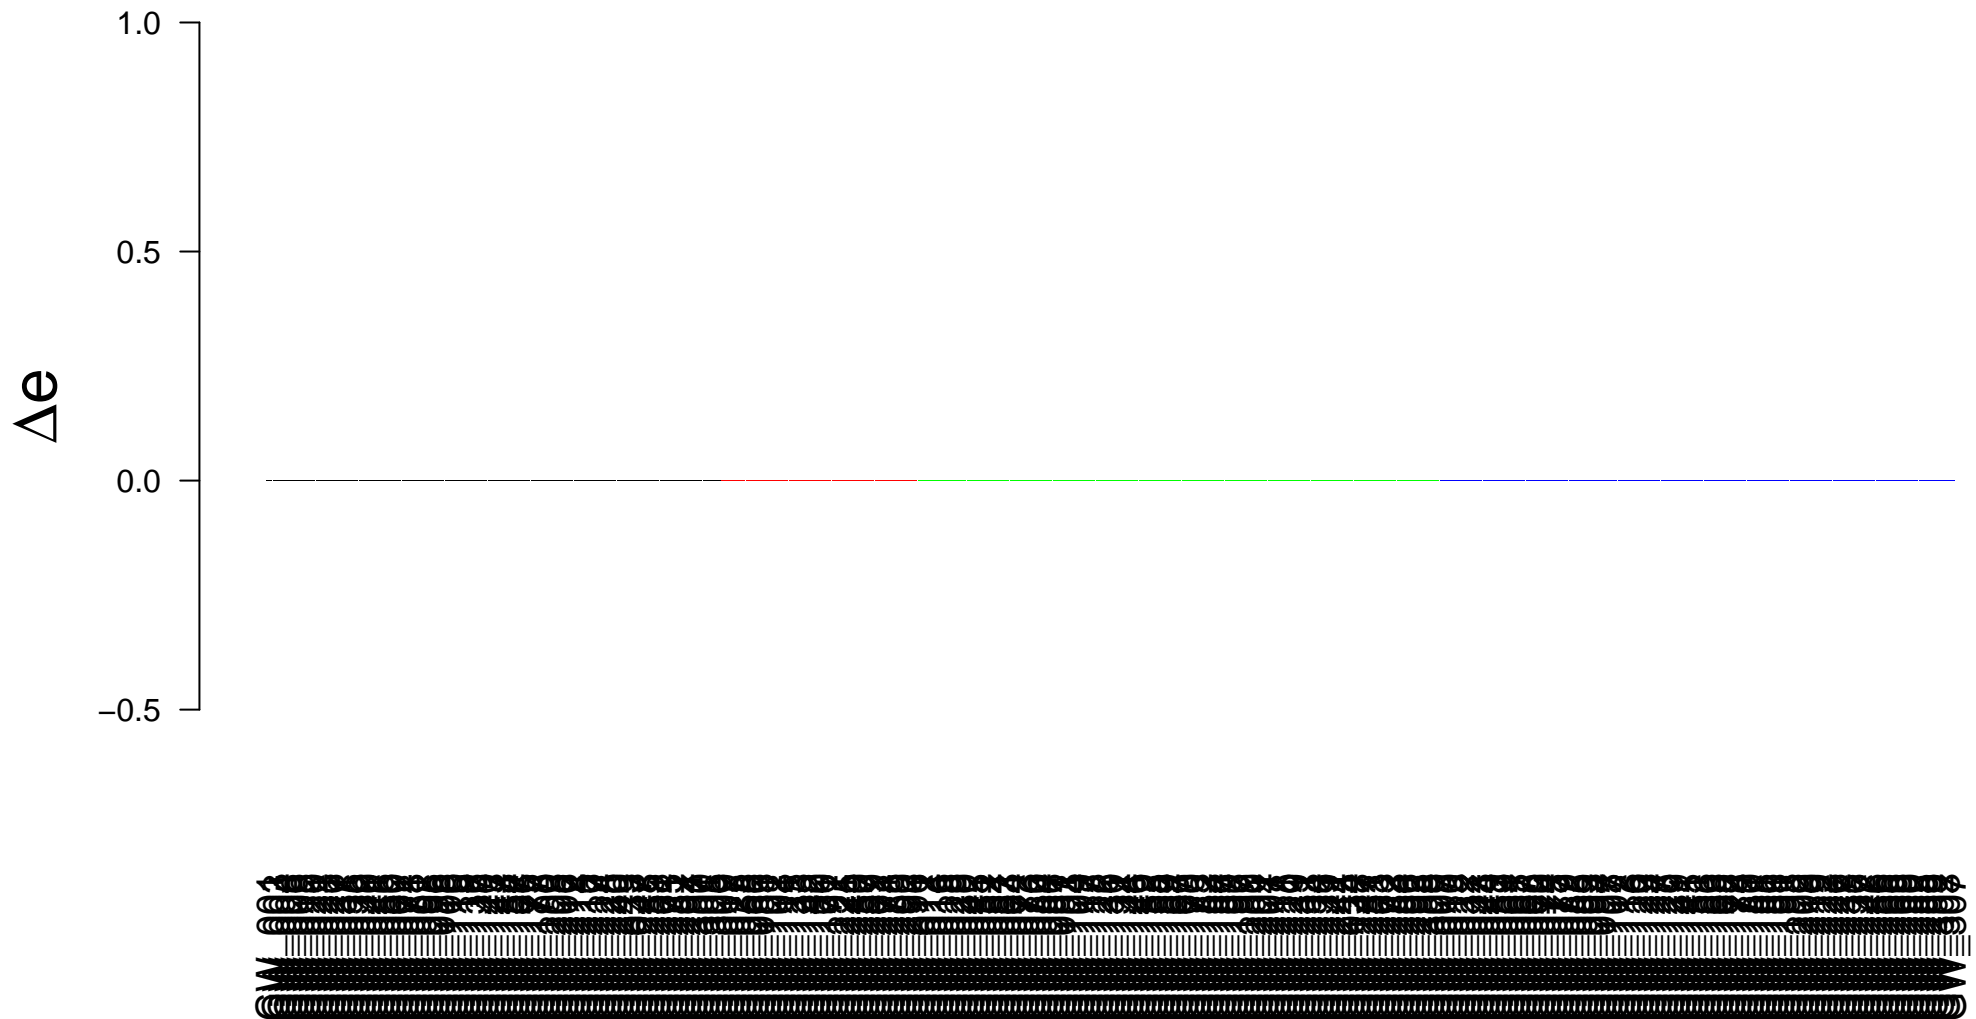

RNA polymerase II repressing transcription factor binding

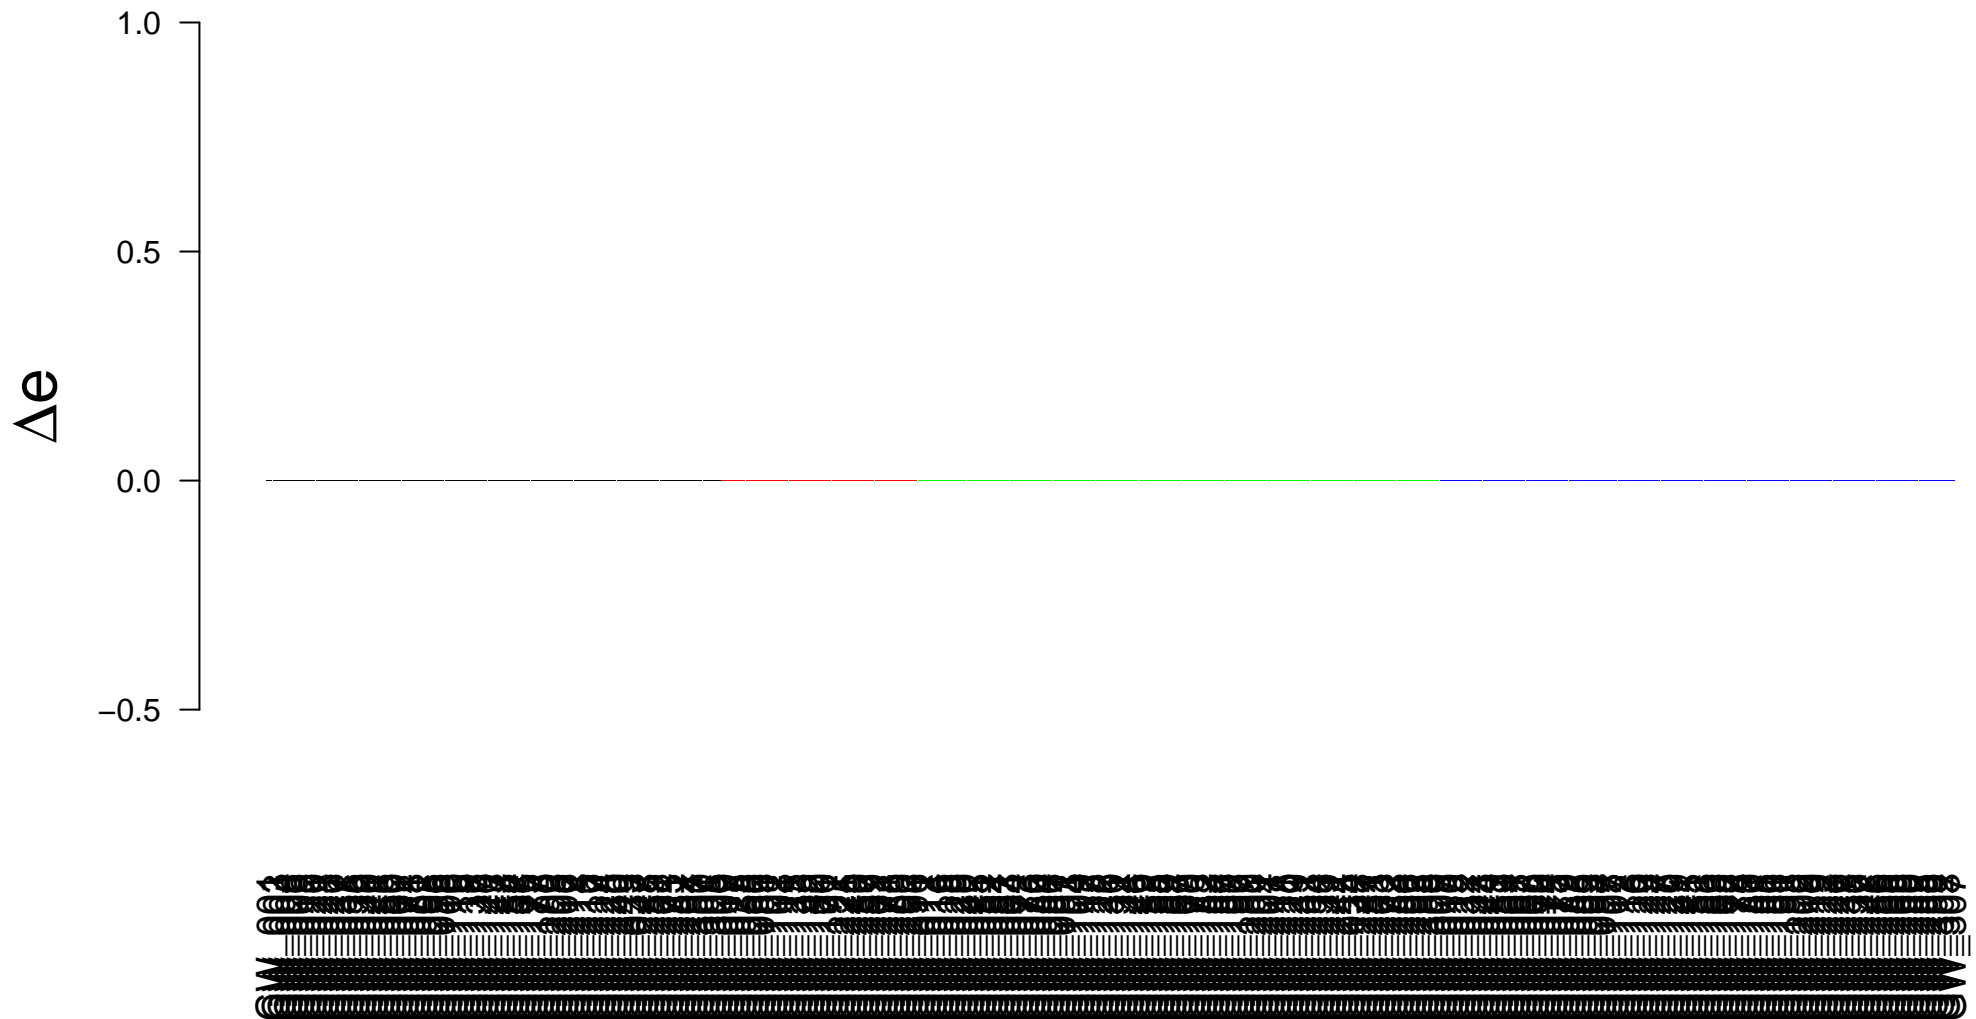

Enrichment in spots: RNA polymerase II repressing transcription factor binding

Expression of RNA polymerase II repressing transcription factor binding in Spot A

Expression of RNA polymerase II repressing transcription factor binding in Spot B

Expression of RNA polymerase II repressing transcription factor binding in Spot C

Expression of RNA polymerase II repressing transcription factor binding in Spot G

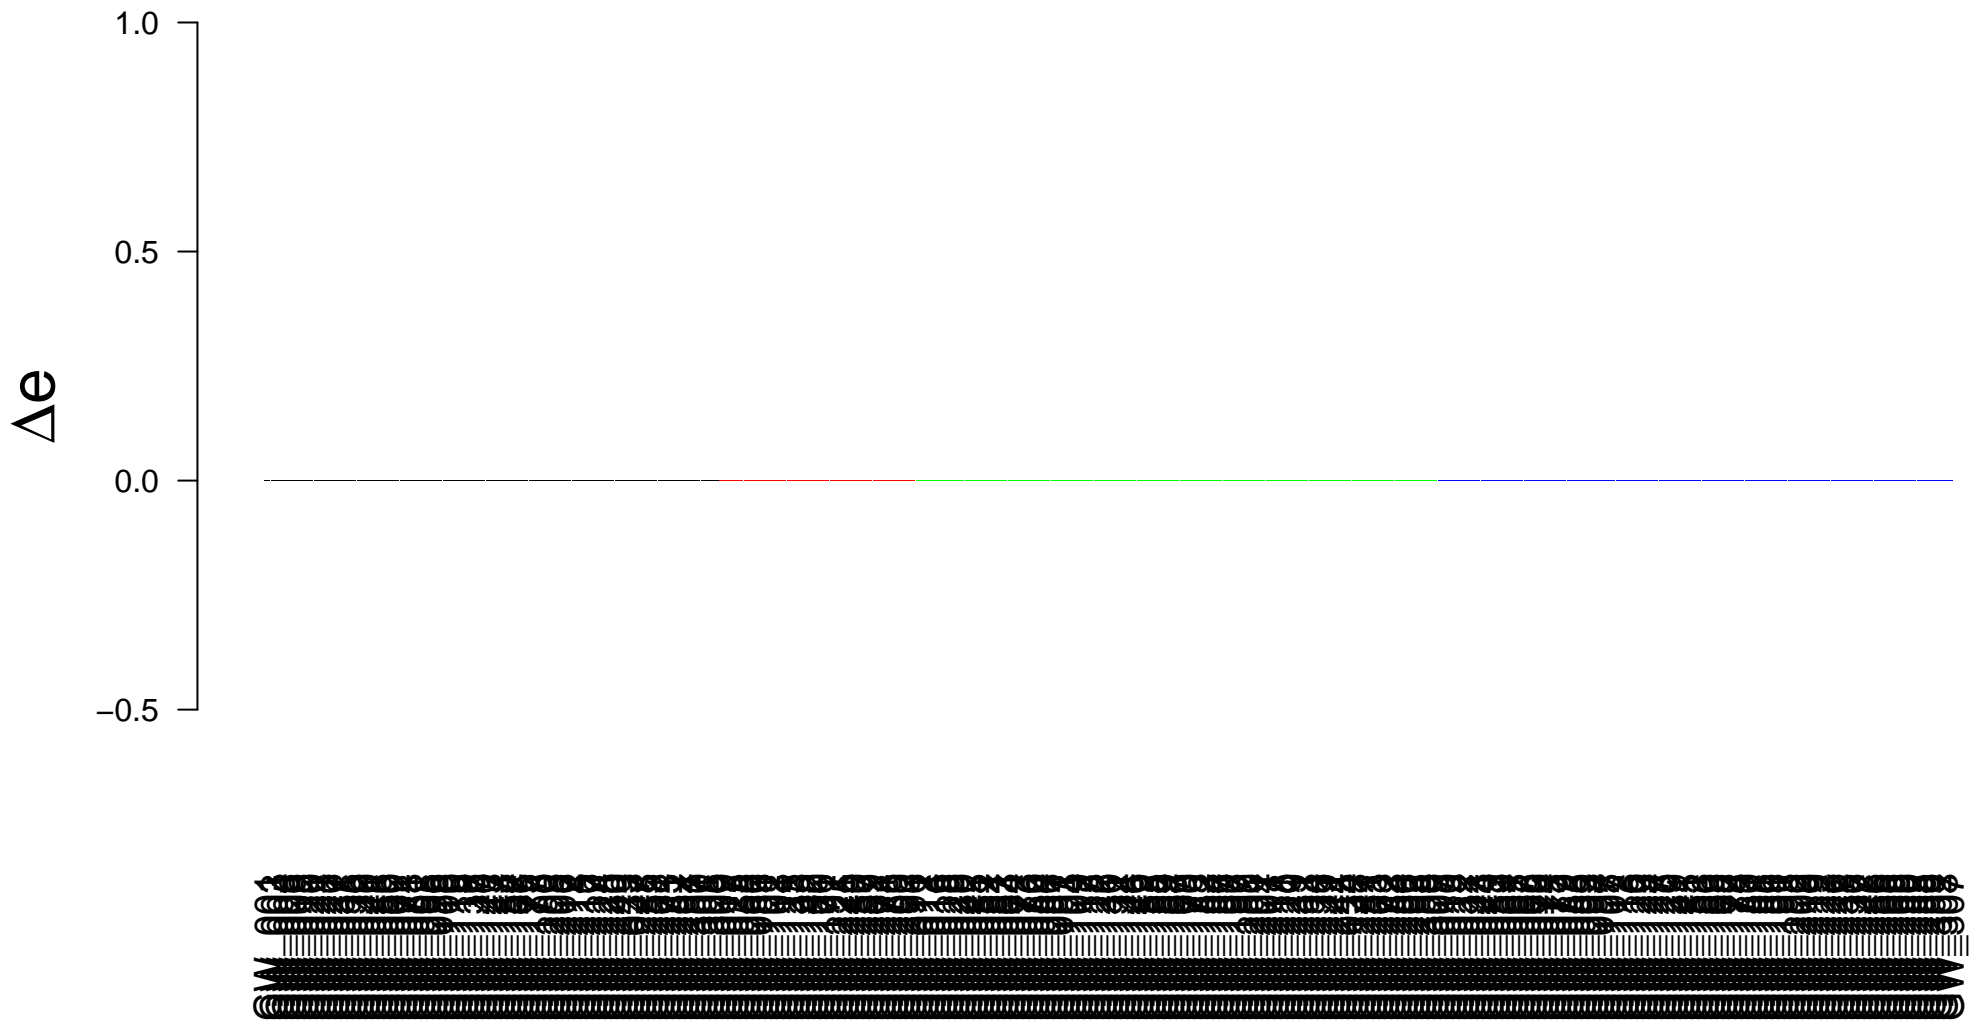

Expression of RNA polymerase II repressing transcription factor binding in Spot H

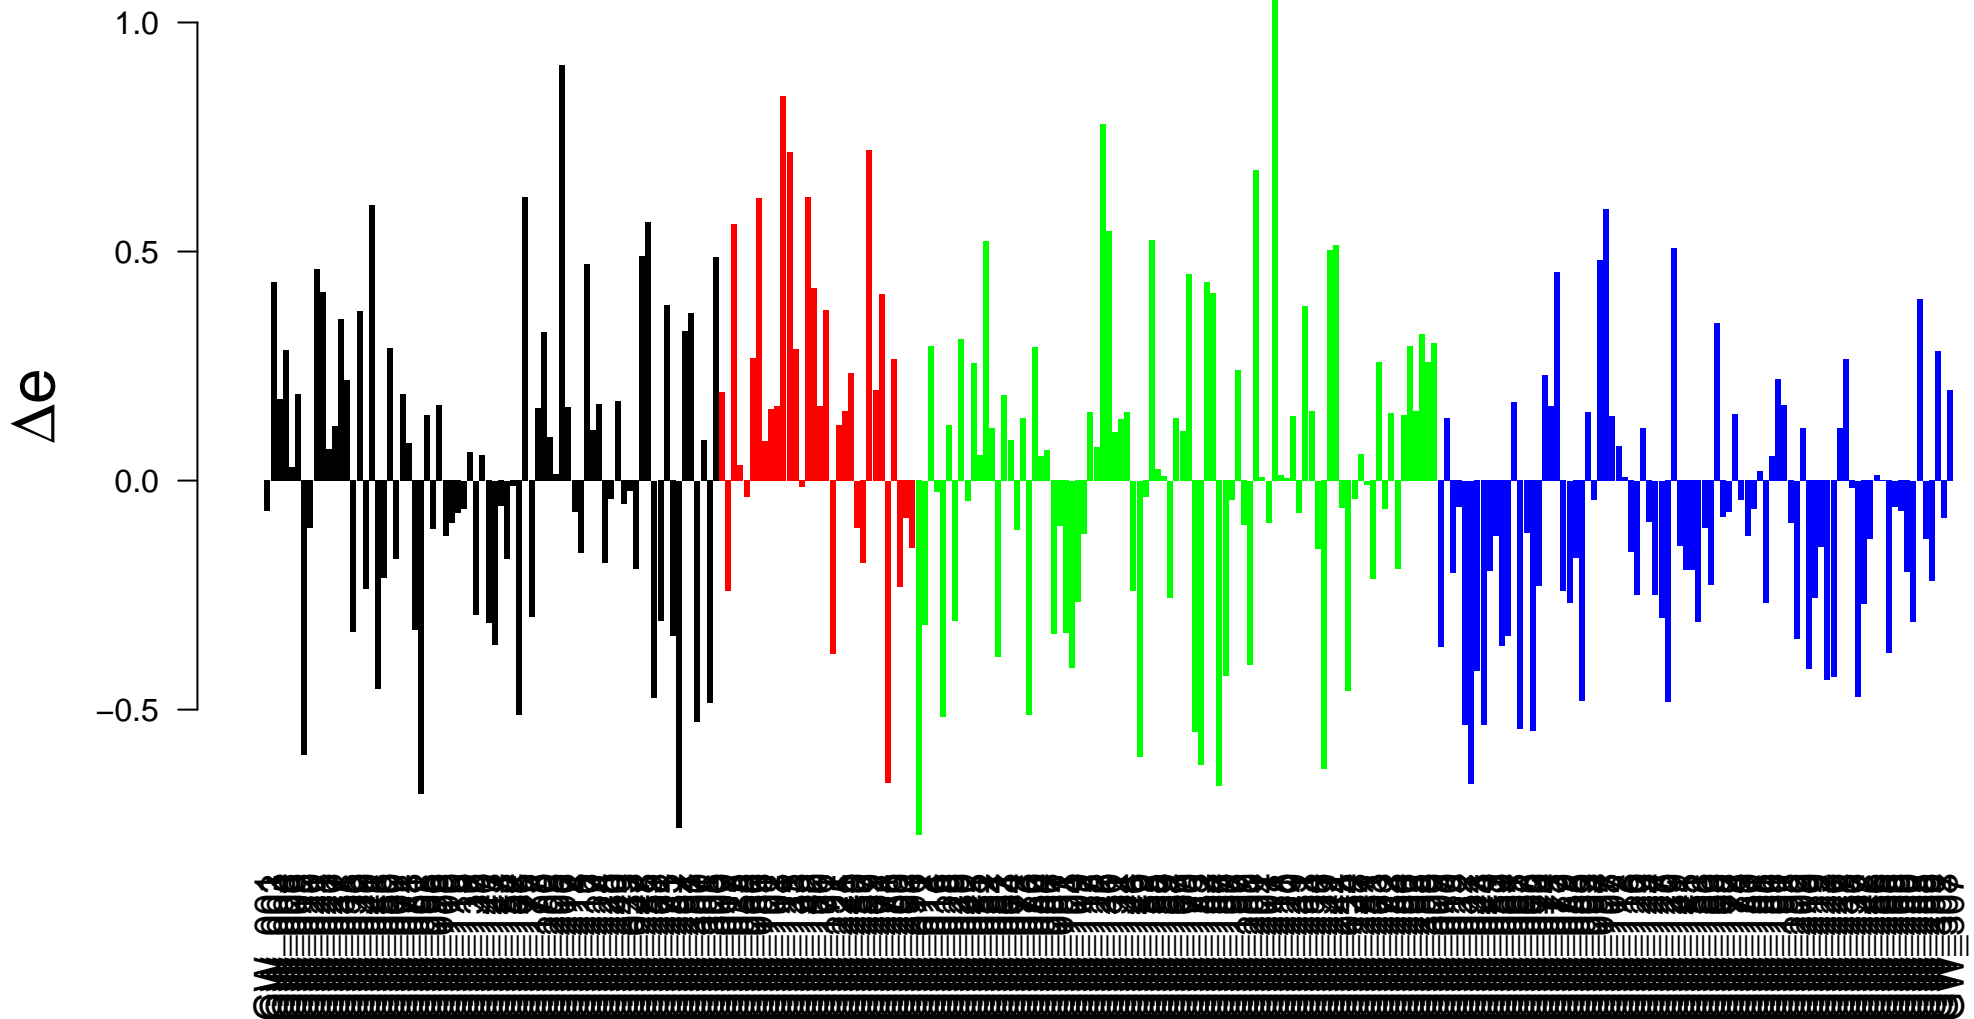

Expression of RNA polymerase II repressing transcription factor binding in Spot I

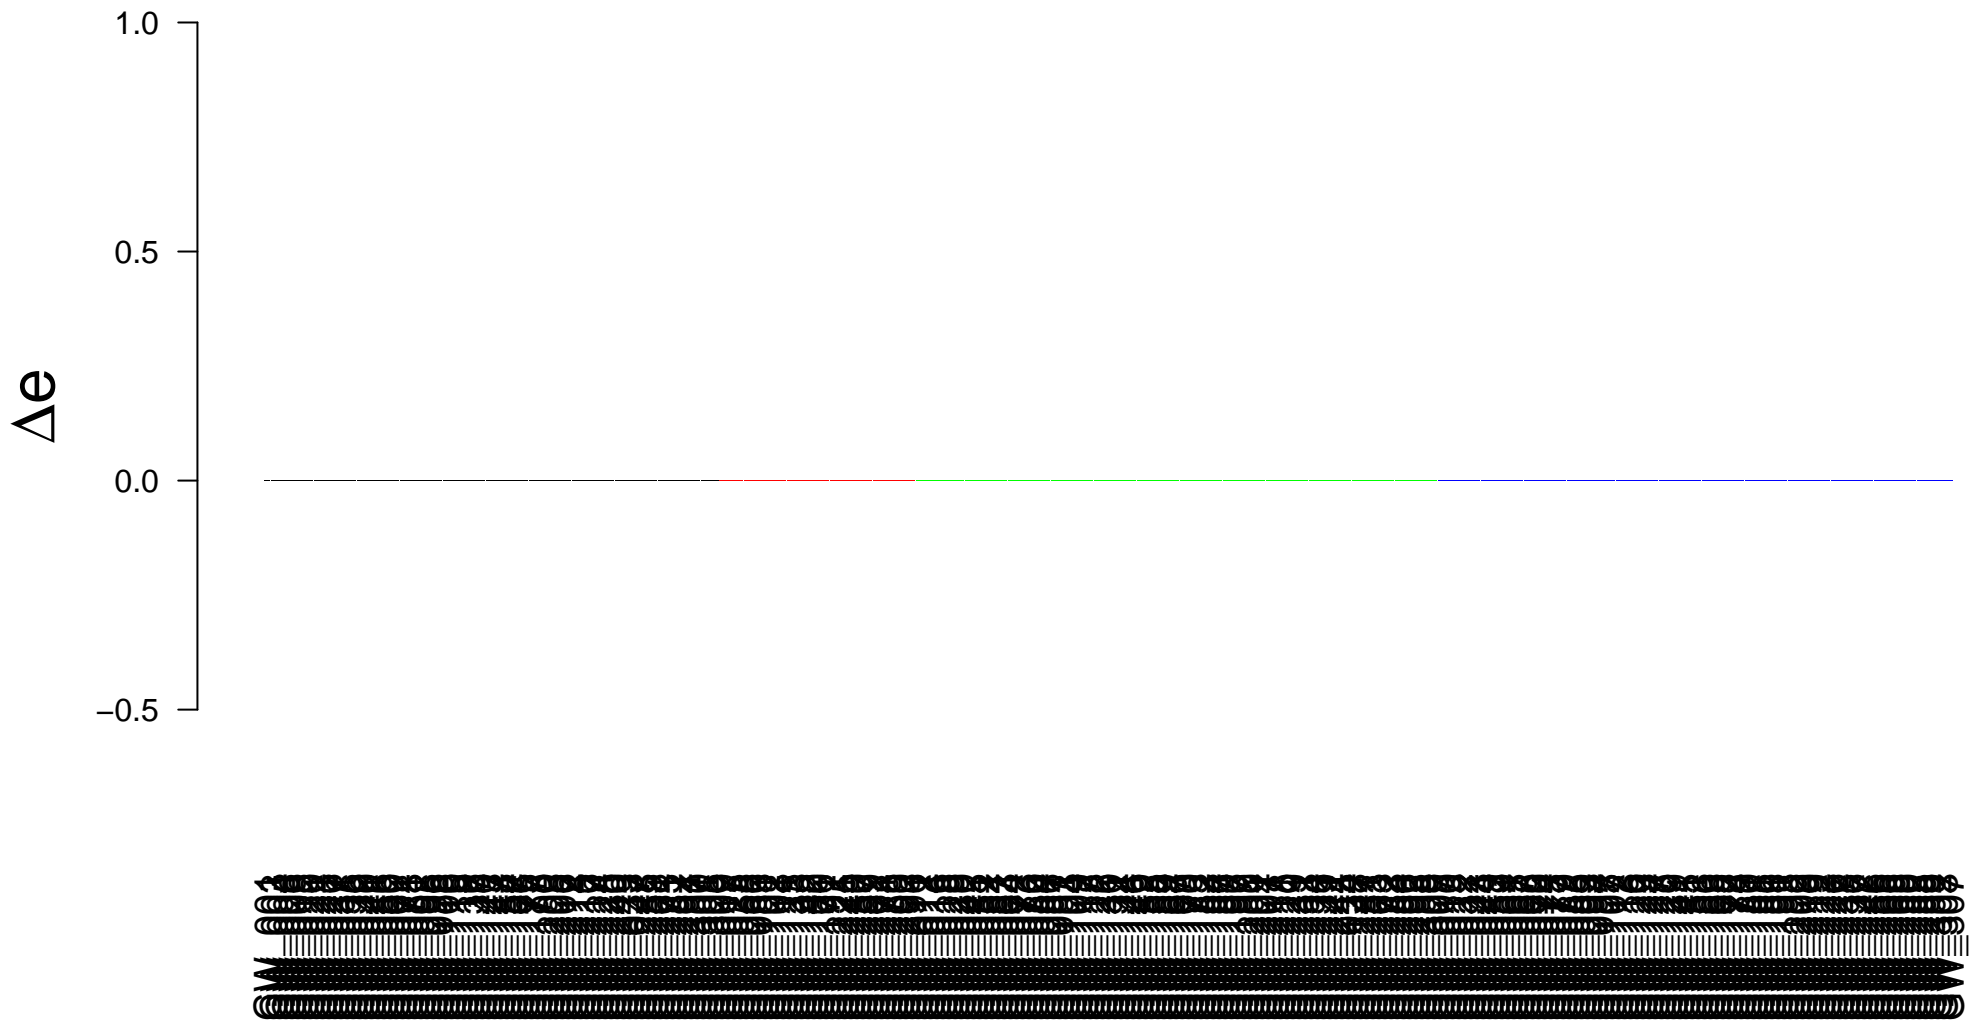

Expression of RNA polymerase II repressing transcription factor binding in Spot J

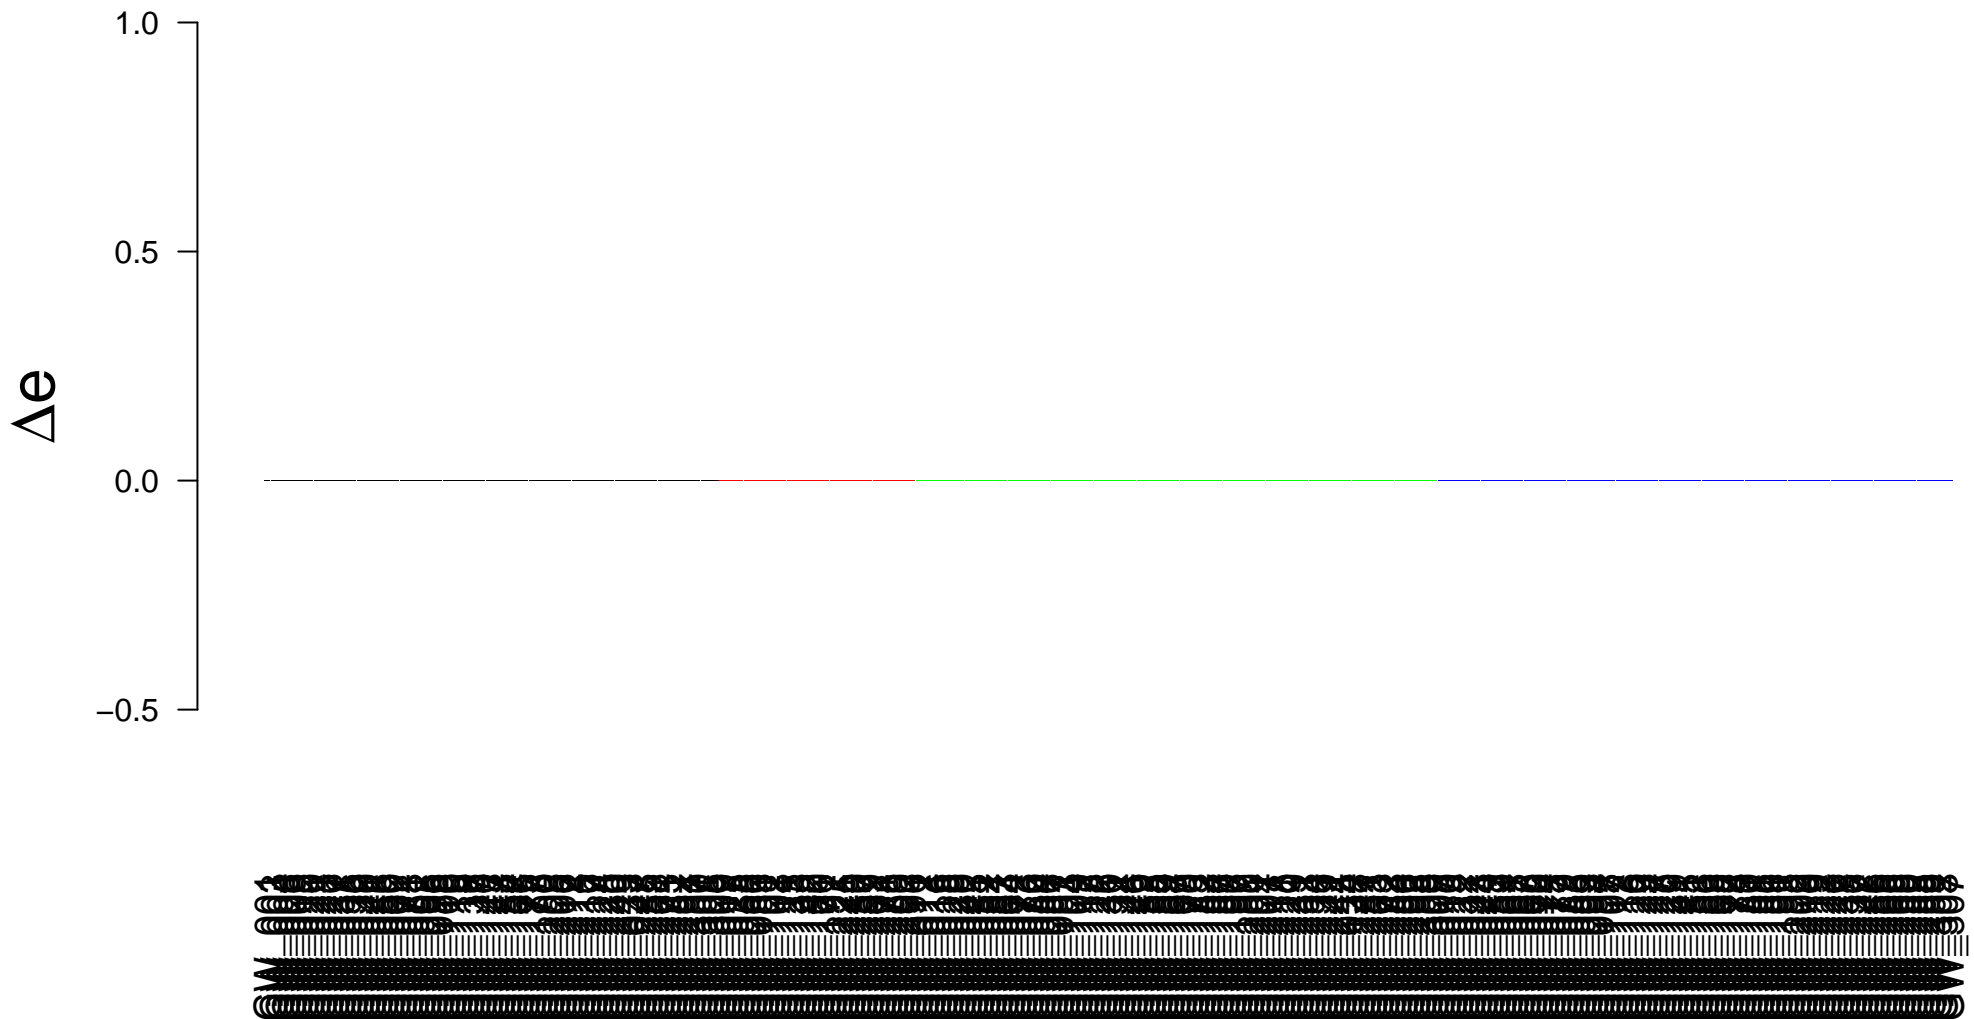

Expression of RNA polymerase II repressing transcription factor binding in Spot K

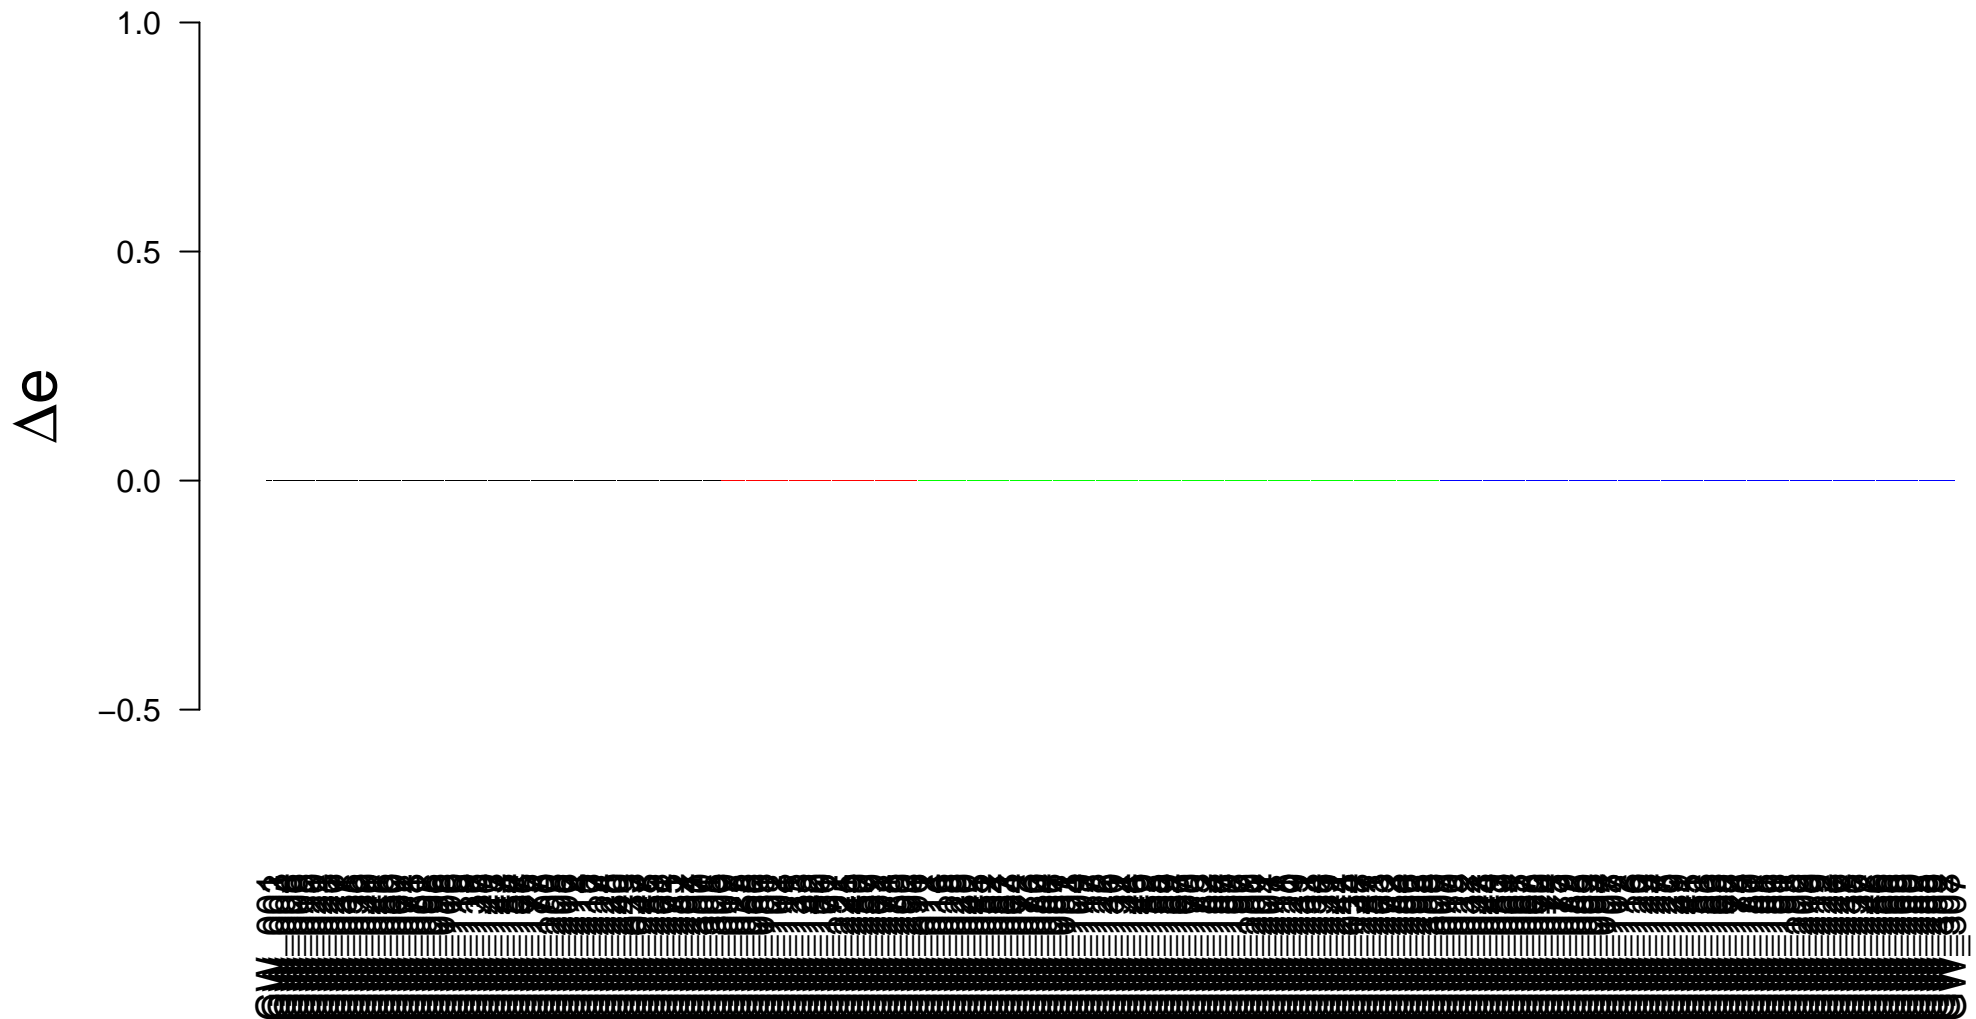

Expression of RNA polymerase II repressing transcription factor binding in Spot L

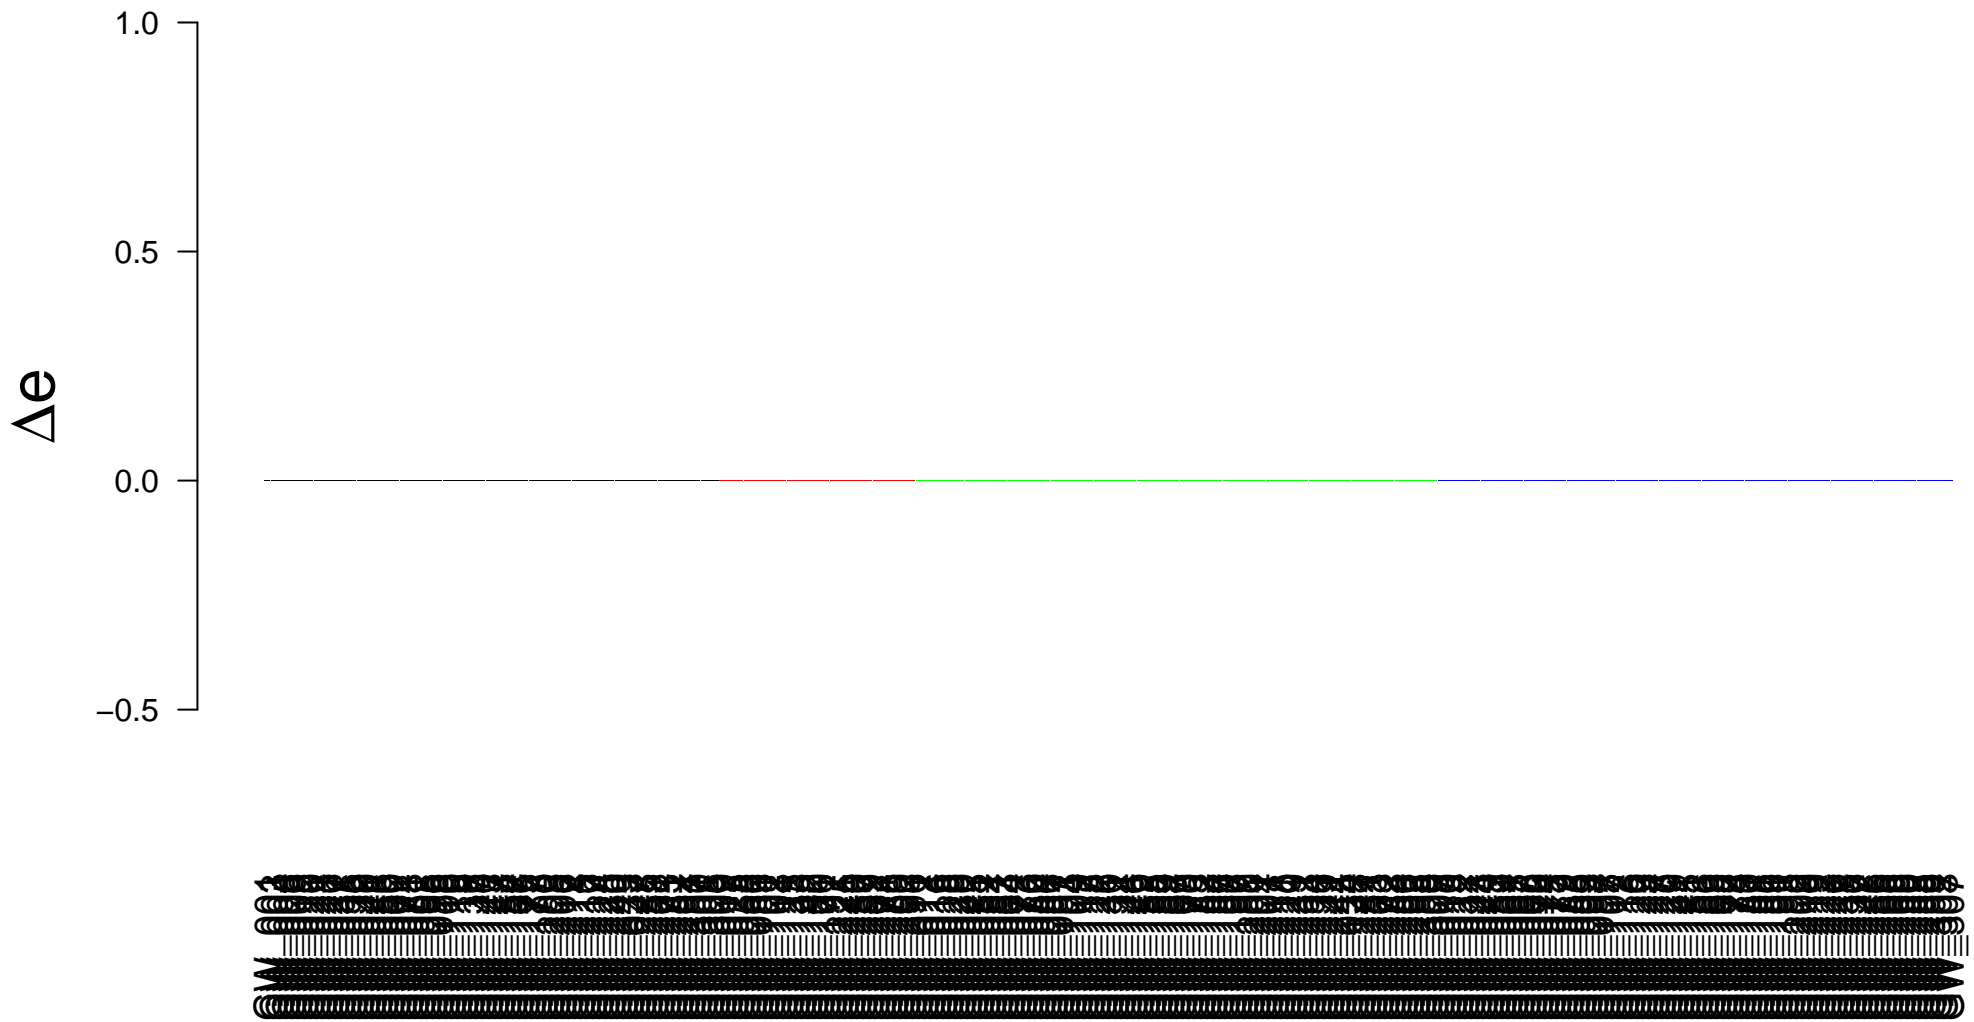

Expression of RNA polymerase II repressing transcription factor binding in Spot M

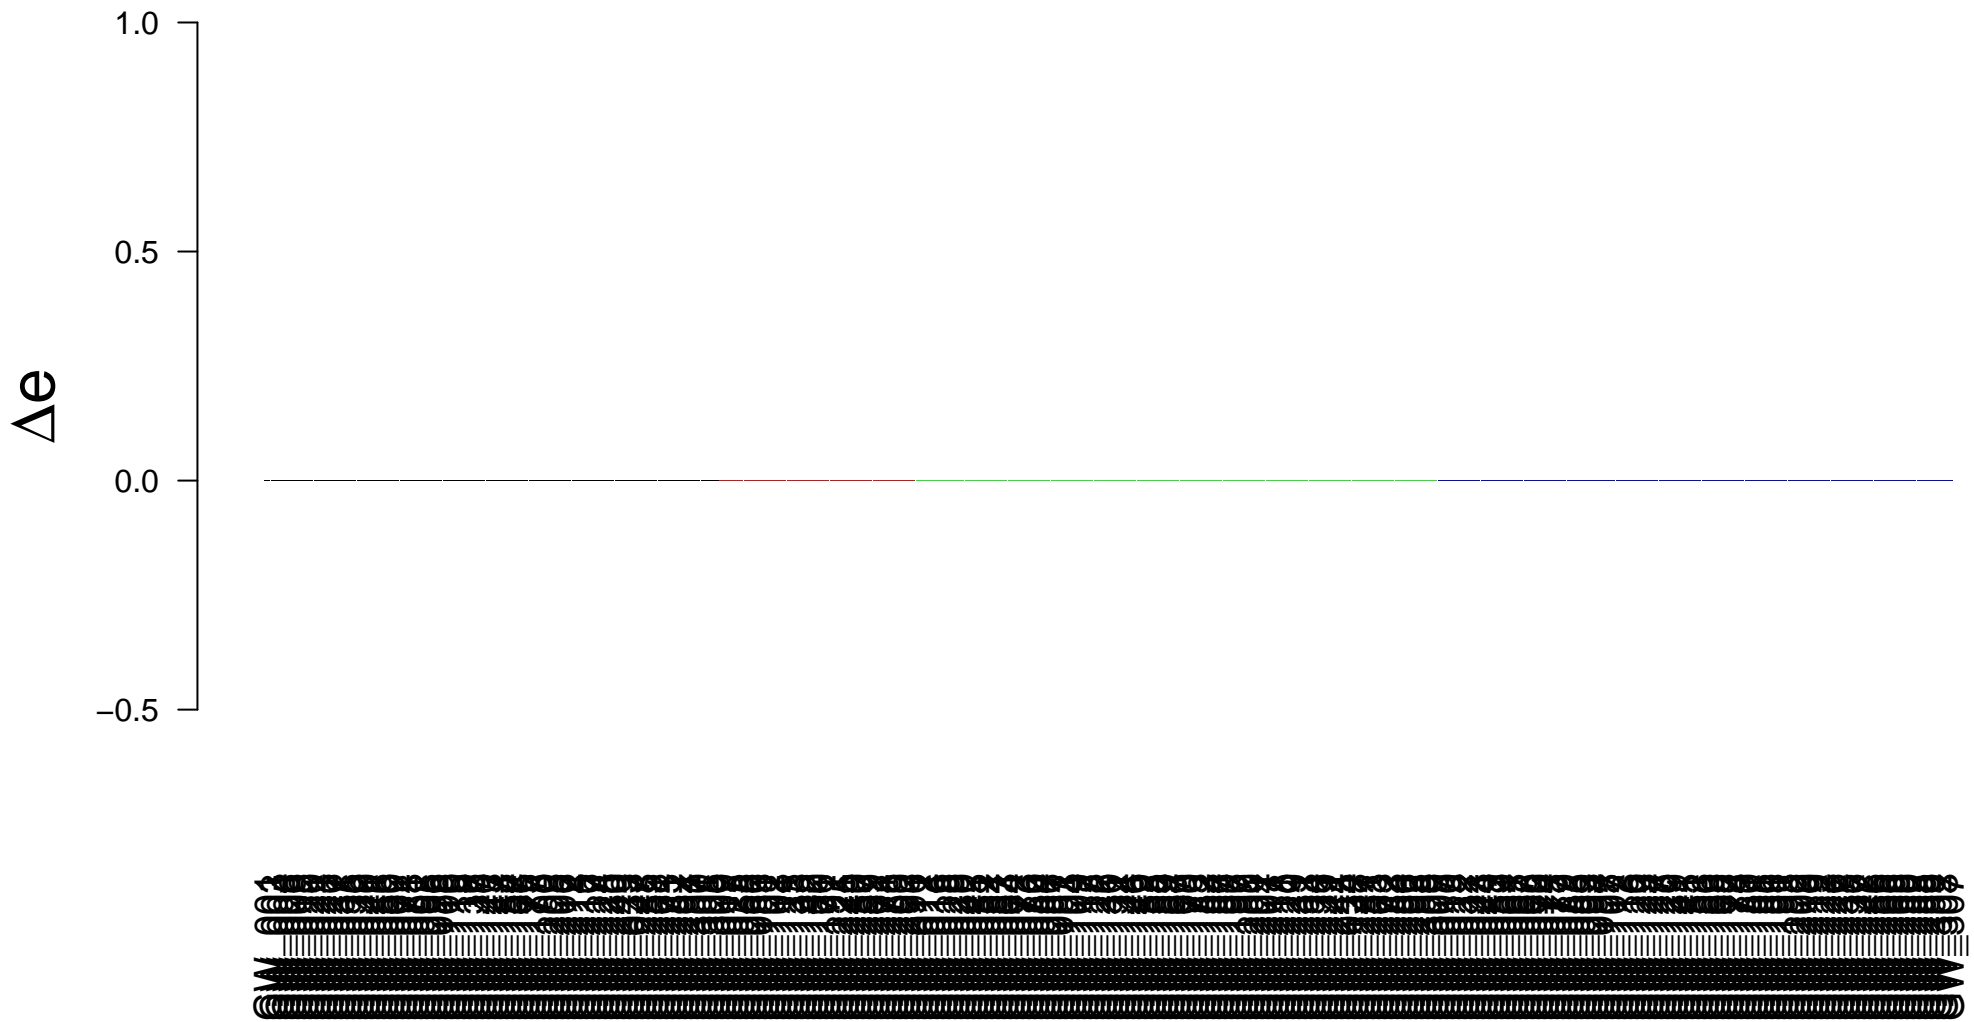

Expression of RNA polymerase II repressing transcription factor binding in Spot N

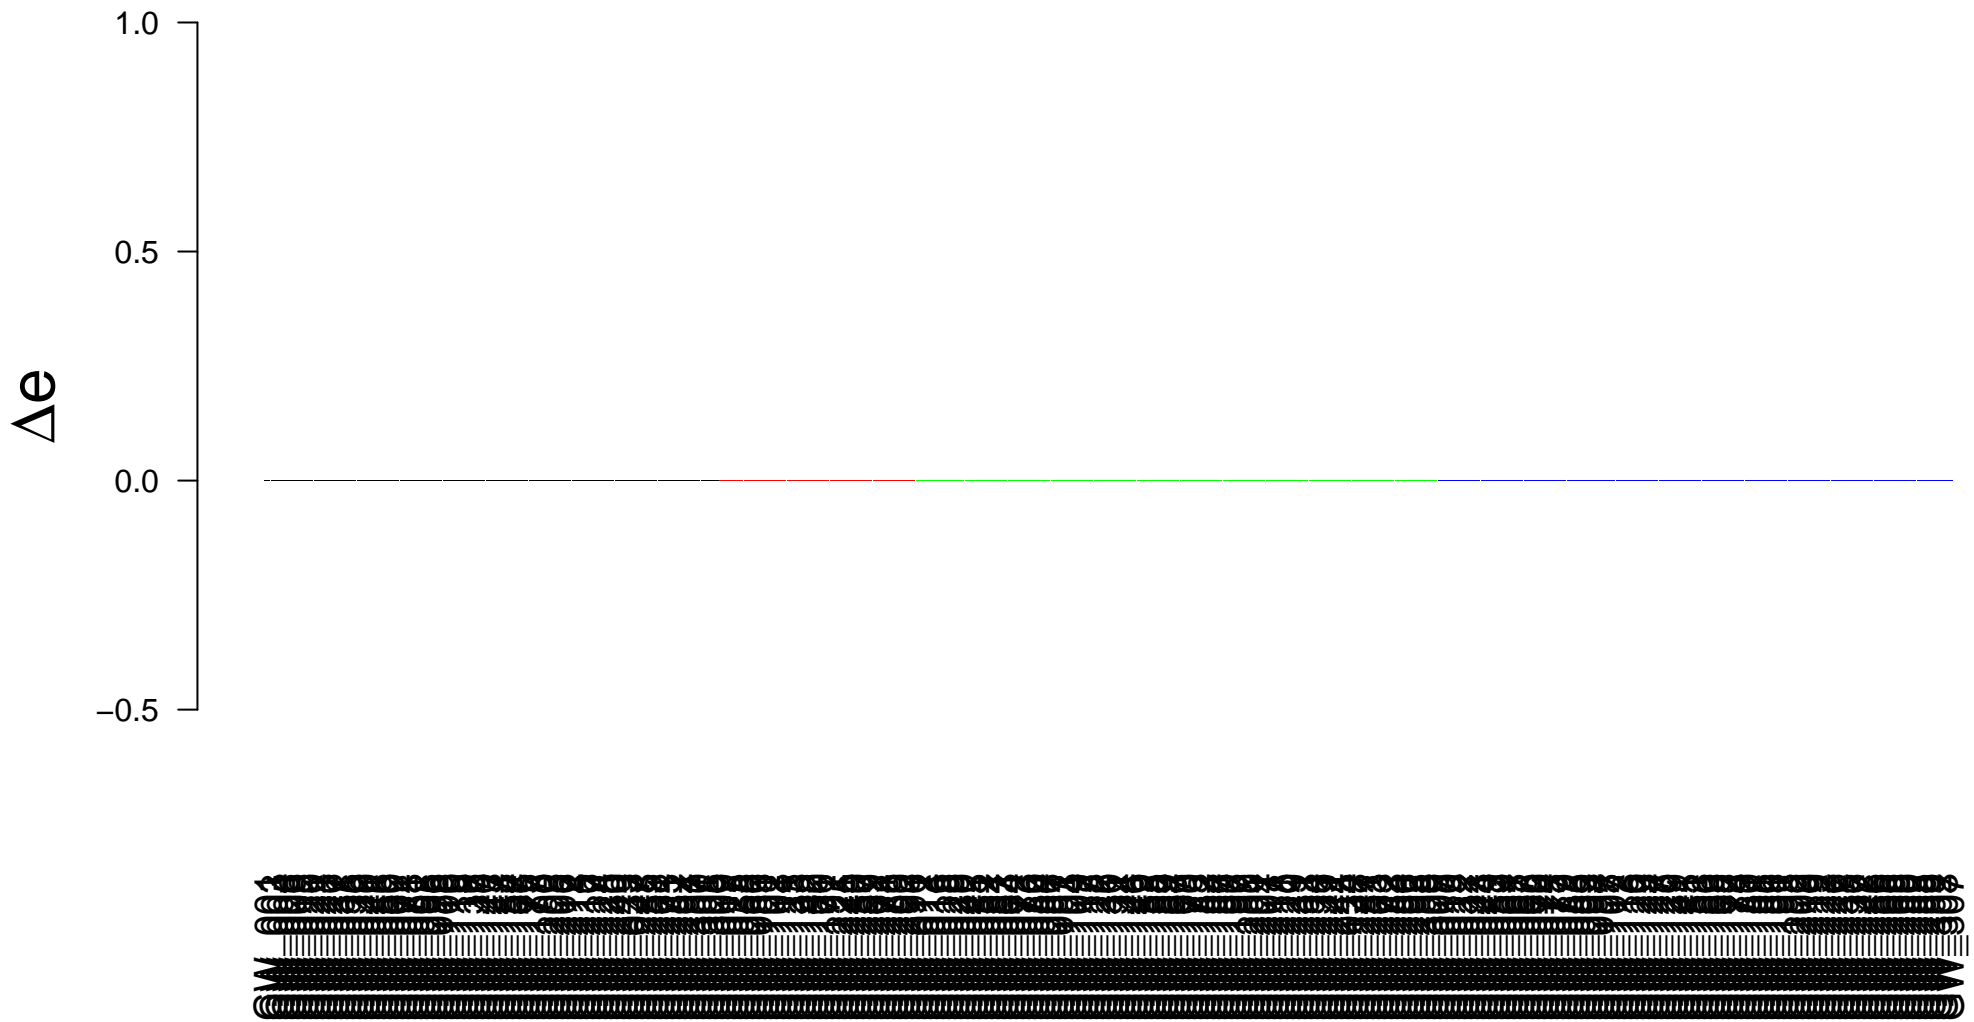

Expression of RNA polymerase II repressing transcription factor binding in Spot O

Expression of RNA polymerase II repressing transcription factor binding in Spot P

Expression of RNA polymerase II repressing transcription factor binding in Spot Q

Expression of RNA polymerase II repressing transcription factor binding in Spot R
