

mRNA transcription from RNA polymerase II promoter

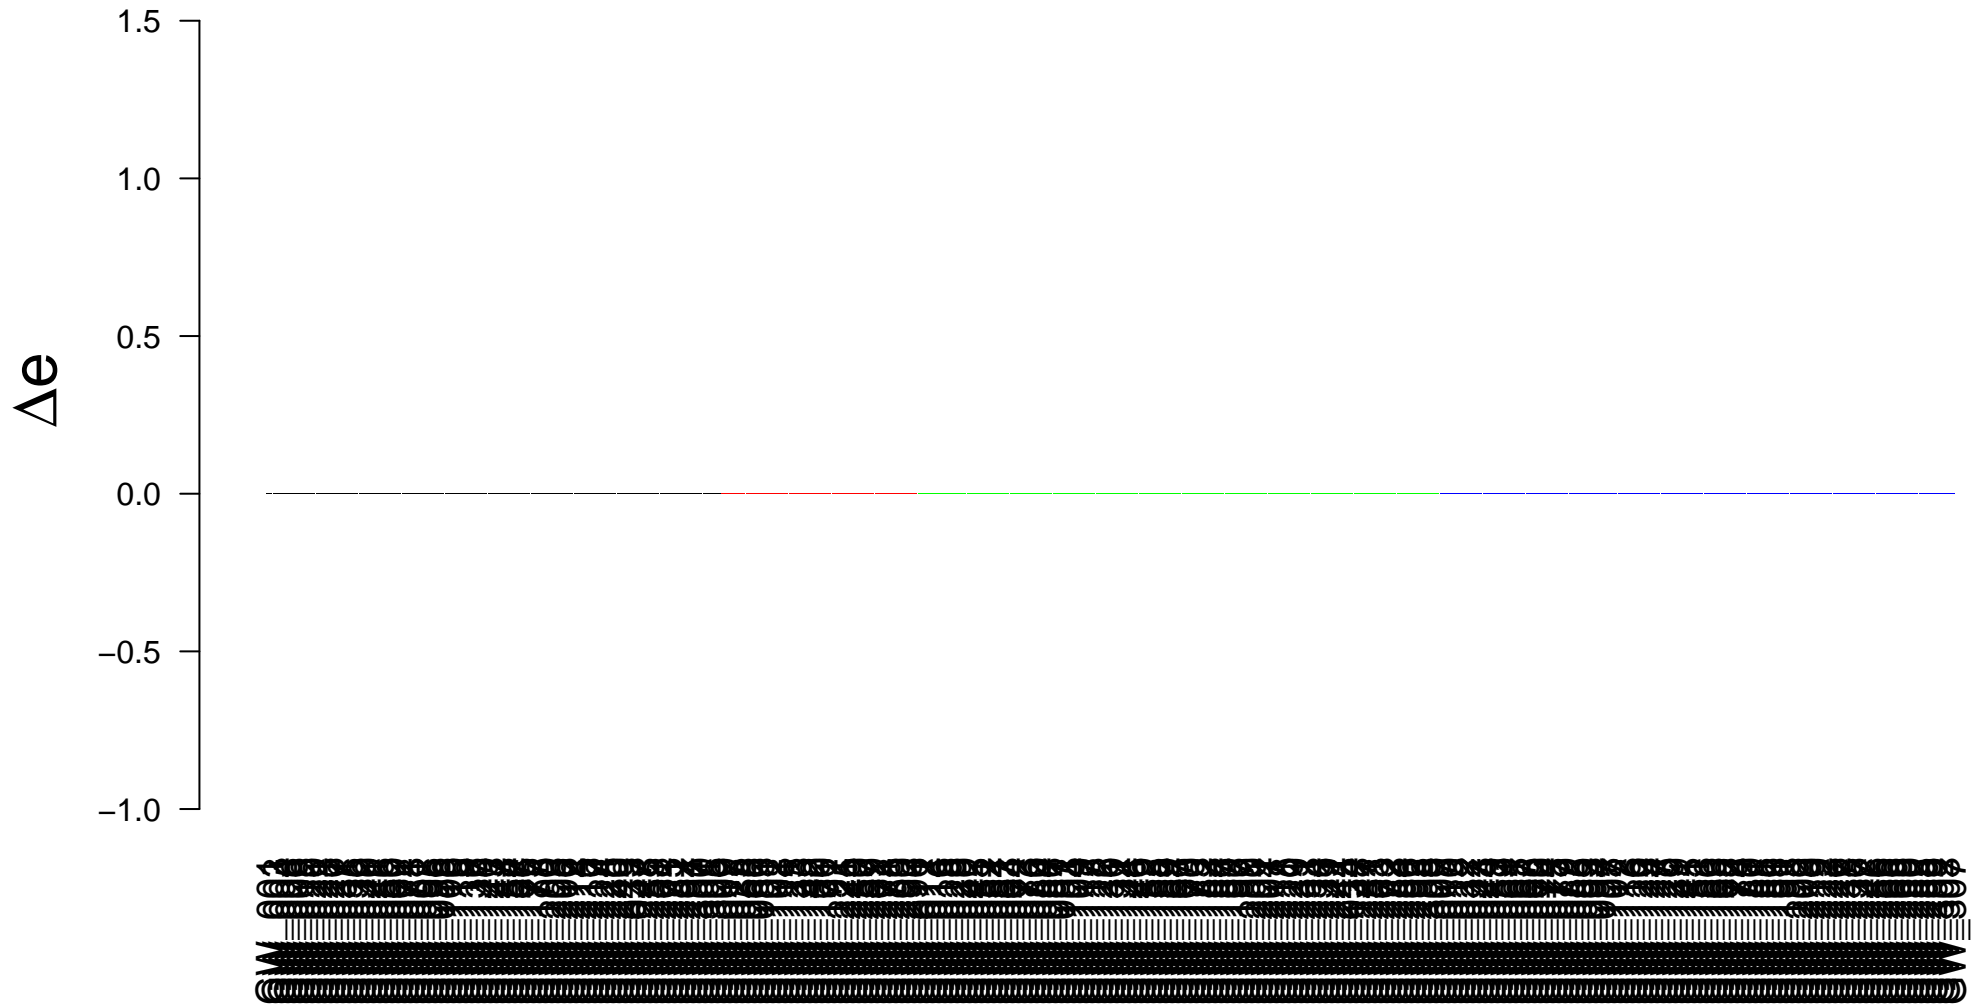

mRNA transcription from RNA polymerase II promoter

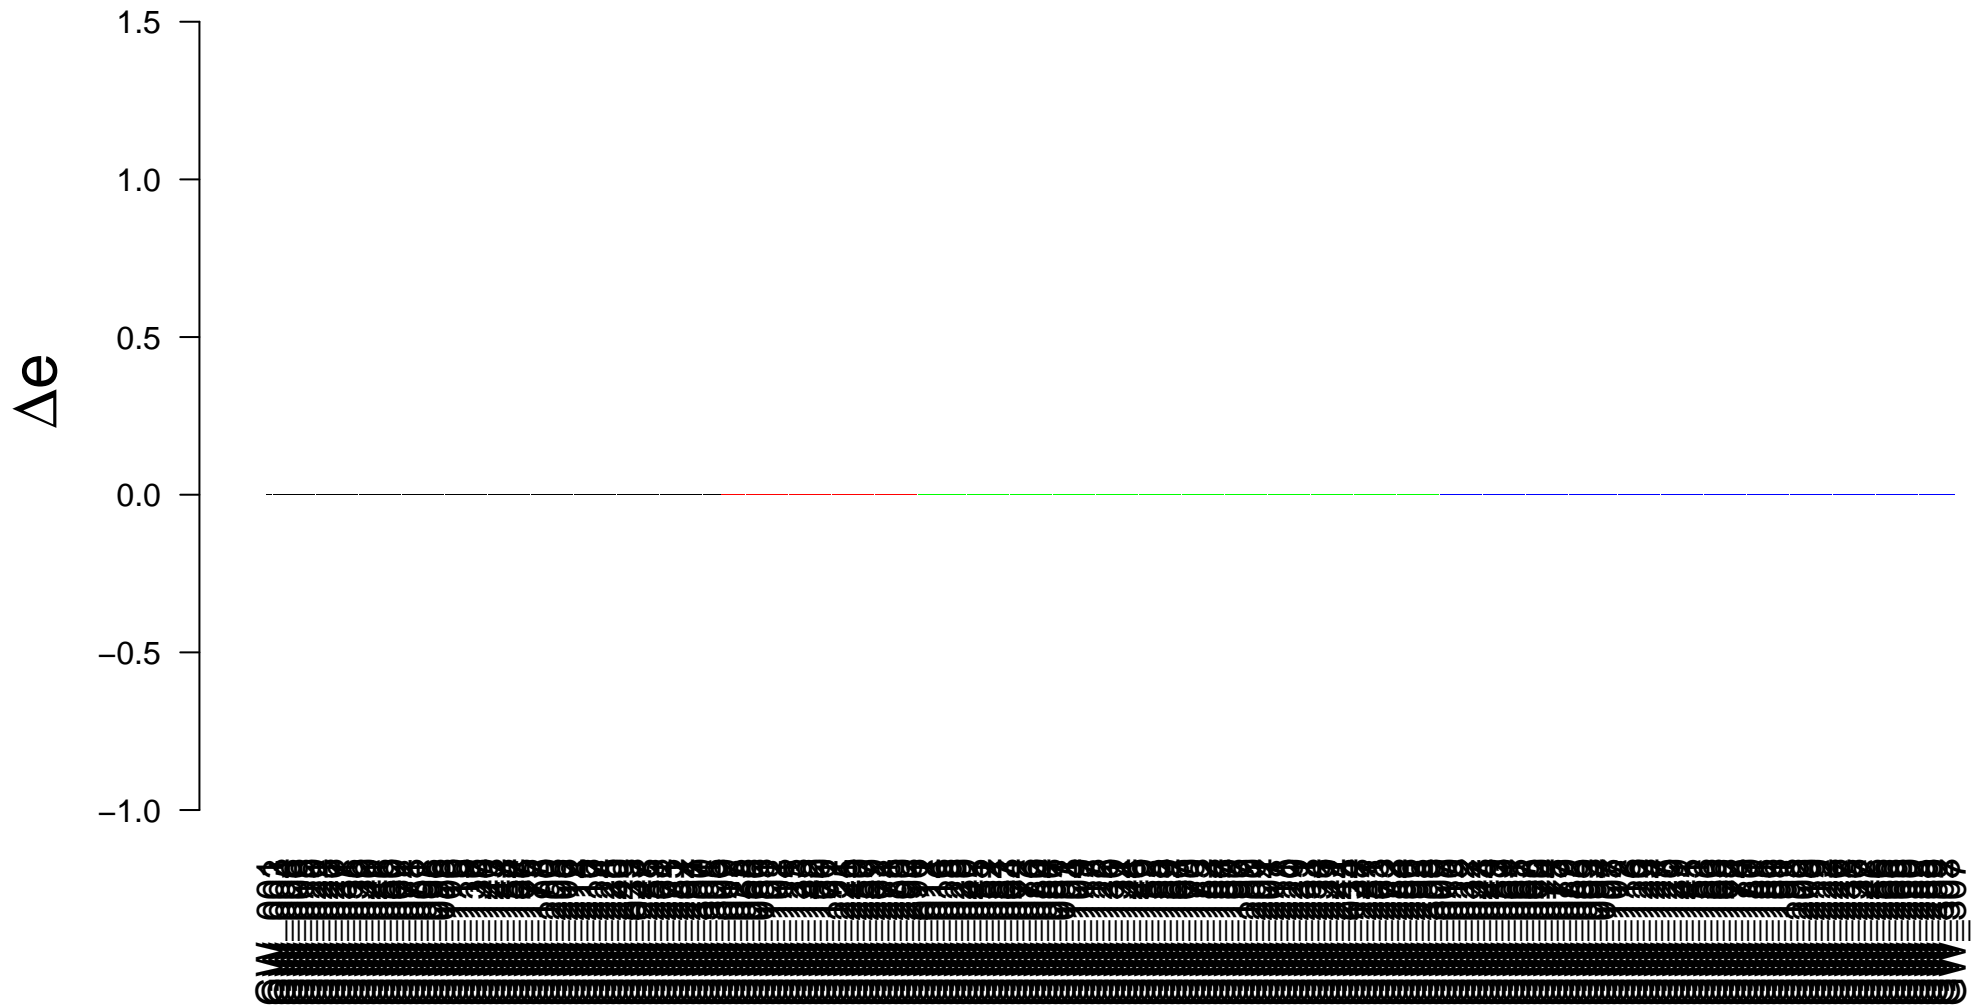

Enrichment in spots: mRNA transcription from RNA polymerase II promoter

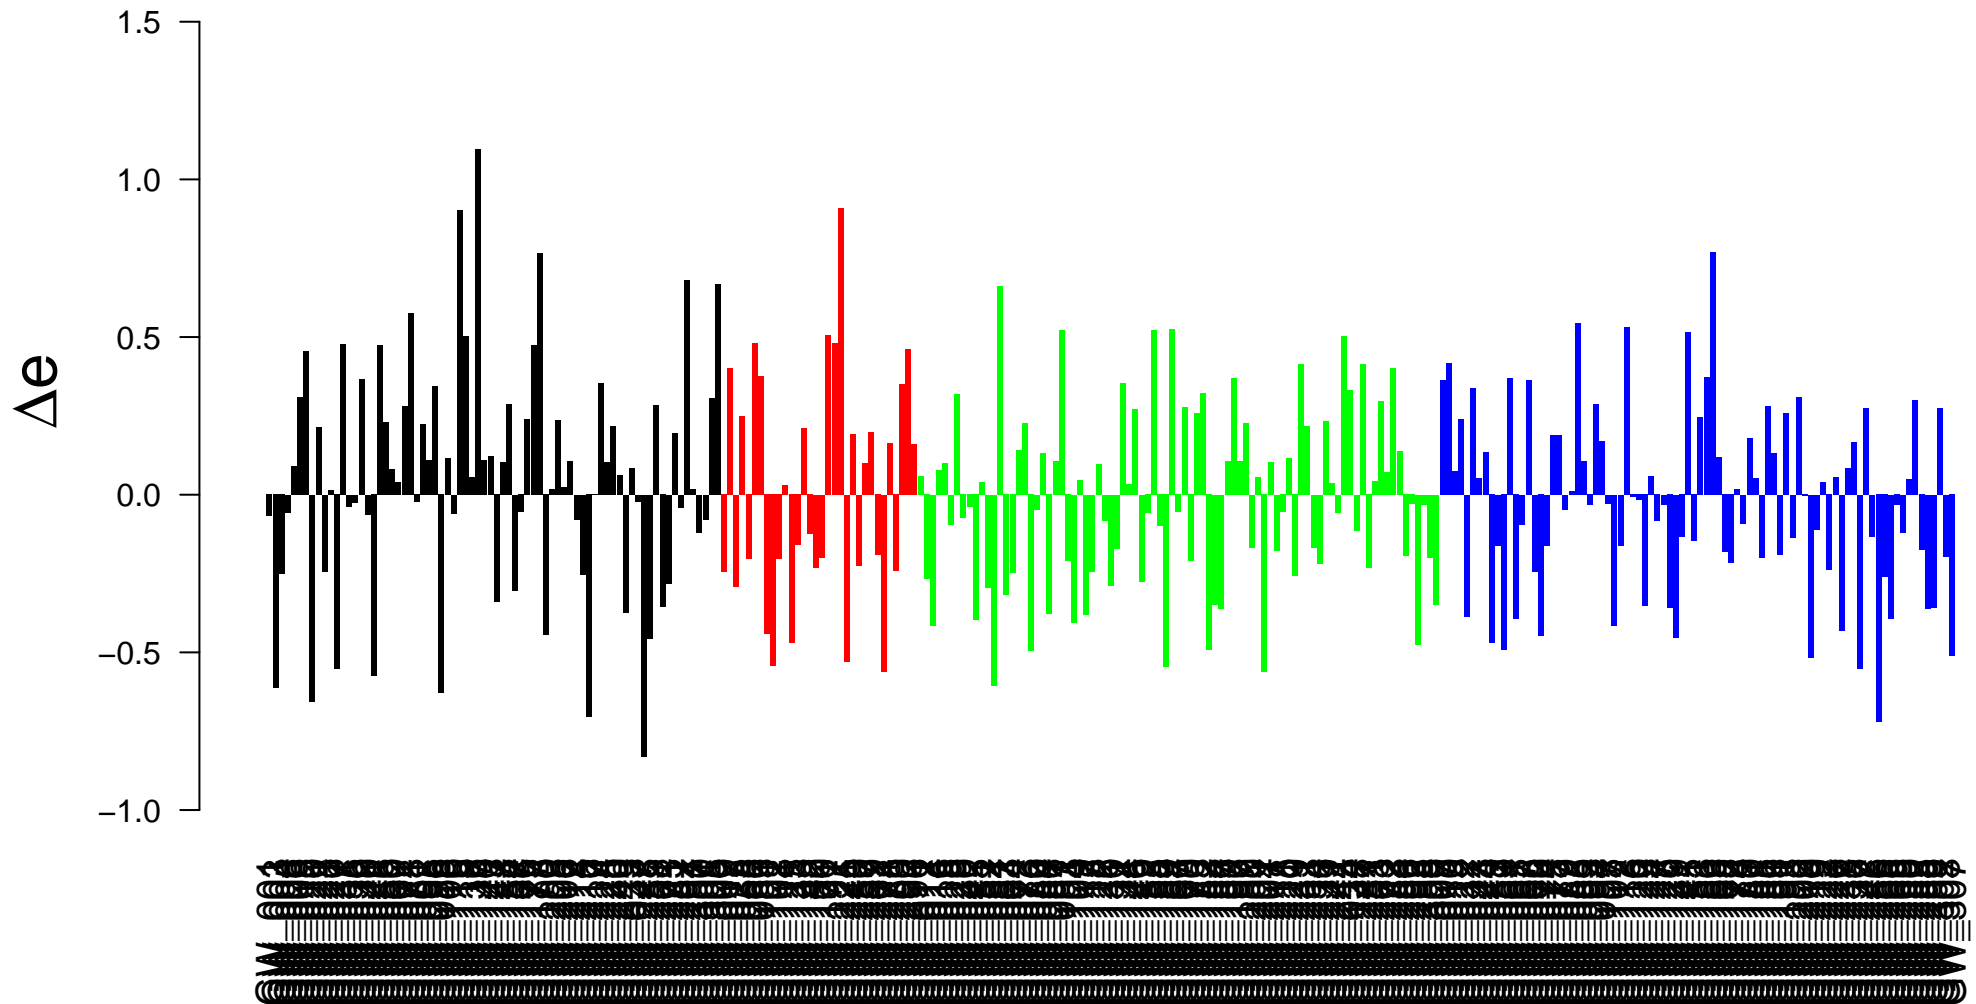

Expression of mRNA transcription from RNA polymerase II promoter in Spot A

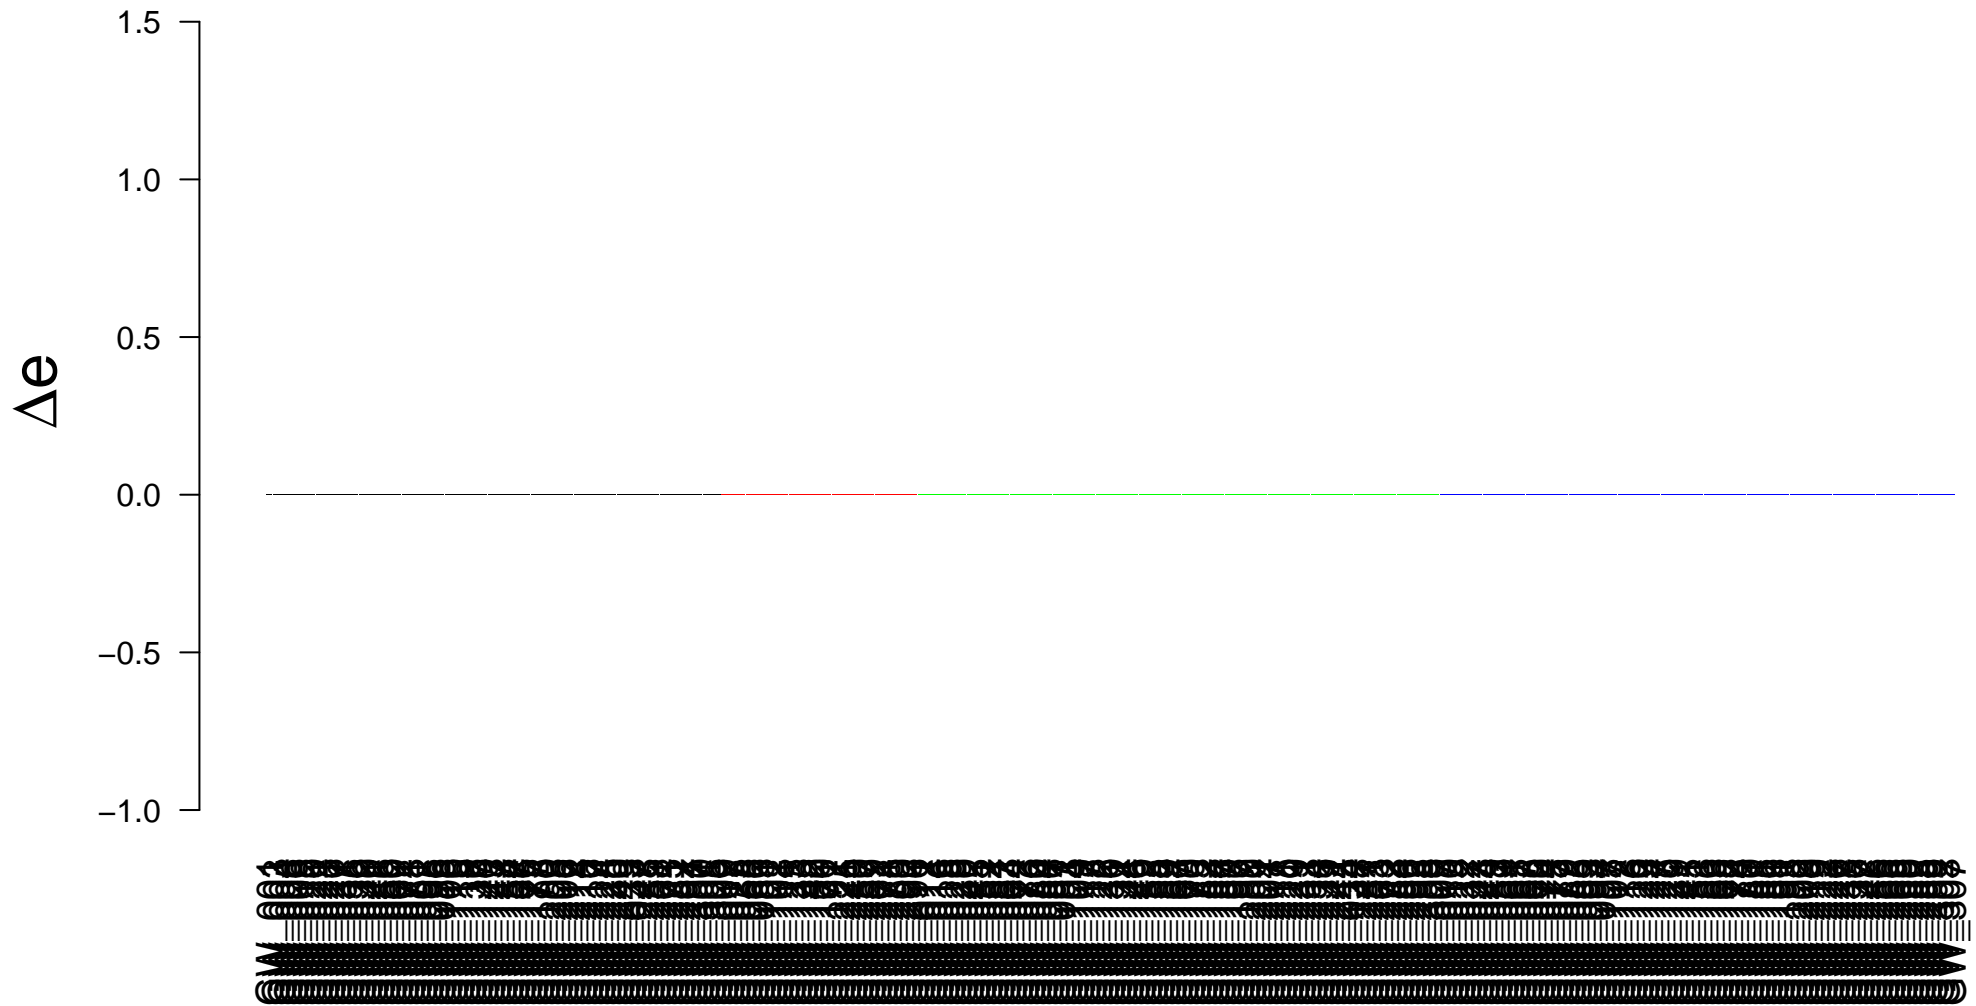

Expression of mRNA transcription from RNA polymerase II promoter in Spot B

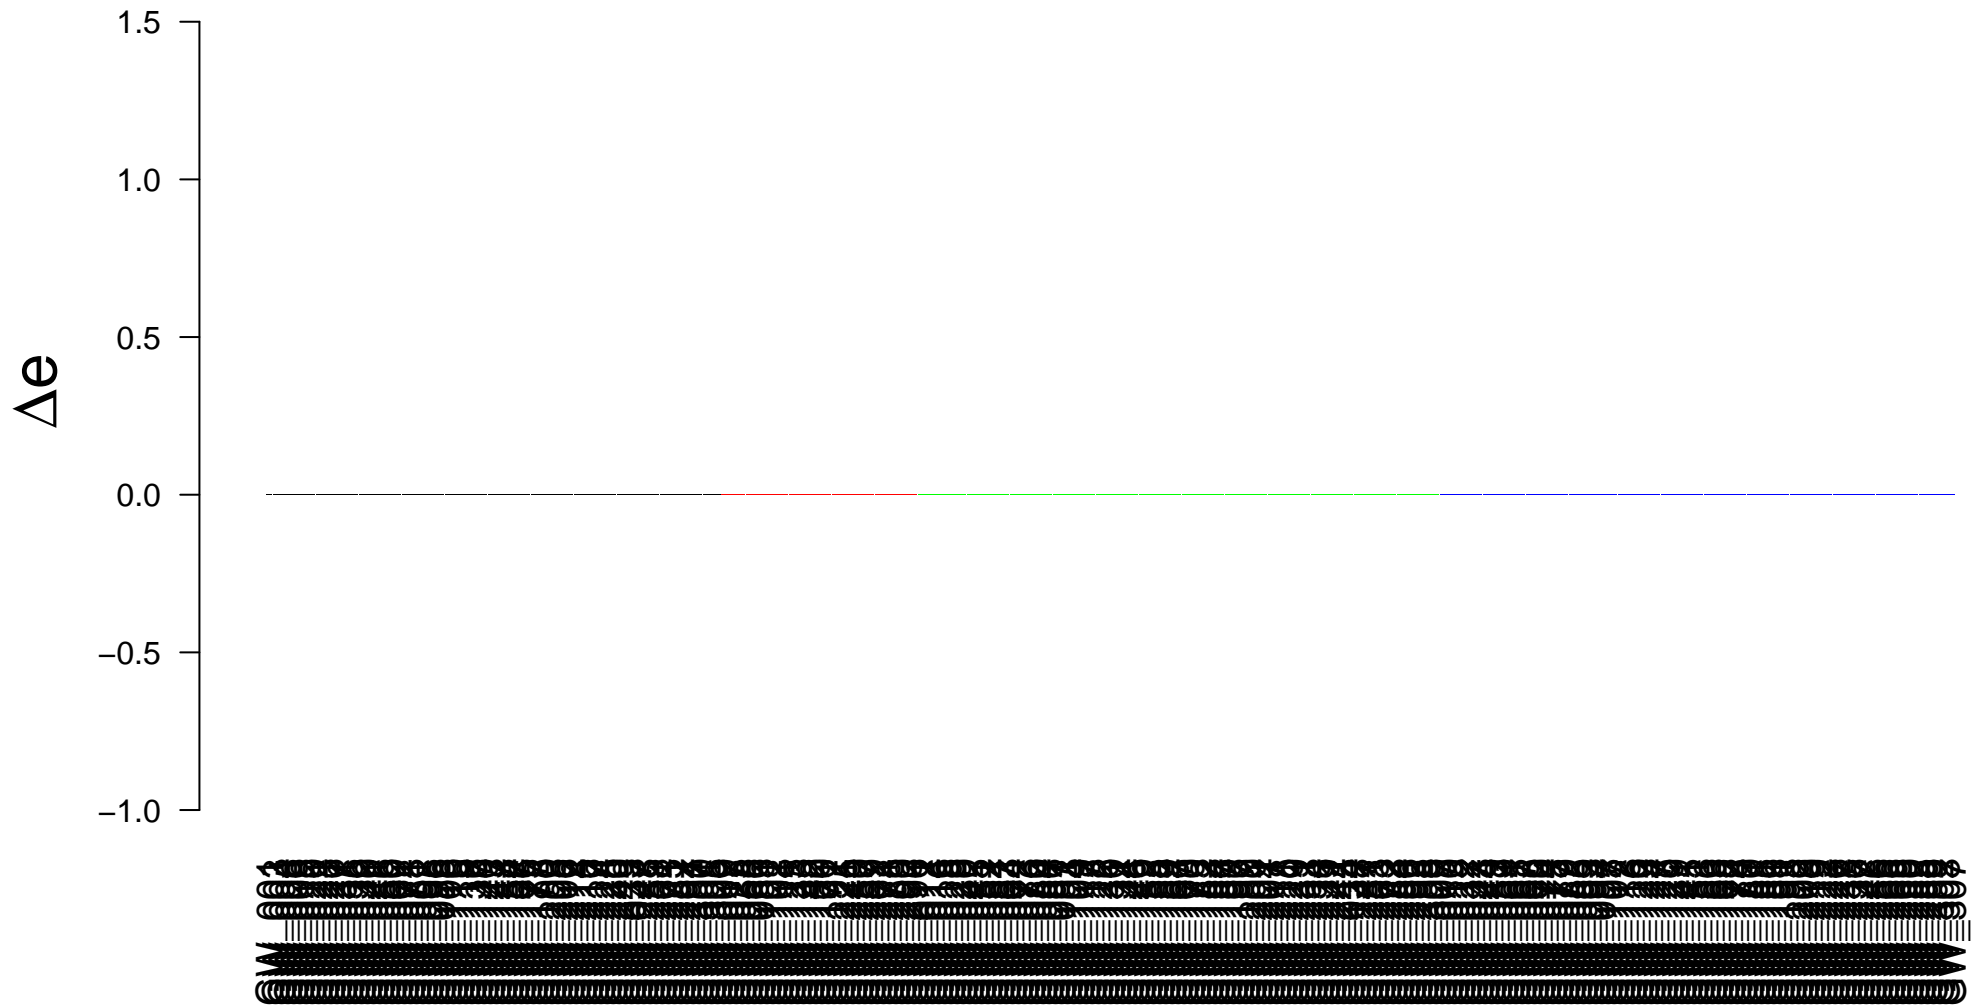

Expression of mRNA transcription from RNA polymerase II promoter in Spot C

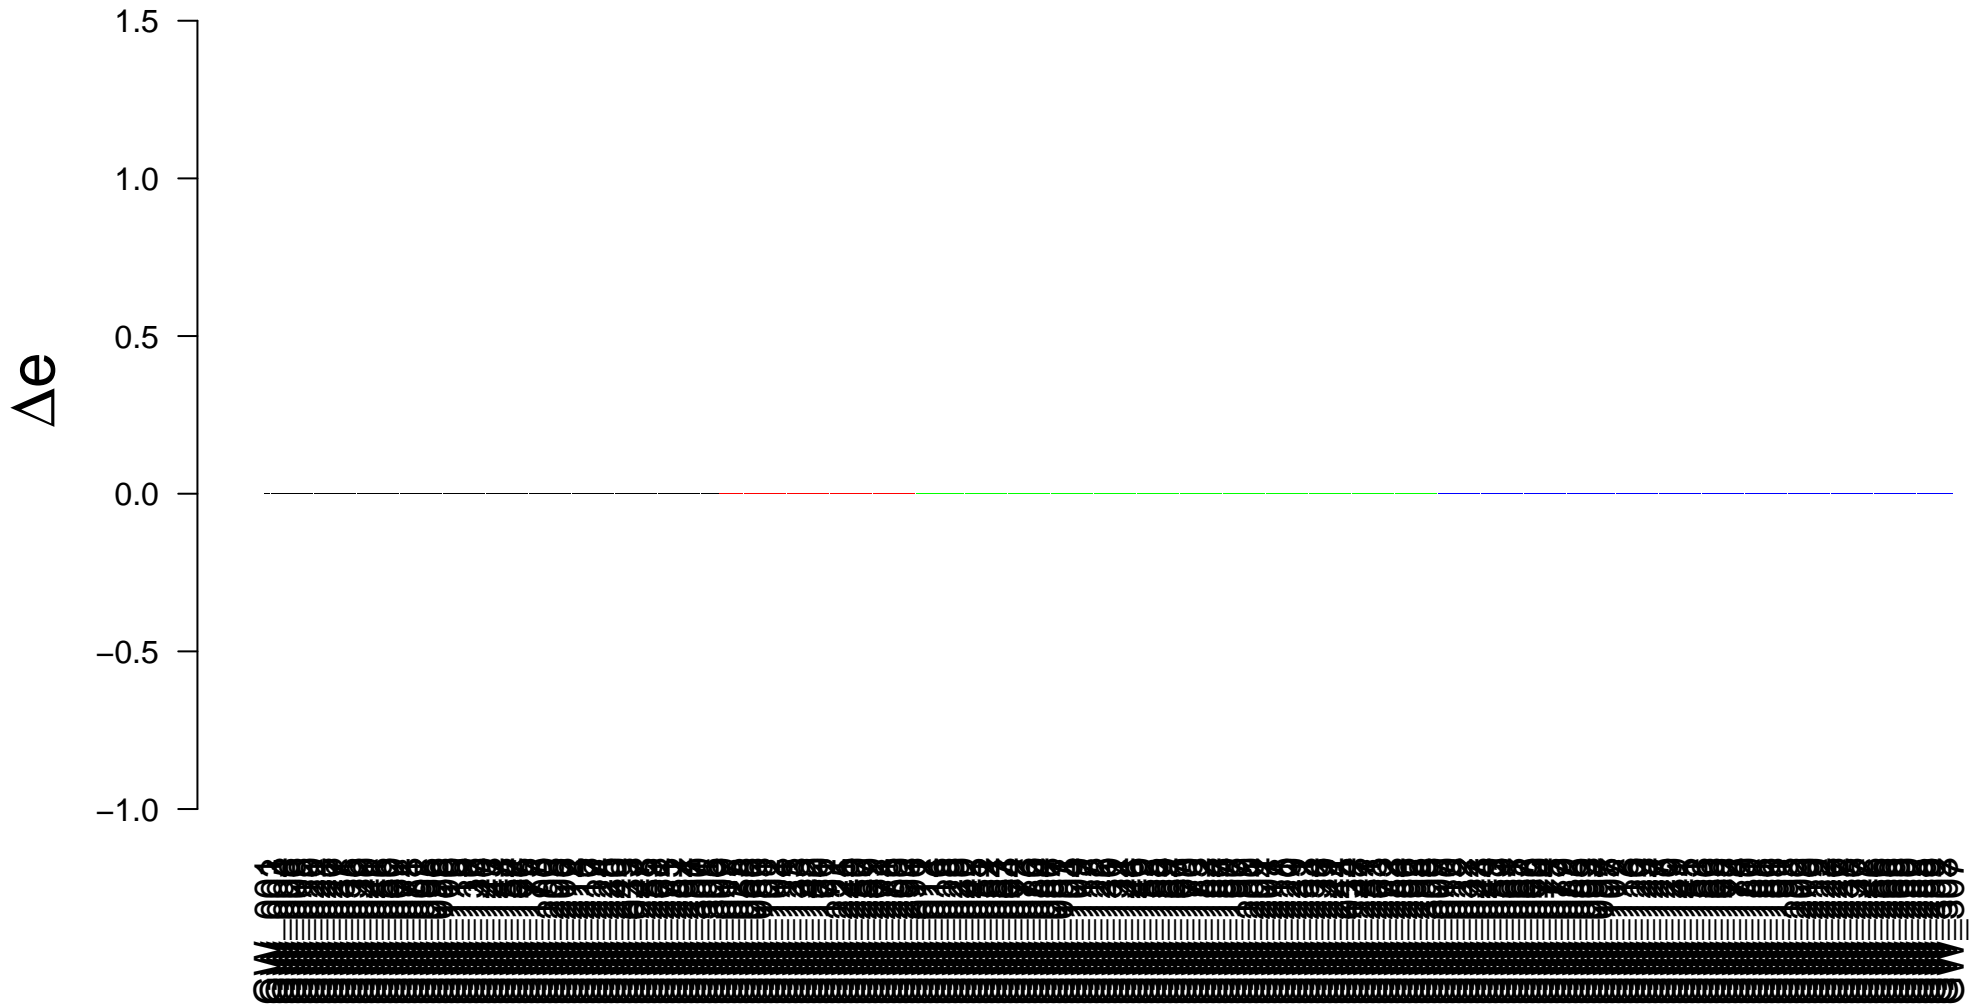

Expression of mRNA transcription from RNA polymerase II promoter in Spot D

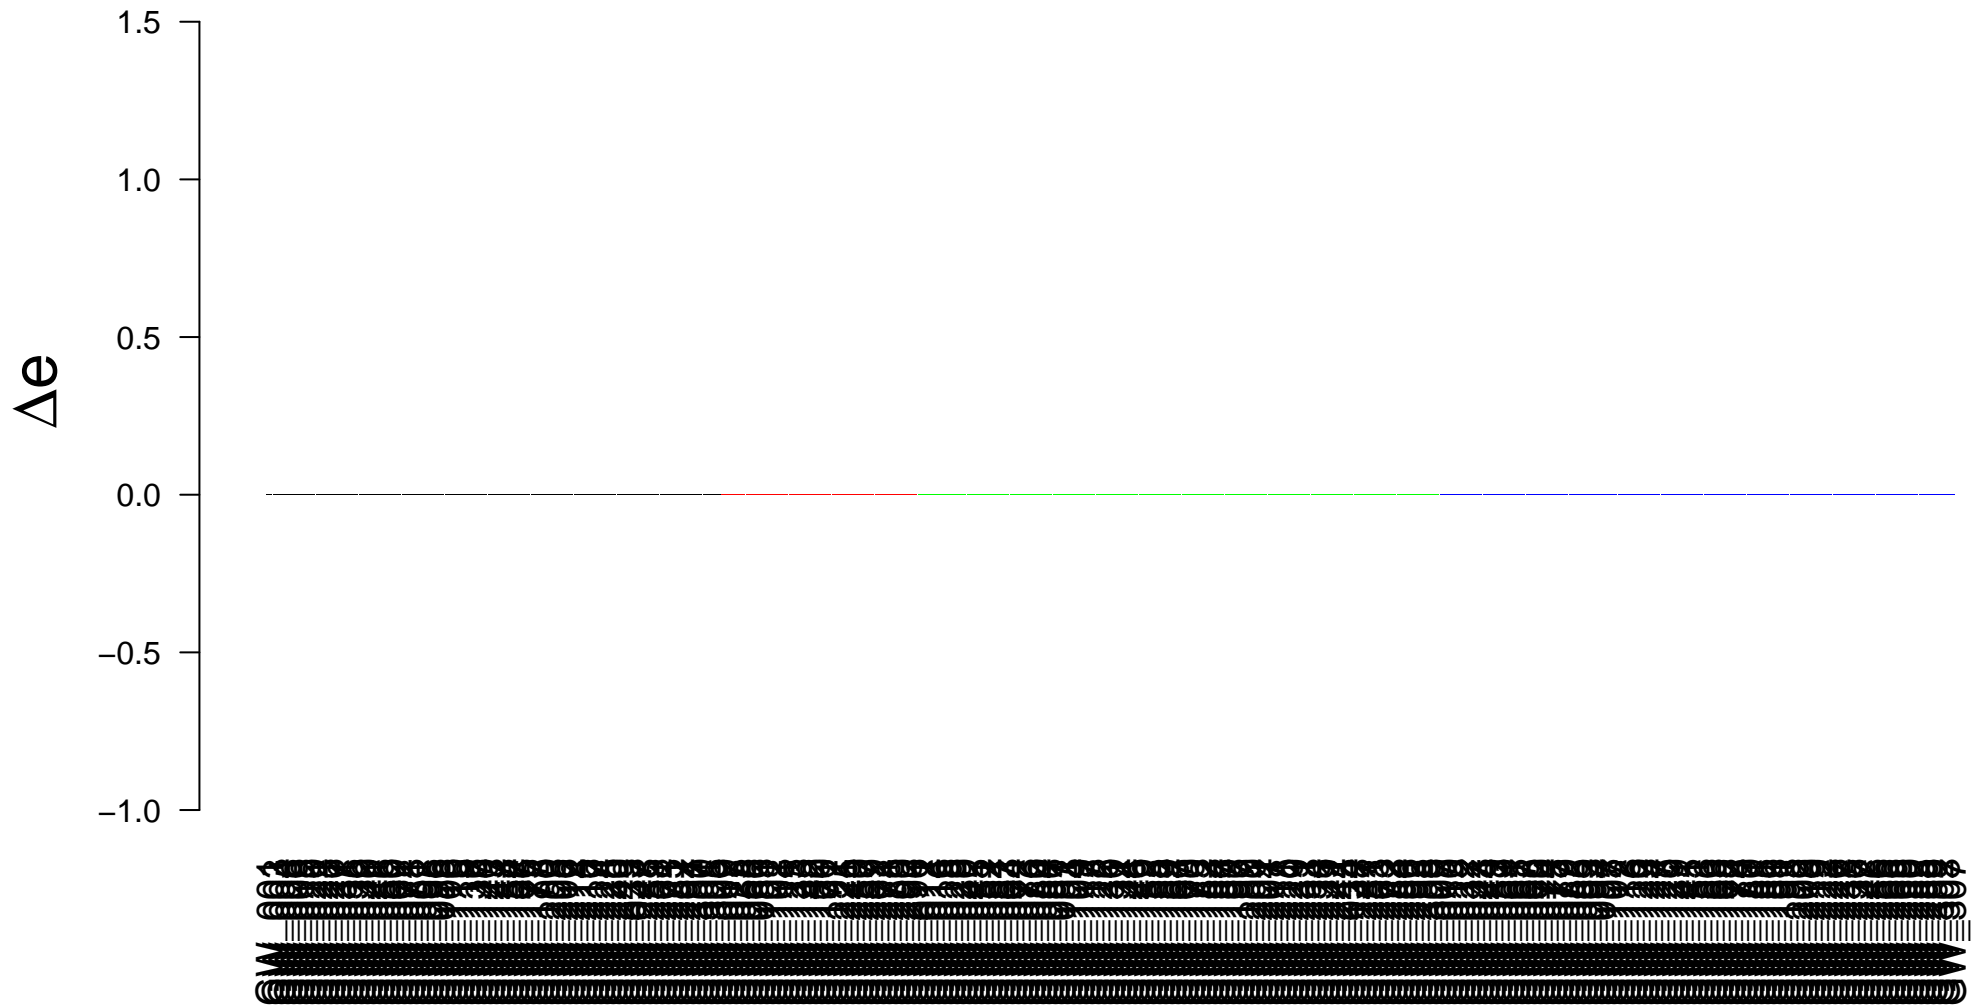

Expression of mRNA transcription from RNA polymerase II promoter in Spot E

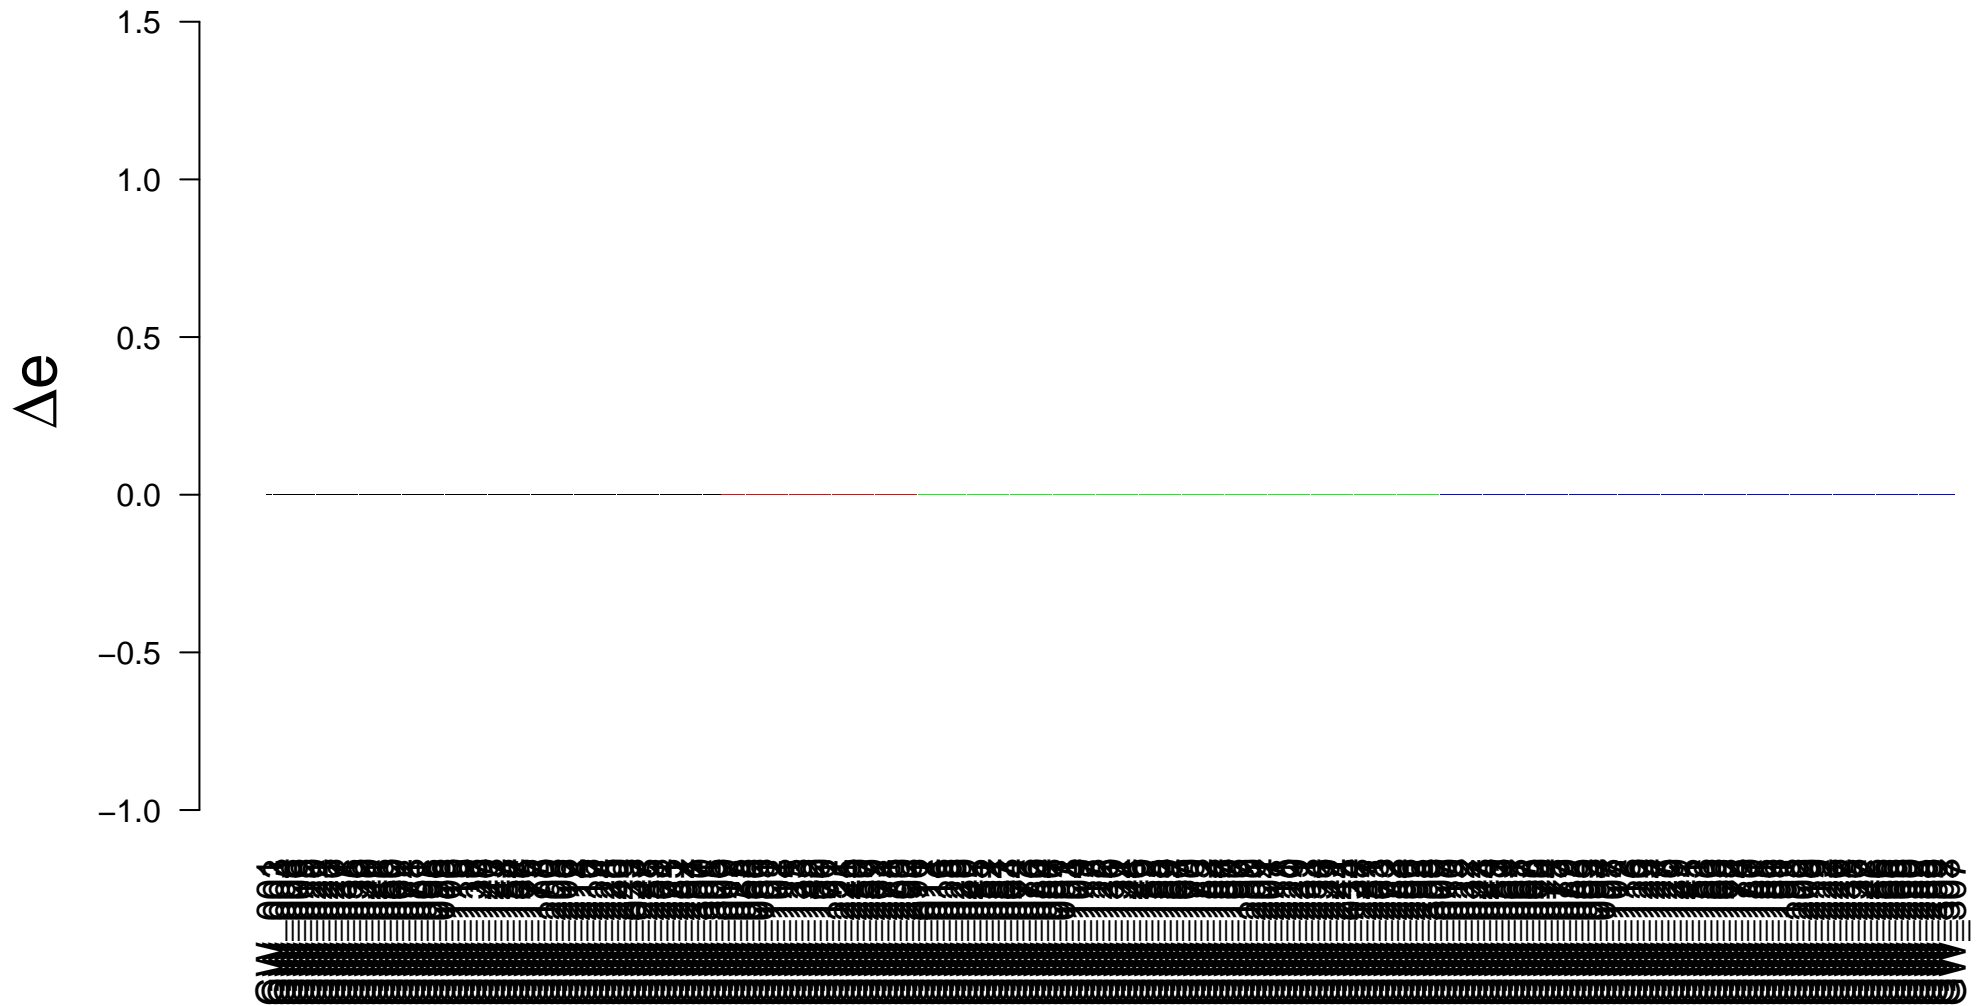

Expression of mRNA transcription from RNA polymerase II promoter in Spot F

Expression of mRNA transcription from RNA polymerase II promoter in Spot G

Expression of mRNA transcription from RNA polymerase II promoter in Spot H

Expression of mRNA transcription from RNA polymerase II promoter in Spot I

Expression of mRNA transcription from RNA polymerase II promoter in Spot J

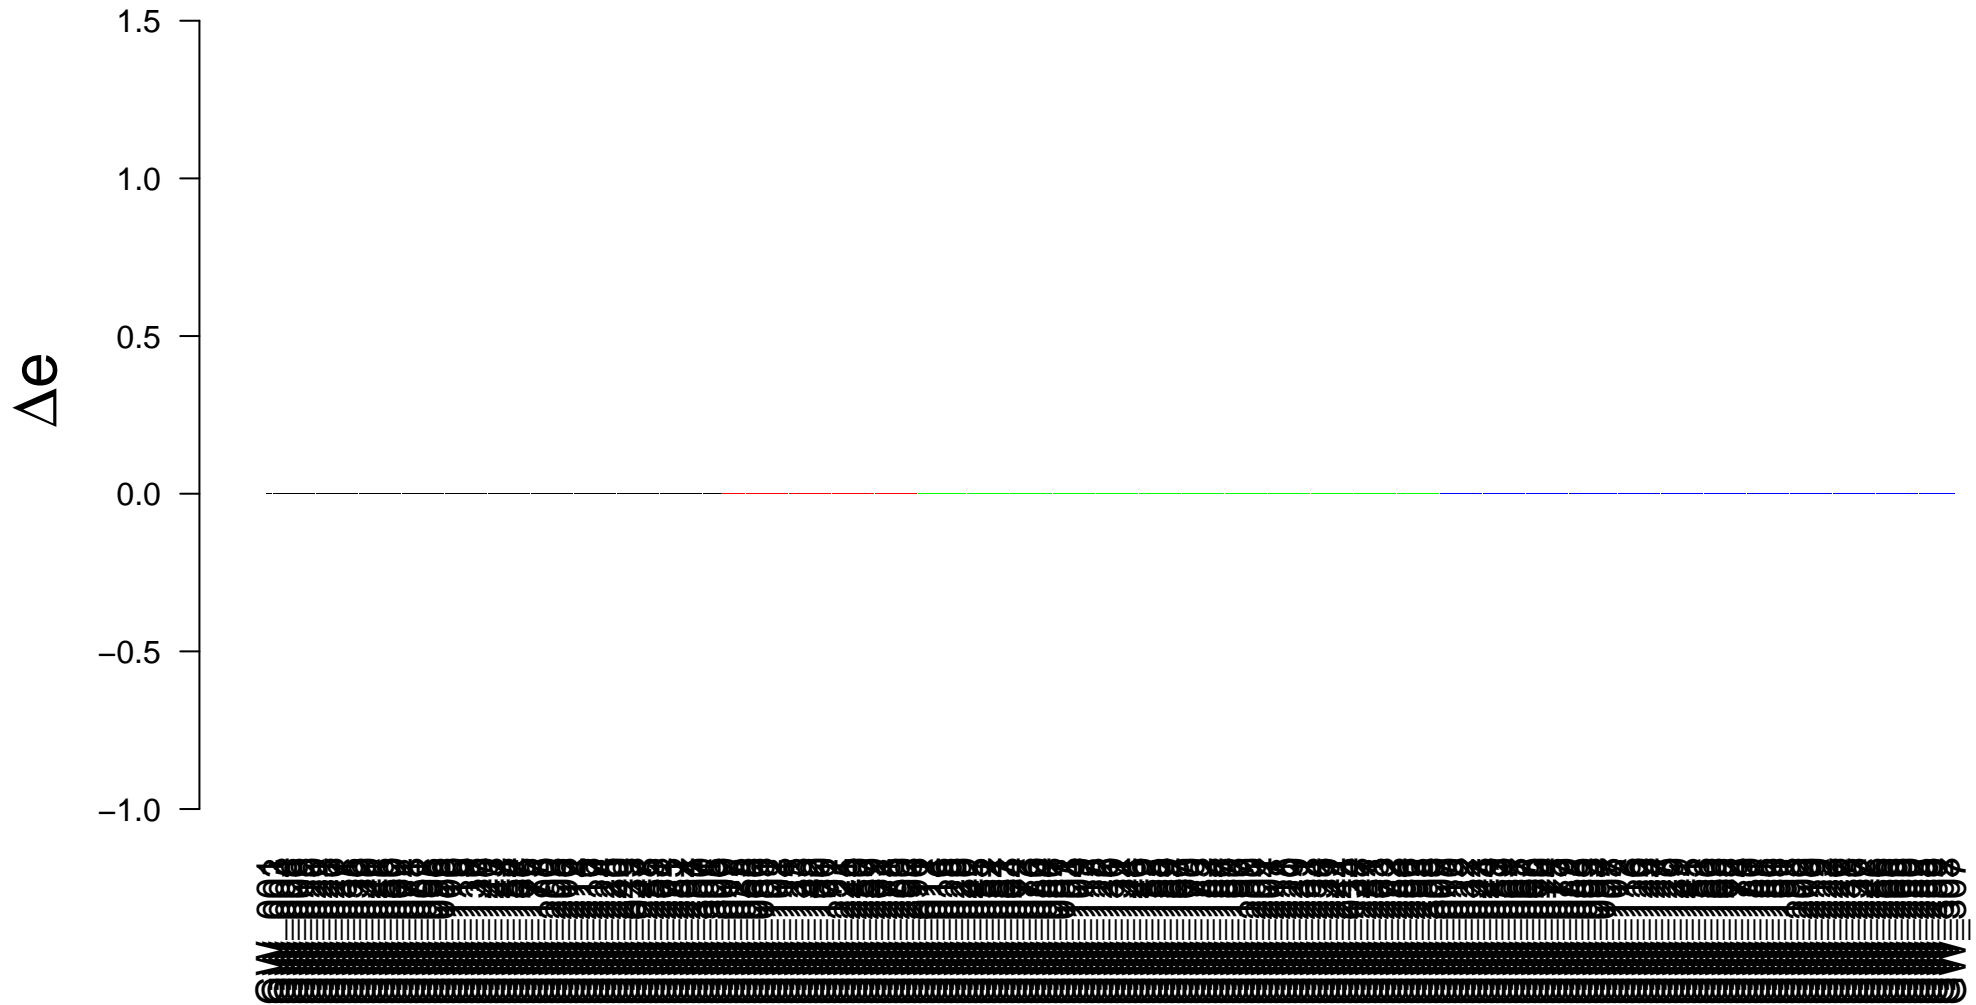

Expression of mRNA transcription from RNA polymerase II promoter in Spot K

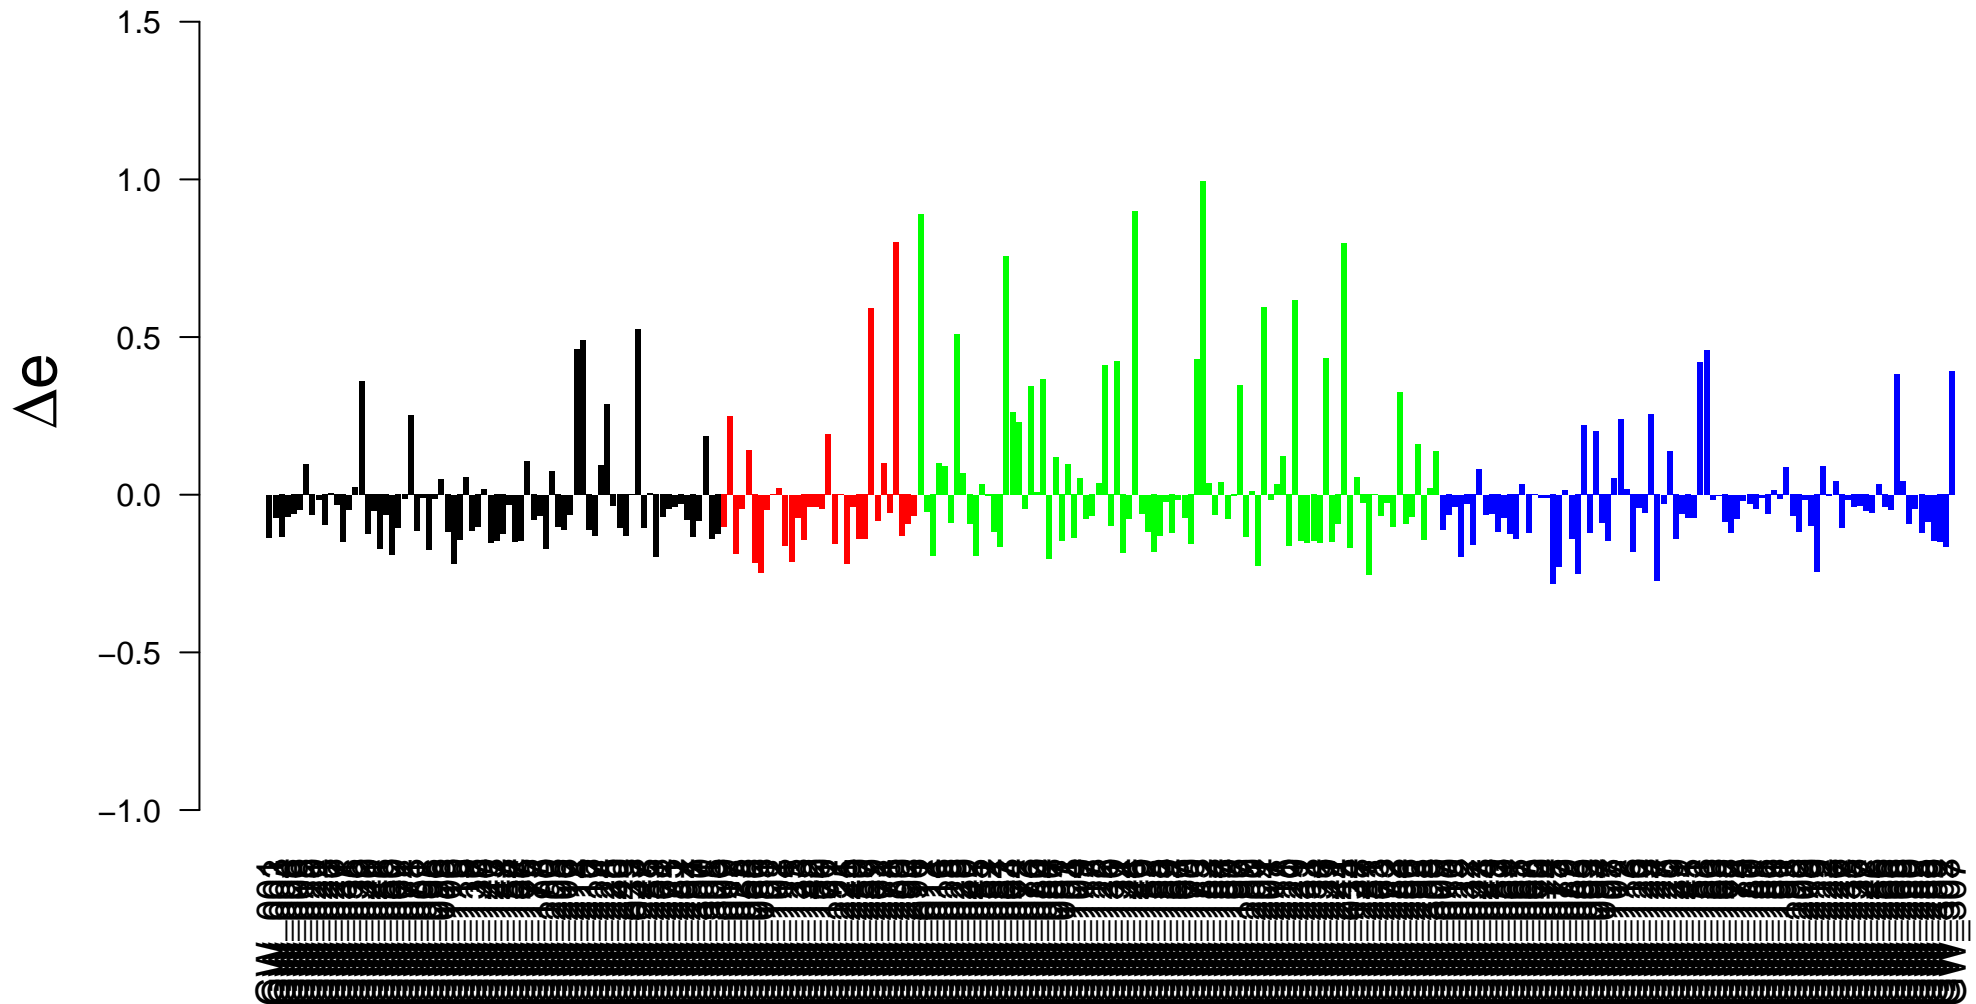

Expression of mRNA transcription from RNA polymerase II promoter in Spot L

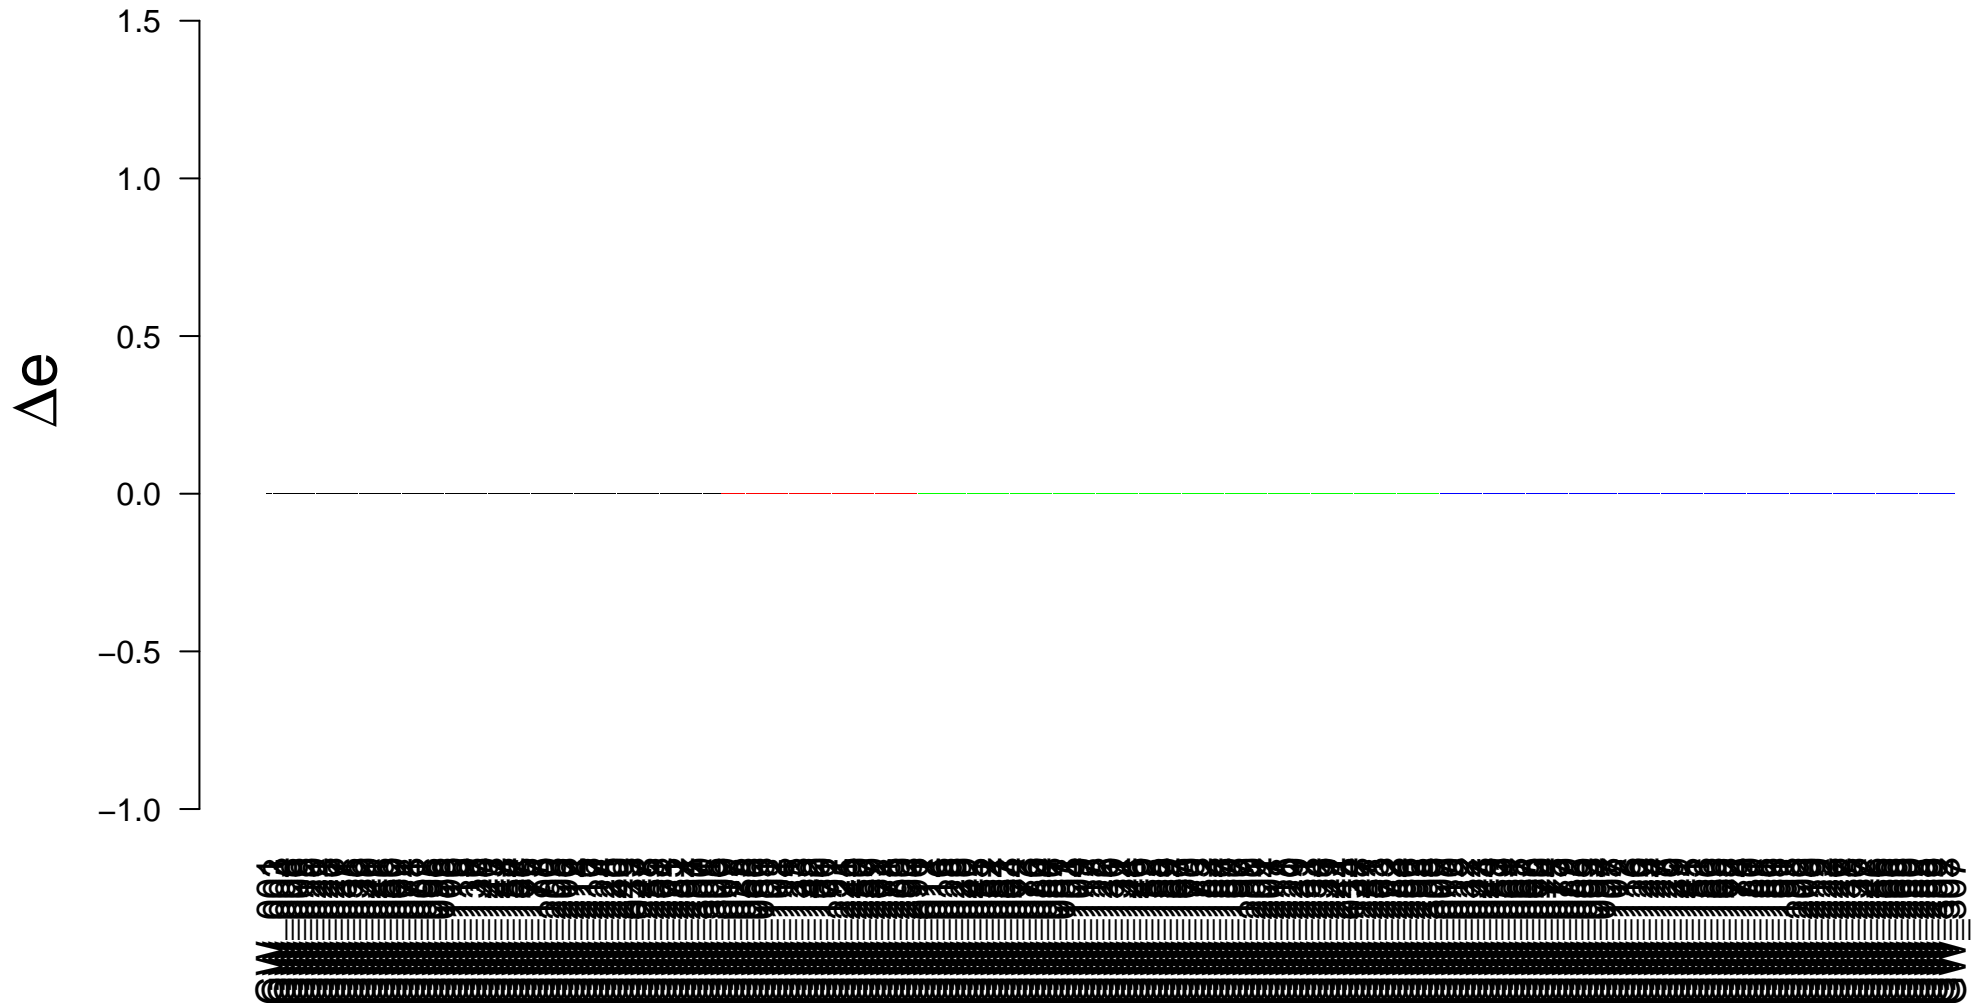

Expression of mRNA transcription from RNA polymerase II promoter in Spot M

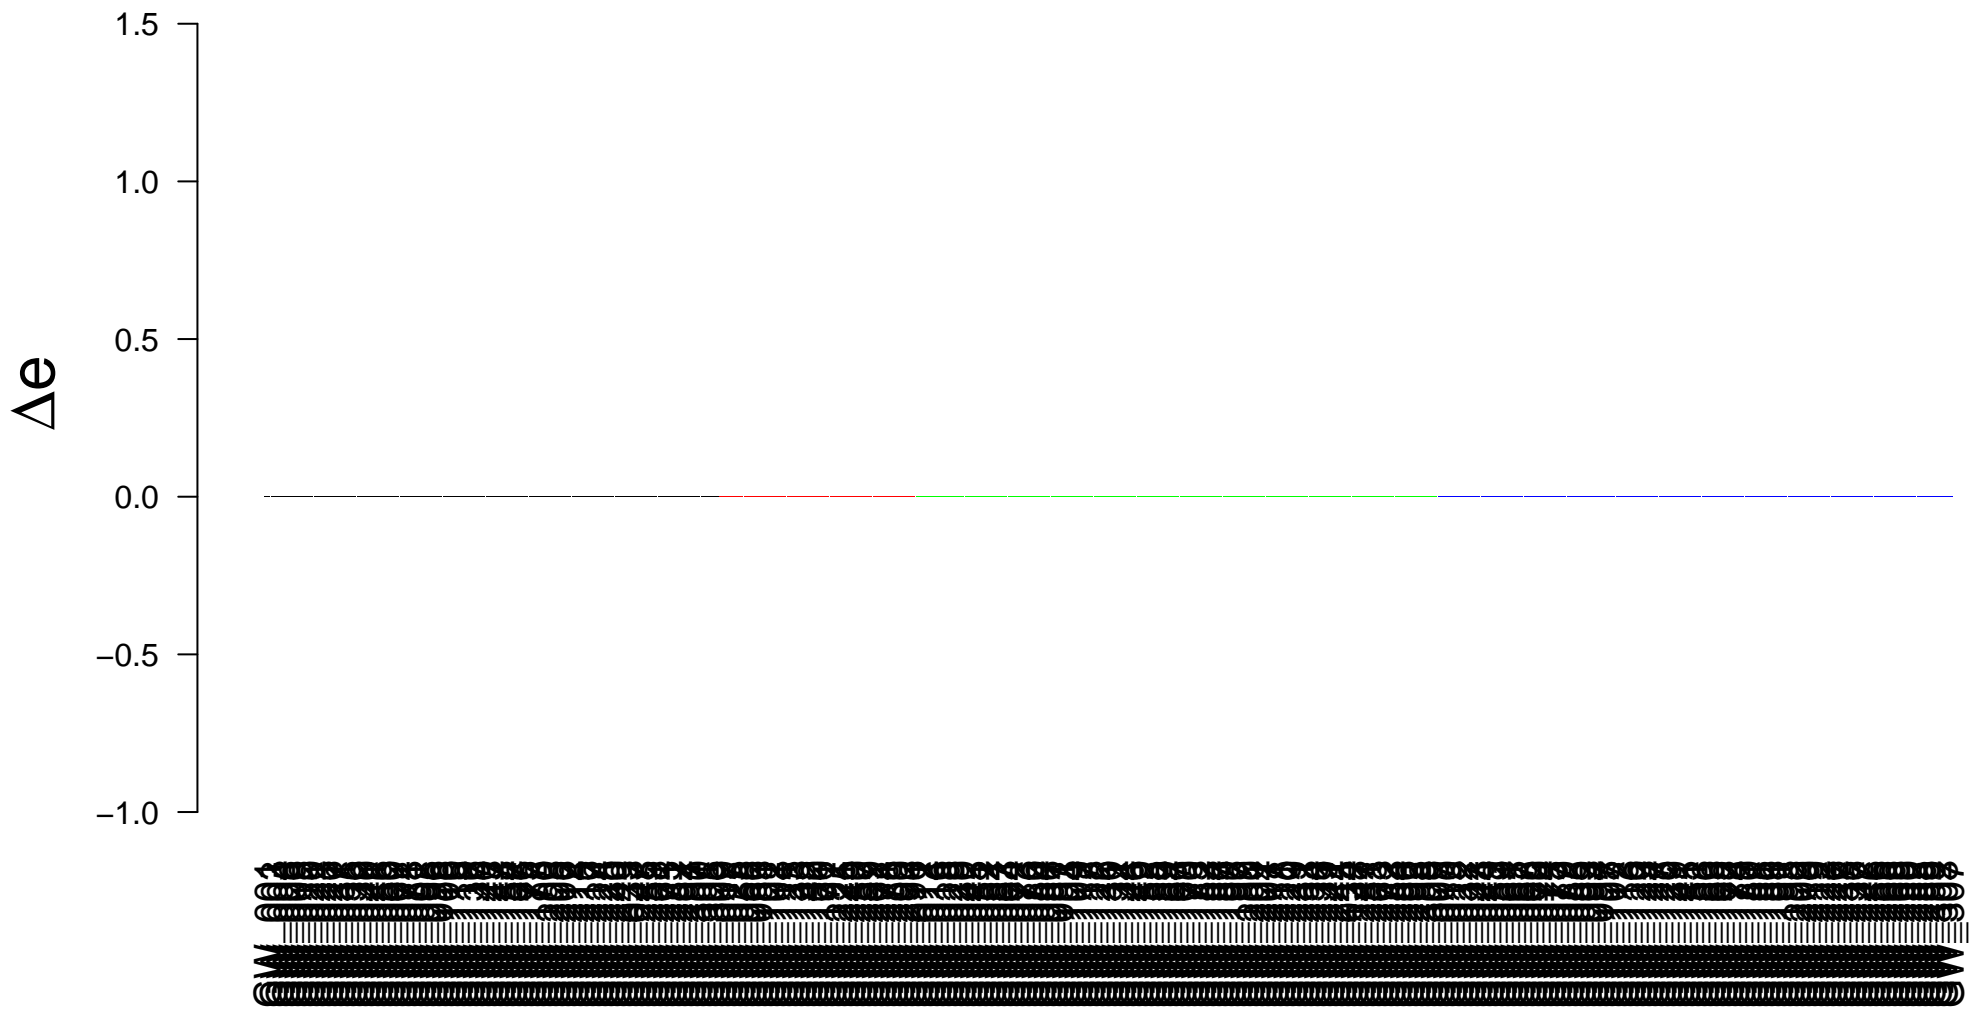

Expression of mRNA transcription from RNA polymerase II promoter in Spot N

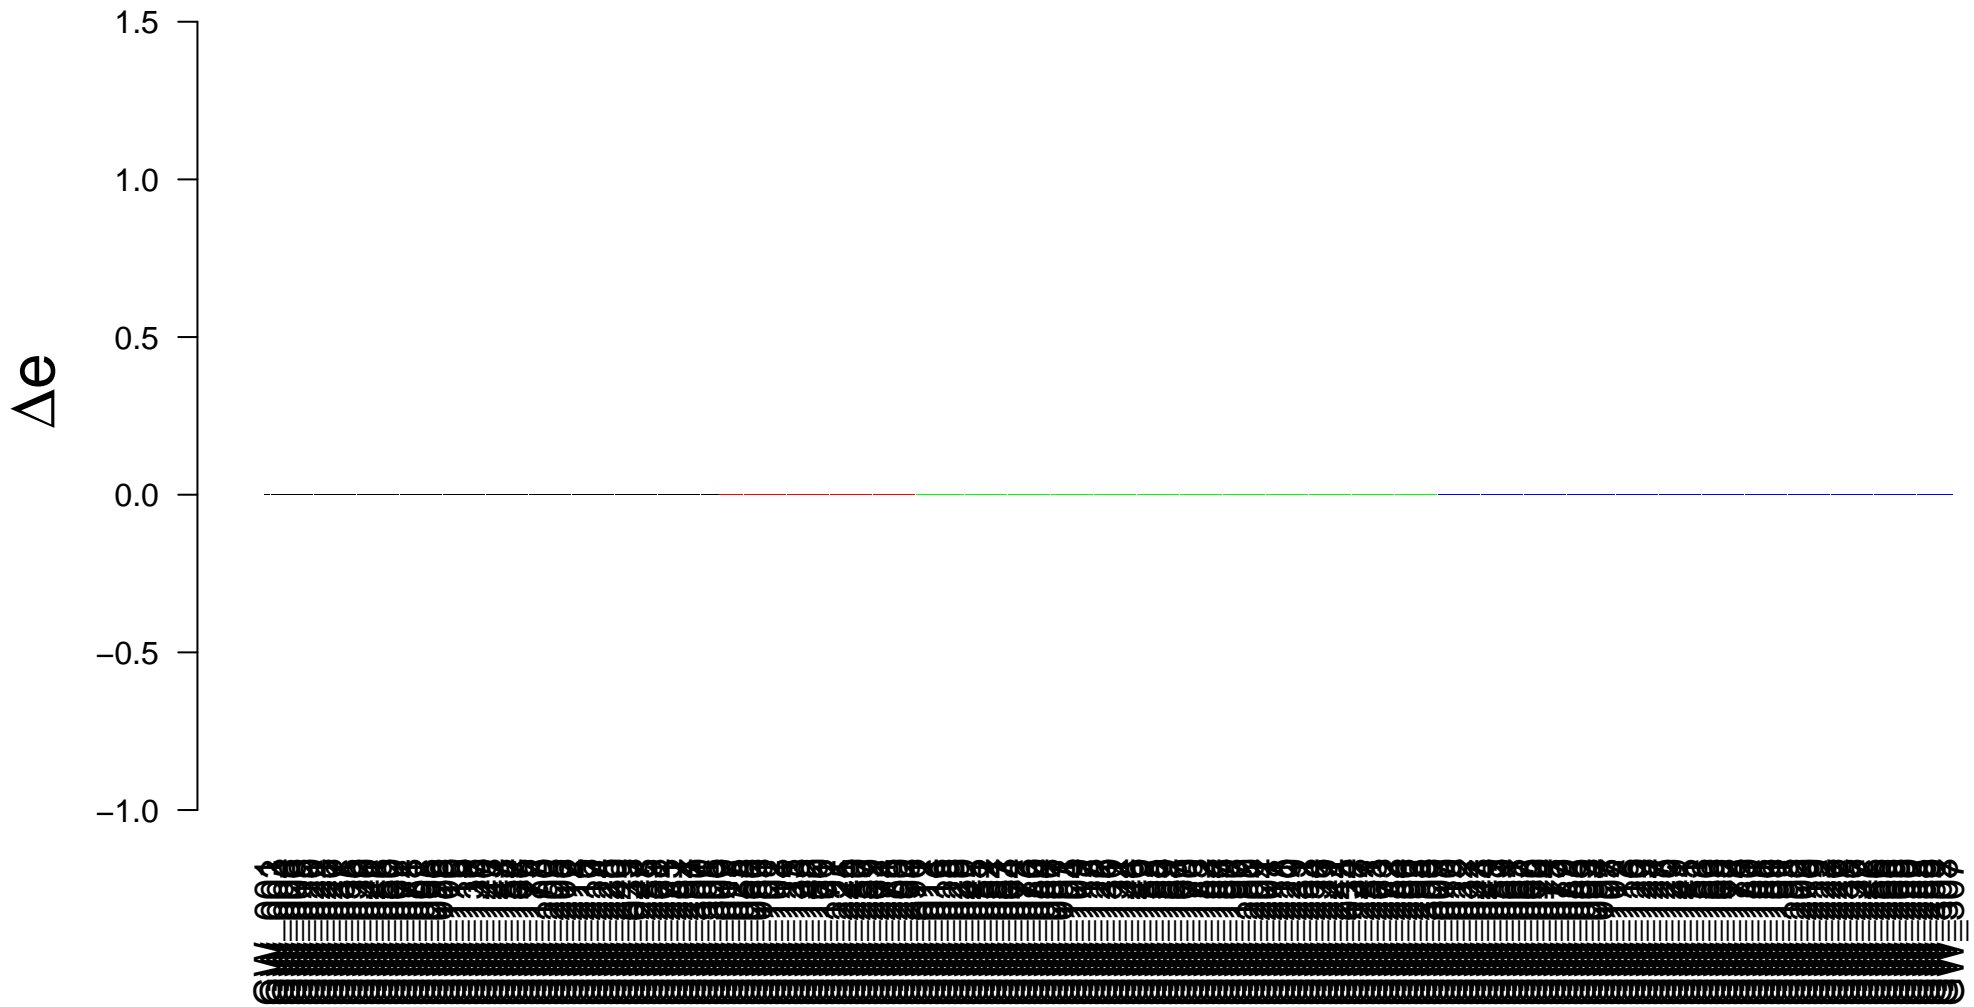

Expression of mRNA transcription from RNA polymerase II promoter in Spot O

Expression of mRNA transcription from RNA polymerase II promoter in Spot P

Expression of mRNA transcription from RNA polymerase II promoter in Spot Q

Expression of mRNA transcription from RNA polymerase II promoter in Spot R
