

calcium-mediated signaling using intracellular calcium source

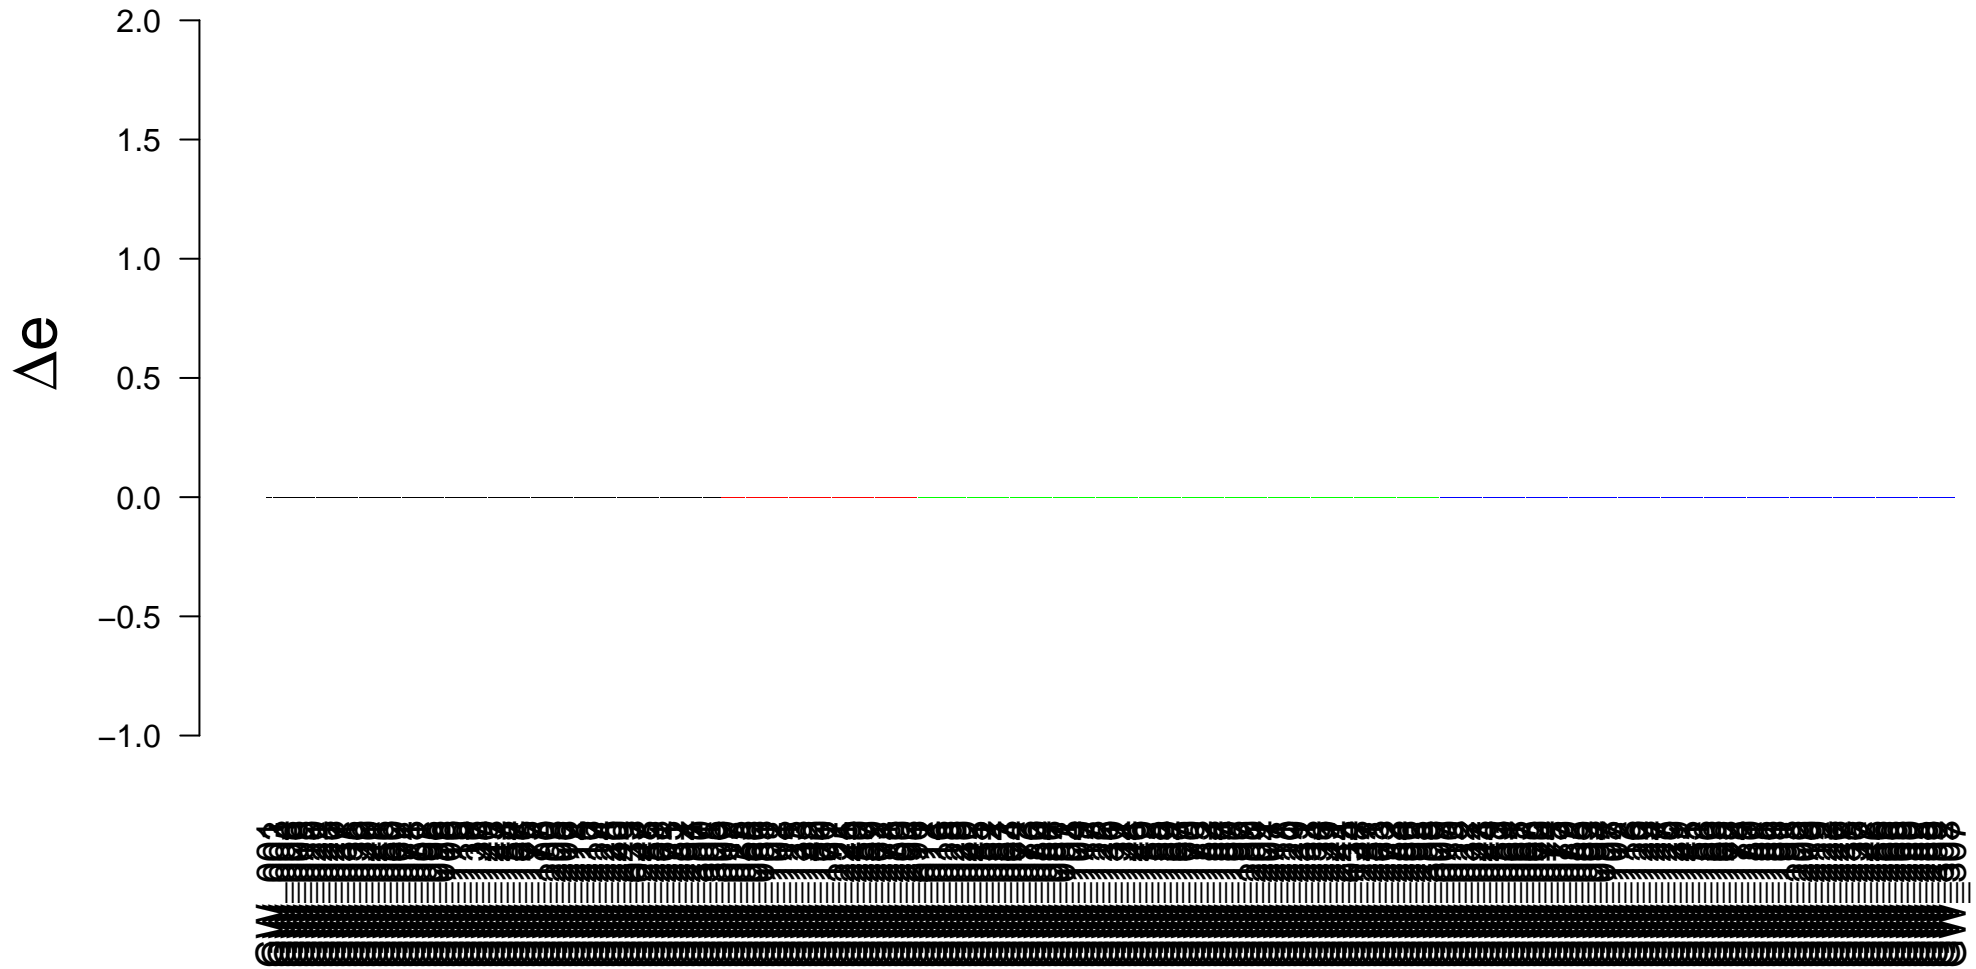

calcium-mediated signaling using intracellular calcium source

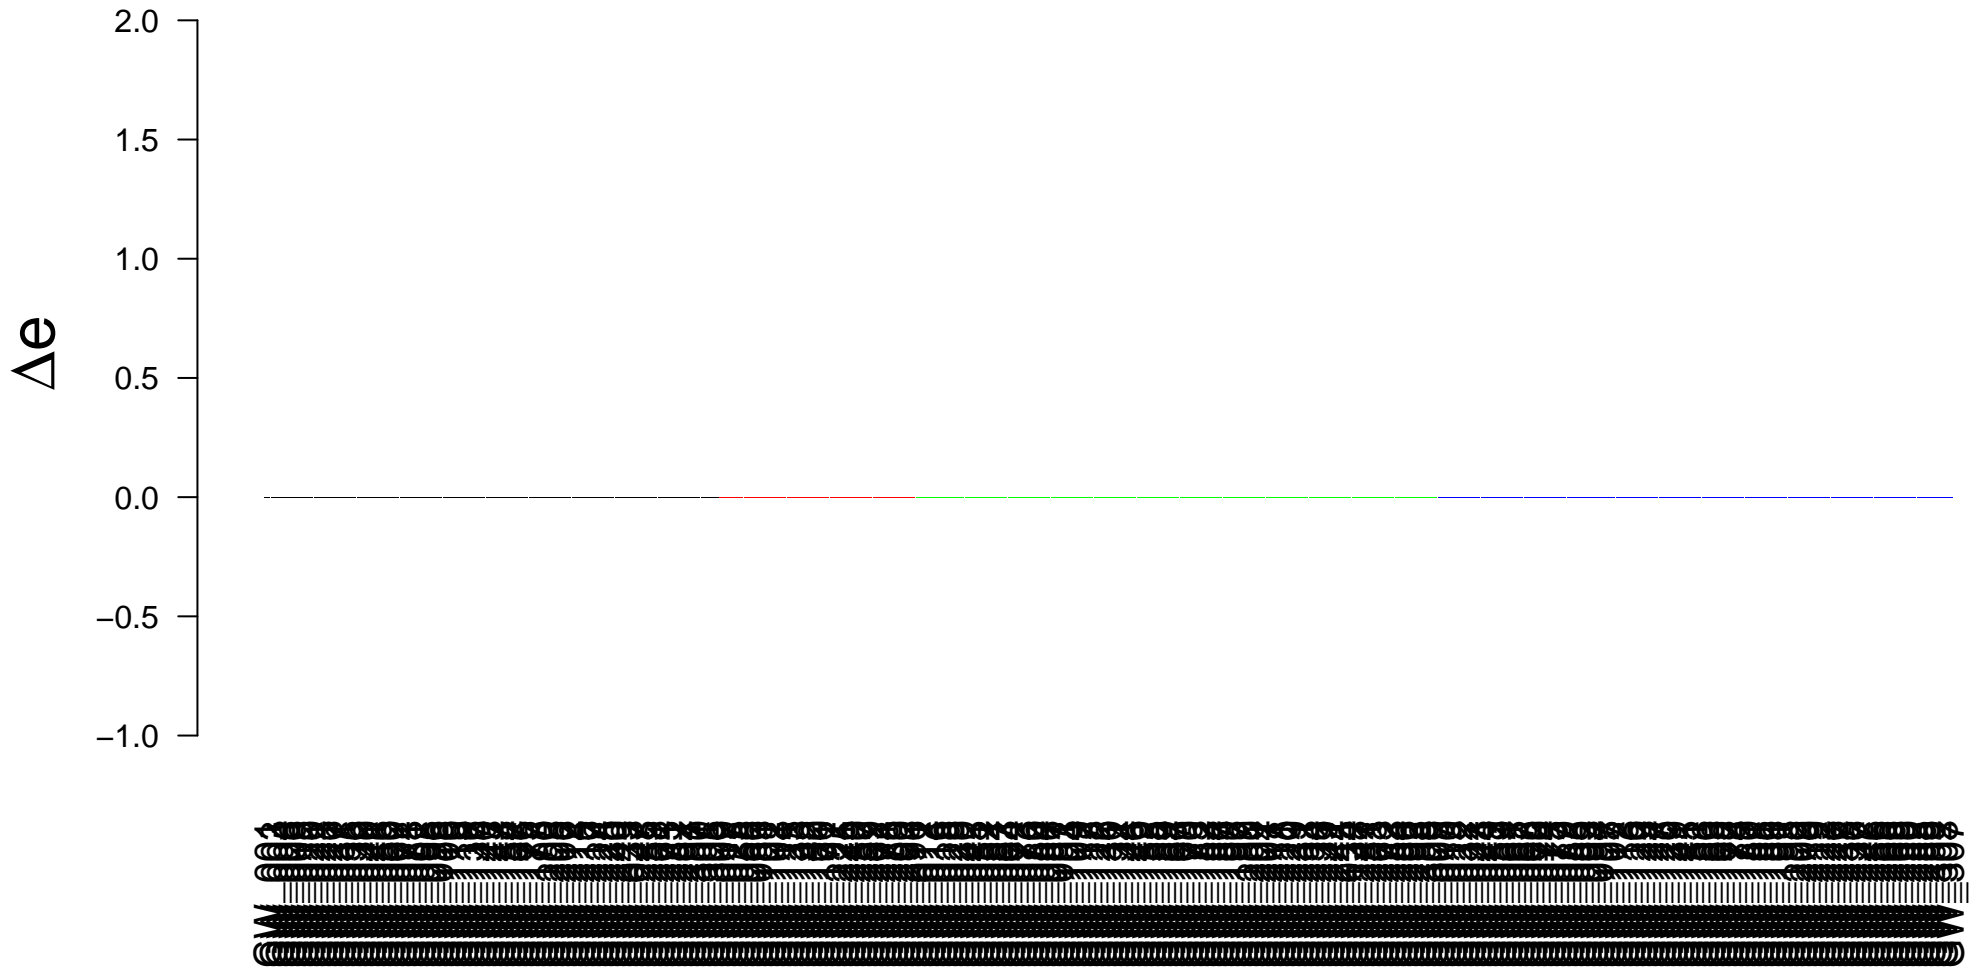

Enrichment in spots: calcium-mediated signaling using intracellular calcium source

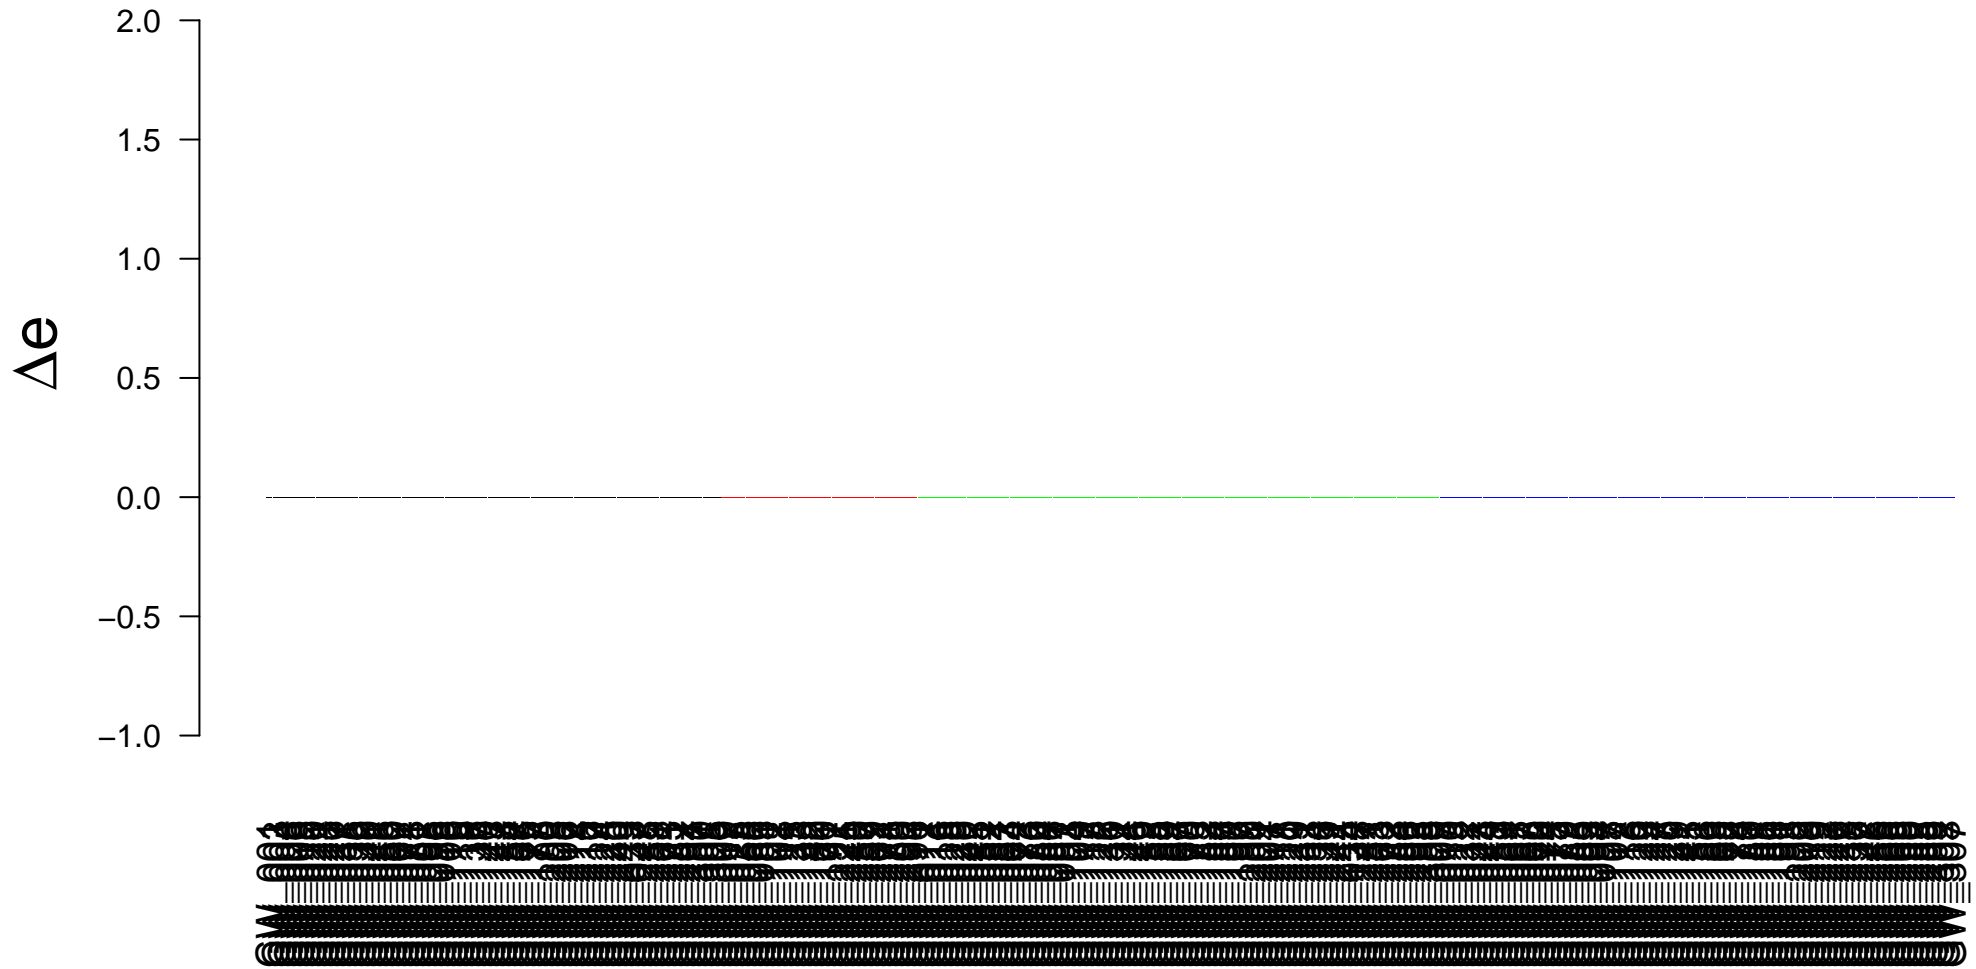

Expression of calcium-mediated signaling using intracellular calcium source in Spot A

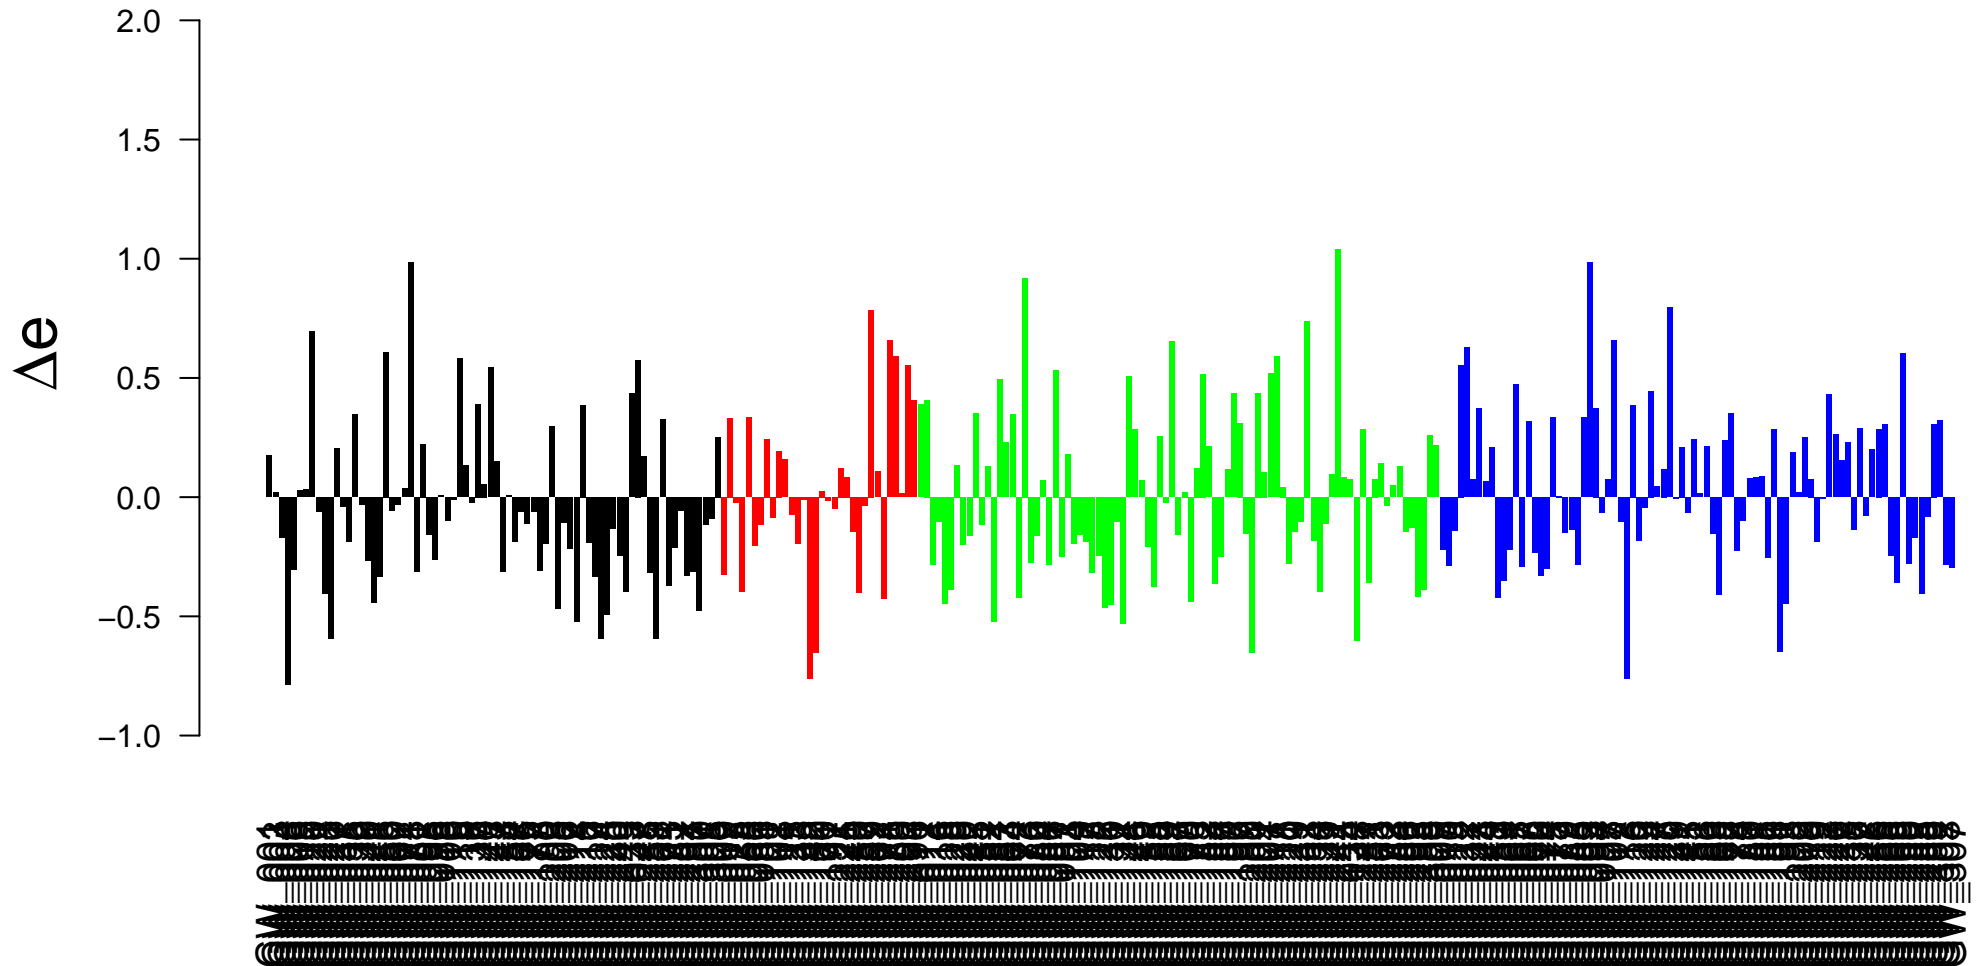

Expression of calcium-mediated signaling using intracellular calcium source in Spot B

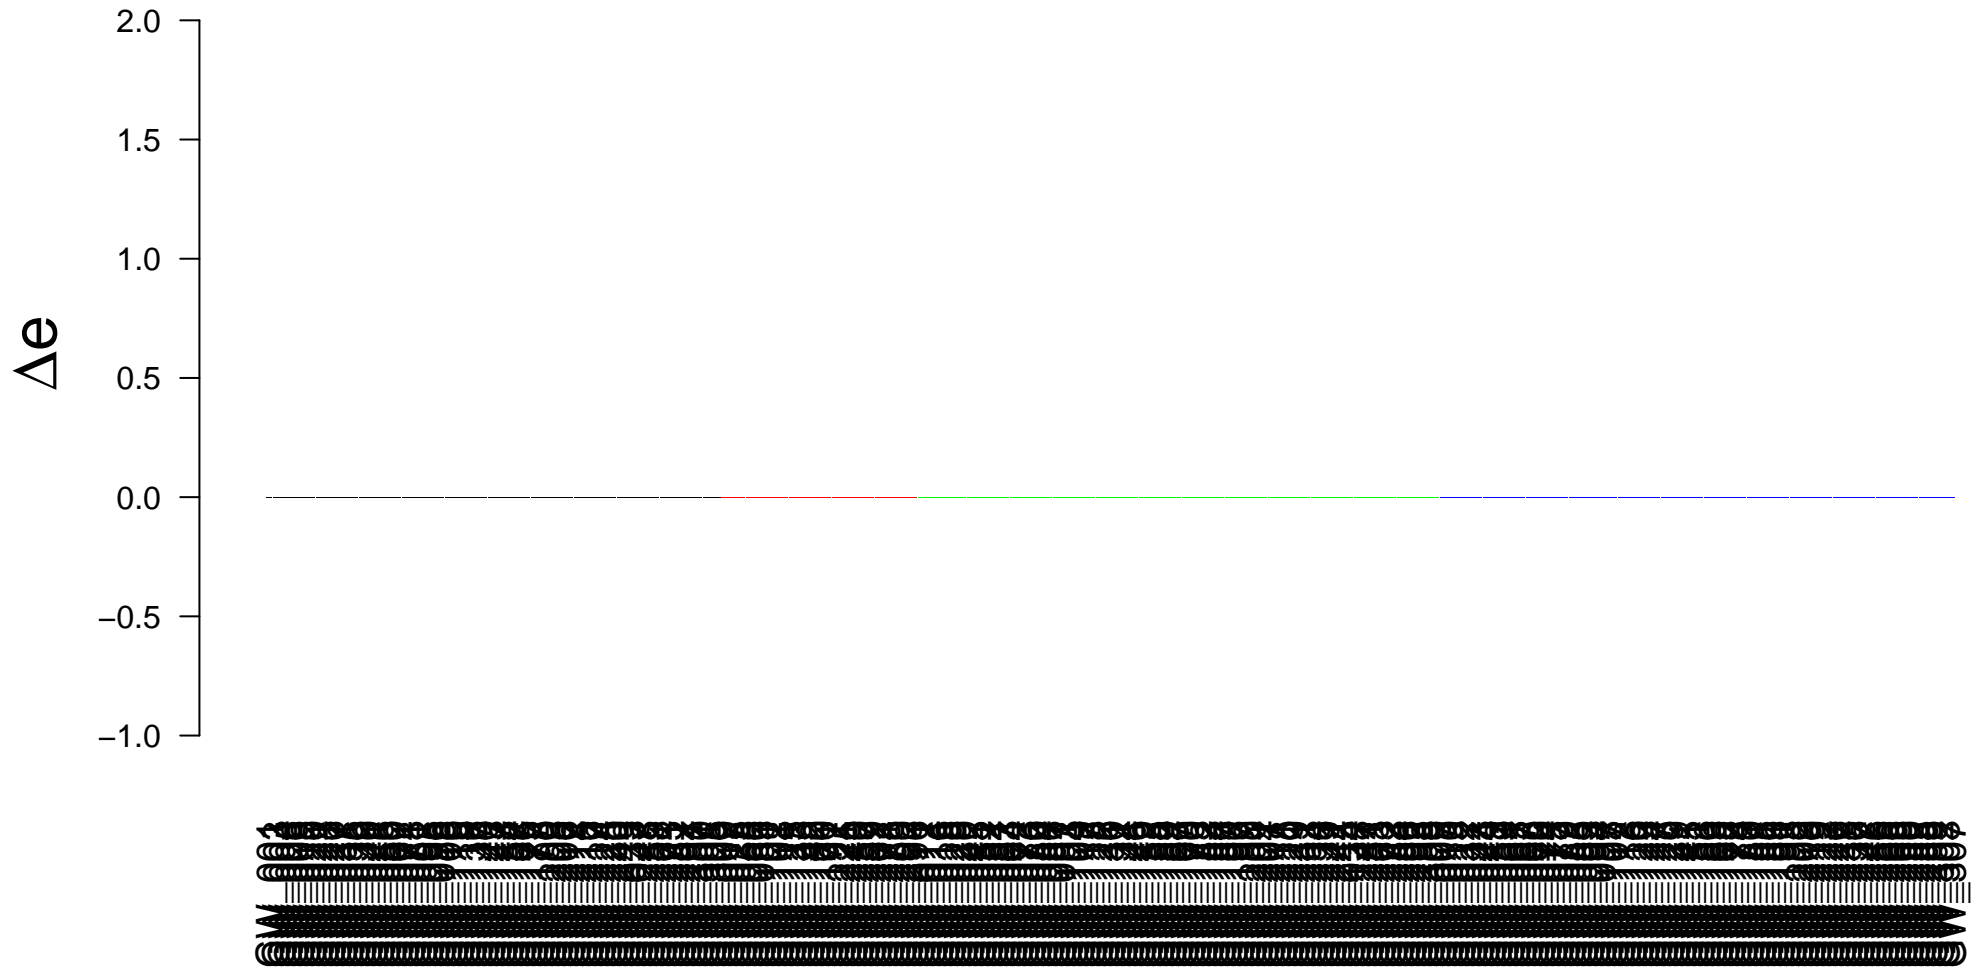

Expression of calcium-mediated signaling using intracellular calcium source in Spot C

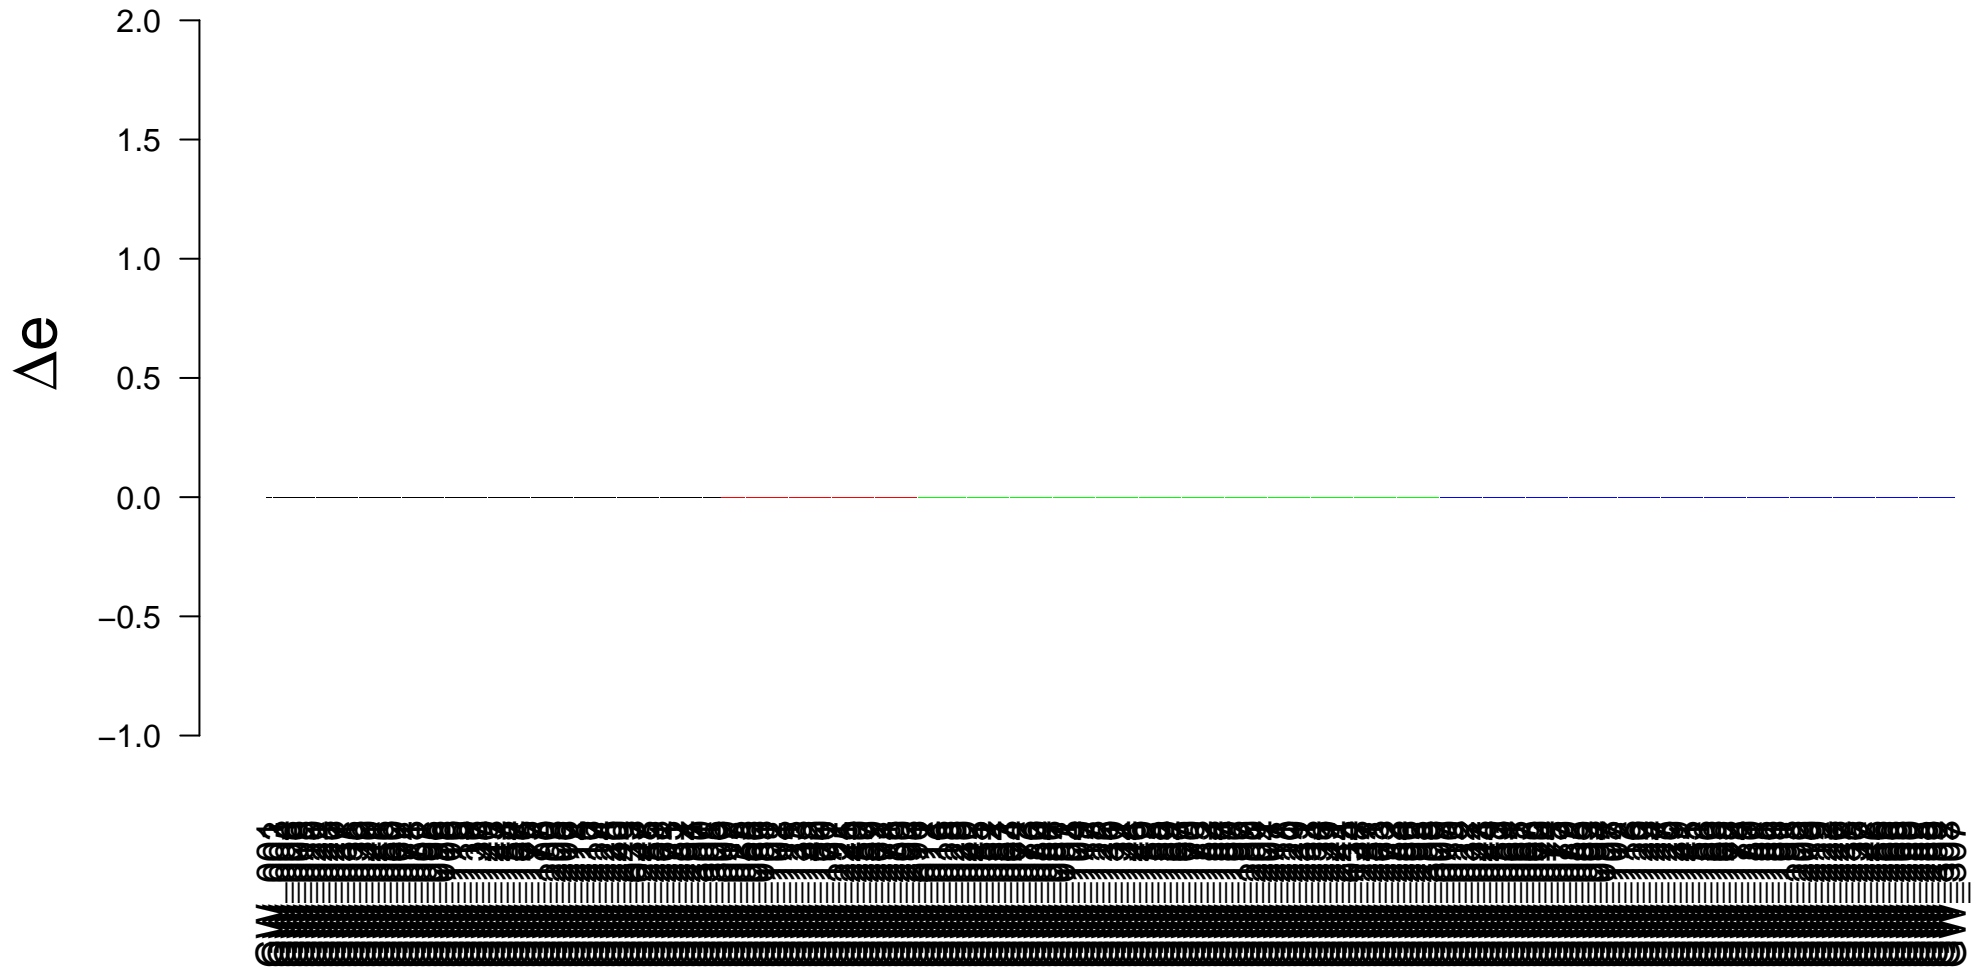

Expression of calcium-mediated signaling using intracellular calcium source in Spot D

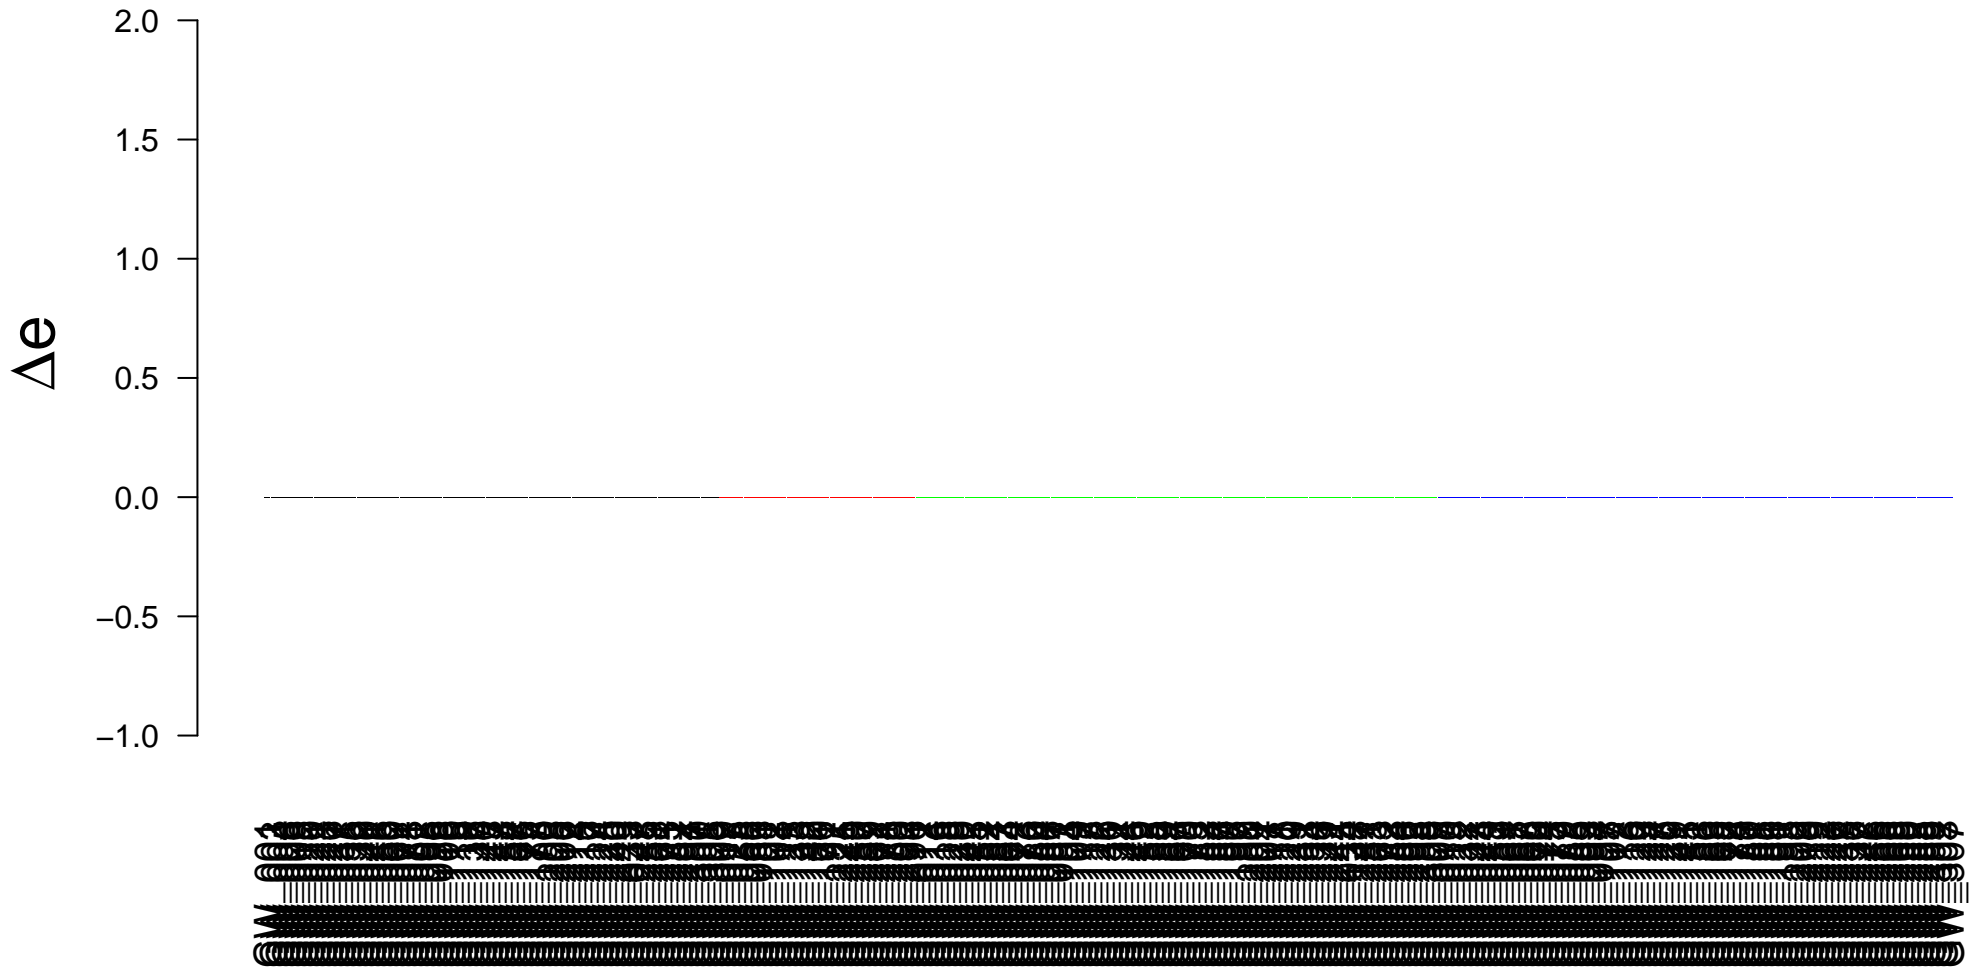

Expression of calcium-mediated signaling using intracellular calcium source in Spot E

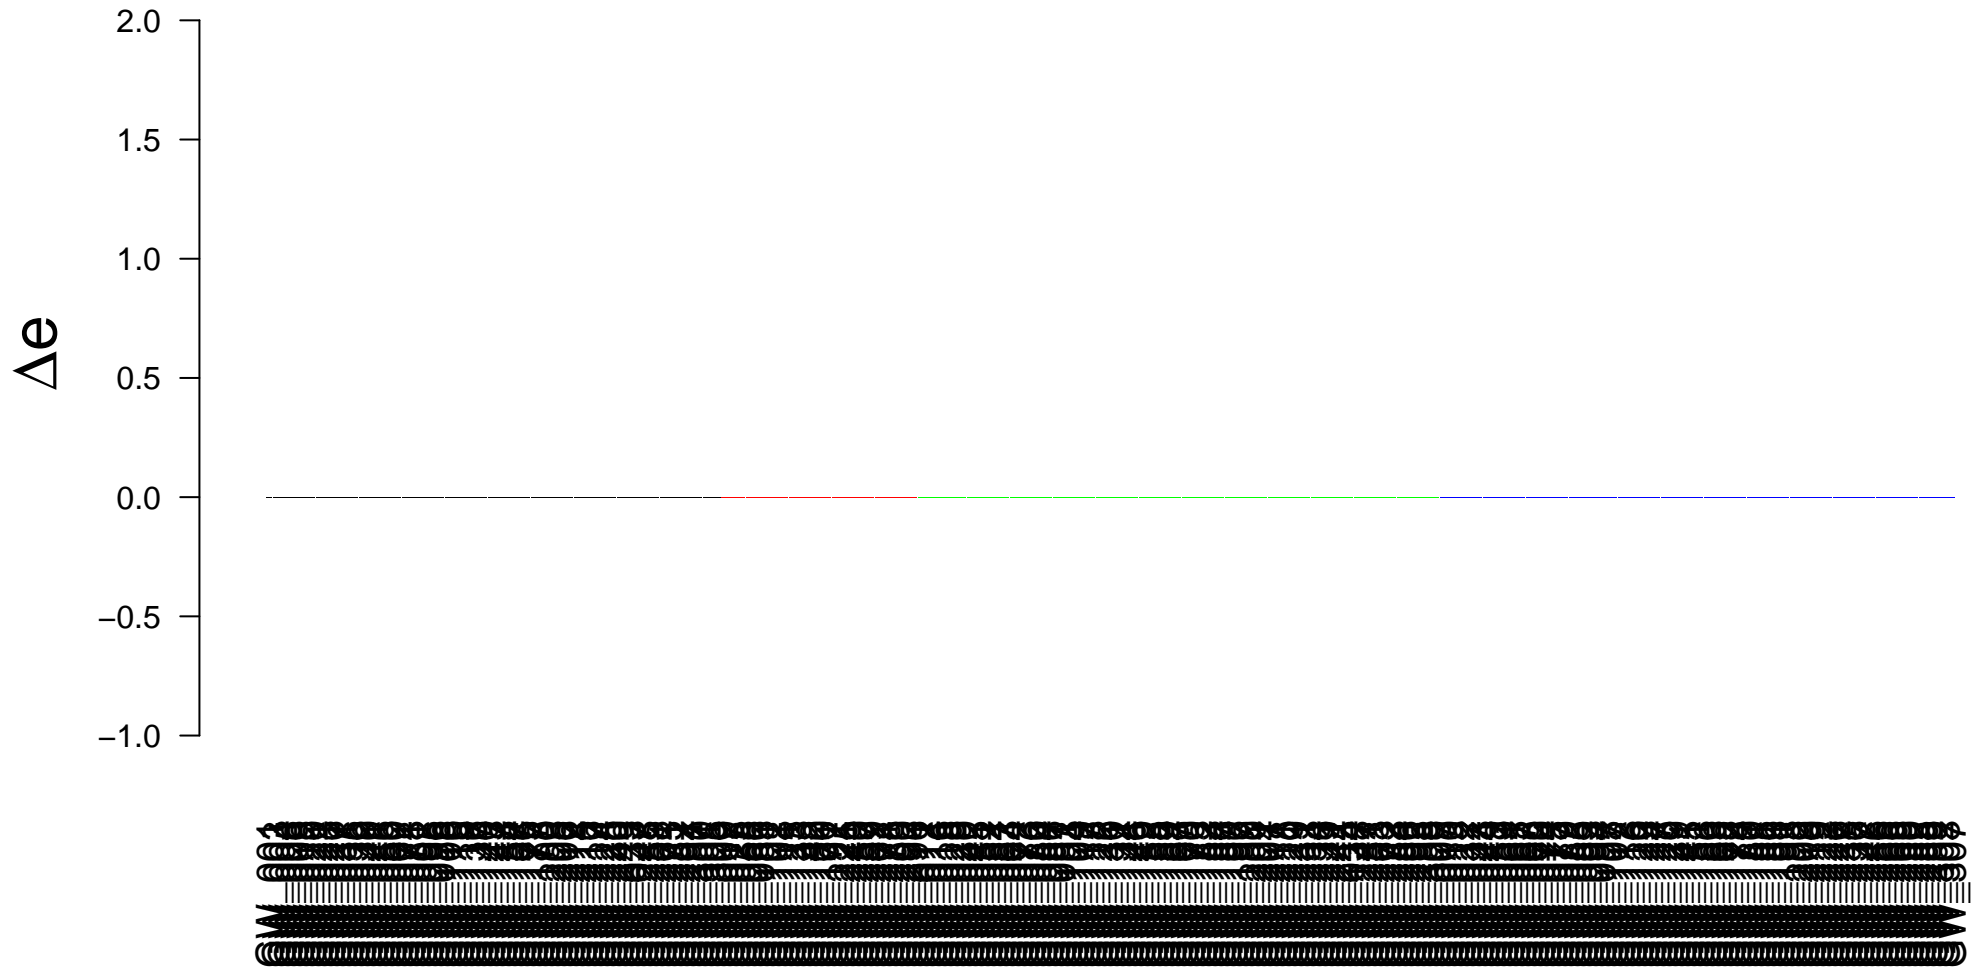

Expression of calcium-mediated signaling using intracellular calcium source in Spot F

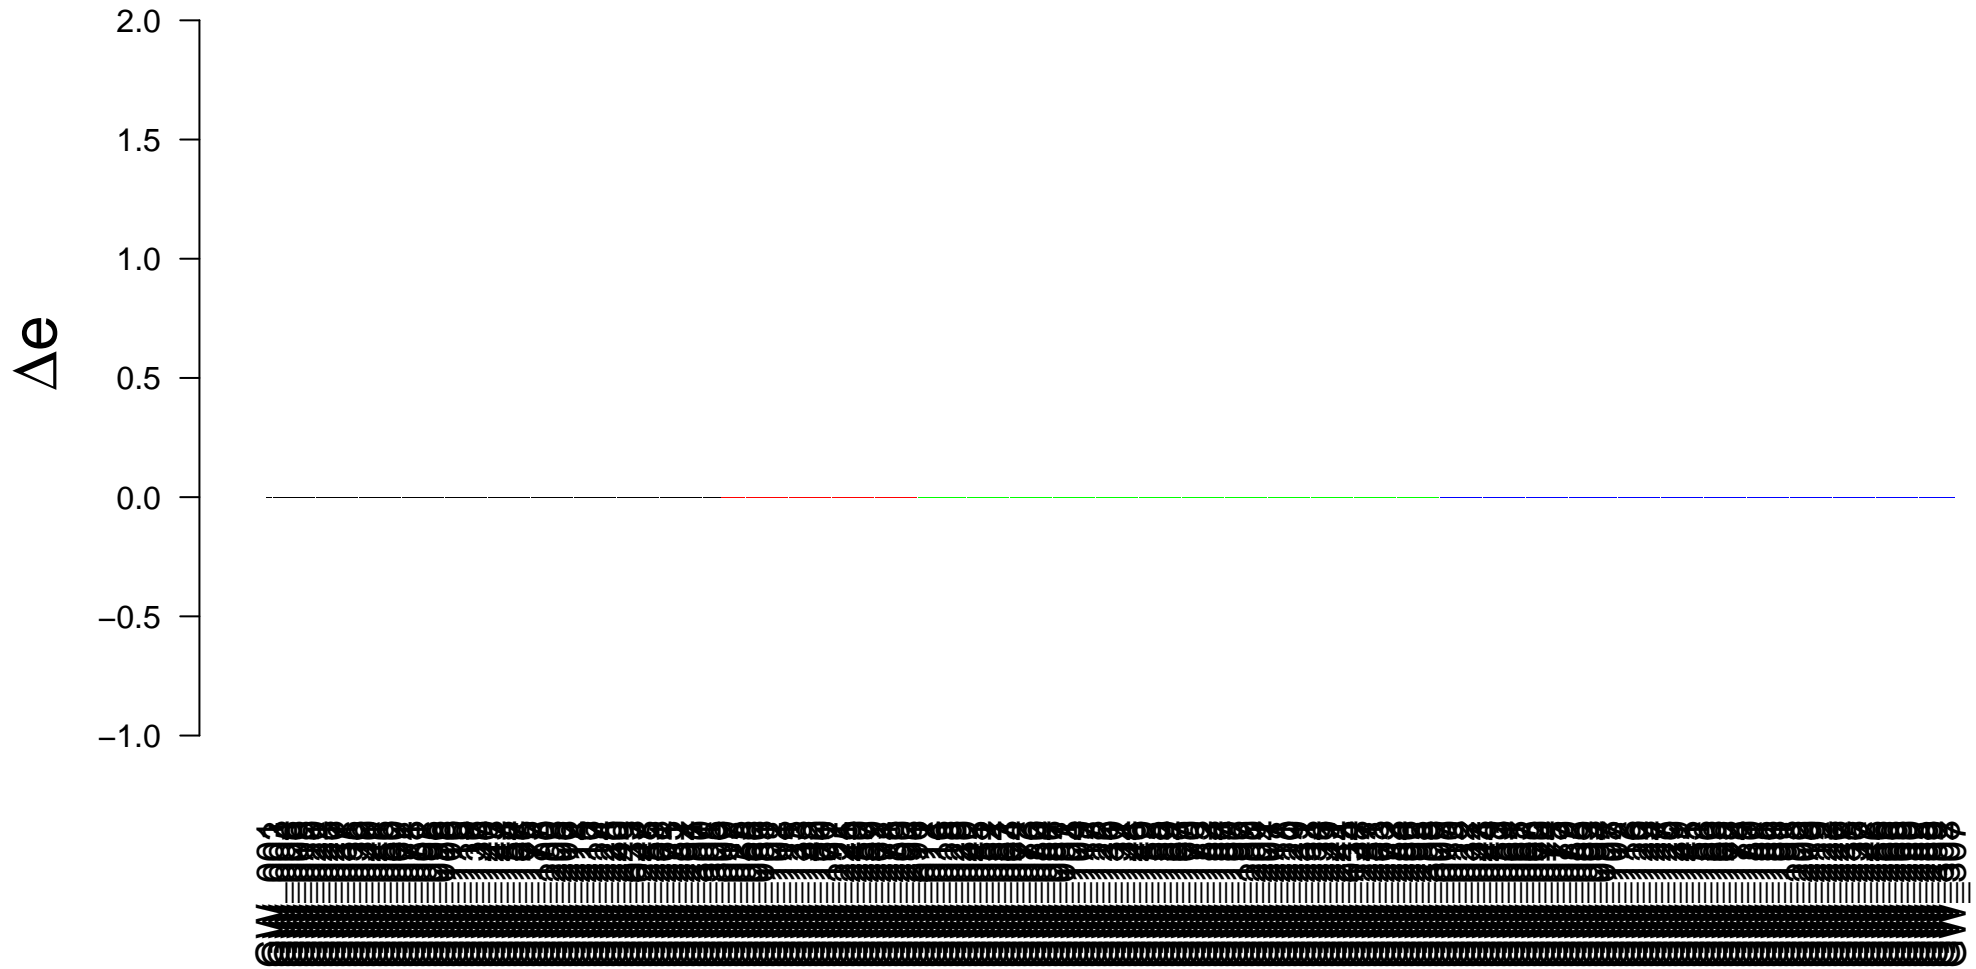

Expression of calcium-mediated signaling using intracellular calcium source in Spot G

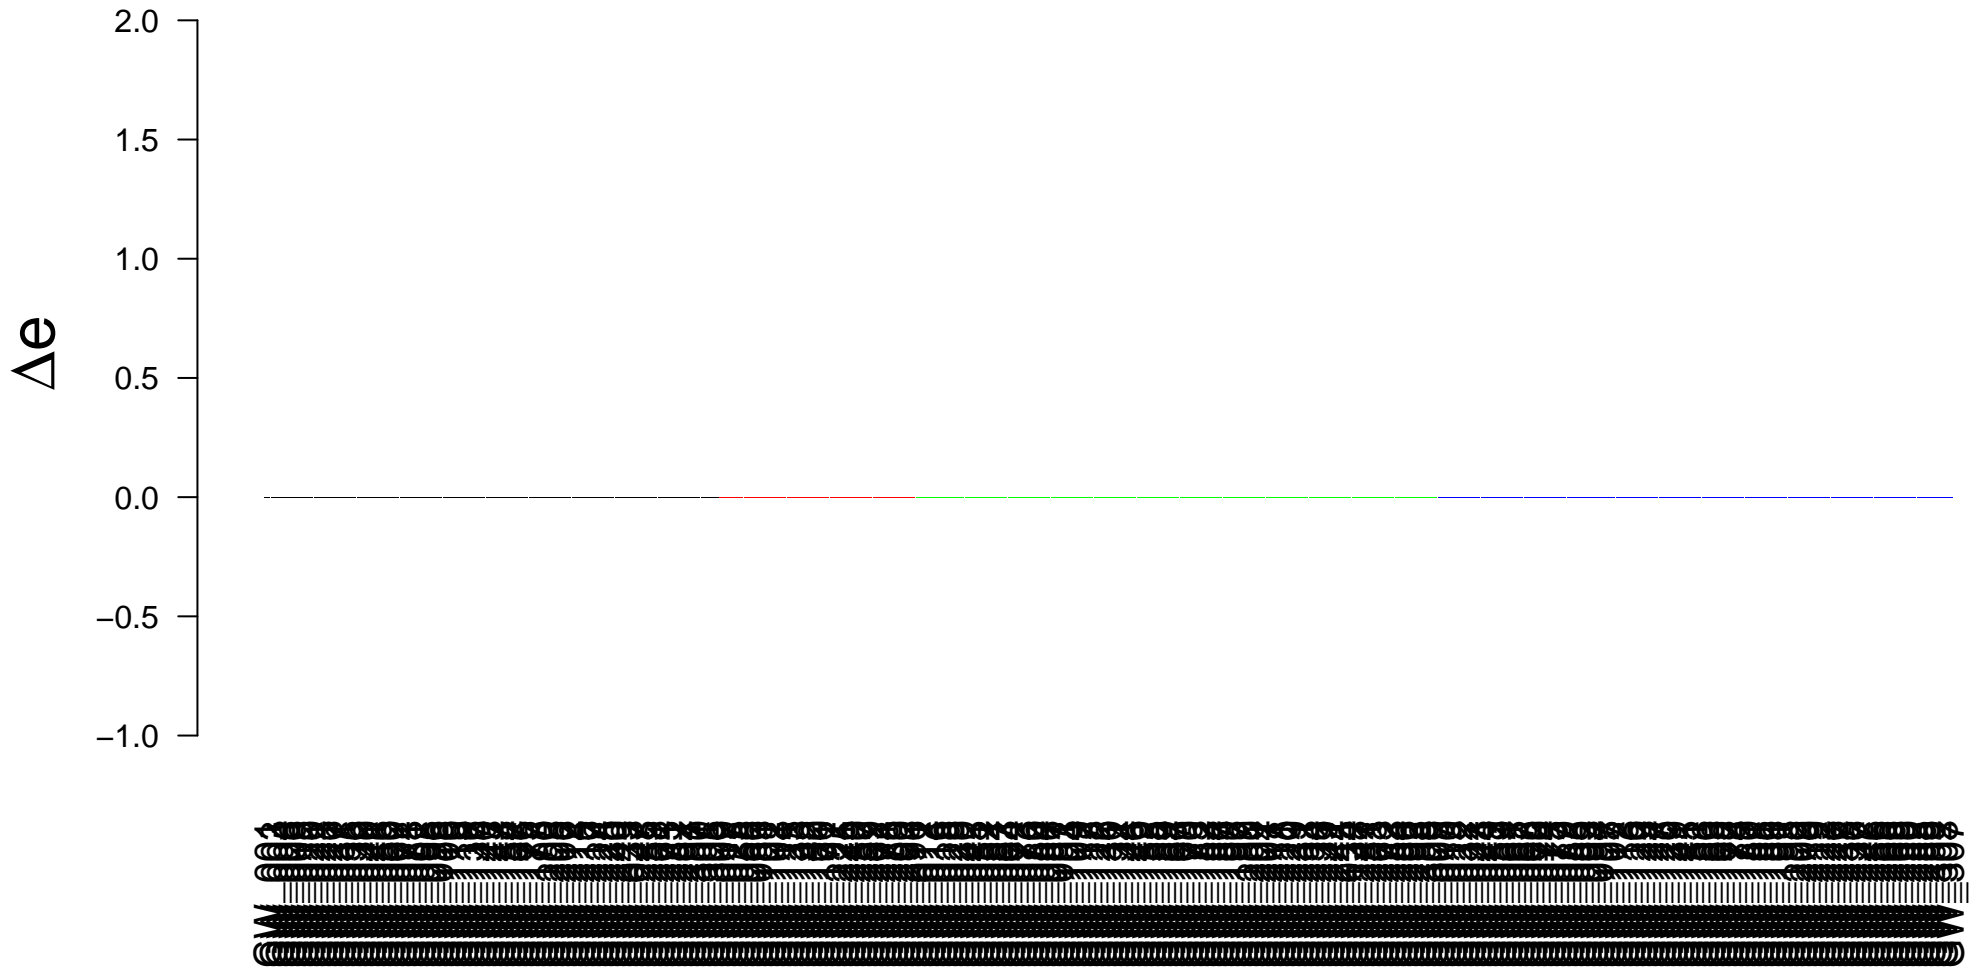

Expression of calcium-mediated signaling using intracellular calcium source in Spot H

Expression of calcium-mediated signaling using intracellular calcium source in Spot I

Expression of calcium-mediated signaling using intracellular calcium source in Spot J

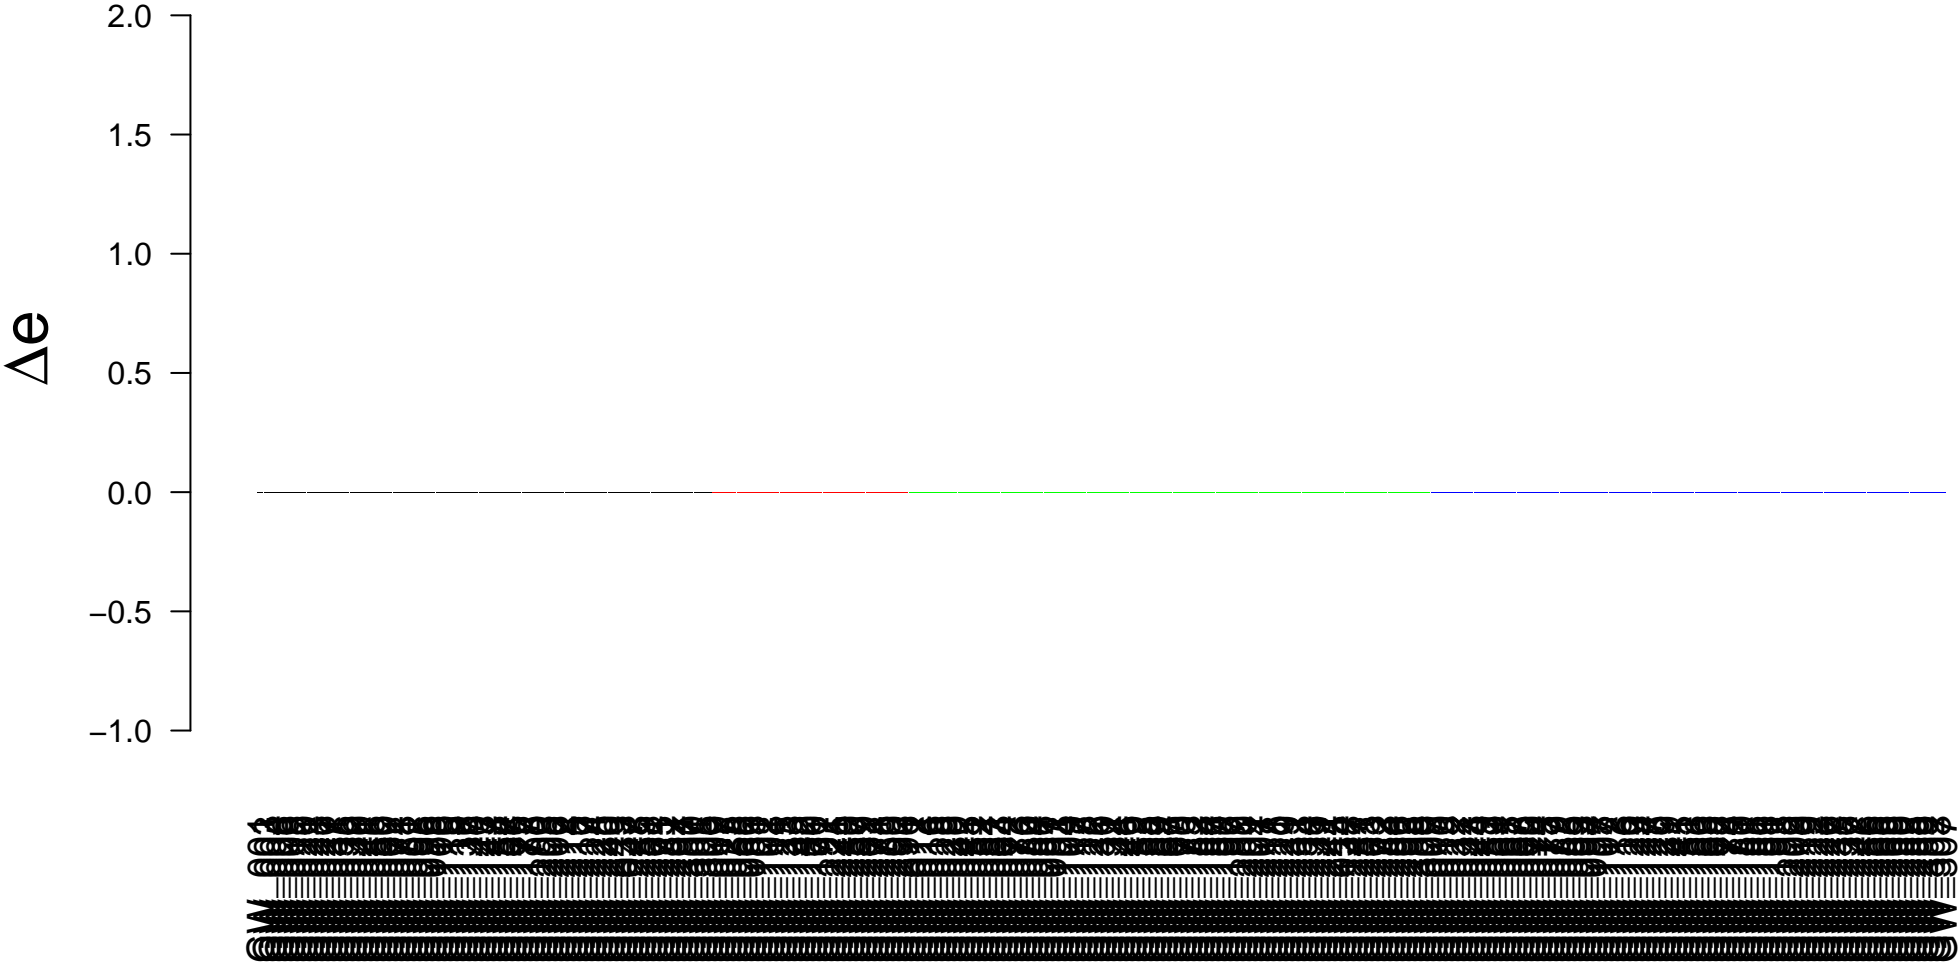

Expression of calcium-mediated signaling using intracellular calcium source in Spot K

Expression of calcium-mediated signaling using intracellular calcium source in Spot N

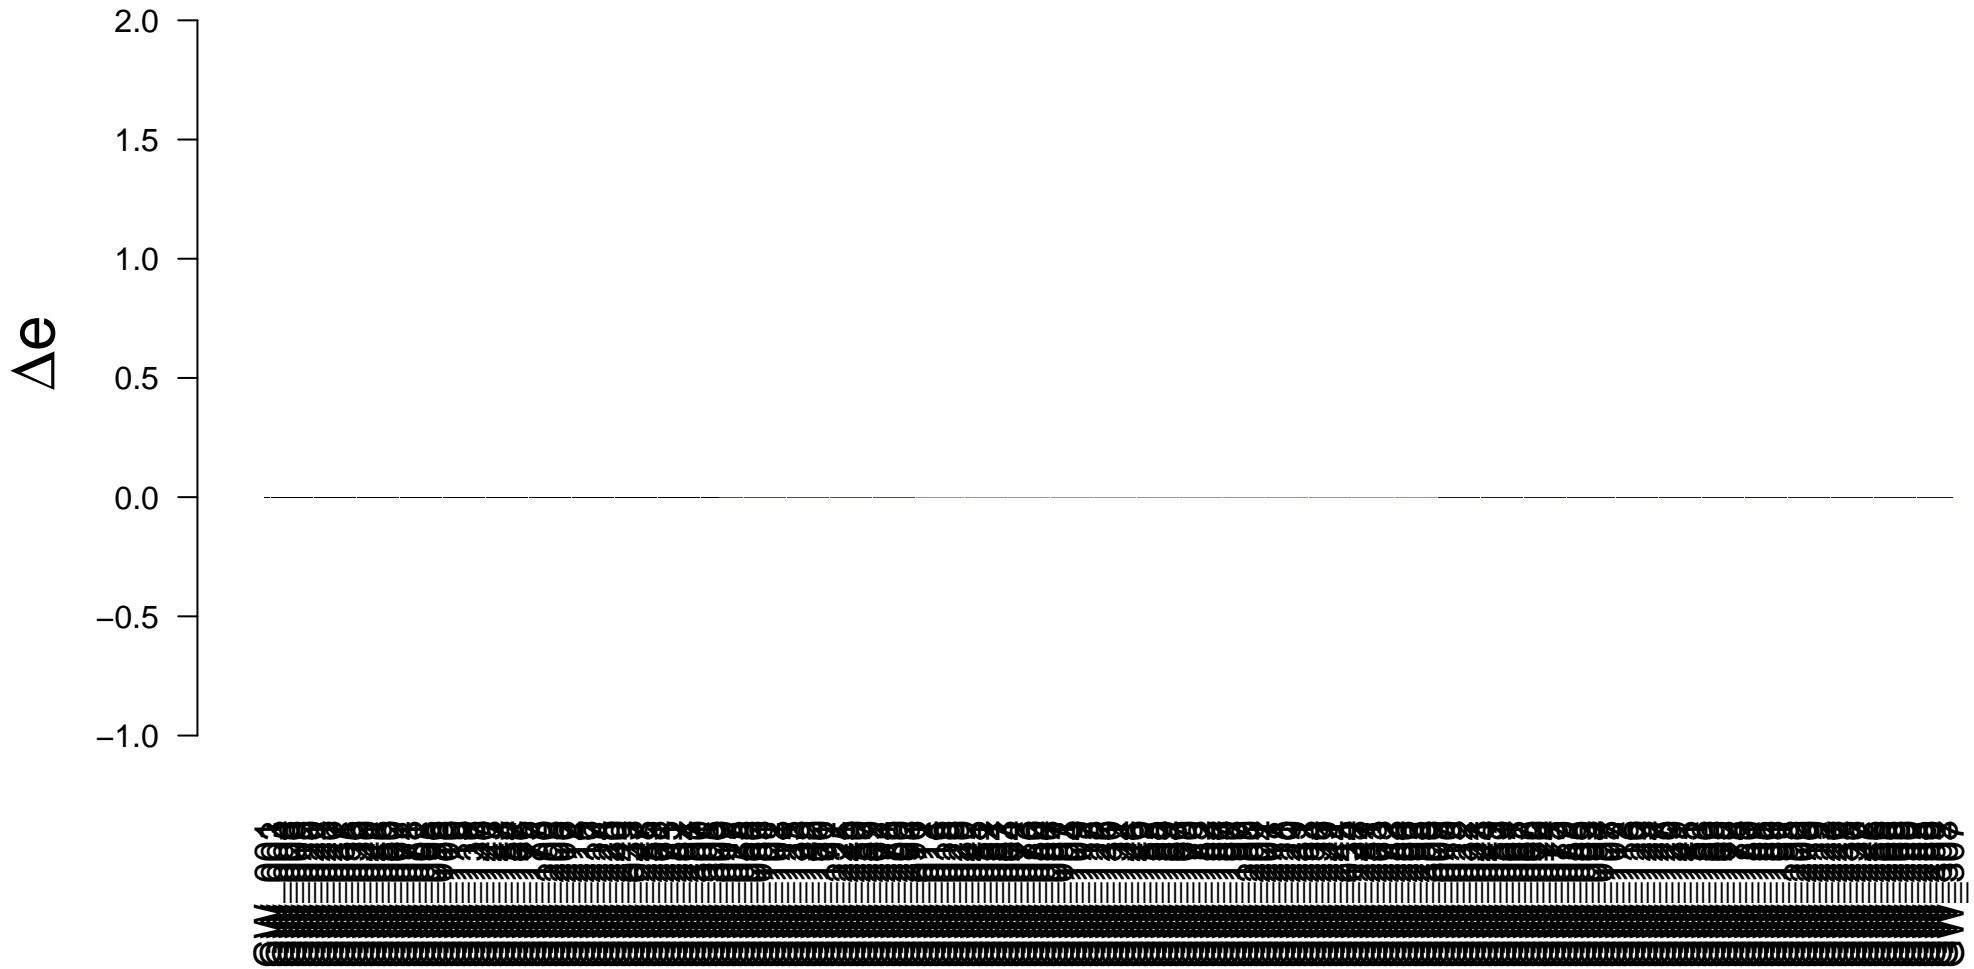

Expression of calcium-mediated signaling using intracellular calcium source in Spot O

Expression of calcium-mediated signaling using intracellular calcium source in Spot P

Expression of calcium-mediated signaling using intracellular calcium source in Spot Q

Expression of calcium-mediated signaling using intracellular calcium source in Spot R
