

ligand-activated sequence-specific DNA binding RNA polymerase II transcription factor activity

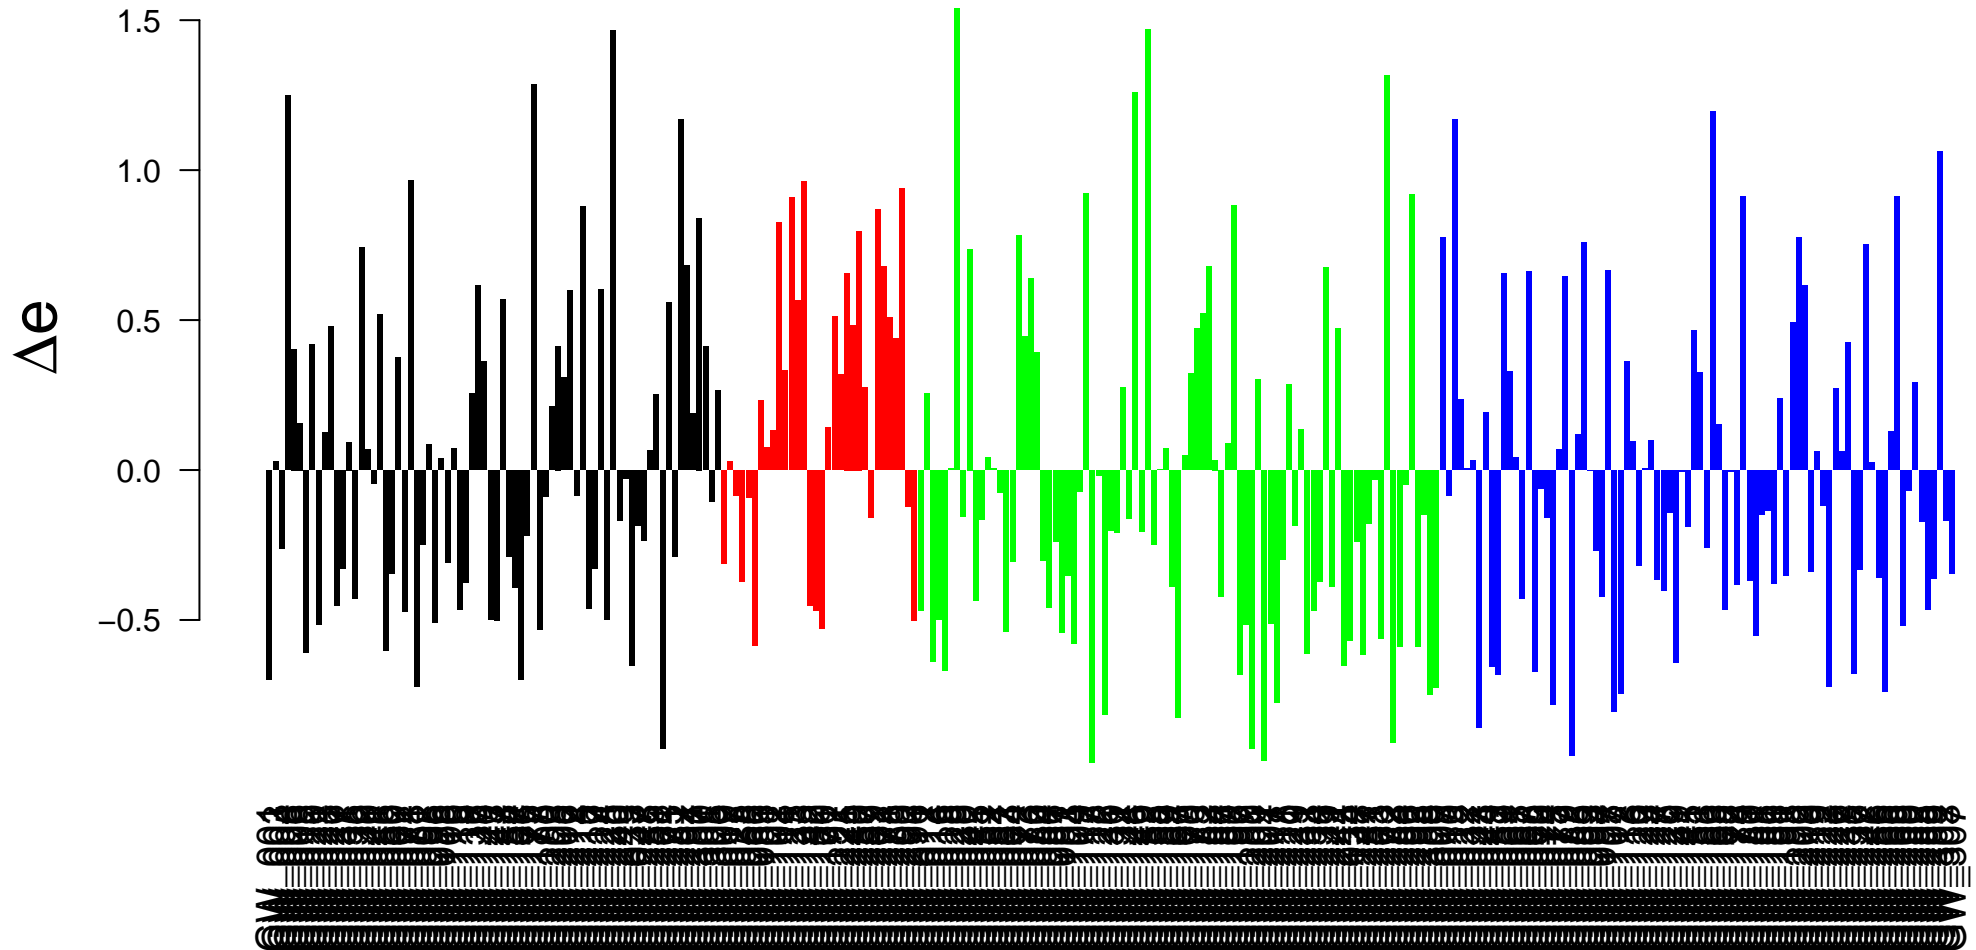

ligand-activated sequence-specific DNA binding RNA polymerase II transcription factor activity

Enrichment in spots: ligand-activated sequence-specific DNA binding RNA polymerase II transcription factor activity

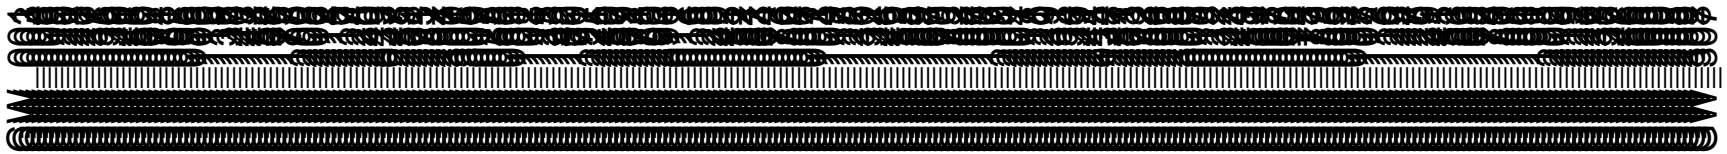

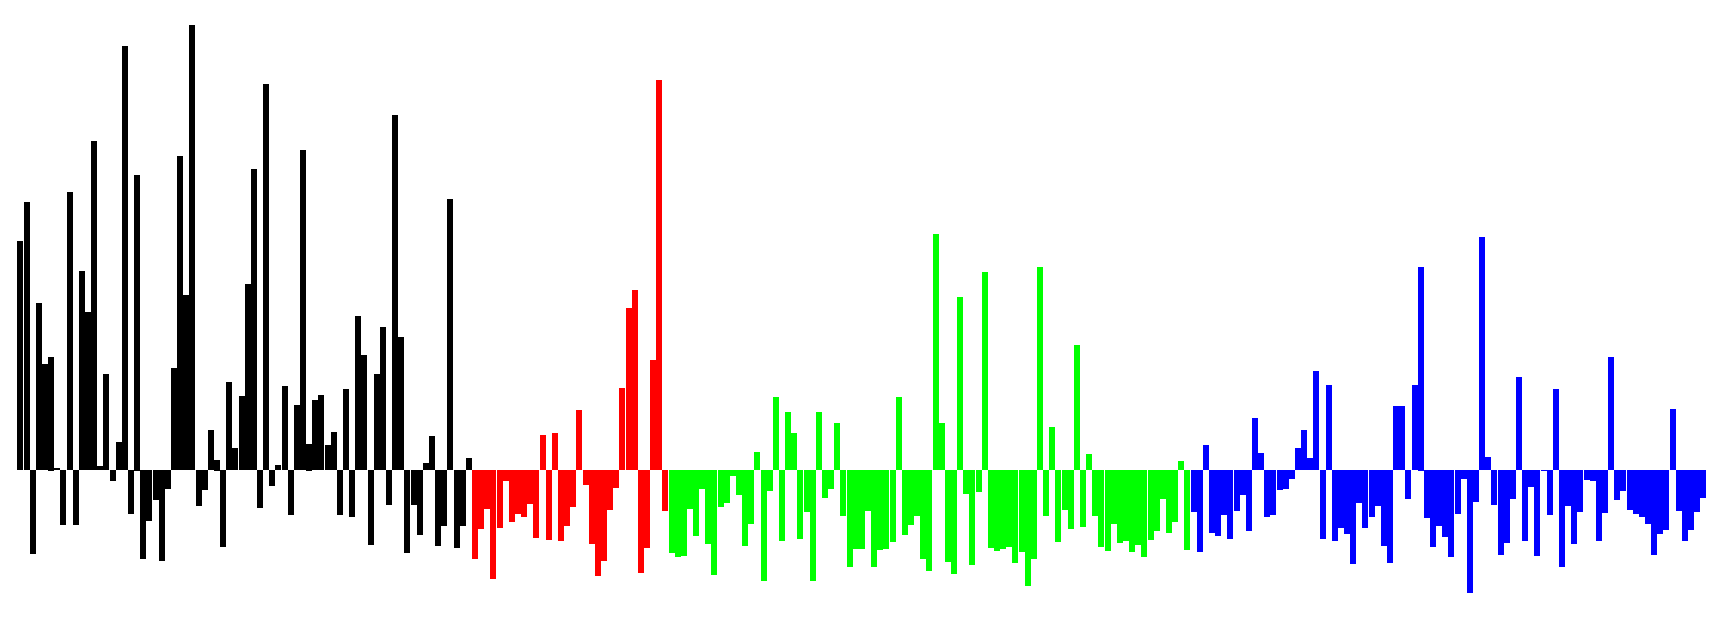

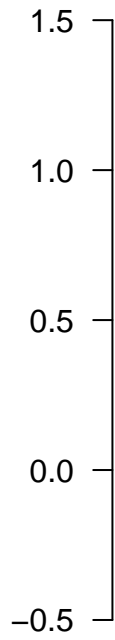

Expression of ligand-activated sequence-specific DNA binding RNA polymerase II transcription factor activity in Spot A

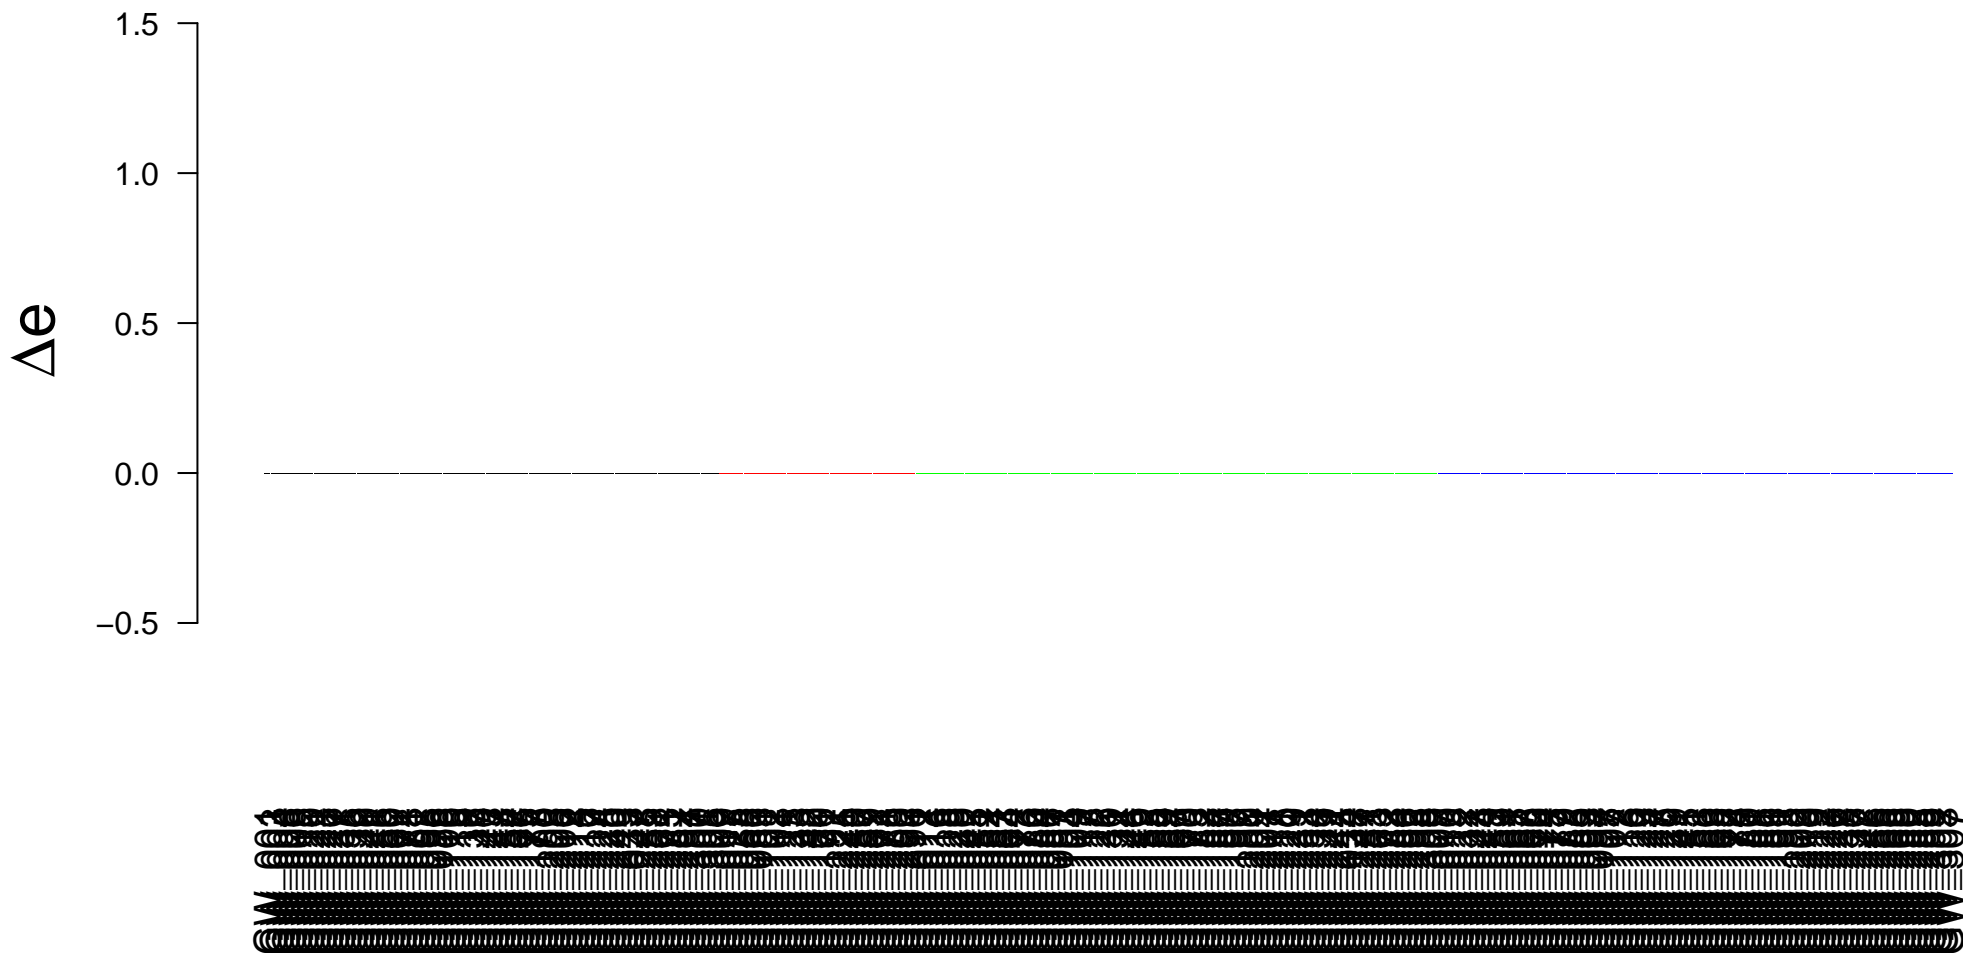

Expression of ligand-activated sequence-specific DNA binding RNA polymerase II transcription factor activity in Spot B

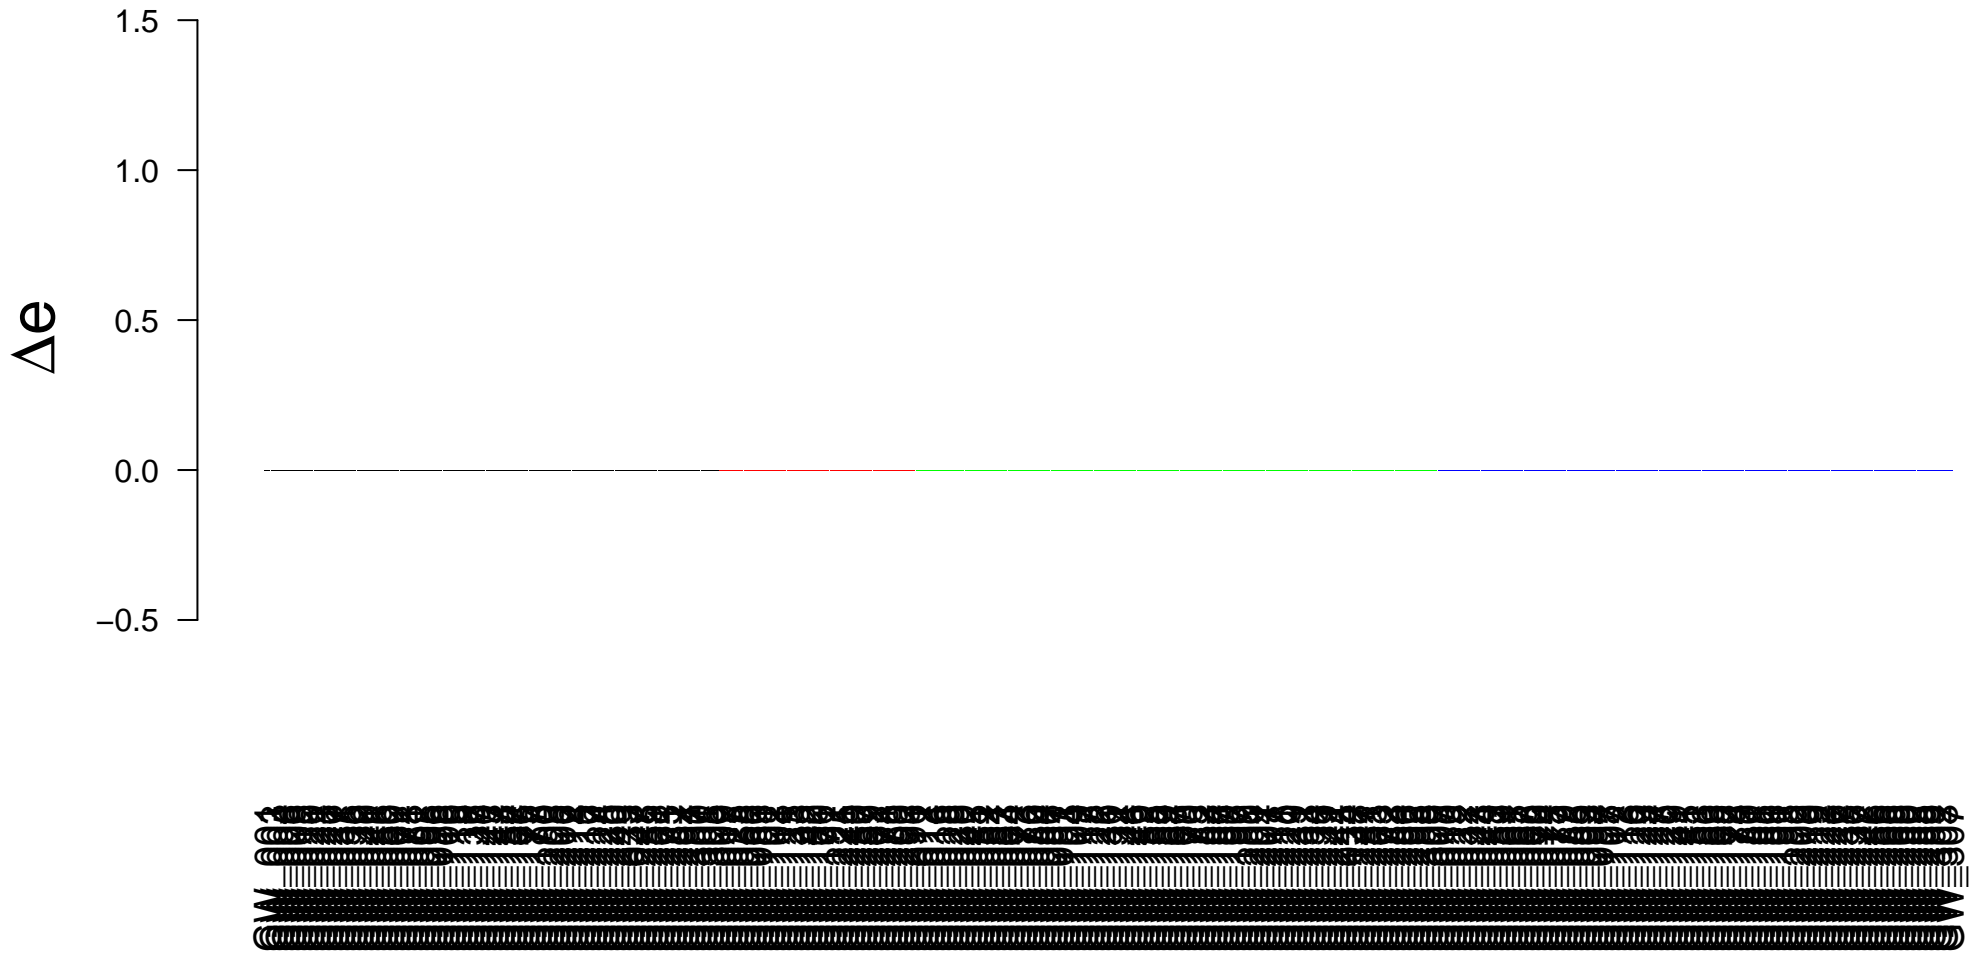

Δe

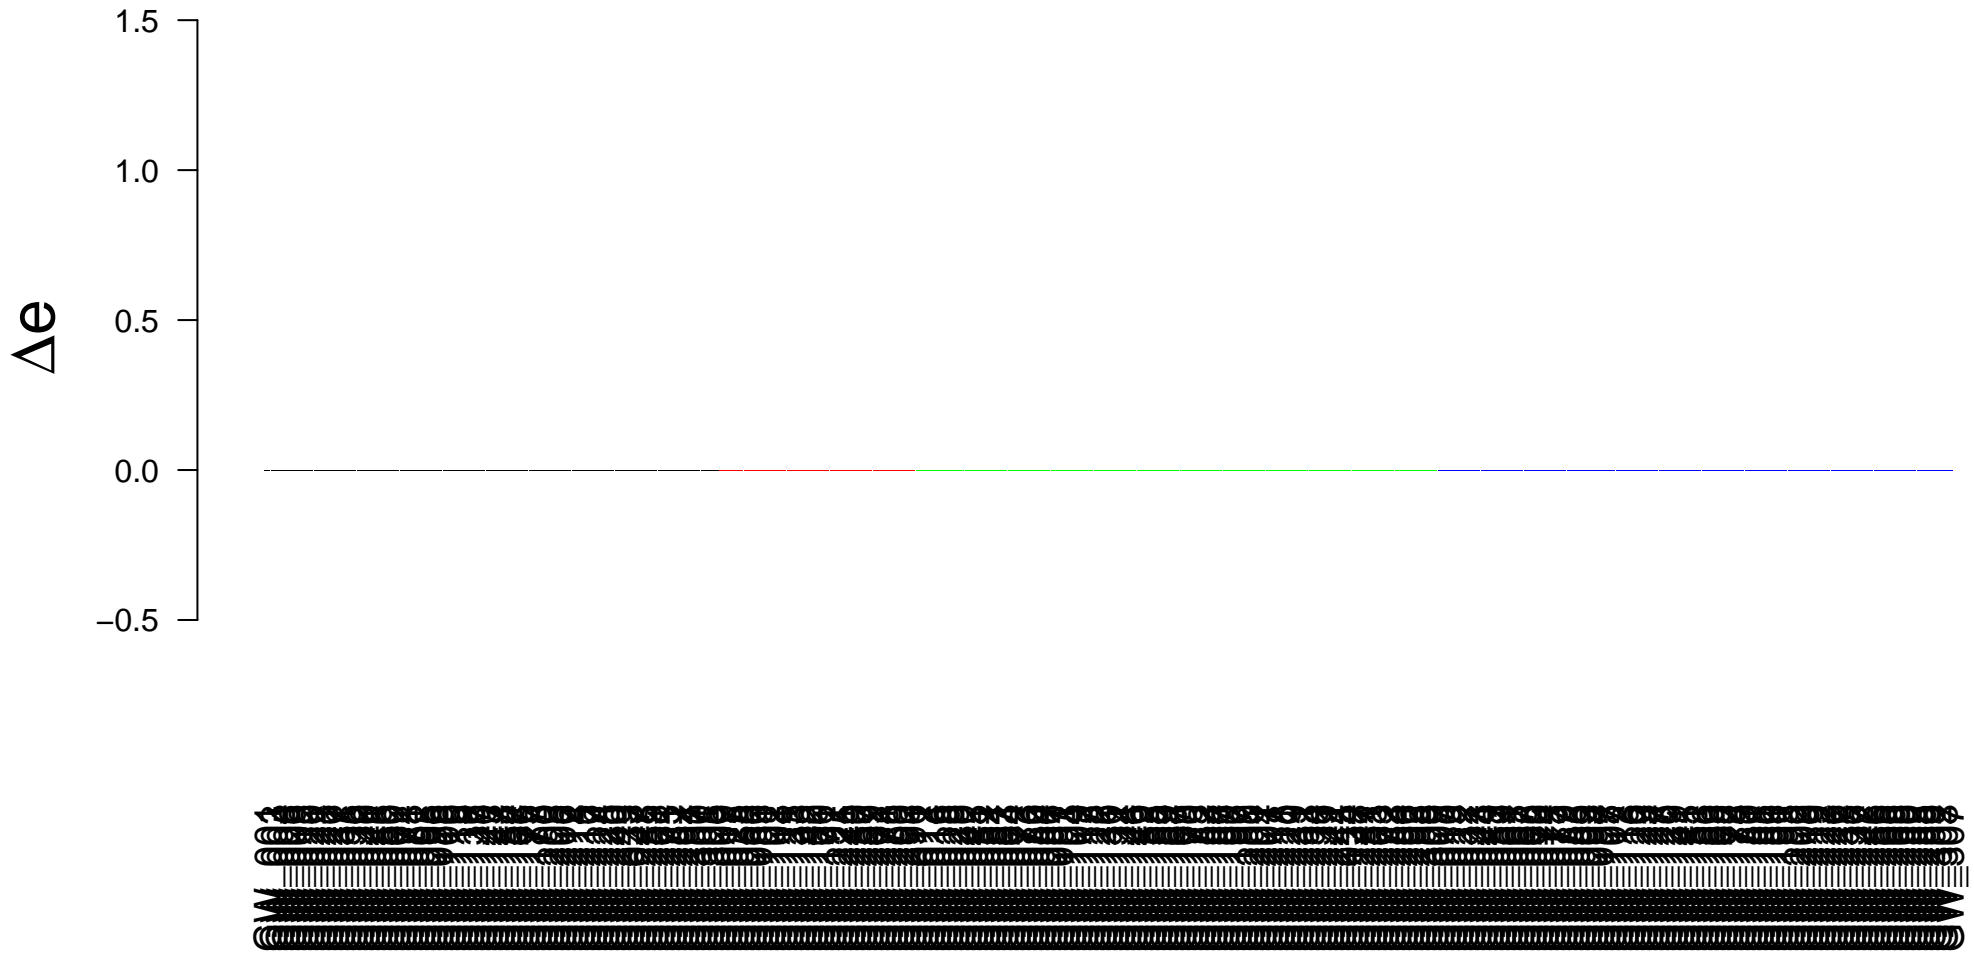

Expression of ligand-activated sequence-specific DNA binding RNA polymerase II transcription factor activity in Spot C

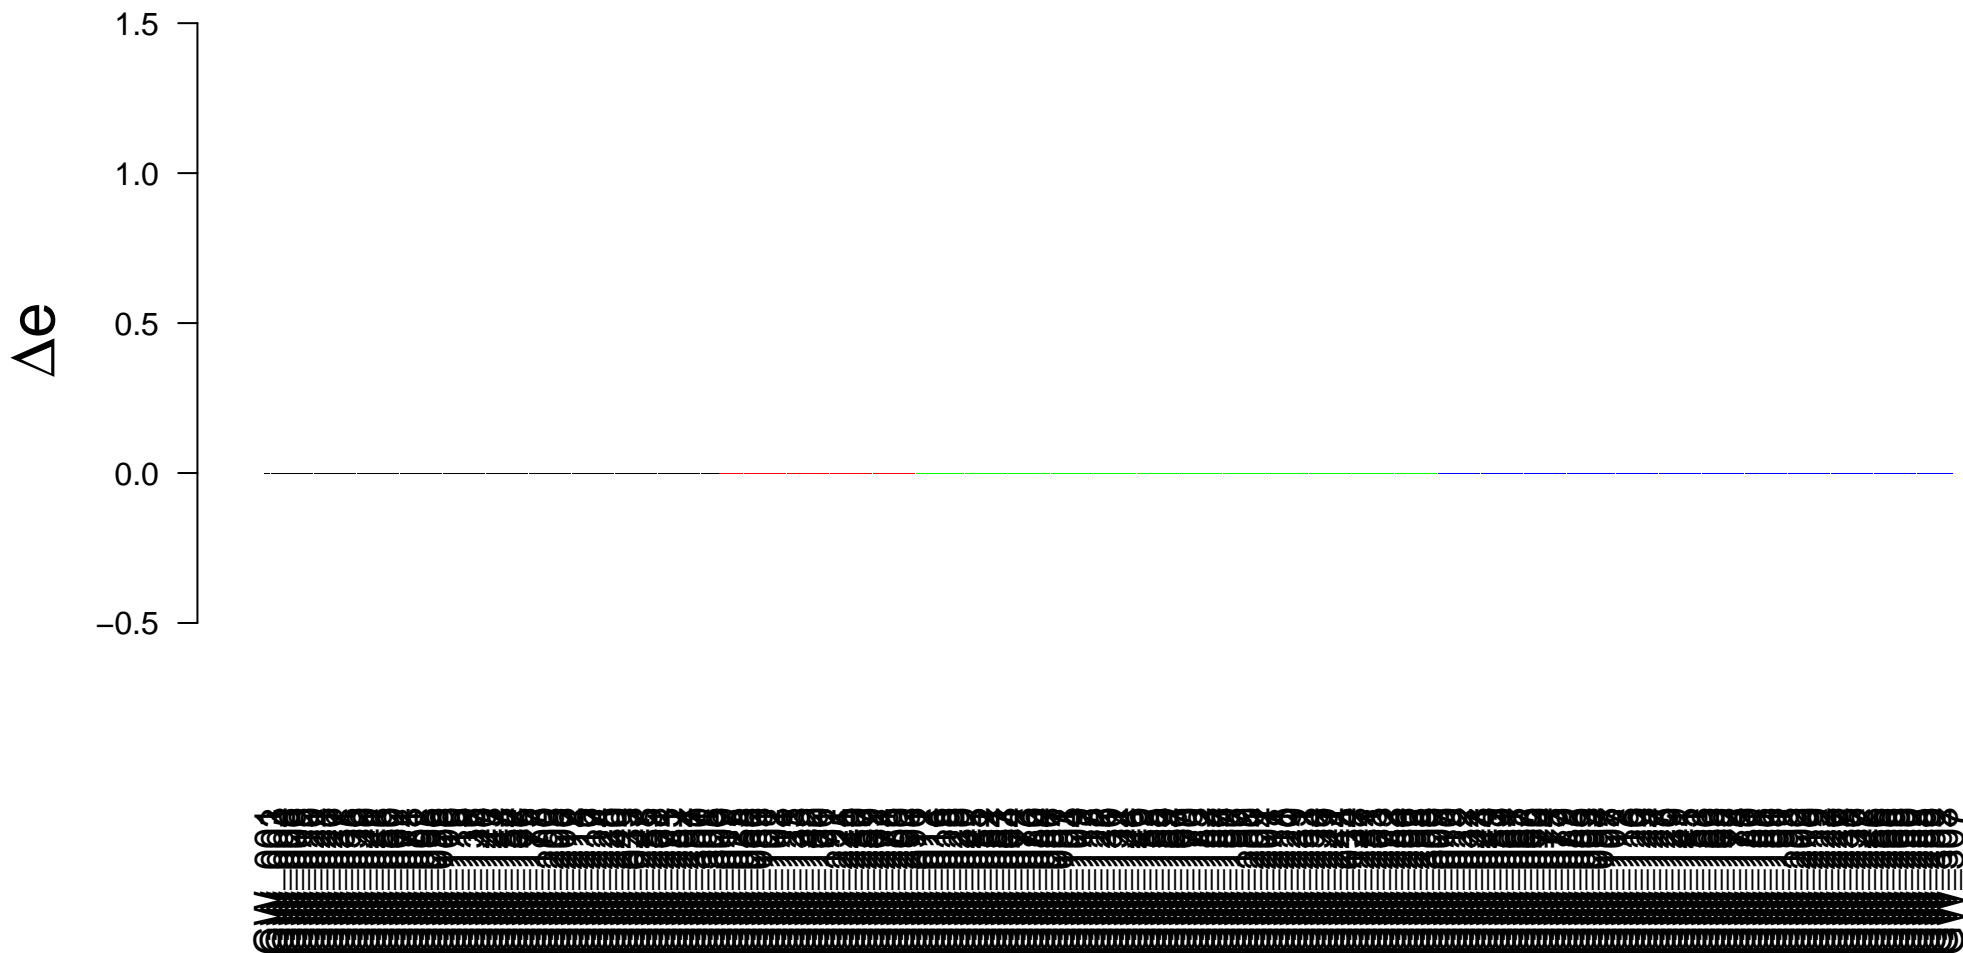

Expression of ligand-activated sequence-specific DNA binding RNA polymerase II transcription factor activity in Spot D

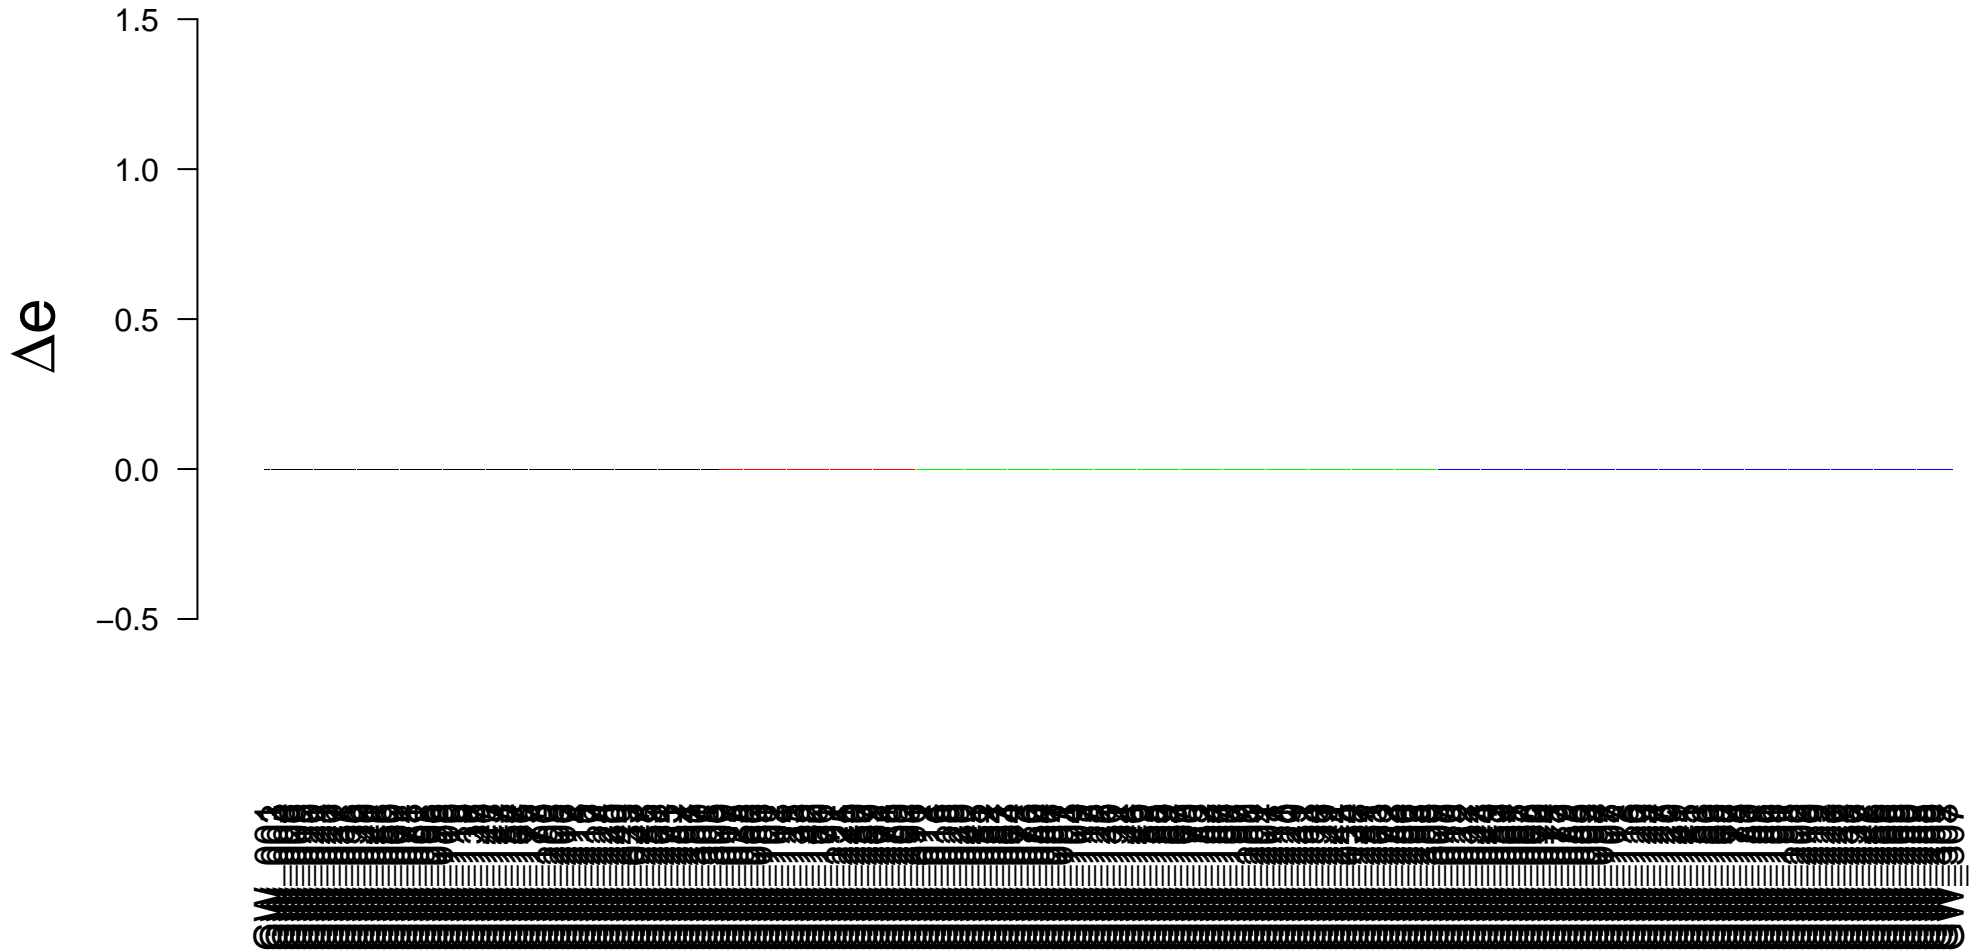

Expression of ligand-activated sequence-specific DNA binding RNA polymerase II transcription factor activity in Spot E

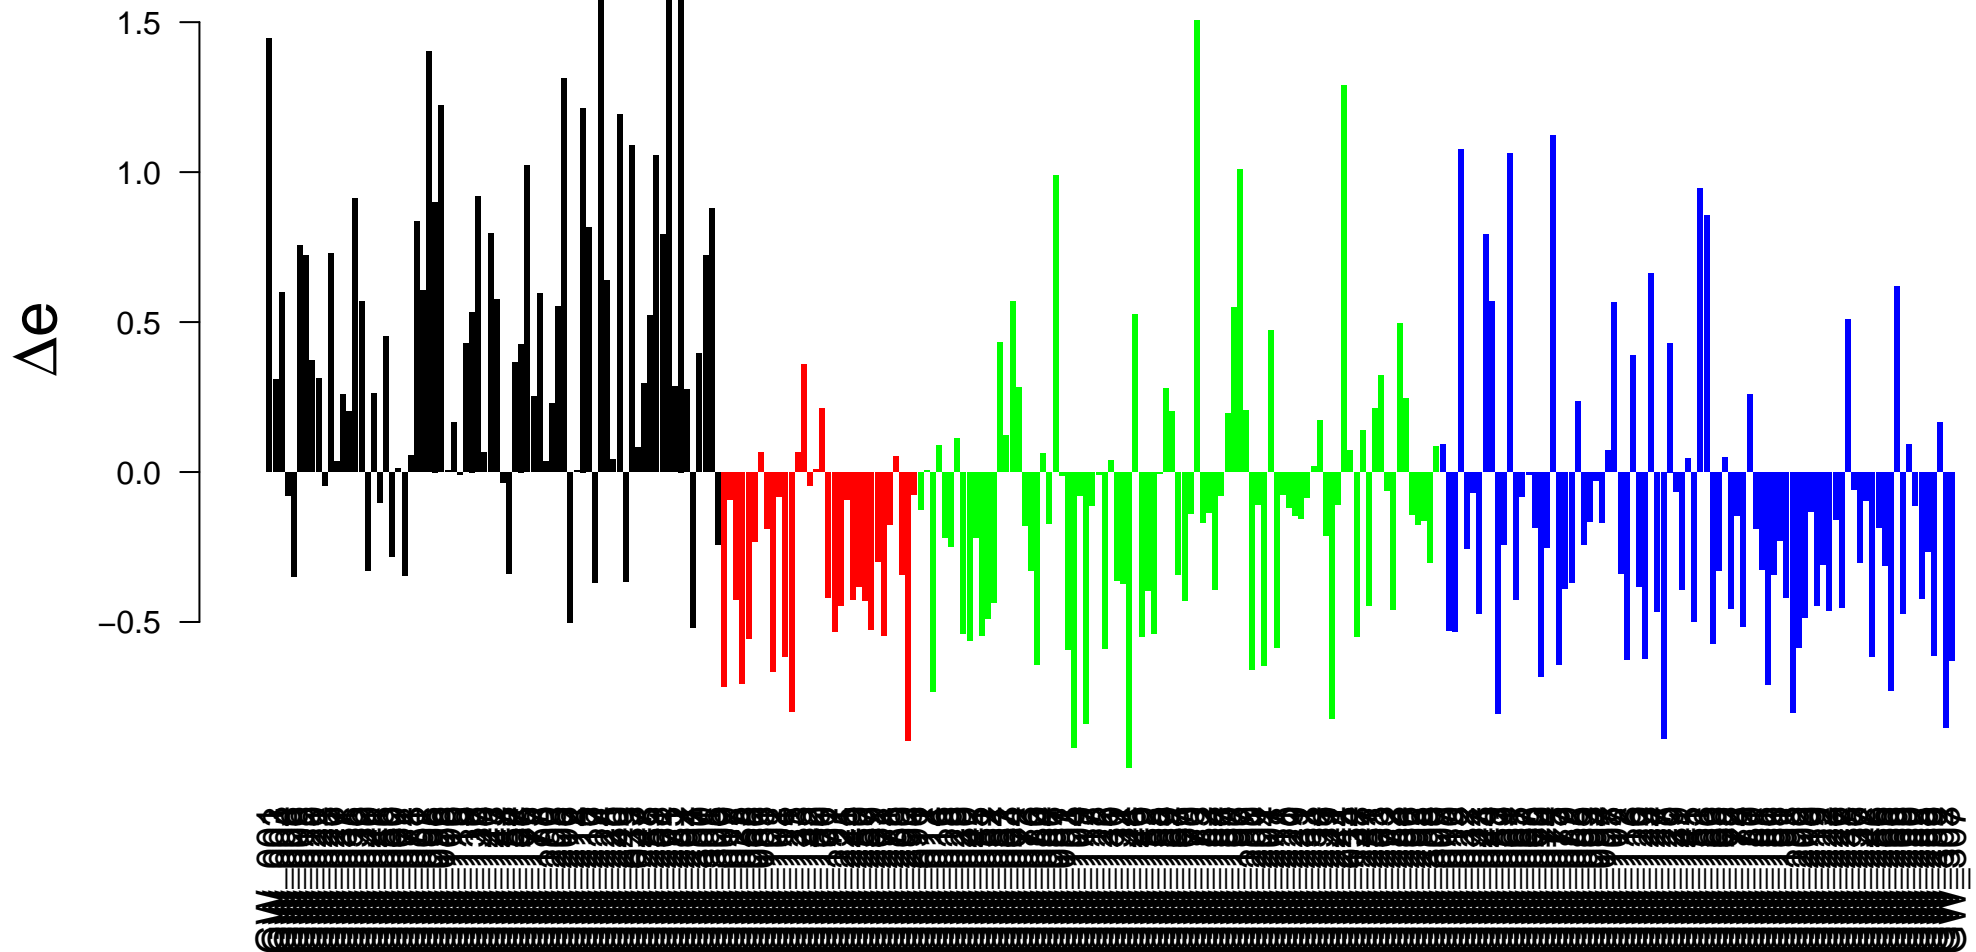

Expression of ligand-activated sequence-specific DNA binding RNA polymerase II transcription factor activity in Spot F

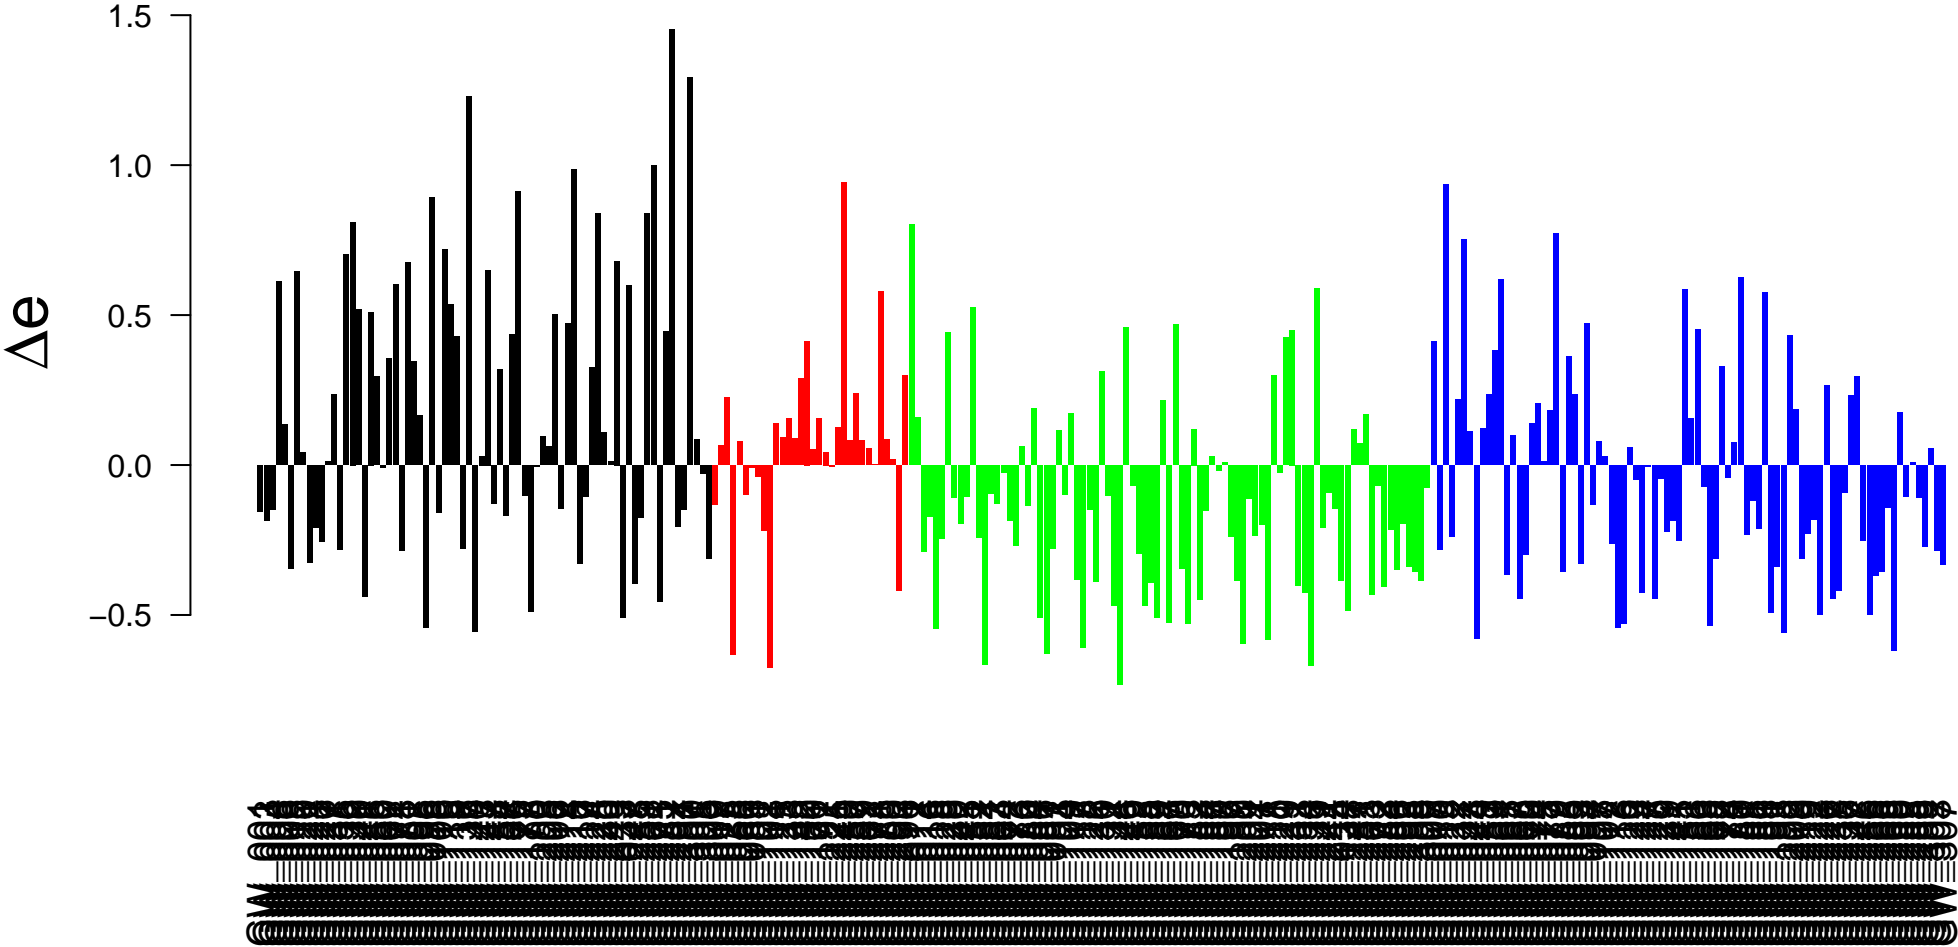

Expression of ligand-activated sequence-specific DNA binding RNA polymerase II transcription factor activity in Spot G

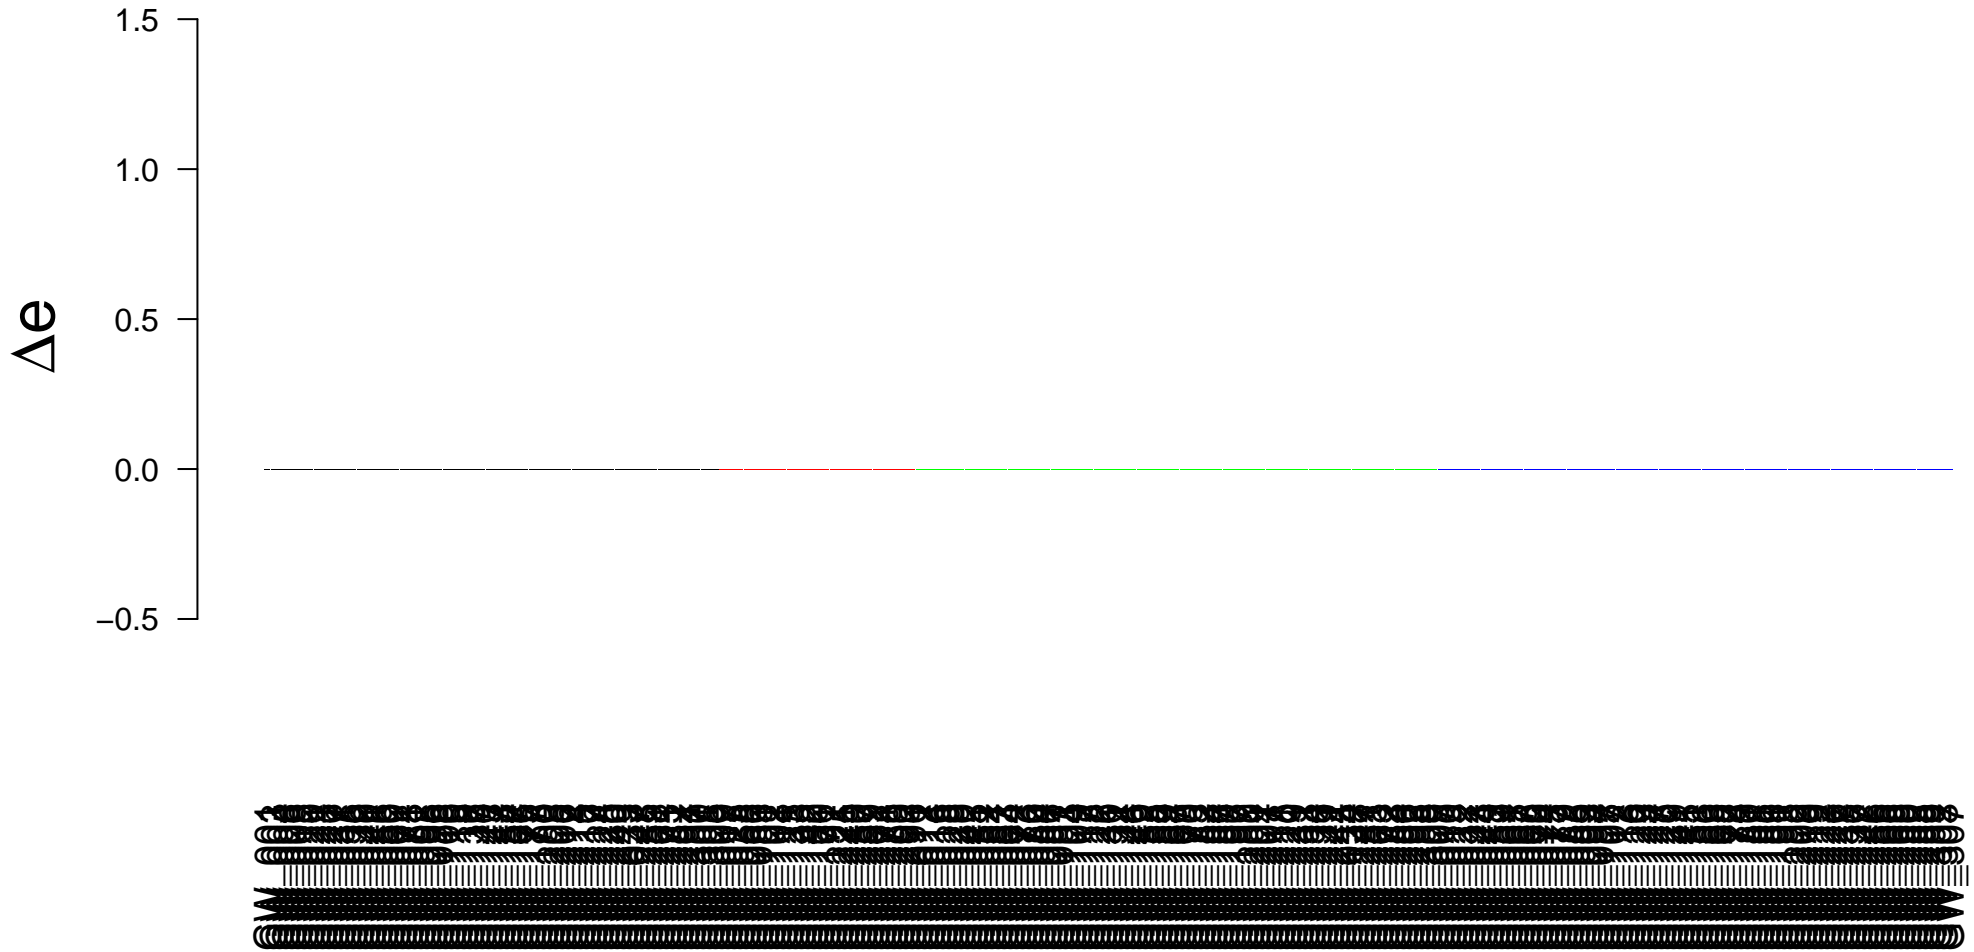

Expression of ligand-activated sequence-specific DNA binding RNA polymerase II transcription factor activity in Spot H

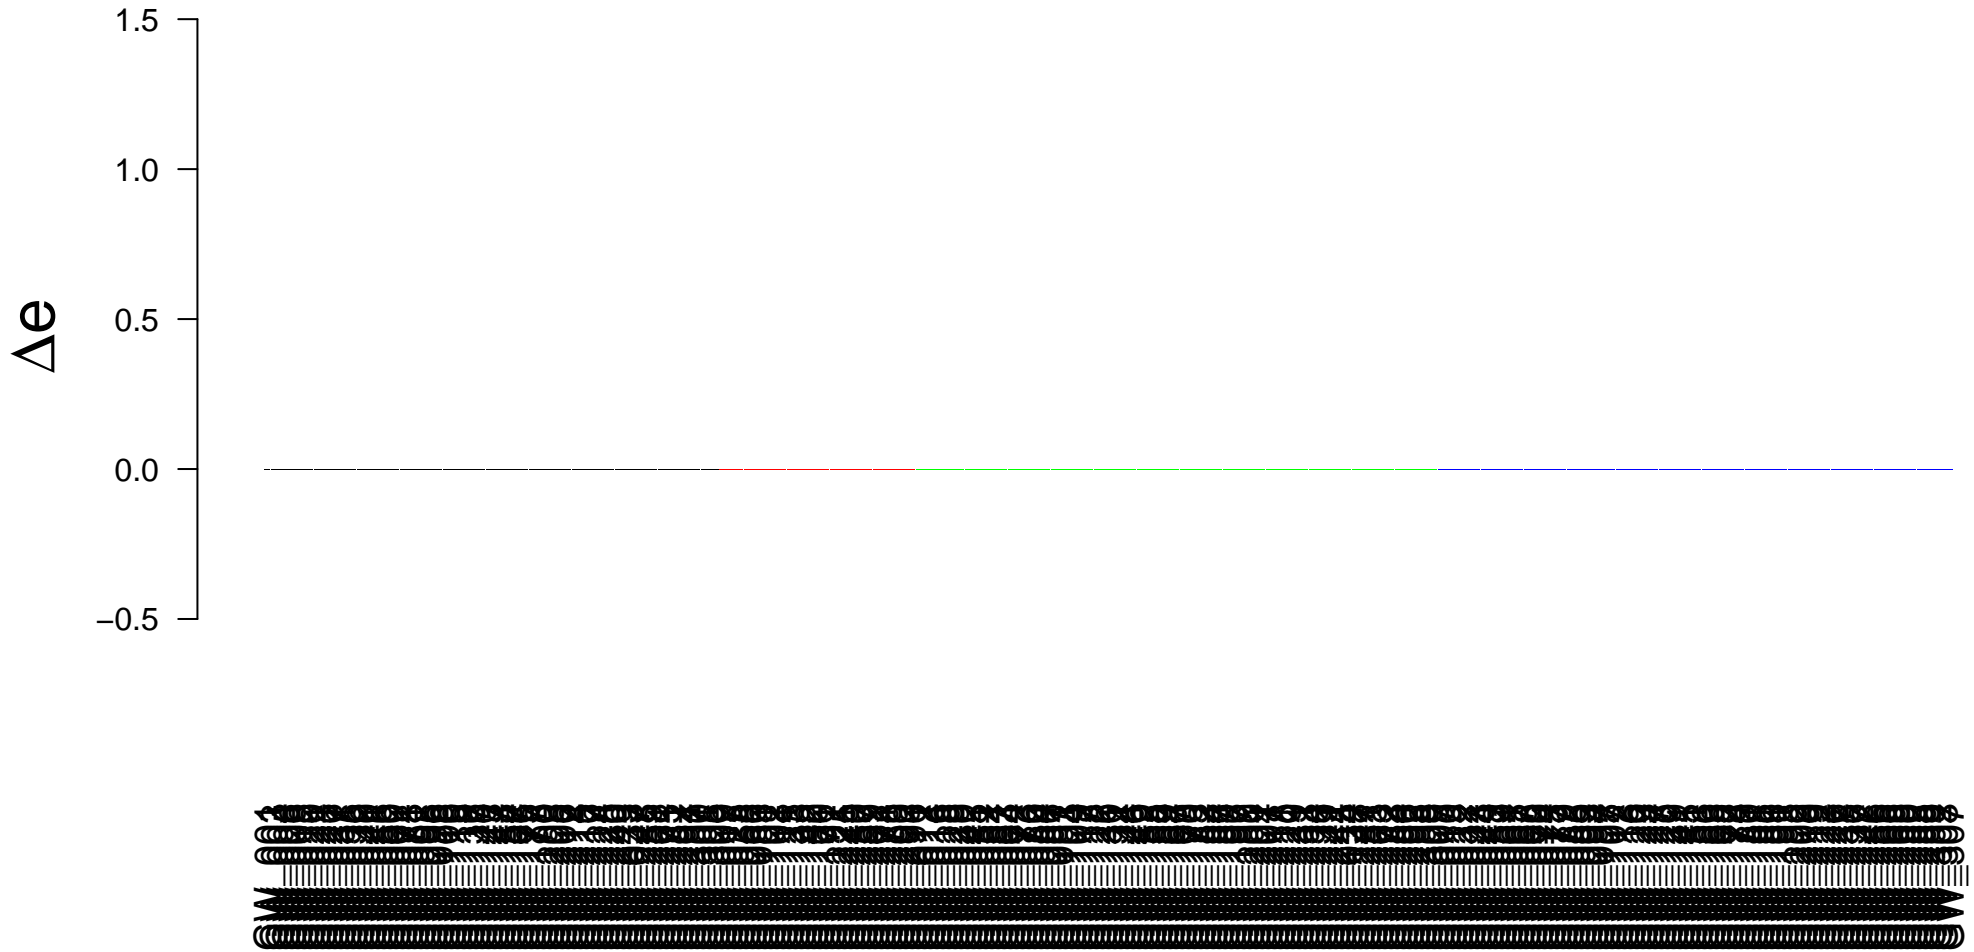

Expression of ligand-activated sequence-specific DNA binding RNA polymerase II transcription factor activity in Spot I

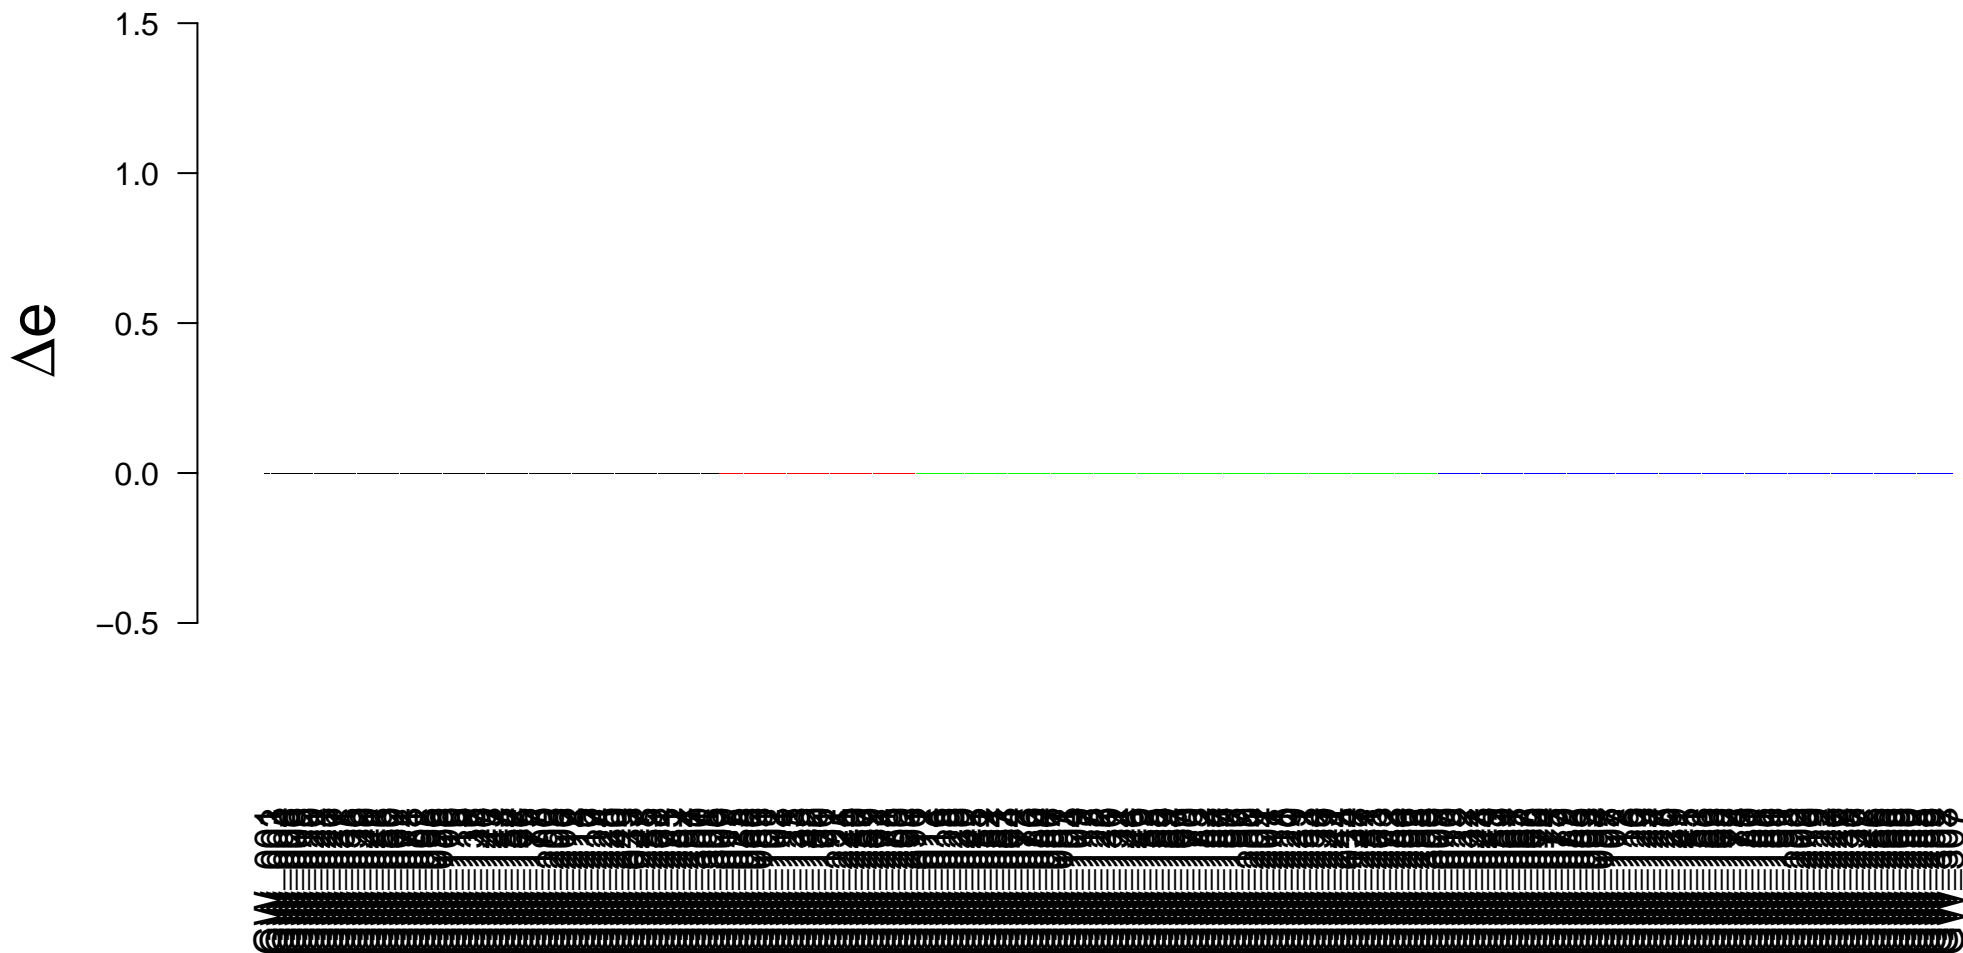

Expression of ligand-activated sequence-specific DNA binding RNA polymerase II transcription factor activity in Spot J

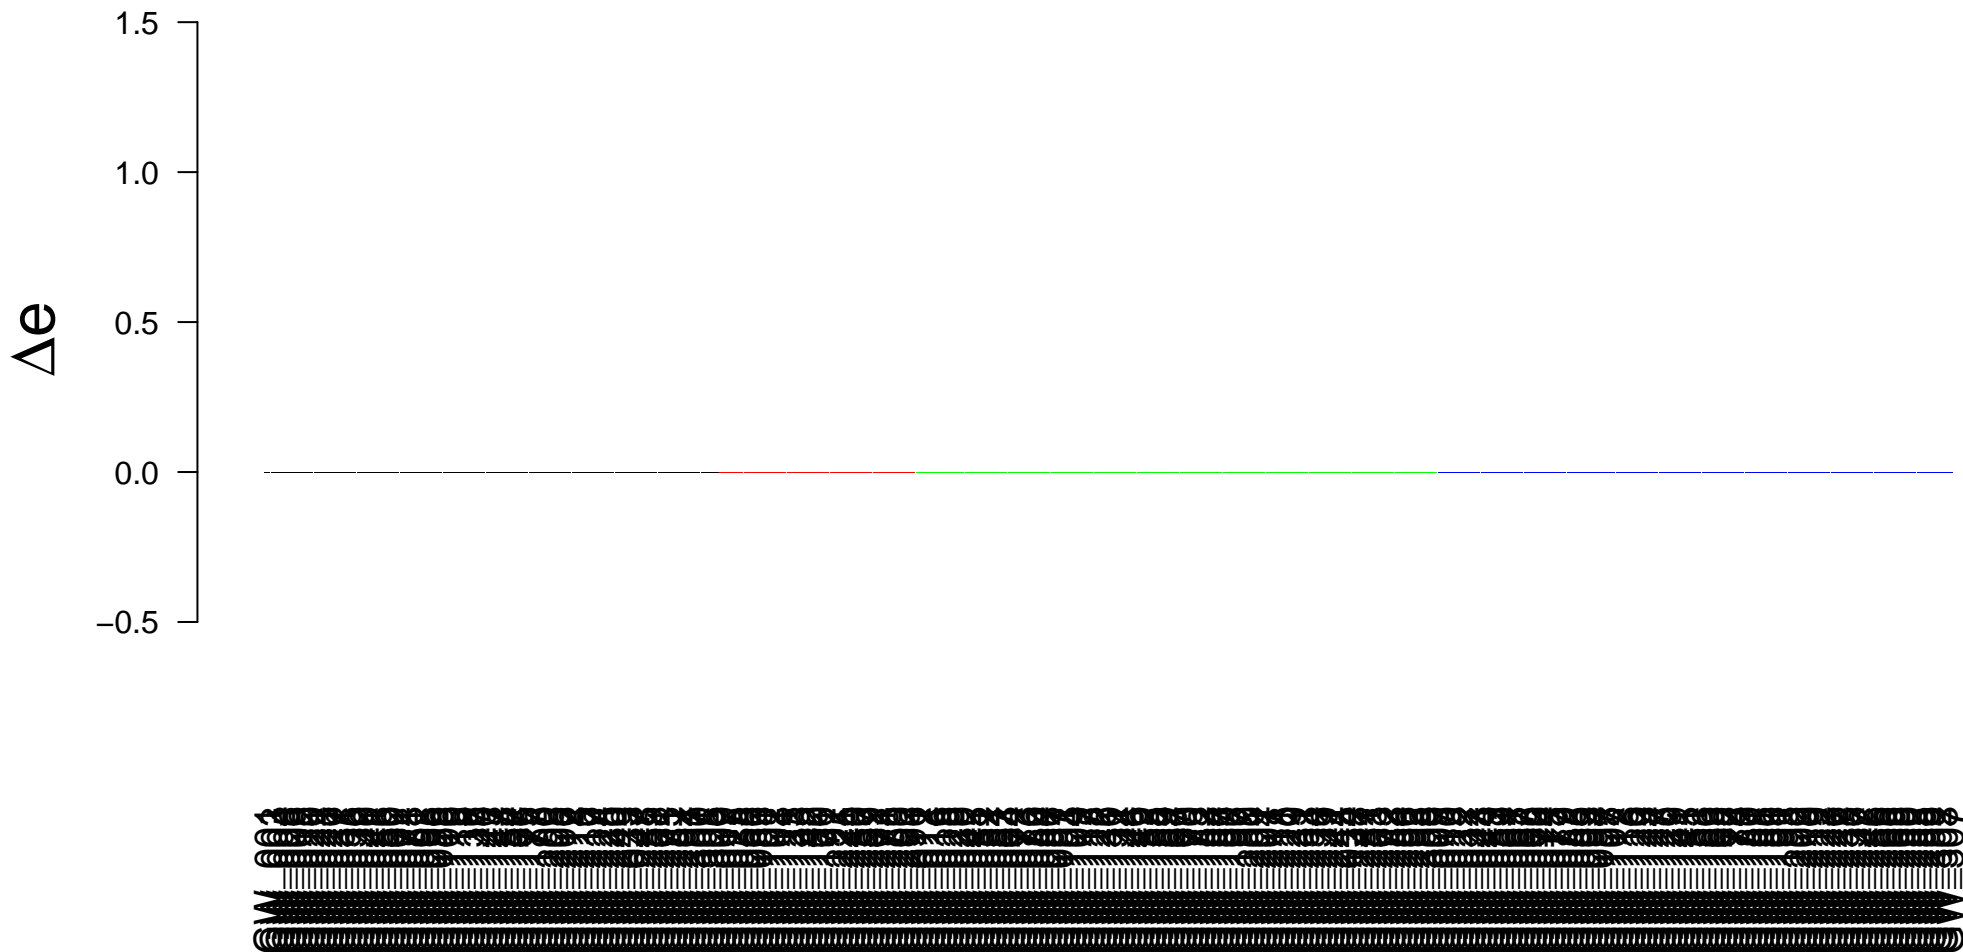

Expression of ligand-activated sequence-specific DNA binding RNA polymerase II transcription factor activity in Spot K

Expression of ligand-activated sequence-specific DNA binding RNA polymerase II transcription factor activity in Spot L

Expression of ligand-activated sequence-specific DNA binding RNA polymerase II transcription factor activity in Spot M

Expression of ligand-activated sequence-specific DNA binding RNA polymerase II transcription factor activity in Spot N
