

calcium-activated potassium channel activity

calcium-activated potassium channel activity

Enrichment in spots: calcium-activated potassium channel activity

Expression of calcium-activated potassium channel activity in Spot A

Expression of calcium-activated potassium channel activity in Spot B

Expression of calcium-activated potassium channel activity in Spot C

Expression of calcium-activated potassium channel activity in Spot D

Expression of calcium-activated potassium channel activity in Spot E

Expression of calcium-activated potassium channel activity in Spot F

Expression of calcium-activated potassium channel activity in Spot G

Expression of calcium-activated potassium channel activity in Spot H

Expression of calcium-activated potassium channel activity in Spot I

Expression of calcium-activated potassium channel activity in Spot J

Expression of calcium-activated potassium channel activity in Spot K

Expression of calcium-activated potassium channel activity in Spot L

Expression of calcium-activated potassium channel activity in Spot M

Expression of calcium-activated potassium channel activity in Spot N

Expression of calcium-activated potassium channel activity in Spot O

Expression of calcium-activated potassium channel activity in Spot P

Expression of calcium-activated potassium channel activity in Spot Q

Expression of calcium-activated potassium channel activity in Spot R
