

actin polymerization or depolymerization

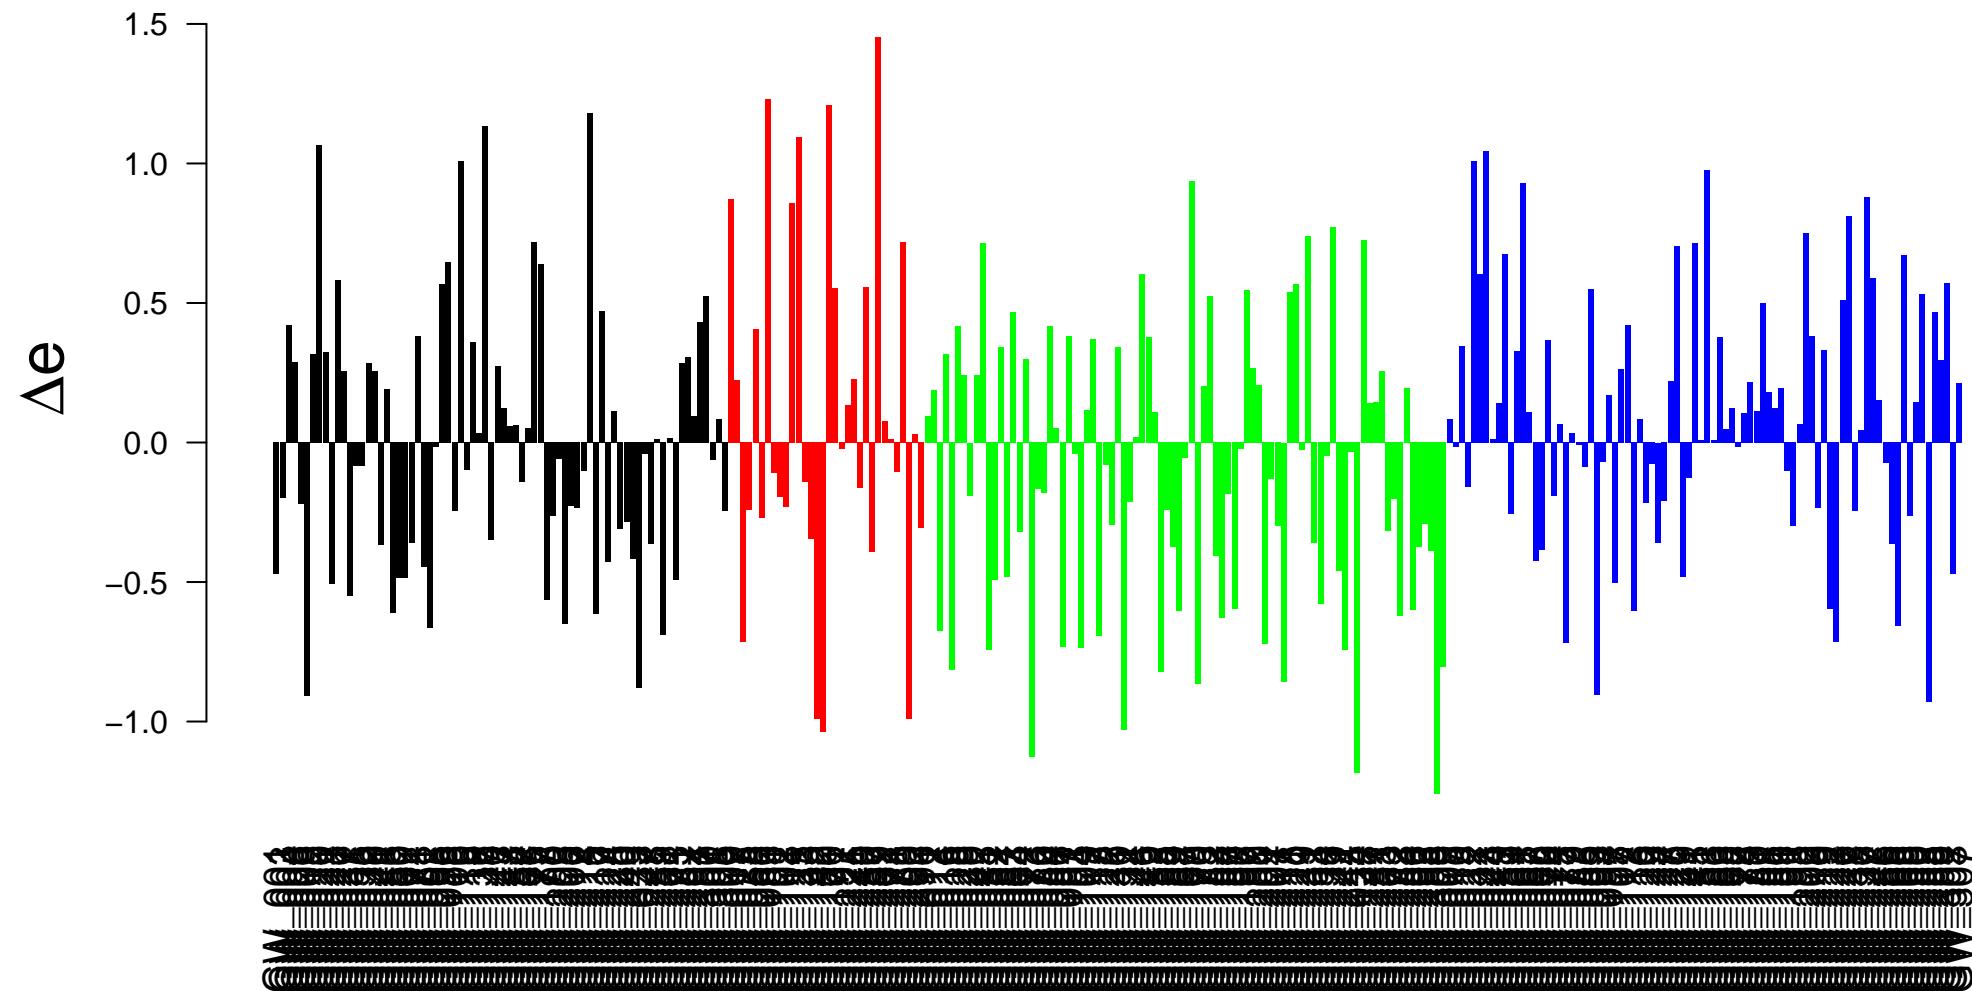

actin polymerization or depolymerization

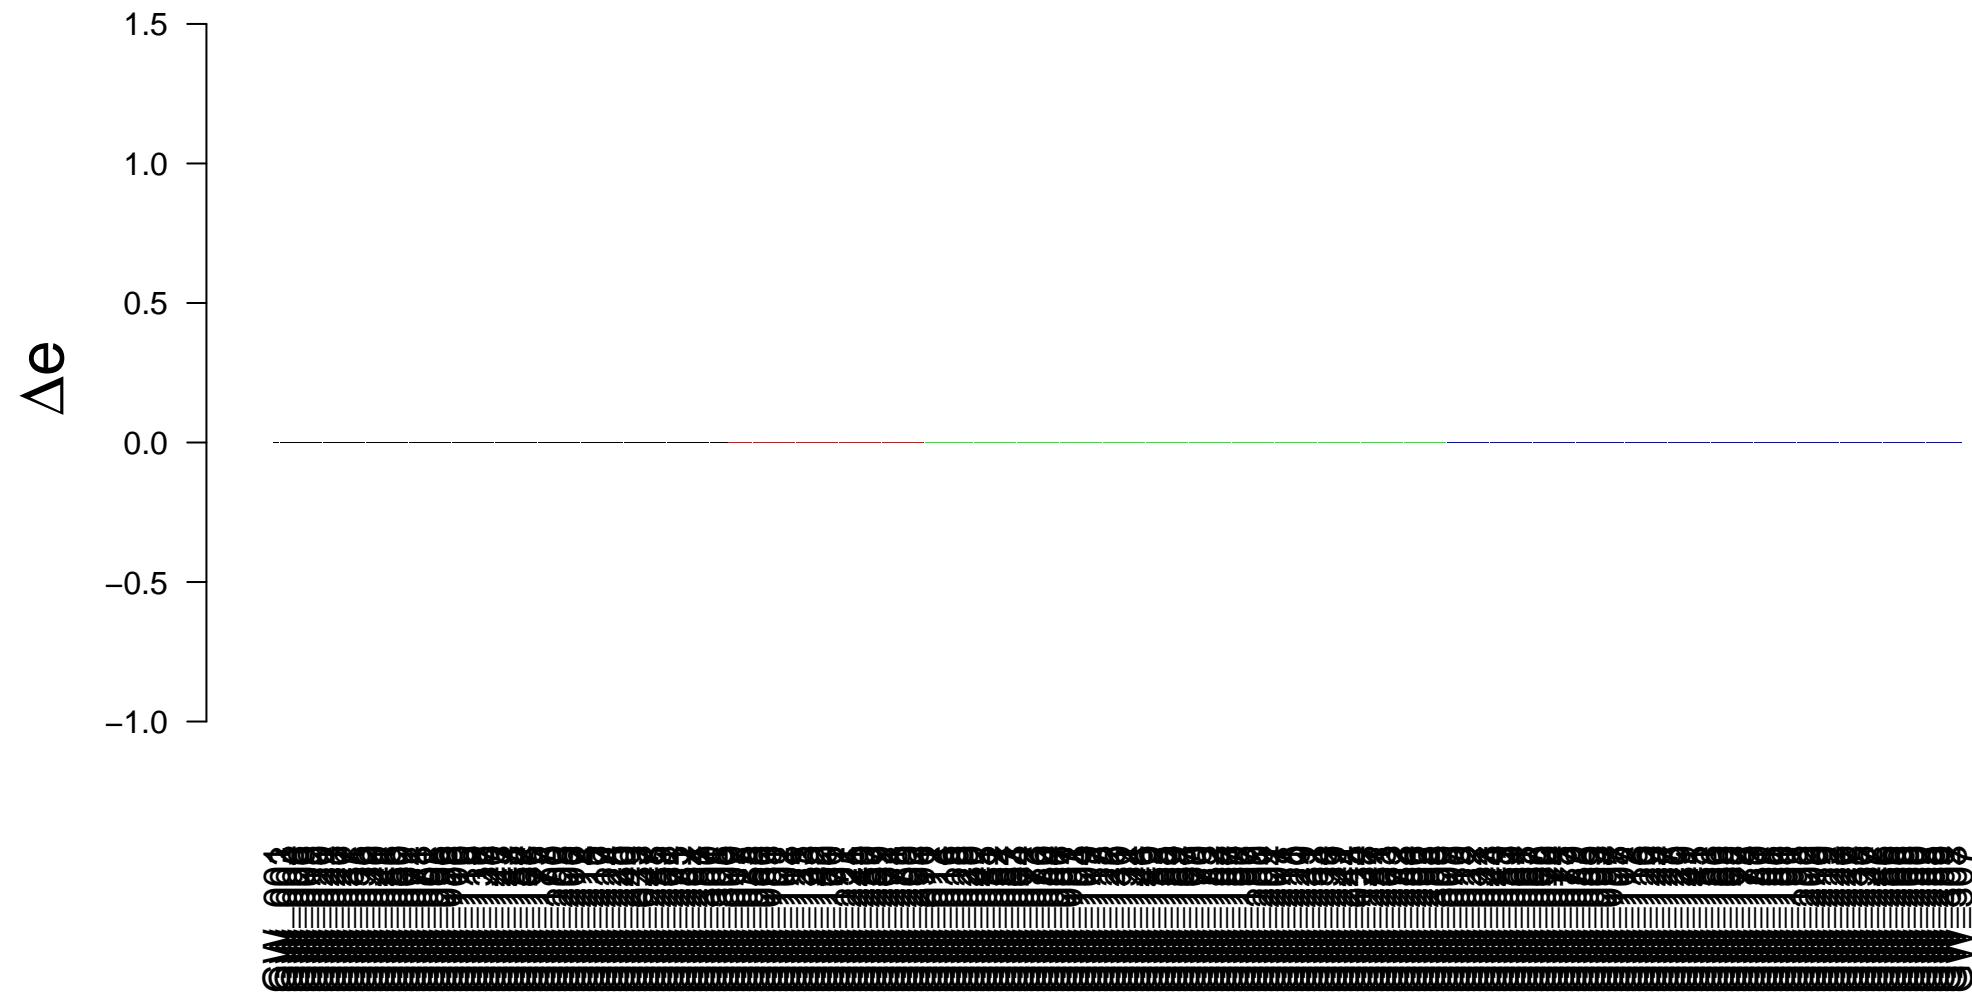

Enrichment in spots: actin polymerization or depolymerization

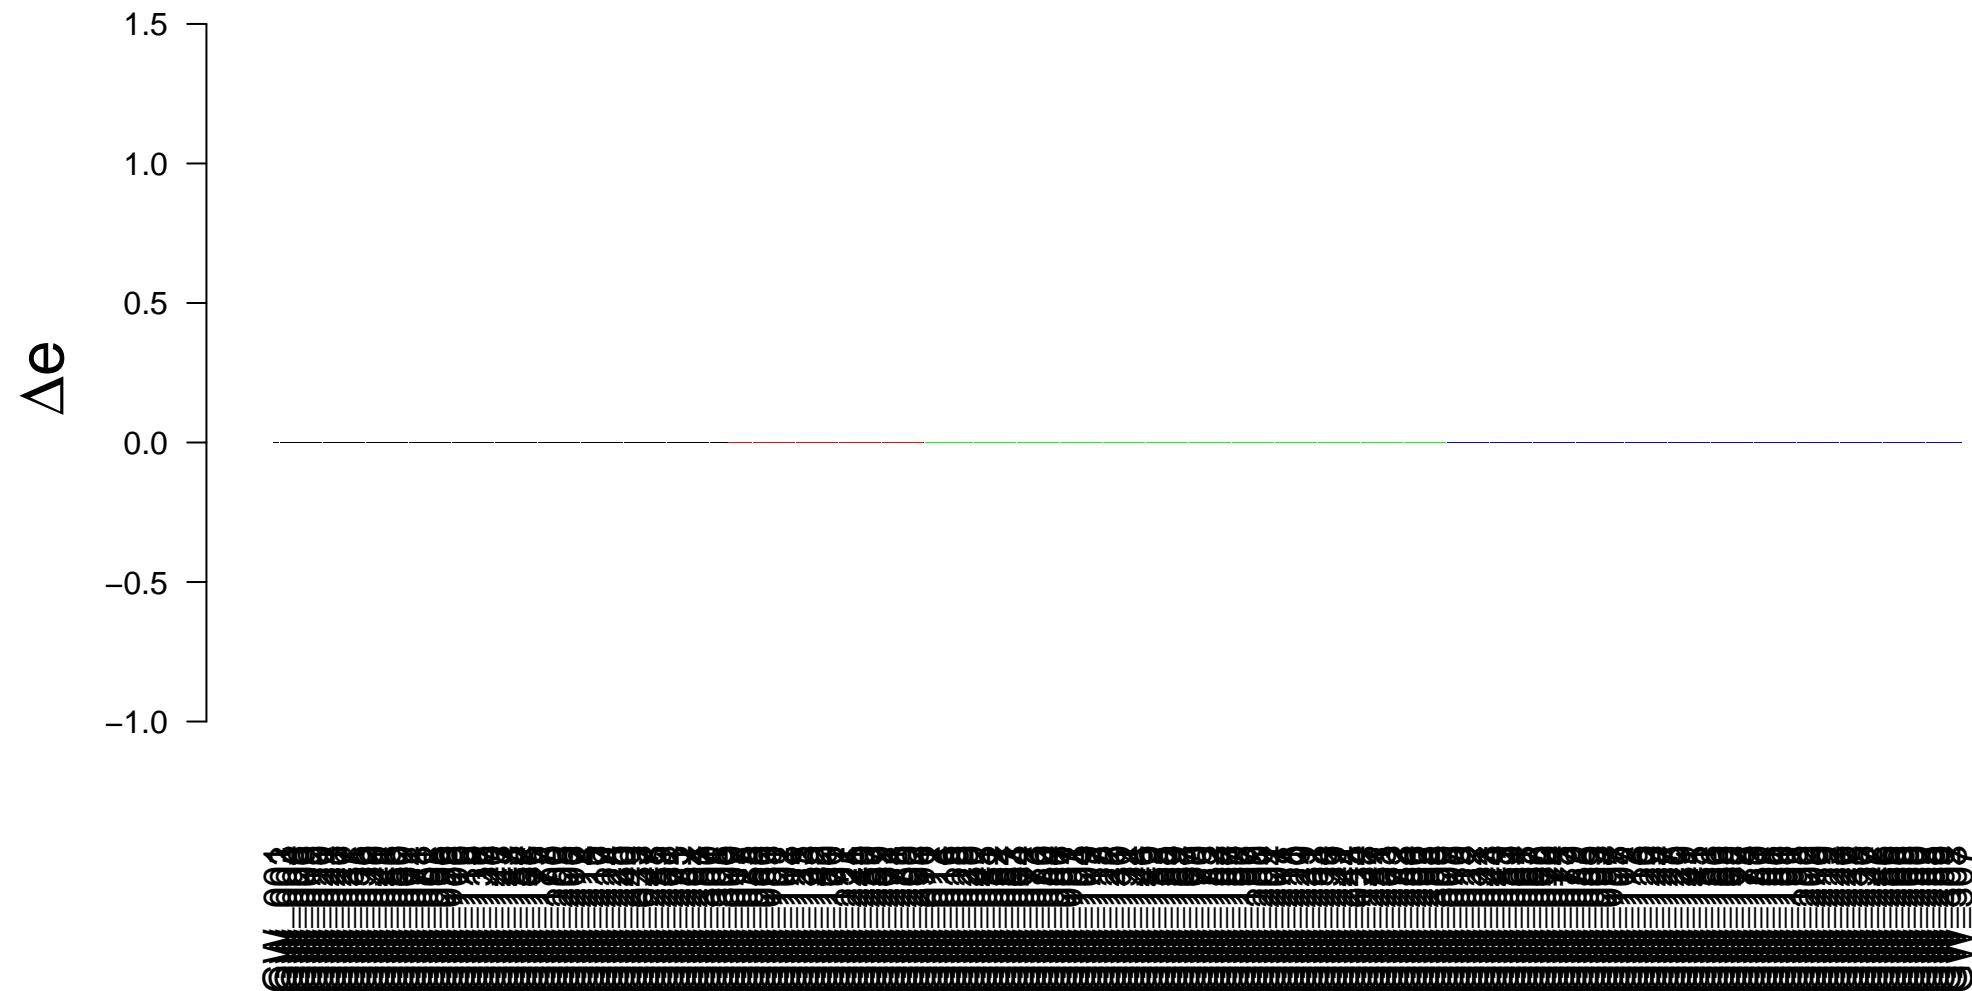

Expression of actin polymerization or depolymerization in Spot A

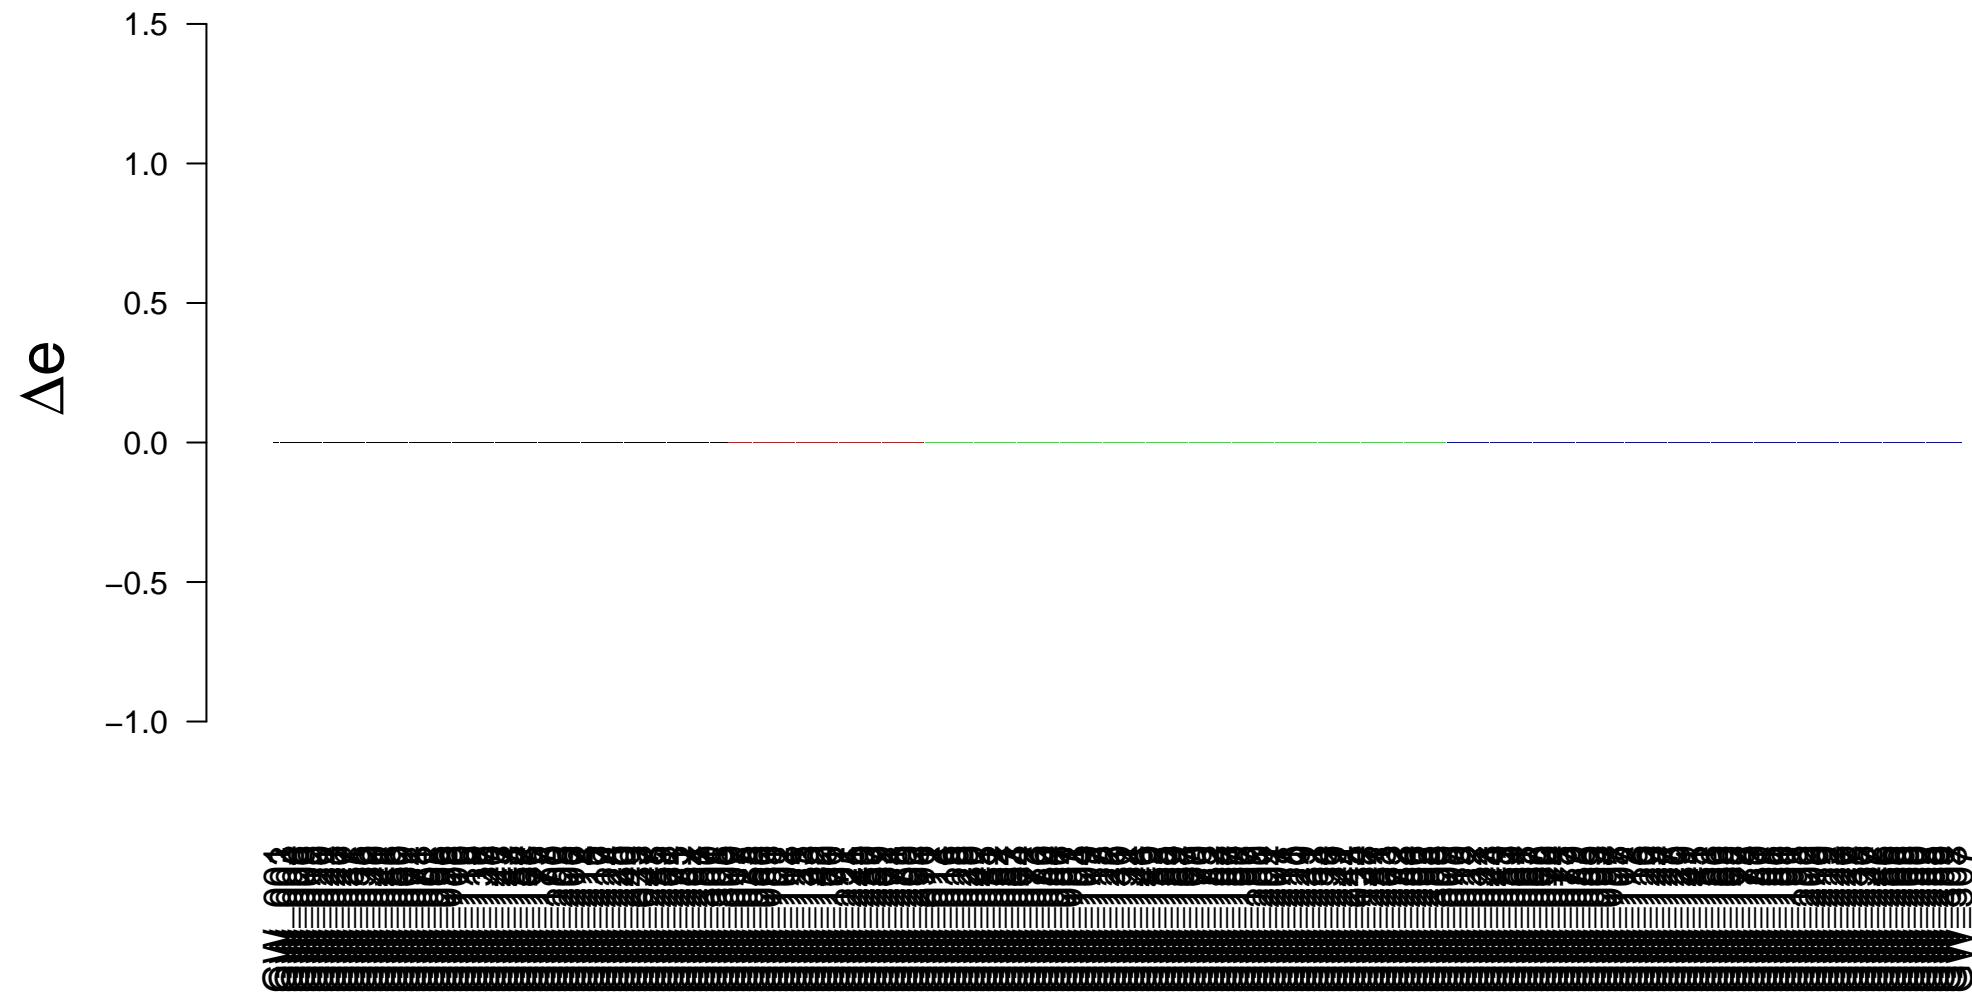

Expression of actin polymerization or depolymerization in Spot B

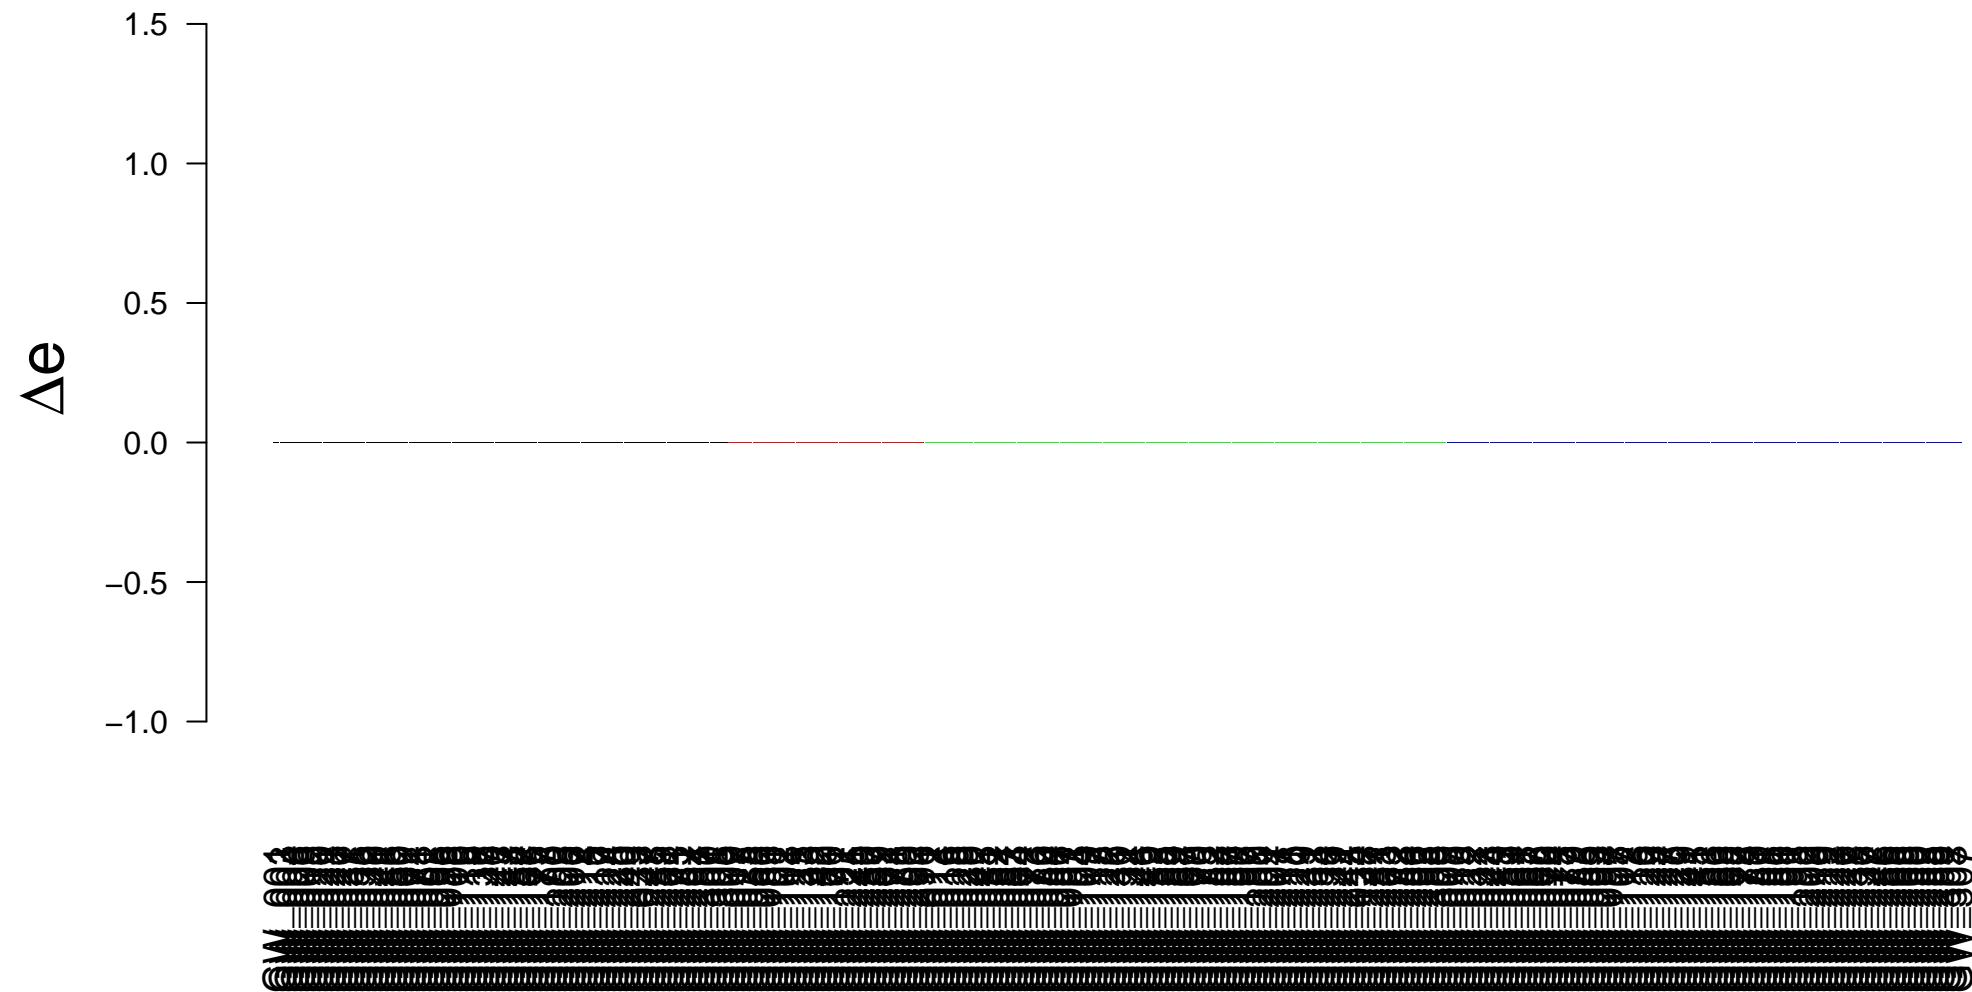

Expression of actin polymerization or depolymerization in Spot C

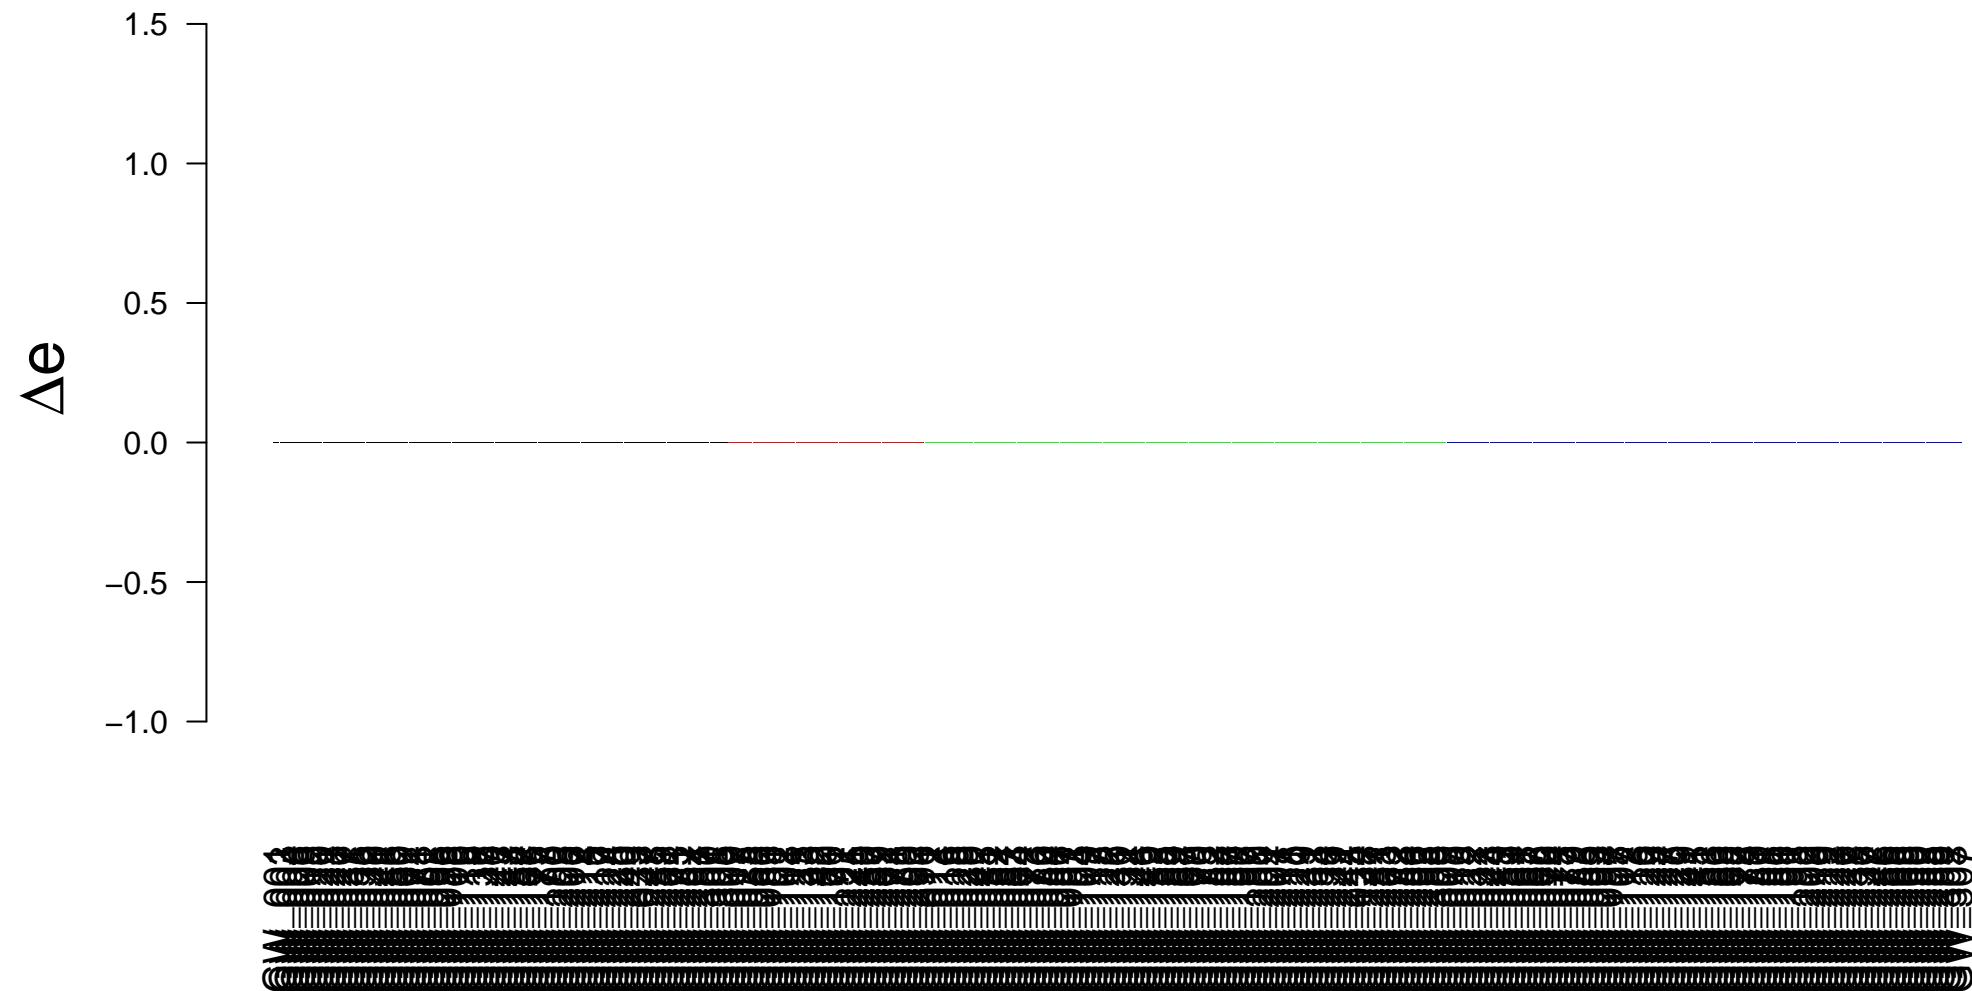

Expression of actin polymerization or depolymerization in Spot D

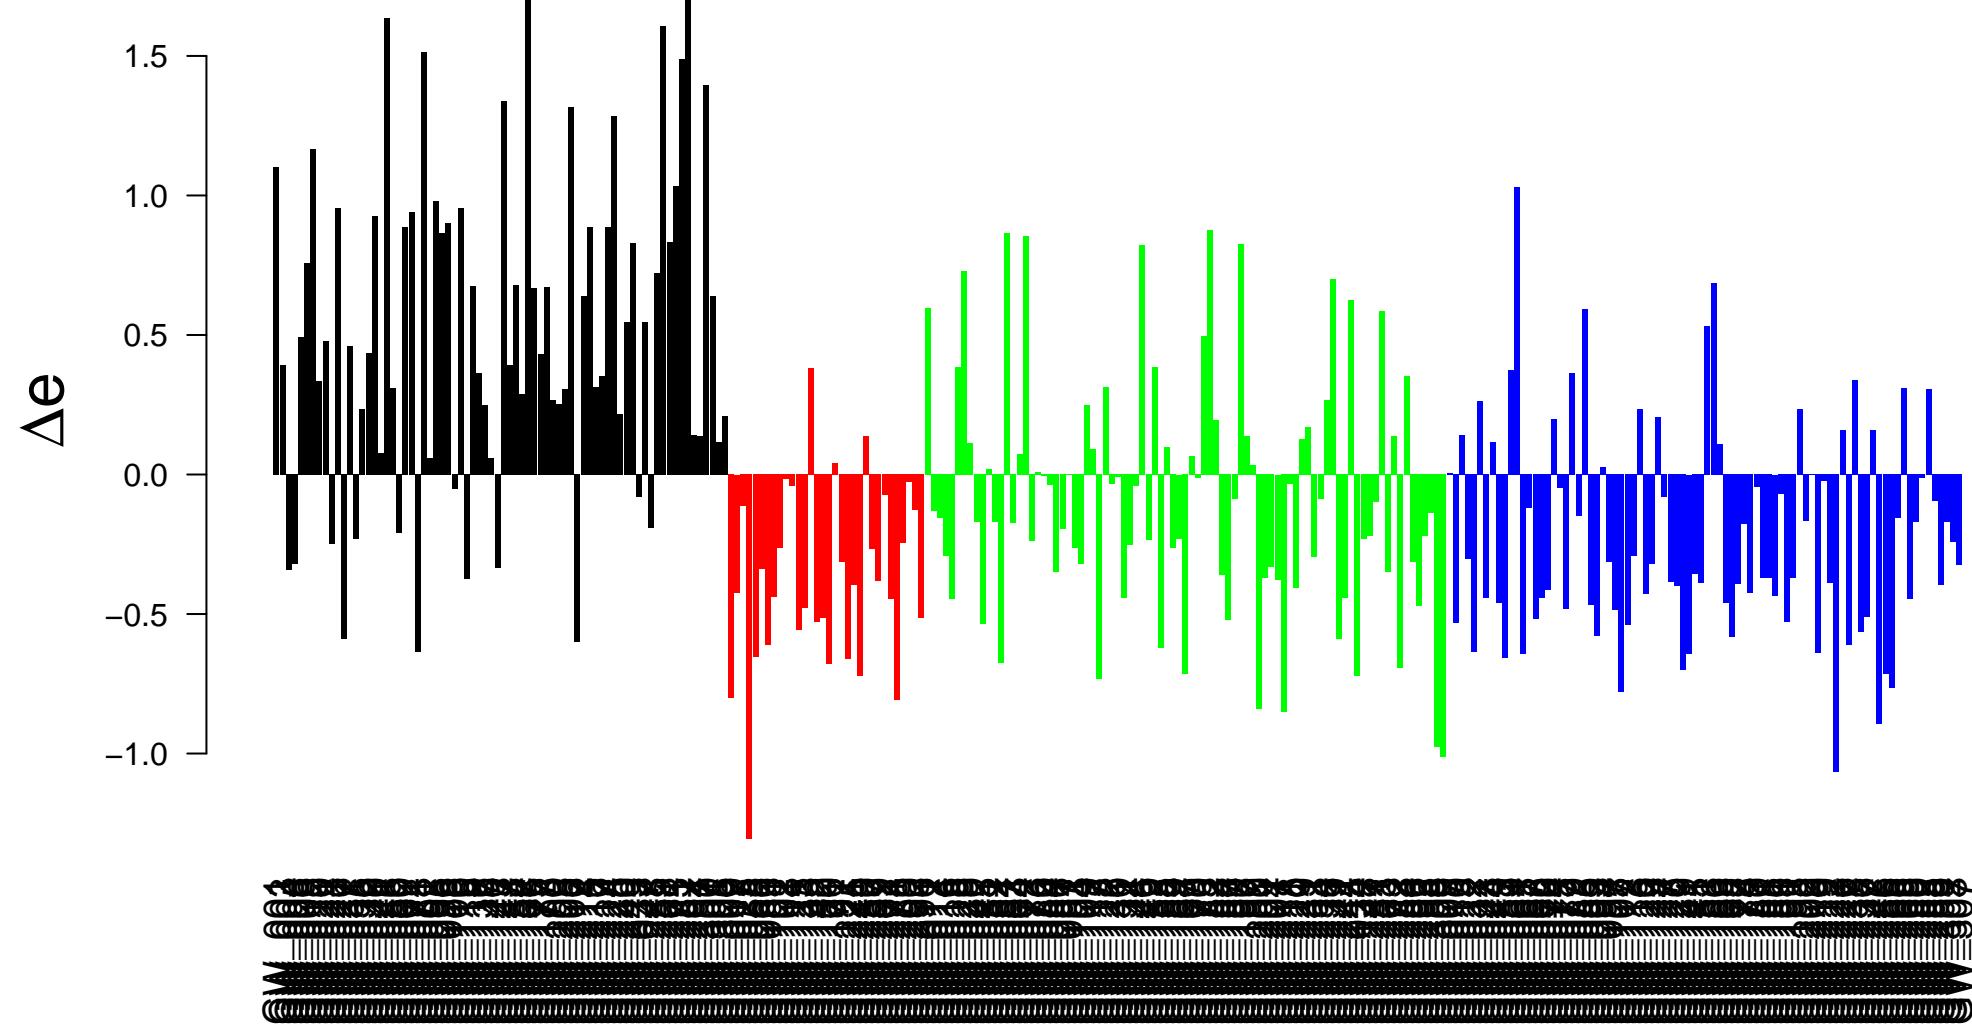

Expression of actin polymerization or depolymerization in Spot E

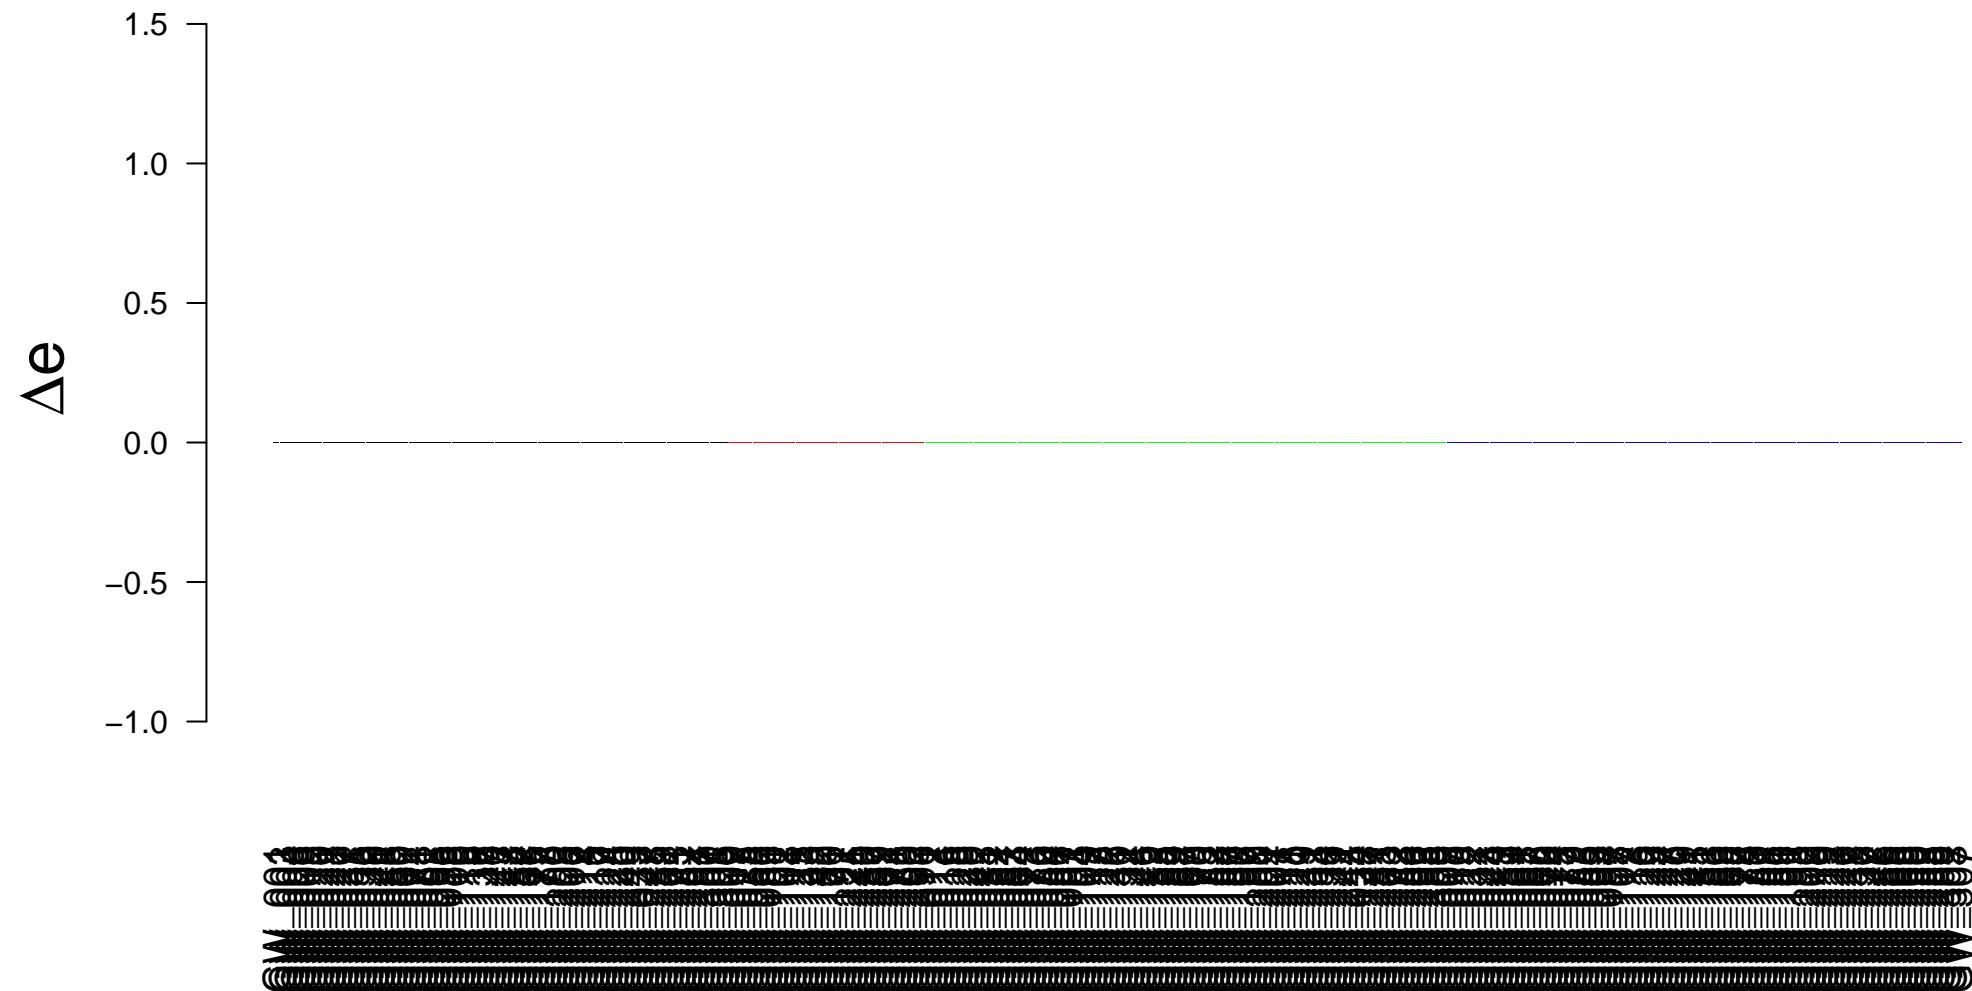

Expression of actin polymerization or depolymerization in Spot F

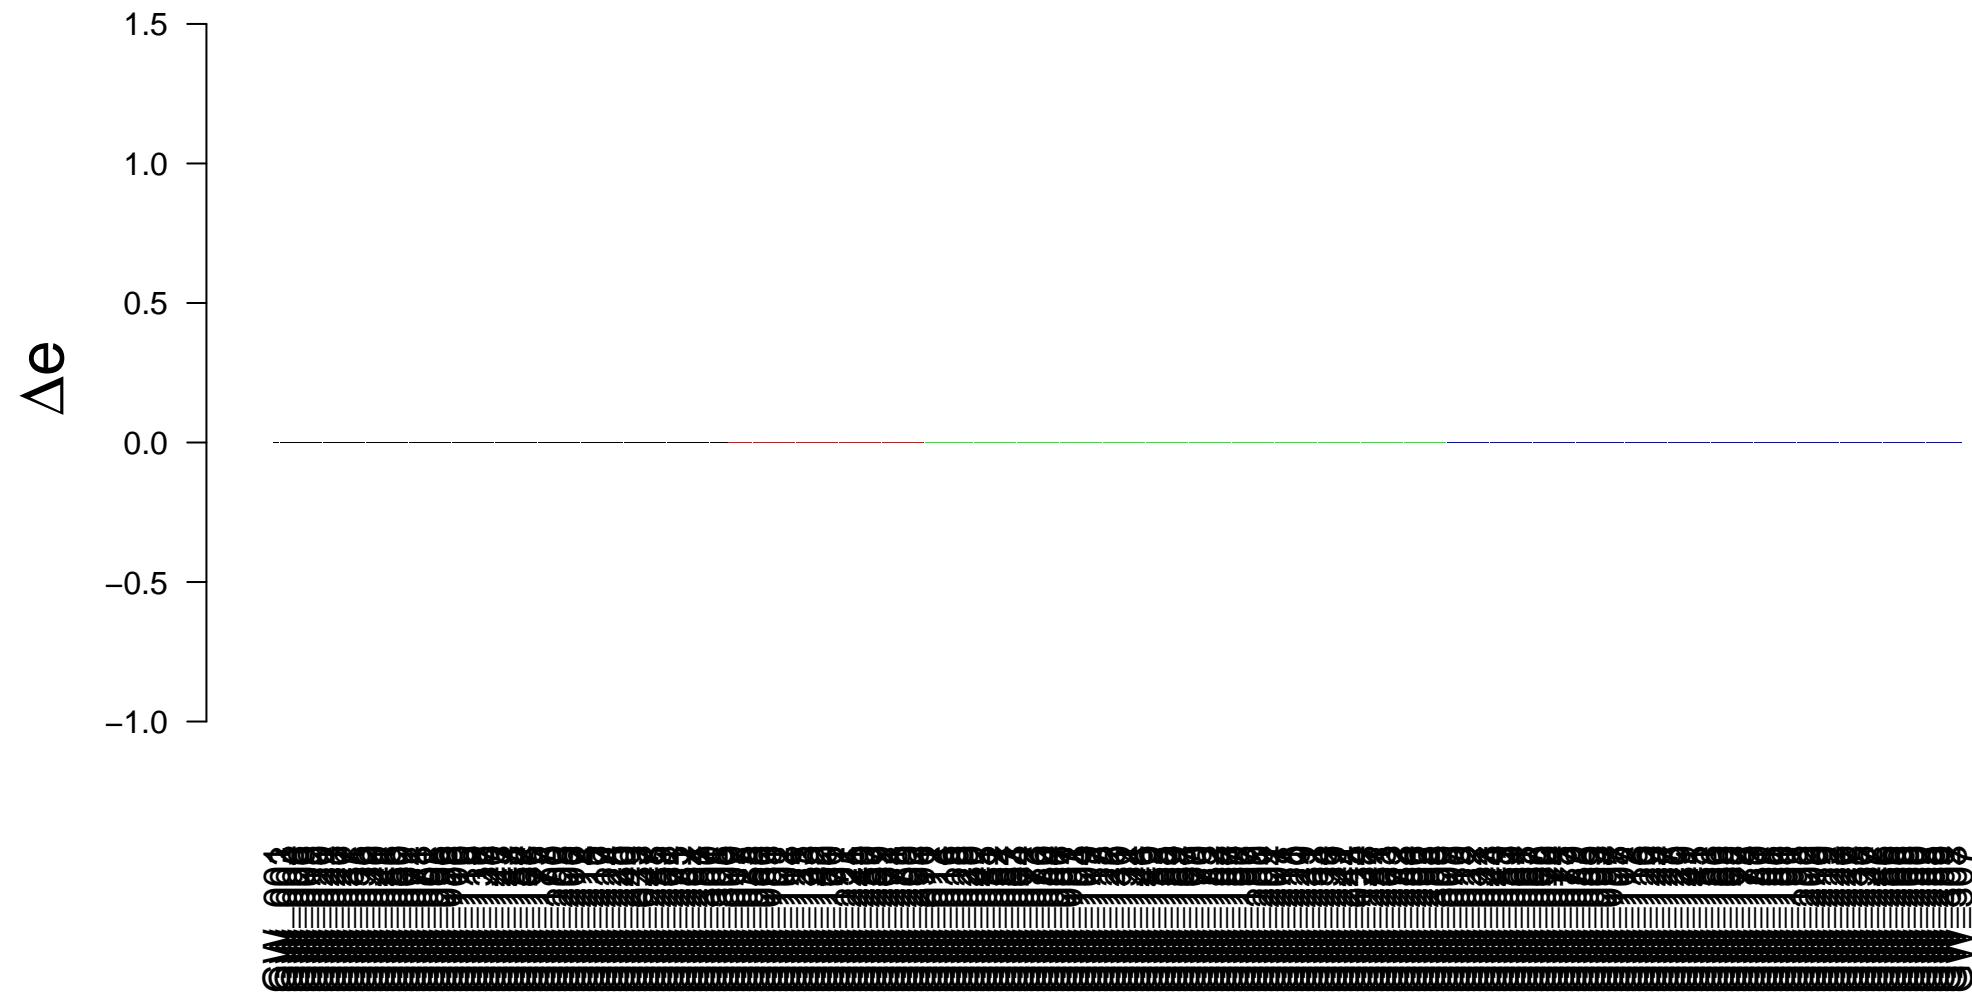

Expression of actin polymerization or depolymerization in Spot G

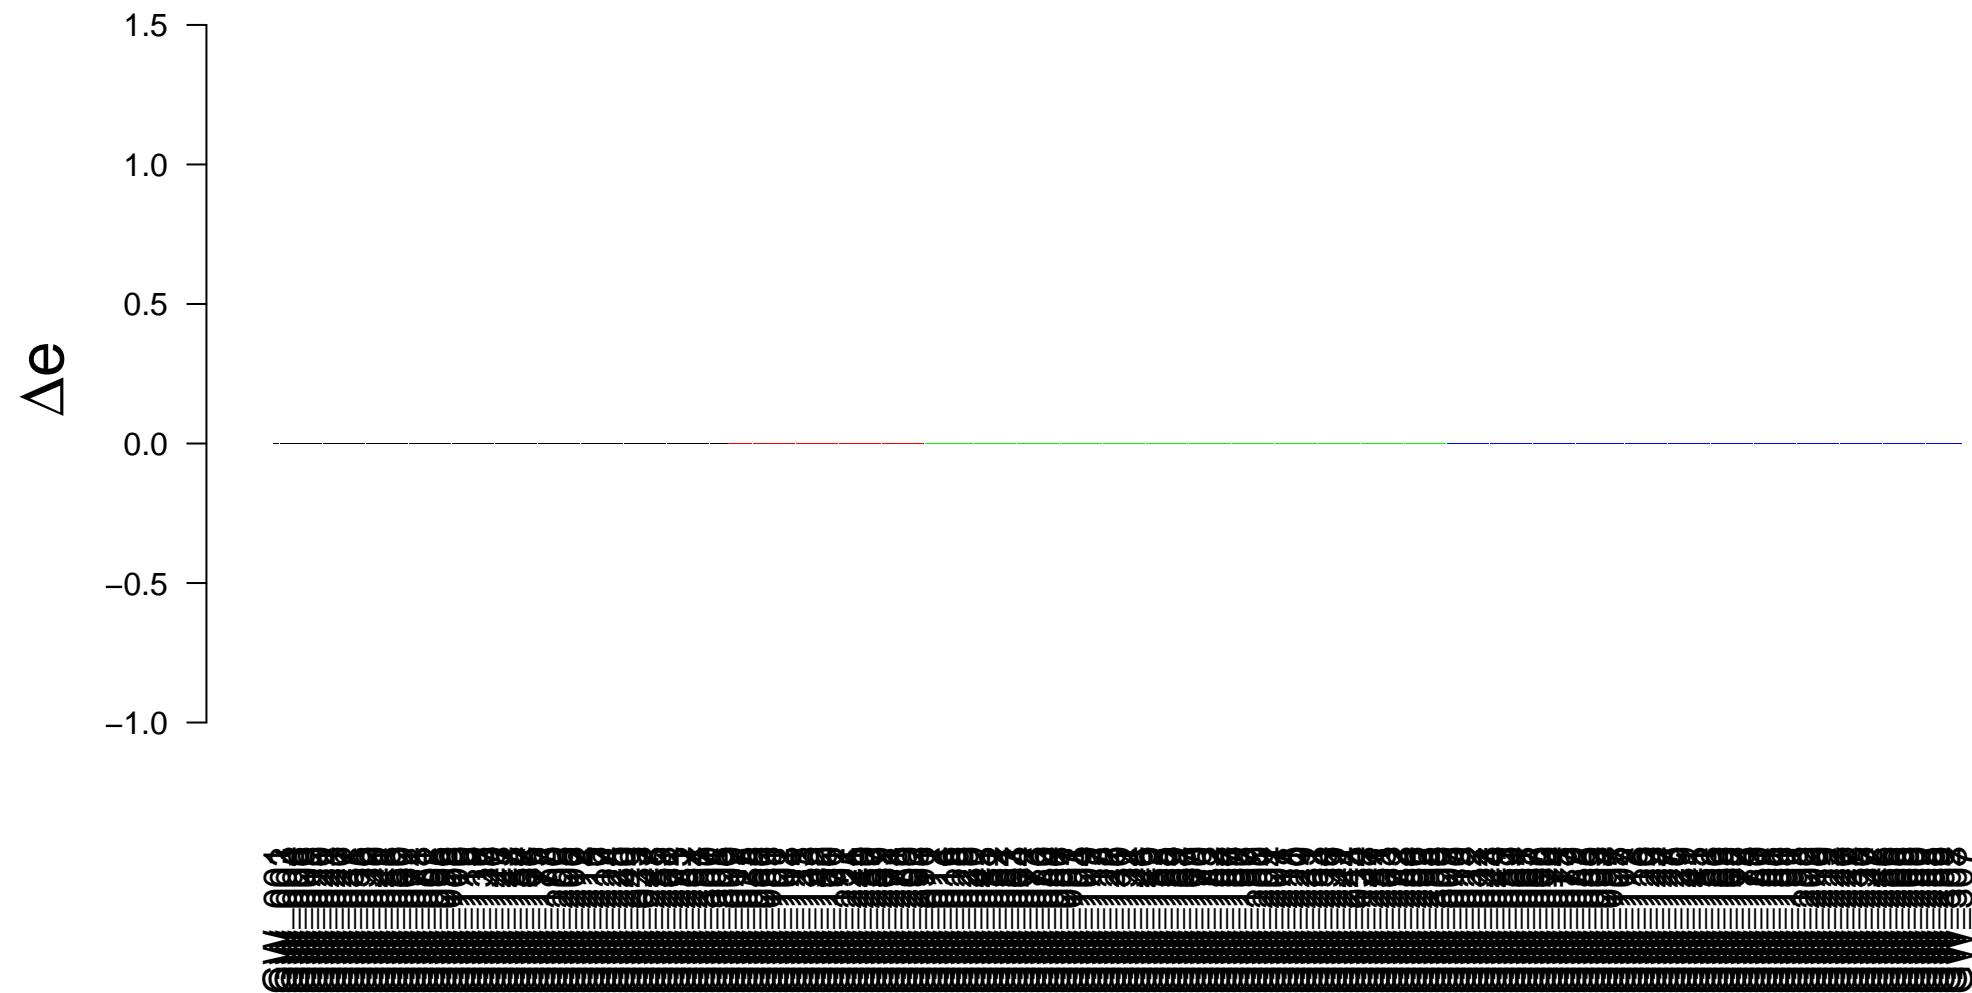

Expression of actin polymerization or depolymerization in Spot H

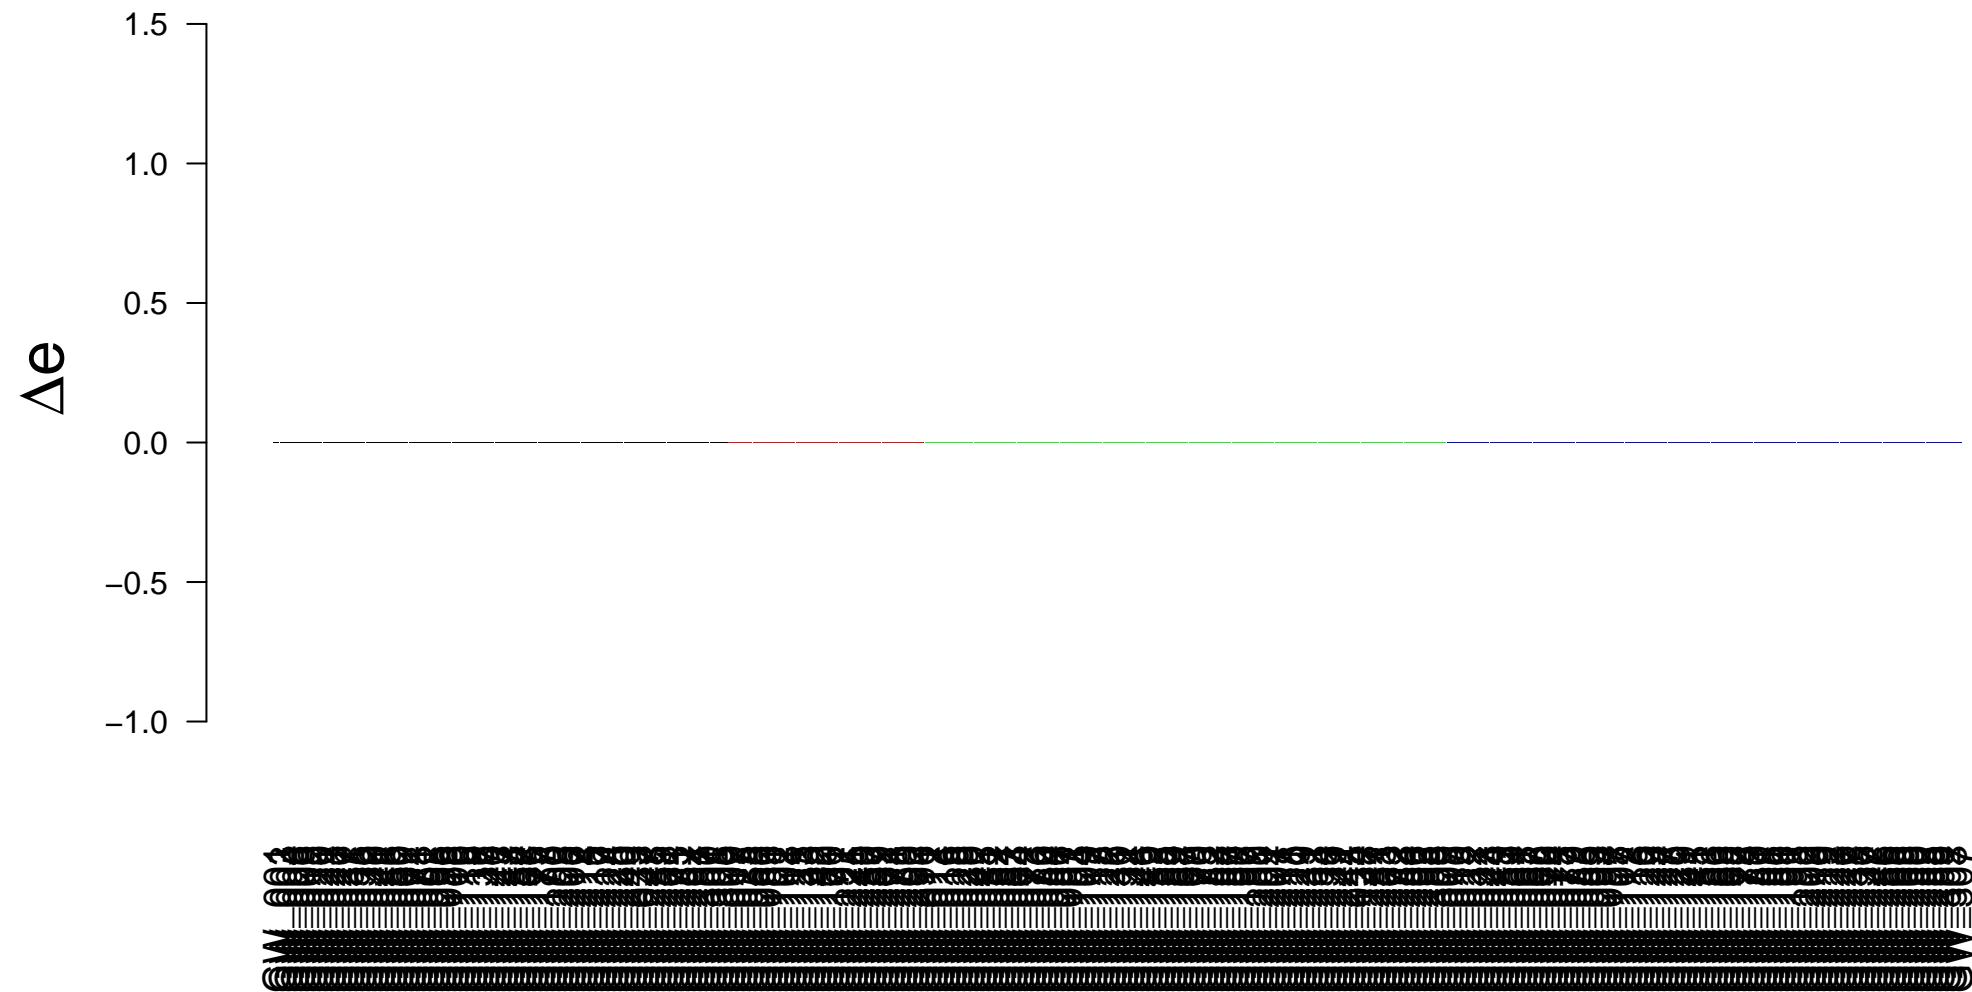

Expression of actin polymerization or depolymerization in Spot I

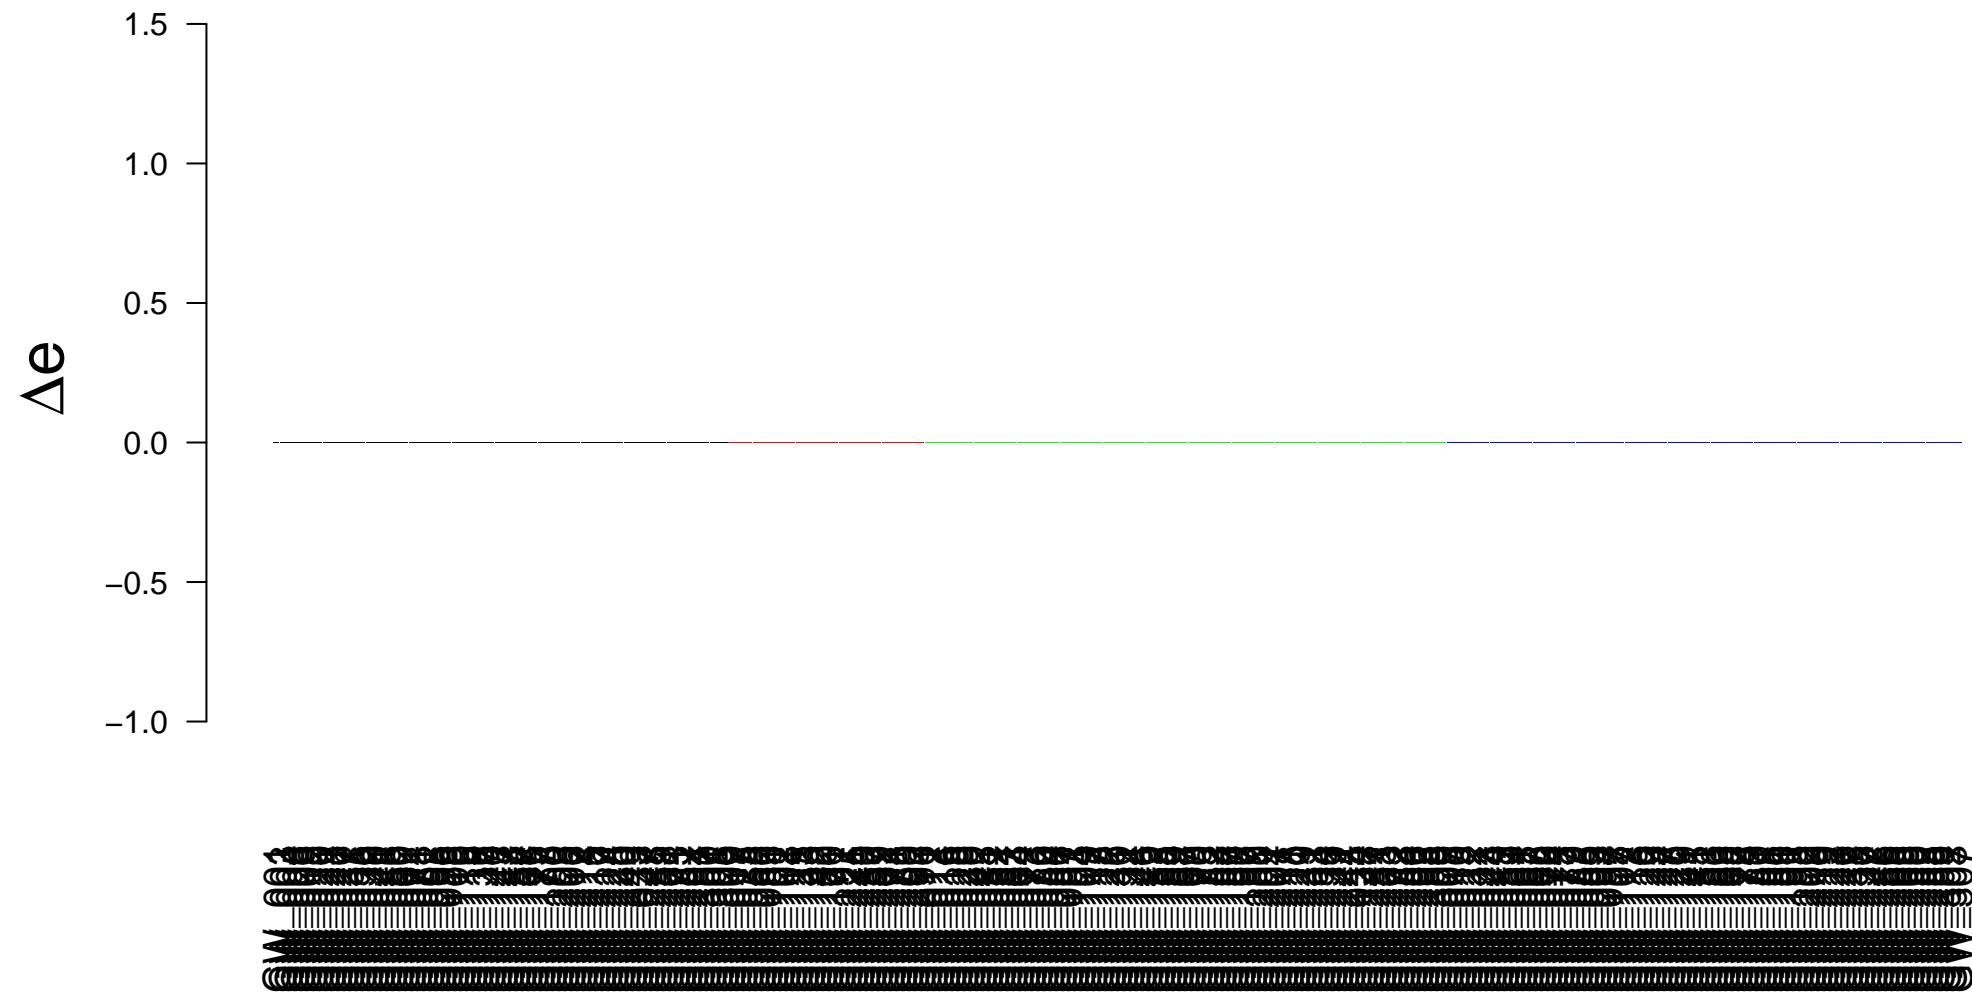

Expression of actin polymerization or depolymerization in Spot J

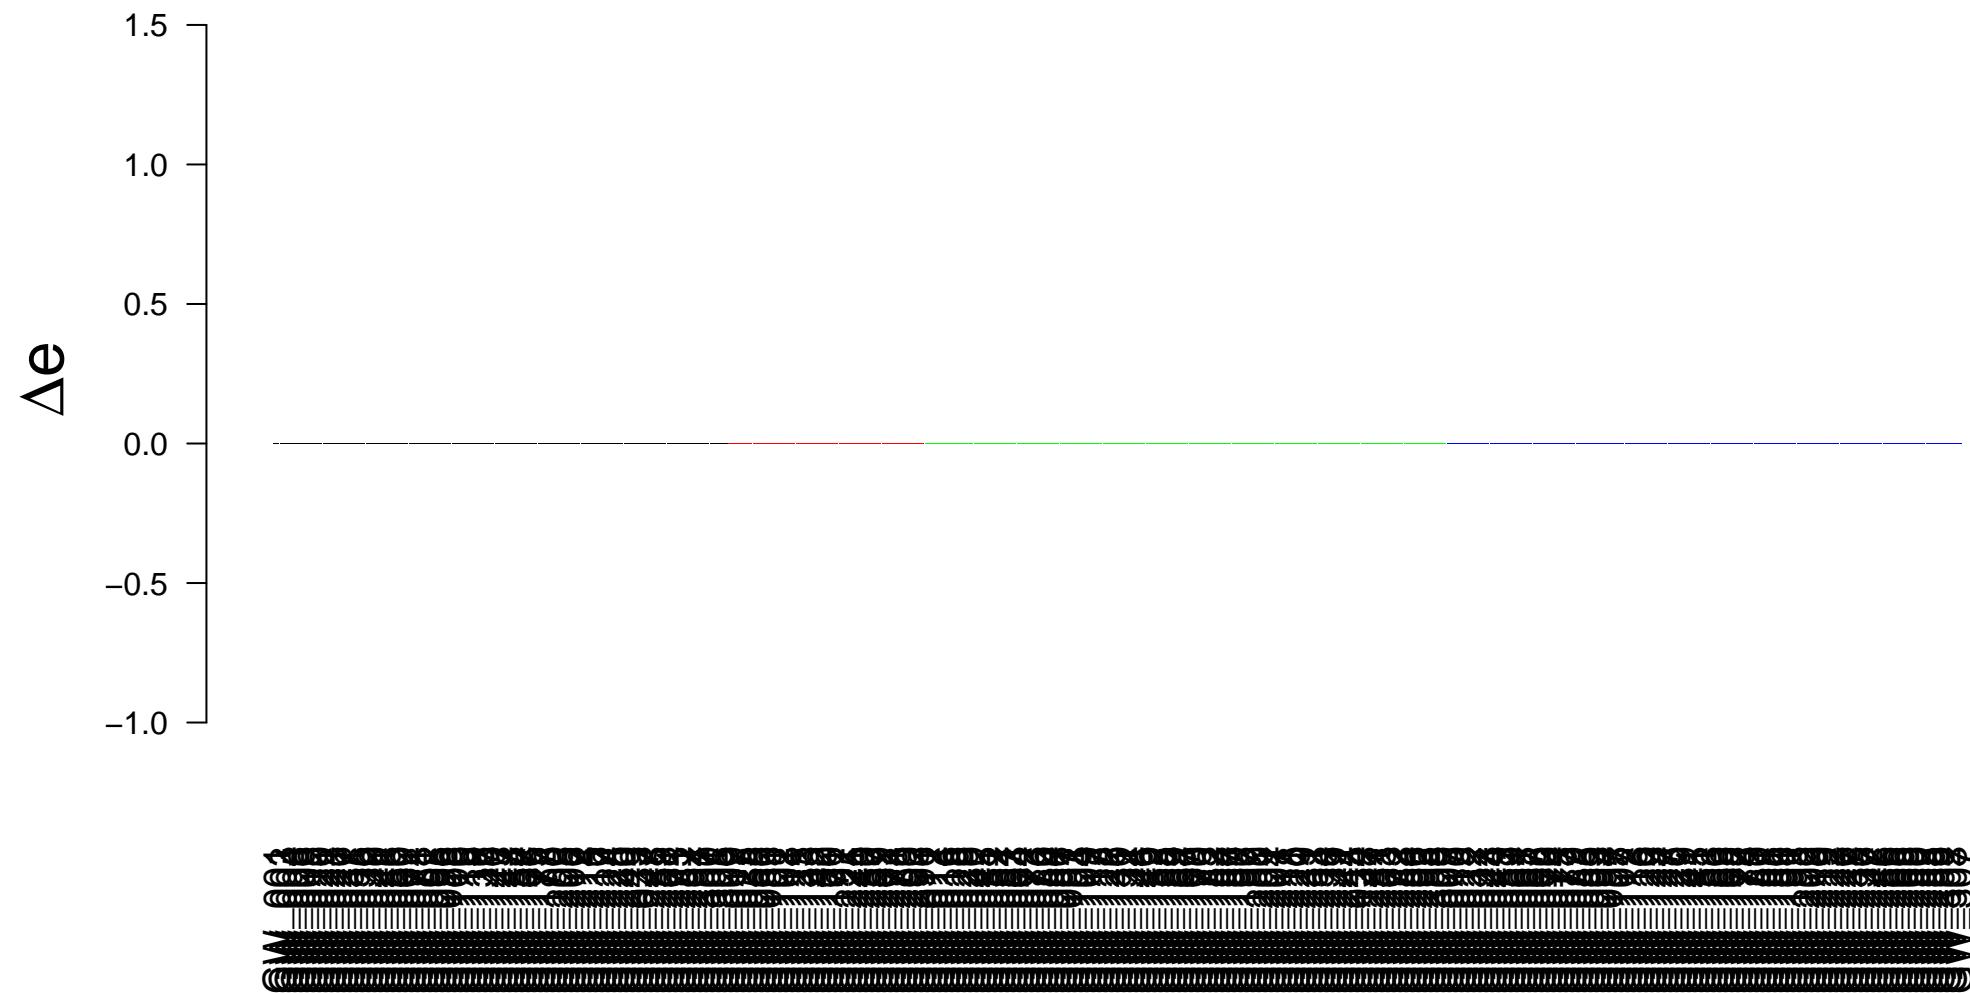

Expression of actin polymerization or depolymerization in Spot K

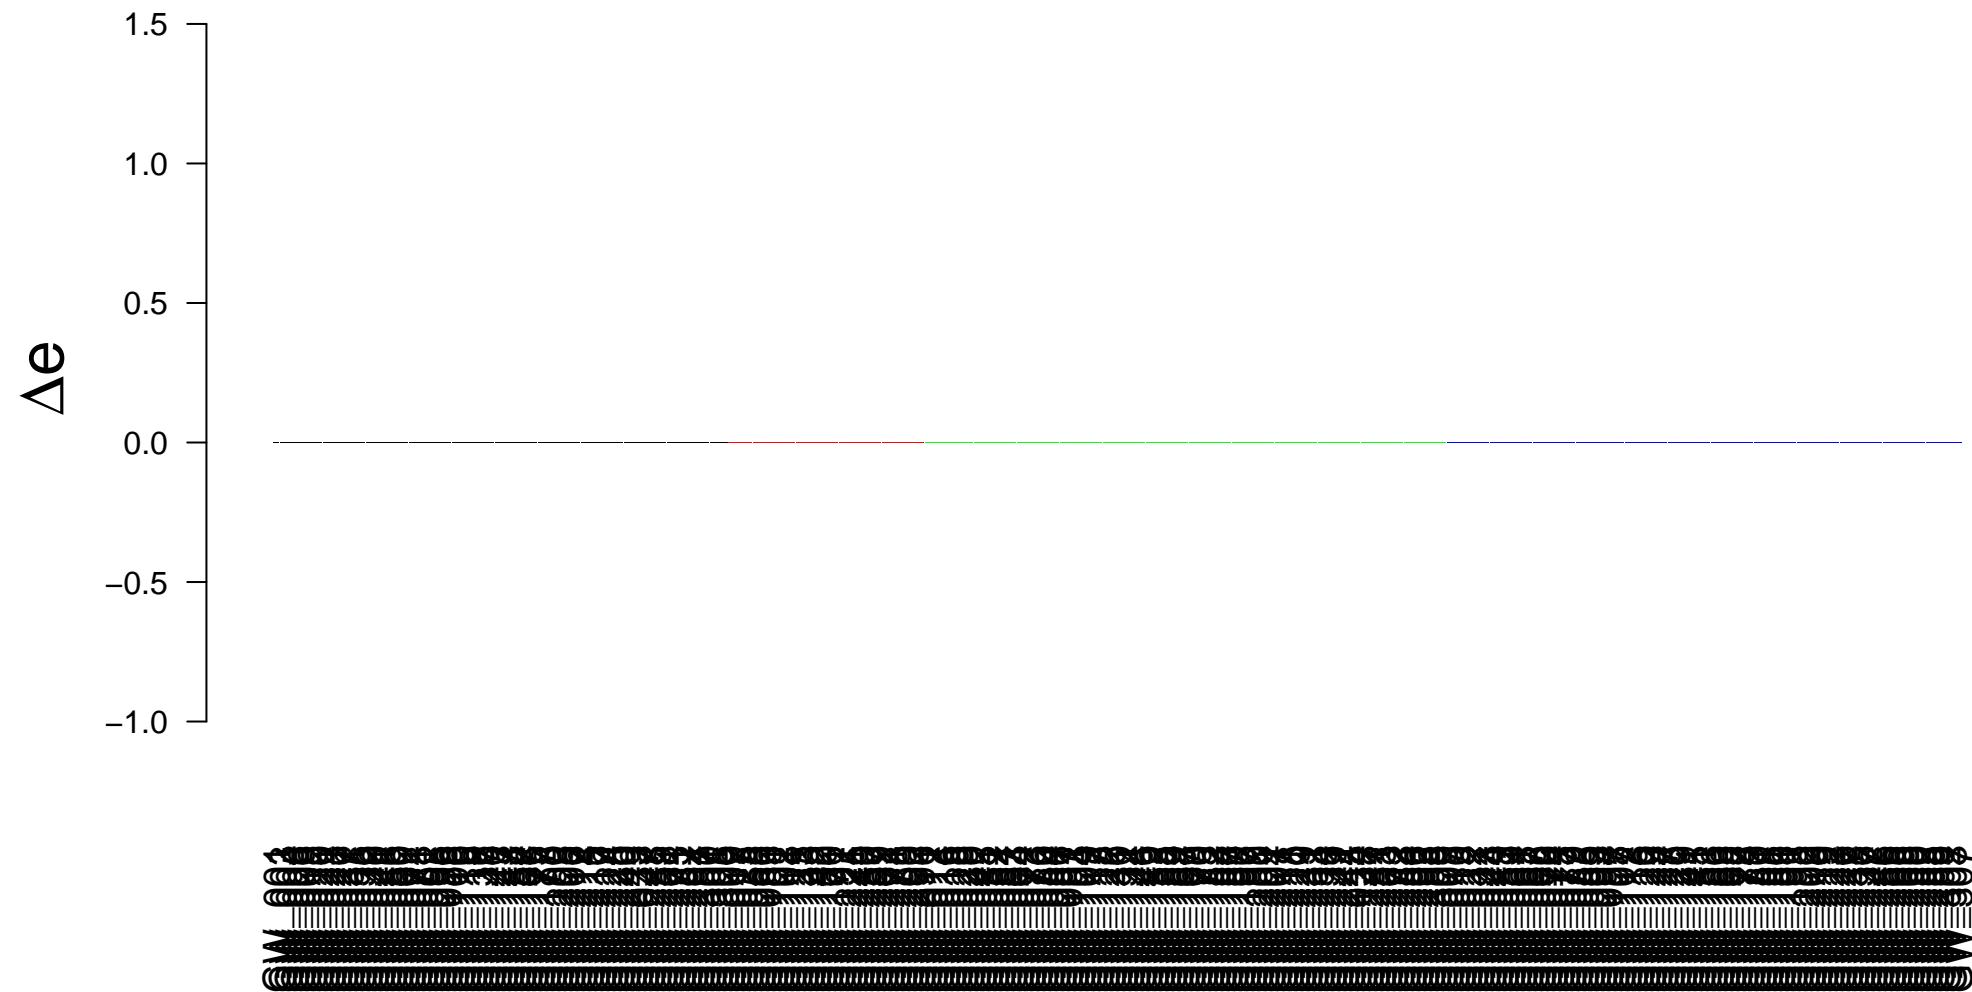

Expression of actin polymerization or depolymerization in Spot L

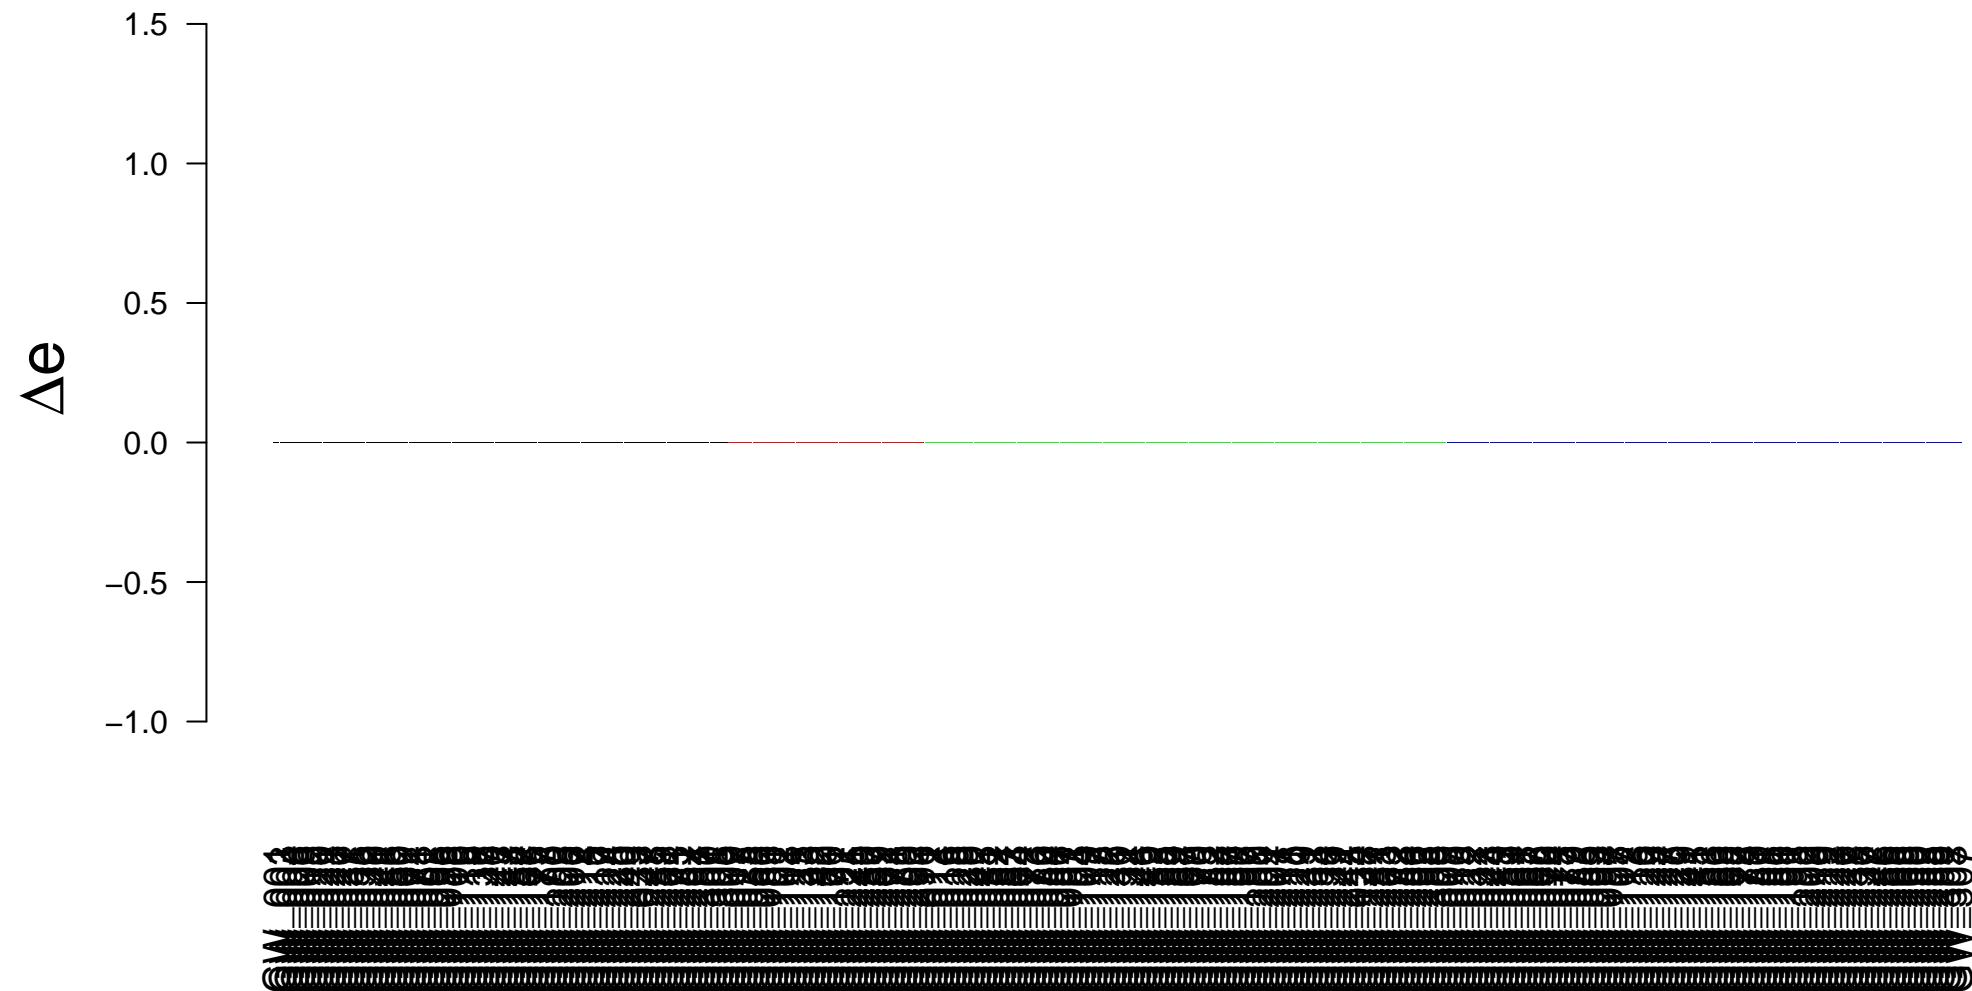

Expression of actin polymerization or depolymerization in Spot M

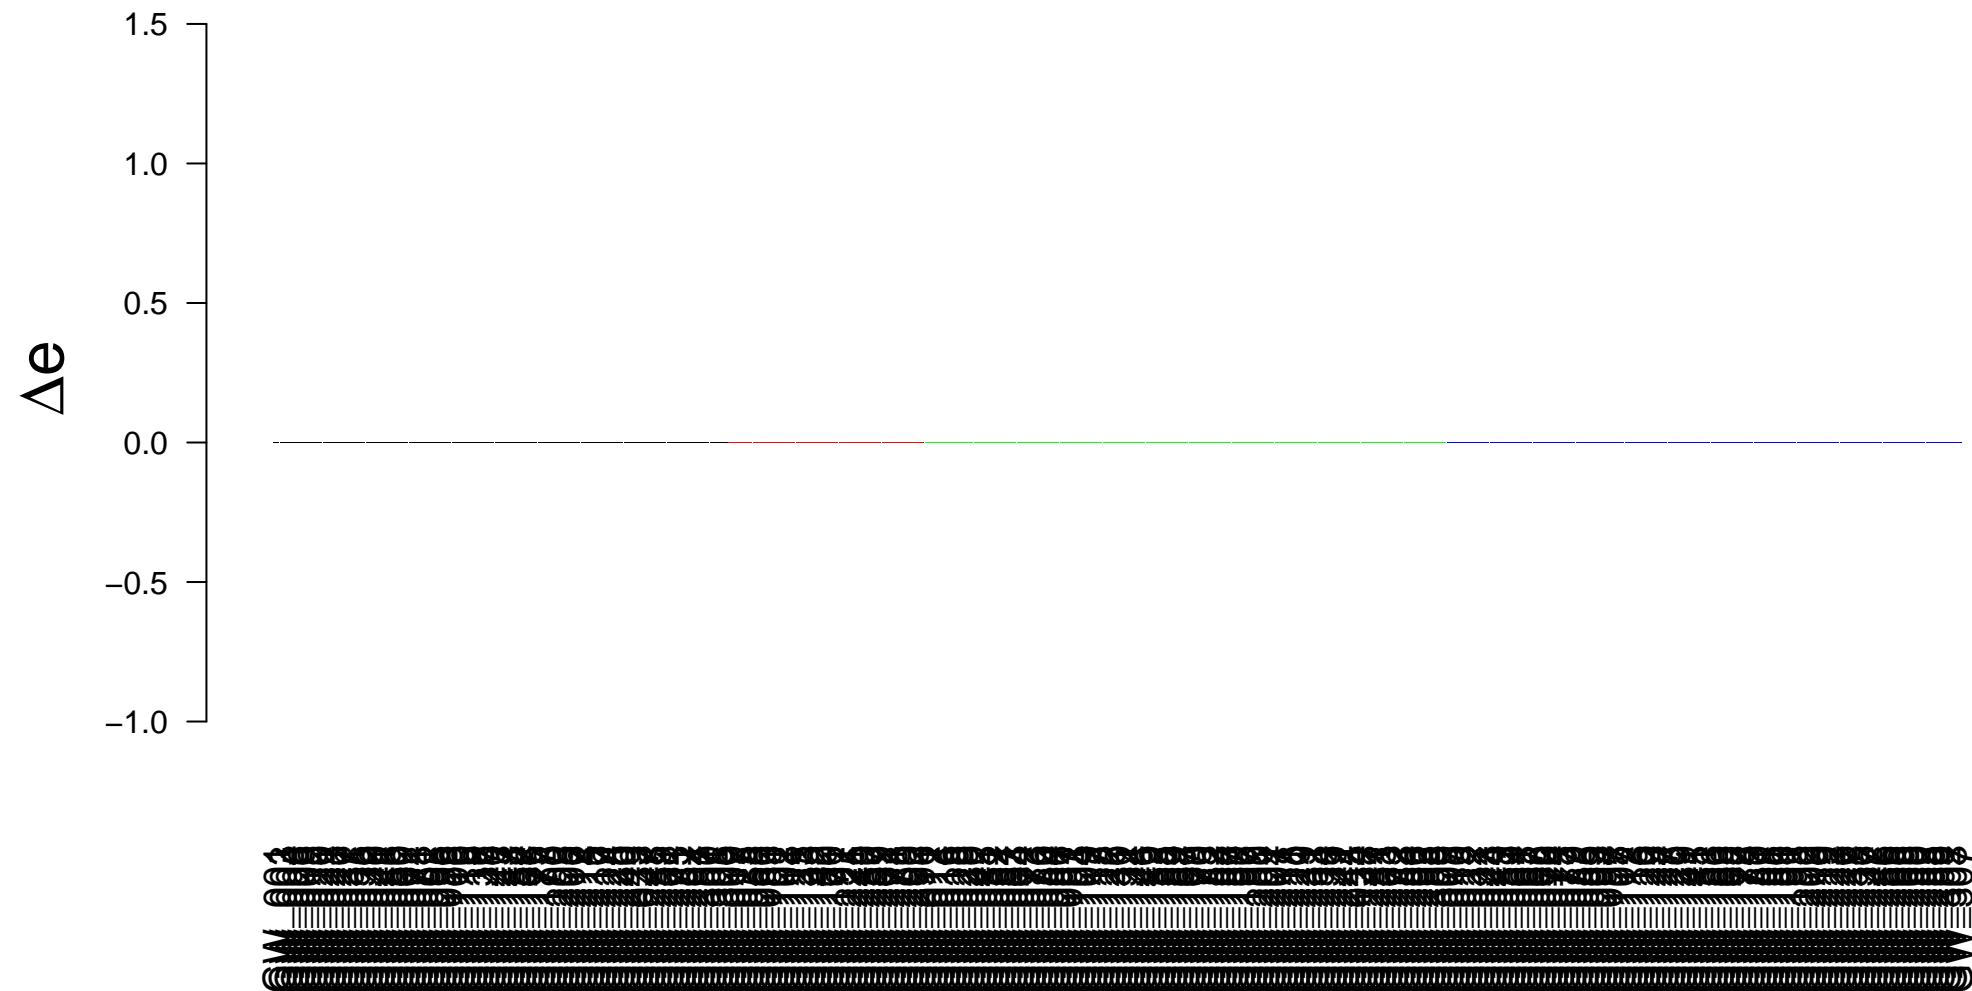

Expression of actin polymerization or depolymerization in Spot N

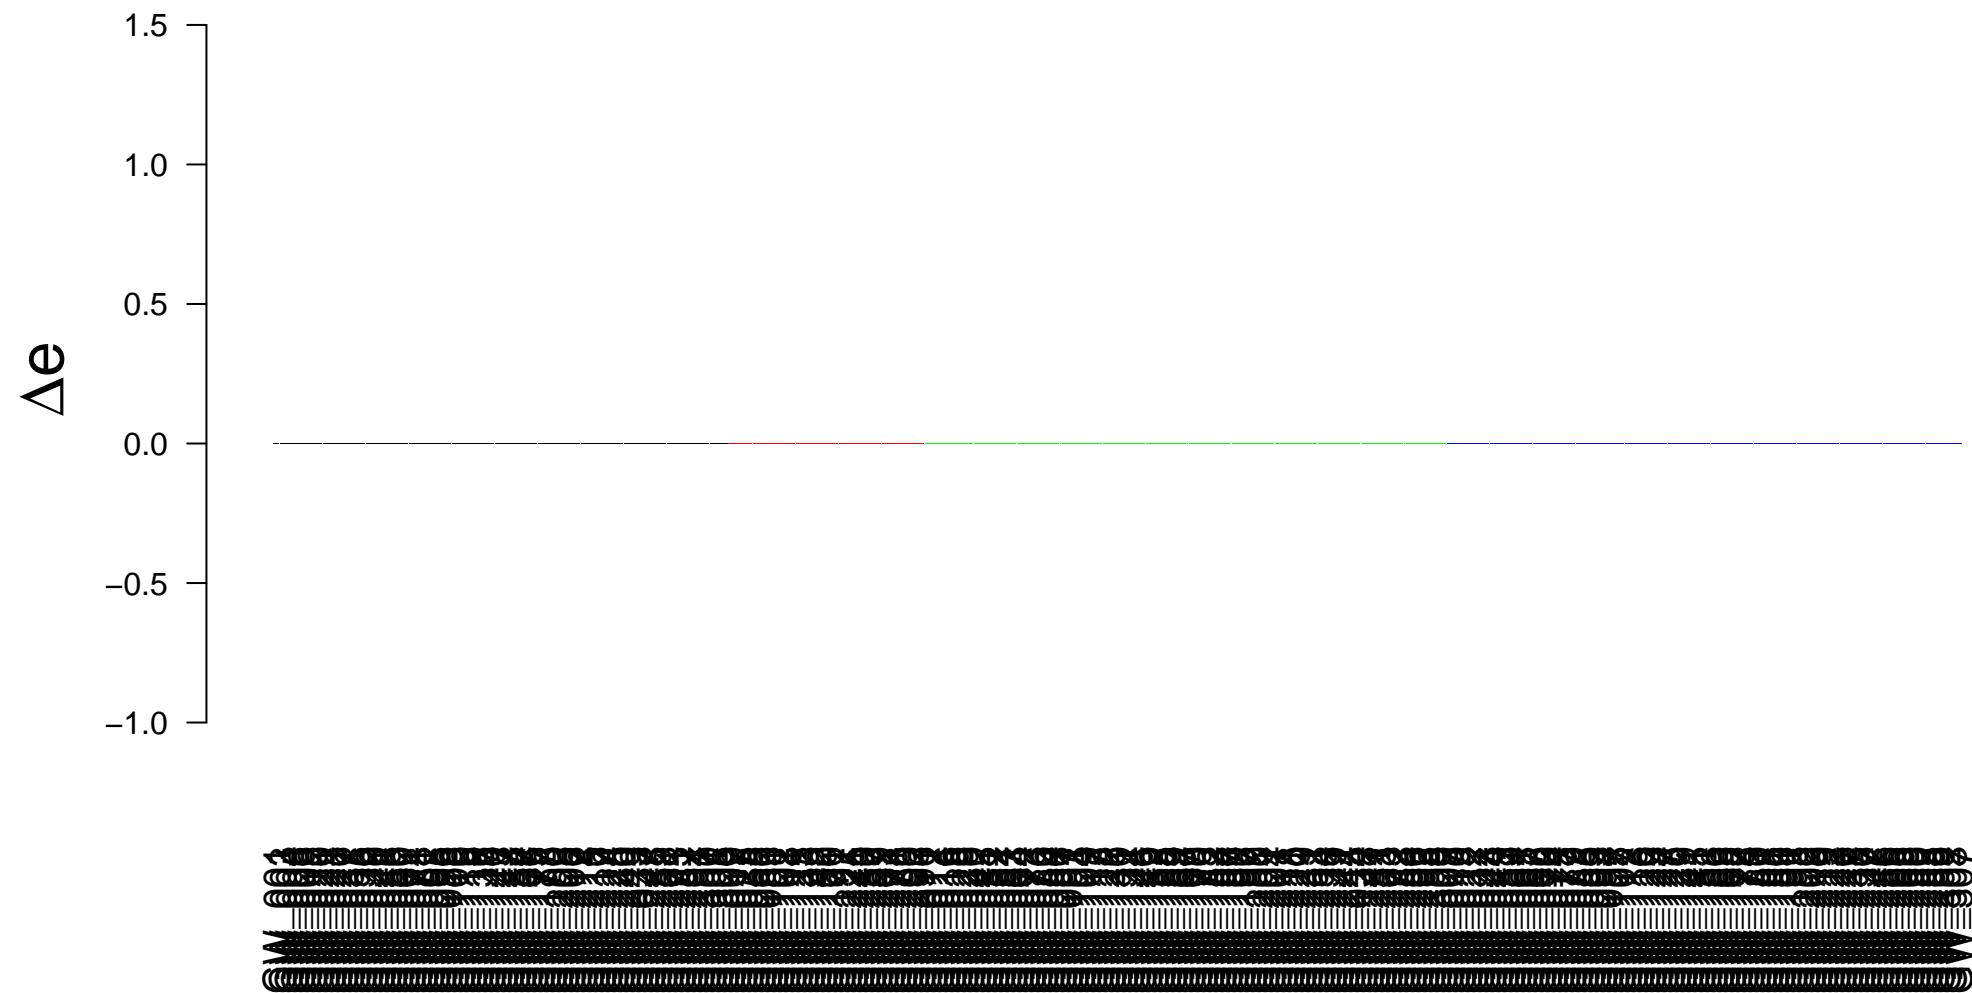

Expression of actin polymerization or depolymerization in Spot O

Expression of actin polymerization or depolymerization in Spot P

Expression of actin polymerization or depolymerization in Spot Q

Expression of actin polymerization or depolymerization in Spot R
