

# complement activation, classical pathway

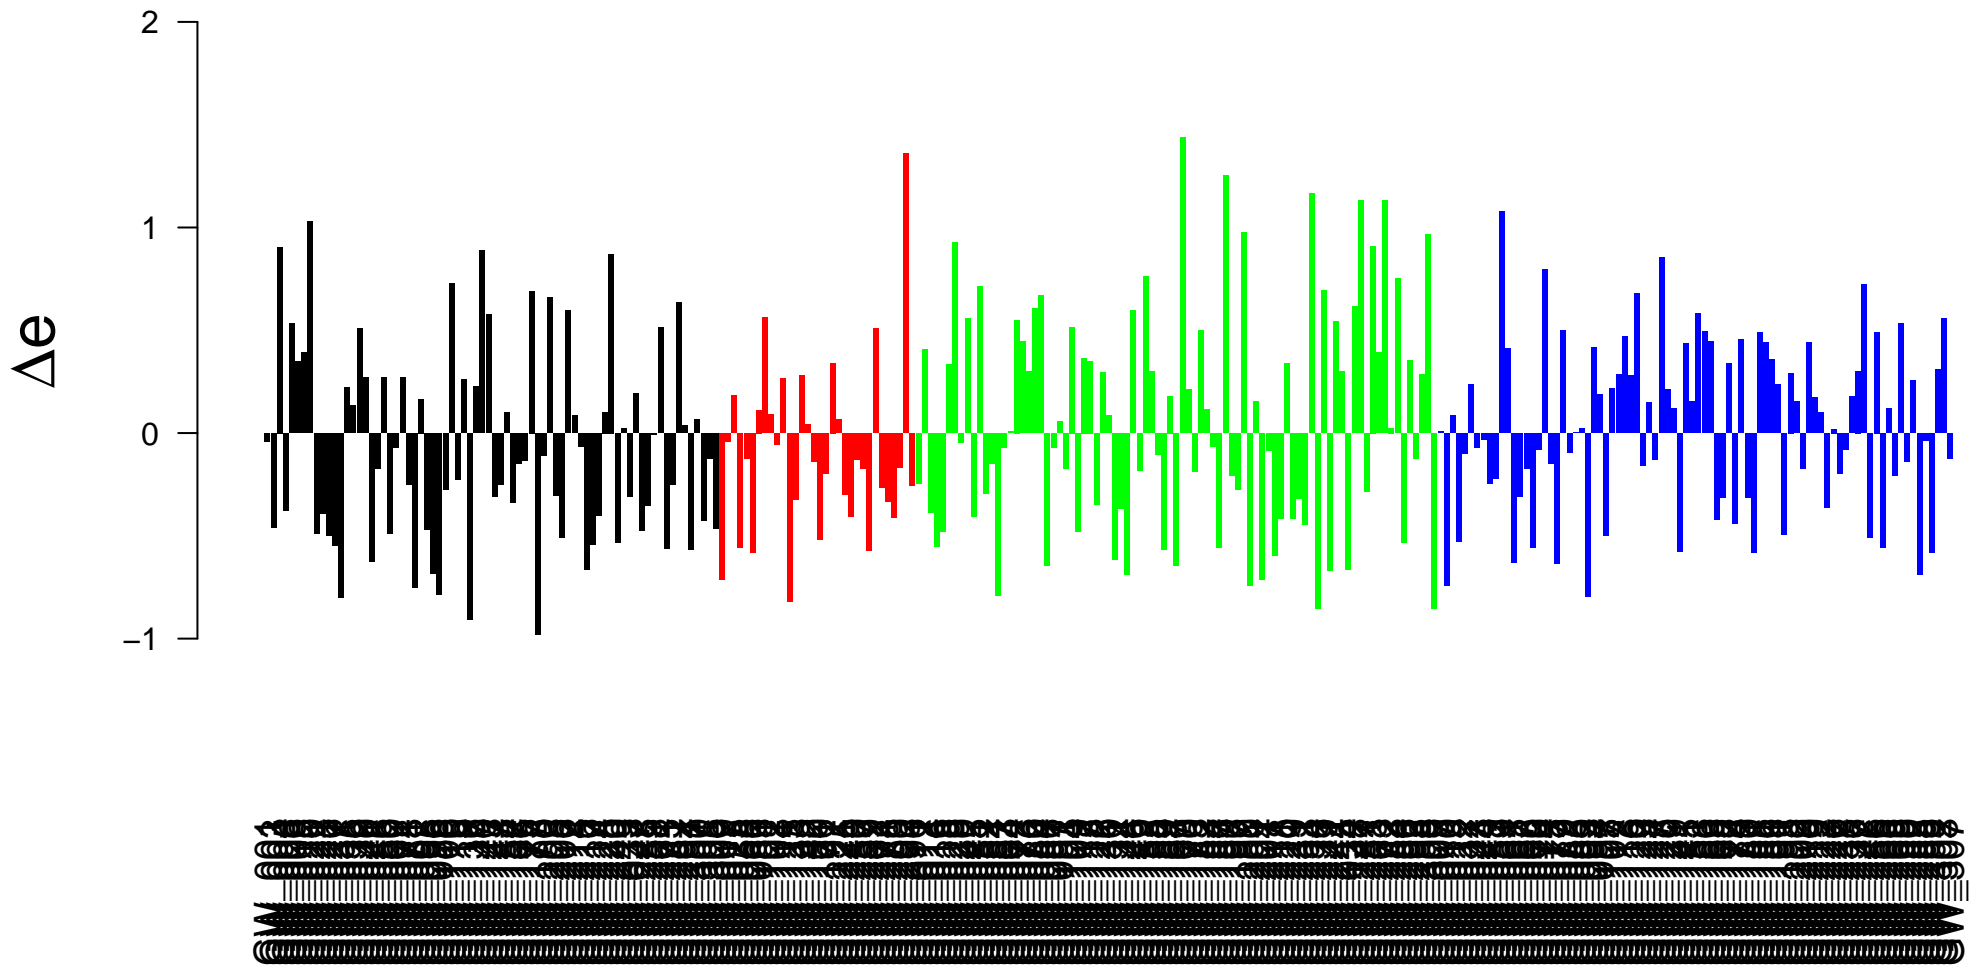

# complement activation, classical pathway

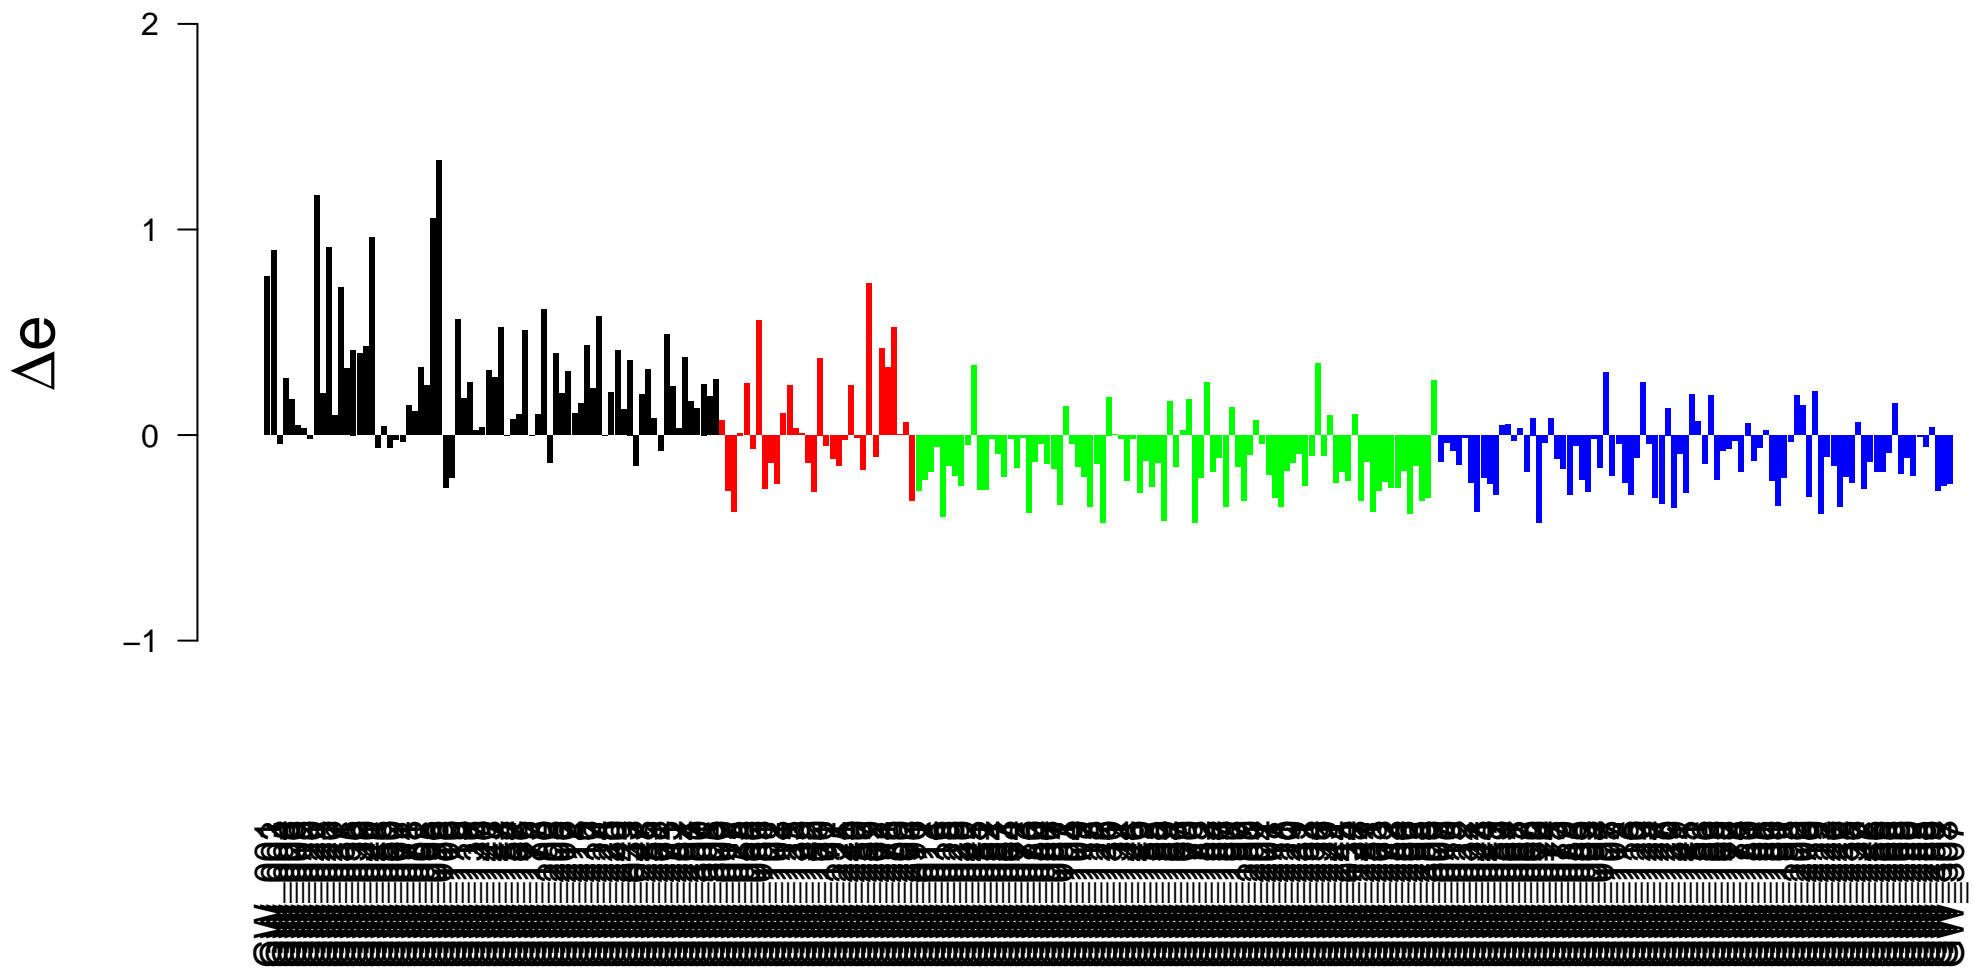

### Enrichment in spots: complement activation, classical pathway

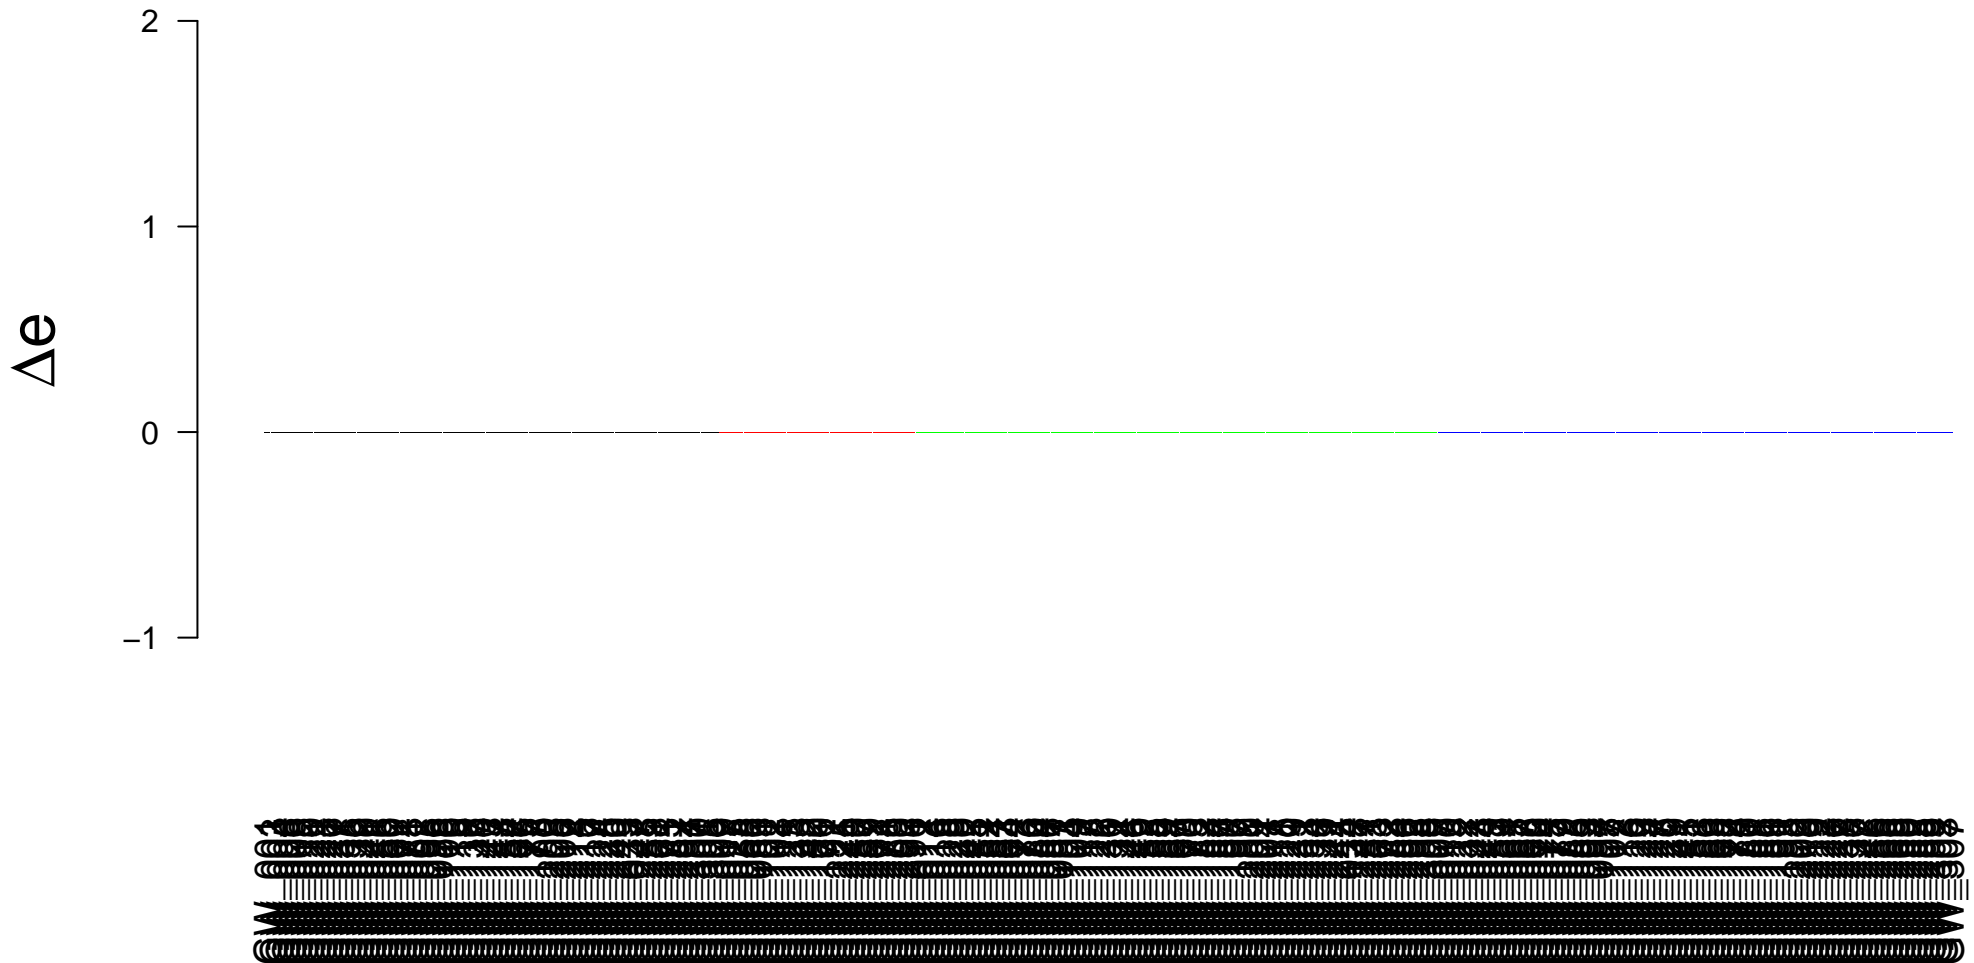

# Expression of complement activation, classical pathway in Spot A

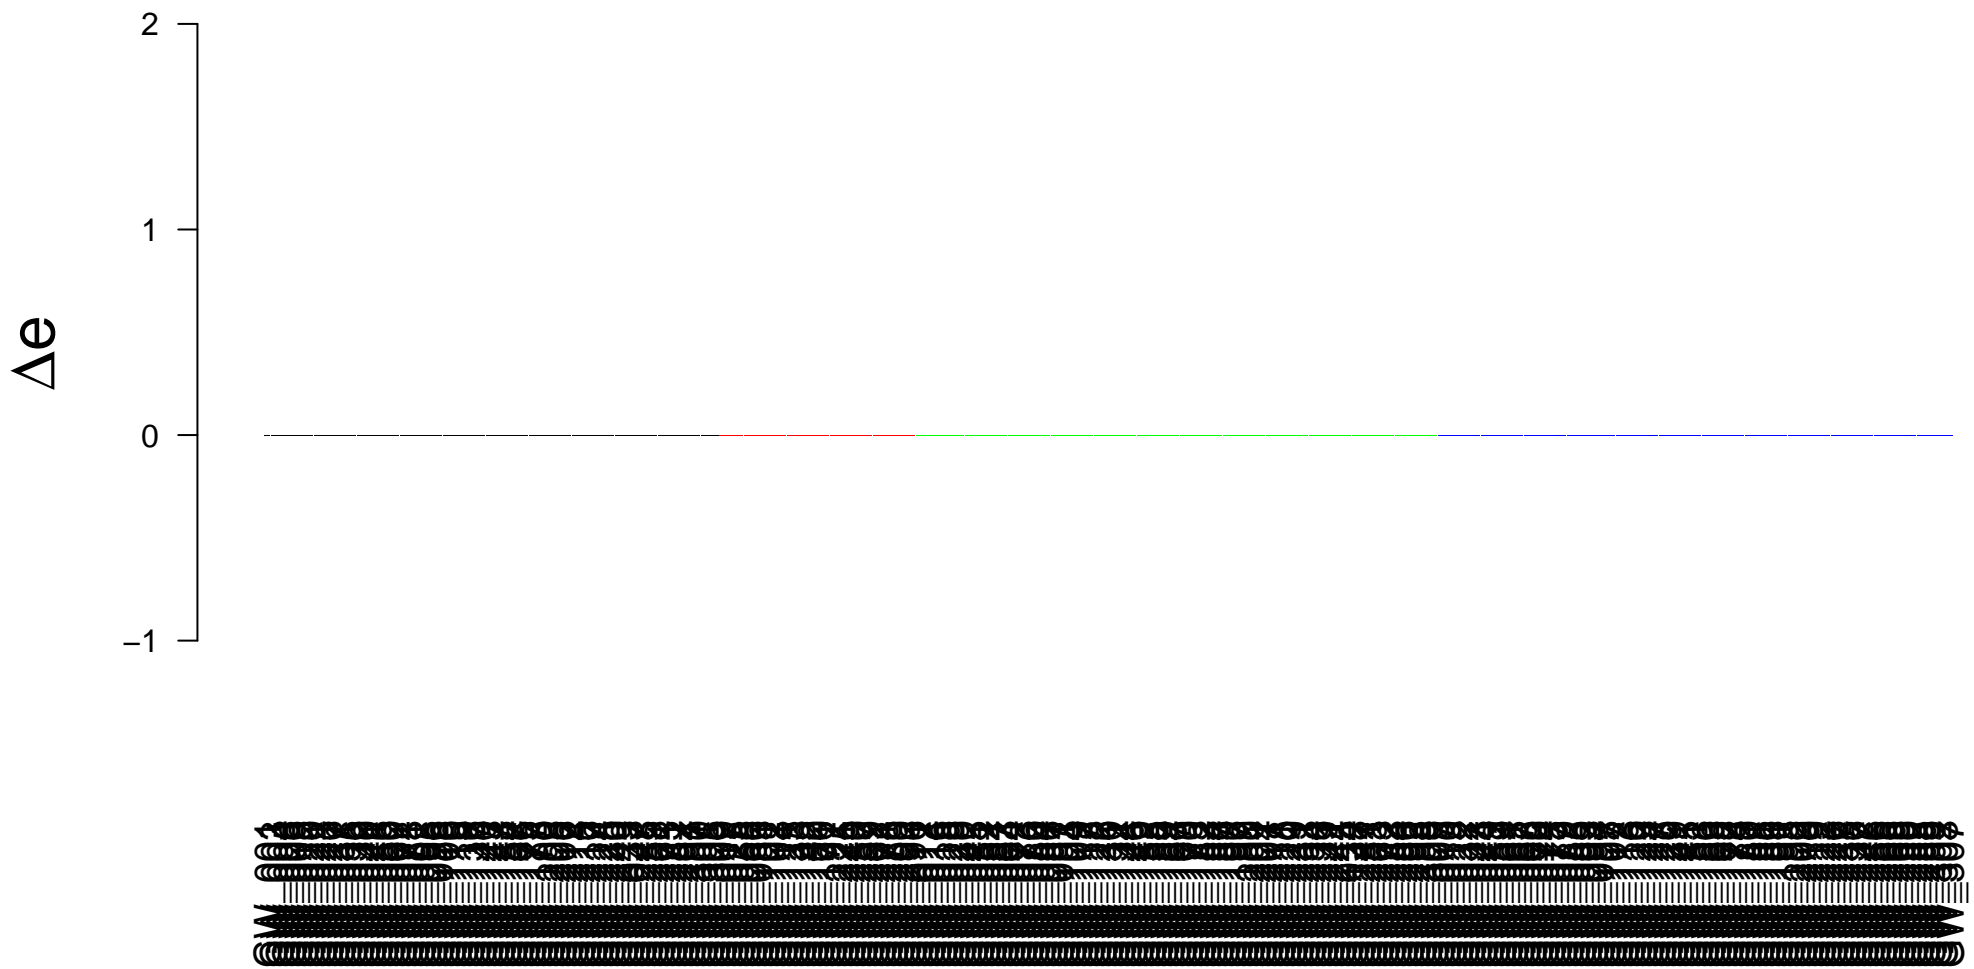

# Expression of complement activation, classical pathway in Spot B

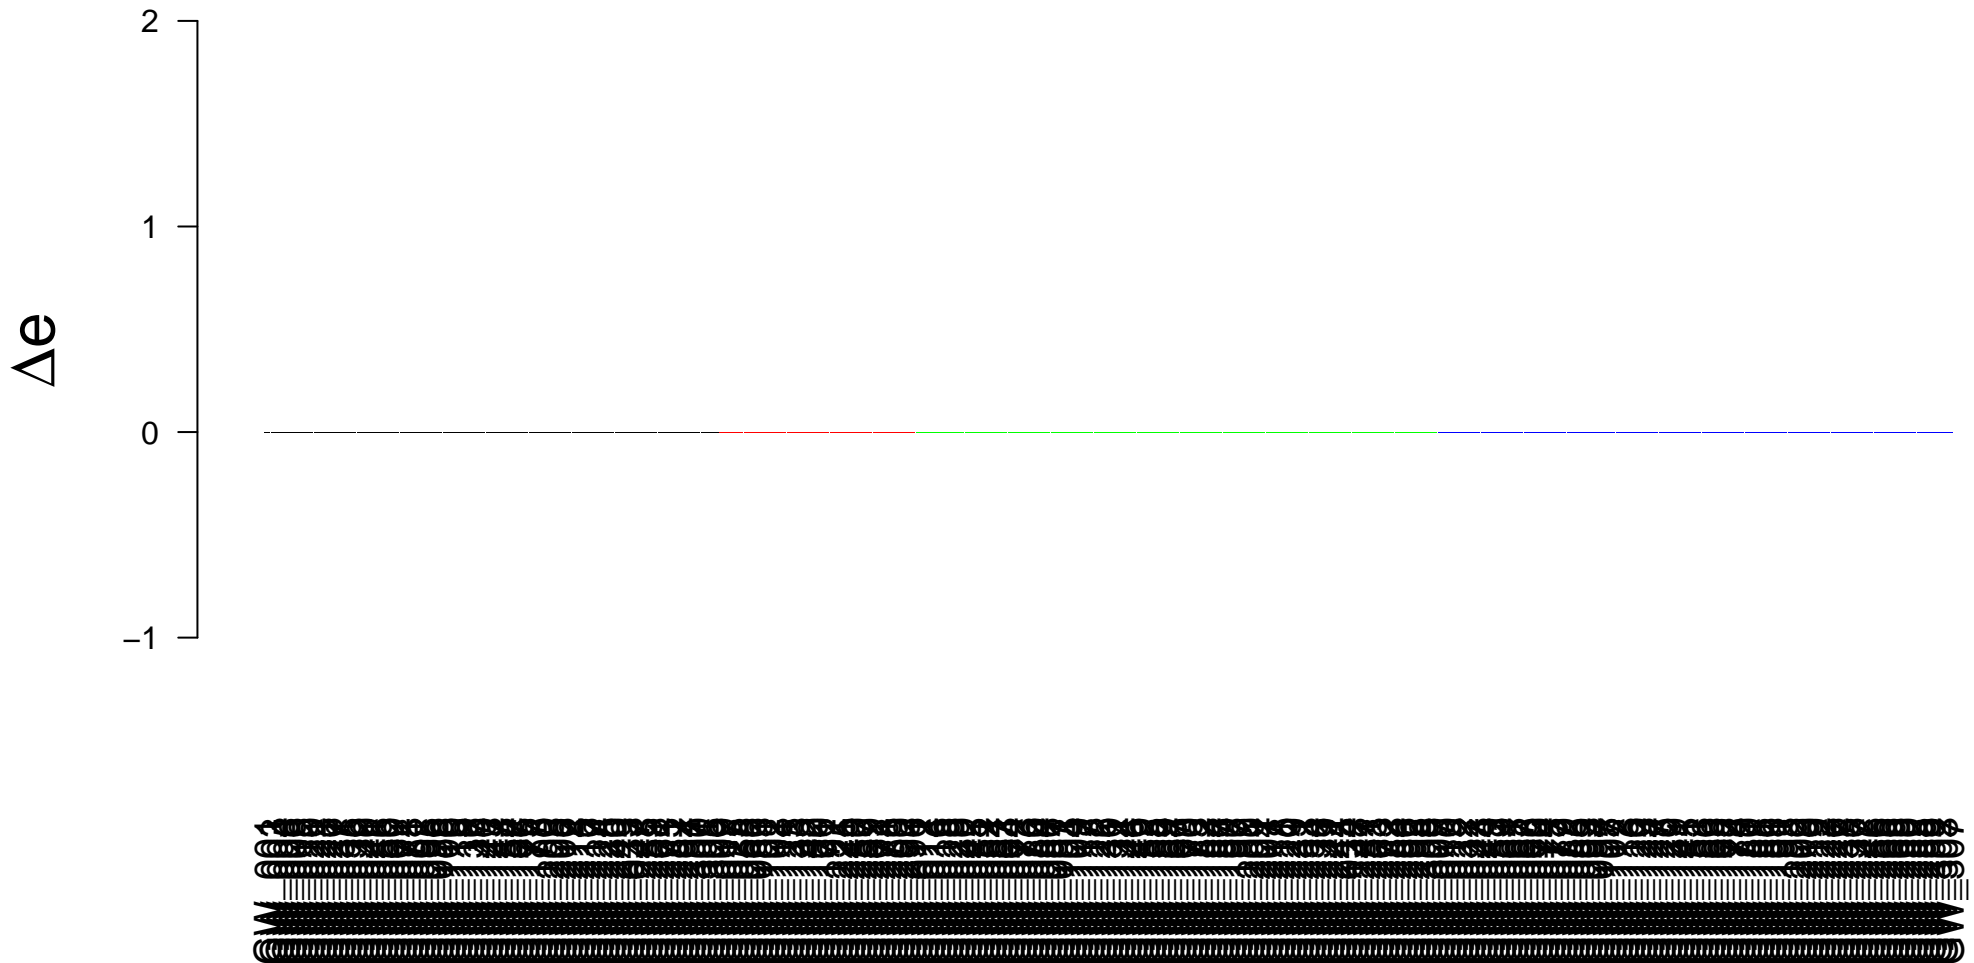

# Expression of complement activation, classical pathway in Spot C

# Expression of complement activation, classical pathway in Spot D

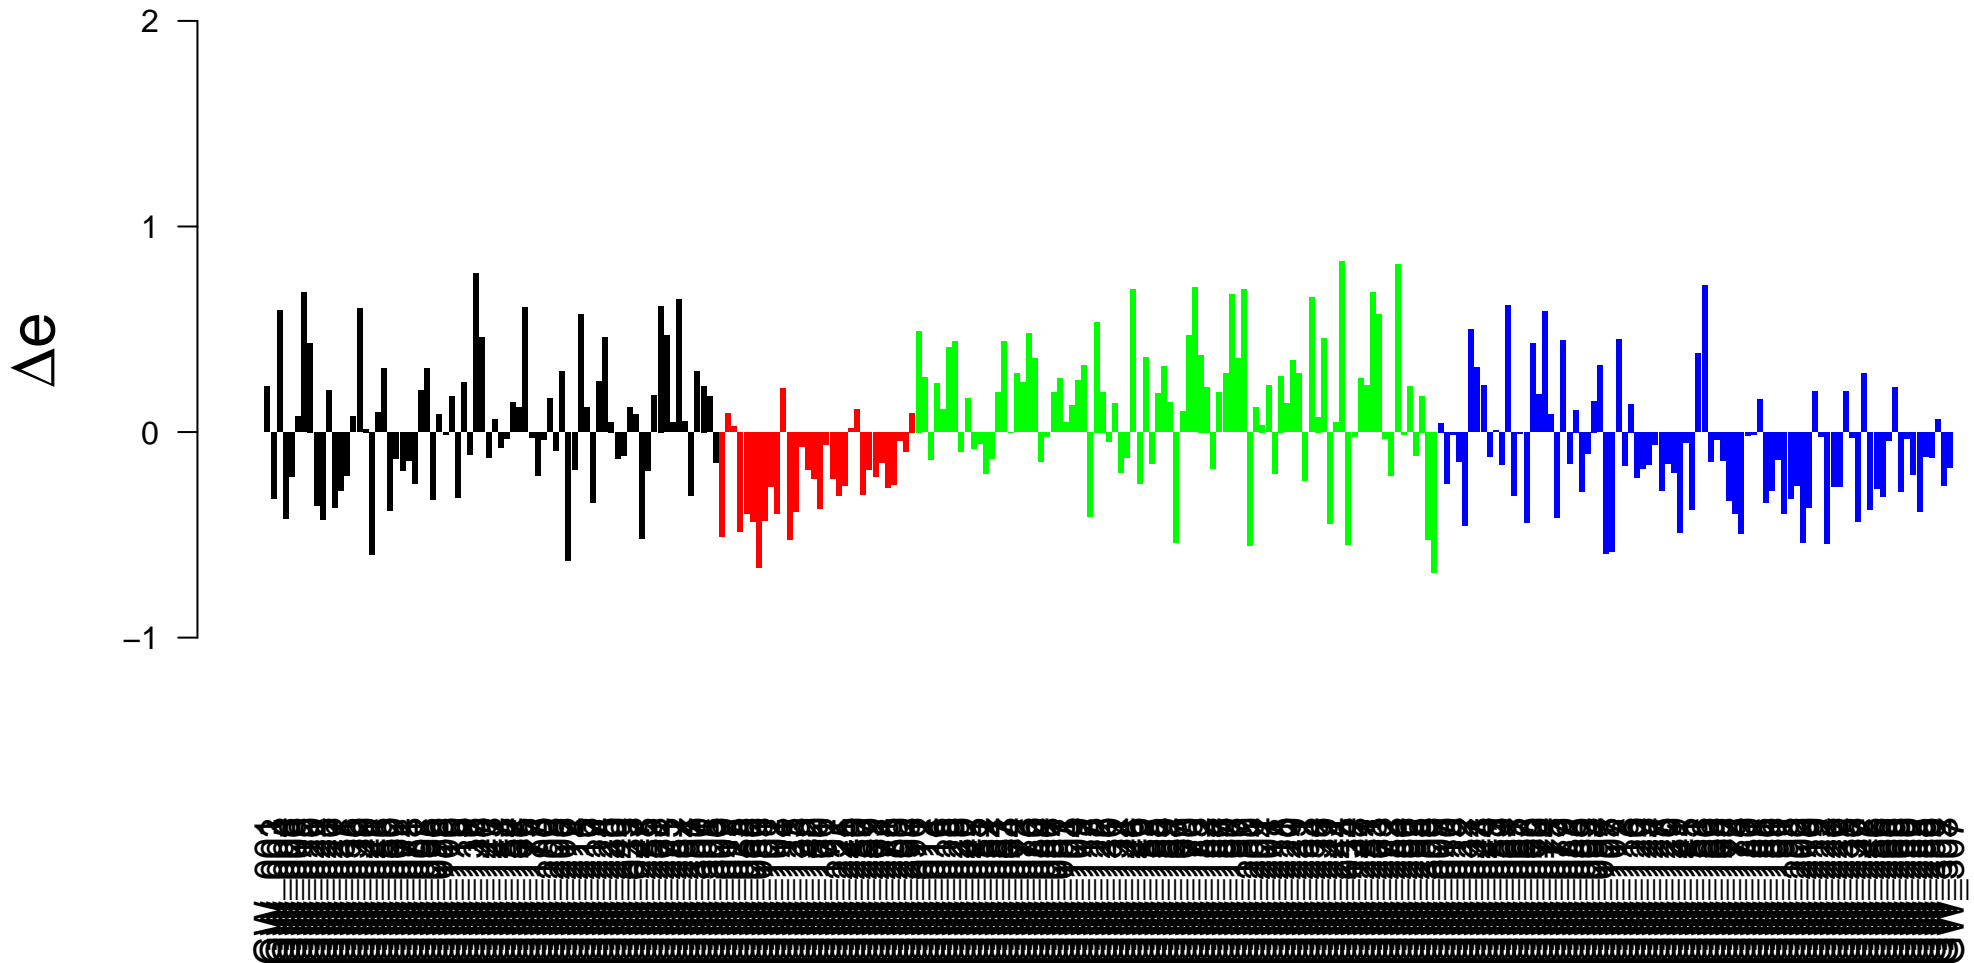

# Expression of complement activation, classical pathway in Spot E

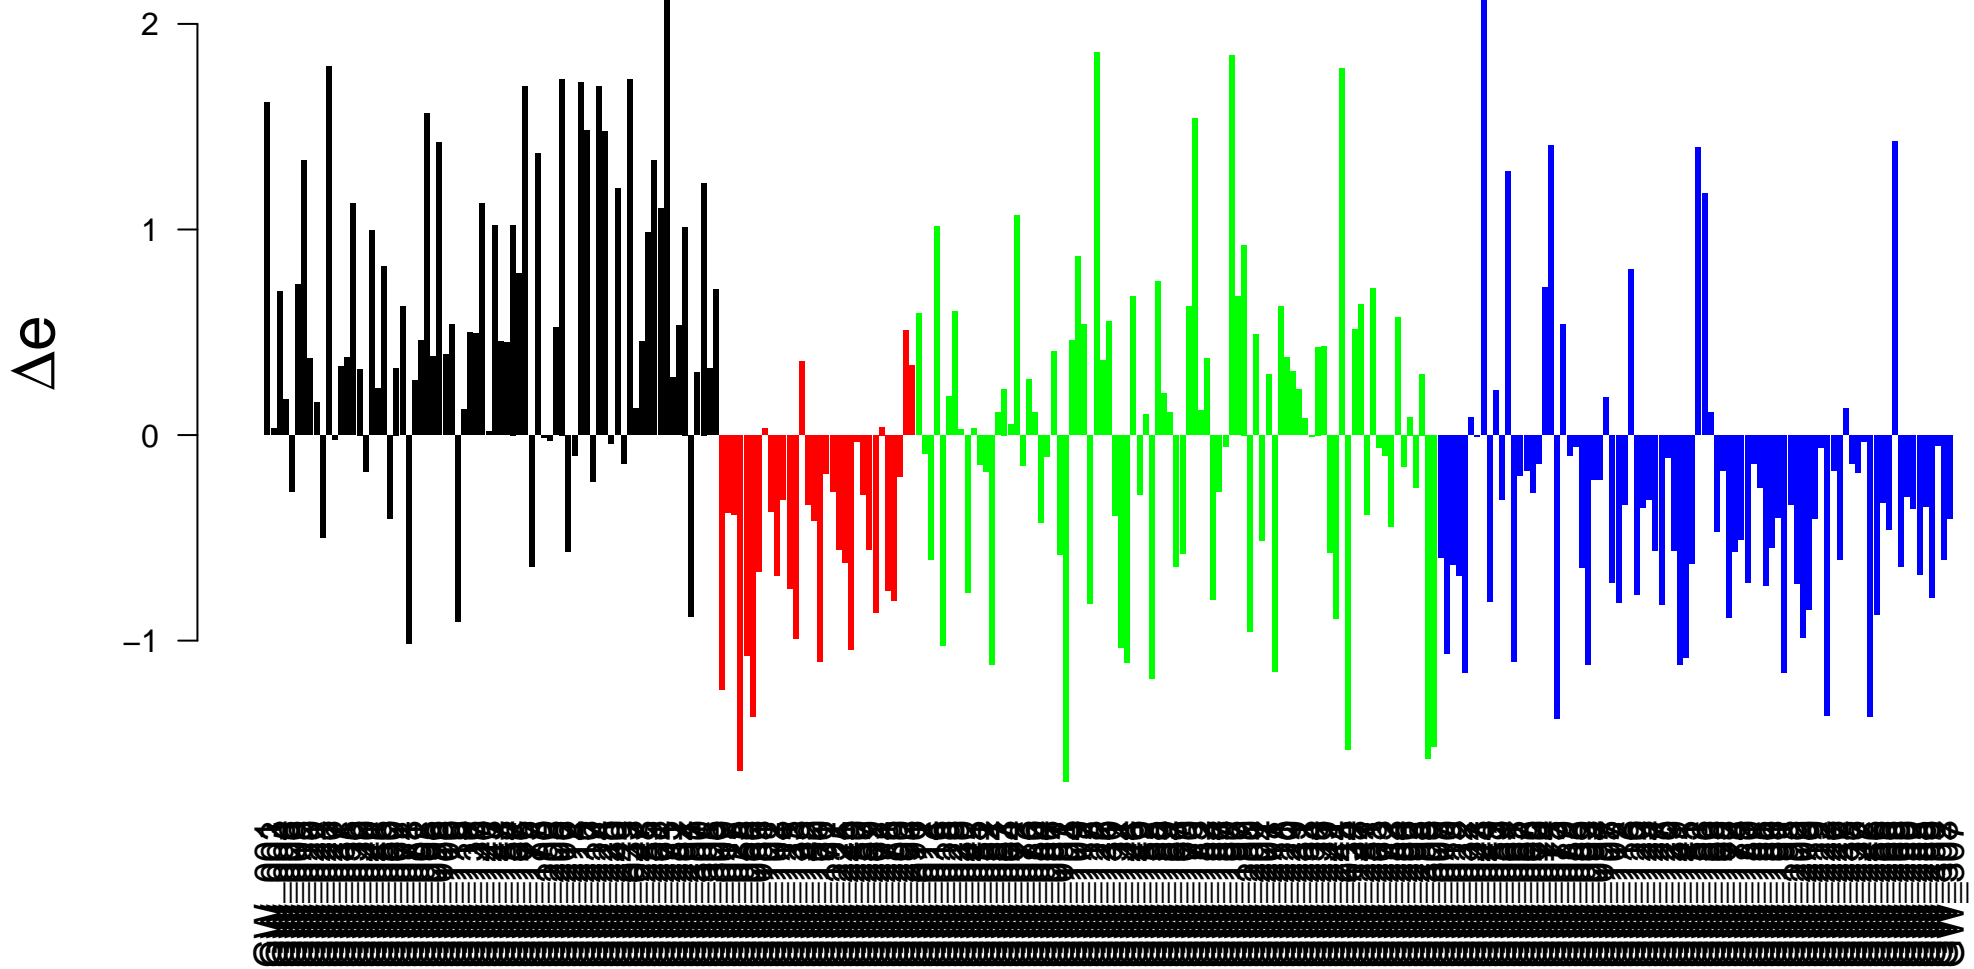

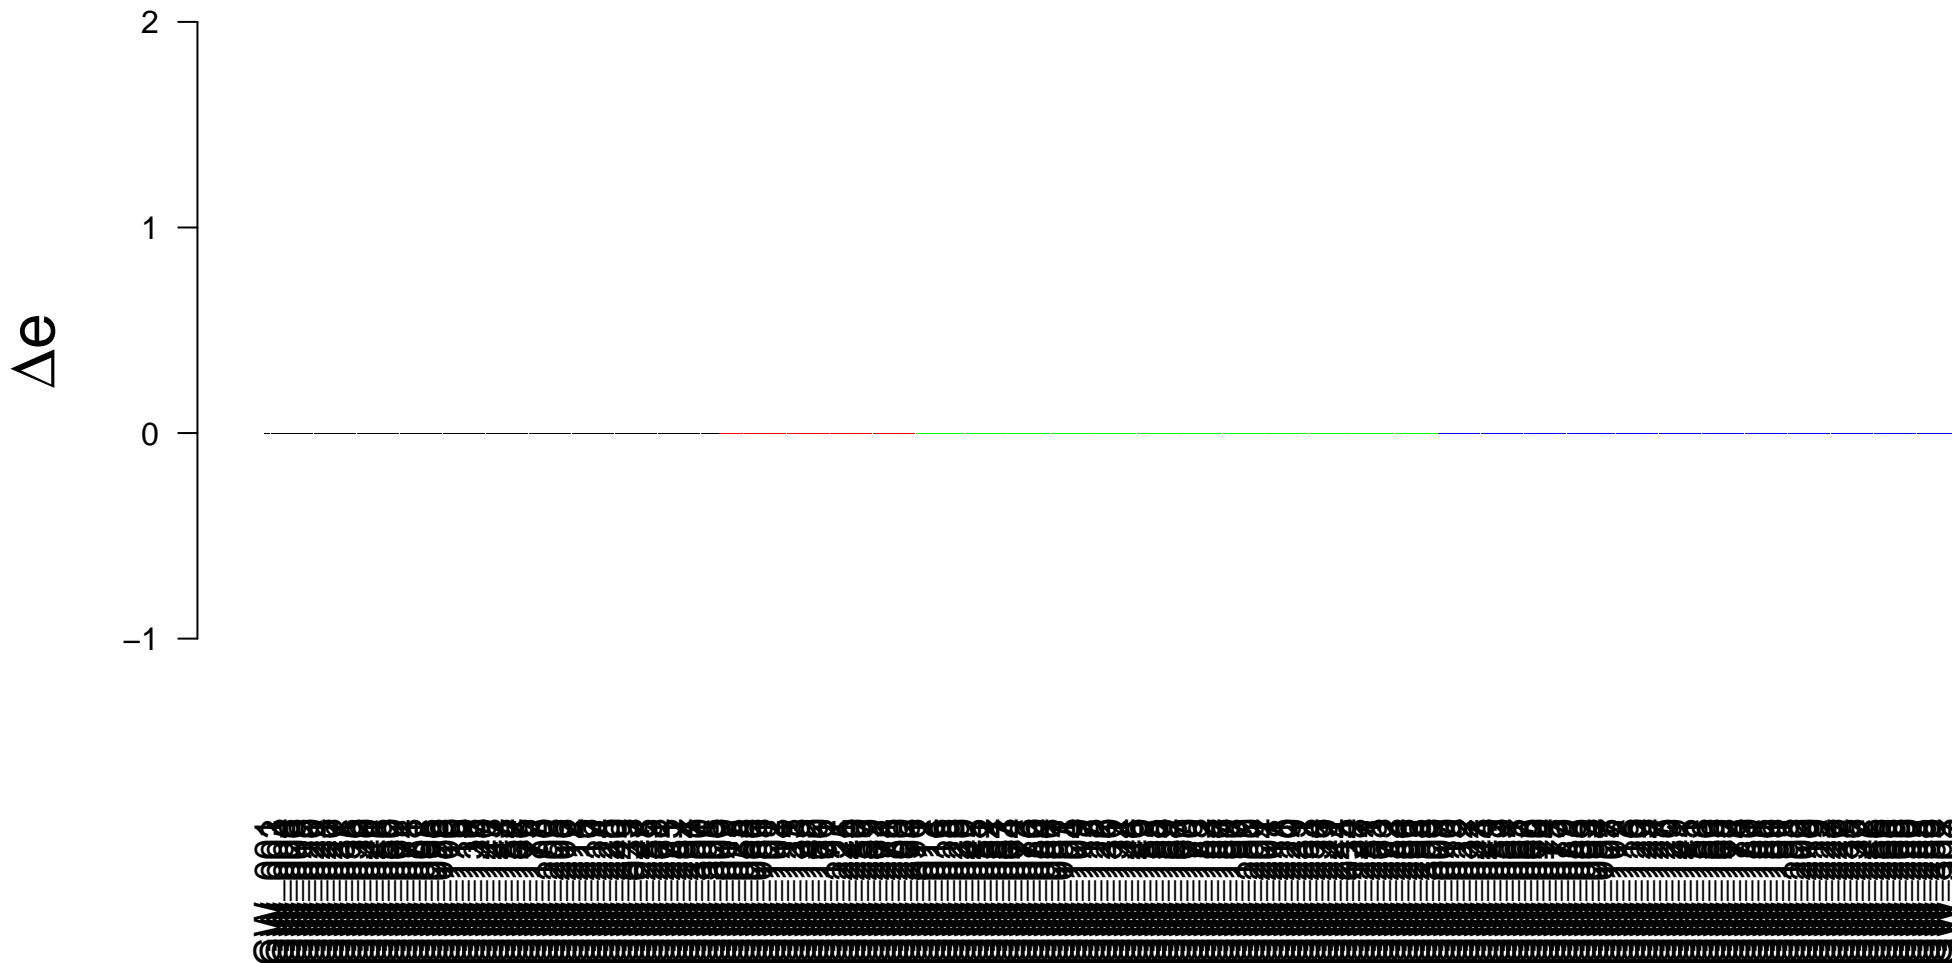

# Expression of complement activation, classical pathway in Spot F

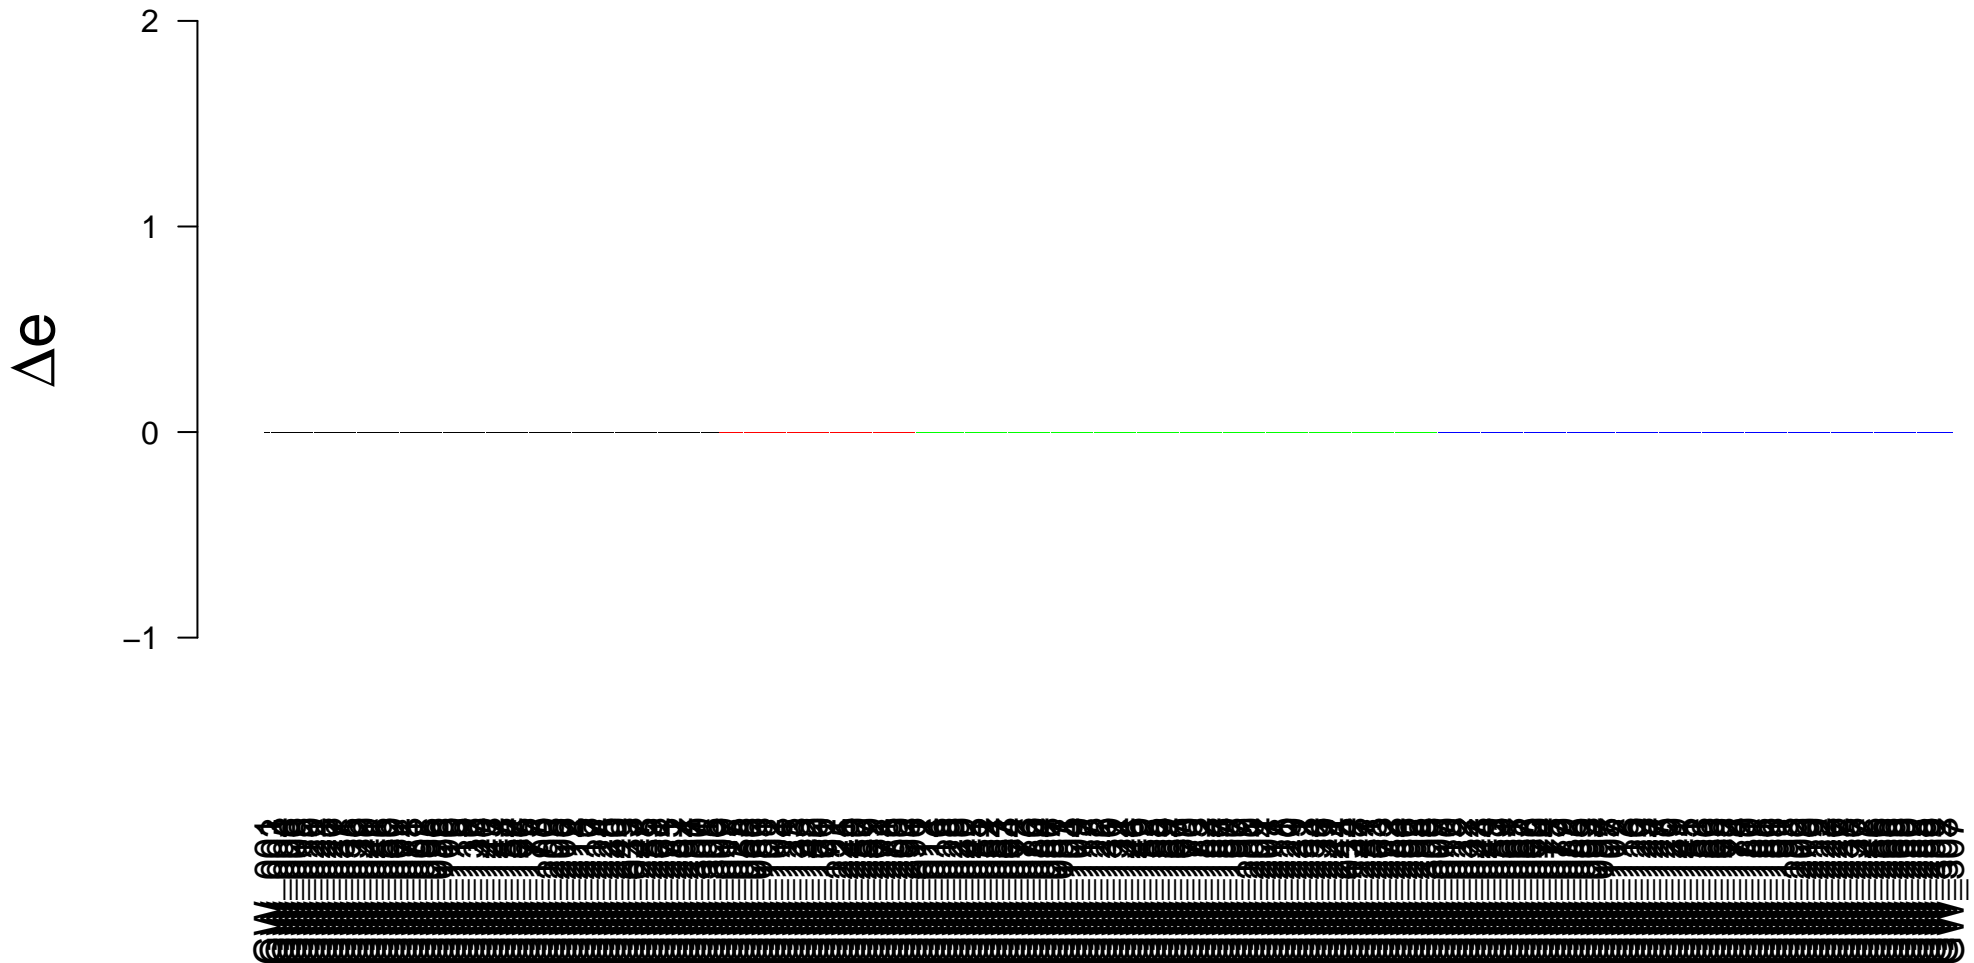

# Expression of complement activation, classical pathway in Spot G

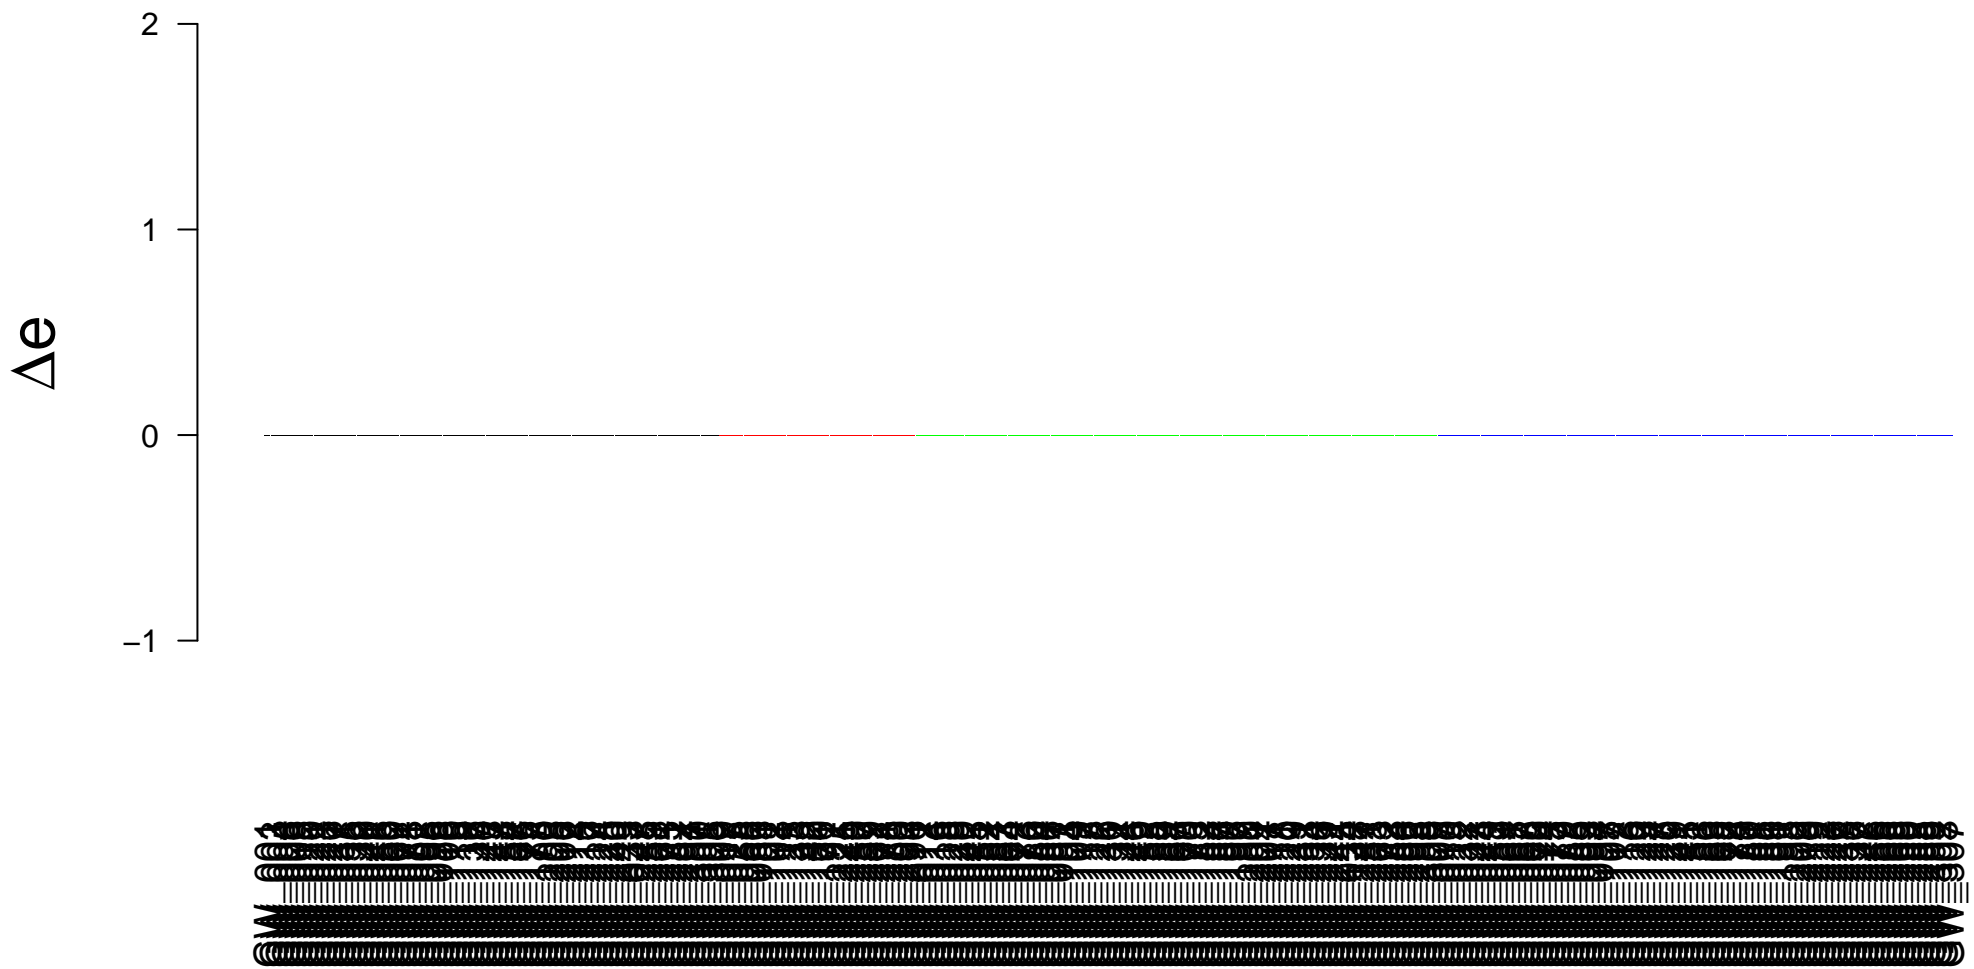

# Expression of complement activation, classical pathway in Spot H

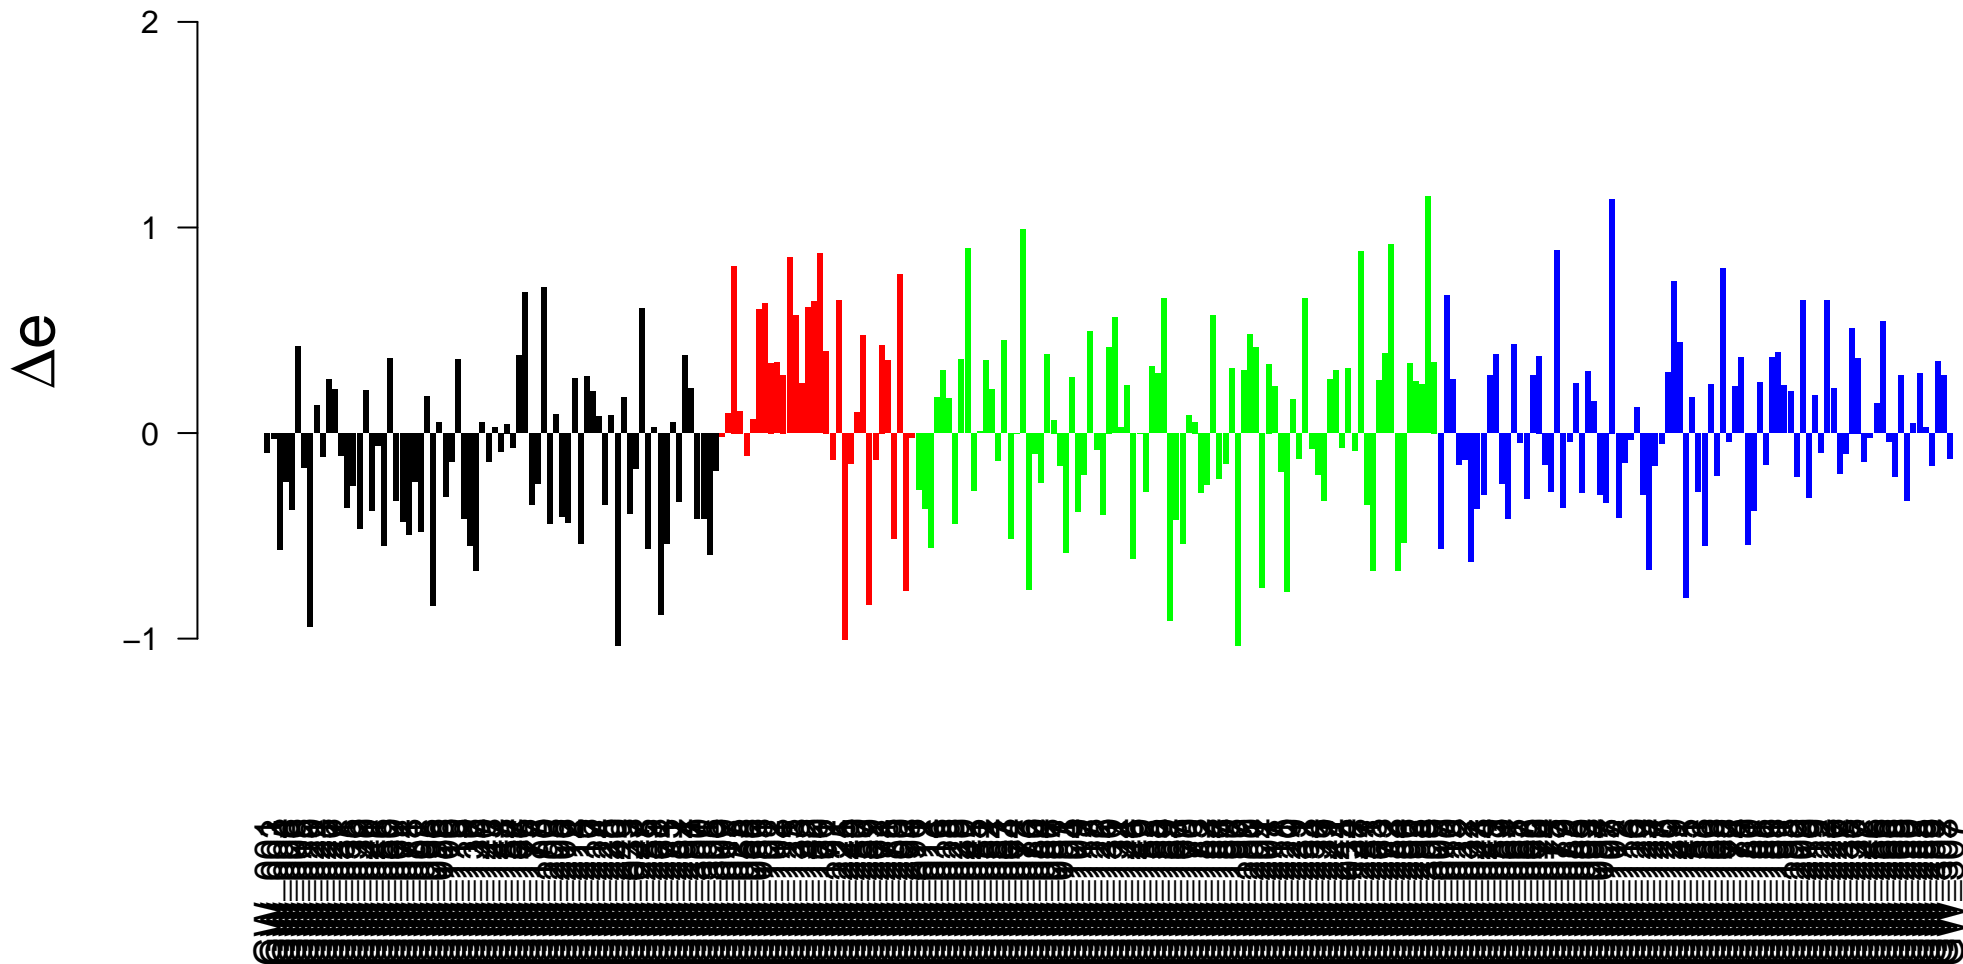

# Expression of complement activation, classical pathway in Spot I

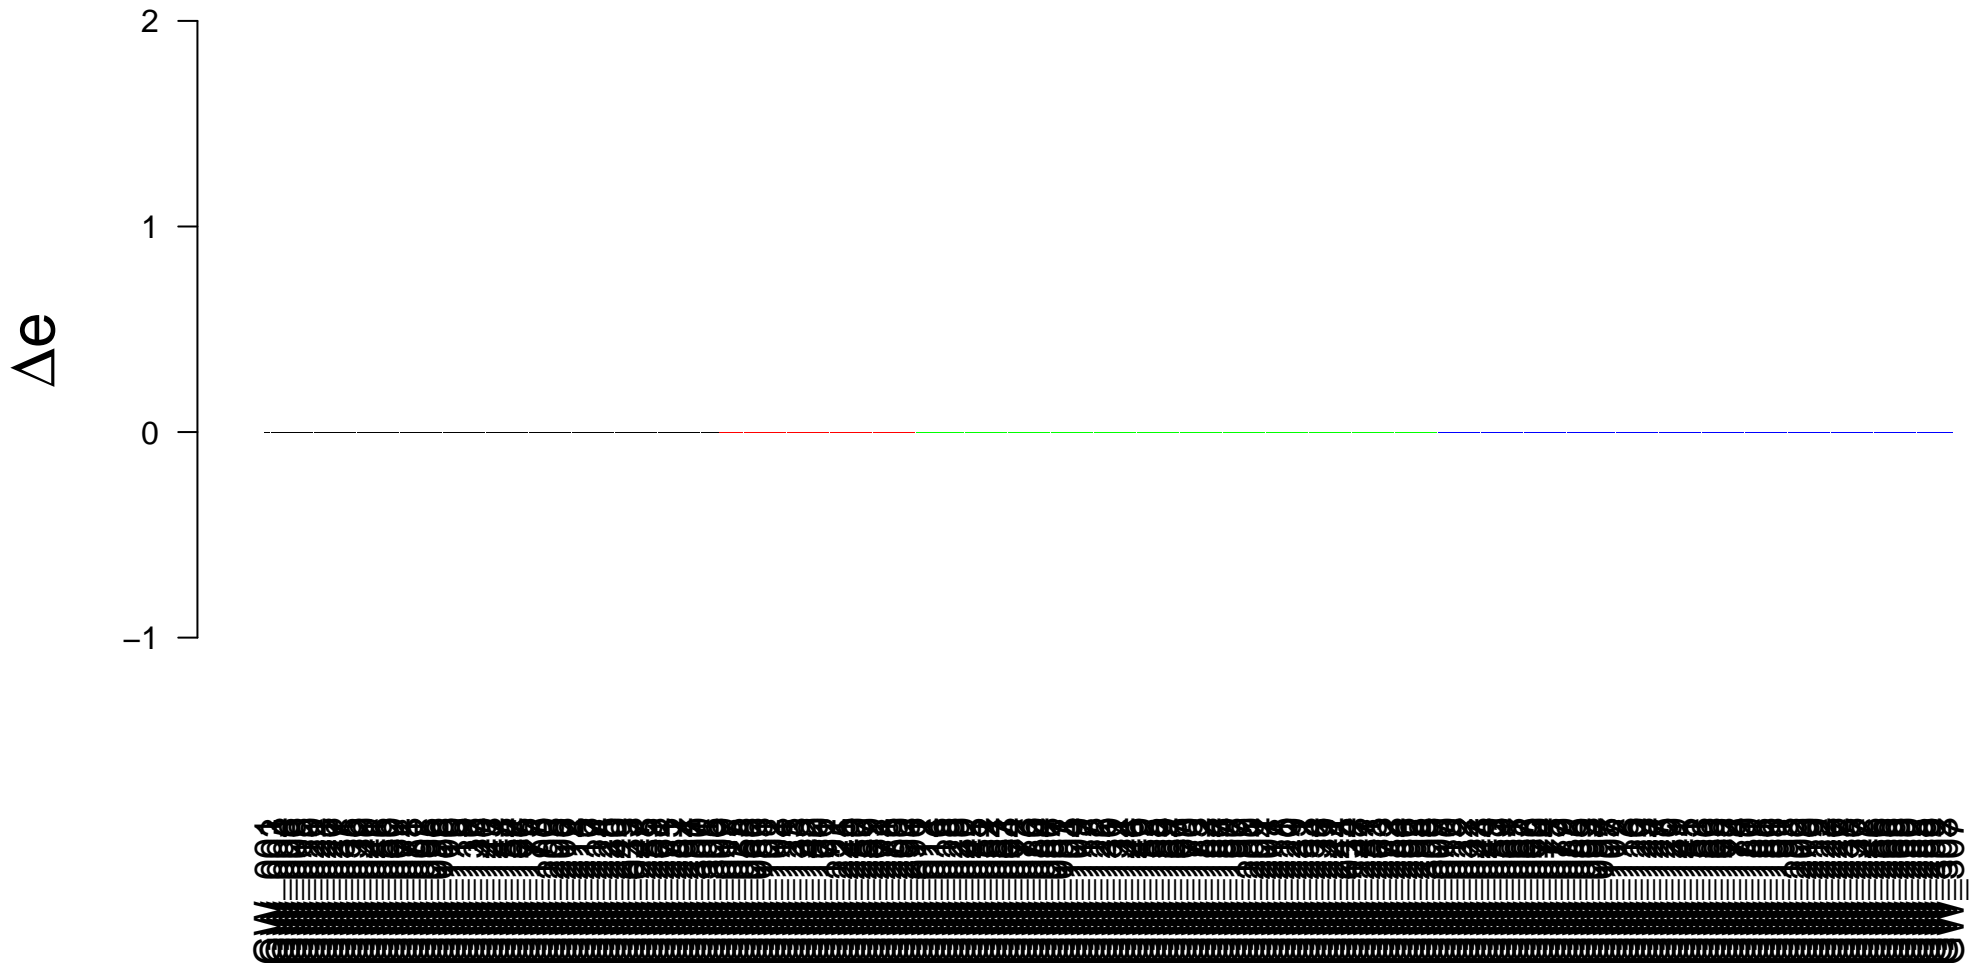

# Expression of complement activation, classical pathway in Spot J

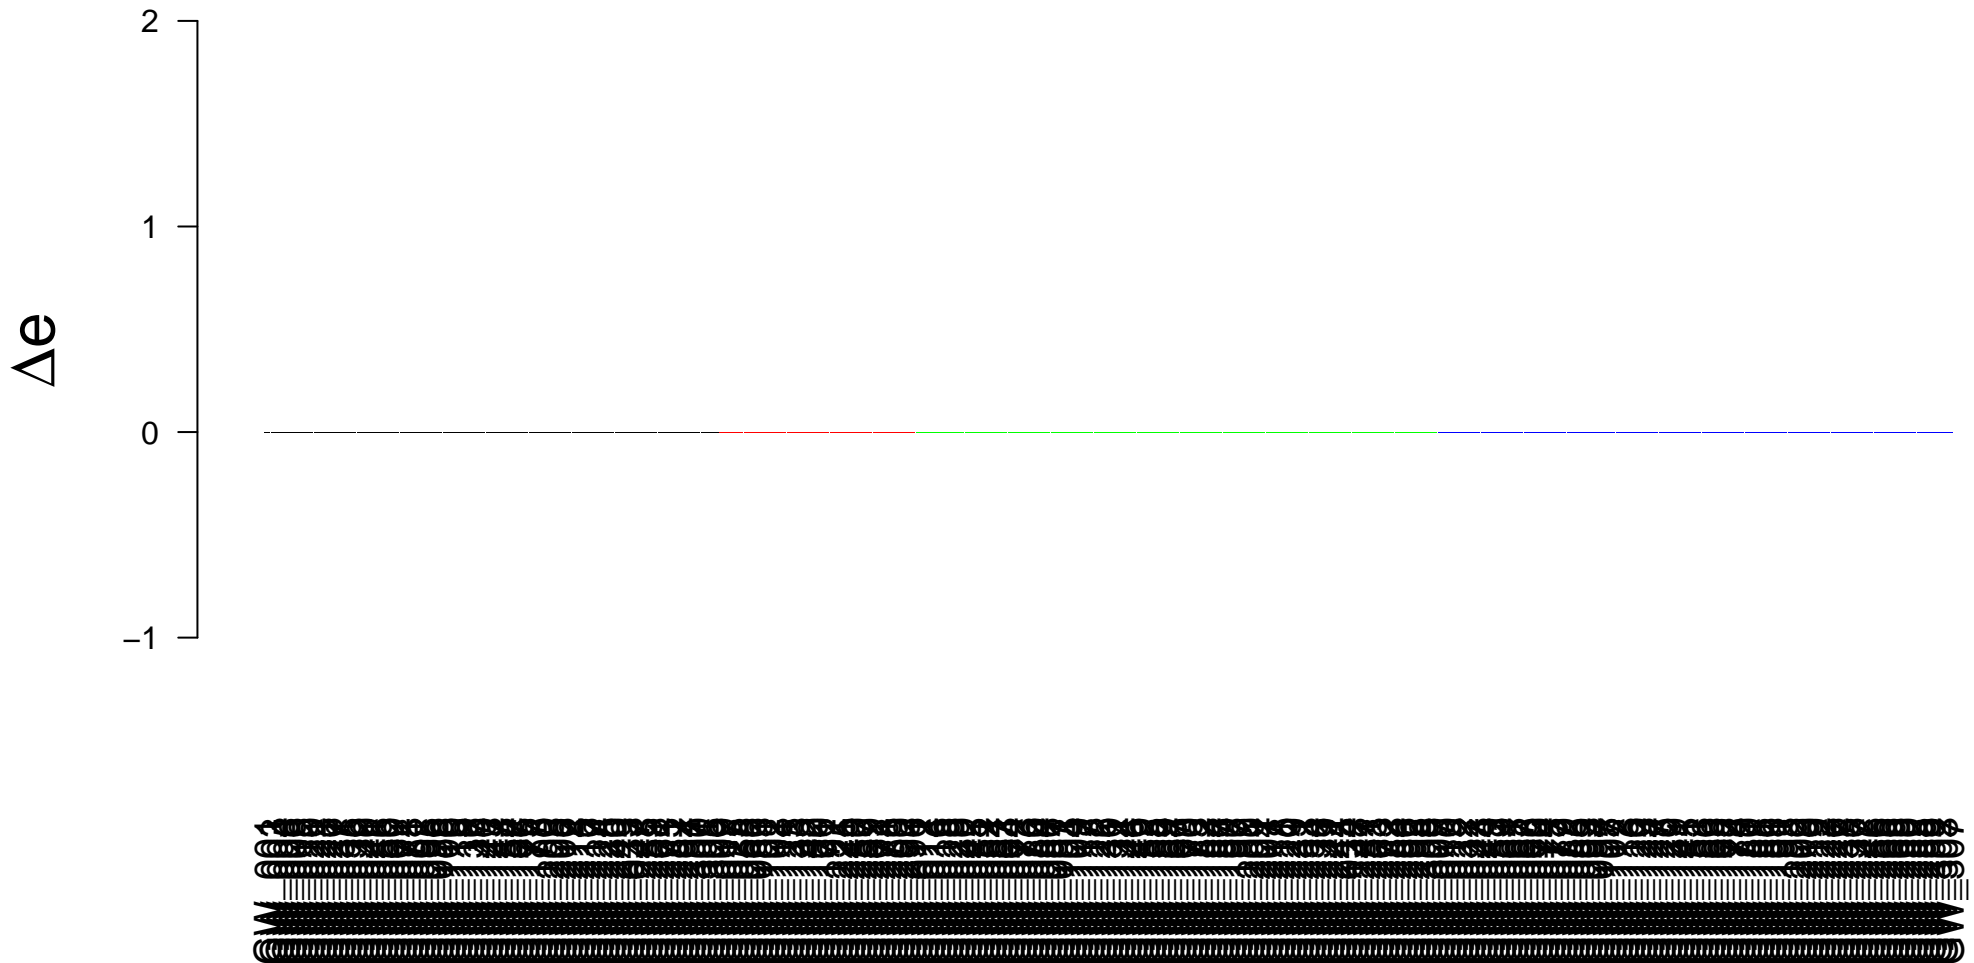

# Expression of complement activation, classical pathway in Spot K

# Expression of complement activation, classical pathway in Spot L

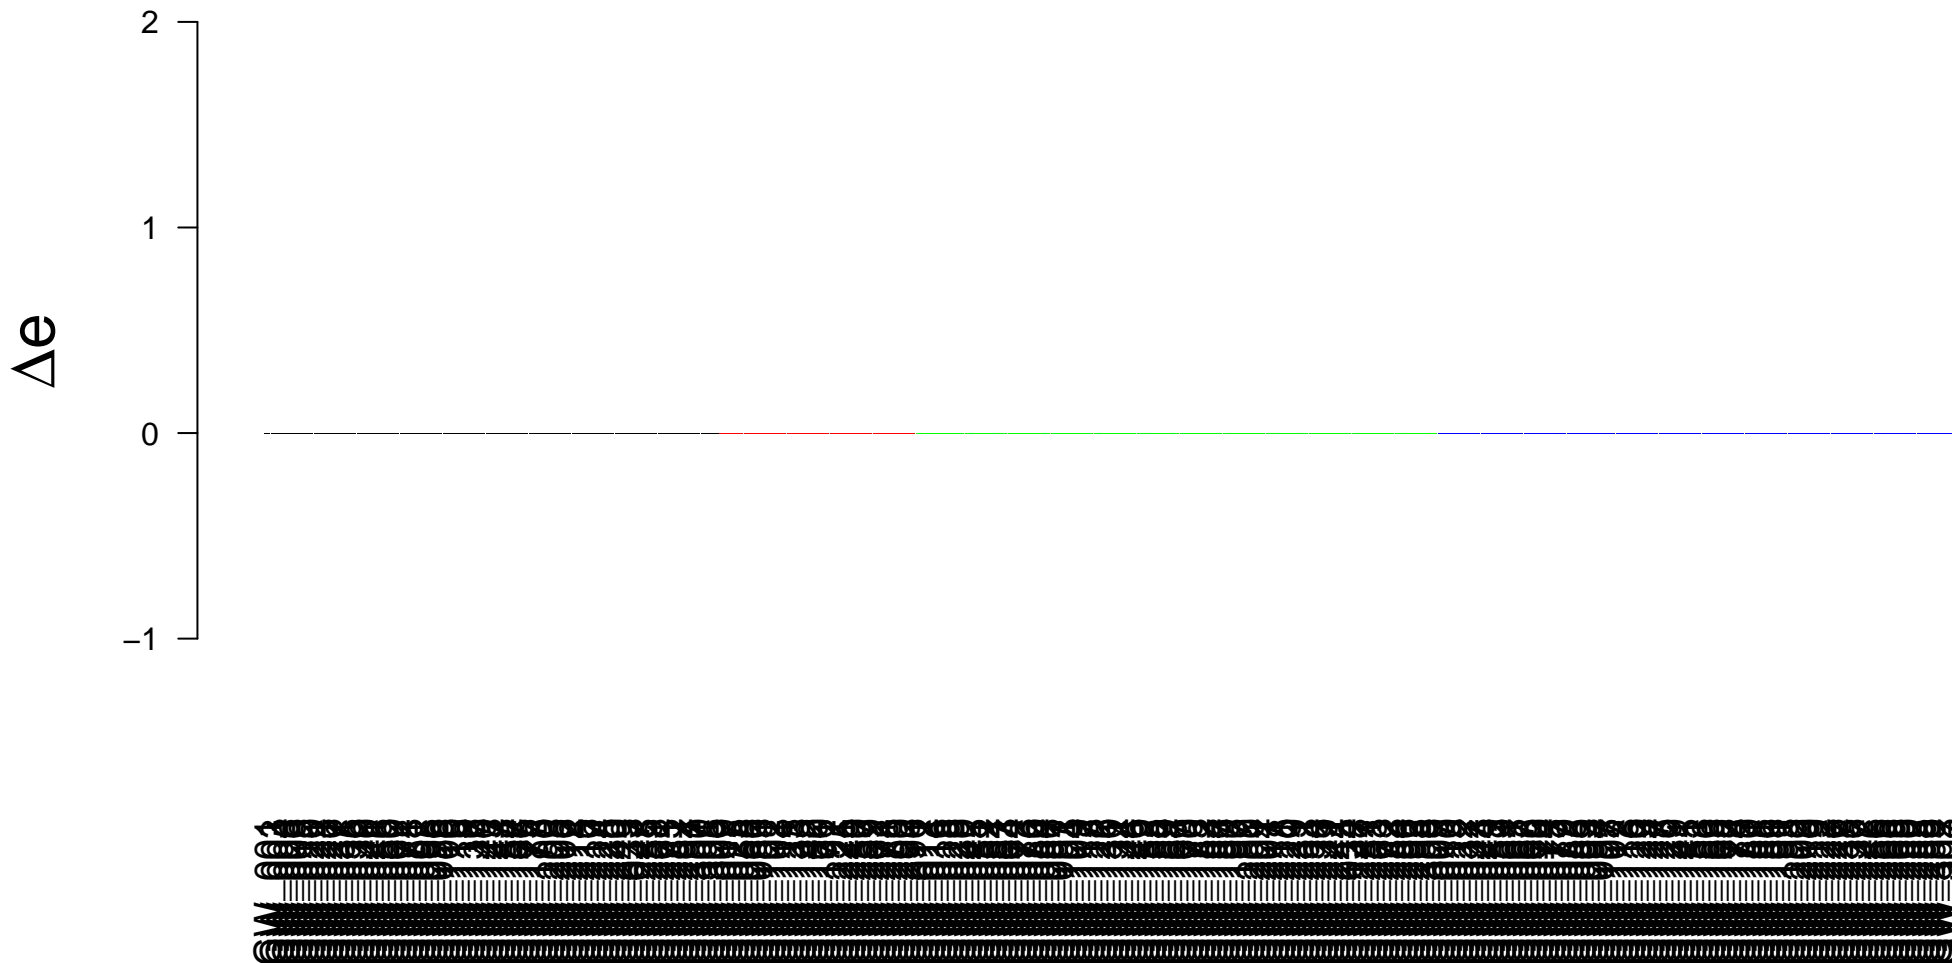

# Expression of complement activation, classical pathway in Spot M

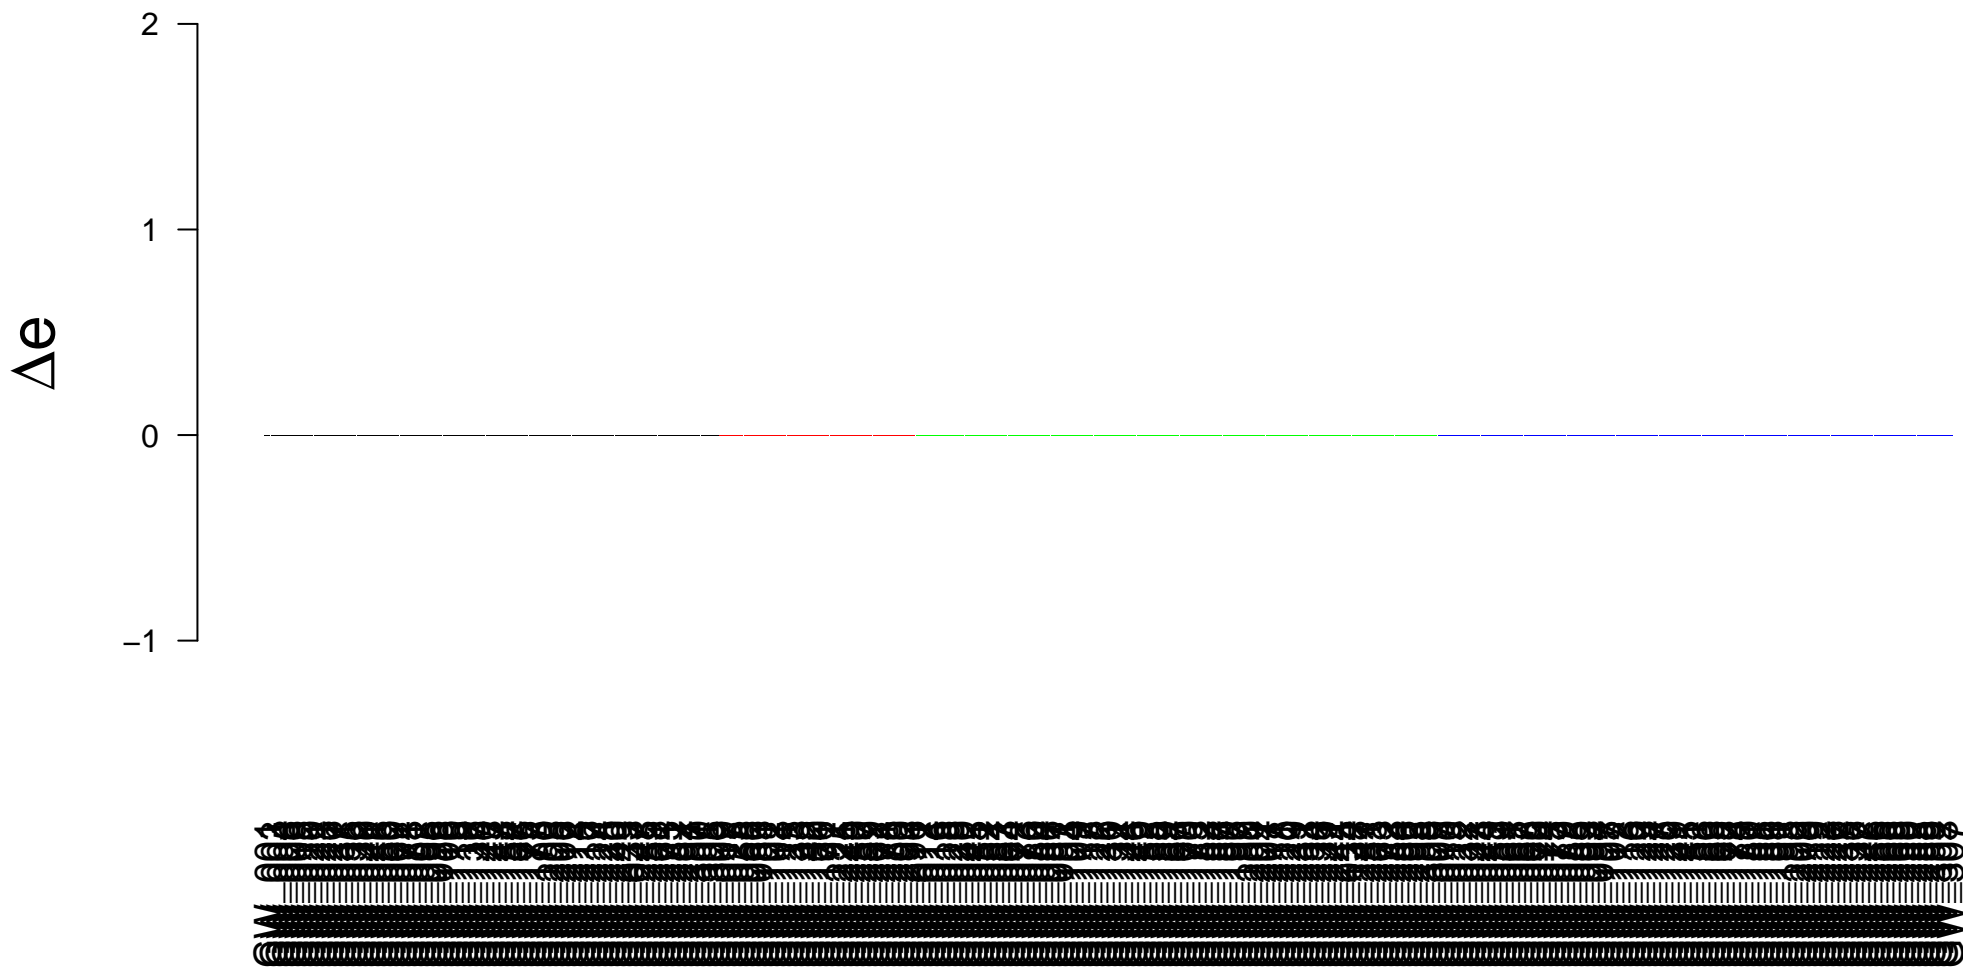

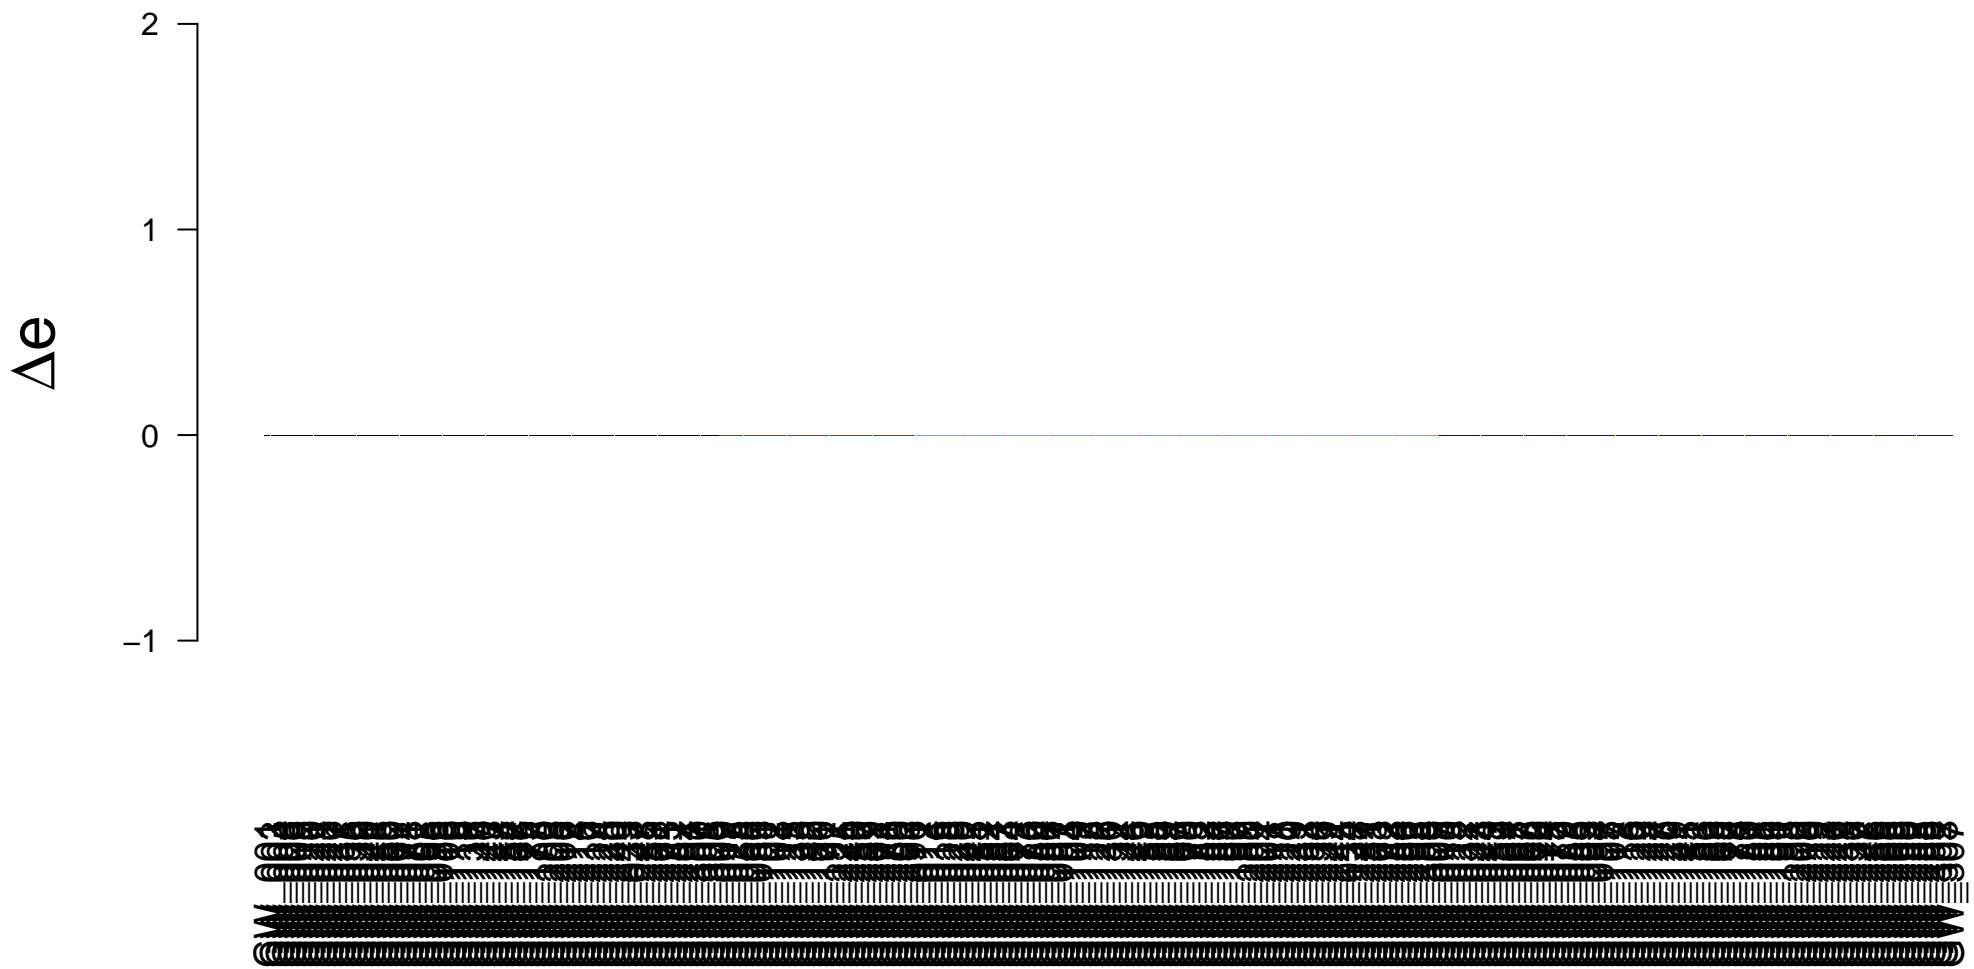

# Expression of complement activation, classical pathway in Spot N

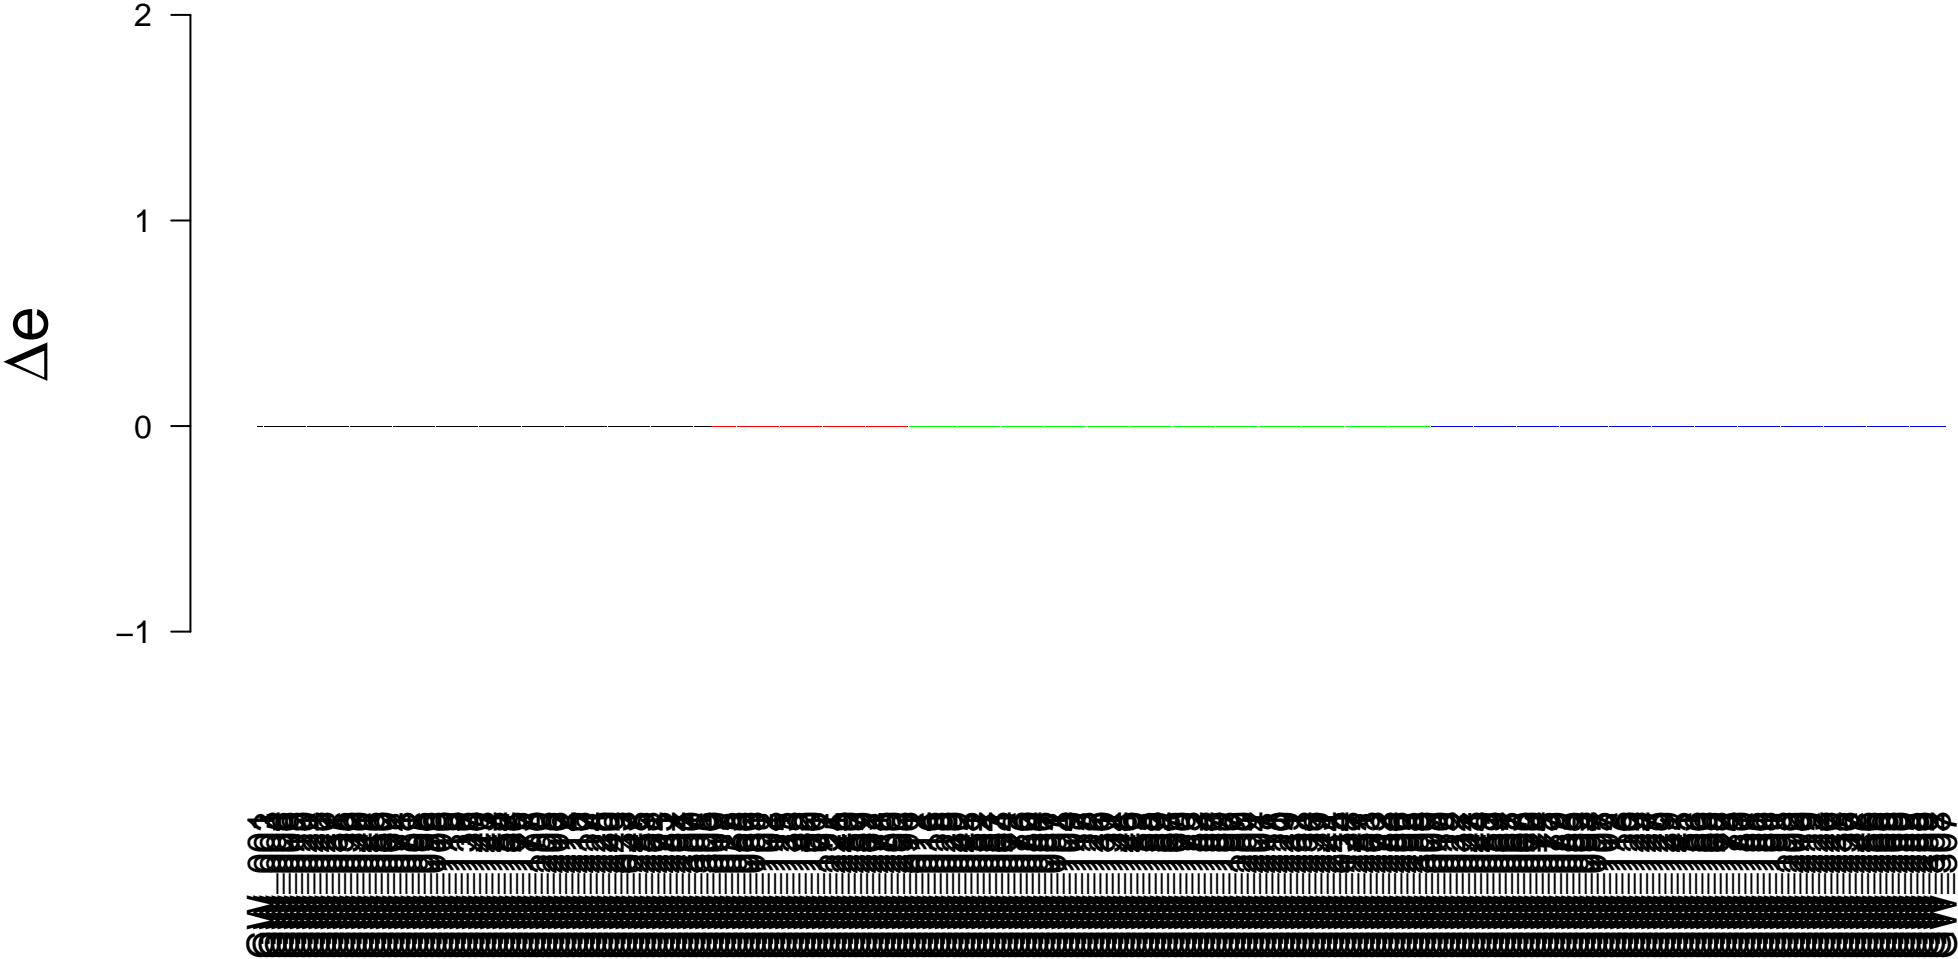

# Expression of complement activation, classical pathway in Spot O

# Expression of complement activation, classical pathway in Spot P

Expression of complement activation, classical pathway in Spot Q

# Expression of complement activation, classical pathway in Spot R
