

low-density lipoprotein particle receptor binding

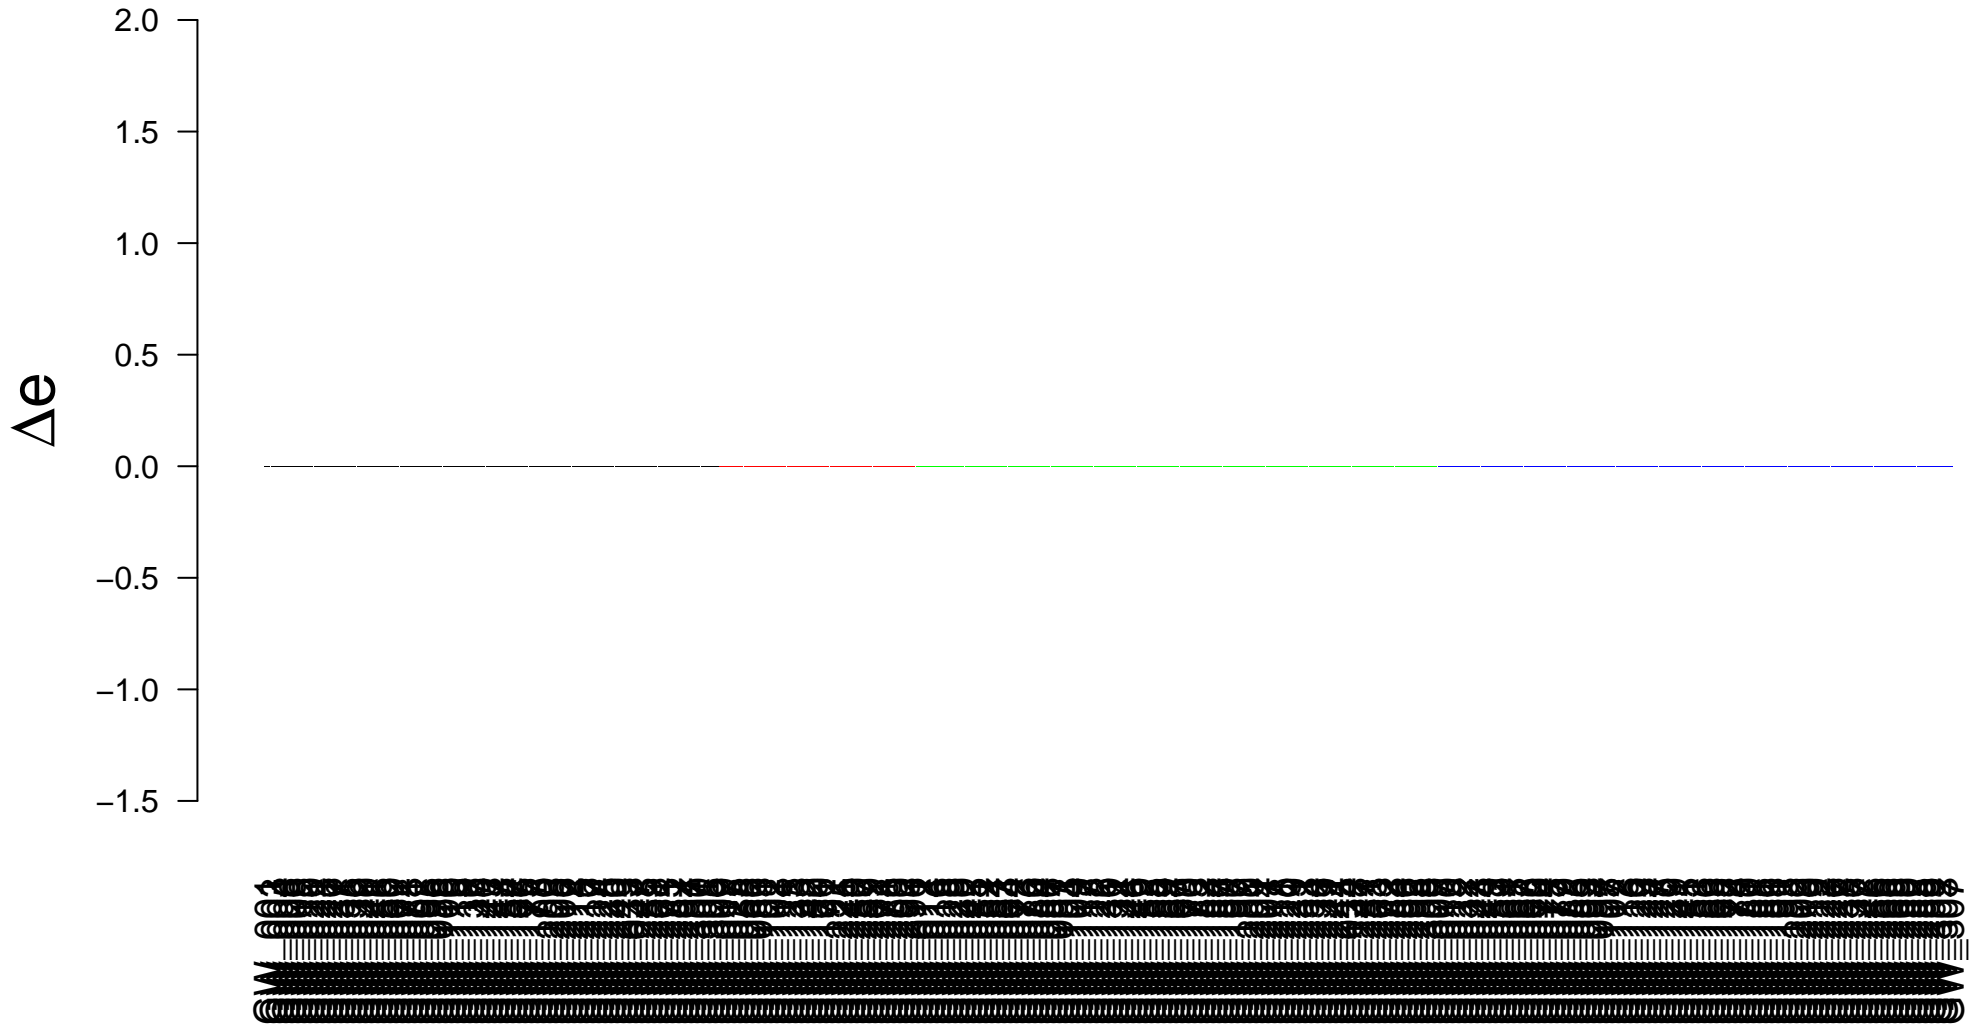

low-density lipoprotein particle receptor binding

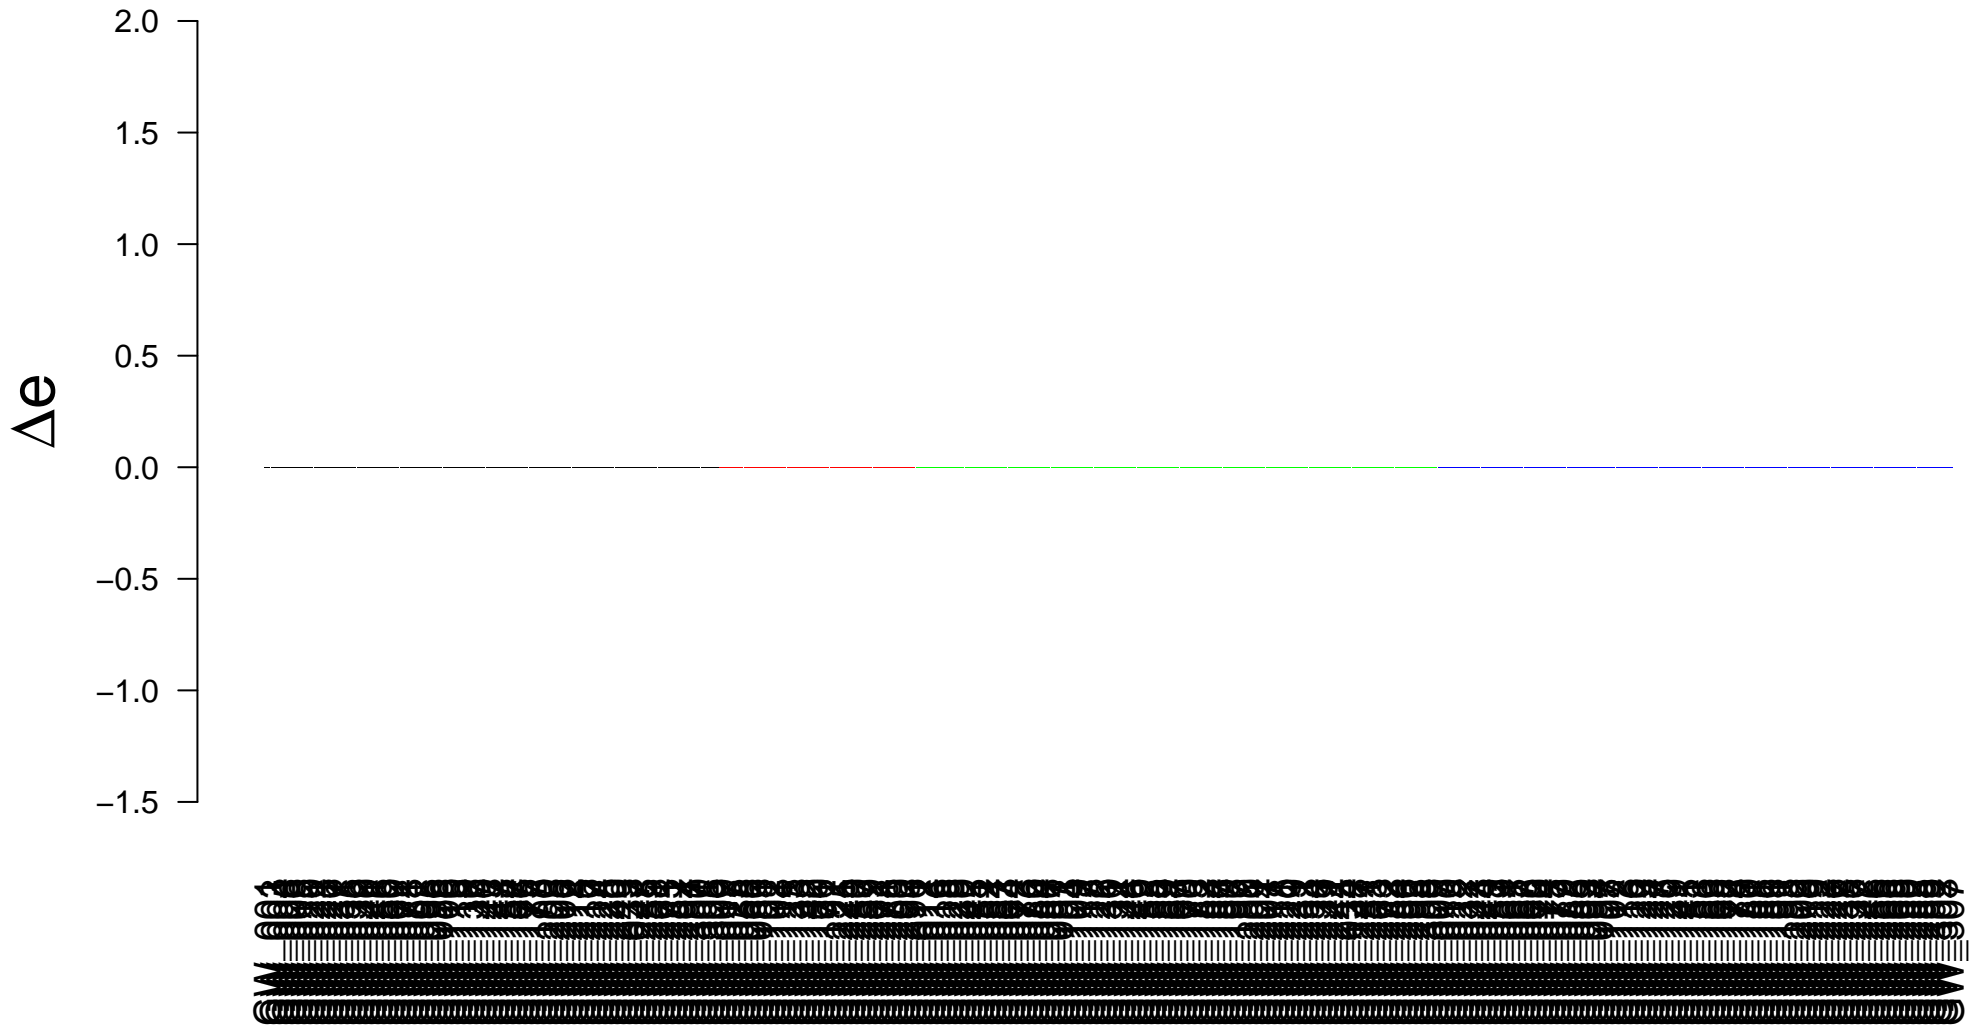

Enrichment in spots: low-density lipoprotein particle receptor binding

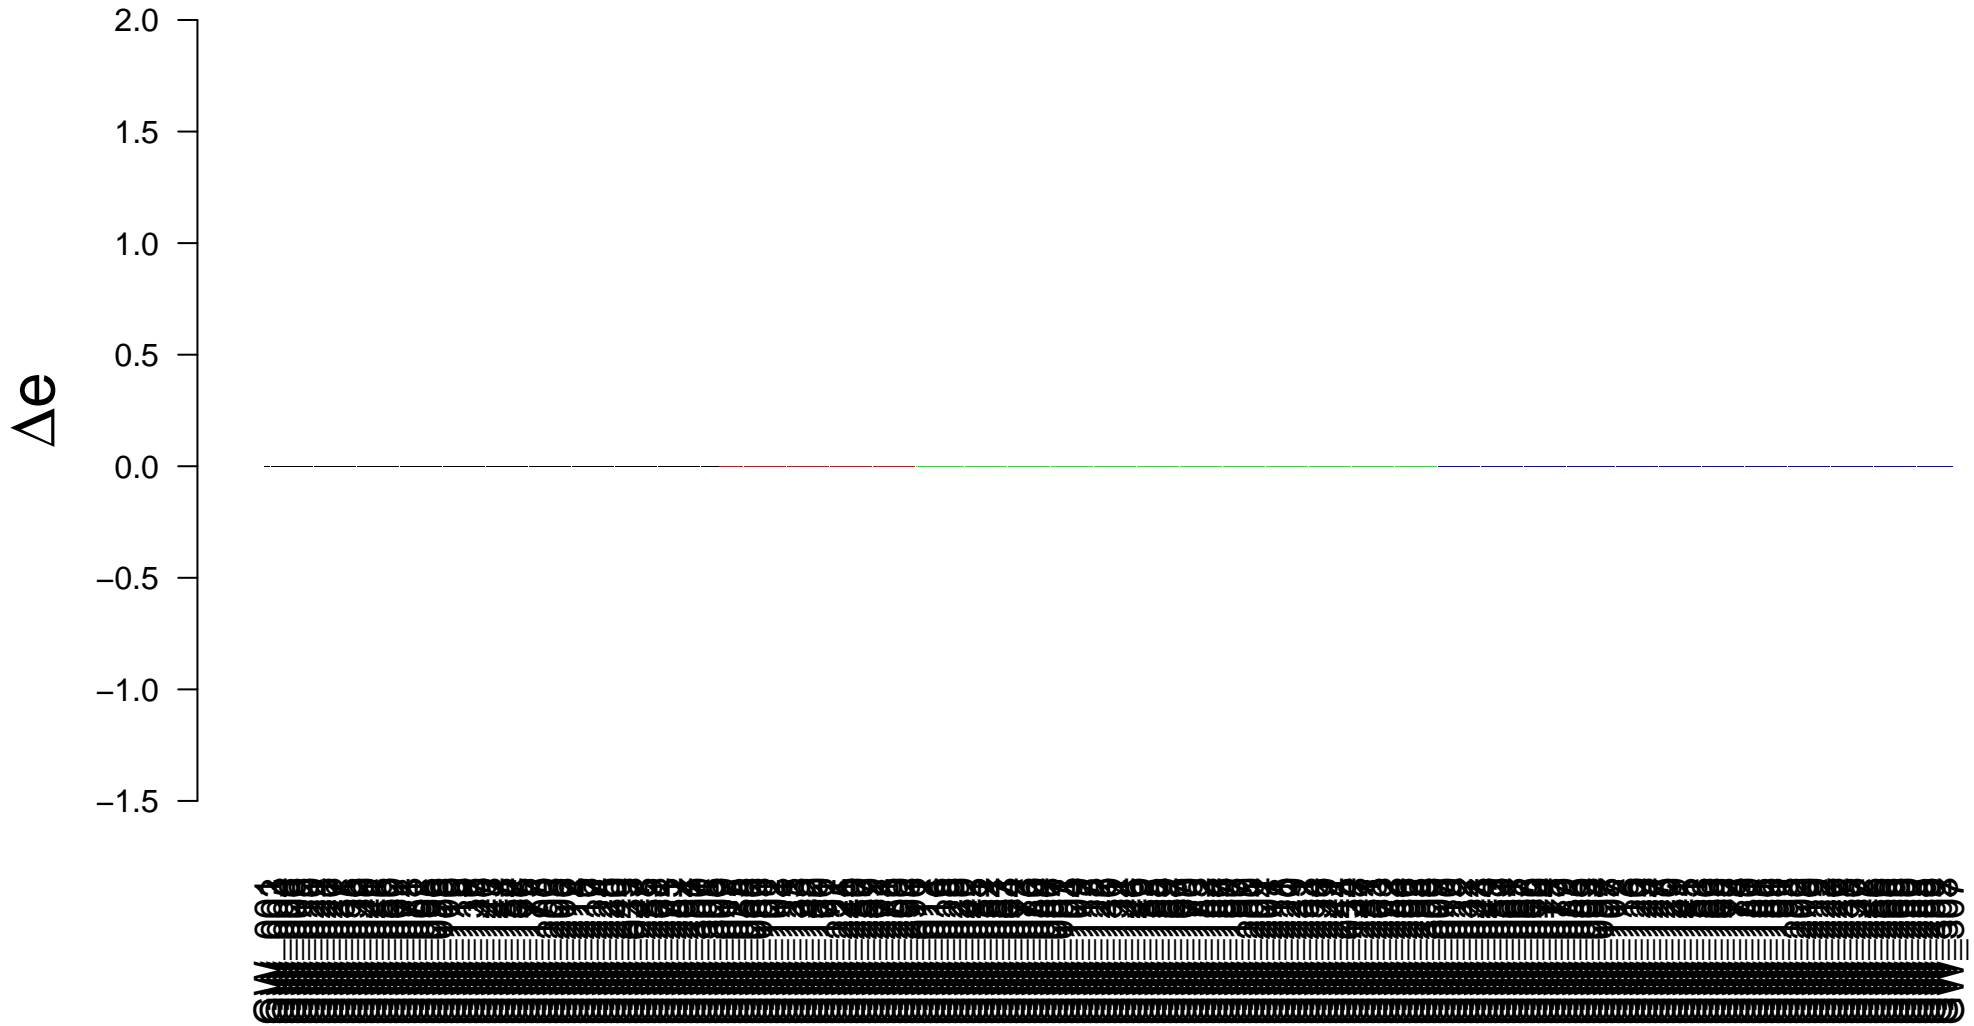

Expression of low-density lipoprotein particle receptor binding in Spot A

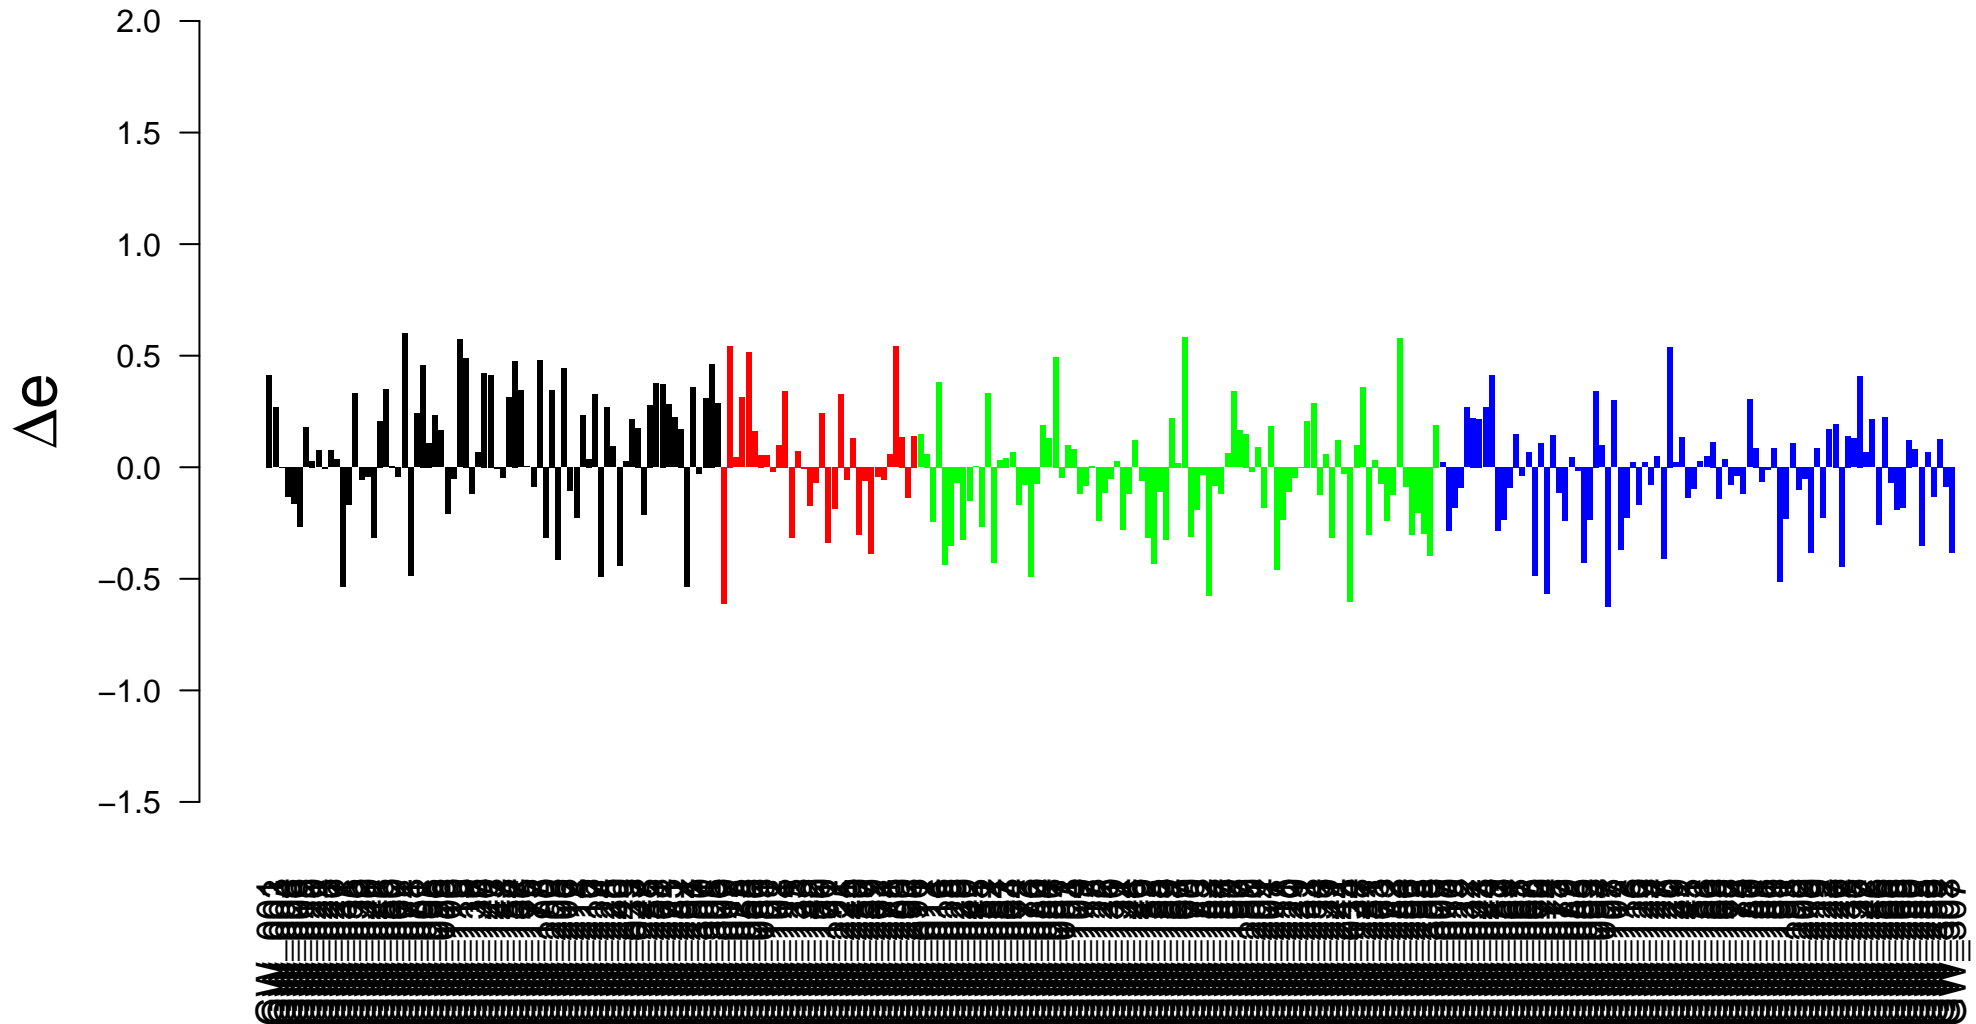

Expression of low-density lipoprotein particle receptor binding in Spot B

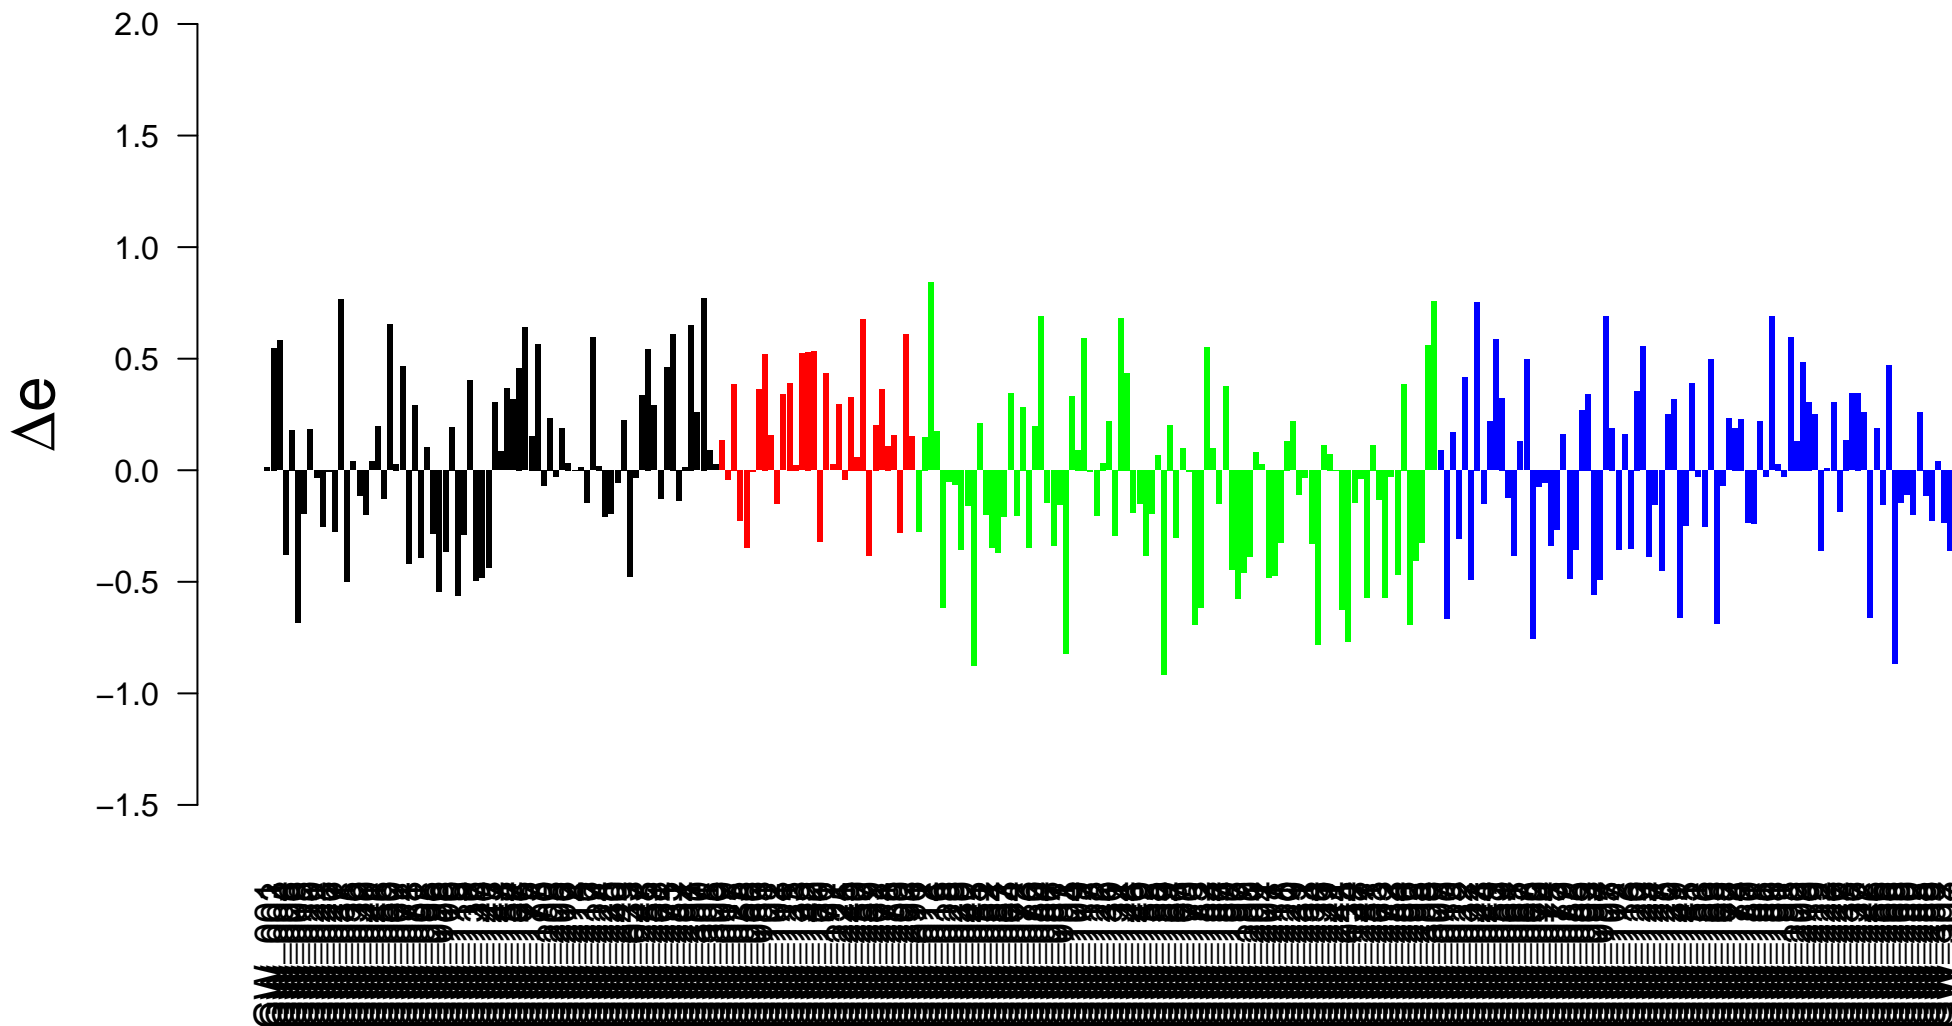

Expression of low-density lipoprotein particle receptor binding in Spot C

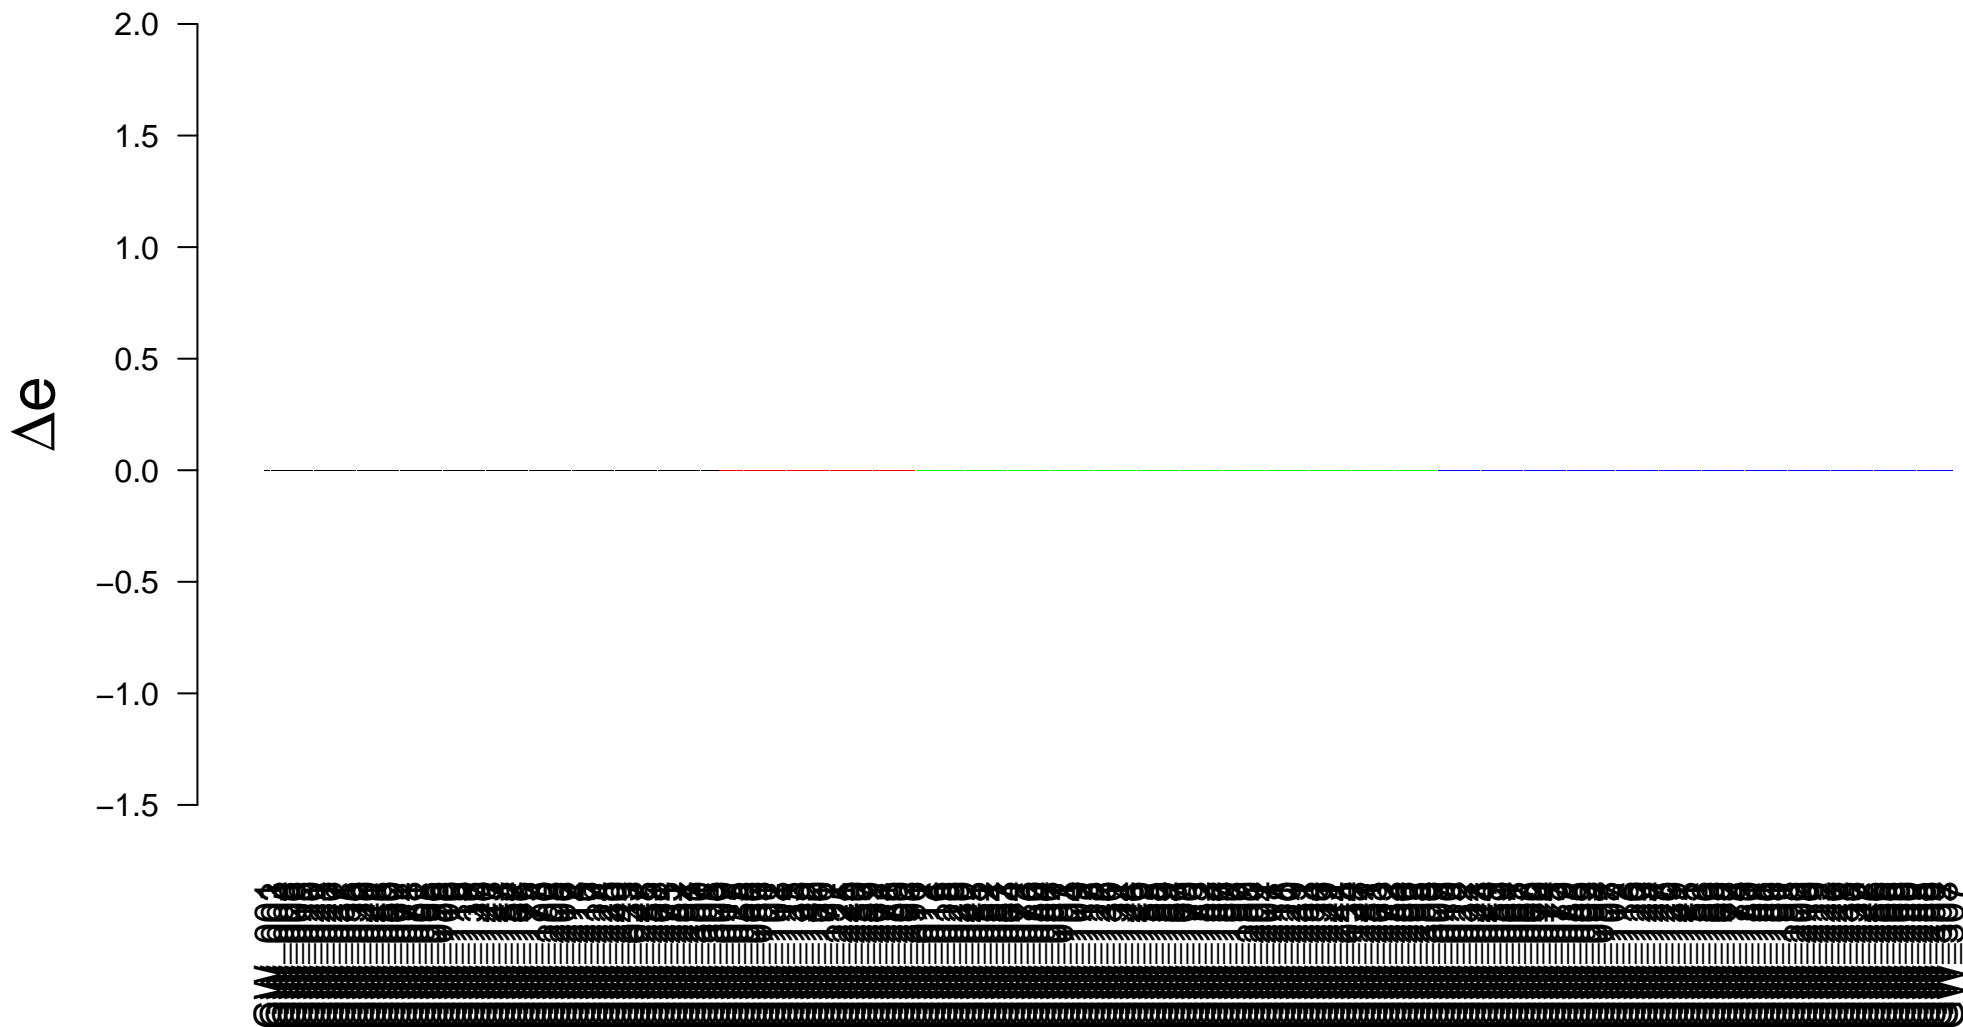

Expression of low-density lipoprotein particle receptor binding in Spot D

Expression of low-density lipoprotein particle receptor binding in Spot E

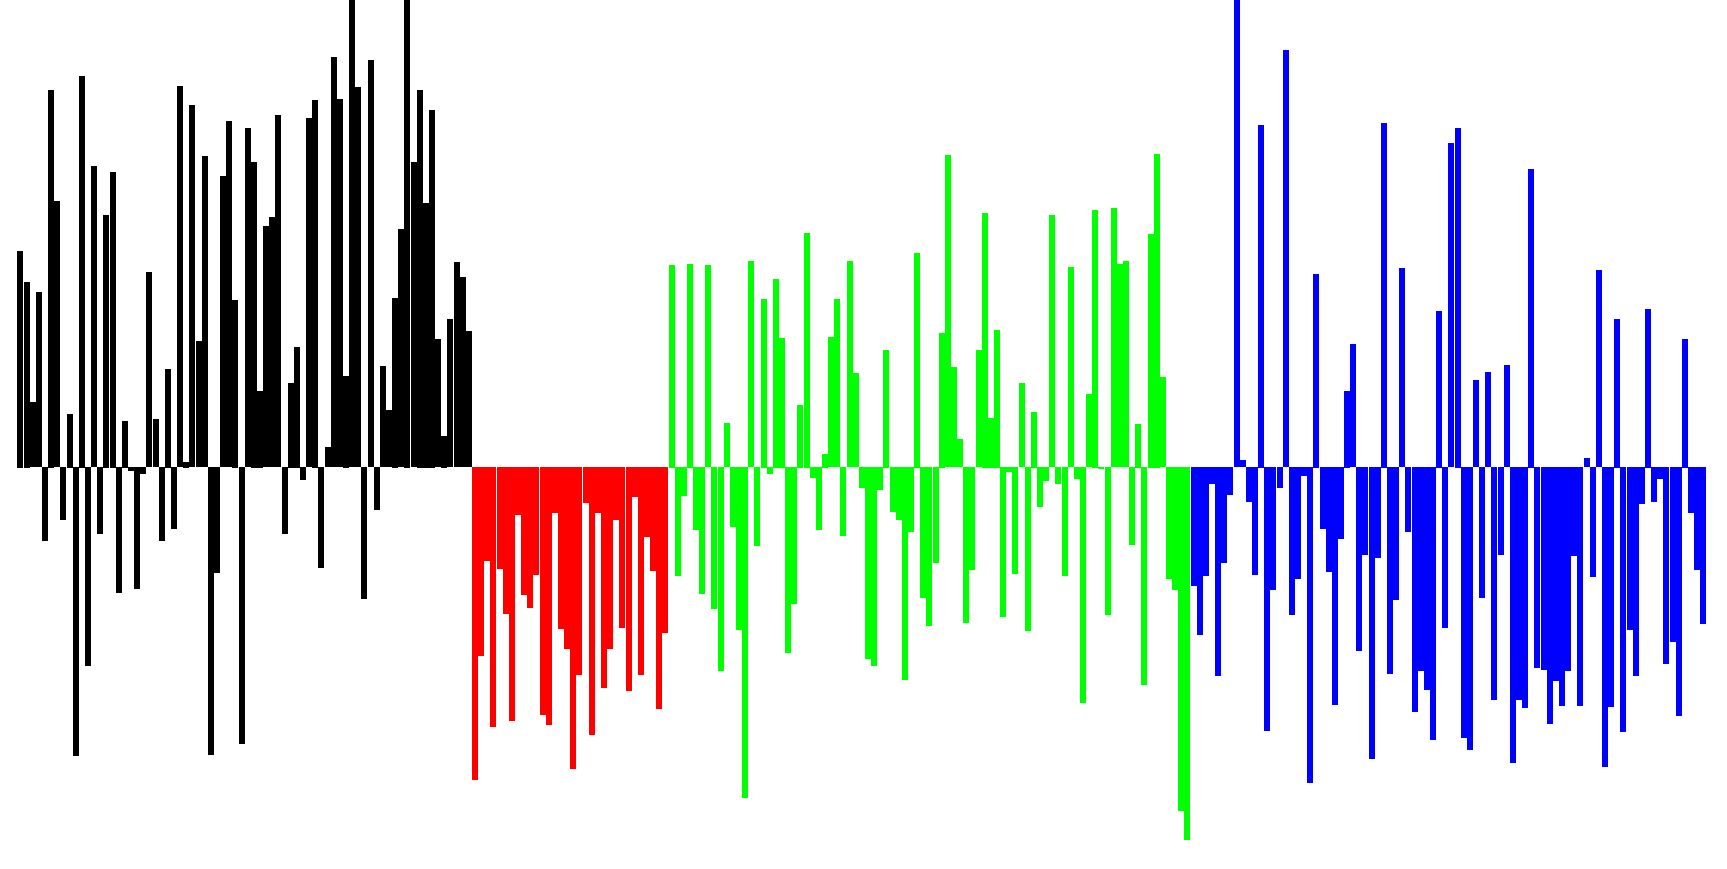

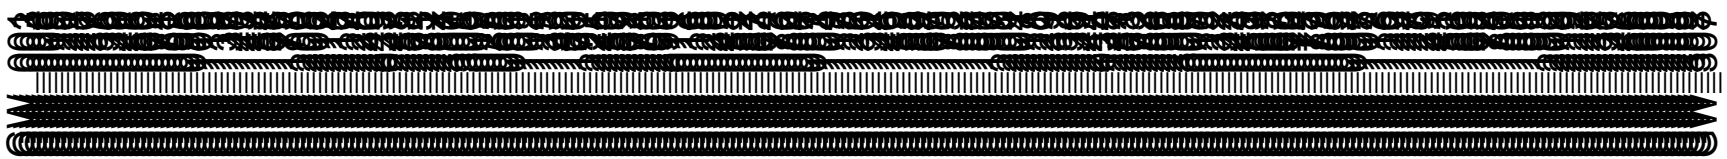

Expression of low-density lipoprotein particle receptor binding in Spot F

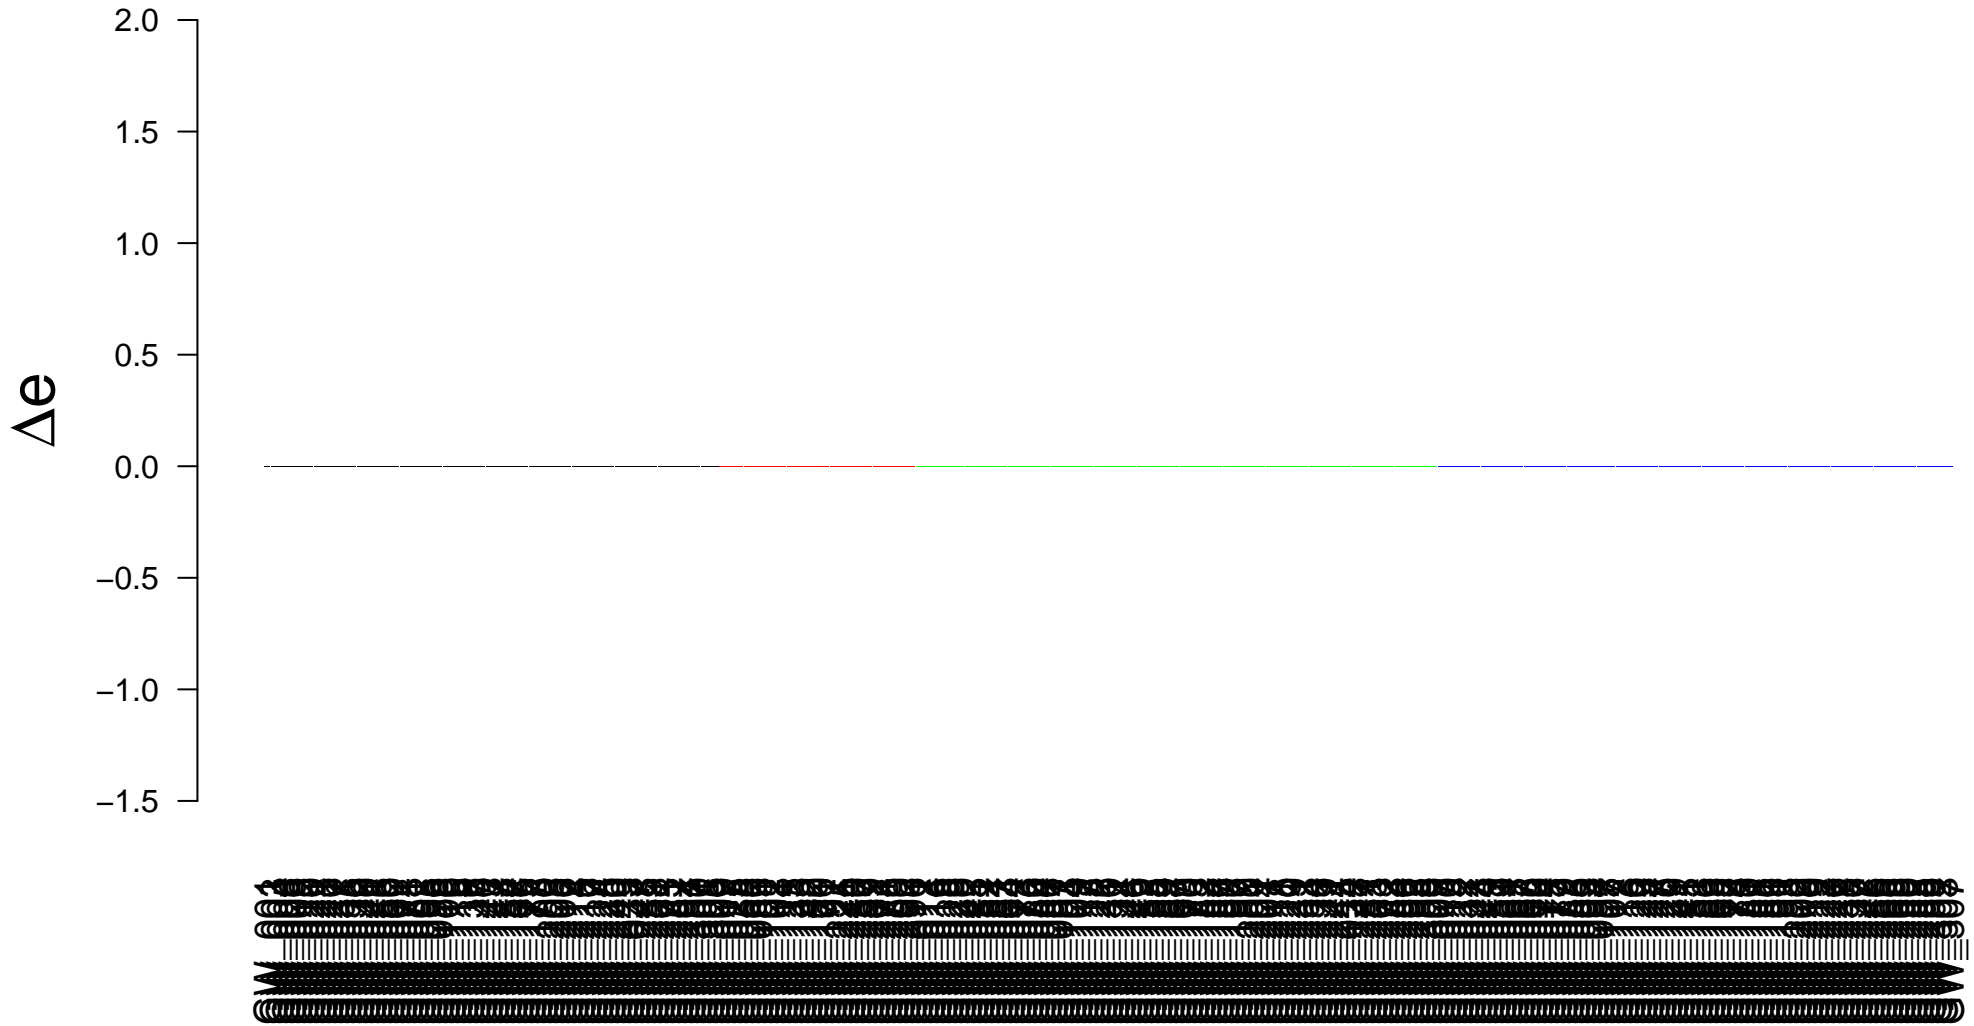

Expression of low-density lipoprotein particle receptor binding in Spot G

Expression of low-density lipoprotein particle receptor binding in Spot L

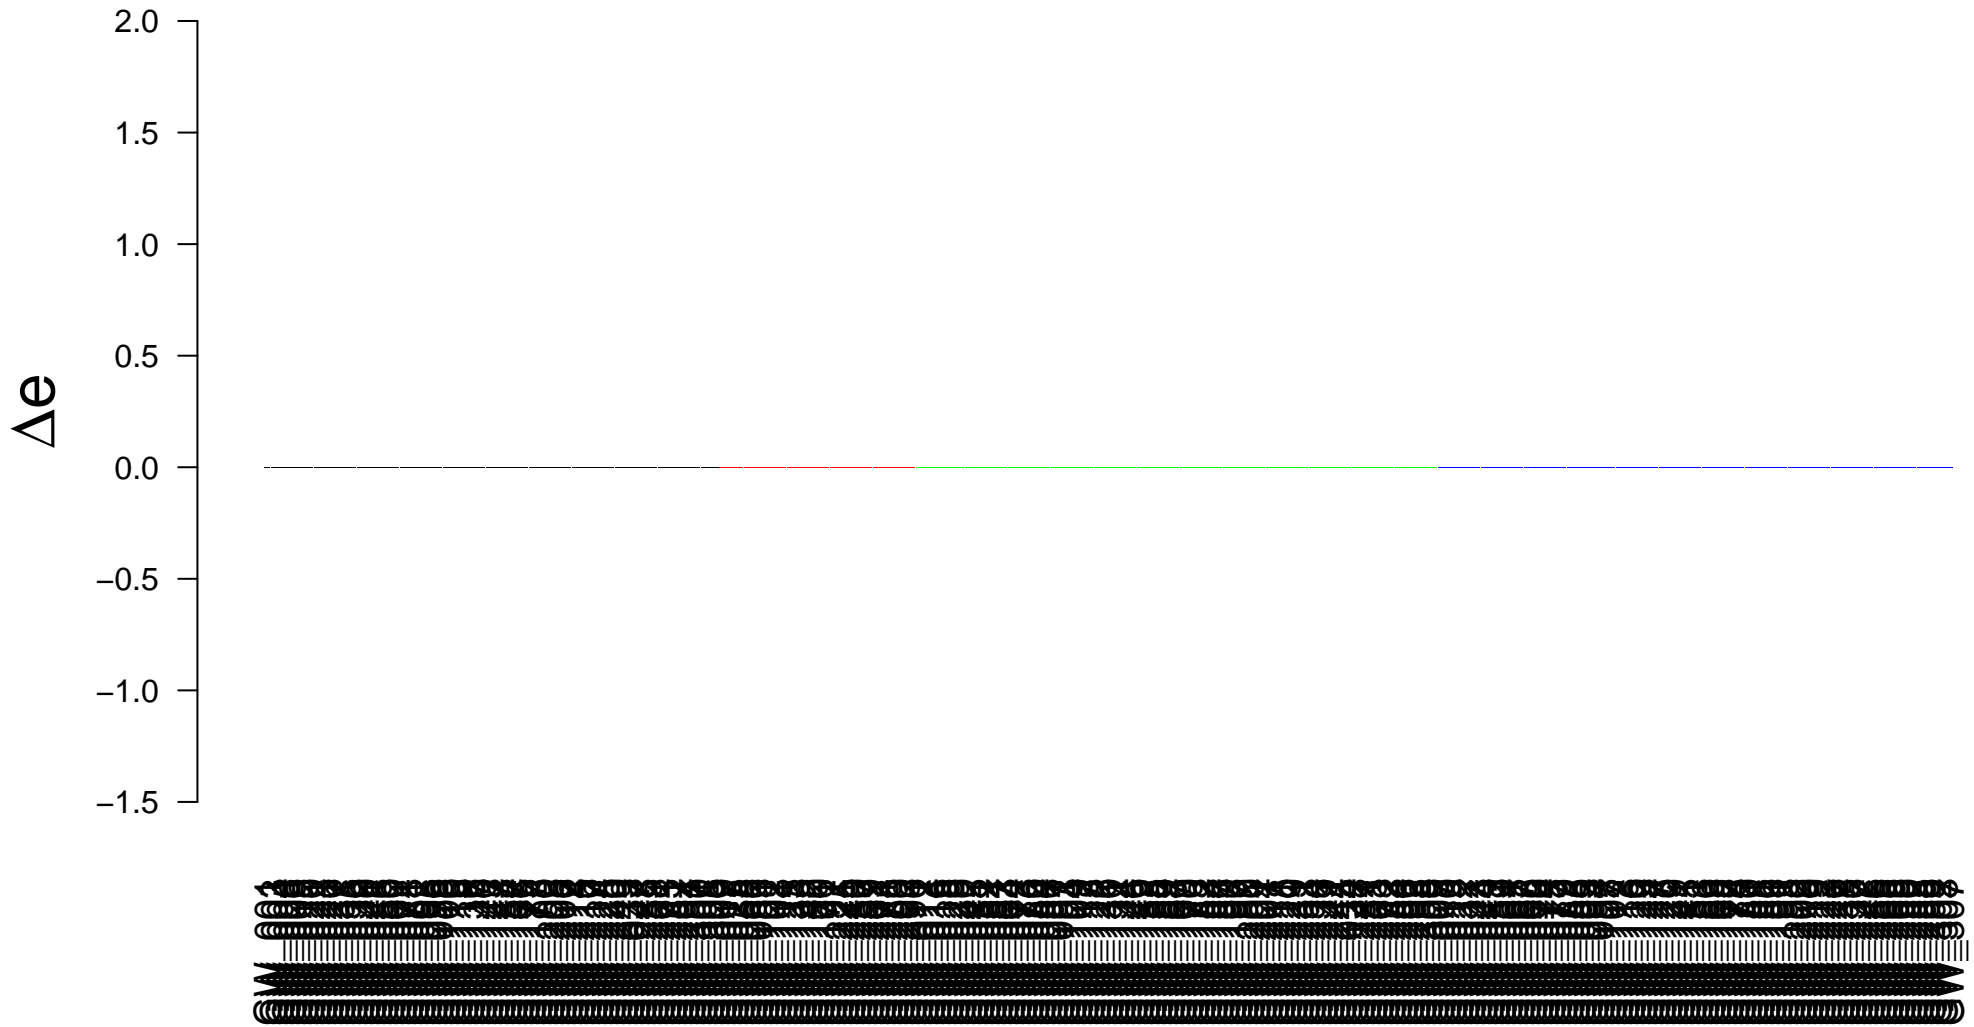

Expression of low-density lipoprotein particle receptor binding in Spot M

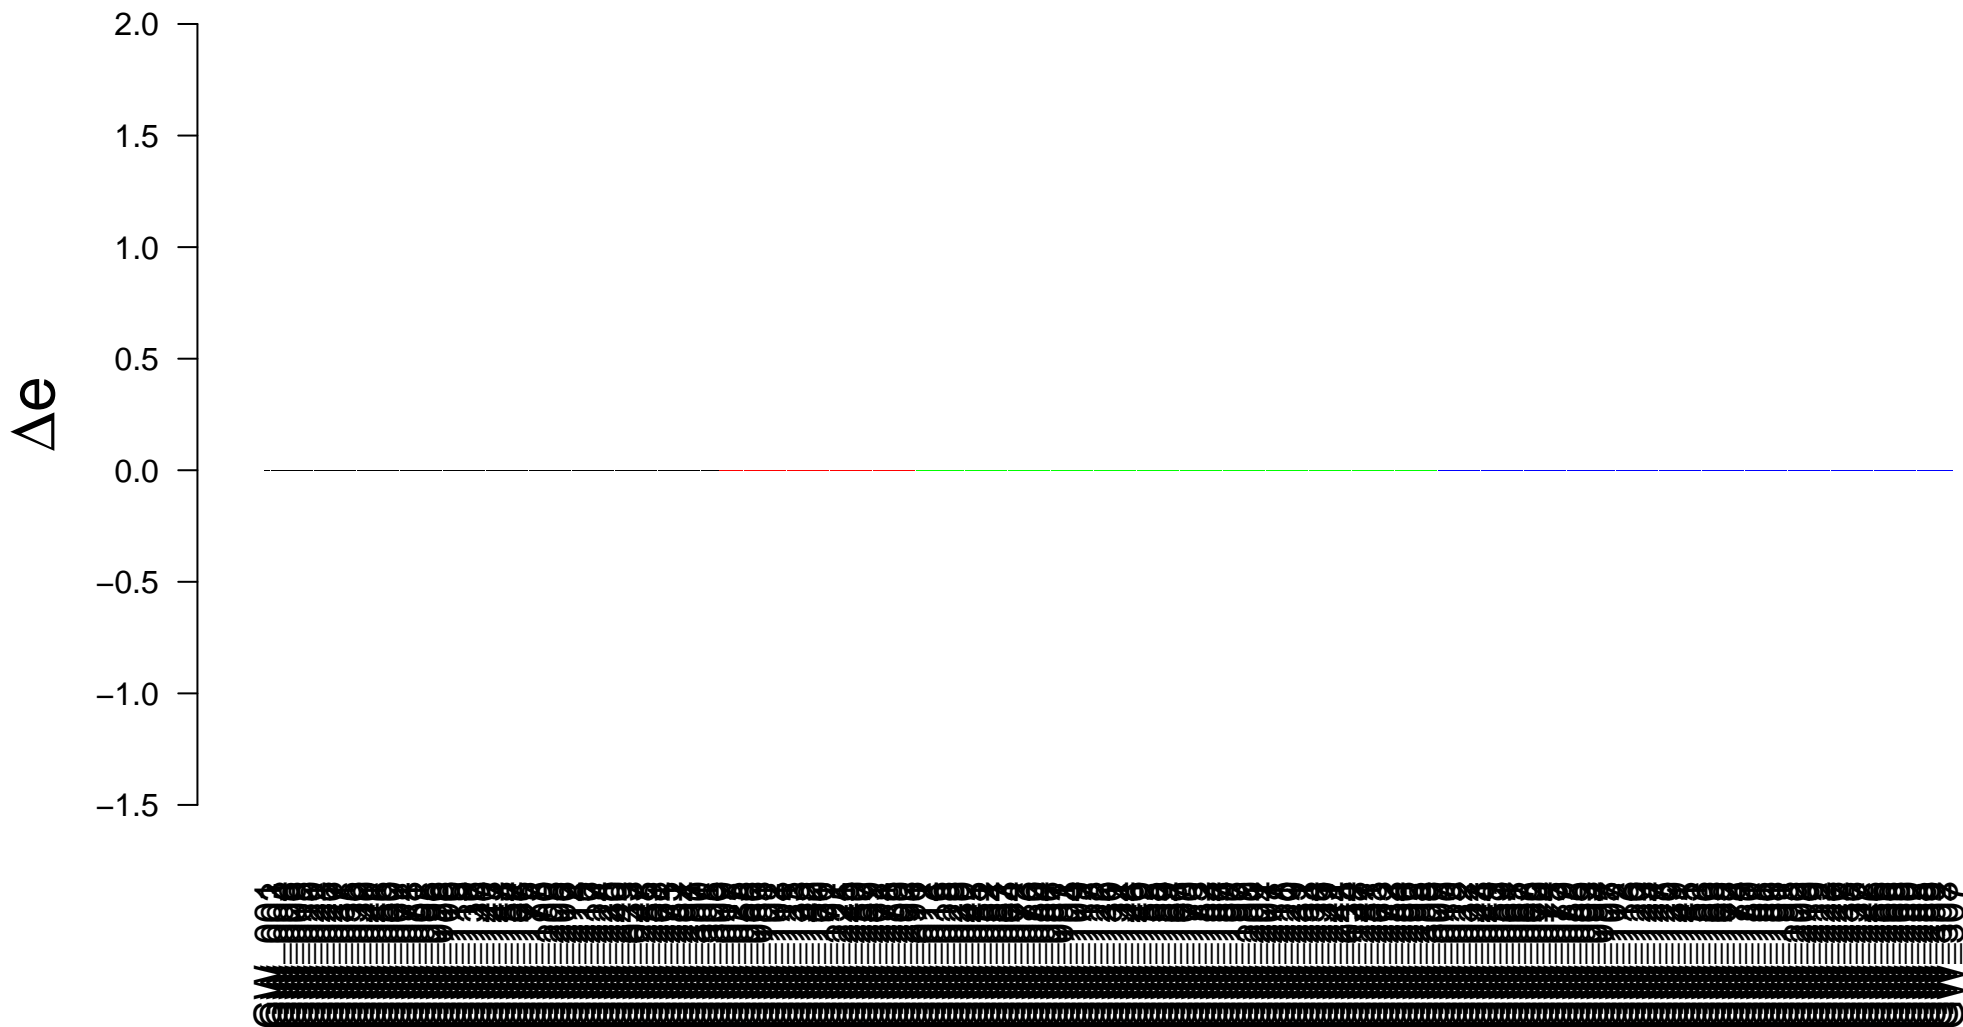

Expression of low-density lipoprotein particle receptor binding in Spot N

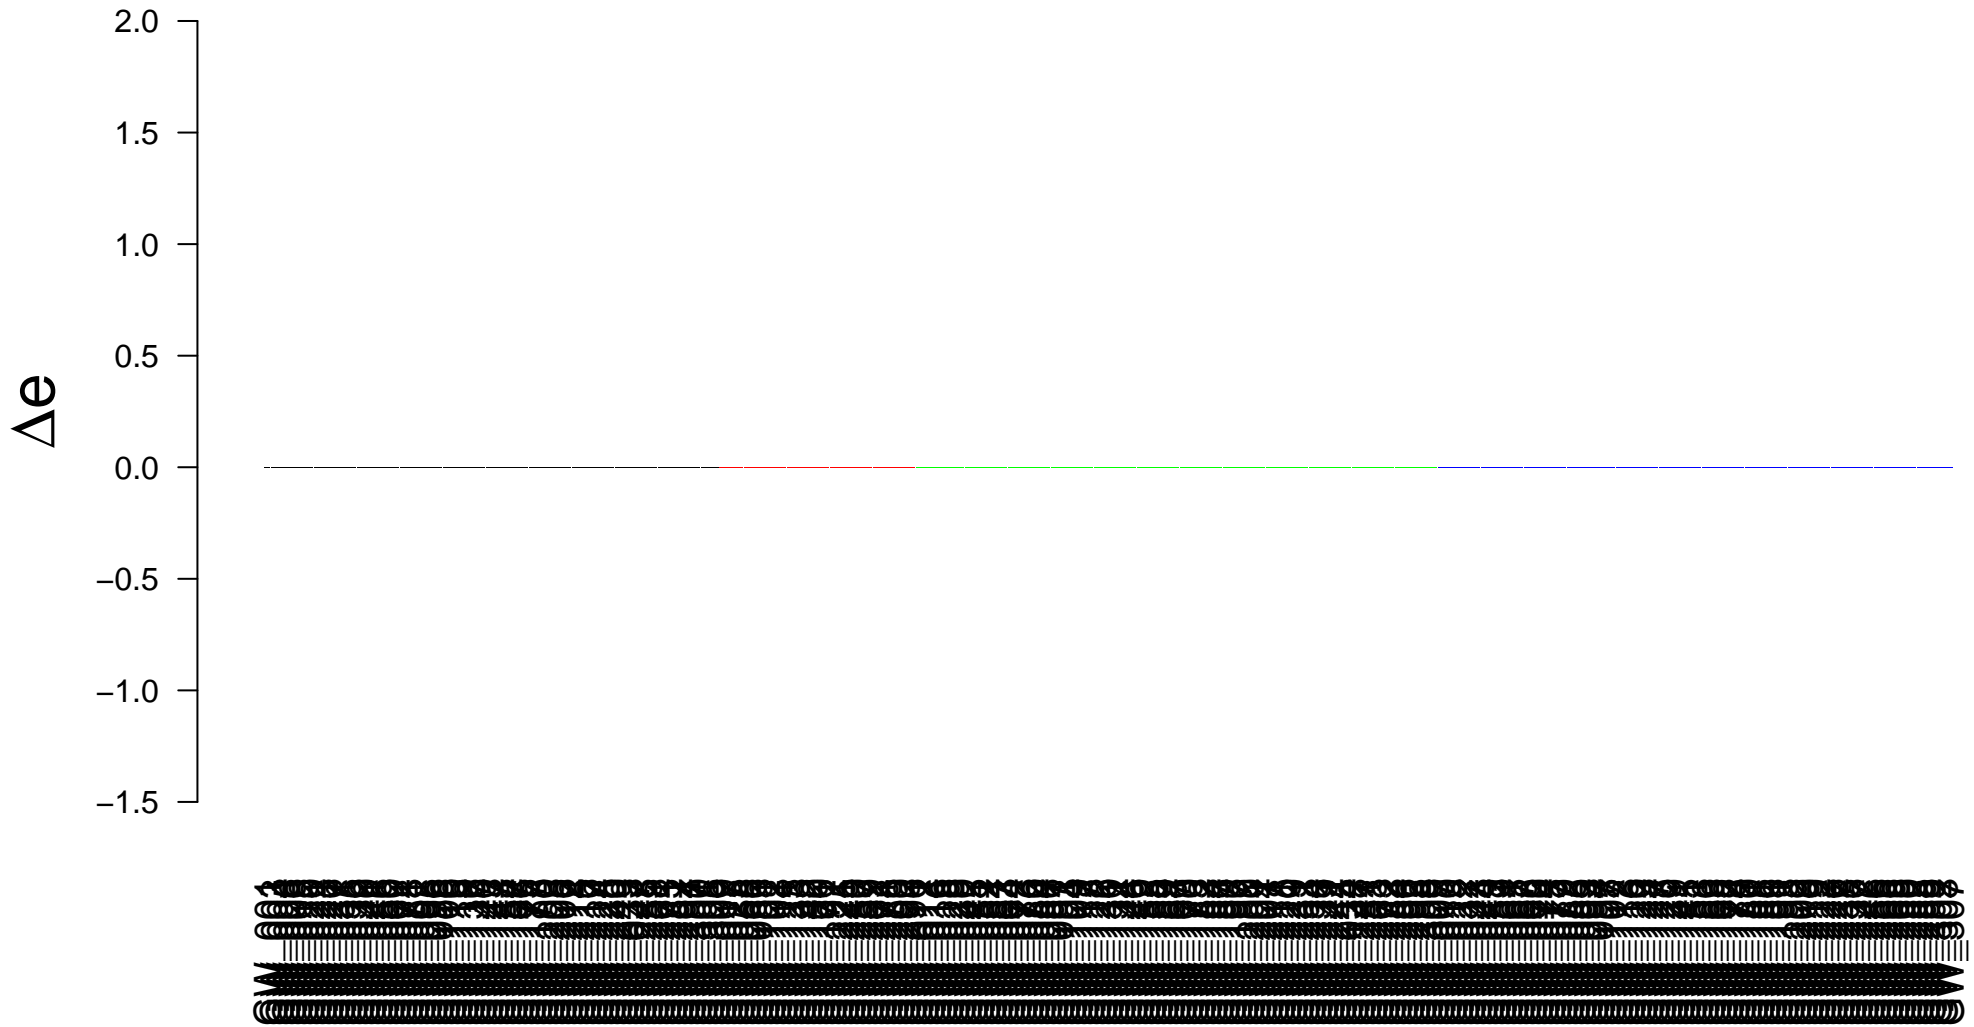

Expression of low-density lipoprotein particle receptor binding in Spot O

Expression of low-density lipoprotein particle receptor binding in Spot P

Expression of low-density lipoprotein particle receptor binding in Spot Q

Expression of low-density lipoprotein particle receptor binding in Spot R
