

activation of signaling protein activity involved in unfolded protein response

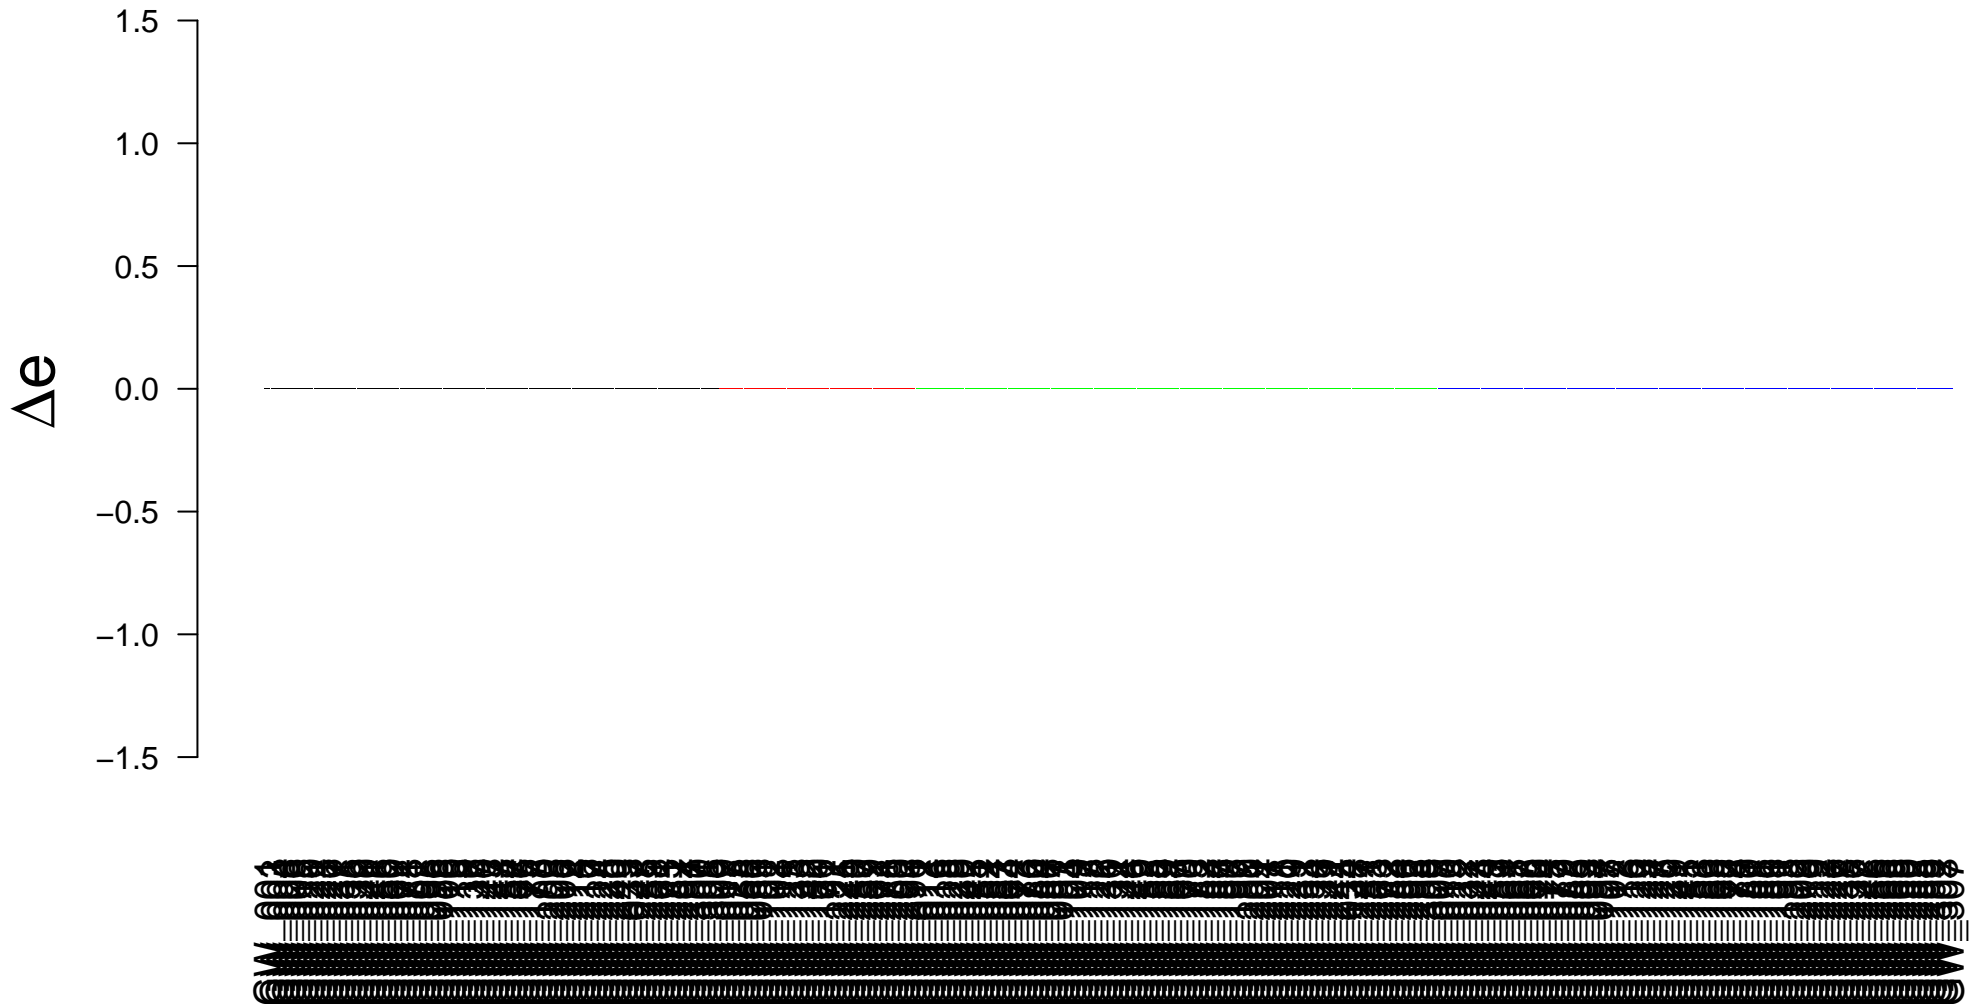

activation of signaling protein activity involved in unfolded protein response

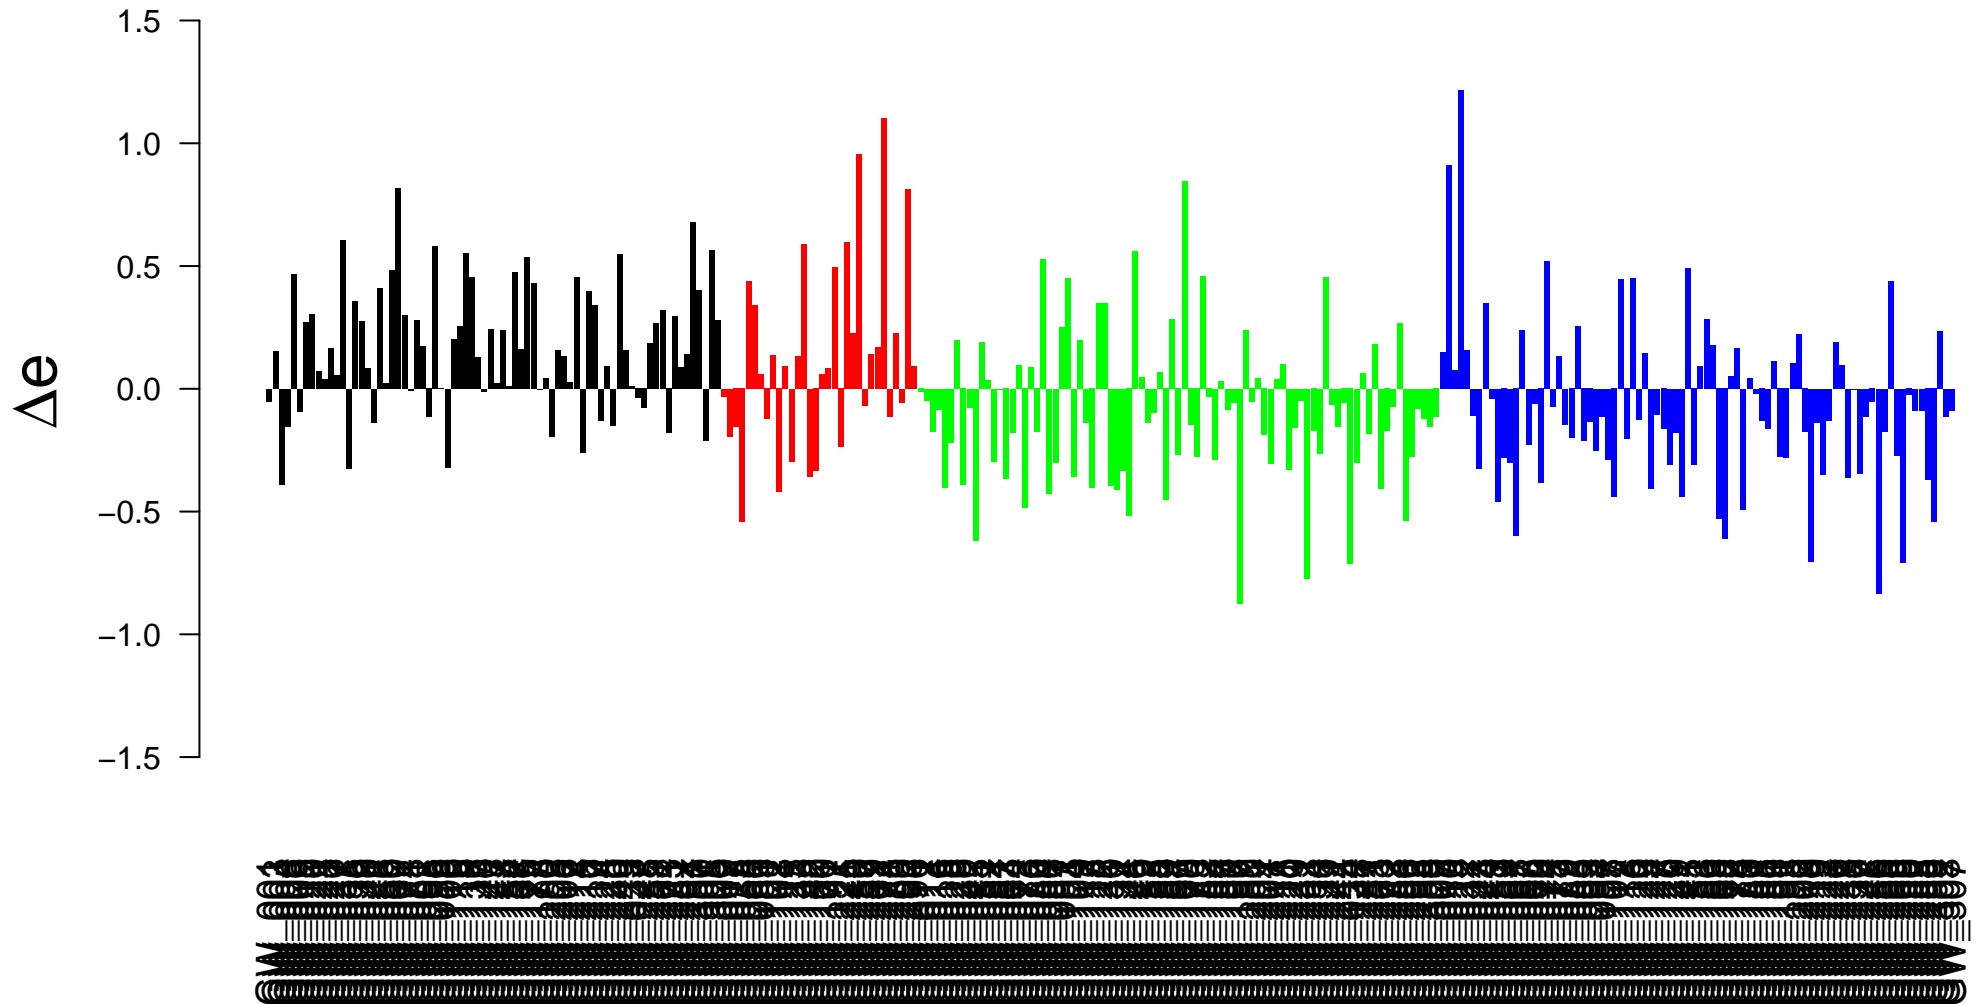

Enrichment in spots: activation of signaling protein activity involved in unfolded protein response

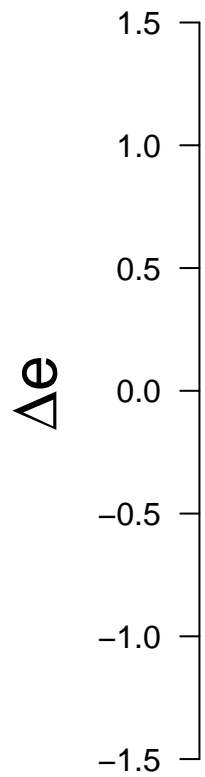

Expression of activation of signaling protein activity involved in unfolded protein response in Spot A

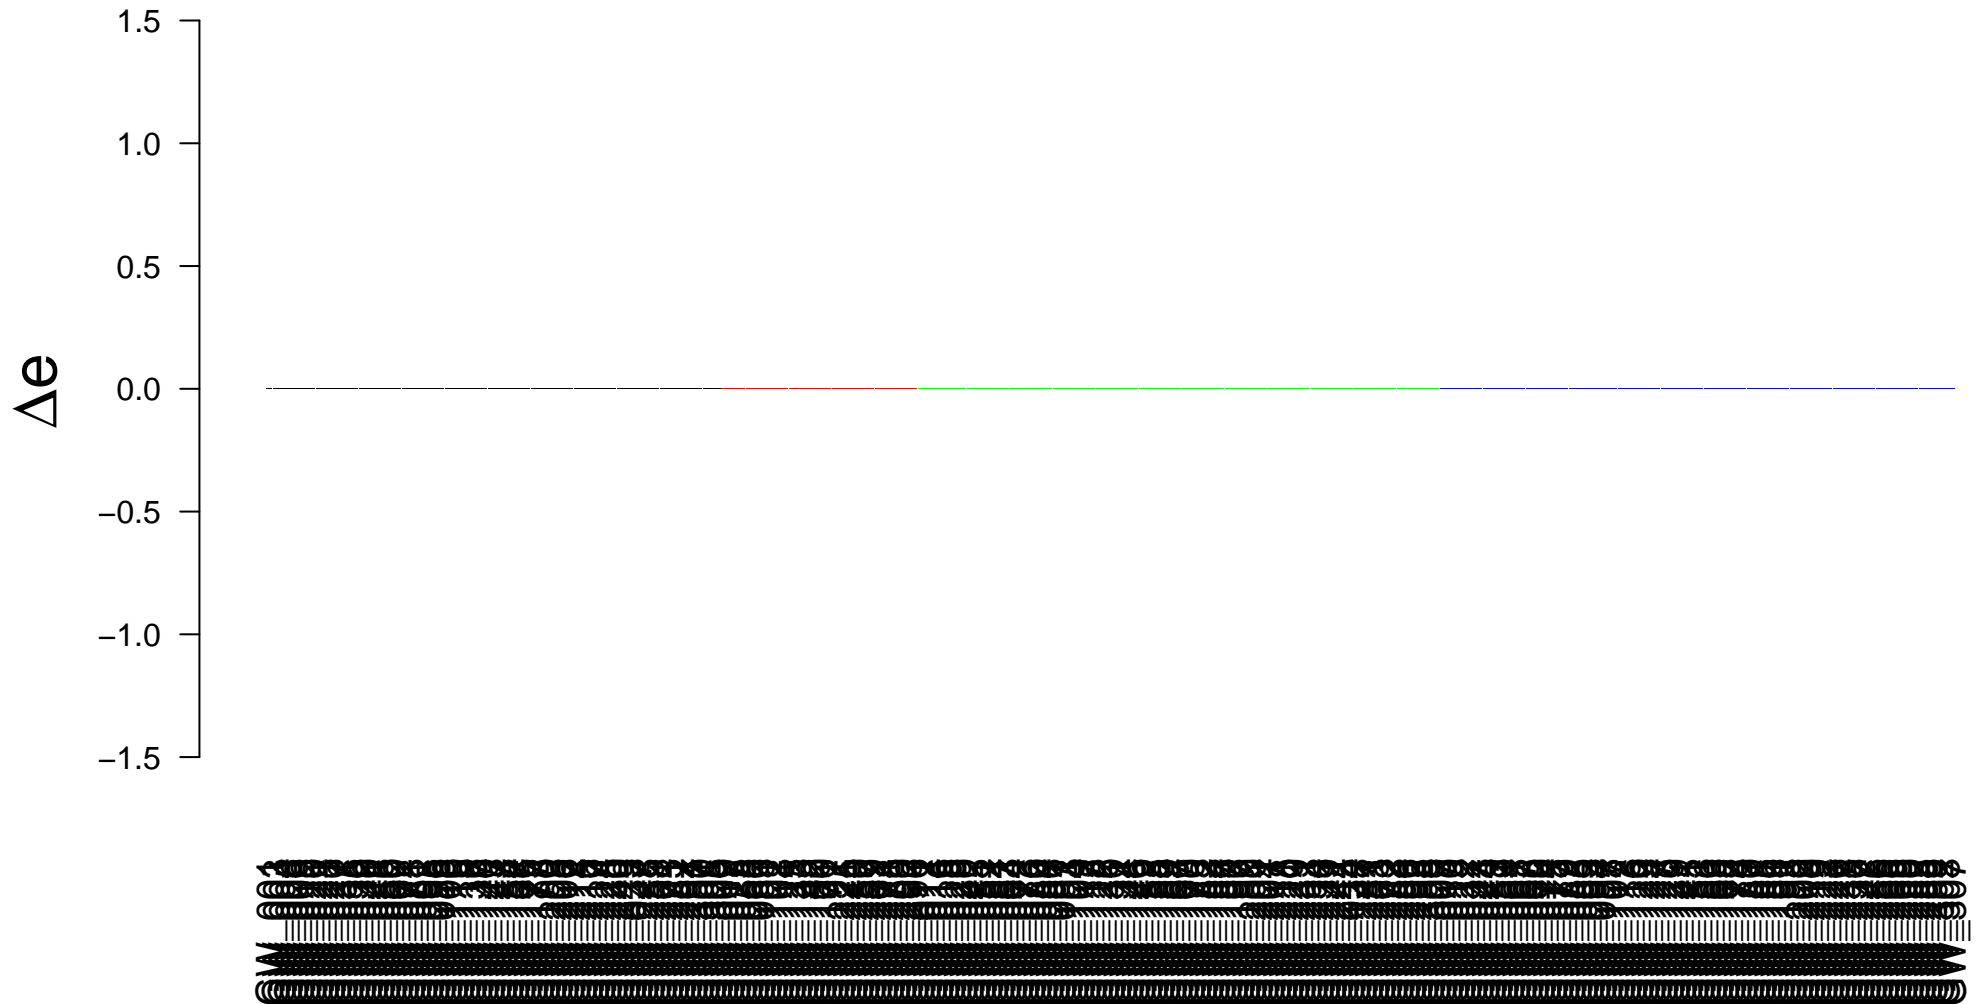

Expression of activation of signaling protein activity involved in unfolded protein response in Spot B

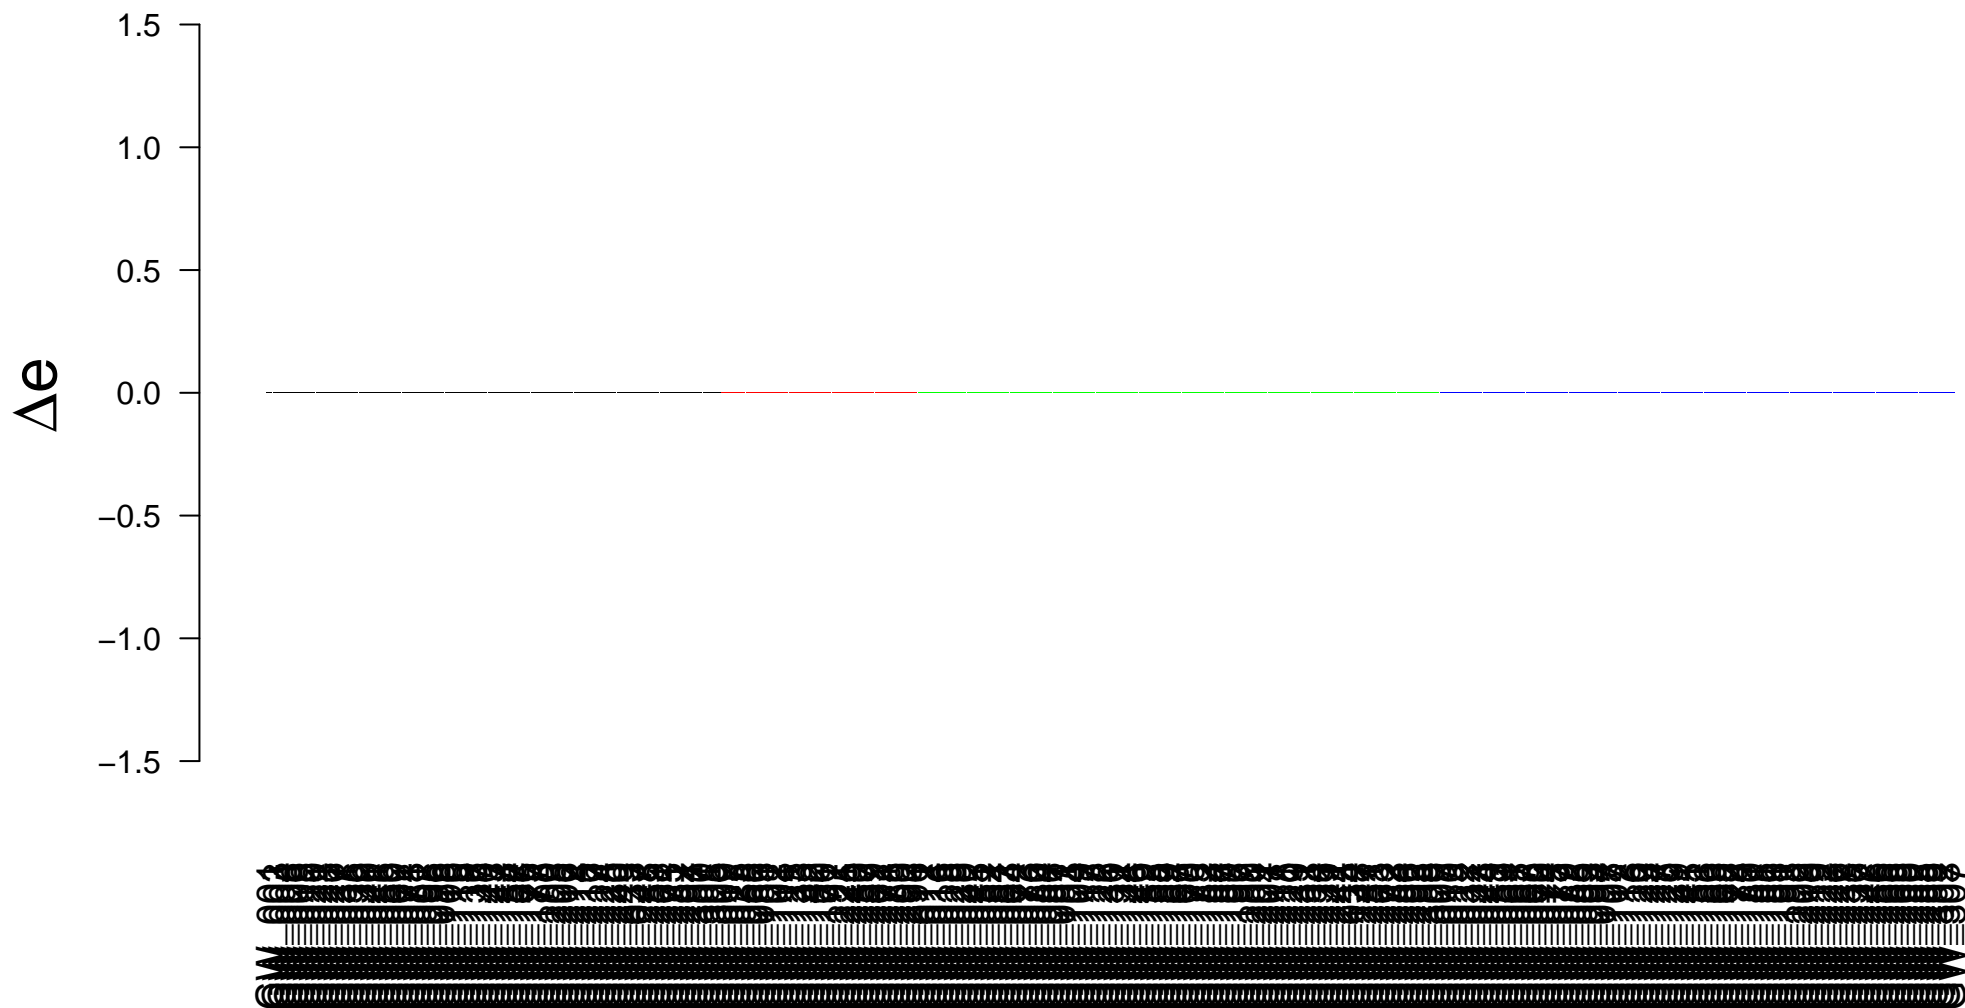

Expression of activation of signaling protein activity involved in unfolded protein response in Spot C

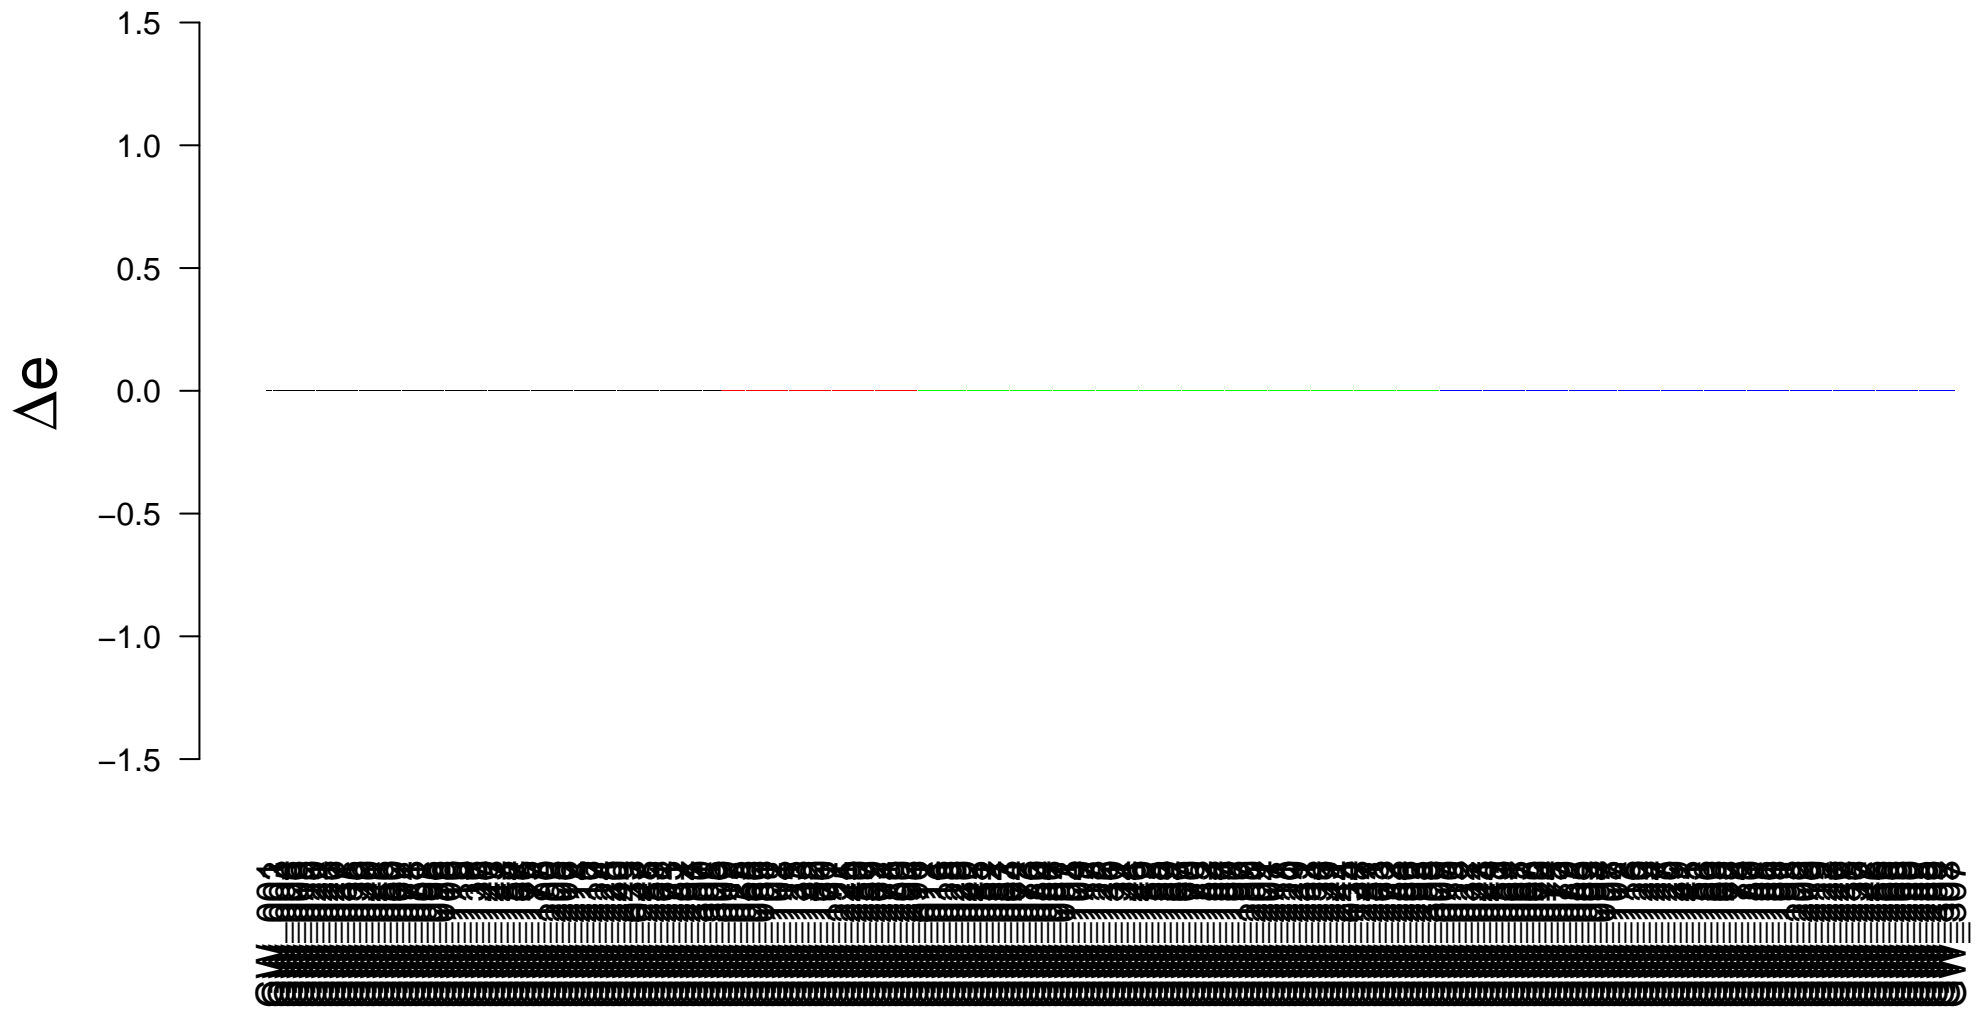

Expression of activation of signaling protein activity involved in unfolded protein response in Spot D

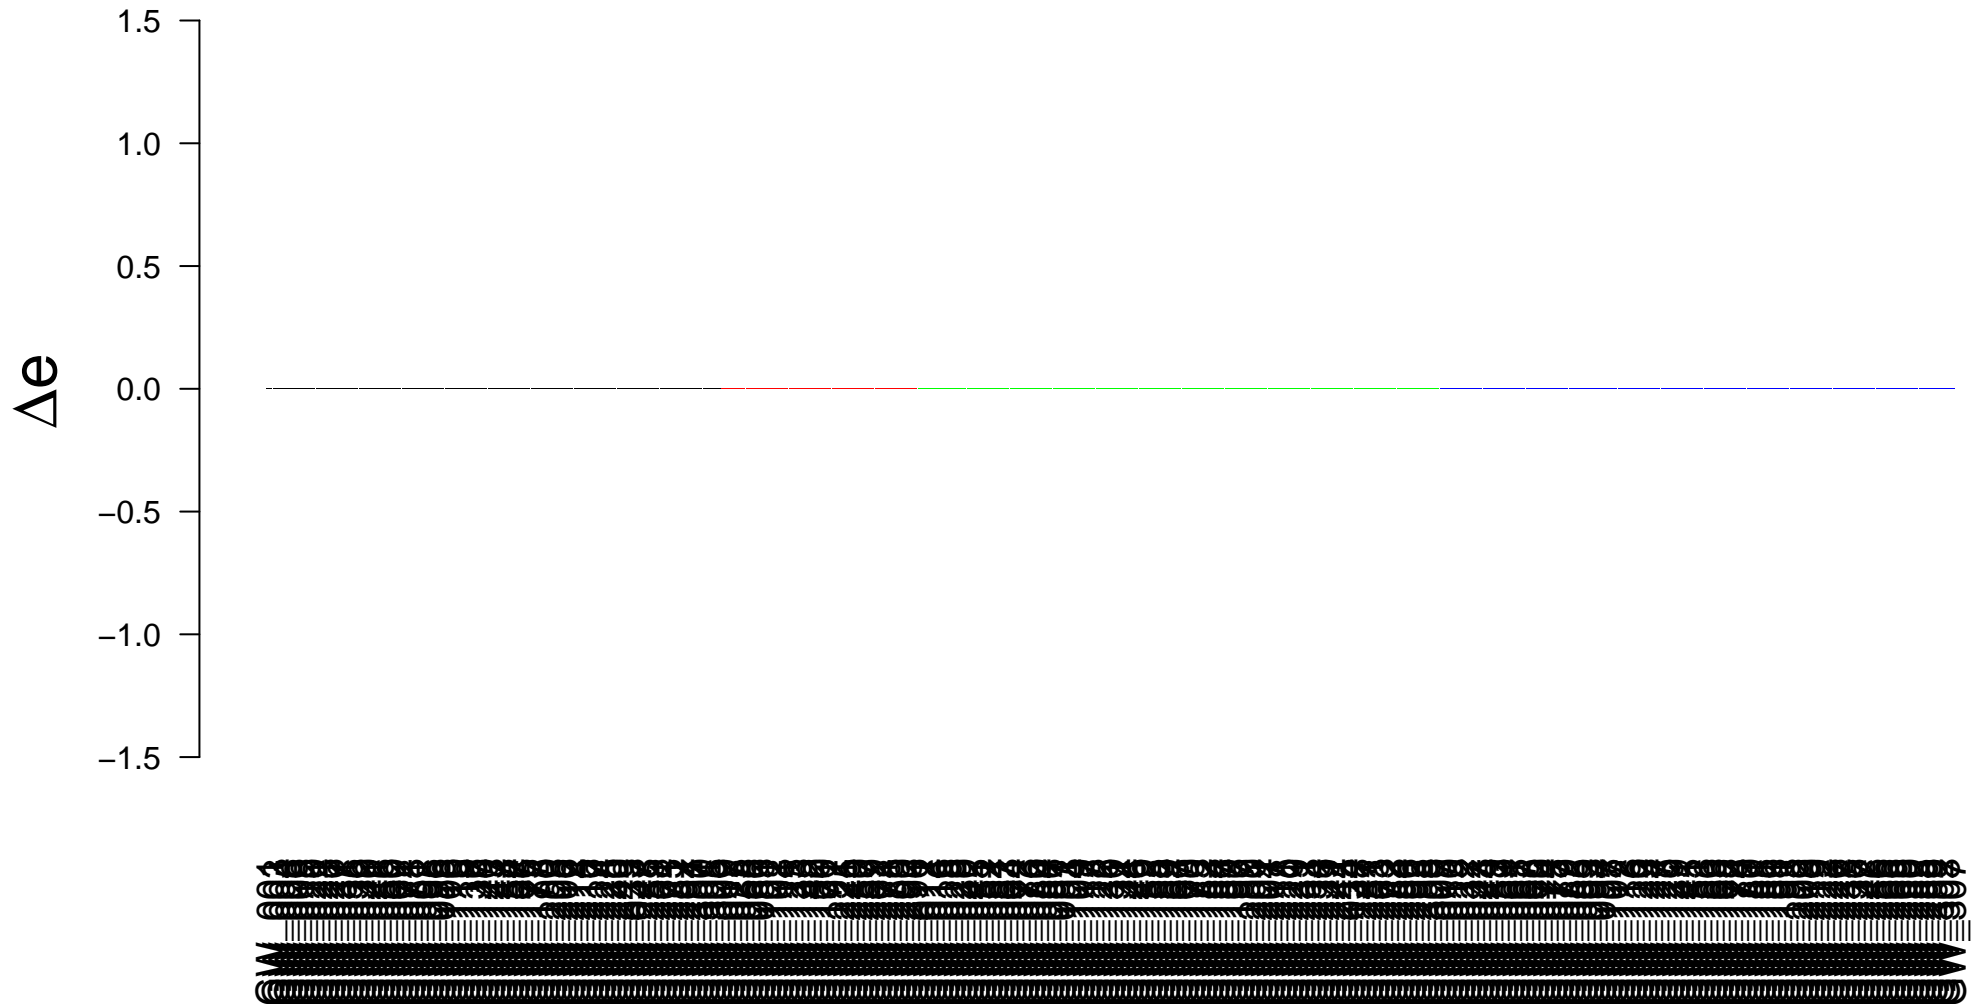

Expression of activation of signaling protein activity involved in unfolded protein response in Spot E

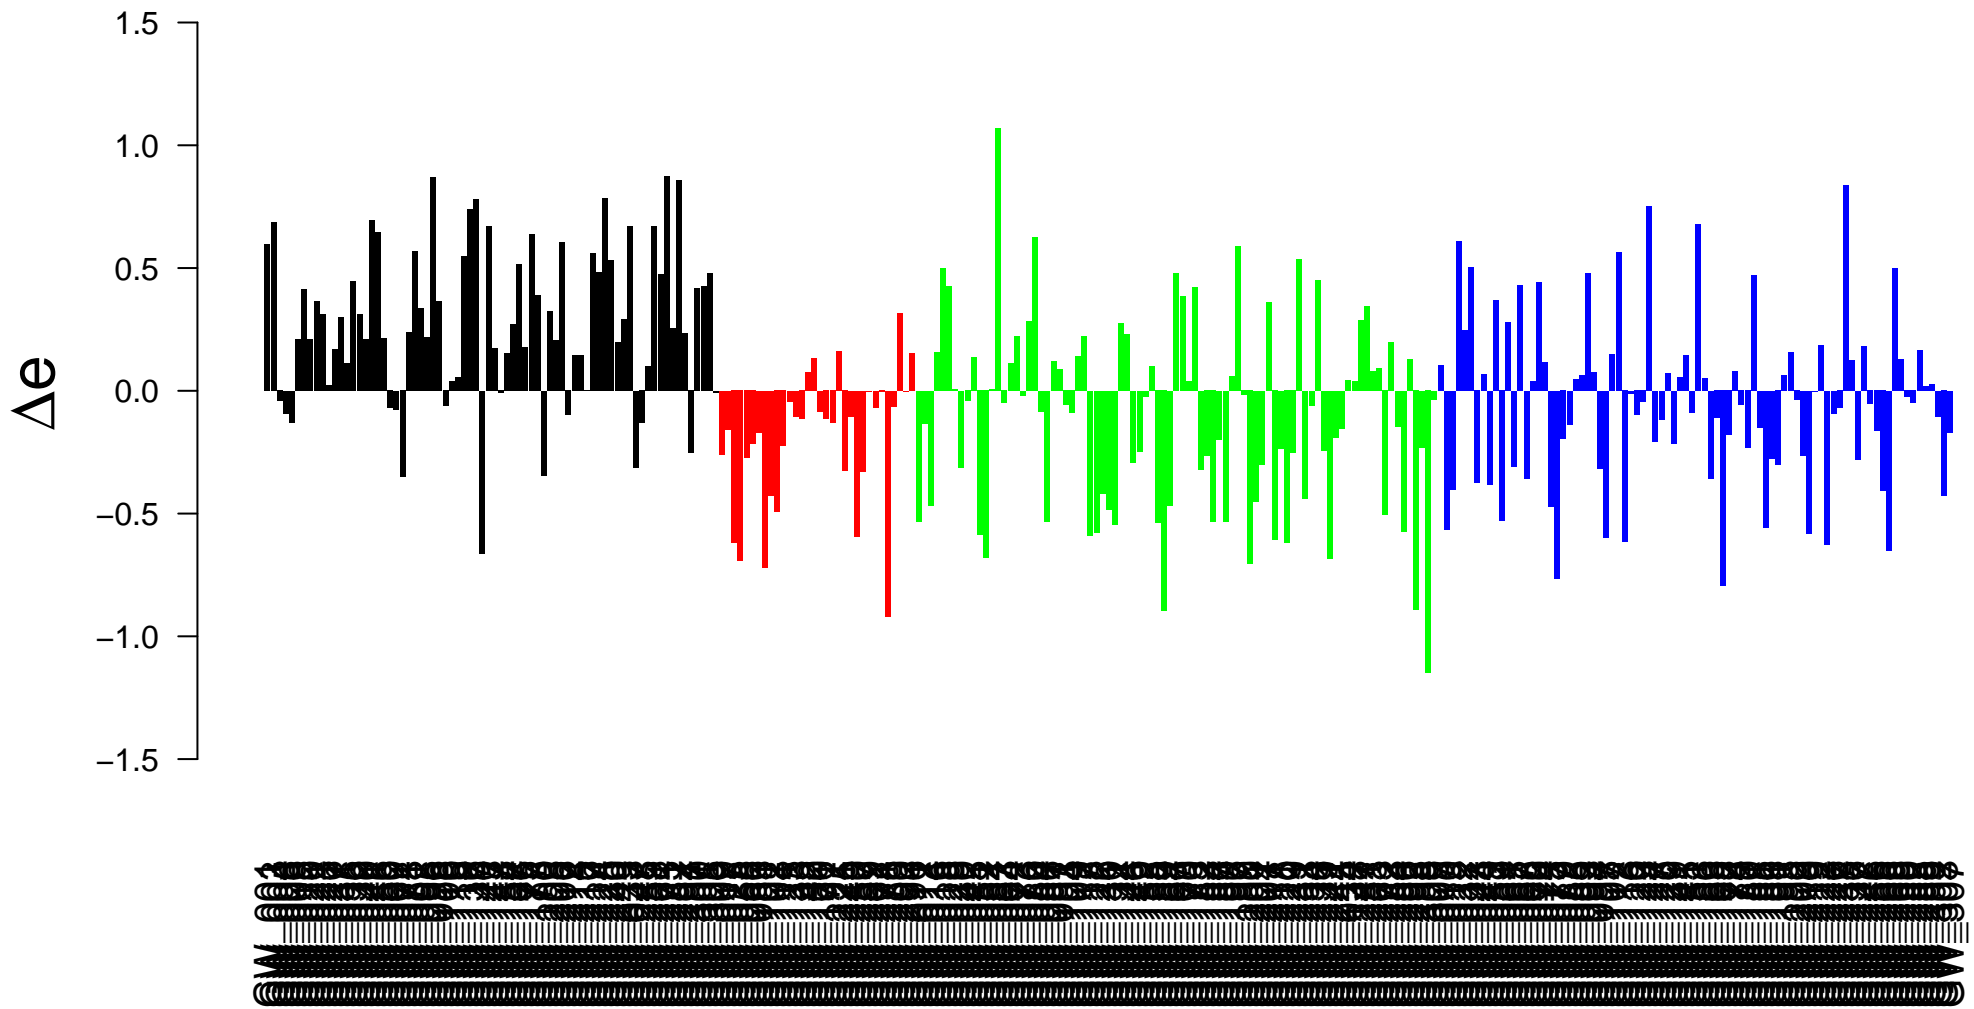

Expression of activation of signaling protein activity involved in unfolded protein response in Spot F

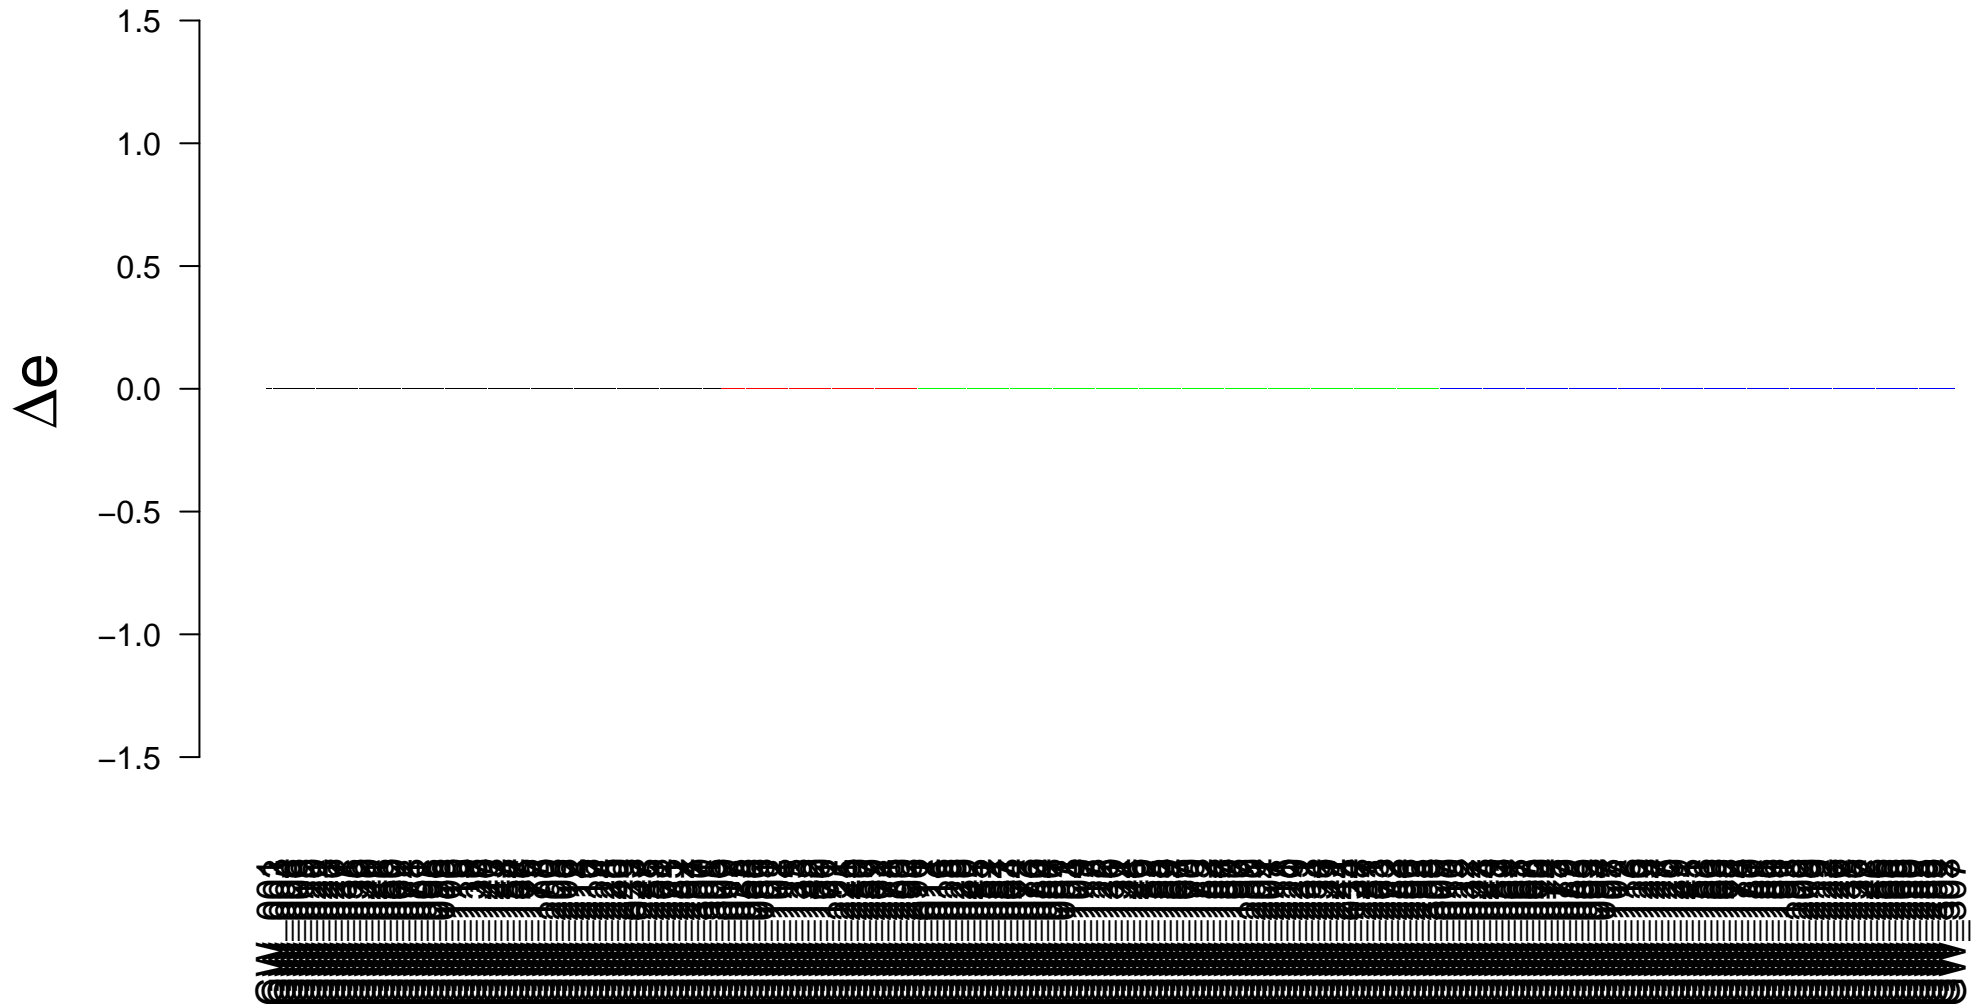

Expression of activation of signaling protein activity involved in unfolded protein response in Spot G

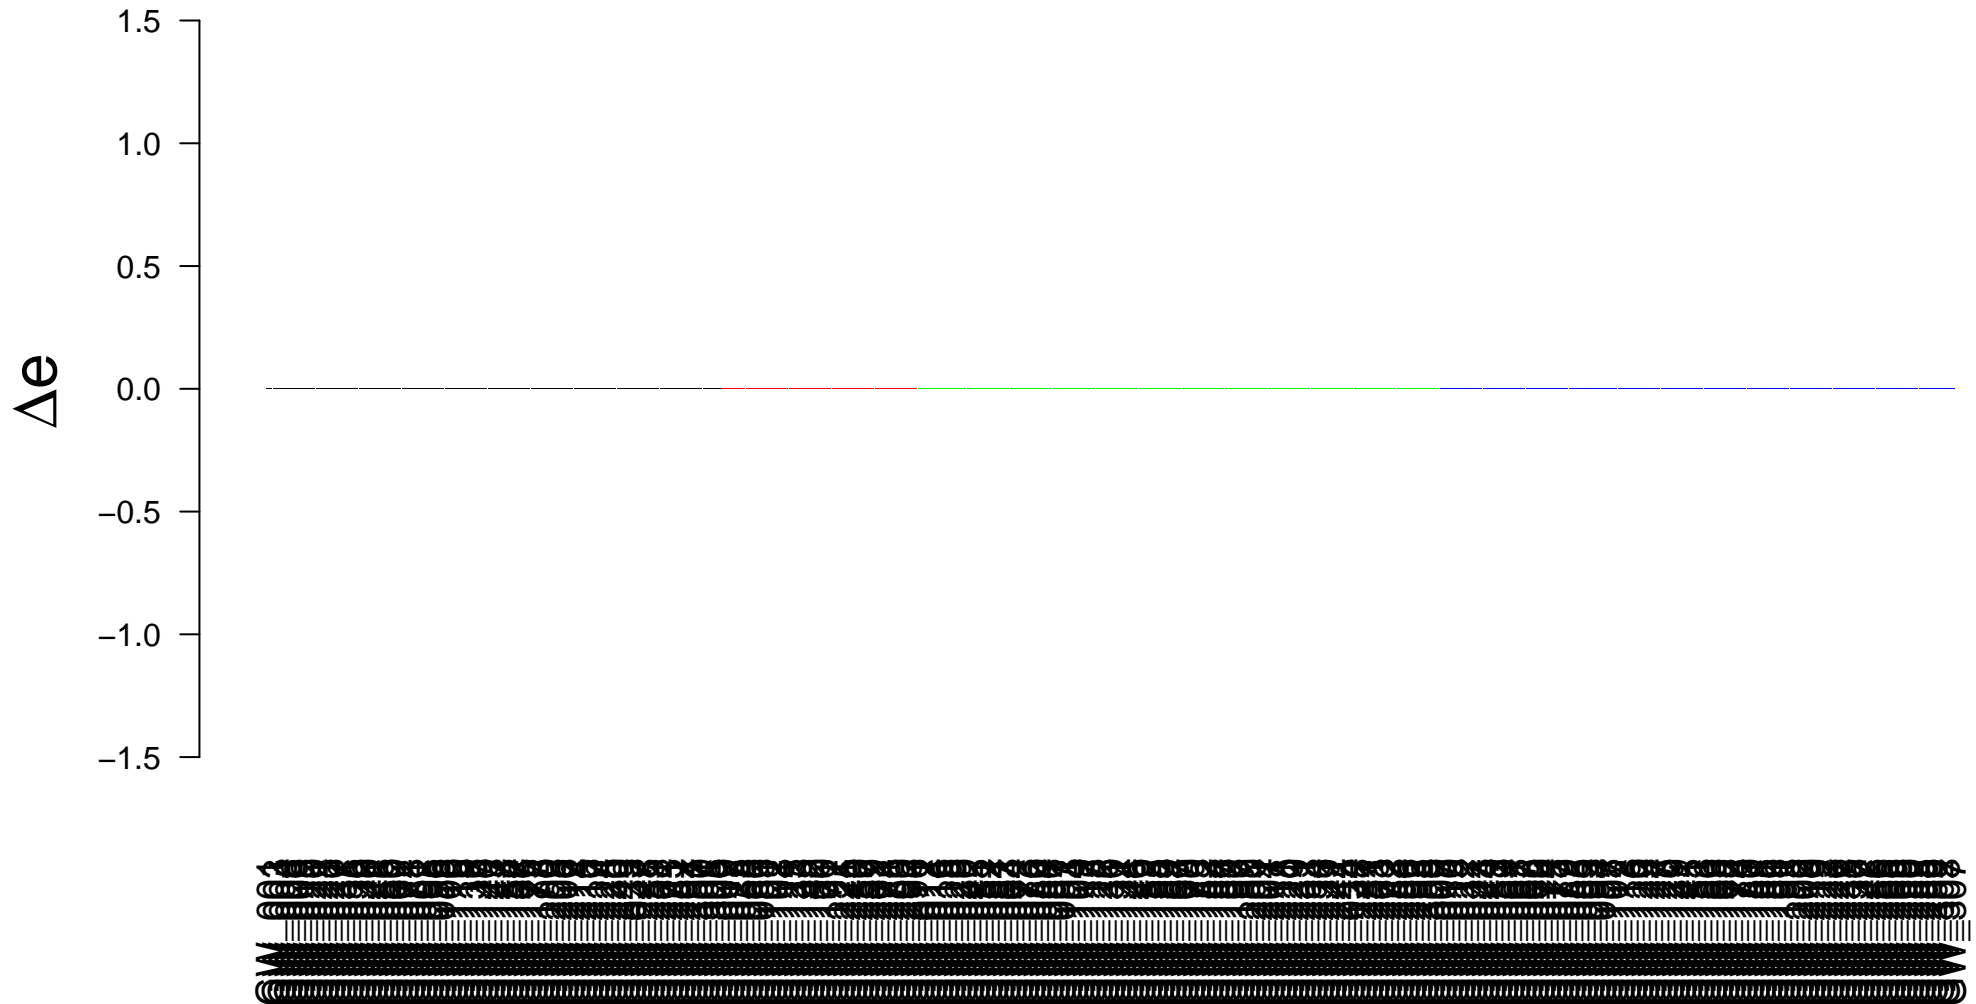

Expression of activation of signaling protein activity involved in unfolded protein response in Spot H

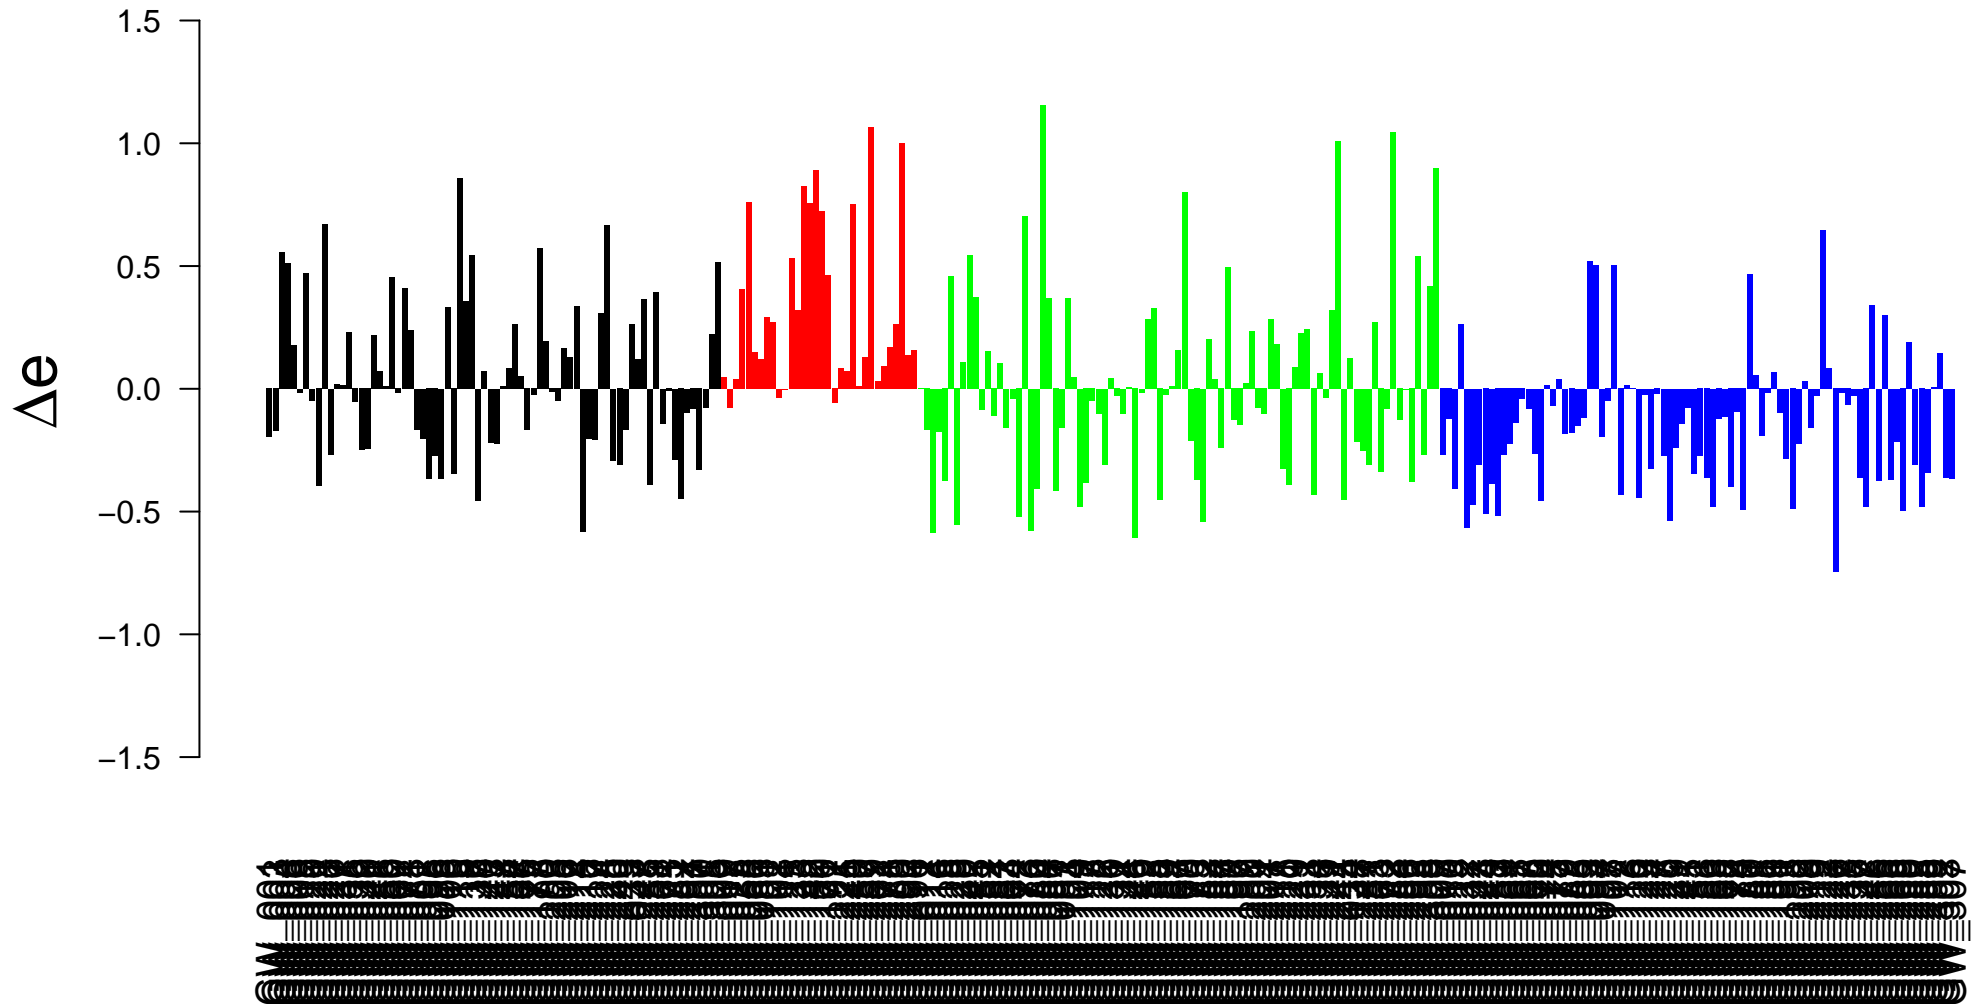

Expression of activation of signaling protein activity involved in unfolded protein response in Spot I

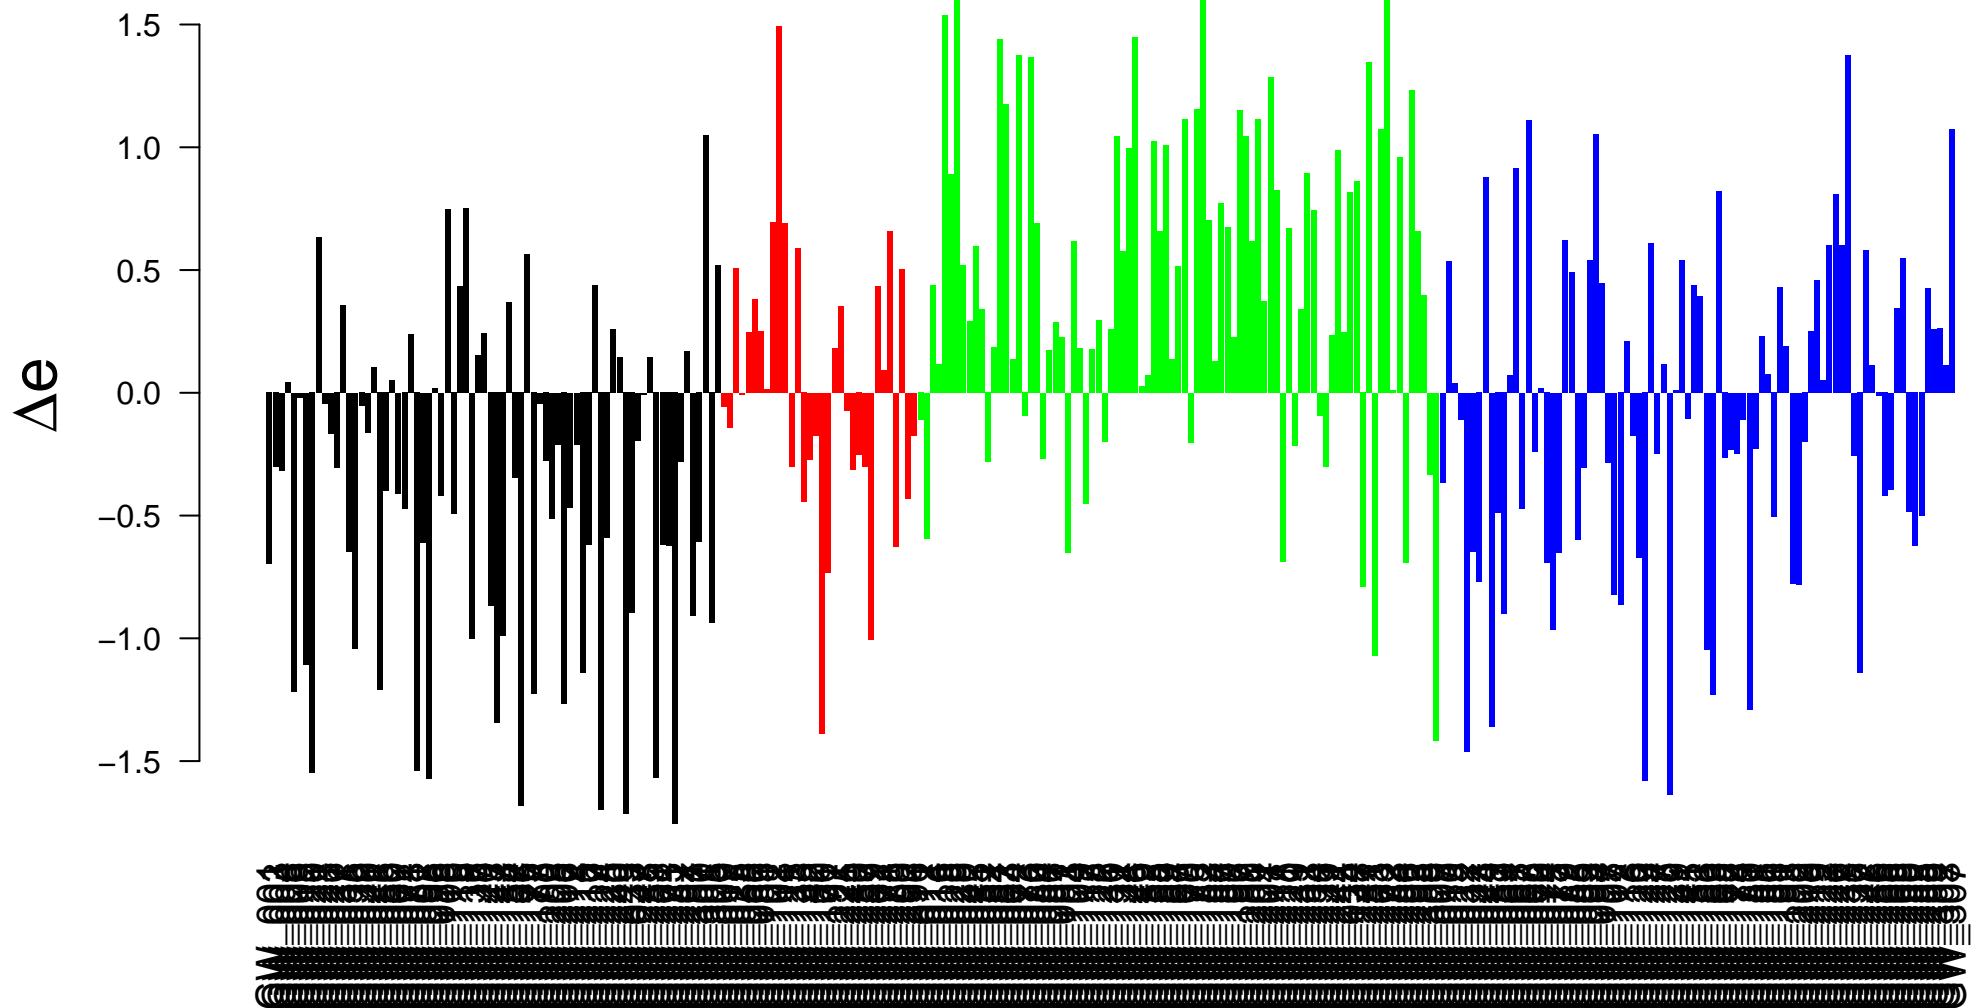

Expression of activation of signaling protein activity involved in unfolded protein response in Spot J

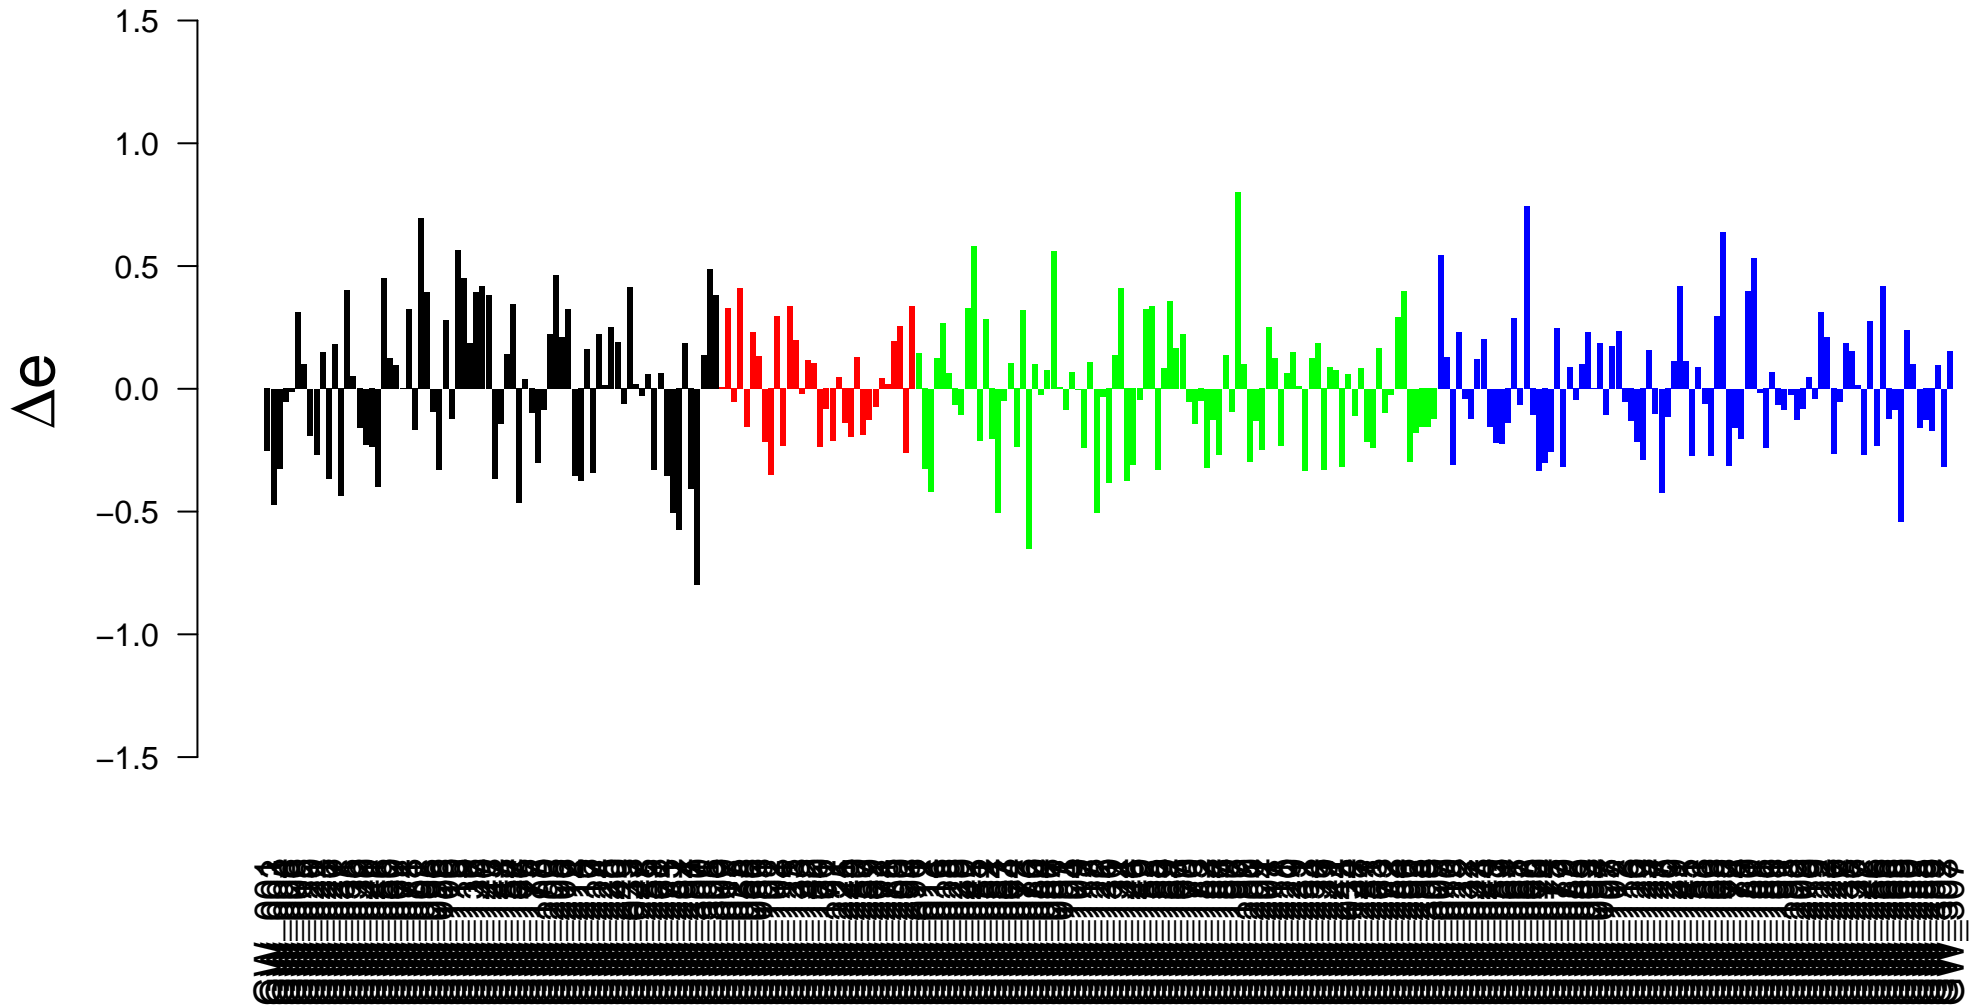

Expression of activation of signaling protein activity involved in unfolded protein response in Spot K

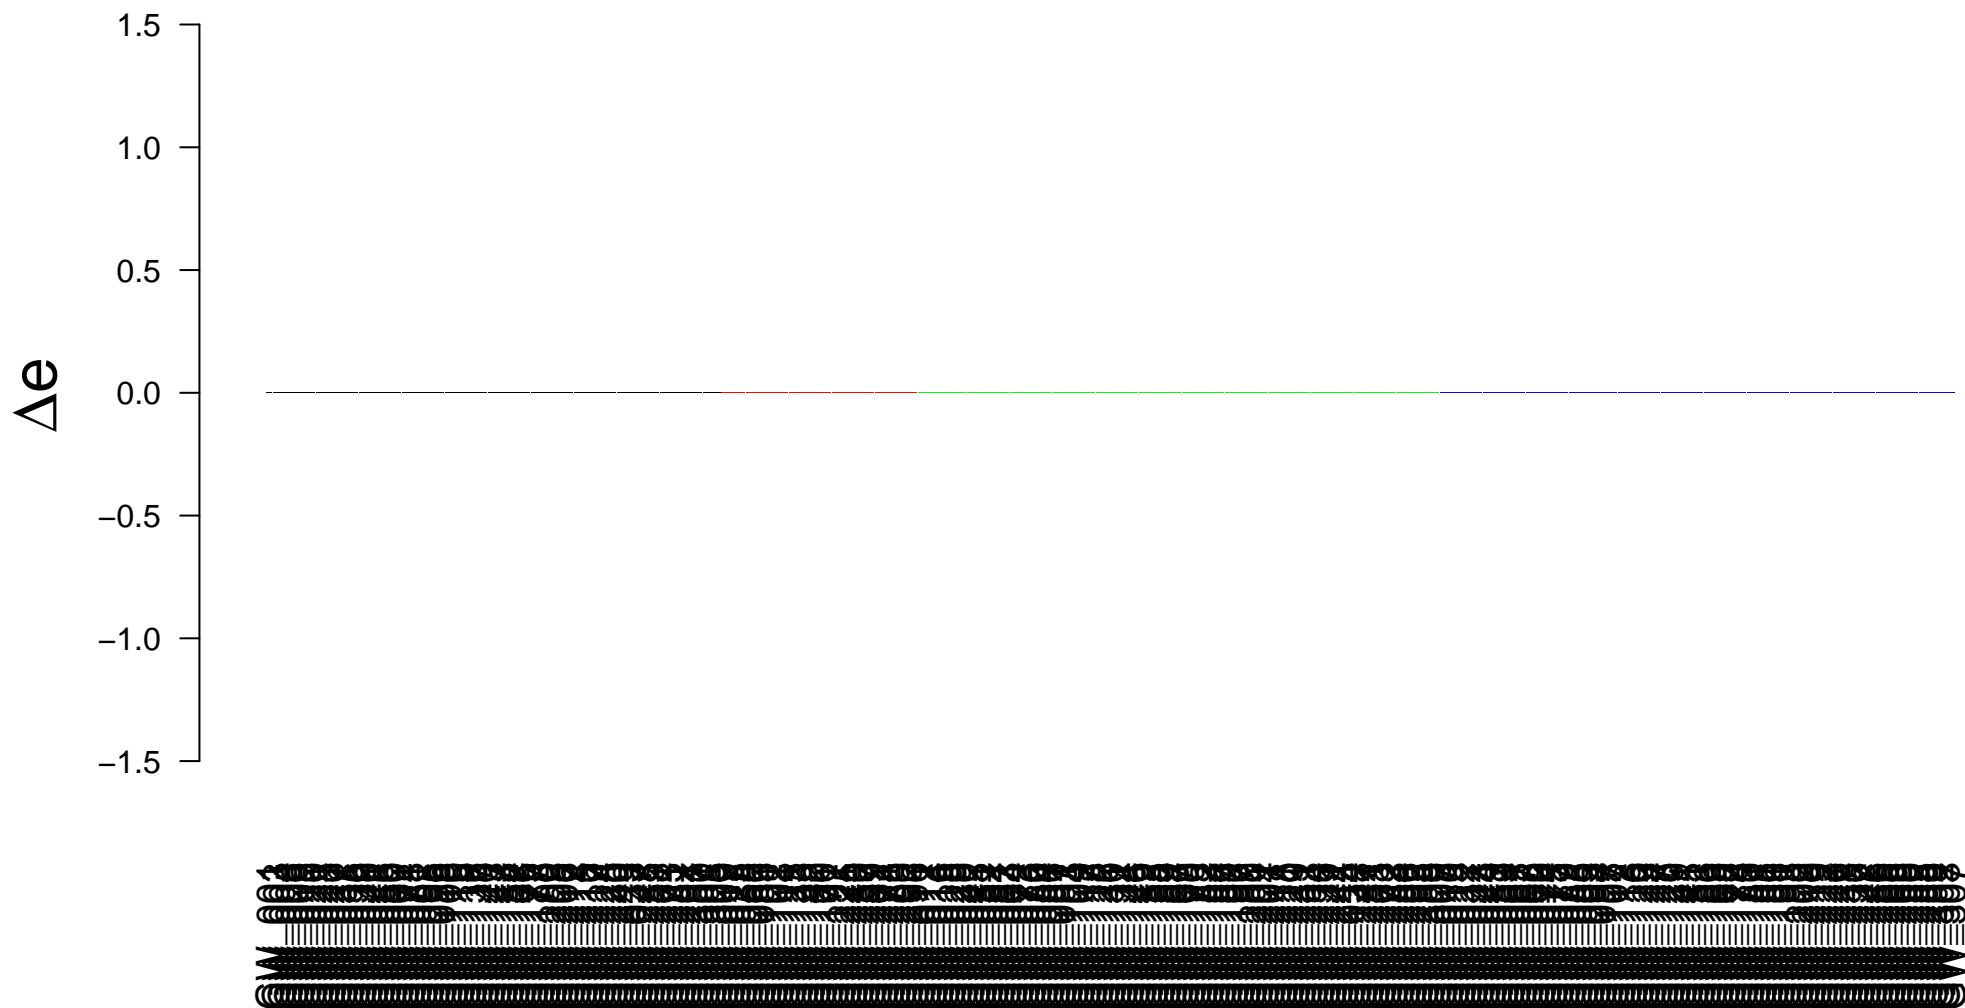

Expression of activation of signaling protein activity involved in unfolded protein response in Spot L

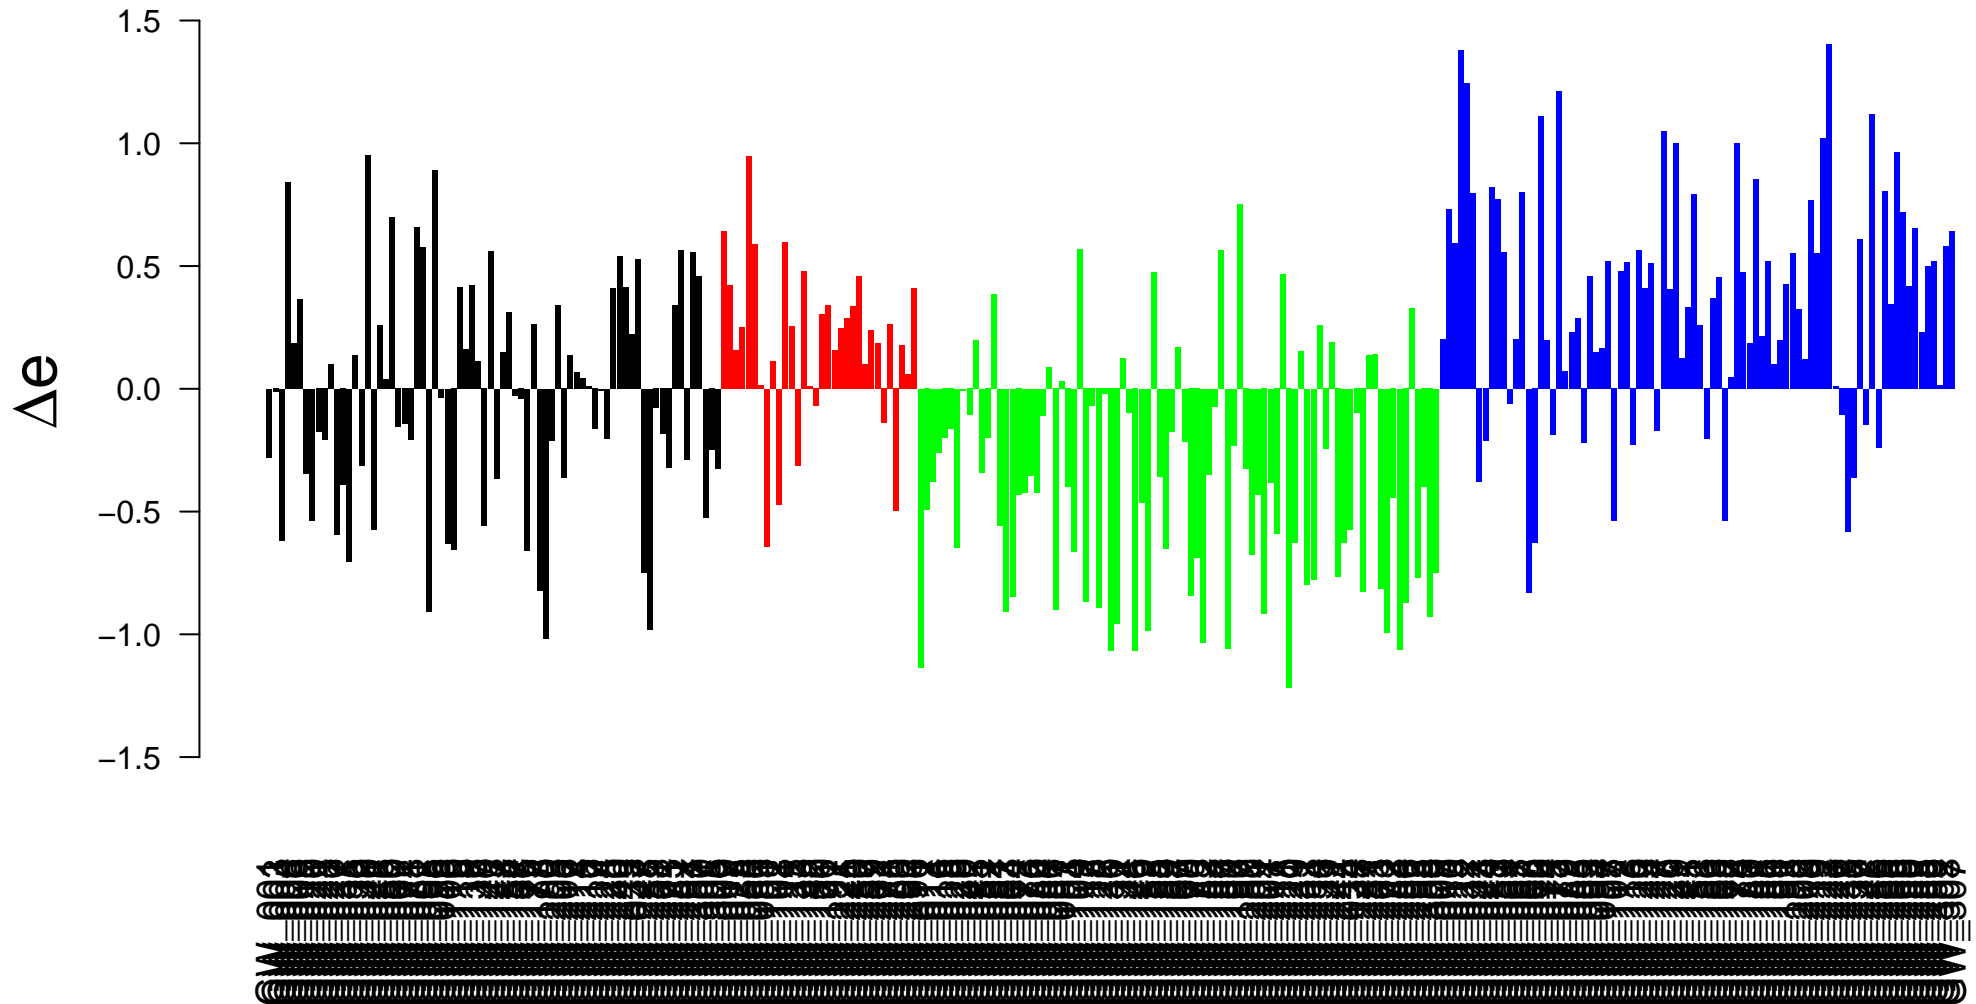

Expression of activation of signaling protein activity involved in unfolded protein response in Spot M

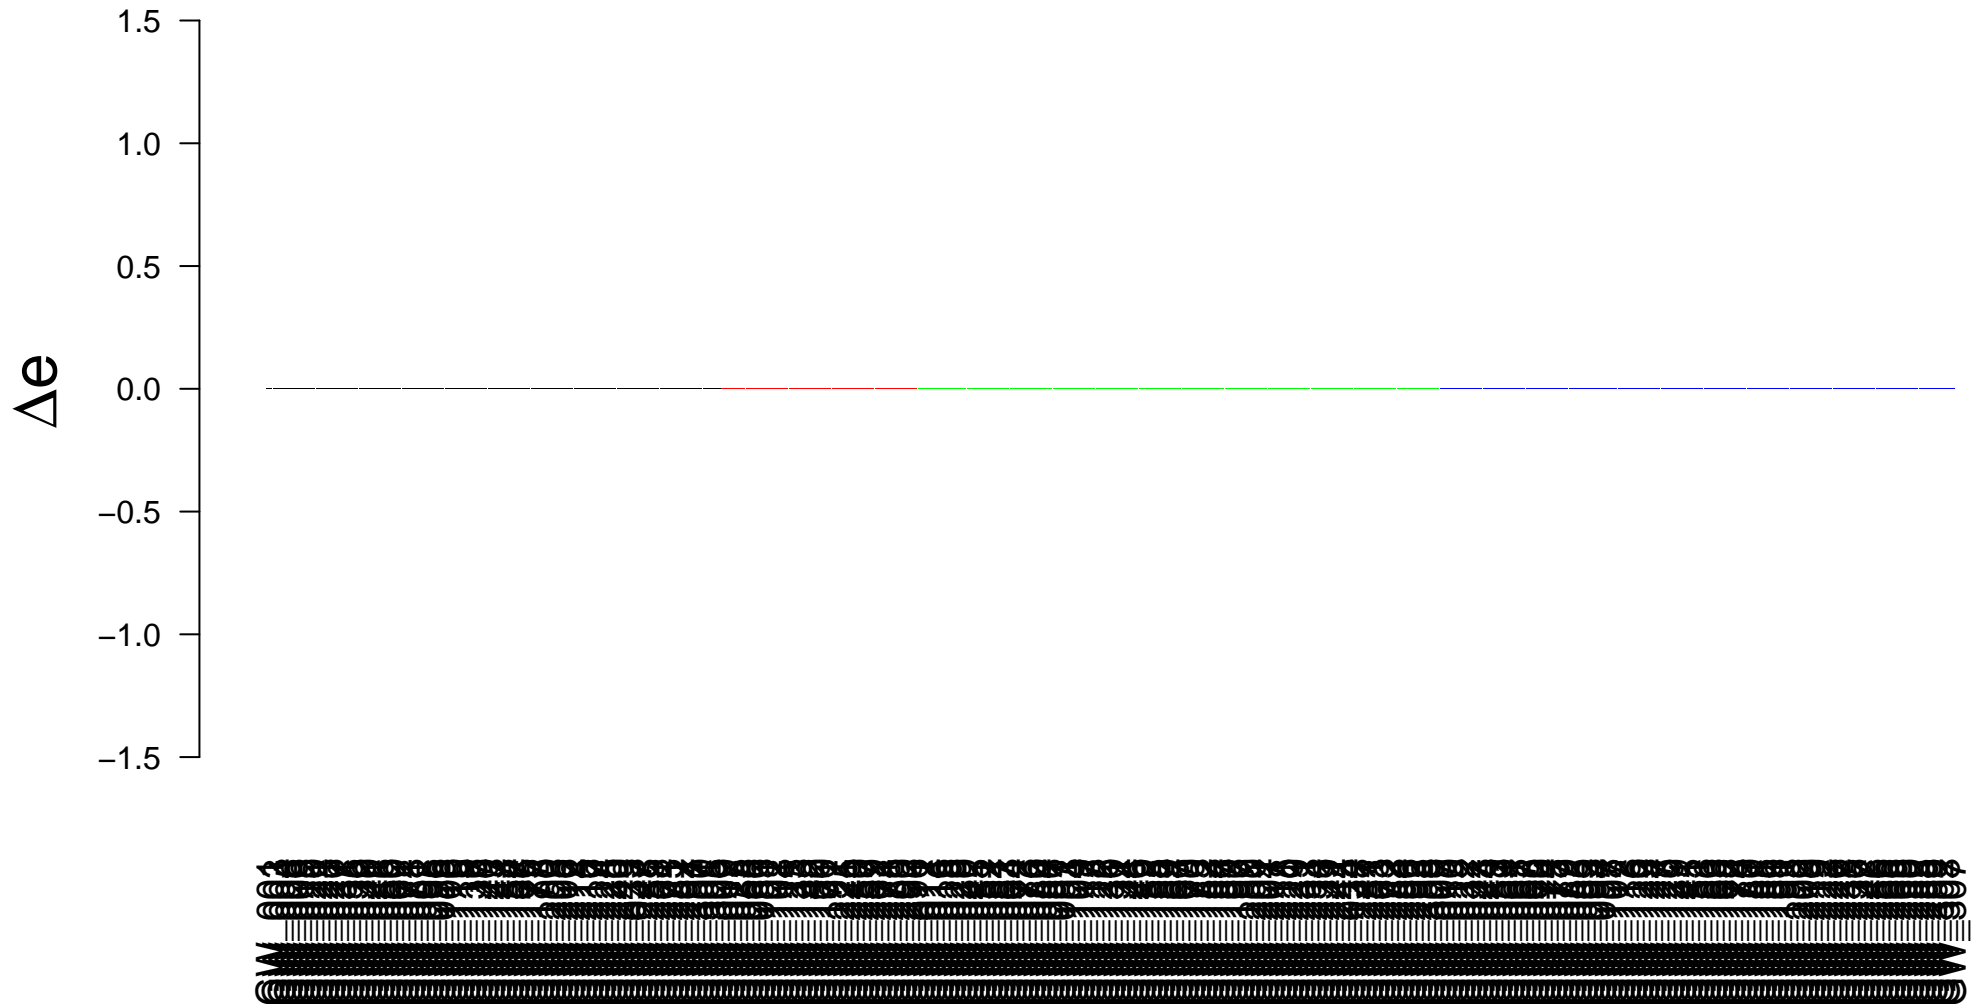

Expression of activation of signaling protein activity involved in unfolded protein response in Spot N

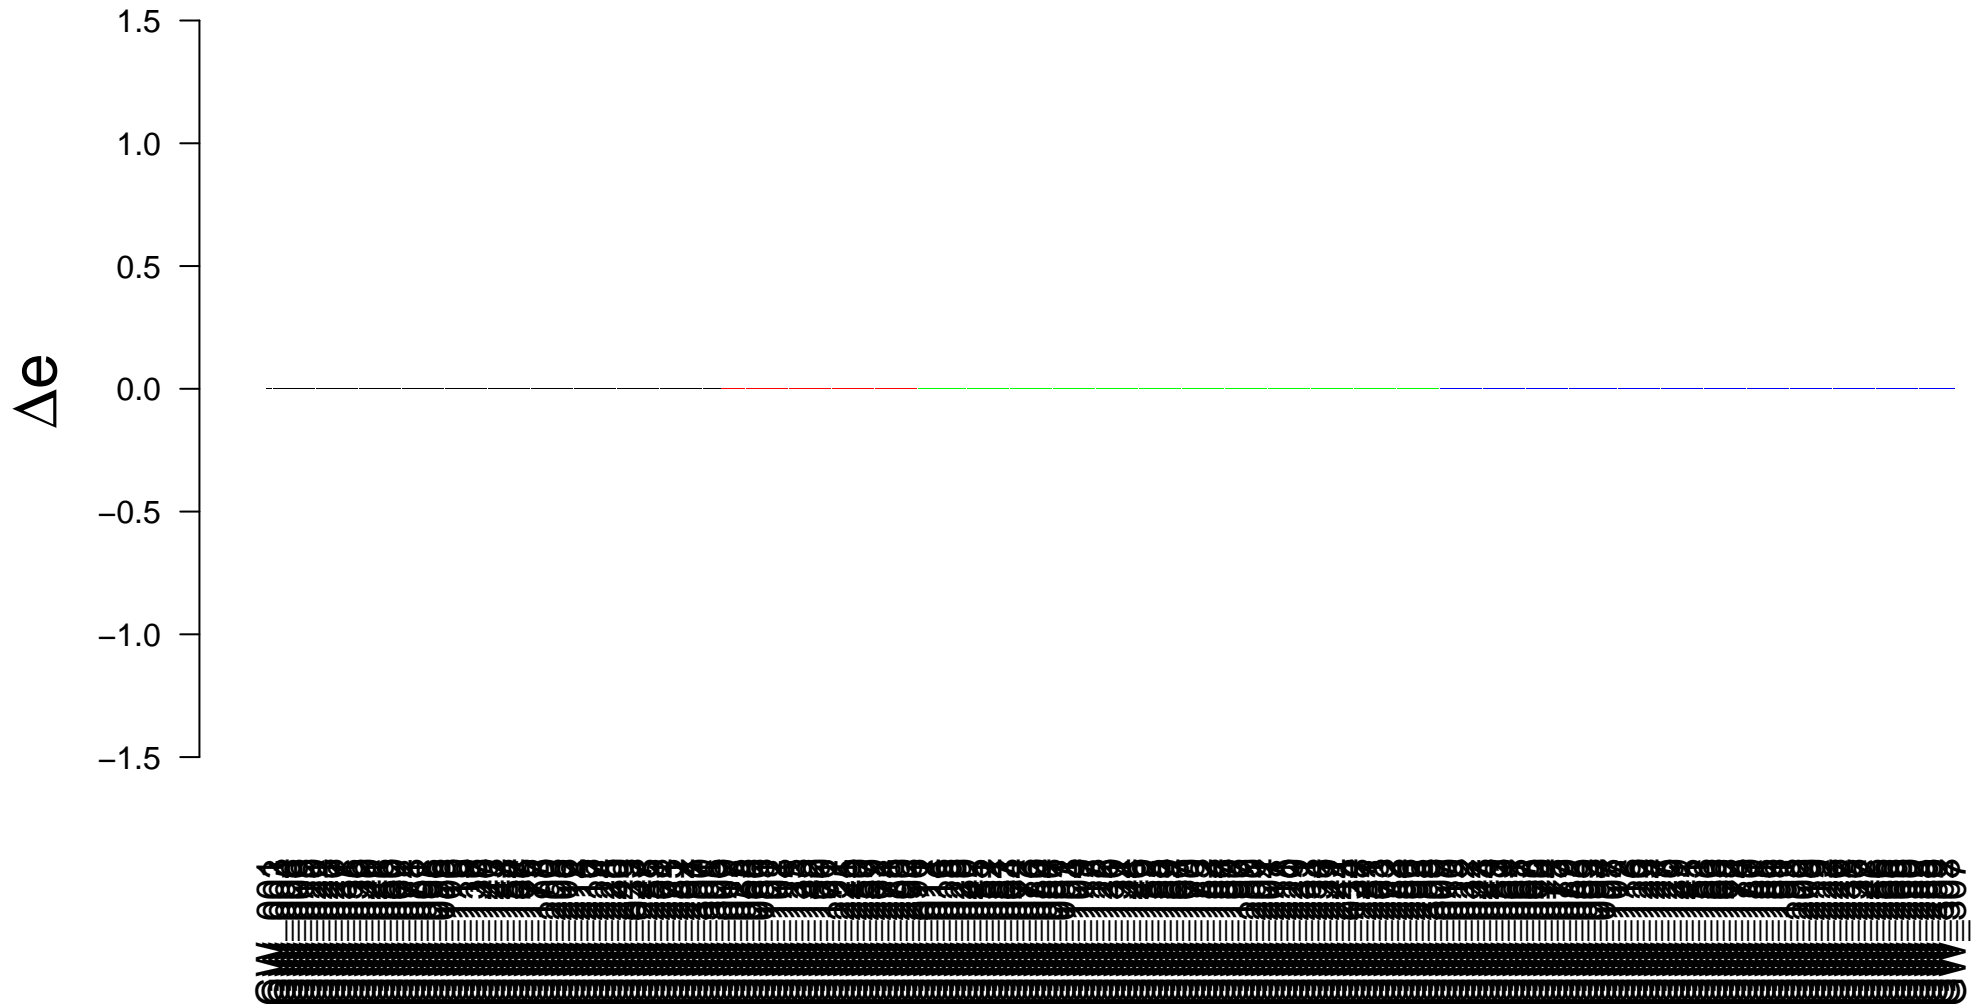

Expression of activation of signaling protein activity involved in unfolded protein response in Spot O

Expression of activation of signaling protein activity involved in unfolded protein response in Spot P

Expression of activation of signaling protein activity involved in unfolded protein response in Spot Q

Expression of activation of signaling protein activity involved in unfolded protein response in Spot R
