

enhancer sequence-specific DNA binding

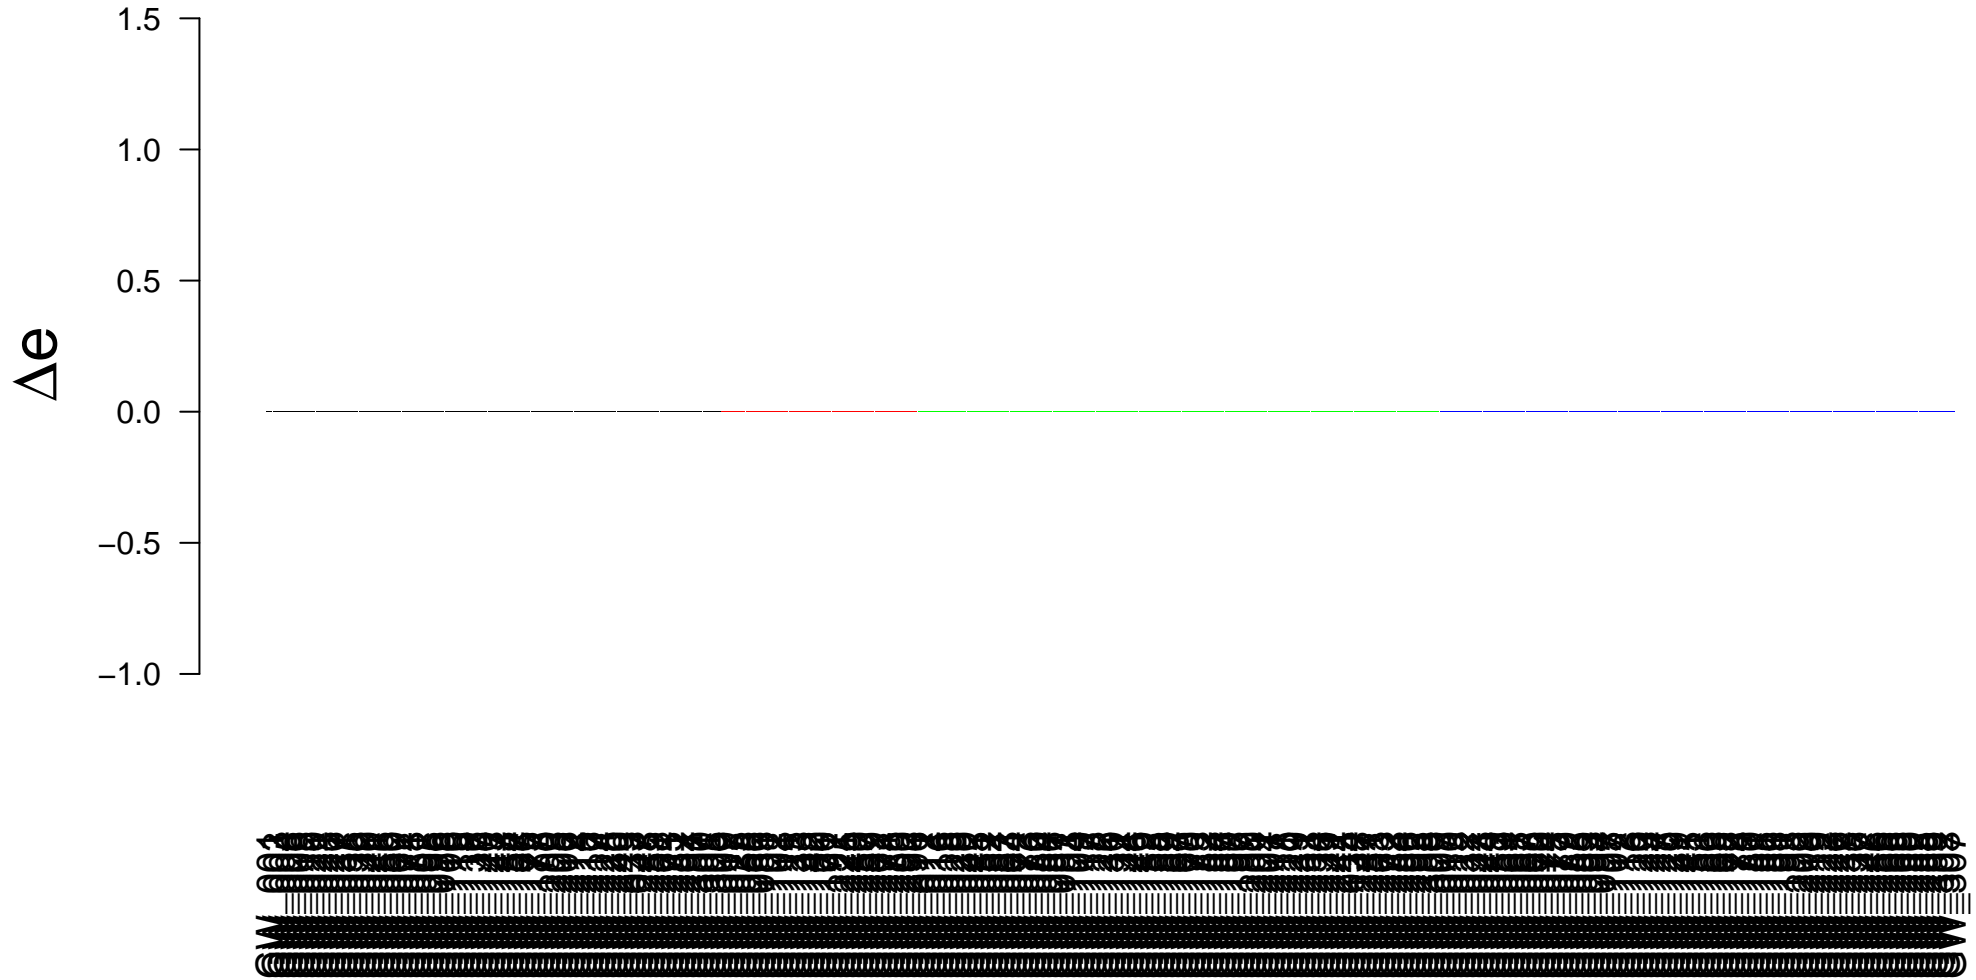

enhancer sequence-specific DNA binding

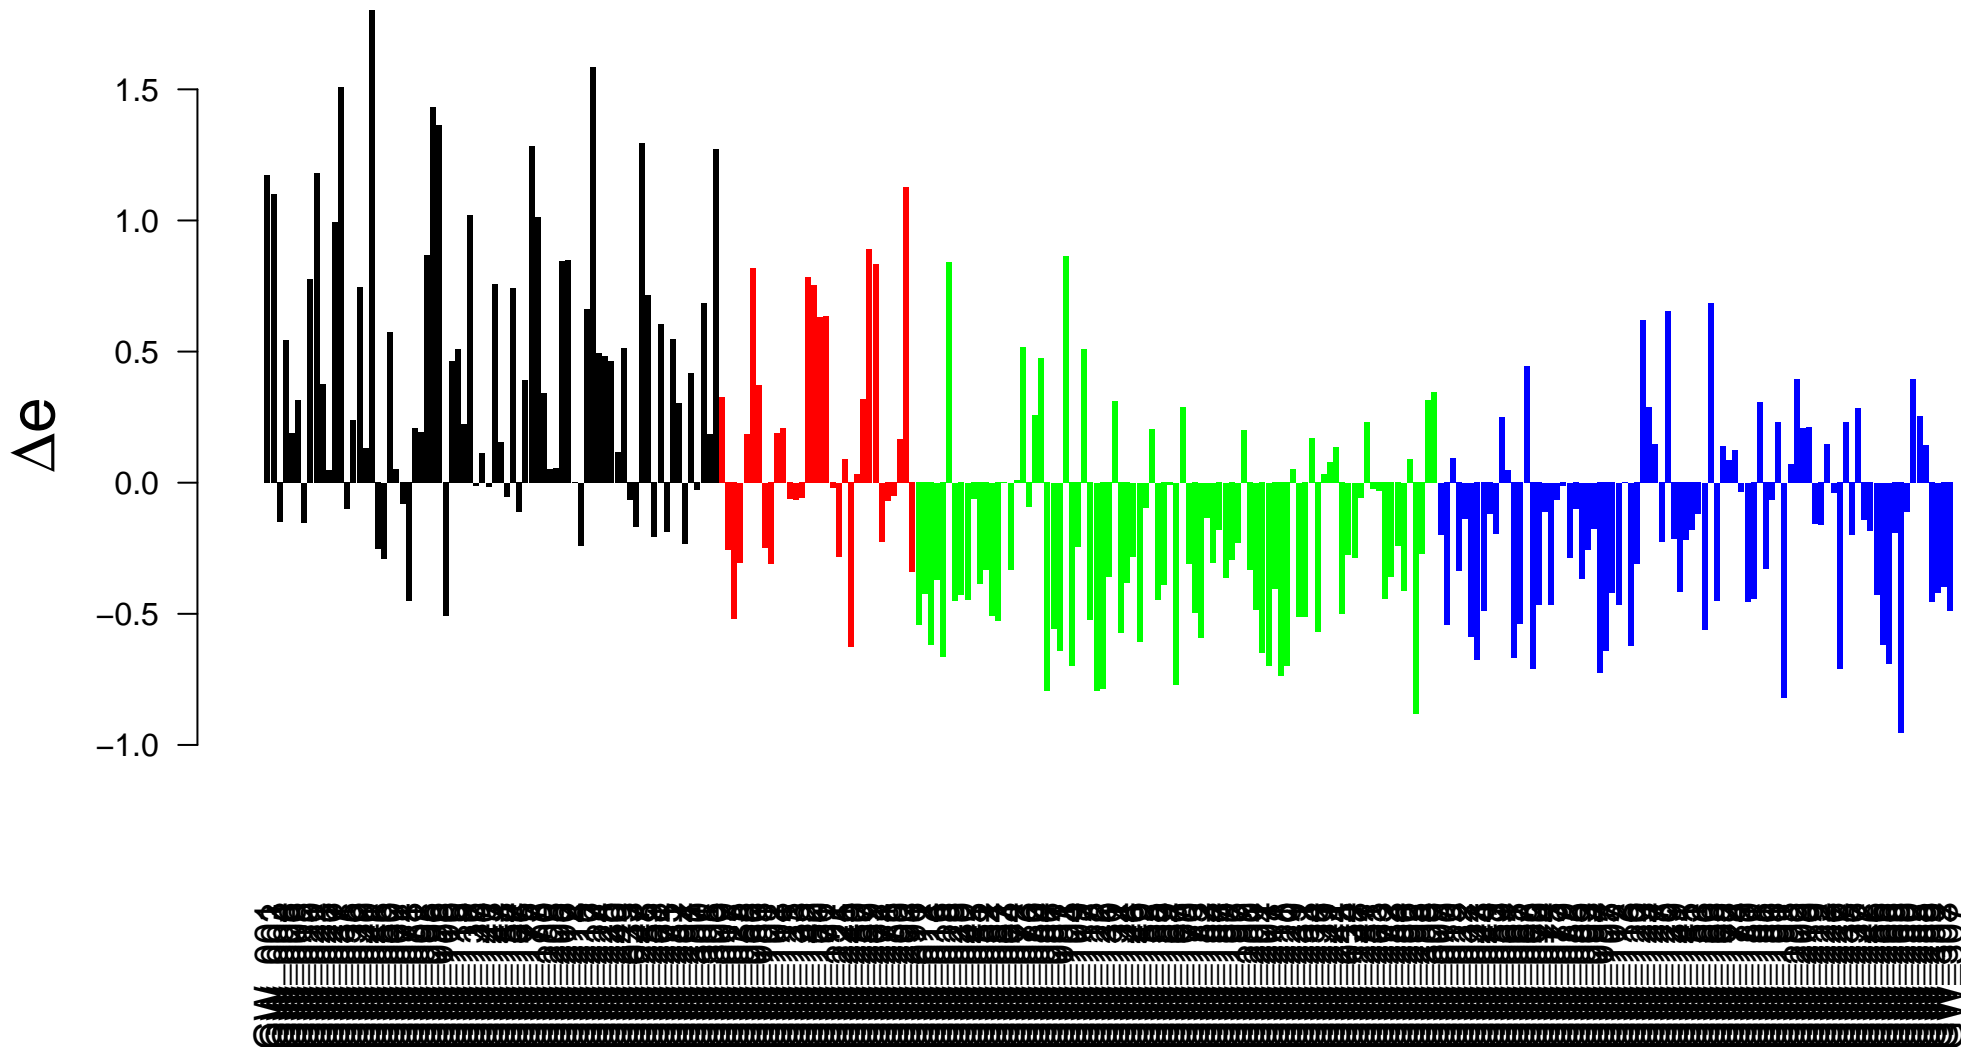

Enrichment in spots: enhancer sequence-specific DNA binding

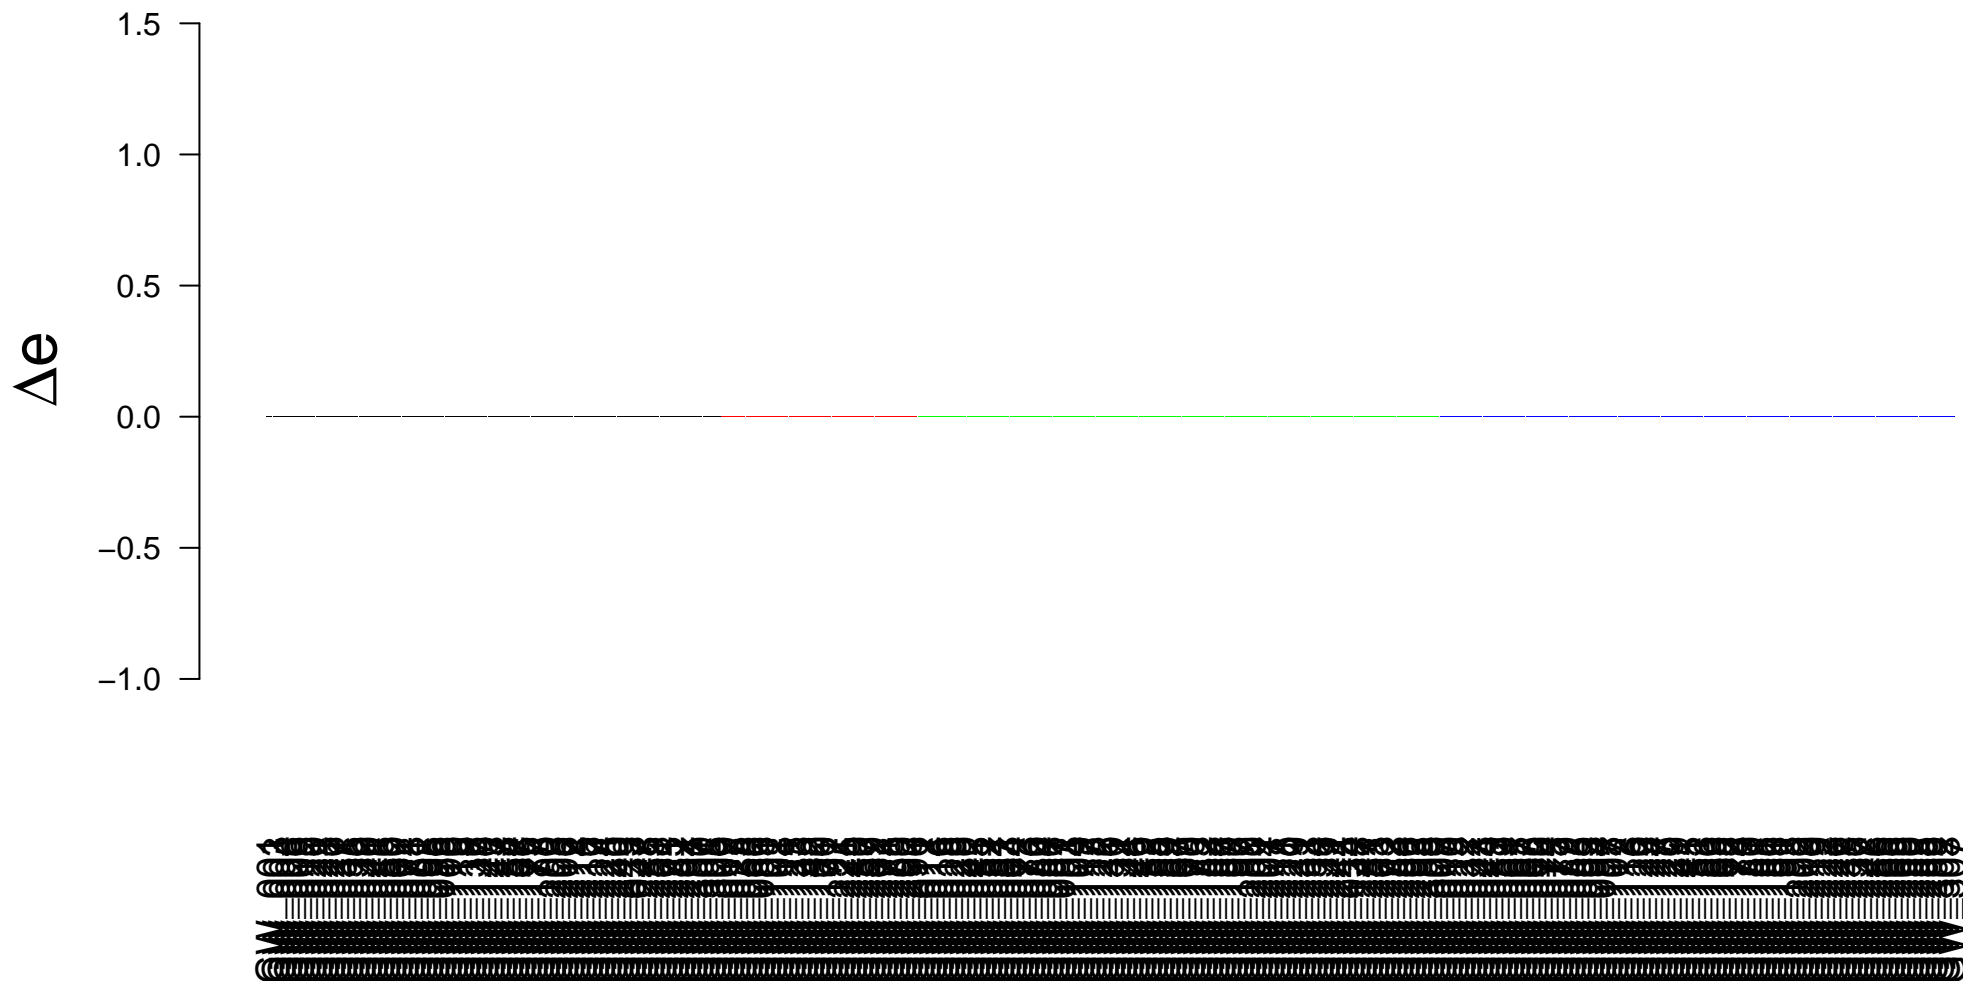

Expression of enhancer sequence-specific DNA binding in Spot A

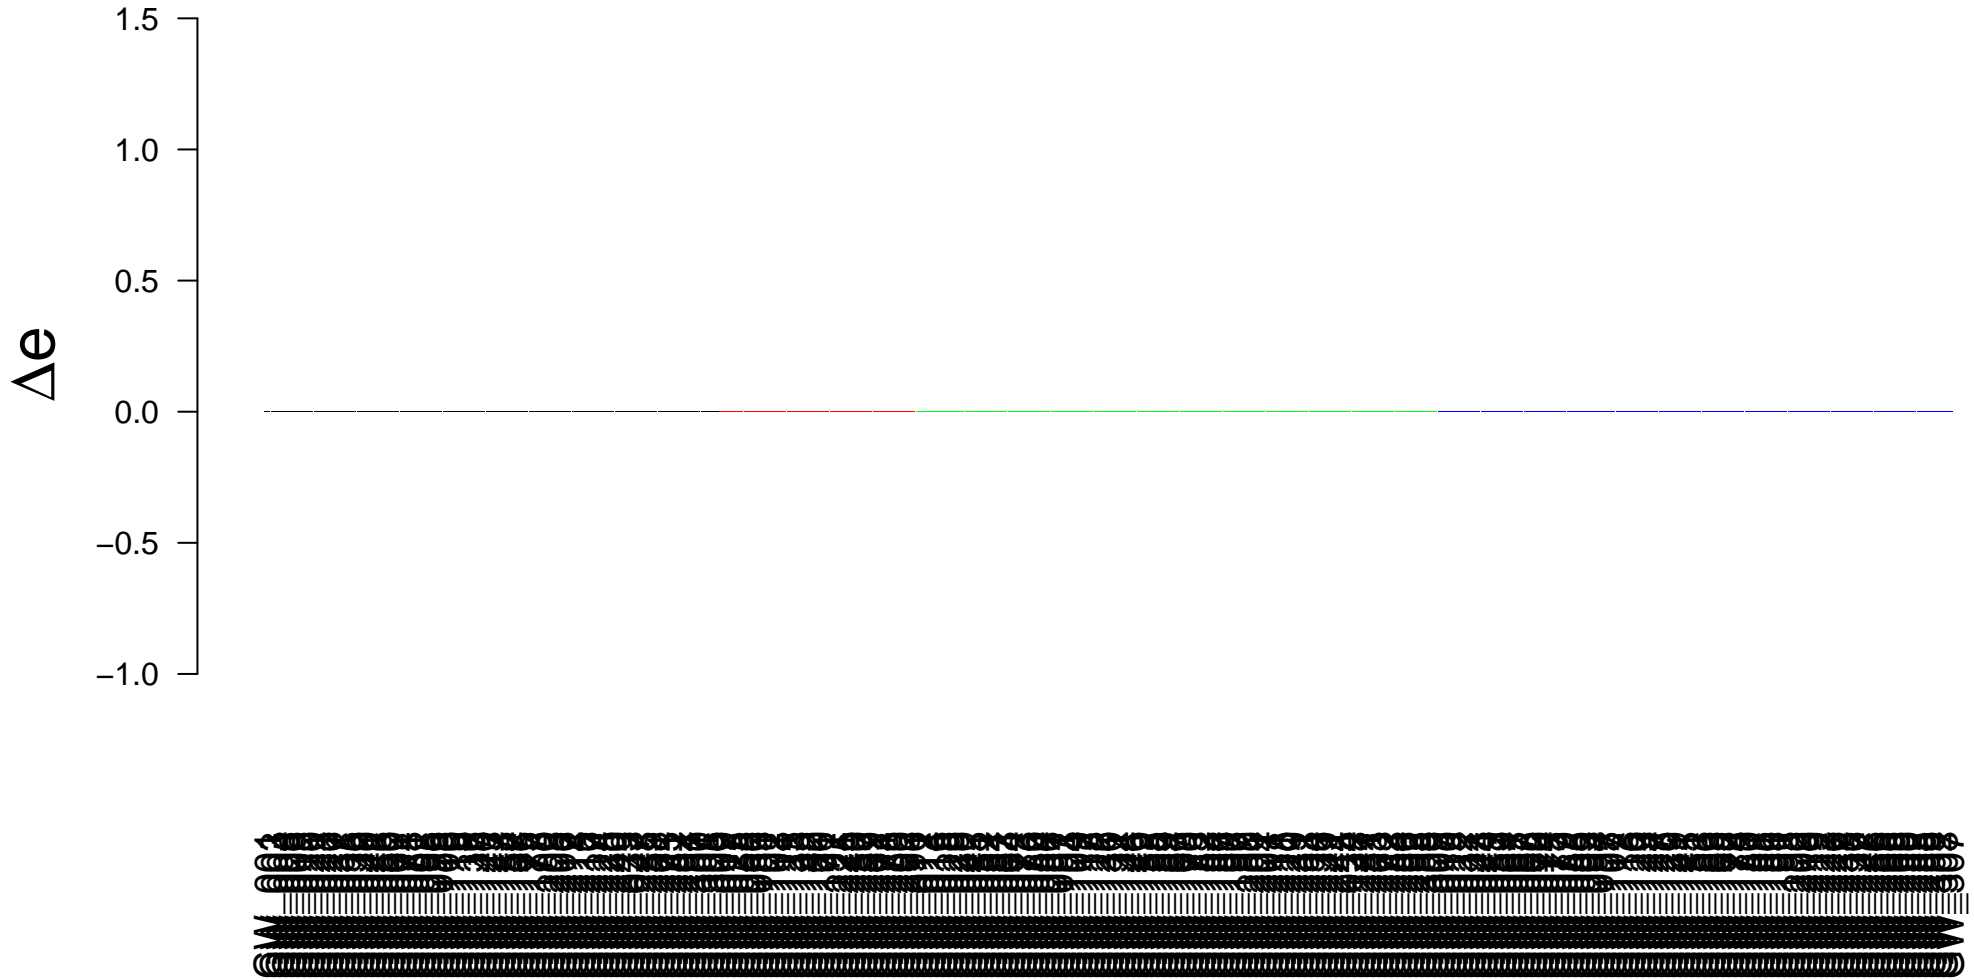

Expression of enhancer sequence-specific DNA binding in Spot B

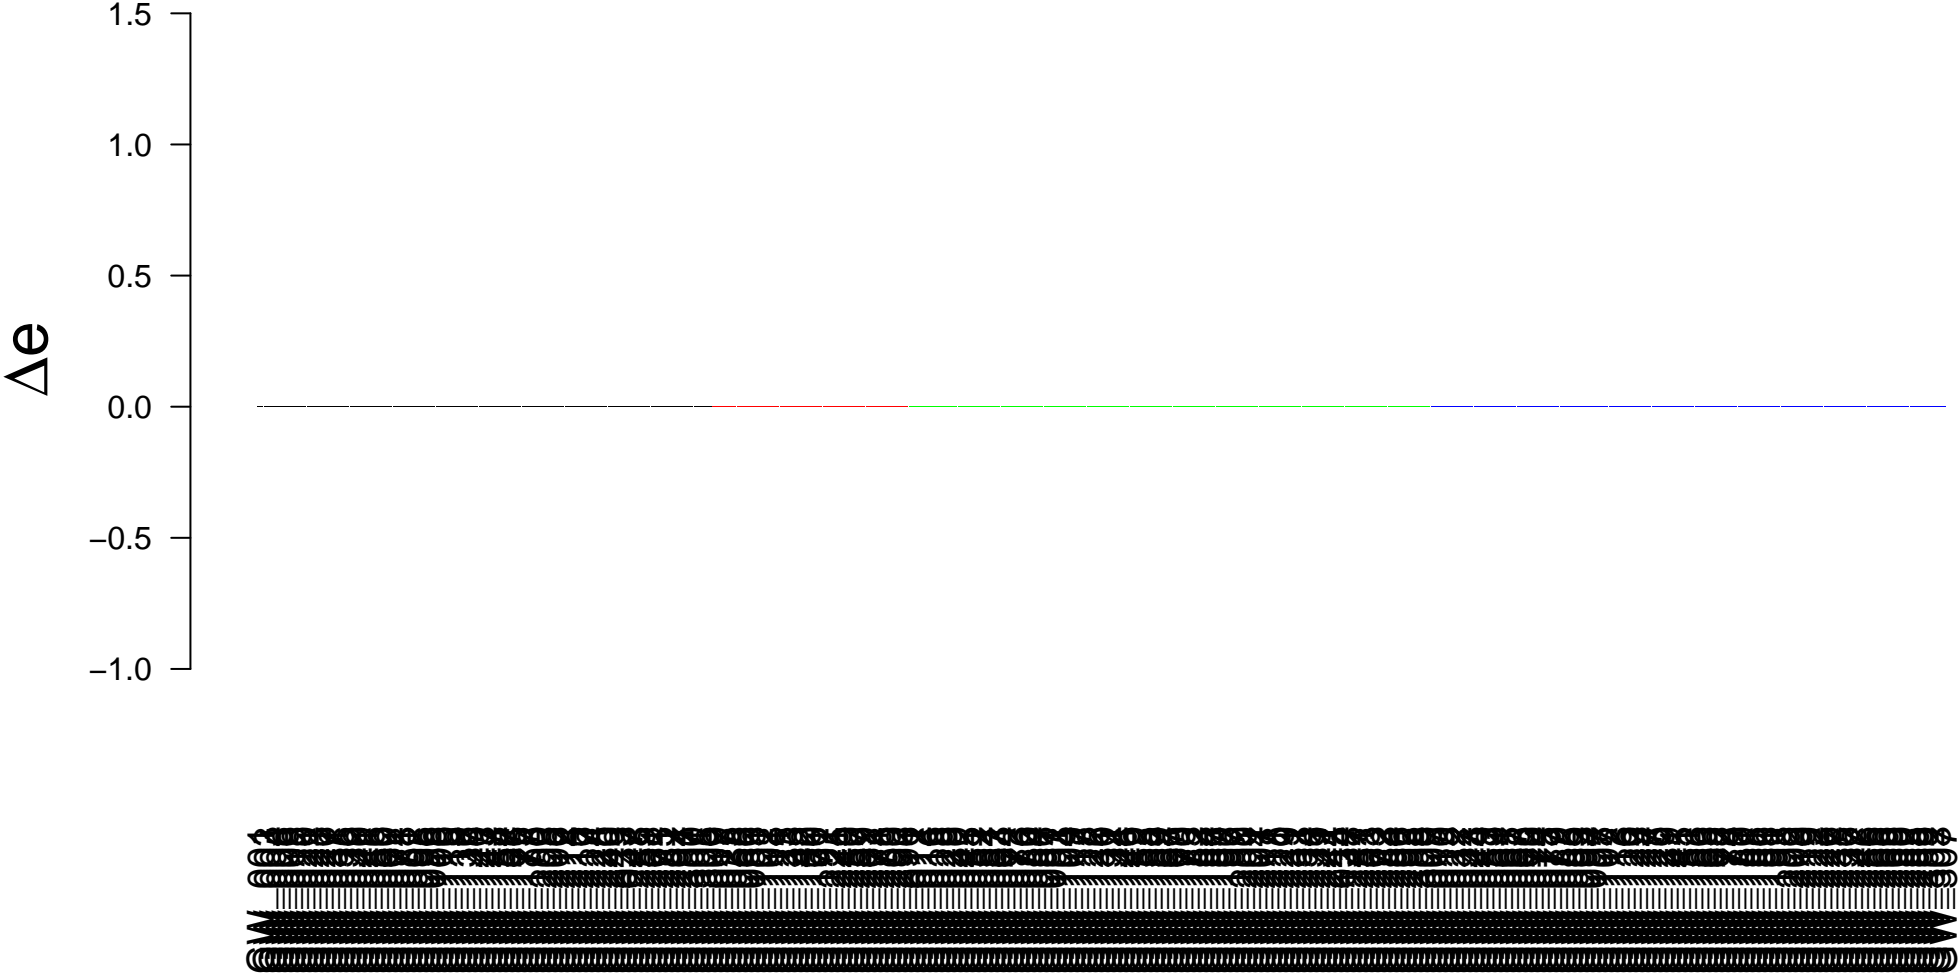

Expression of enhancer sequence-specific DNA binding in Spot C

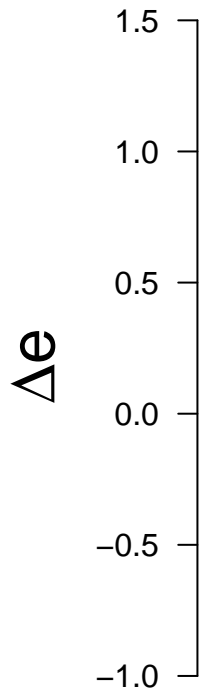

Expression of enhancer sequence-specific DNA binding in Spot D

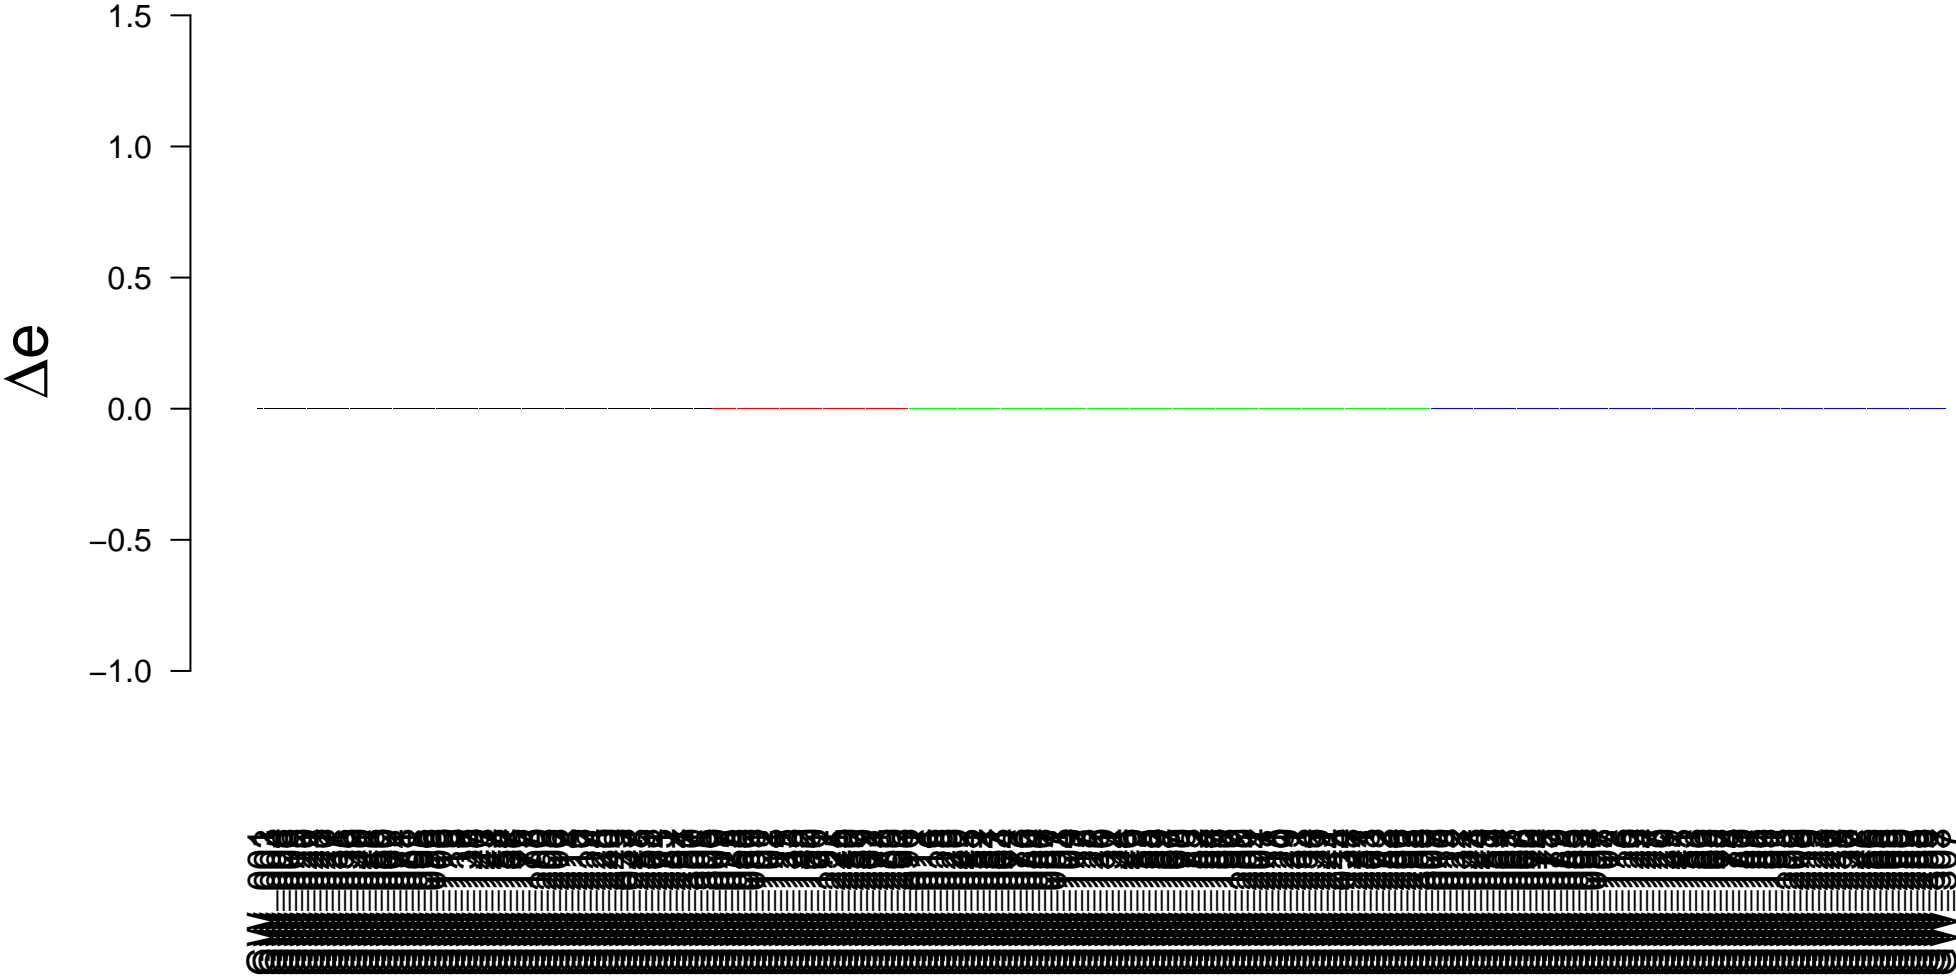

Expression of enhancer sequence-specific DNA binding in Spot E

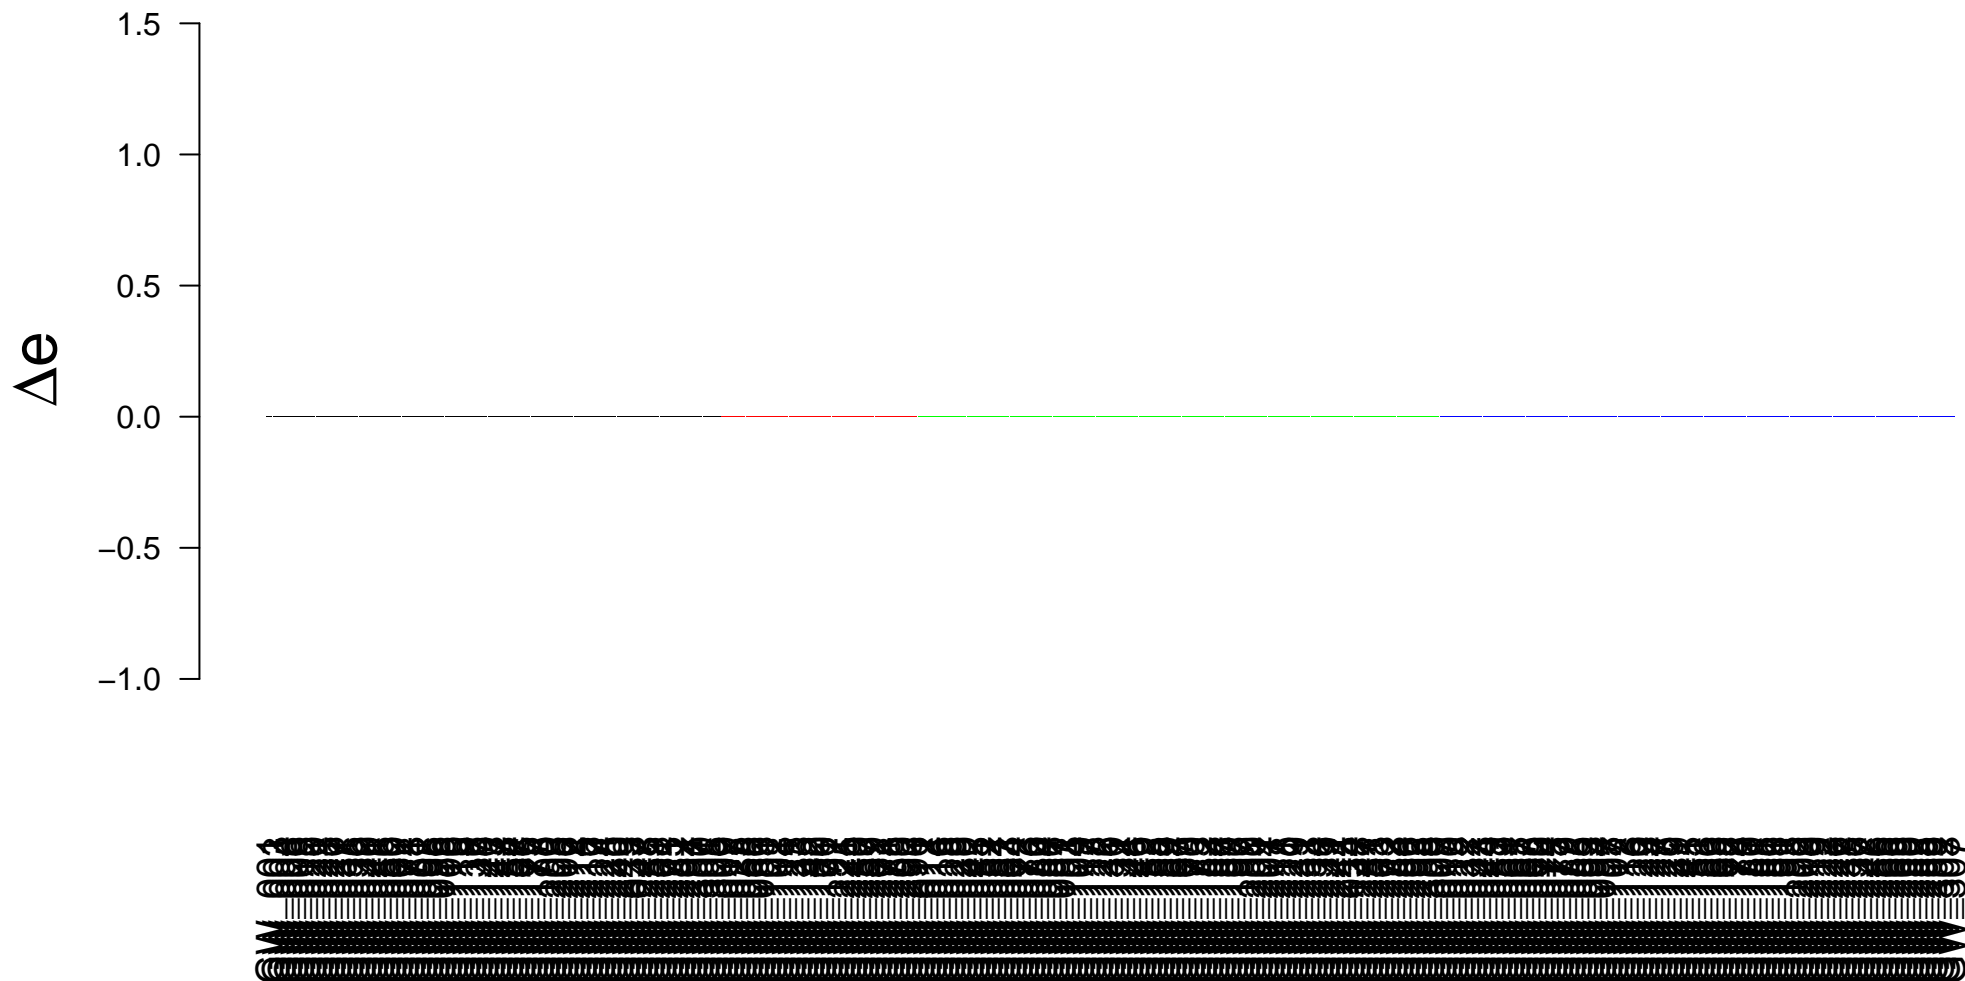

Expression of enhancer sequence-specific DNA binding in Spot F

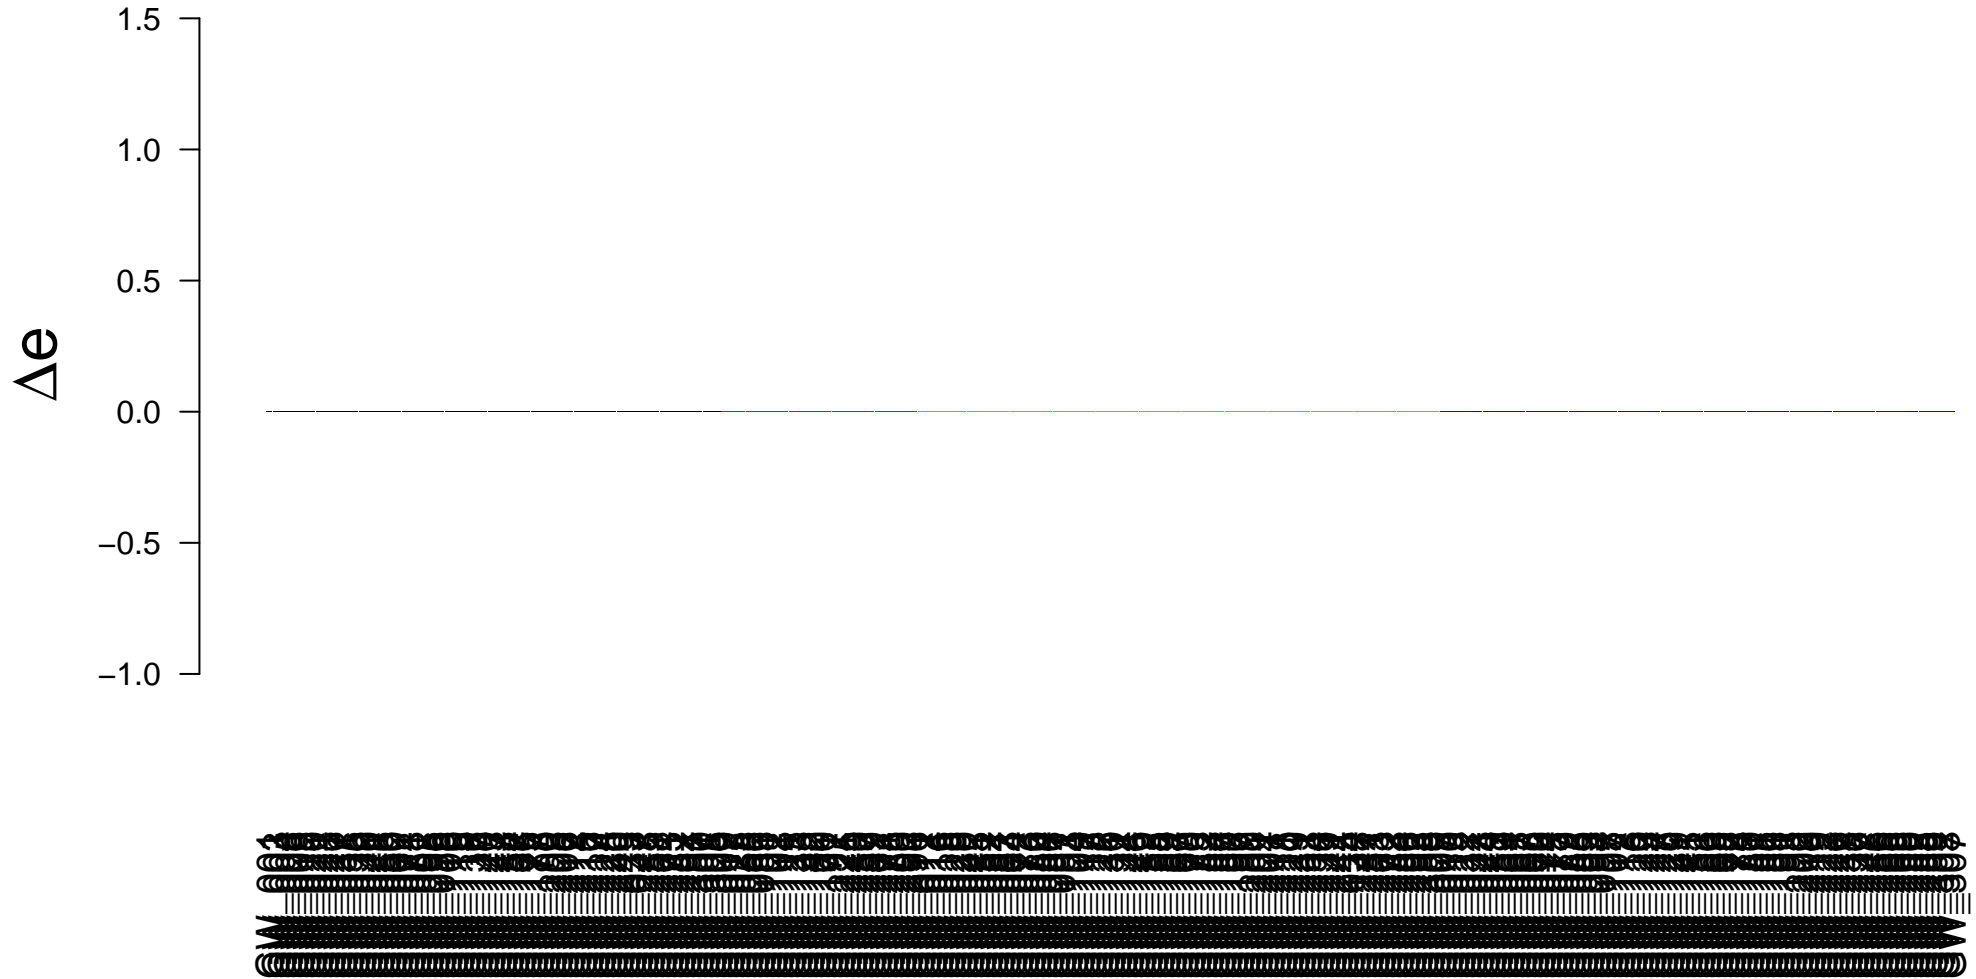

Expression of enhancer sequence-specific DNA binding in Spot G

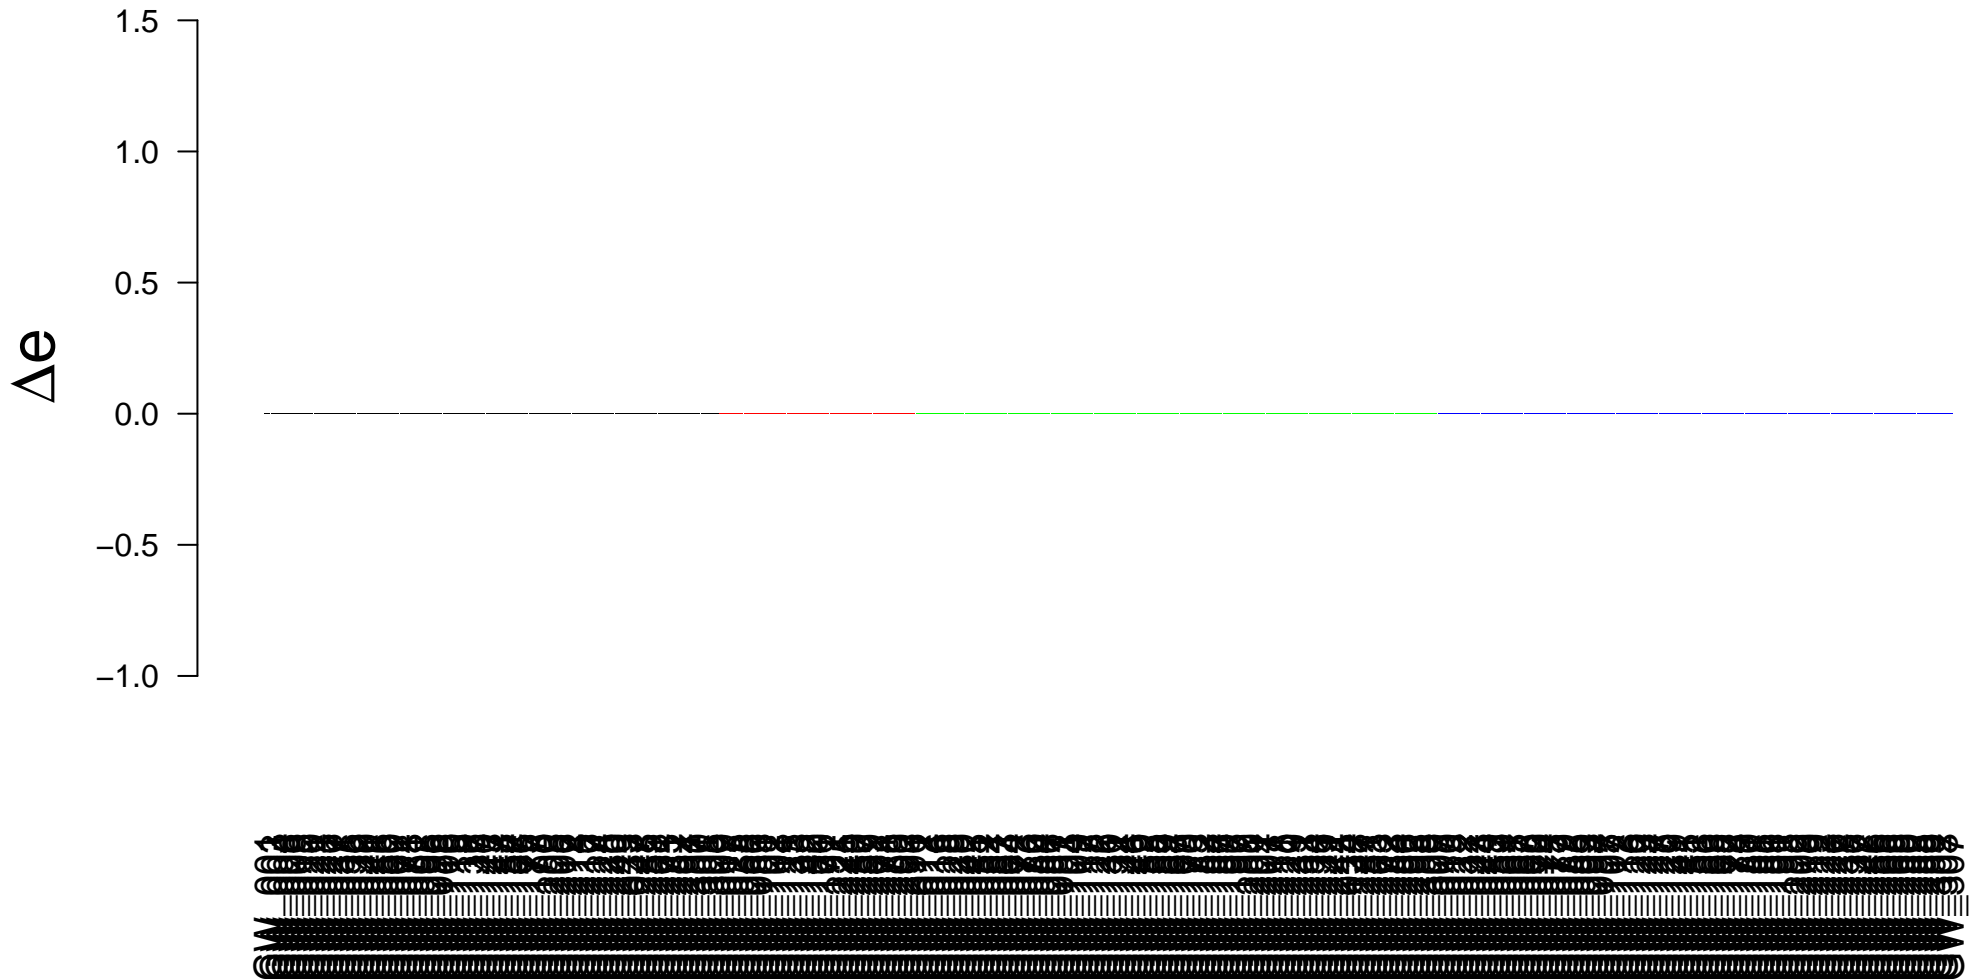

Expression of enhancer sequence-specific DNA binding in Spot H

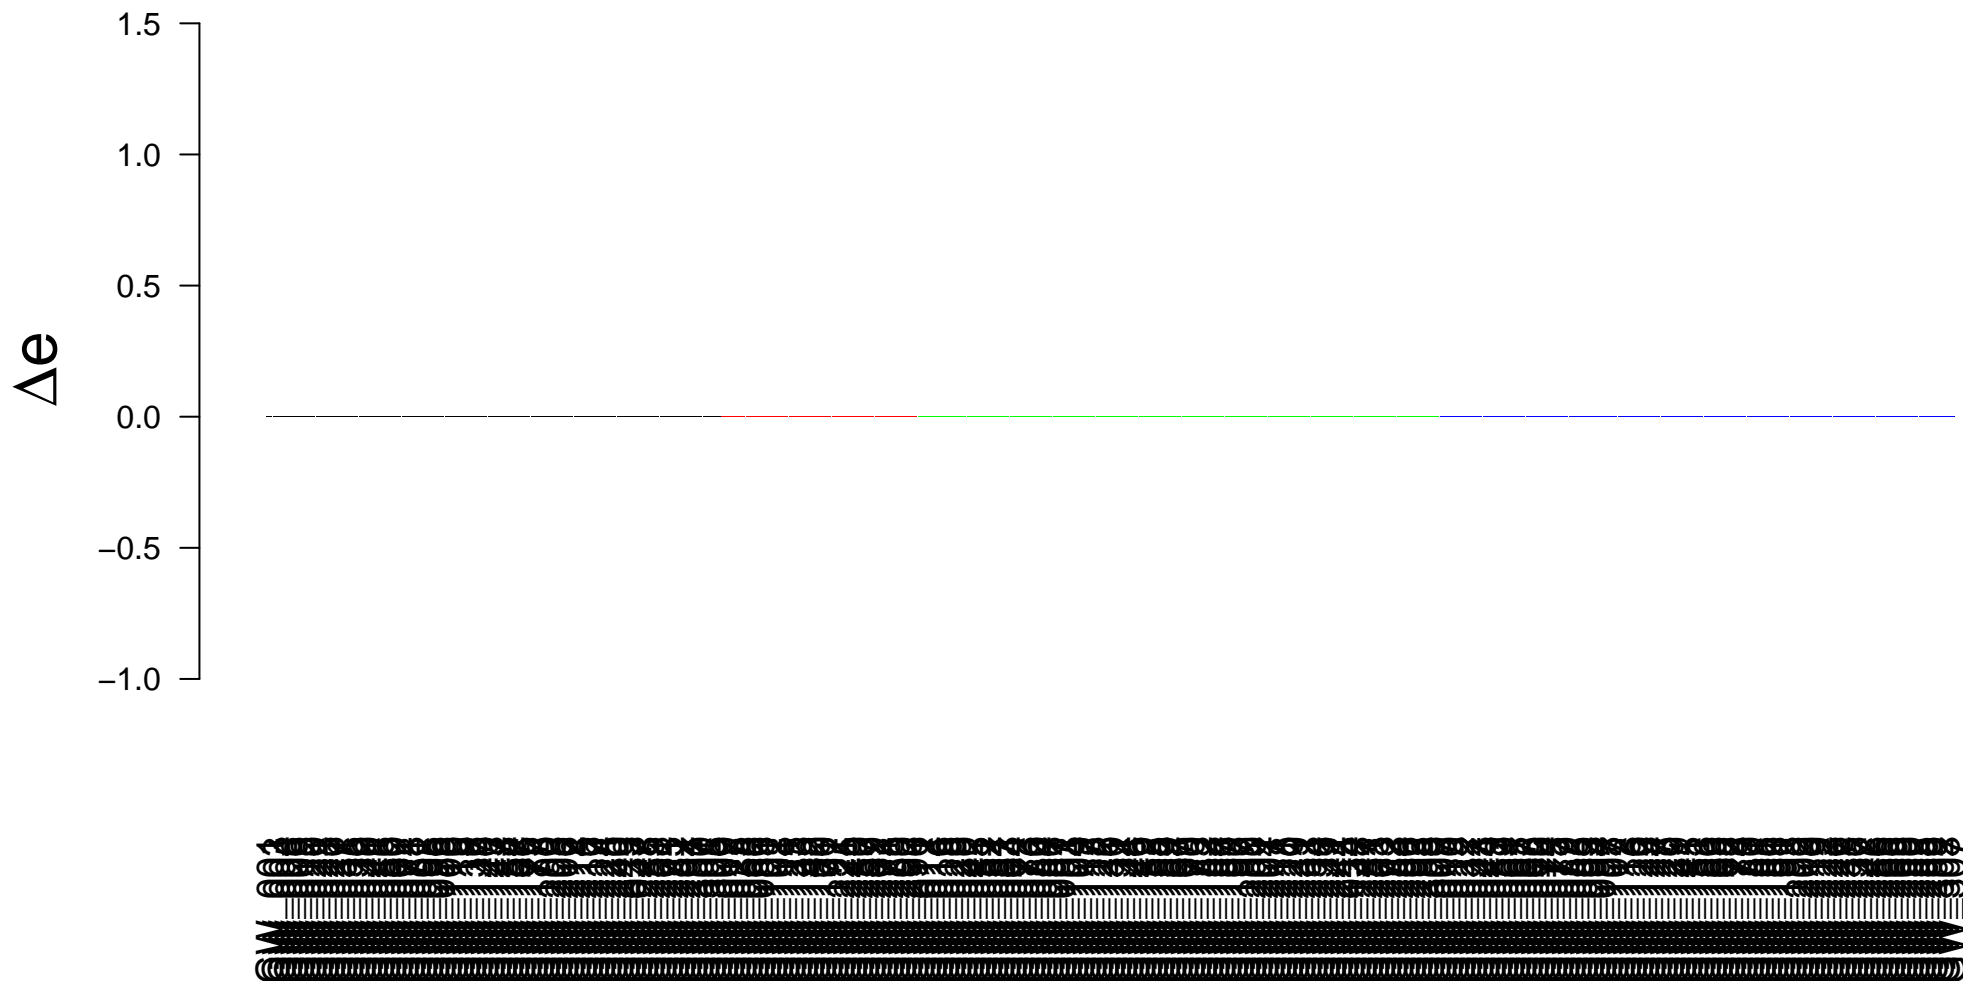

Expression of enhancer sequence-specific DNA binding in Spot I

Expression of enhancer sequence-specific DNA binding in Spot J

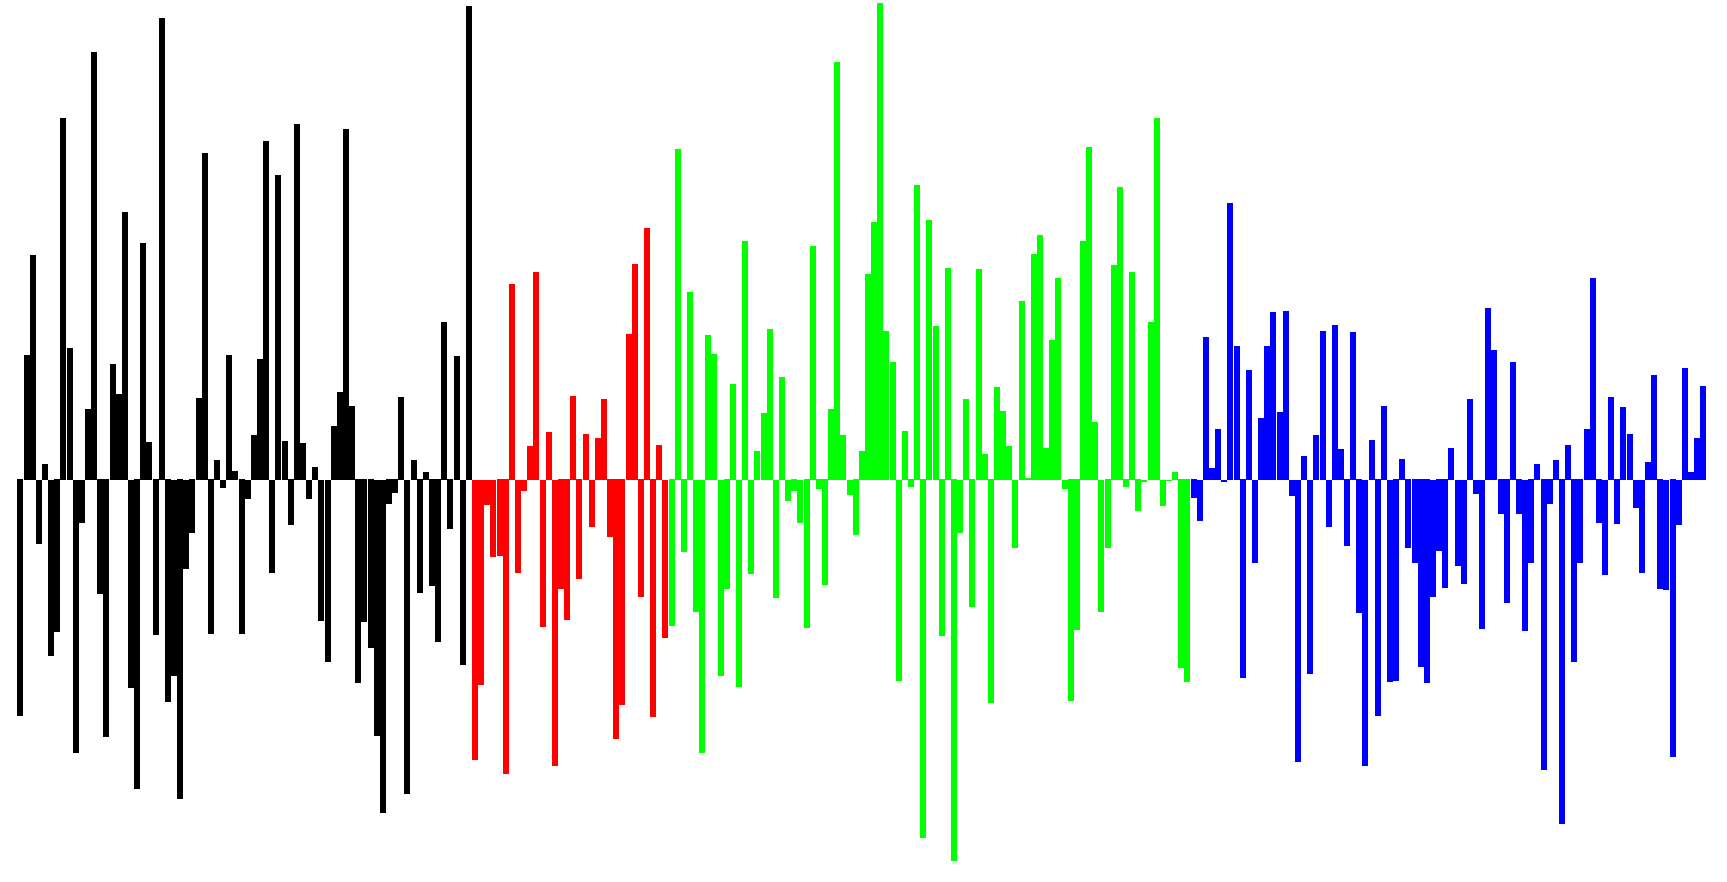

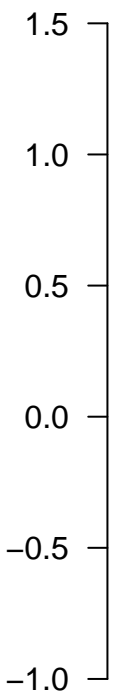

Expression of enhancer sequence-specific DNA binding in Spot K

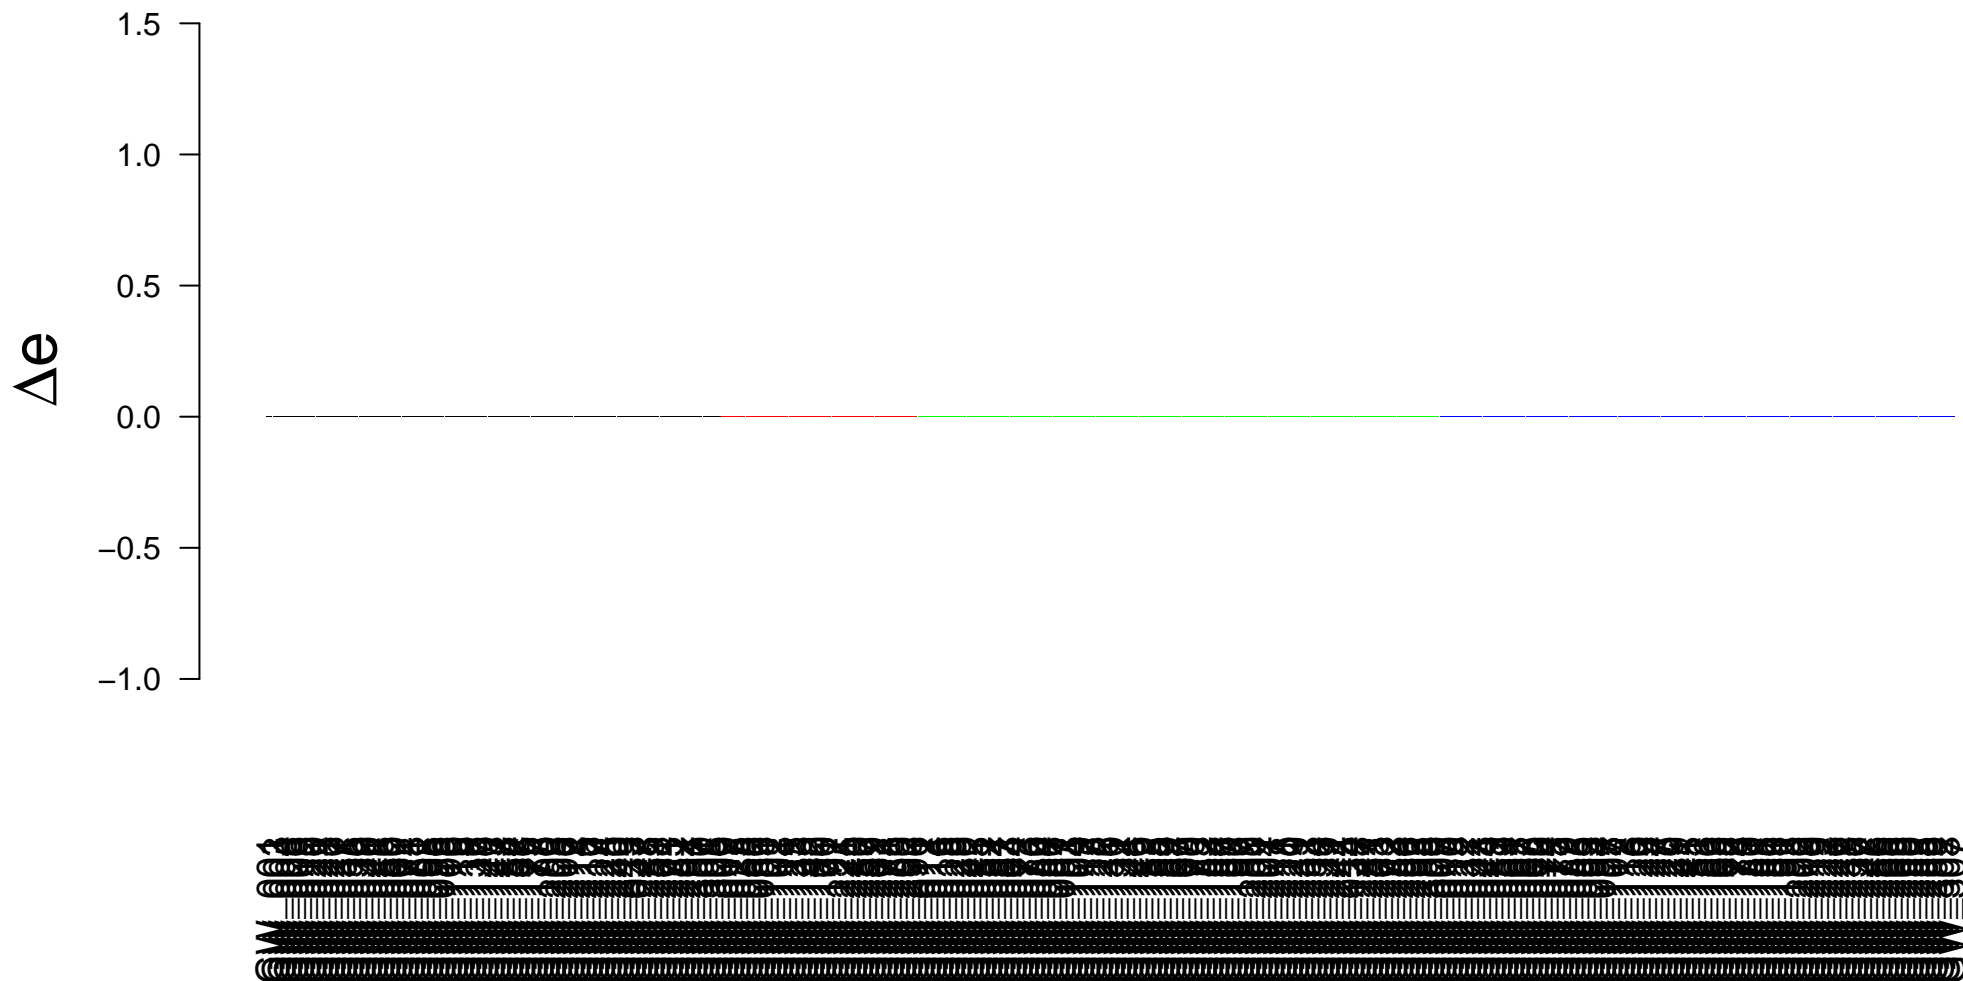

Expression of enhancer sequence-specific DNA binding in Spot L

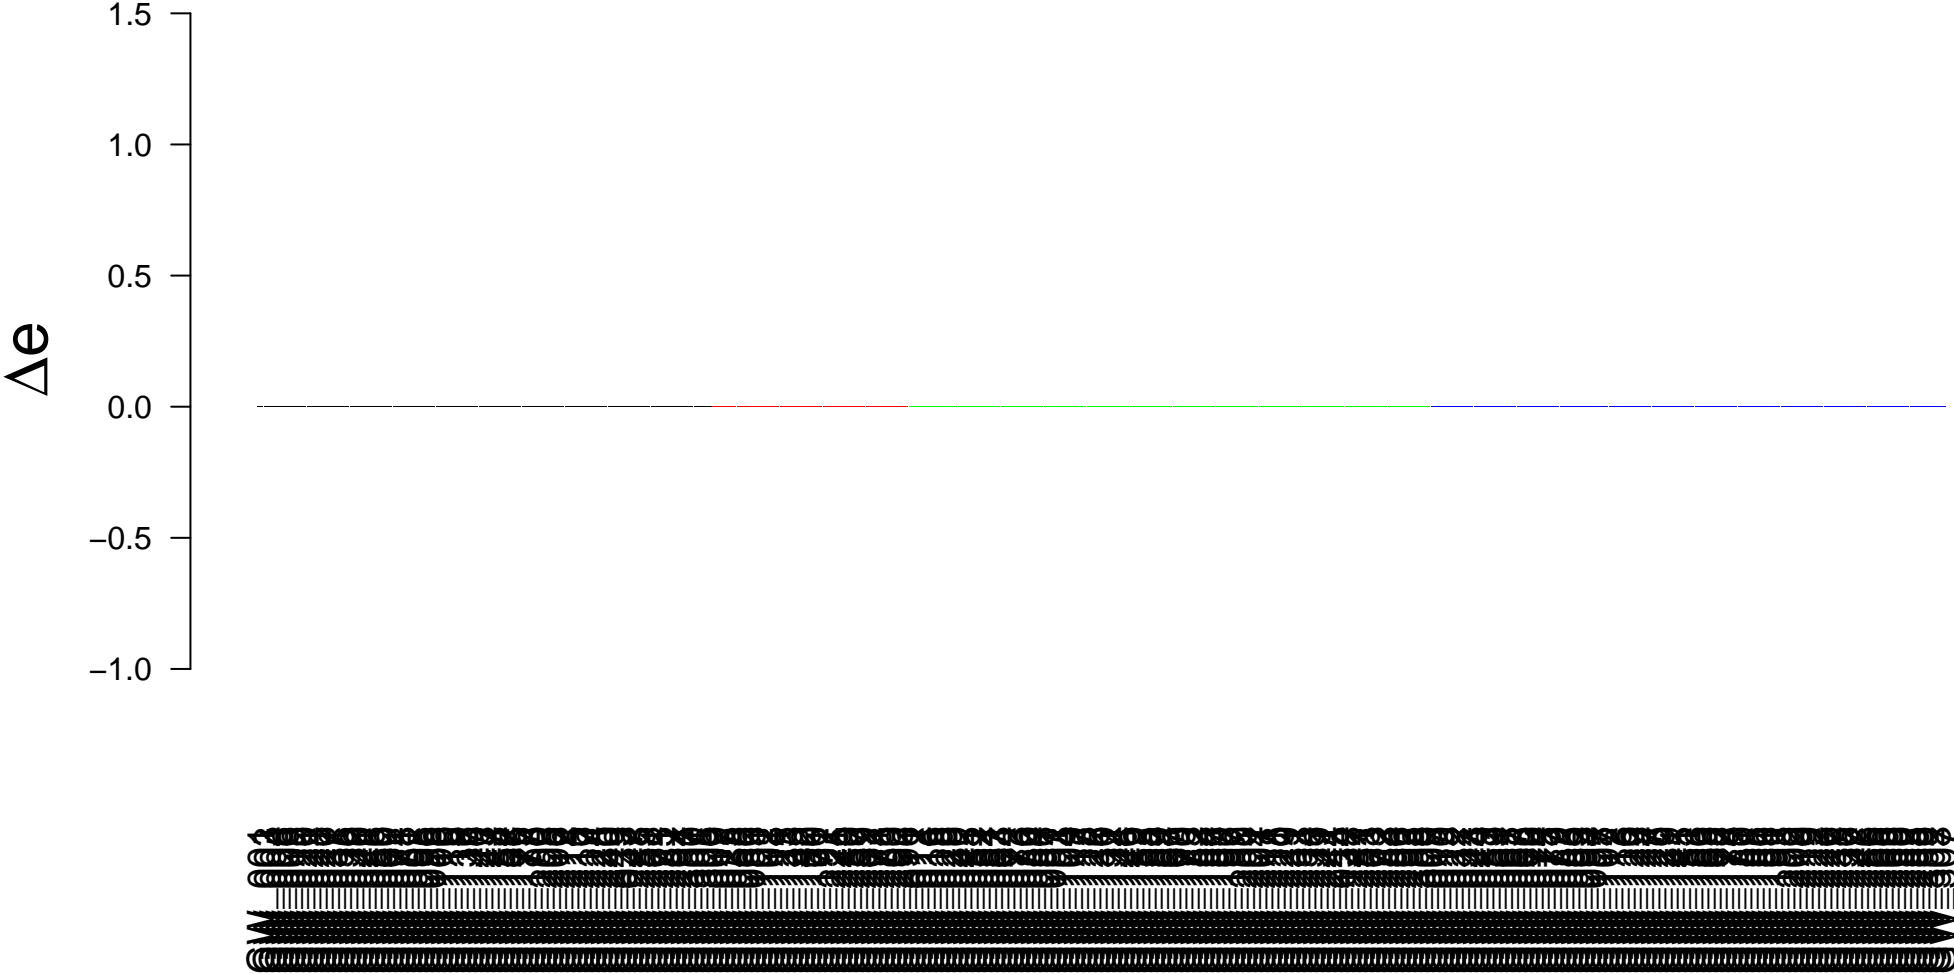

Δe

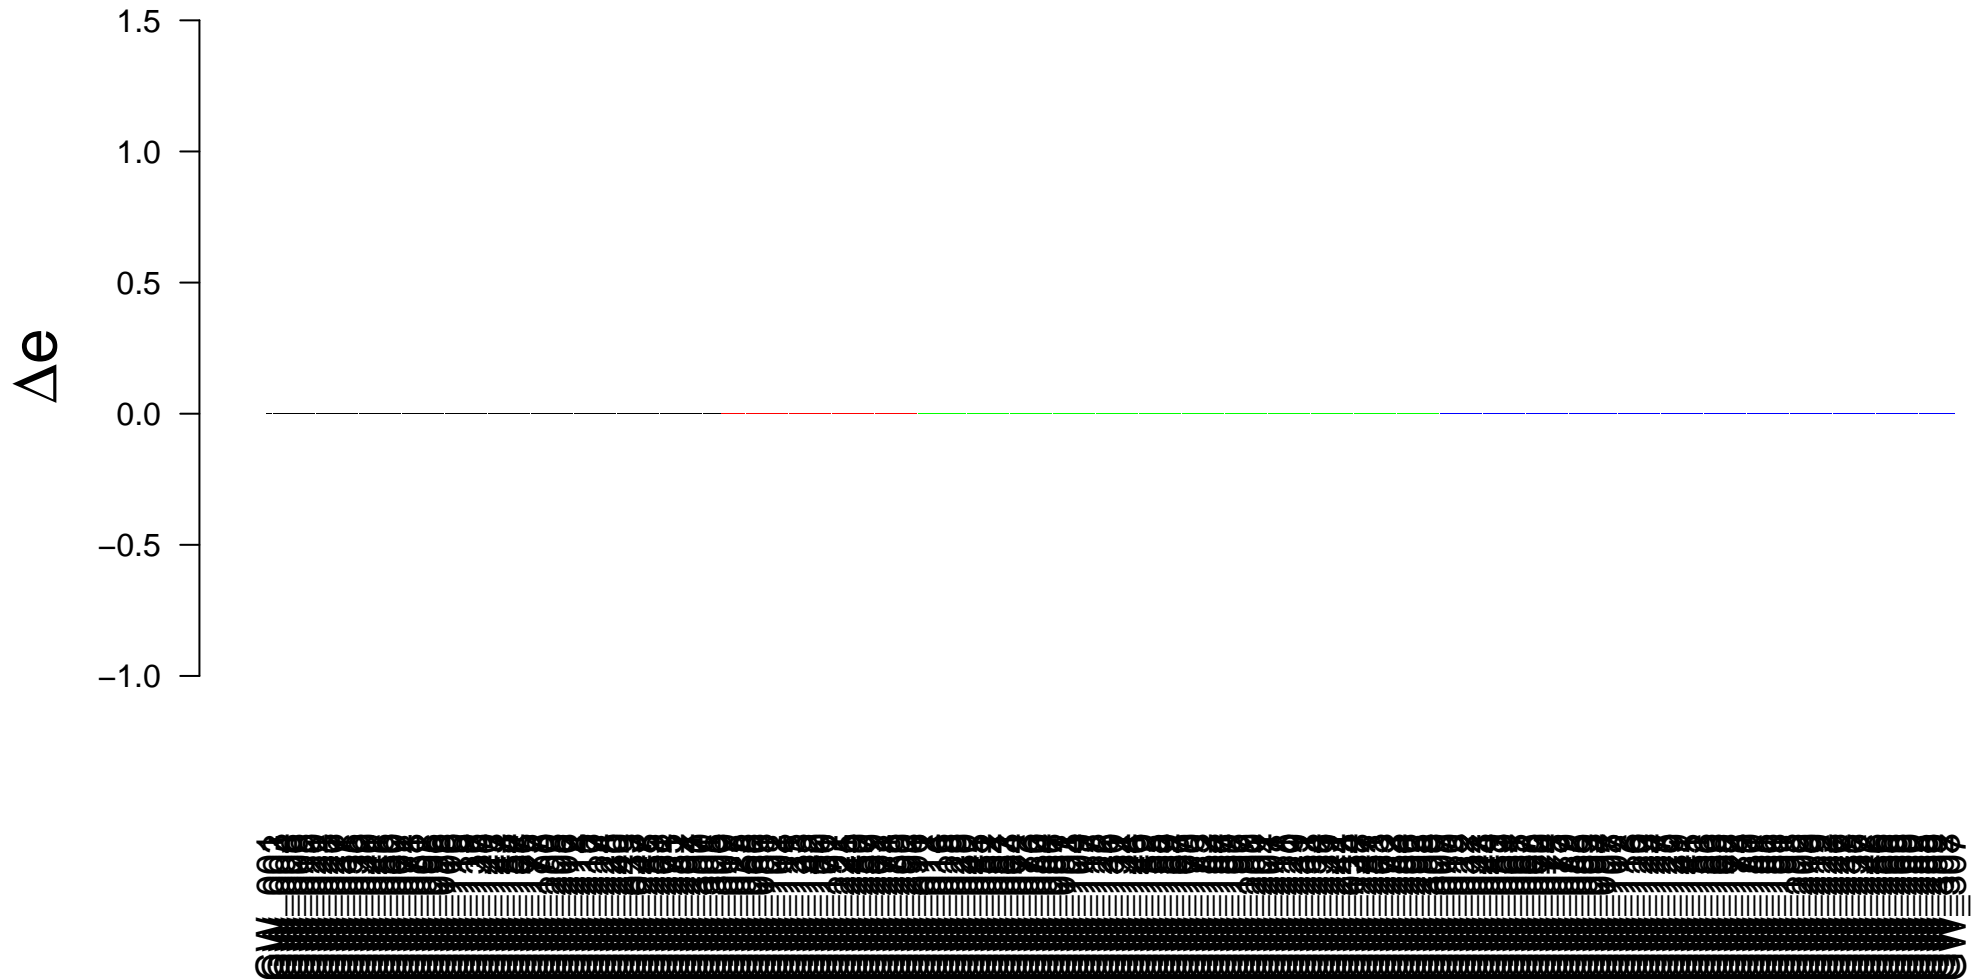

Expression of enhancer sequence-specific DNA binding in Spot M

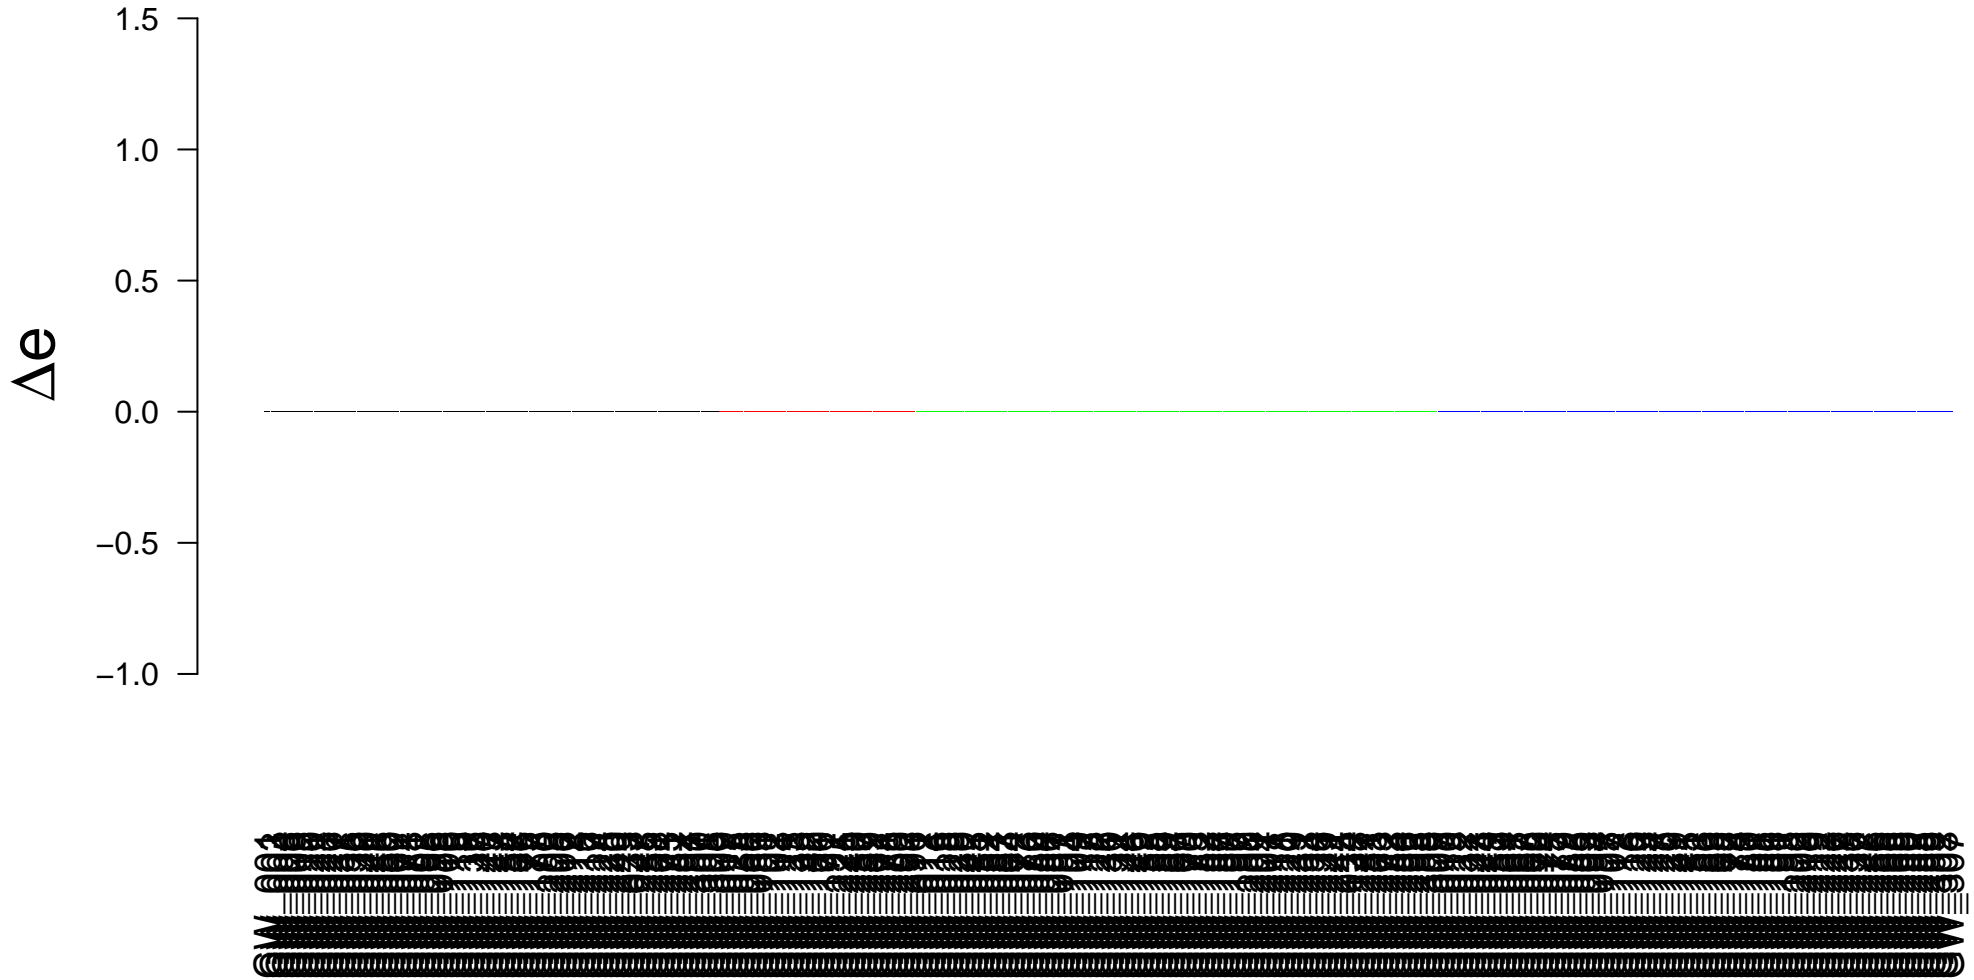

Expression of enhancer sequence-specific DNA binding in Spot N

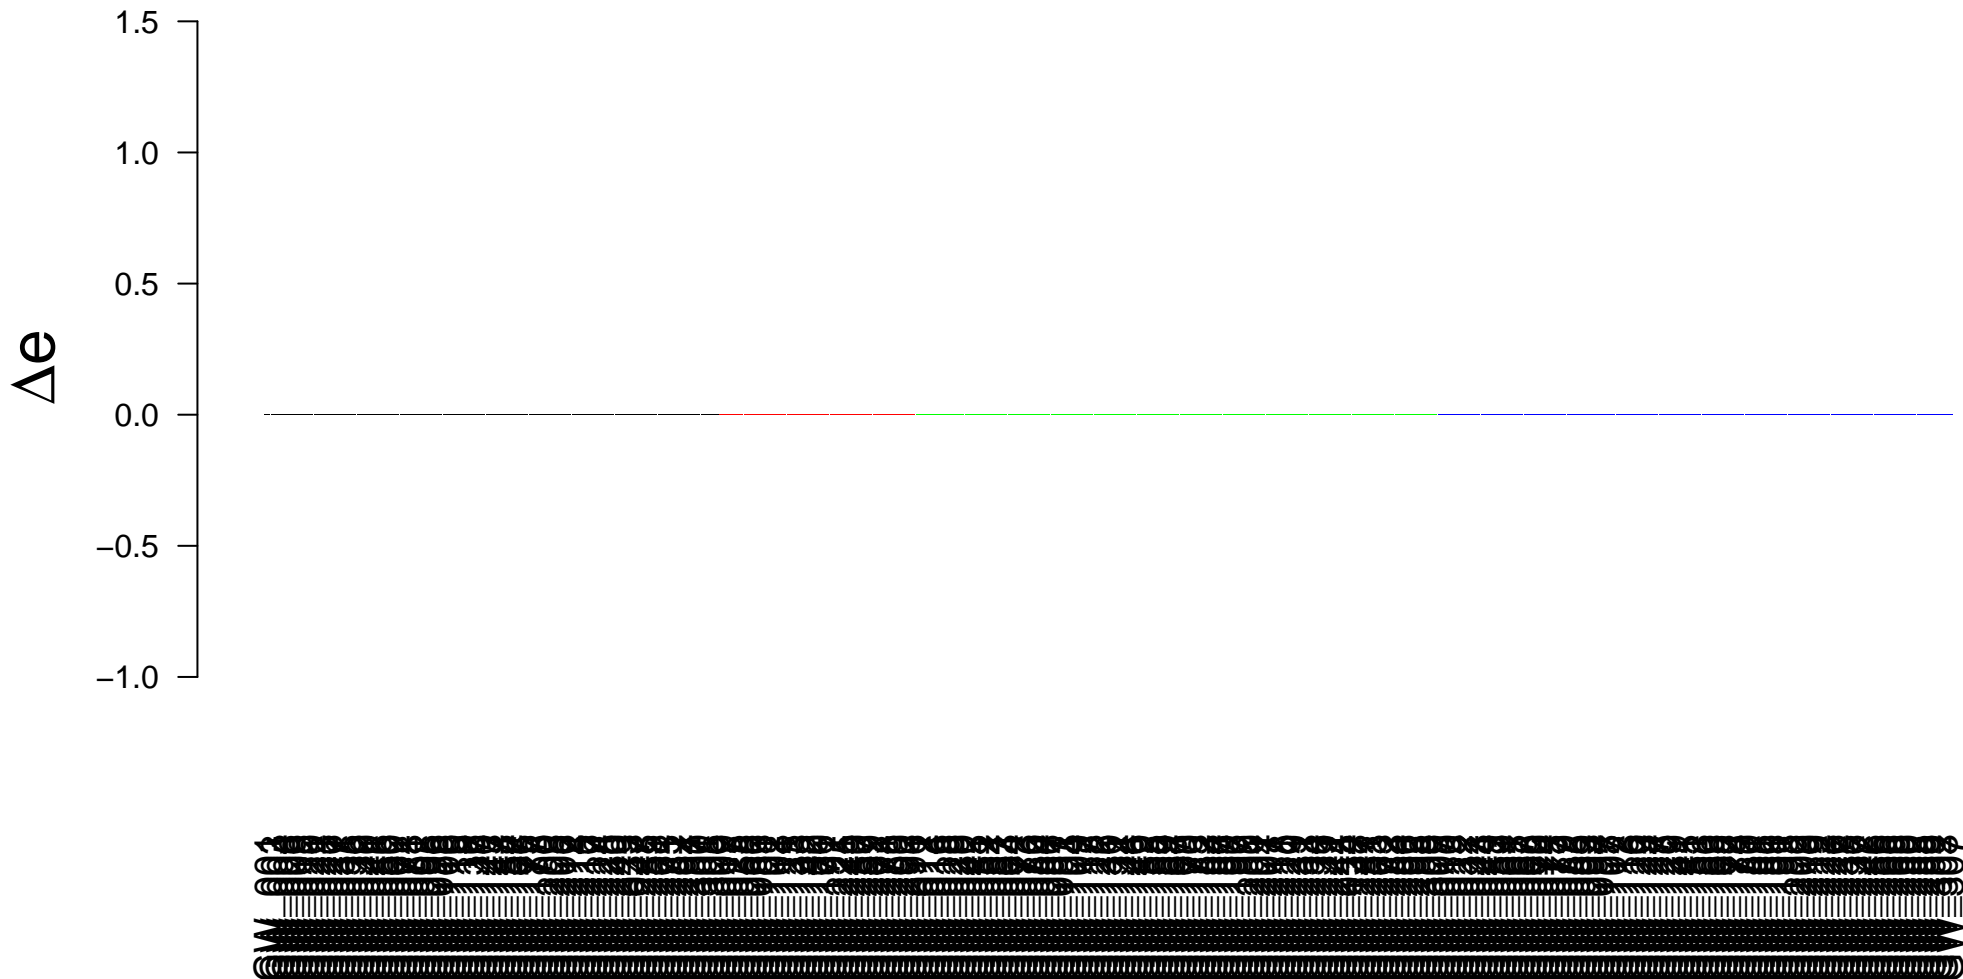

Expression of enhancer sequence-specific DNA binding in Spot O

Expression of enhancer sequence-specific DNA binding in Spot P

Expression of enhancer sequence-specific DNA binding in Spot Q

Expression of enhancer sequence-specific DNA binding in Spot R
