

mitogen-activated protein kinase kinase kinase binding

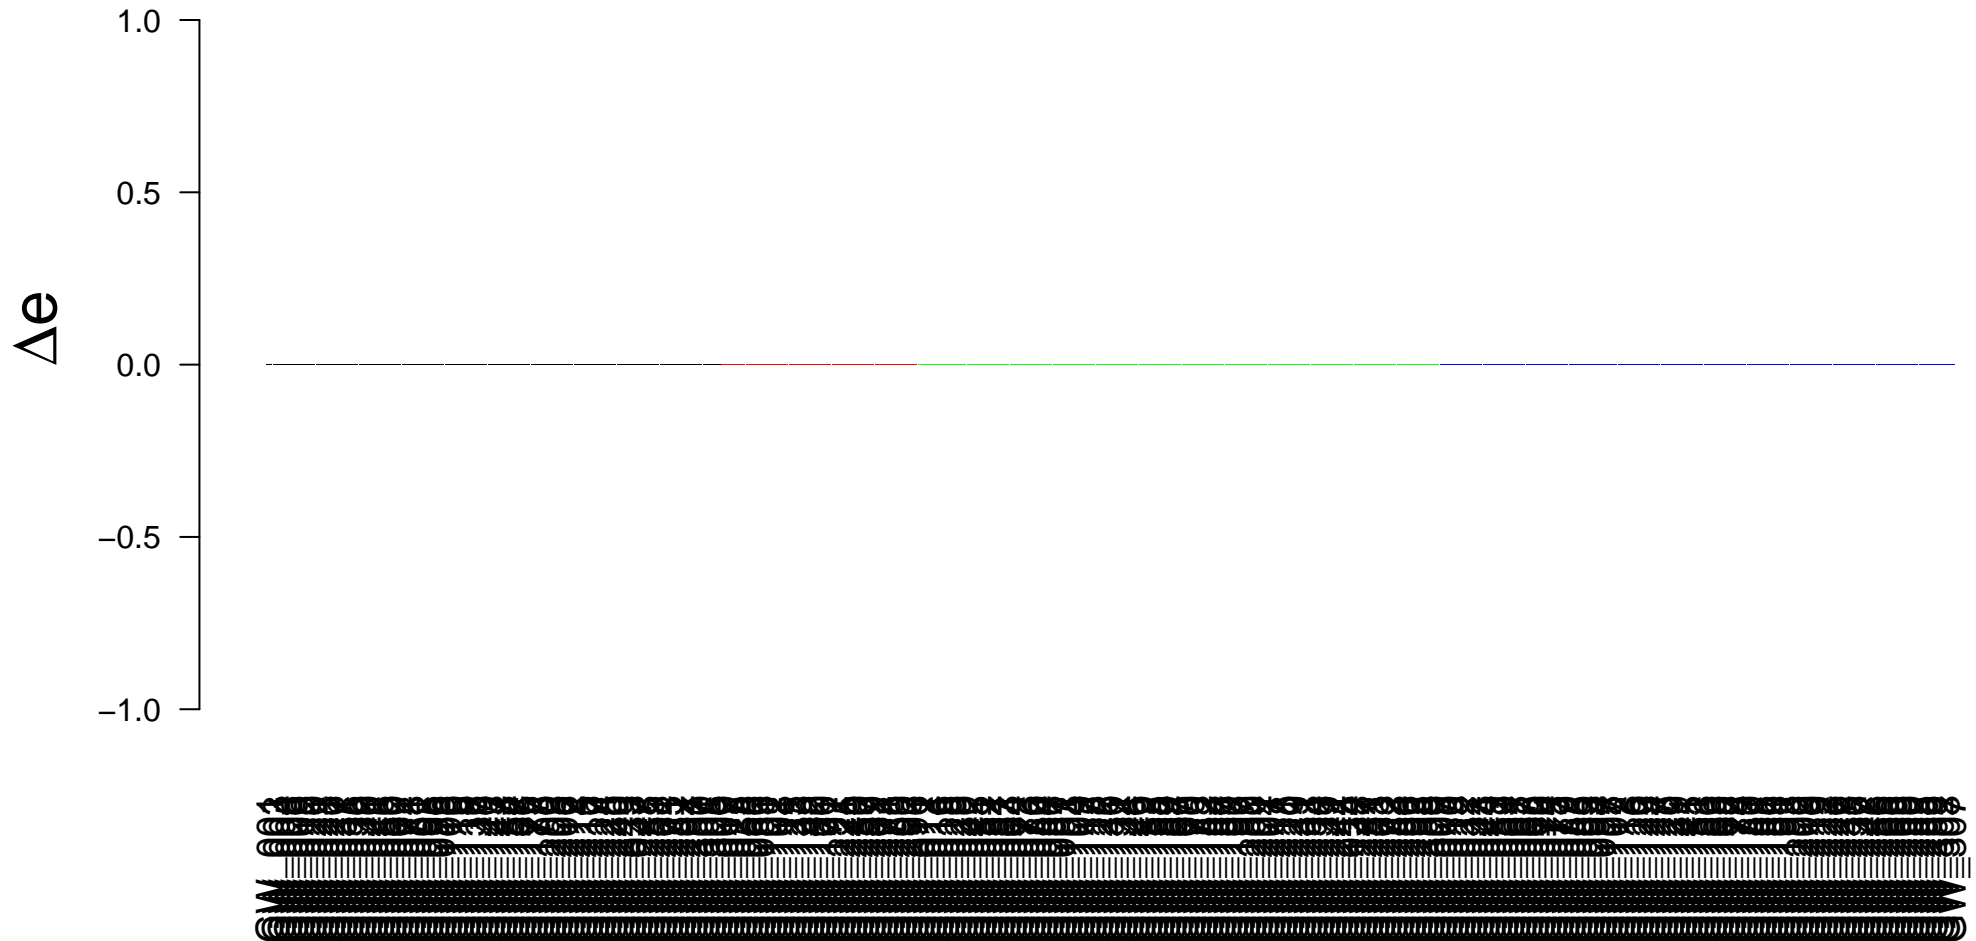

mitogen-activated protein kinase kinase kinase binding

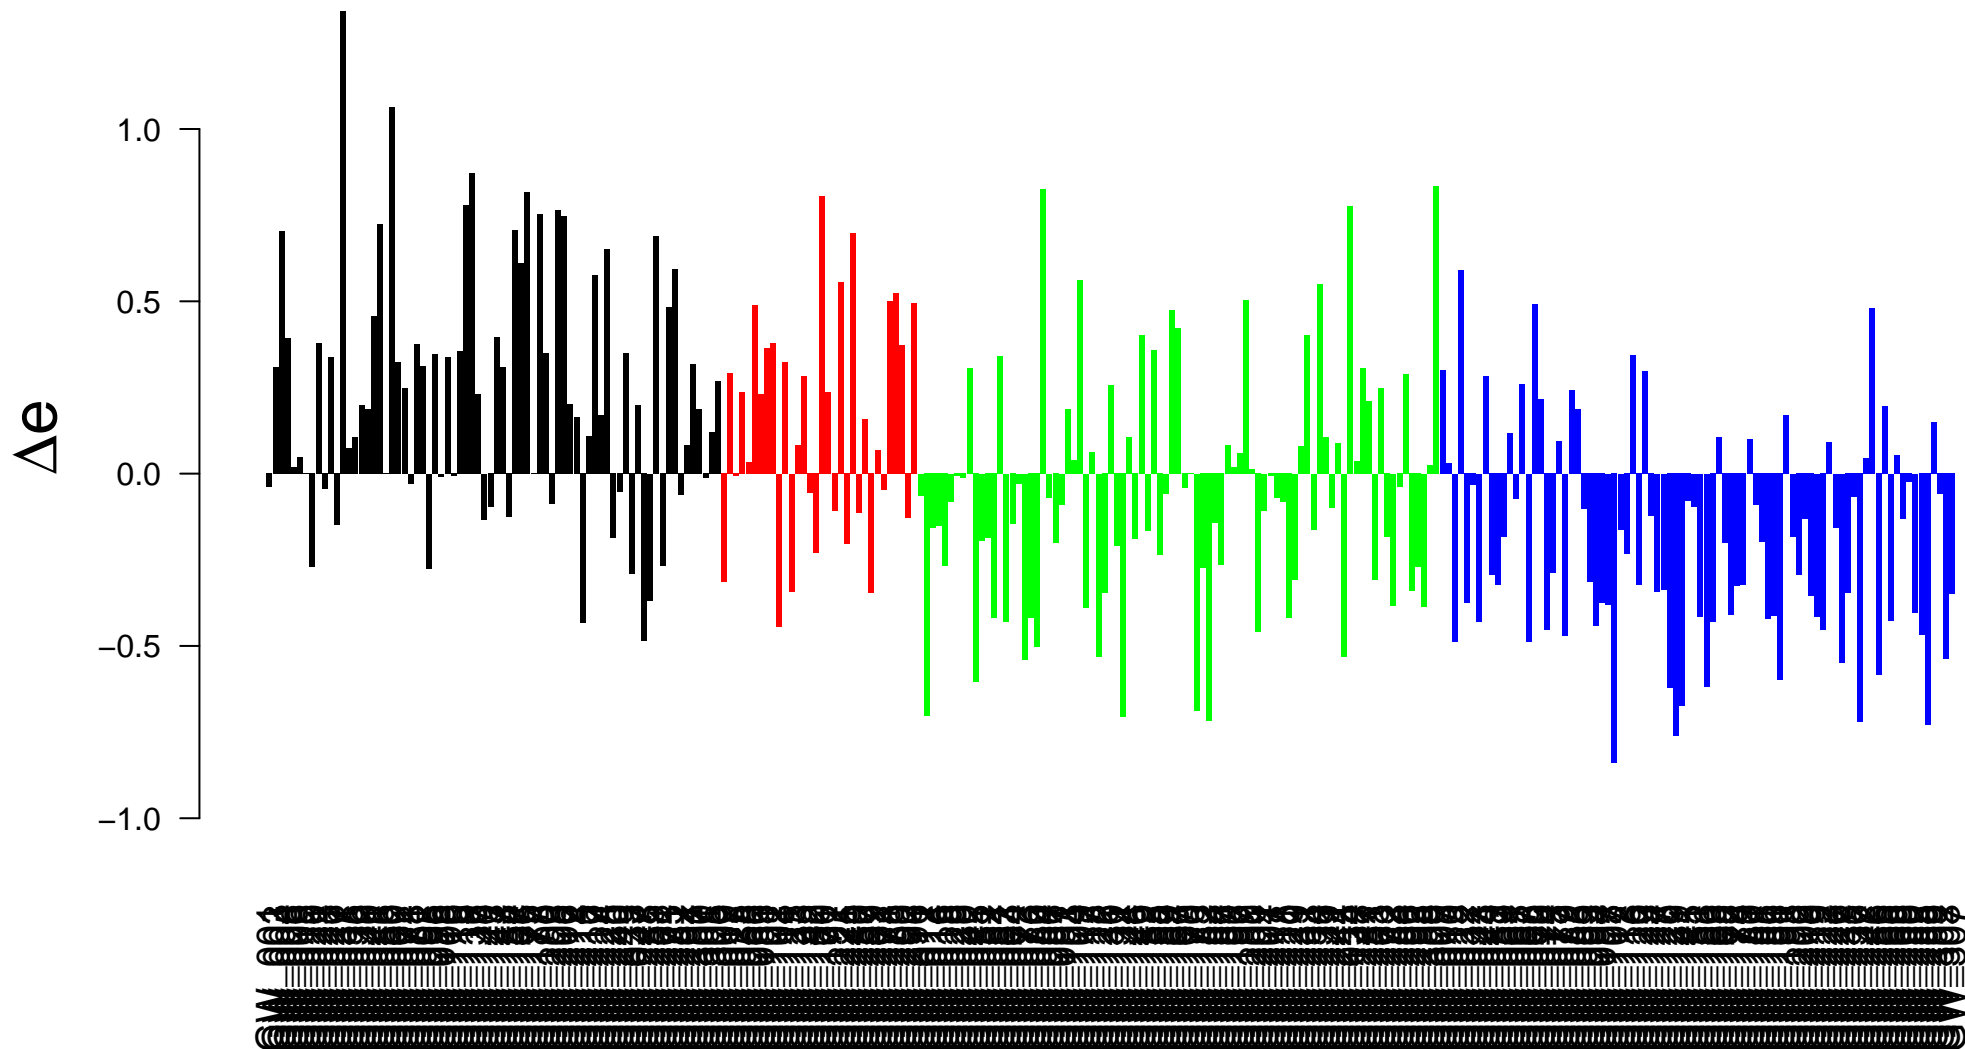

Enrichment in spots: mitogen-activated protein kinase kinase kinase binding

Expression of mitogen-activated protein kinase kinase kinase binding in Spot A

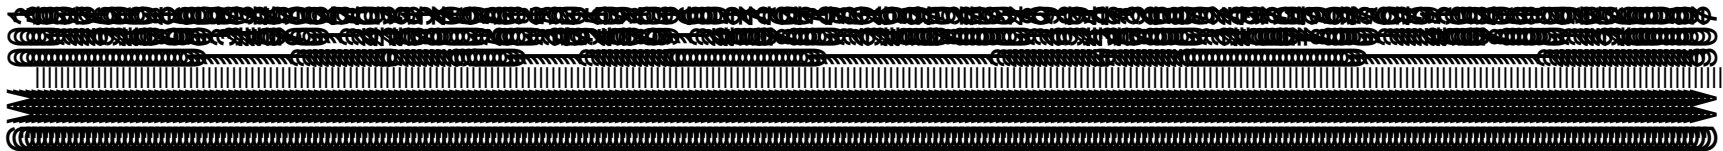

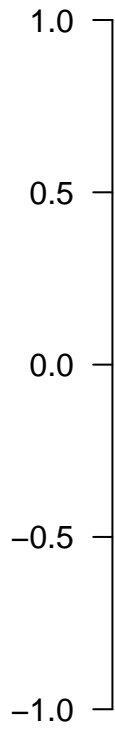

Expression of mitogen-activated protein kinase kinase kinase binding in Spot B

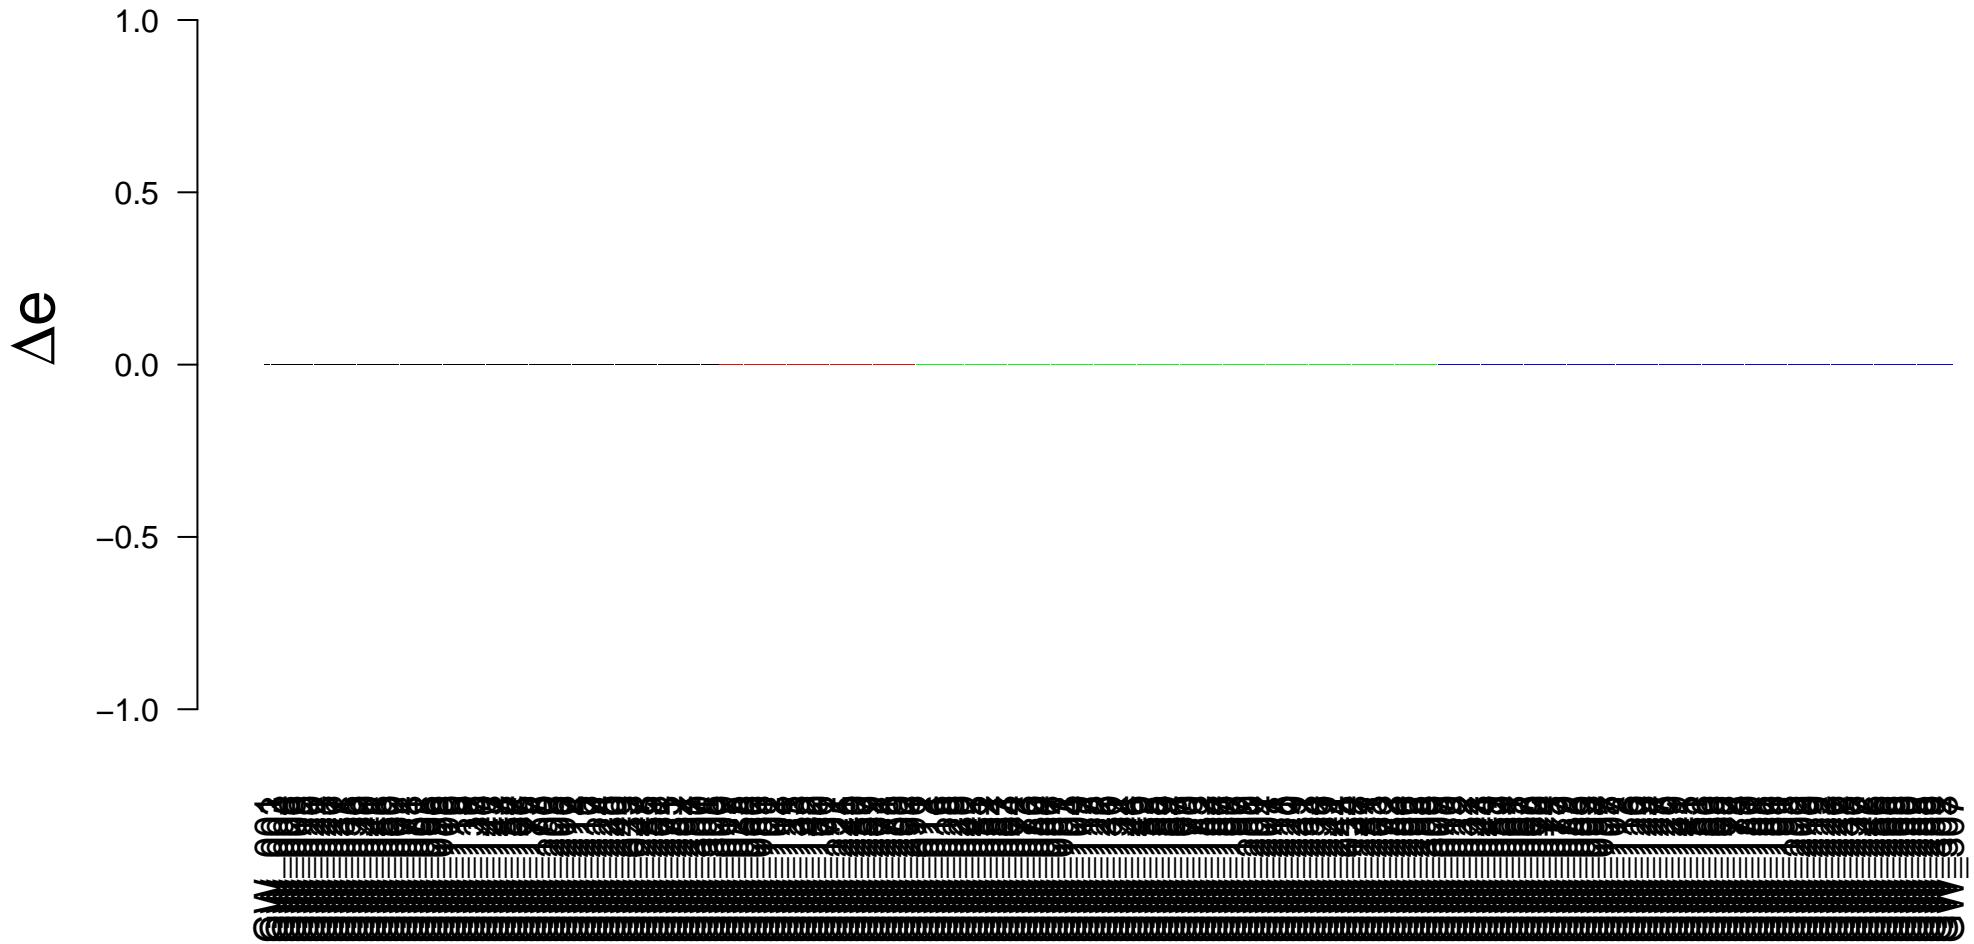

Expression of mitogen-activated protein kinase kinase kinase binding in Spot C

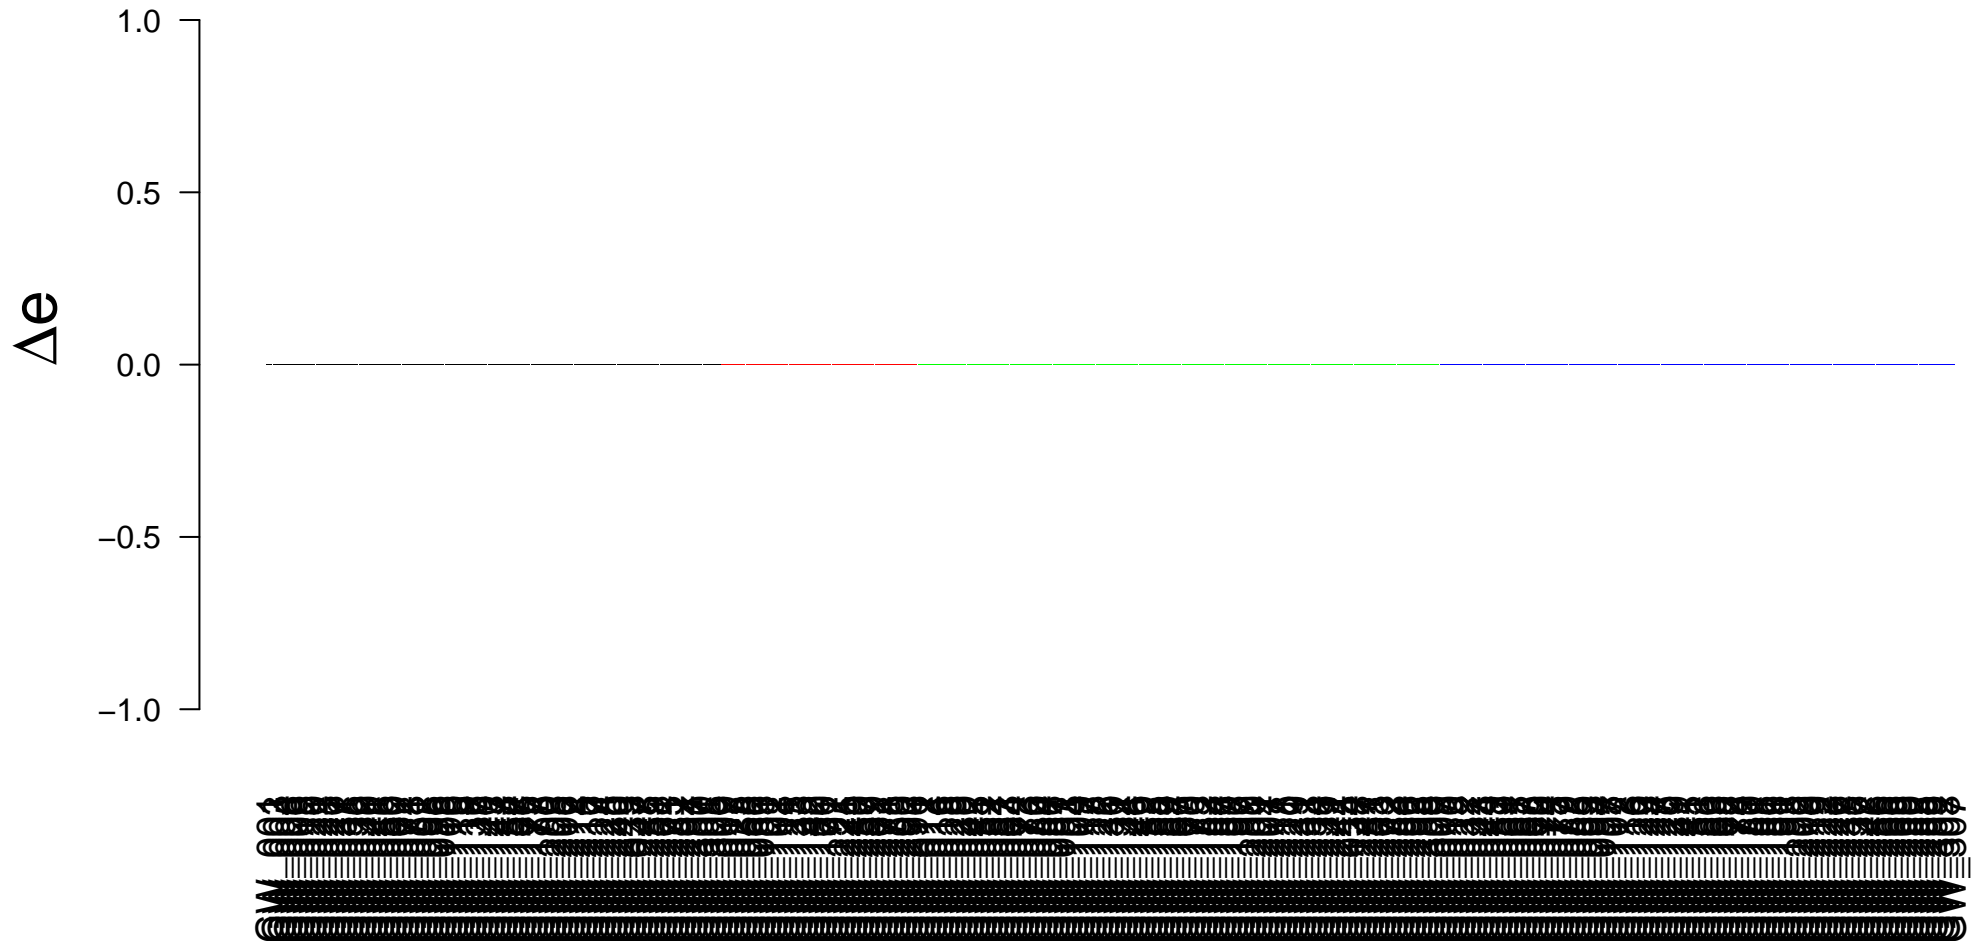

Δe

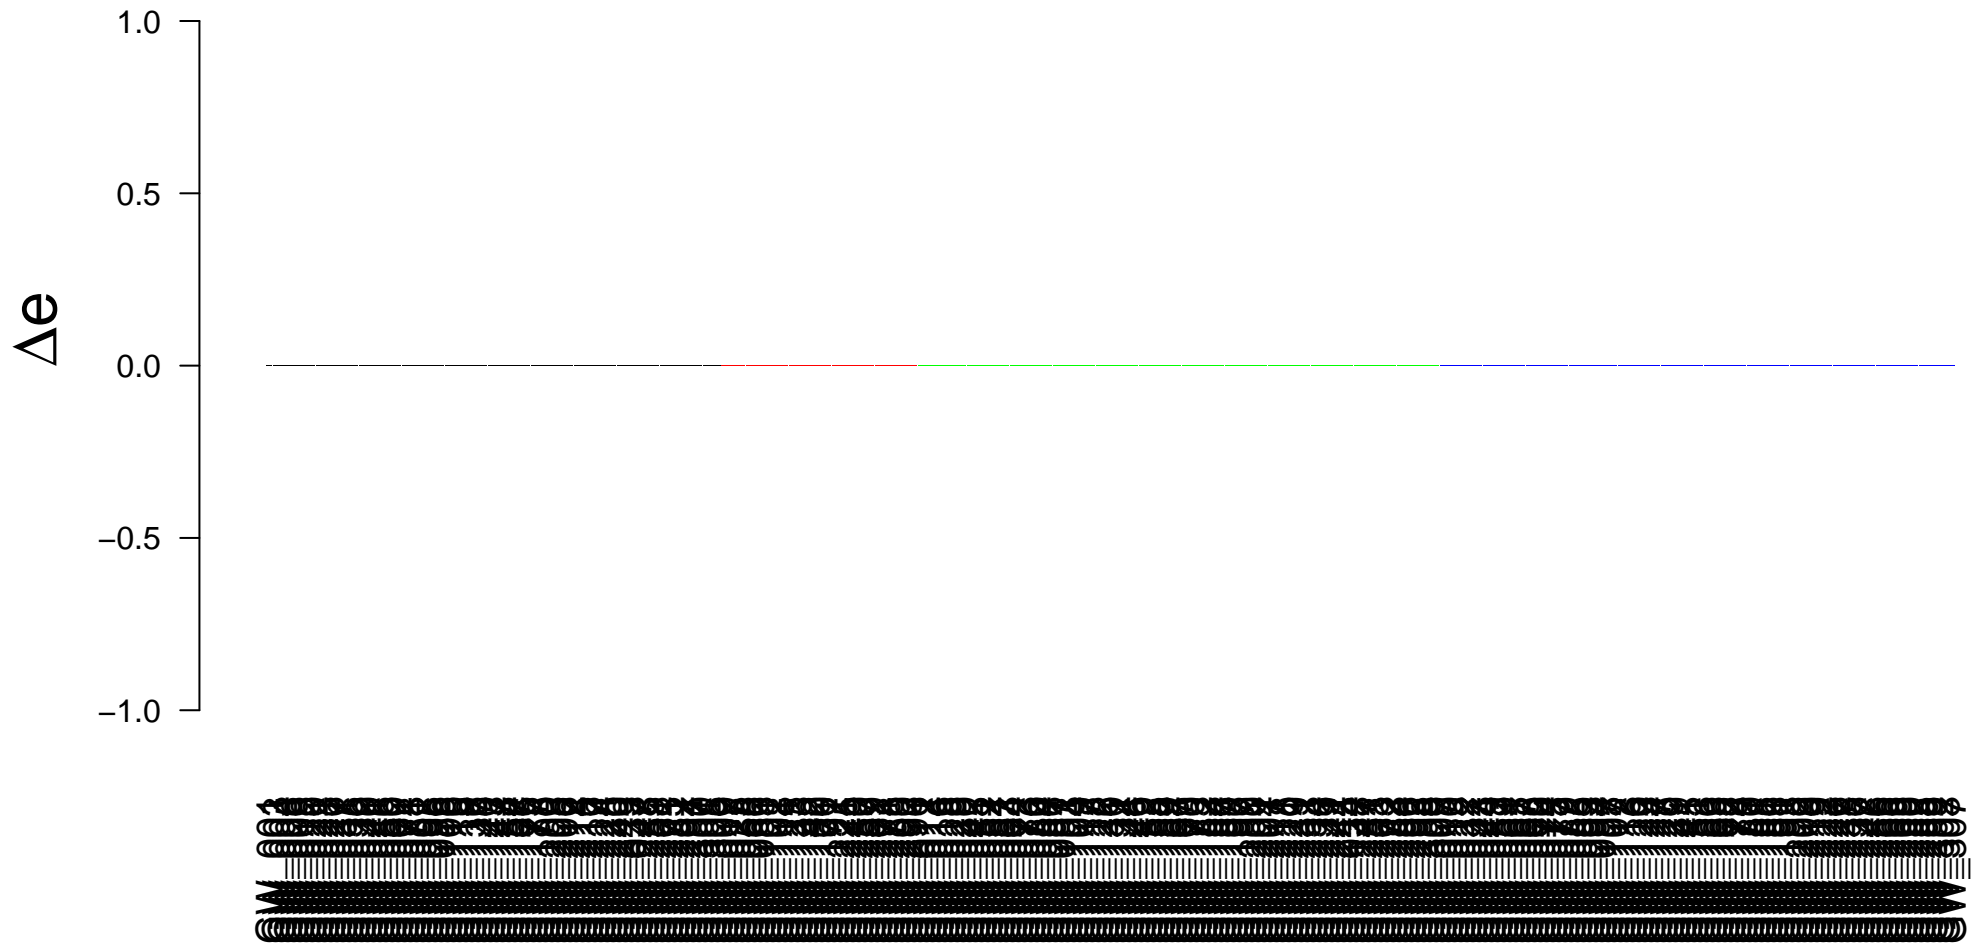

Expression of mitogen-activated protein kinase kinase kinase binding in Spot D

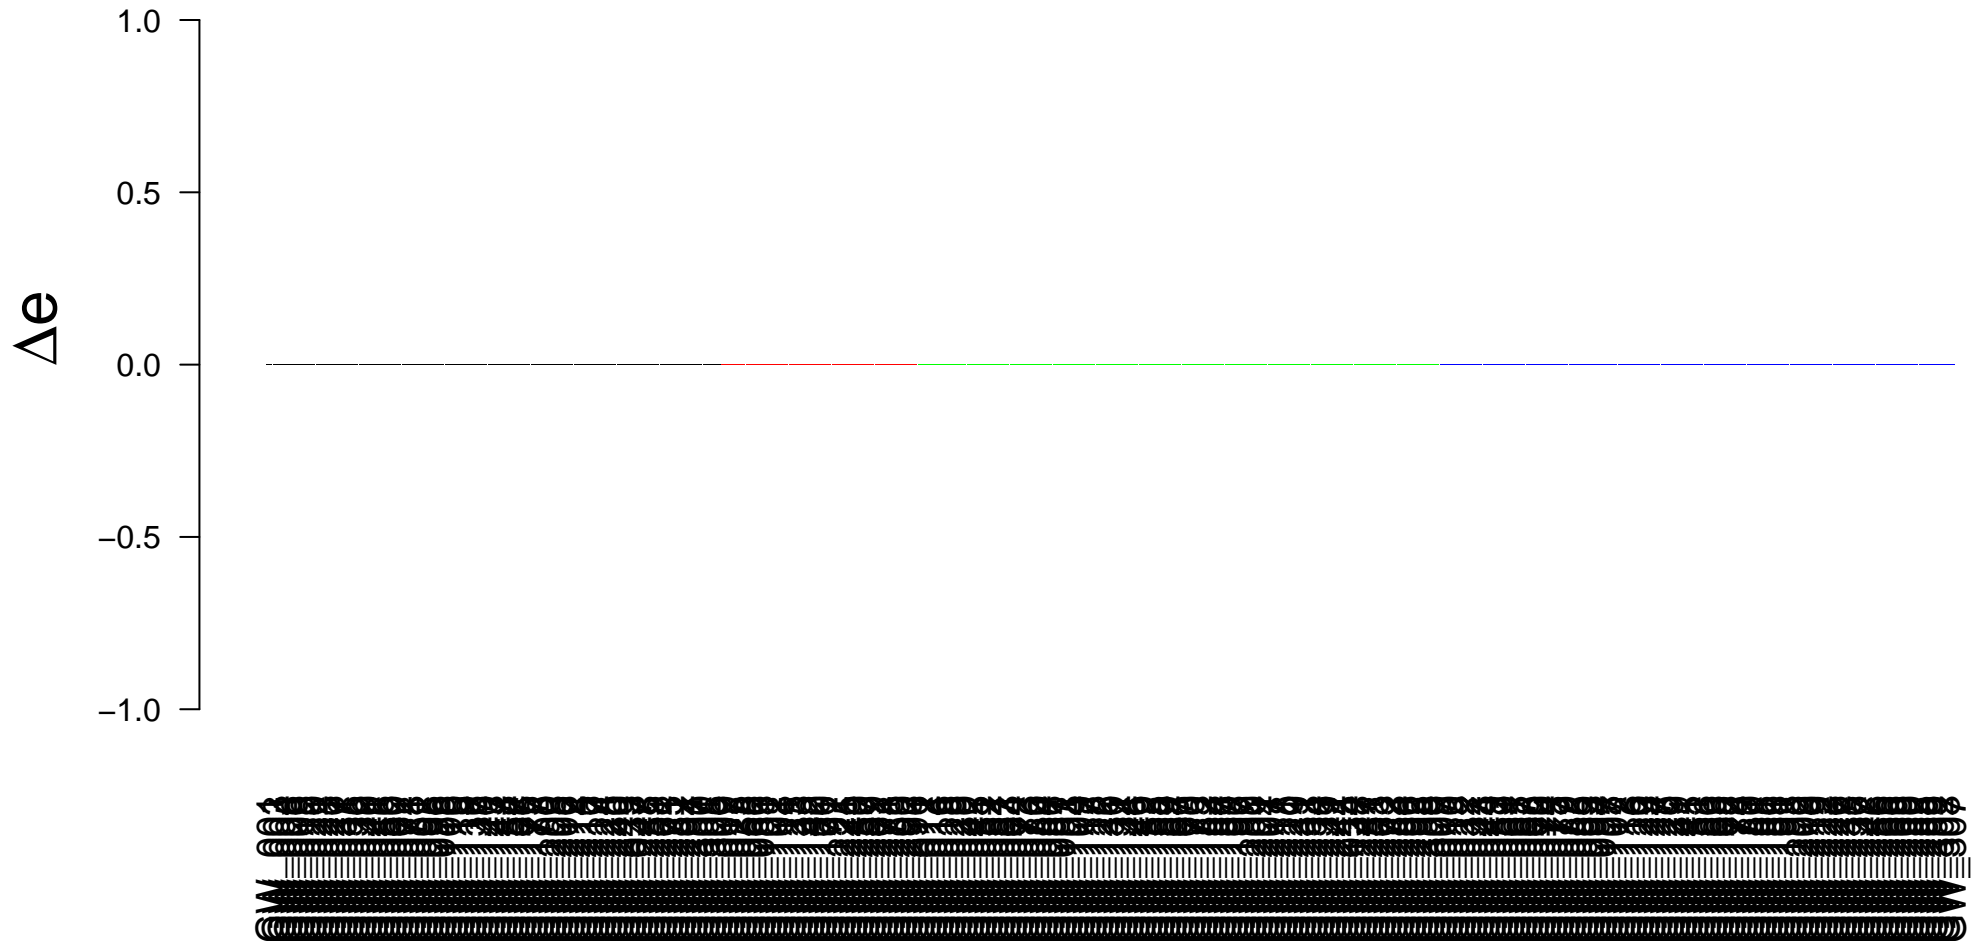

Expression of mitogen-activated protein kinase kinase kinase binding in Spot E

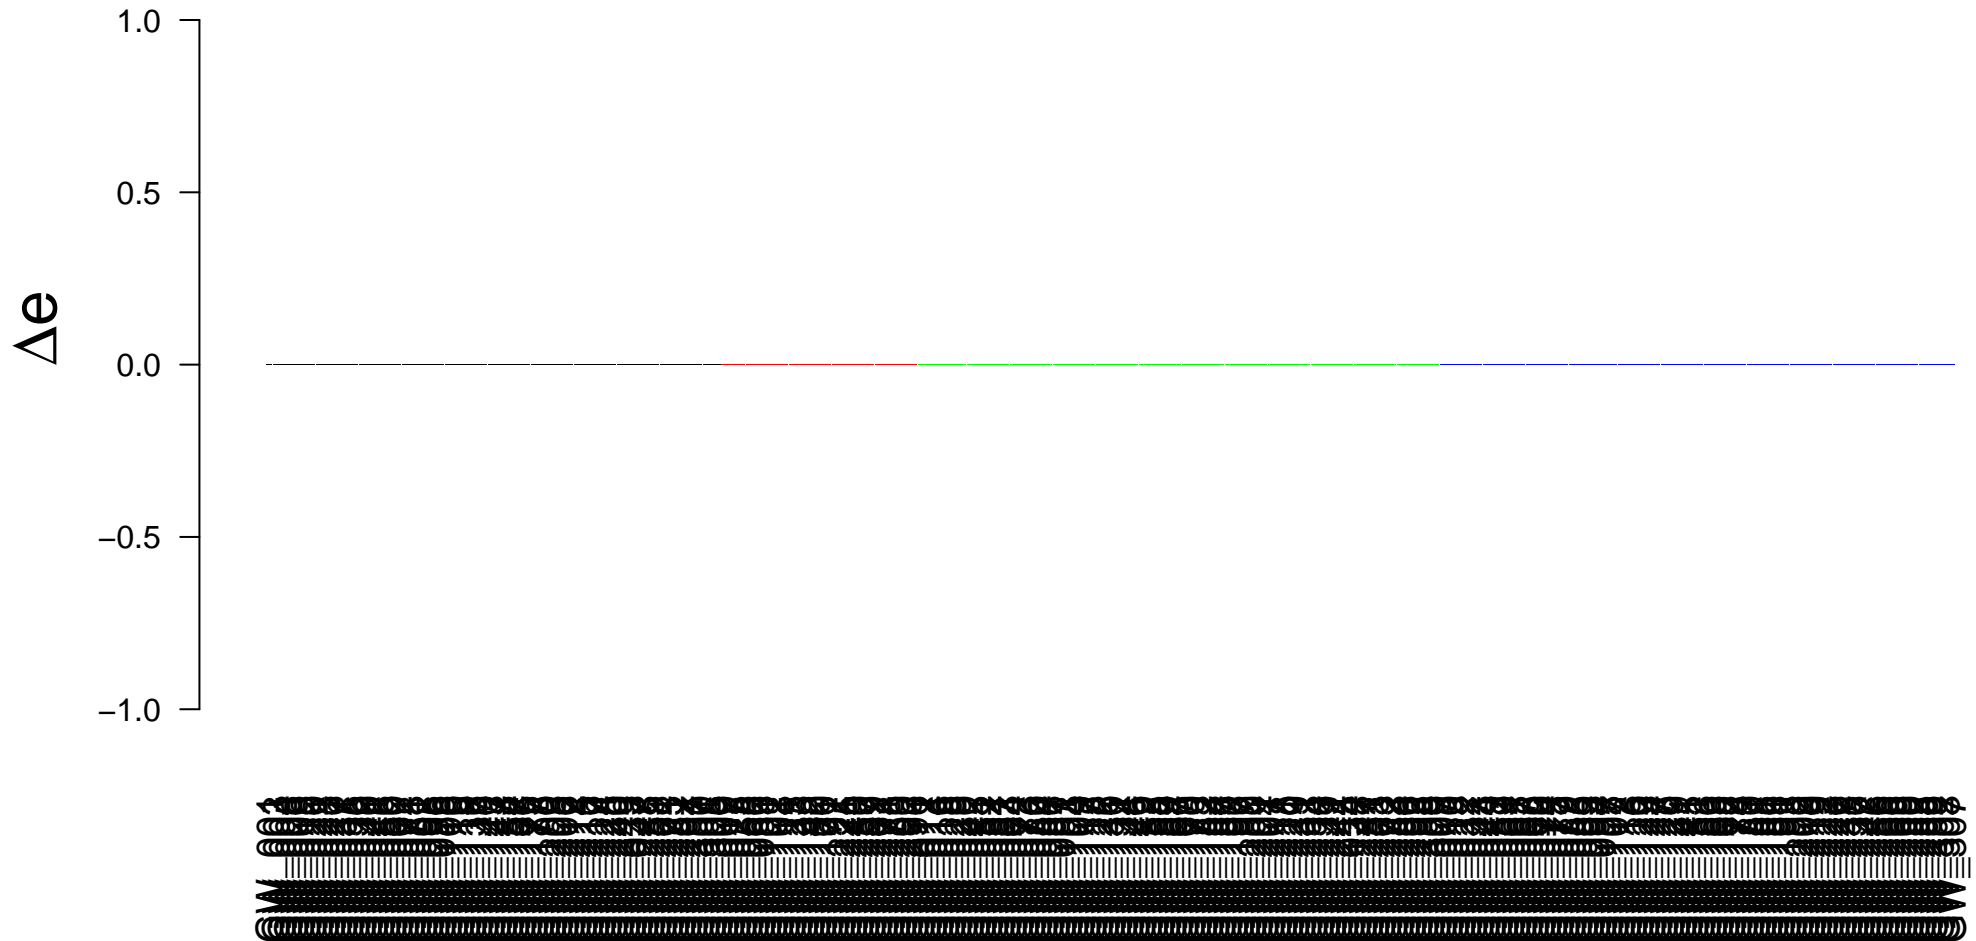

Expression of mitogen-activated protein kinase kinase kinase binding in Spot F

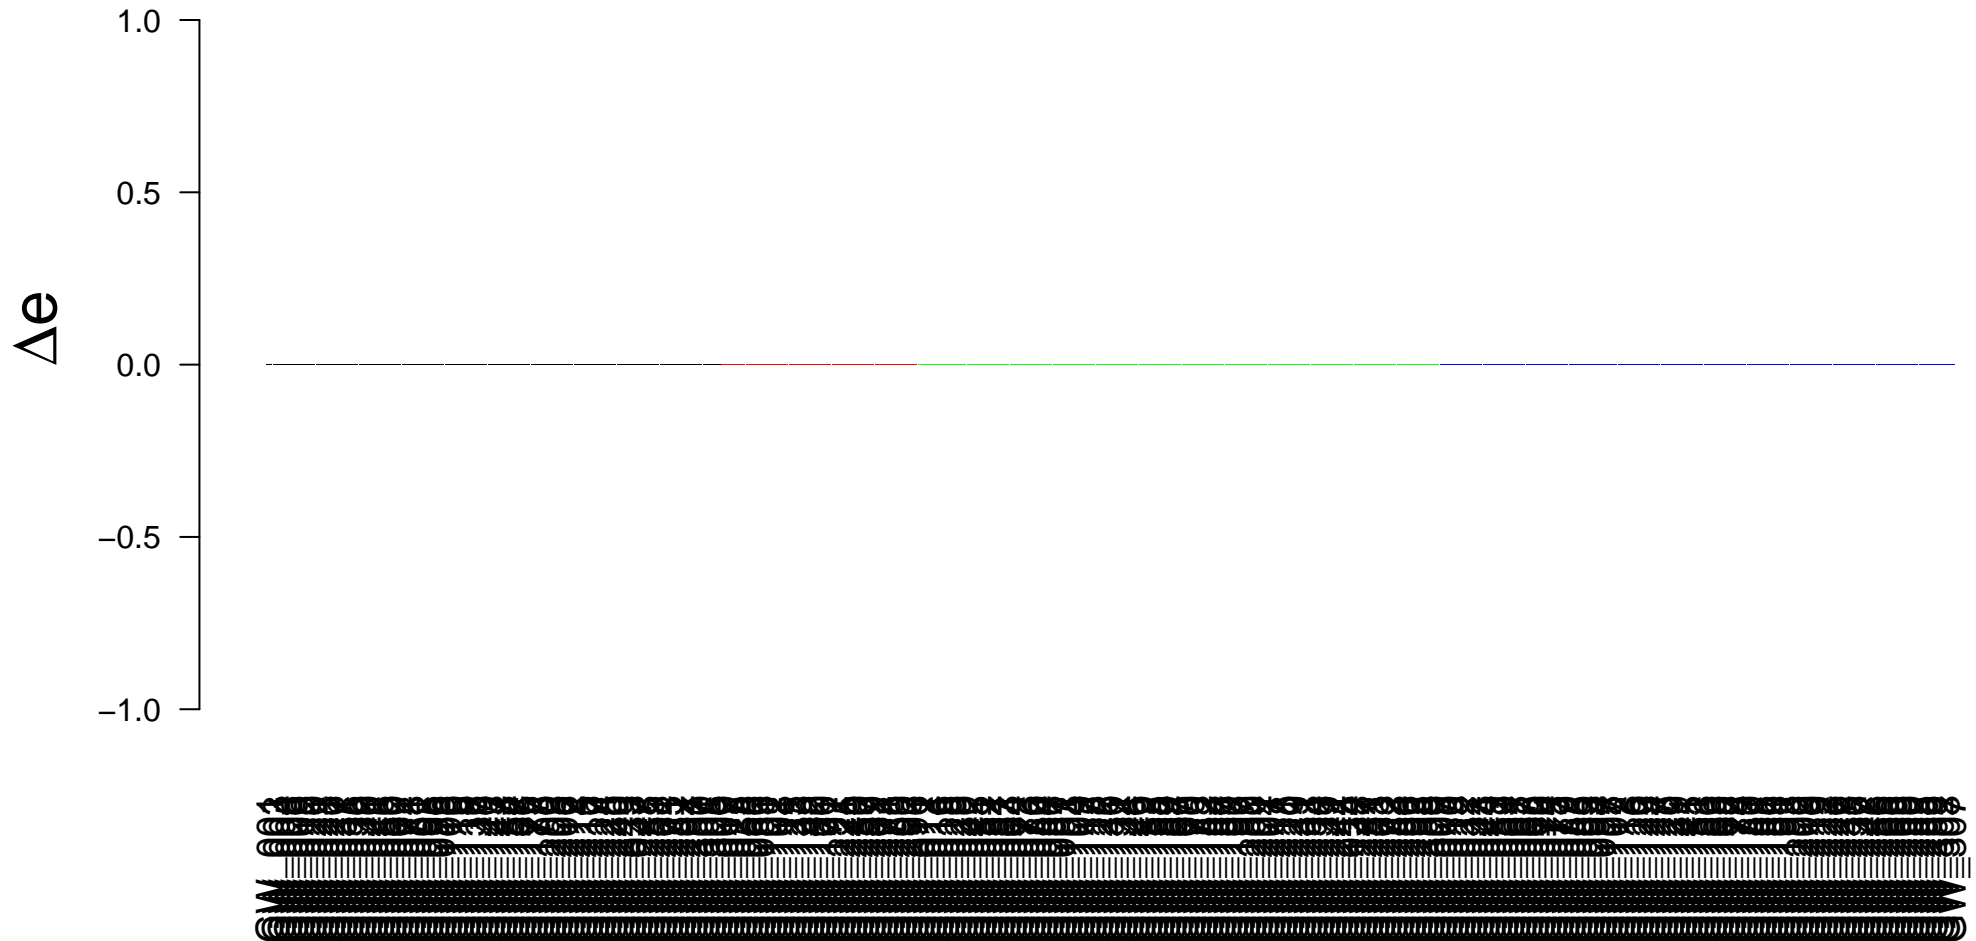

Expression of mitogen-activated protein kinase kinase kinase binding in Spot G

Expression of mitogen-activated protein kinase kinase kinase binding in Spot H

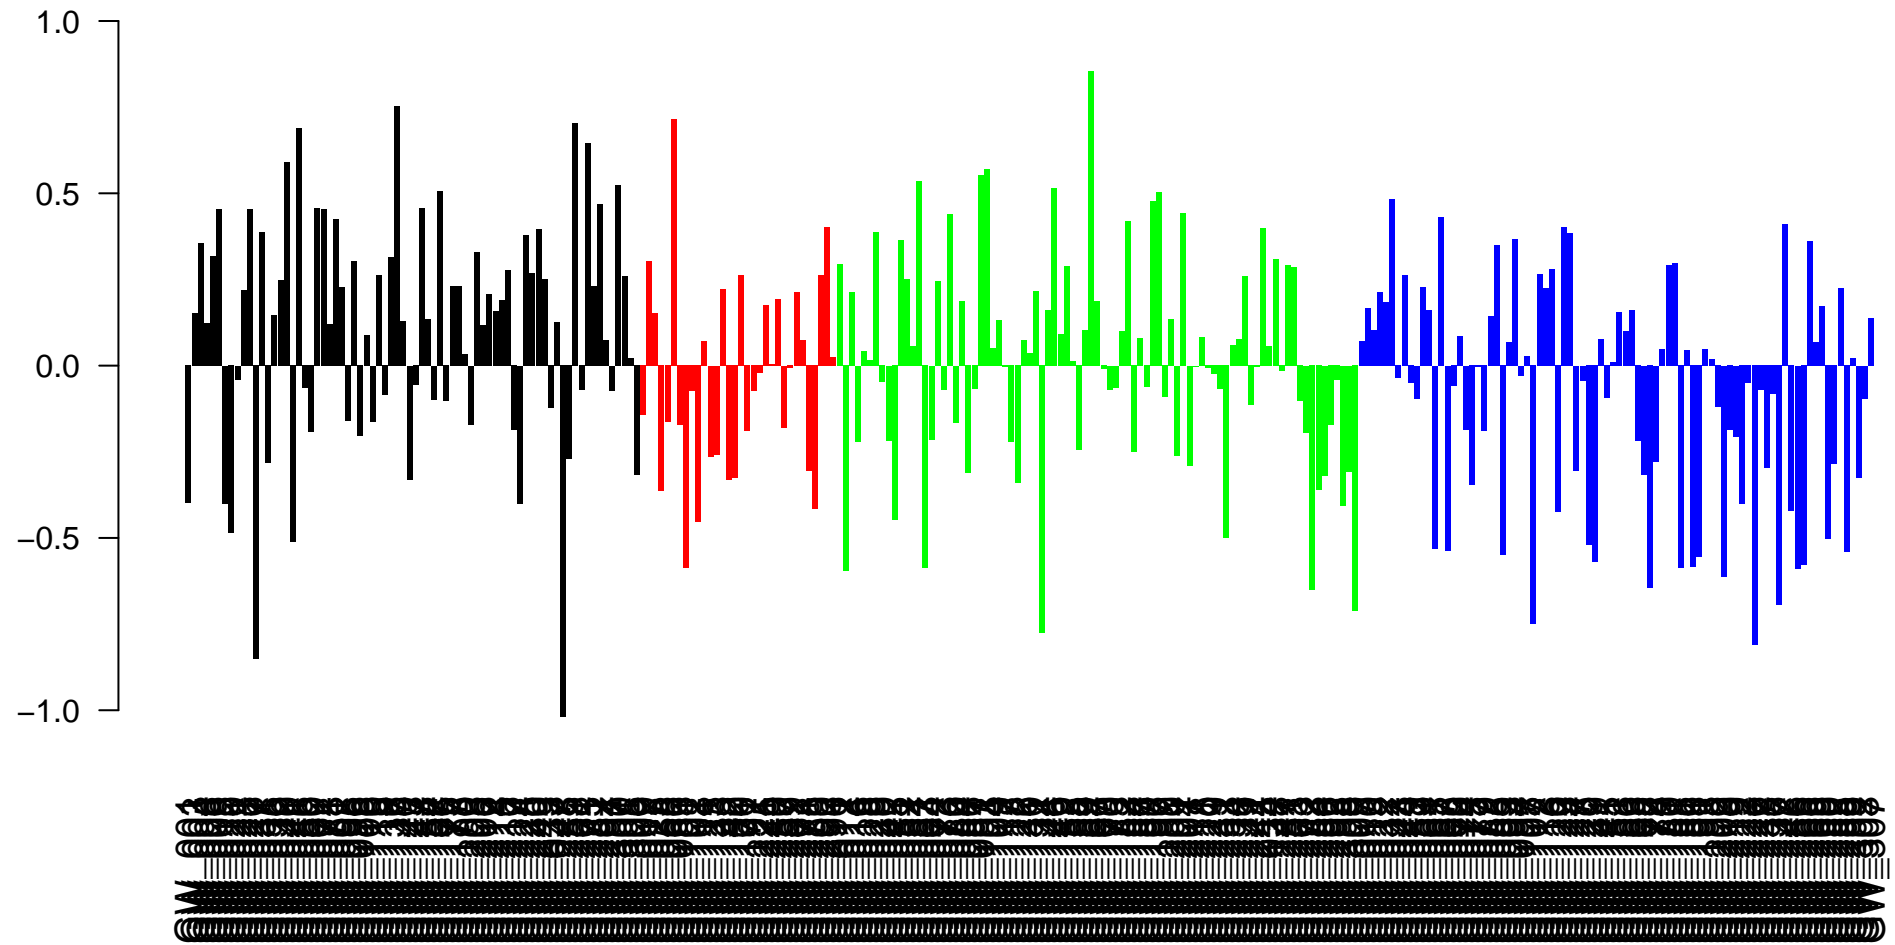

Expression of mitogen-activated protein kinase kinase kinase binding in Spot I

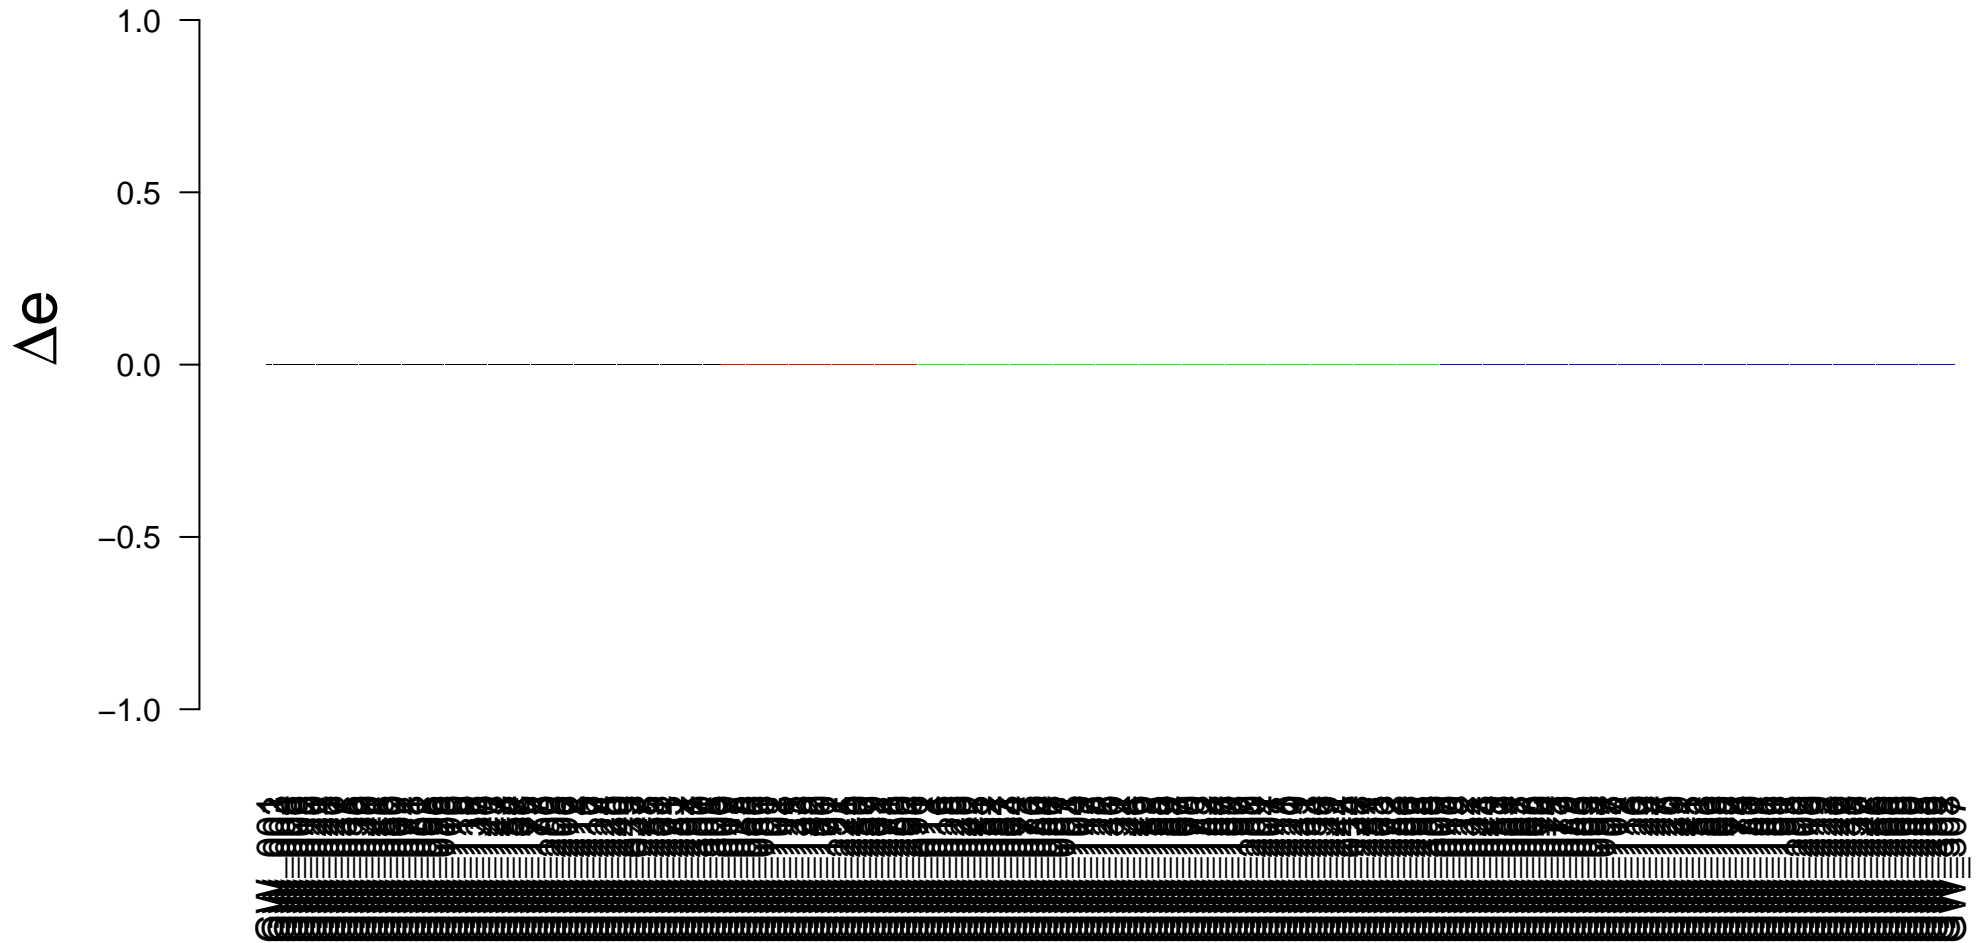

Expression of mitogen-activated protein kinase kinase kinase binding in Spot J

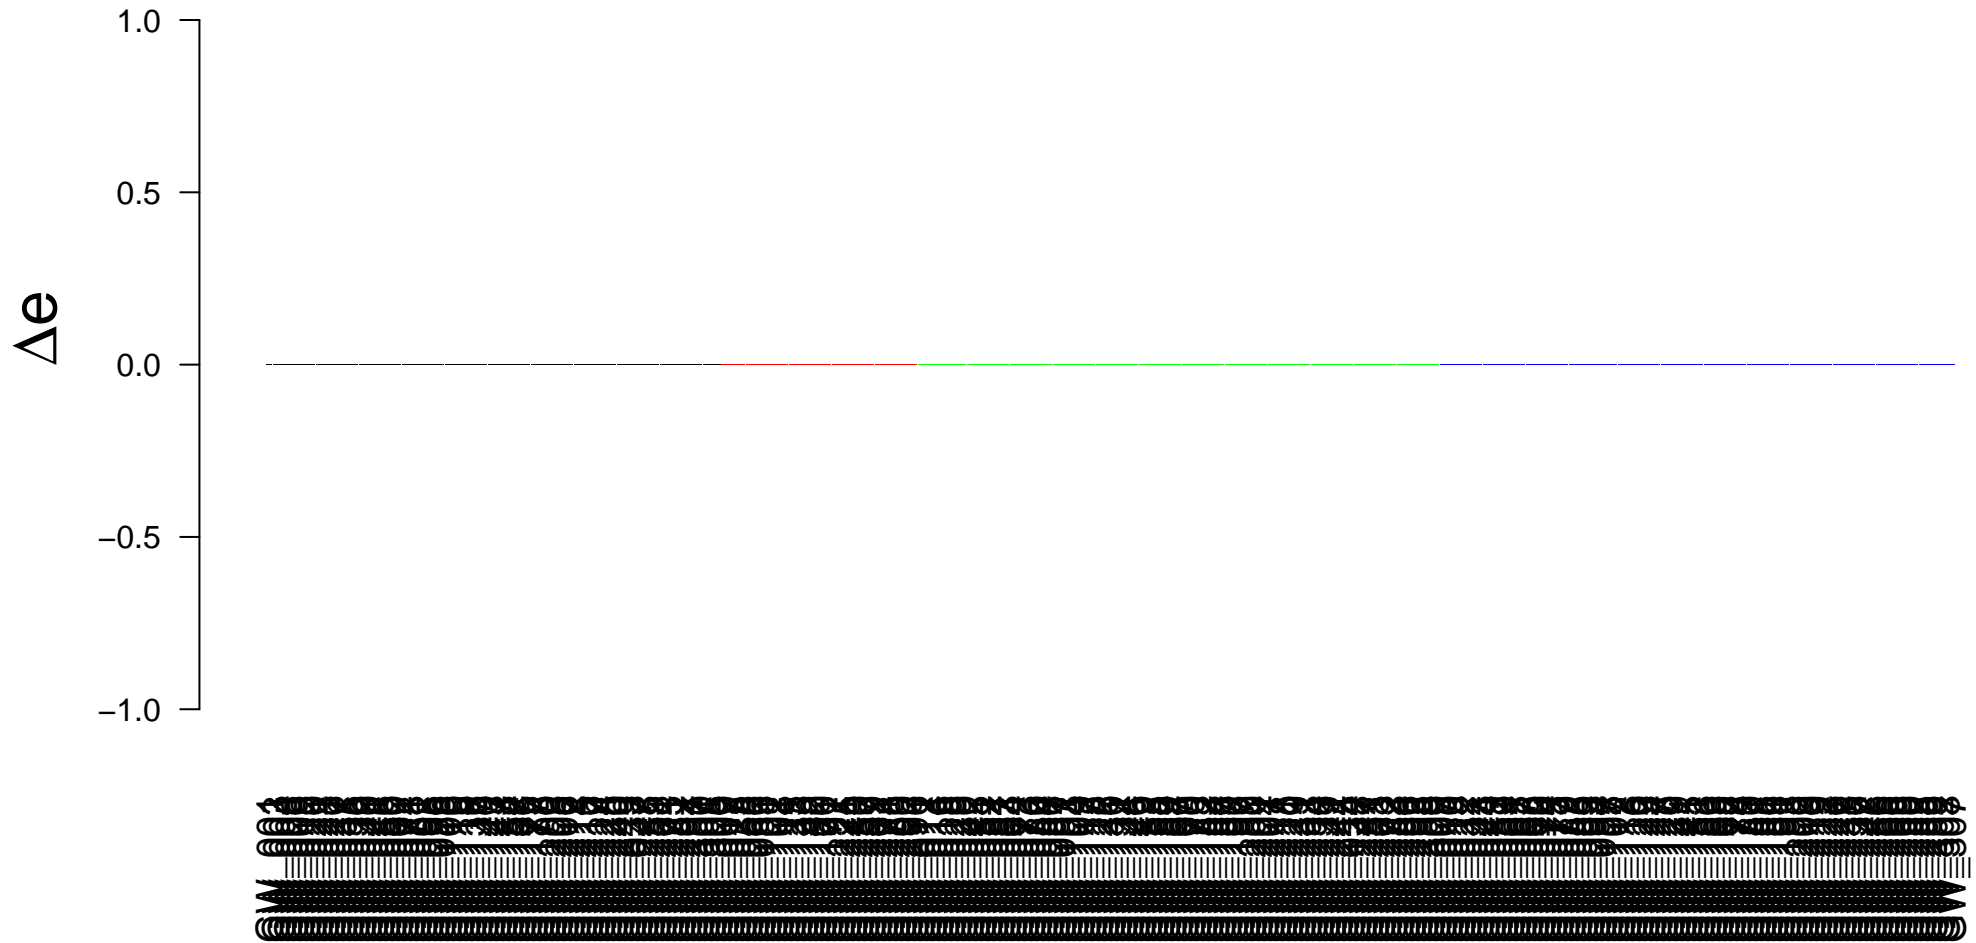

Δe

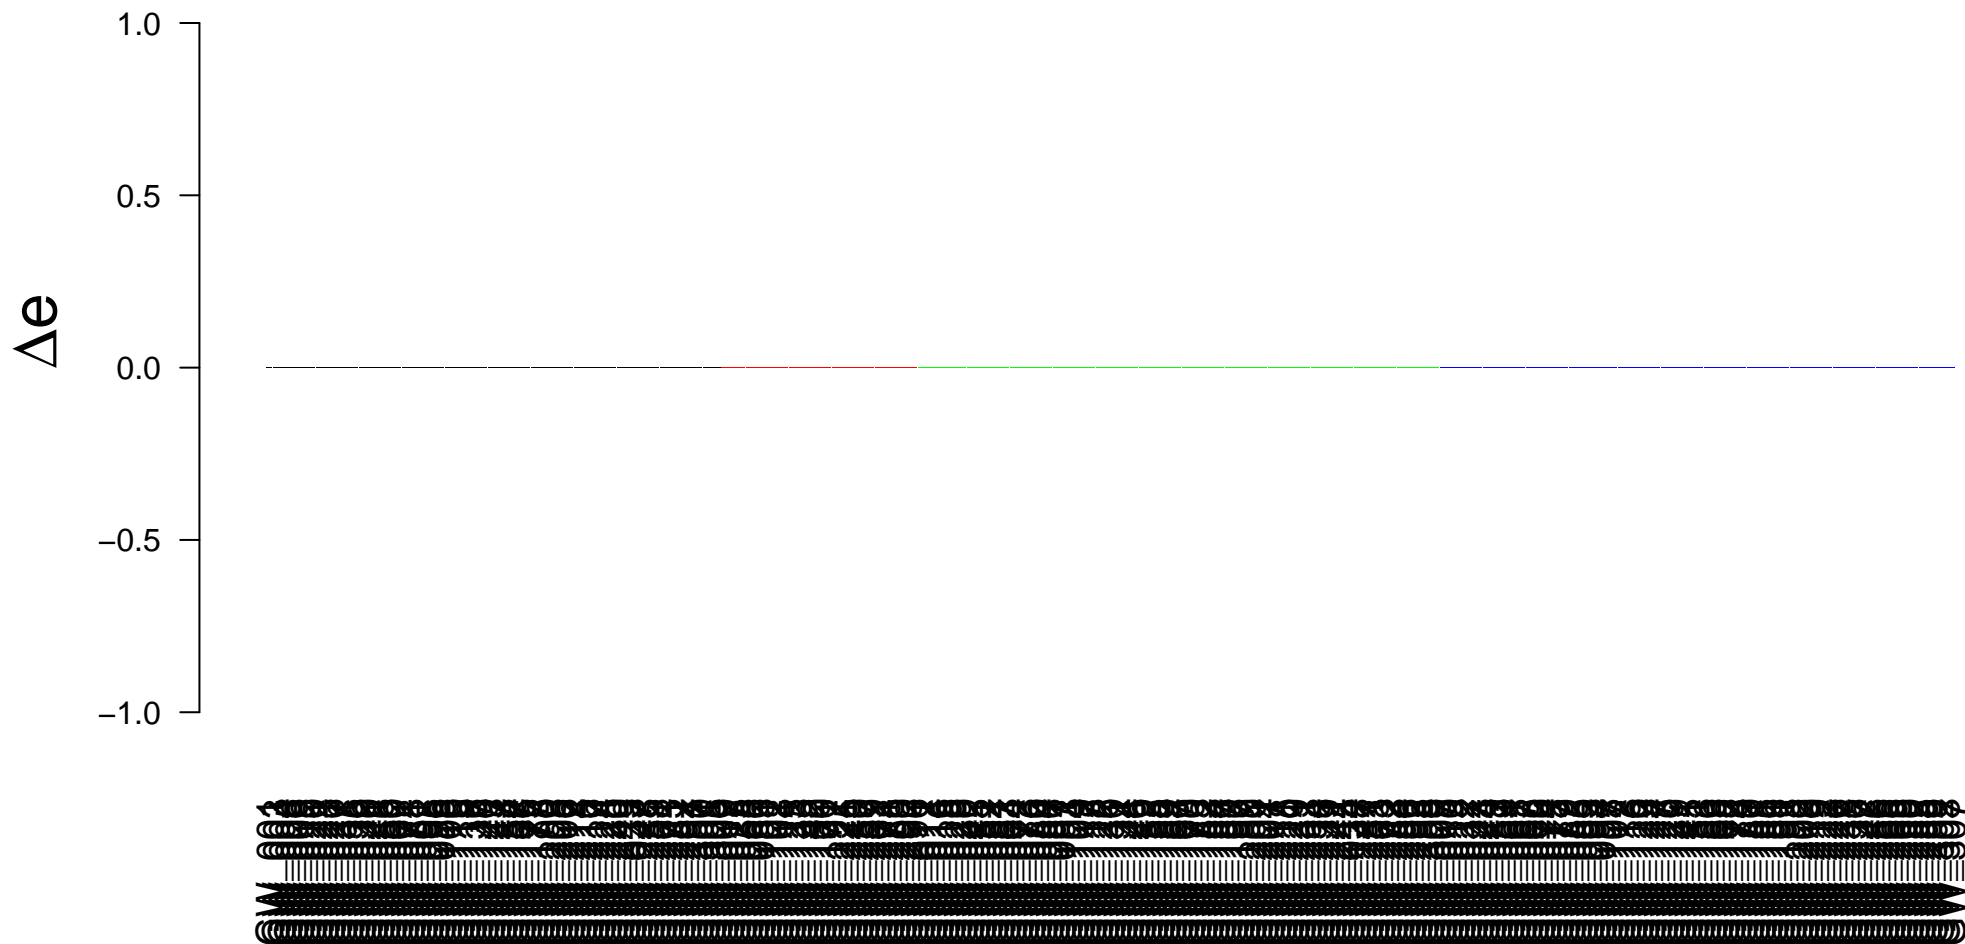

Expression of mitogen-activated protein kinase kinase kinase binding in Spot K

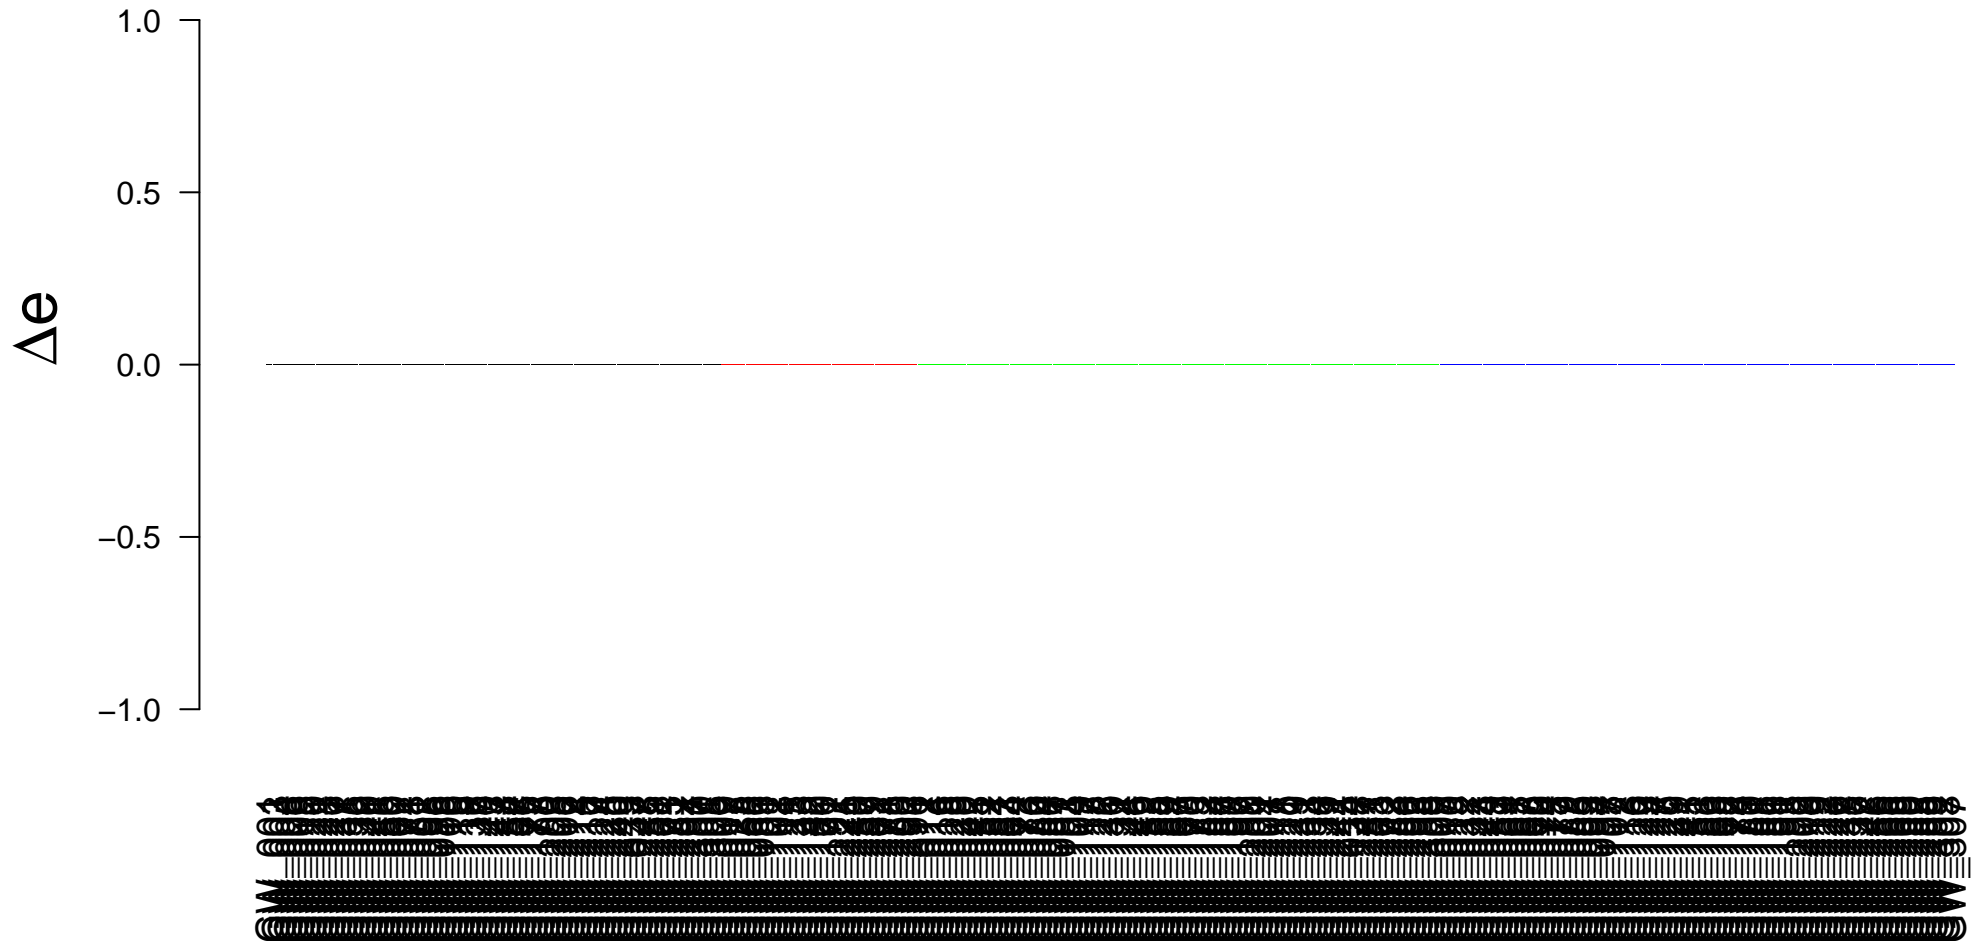

Expression of mitogen-activated protein kinase kinase kinase binding in Spot L

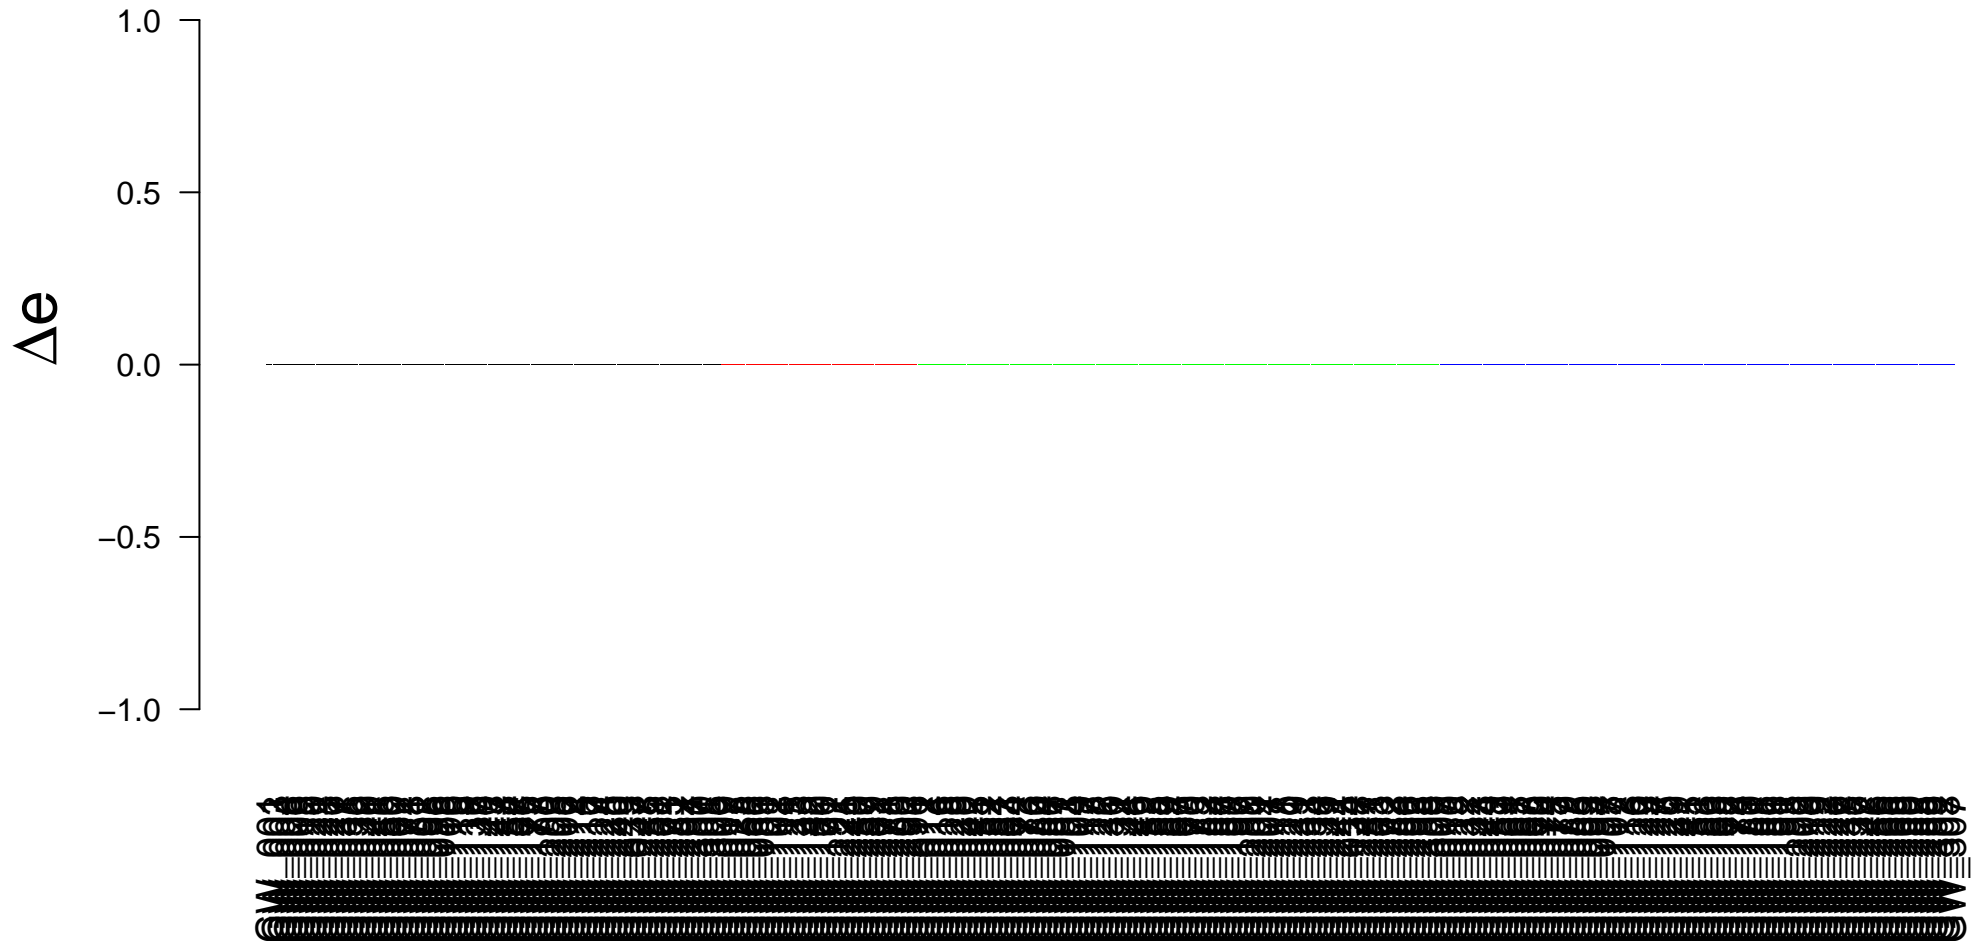

Expression of mitogen-activated protein kinase kinase kinase binding in Spot M

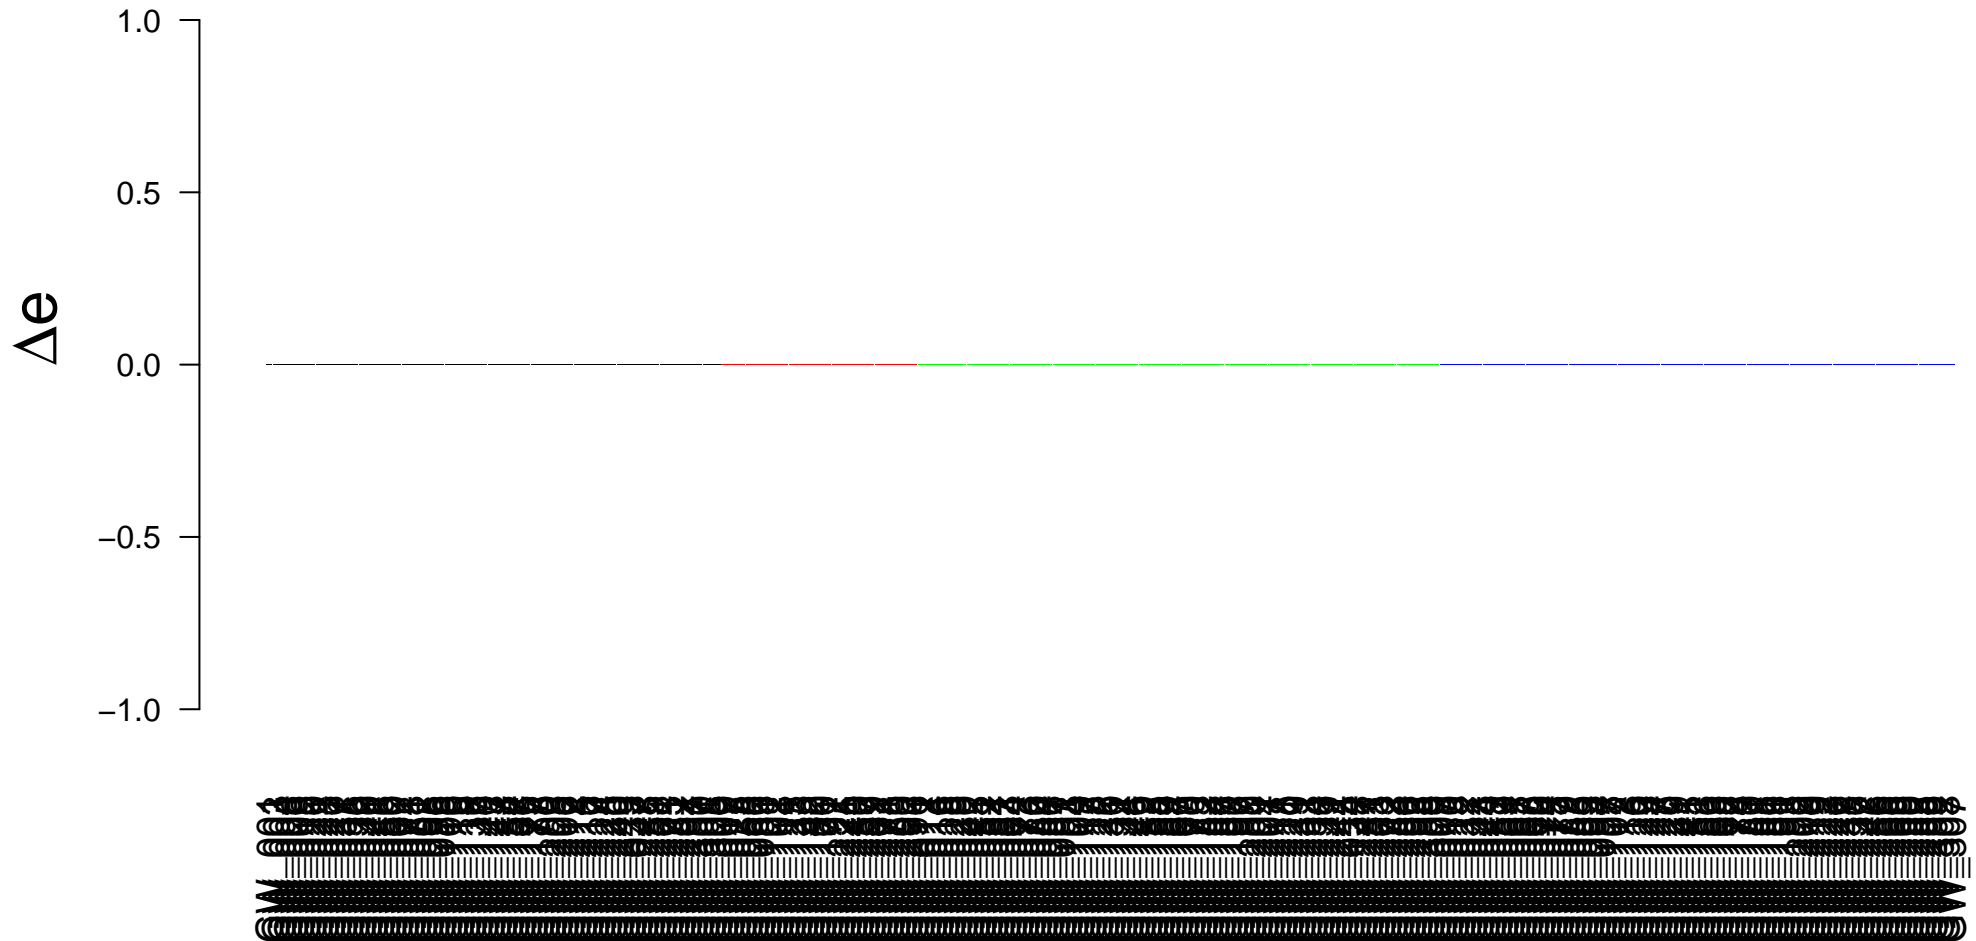

Expression of mitogen-activated protein kinase kinase kinase binding in Spot N

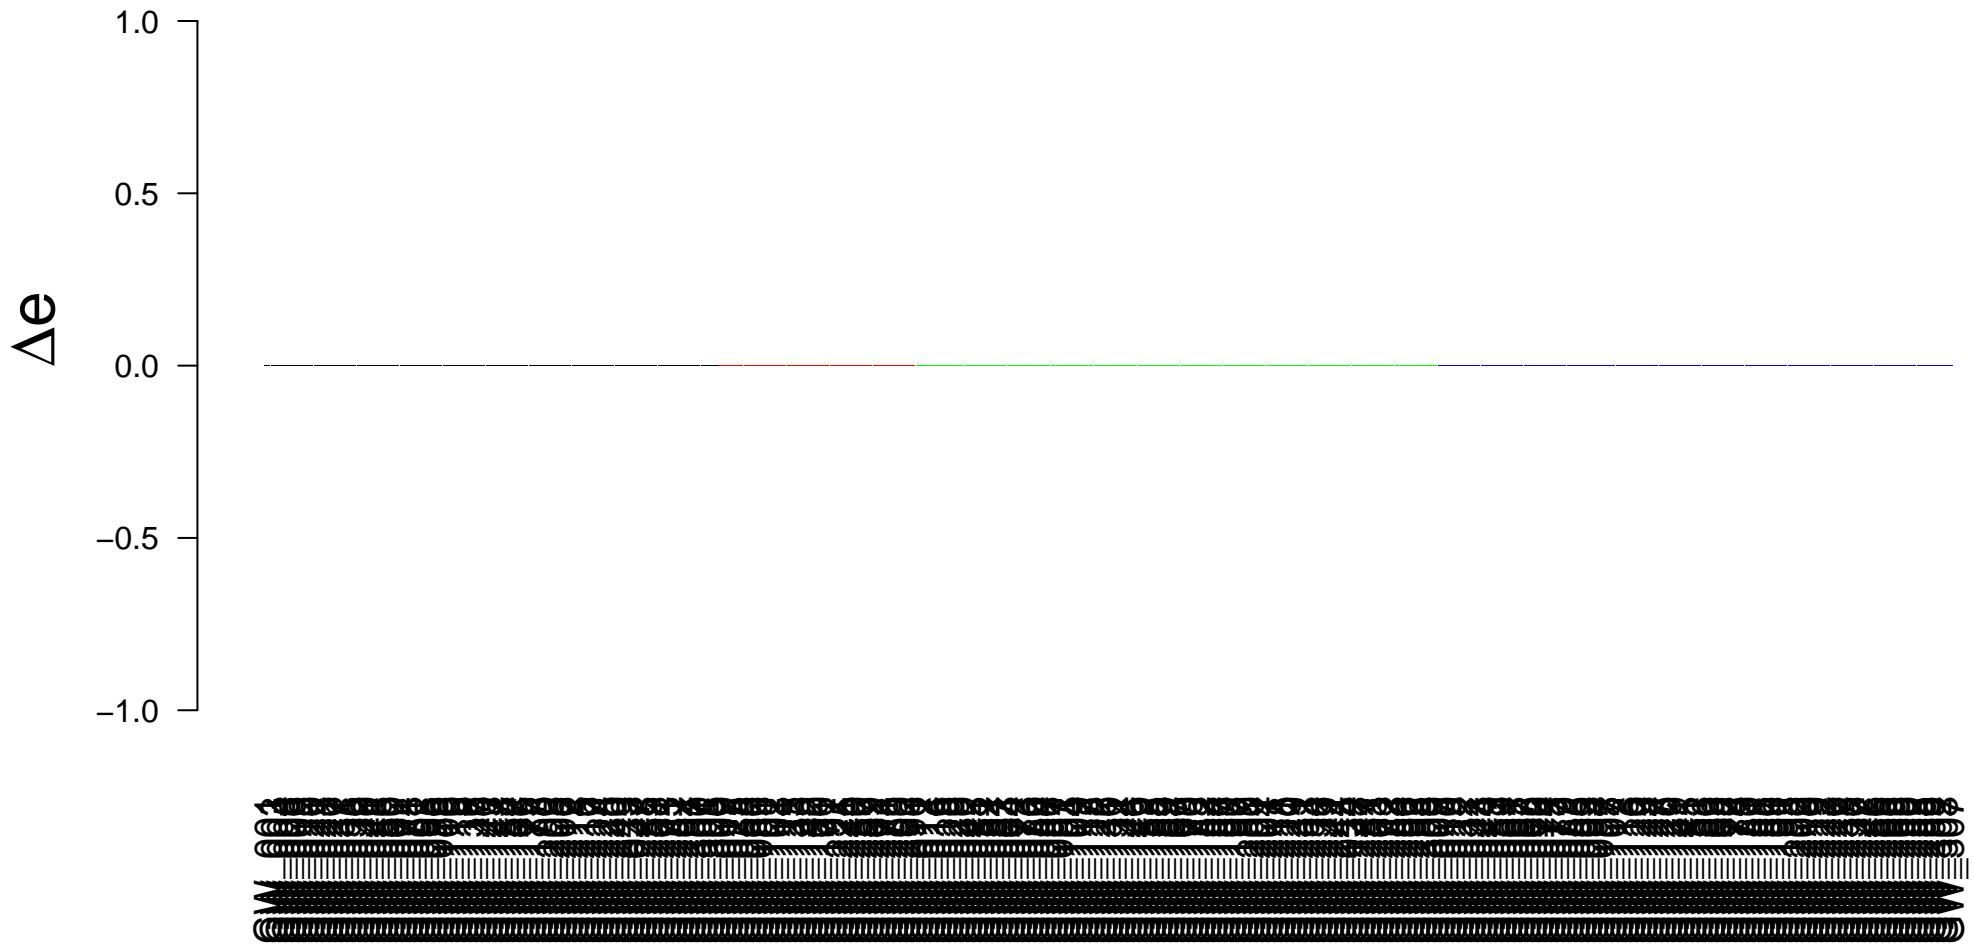

Expression of mitogen-activated protein kinase kinase kinase binding in Spot O

Expression of mitogen-activated protein kinase kinase kinase binding in Spot P

Expression of mitogen-activated protein kinase kinase kinase binding in Spot Q

Expression of mitogen-activated protein kinase kinase kinase binding in Spot R
