

cyclin-dependent protein serine/threonine kinase inhibitor activity

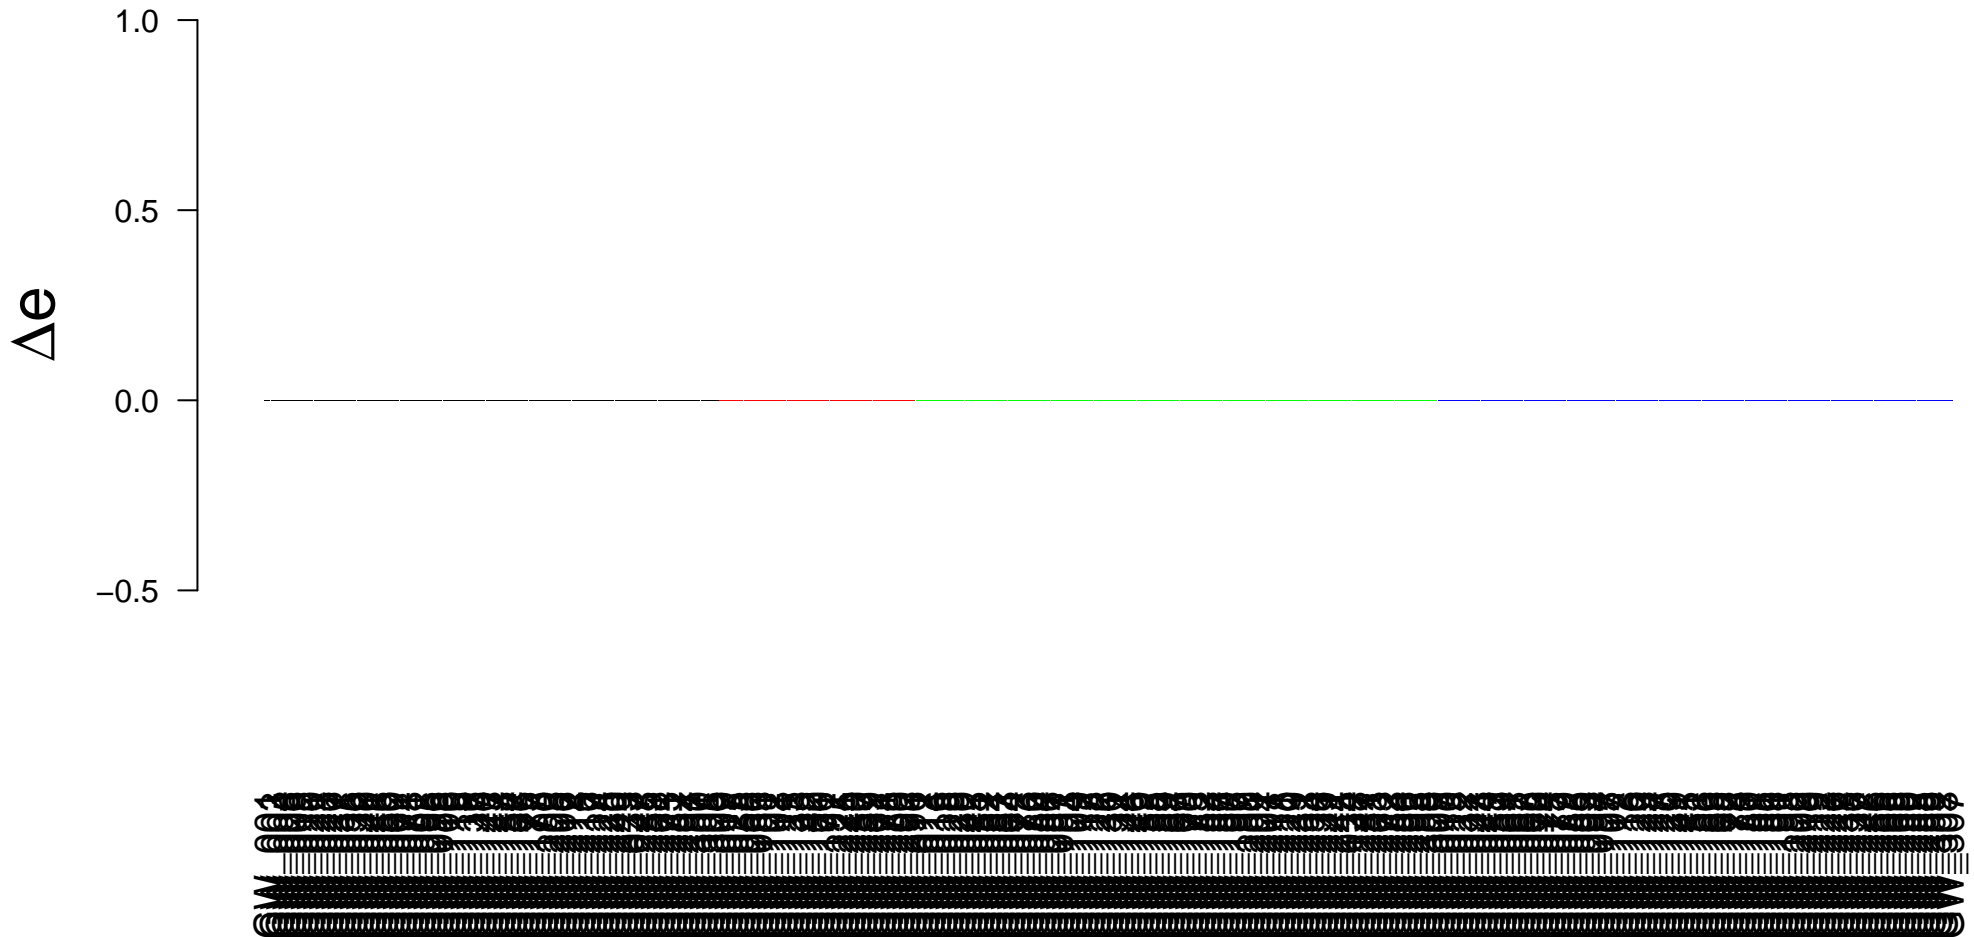

cyclin-dependent protein serine/threonine kinase inhibitor activity

Enrichment in spots: cyclin-dependent protein serine/threonine kinase inhibitor activity

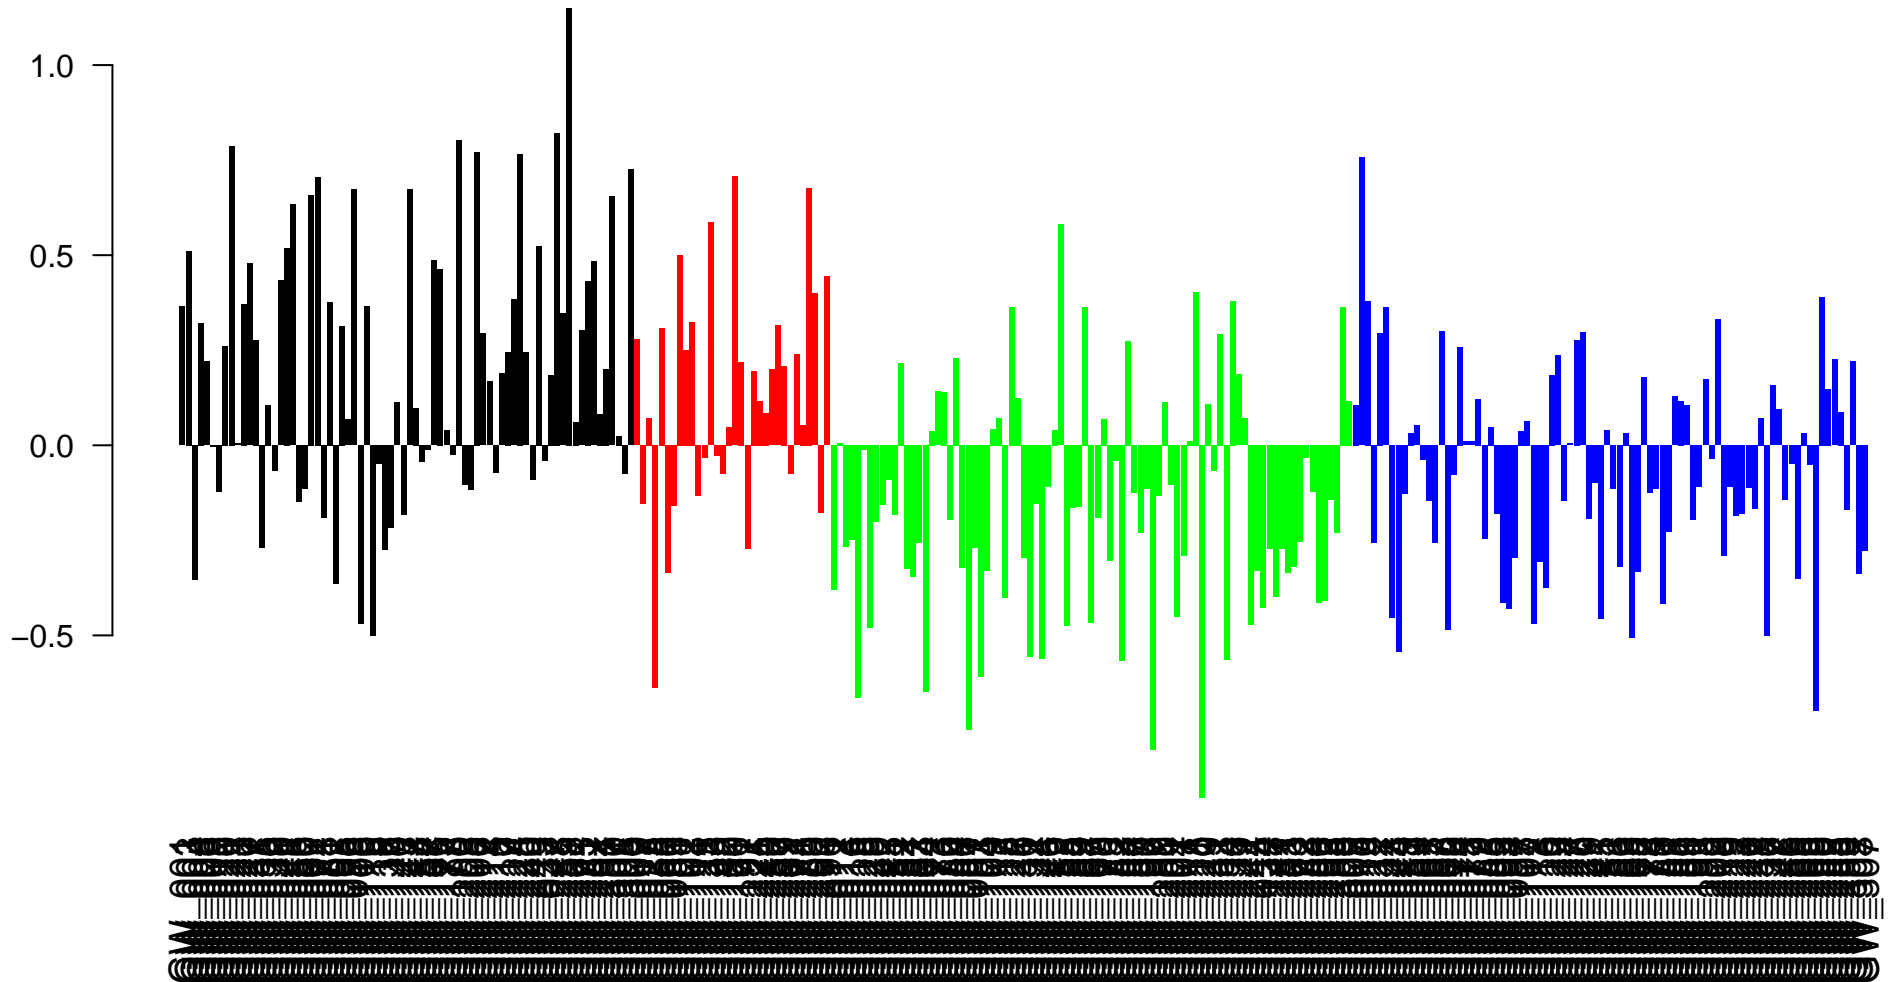

Expression of cyclin-dependent protein serine/threonine kinase inhibitor activity in Spot A

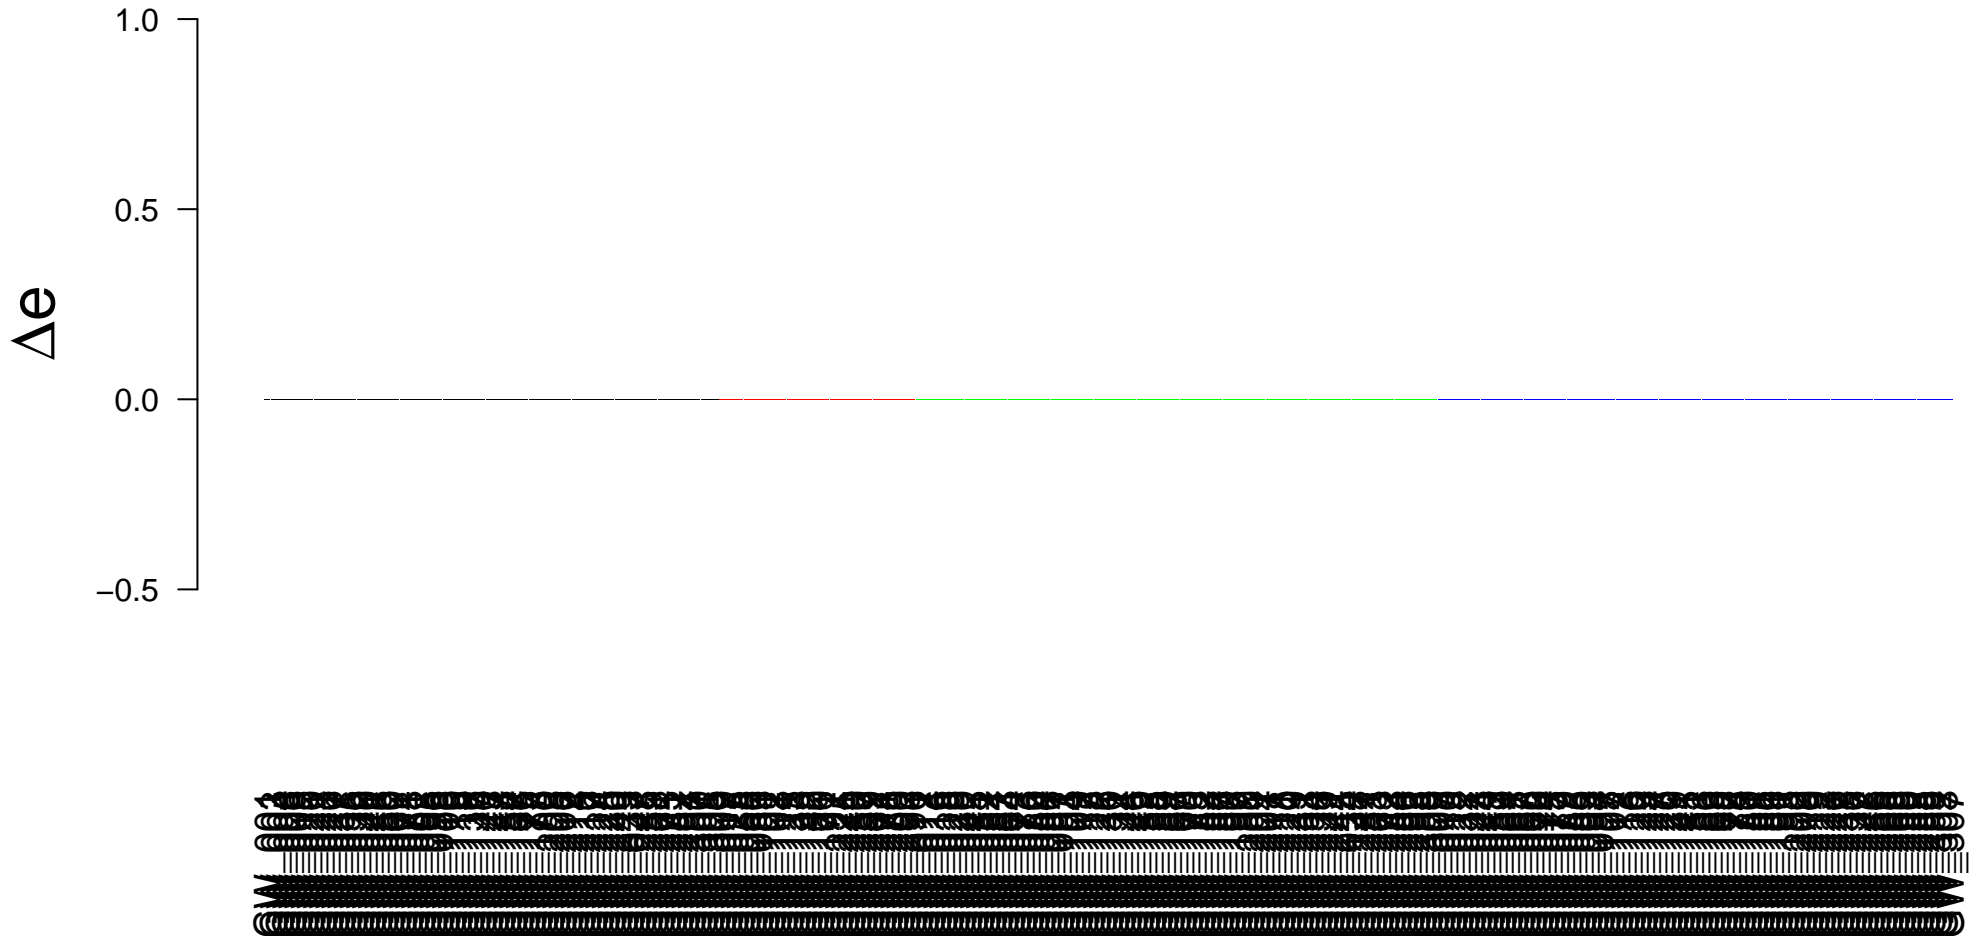

Expression of cyclin-dependent protein serine/threonine kinase inhibitor activity in Spot B

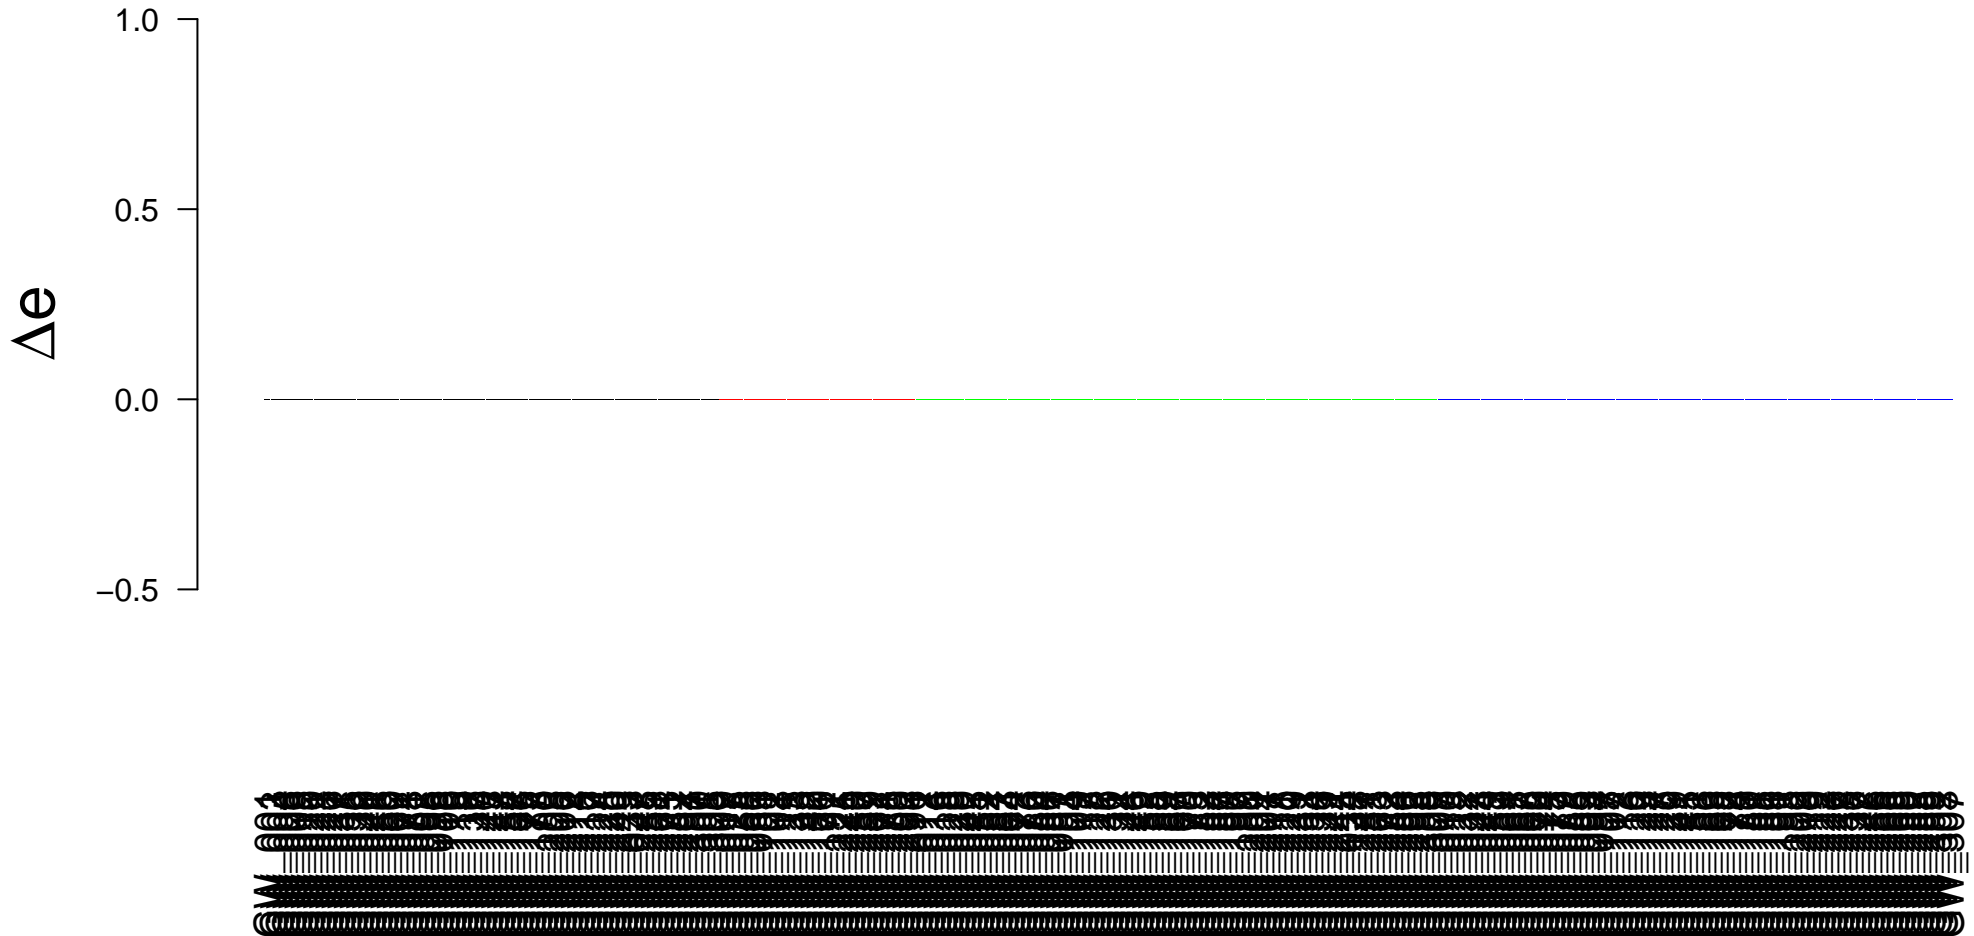

Δe

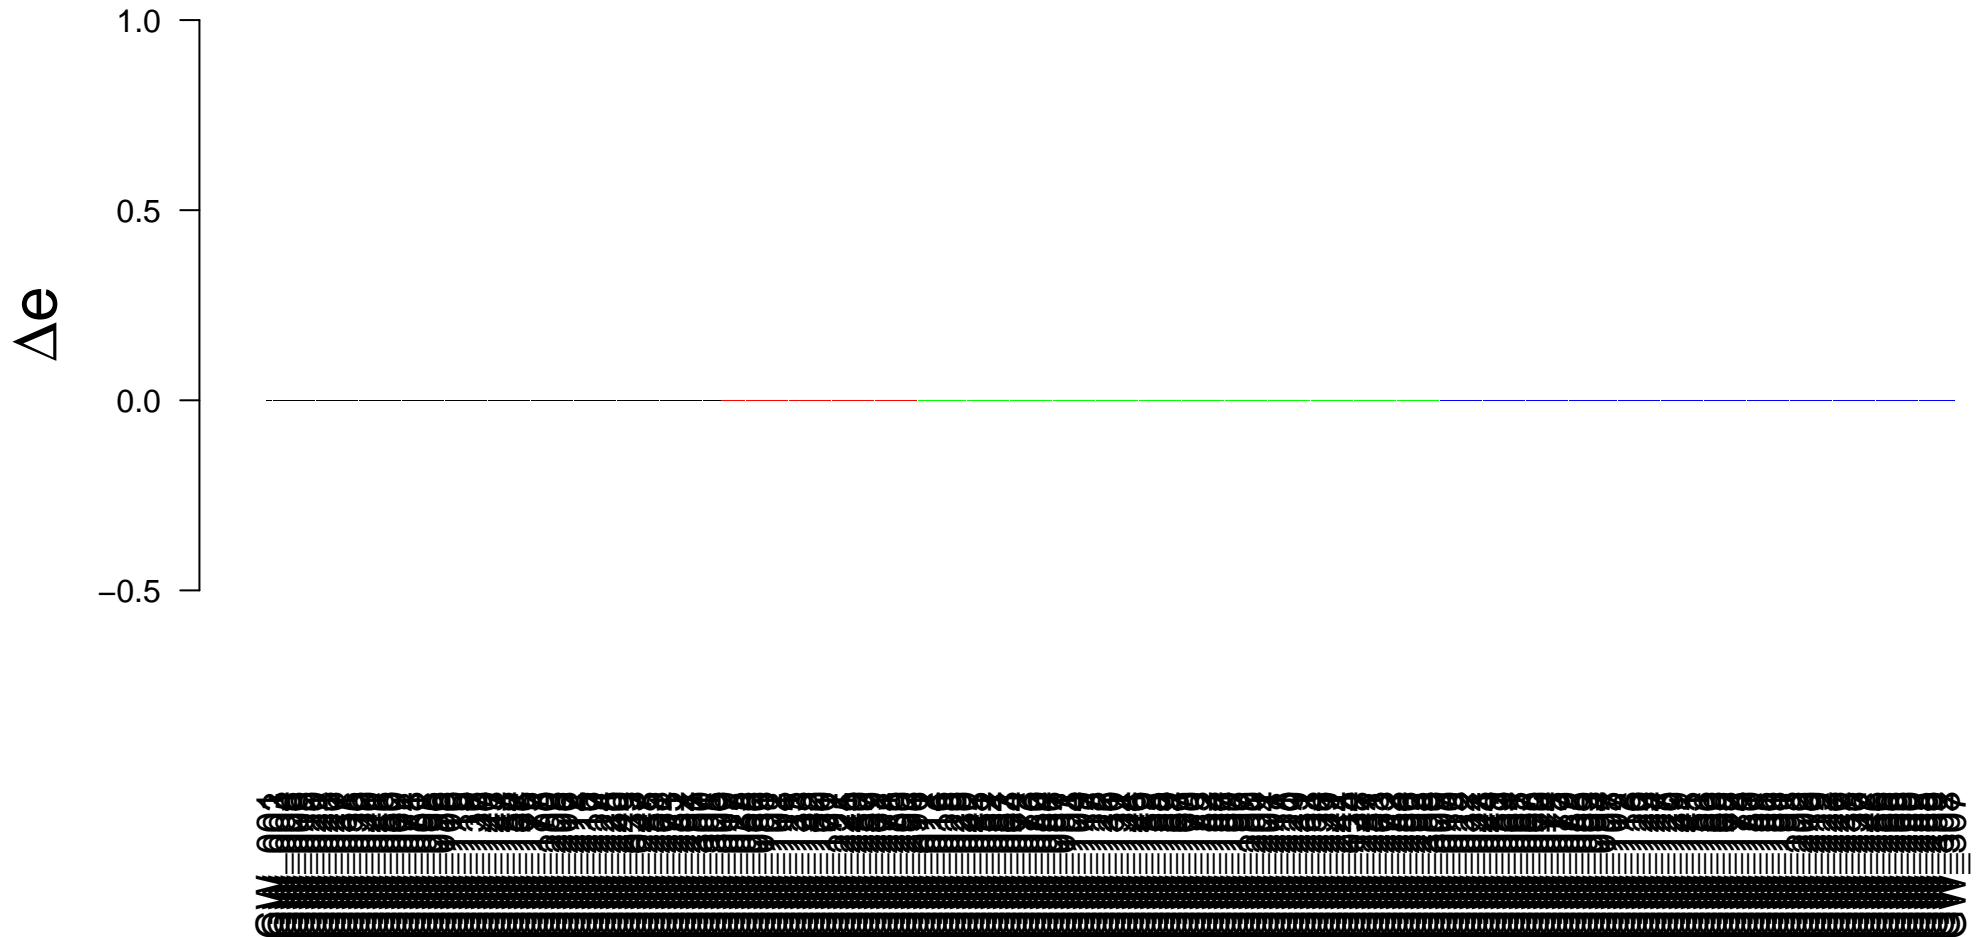

Expression of cyclin-dependent protein serine/threonine kinase inhibitor activity in Spot C

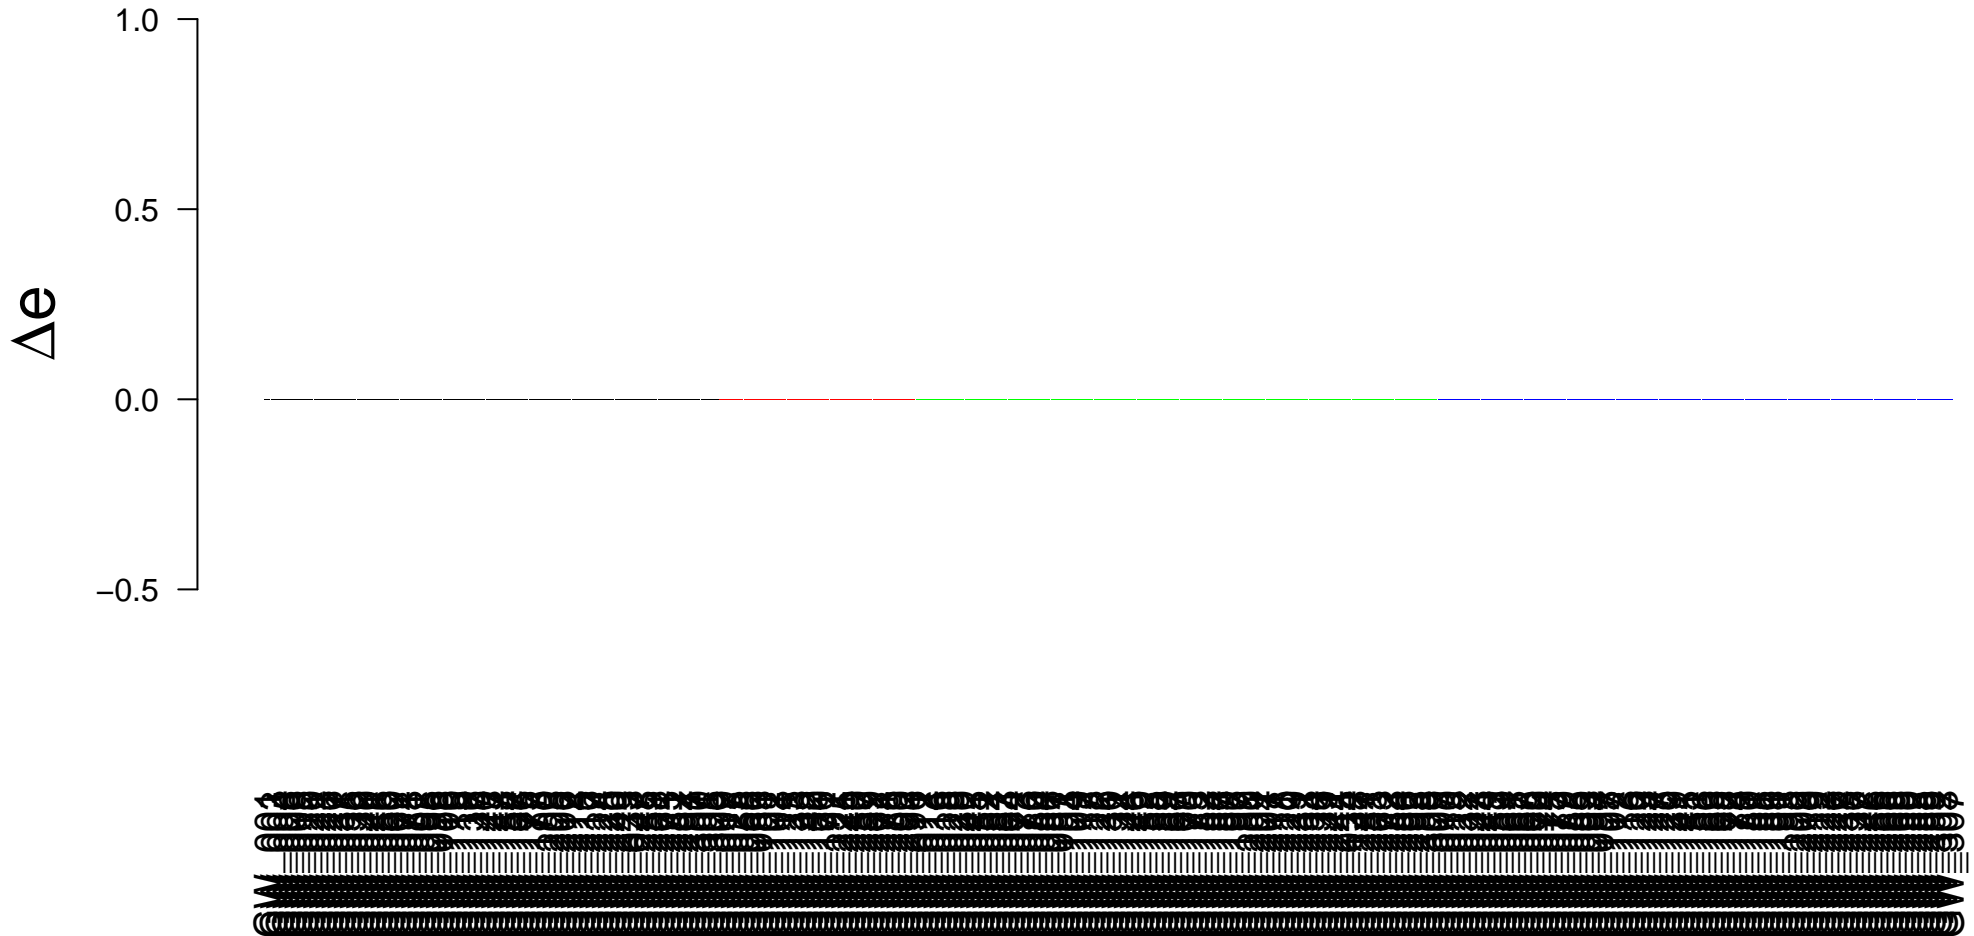

Expression of cyclin-dependent protein serine/threonine kinase inhibitor activity in Spot D

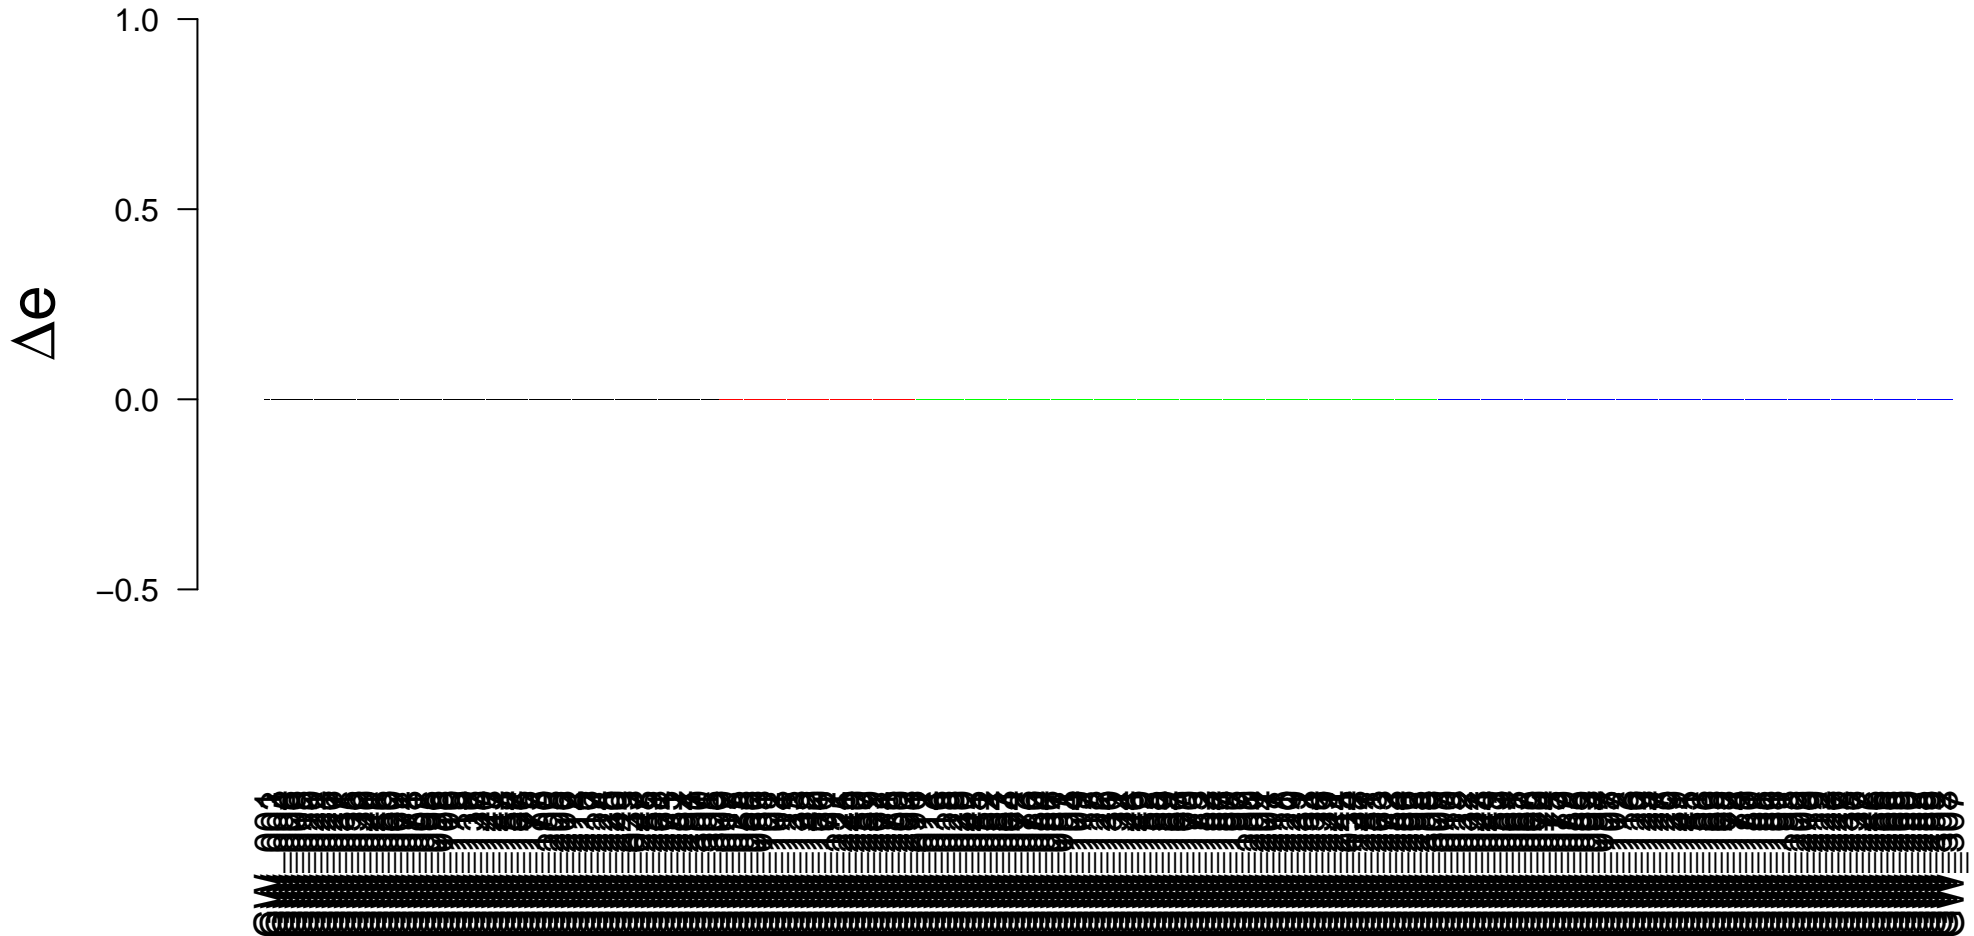

Expression of cyclin-dependent protein serine/threonine kinase inhibitor activity in Spot E

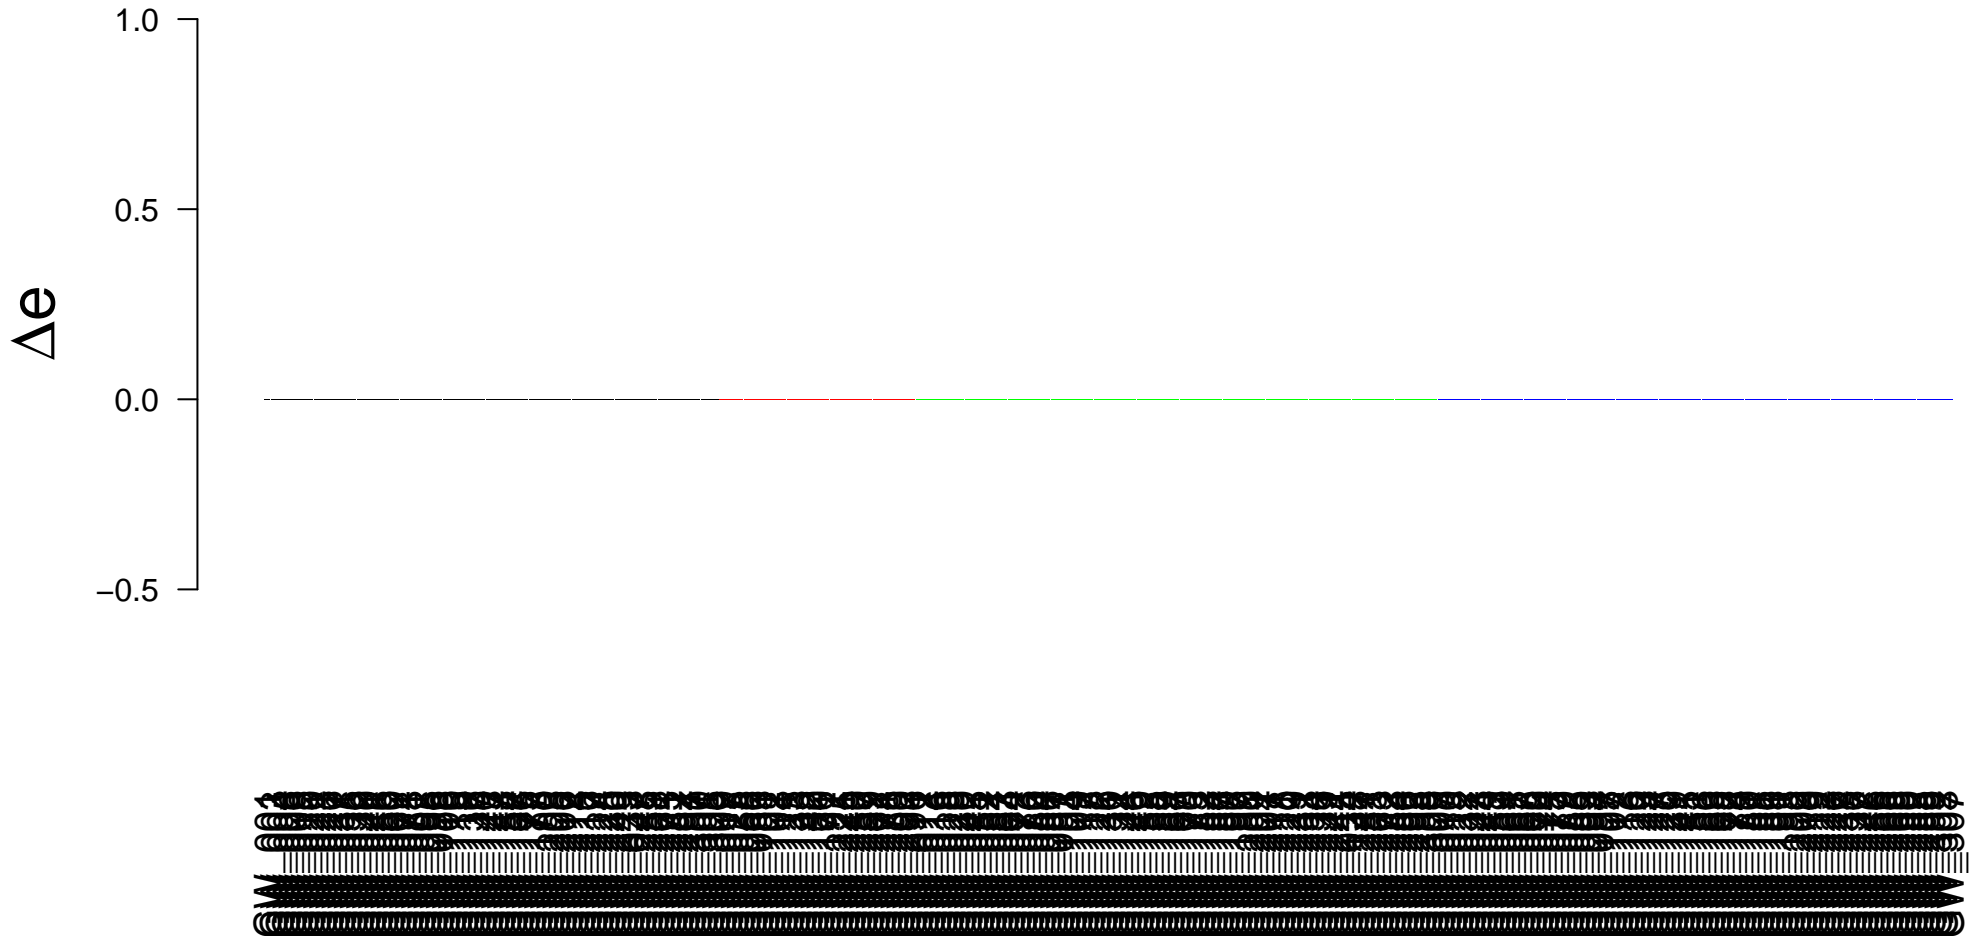

Expression of cyclin-dependent protein serine/threonine kinase inhibitor activity in Spot F

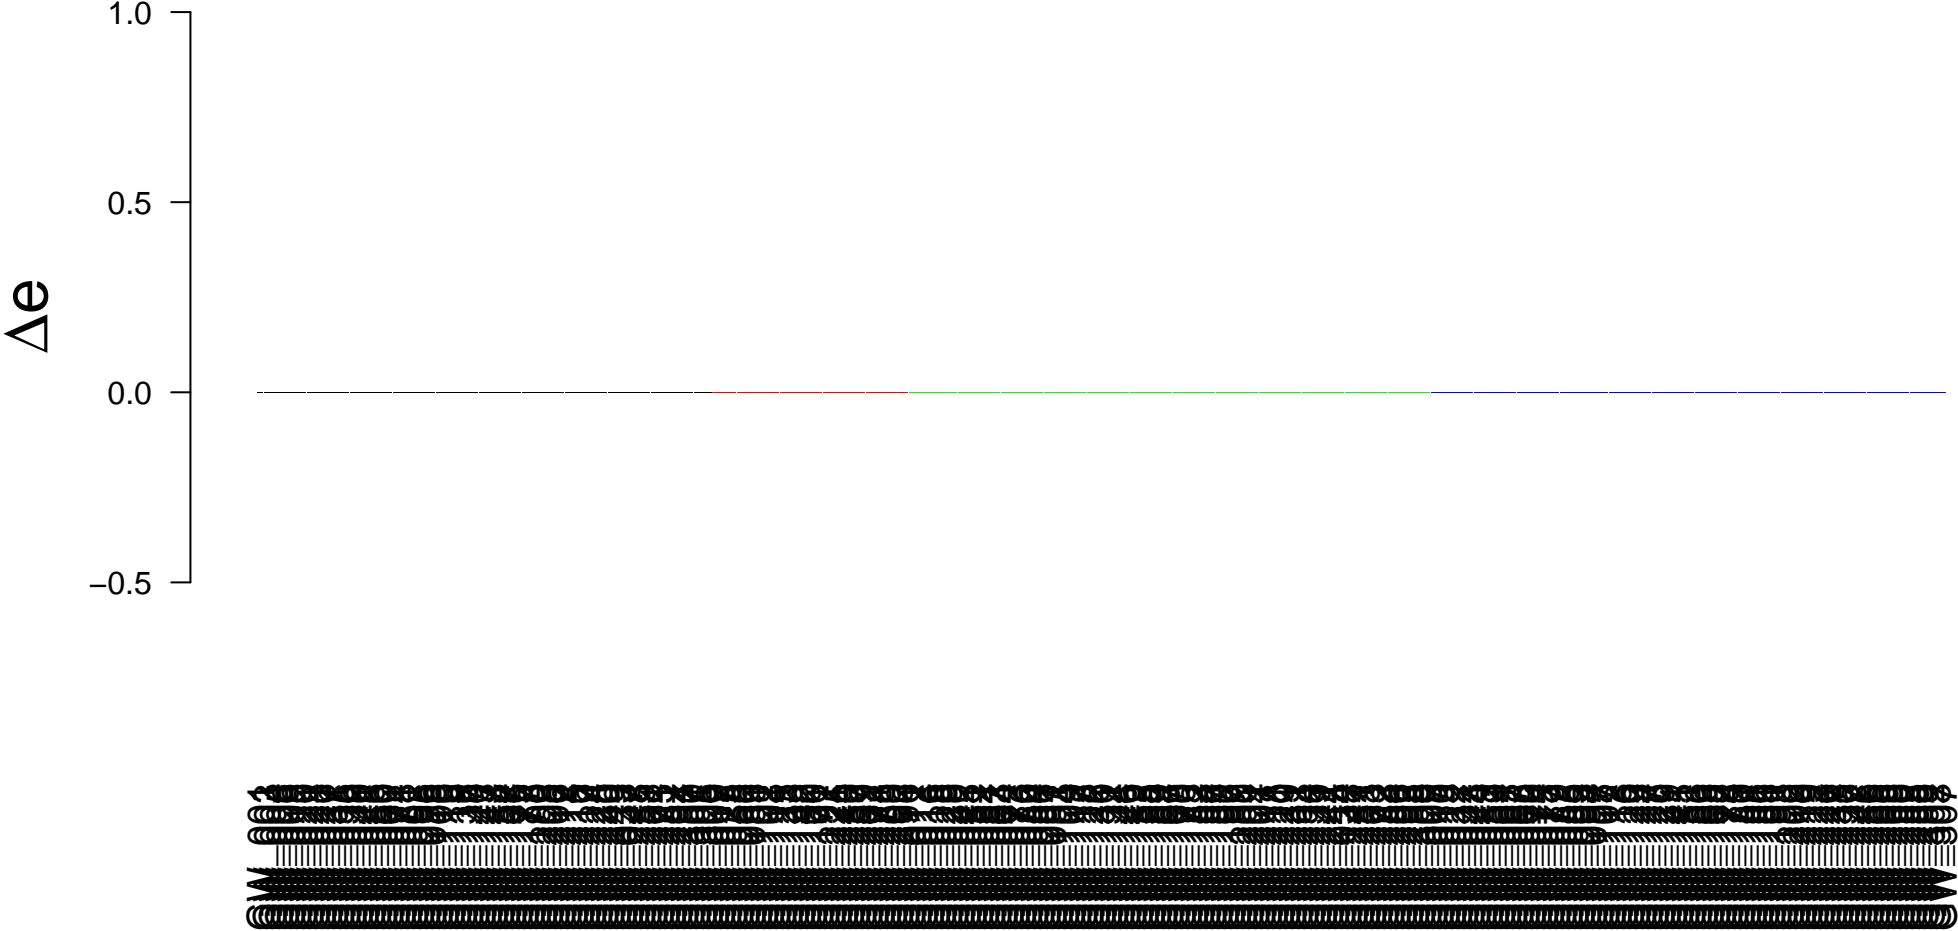

Expression of cyclin-dependent protein serine/threonine kinase inhibitor activity in Spot G

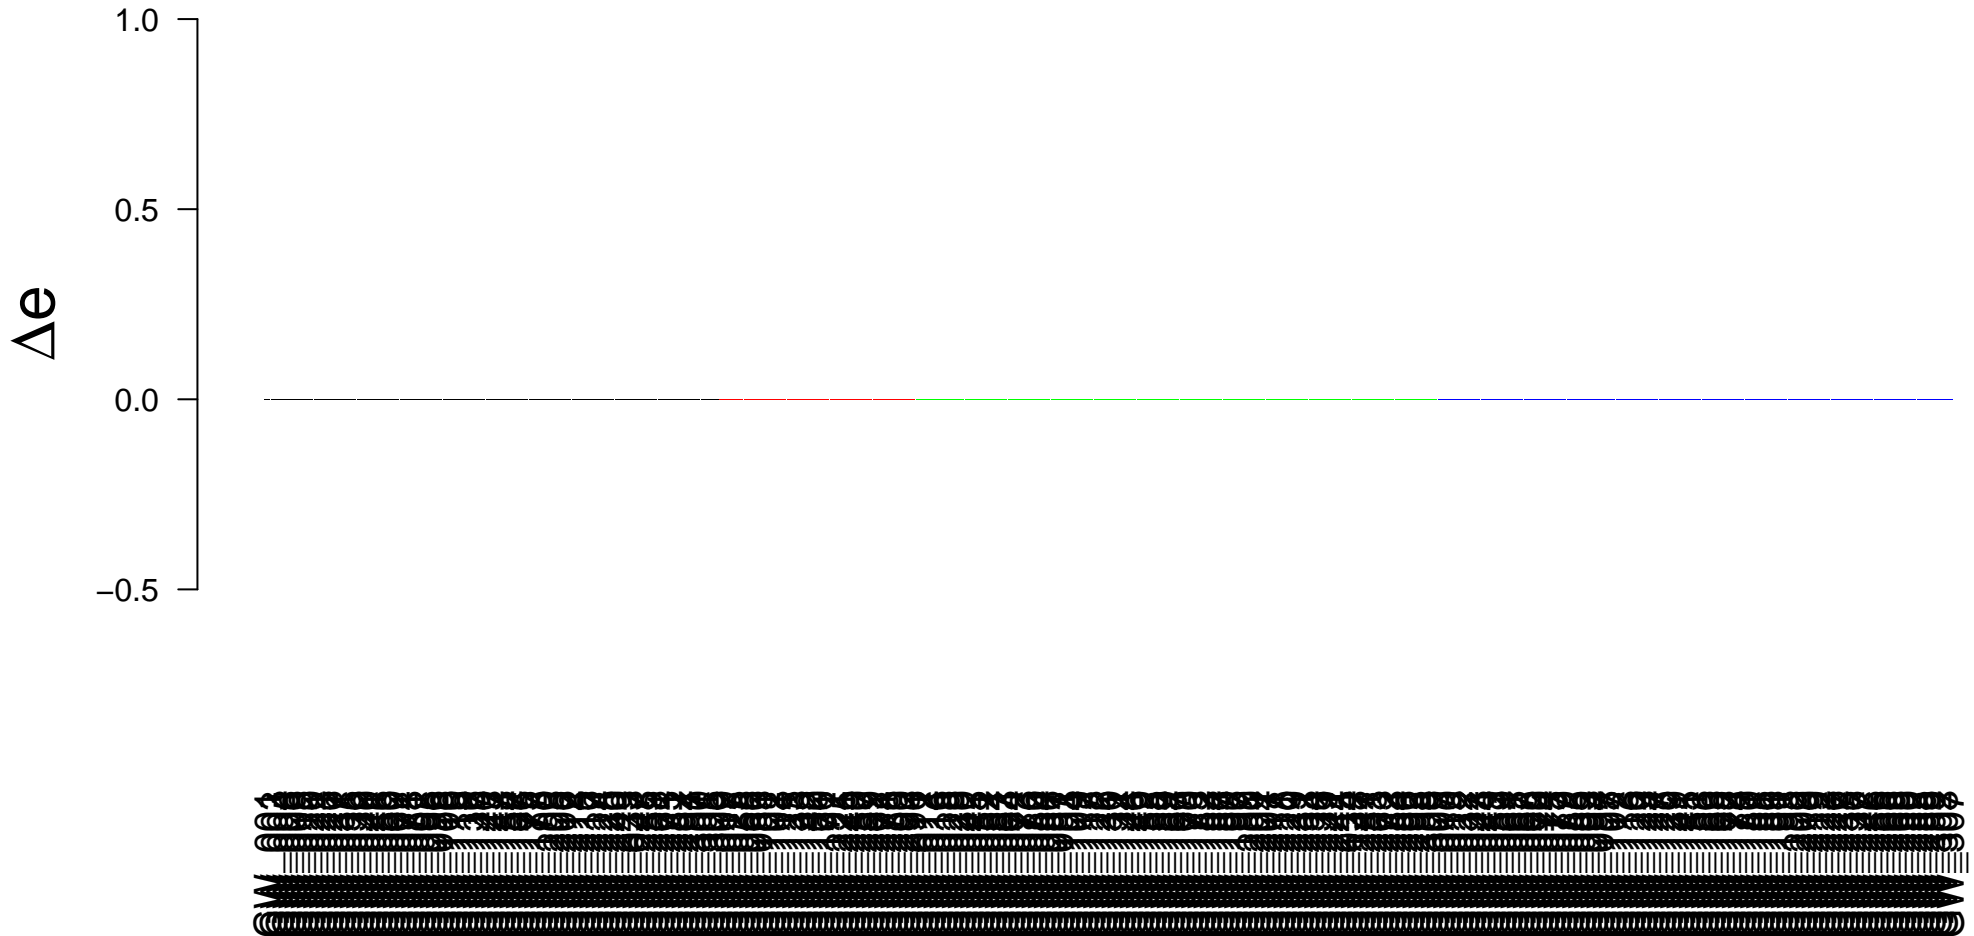

Expression of cyclin-dependent protein serine/threonine kinase inhibitor activity in Spot H

Expression of cyclin-dependent protein serine/threonine kinase inhibitor activity in Spot I

Expression of cyclin-dependent protein serine/threonine kinase inhibitor activity in Spot J

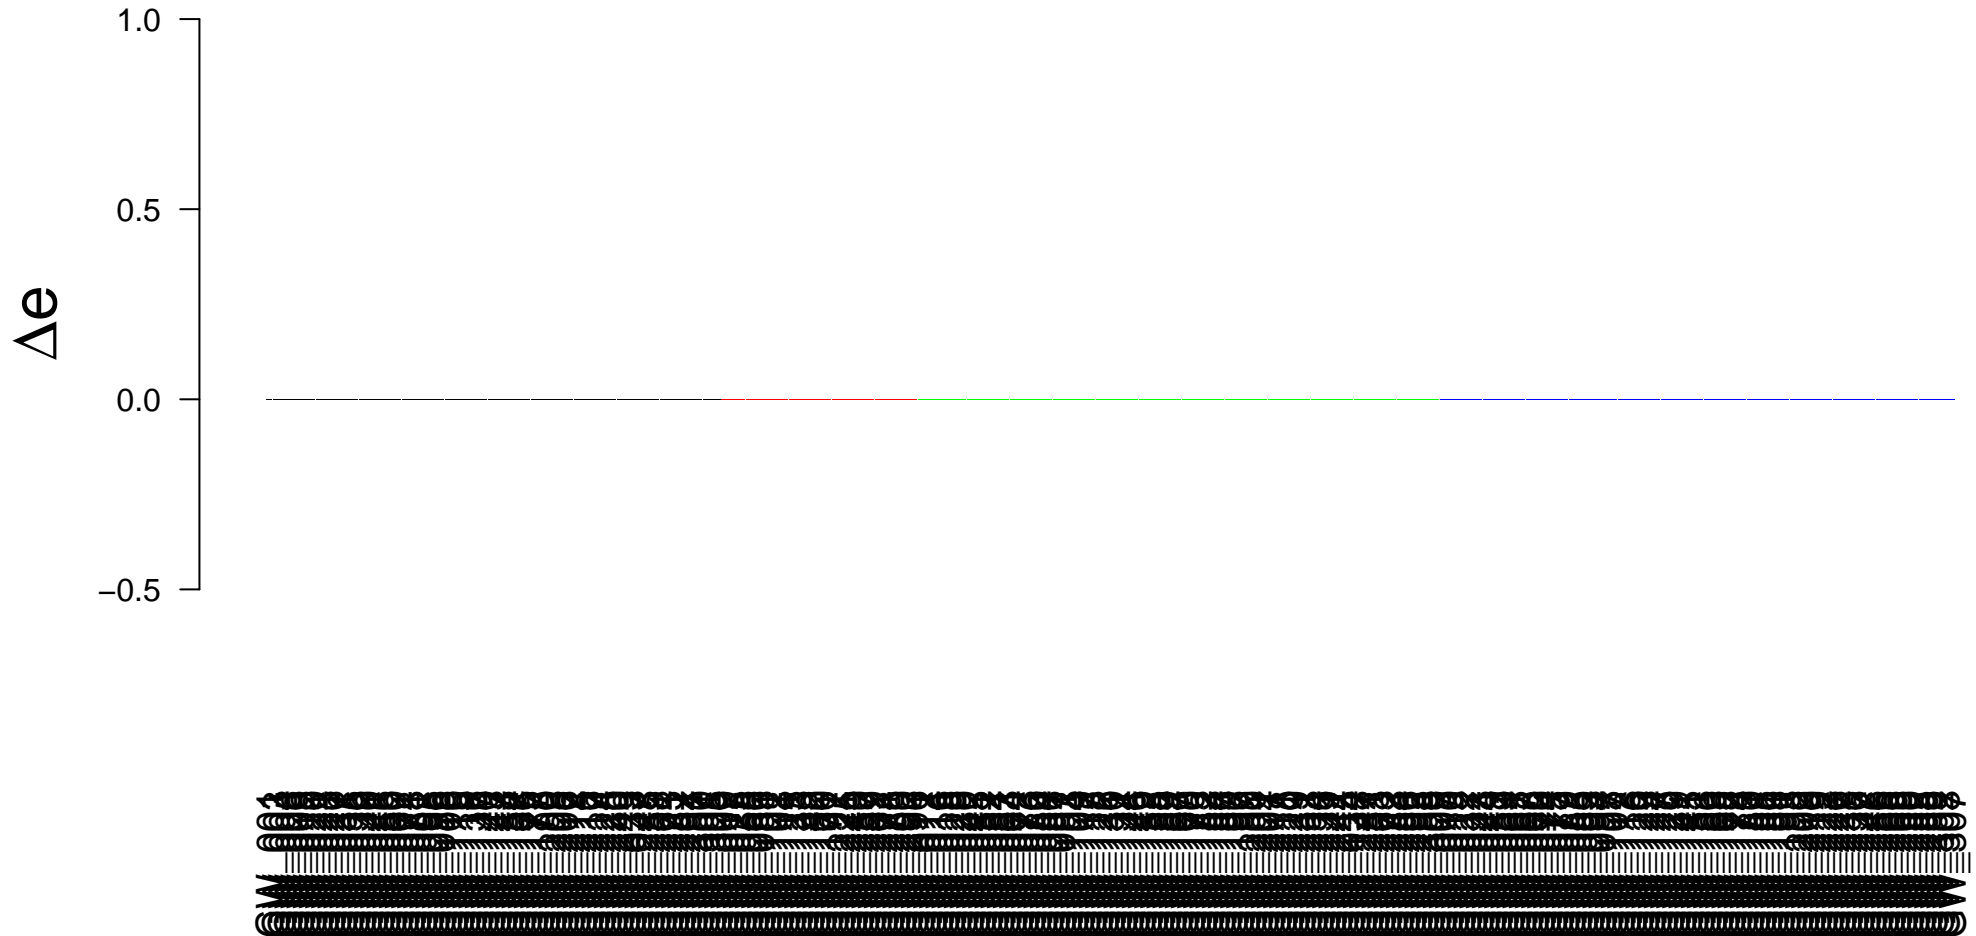

Expression of cyclin-dependent protein serine/threonine kinase inhibitor activity in Spot K

Expression of cyclin-dependent protein serine/threonine kinase inhibitor activity in Spot L

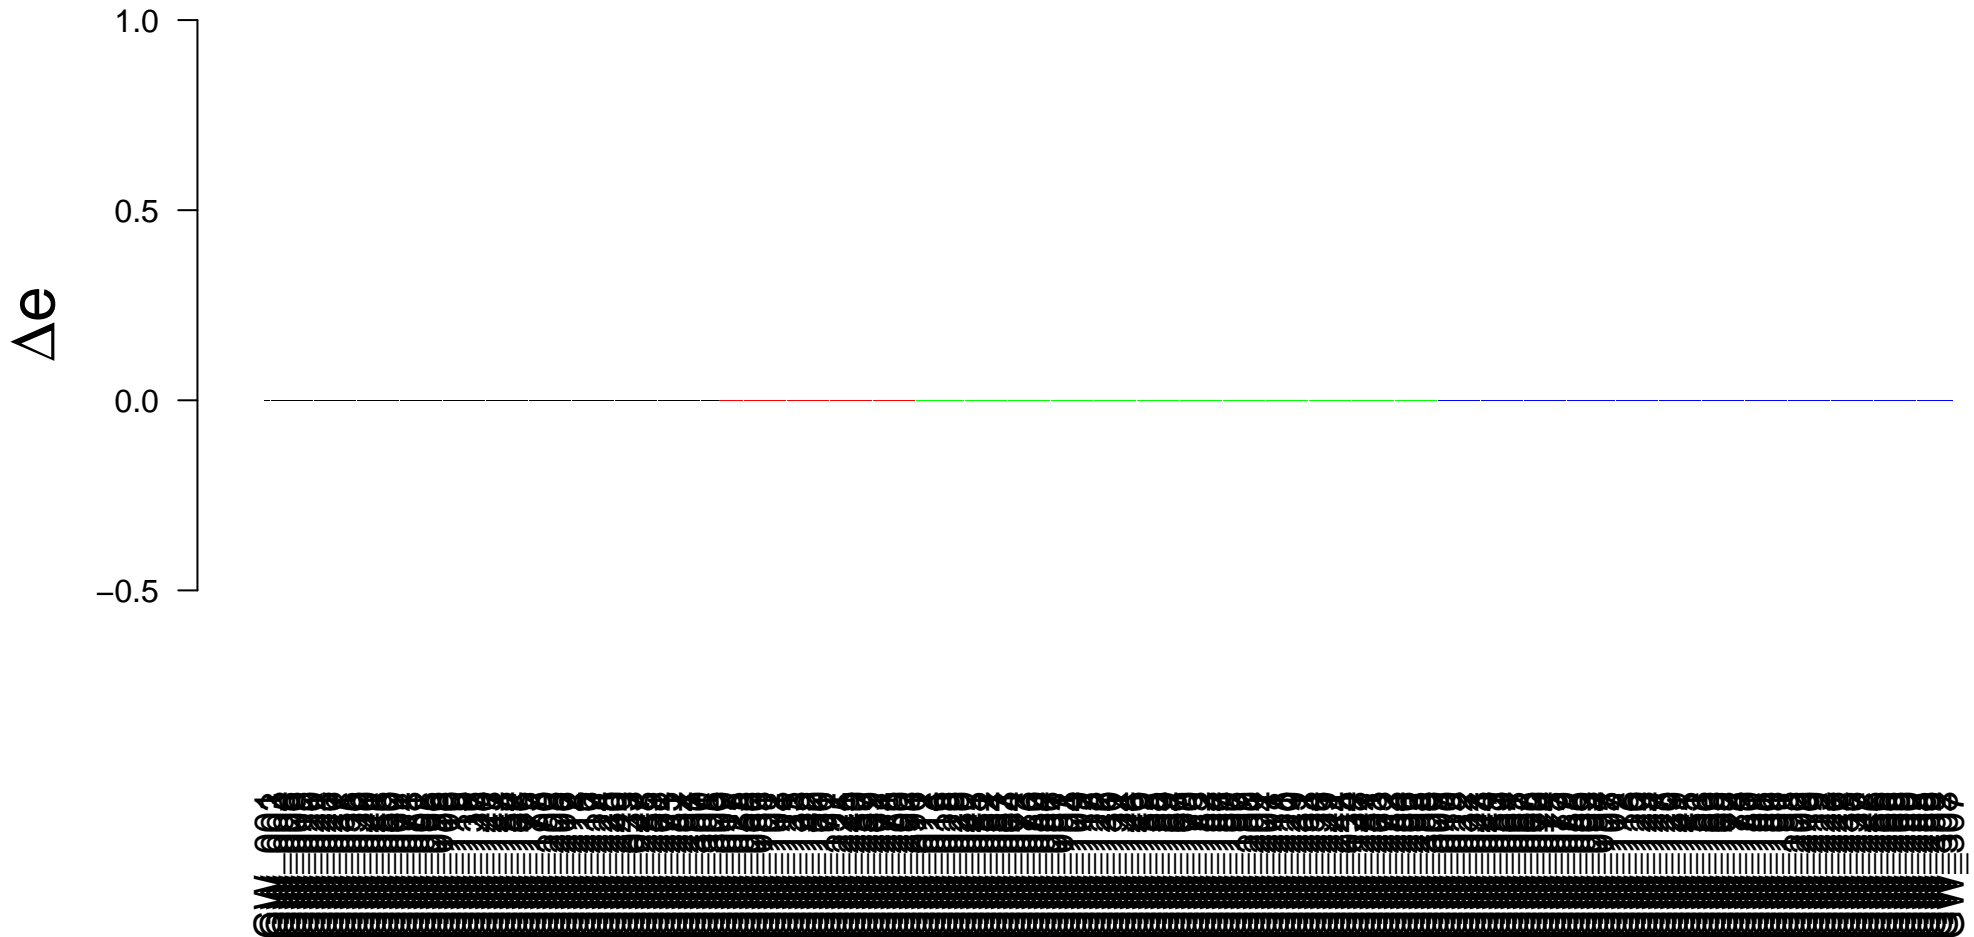

Expression of cyclin-dependent protein serine/threonine kinase inhibitor activity in Spot M

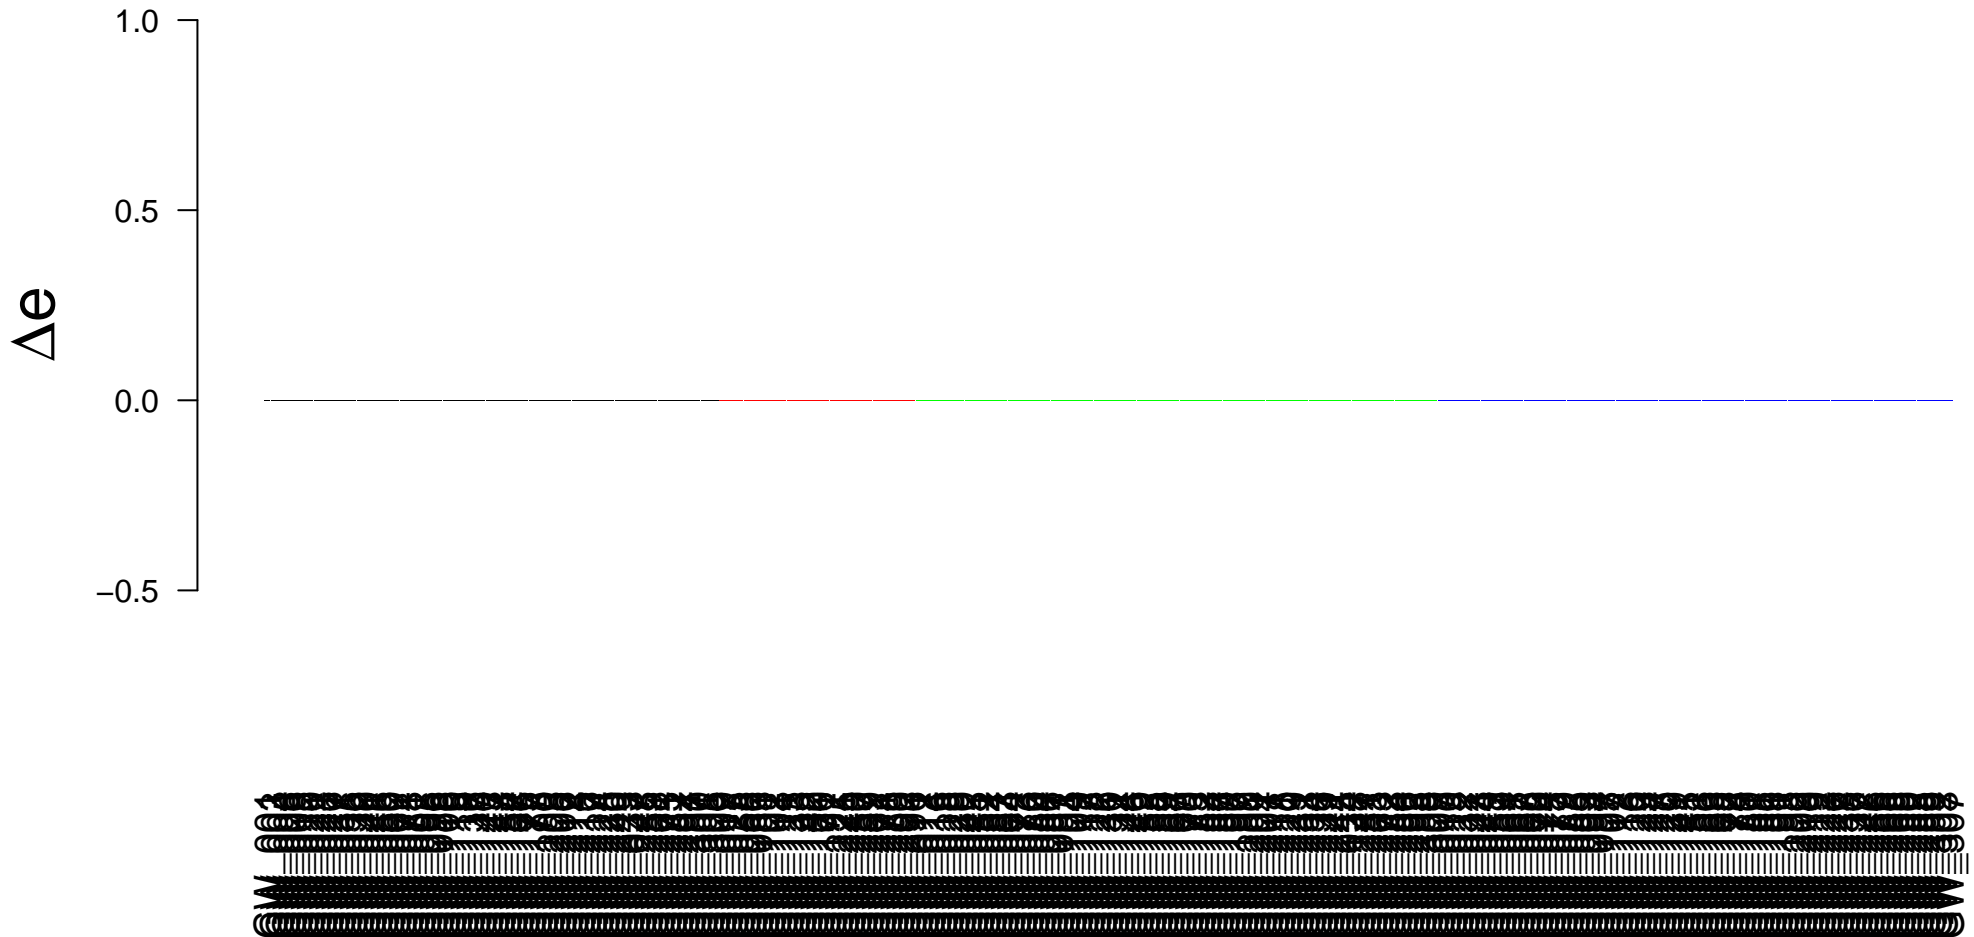

Expression of cyclin-dependent protein serine/threonine kinase inhibitor activity in Spot N

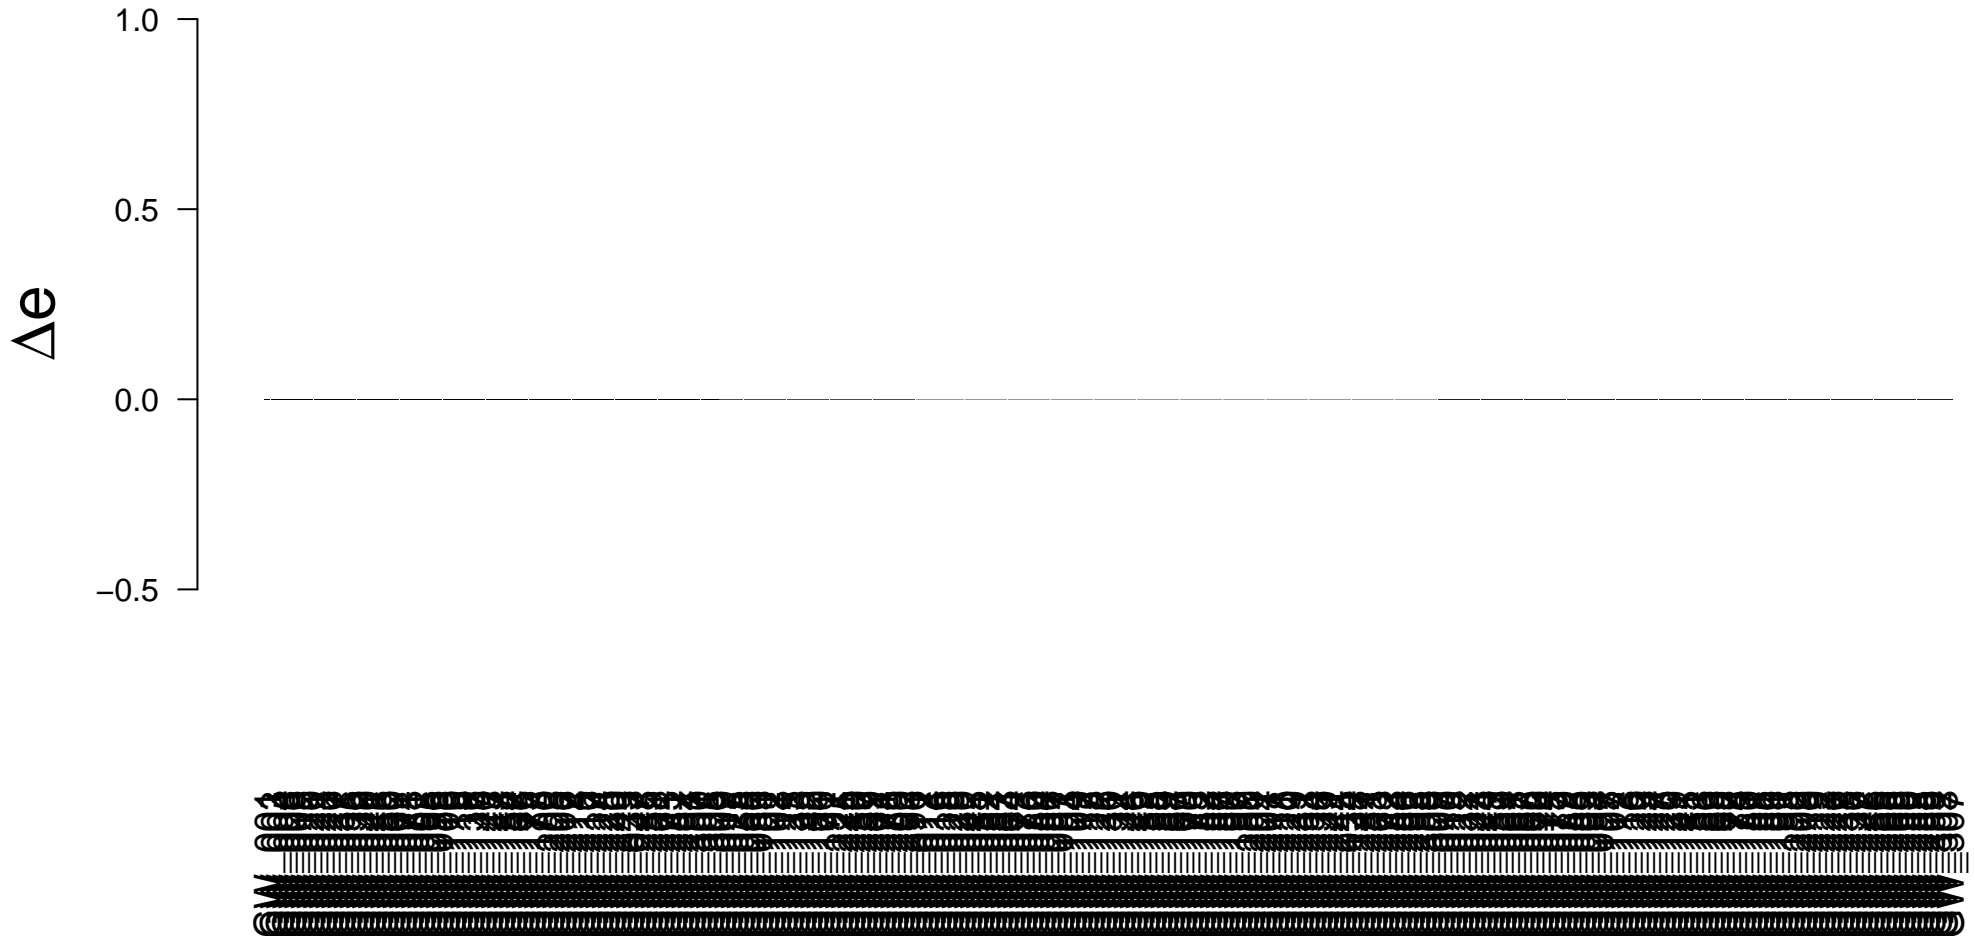

Expression of cyclin-dependent protein serine/threonine kinase inhibitor activity in Spot O

Expression of cyclin-dependent protein serine/threonine kinase inhibitor activity in Spot P

Expression of cyclin-dependent protein serine/threonine kinase inhibitor activity in Spot Q

Expression of cyclin-dependent protein serine/threonine kinase inhibitor activity in Spot R
