

low-density lipoprotein receptor activity

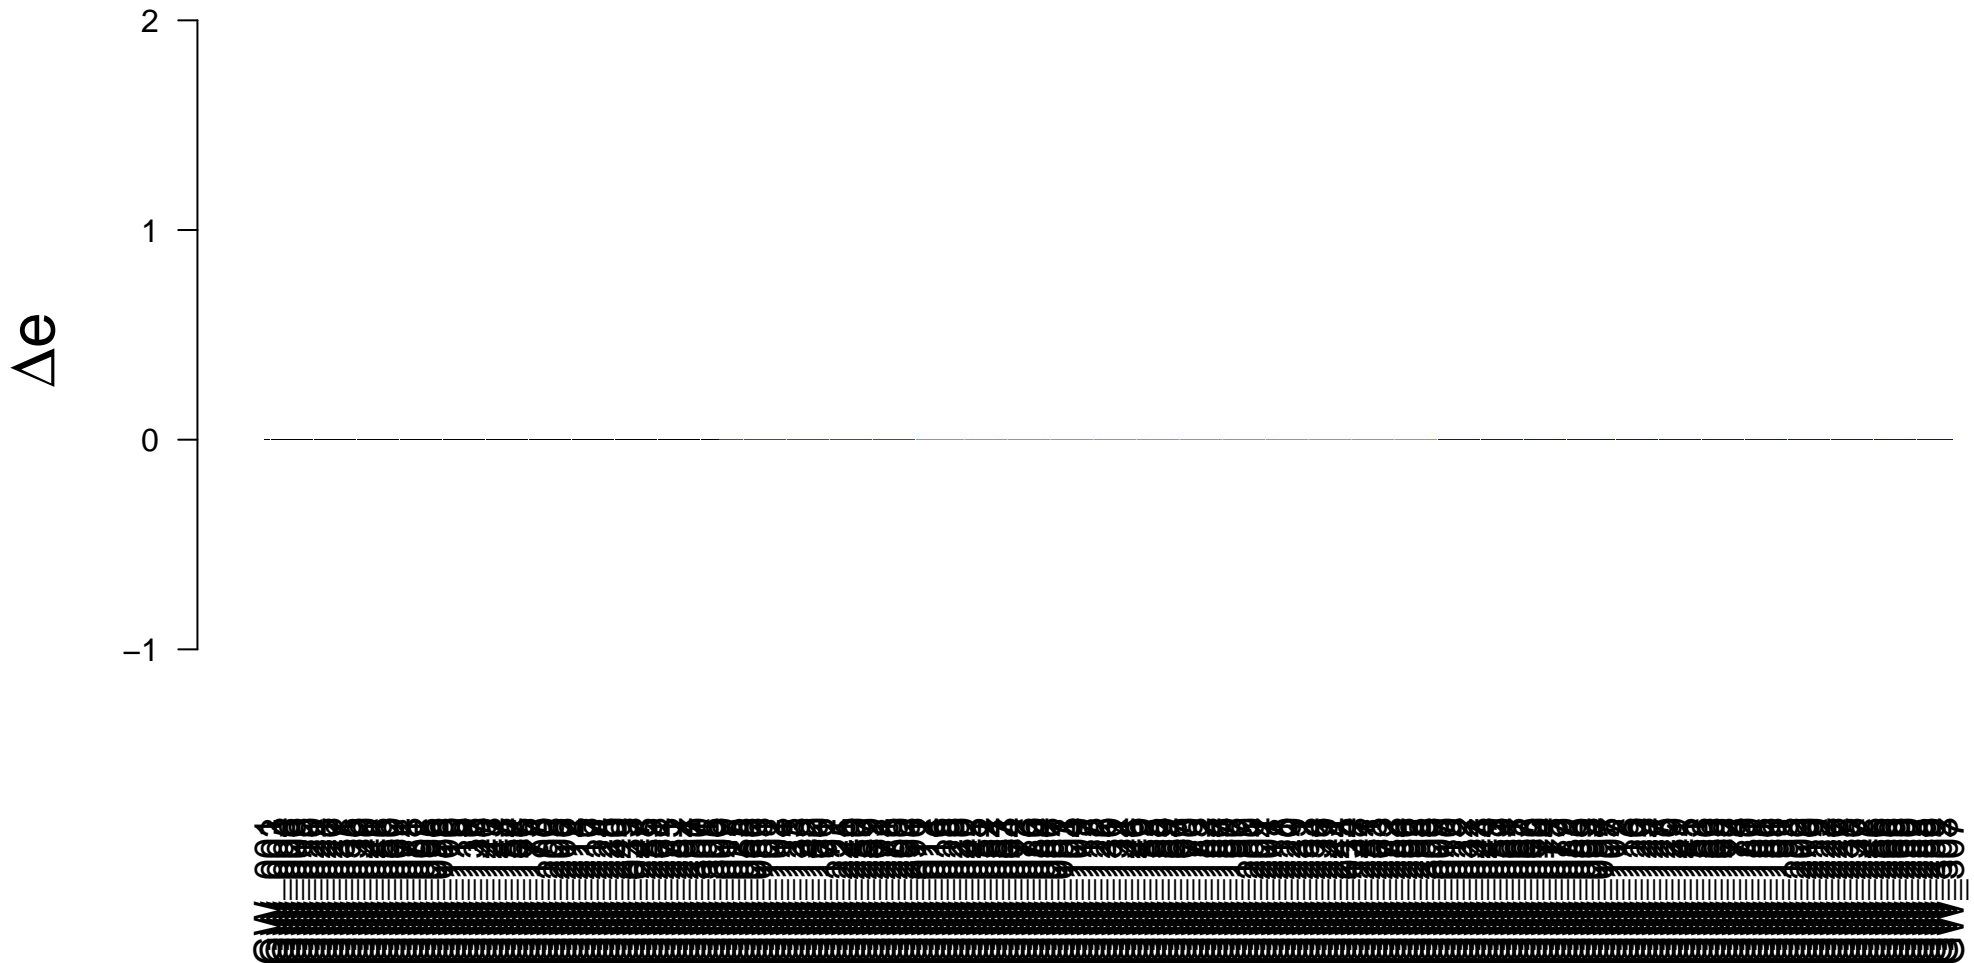

low-density lipoprotein receptor activity

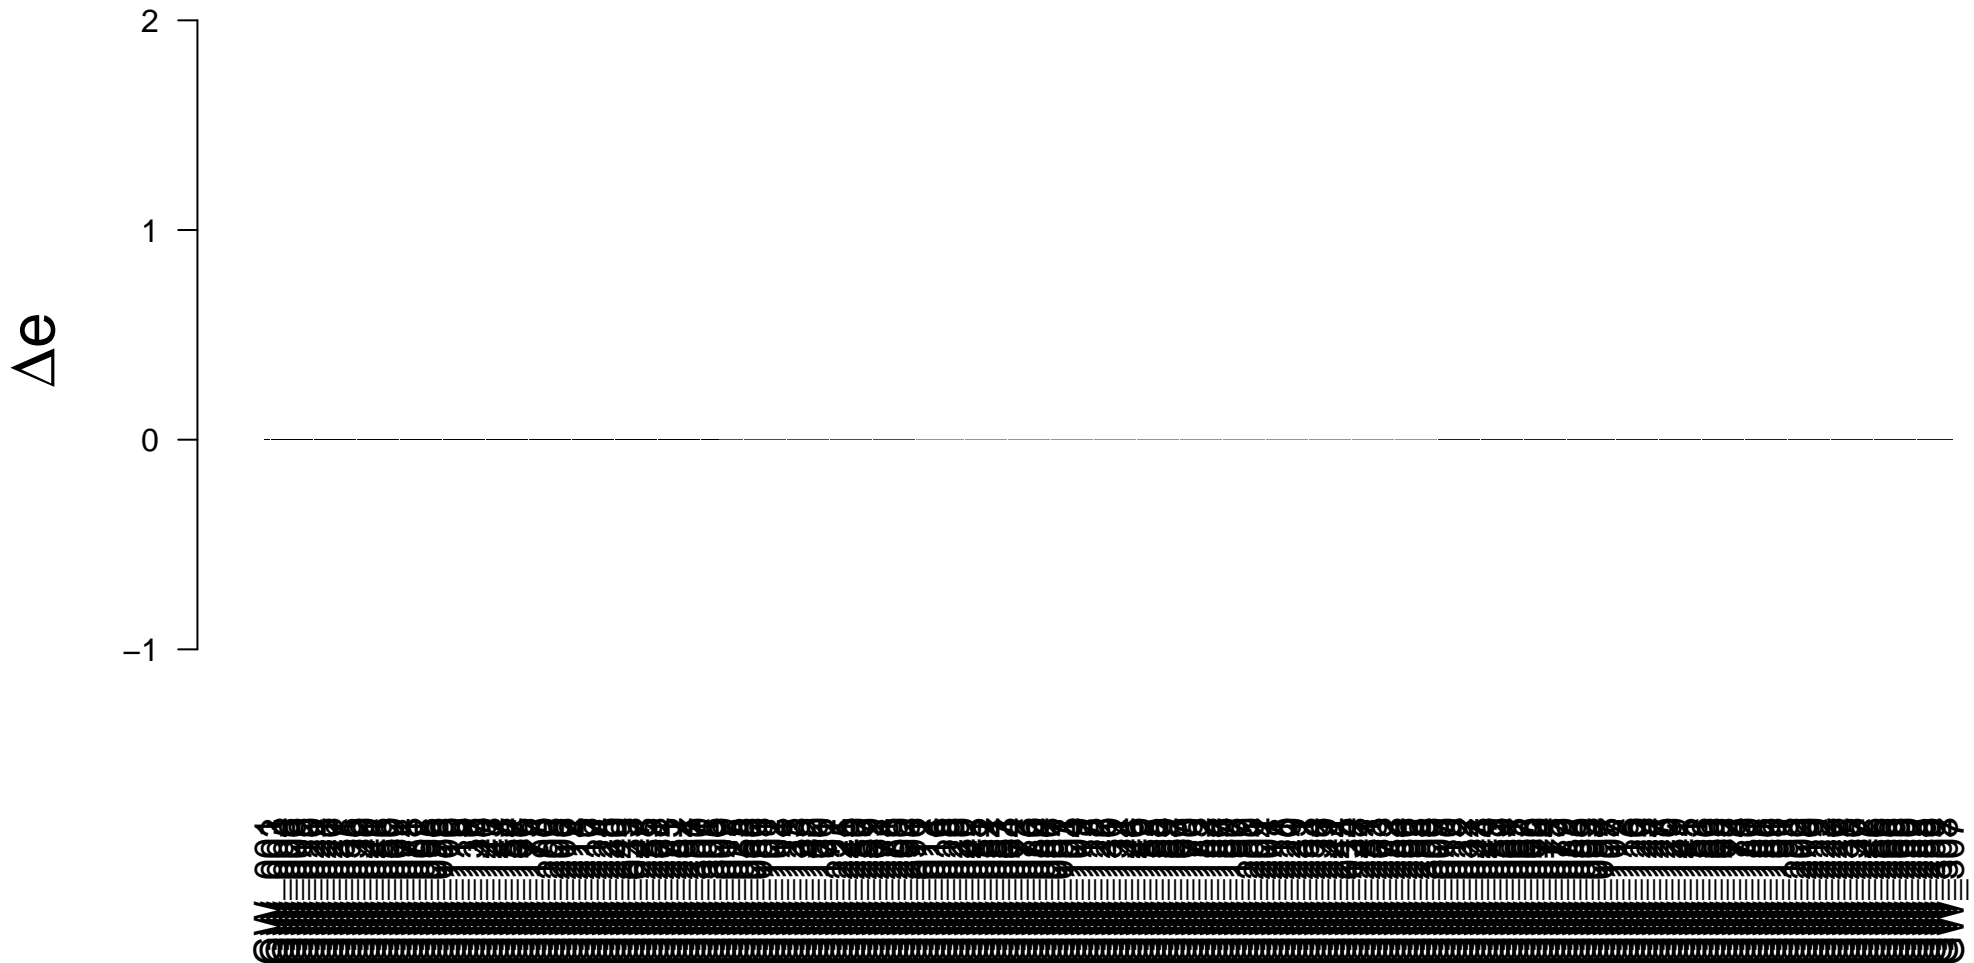

Enrichment in spots: low-density lipoprotein receptor activity

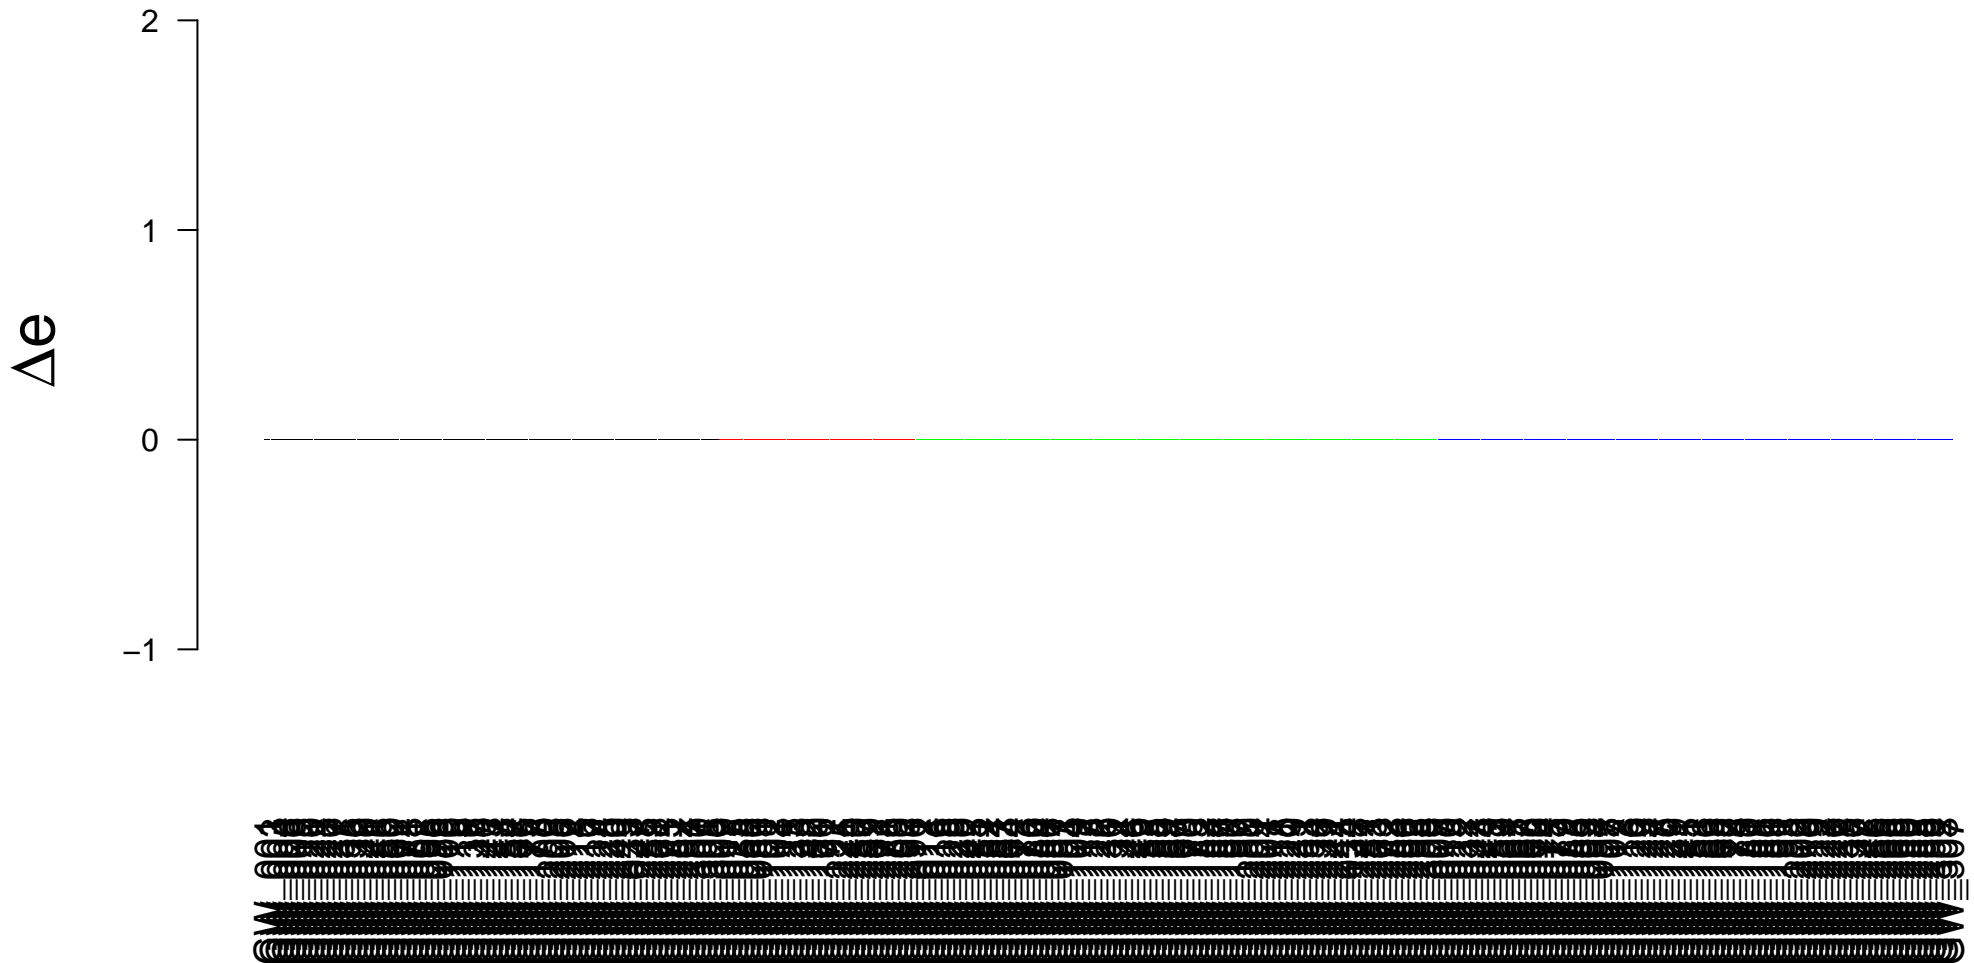

Expression of low-density lipoprotein receptor activity in Spot A

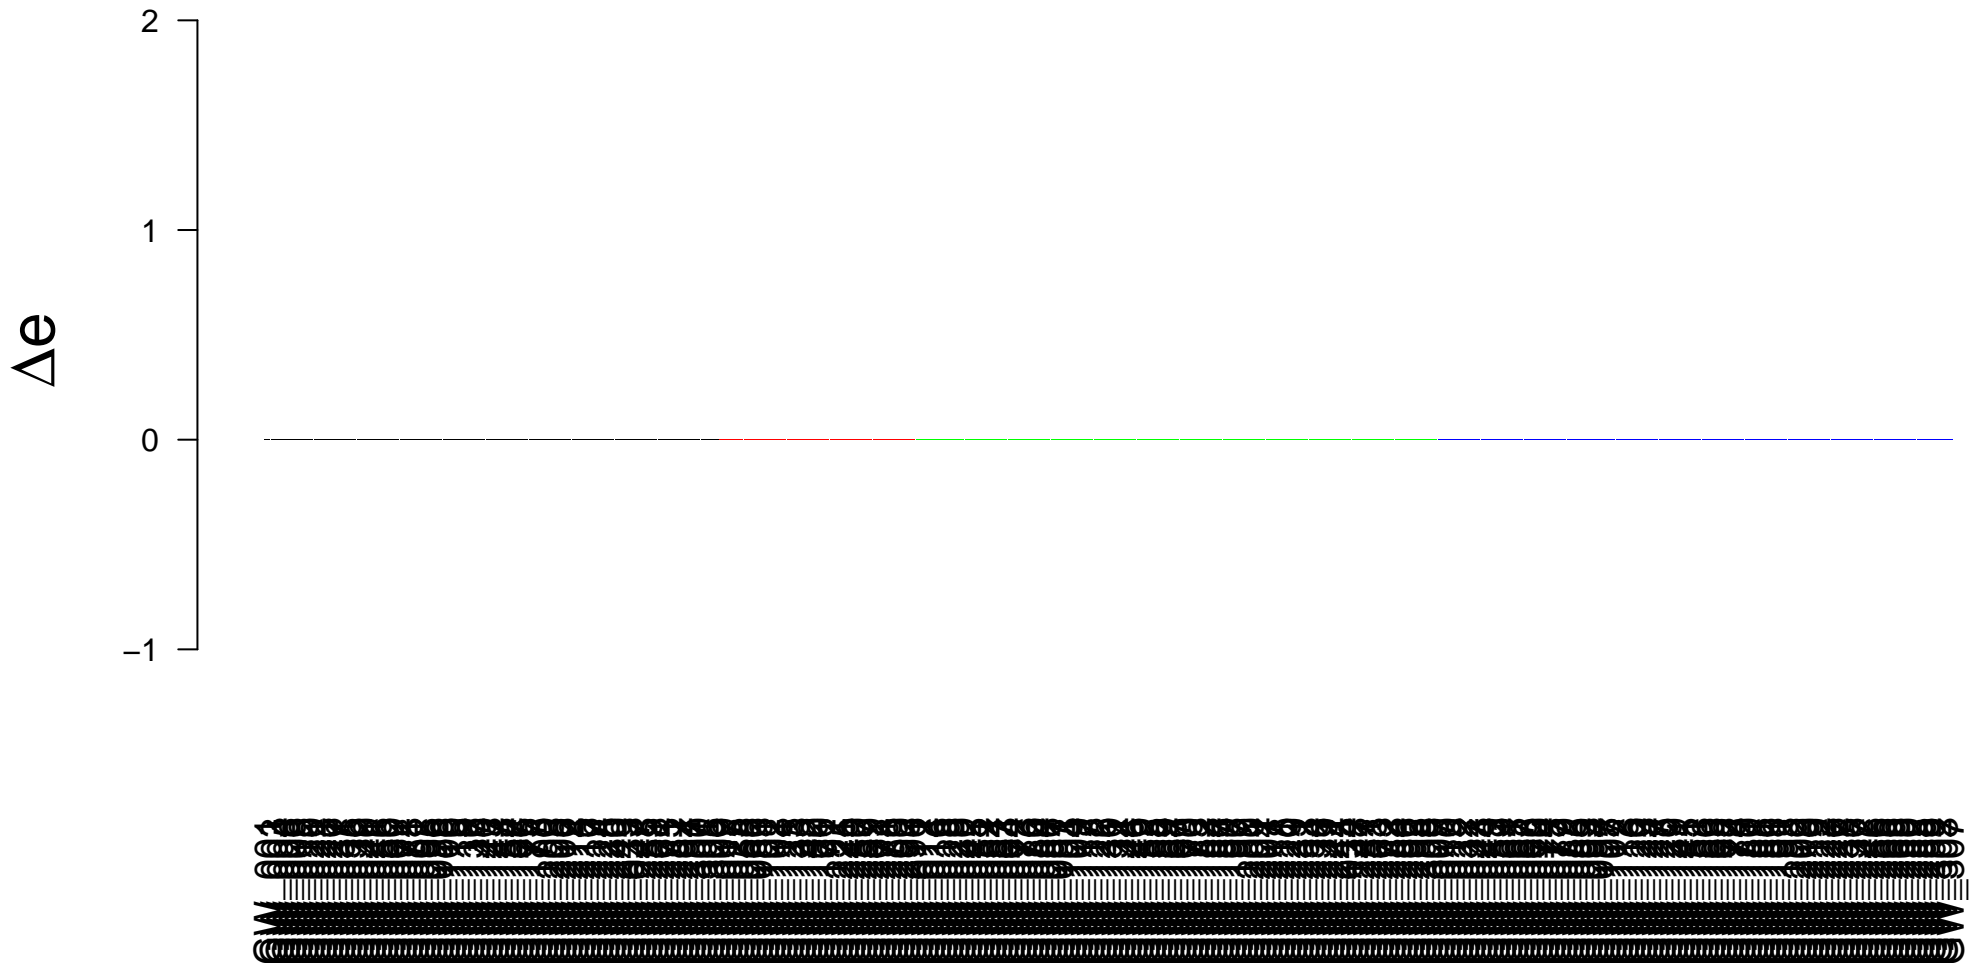

Expression of low-density lipoprotein receptor activity in Spot B

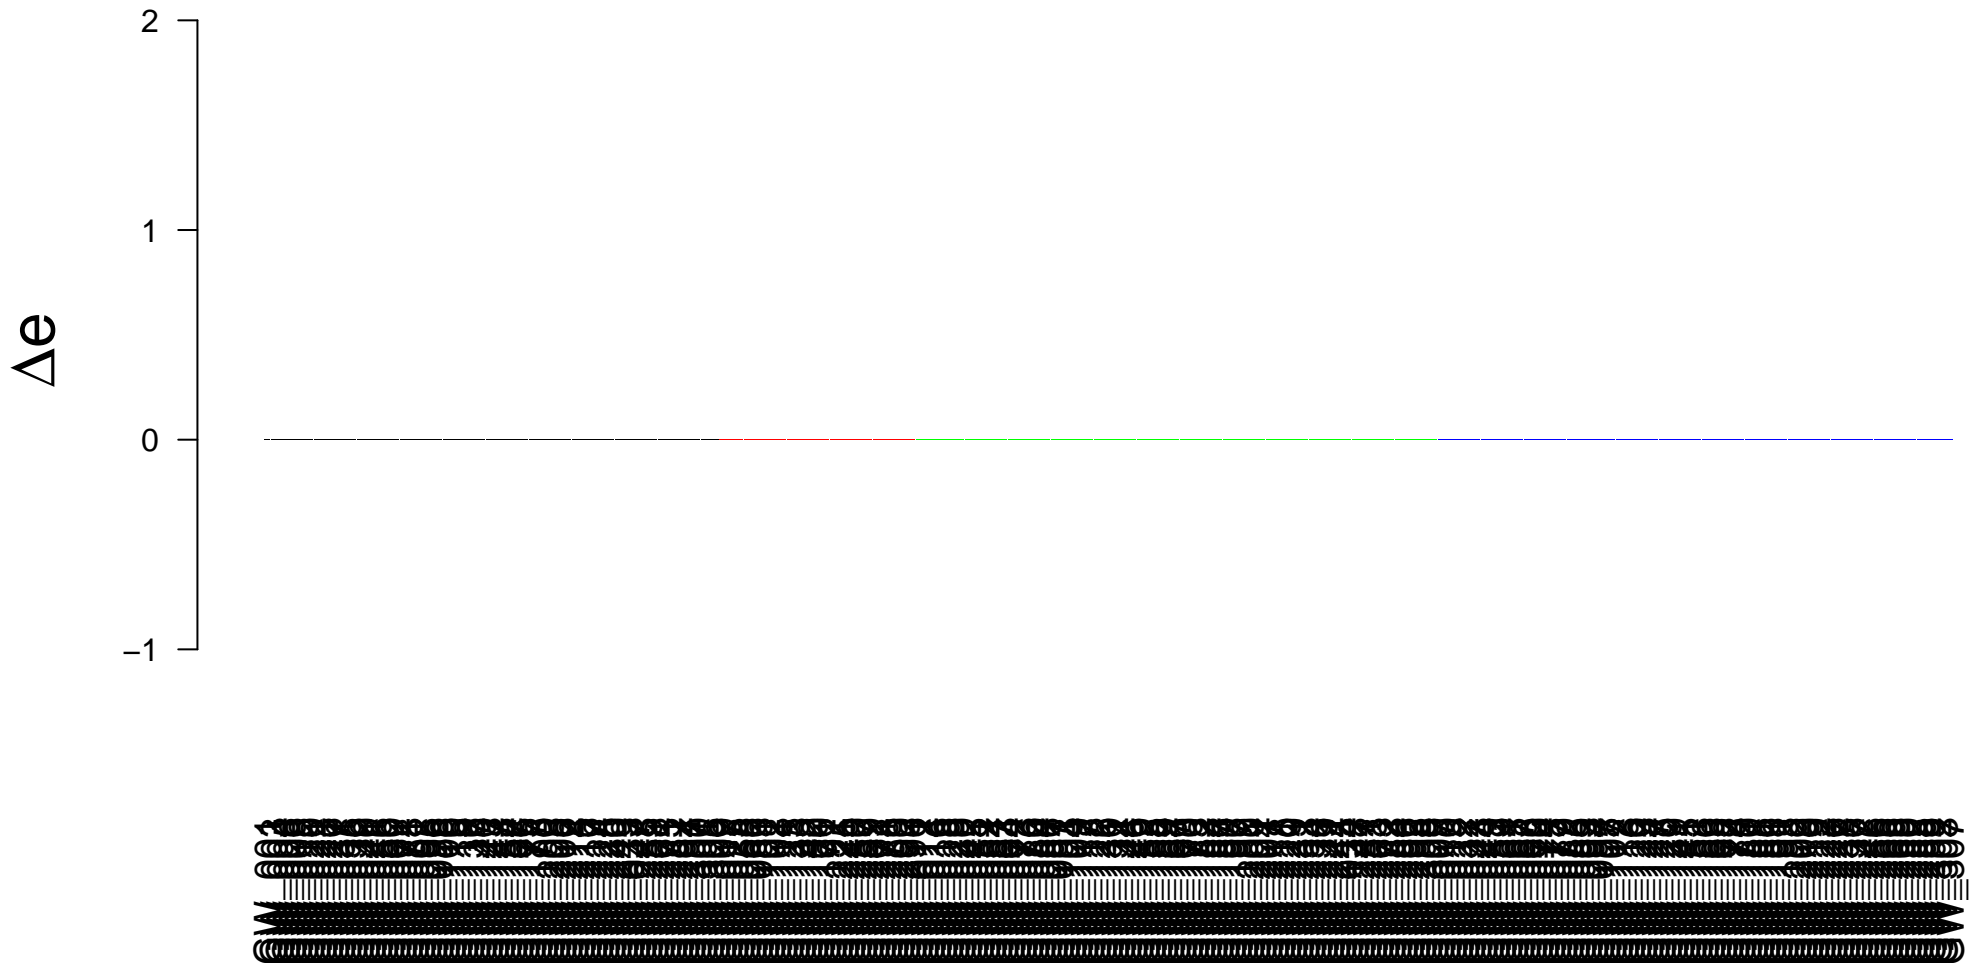

Expression of low-density lipoprotein receptor activity in Spot C

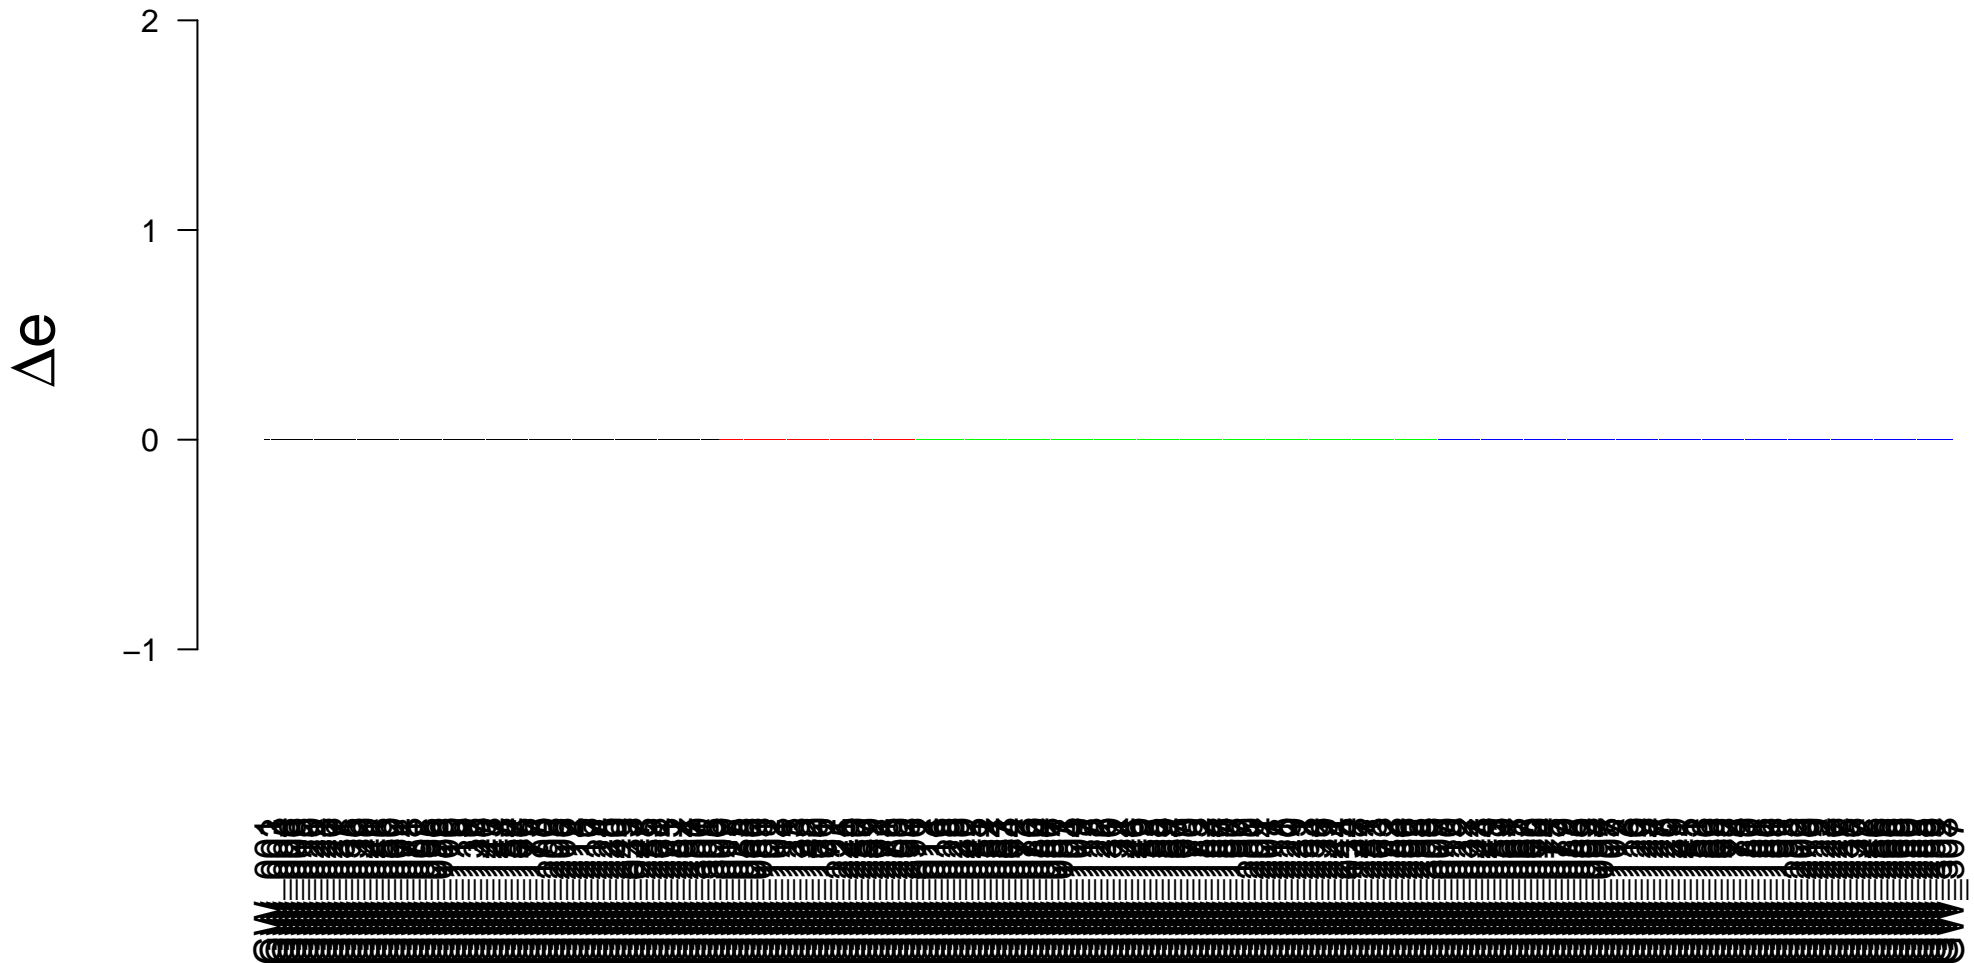

Expression of low-density lipoprotein receptor activity in Spot D

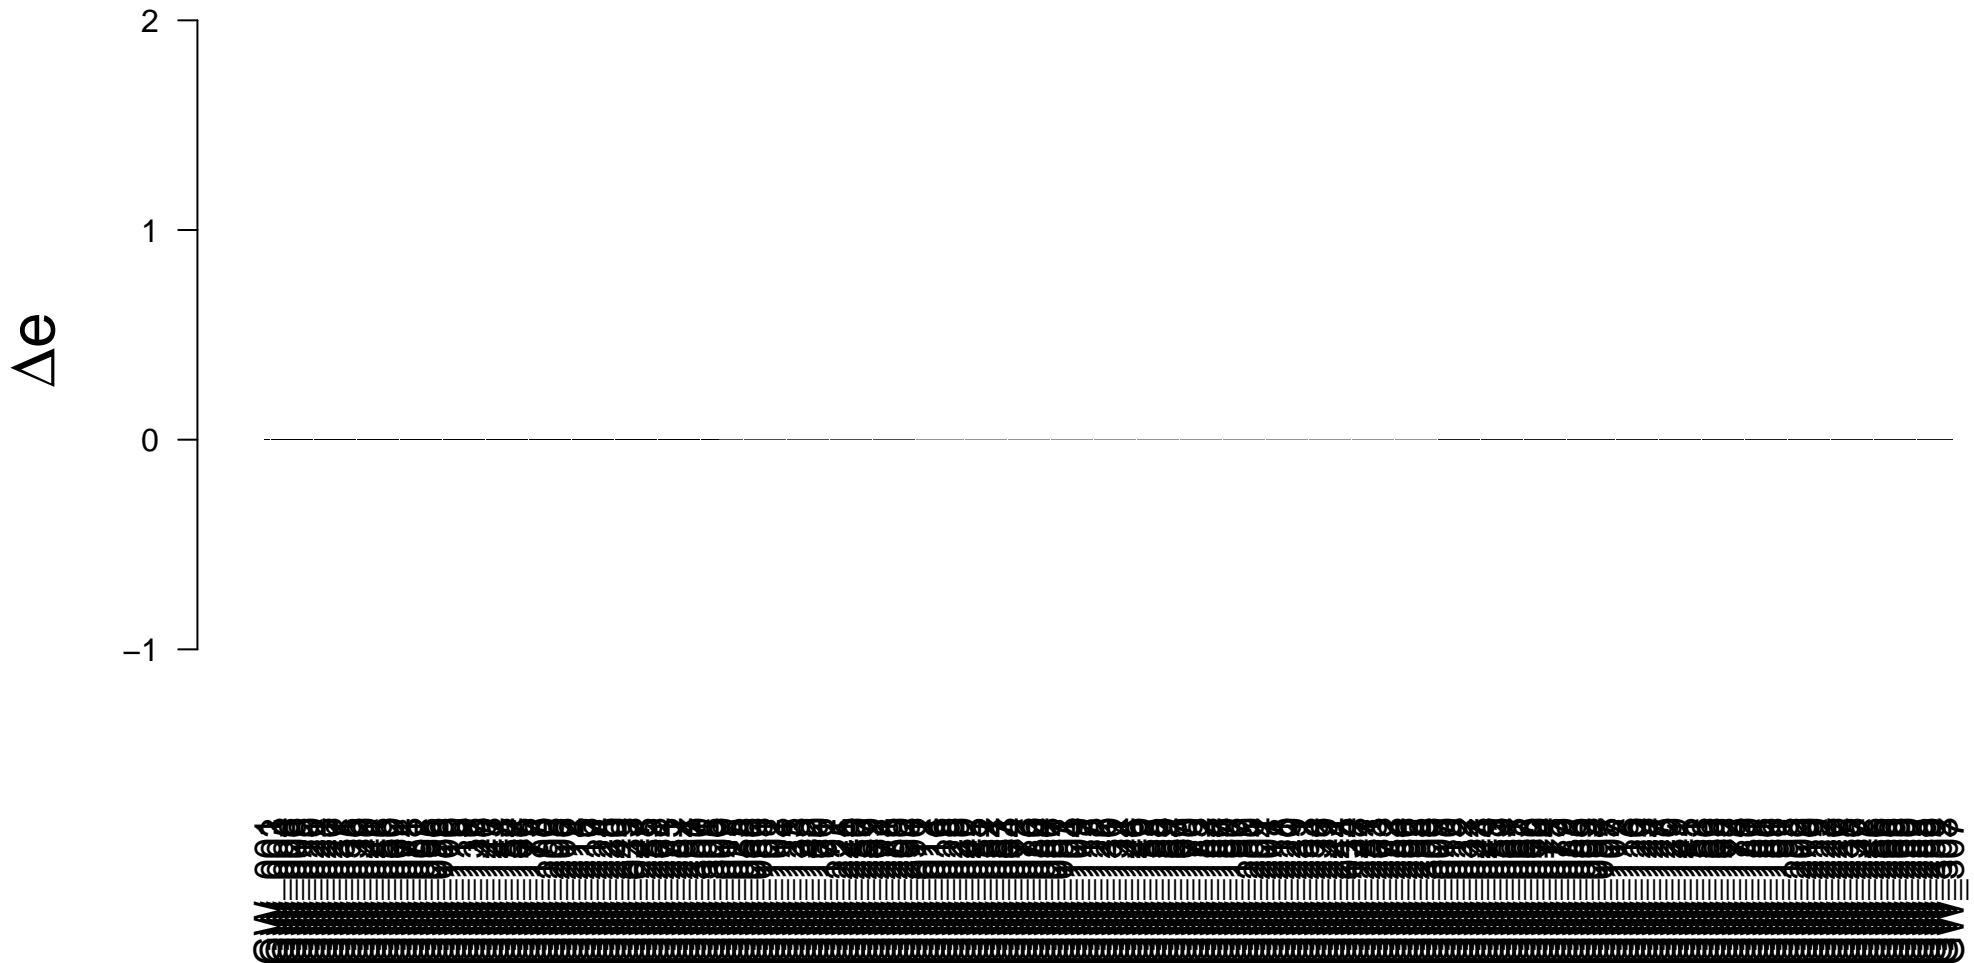

Expression of low-density lipoprotein receptor activity in Spot E

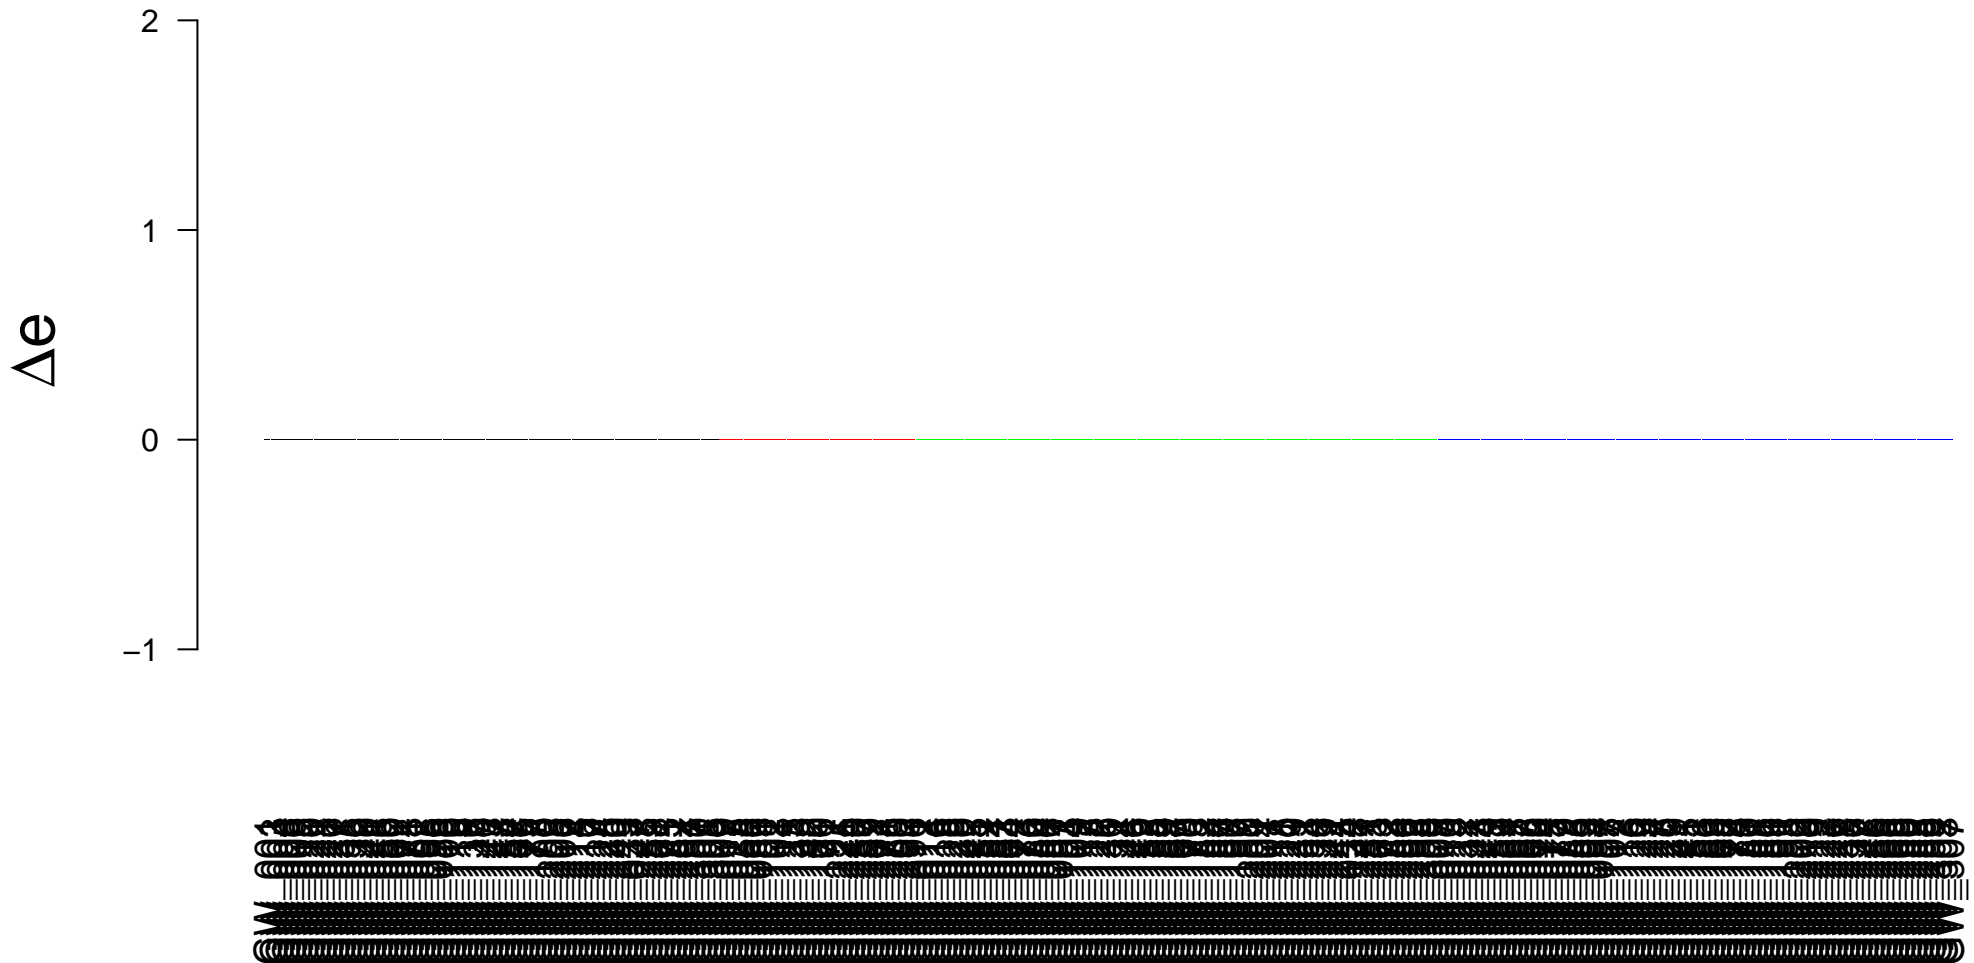

Expression of low-density lipoprotein receptor activity in Spot F

Expression of low-density lipoprotein receptor activity in Spot G

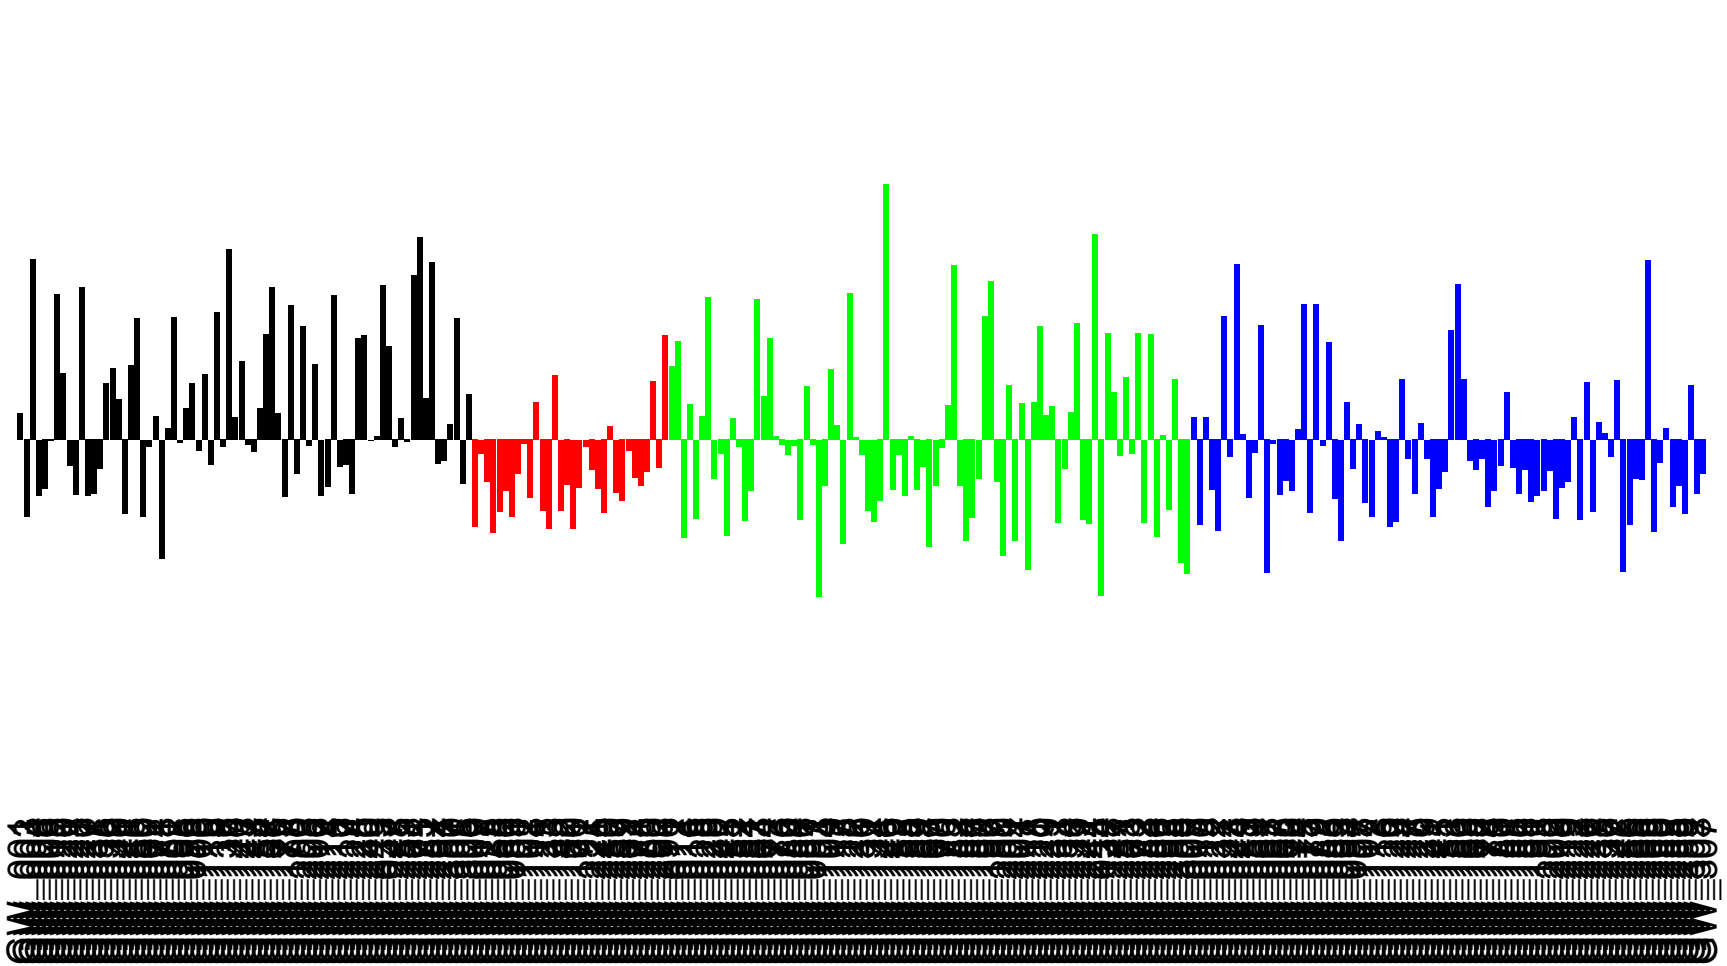

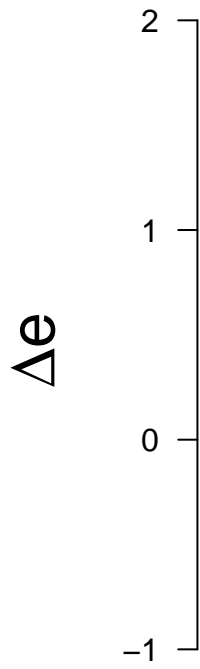

Expression of low-density lipoprotein receptor activity in Spot H

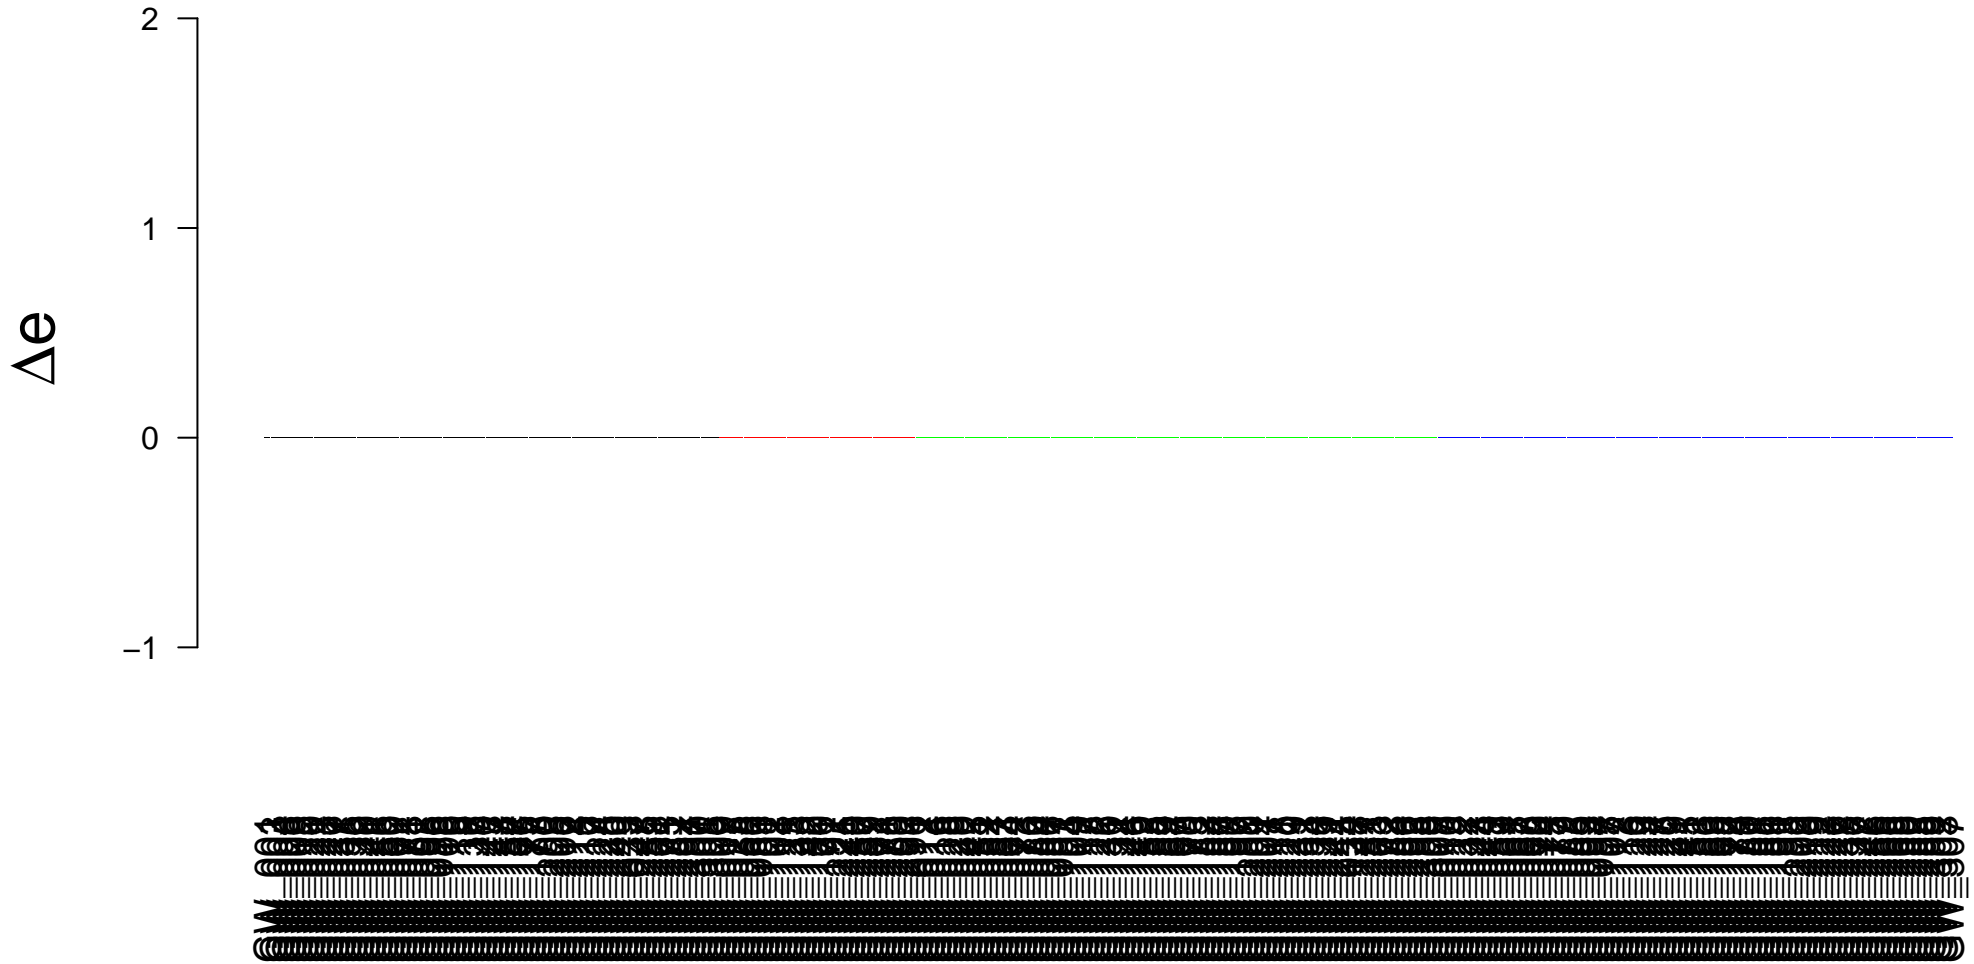

Expression of low-density lipoprotein receptor activity in Spot I

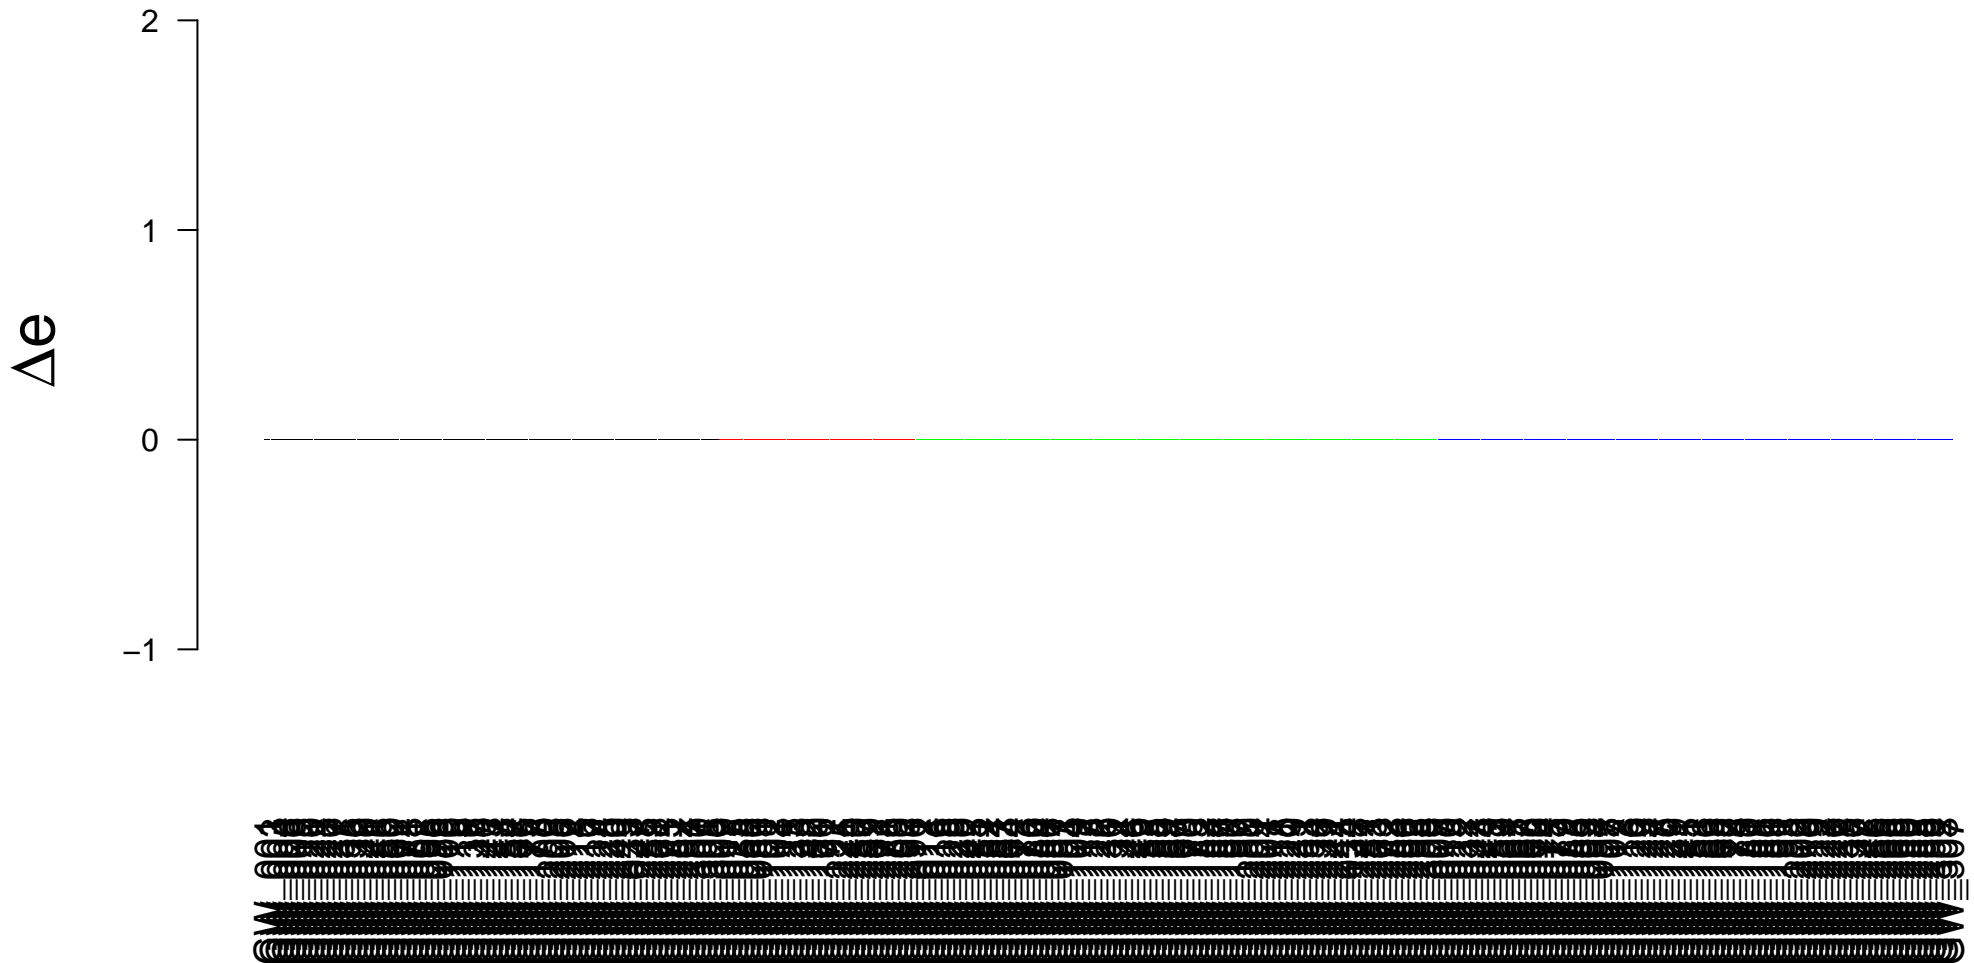

Δe

Expression of low-density lipoprotein receptor activity in Spot J

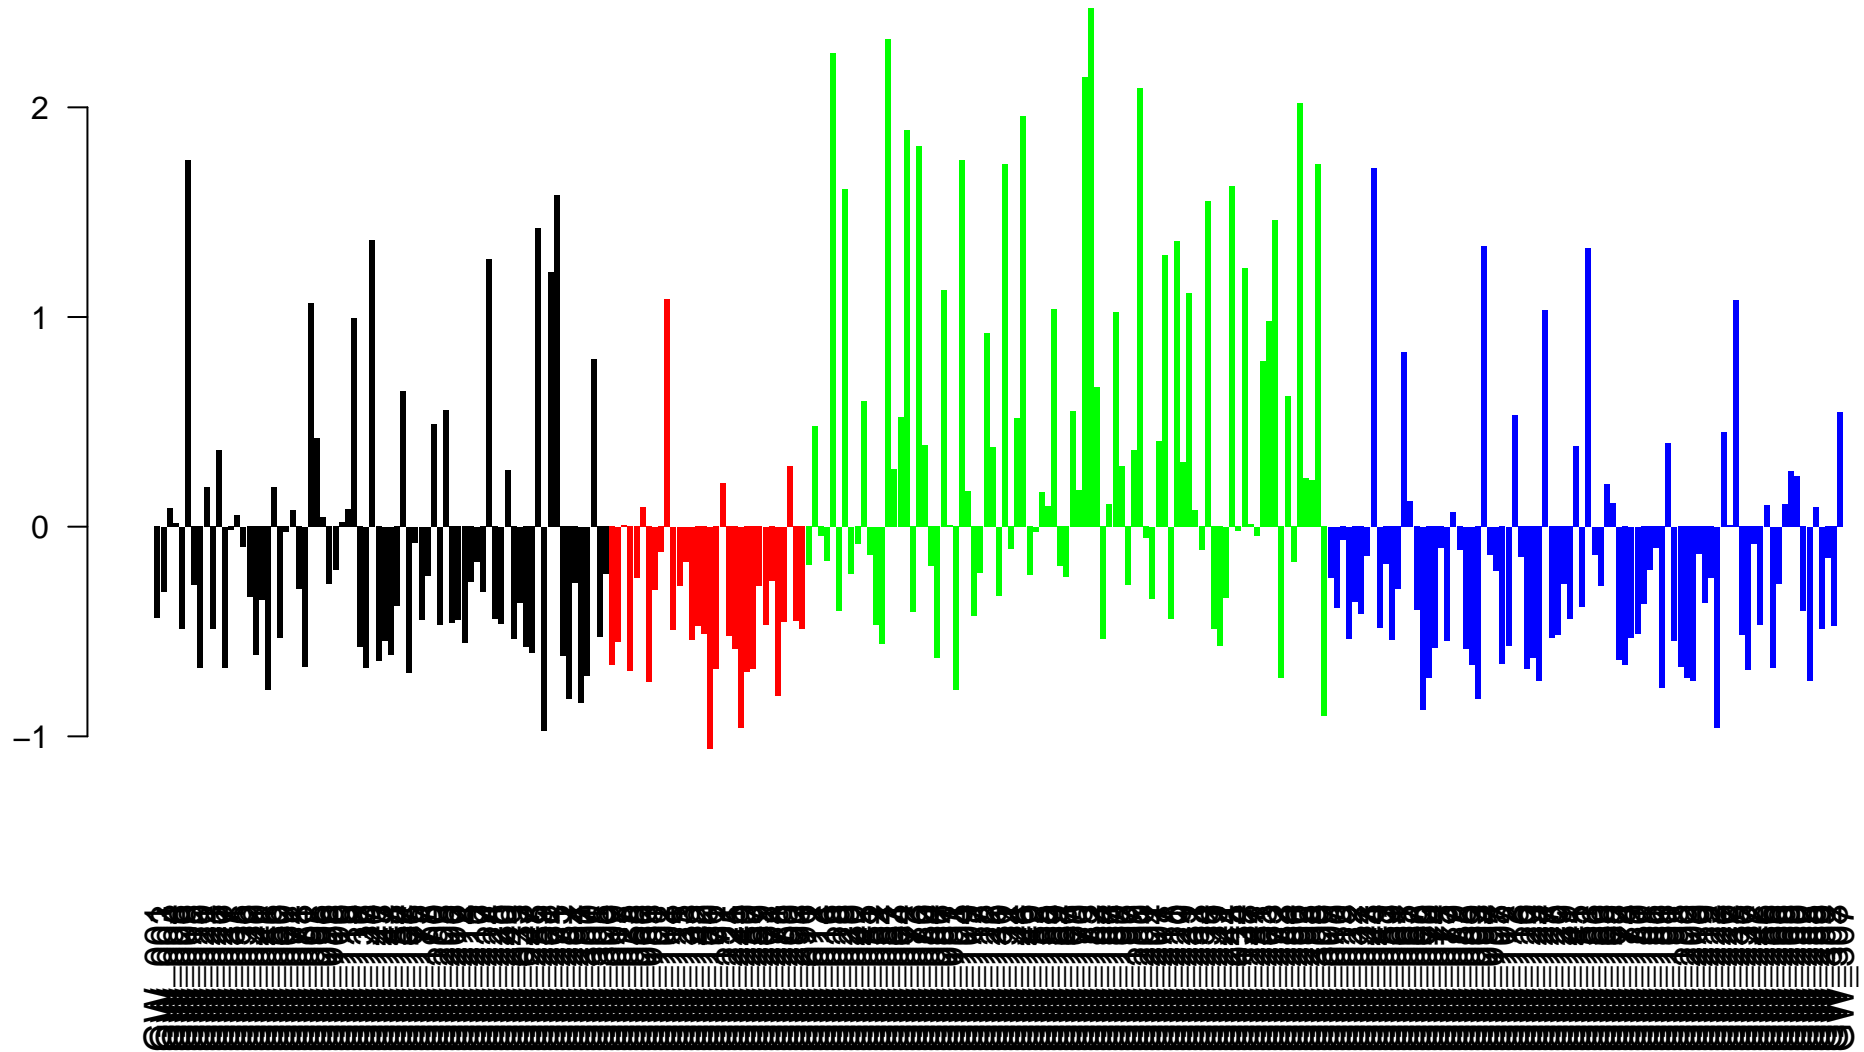

Expression of low-density lipoprotein receptor activity in Spot K

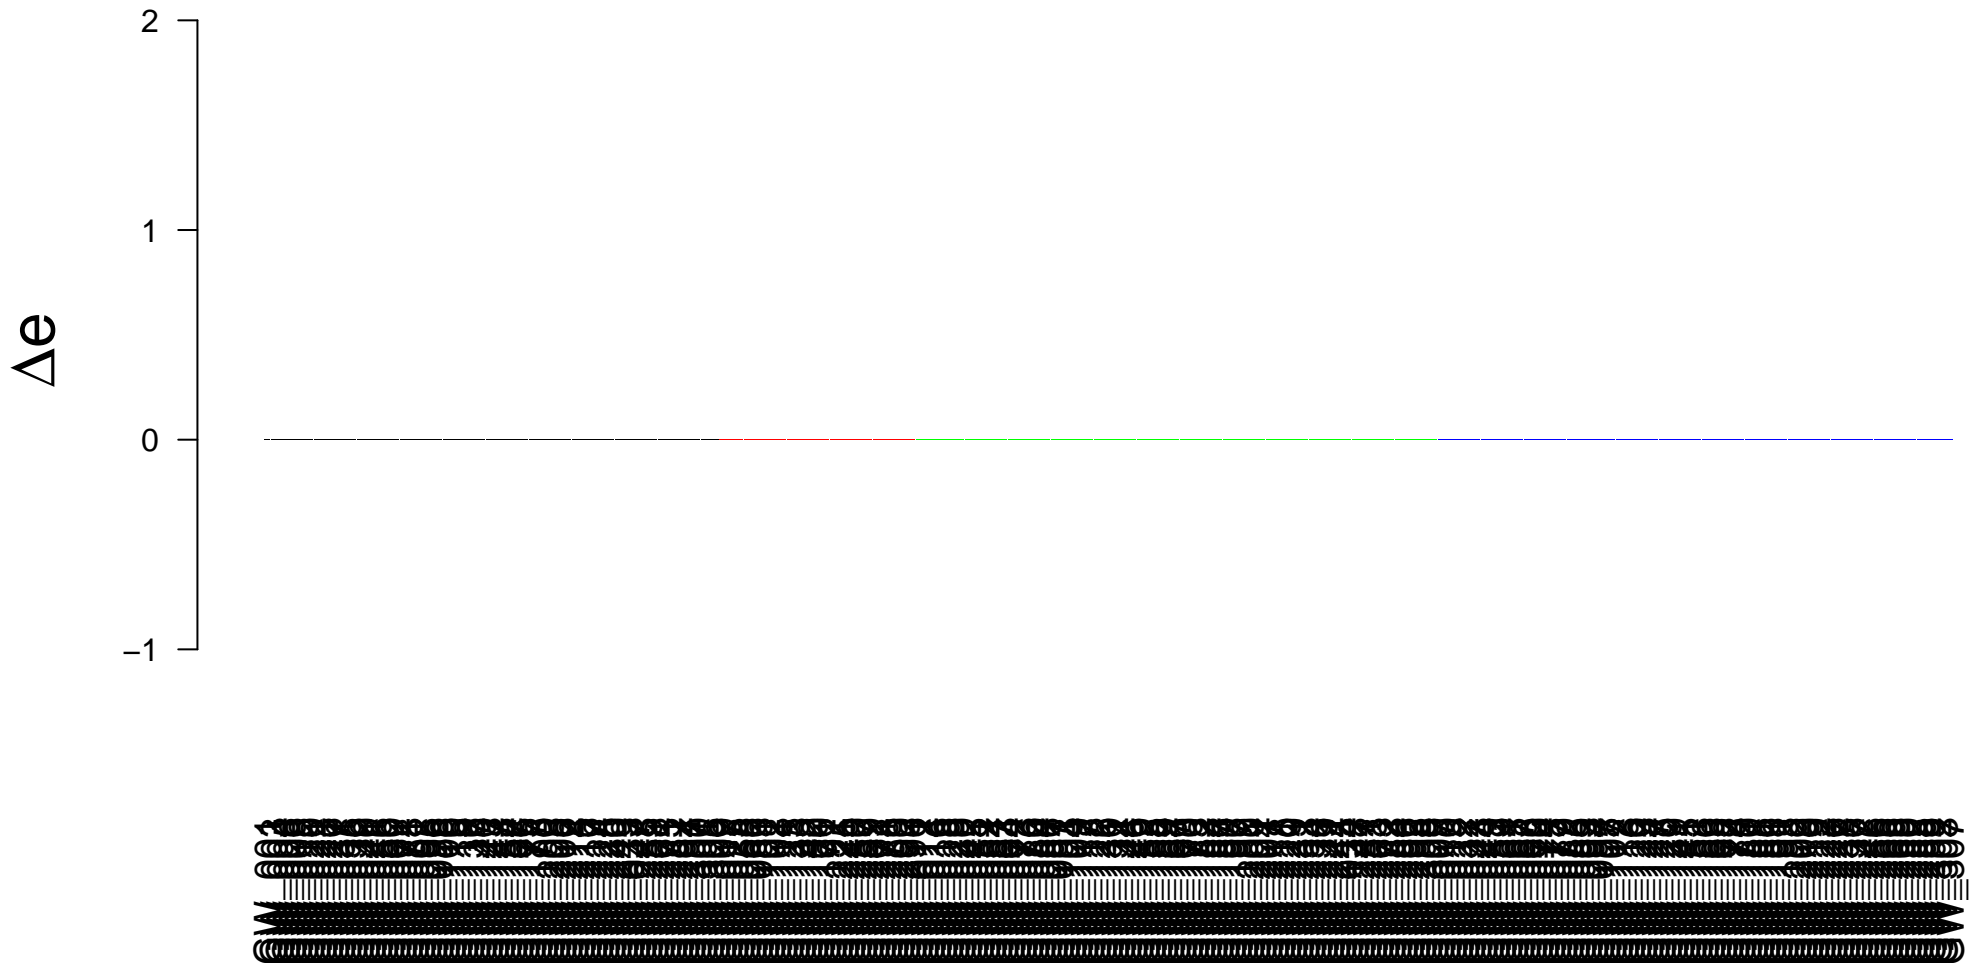

Expression of low-density lipoprotein receptor activity in Spot L

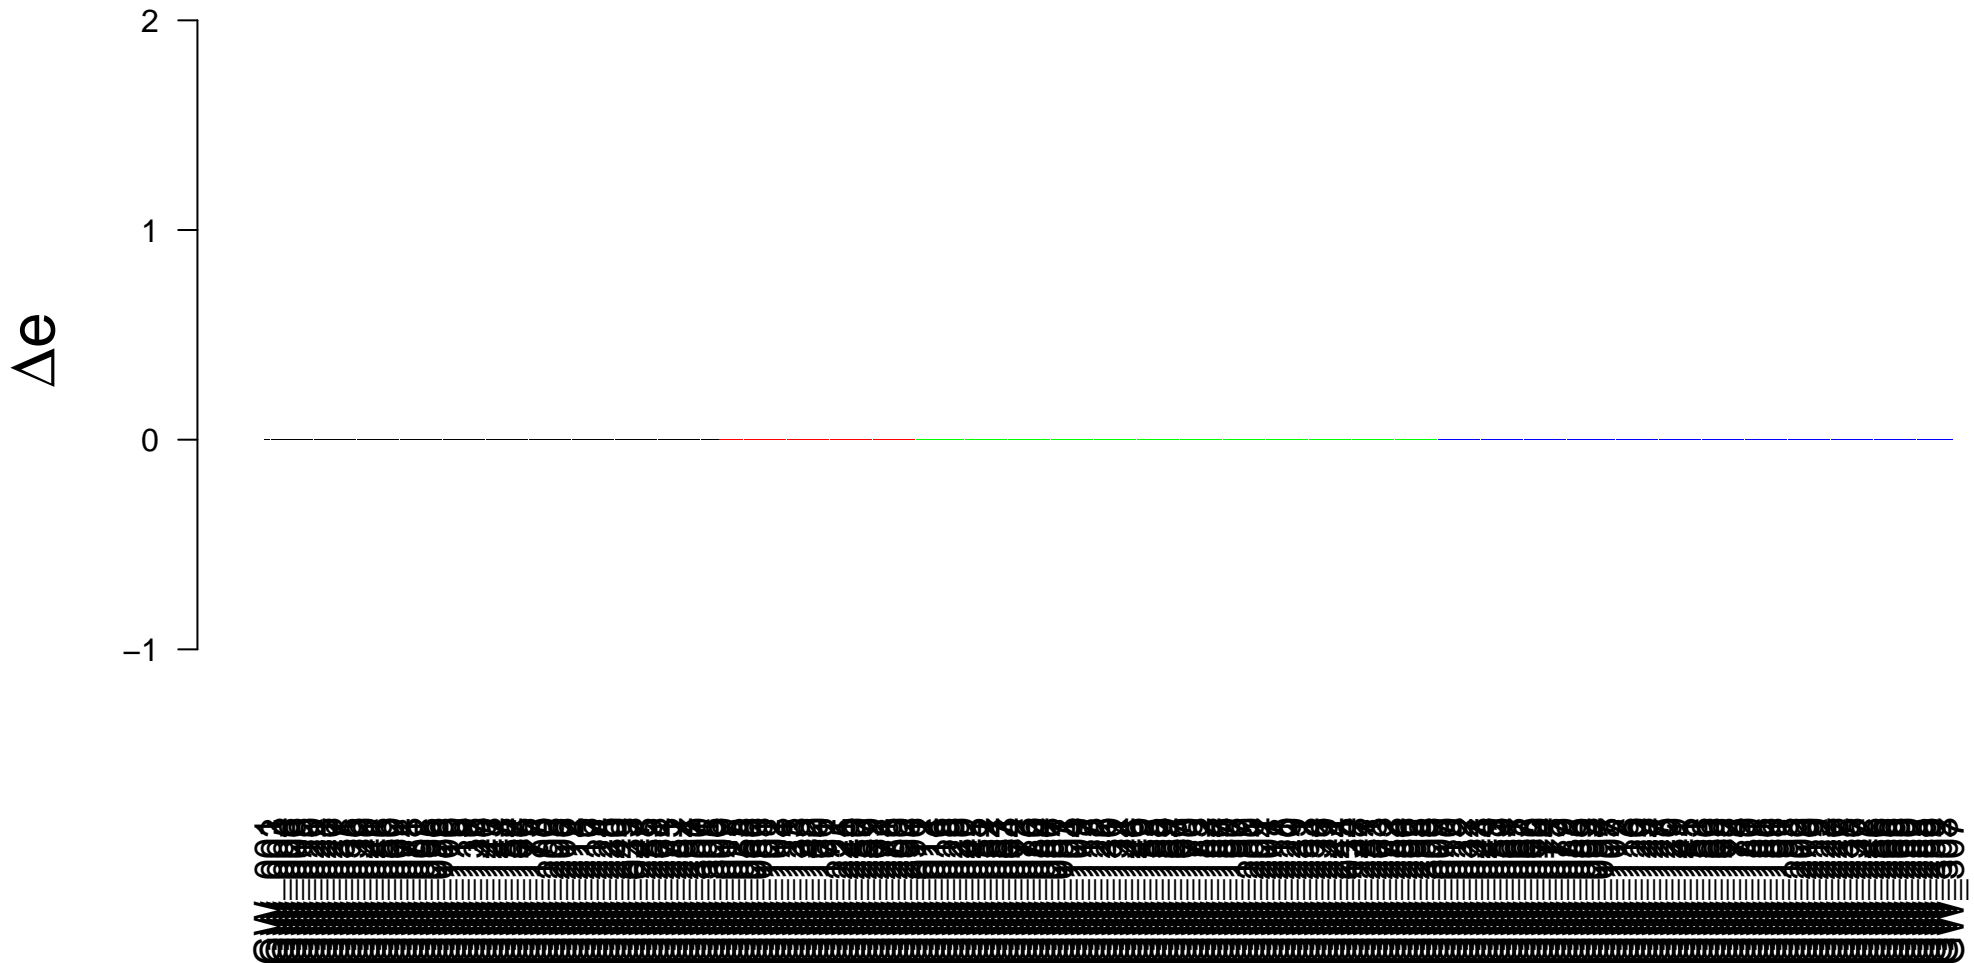

Δe

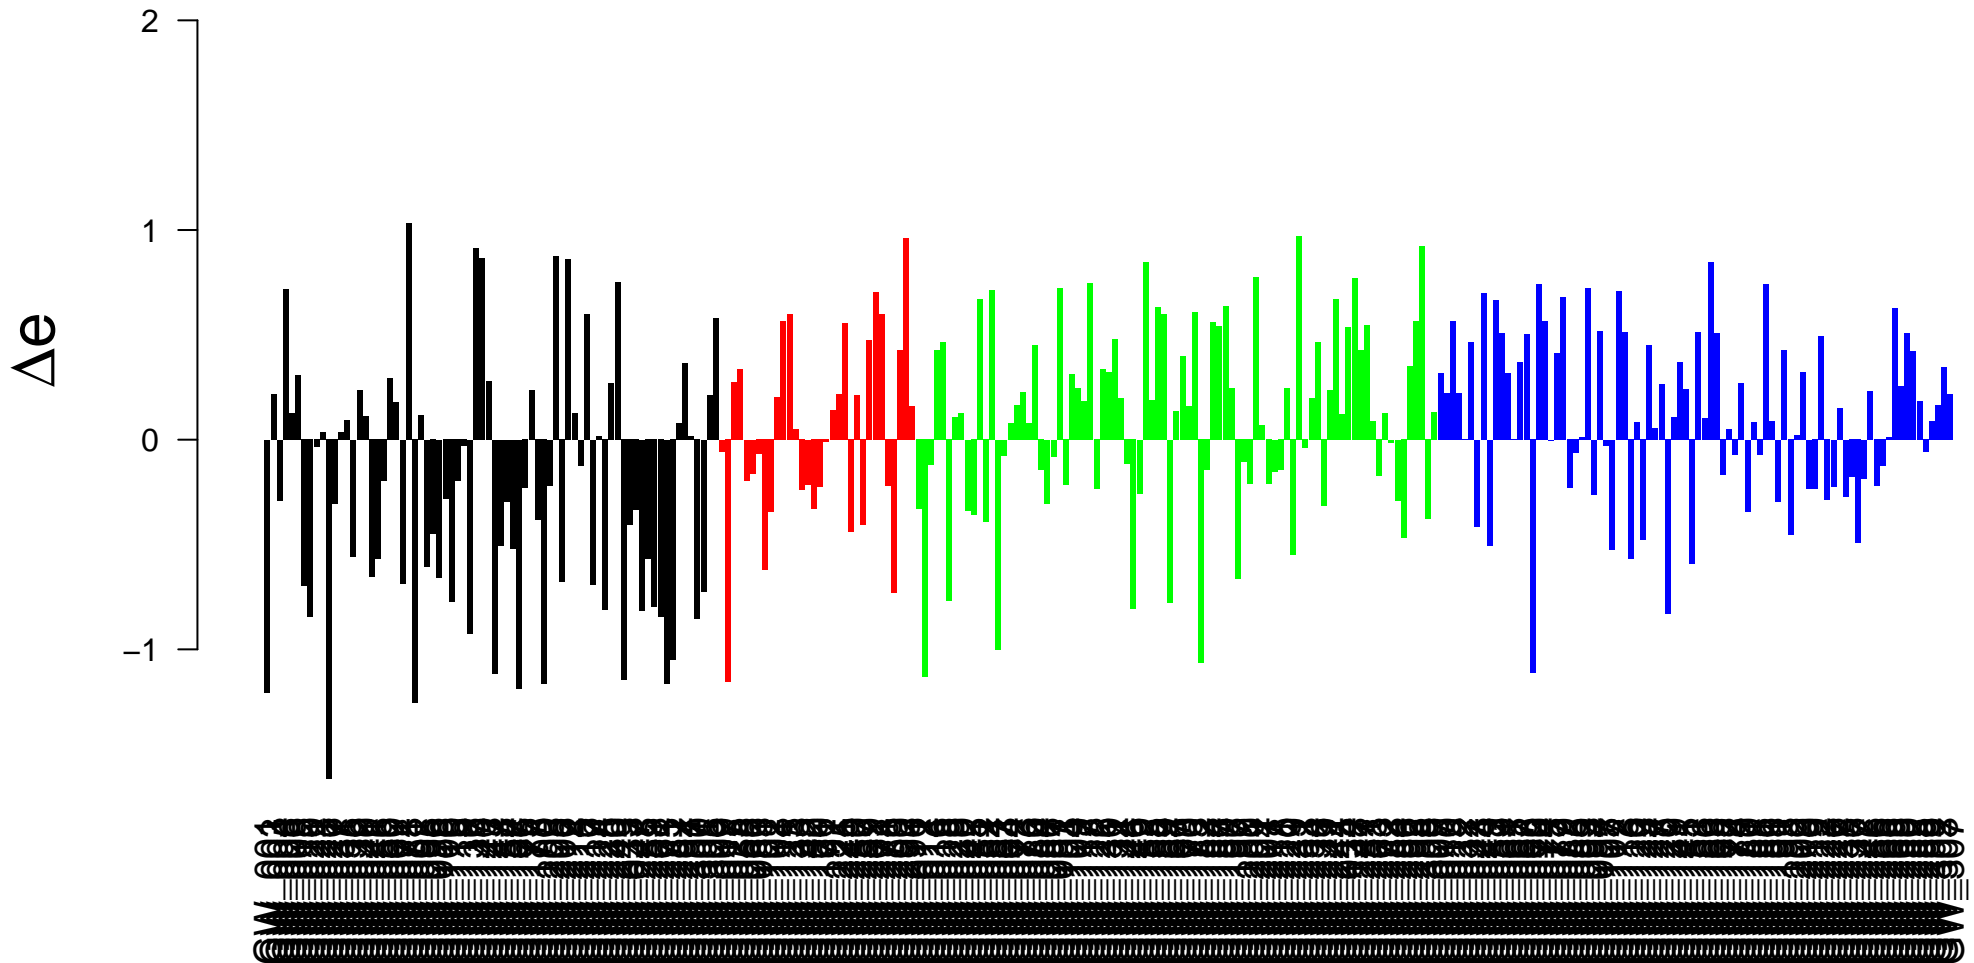

Expression of low-density lipoprotein receptor activity in Spot M

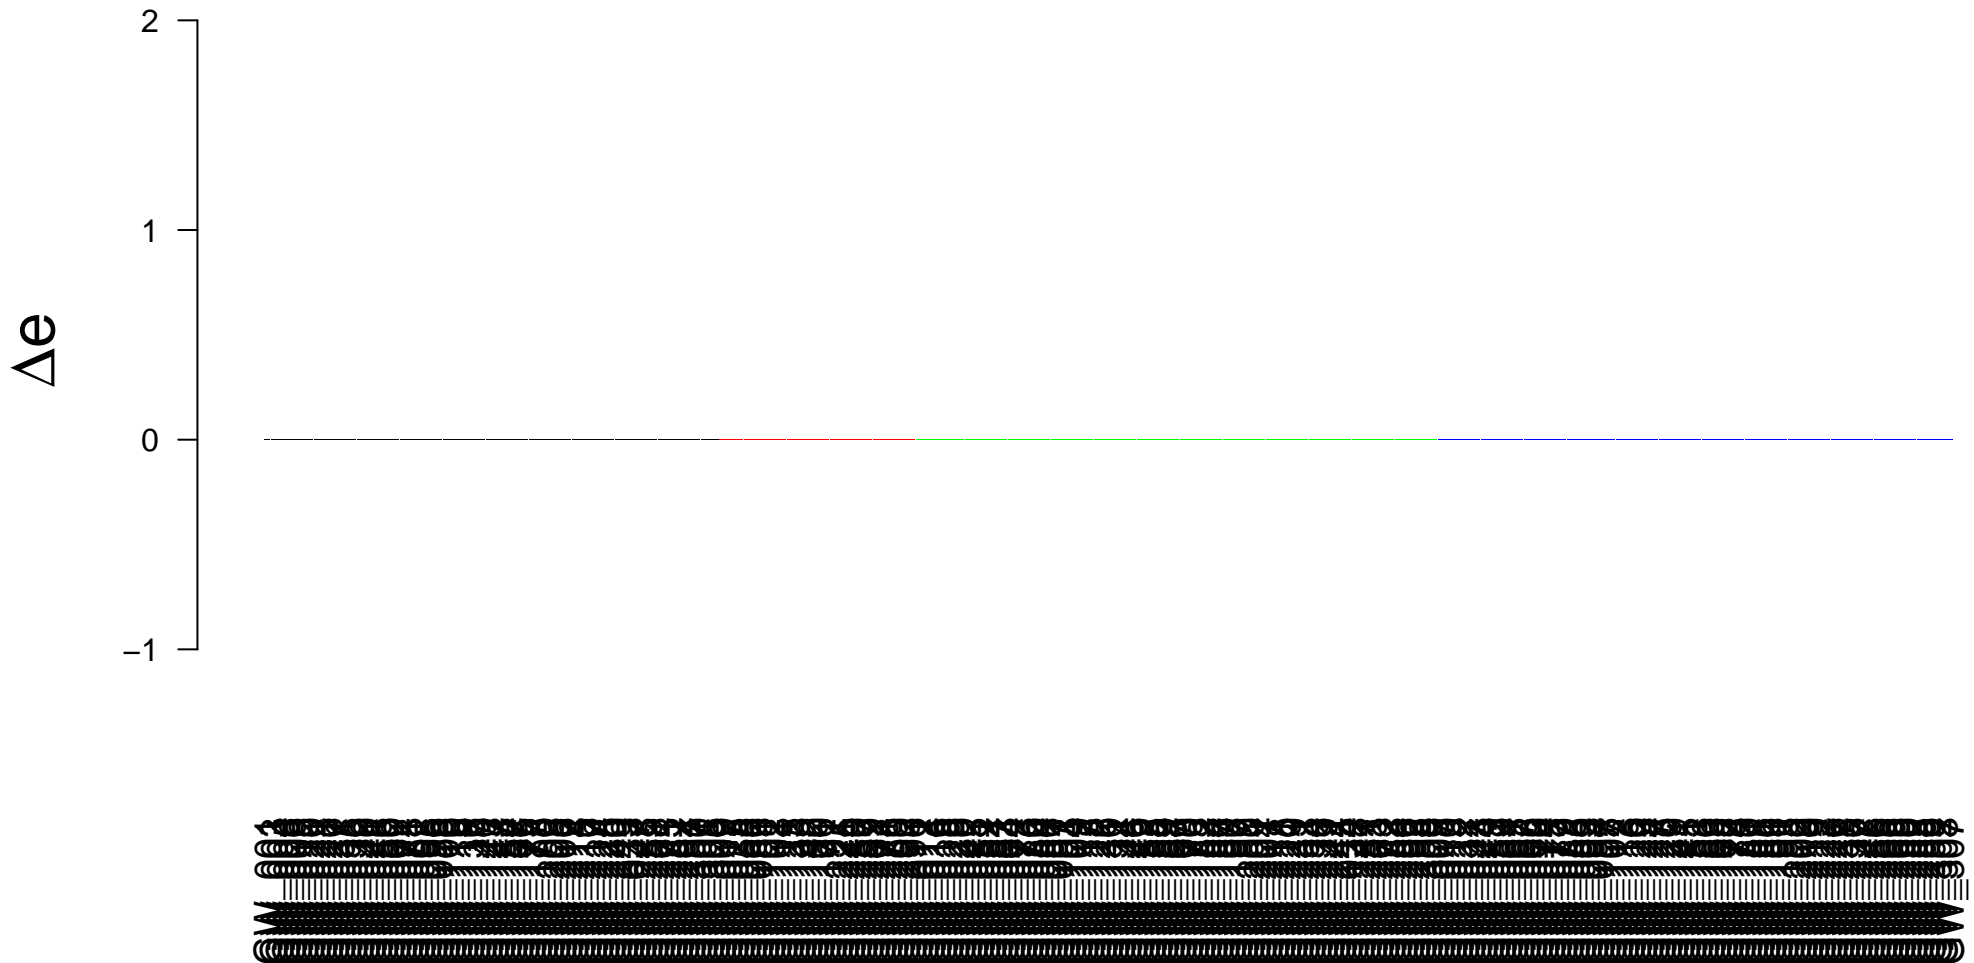

Expression of low-density lipoprotein receptor activity in Spot N

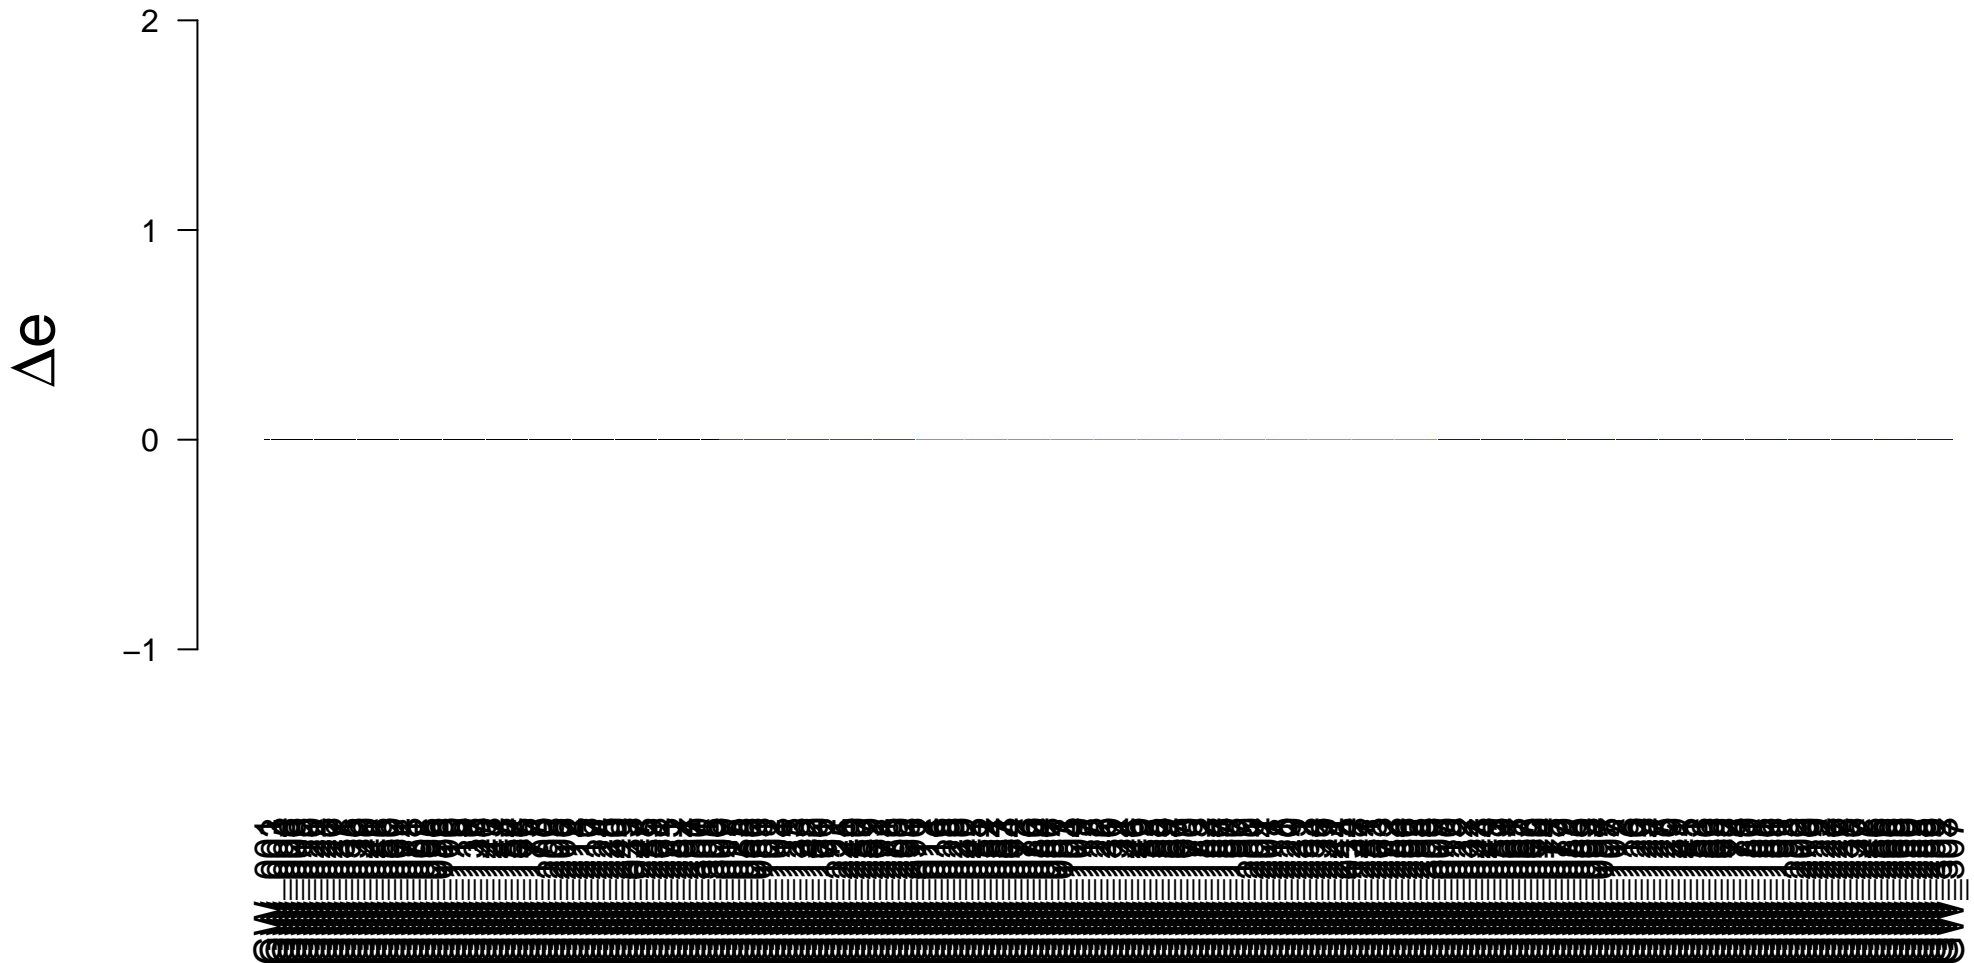

Expression of low-density lipoprotein receptor activity in Spot O

Expression of low-density lipoprotein receptor activity in Spot P

Expression of low-density lipoprotein receptor activity in Spot Q

Expression of low-density lipoprotein receptor activity in Spot R
