

extrinsic apoptotic signaling pathway in absence of ligand

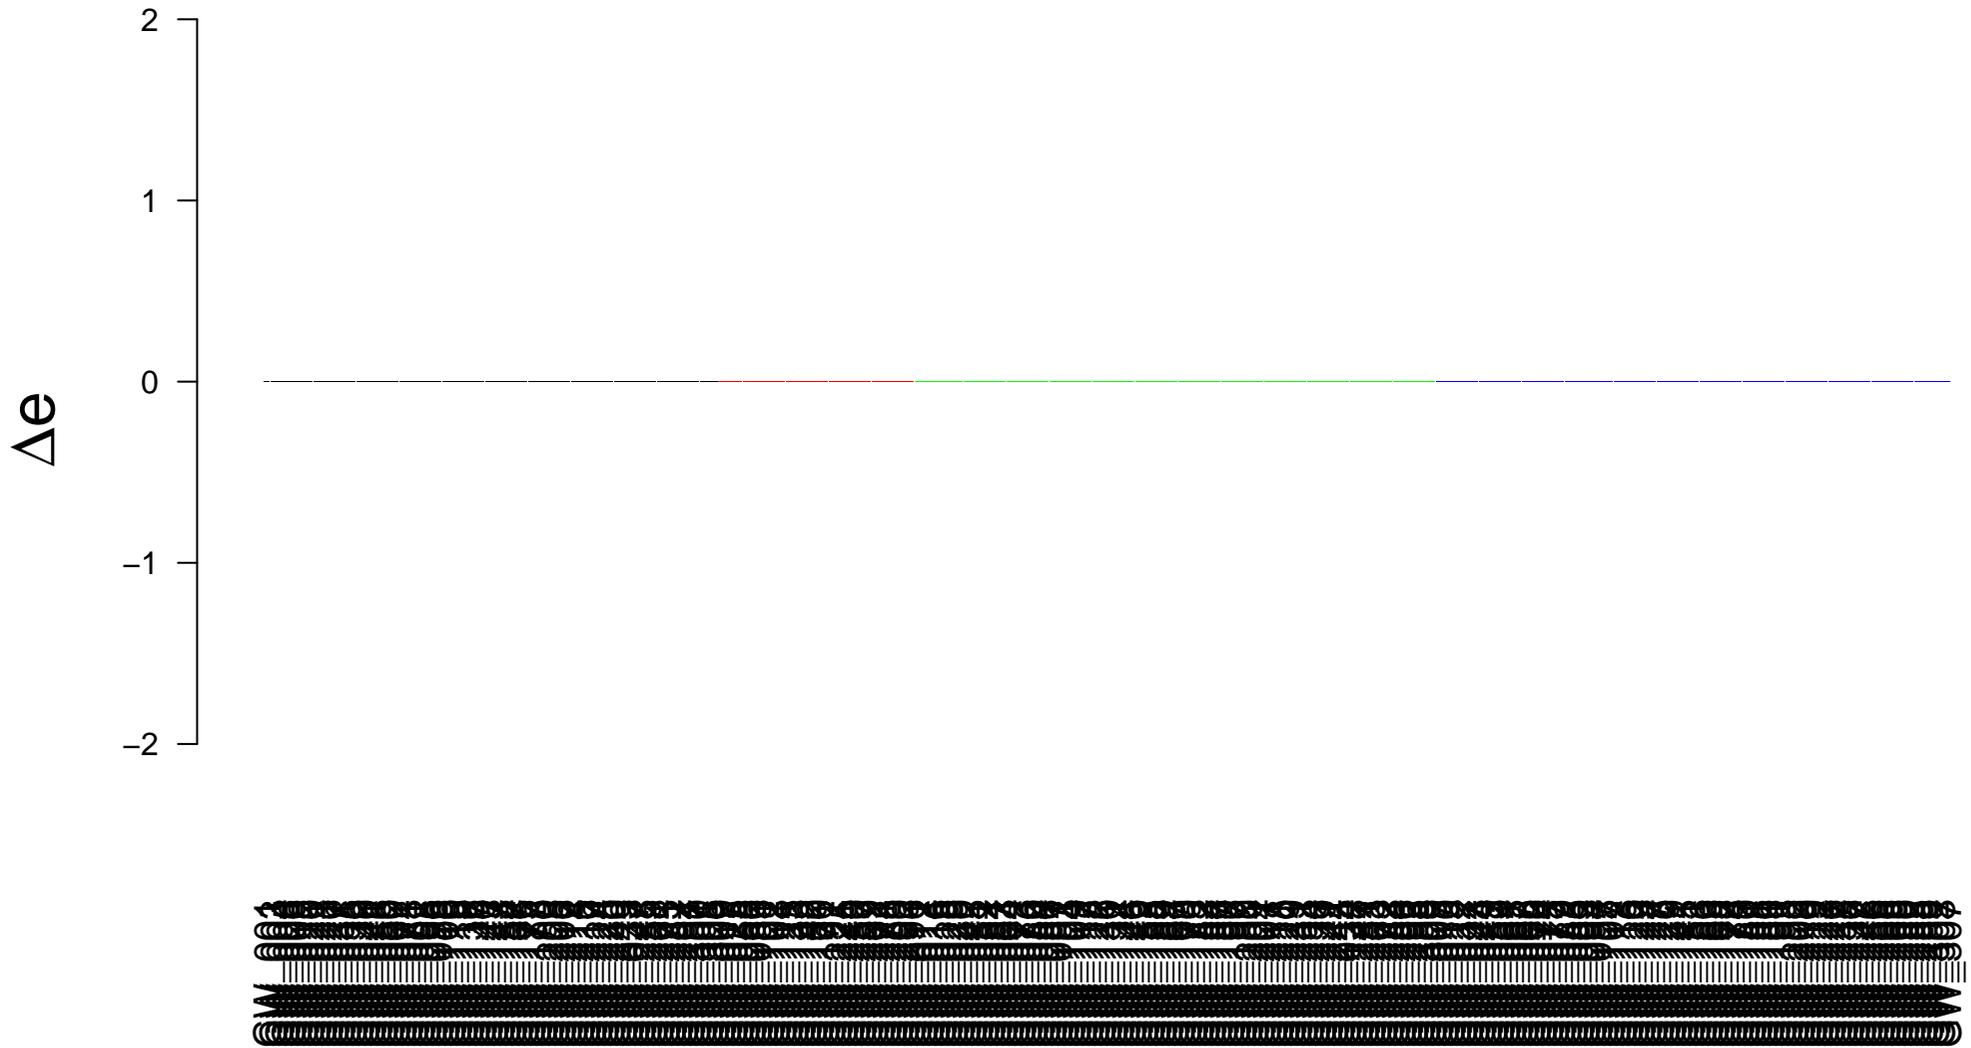

extrinsic apoptotic signaling pathway in absence of ligand

Enrichment in spots: extrinsic apoptotic signaling pathway in absence of ligand

Expression of extrinsic apoptotic signaling pathway in absence of ligand in Spot A

Expression of extrinsic apoptotic signaling pathway in absence of ligand in Spot B

Expression of extrinsic apoptotic signaling pathway in absence of ligand in Spot C

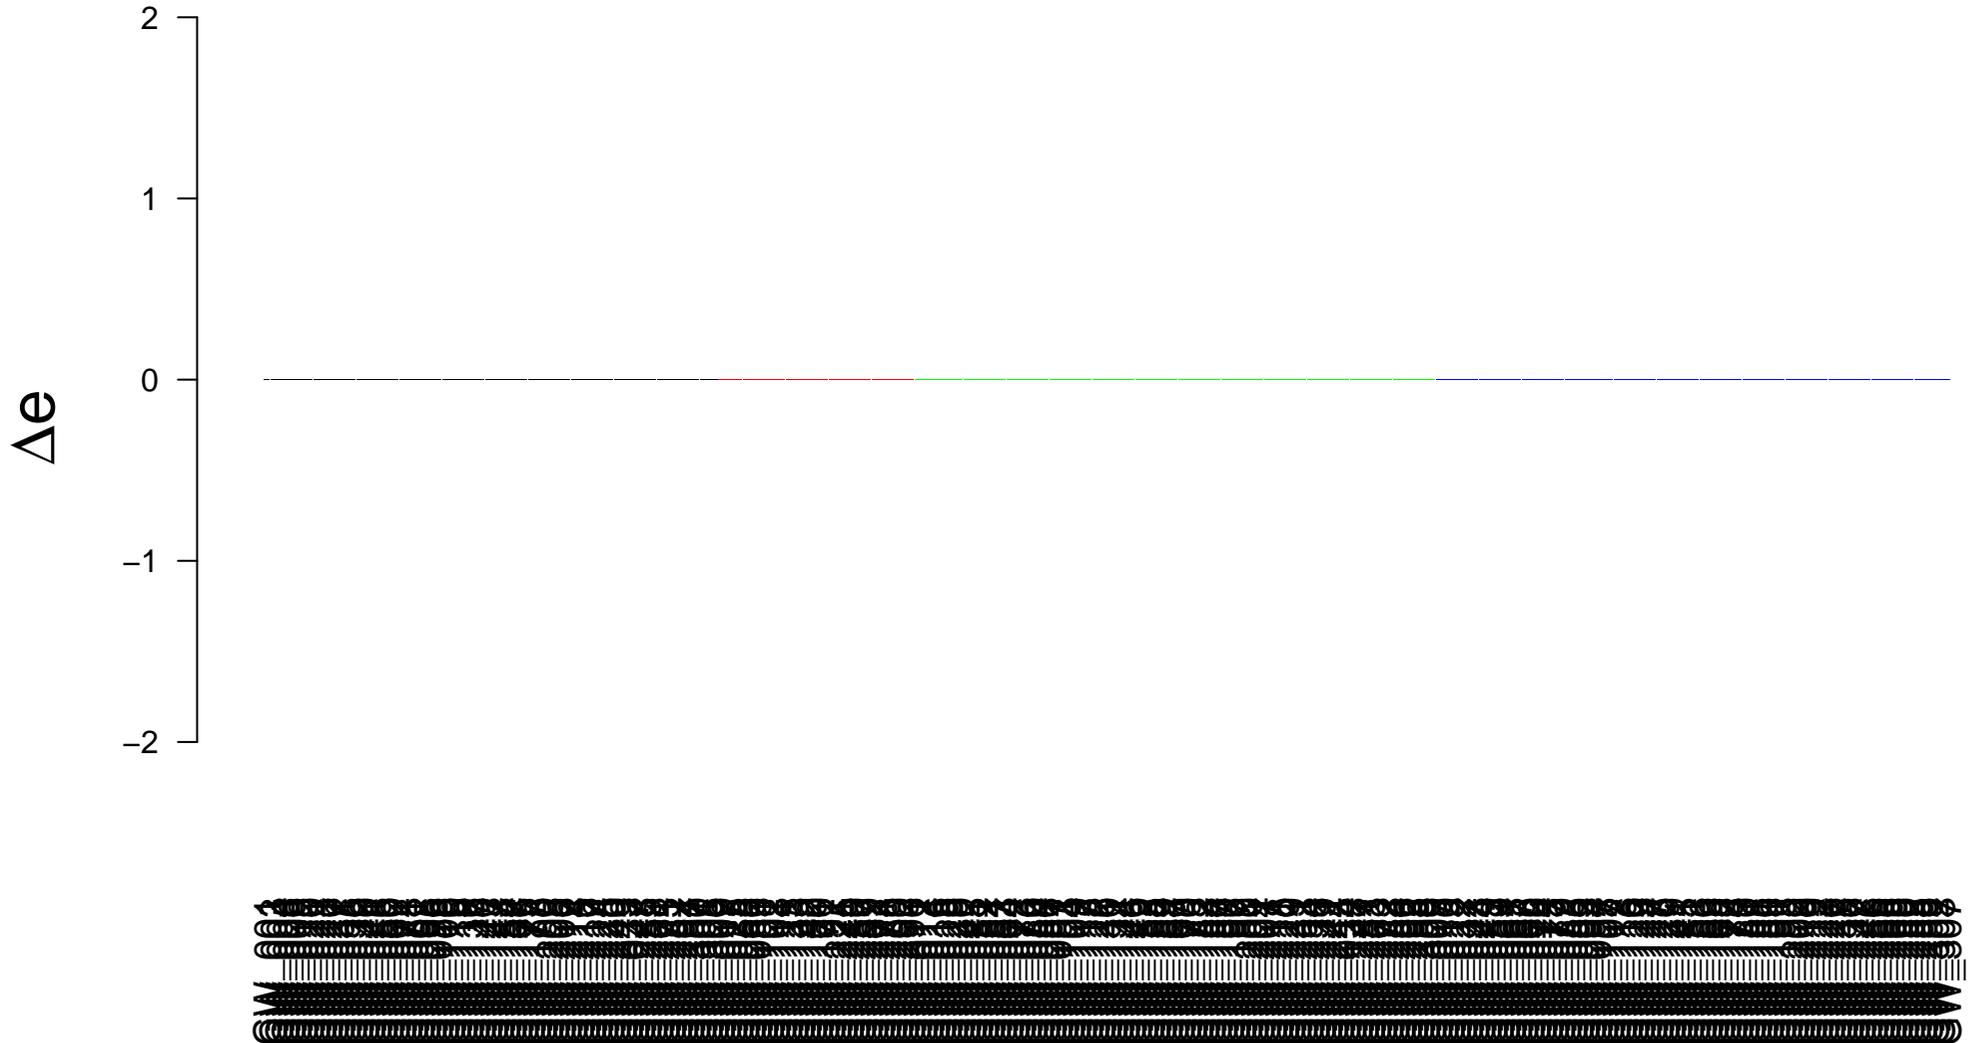

Expression of extrinsic apoptotic signaling pathway in absence of ligand in Spot D

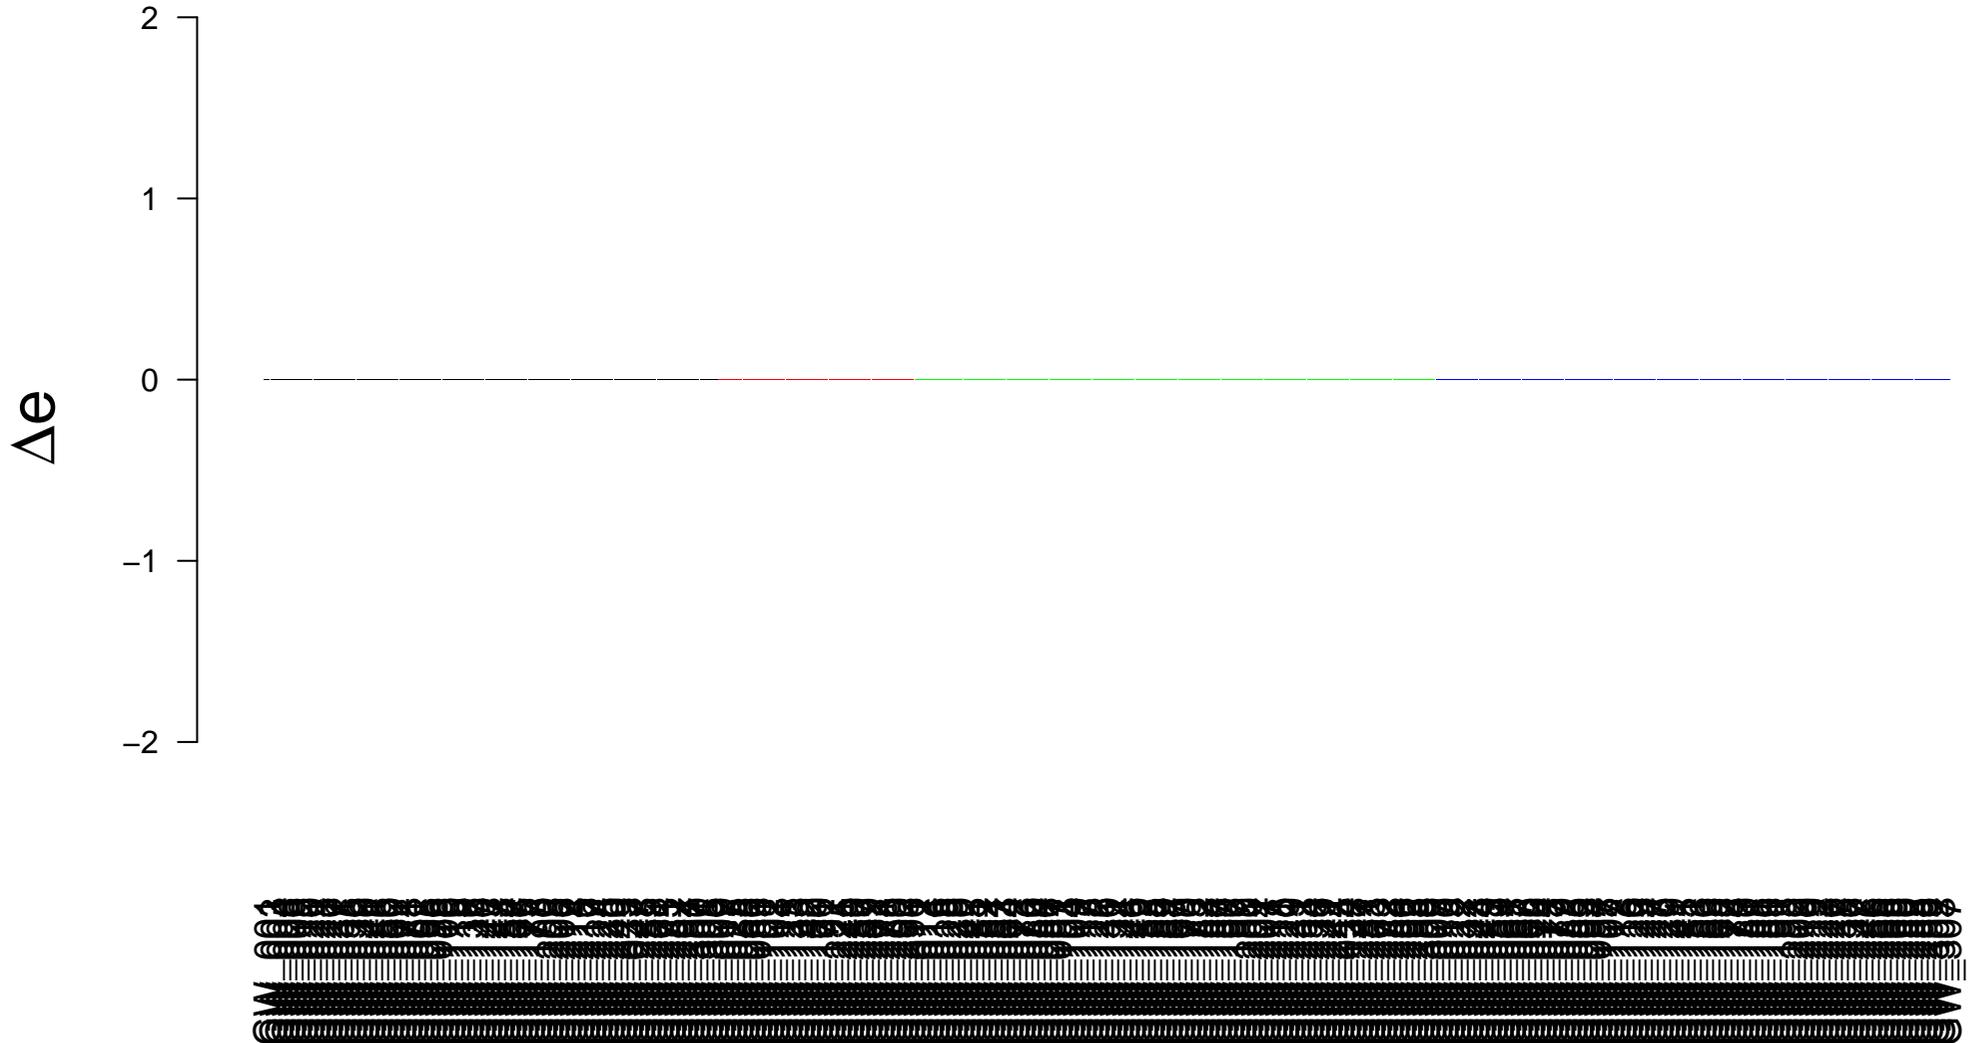

Expression of extrinsic apoptotic signaling pathway in absence of ligand in Spot E

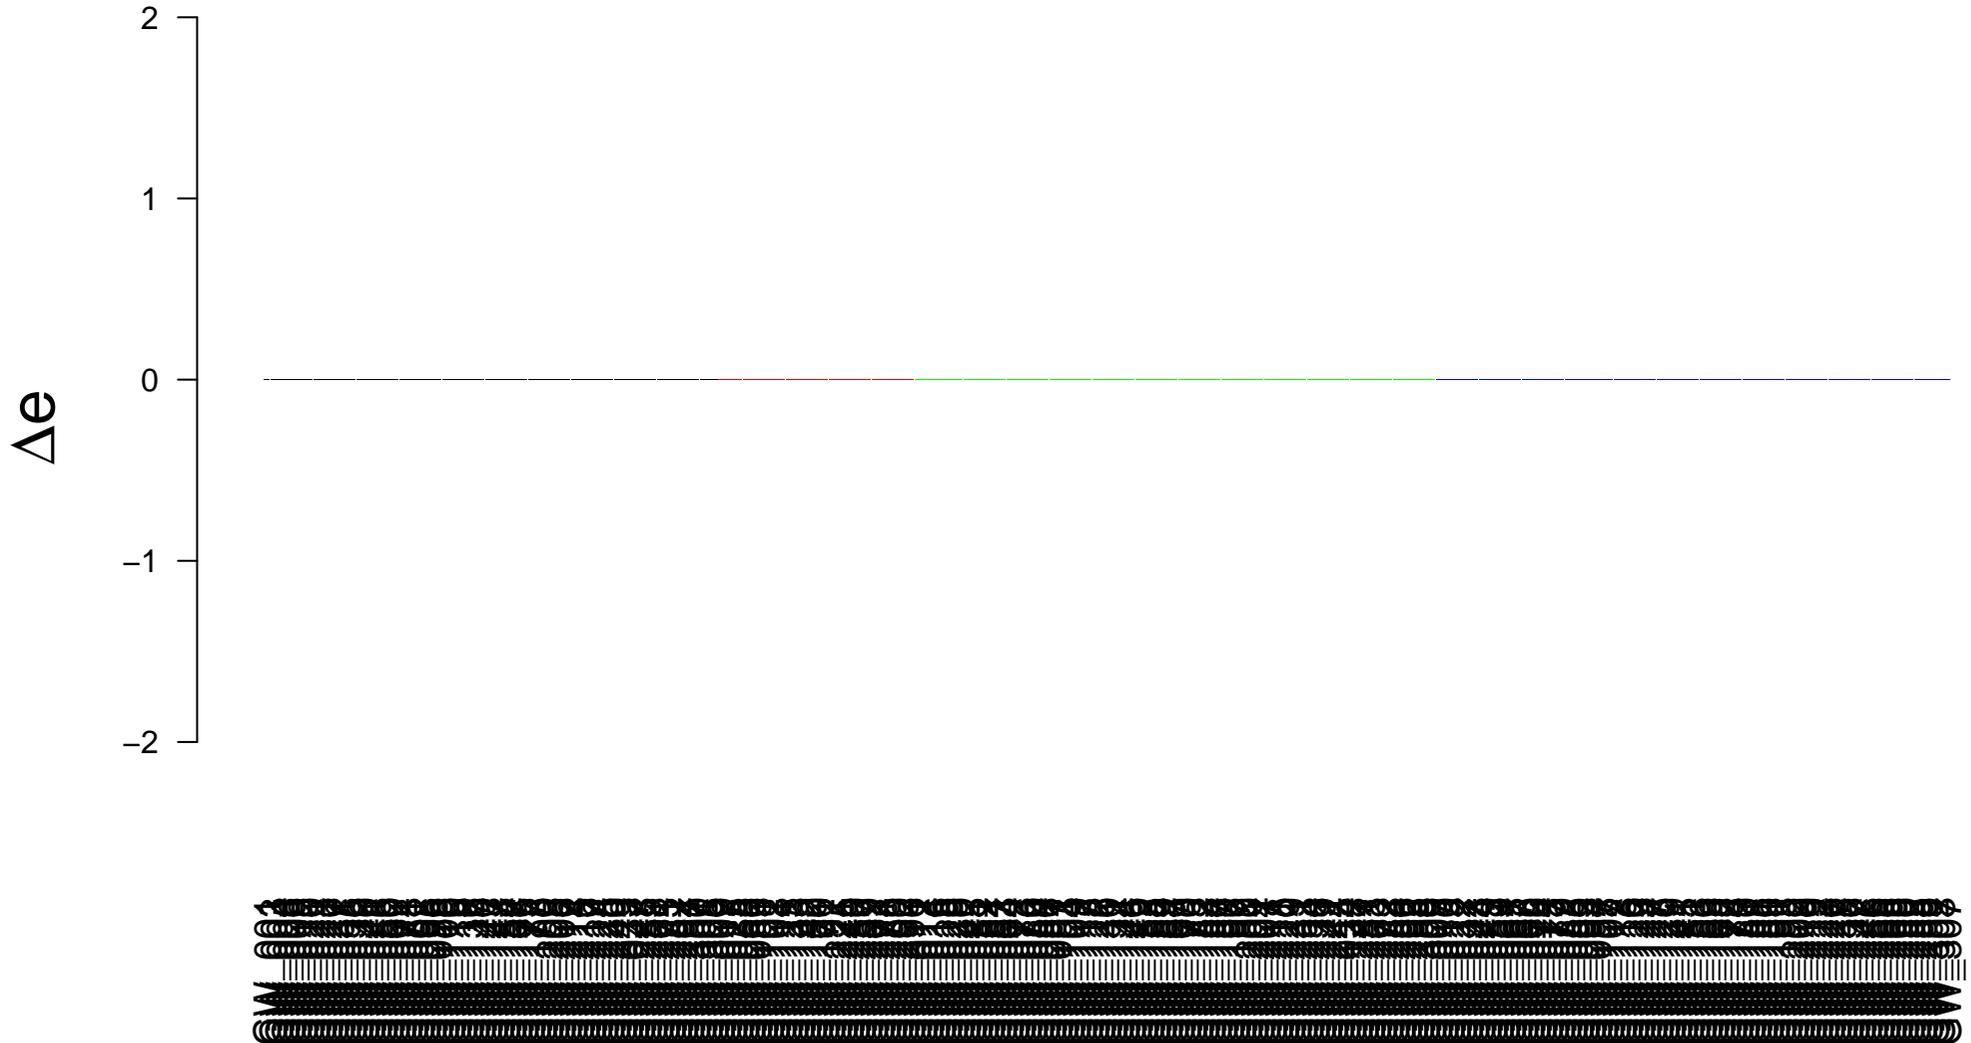

Expression of extrinsic apoptotic signaling pathway in absence of ligand in Spot F

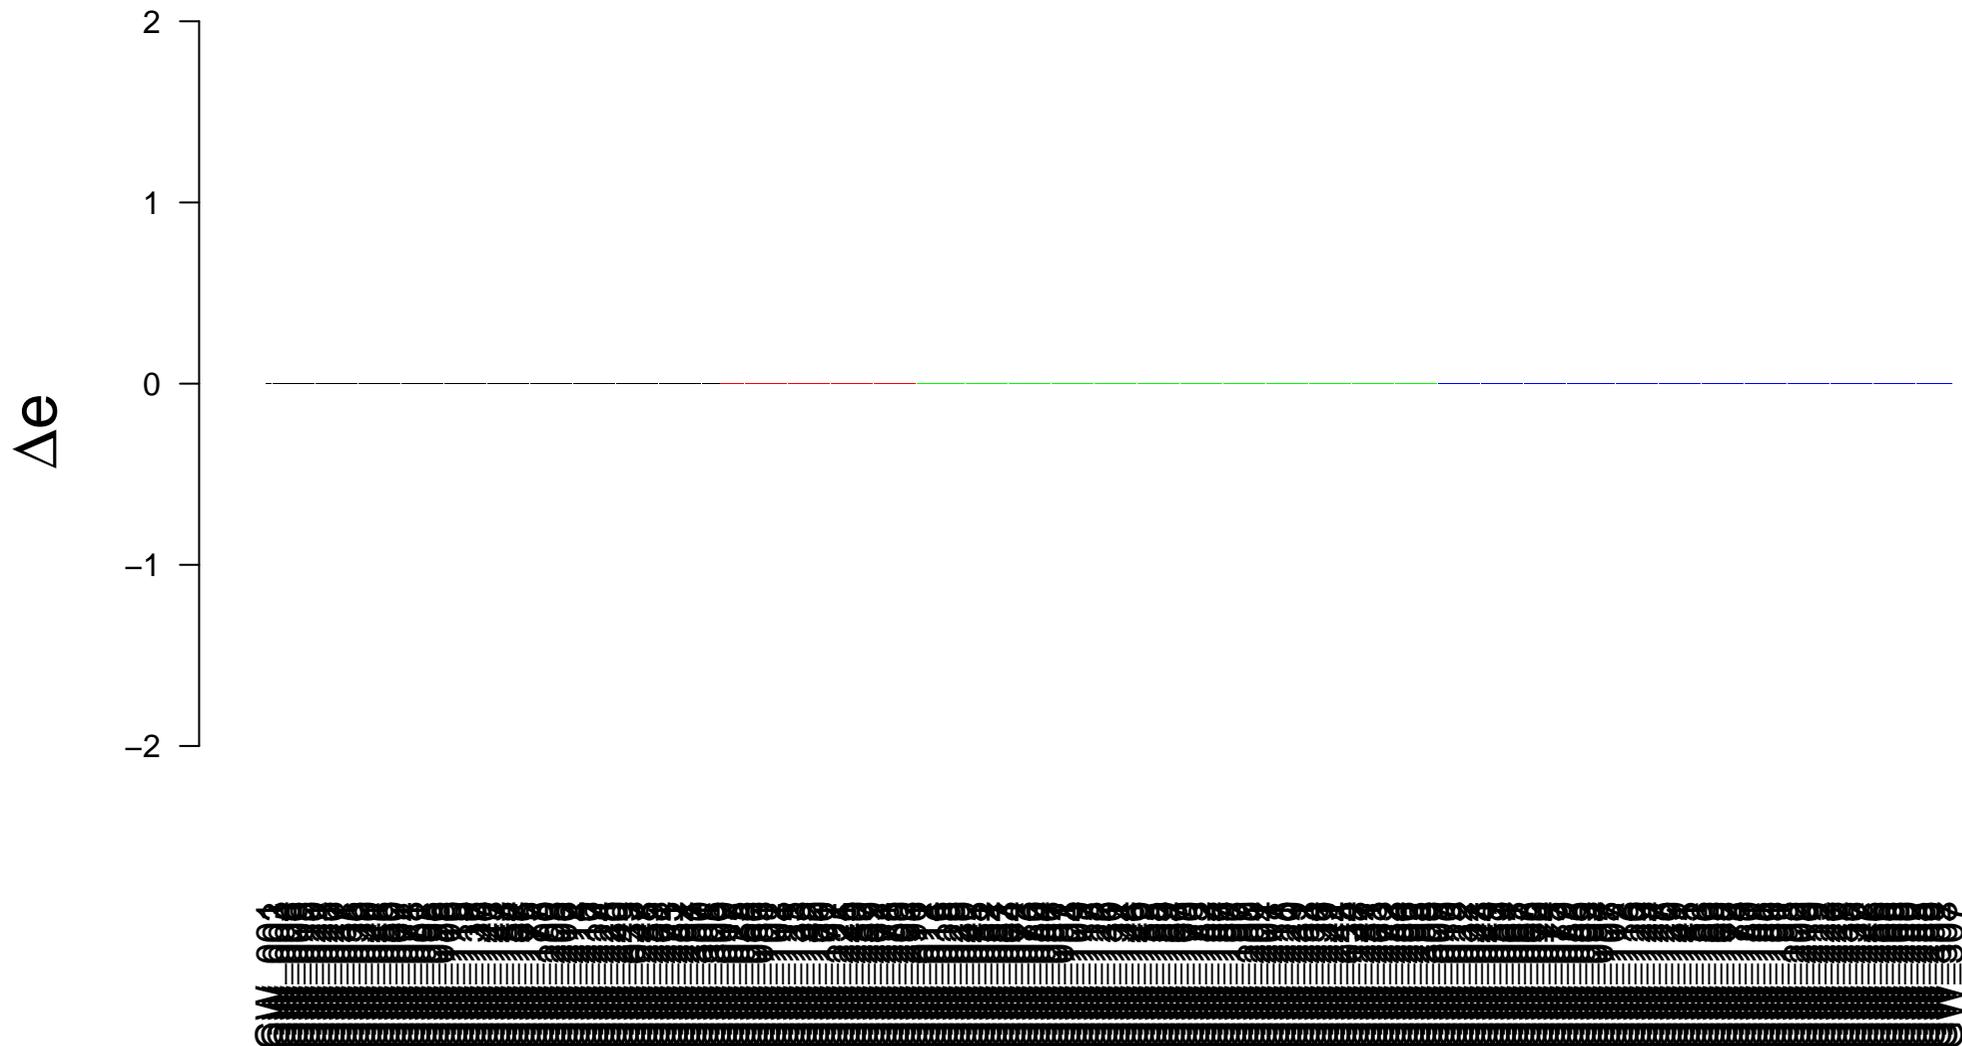

Expression of extrinsic apoptotic signaling pathway in absence of ligand in Spot G

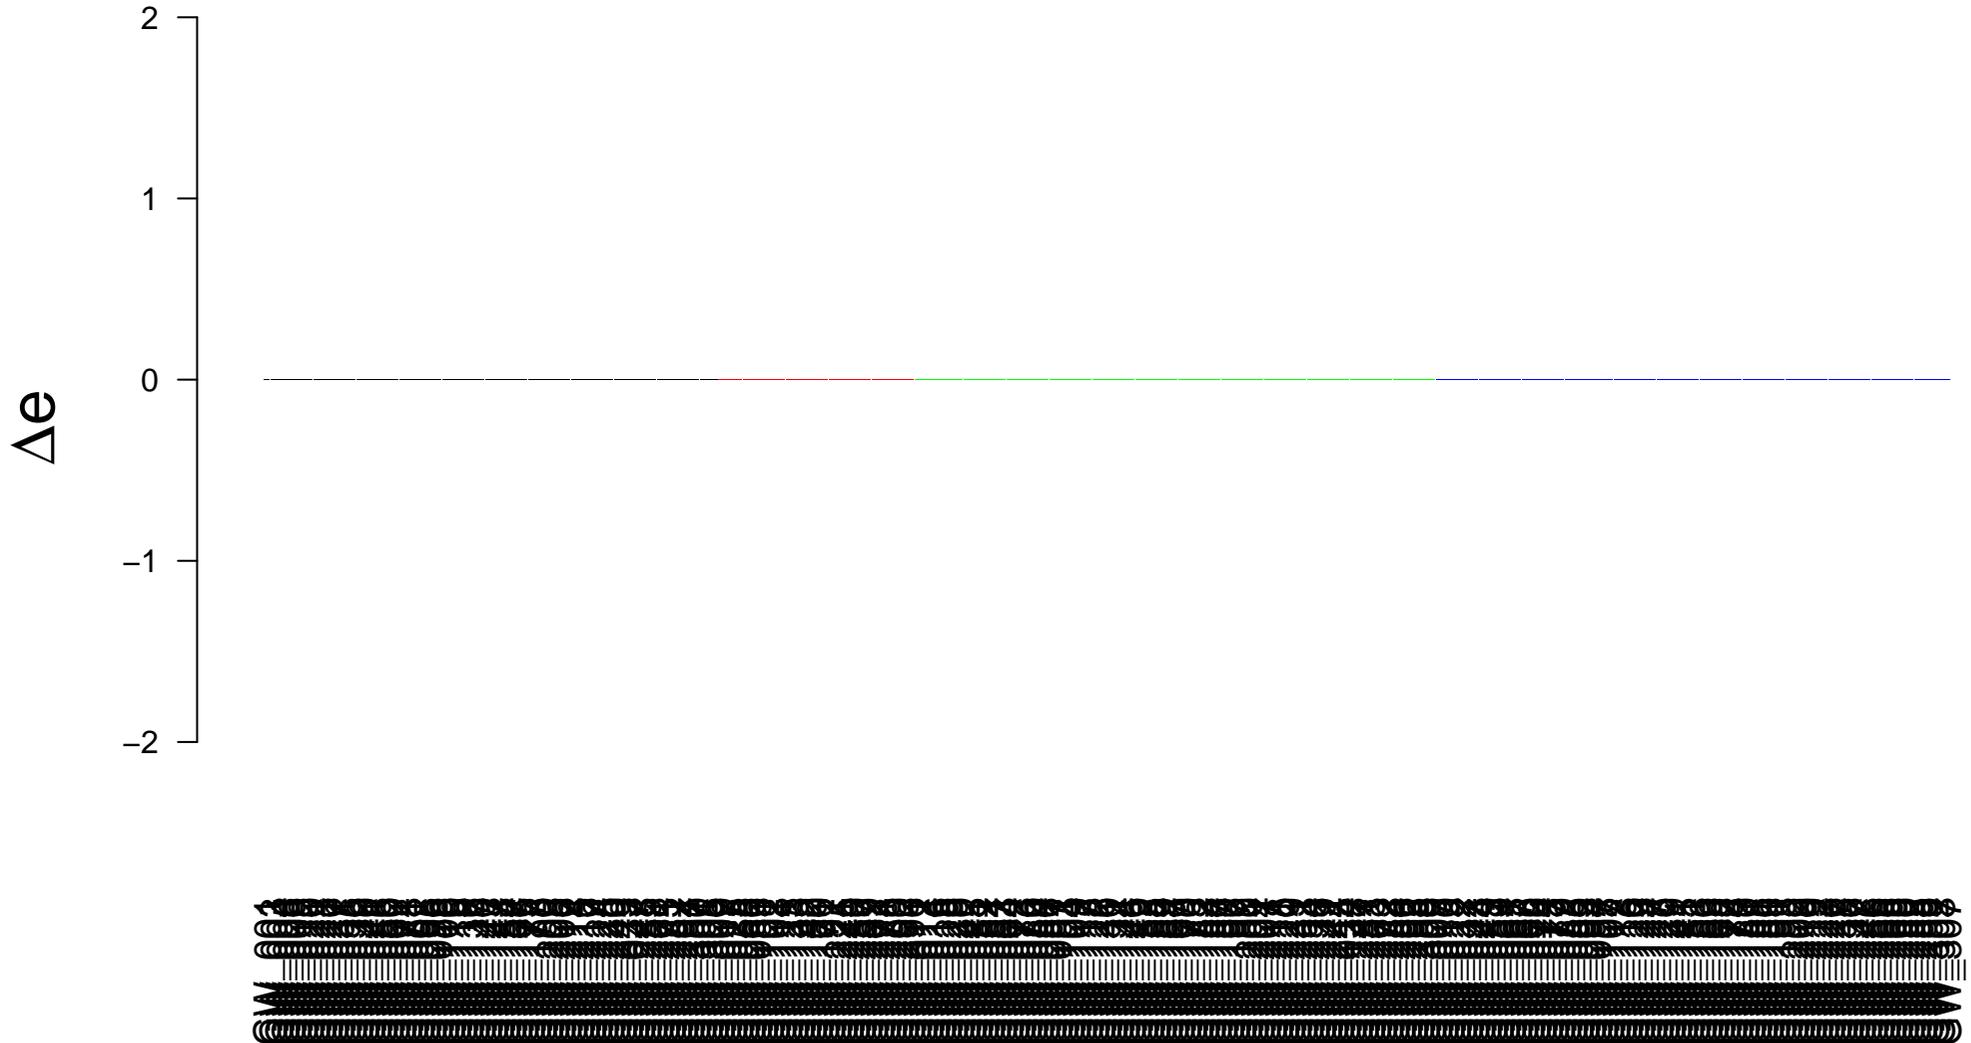

Expression of extrinsic apoptotic signaling pathway in absence of ligand in Spot H

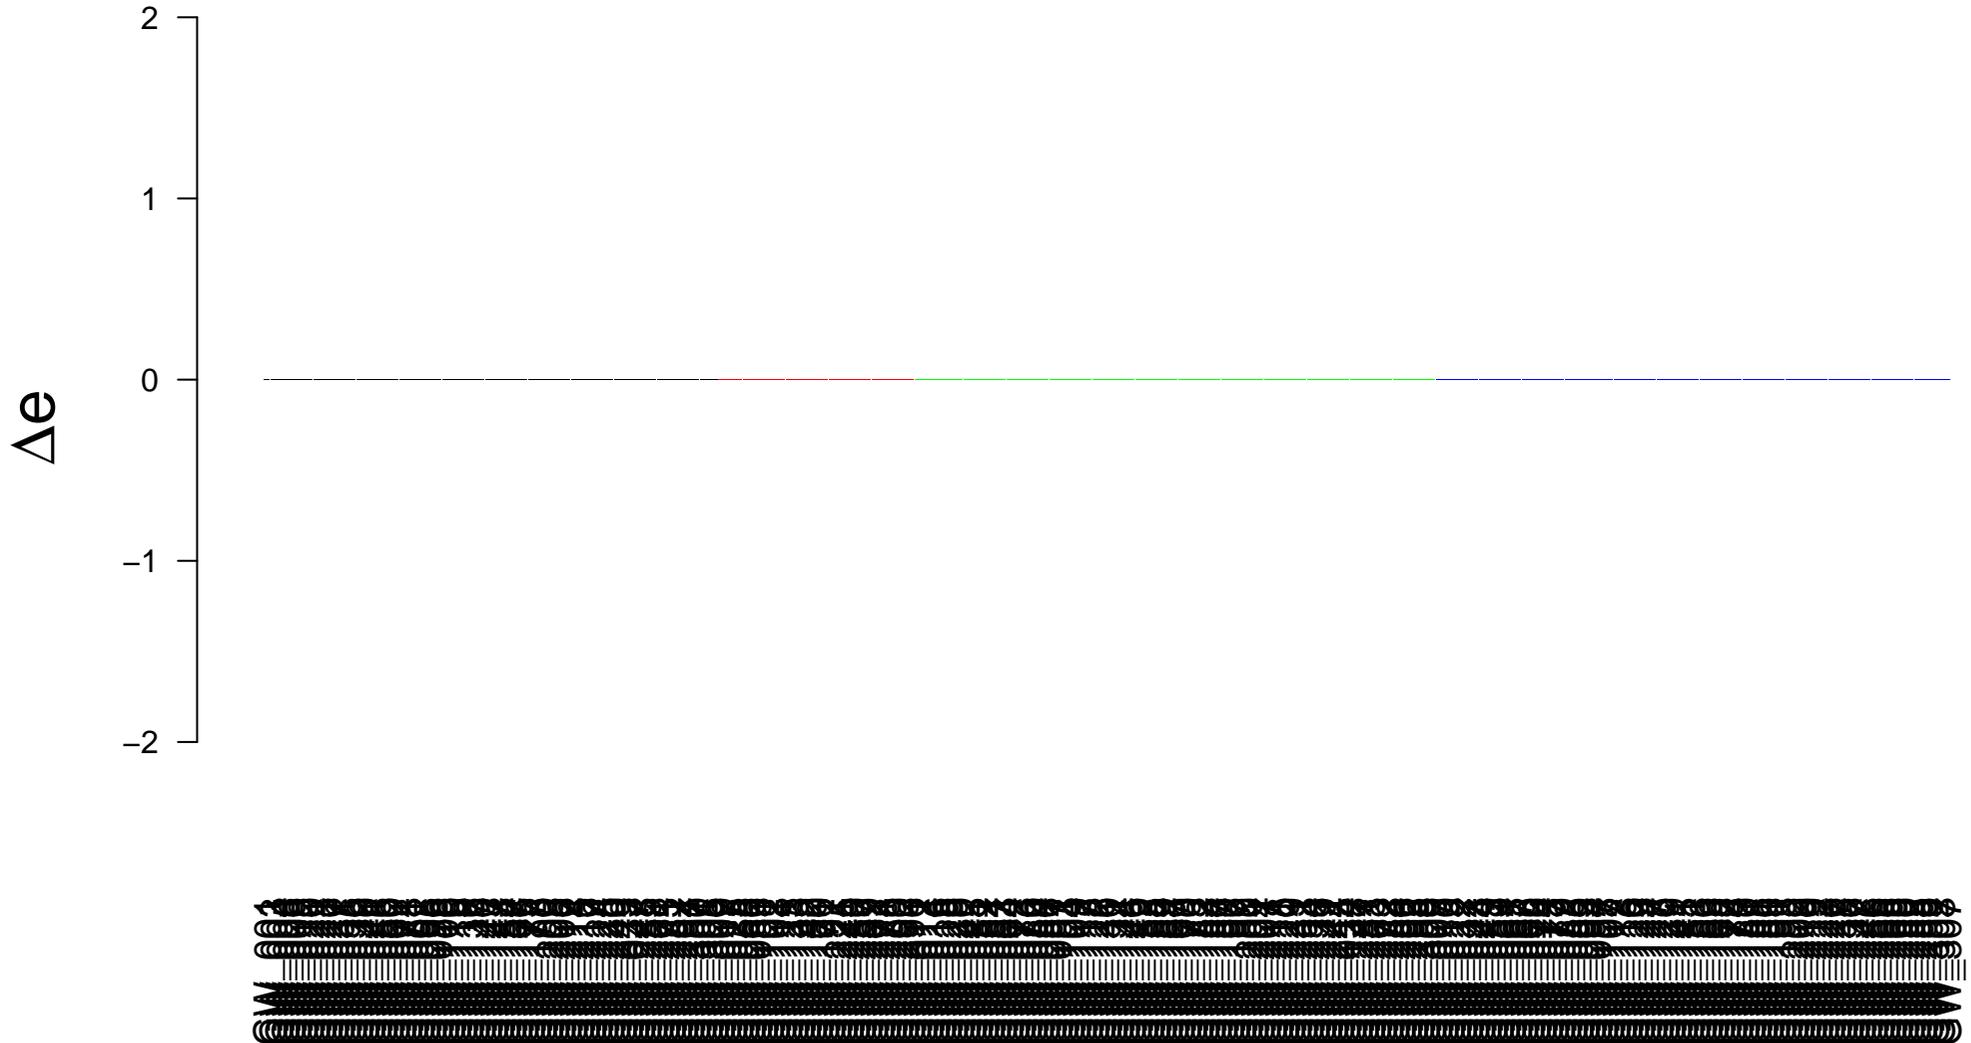

Expression of extrinsic apoptotic signaling pathway in absence of ligand in Spot I

Expression of extrinsic apoptotic signaling pathway in absence of ligand in Spot J

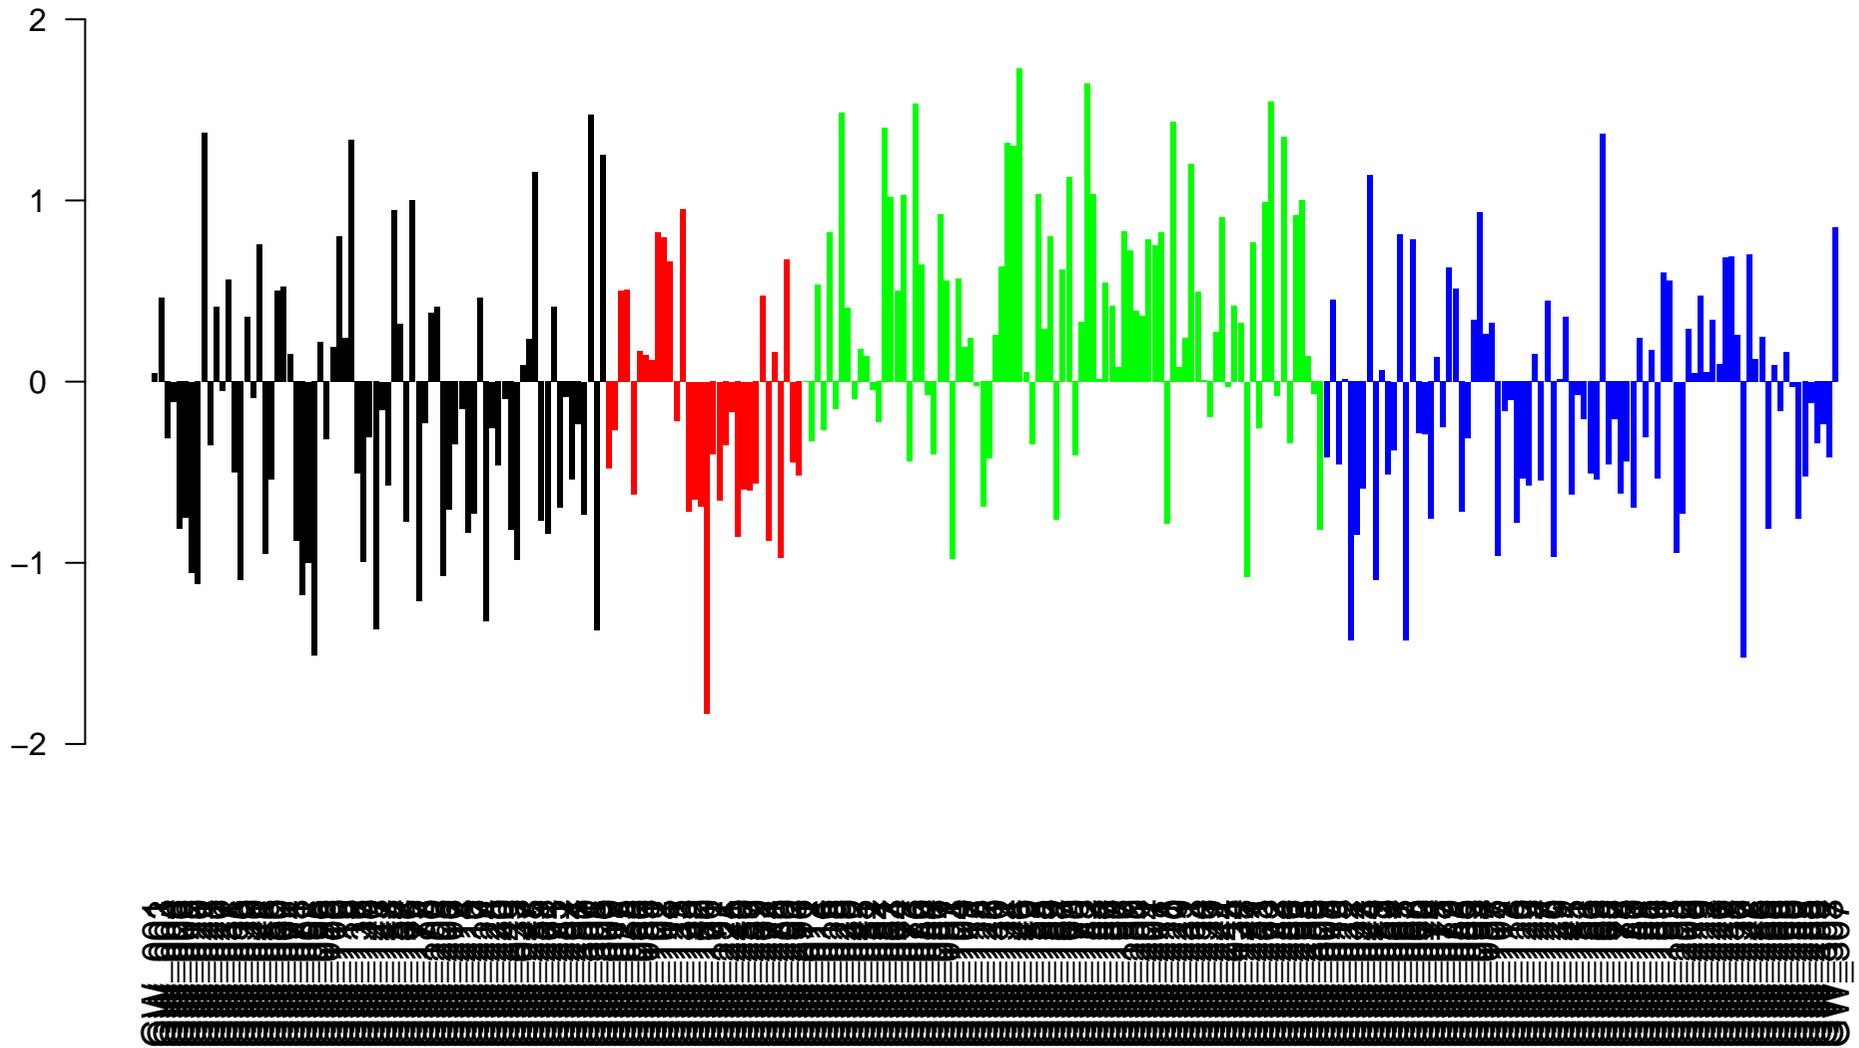

Expression of extrinsic apoptotic signaling pathway in absence of ligand in Spot K

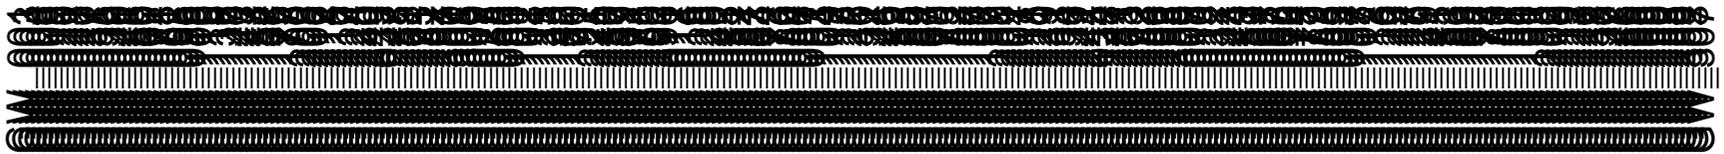

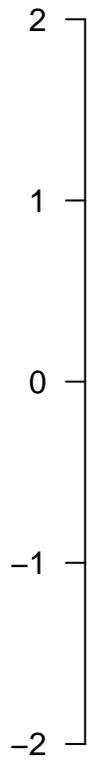

Expression of extrinsic apoptotic signaling pathway in absence of ligand in Spot L
