

activating transcription factor binding

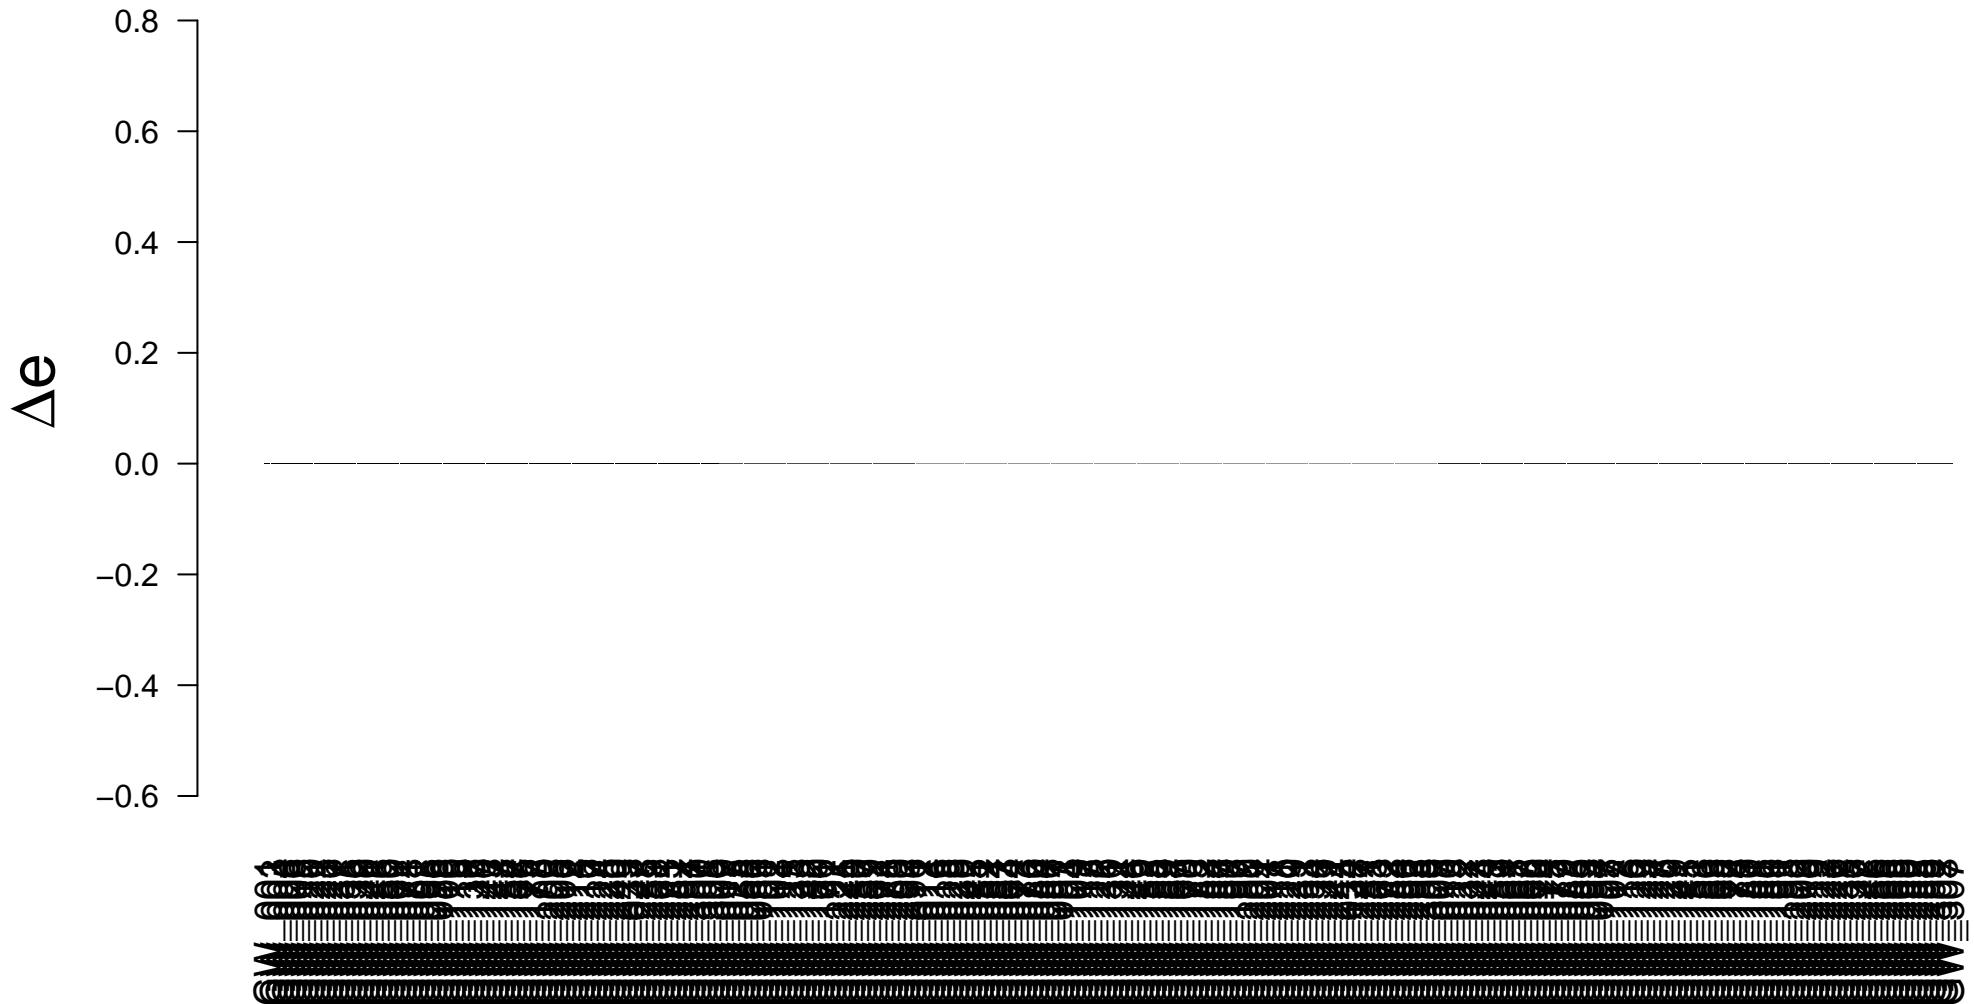

activating transcription factor binding

Enrichment in spots: activating transcription factor binding

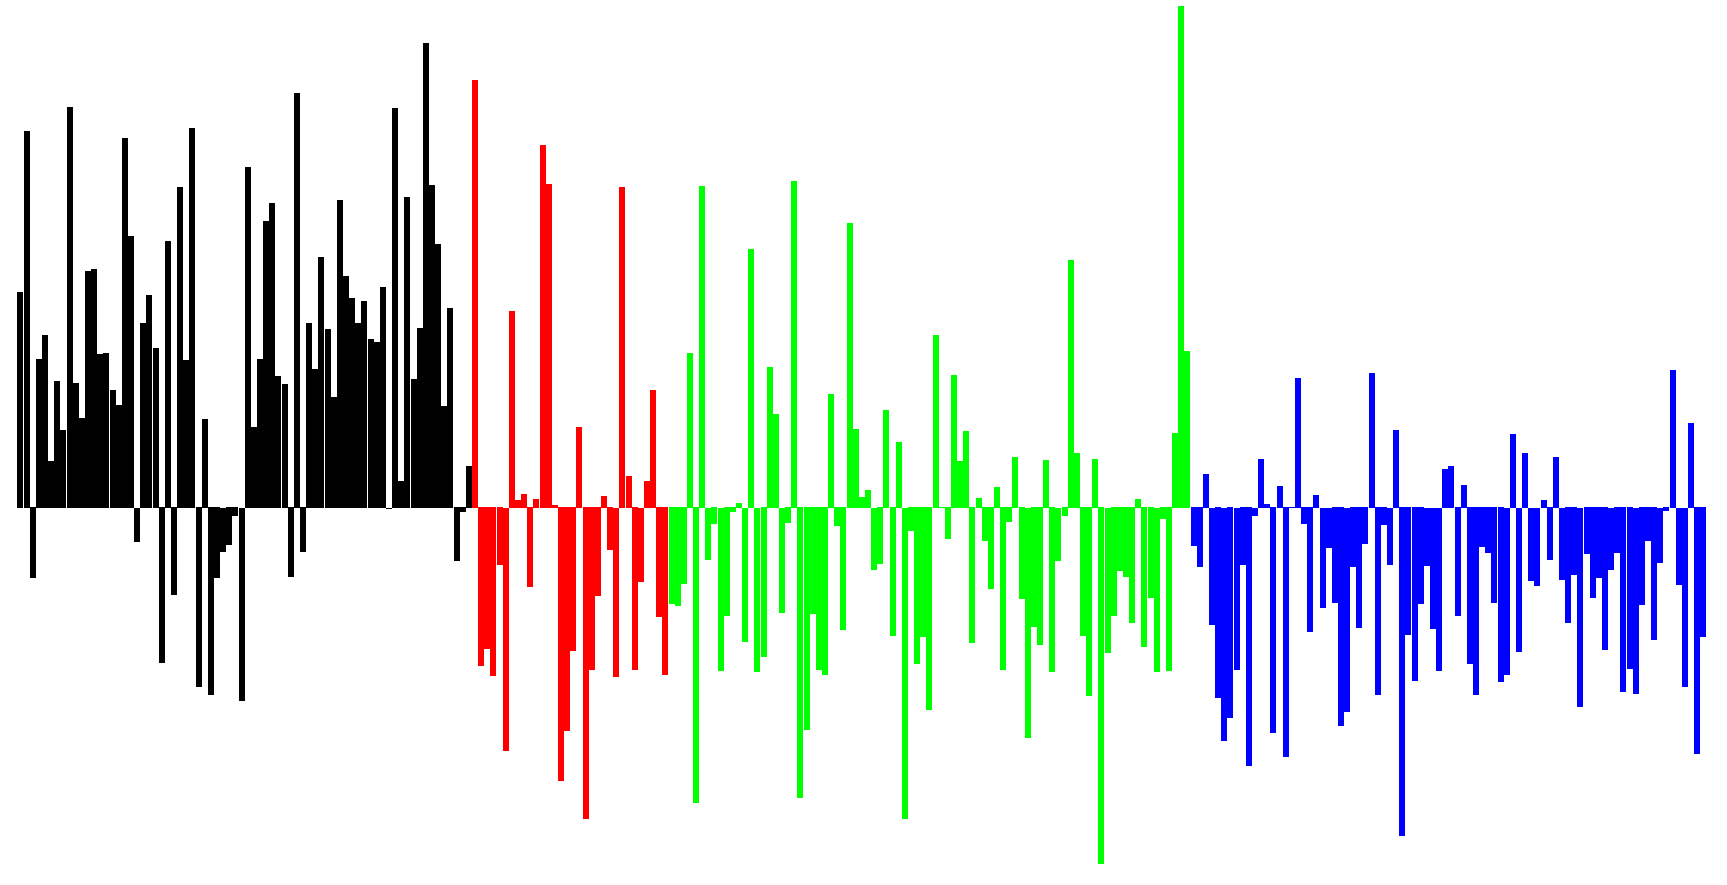

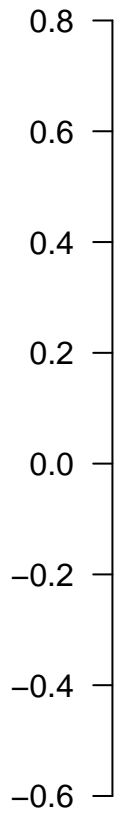

Expression of activating transcription factor binding in Spot A

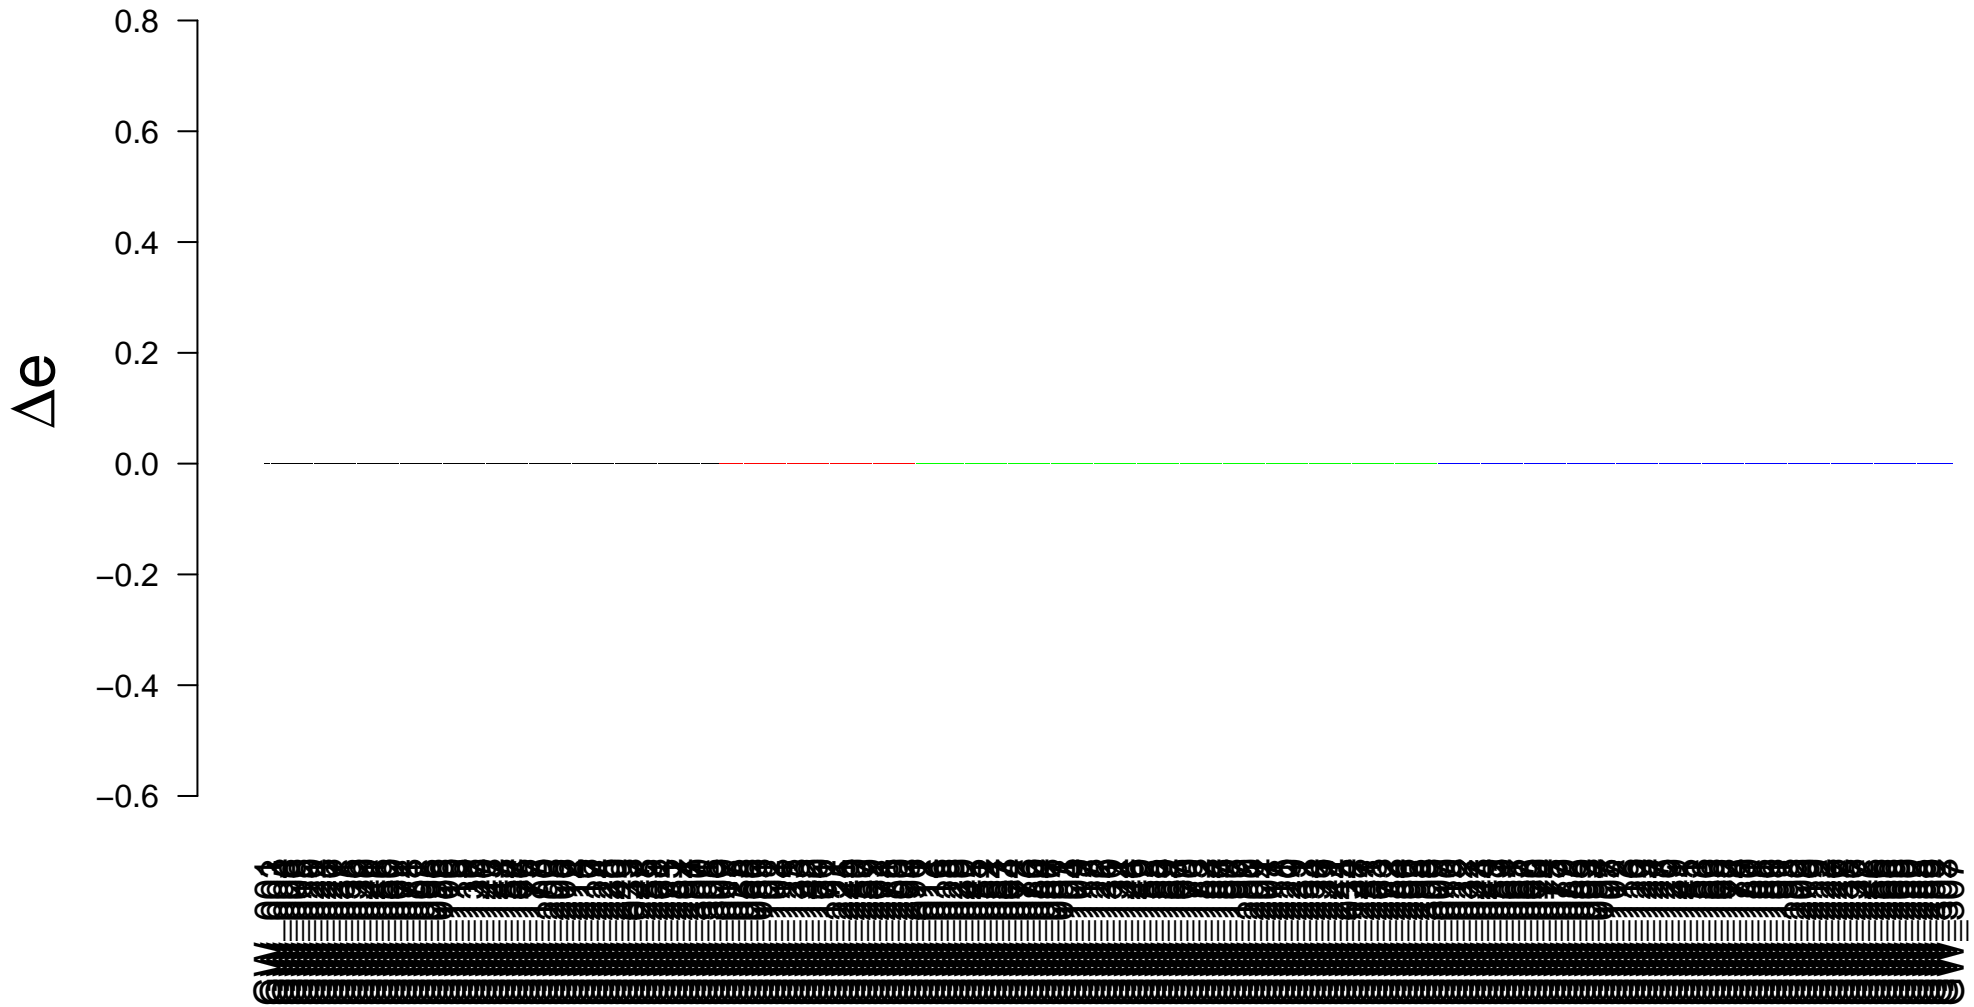

Expression of activating transcription factor binding in Spot B

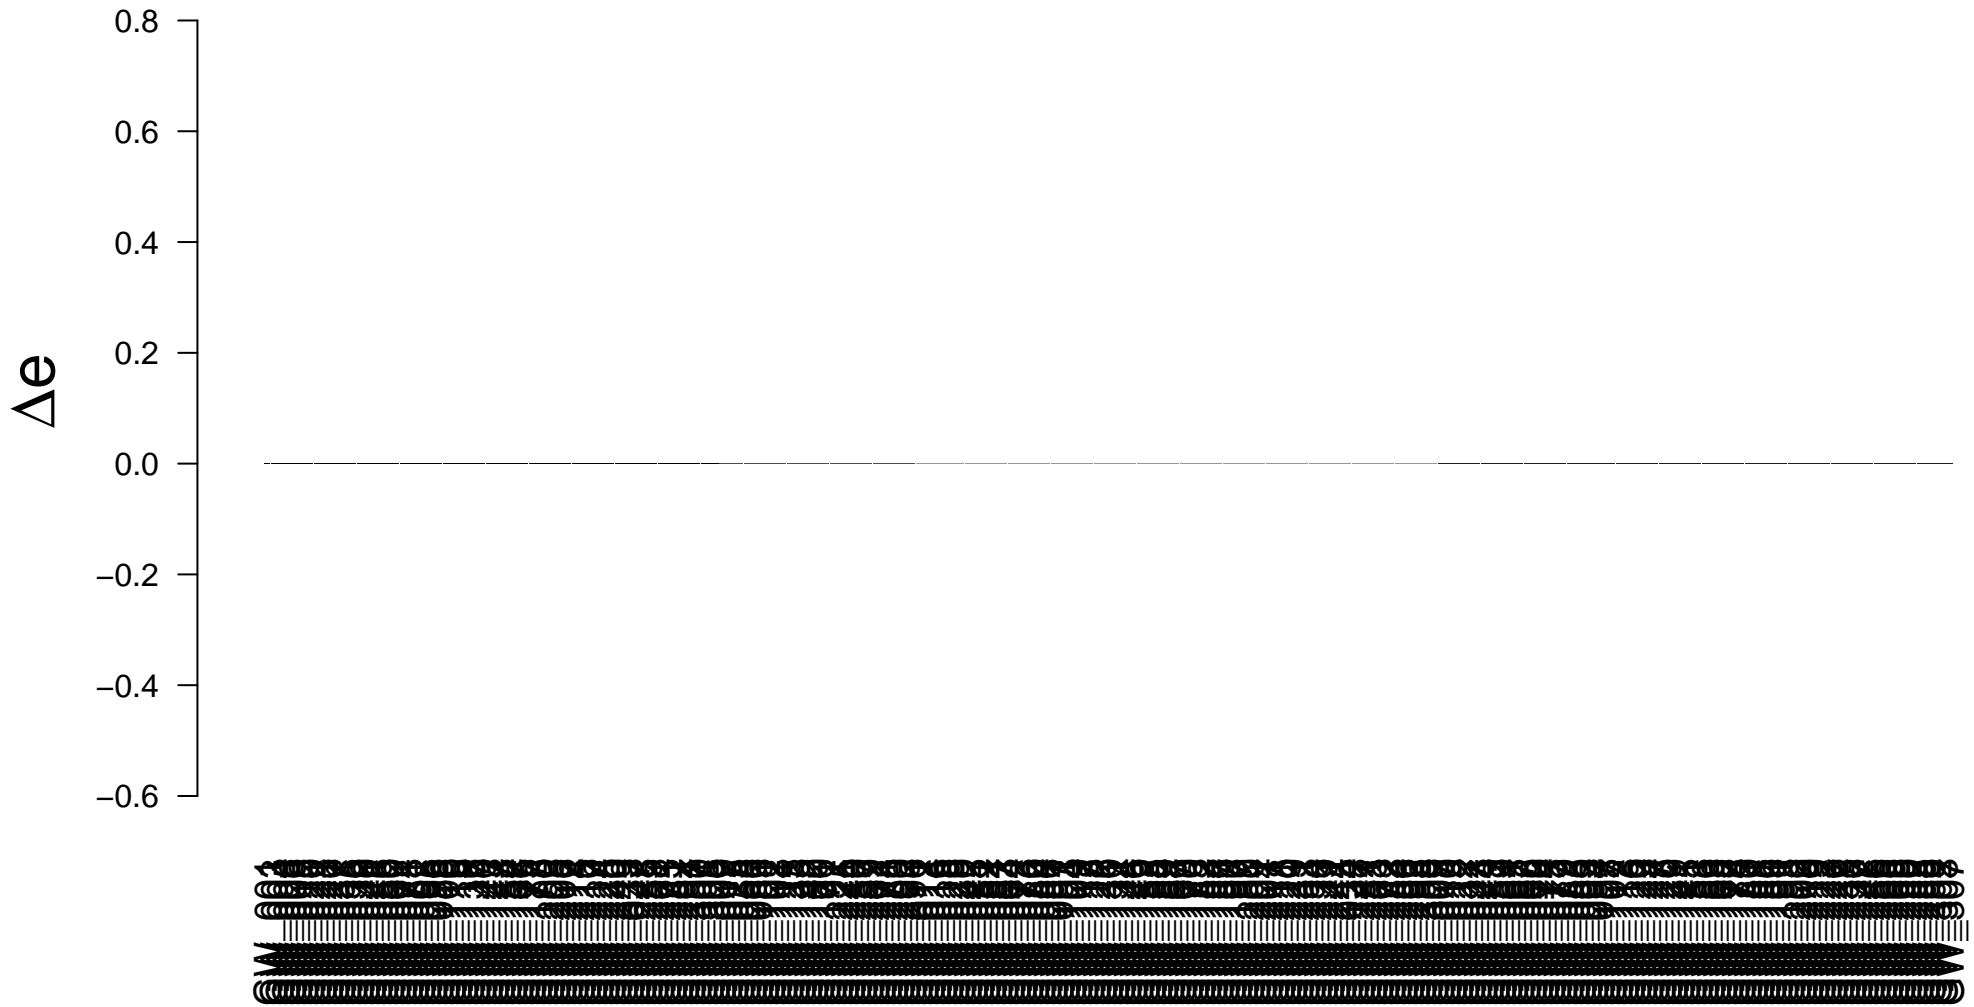

Δe

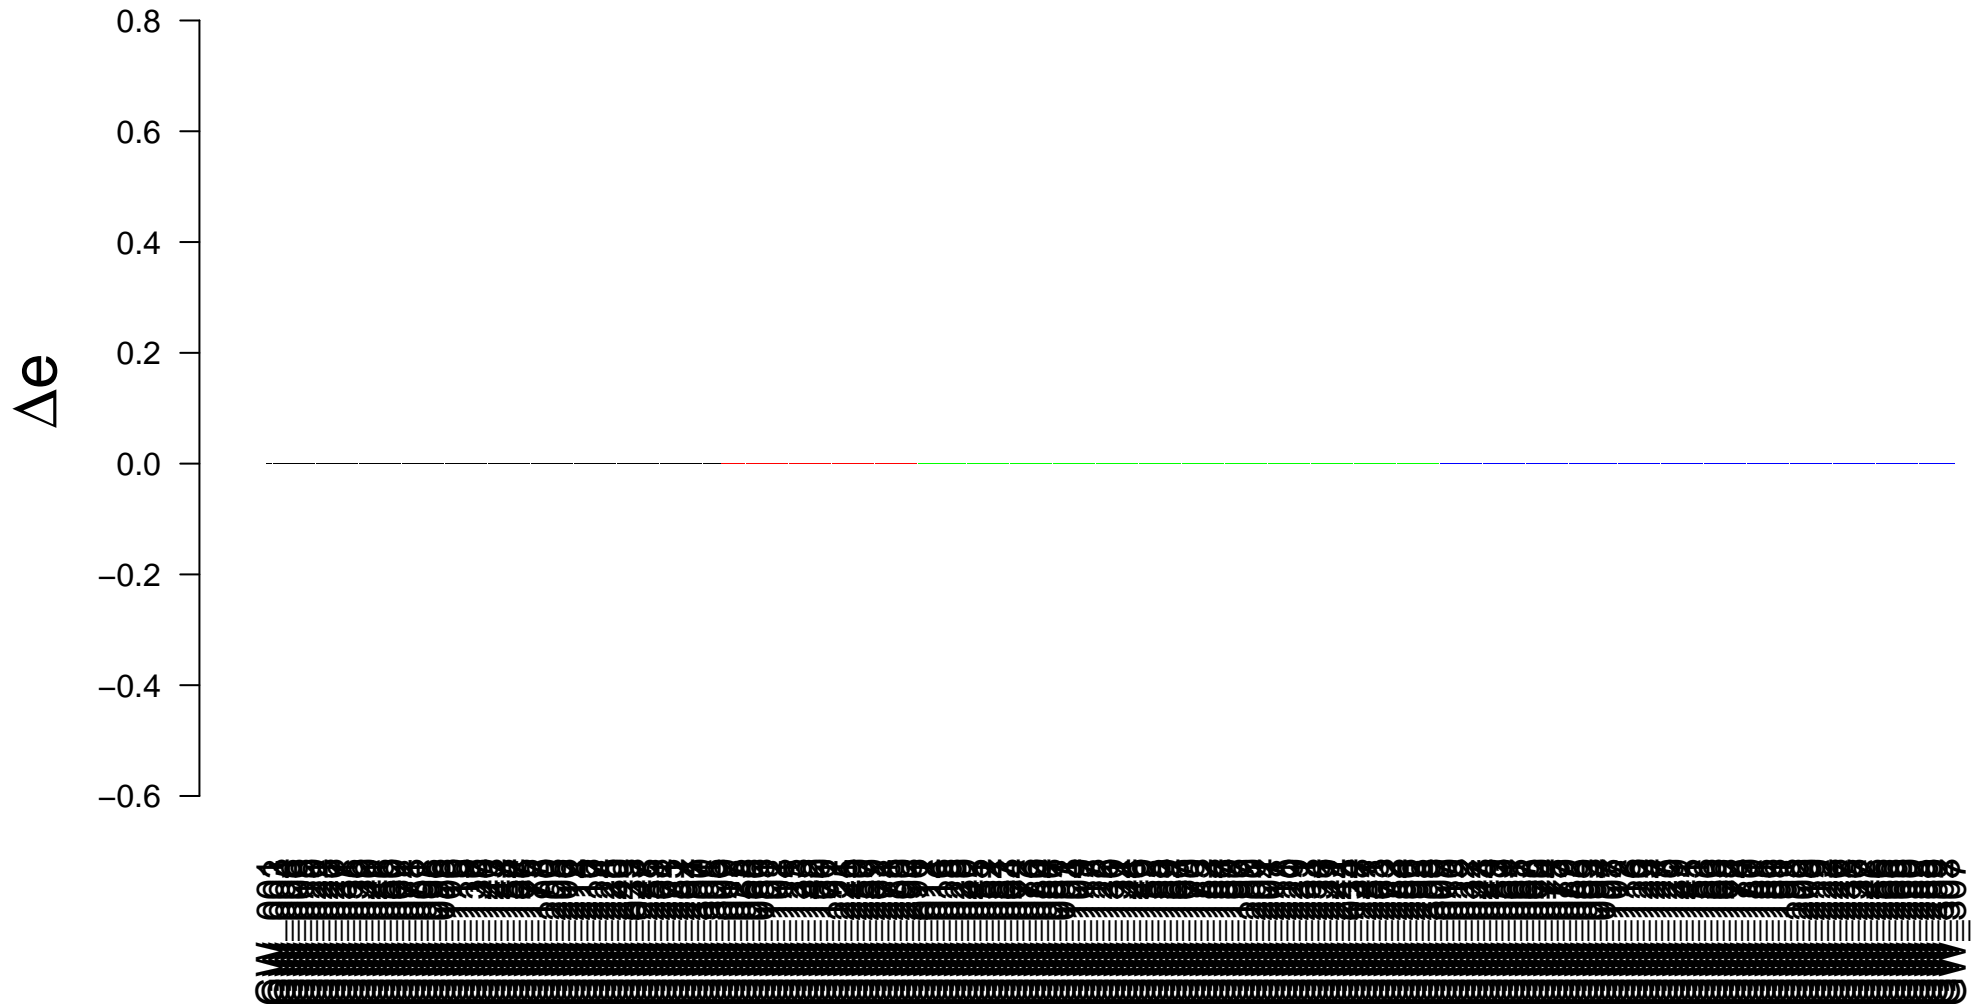

Expression of activating transcription factor binding in Spot C

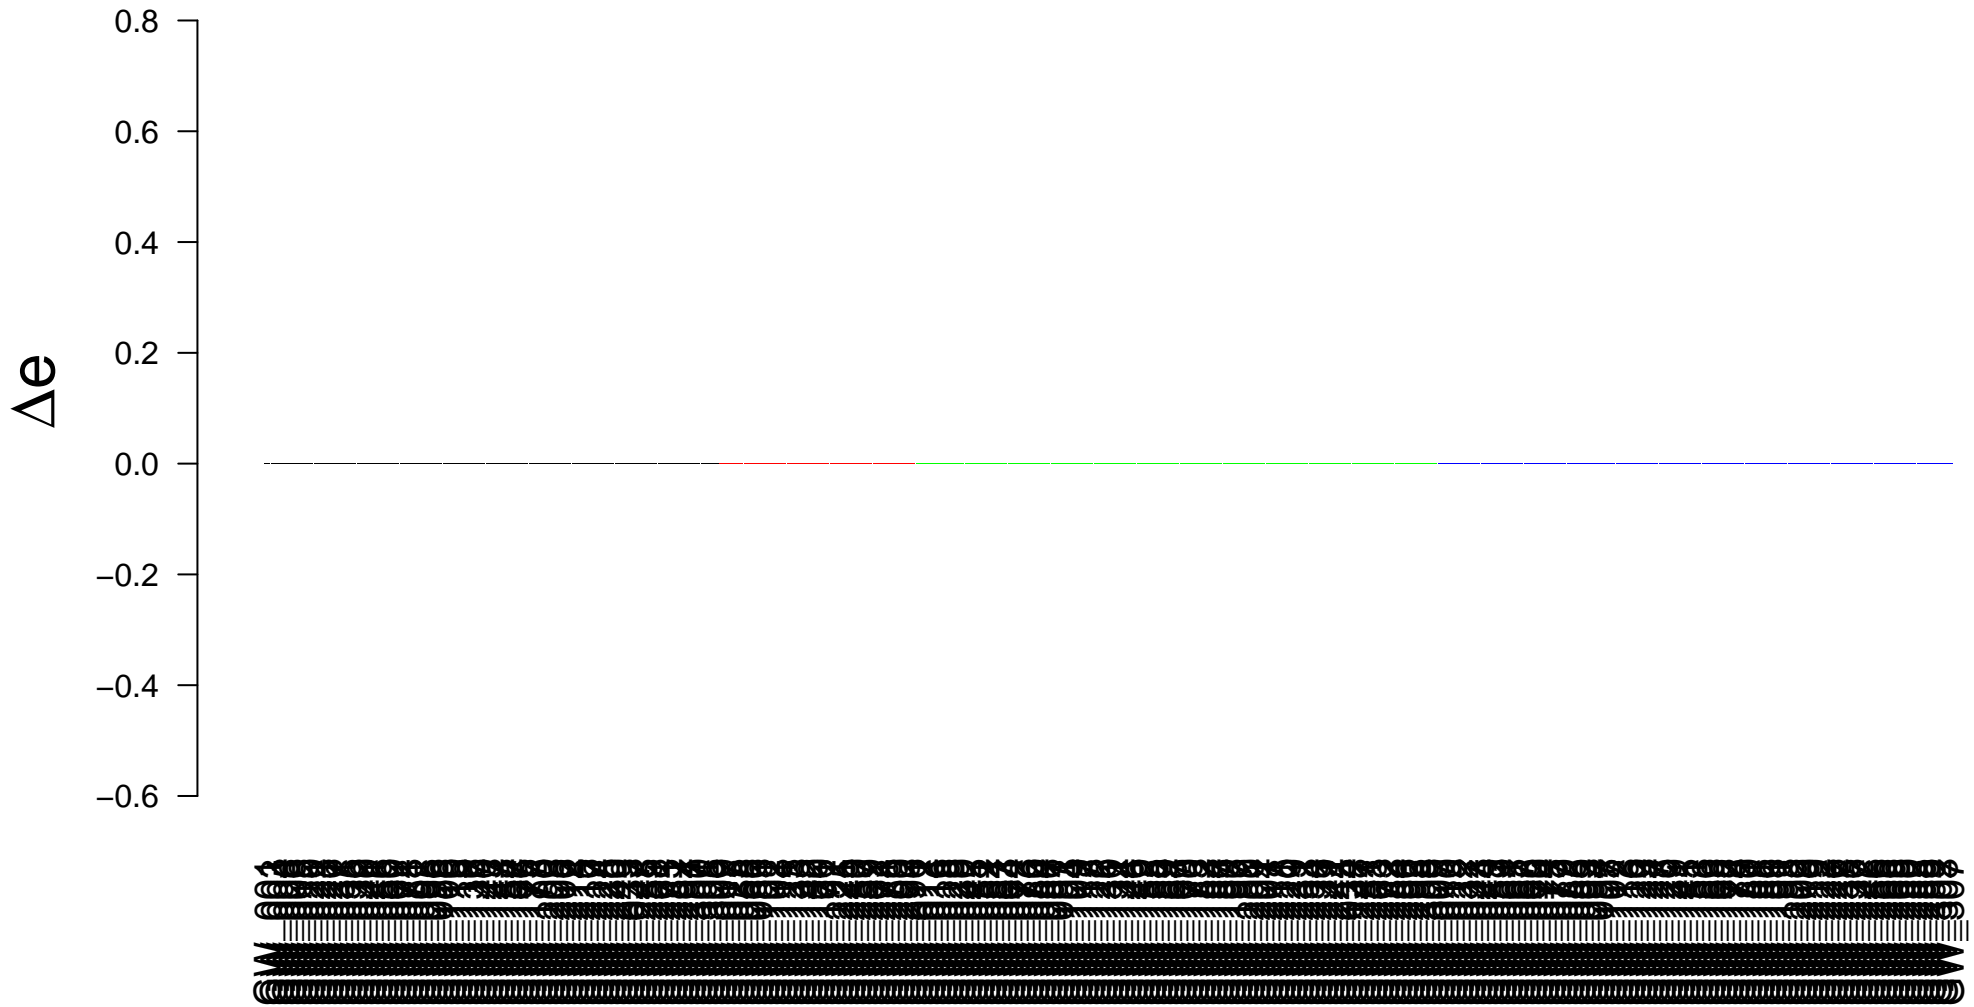

Expression of activating transcription factor binding in Spot D

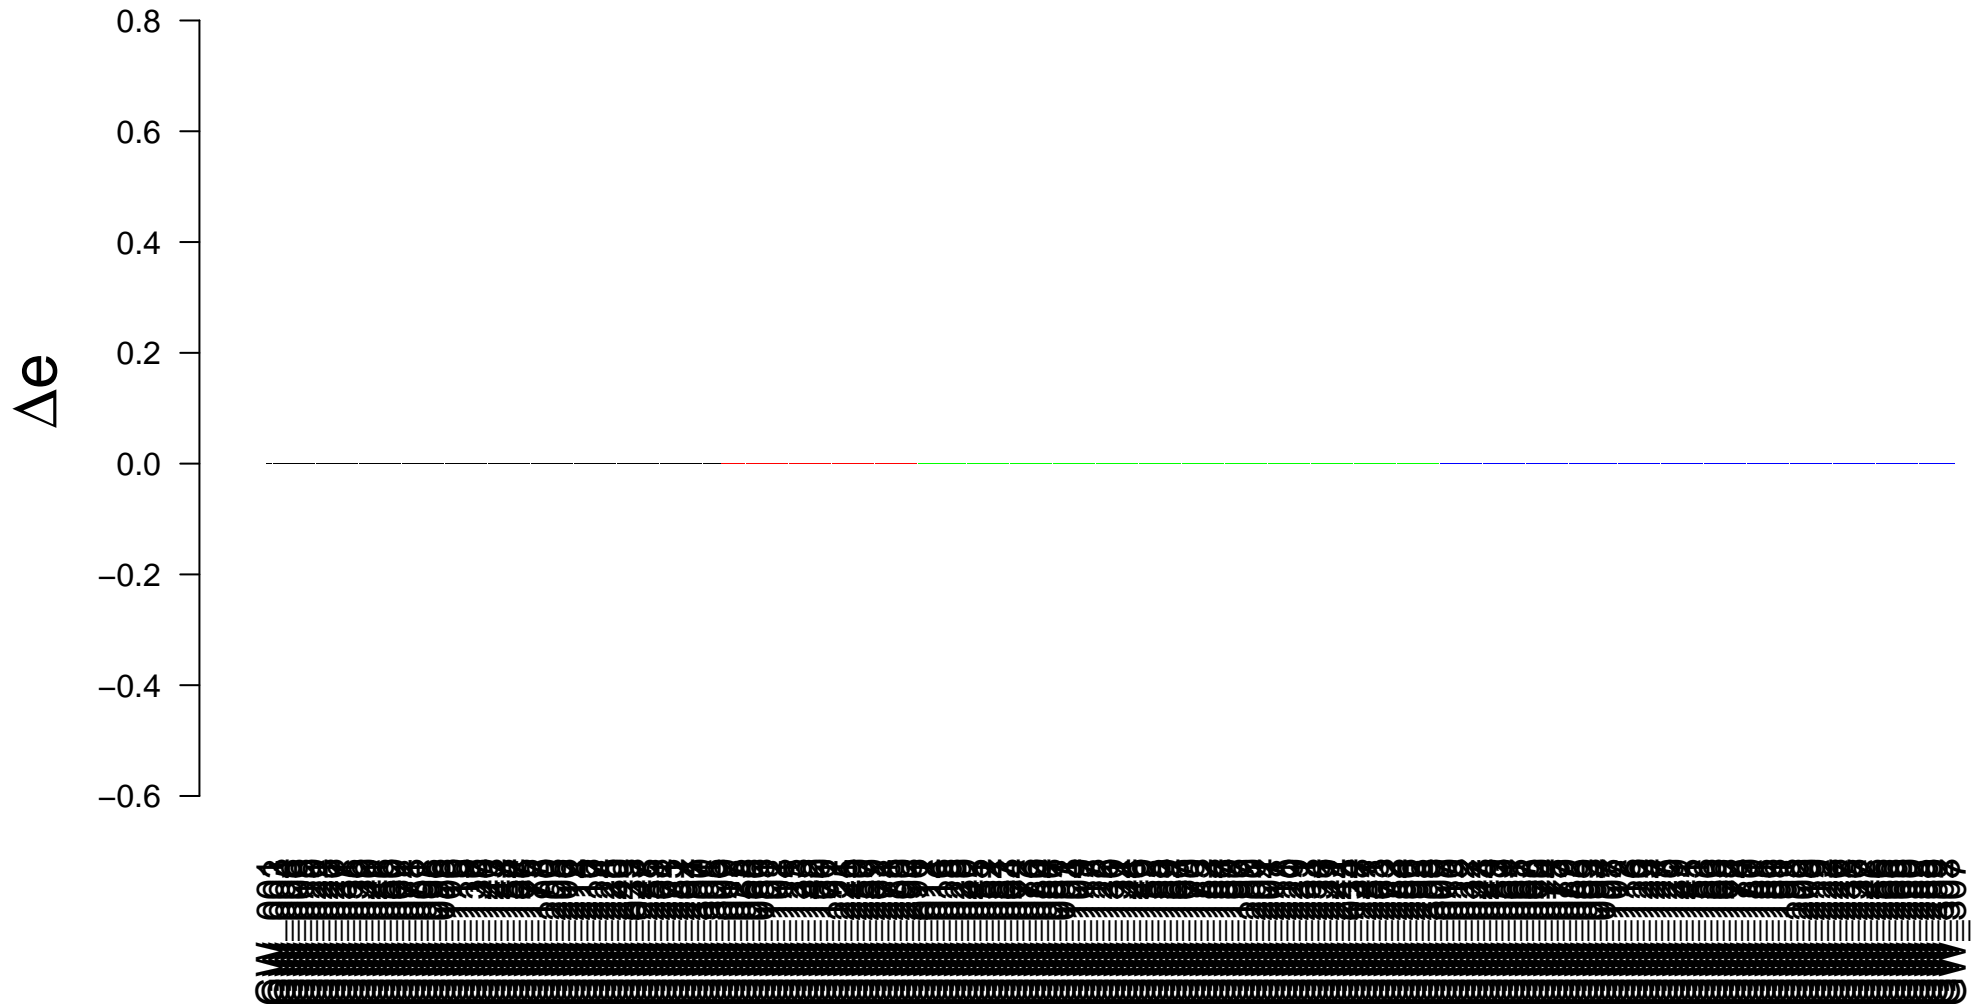

Expression of activating transcription factor binding in Spot E

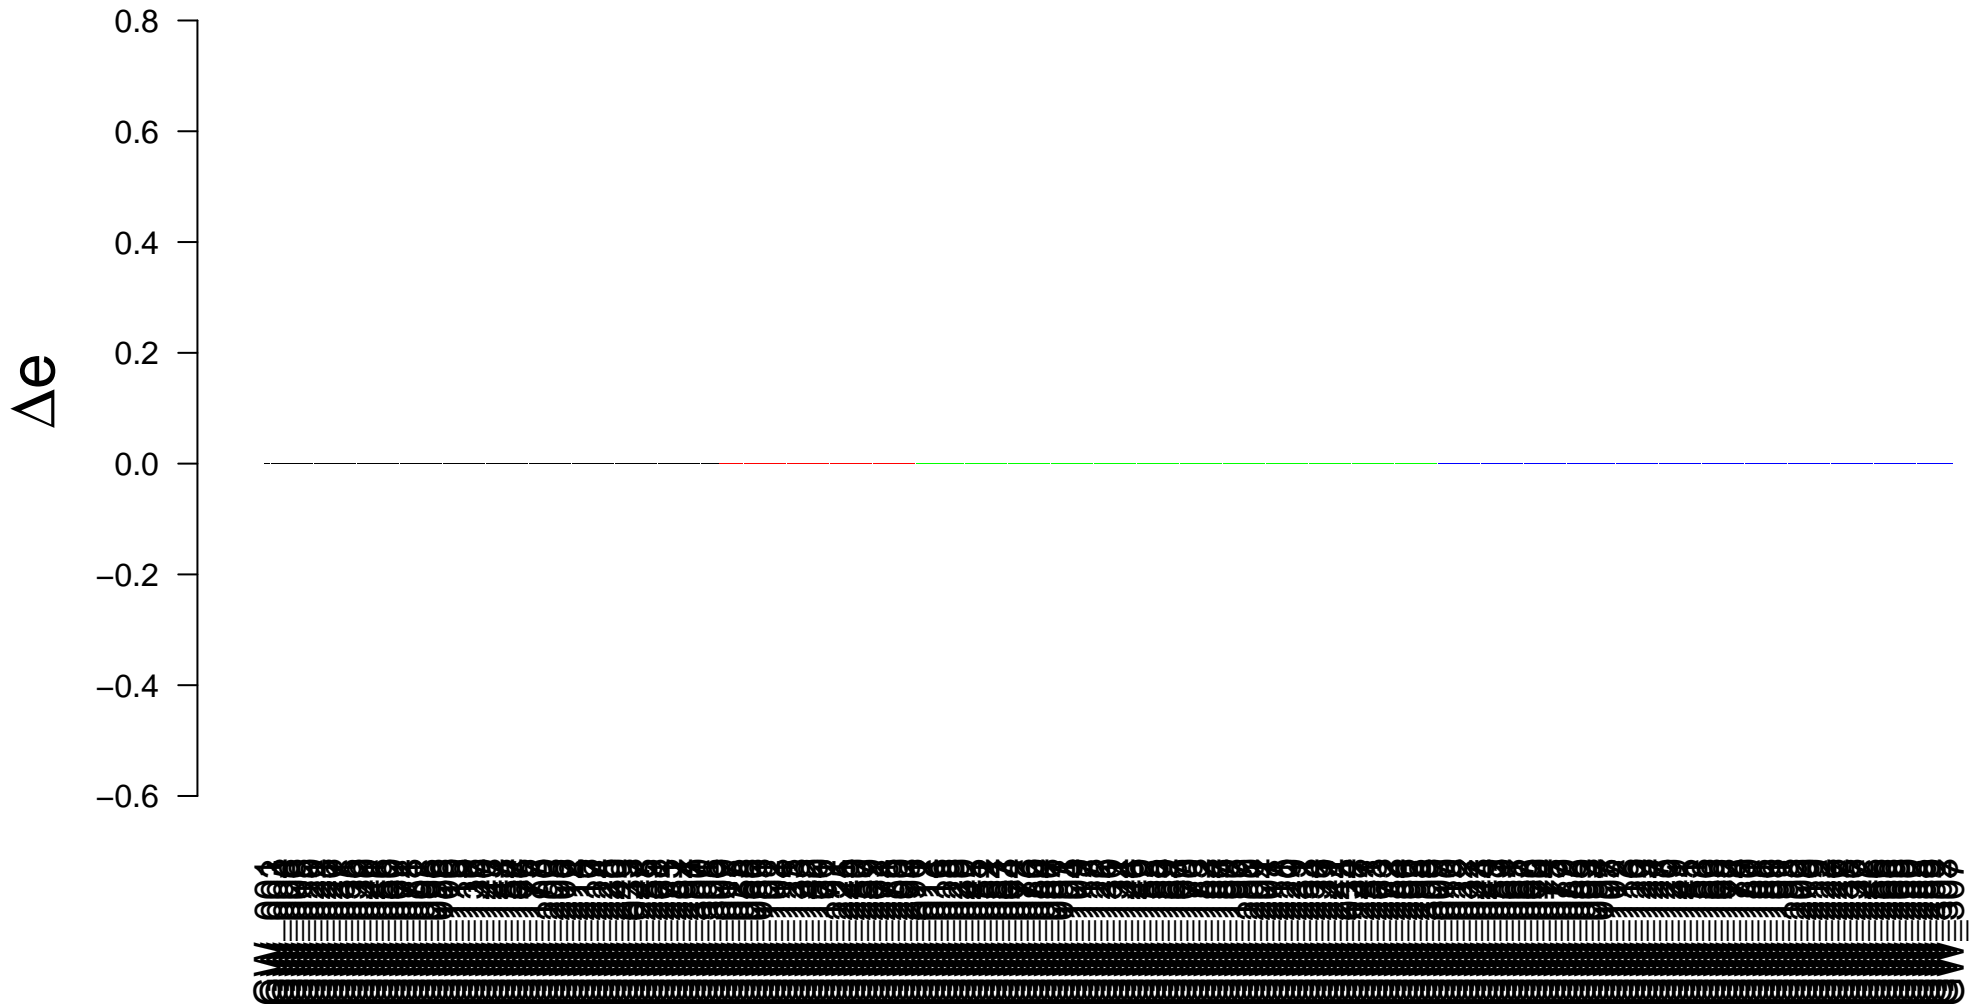

Expression of activating transcription factor binding in Spot F

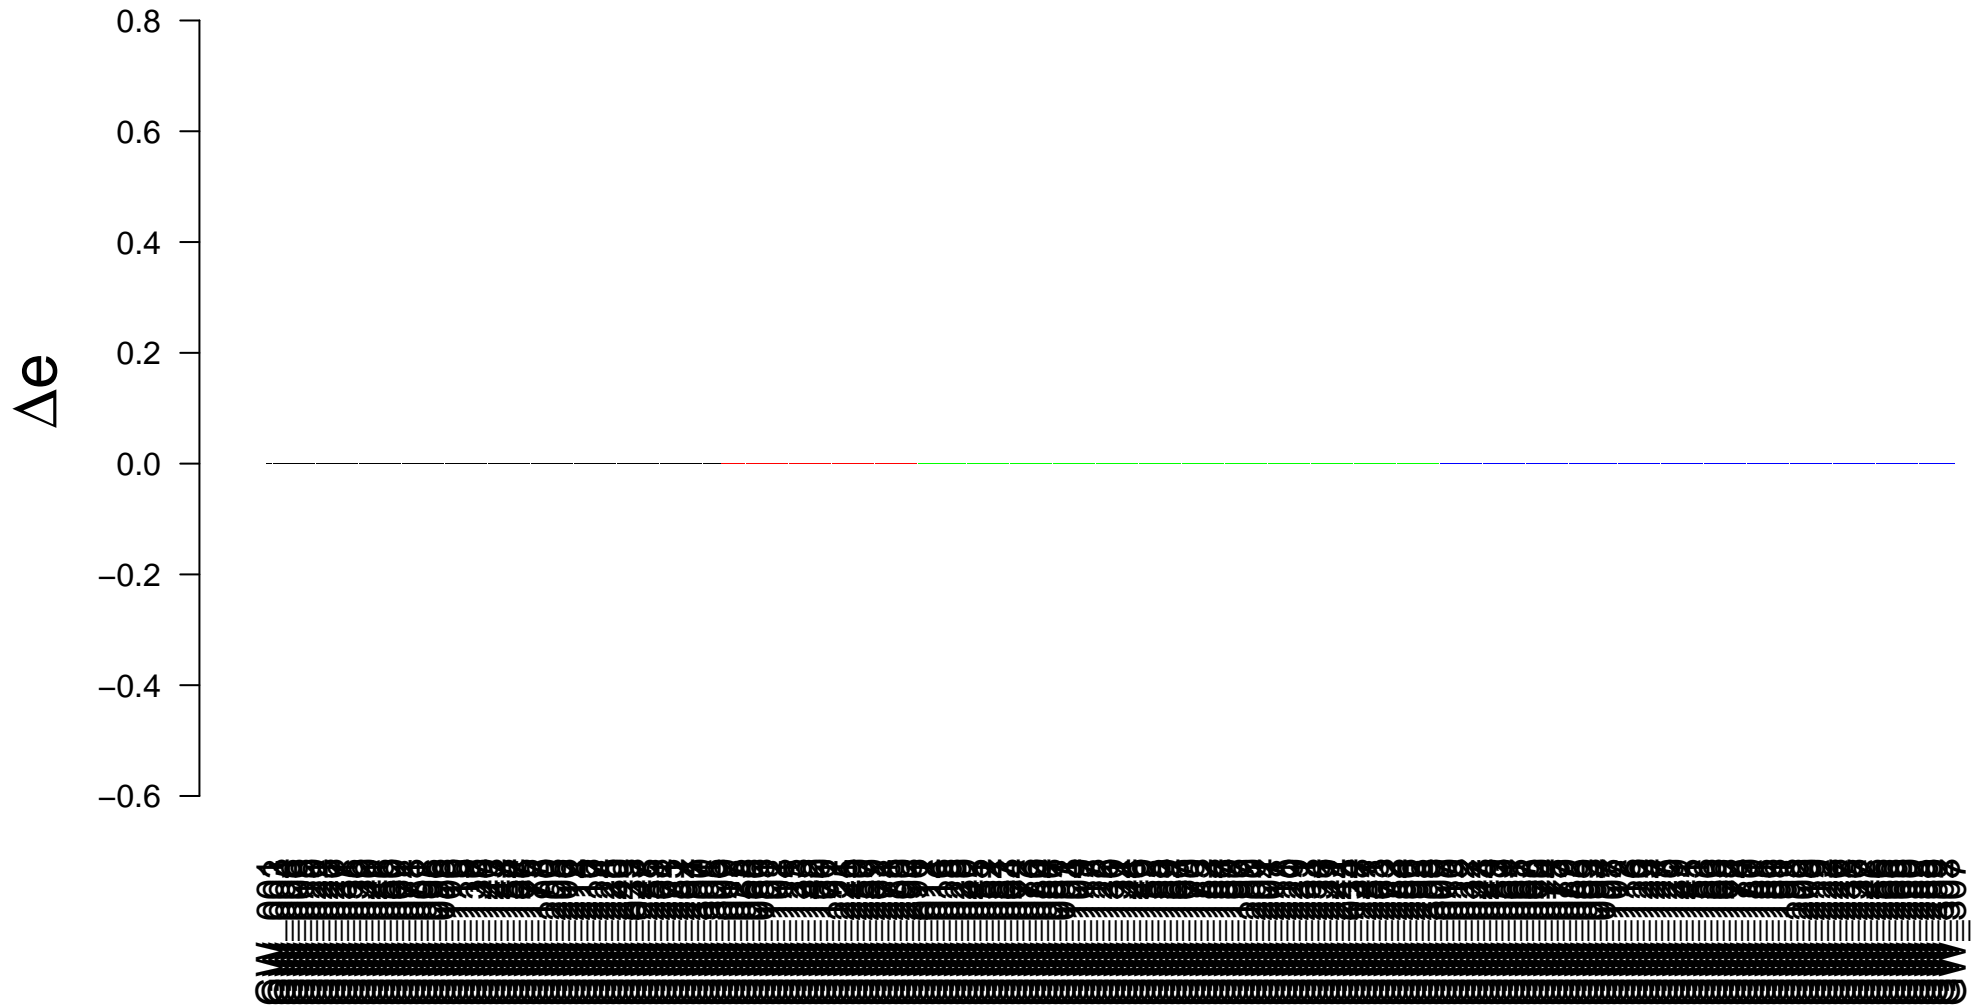

Expression of activating transcription factor binding in Spot G

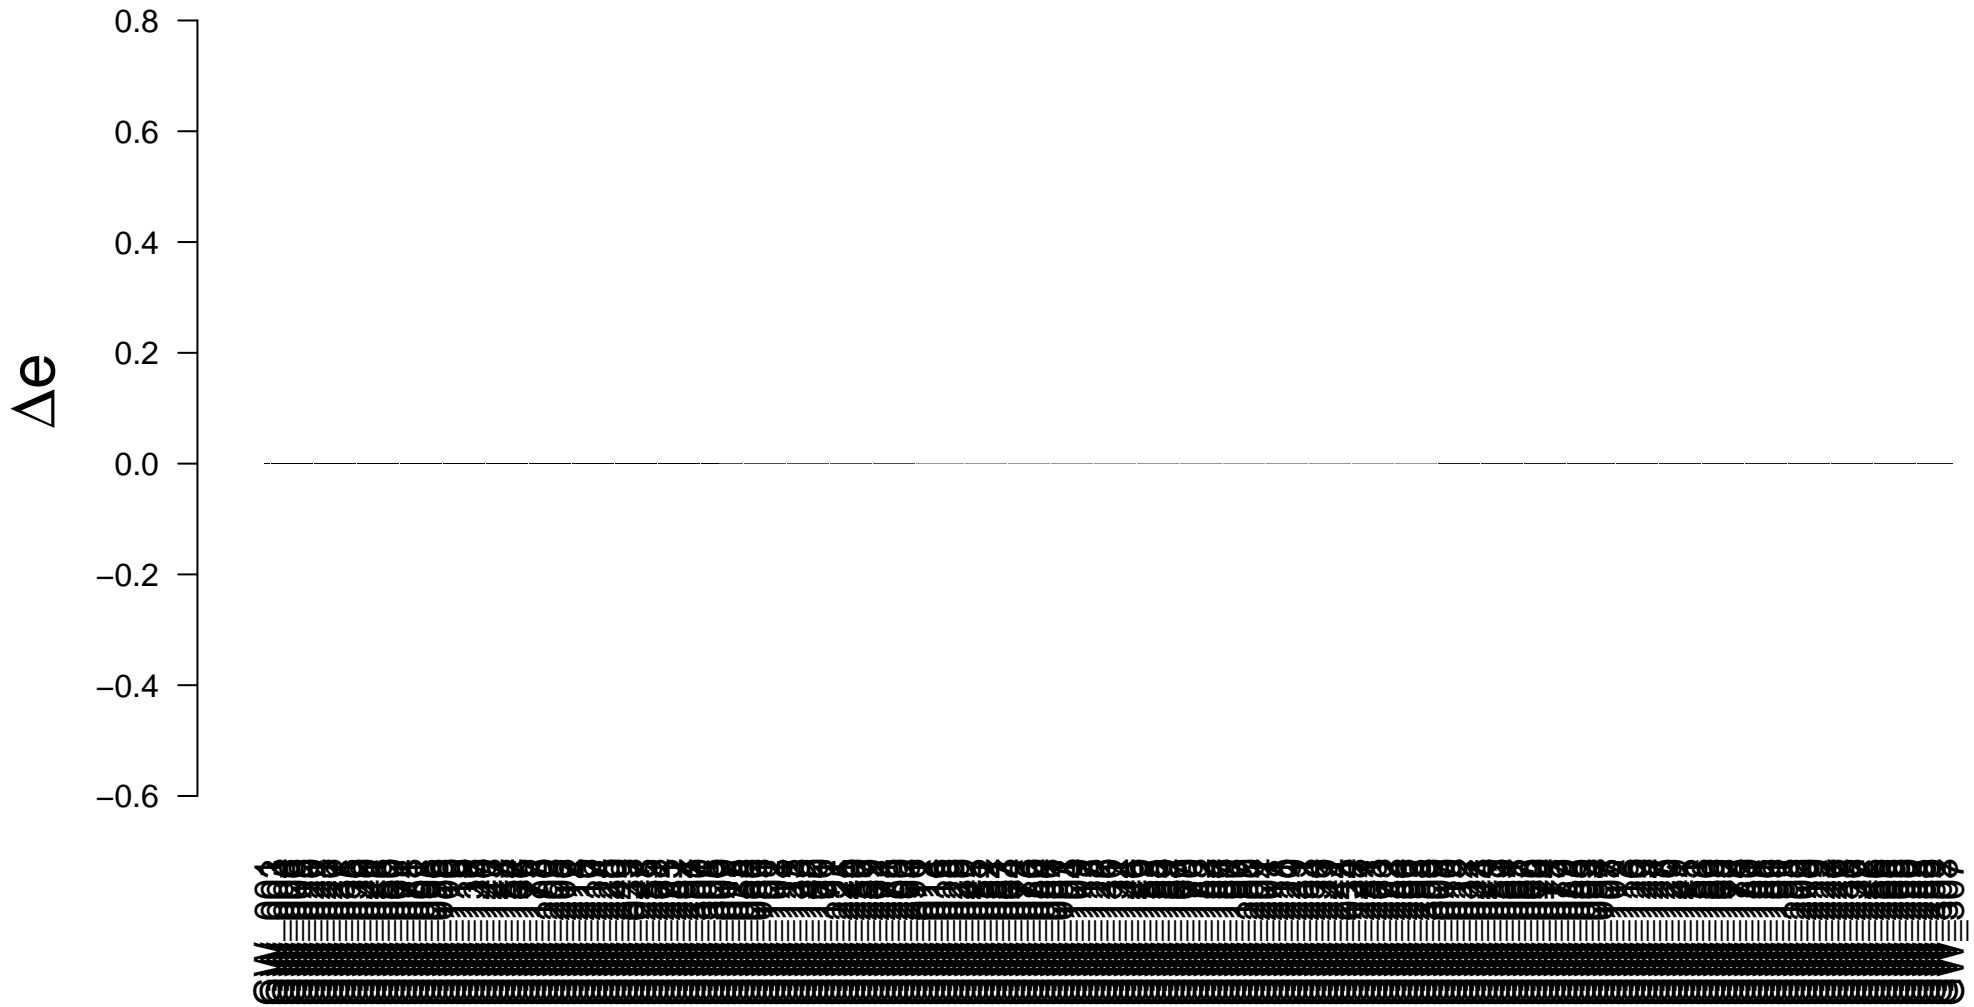

Expression of activating transcription factor binding in Spot H

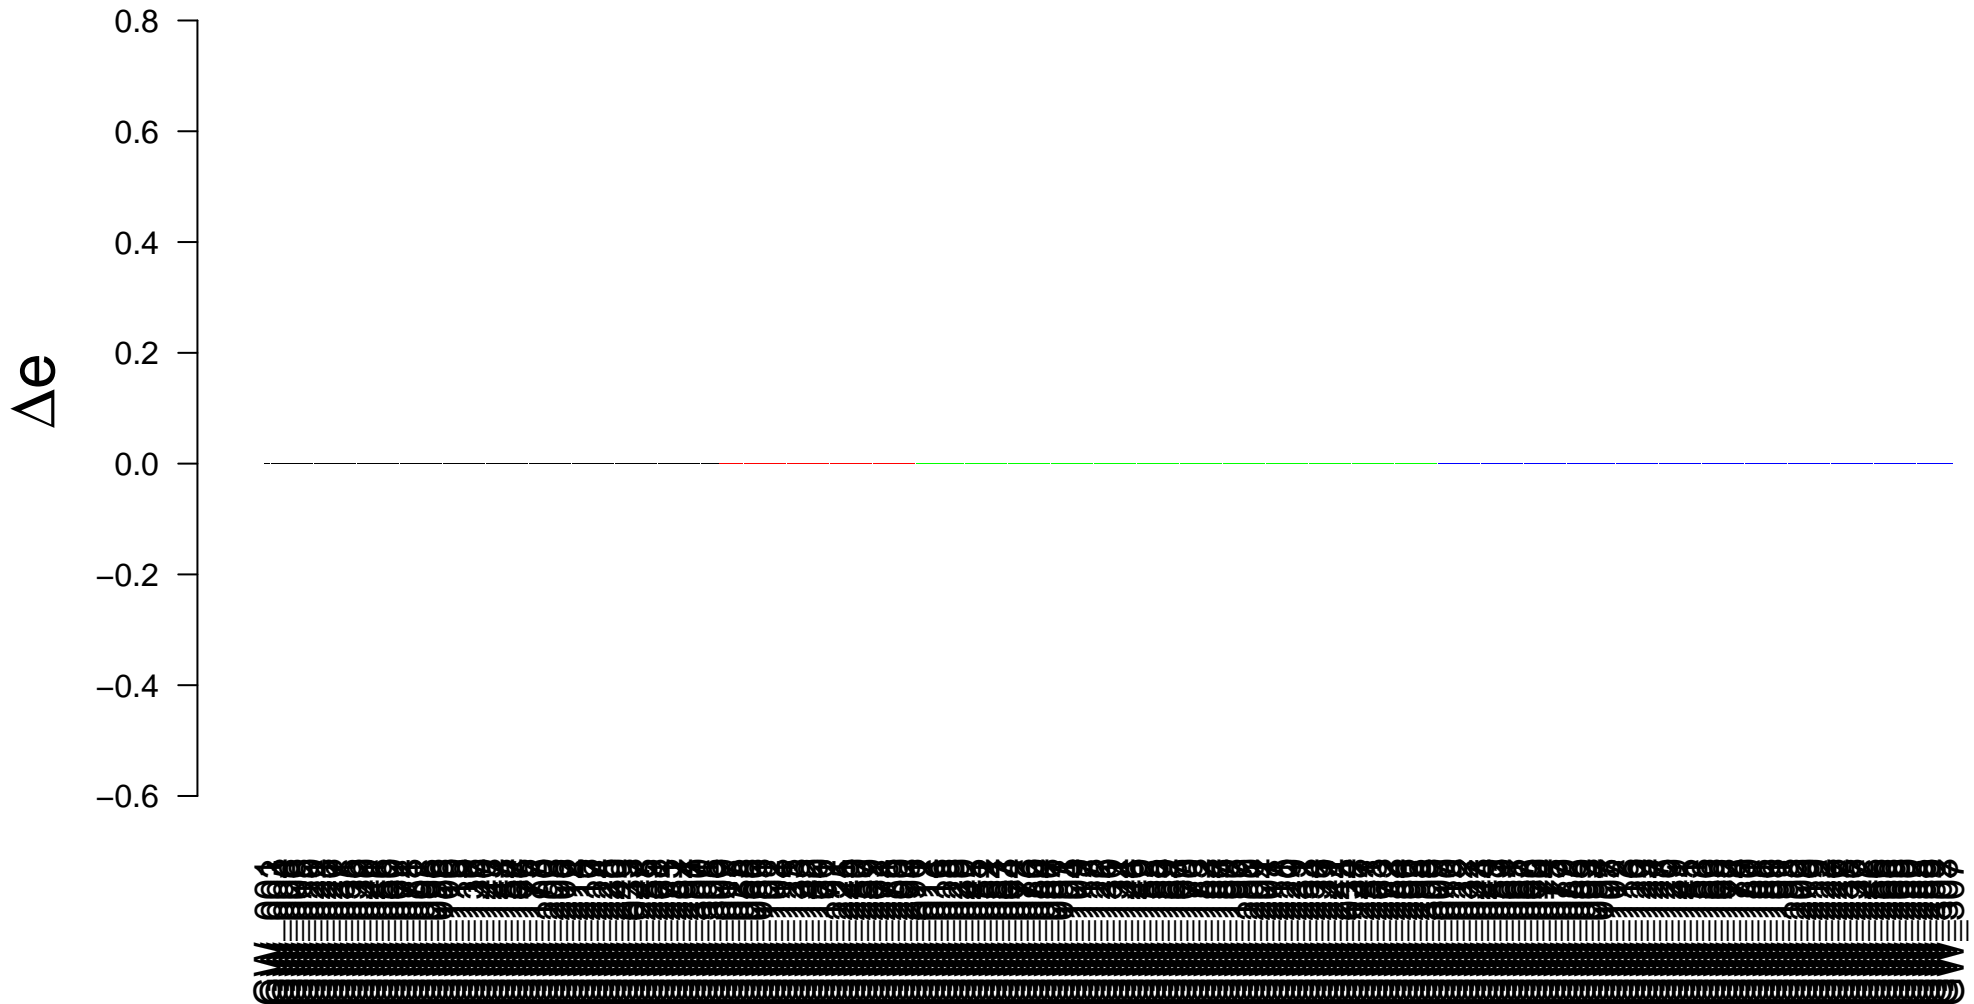

Expression of activating transcription factor binding in Spot I

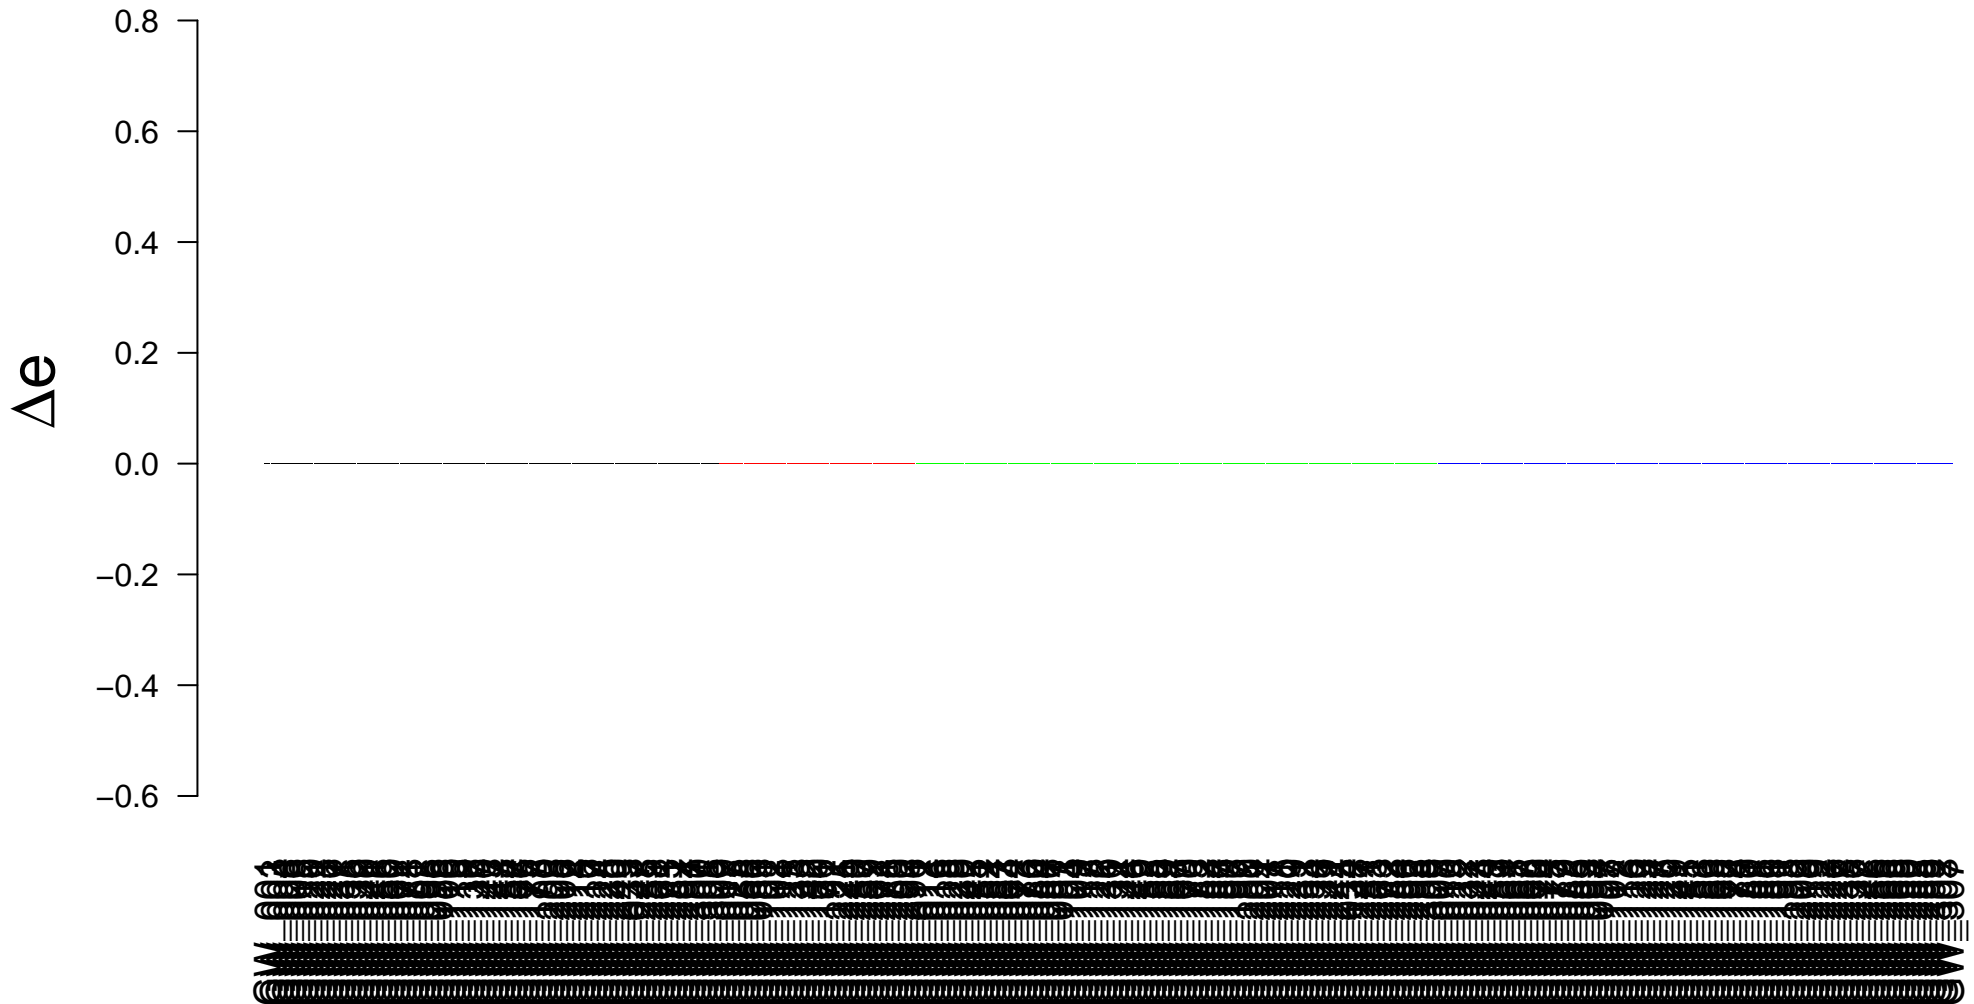

Expression of activating transcription factor binding in Spot J

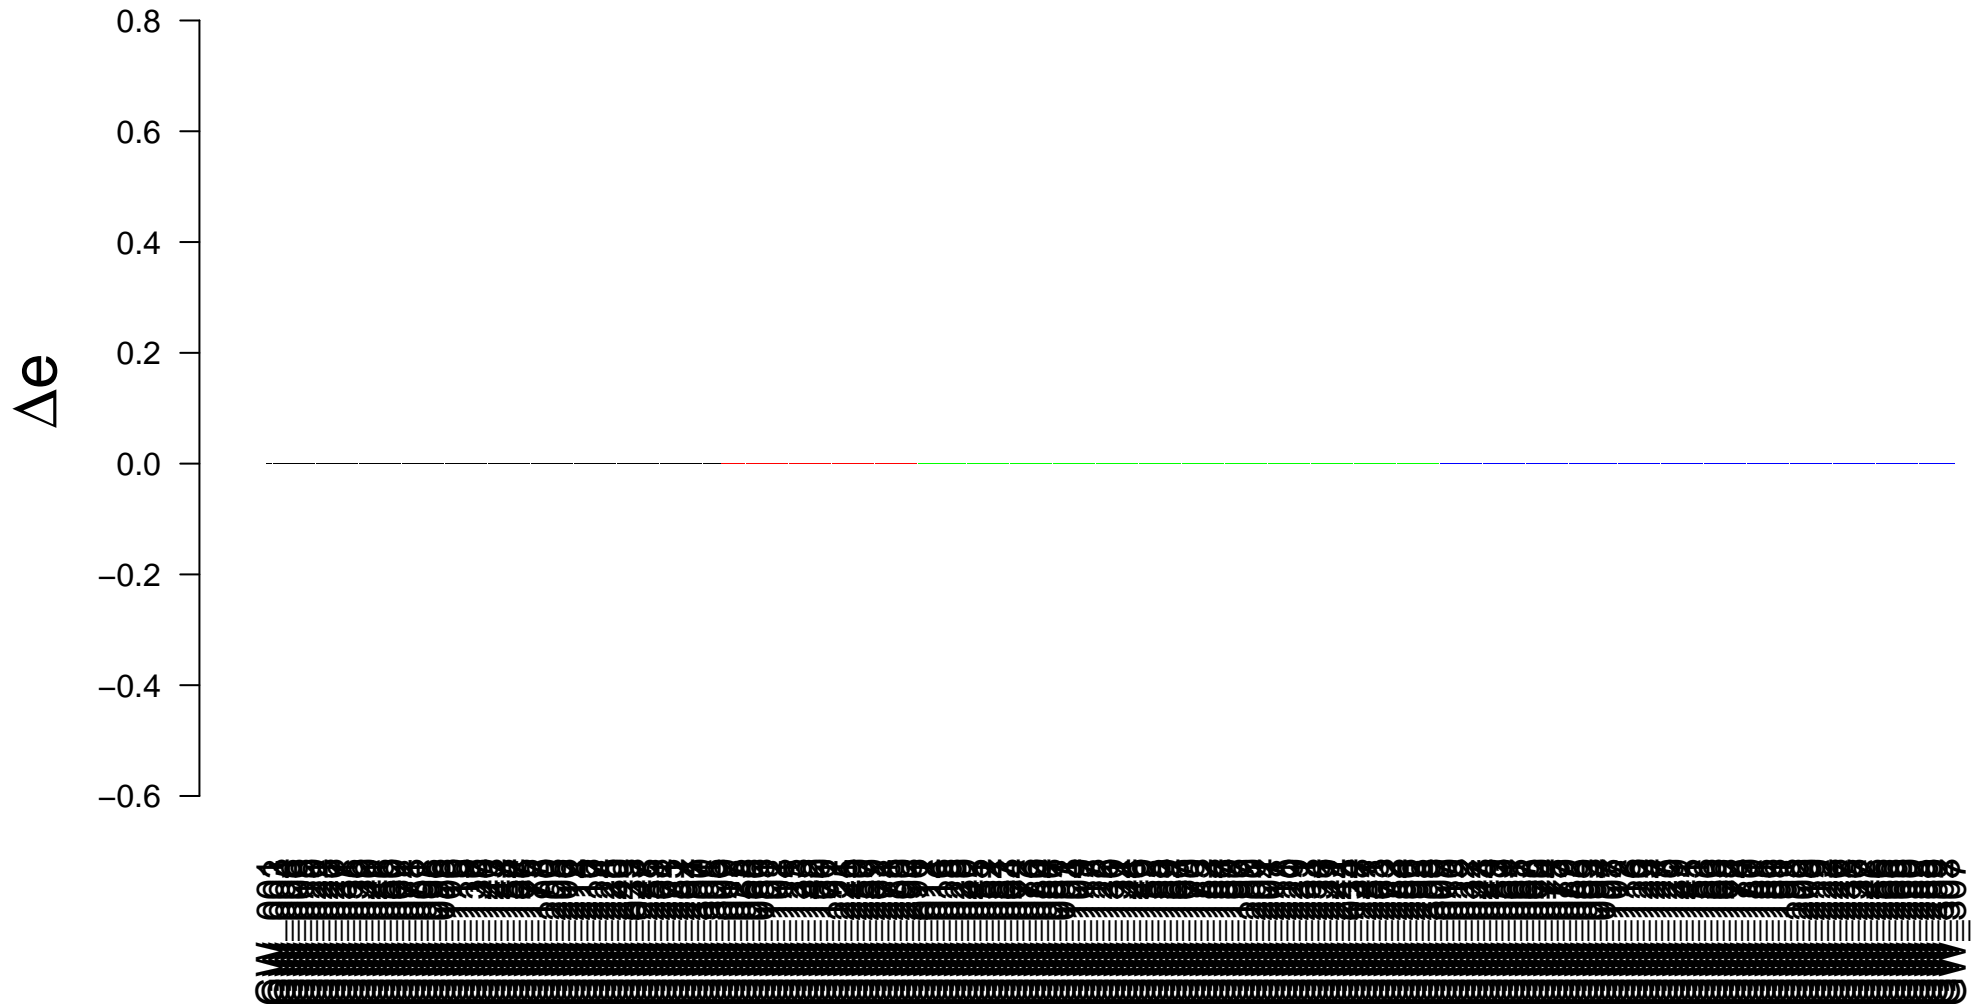

Expression of activating transcription factor binding in Spot K

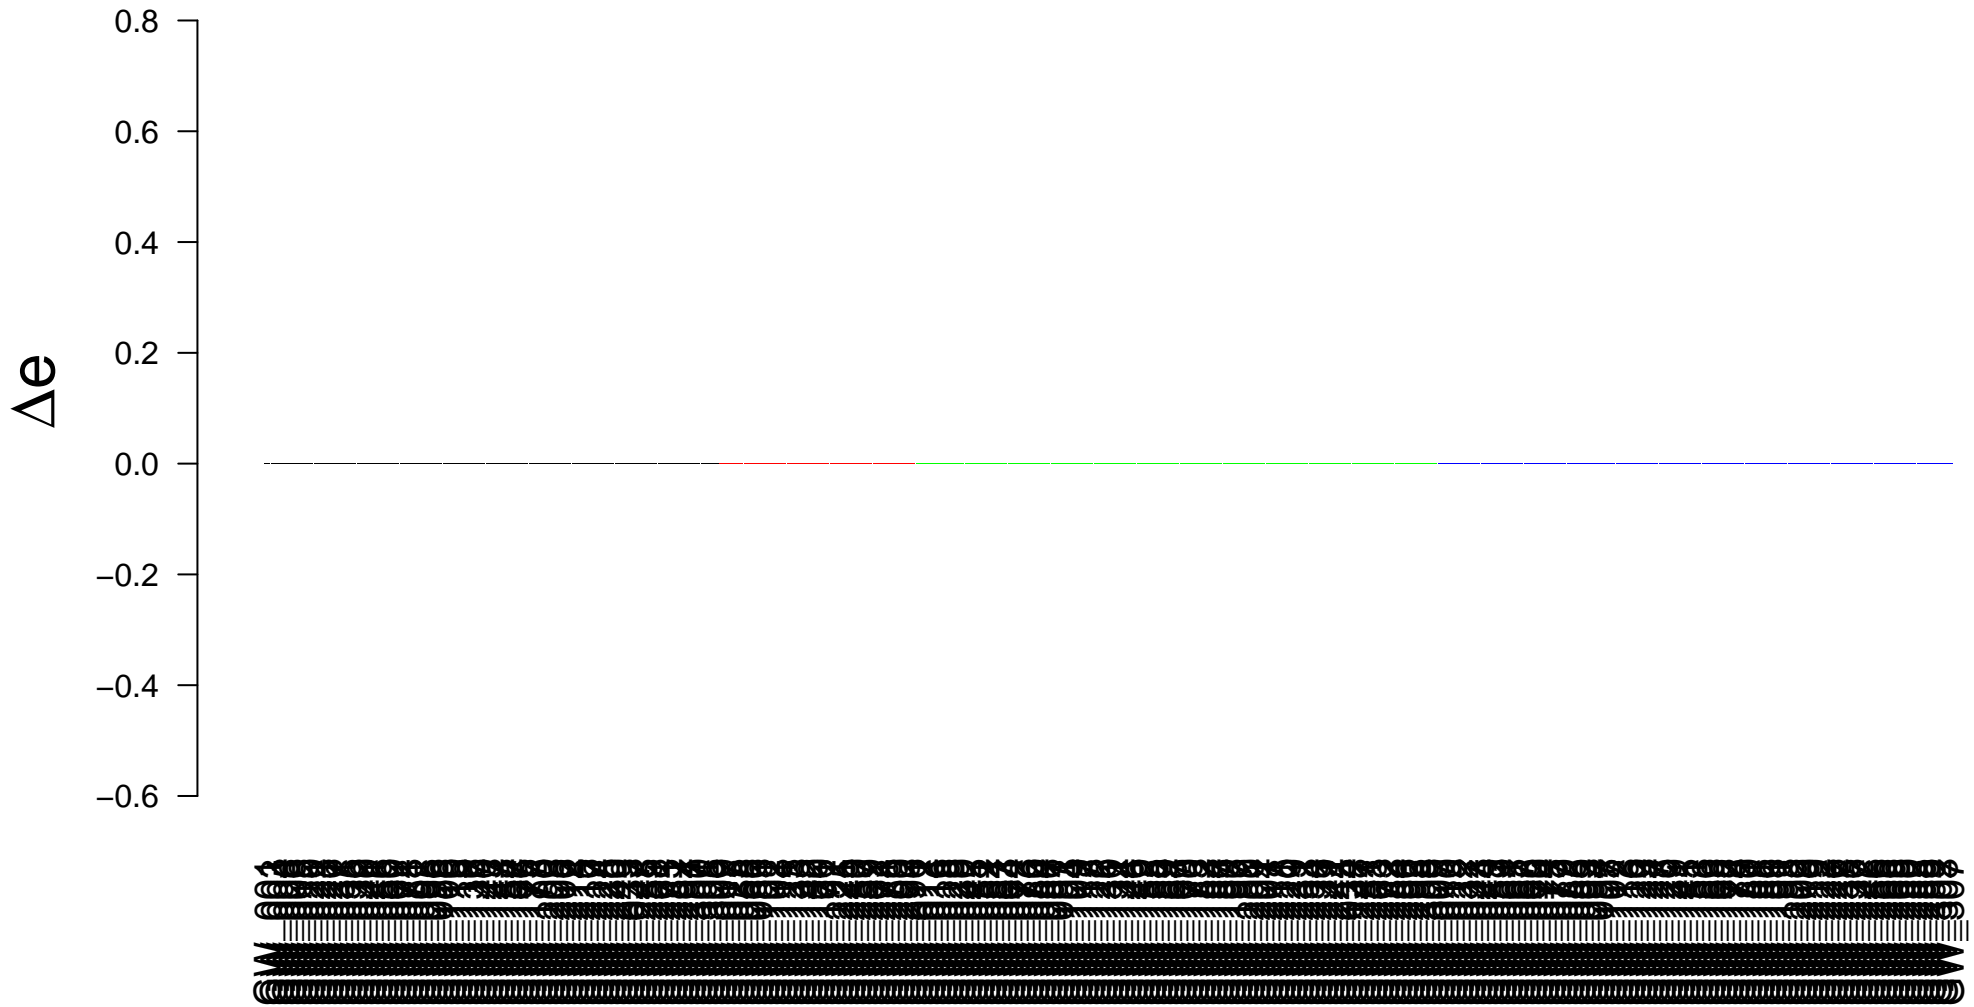

Expression of activating transcription factor binding in Spot L

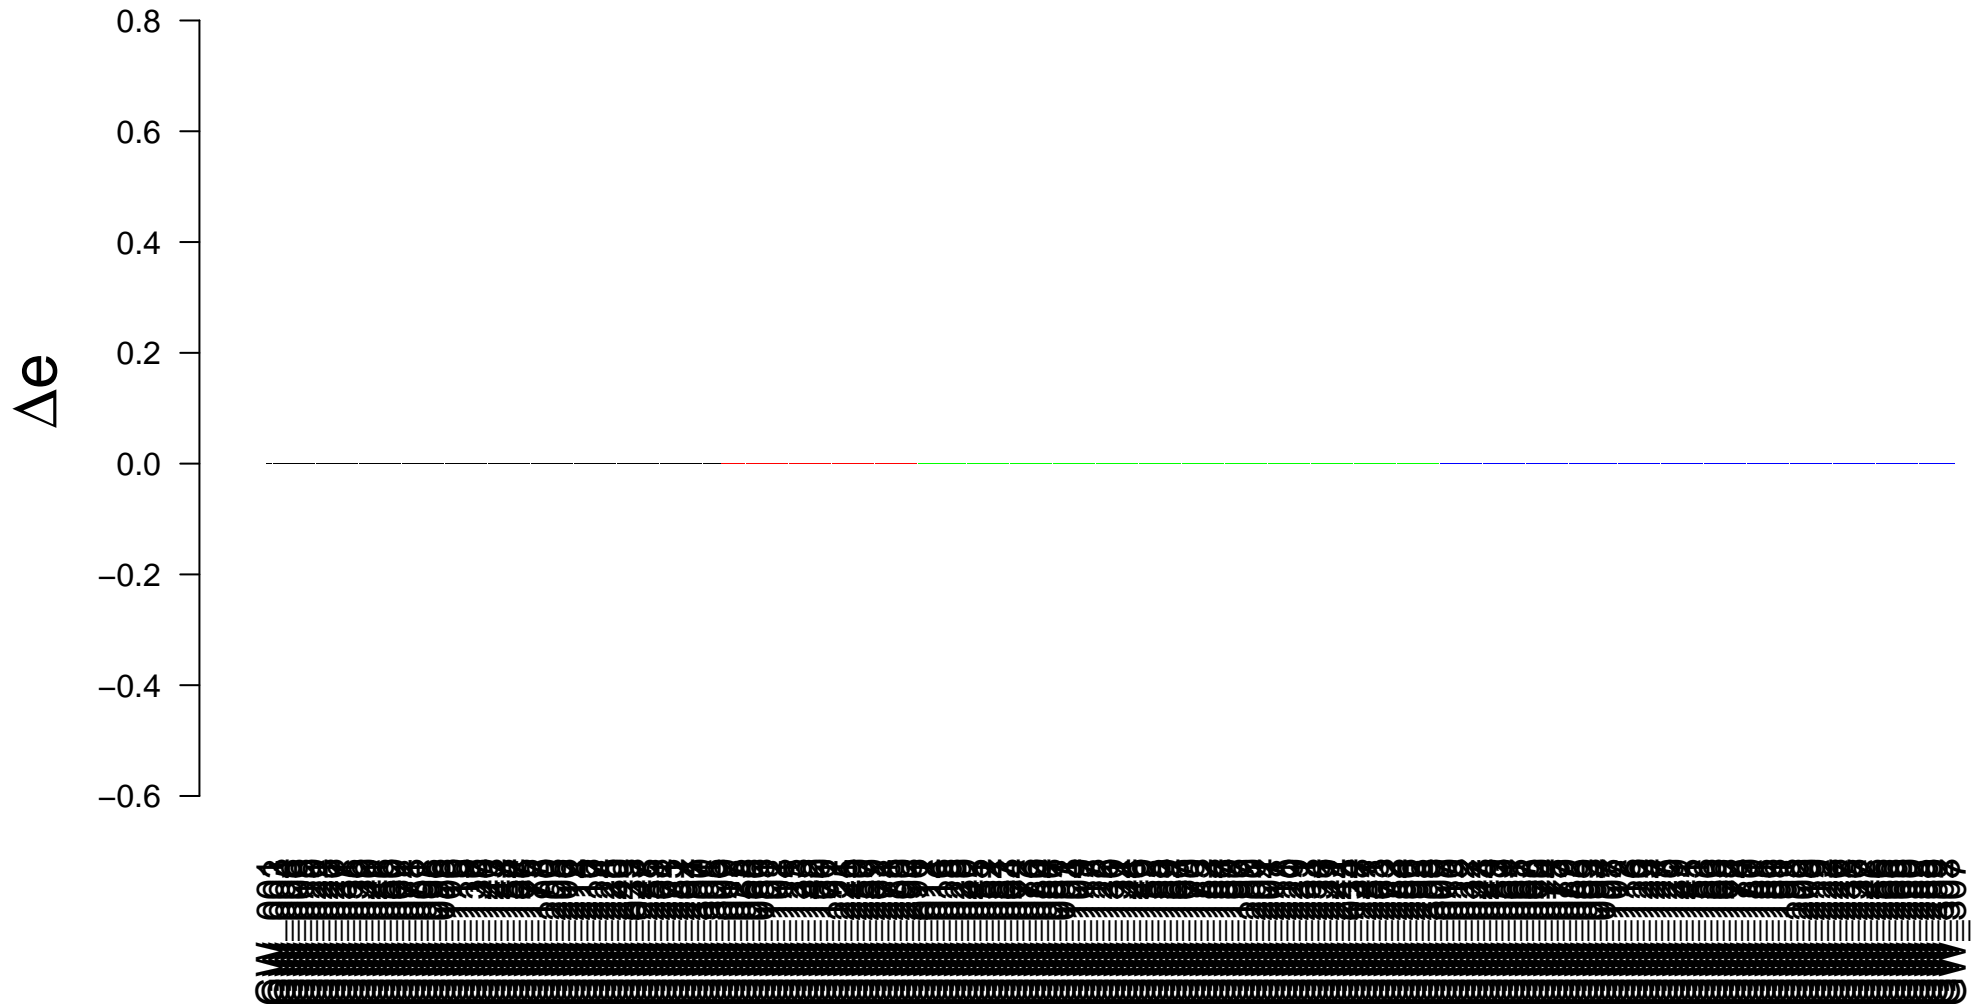

Expression of activating transcription factor binding in Spot M

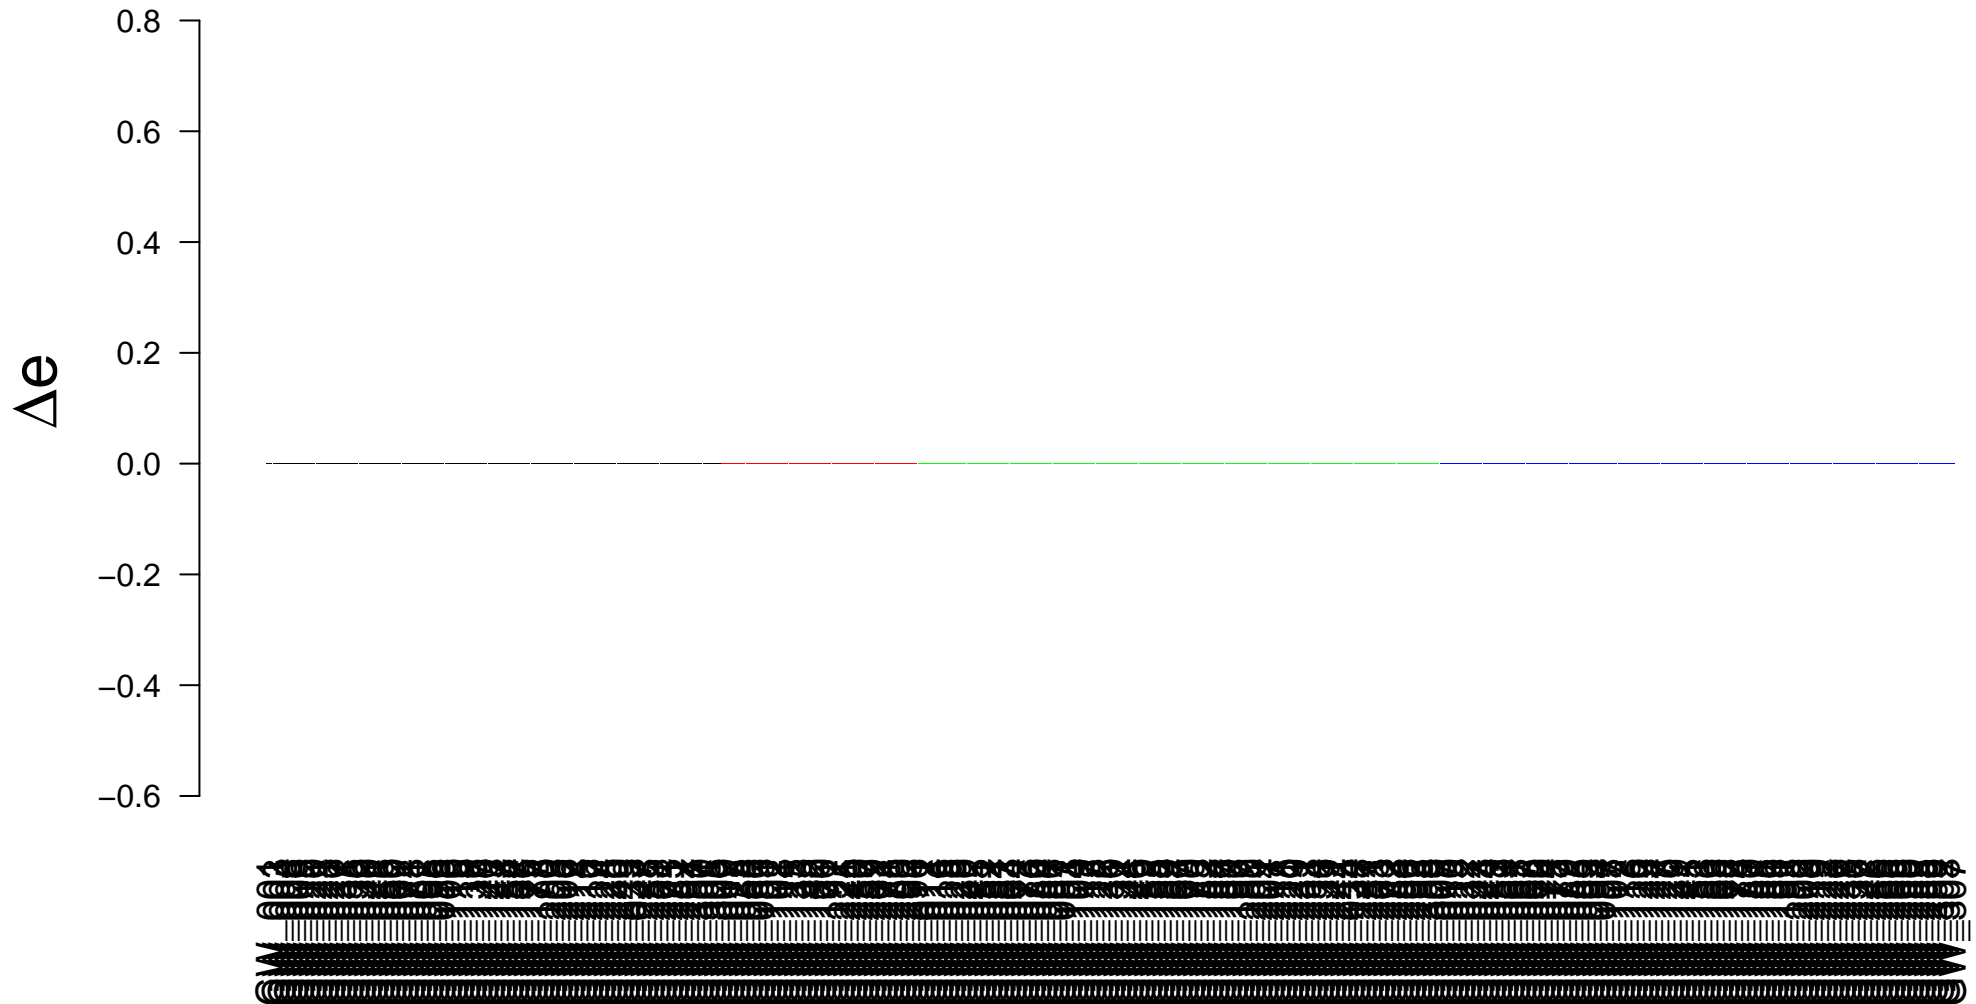

Expression of activating transcription factor binding in Spot N

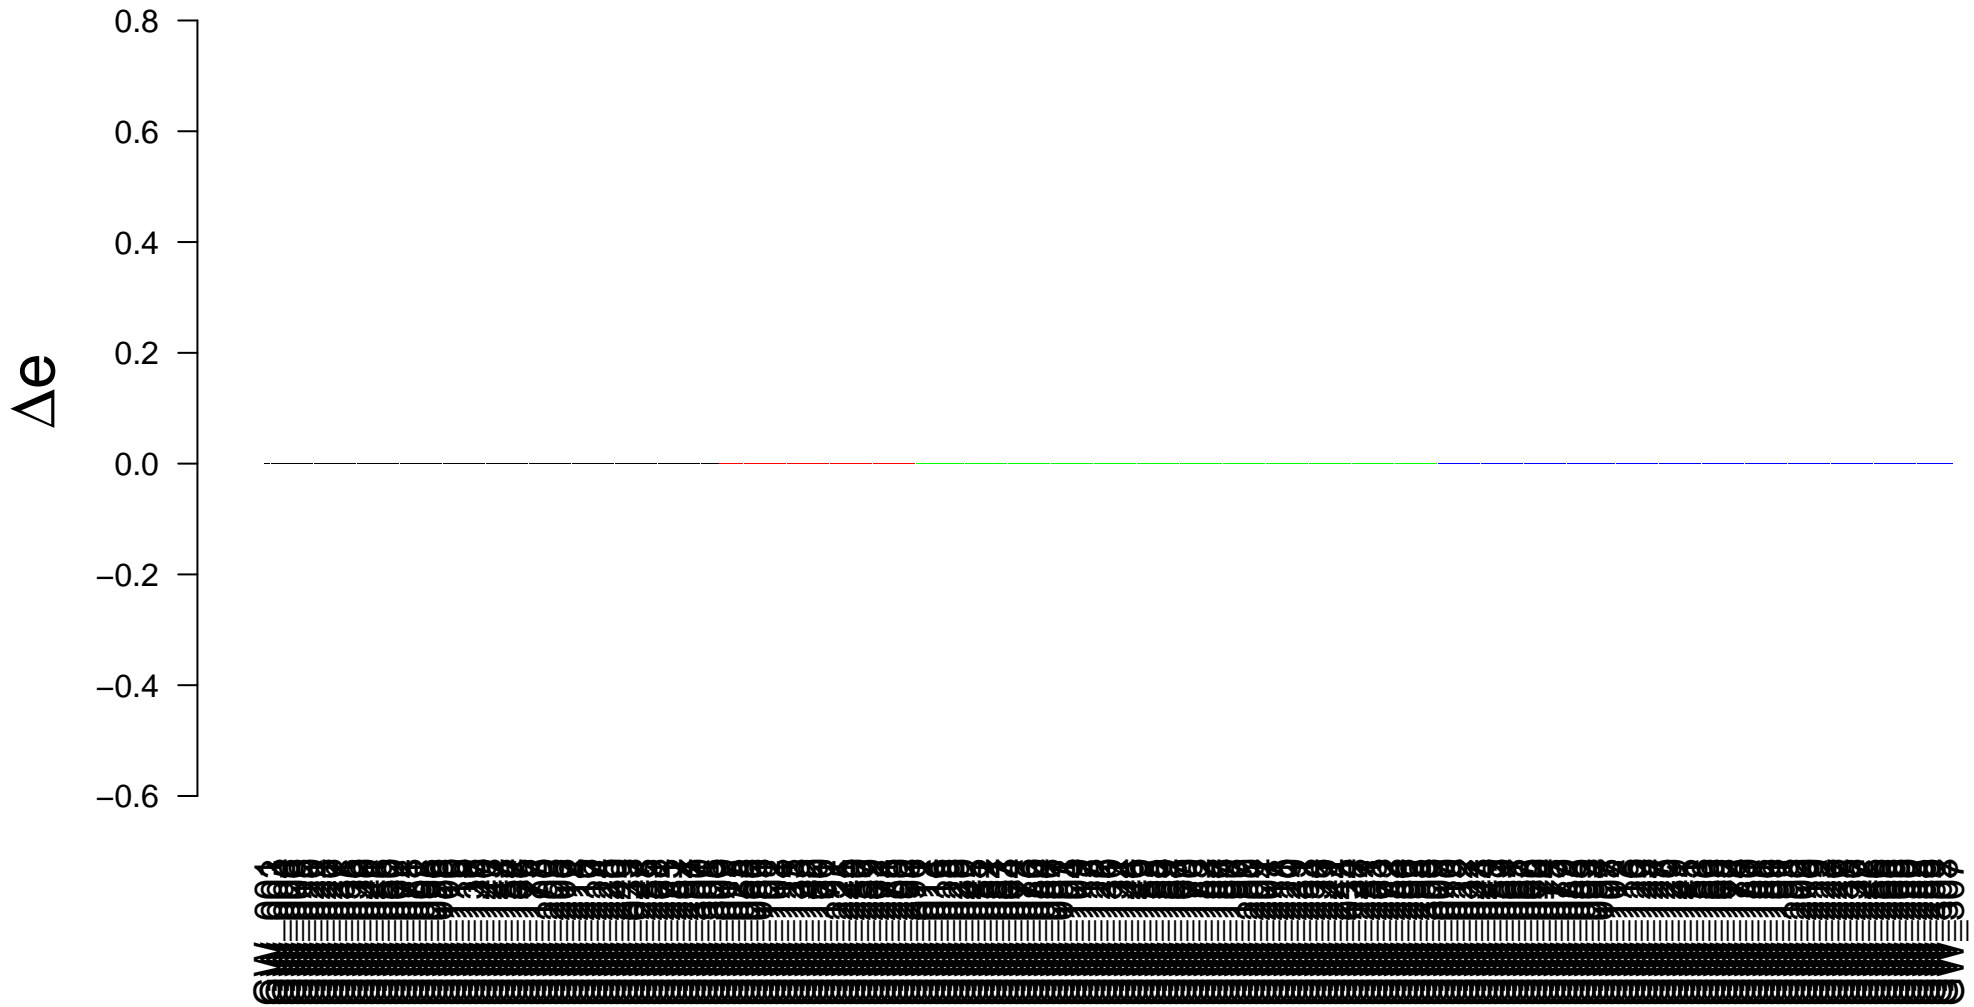

Expression of activating transcription factor binding in Spot O

Expression of activating transcription factor binding in Spot P

Expression of activating transcription factor binding in Spot Q

Expression of activating transcription factor binding in Spot R
