

actin filament binding

actin filament binding

Enrichment in spots: actin filament binding

Expression of actin filament binding in Spot A

Δe

Expression of actin filament binding in Spot B

Expression of actin filament binding in Spot C

Δe

Expression of actin filament binding in Spot D

Expression of actin filament binding in Spot E

Expression of actin filament binding in Spot F

Expression of actin filament binding in Spot G

Expression of actin filament binding in Spot H

Expression of actin filament binding in Spot I

Expression of actin filament binding in Spot J

Expression of actin filament binding in Spot K

Expression of actin filament binding in Spot L

Expression of actin filament binding in Spot M

Expression of actin filament binding in Spot N

Δe

Expression of actin filament binding in Spot O

Expression of actin filament binding in Spot P

Δe

Expression of actin filament binding in Spot Q

Expression of actin filament binding in Spot R
