

RNA polymerase II transcription corepressor activity

RNA polymerase II transcription corepressor activity

Enrichment in spots: RNA polymerase II transcription corepressor activity

Expression of RNA polymerase II transcription corepressor activity in Spot A

Expression of RNA polymerase II transcription corepressor activity in Spot B

Expression of RNA polymerase II transcription corepressor activity in Spot C

Expression of RNA polymerase II transcription corepressor activity in Spot D

Expression of RNA polymerase II transcription corepressor activity in Spot E

Expression of RNA polymerase II transcription corepressor activity in Spot F

Expression of RNA polymerase II transcription corepressor activity in Spot G

Expression of RNA polymerase II transcription corepressor activity in Spot H

Expression of RNA polymerase II transcription corepressor activity in Spot I

Expression of RNA polymerase II transcription corepressor activity in Spot J

Expression of RNA polymerase II transcription corepressor activity in Spot K
