

exonucleolytic nuclear-transcribed mRNA catabolic process involved in deadenylation-dependent decay

exonucleolytic nuclear-transcribed mRNA catabolic process involved in deadenylation-dependent decay

Enrichment in spots: exonucleolytic nuclear-transcribed mRNA catabolic process involved in deadenylation-dependent deca

Expression of exonucleolytic nuclear-transcribed mRNA catabolic process involved in deadenylation-dependent decay in Spot A

Expression of exonucleolytic nuclear-transcribed mRNA catabolic process involved in deadenylation-dependent decay in Spot B

Expression of exonucleolytic nuclear-transcribed mRNA catabolic process involved in deadenylation-dependent decay in Spot C

Expression of exonucleolytic nuclear-transcribed mRNA catabolic process involved in deadenylation-dependent decay in Spot D

Expression of exonucleolytic nuclear-transcribed mRNA catabolic process involved in deadenylation-dependent decay in Spot E

Expression of exonucleolytic nuclear-transcribed mRNA catabolic process involved in deadenylation-dependent decay in Spot F

Expression of exonucleolytic nuclear-transcribed mRNA catabolic process involved in deadenylation-dependent decay in Spot G

Expression of exonucleolytic nuclear-transcribed mRNA catabolic process involved in deadenylation-dependent decay in Spot H

Expression of exonucleolytic nuclear-transcribed mRNA catabolic process involved in deadenylation-dependent decay in Spot I

Expression of exonucleolytic nuclear-transcribed mRNA catabolic process involved in deadenylation-dependent decay in Spot J

Expression of exonucleolytic nuclear-transcribed mRNA catabolic process involved in deadenylation-dependent decay in Spot K

Expression of exonucleolytic nuclear-transcribed mRNA catabolic process involved in deadenylation-dependent decay in Spot L

Expression of exonucleolytic nuclear-transcribed mRNA catabolic process involved in deadenylation-dependent decay in Spot M
