

cellular component disassembly involved in execution phase of apoptosis

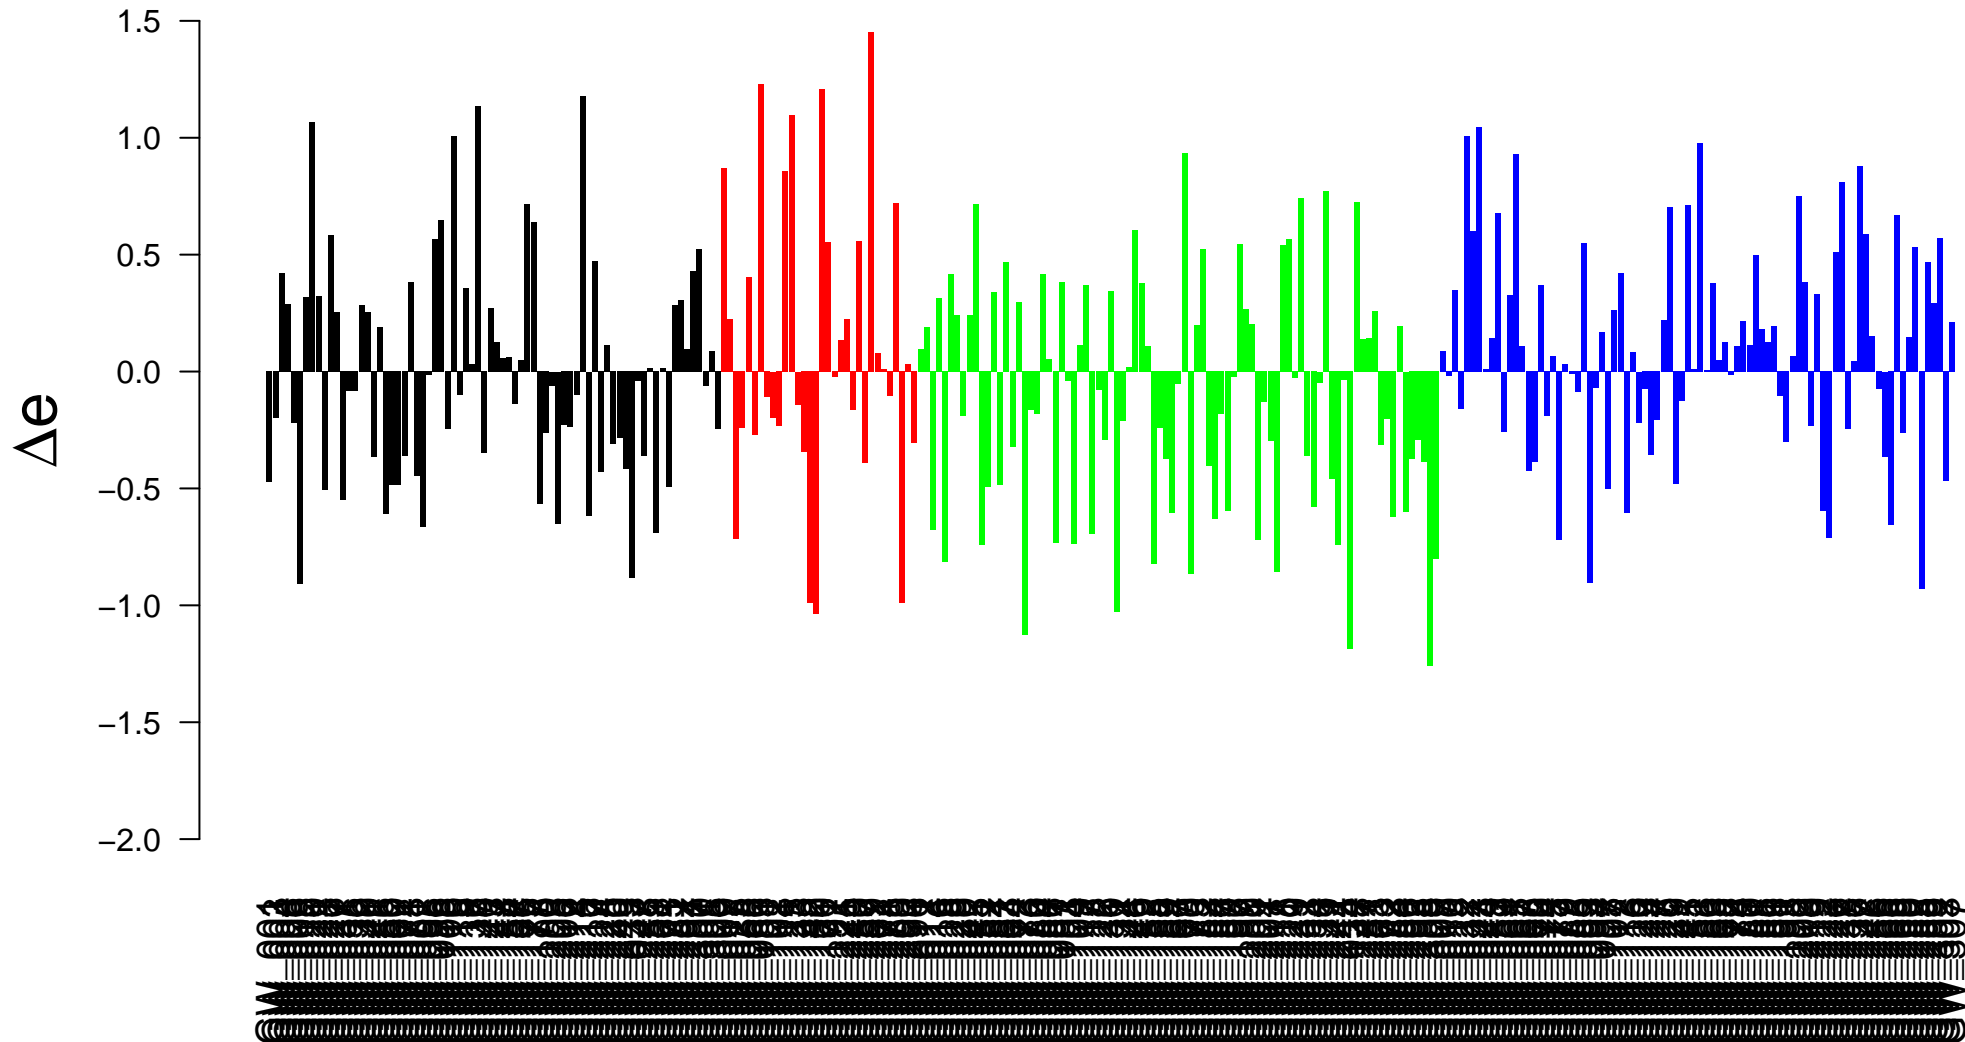

cellular component disassembly involved in execution phase of apoptosis

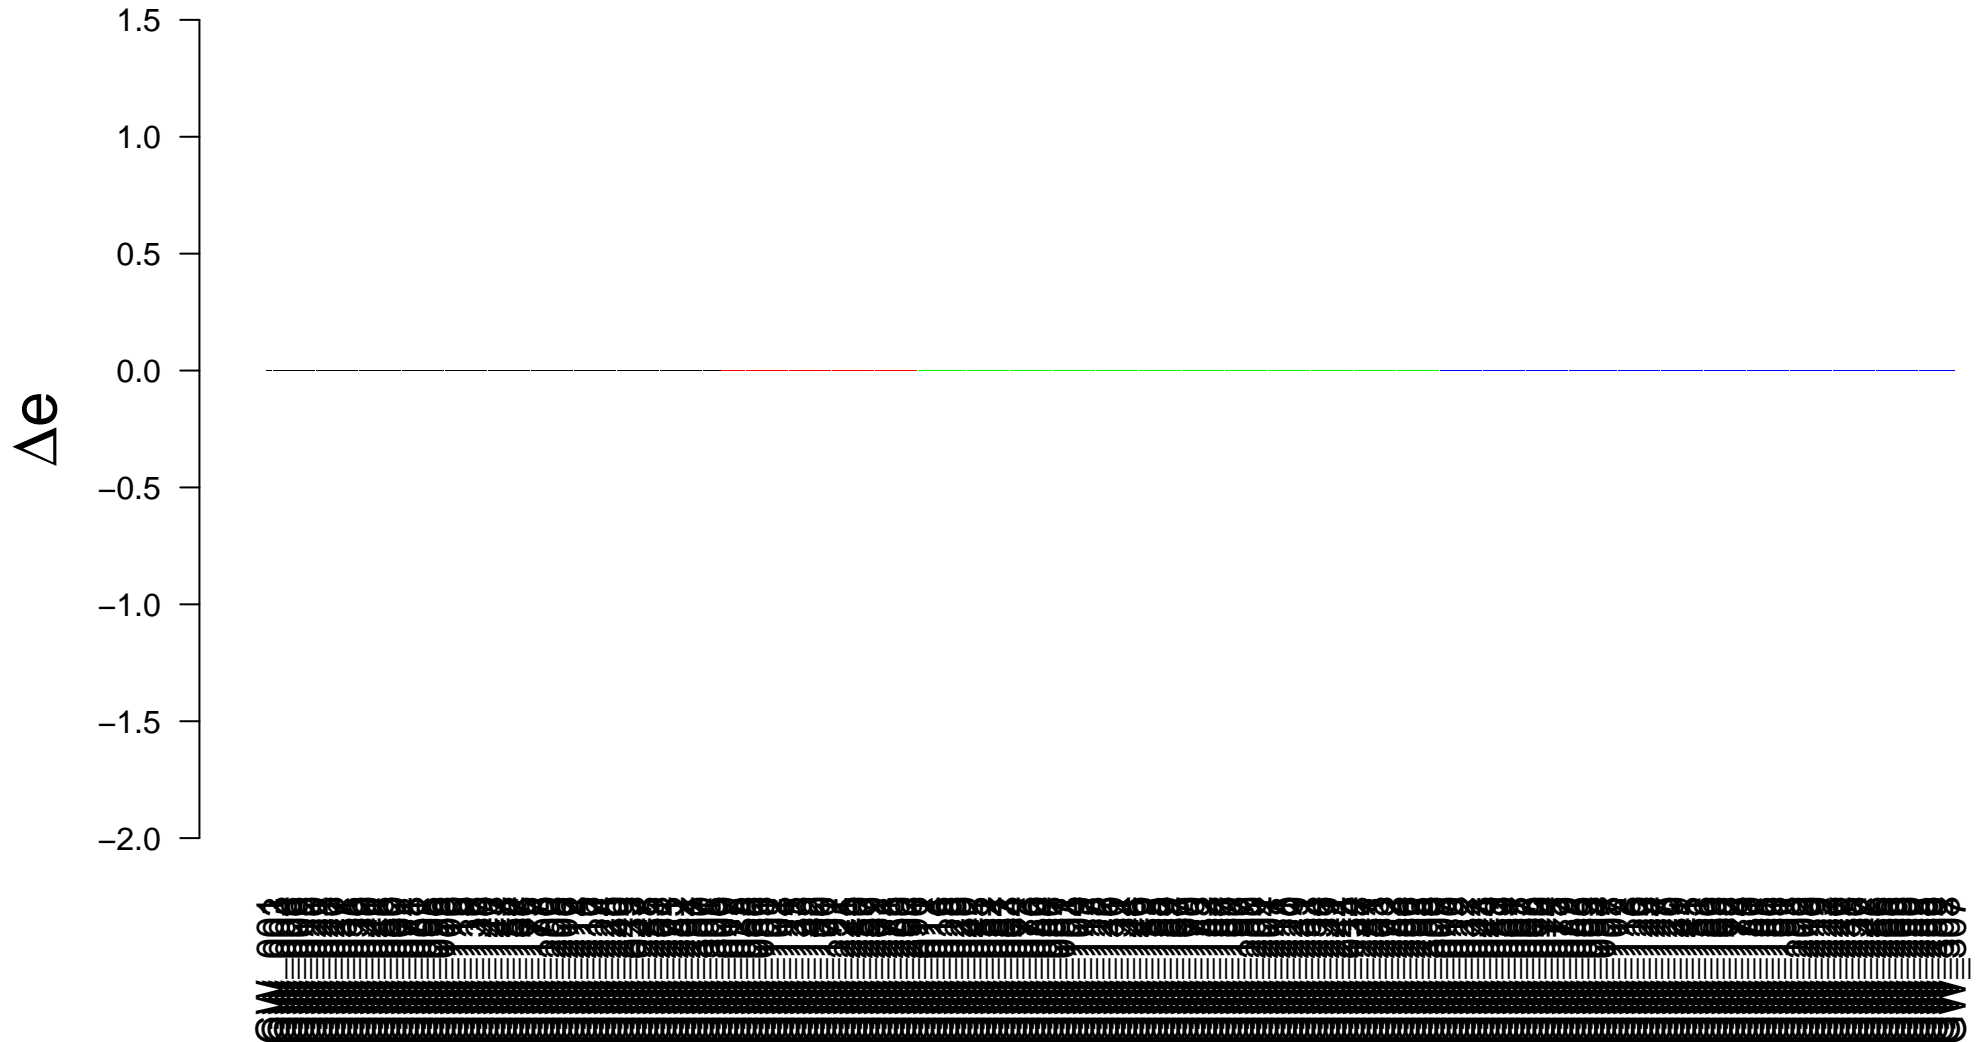

Enrichment in spots: cellular component disassembly involved in execution phase of apoptosis

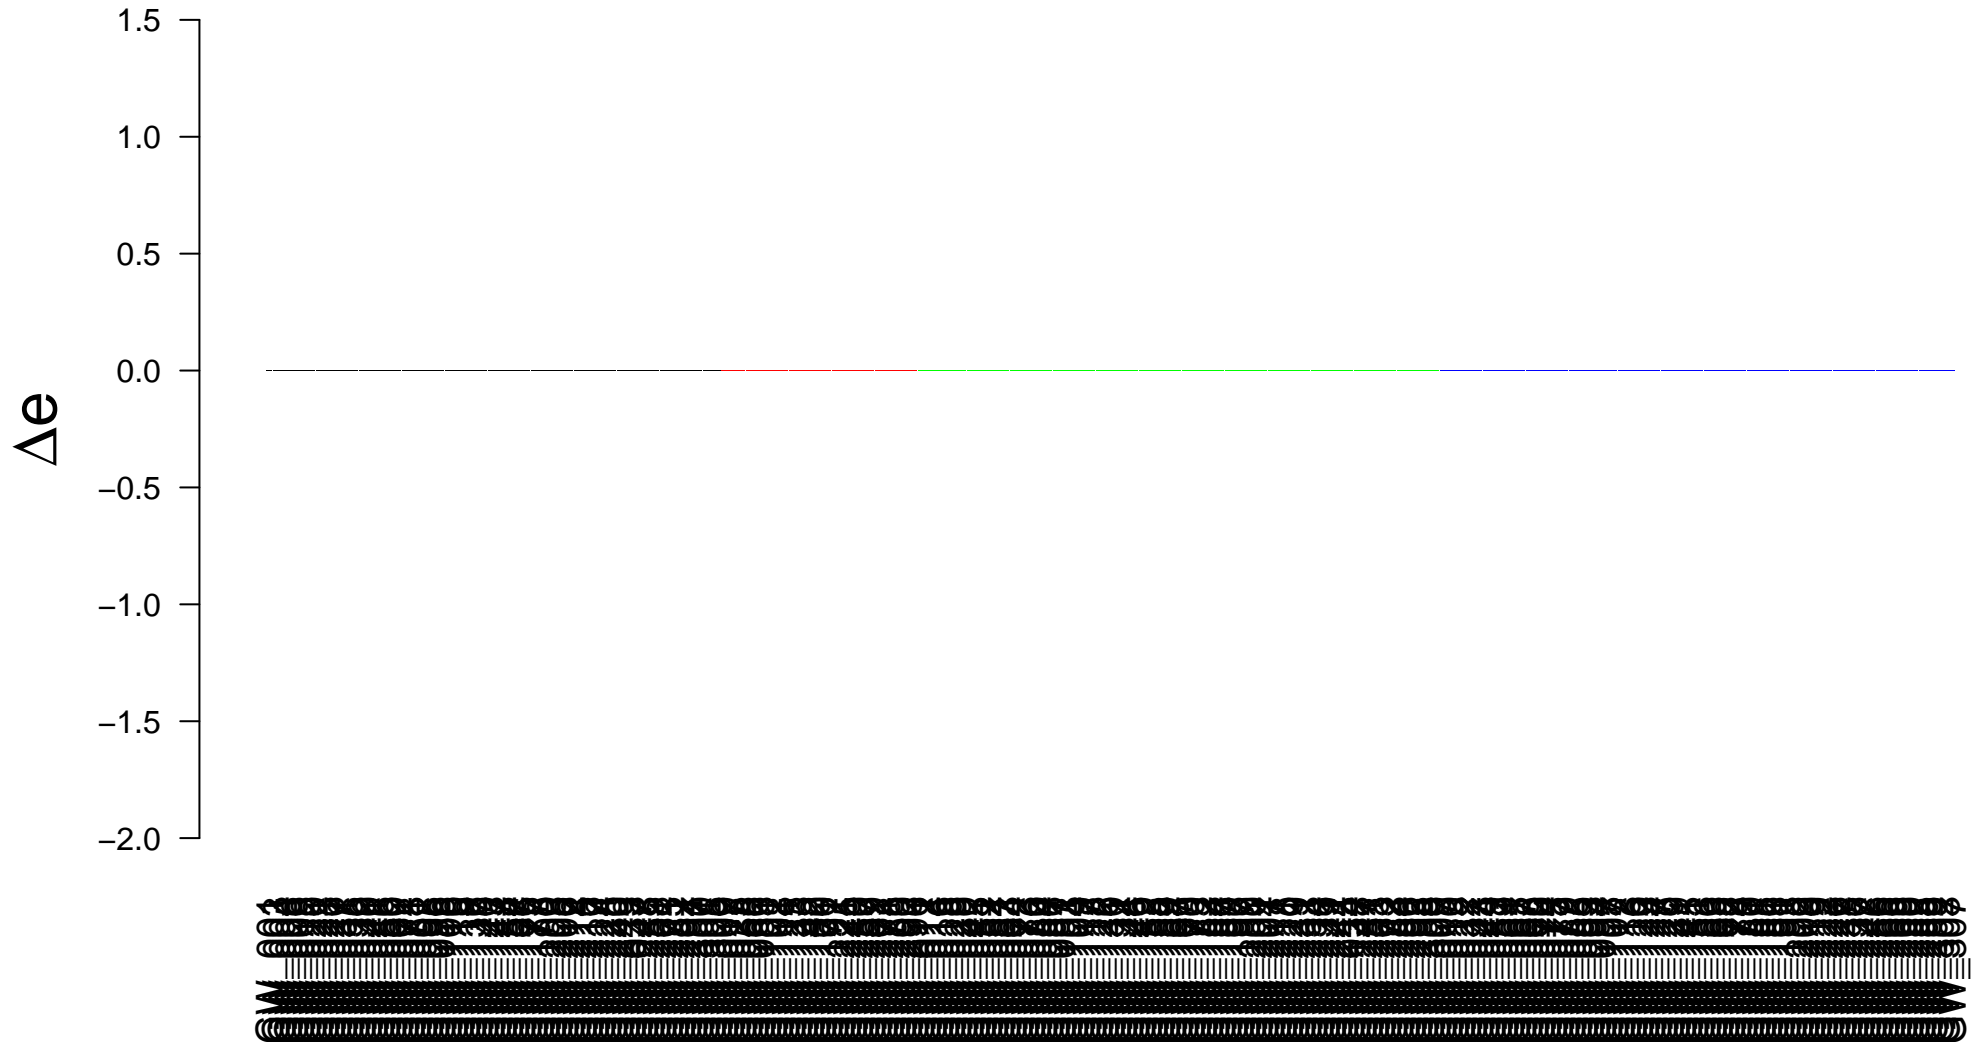

Expression of cellular component disassembly involved in execution phase of apoptosis in Spot A

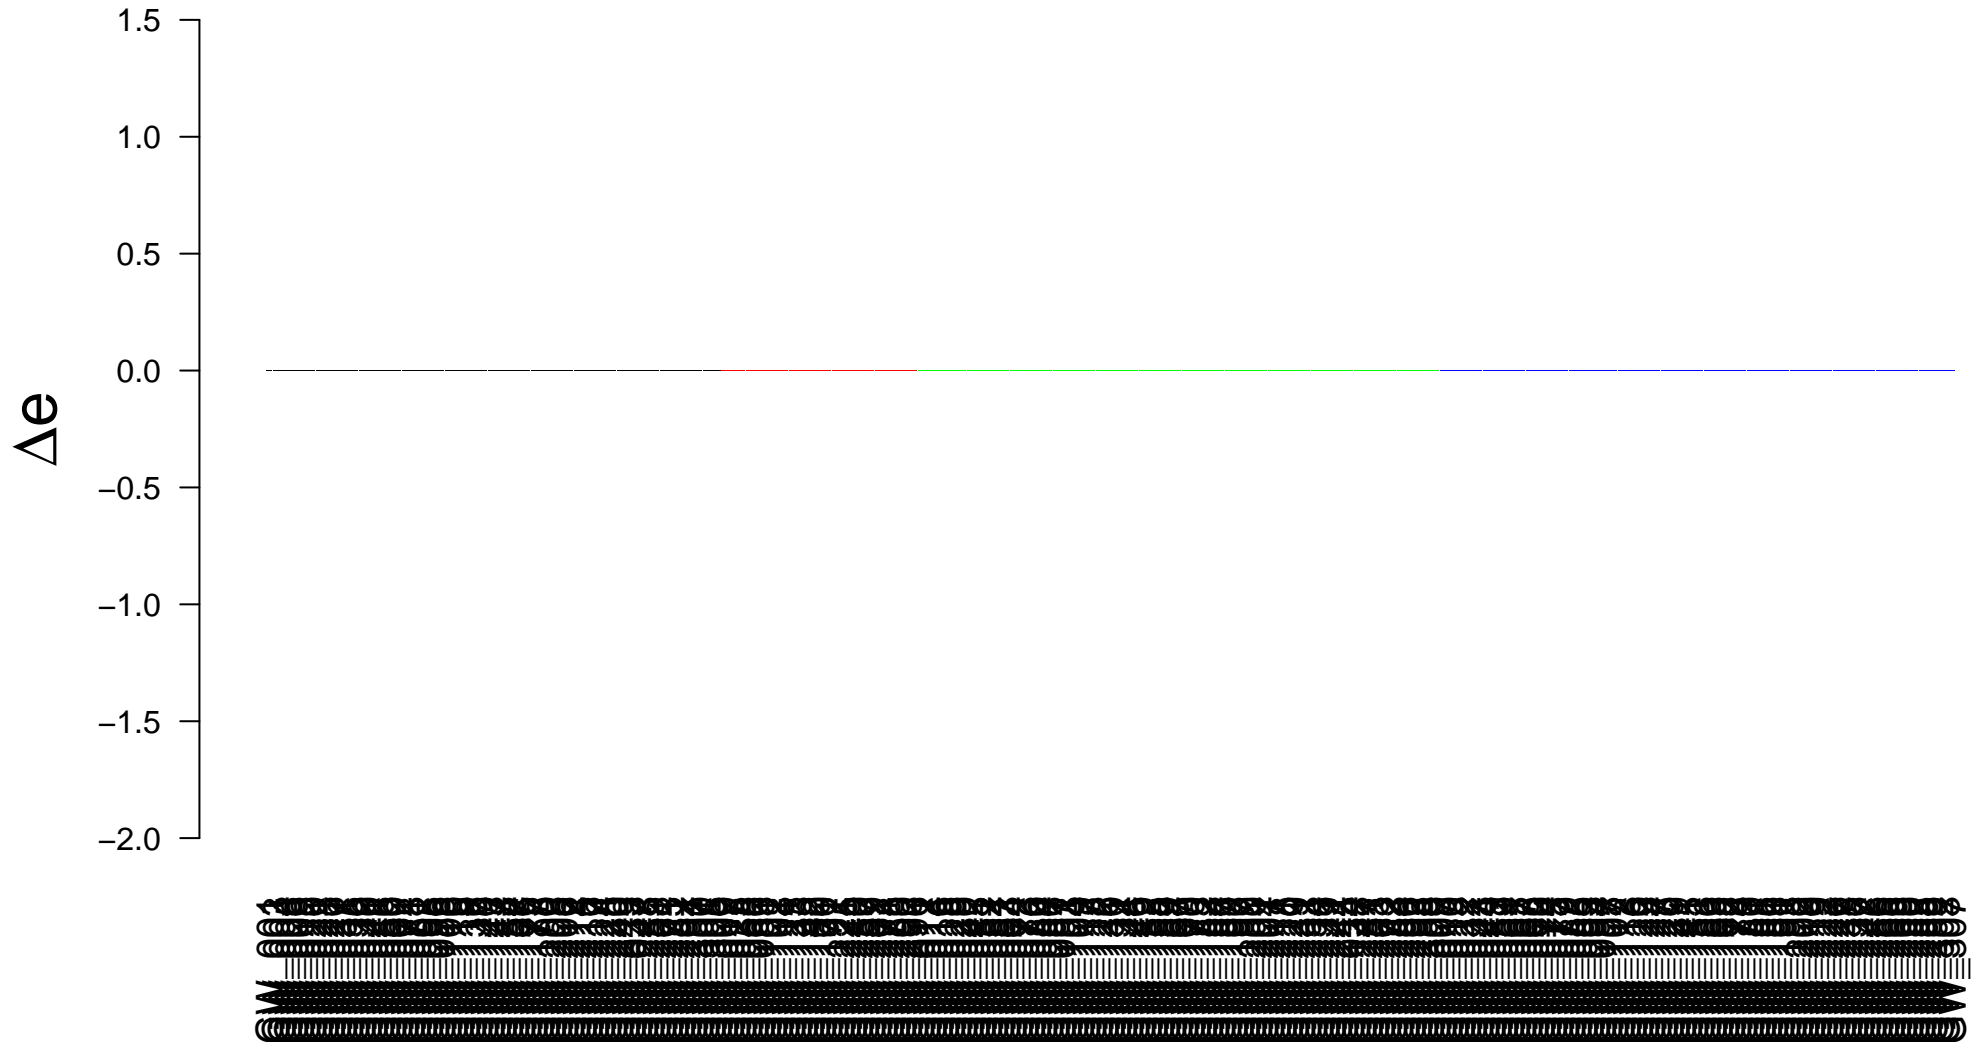

Expression of cellular component disassembly involved in execution phase of apoptosis in Spot B

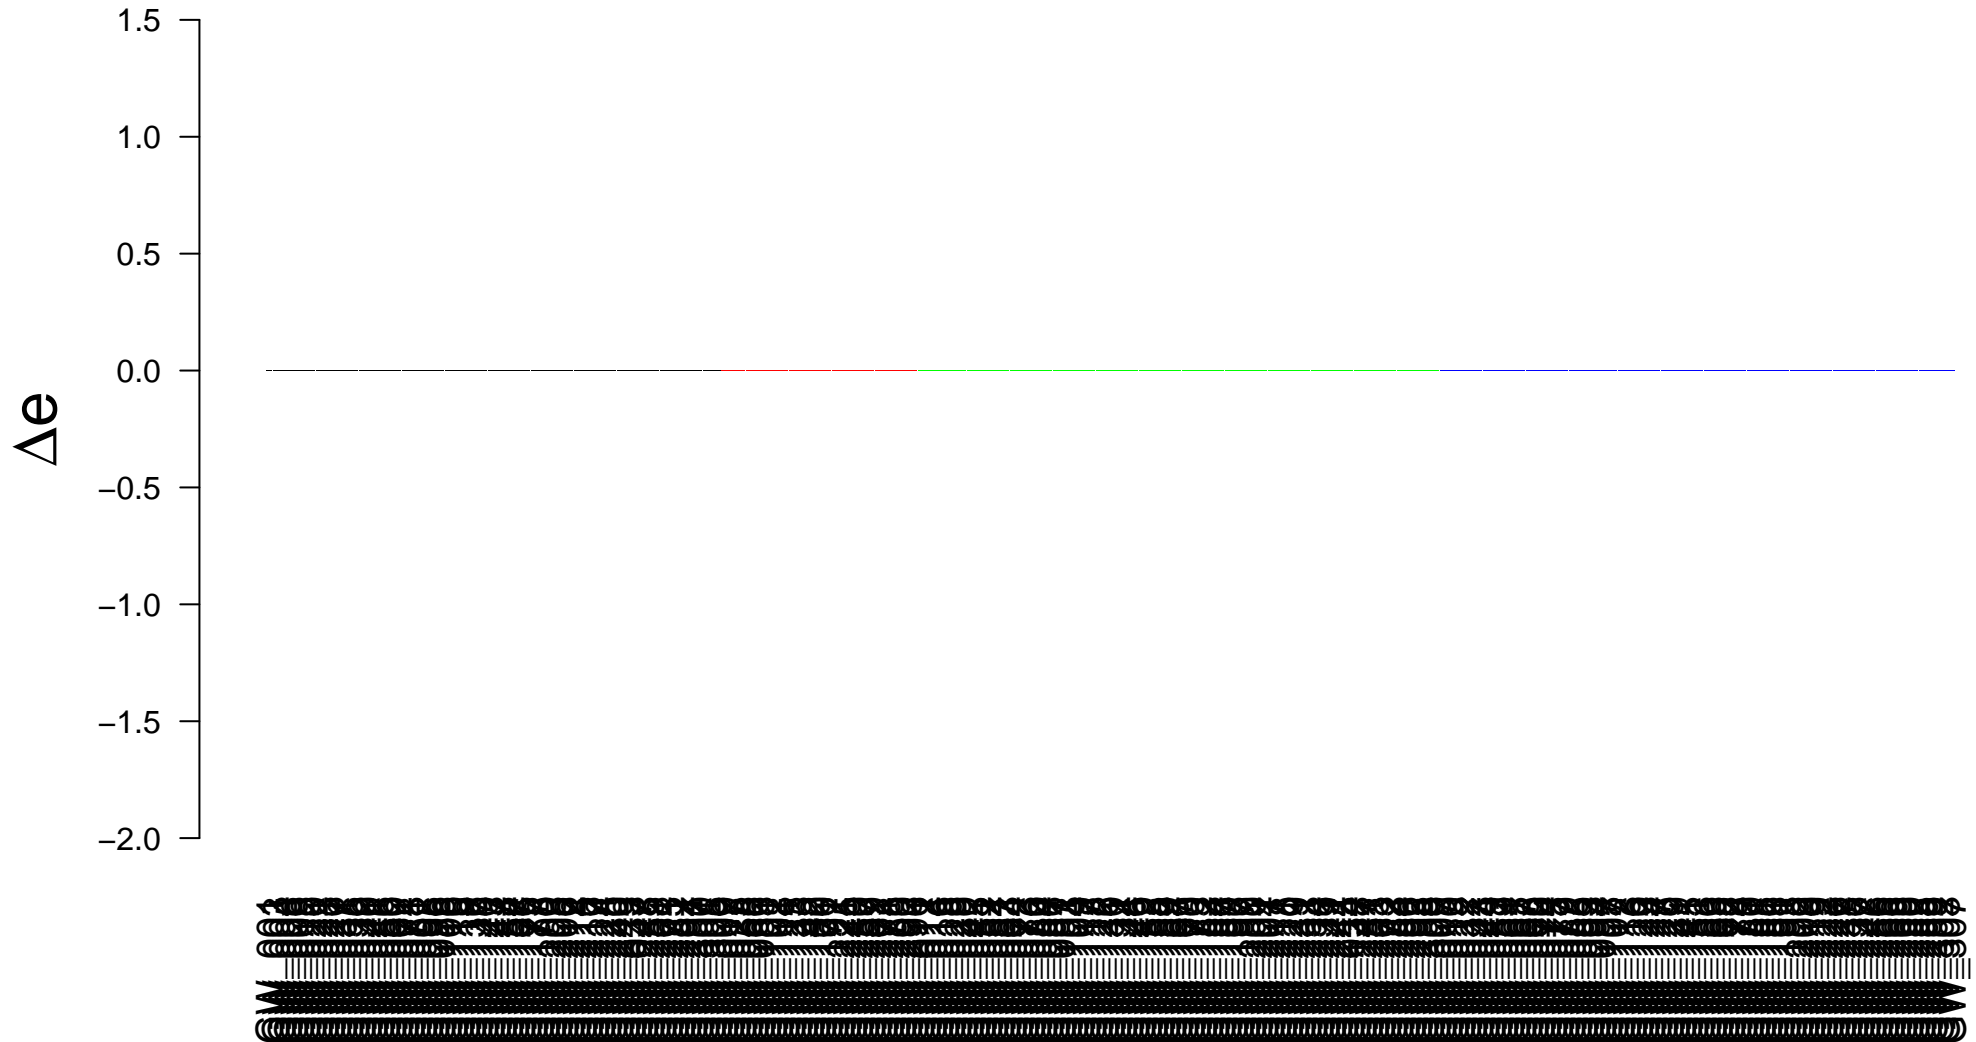

Expression of cellular component disassembly involved in execution phase of apoptosis in Spot C

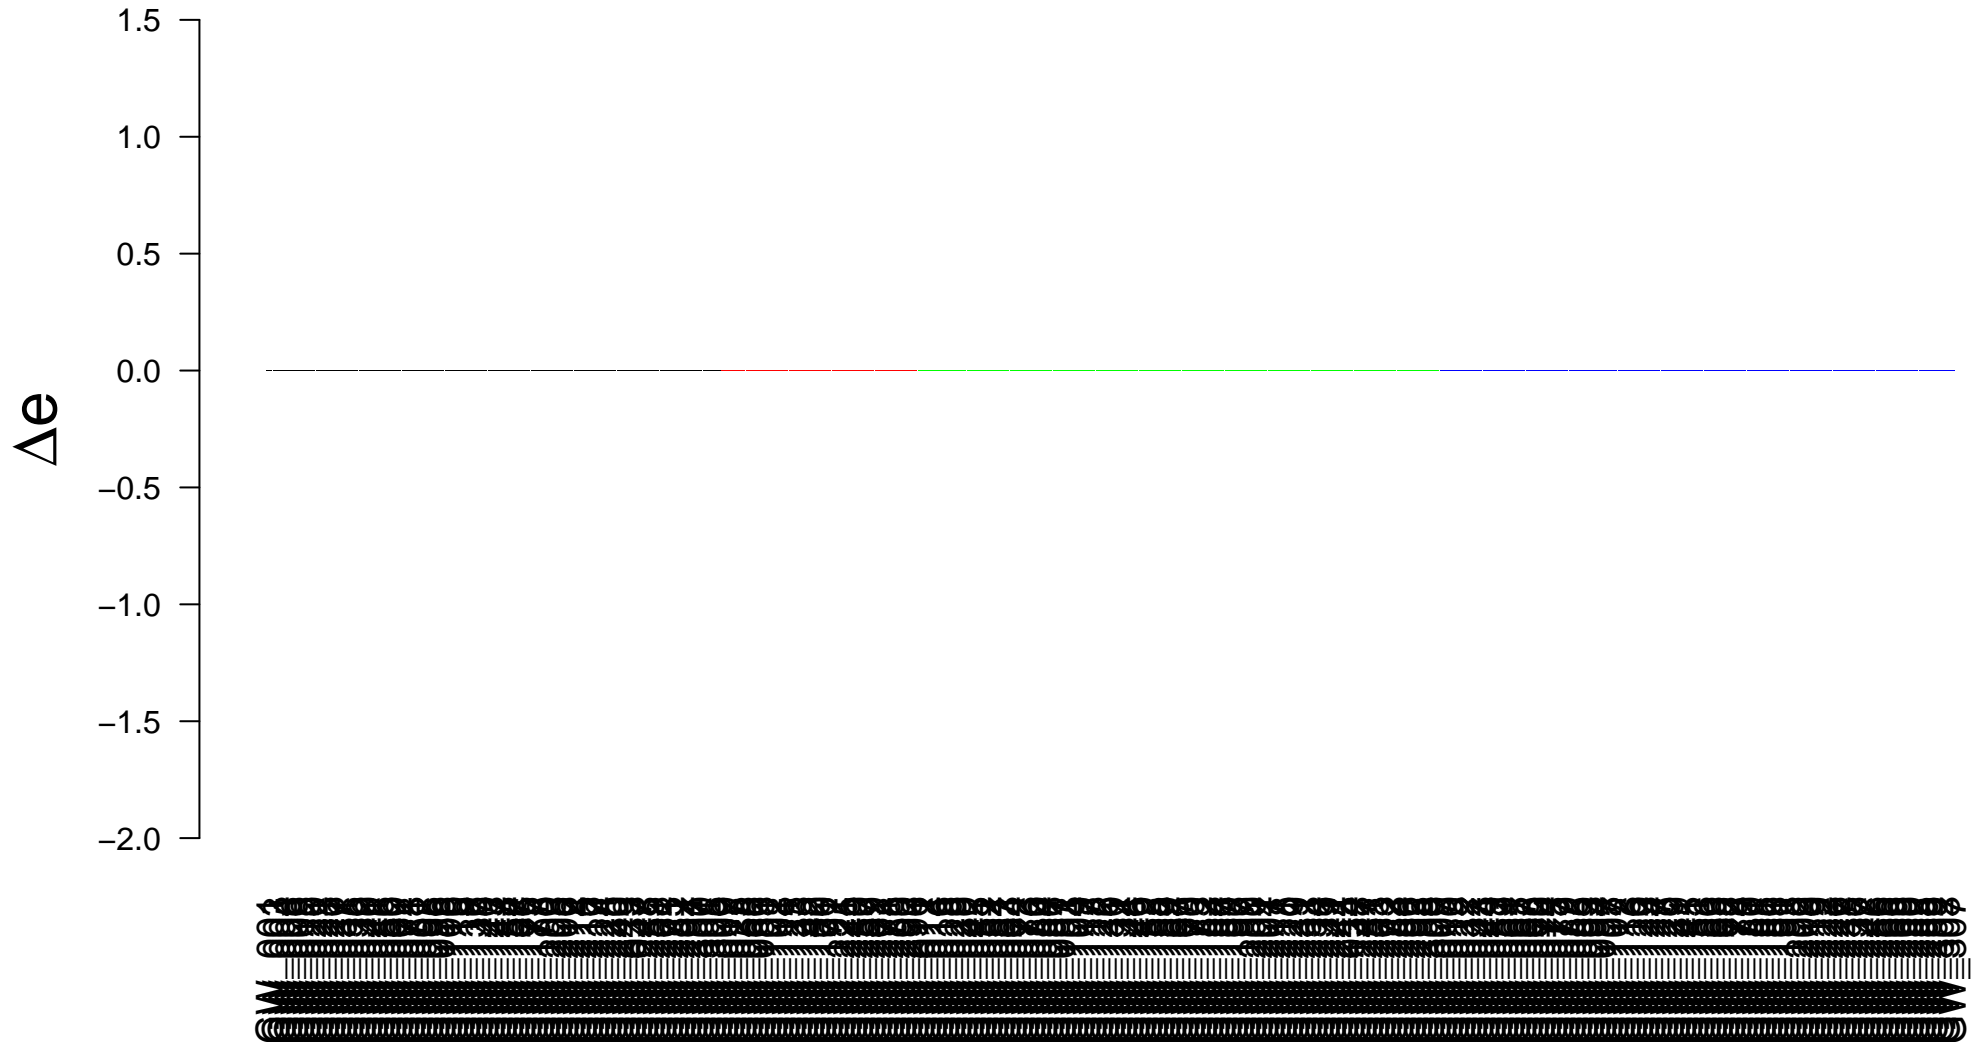

Expression of cellular component disassembly involved in execution phase of apoptosis in Spot D

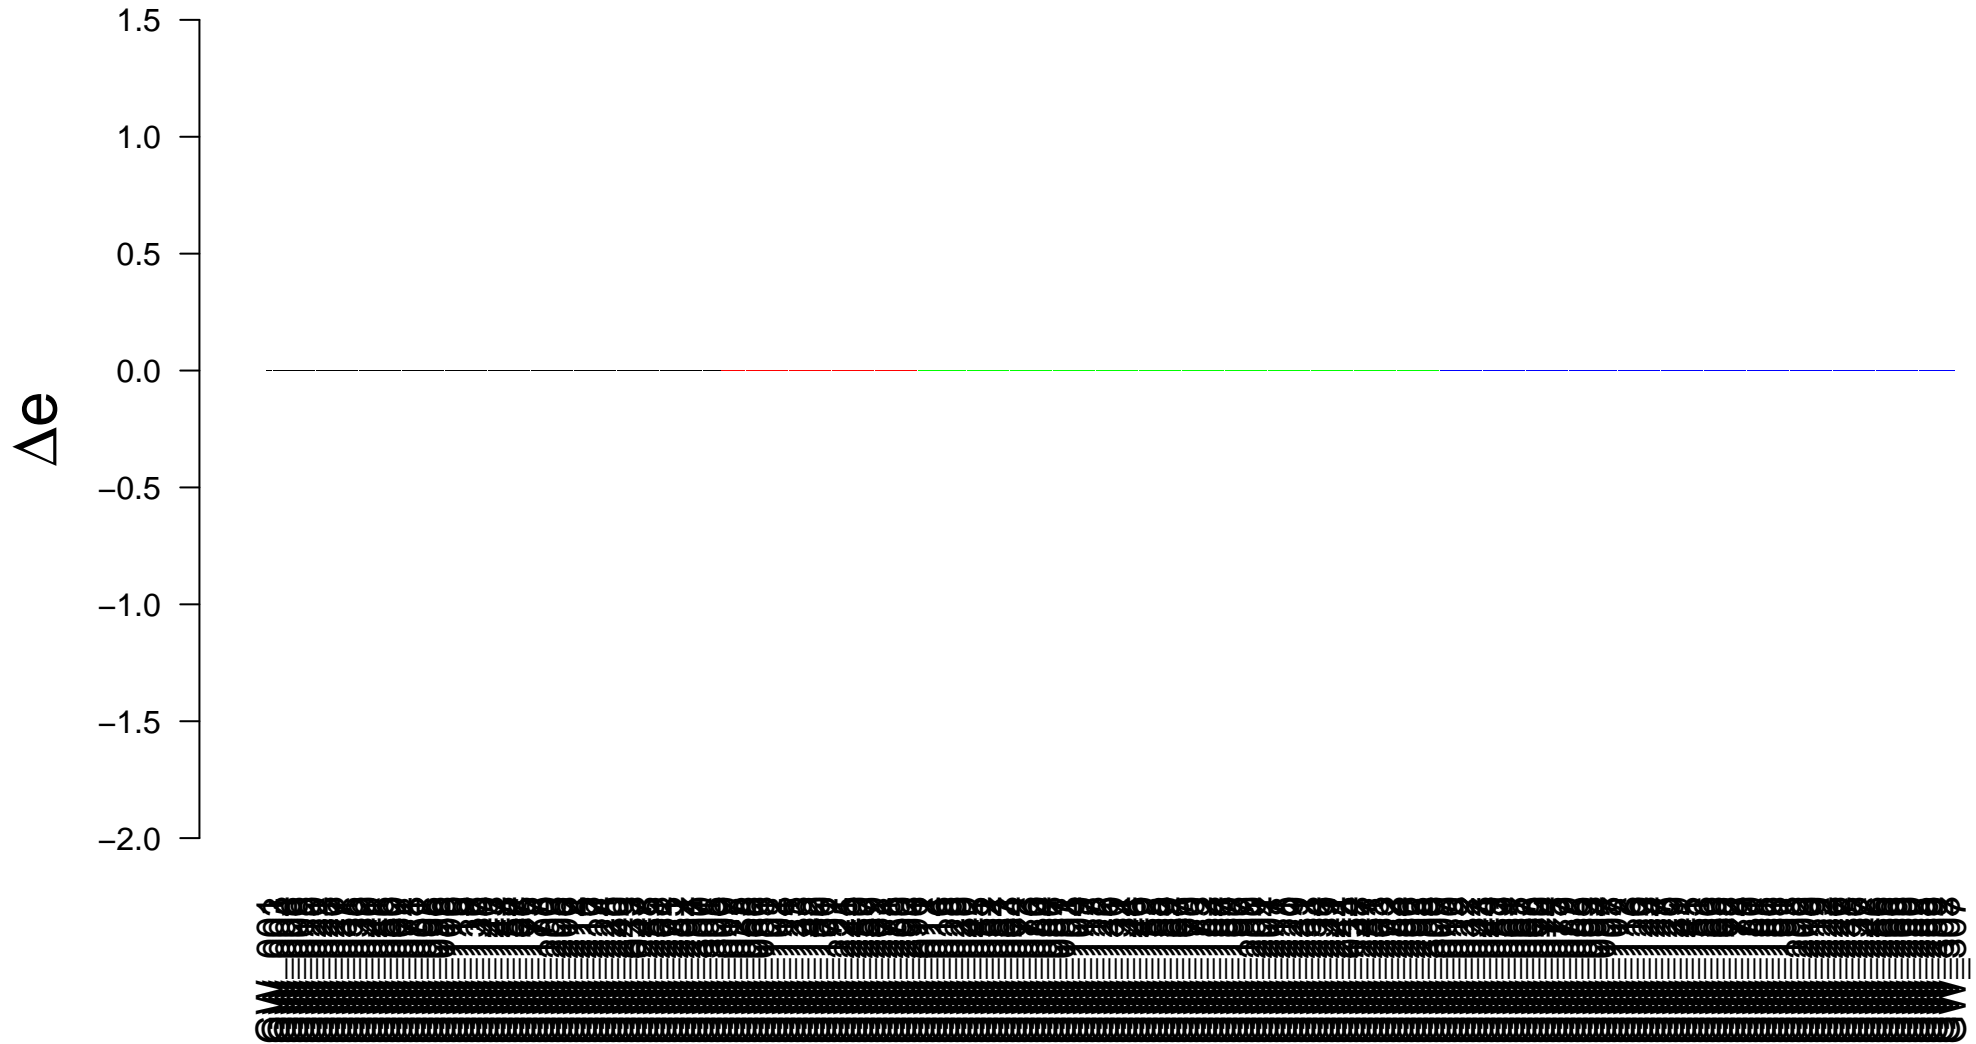

Expression of cellular component disassembly involved in execution phase of apoptosis in Spot E

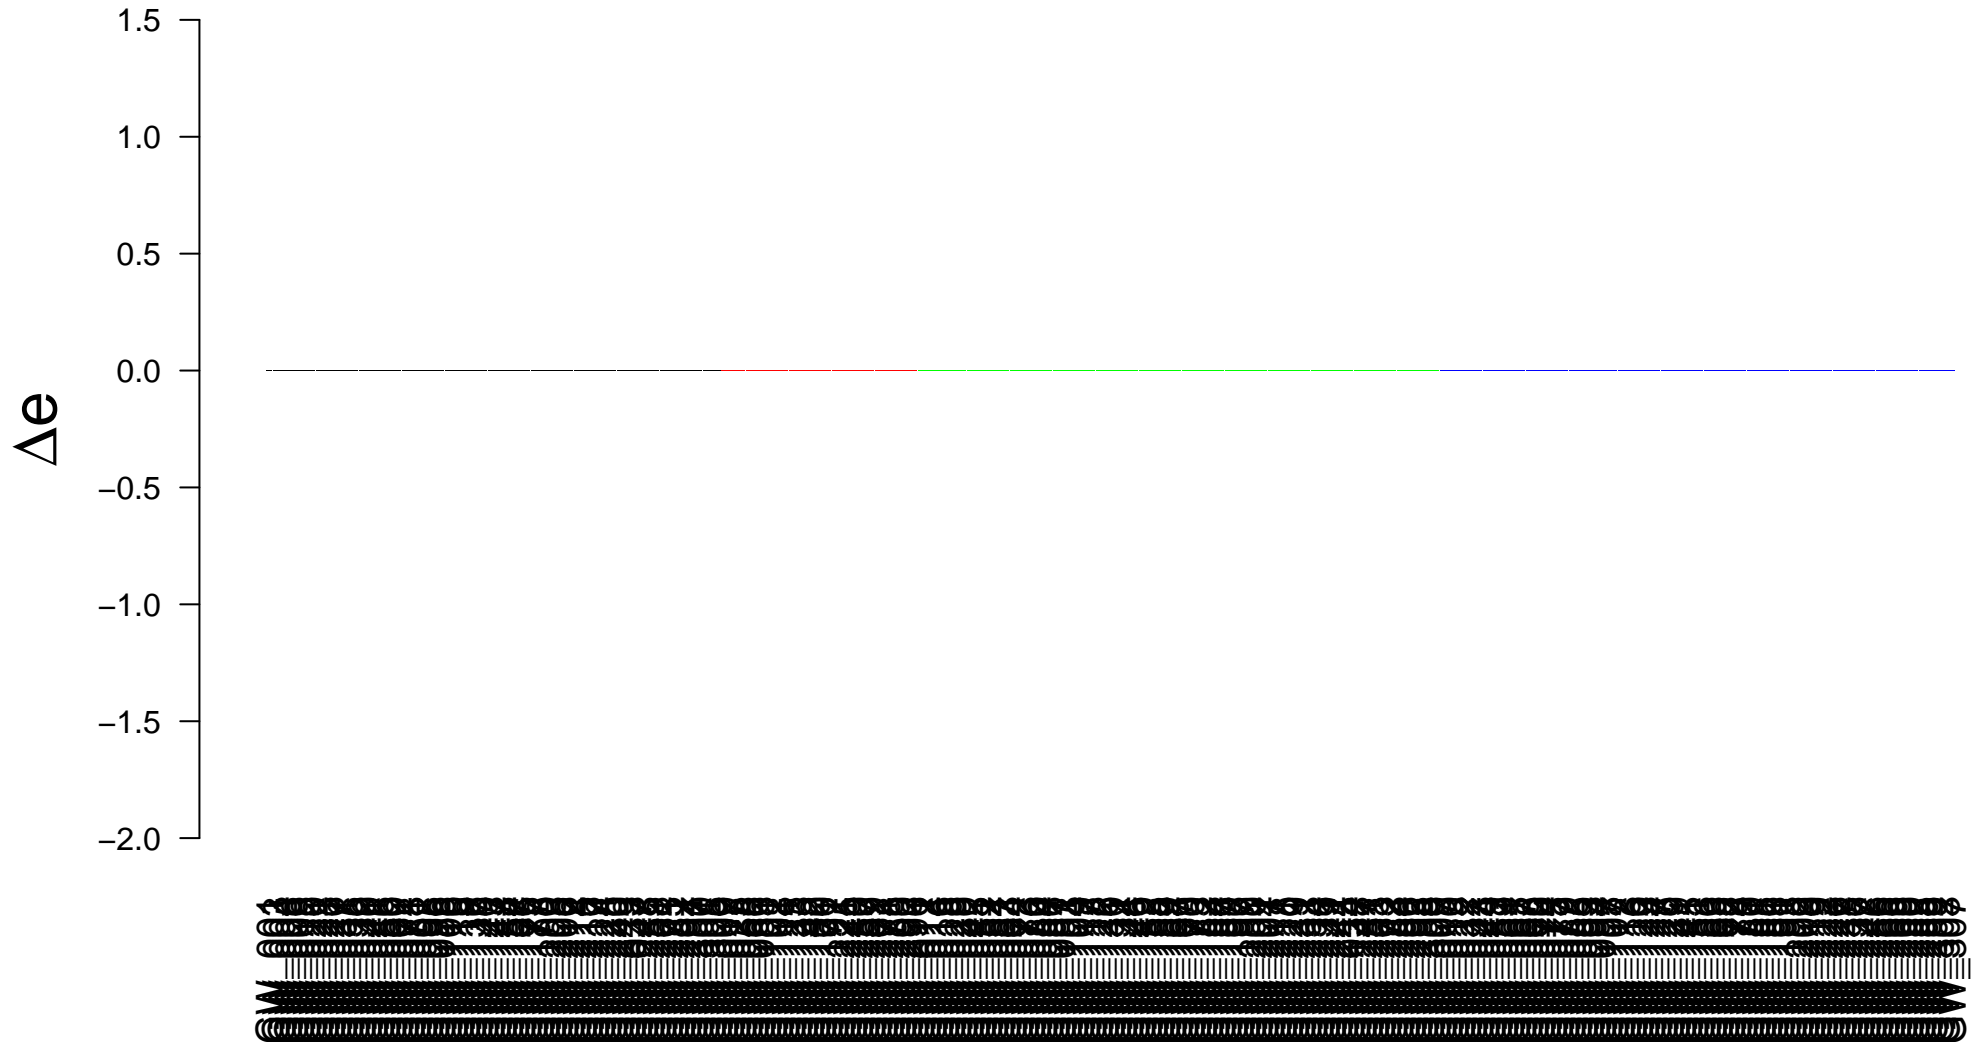

Expression of cellular component disassembly involved in execution phase of apoptosis in Spot F

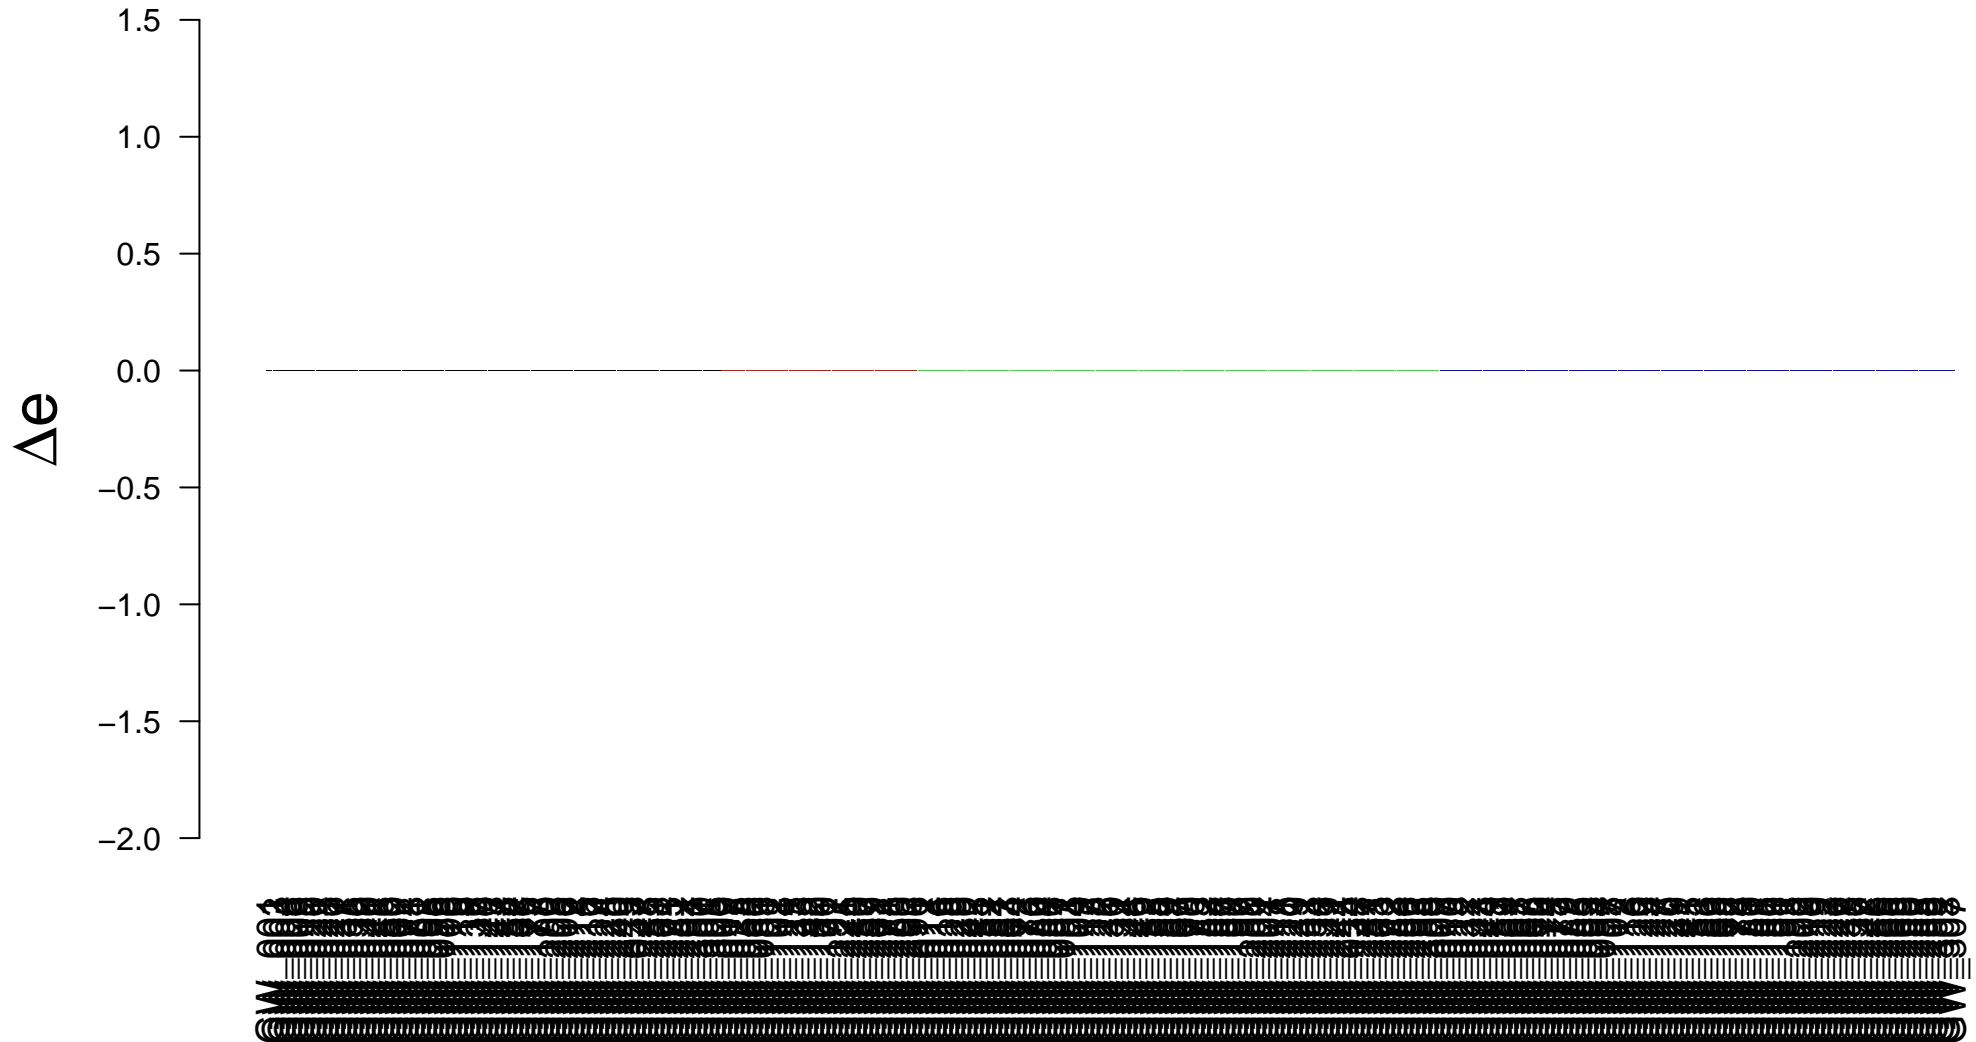

Expression of cellular component disassembly involved in execution phase of apoptosis in Spot G

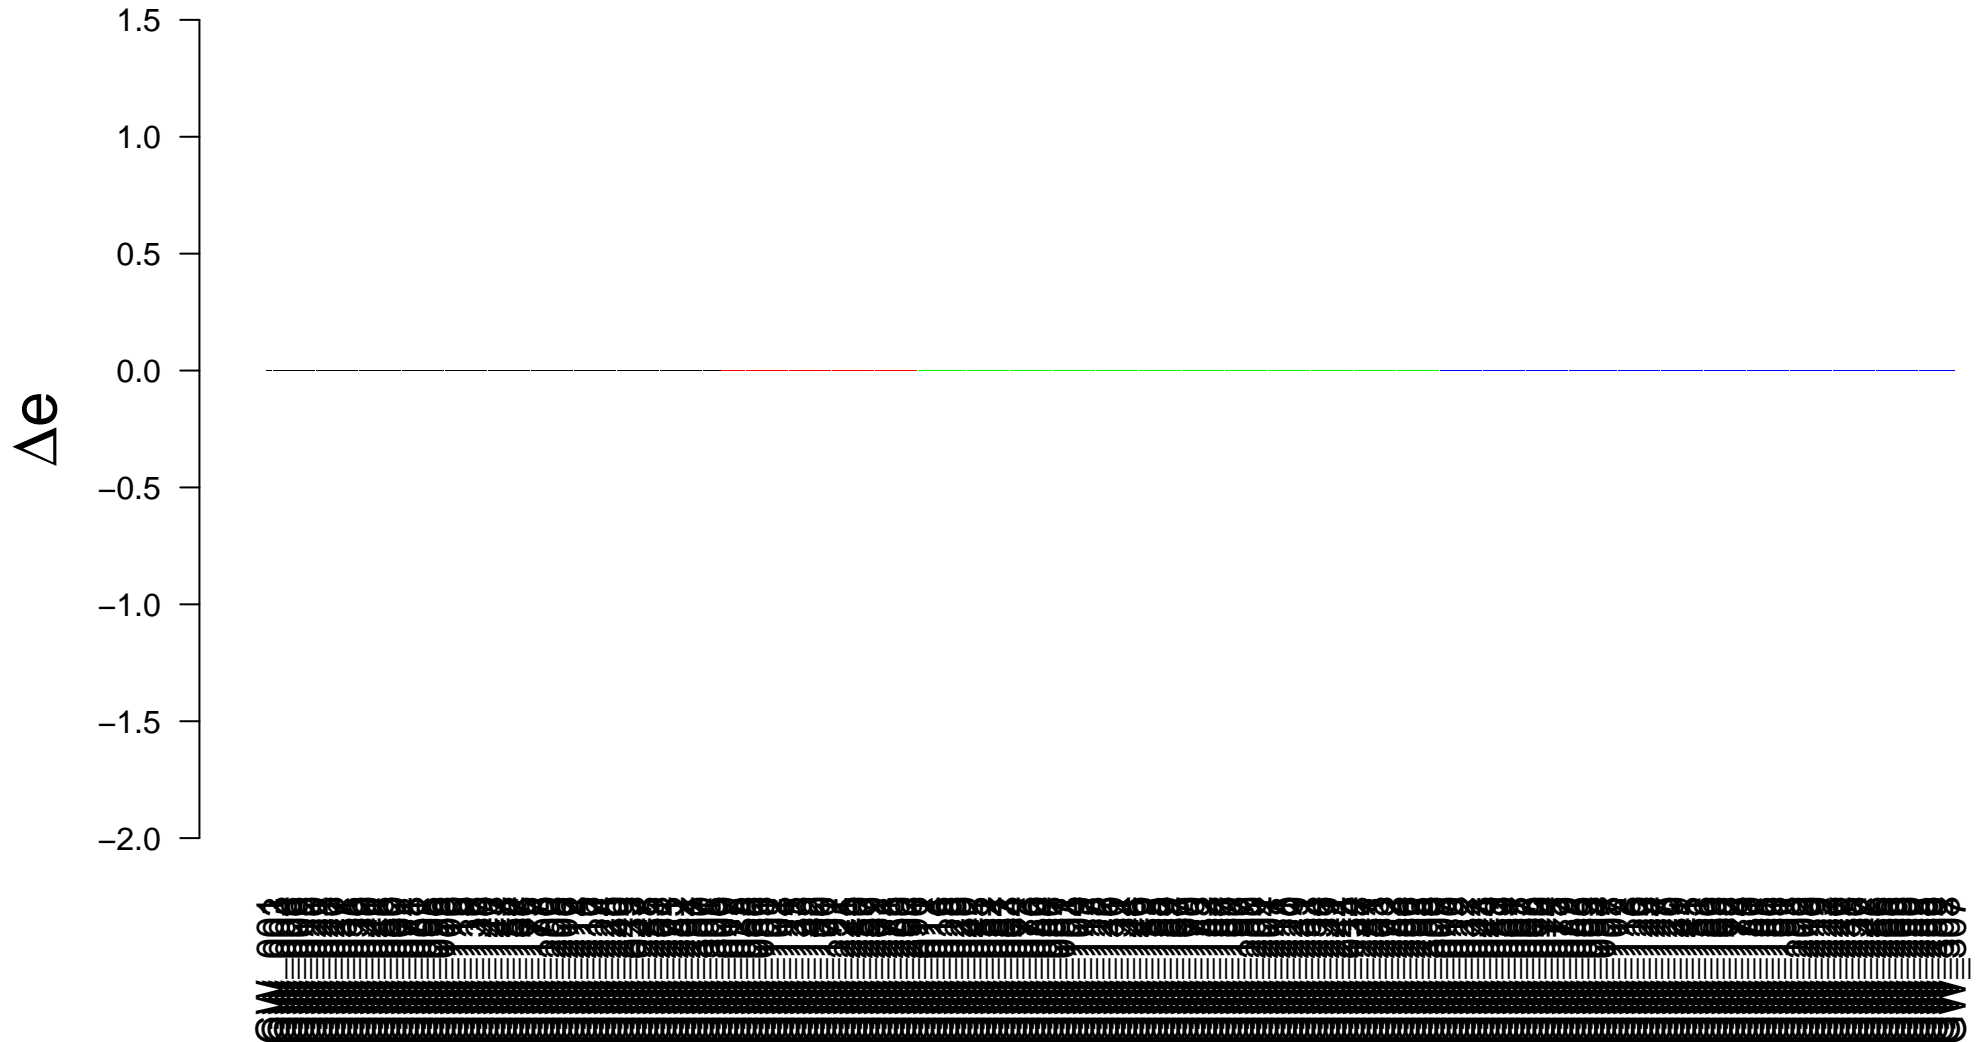

Expression of cellular component disassembly involved in execution phase of apoptosis in Spot H

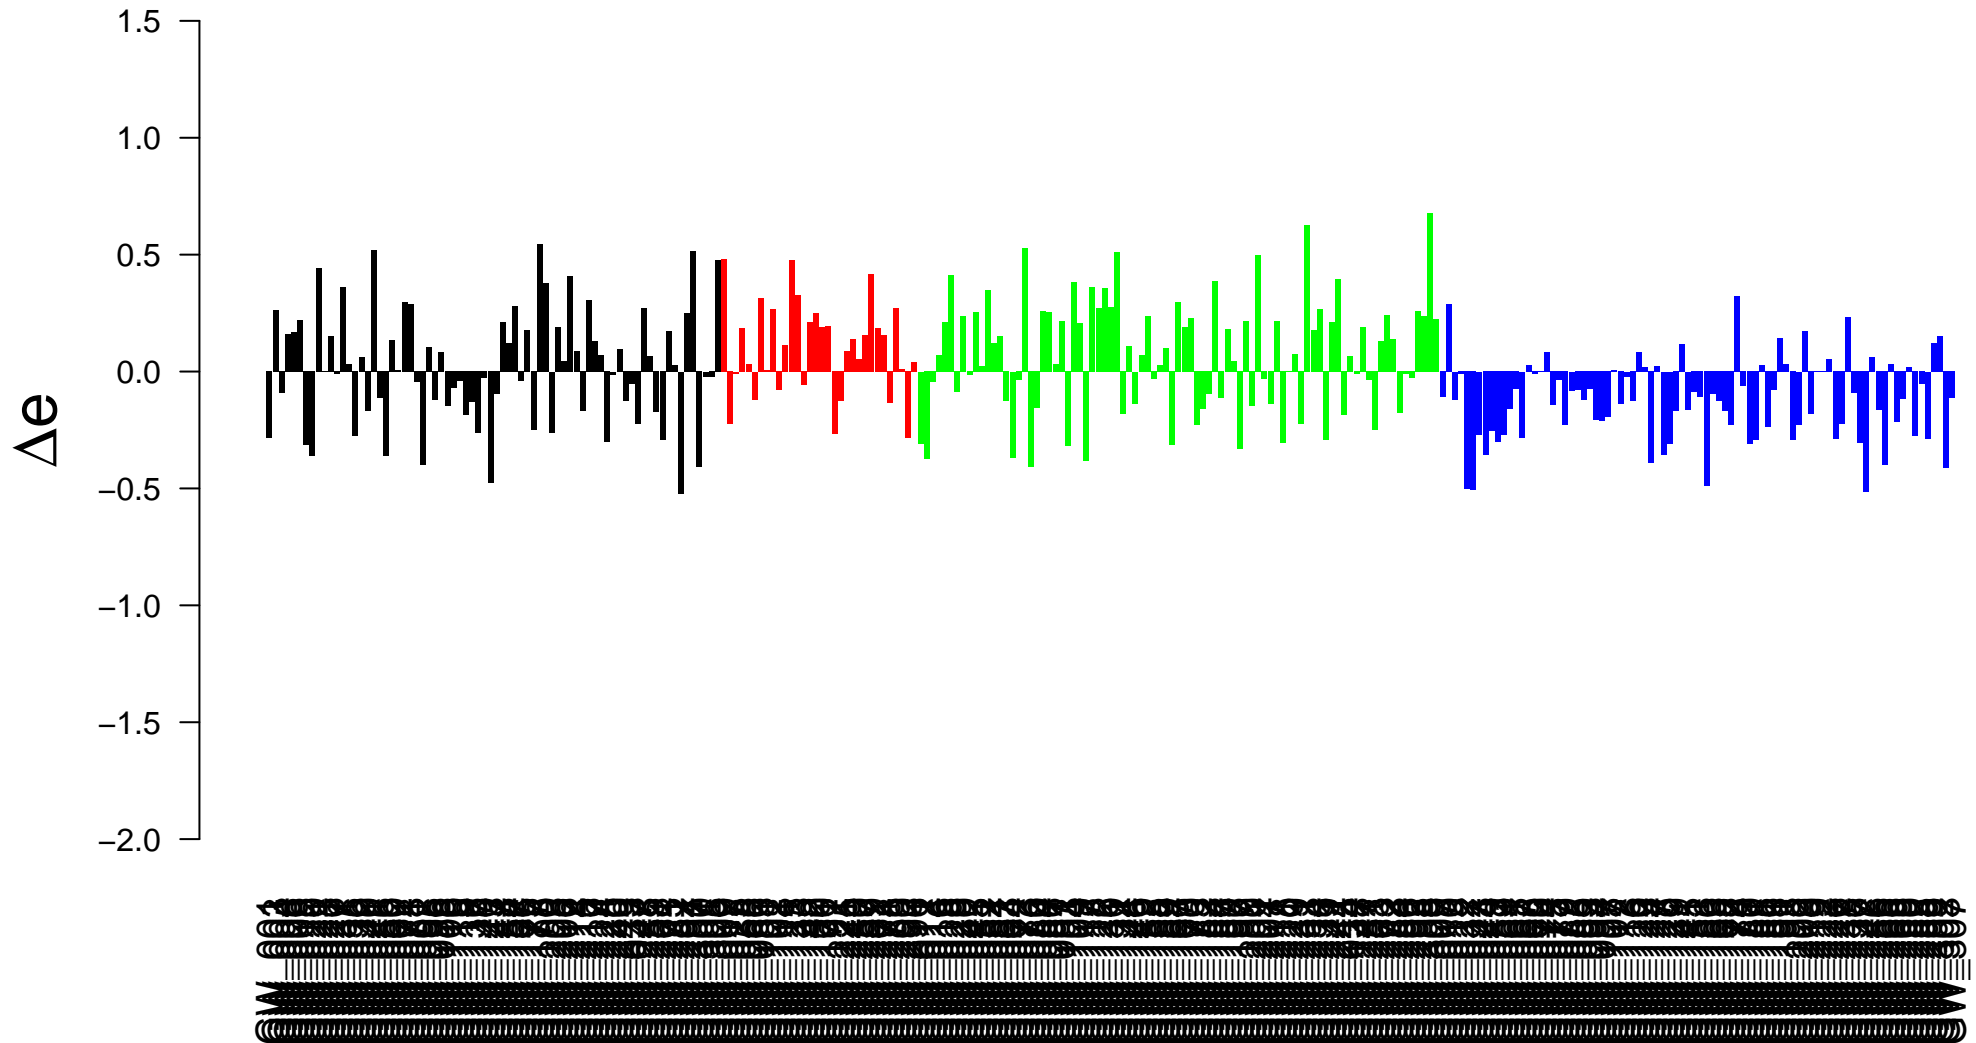

Expression of cellular component disassembly involved in execution phase of apoptosis in Spot I

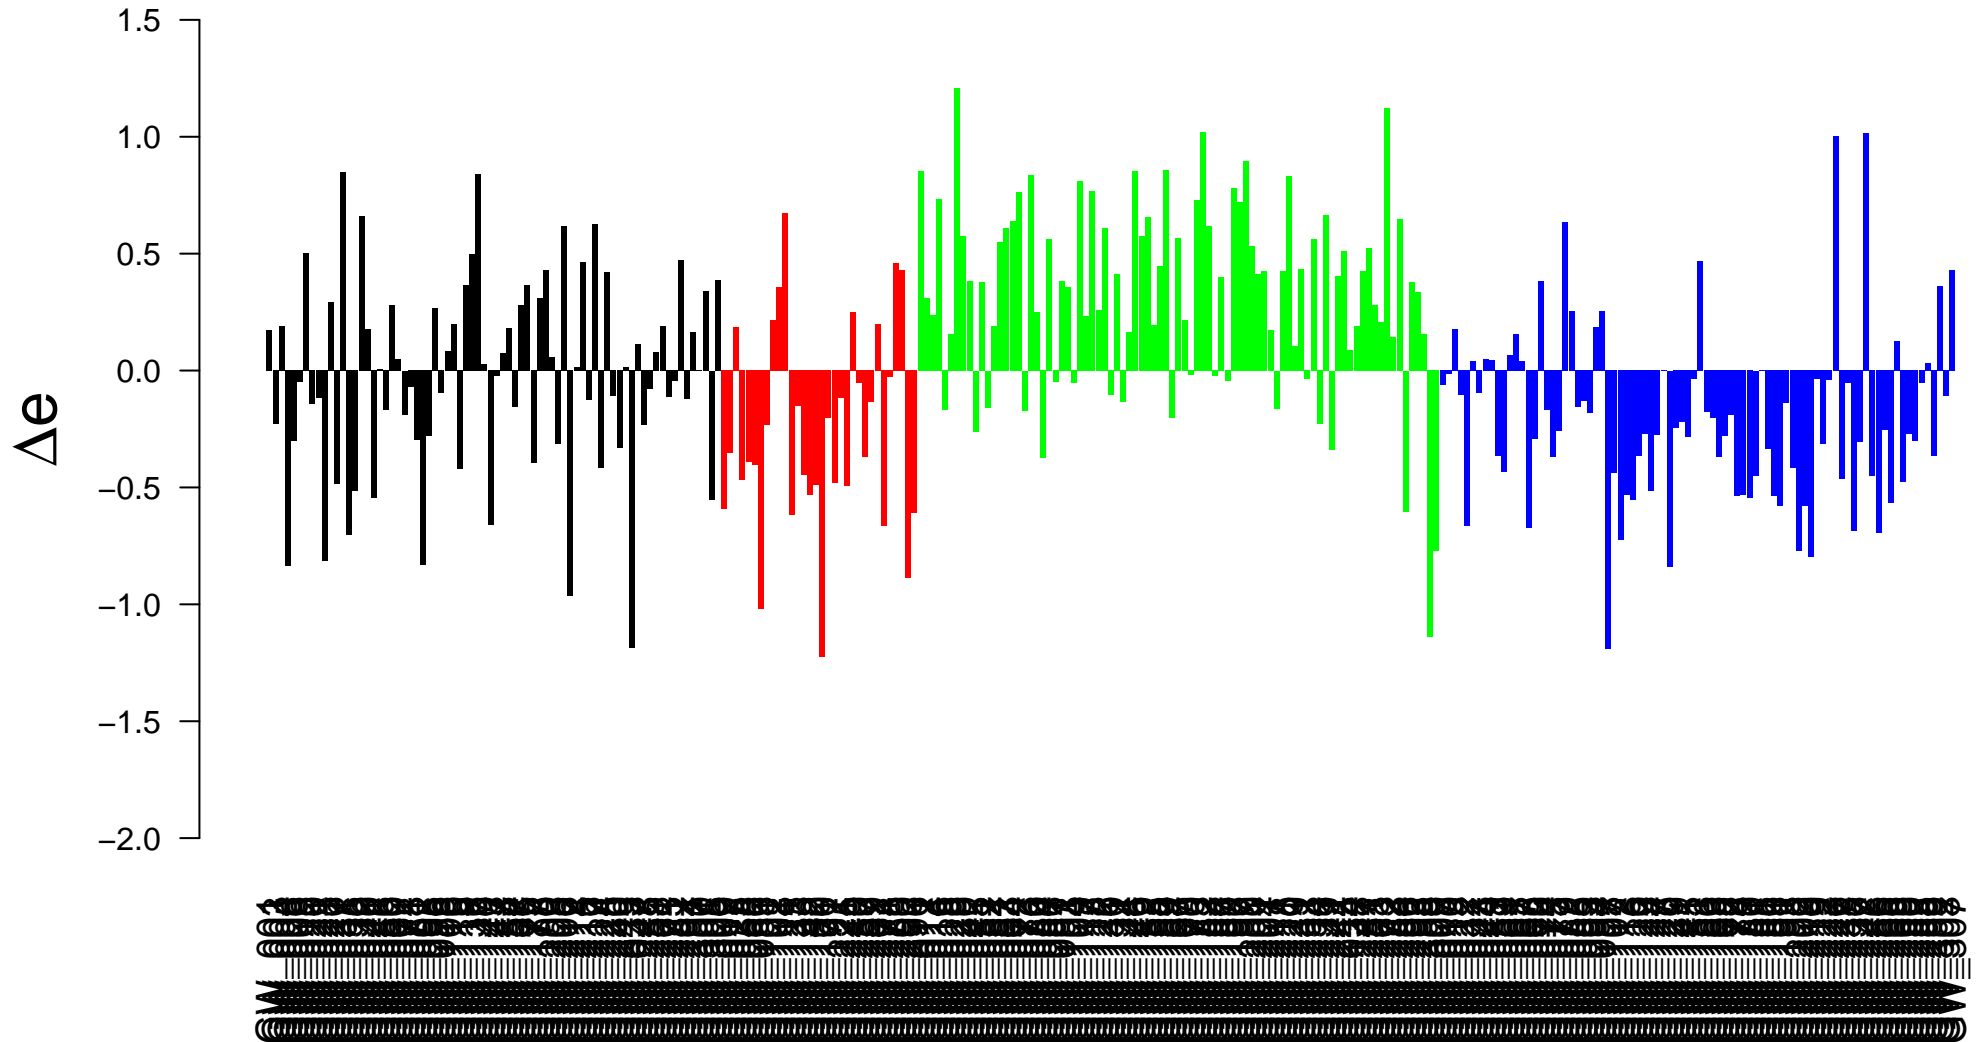

Expression of cellular component disassembly involved in execution phase of apoptosis in Spot J

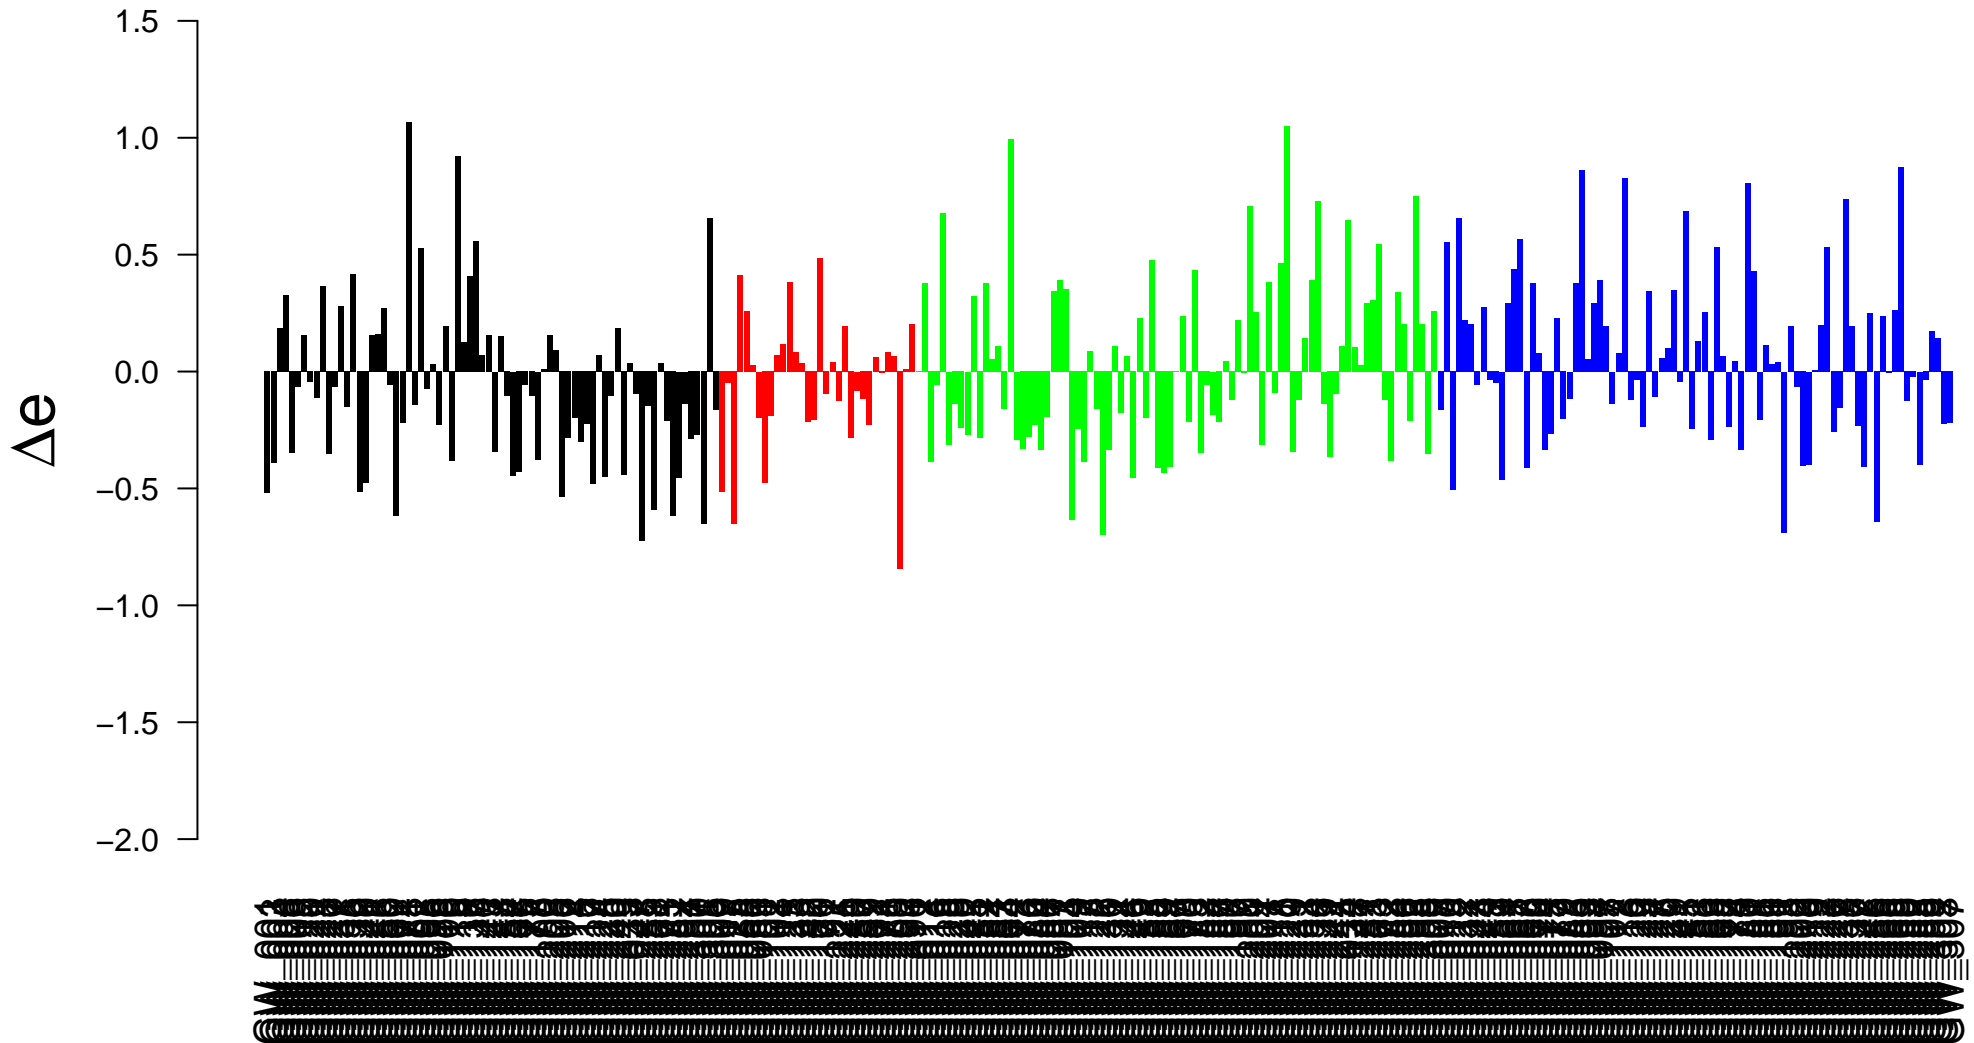

Expression of cellular component disassembly involved in execution phase of apoptosis in Spot K

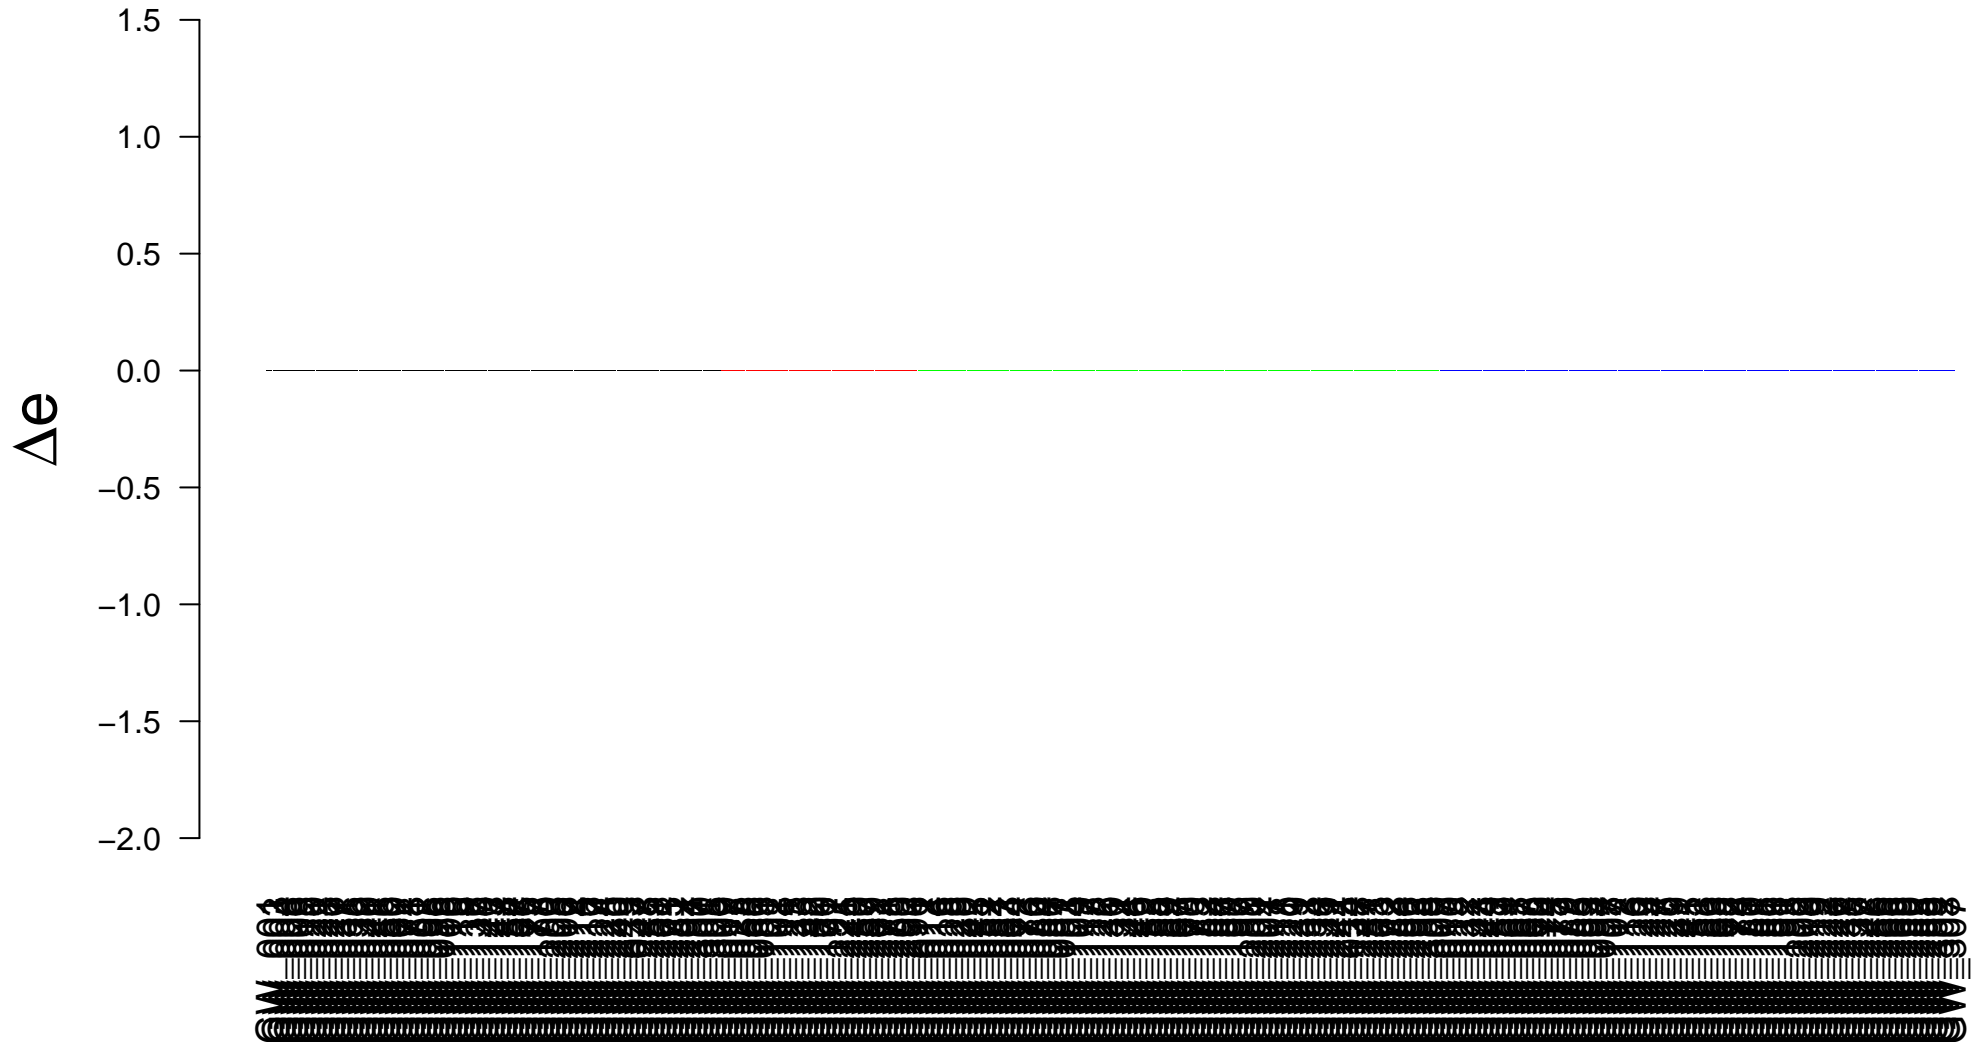

Expression of cellular component disassembly involved in execution phase of apoptosis in Spot L

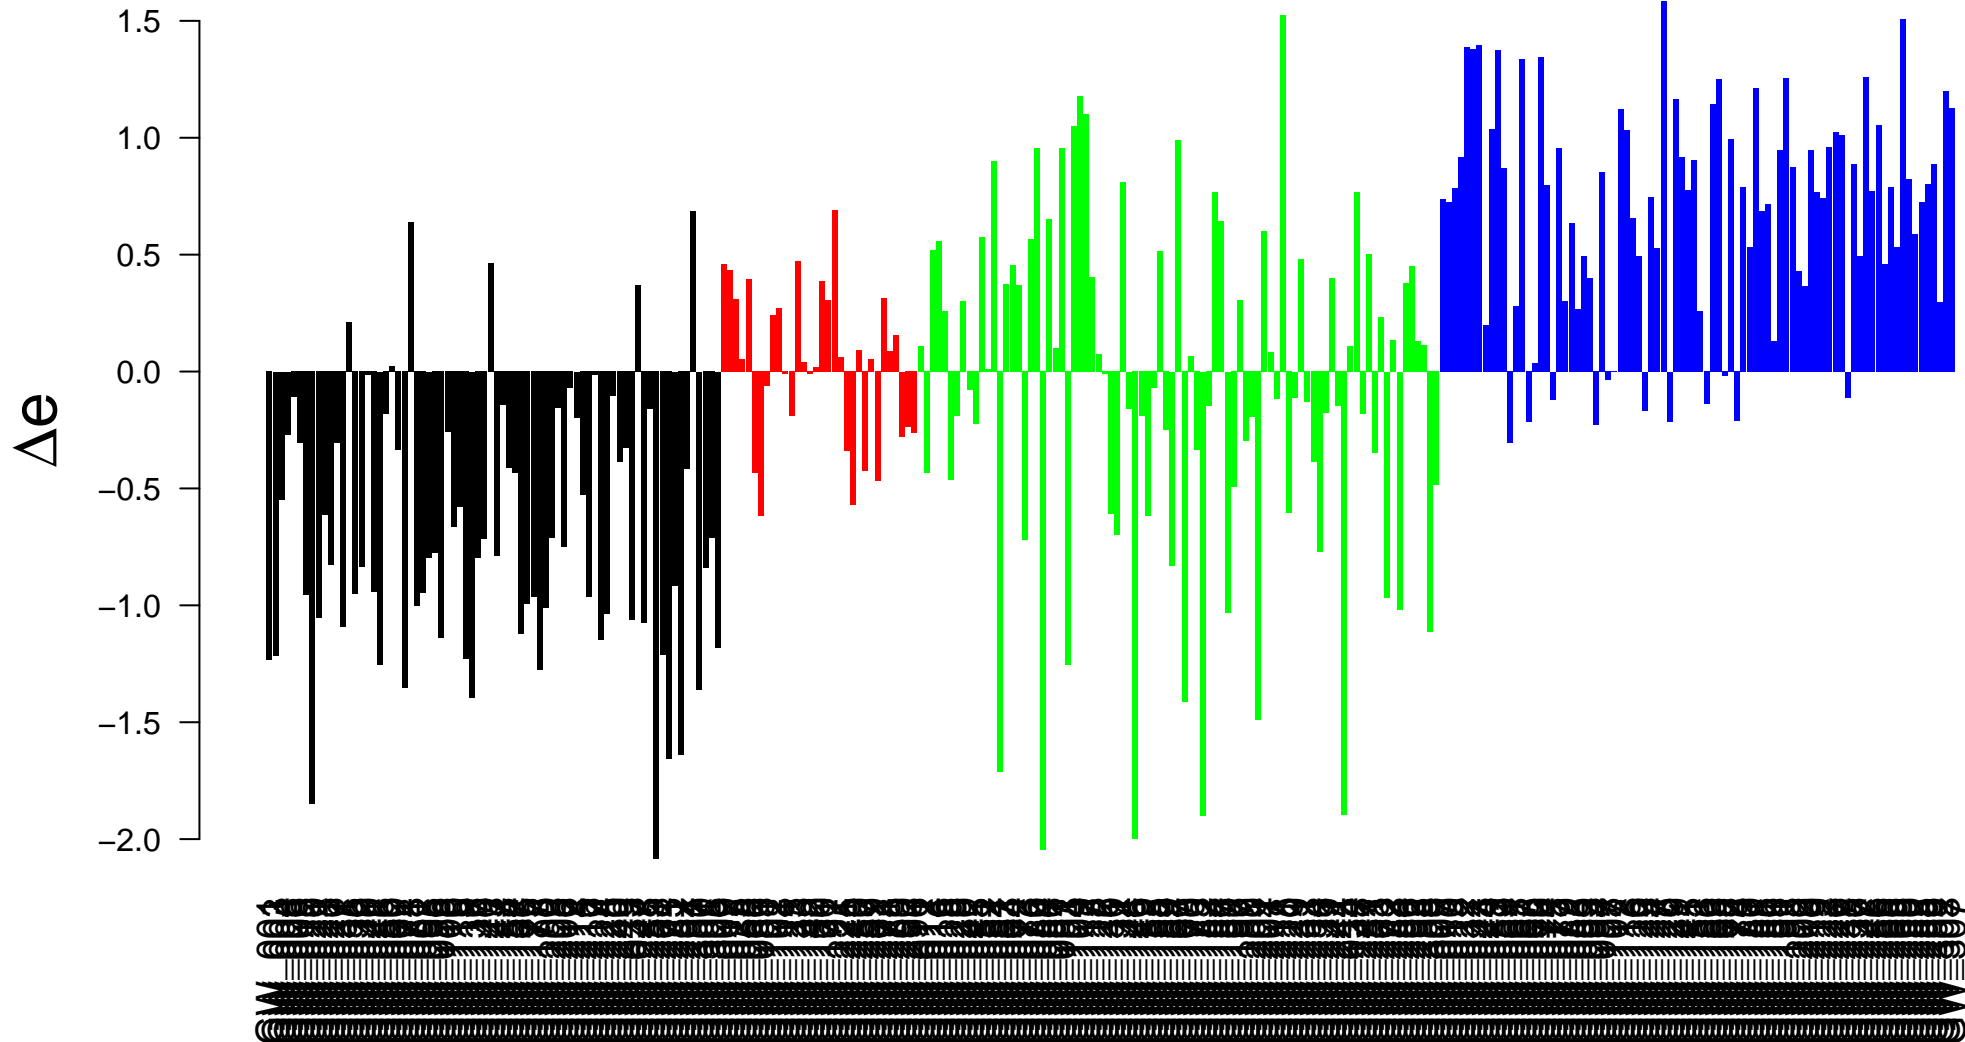

Expression of cellular component disassembly involved in execution phase of apoptosis in Spot M

Expression of cellular component disassembly involved in execution phase of apoptosis in Spot N

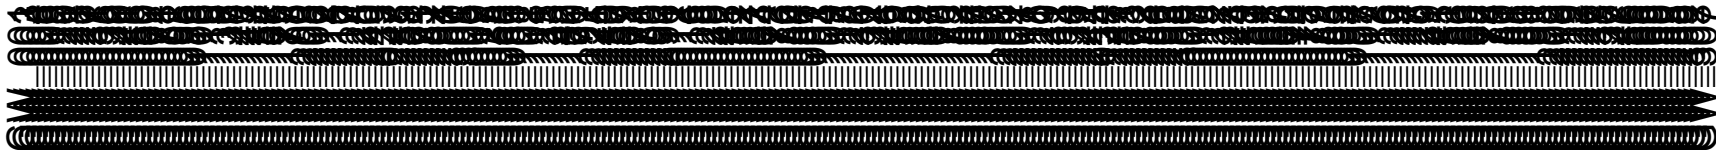

Expression of cellular component disassembly involved in execution phase of apoptosis in Spot O

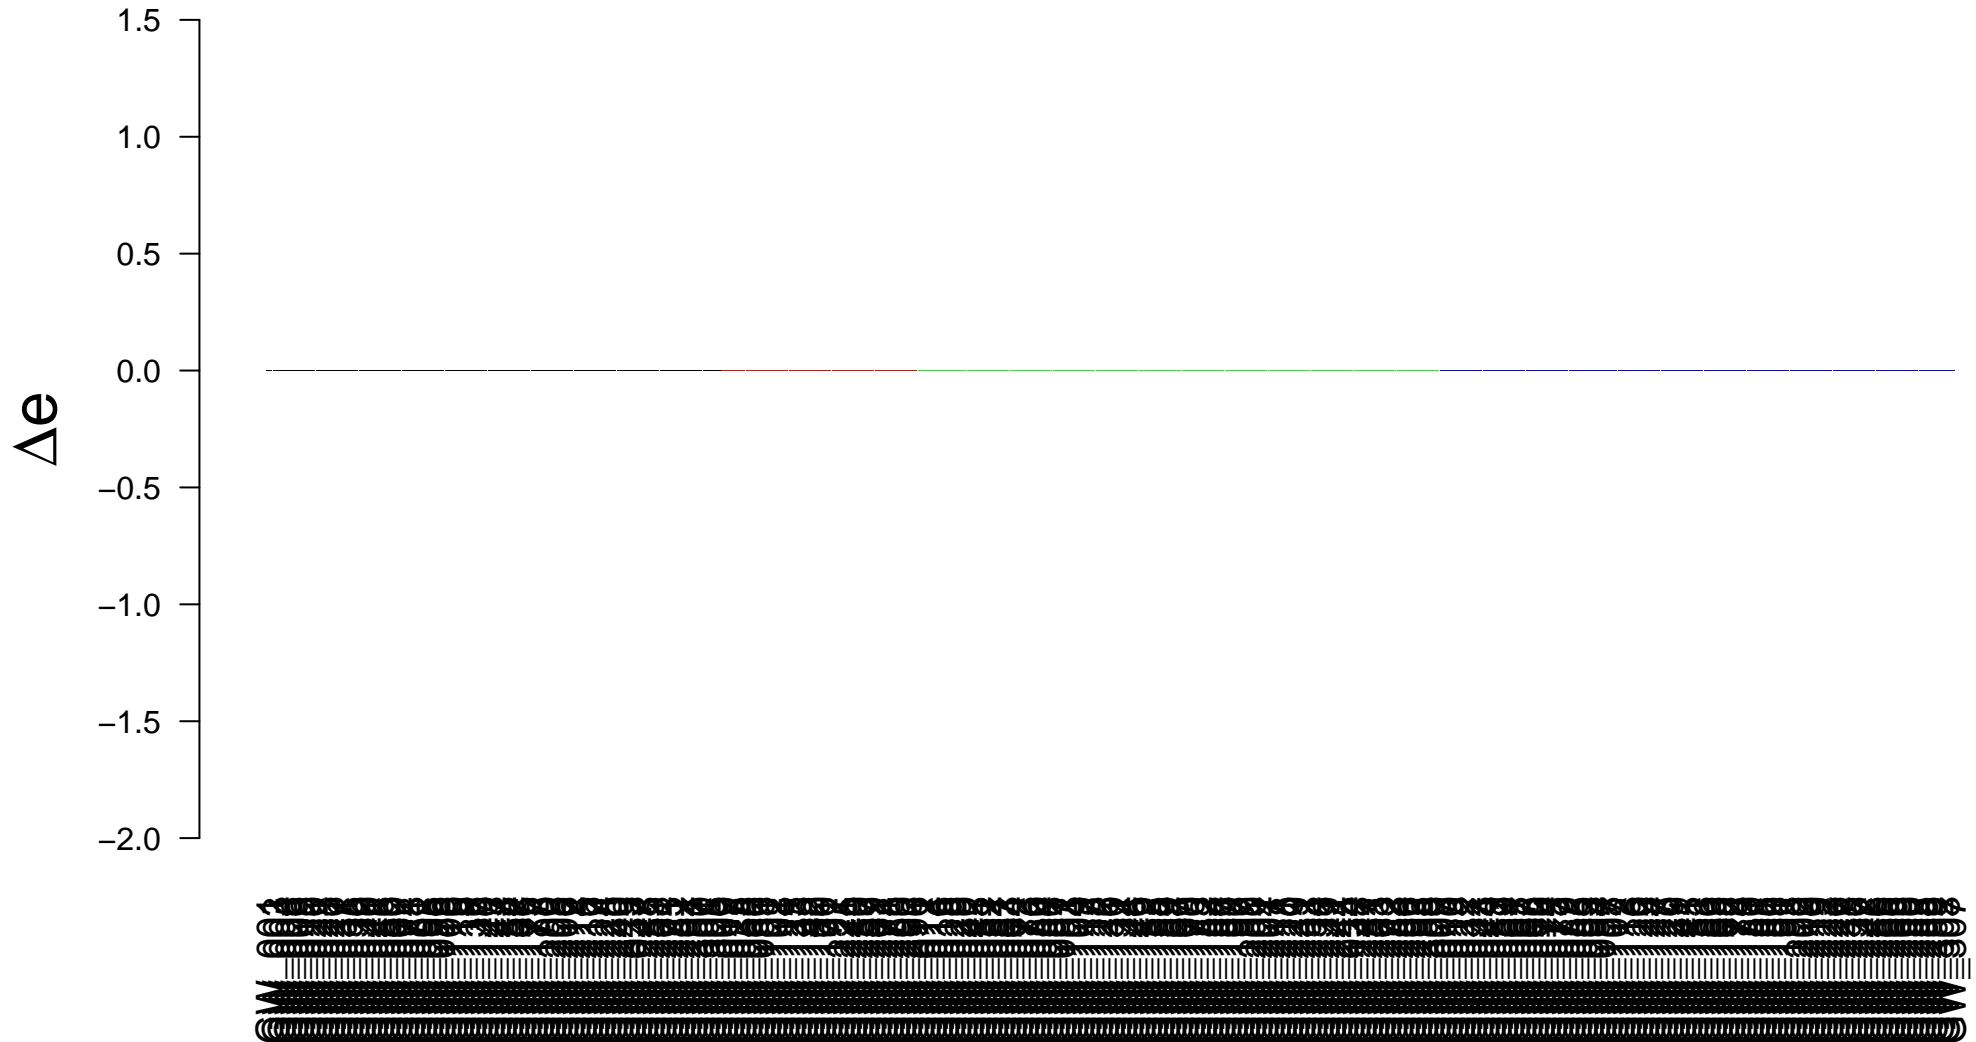

Expression of cellular component disassembly involved in execution phase of apoptosis in Spot P
