

ciliary or bacterial-type flagellar motility

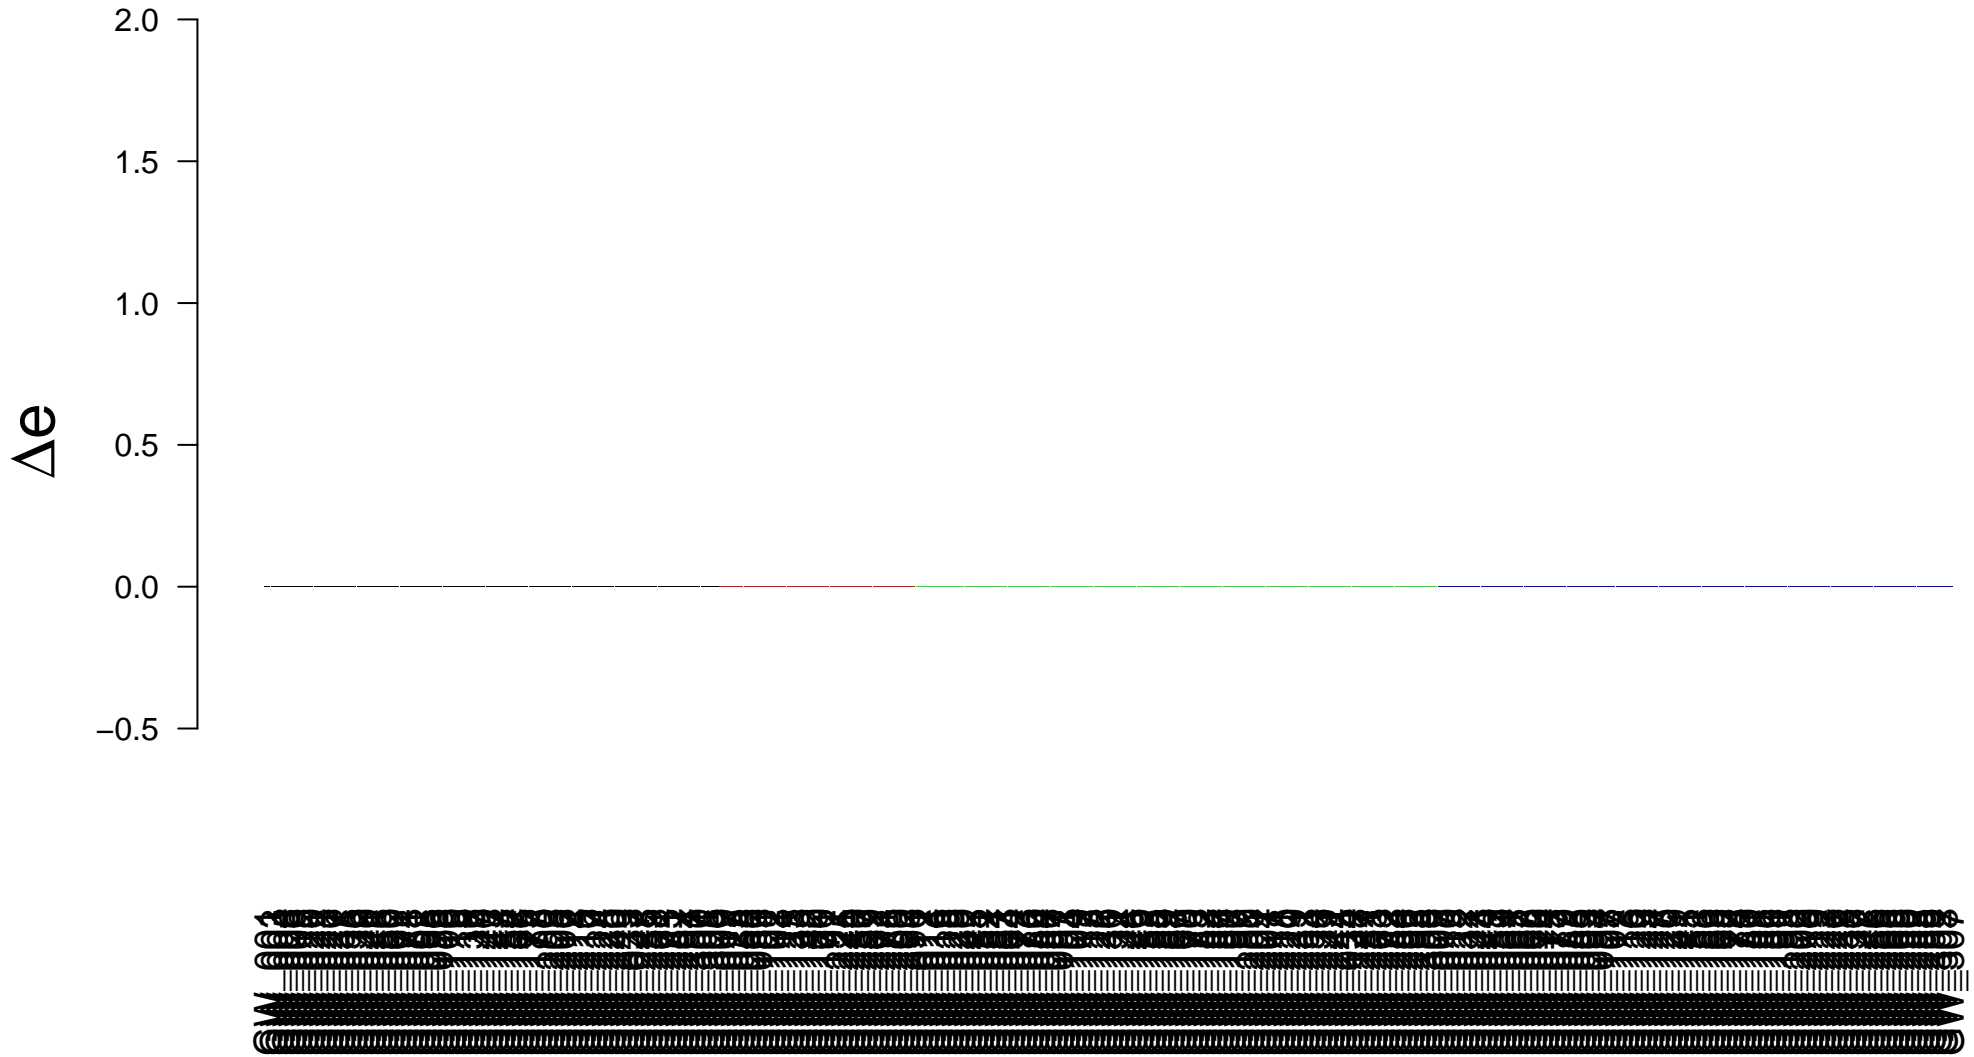

ciliary or bacterial-type flagellar motility

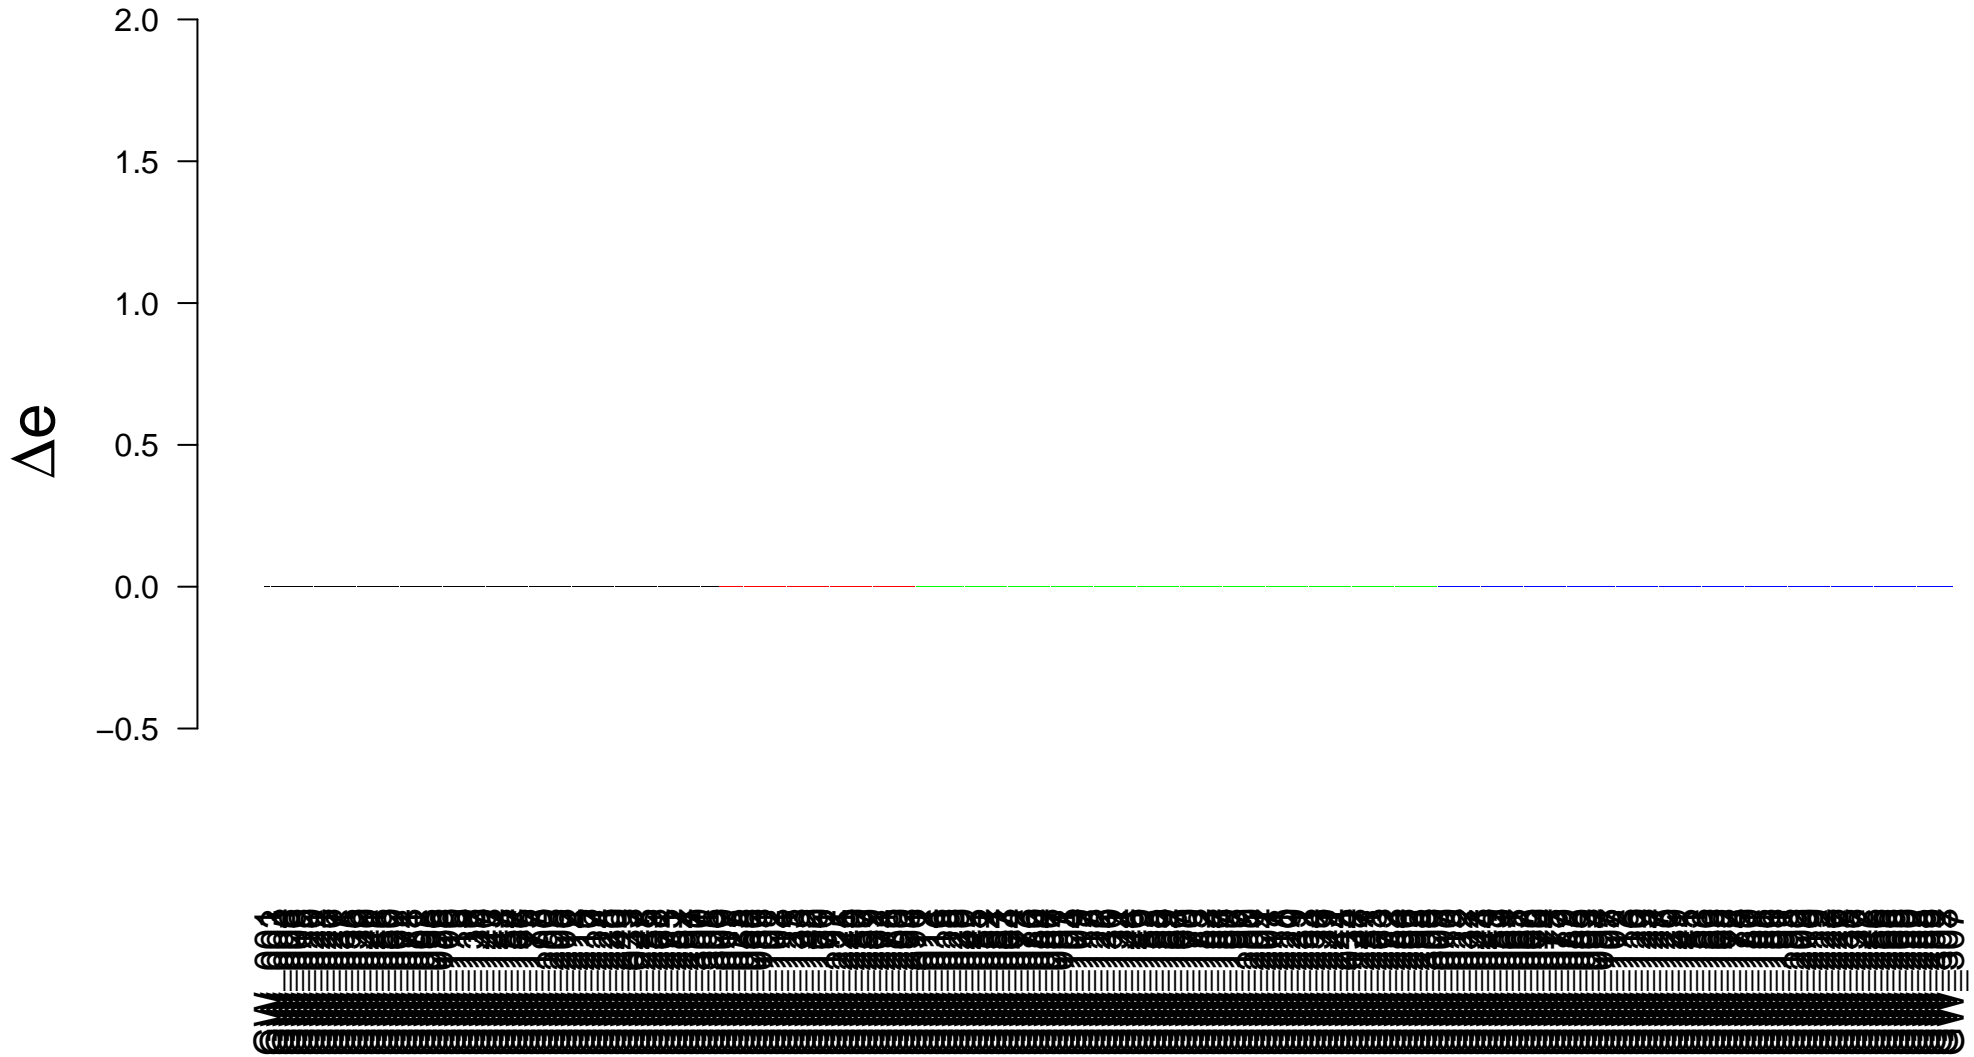

Enrichment in spots: ciliary or bacterial-type flagellar motility

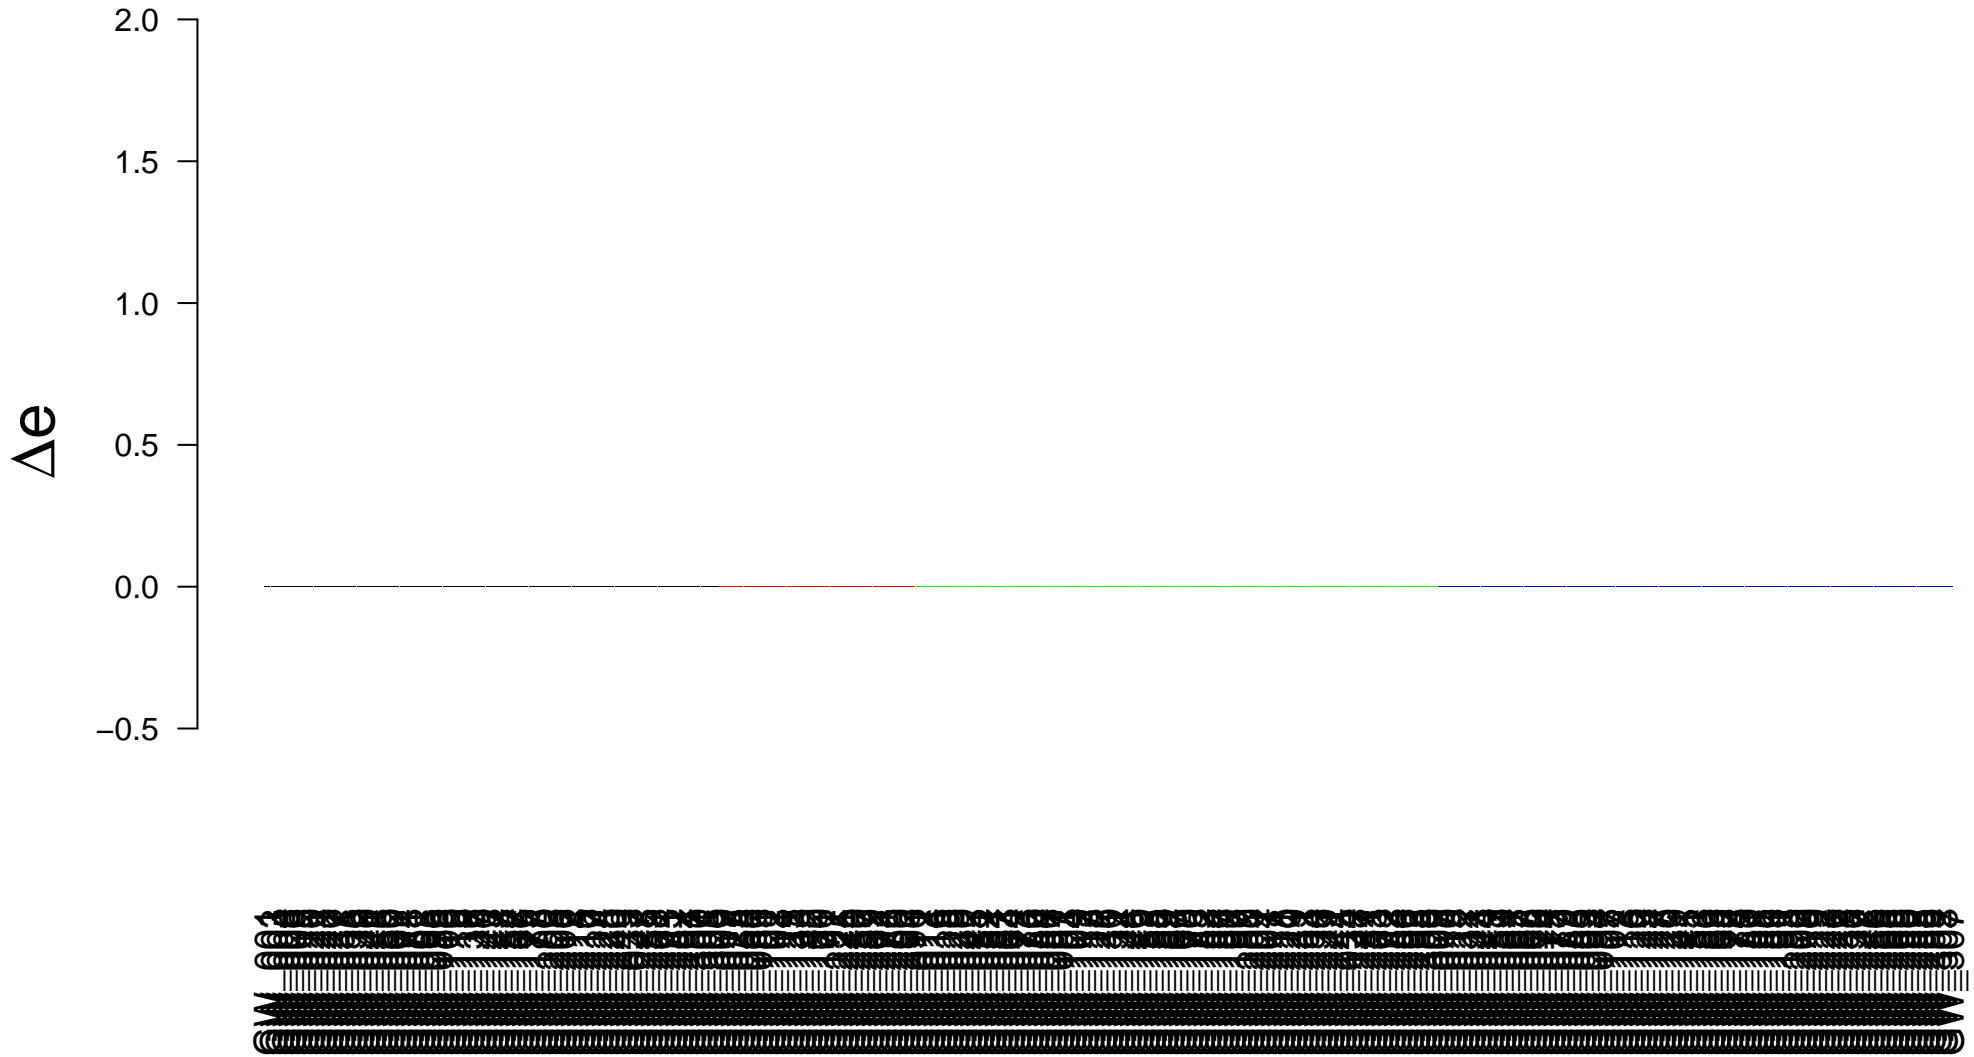

Expression of ciliary or bacterial-type flagellar motility in Spot A

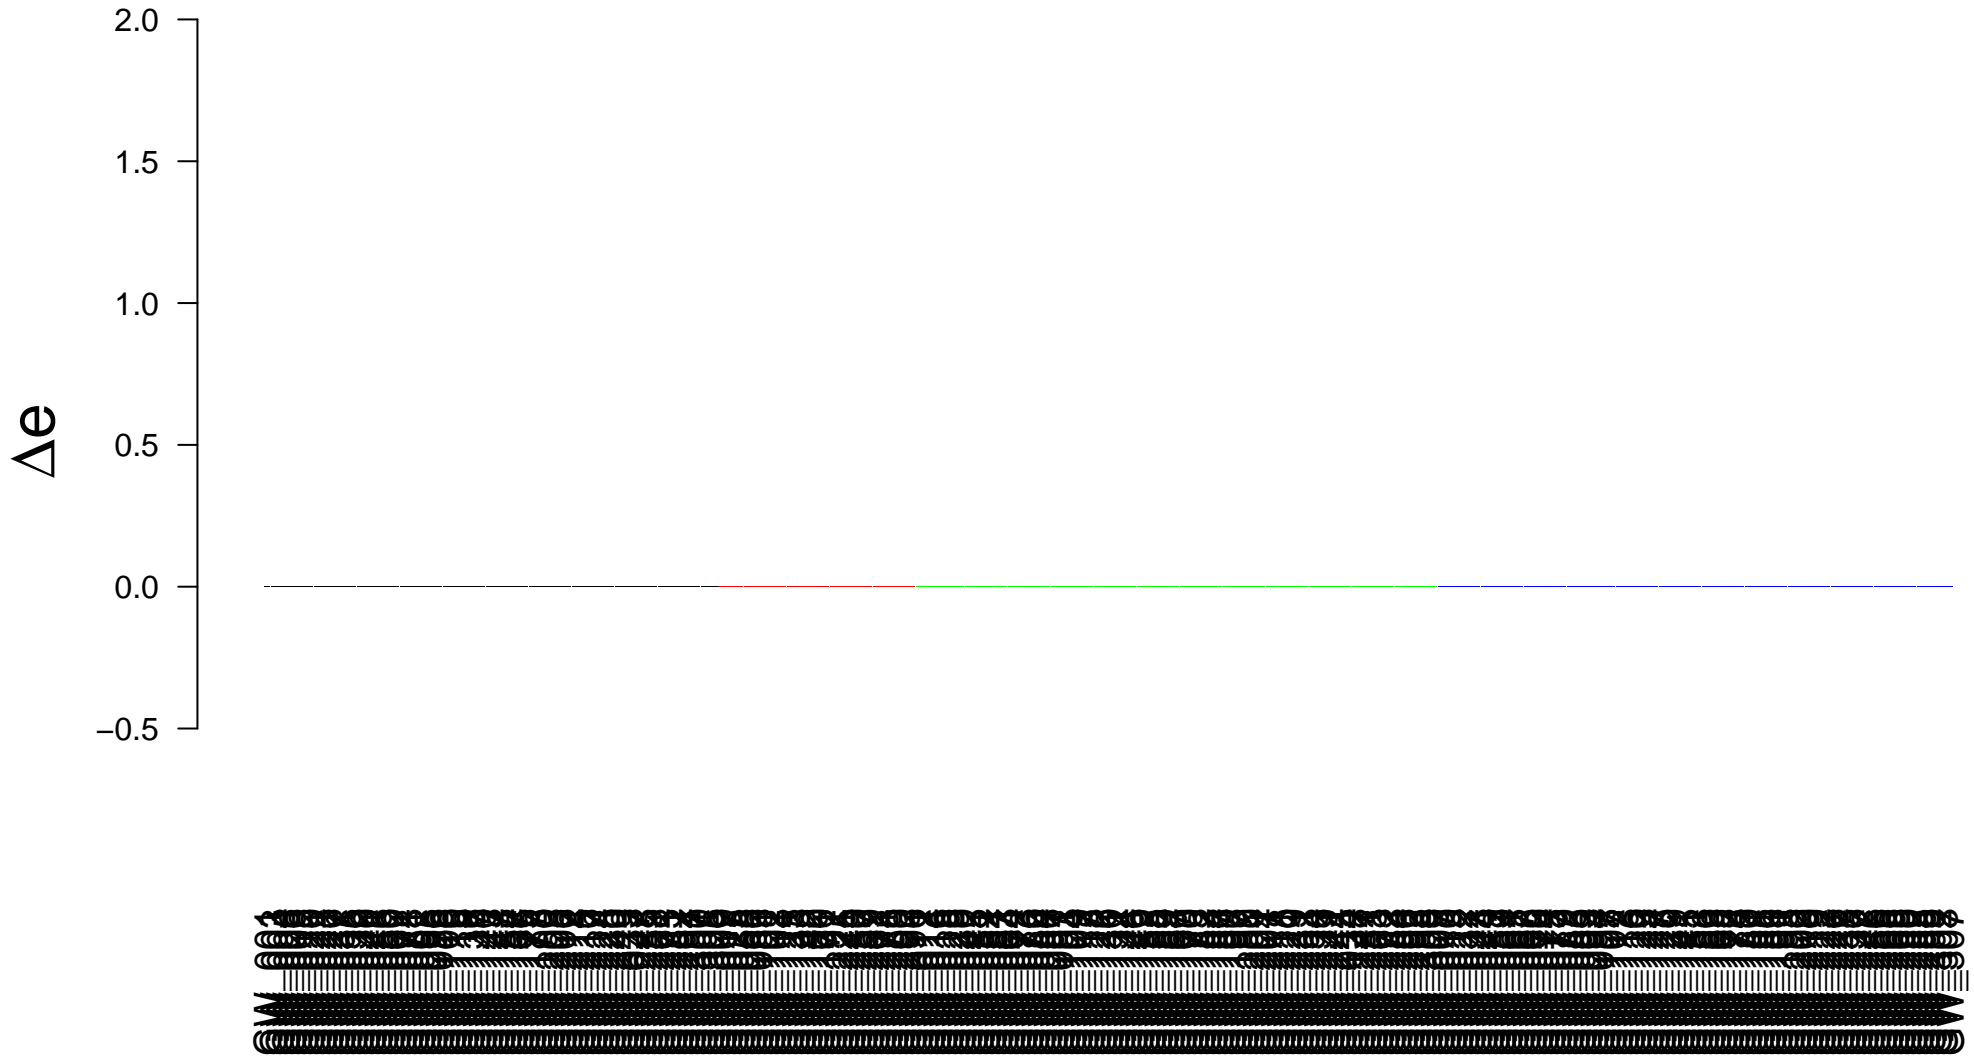

Expression of ciliary or bacterial-type flagellar motility in Spot B

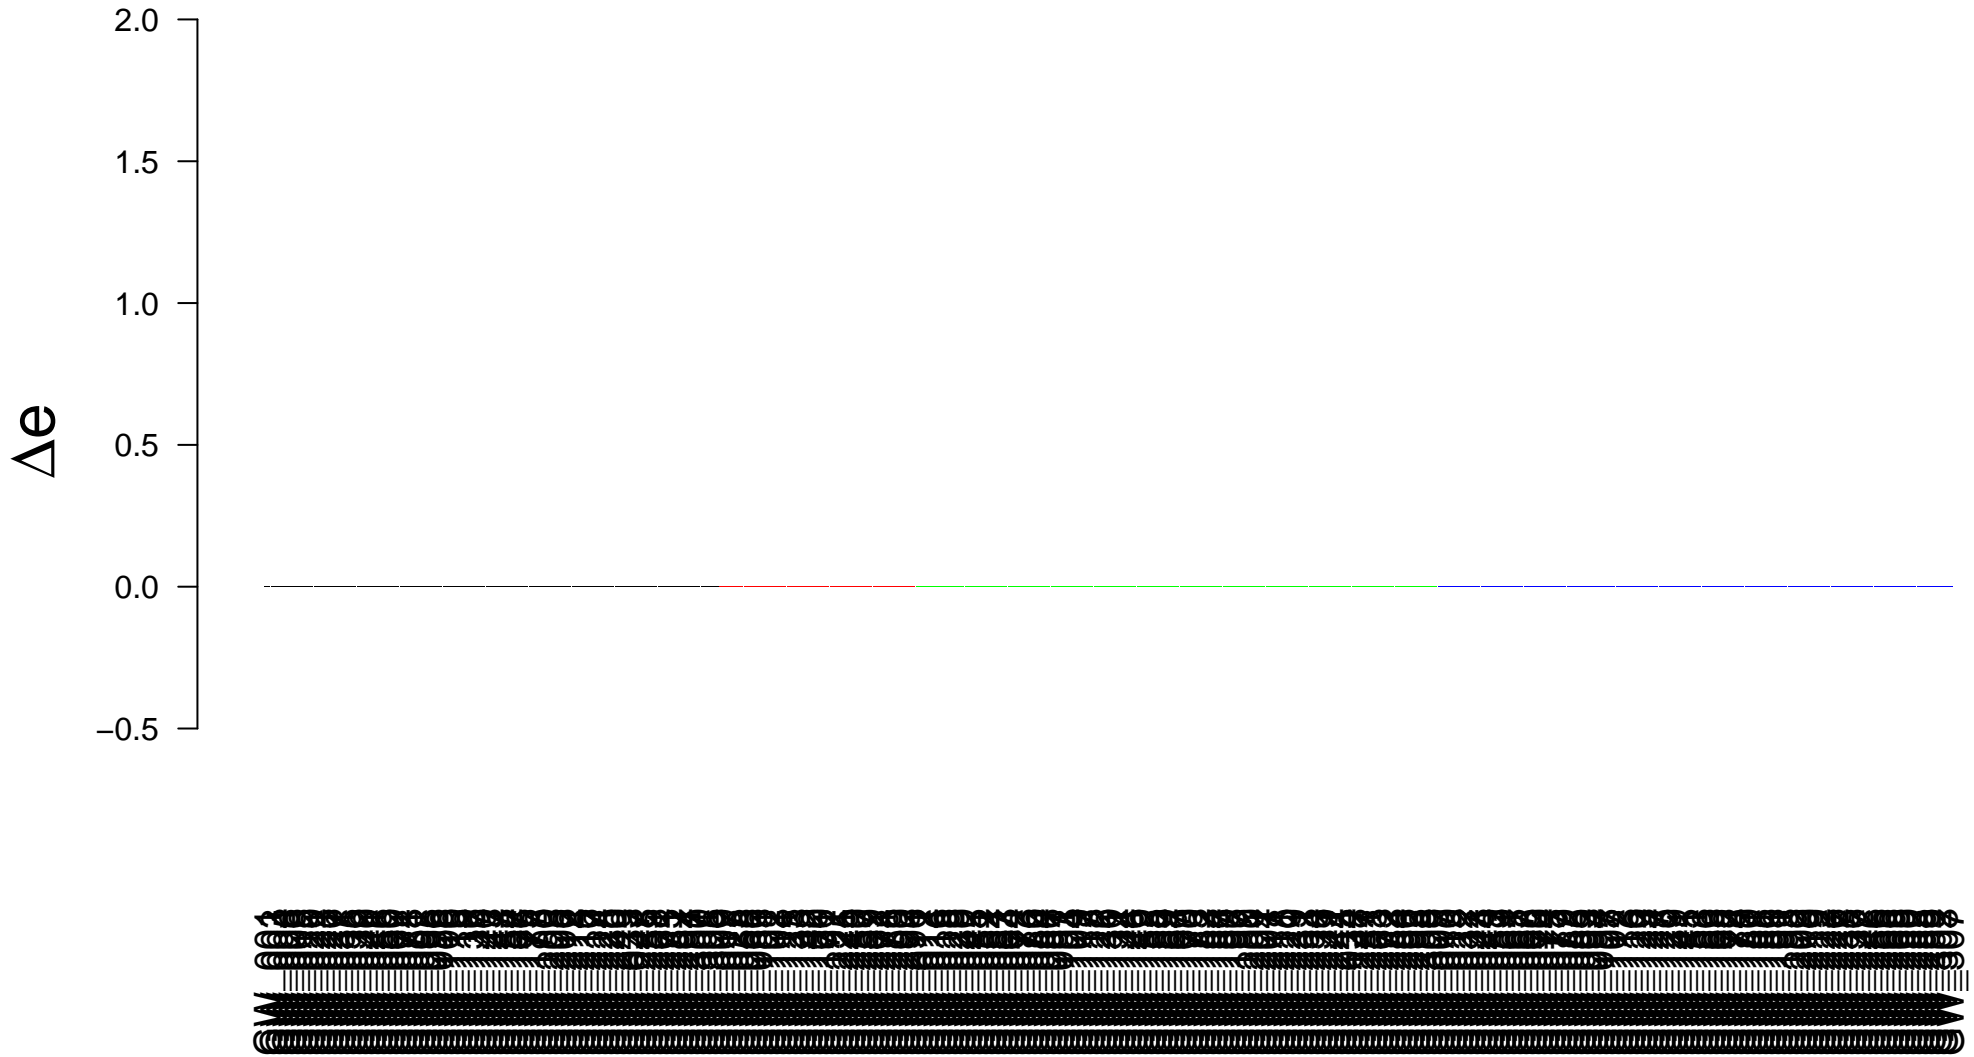

Expression of ciliary or bacterial-type flagellar motility in Spot C

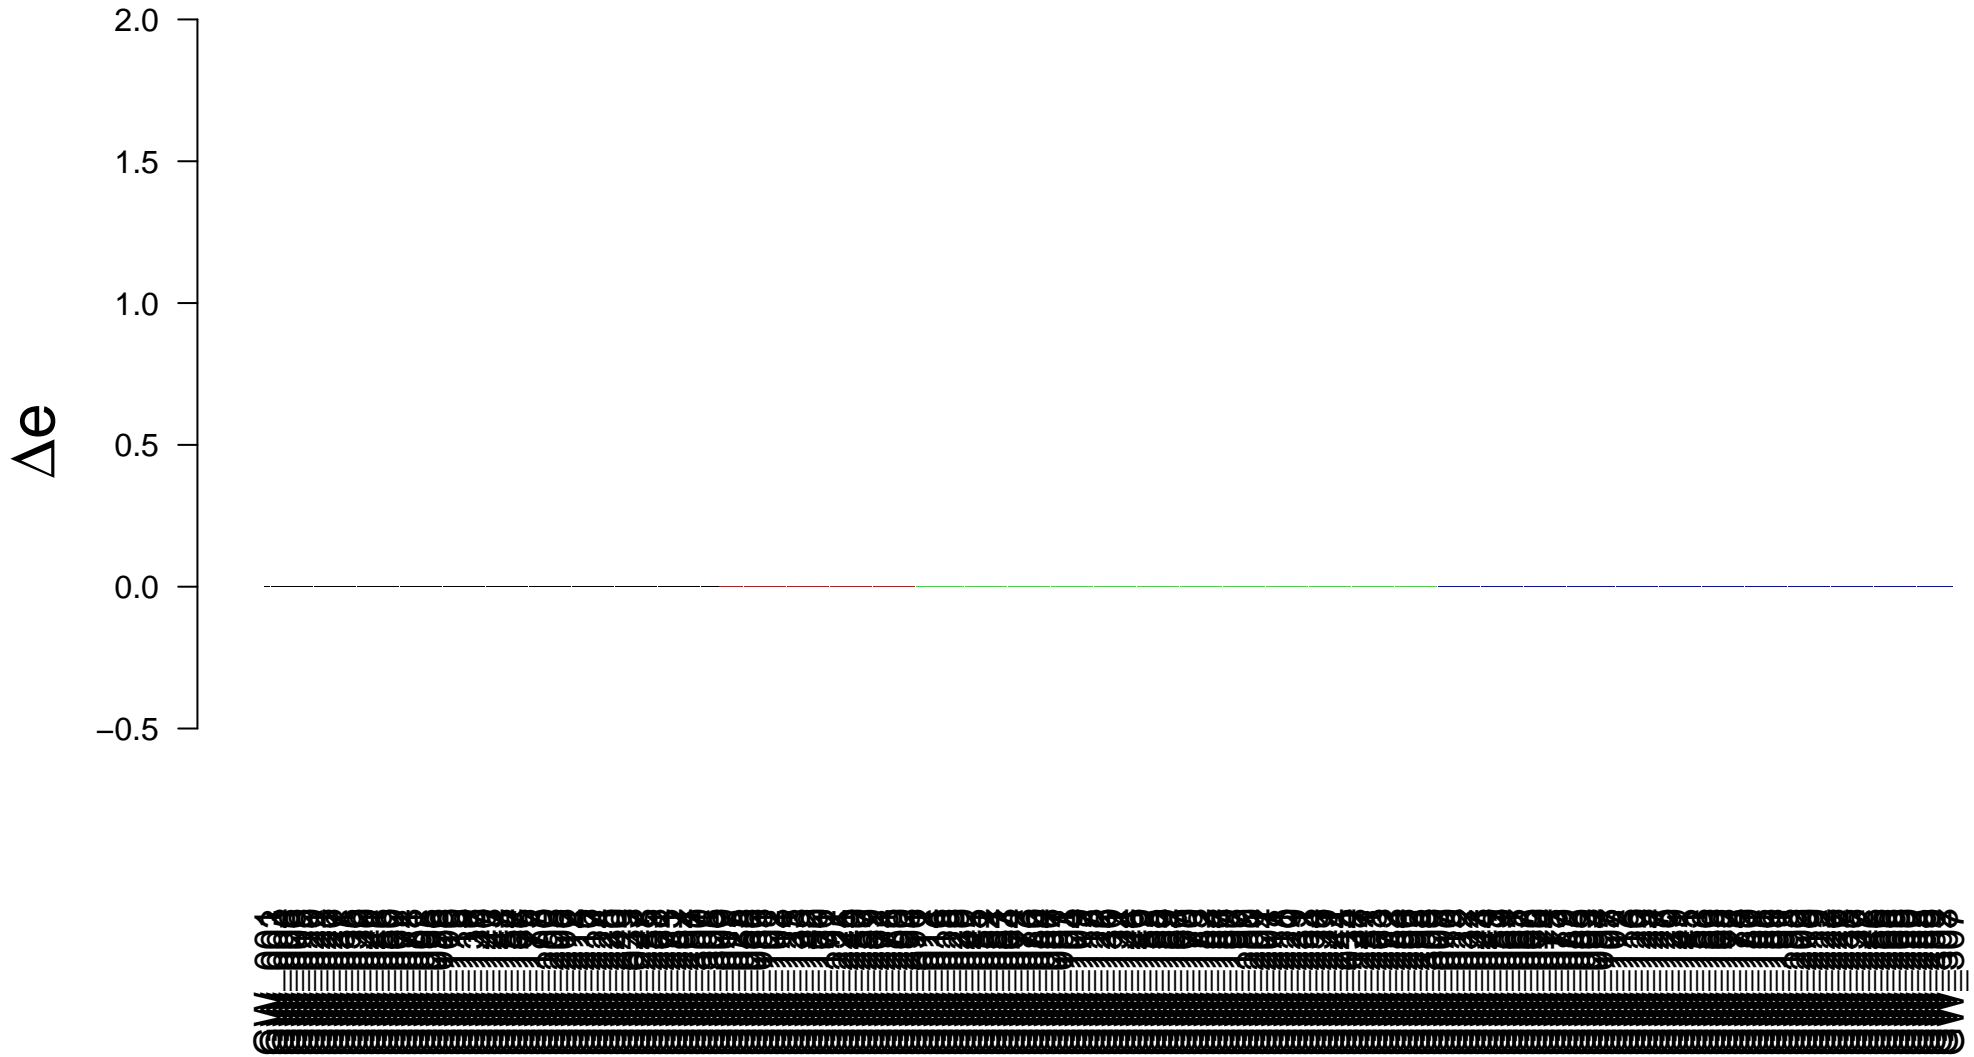

Expression of ciliary or bacterial-type flagellar motility in Spot D

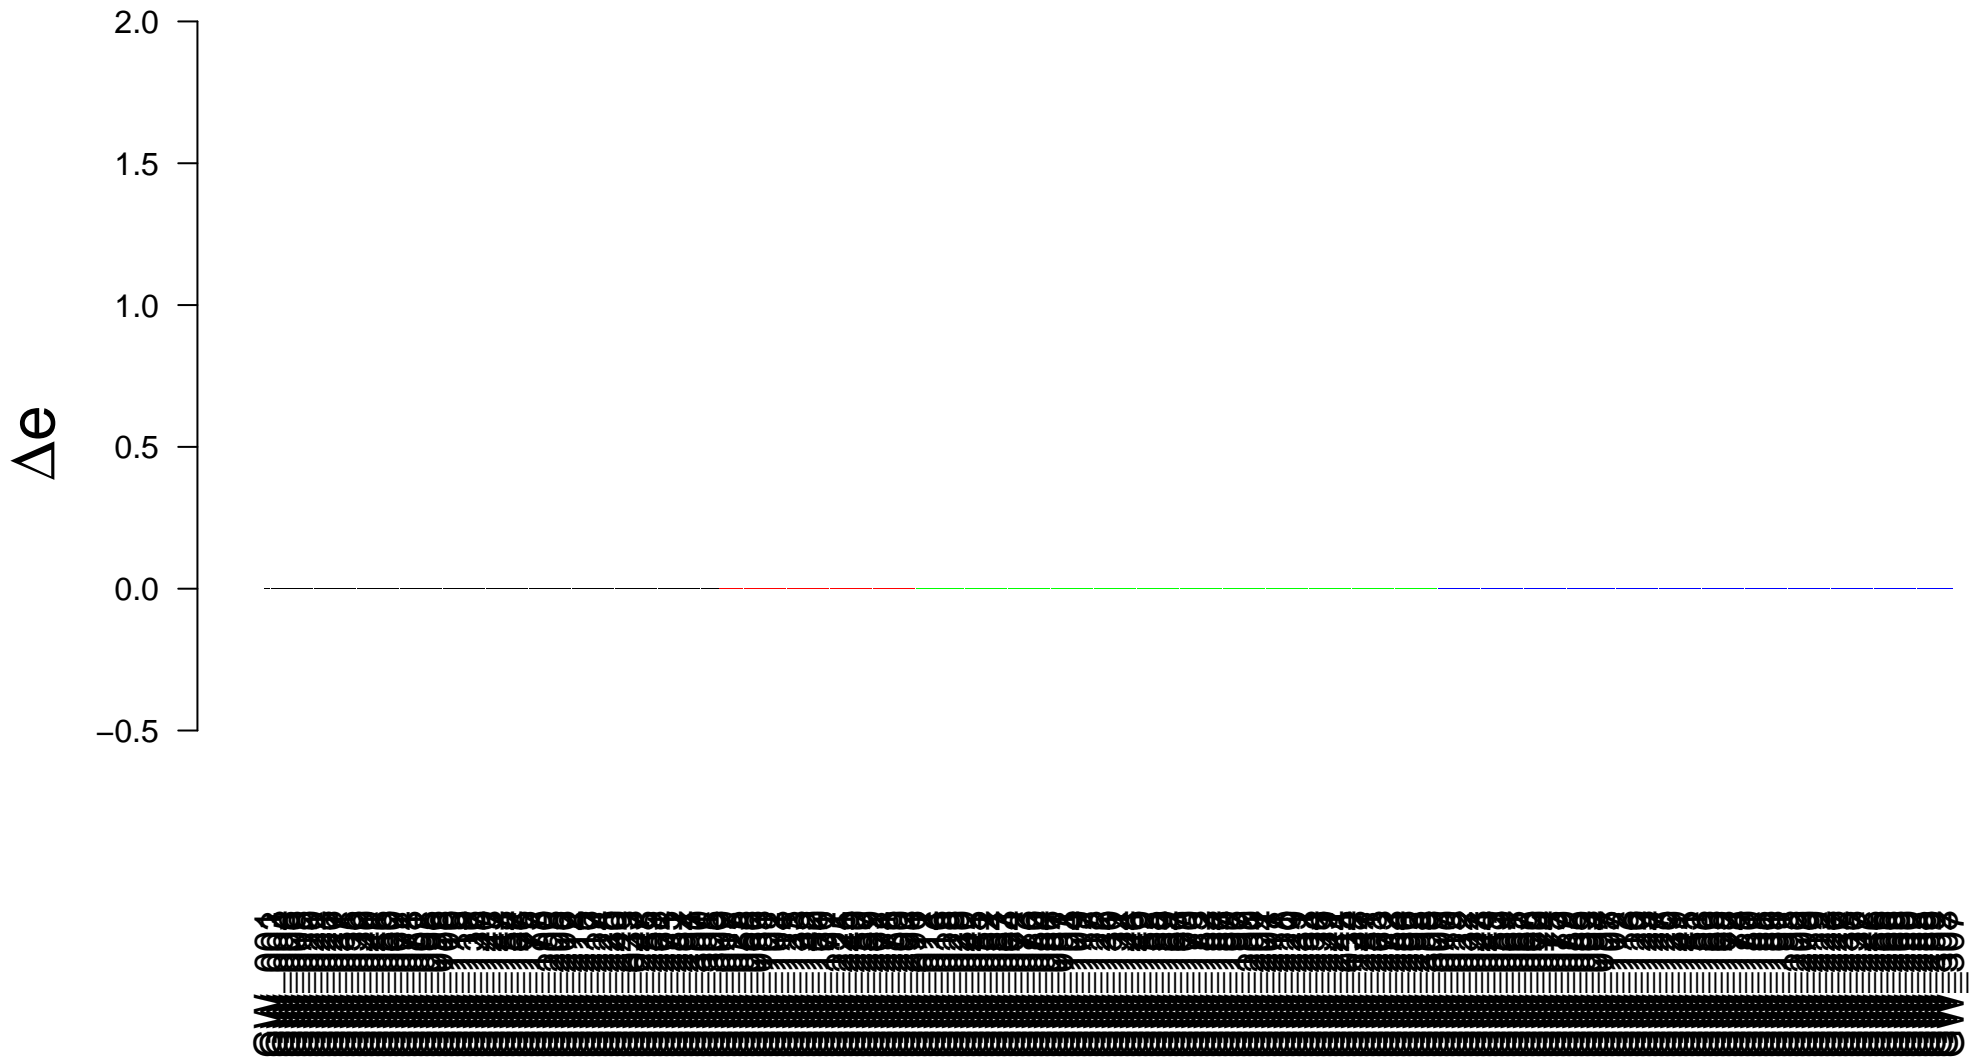

Expression of ciliary or bacterial-type flagellar motility in Spot E

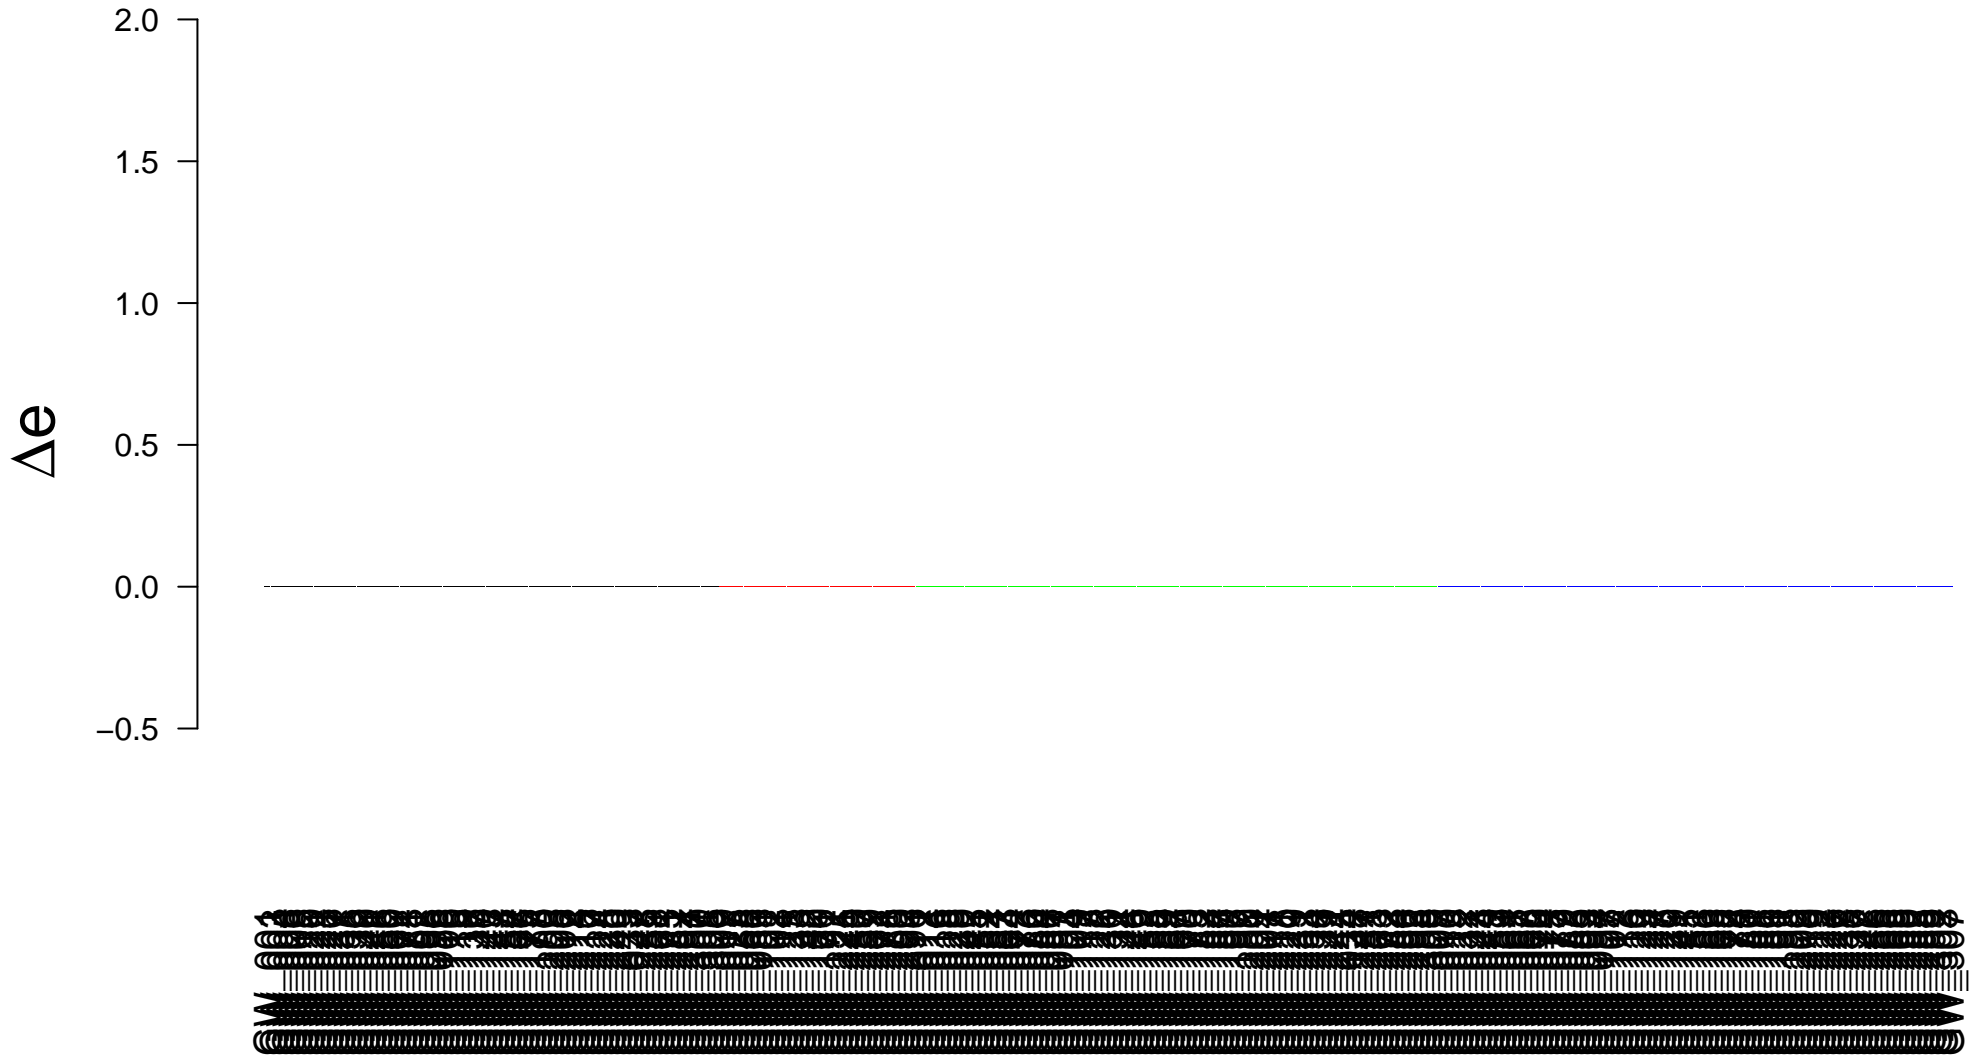

Expression of ciliary or bacterial-type flagellar motility in Spot F

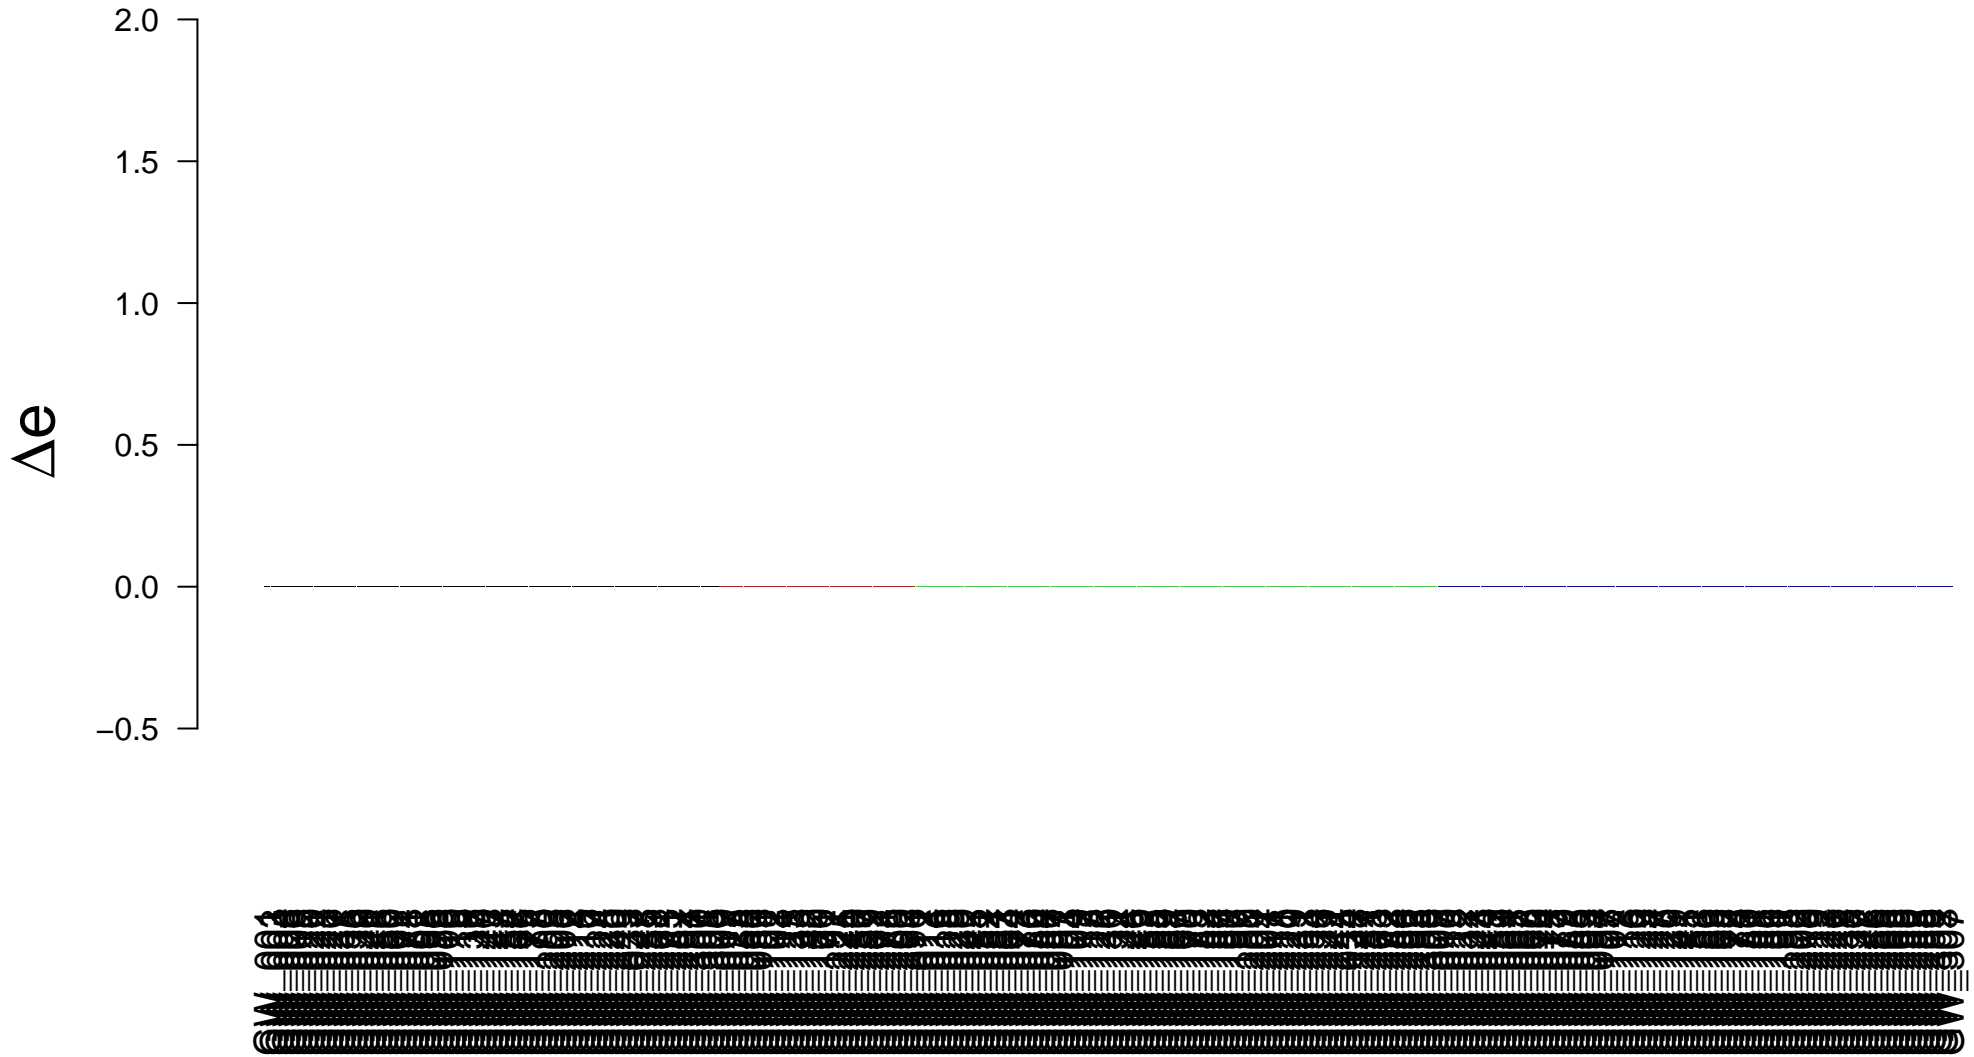

Expression of ciliary or bacterial-type flagellar motility in Spot G

Expression of ciliary or bacterial-type flagellar motility in Spot H

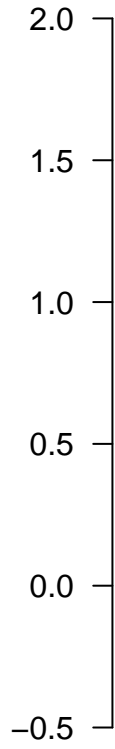

Expression of ciliary or bacterial-type flagellar motility in Spot I

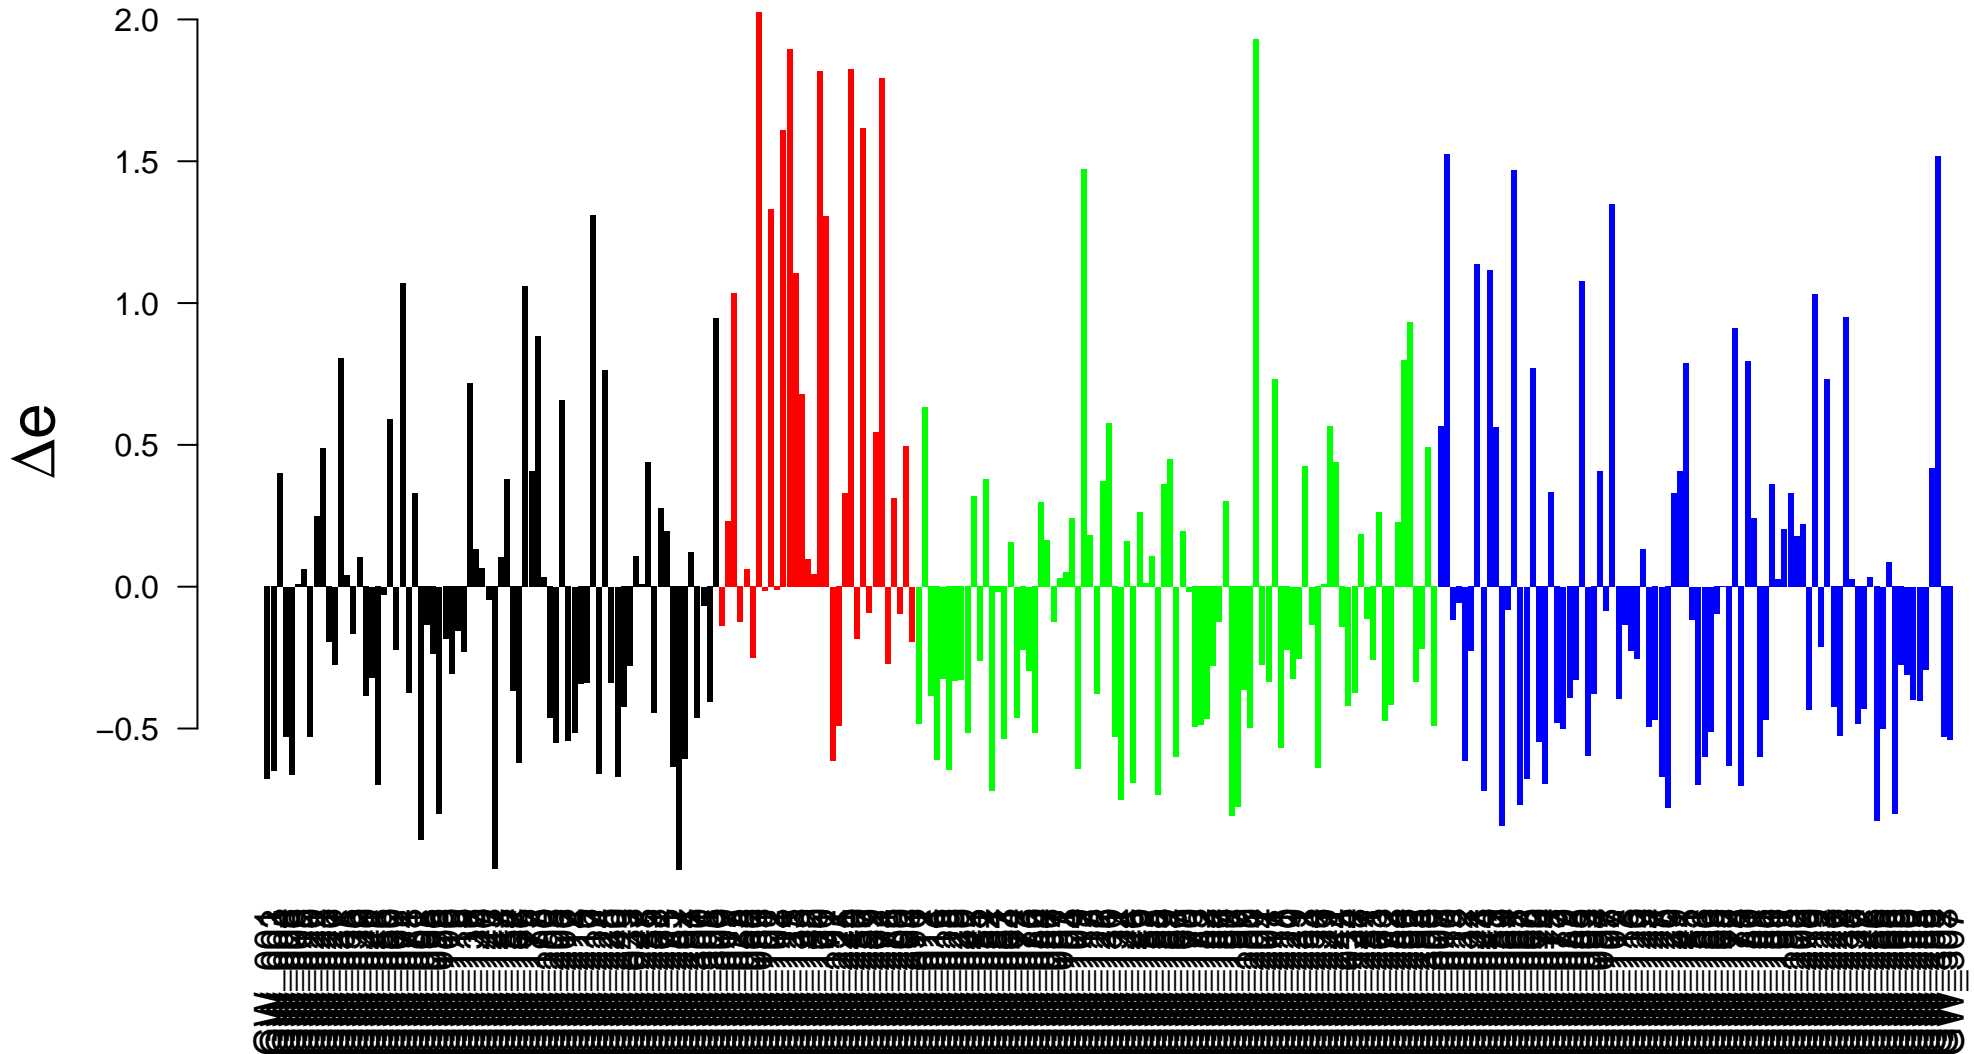

Expression of ciliary or bacterial-type flagellar motility in Spot J

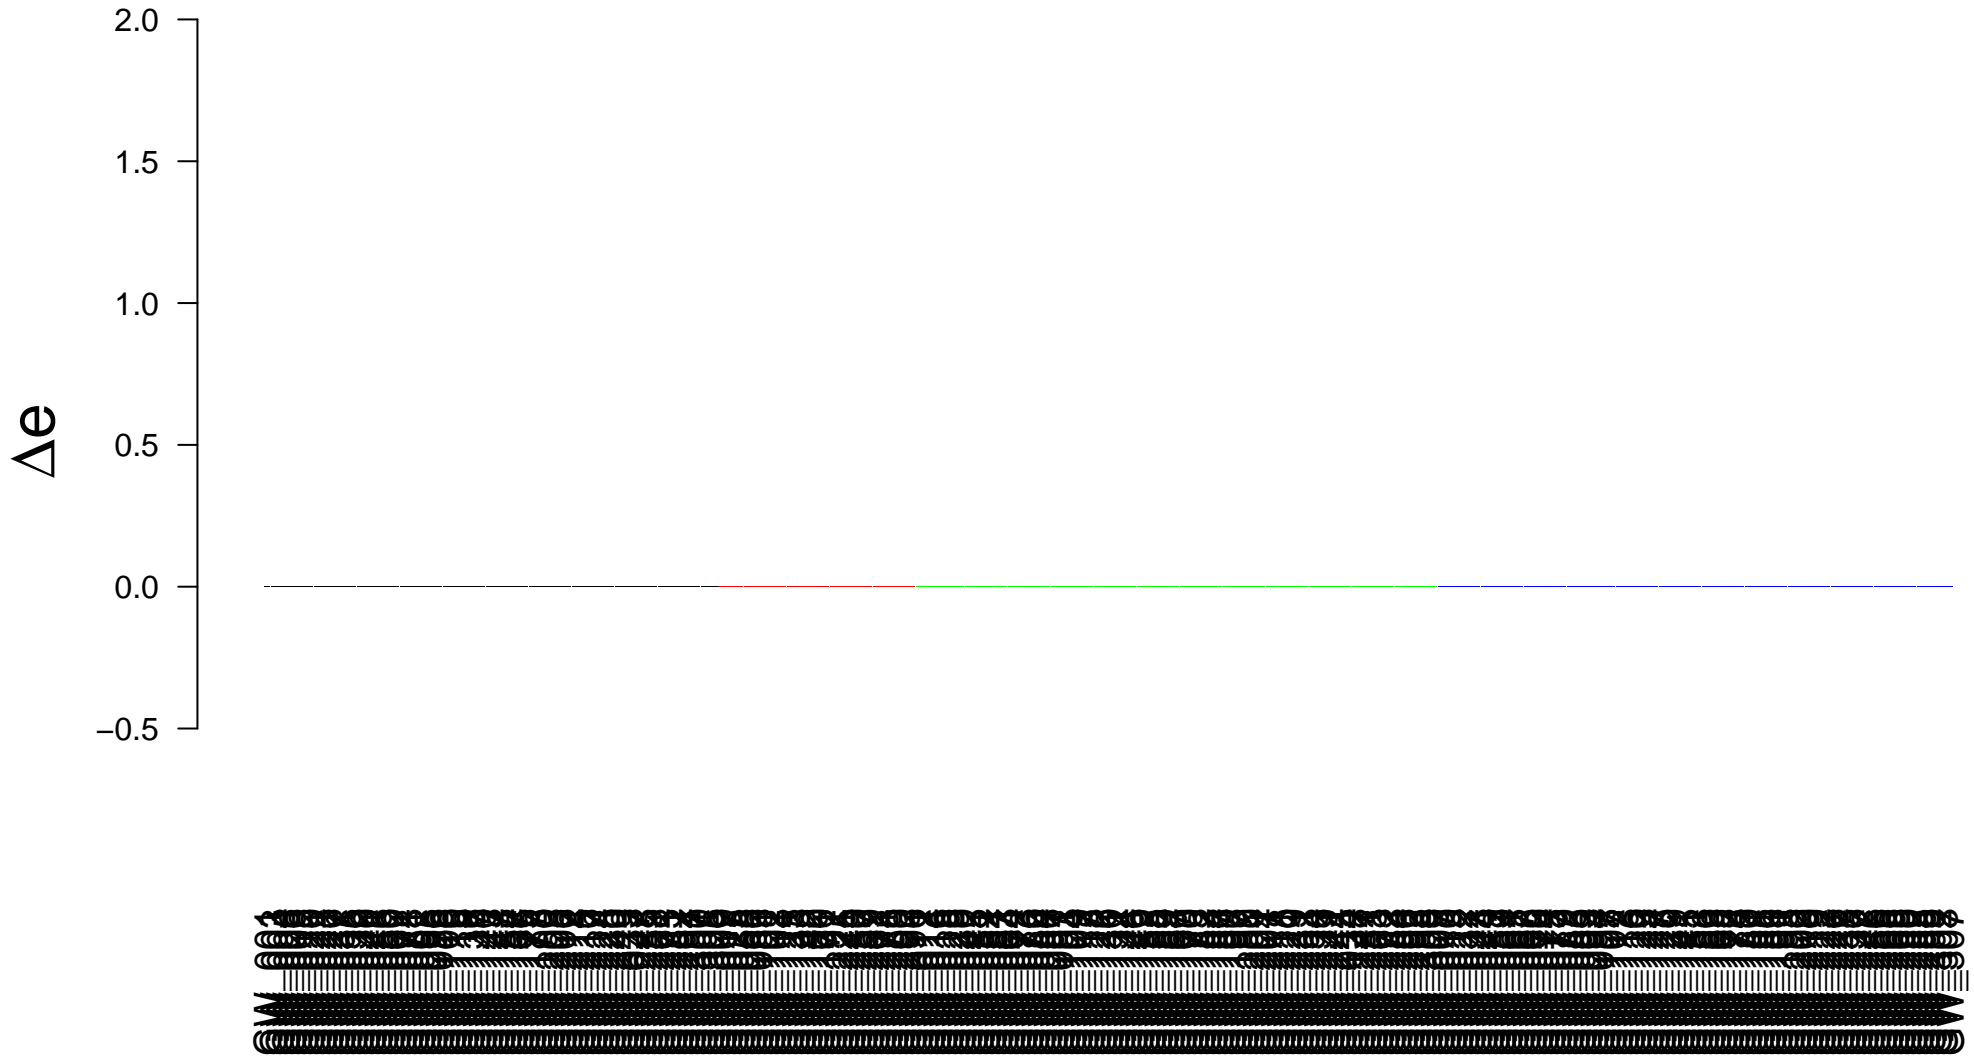

Δe

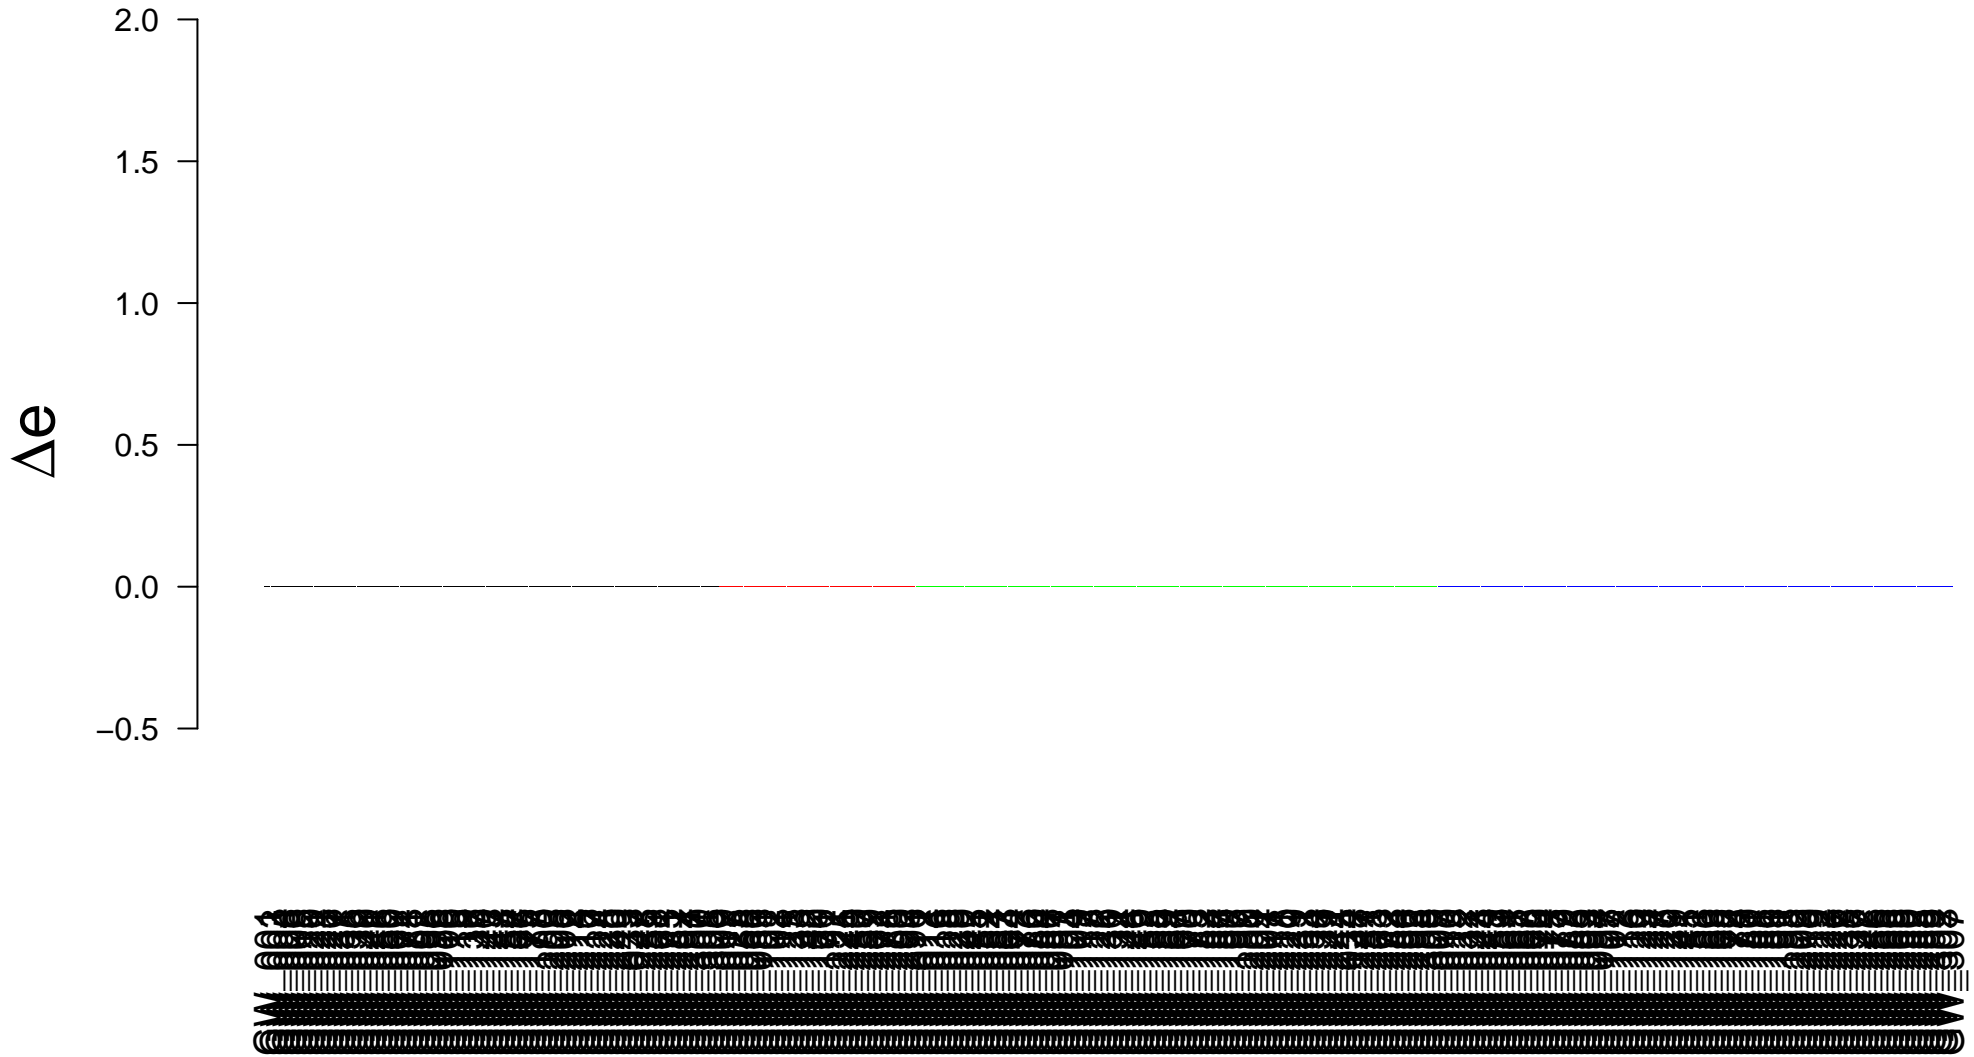

Expression of ciliary or bacterial-type flagellar motility in Spot K

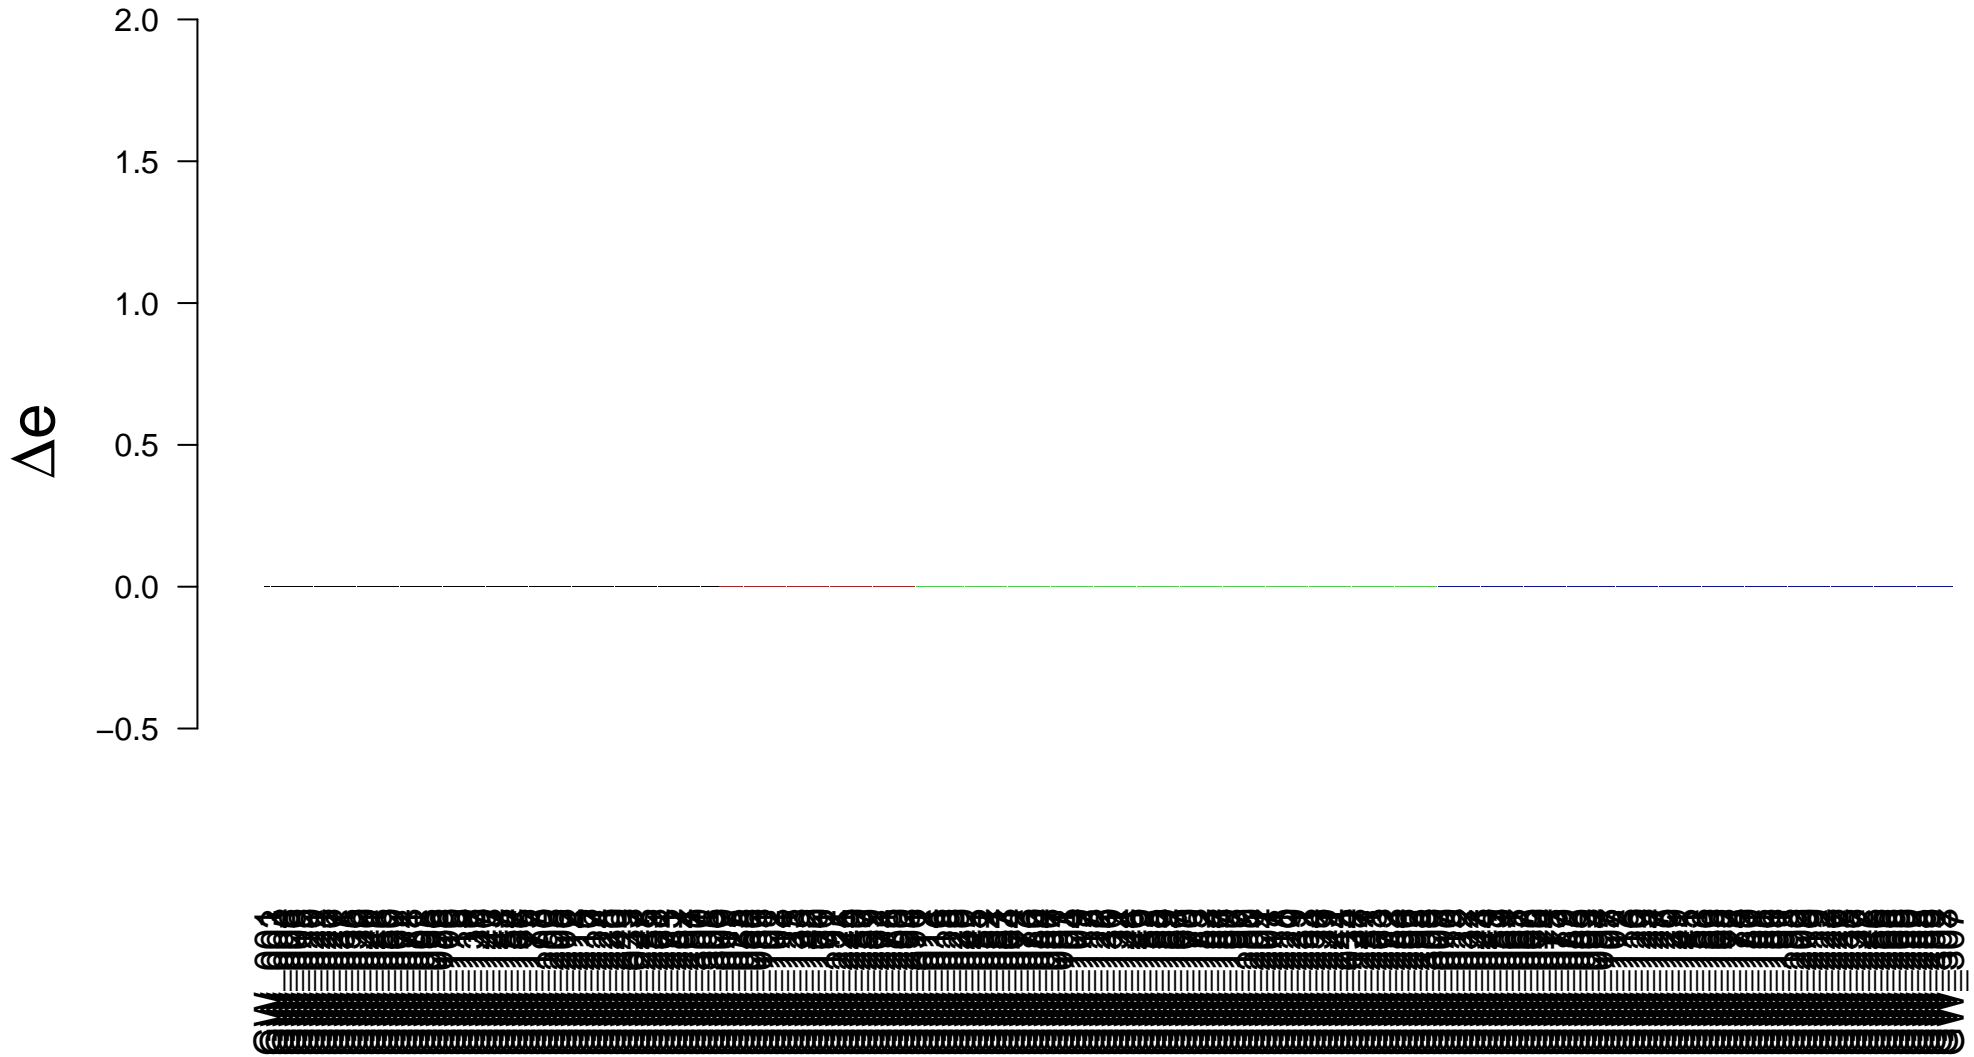

Expression of ciliary or bacterial-type flagellar motility in Spot L

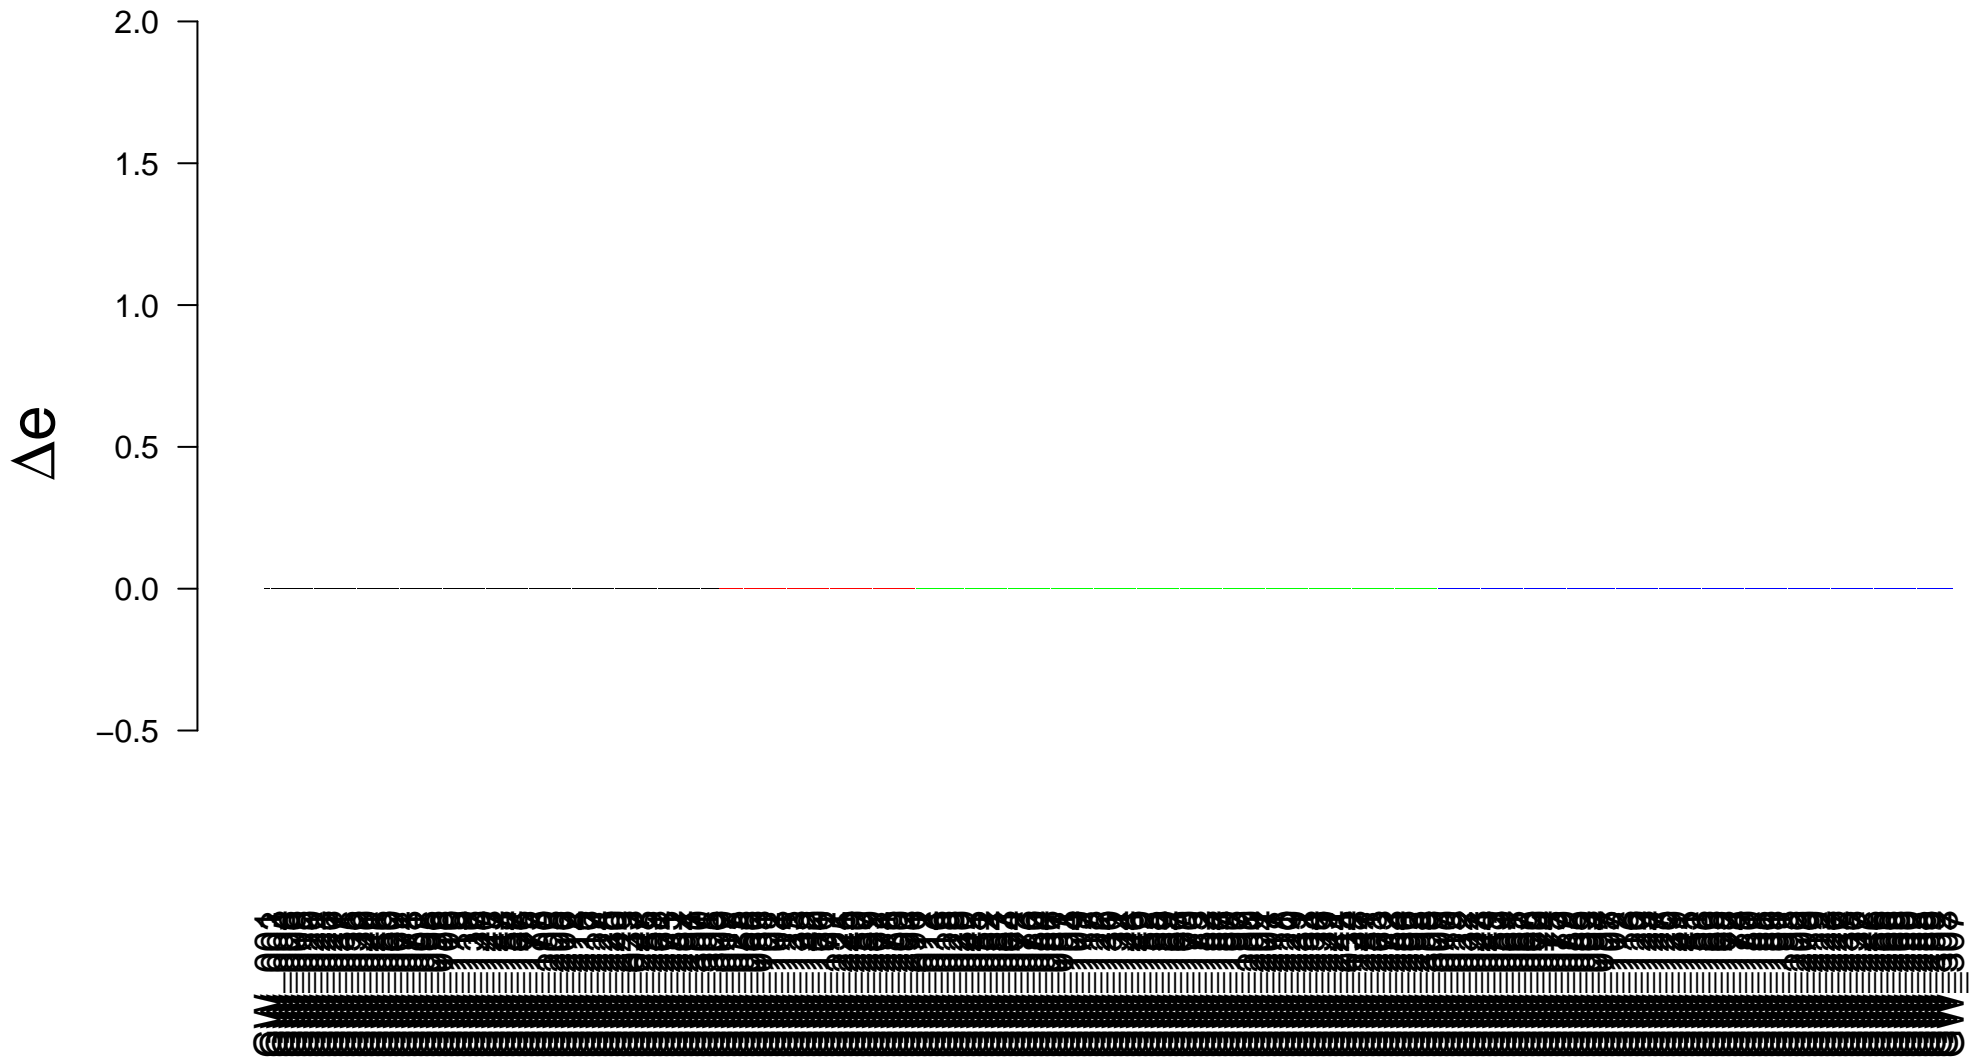

Expression of ciliary or bacterial-type flagellar motility in Spot M

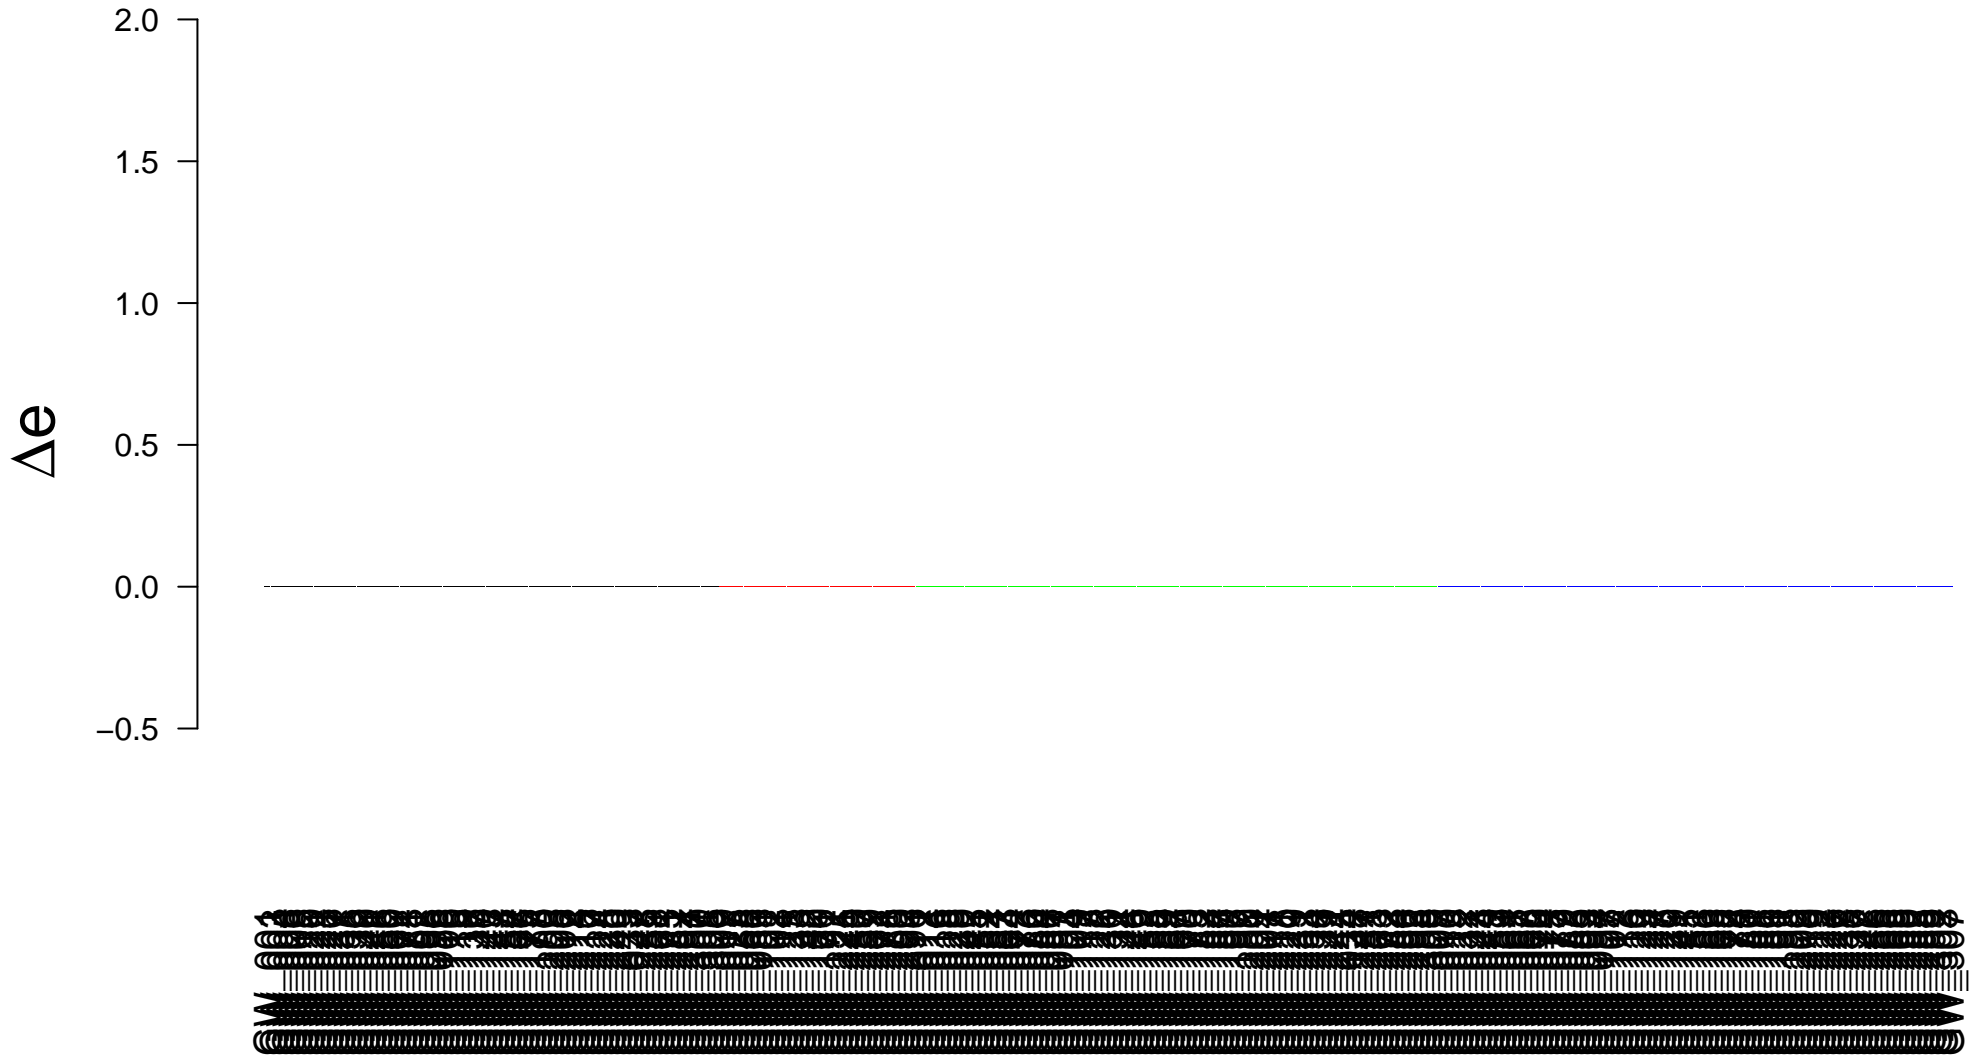

Expression of ciliary or bacterial-type flagellar motility in Spot N

Expression of ciliary or bacterial-type flagellar motility in Spot O

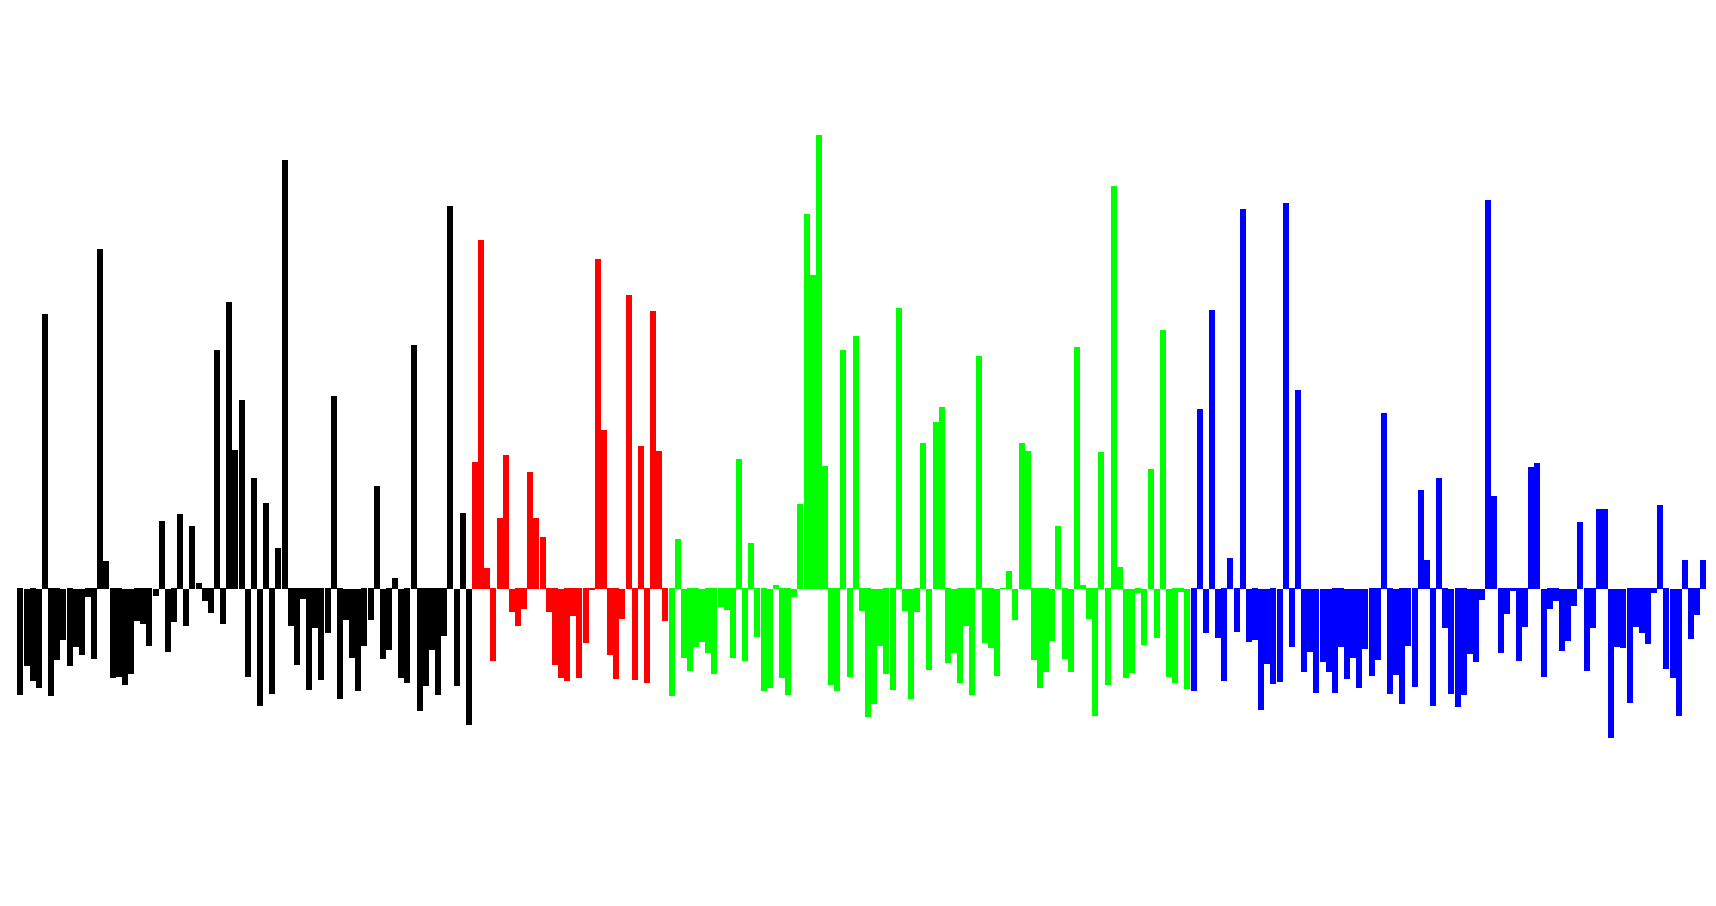

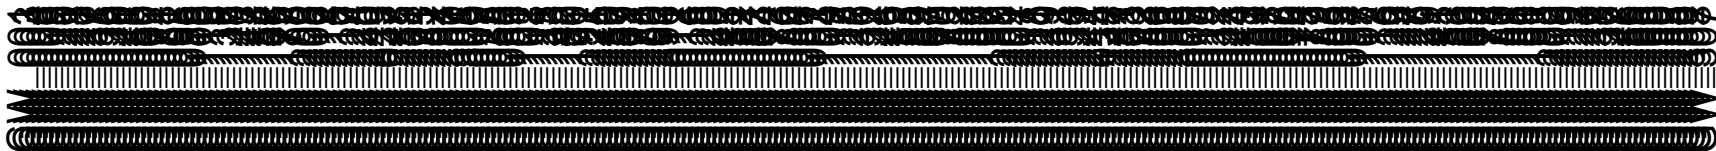

Expression of ciliary or bacterial-type flagellar motility in Spot P

Expression of ciliary or bacterial-type flagellar motility in Spot Q

Δe

Expression of ciliary or bacterial-type flagellar motility in Spot R
