

## antigen processing and presentation of peptide antigen via MHC class I

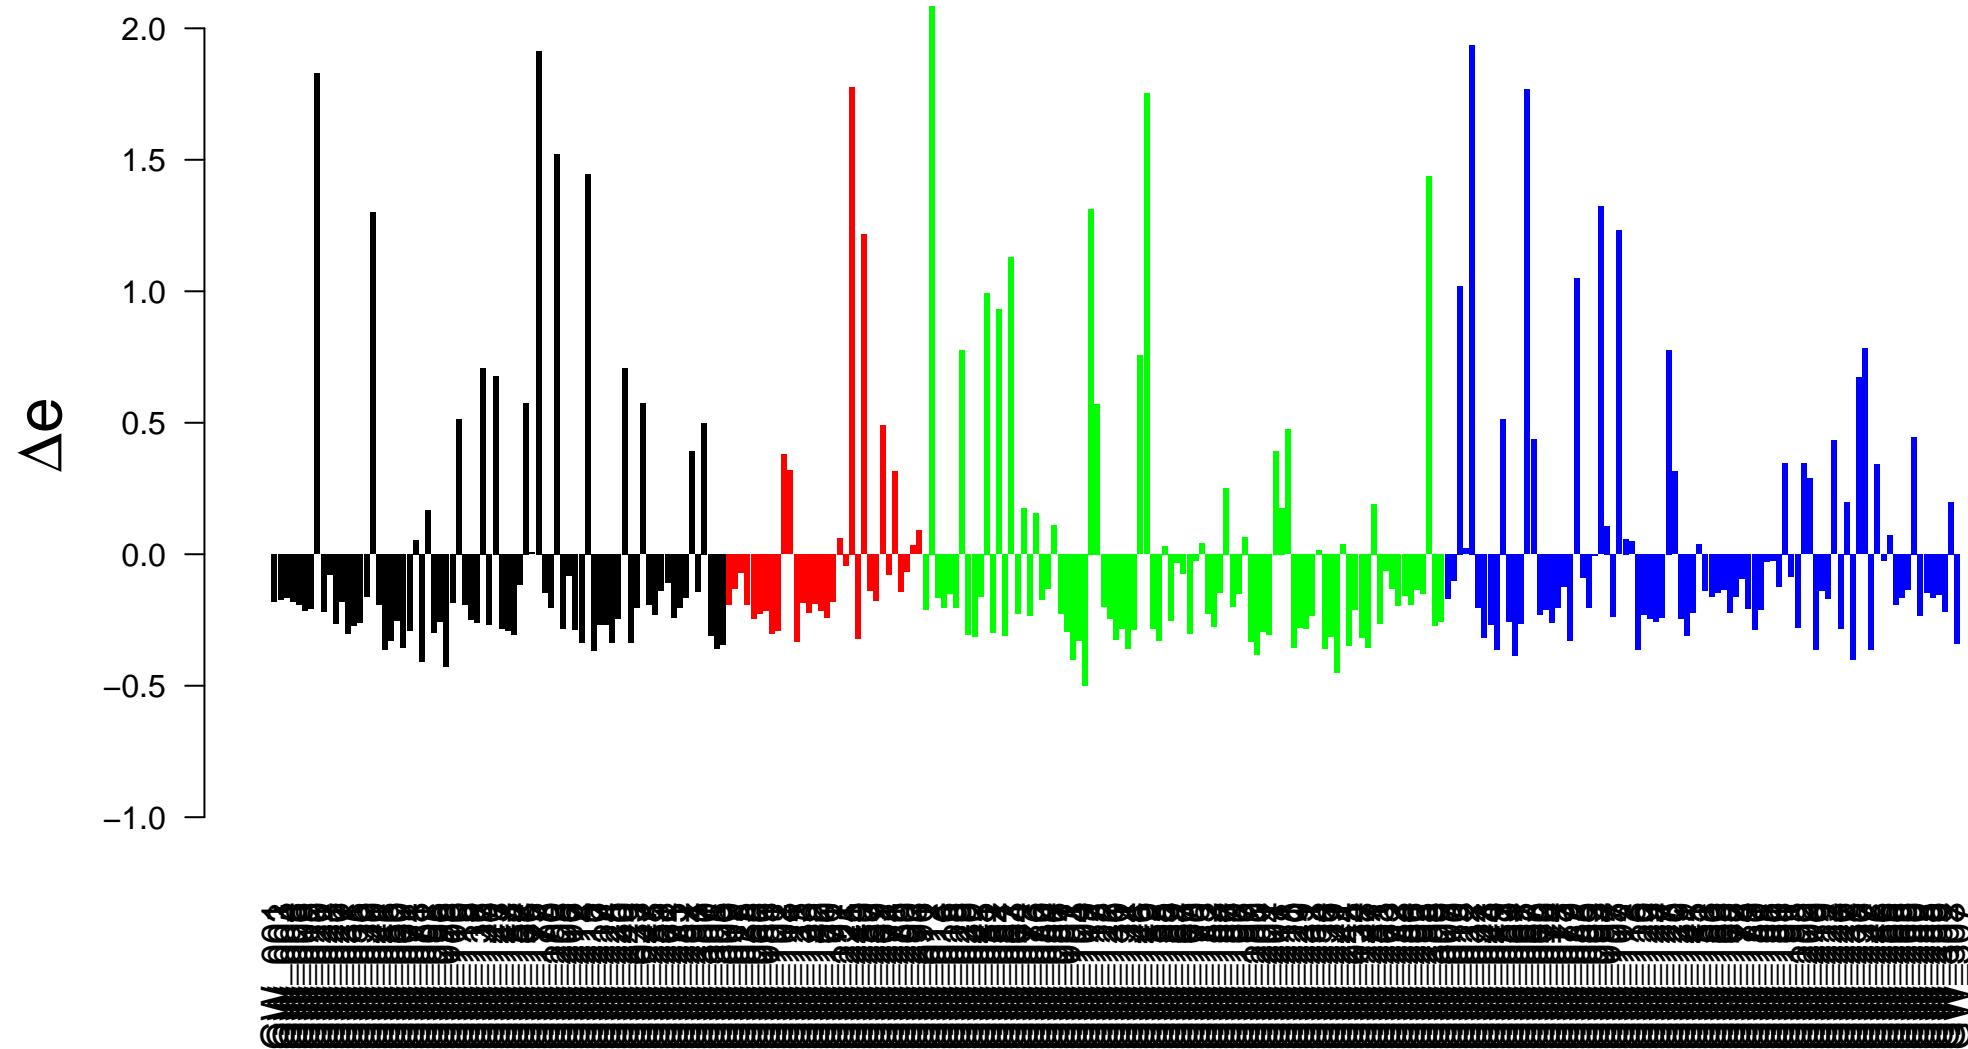

### antigen processing and presentation of peptide antigen via MHC class I

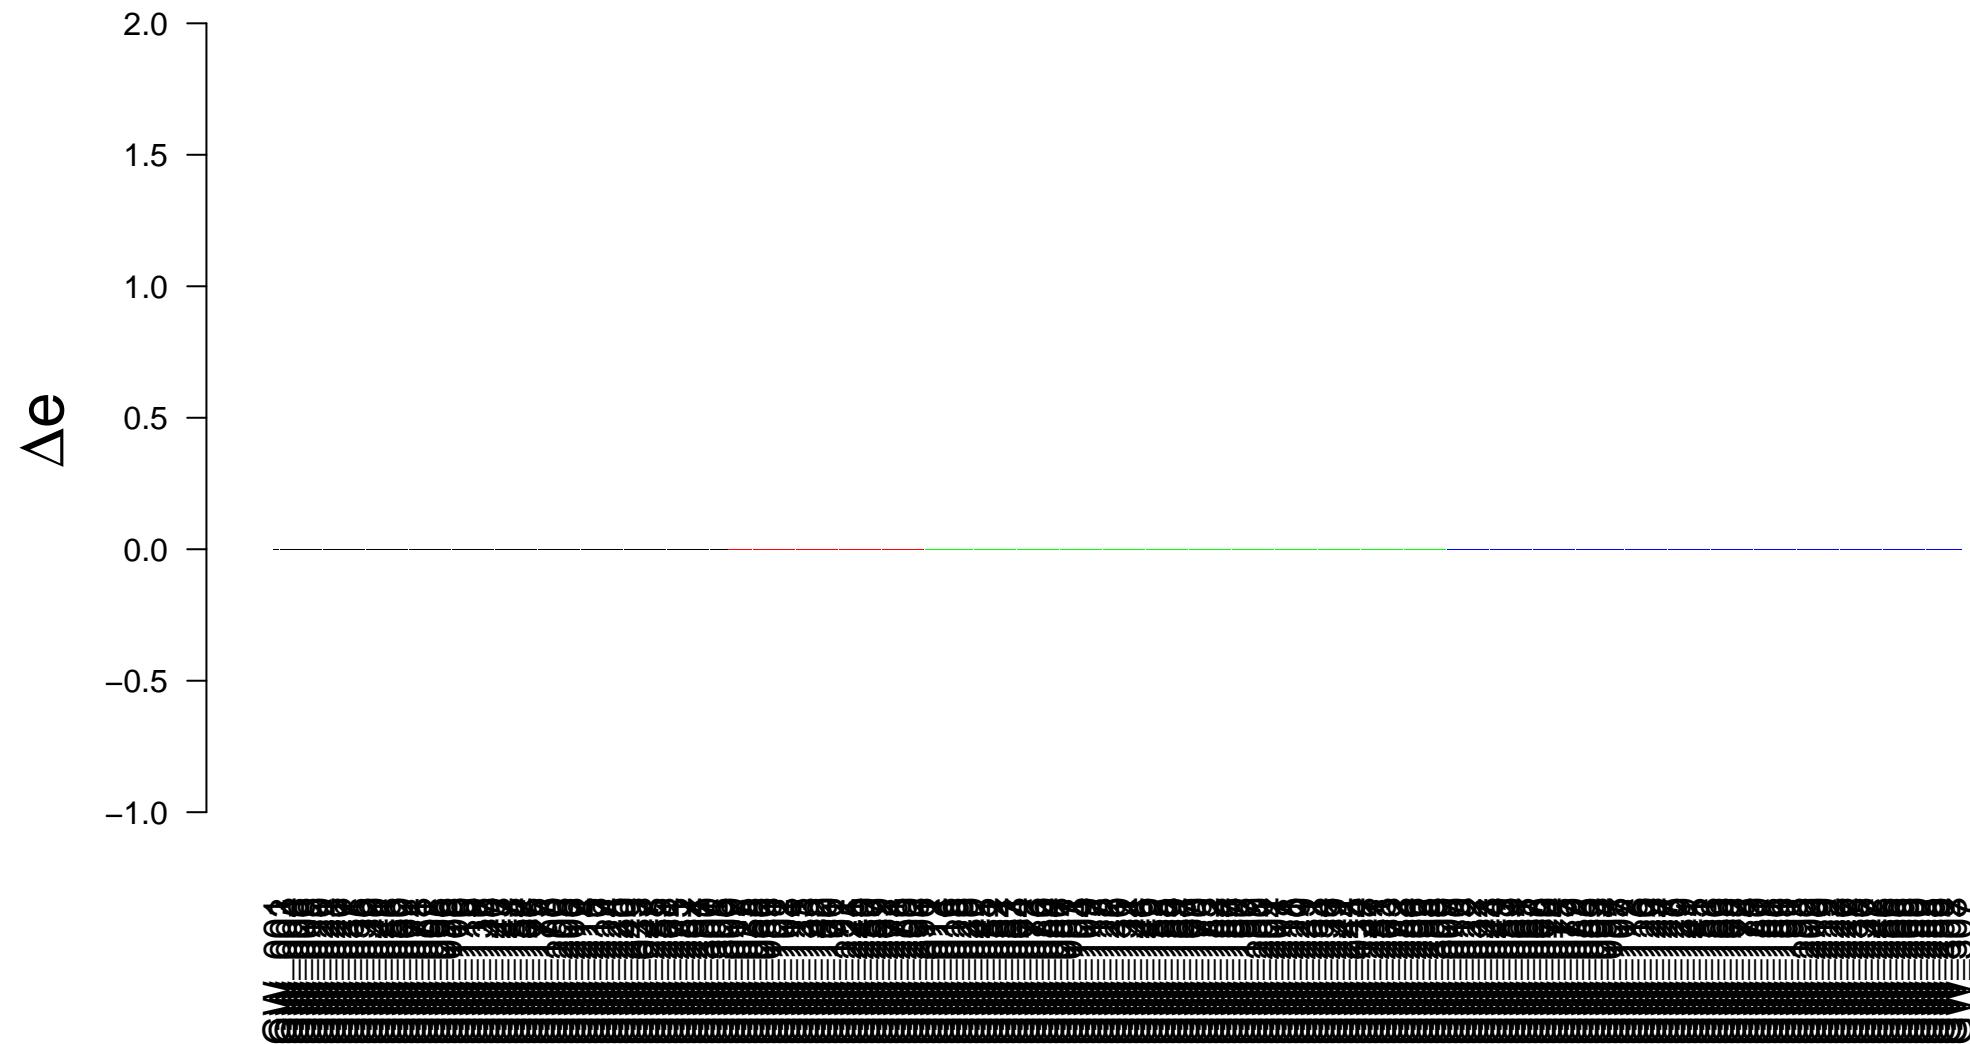

## Enrichment in spots: antigen processing and presentation of peptide antigen via MHC class I

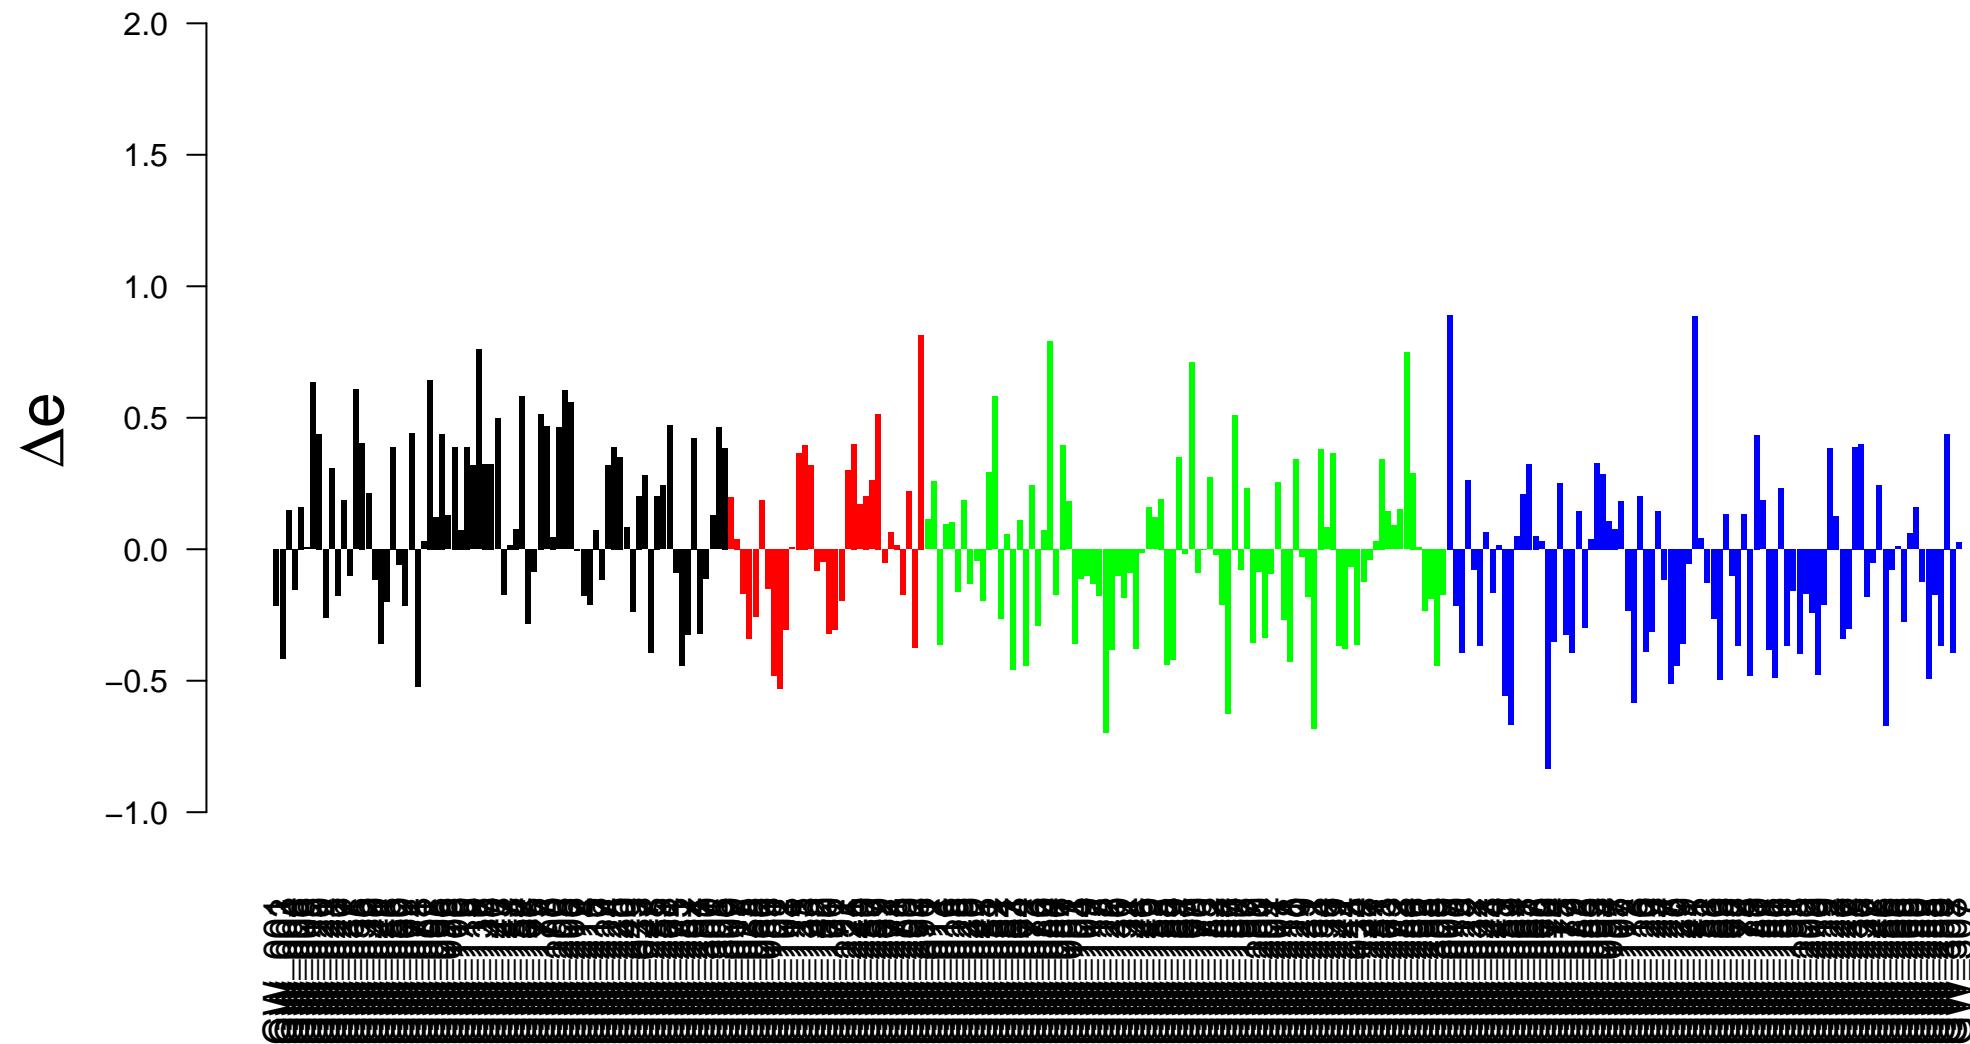

## Expression of antigen processing and presentation of peptide antigen via MHC class I in Spot A

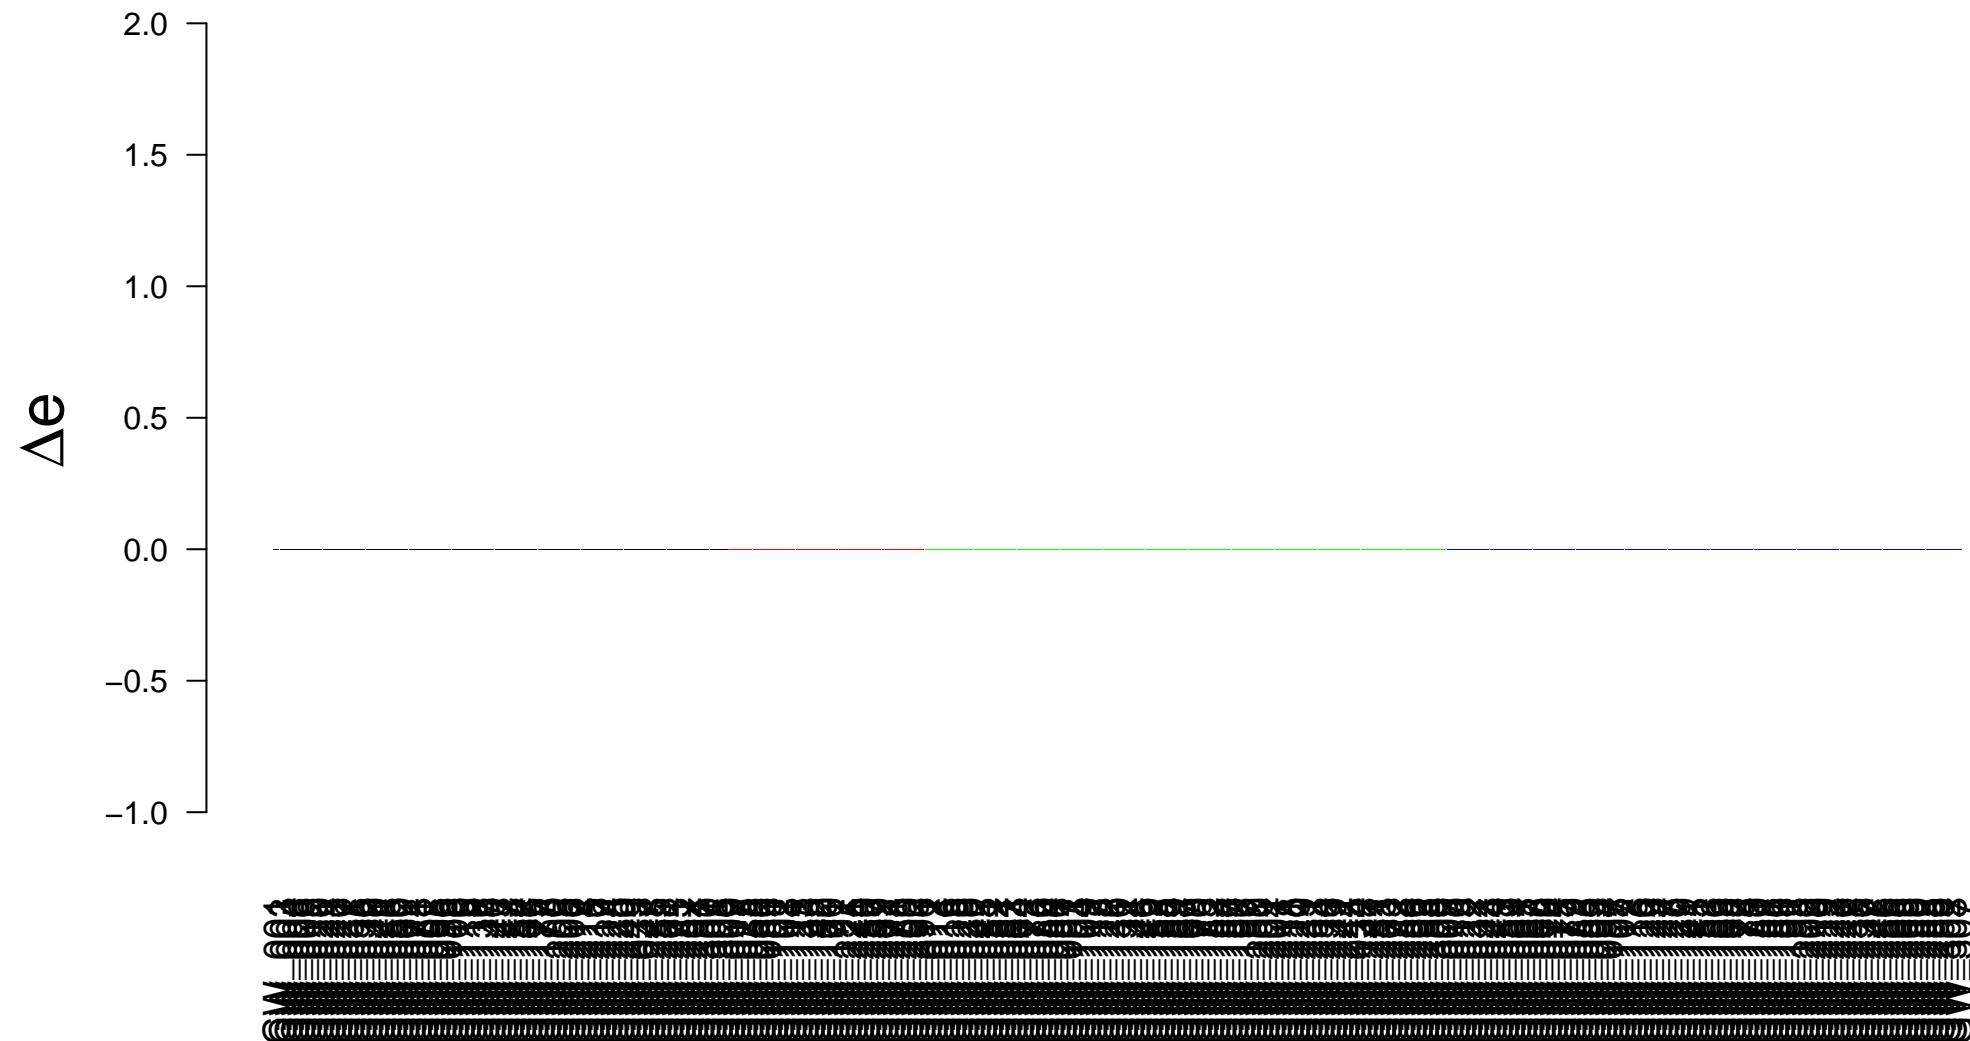

### Expression of antigen processing and presentation of peptide antigen via MHC class I in Spot B

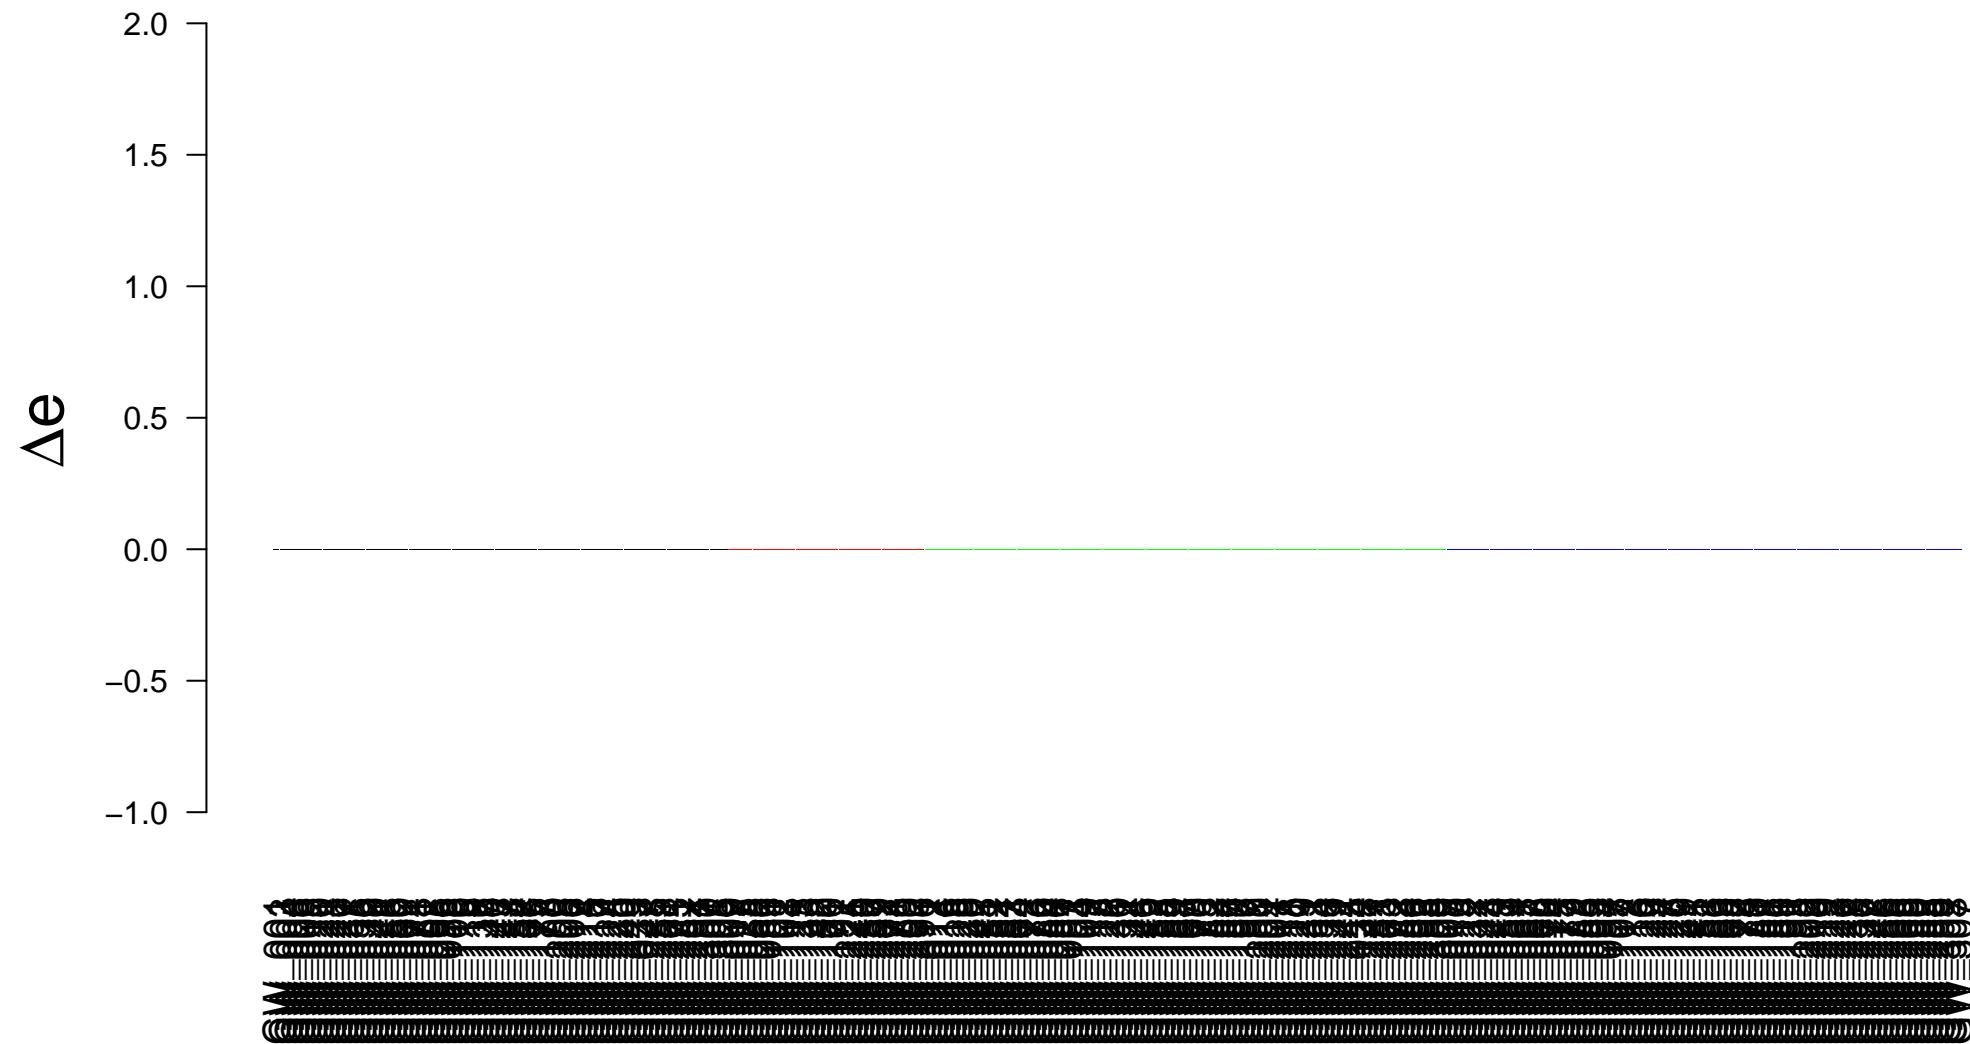

## Expression of antigen processing and presentation of peptide antigen via MHC class I in Spot C

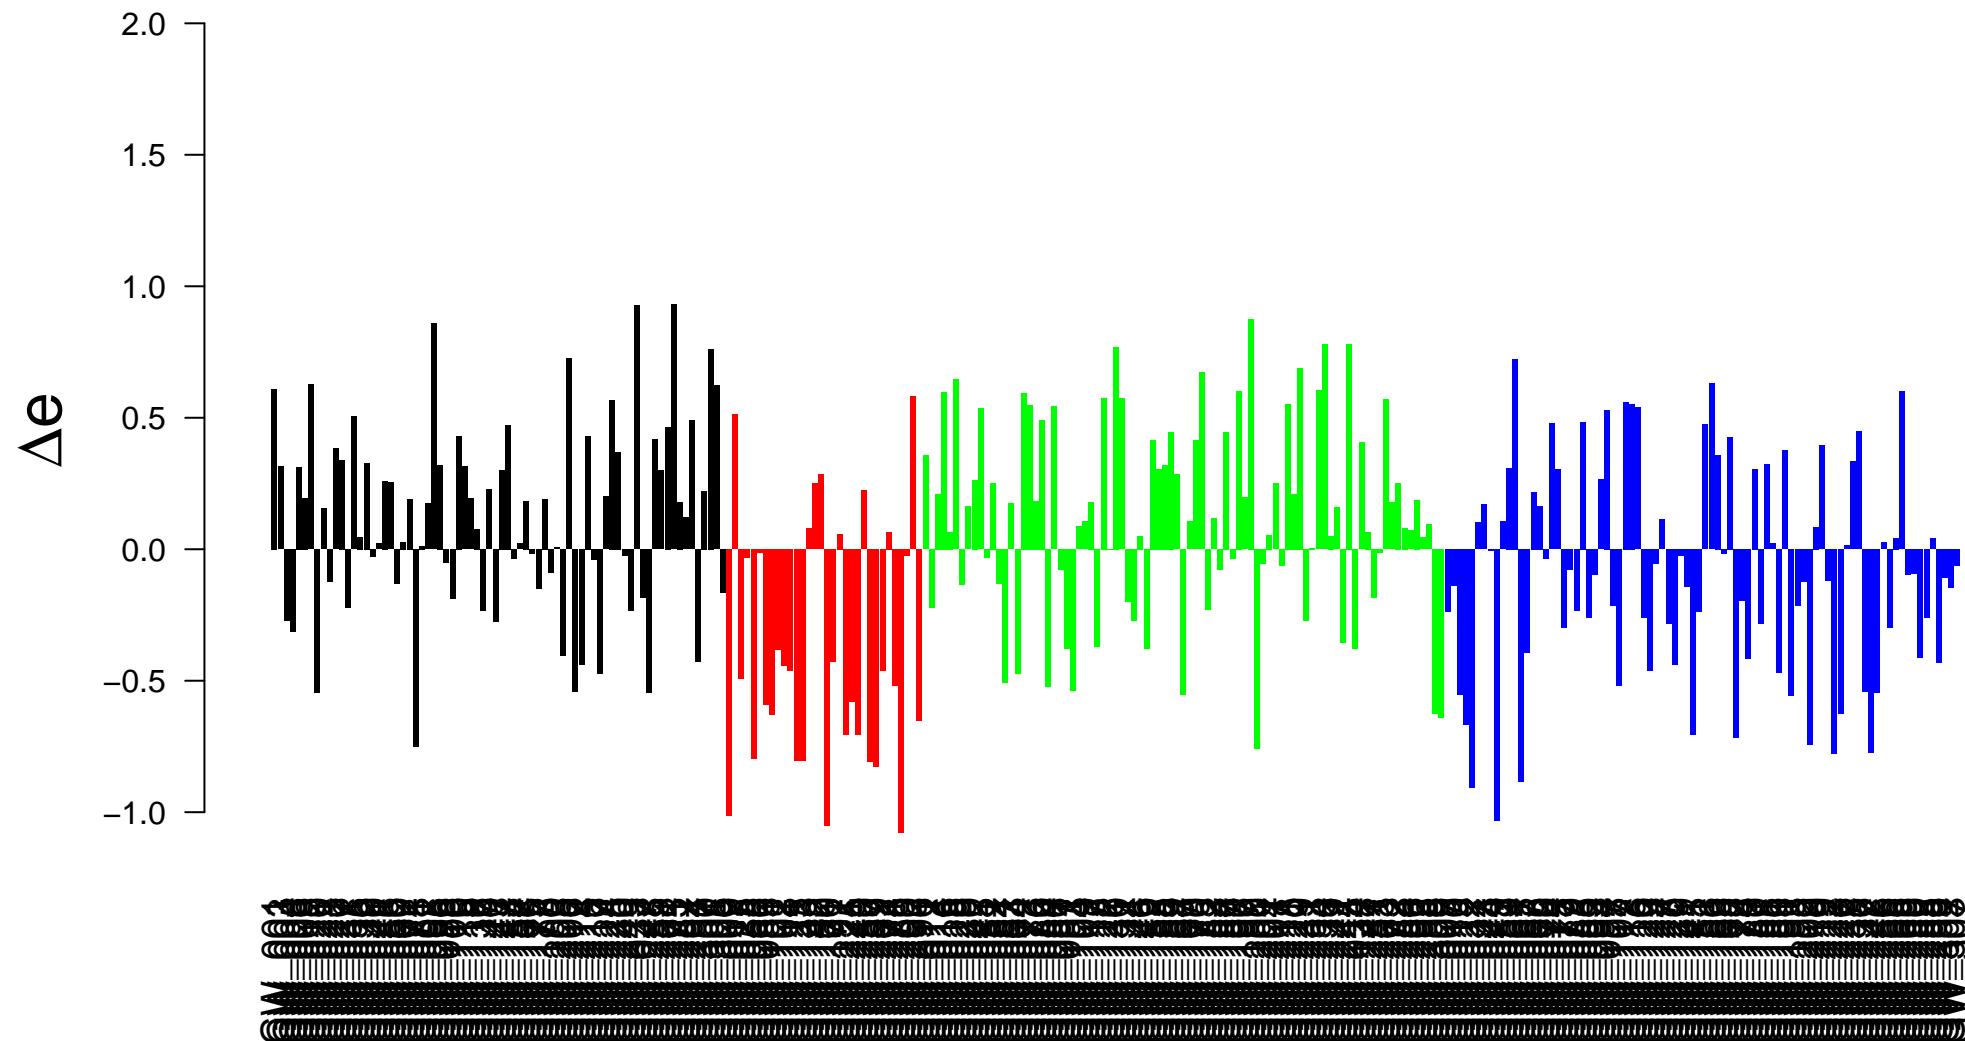

### Expression of antigen processing and presentation of peptide antigen via MHC class I in Spot D

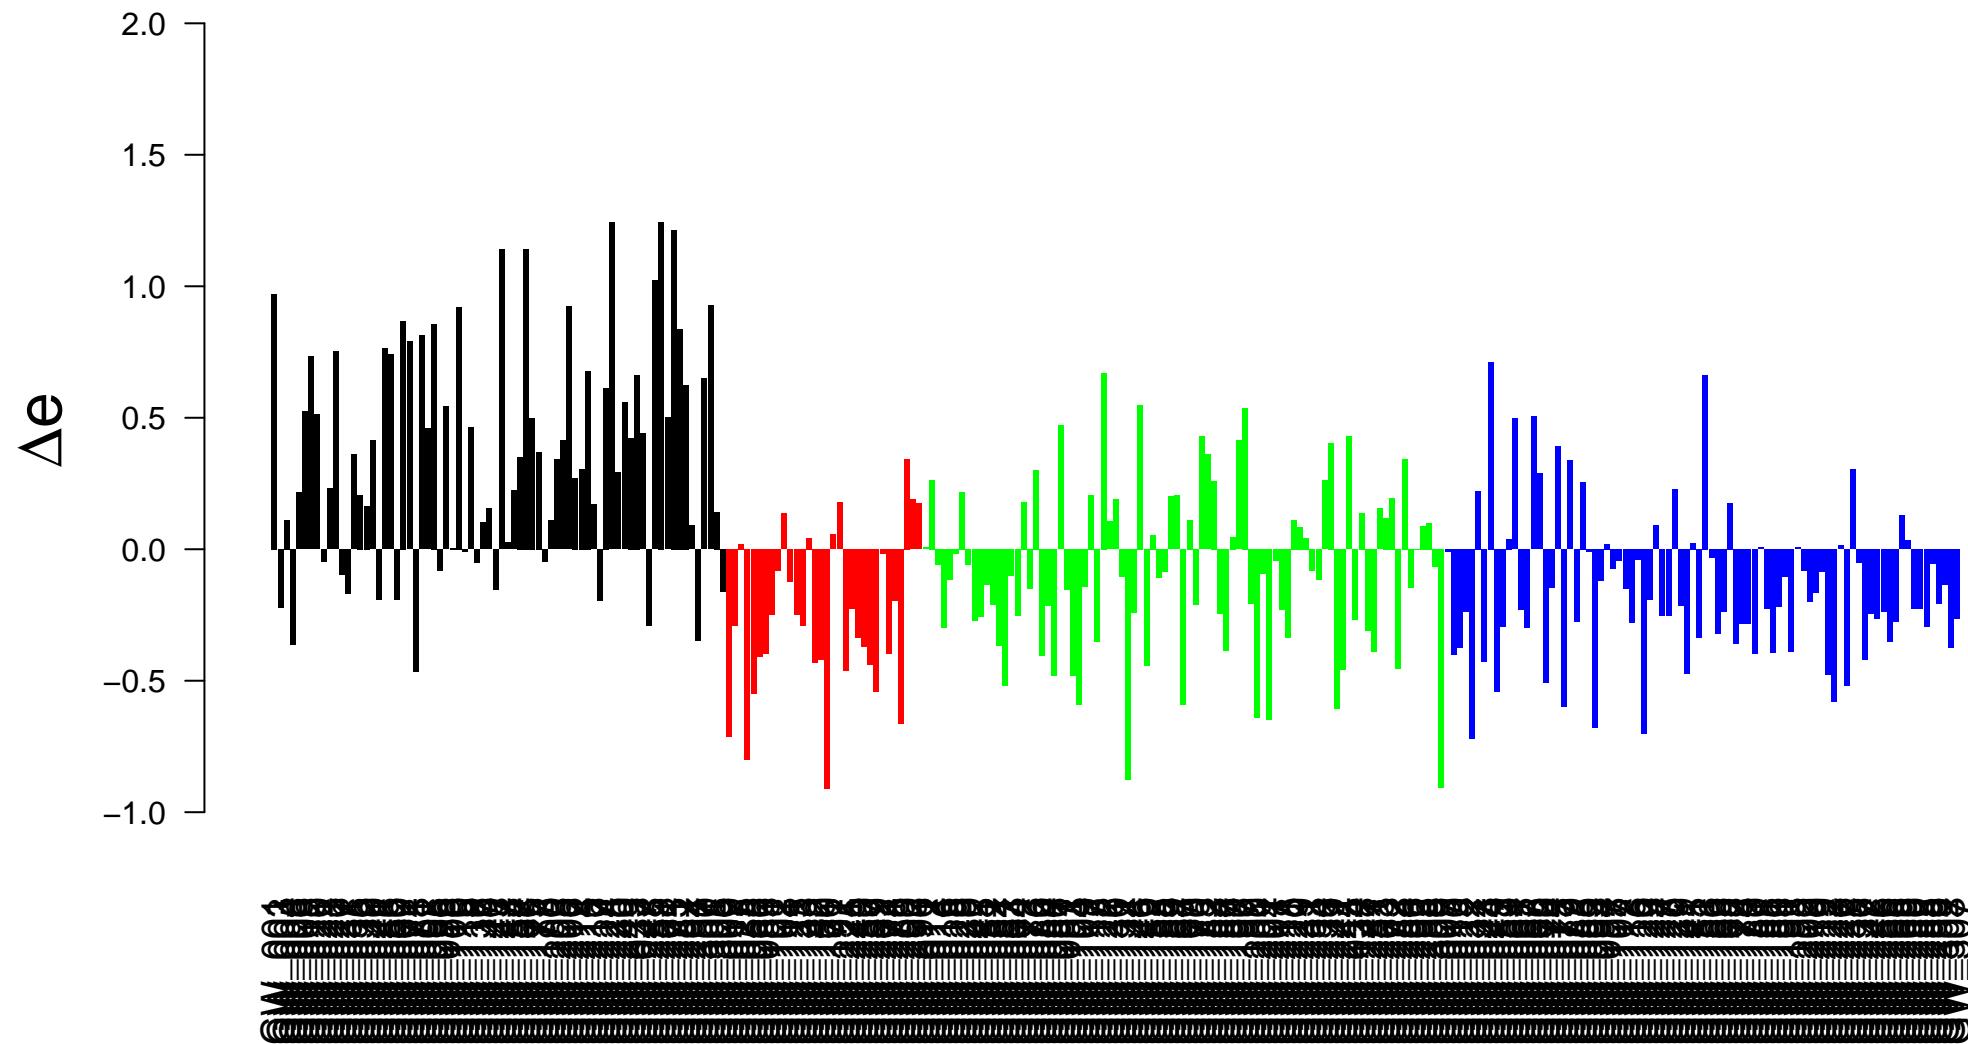

### Expression of antigen processing and presentation of peptide antigen via MHC class I in Spot E

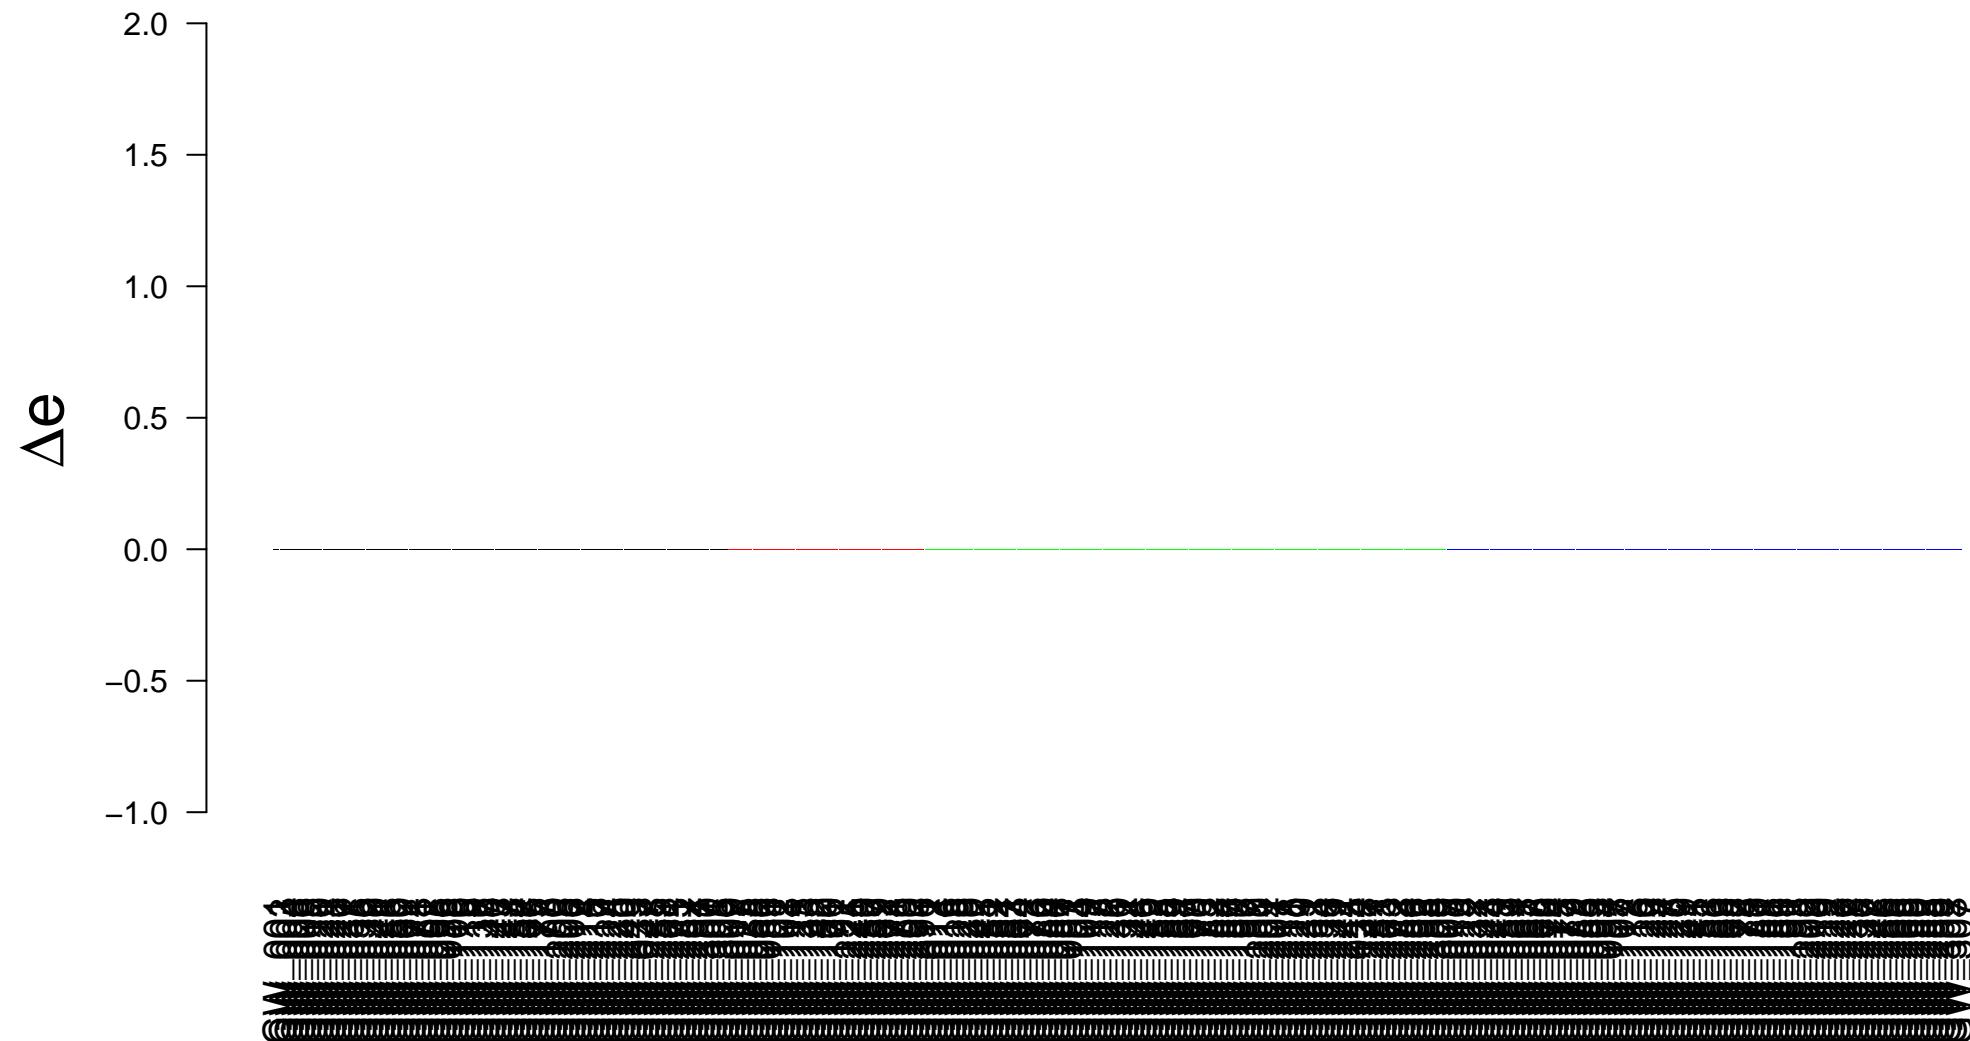

## Expression of antigen processing and presentation of peptide antigen via MHC class I in Spot F

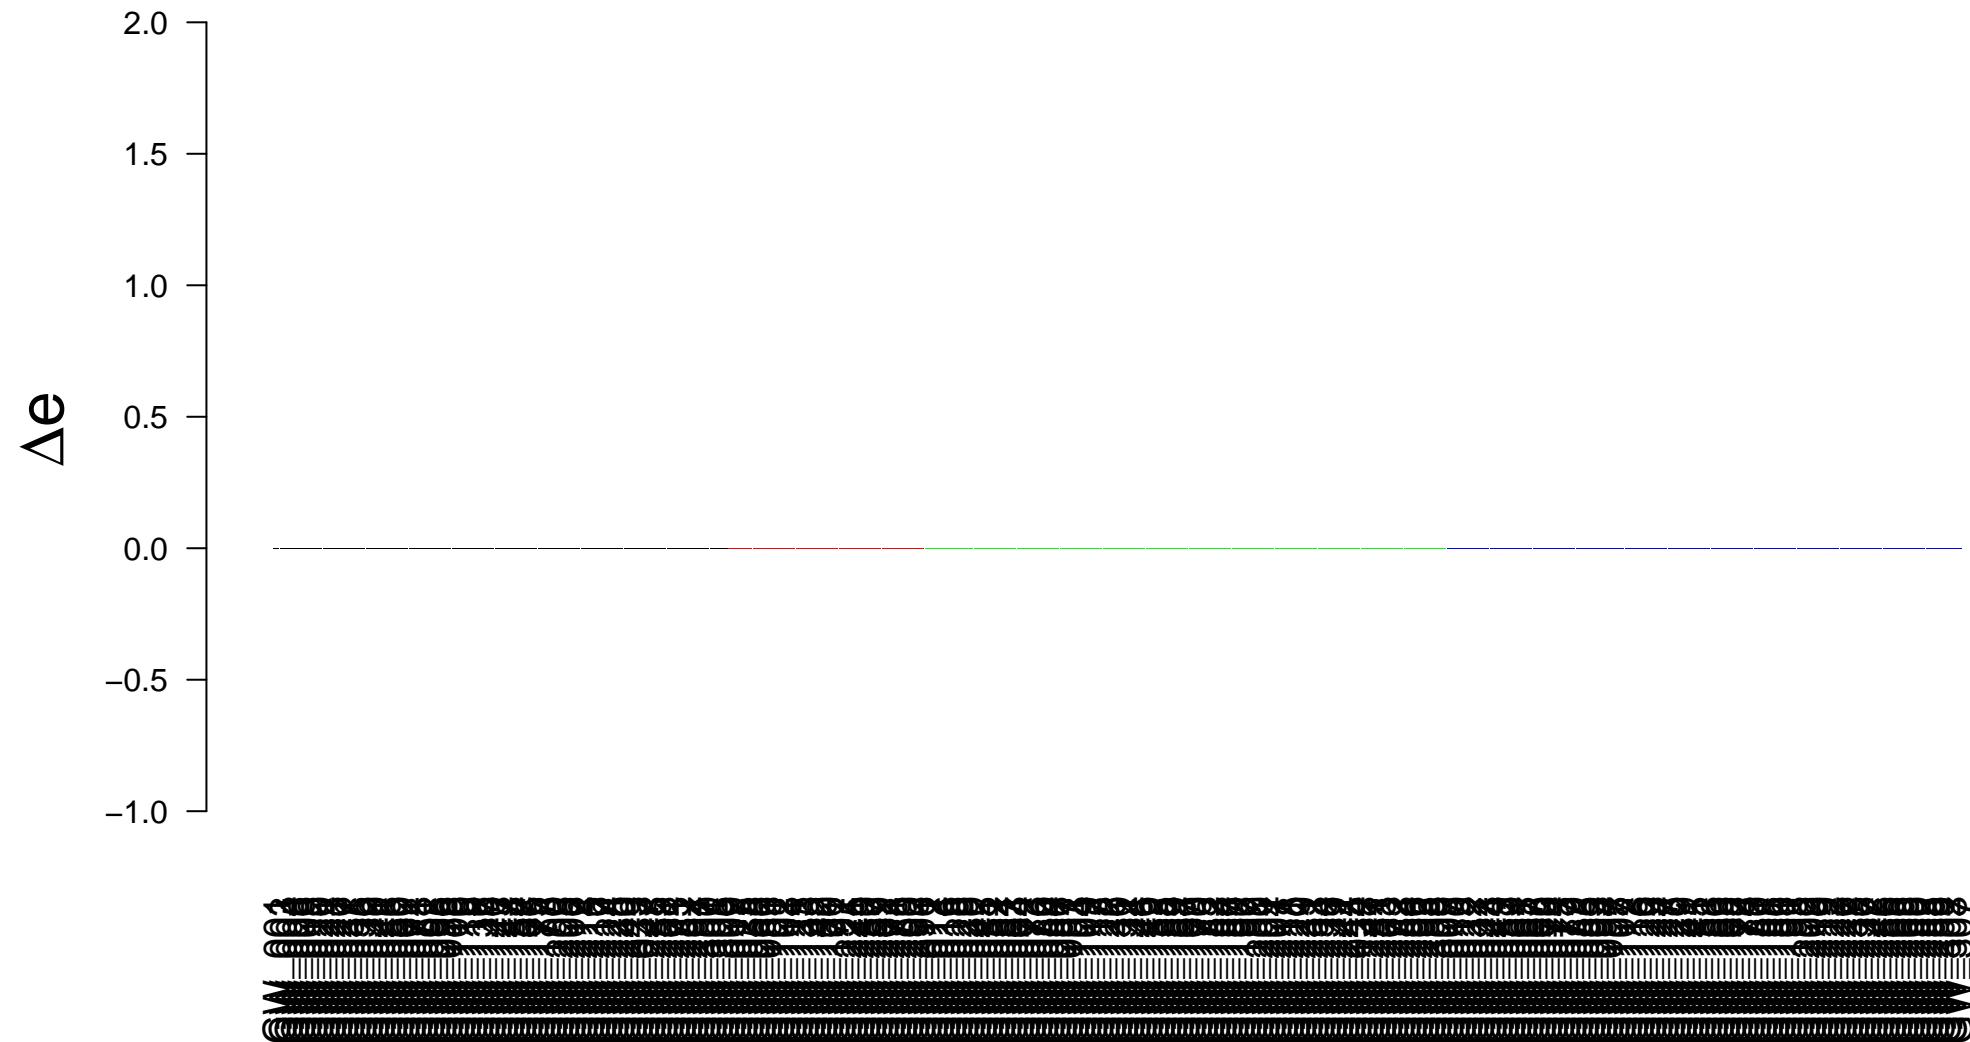

## Expression of antigen processing and presentation of peptide antigen via MHC class I in Spot G

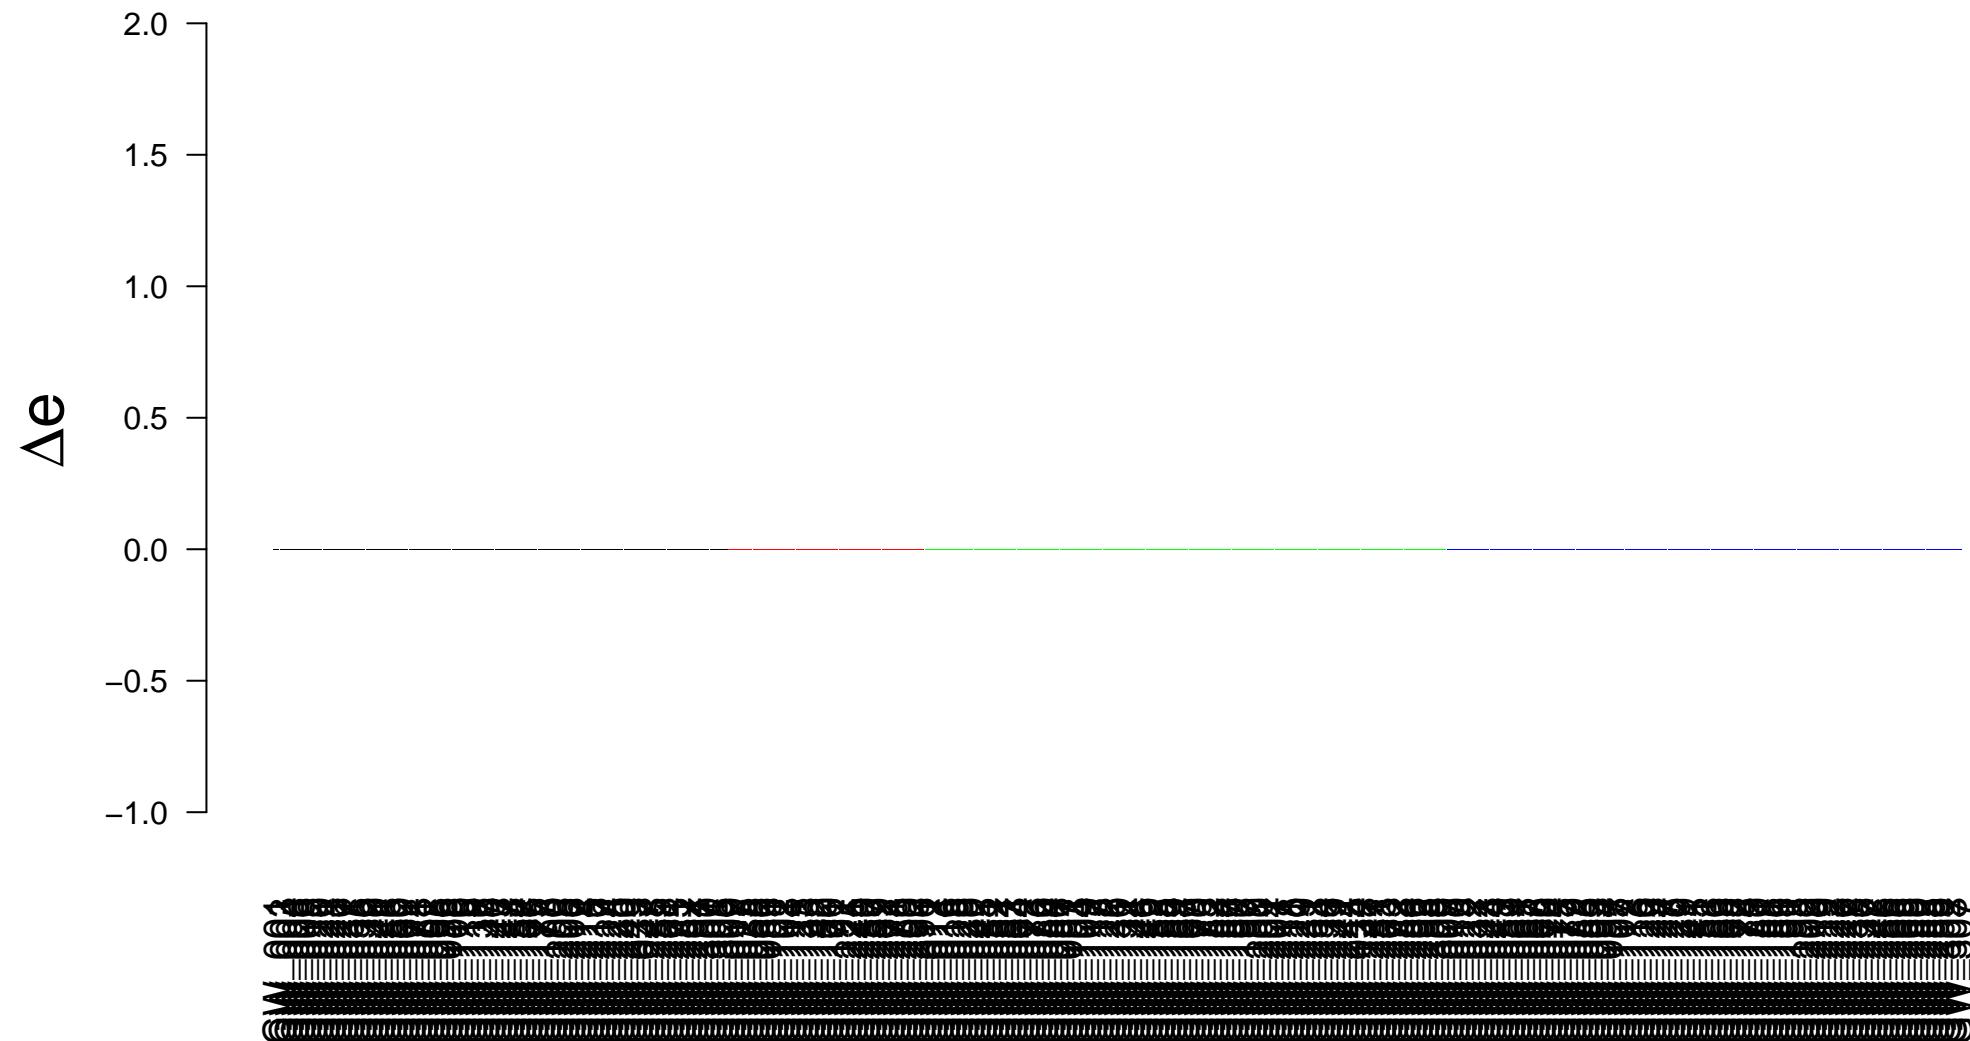

### Expression of antigen processing and presentation of peptide antigen via MHC class I in Spot H

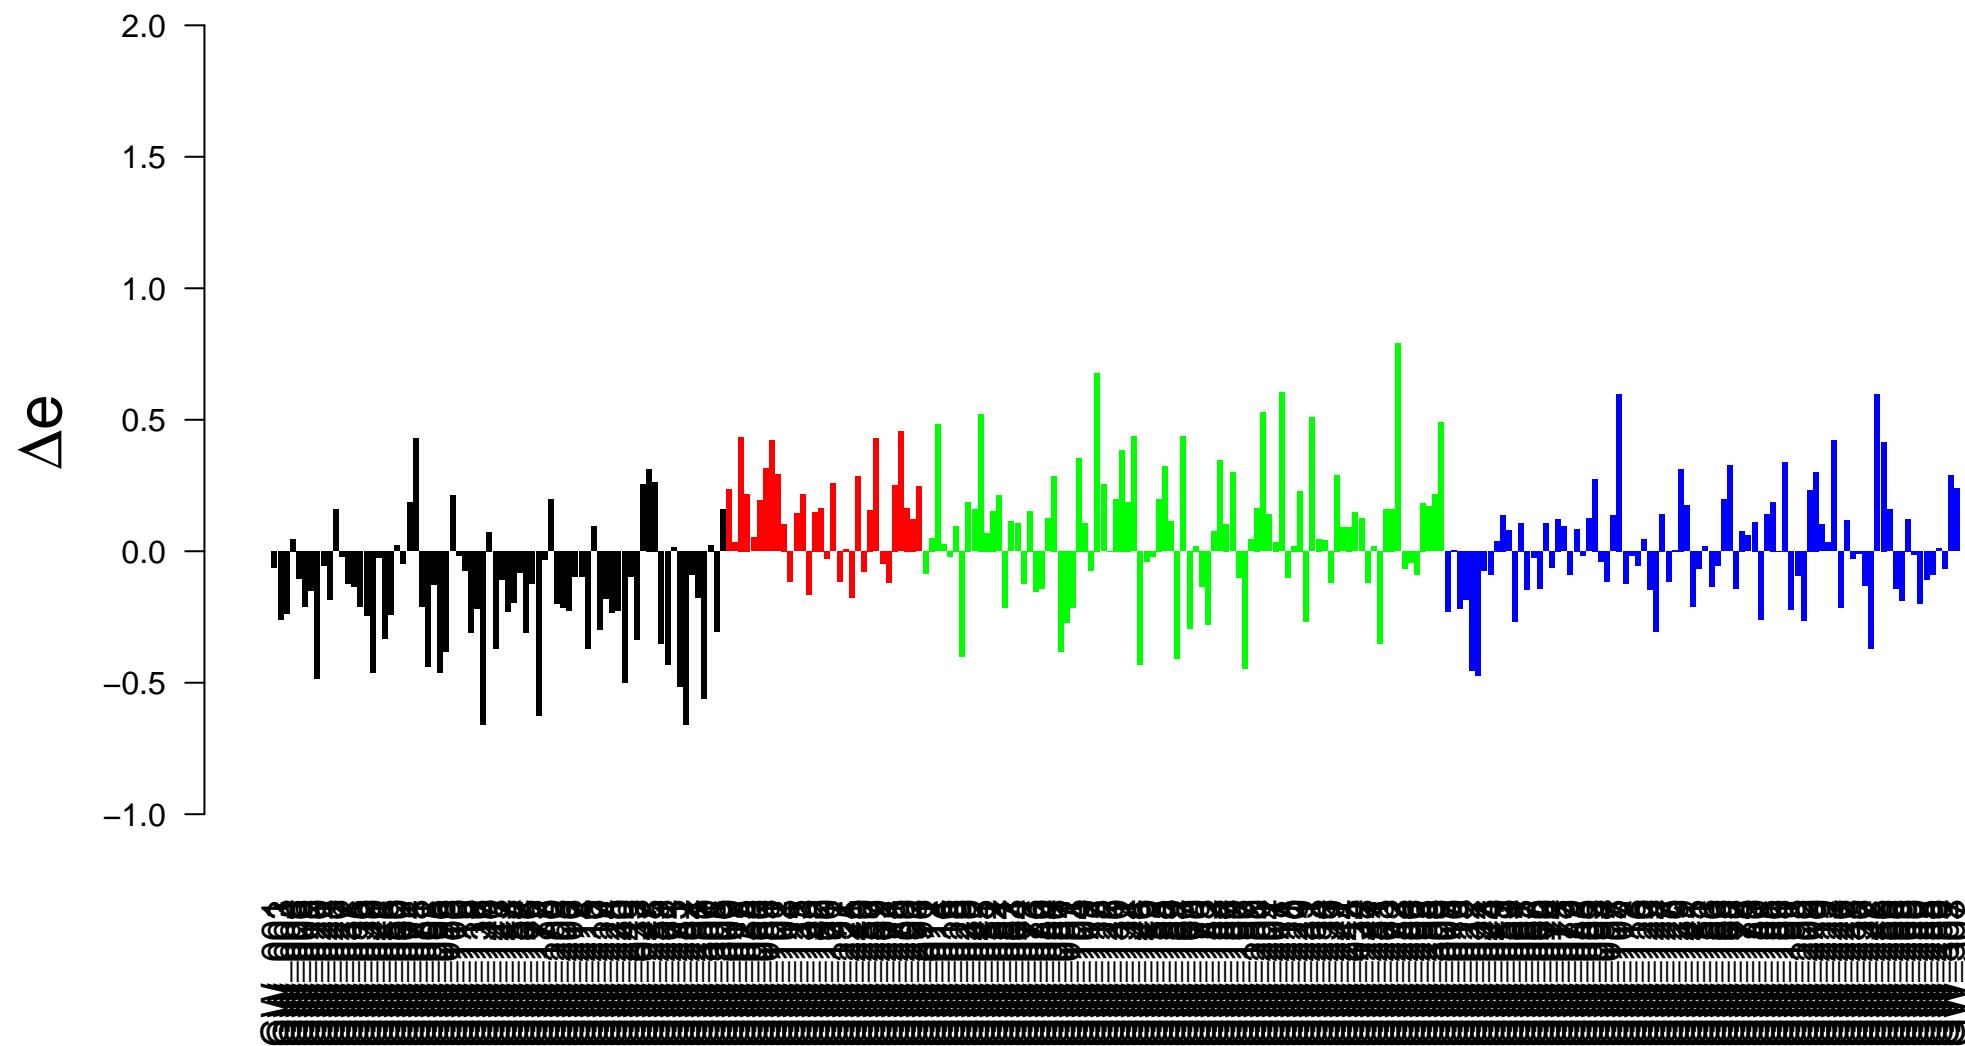

## Expression of antigen processing and presentation of peptide antigen via MHC class I in Spot I

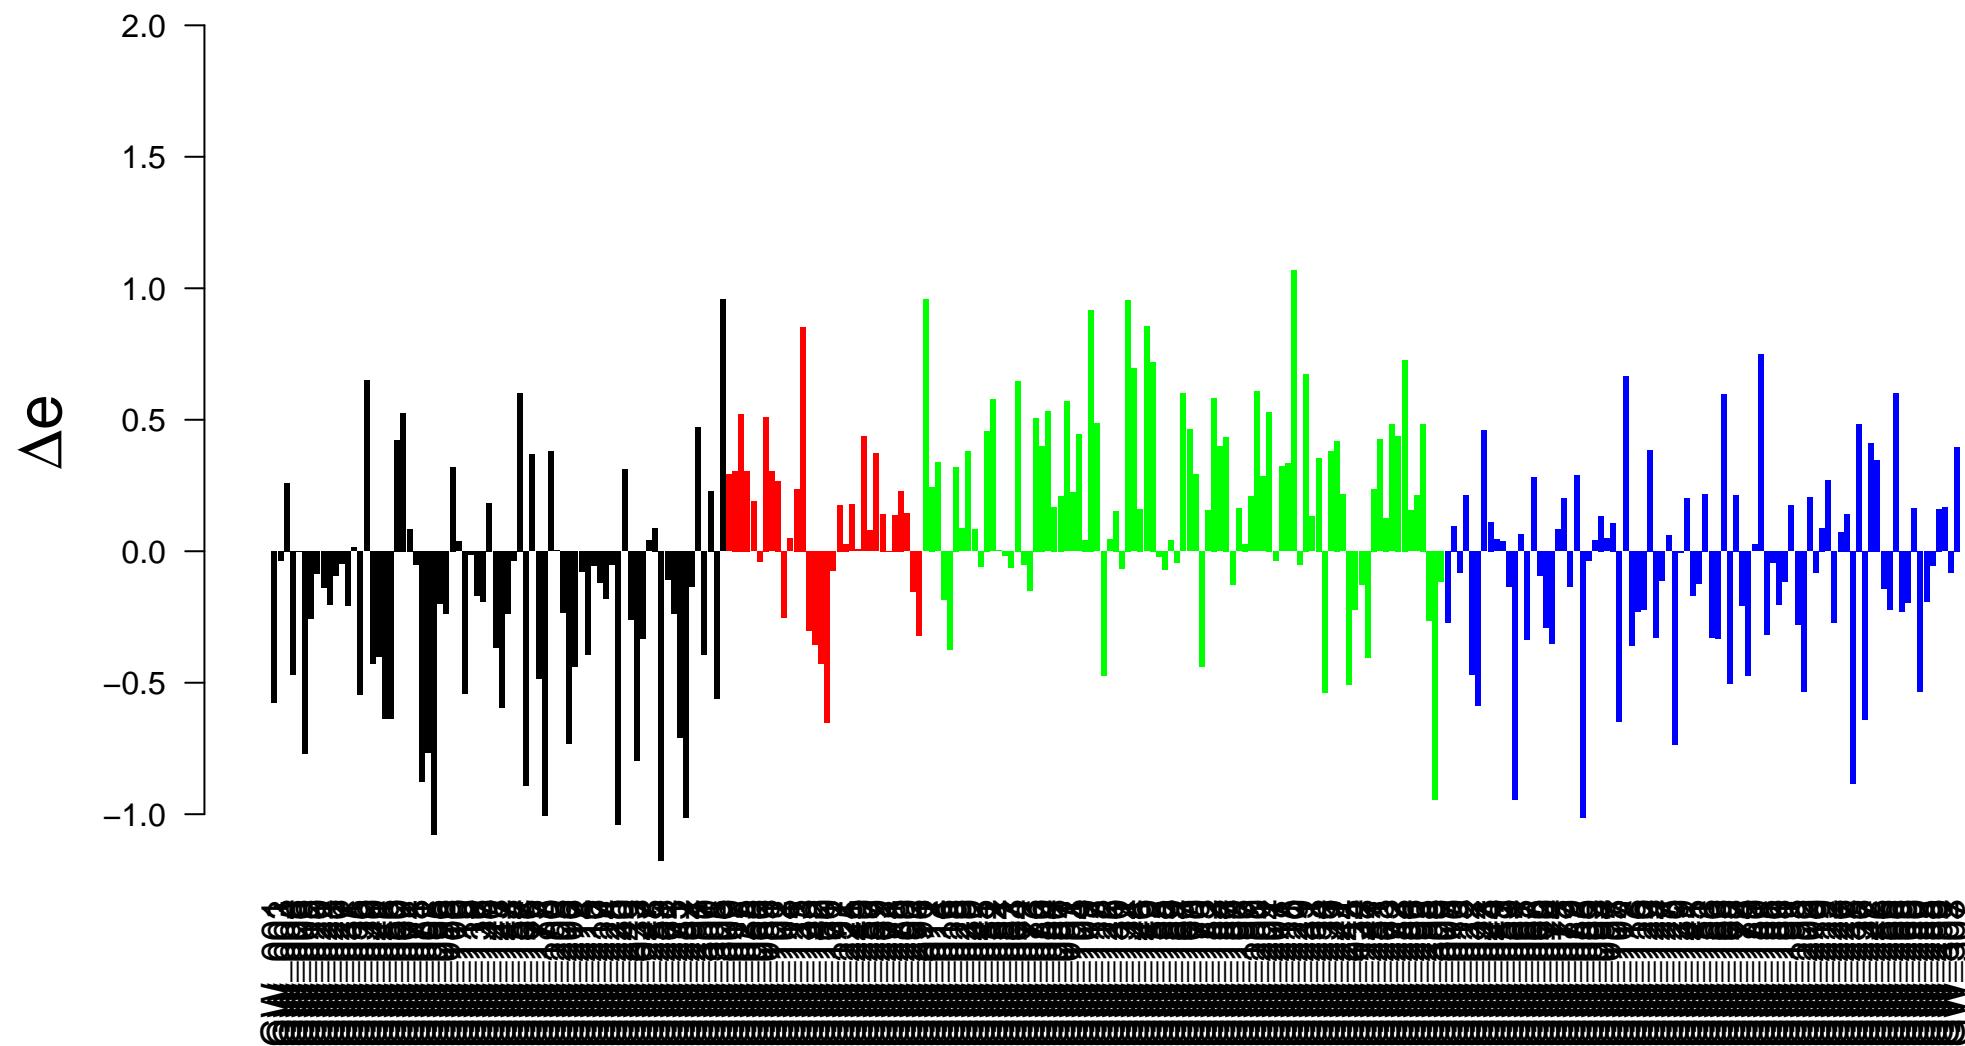

### Expression of antigen processing and presentation of peptide antigen via MHC class I in Spot J

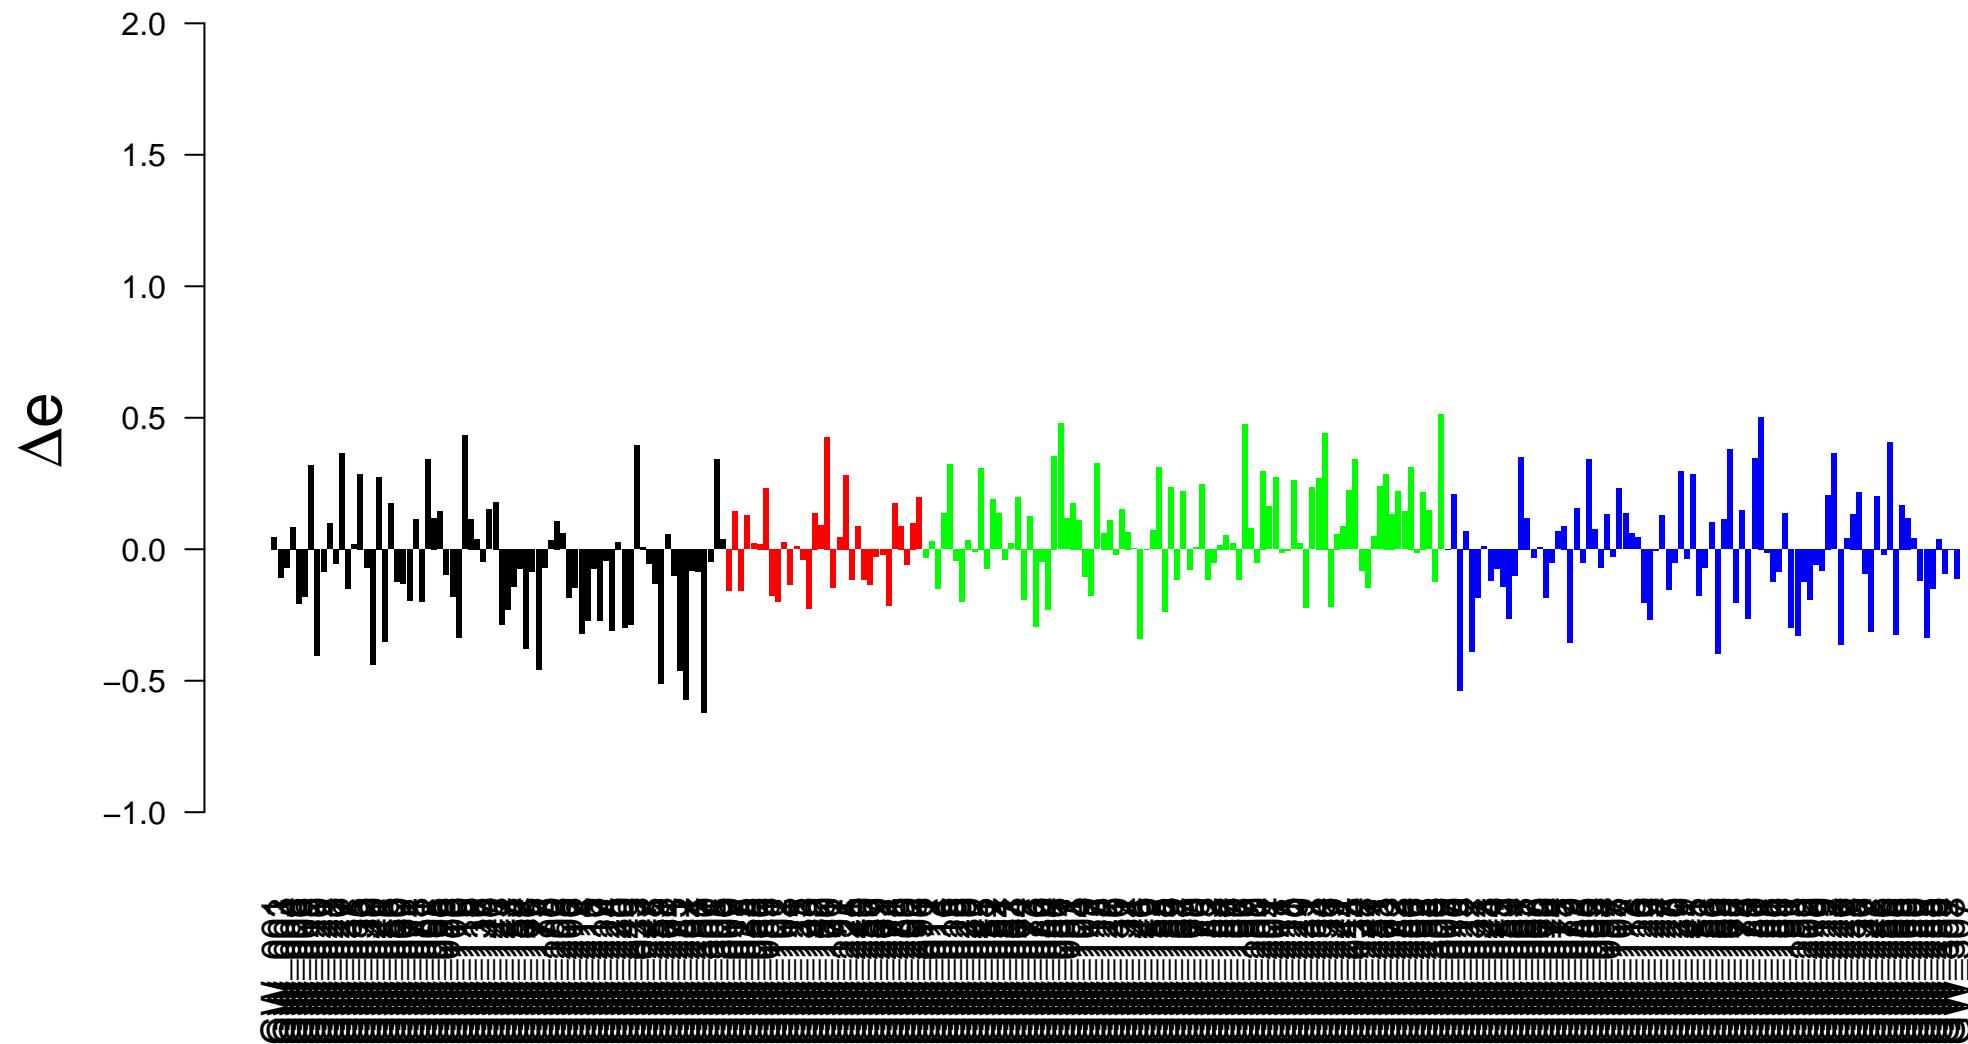

## Expression of antigen processing and presentation of peptide antigen via MHC class I in Spot K

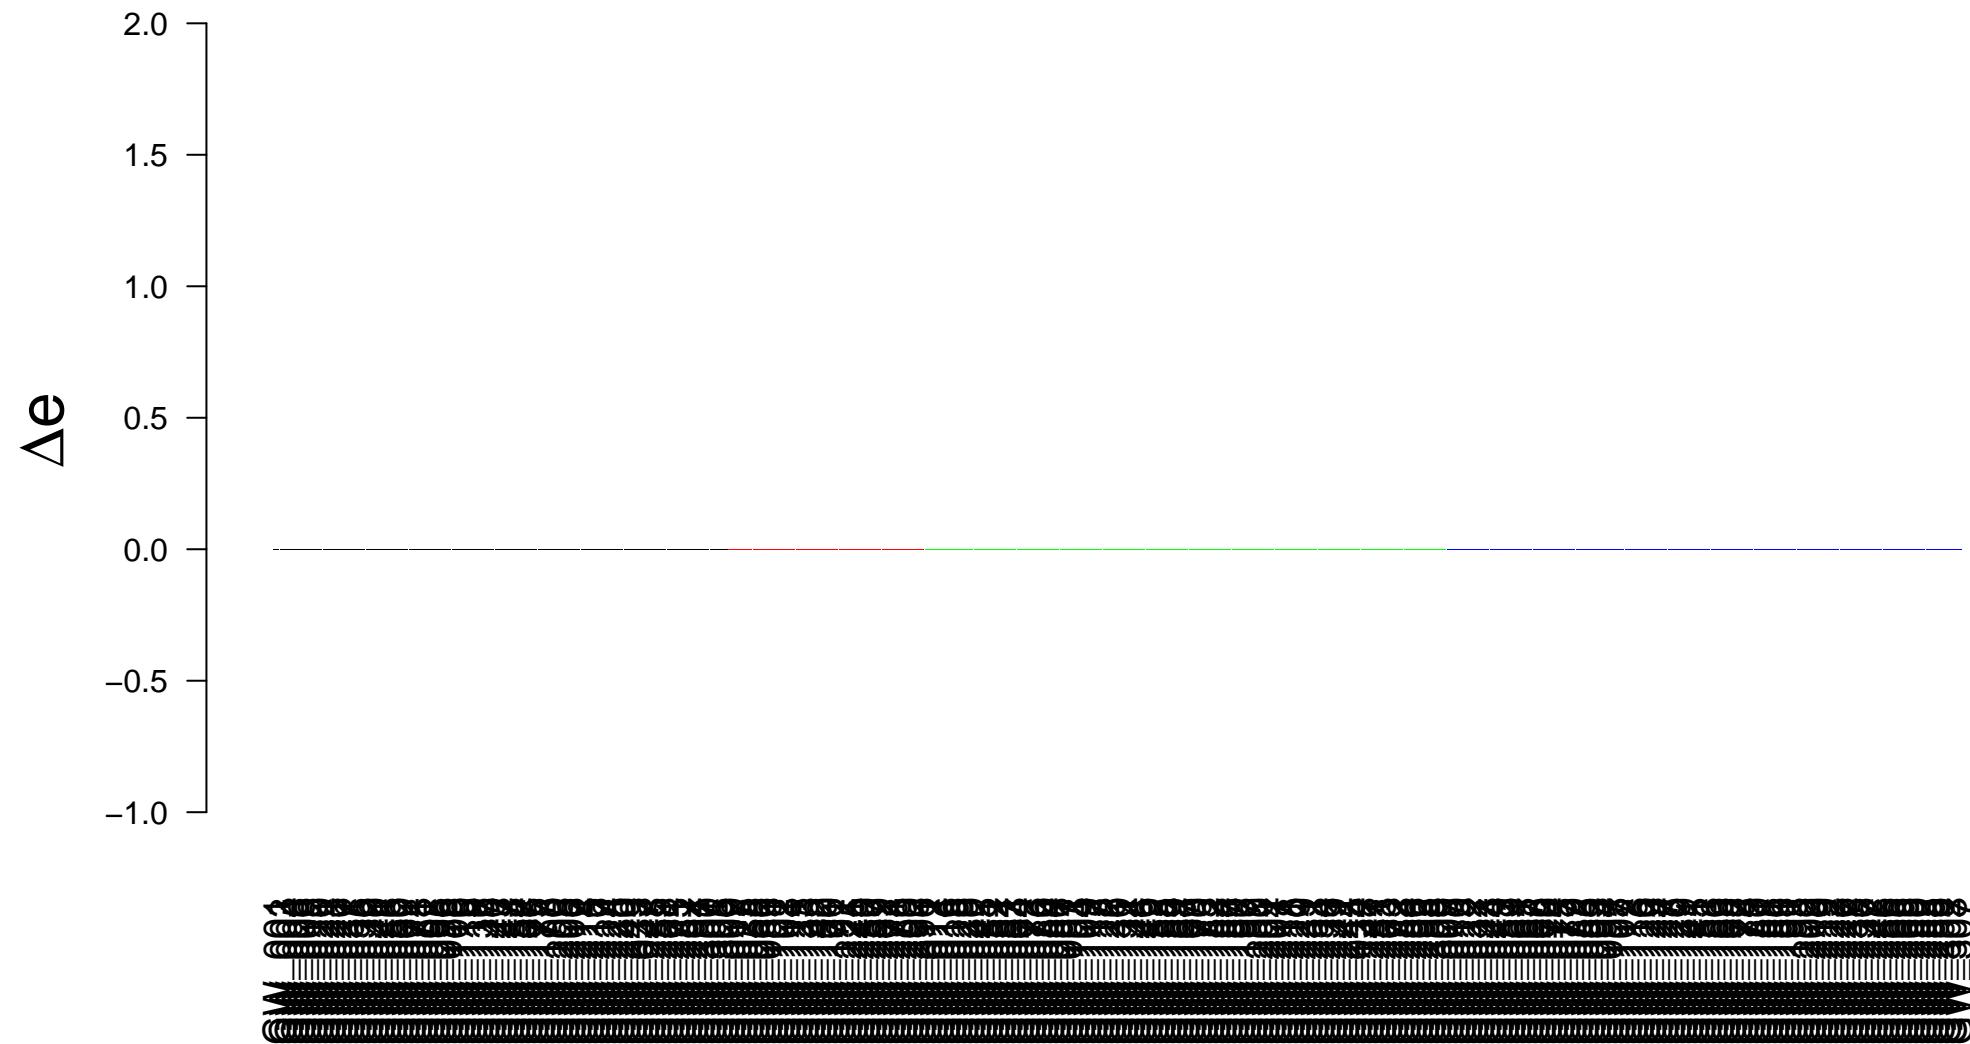

## Expression of antigen processing and presentation of peptide antigen via MHC class I in Spot L

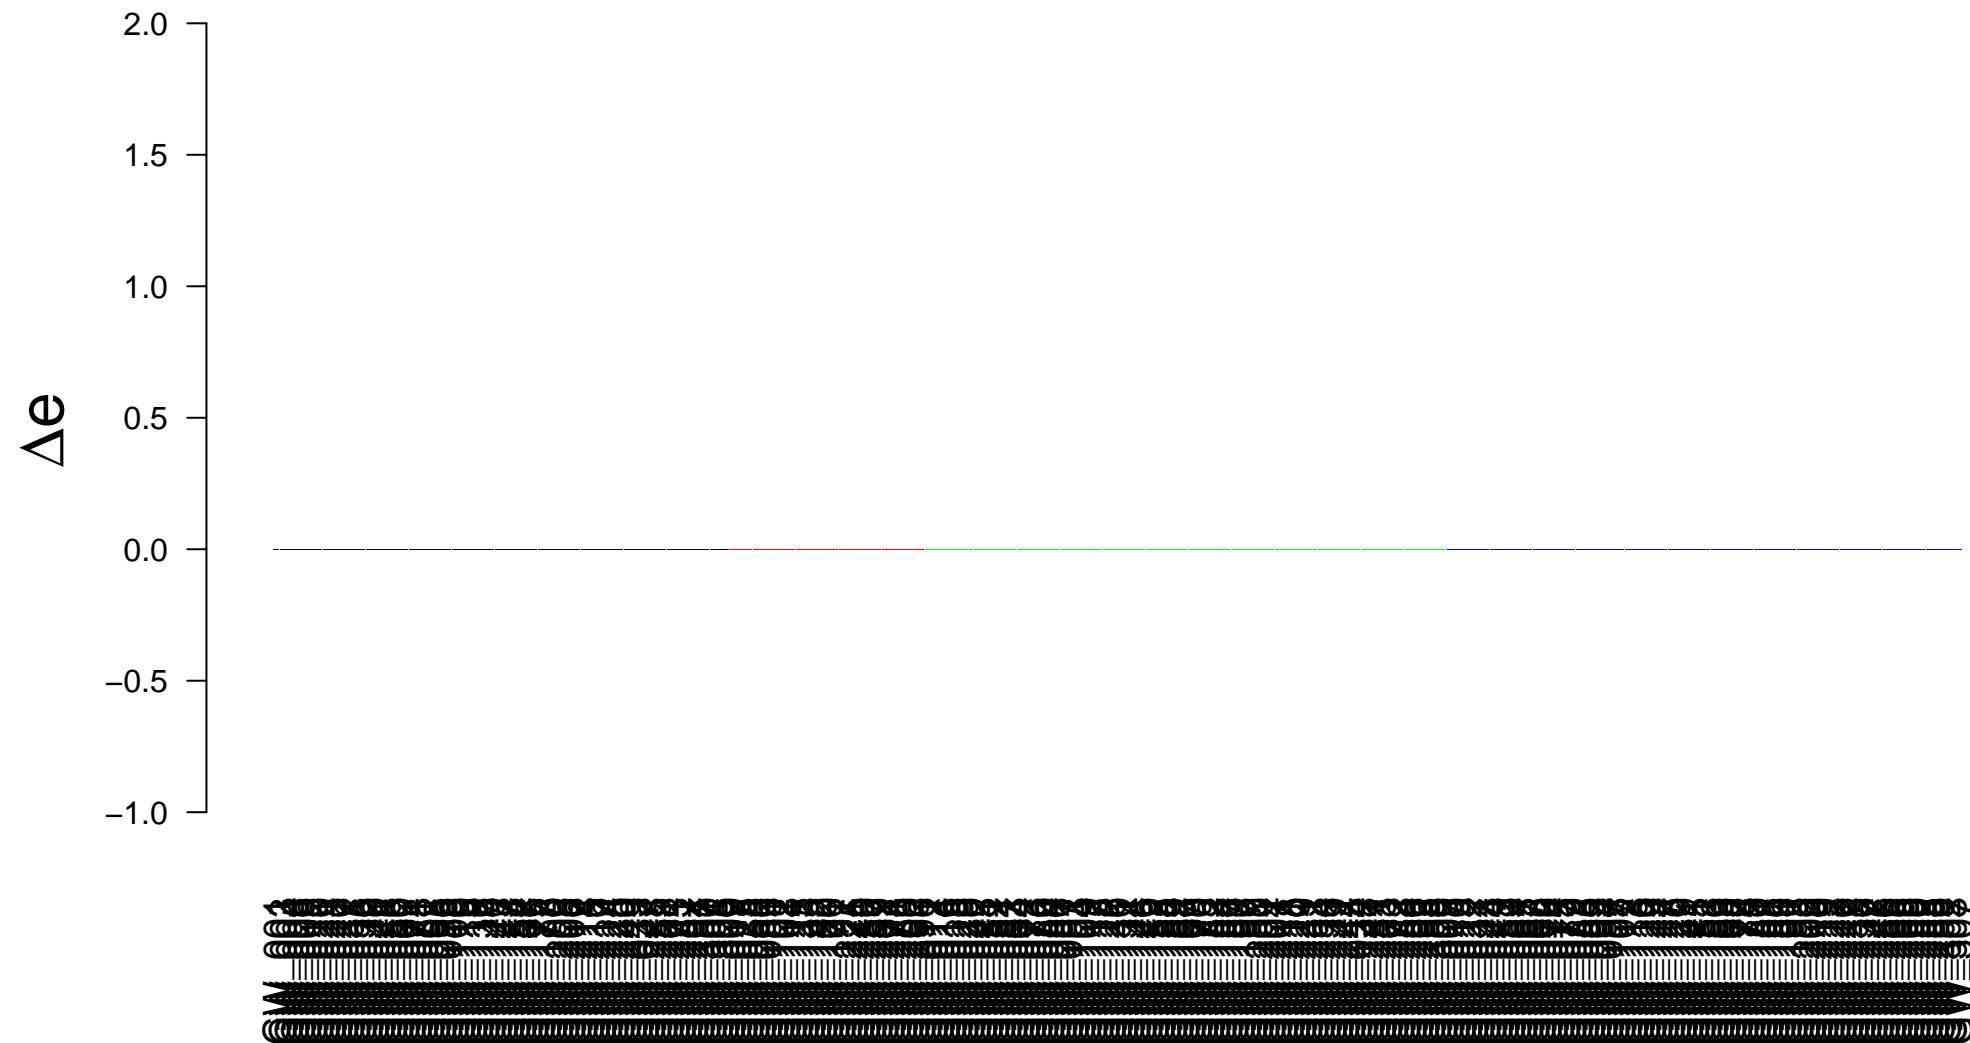

### Expression of antigen processing and presentation of peptide antigen via MHC class I in Spot M

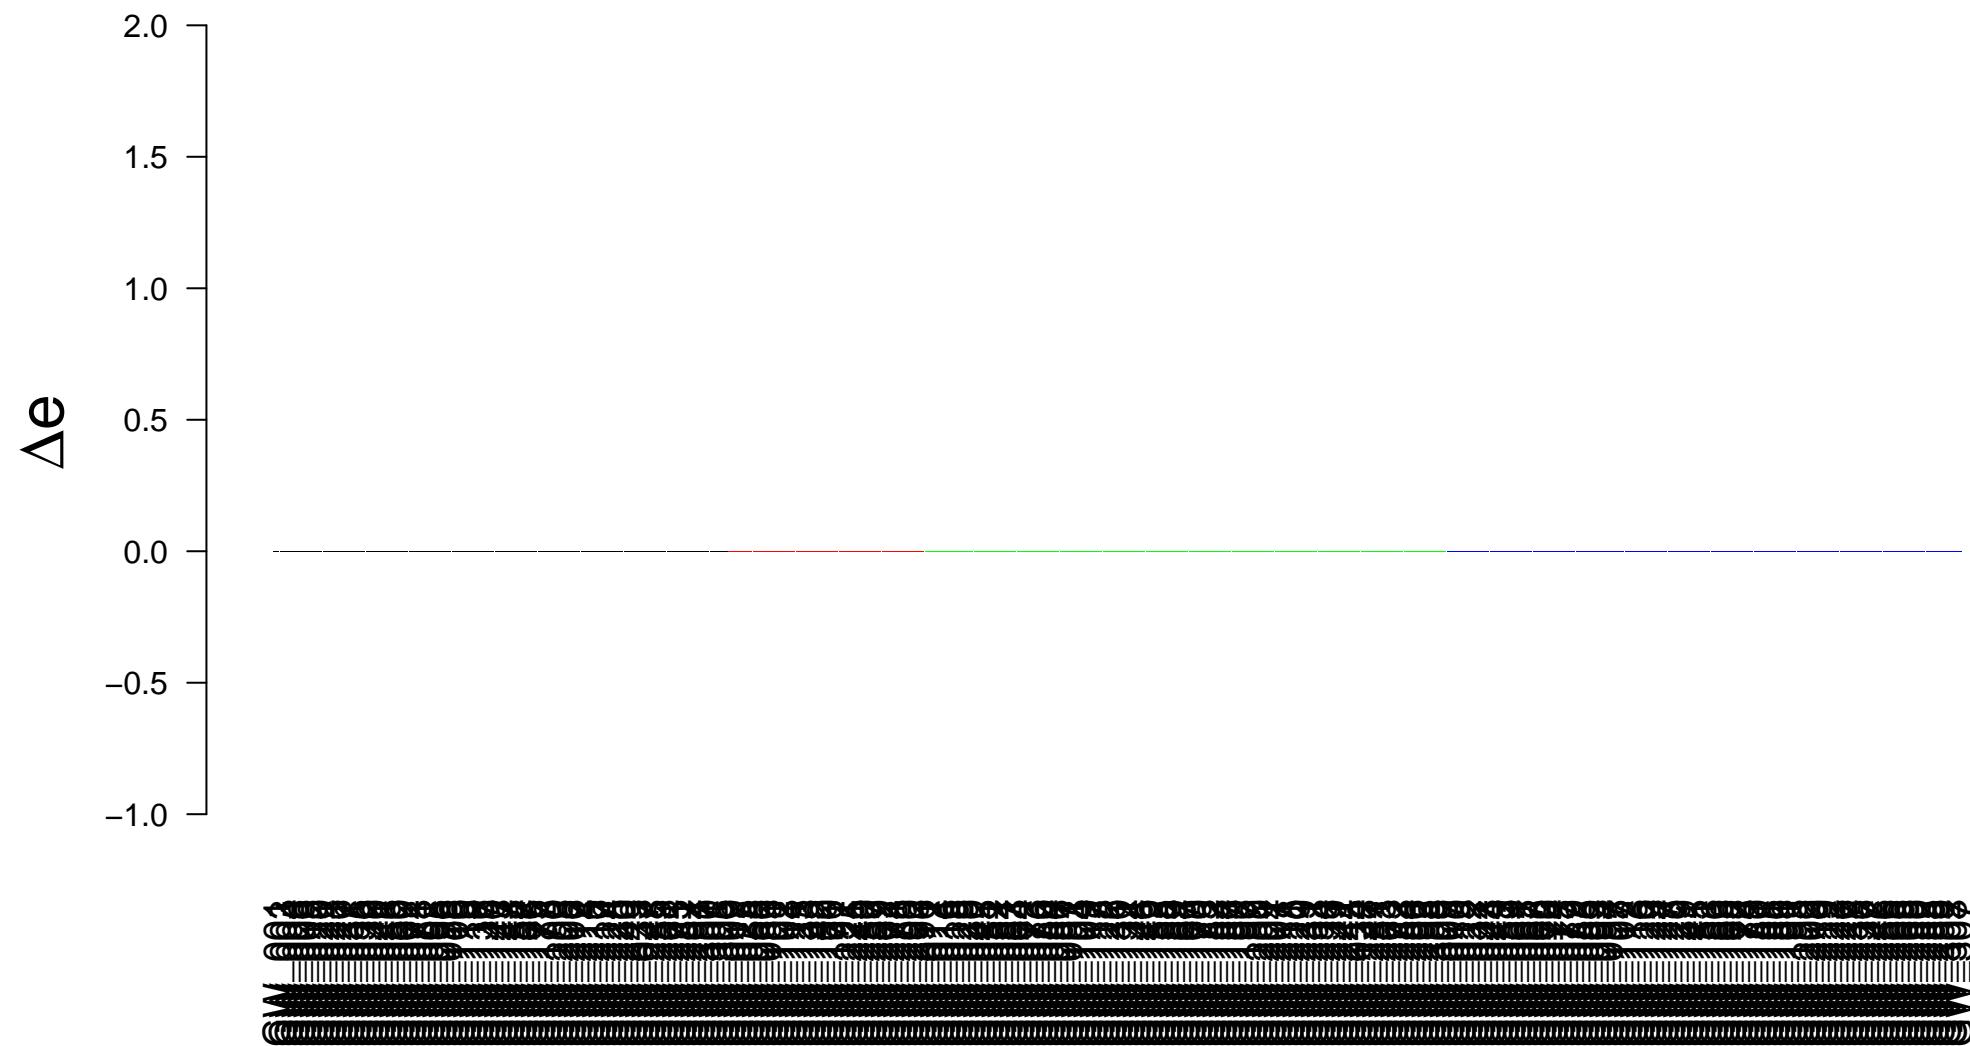

### Expression of antigen processing and presentation of peptide antigen via MHC class I in Spot N

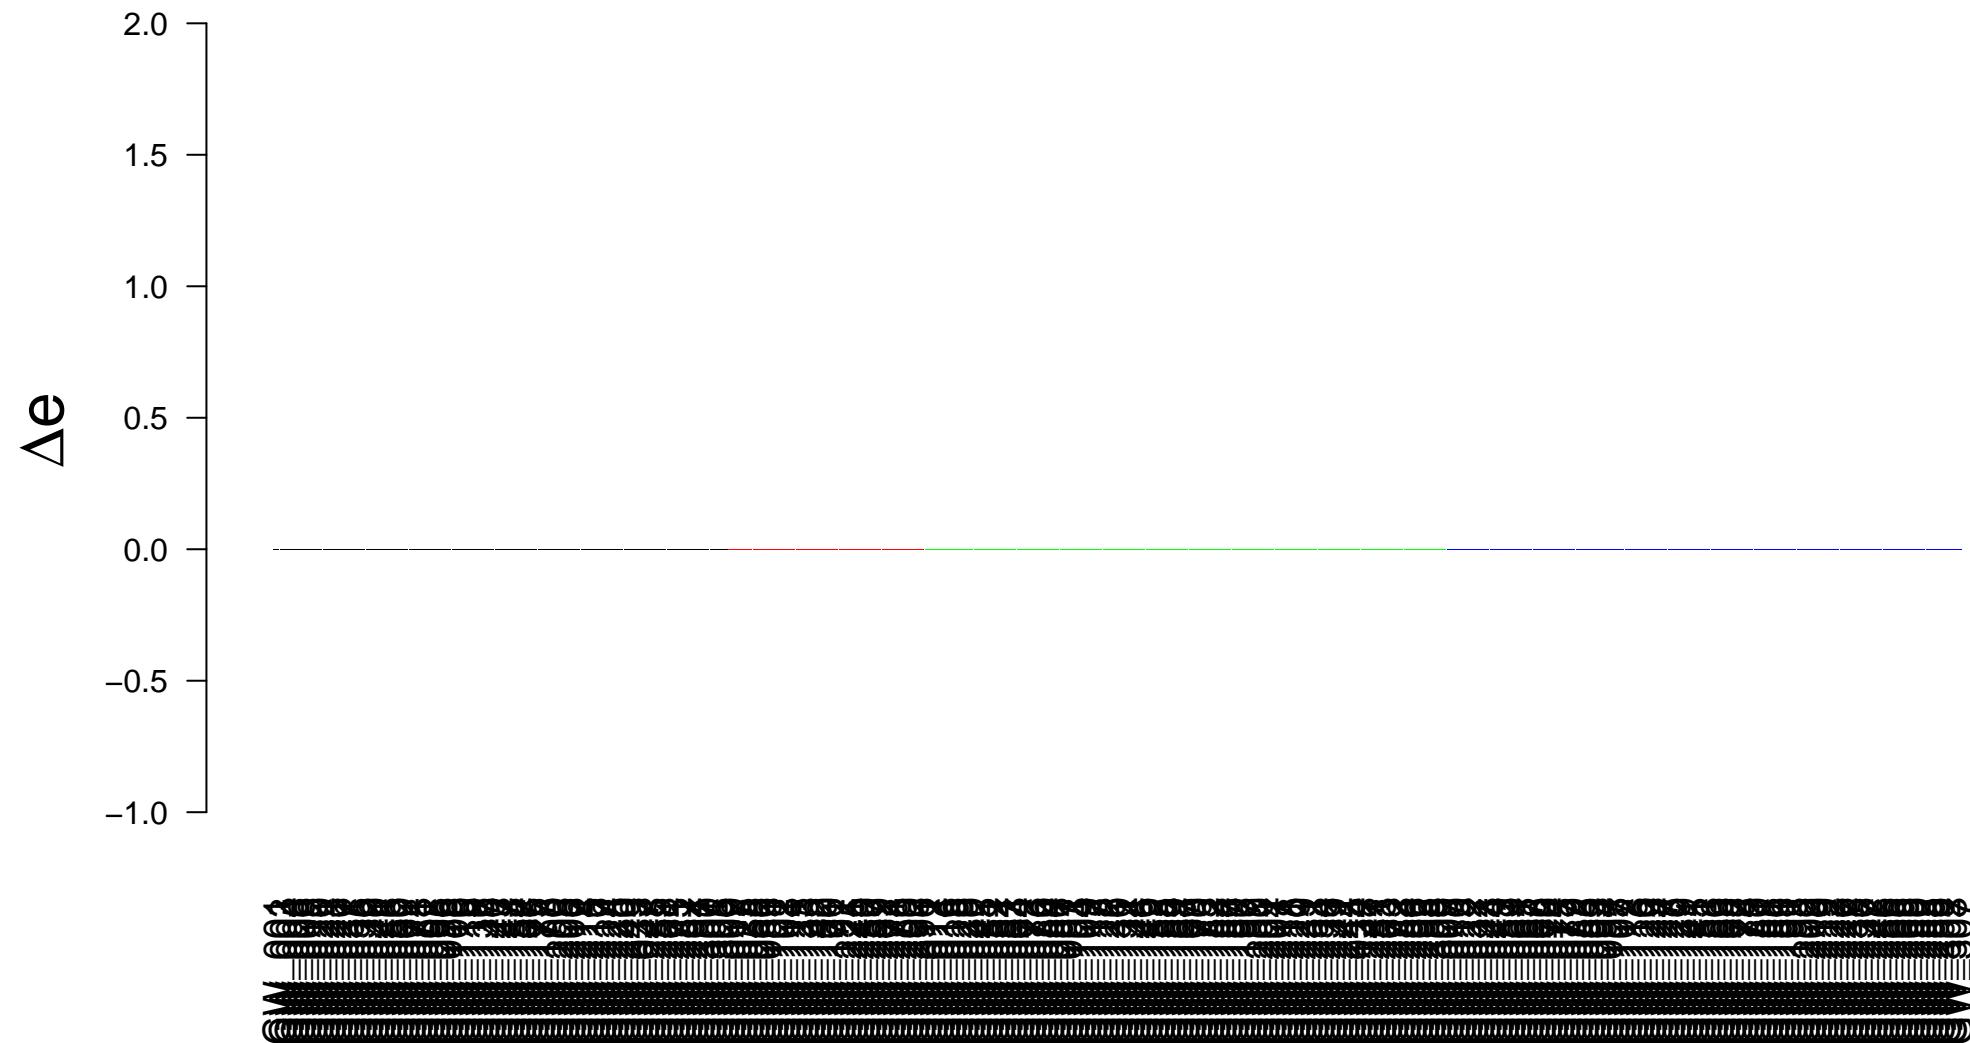

### Expression of antigen processing and presentation of peptide antigen via MHC class I in Spot O

### Expression of antigen processing and presentation of peptide antigen via MHC class I in Spot P

## Expression of antigen processing and presentation of peptide antigen via MHC class I in Spot Q

## Expression of antigen processing and presentation of peptide antigen via MHC class I in Spot R
