

delayed rectifier potassium channel activity

delayed rectifier potassium channel activity

Enrichment in spots: delayed rectifier potassium channel activity

Expression of delayed rectifier potassium channel activity in Spot A

Expression of delayed rectifier potassium channel activity in Spot B

Expression of delayed rectifier potassium channel activity in Spot C

Expression of delayed rectifier potassium channel activity in Spot D

Expression of delayed rectifier potassium channel activity in Spot E

Expression of delayed rectifier potassium channel activity in Spot F

Expression of delayed rectifier potassium channel activity in Spot G

Expression of delayed rectifier potassium channel activity in Spot H

Expression of delayed rectifier potassium channel activity in Spot I

Expression of delayed rectifier potassium channel activity in Spot J

Expression of delayed rectifier potassium channel activity in Spot K

Expression of delayed rectifier potassium channel activity in Spot L
