

detection of mechanical stimulus involved in sensory perception of sound

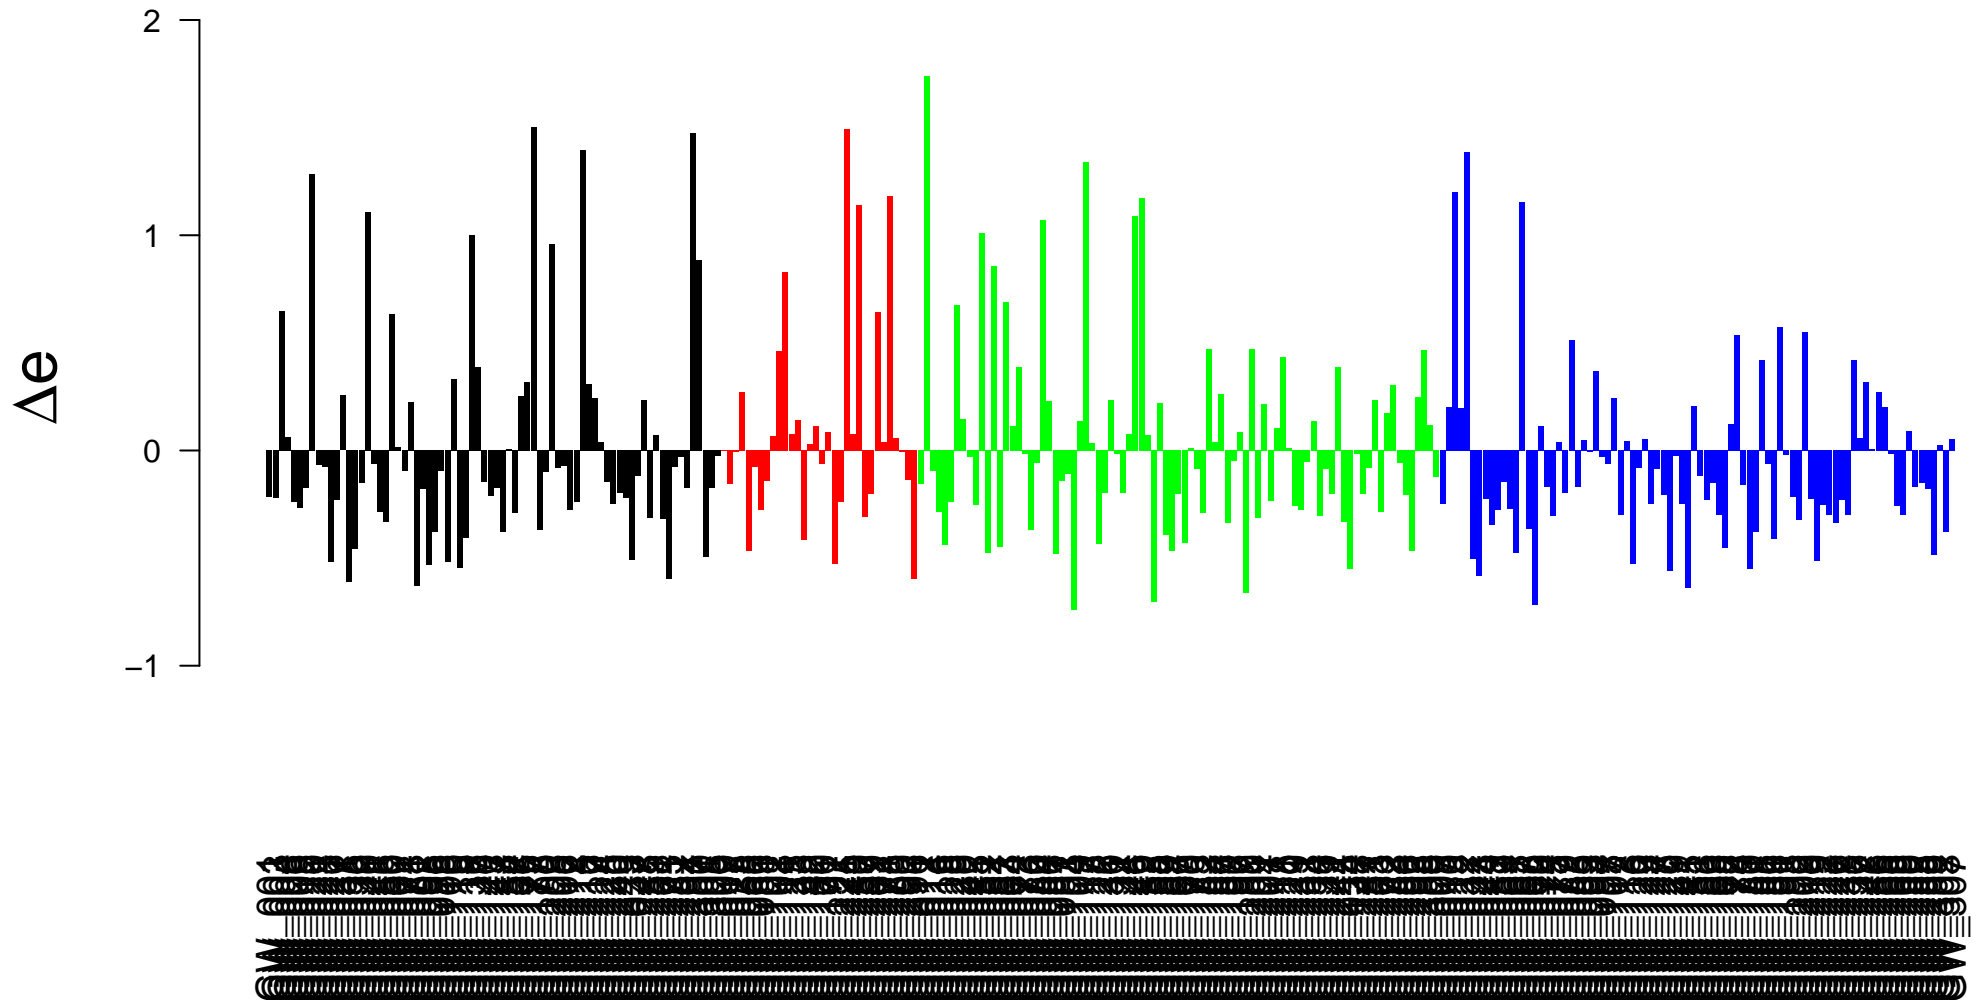

detection of mechanical stimulus involved in sensory perception of sound

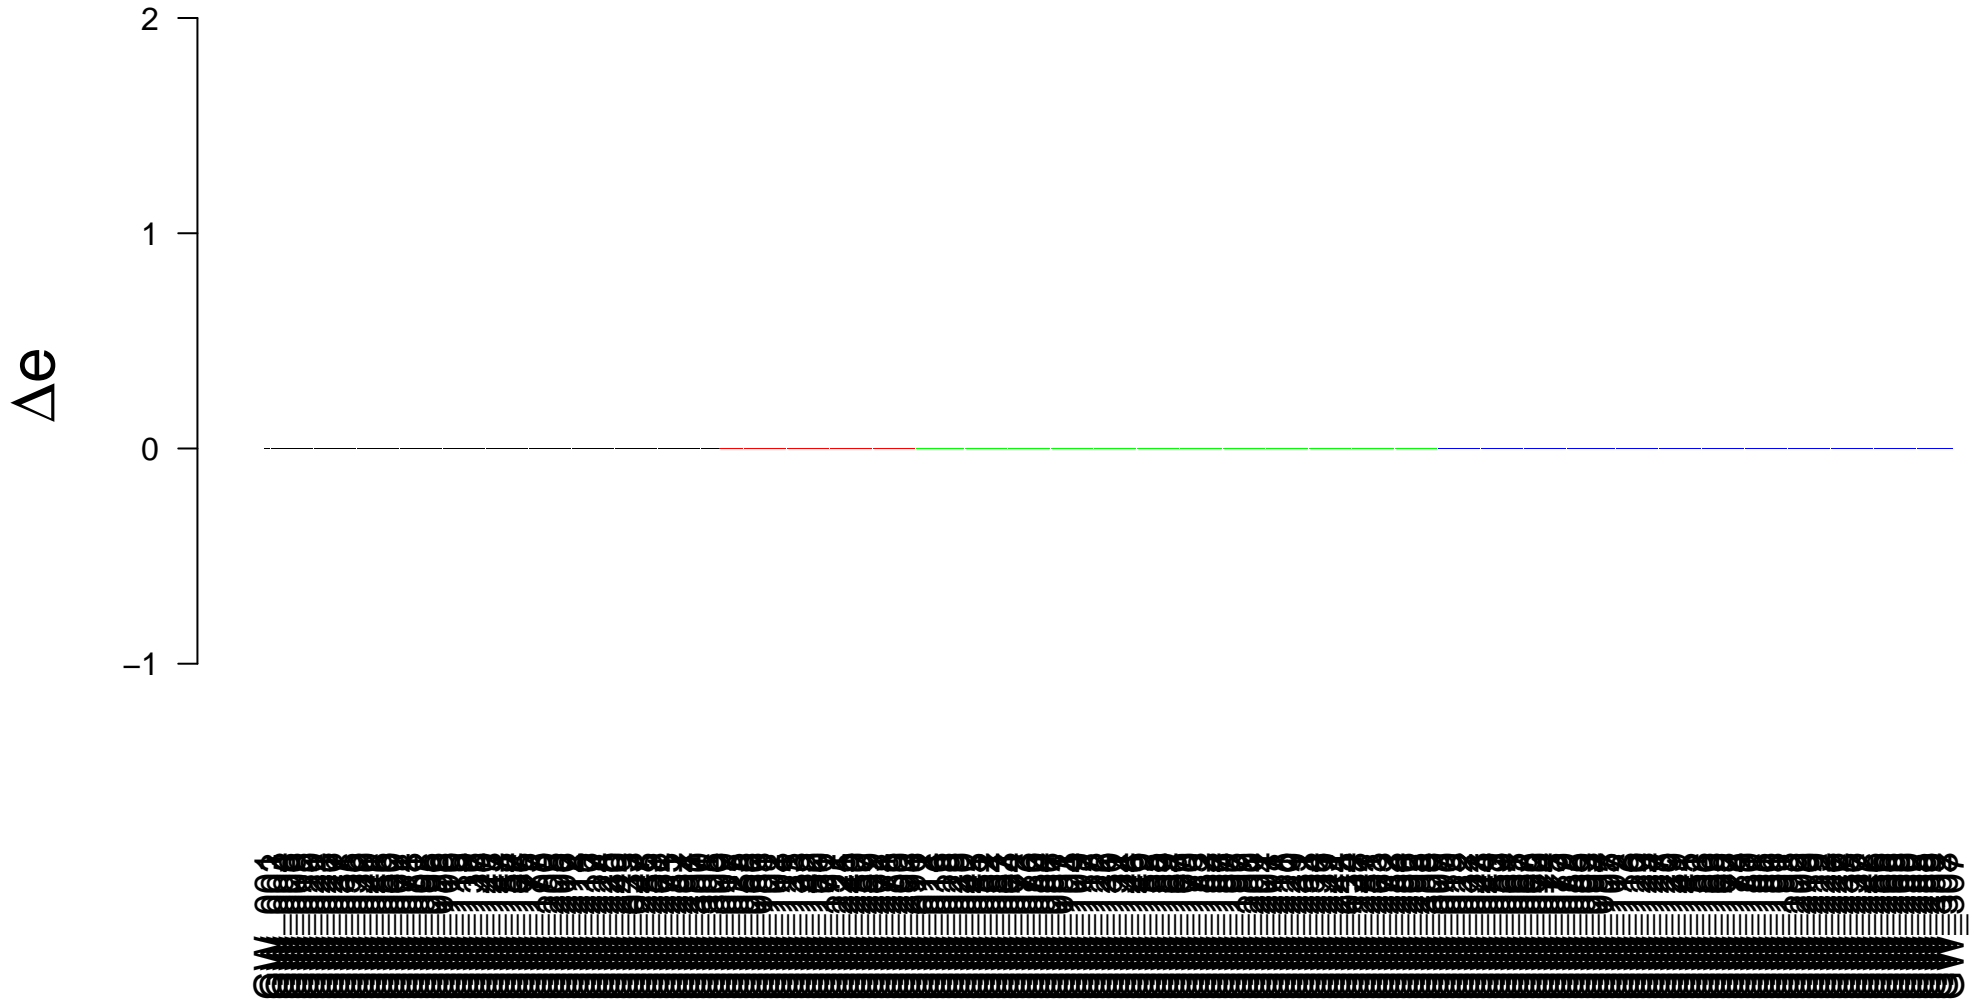

Enrichment in spots: detection of mechanical stimulus involved in sensory perception of sound

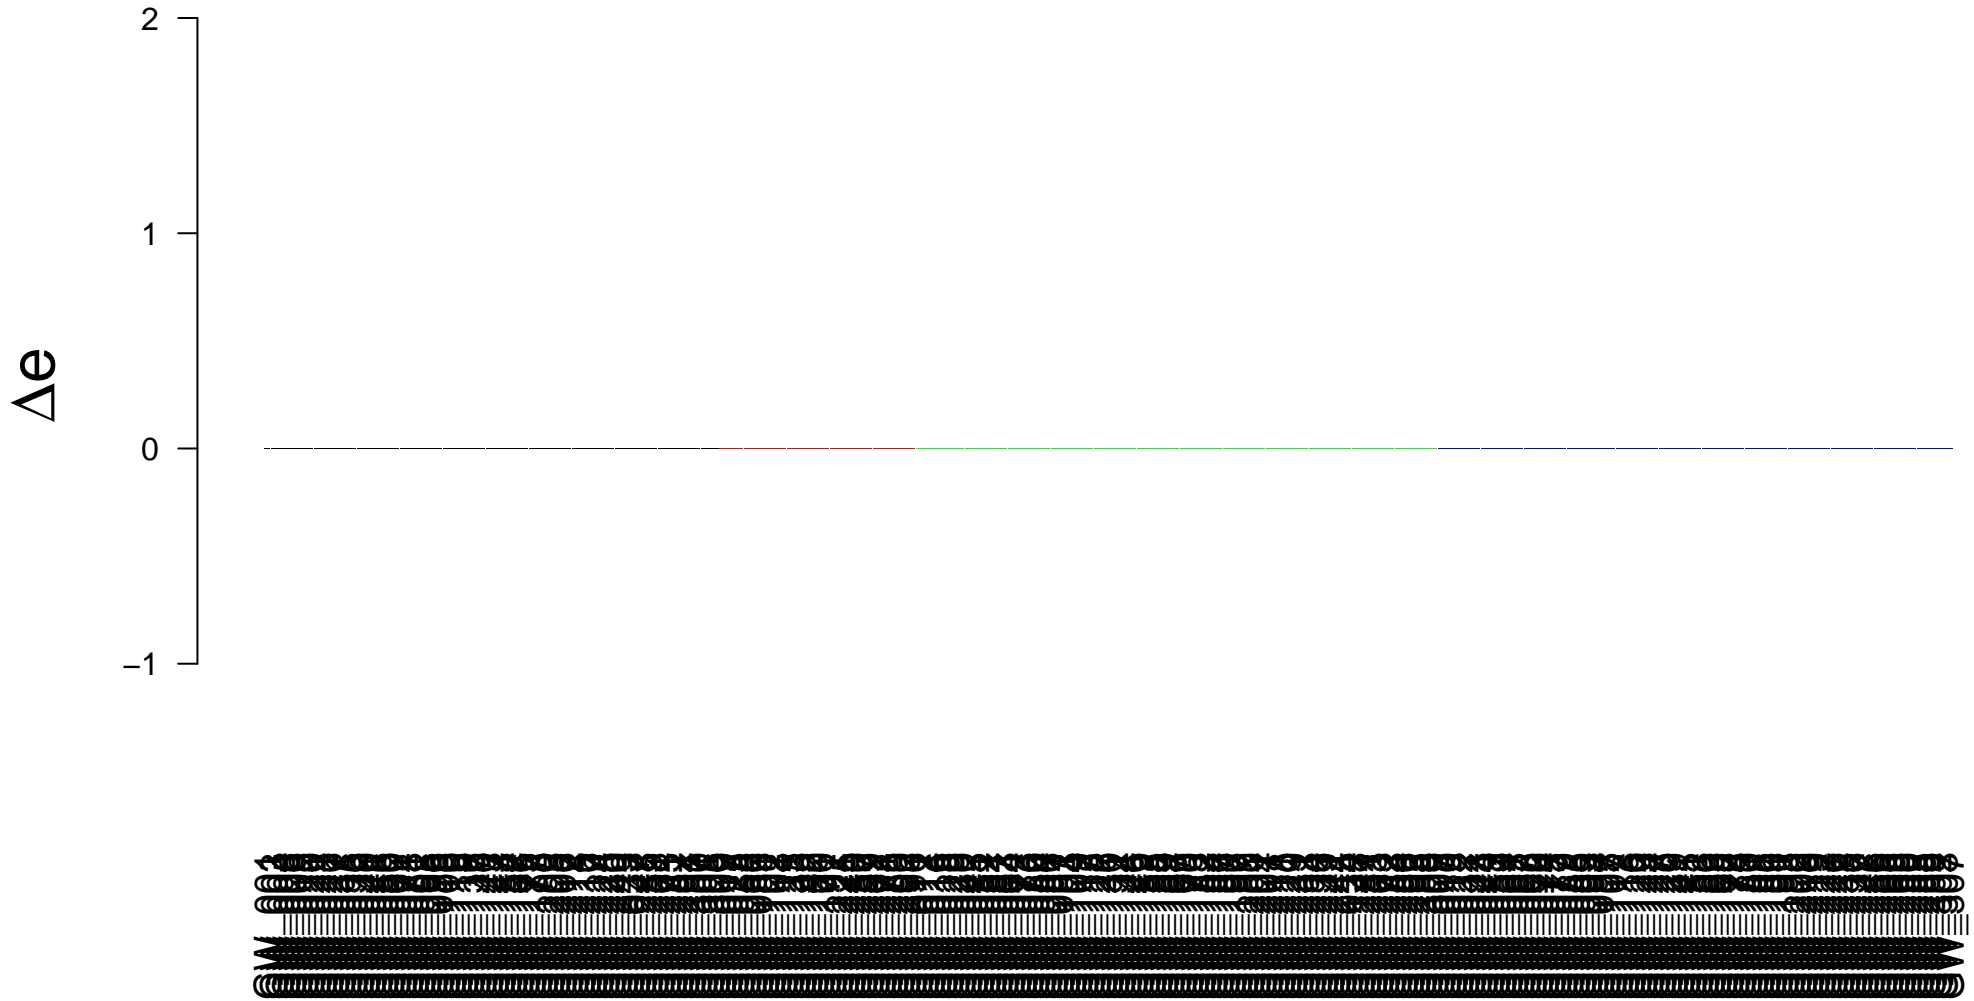

Expression of detection of mechanical stimulus involved in sensory perception of sound in Spot A

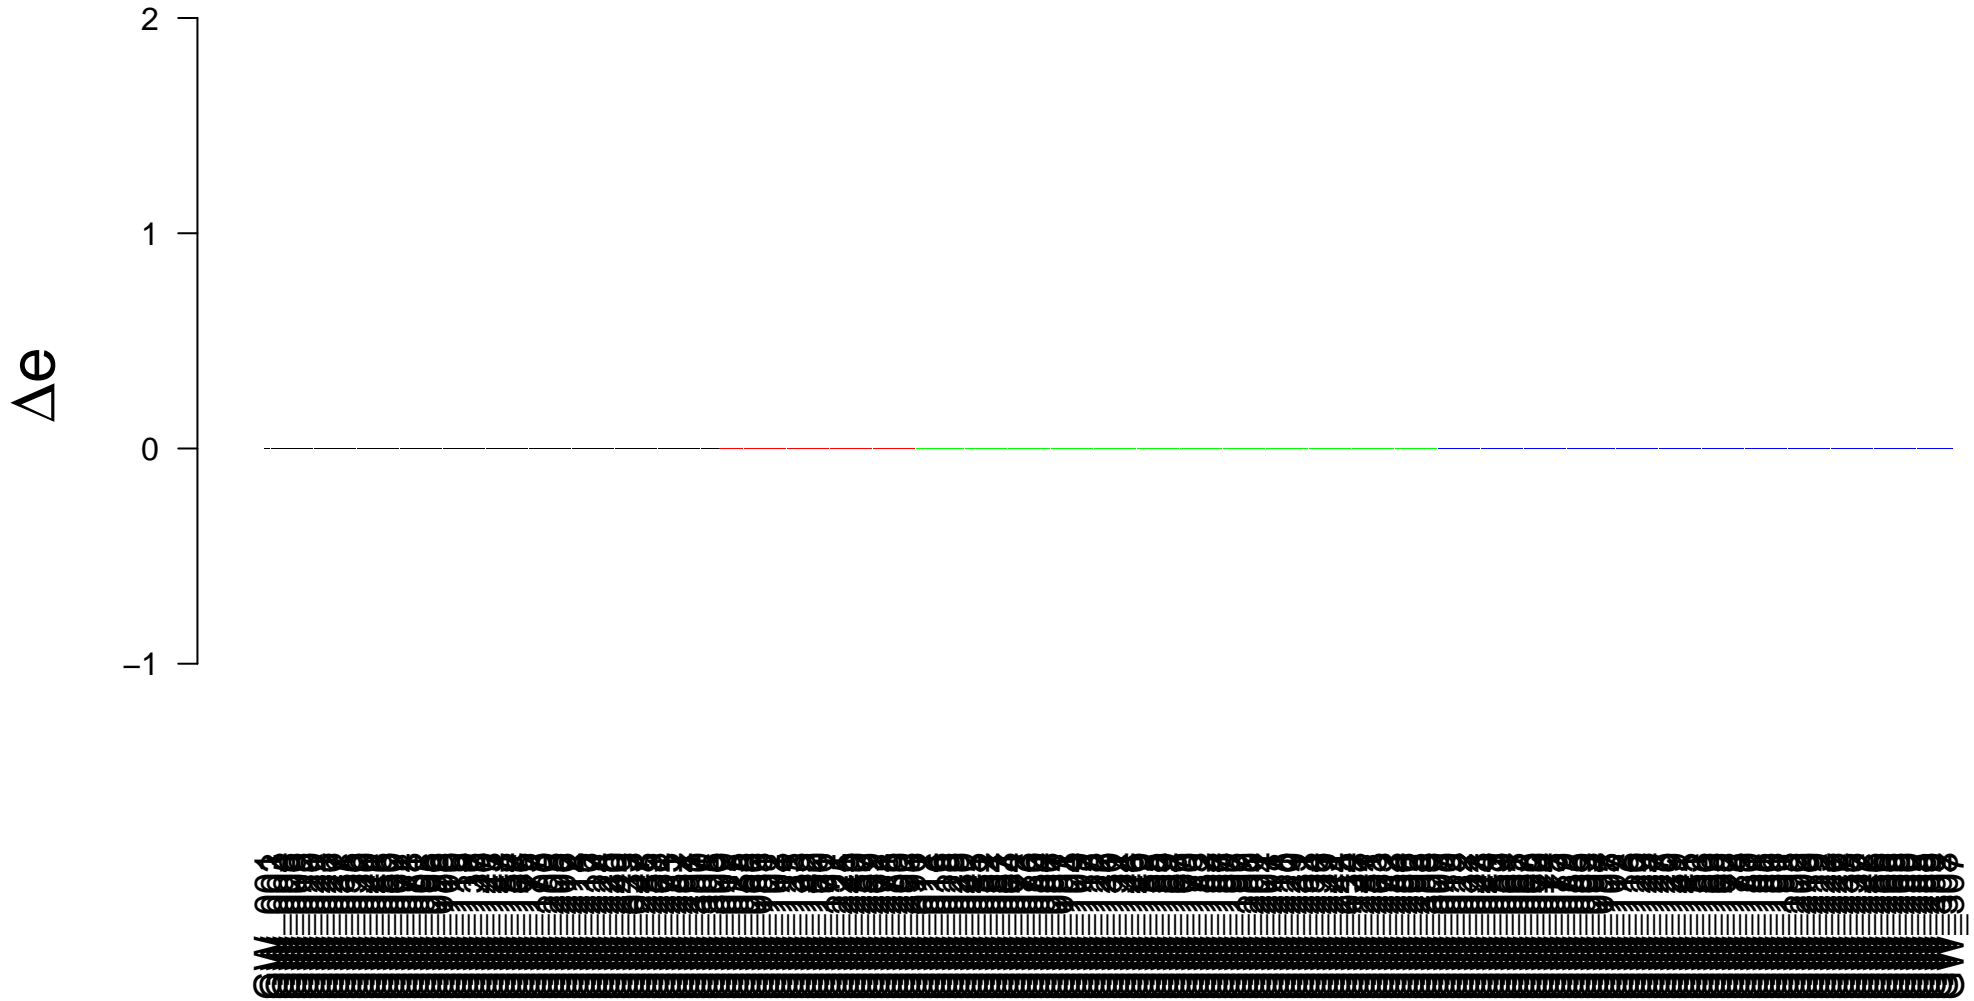

Expression of detection of mechanical stimulus involved in sensory perception of sound in Spot B

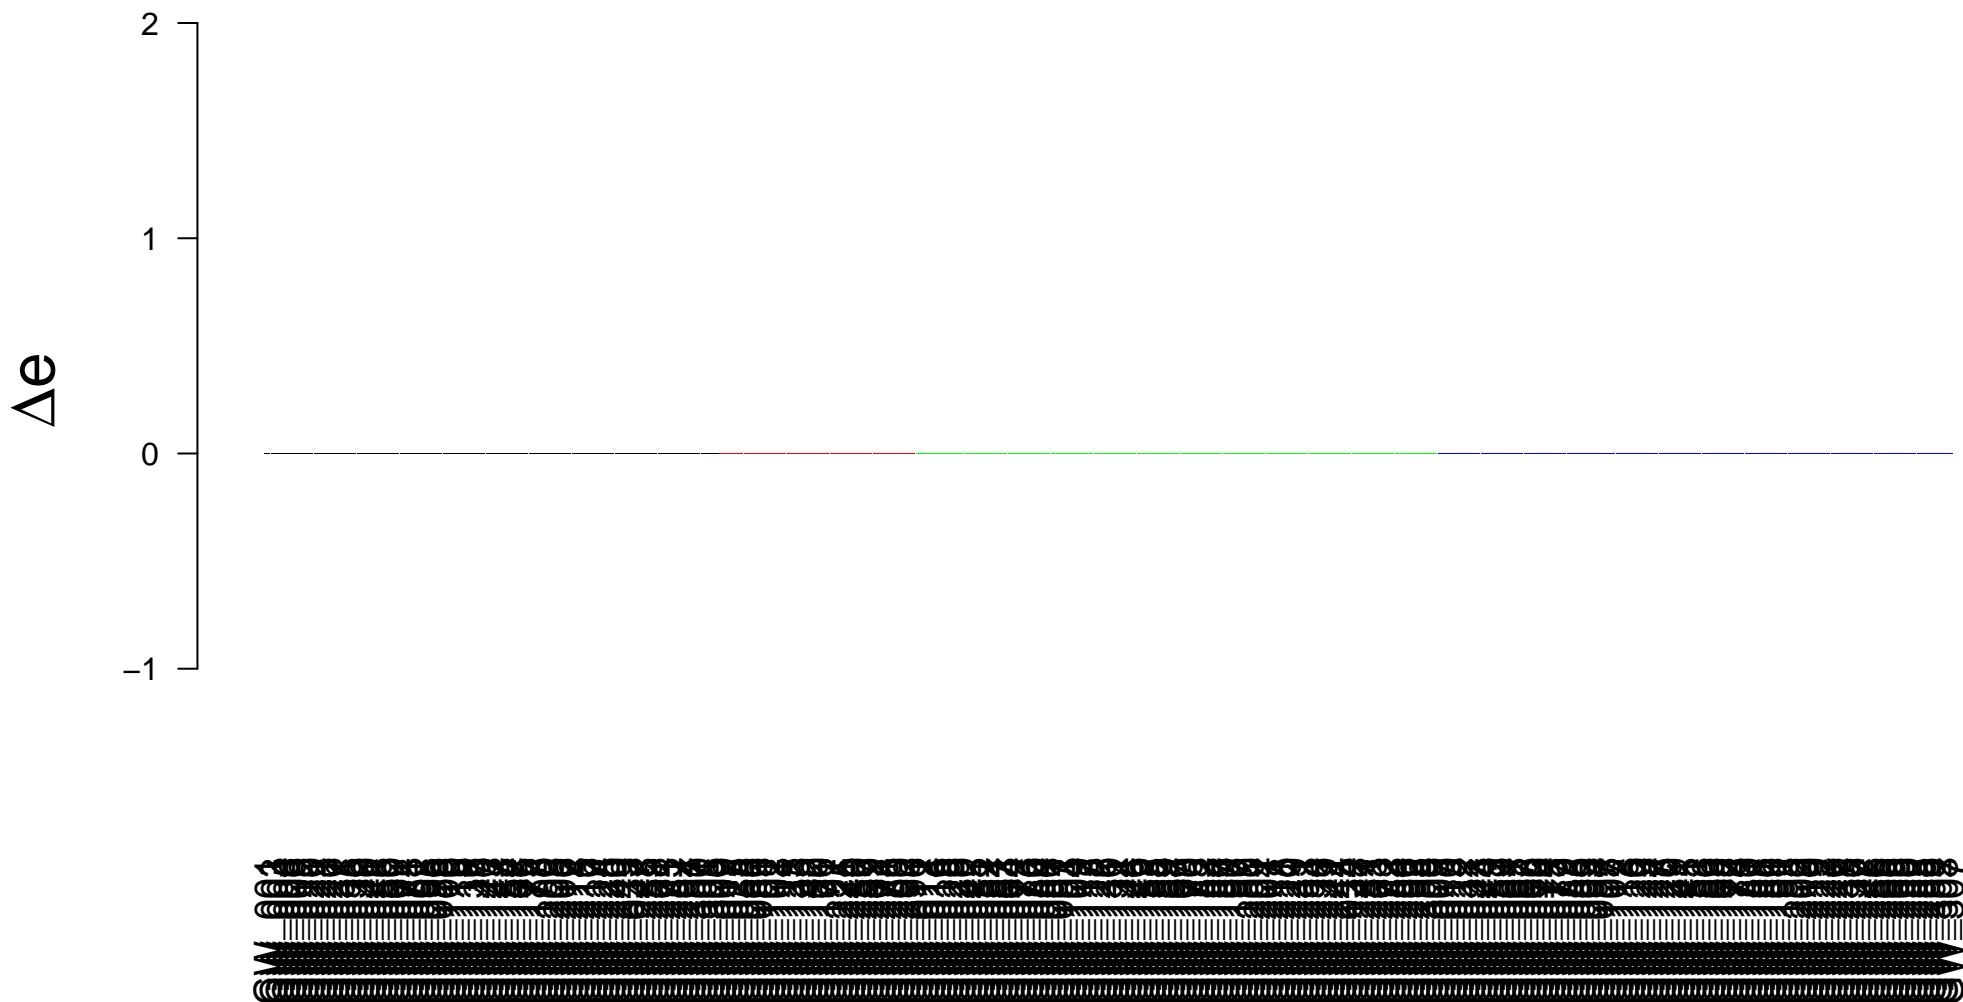

Expression of detection of mechanical stimulus involved in sensory perception of sound in Spot C

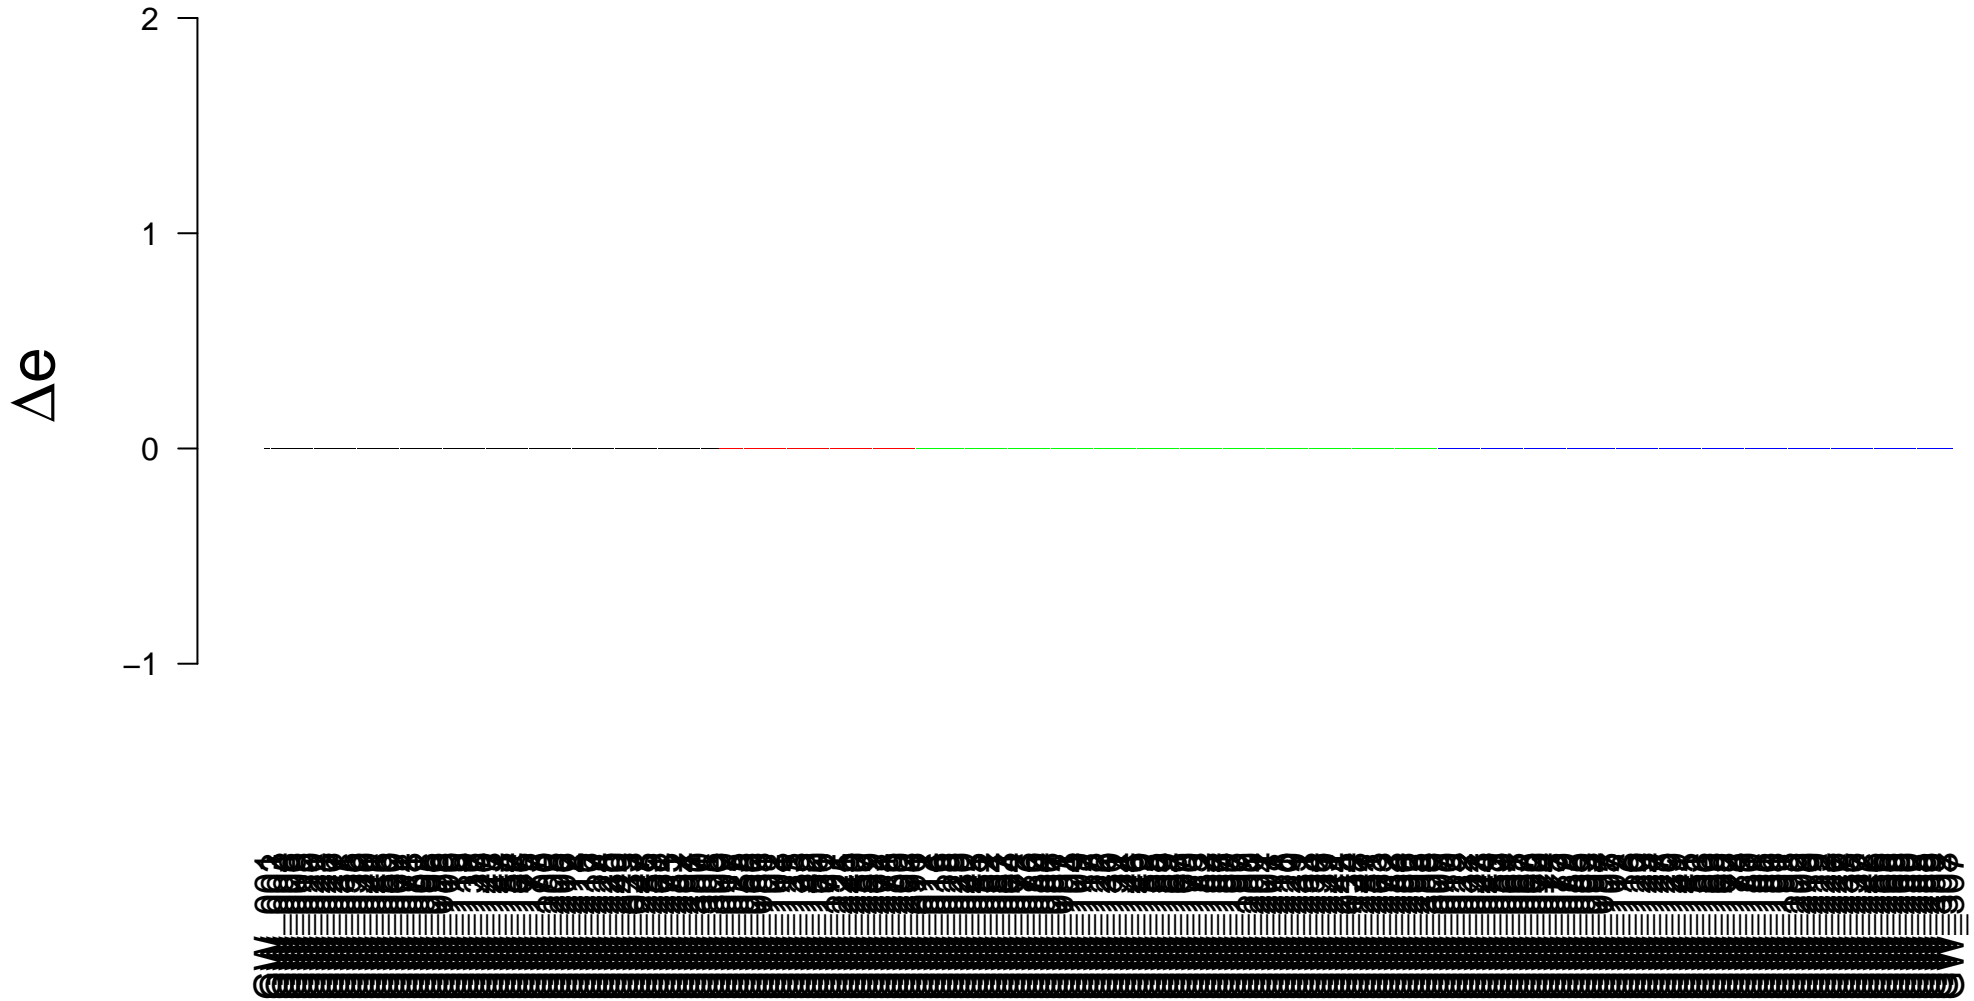

Expression of detection of mechanical stimulus involved in sensory perception of sound in Spot D

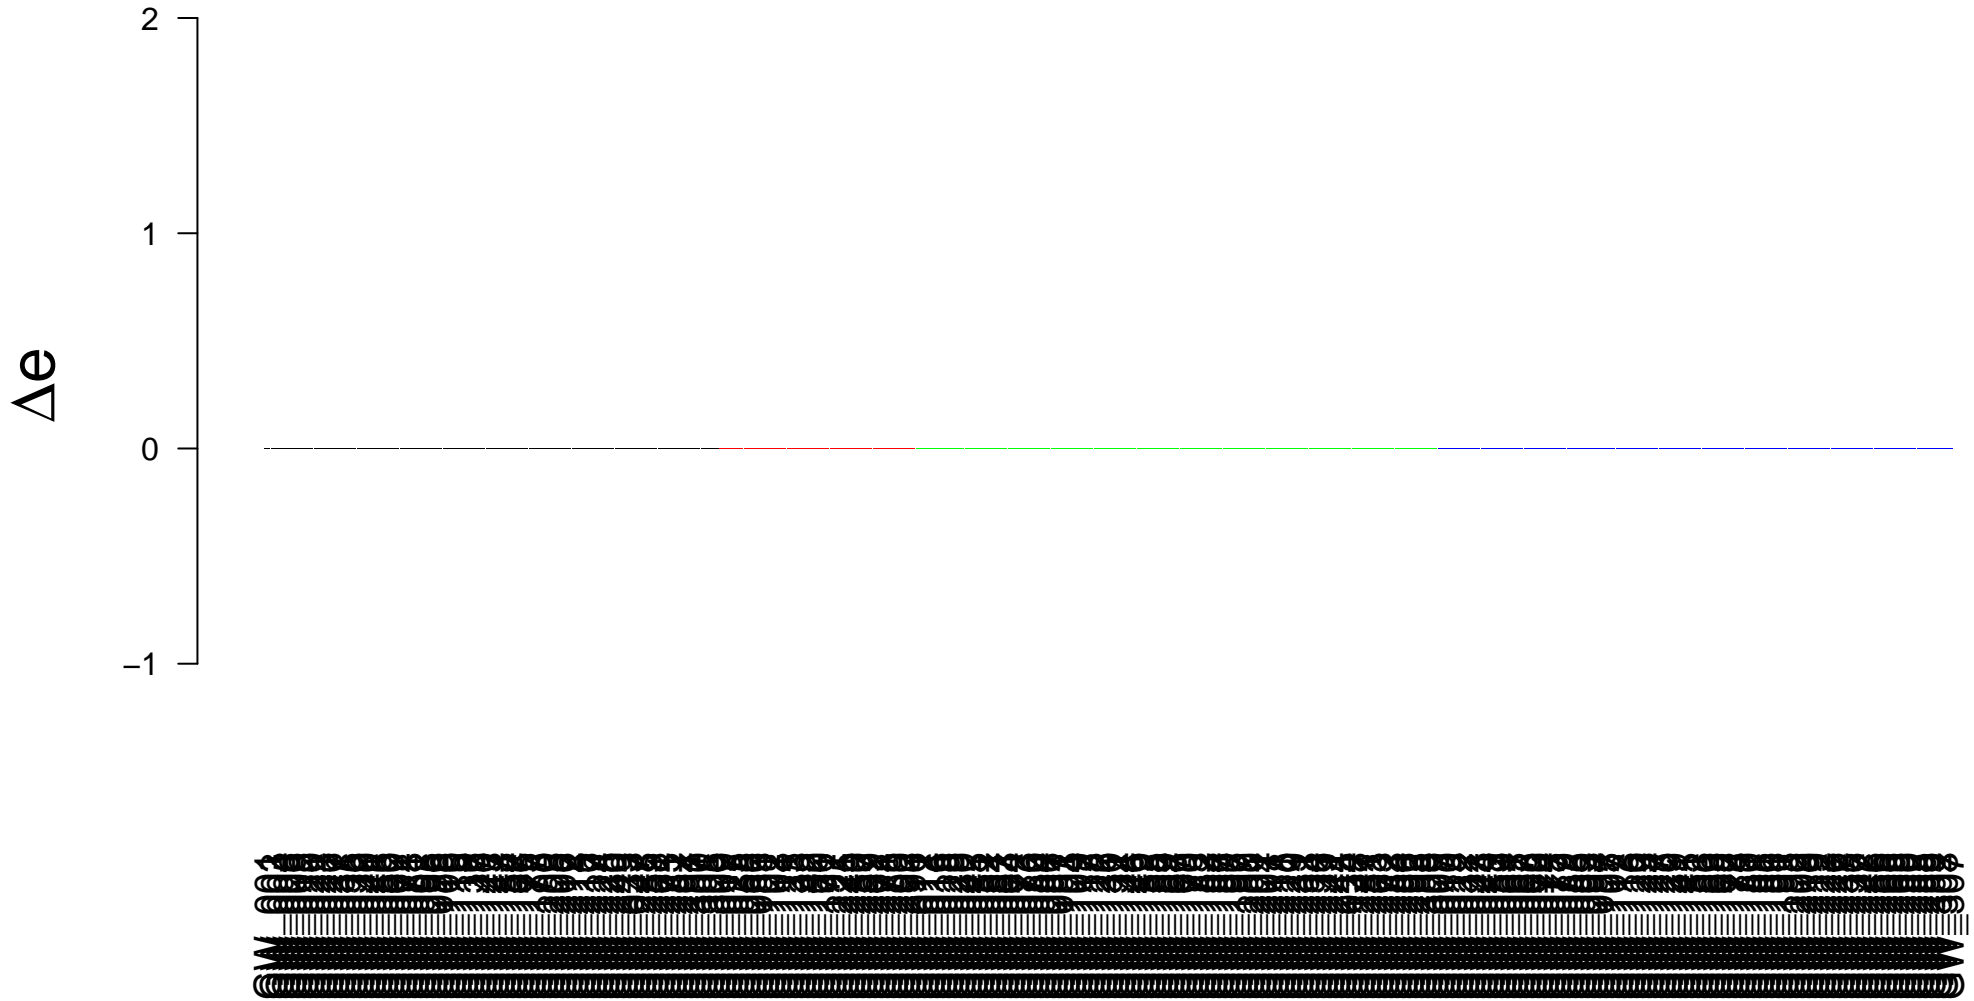

Expression of detection of mechanical stimulus involved in sensory perception of sound in Spot E

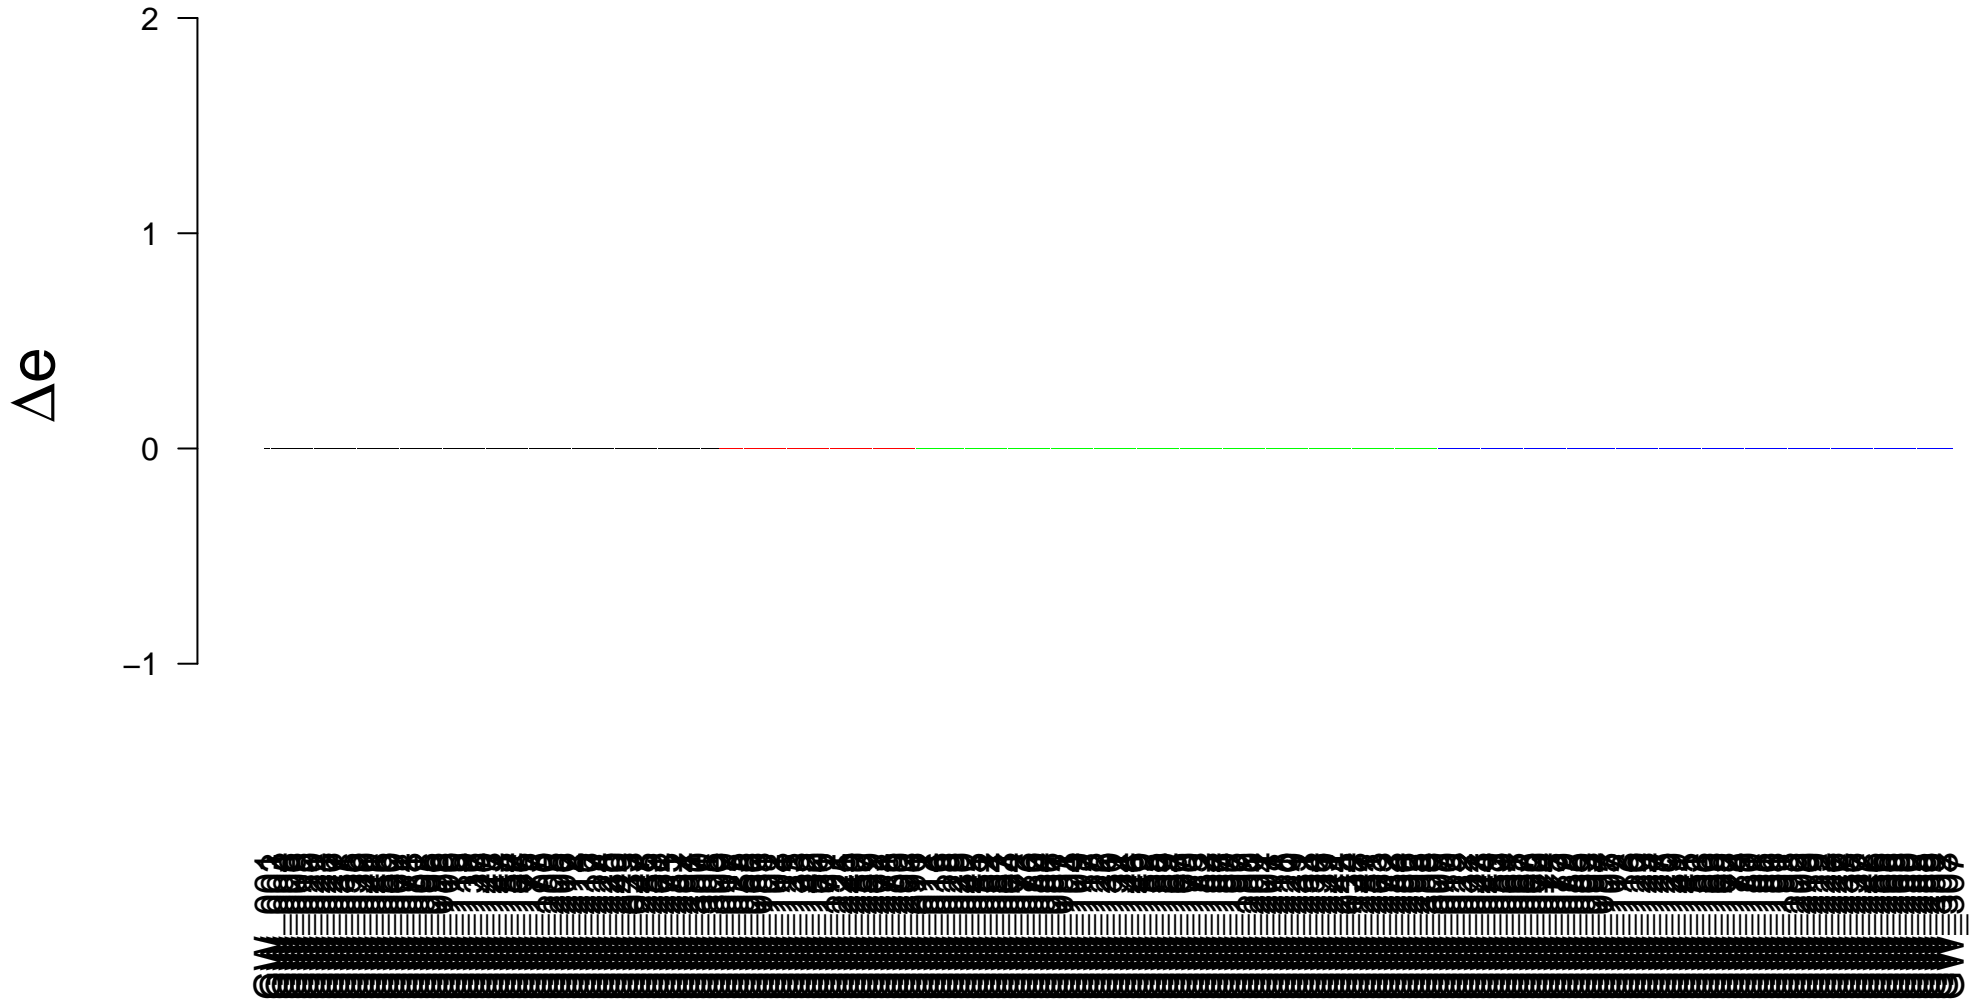

Expression of detection of mechanical stimulus involved in sensory perception of sound in Spot F

Expression of detection of mechanical stimulus involved in sensory perception of sound in Spot G

Expression of detection of mechanical stimulus involved in sensory perception of sound in Spot H

Expression of detection of mechanical stimulus involved in sensory perception of sound in Spot I

Expression of detection of mechanical stimulus involved in sensory perception of sound in Spot L

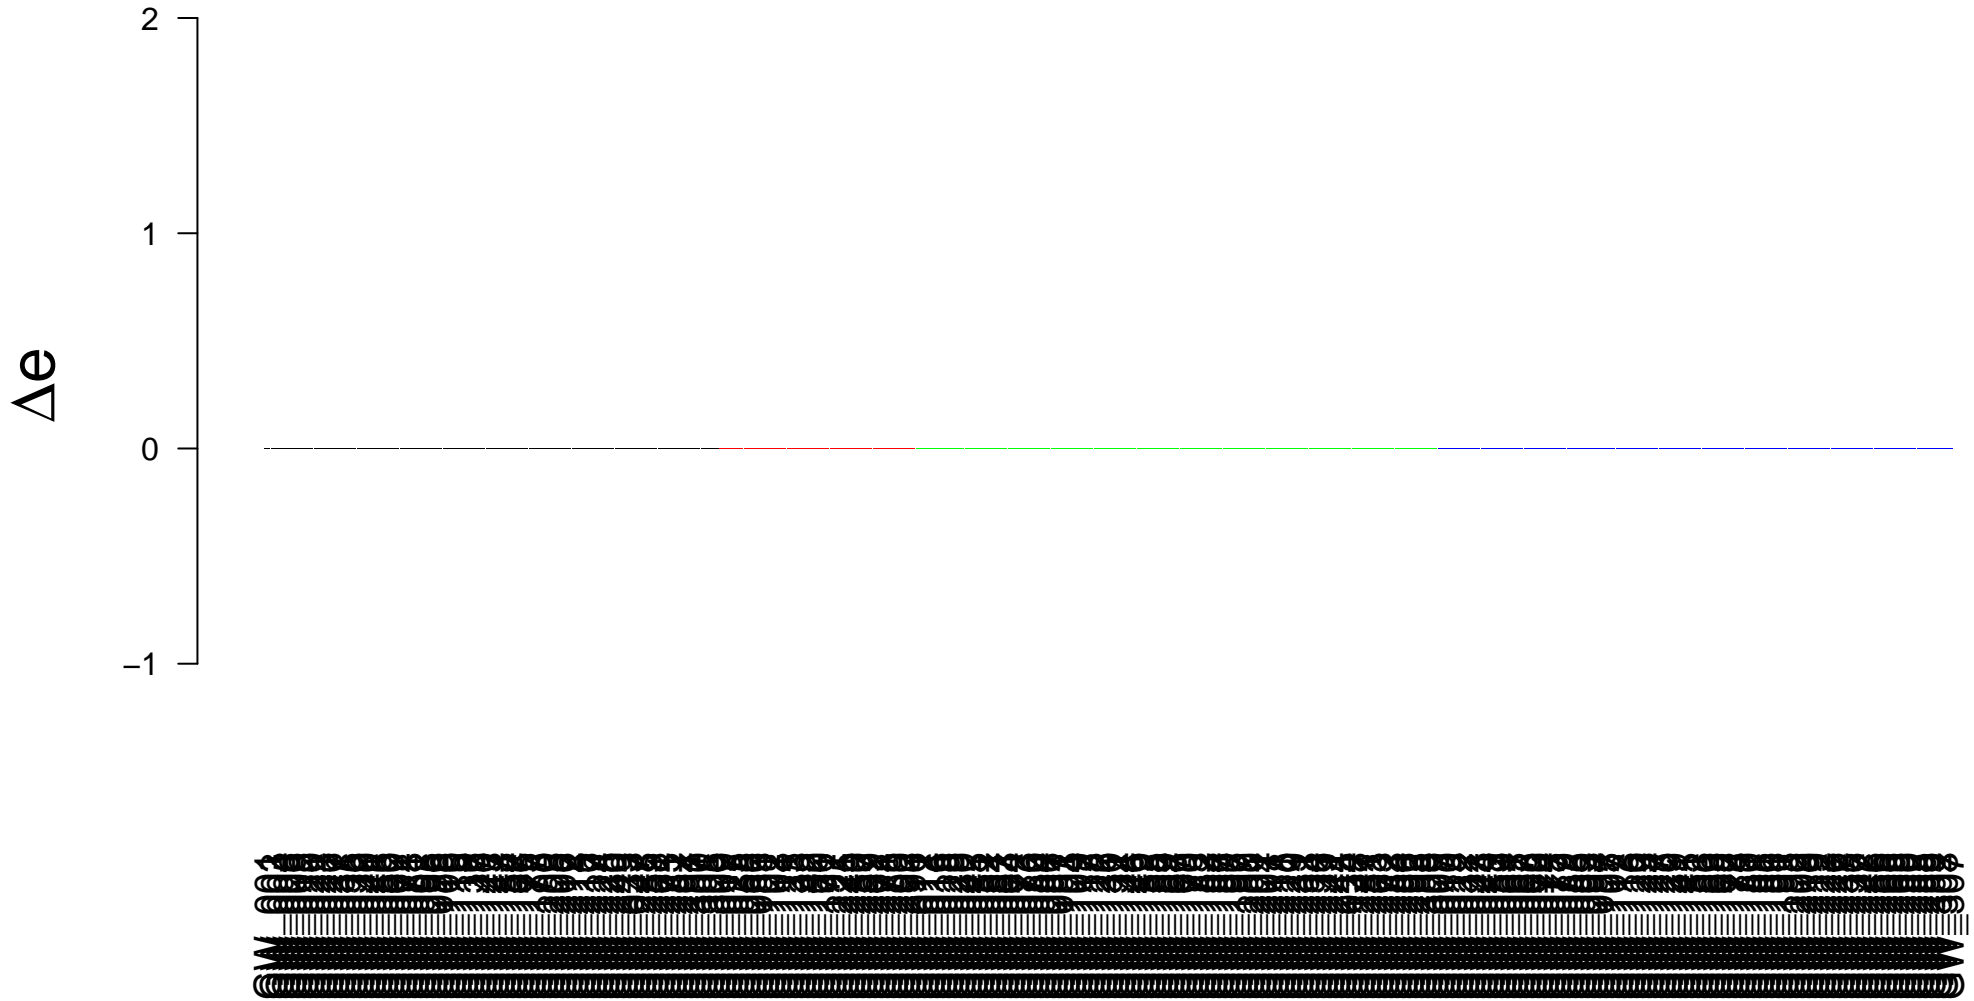

Expression of detection of mechanical stimulus involved in sensory perception of sound in Spot M

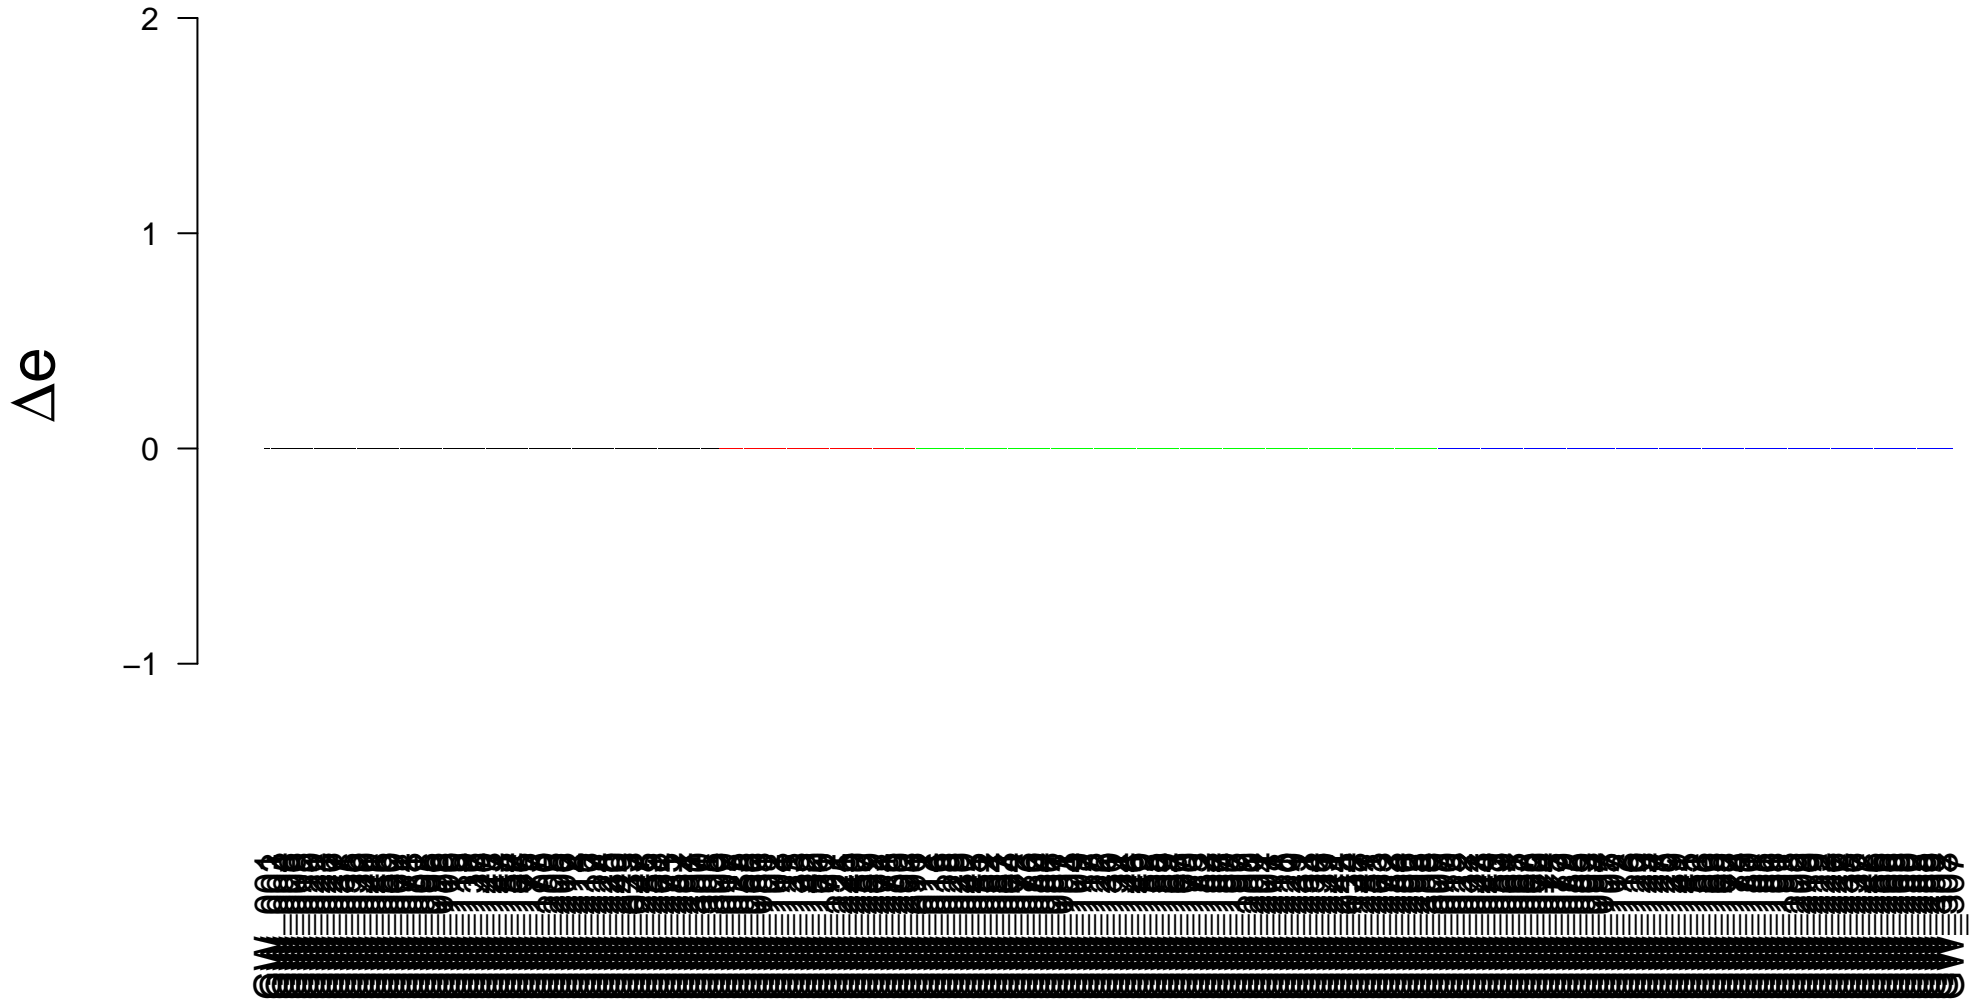

Expression of detection of mechanical stimulus involved in sensory perception of sound in Spot N

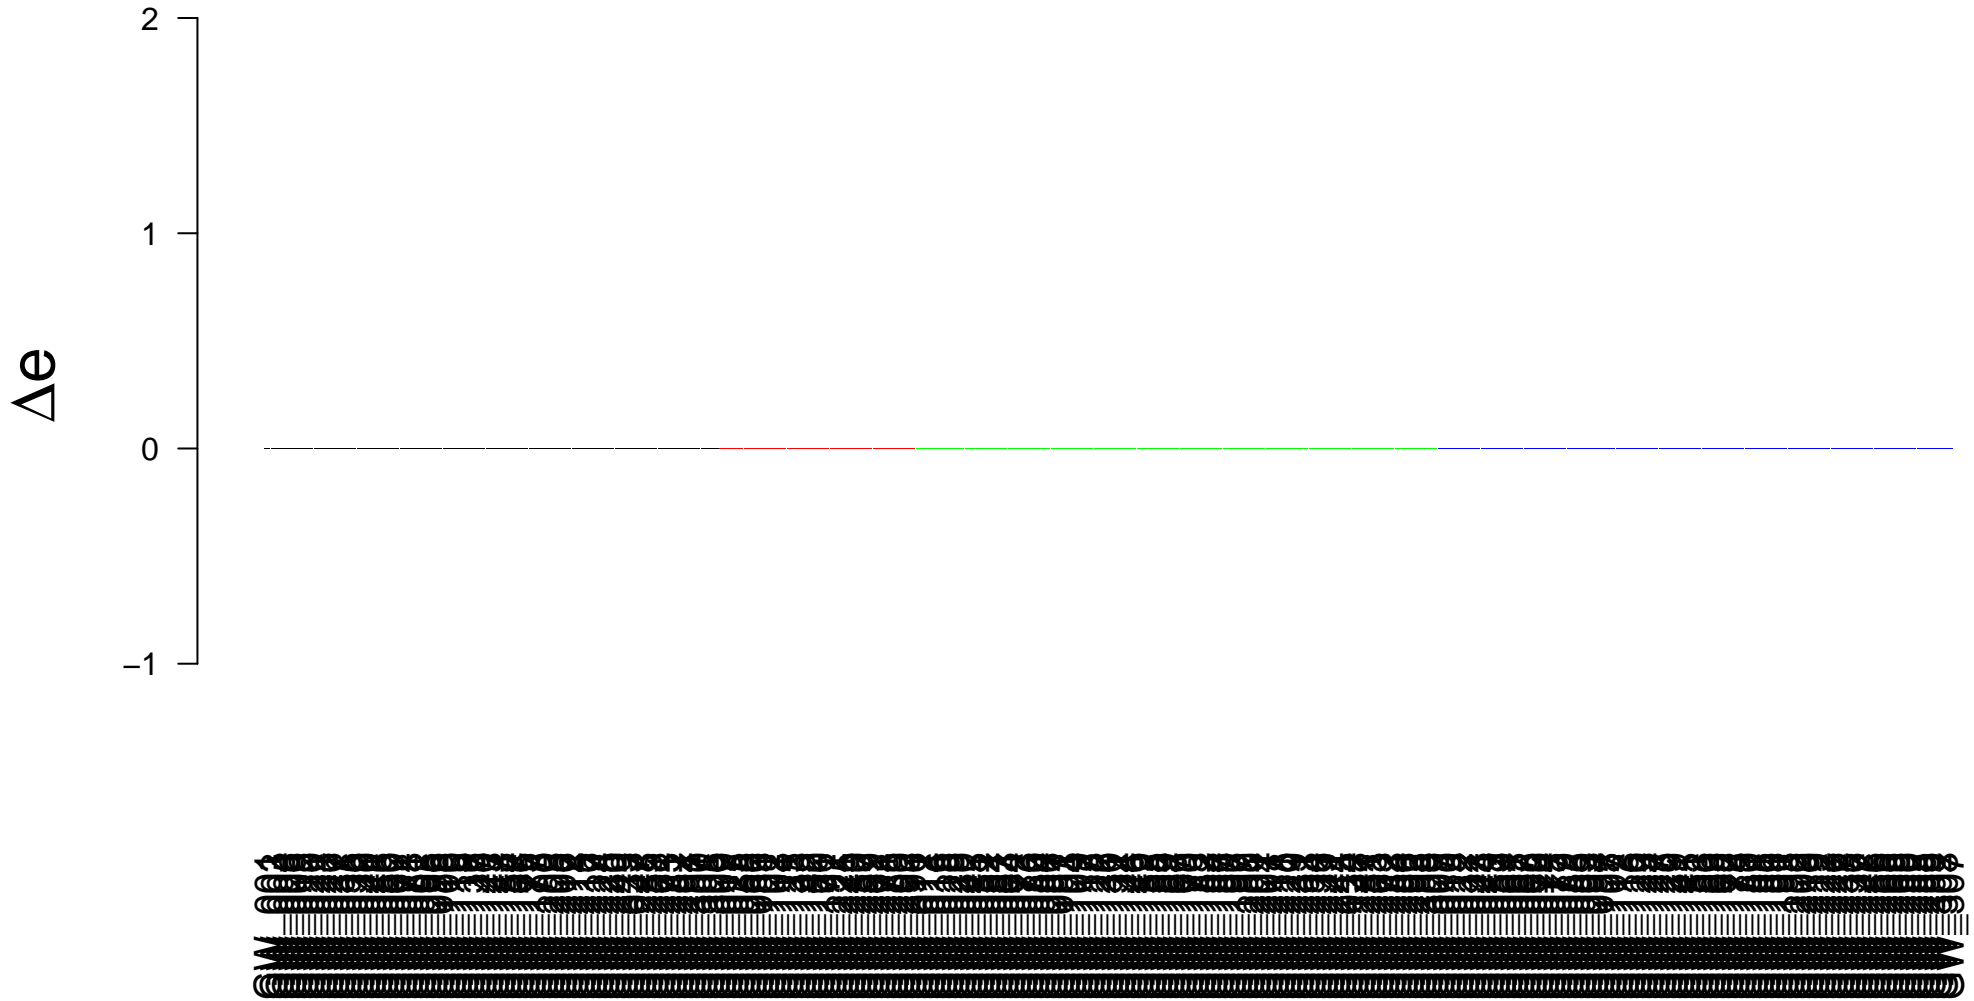

Expression of detection of mechanical stimulus involved in sensory perception of sound in Spot O

Expression of detection of mechanical stimulus involved in sensory perception of sound in Spot P

Expression of detection of mechanical stimulus involved in sensory perception of sound in Spot Q

Expression of detection of mechanical stimulus involved in sensory perception of sound in Spot R
