

negative regulation of JUN kinase activity

negative regulation of JUN kinase activity

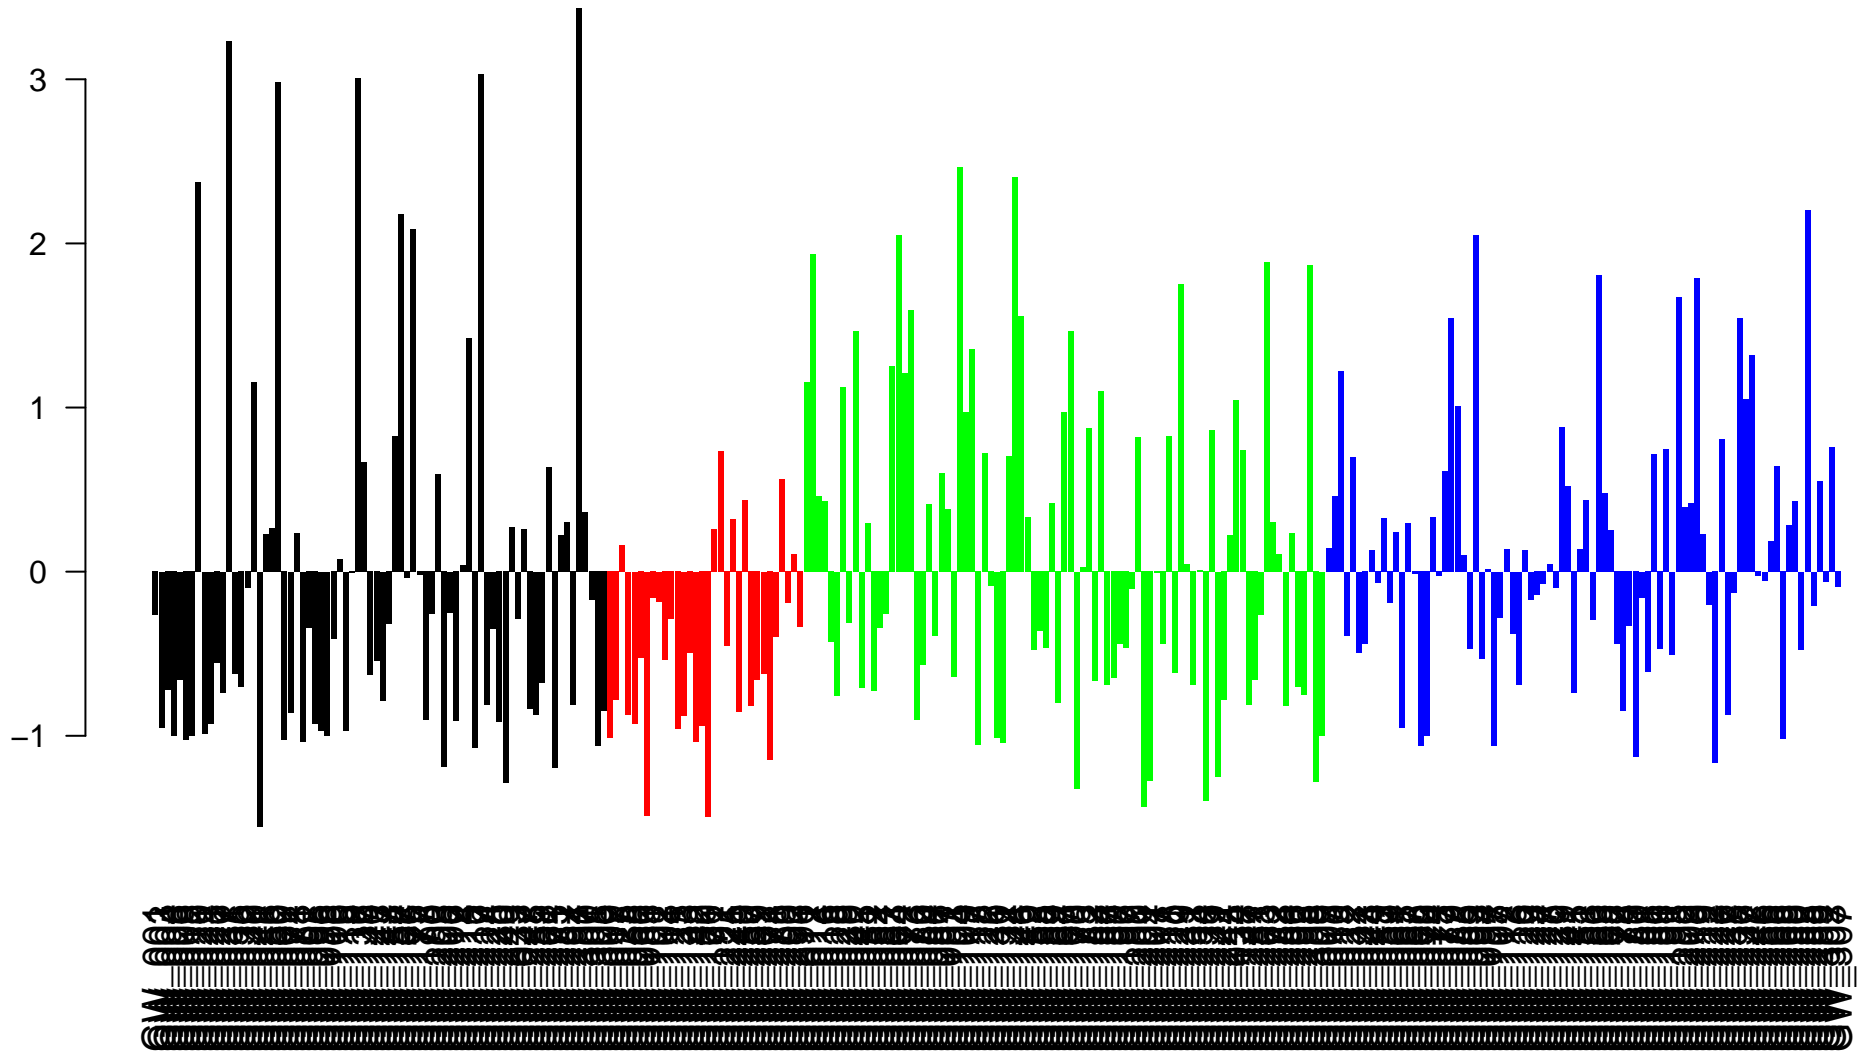

Enrichment in spots: negative regulation of JUN kinase activity

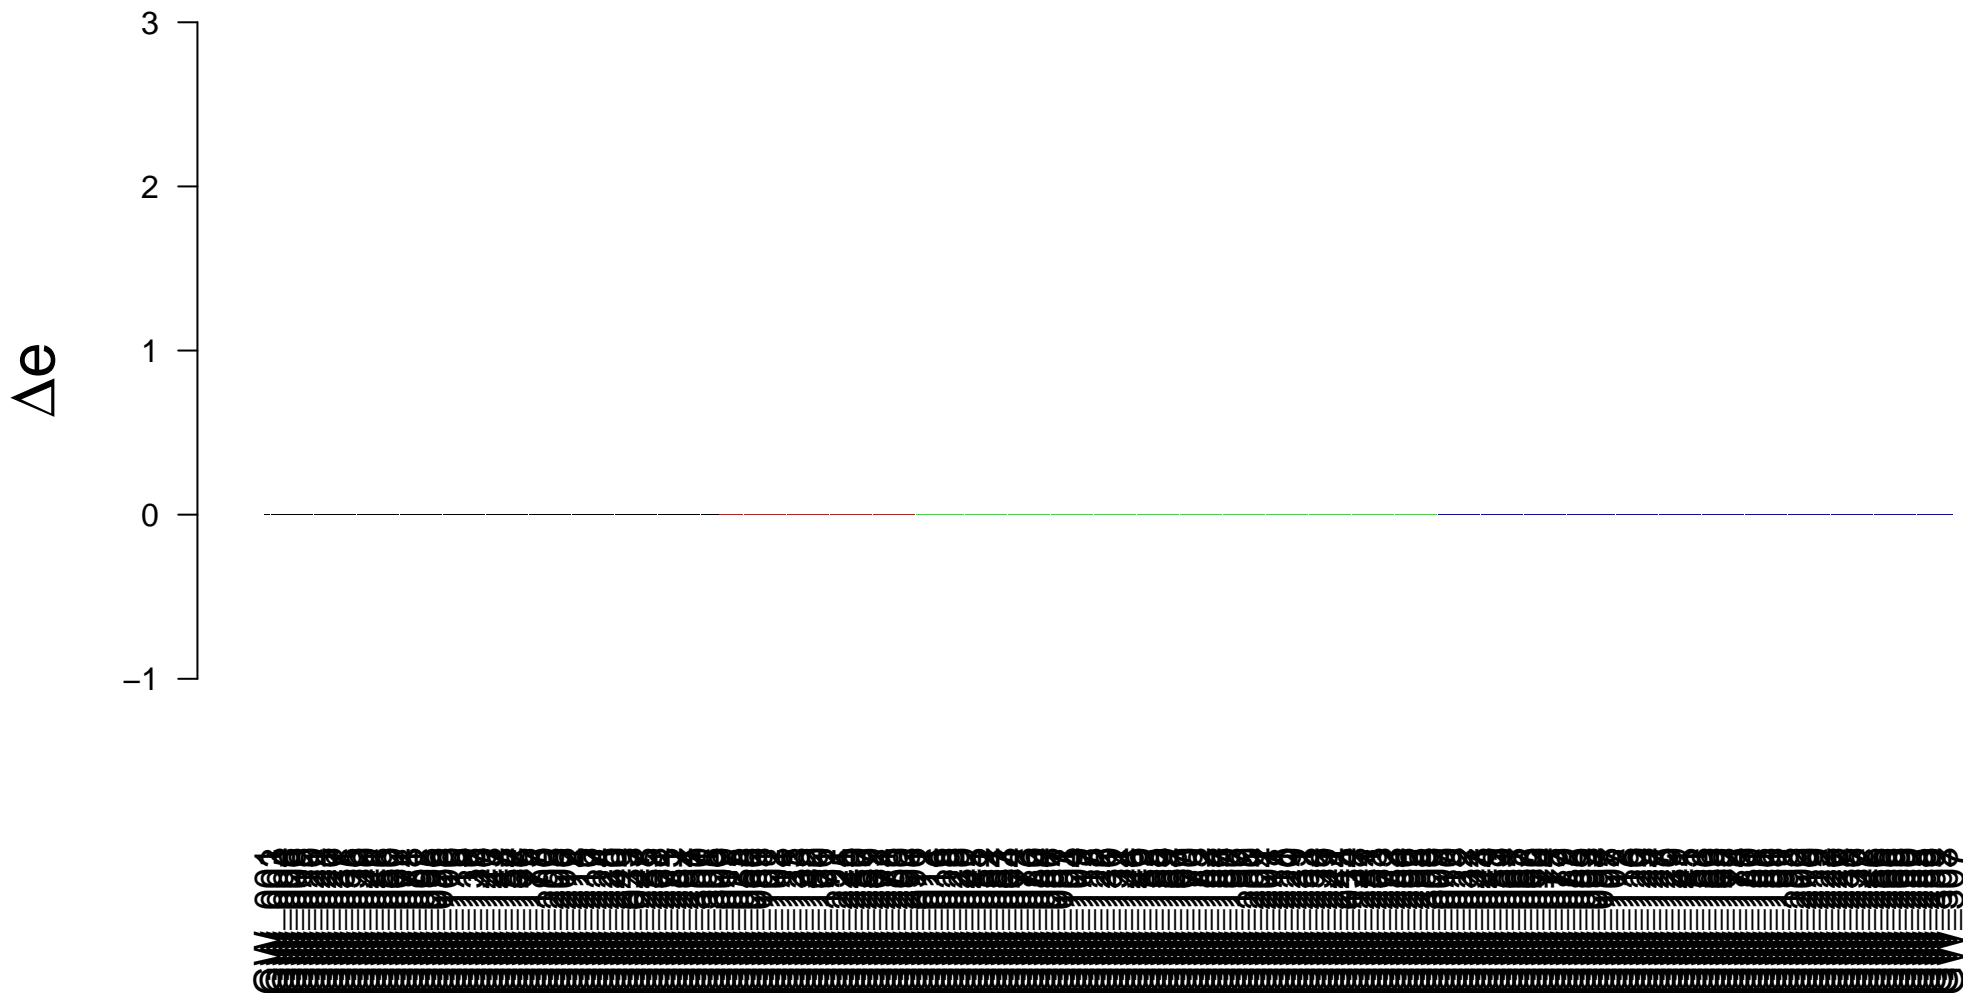

Expression of negative regulation of JUN kinase activity in Spot A

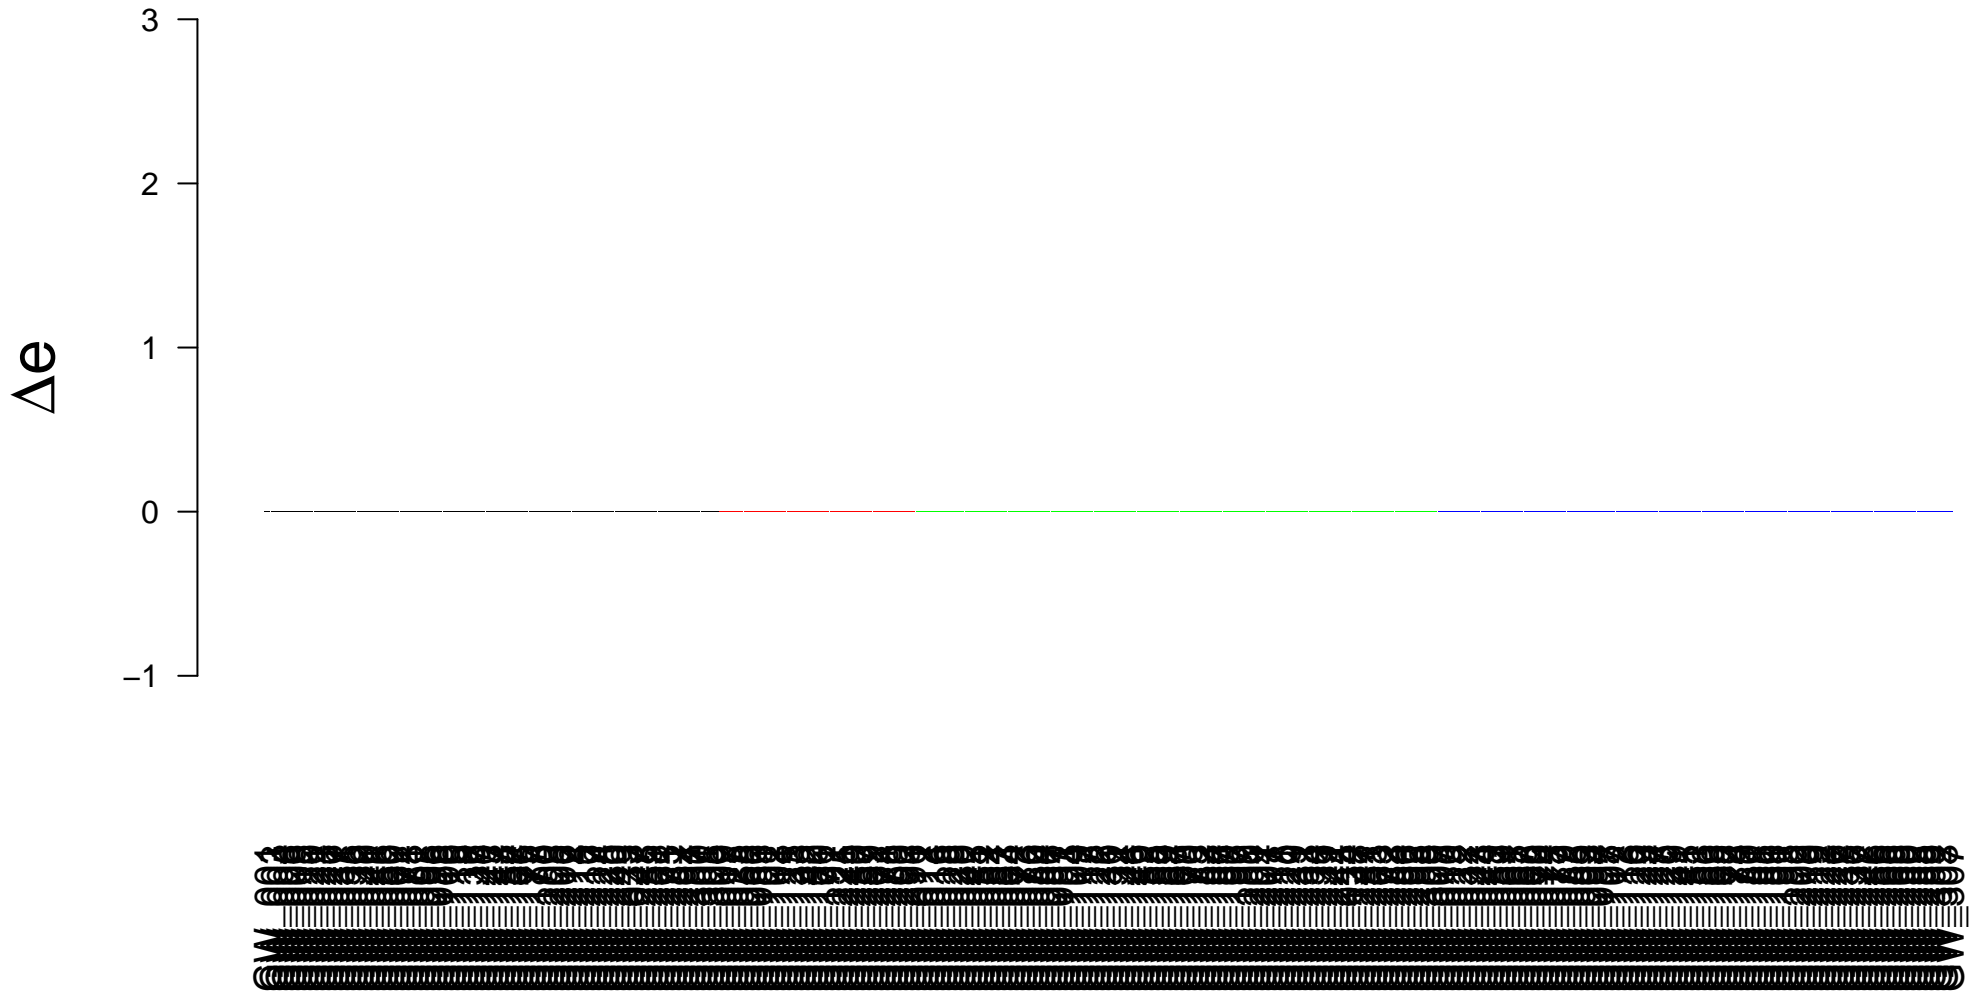

Δe

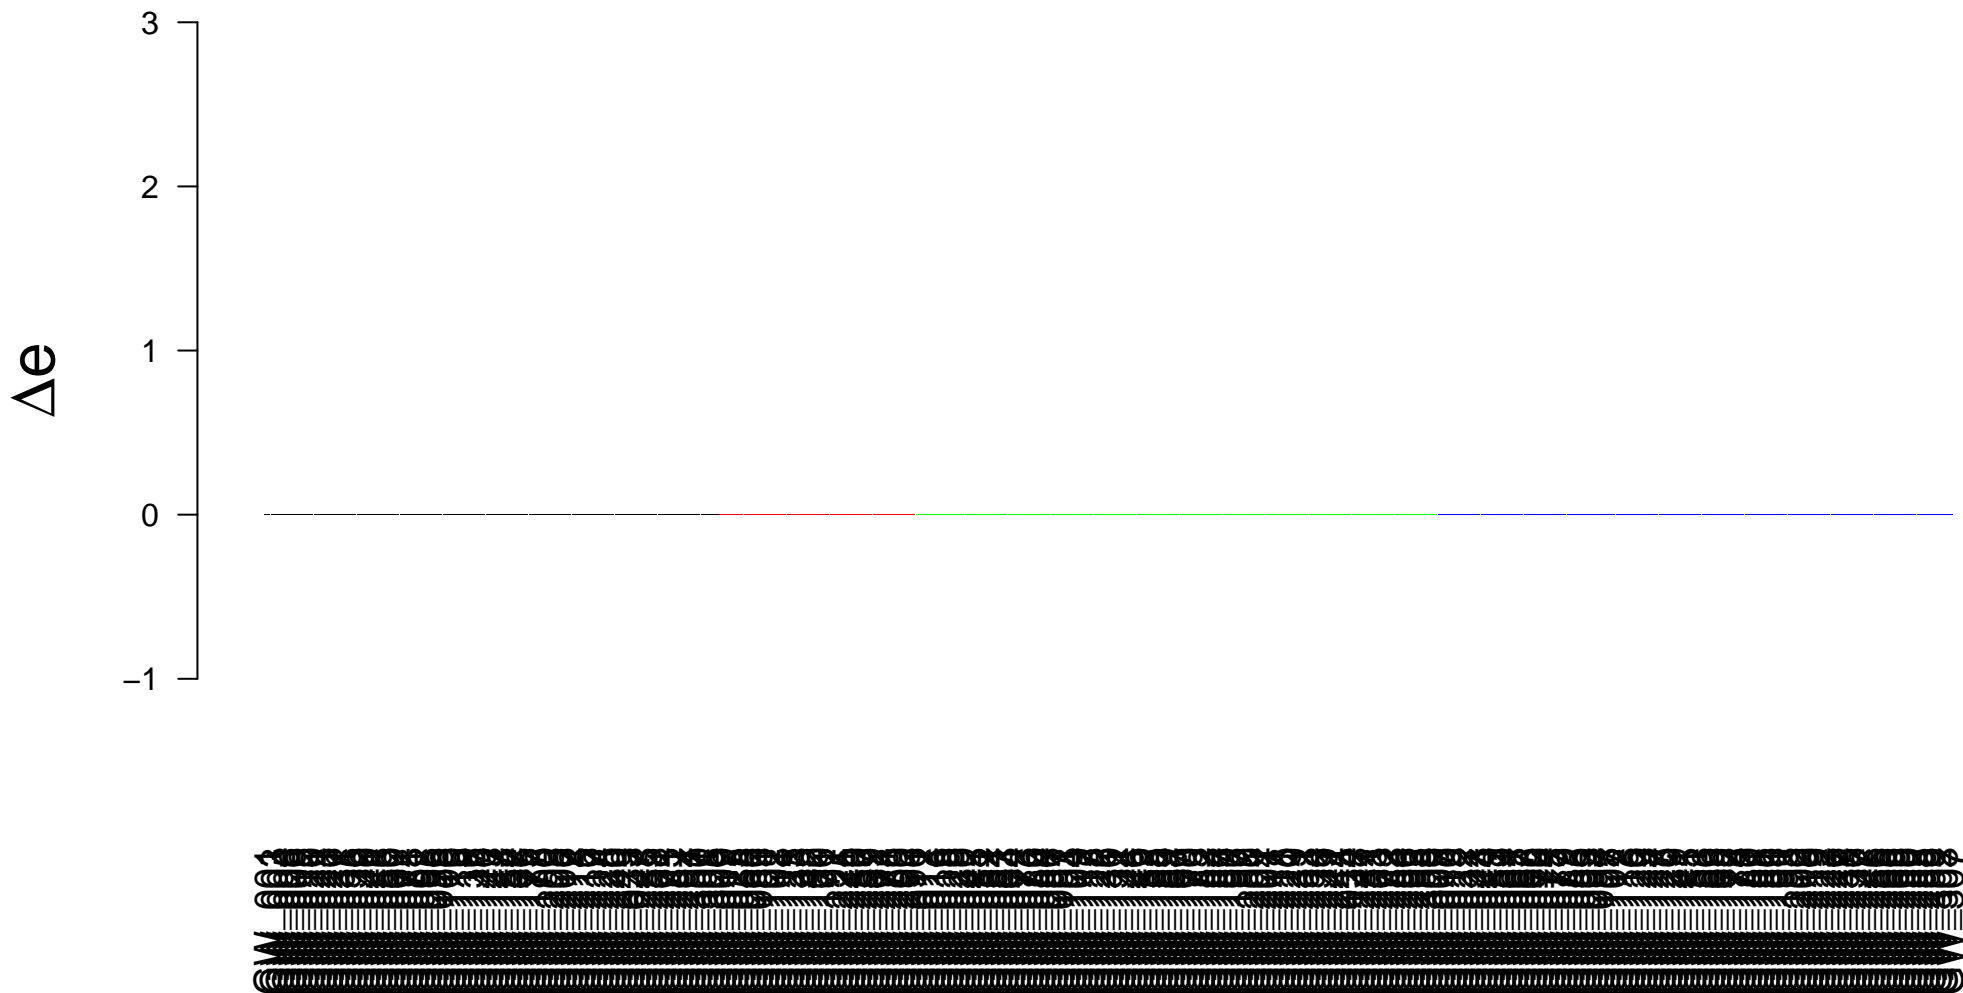

Expression of negative regulation of JUN kinase activity in Spot B

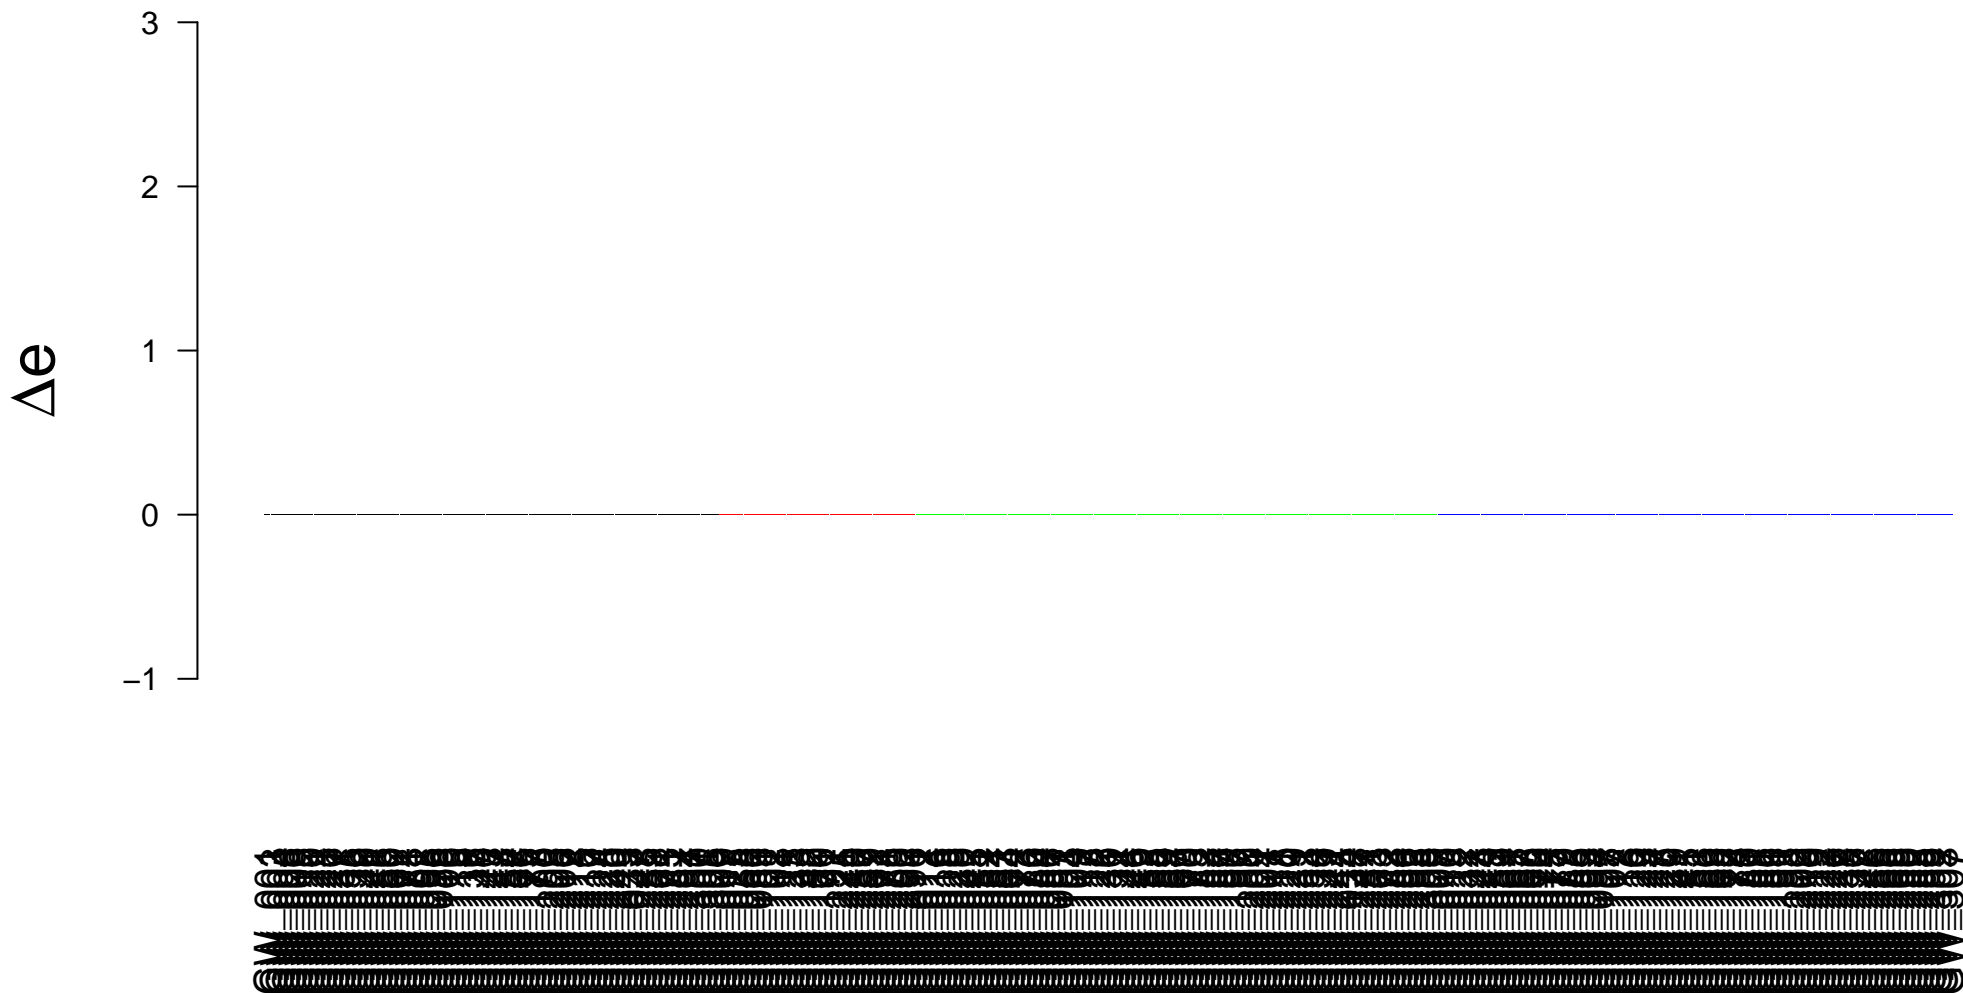

Expression of negative regulation of JUN kinase activity in Spot C

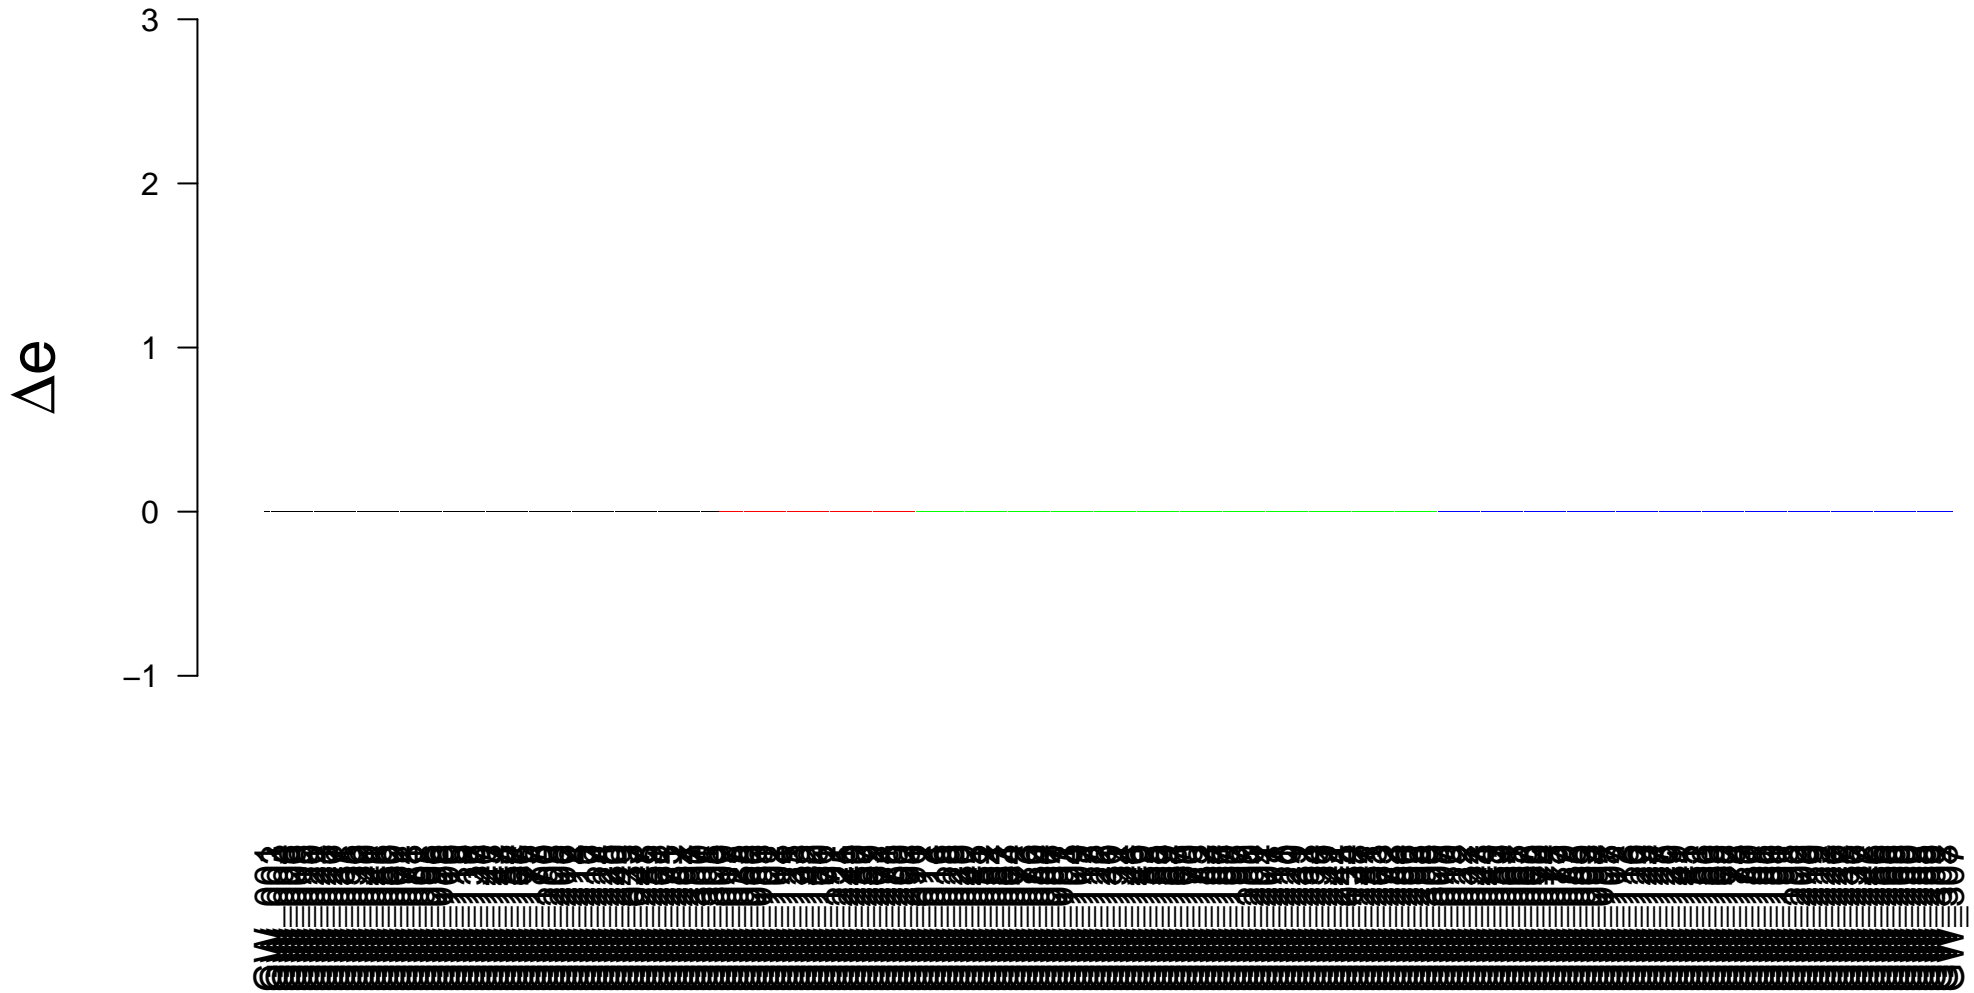

Expression of negative regulation of JUN kinase activity in Spot D

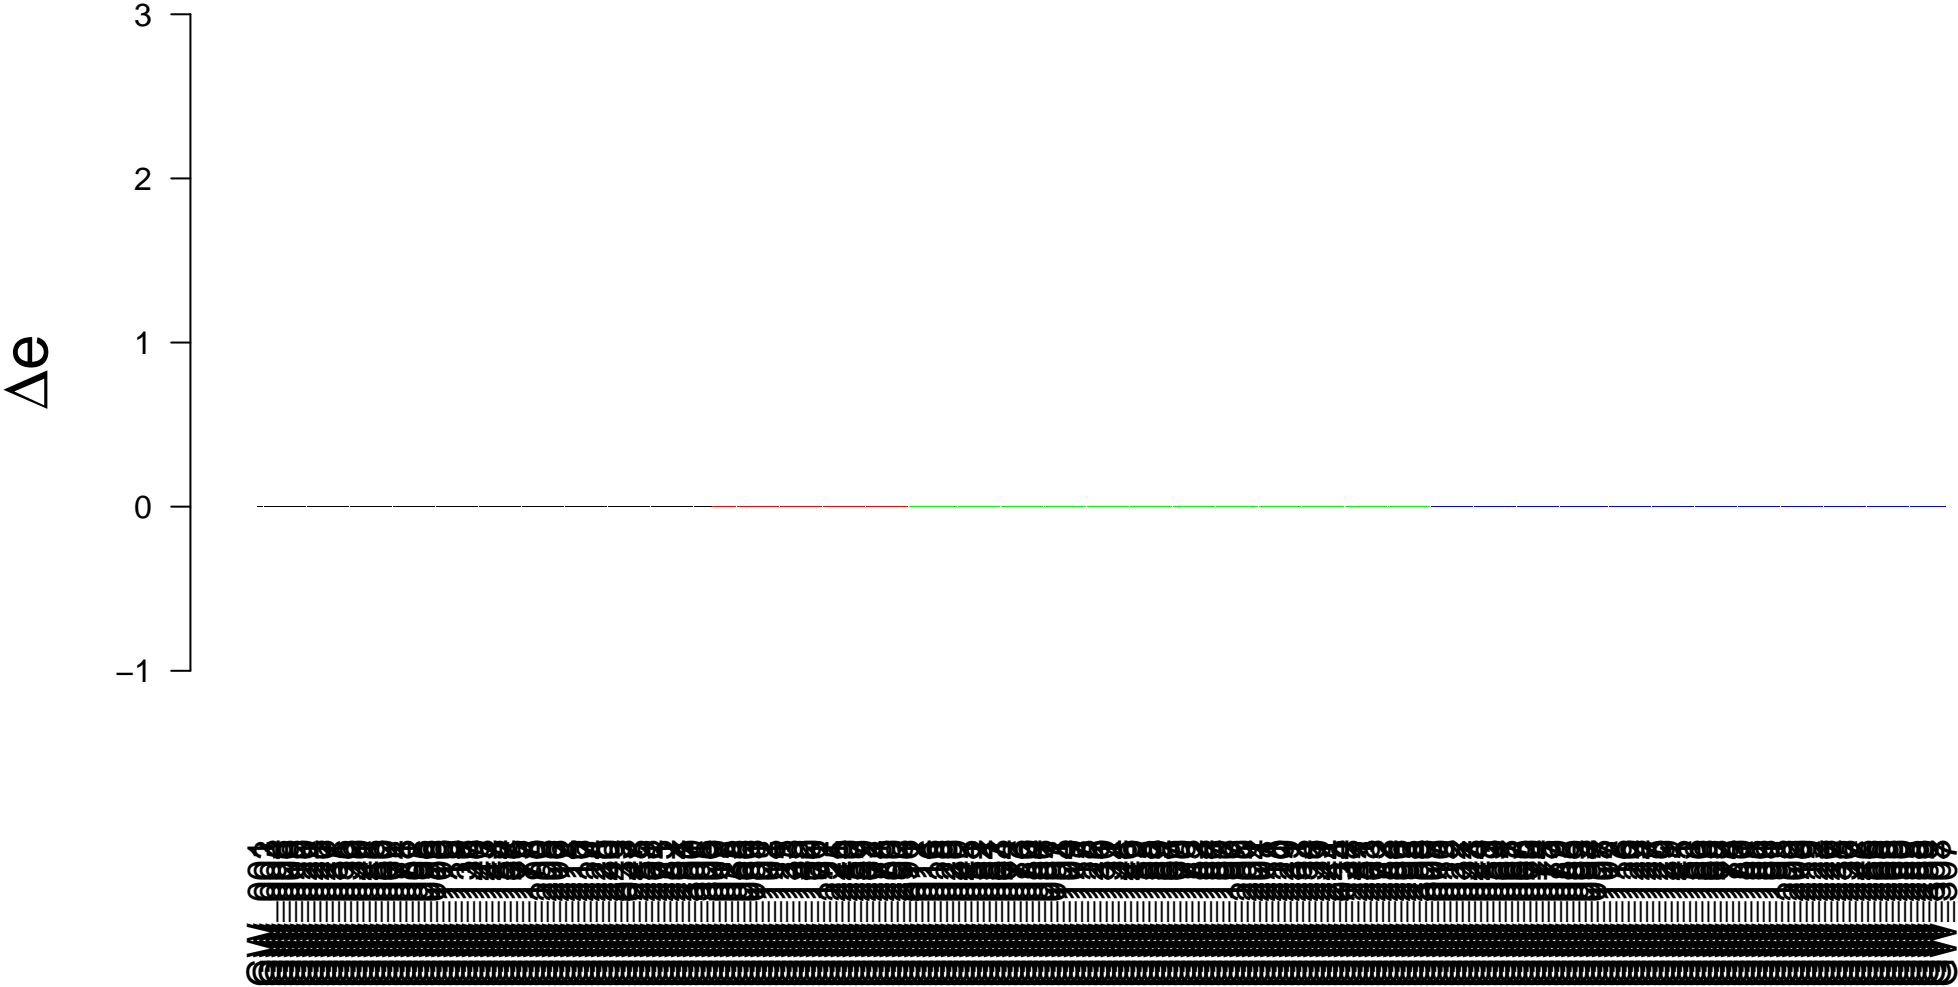

Expression of negative regulation of JUN kinase activity in Spot E

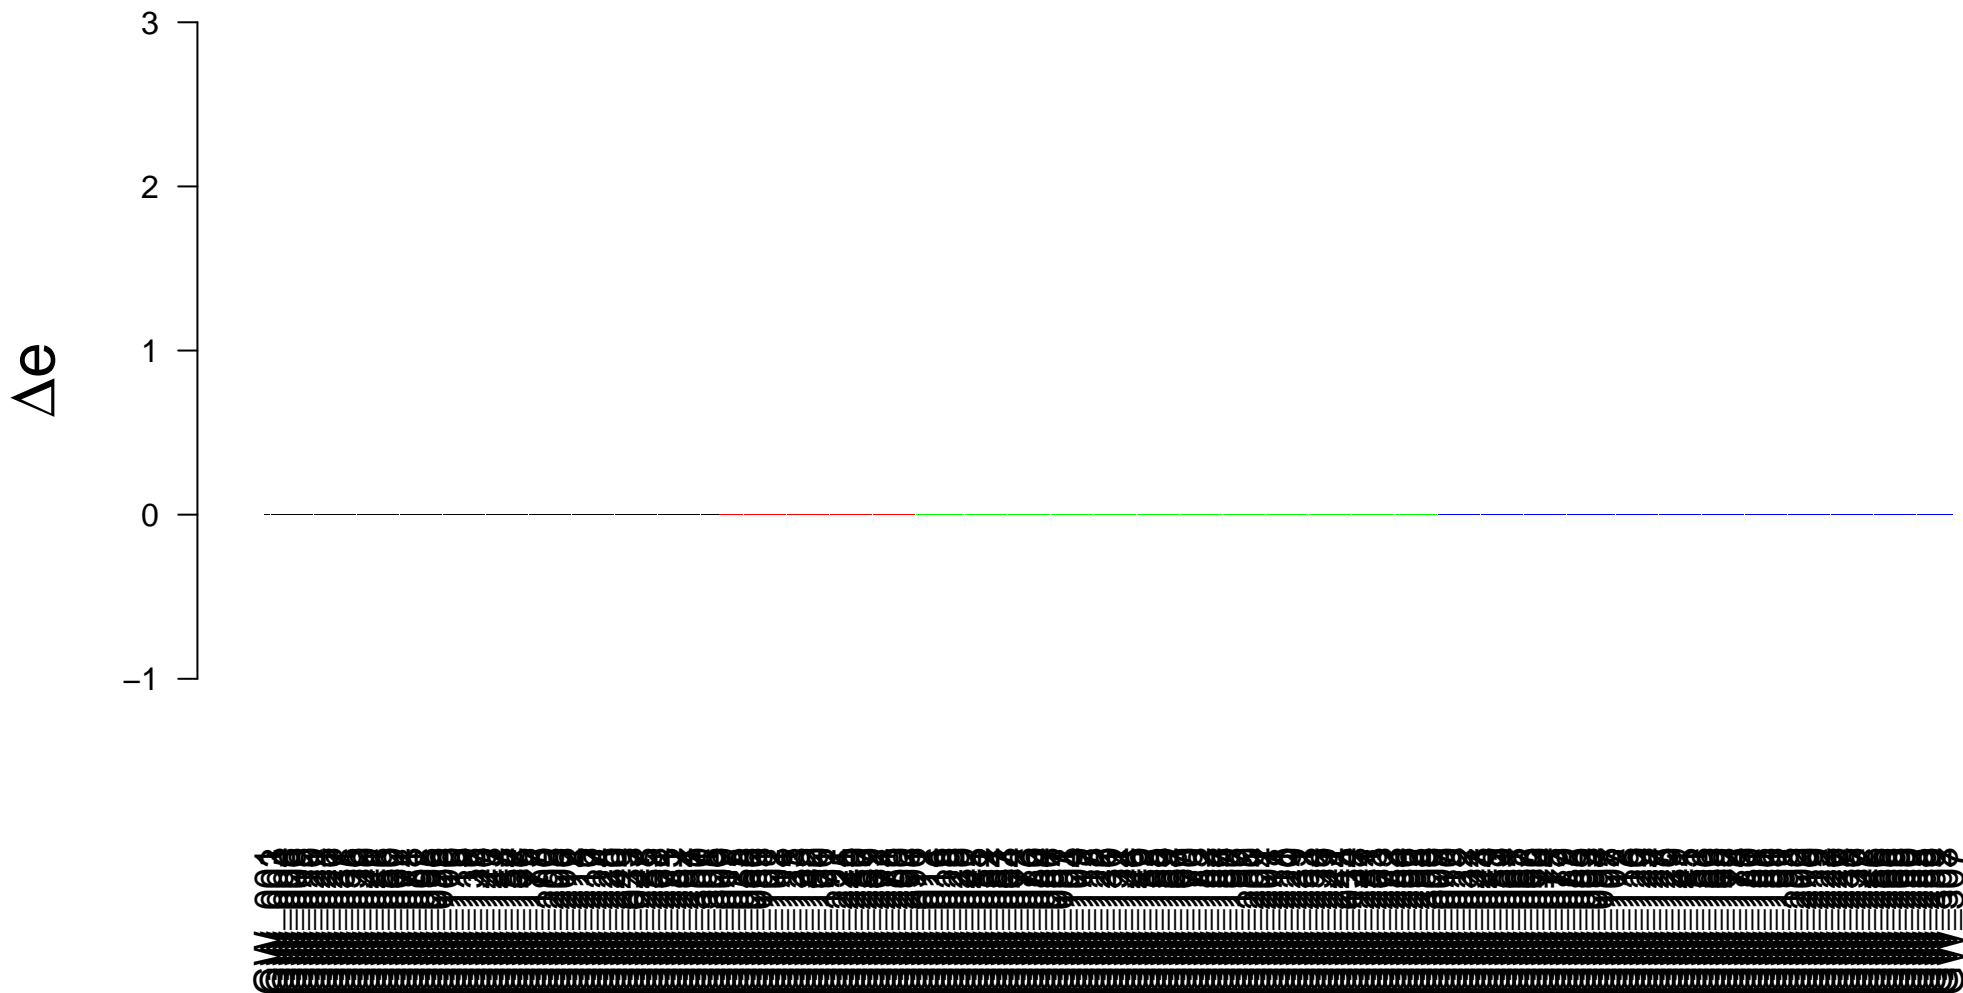

Expression of negative regulation of JUN kinase activity in Spot F

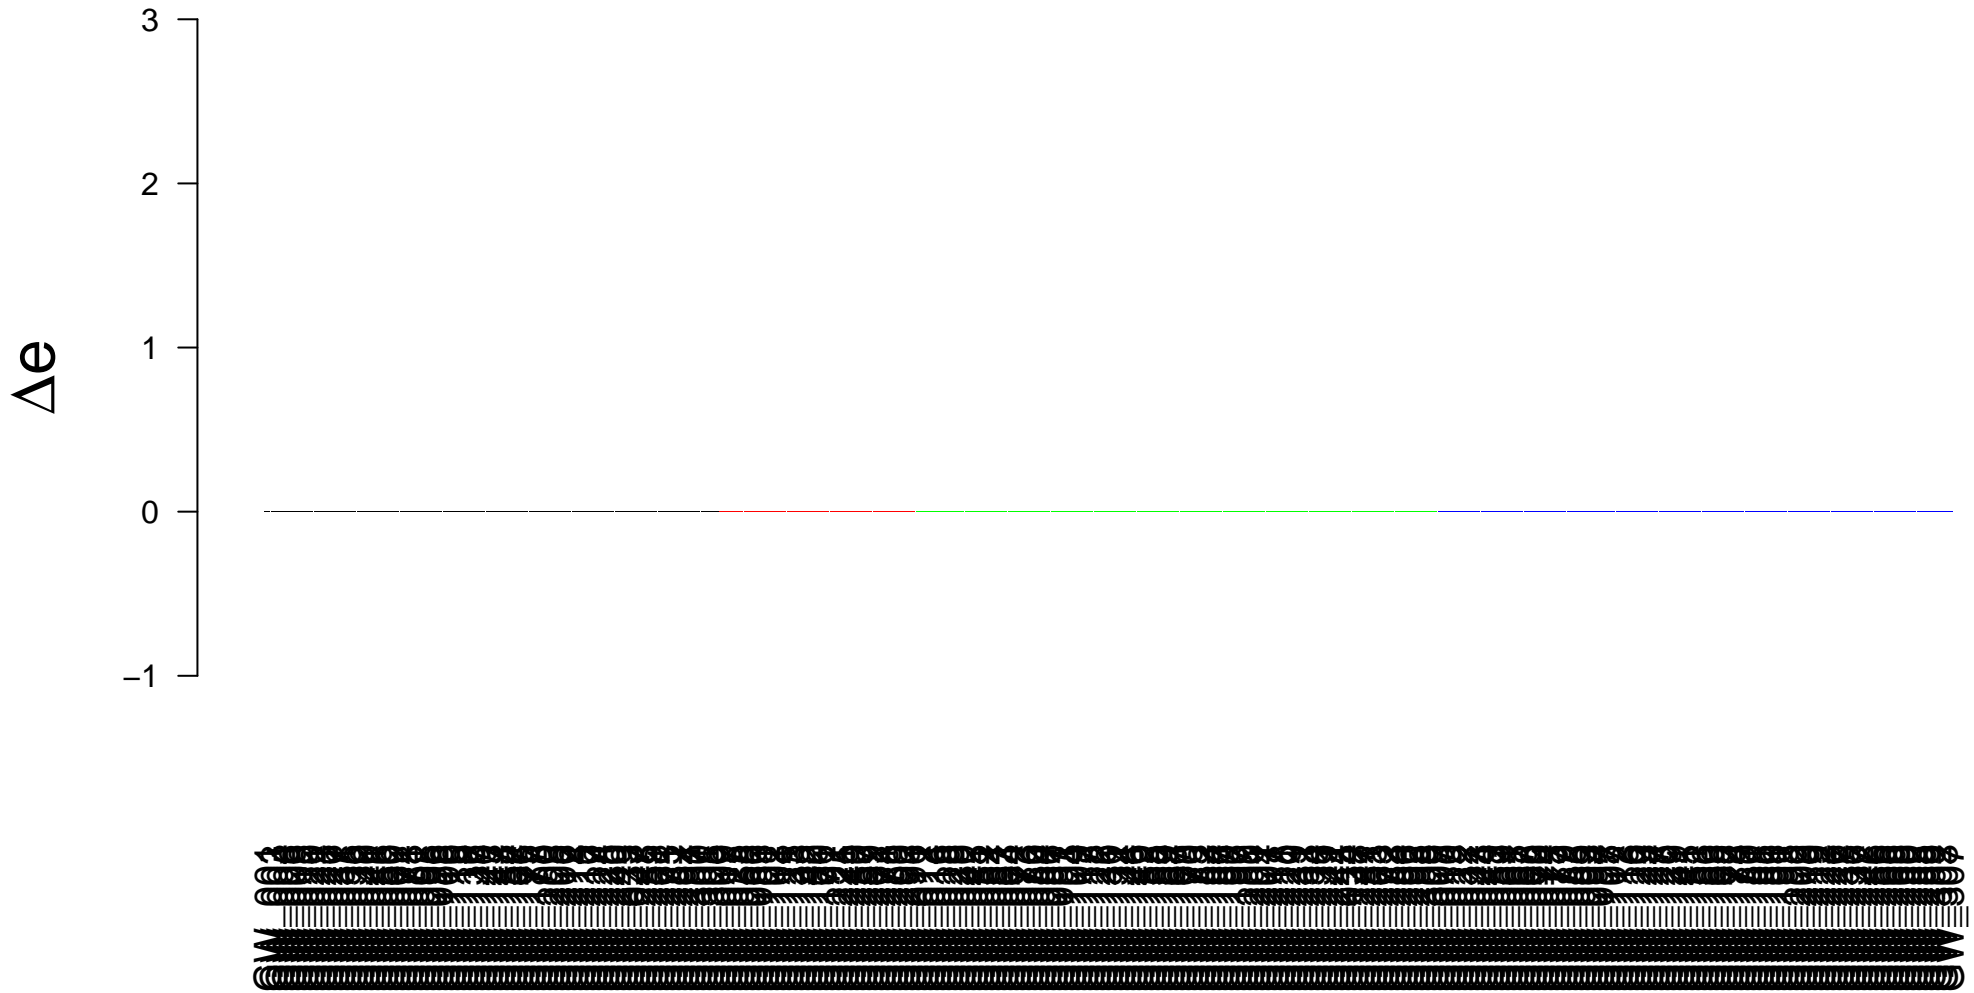

Expression of negative regulation of JUN kinase activity in Spot G

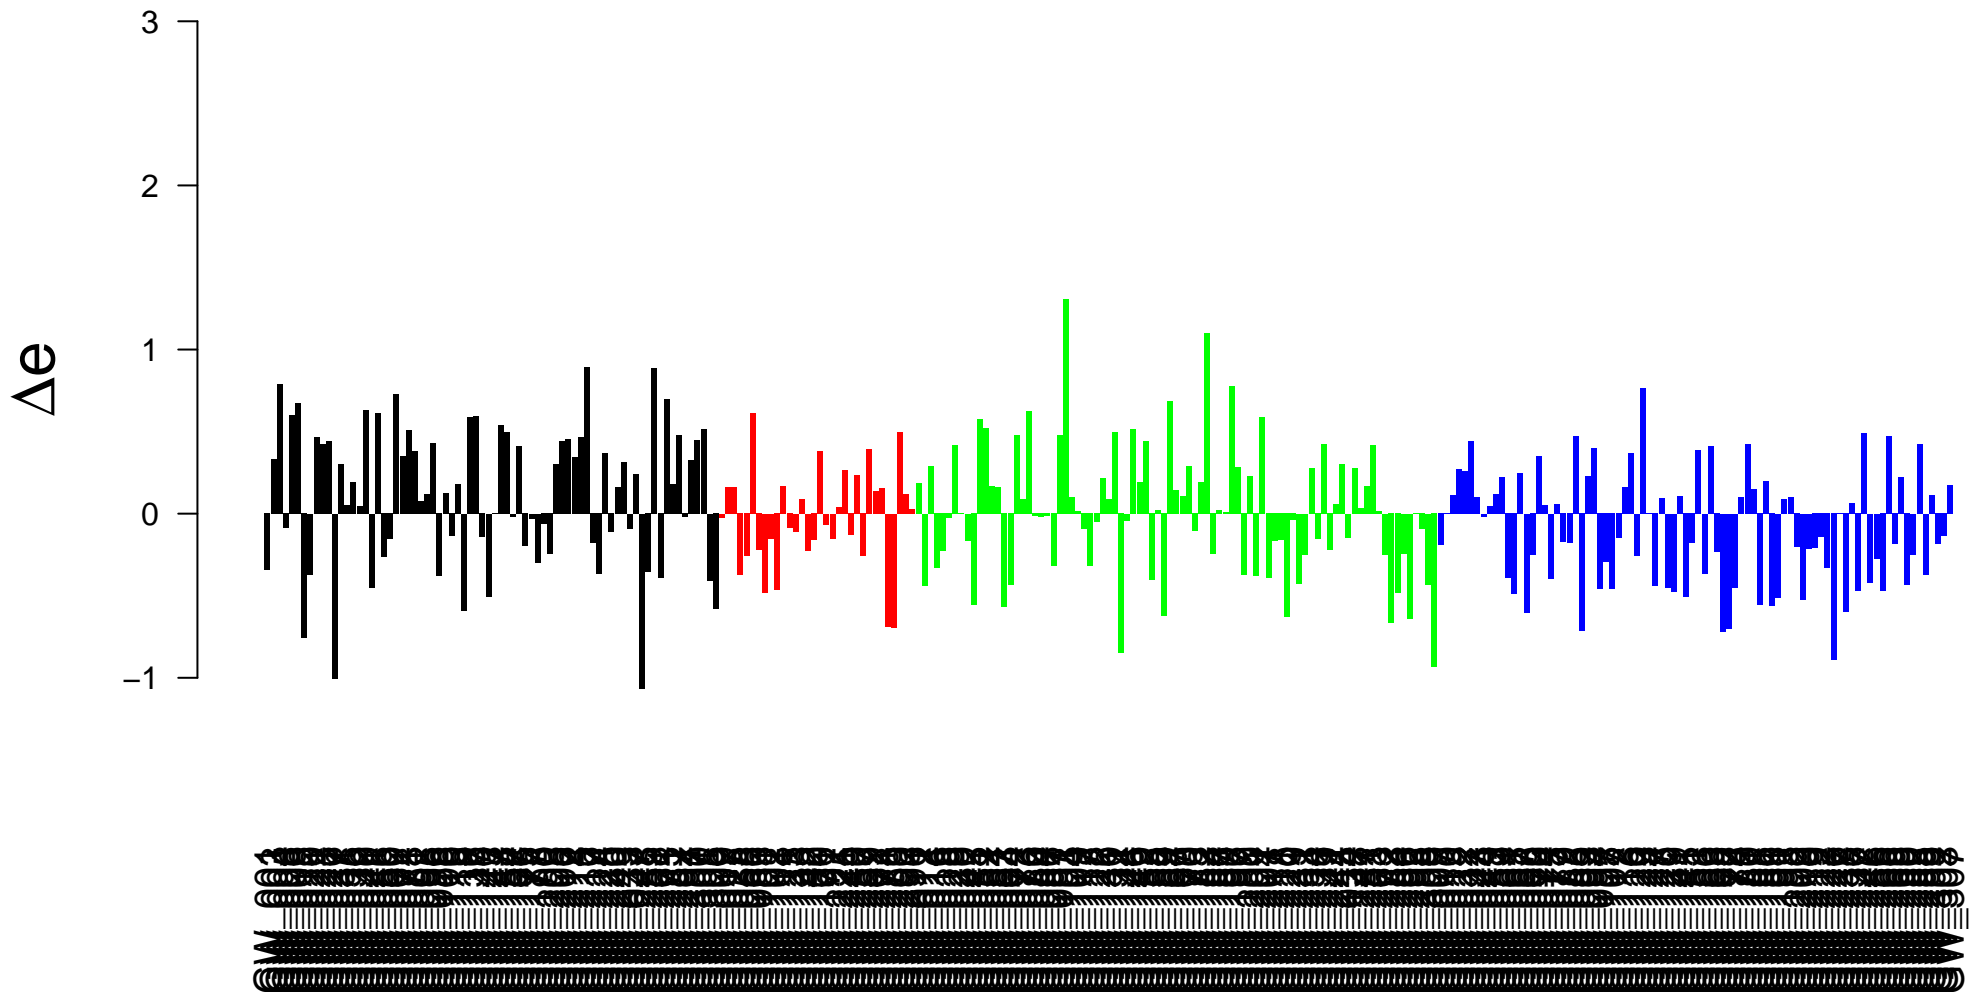

Expression of negative regulation of JUN kinase activity in Spot H

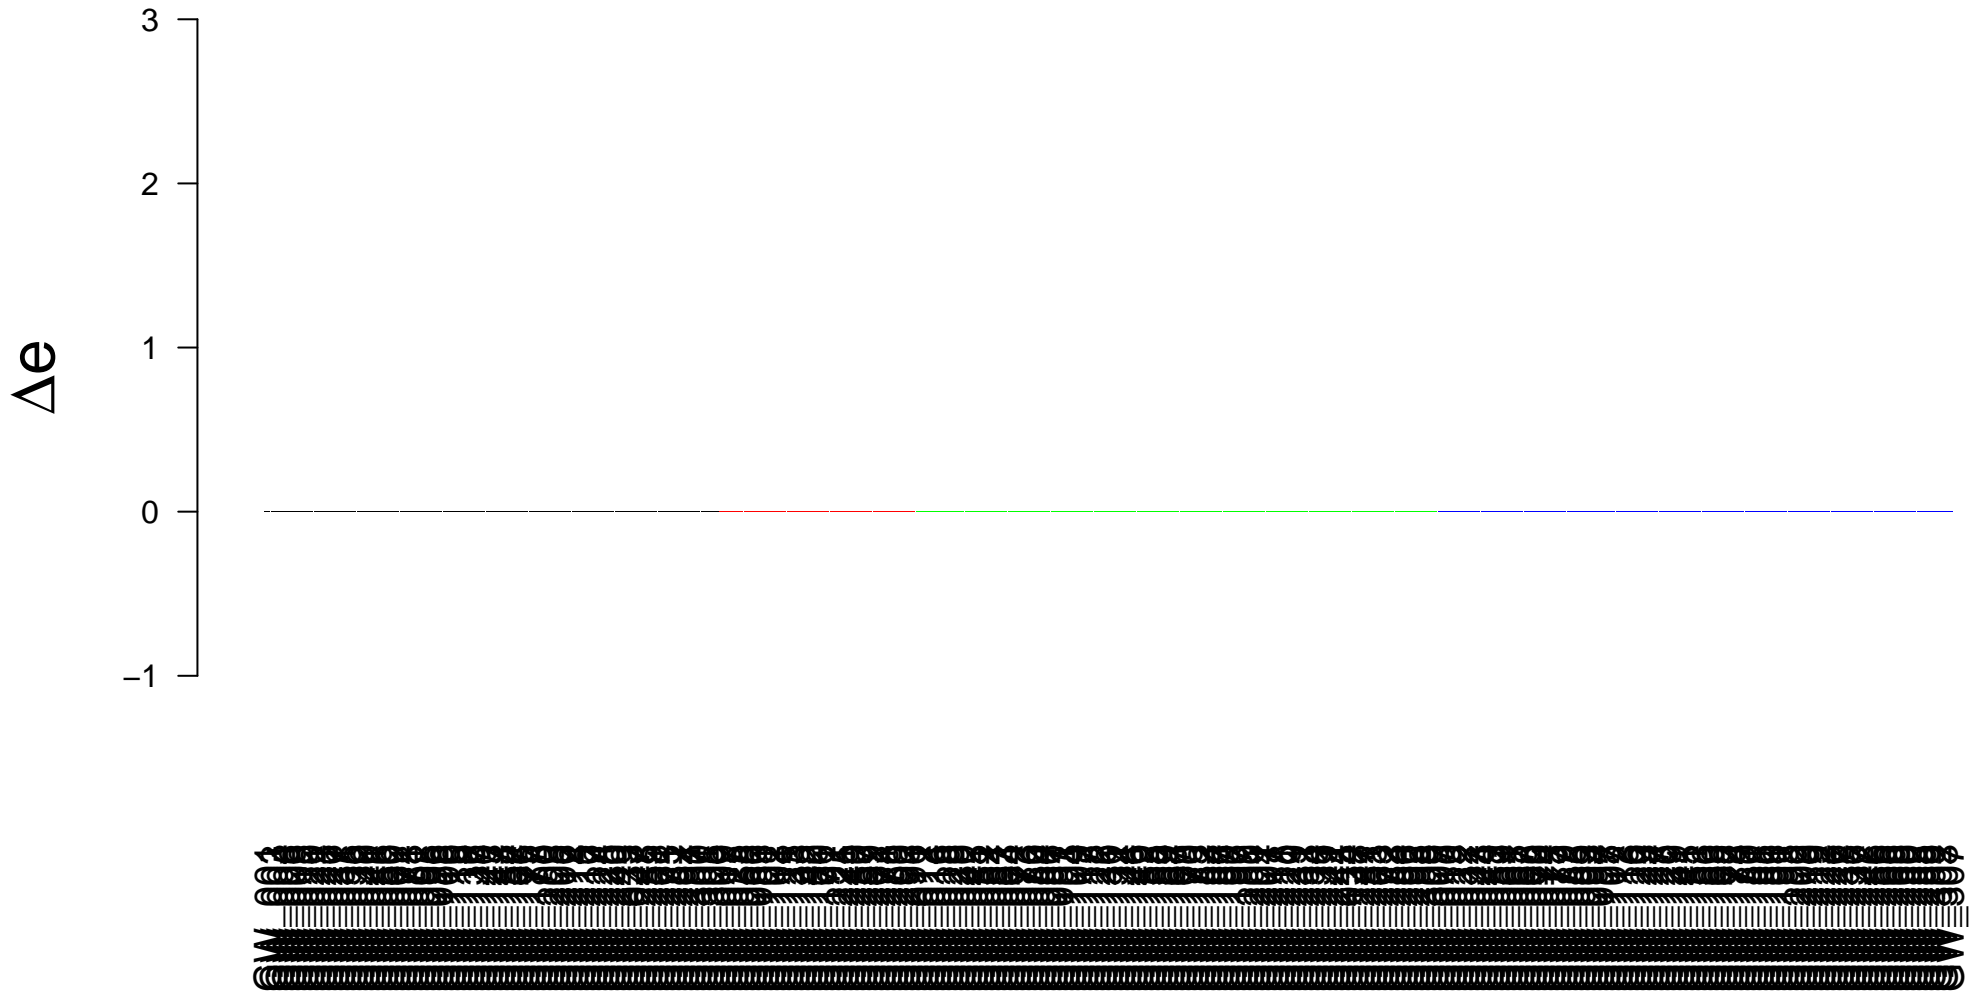

Expression of negative regulation of JUN kinase activity in Spot I

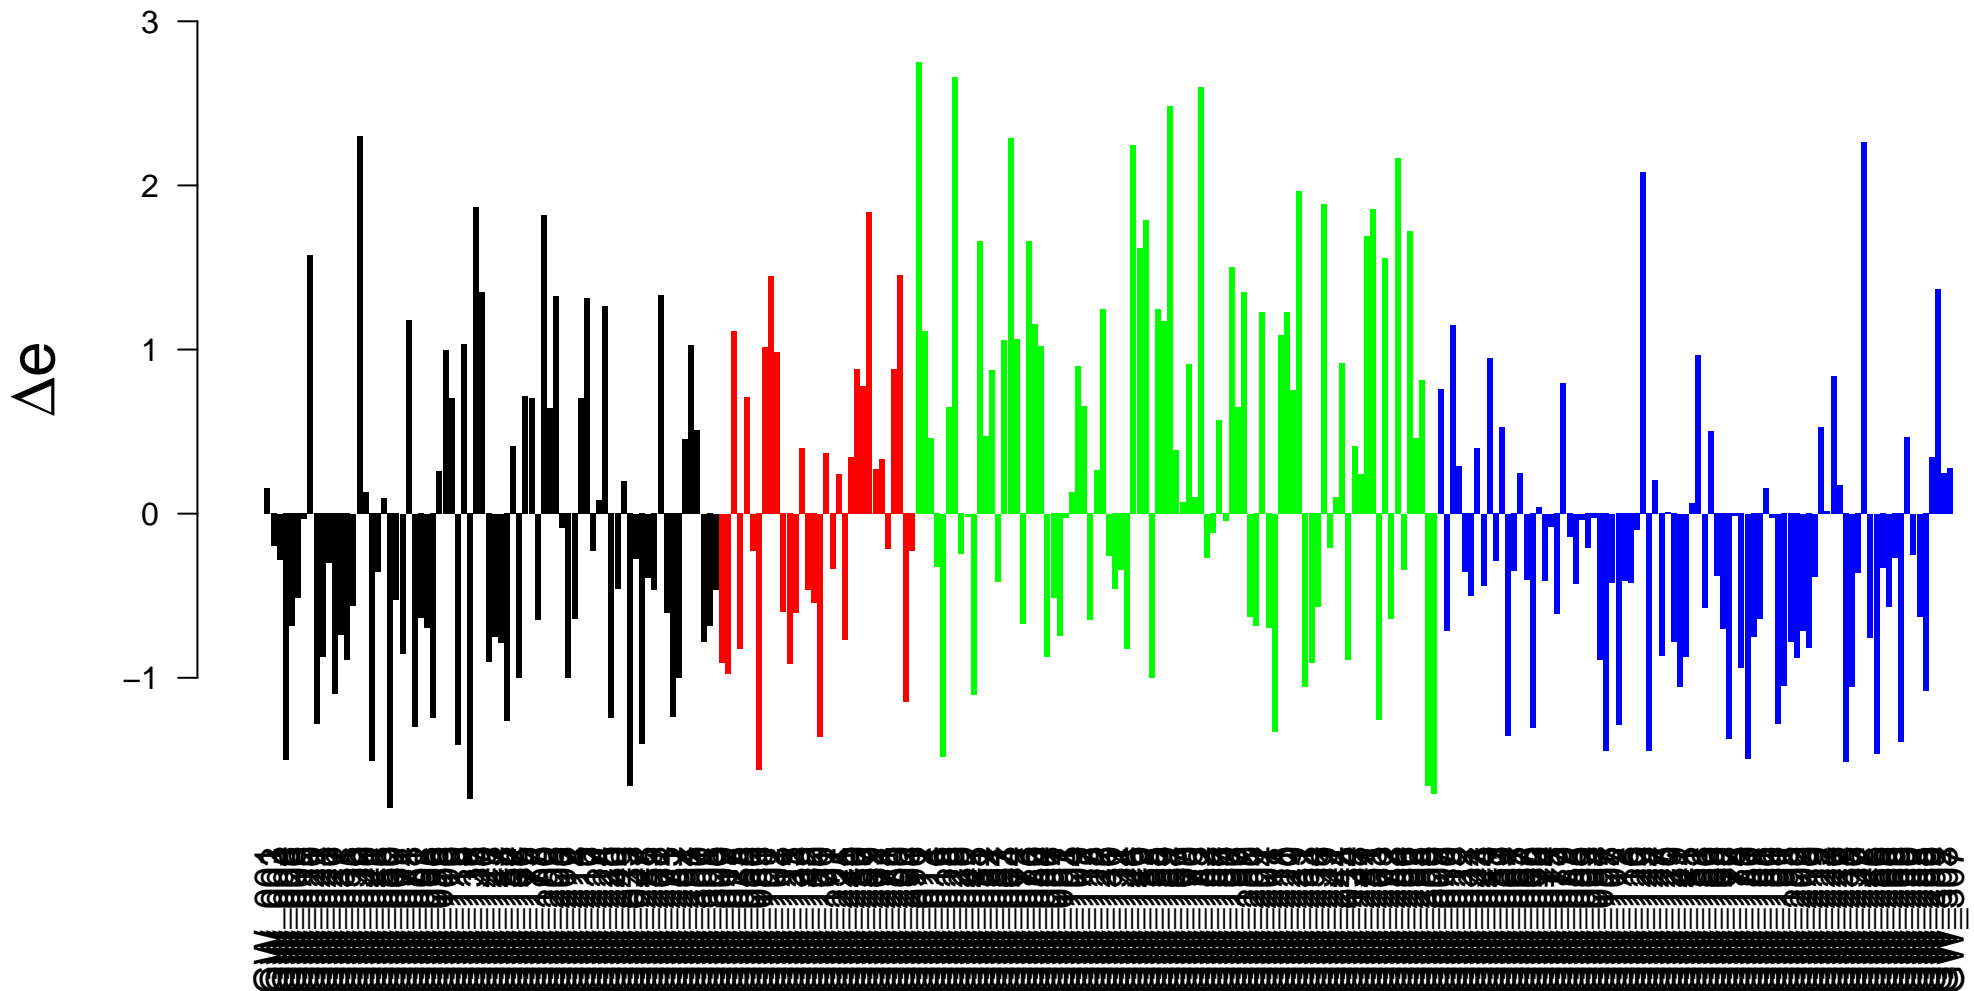

Expression of negative regulation of JUN kinase activity in Spot J

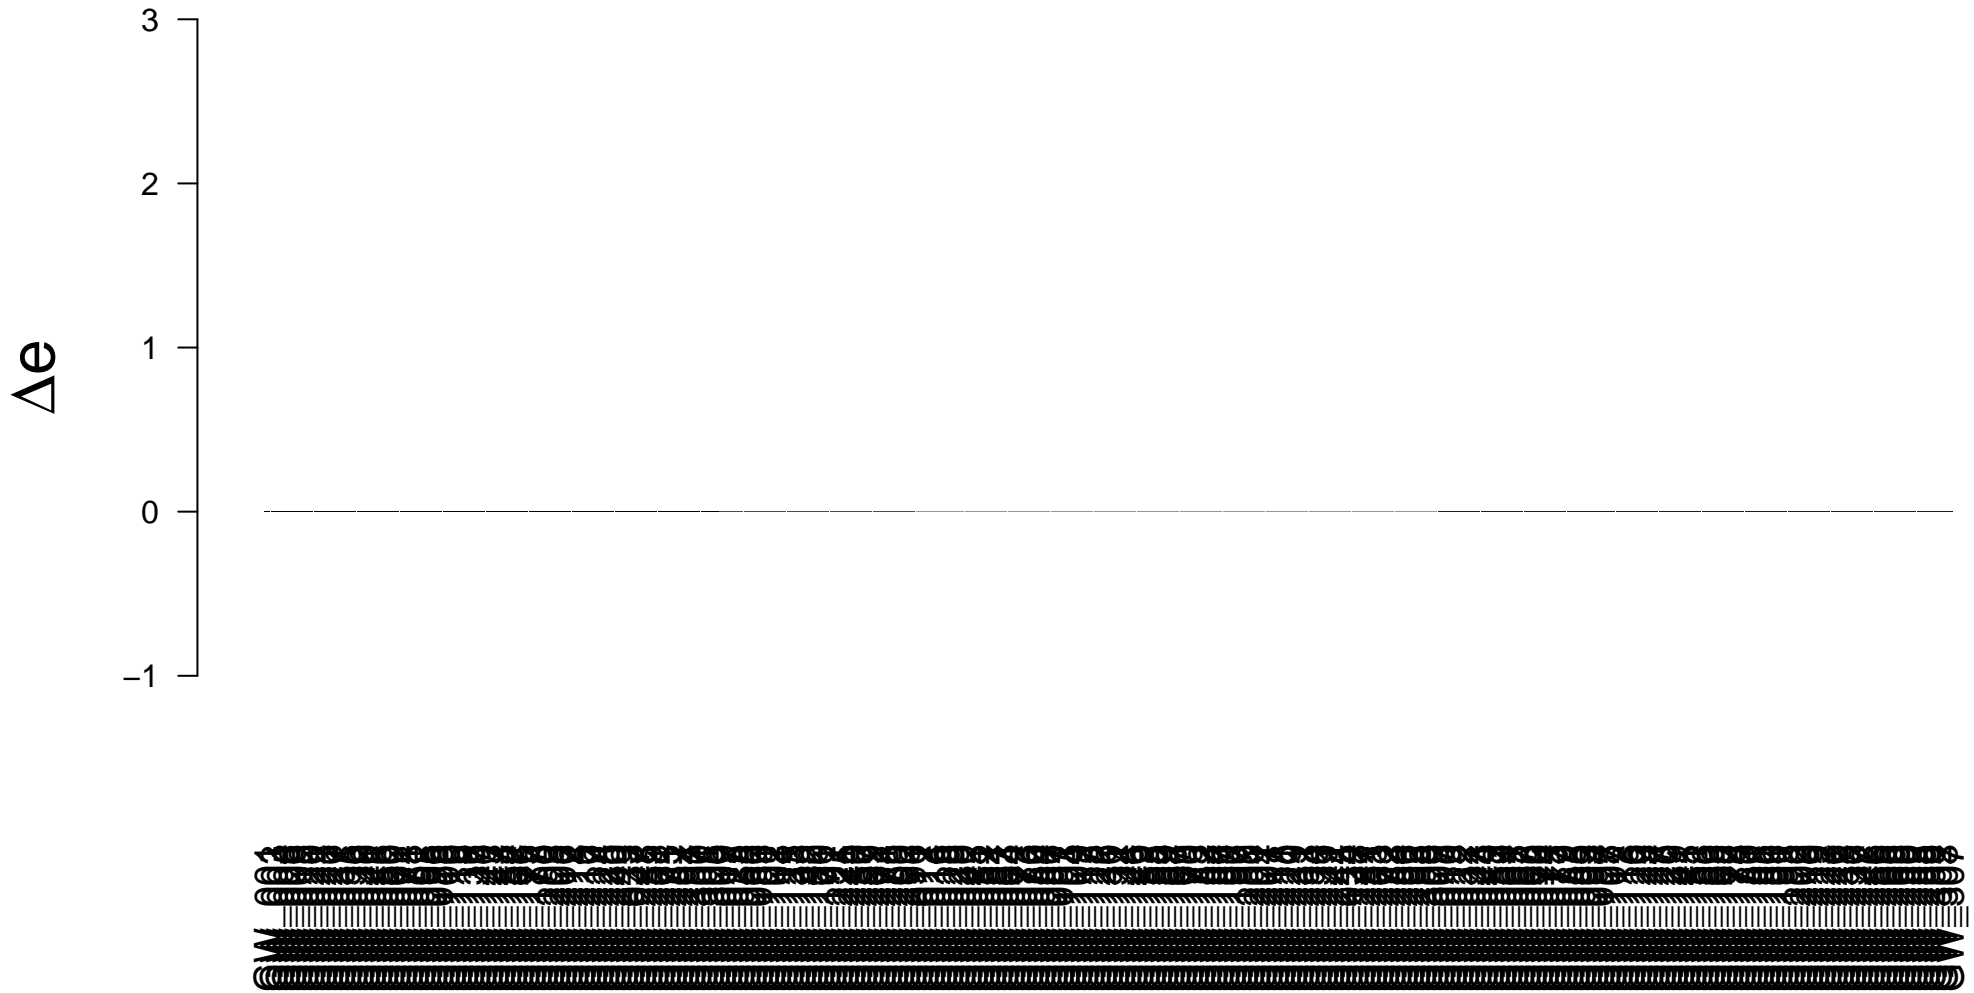

Expression of negative regulation of JUN kinase activity in Spot K

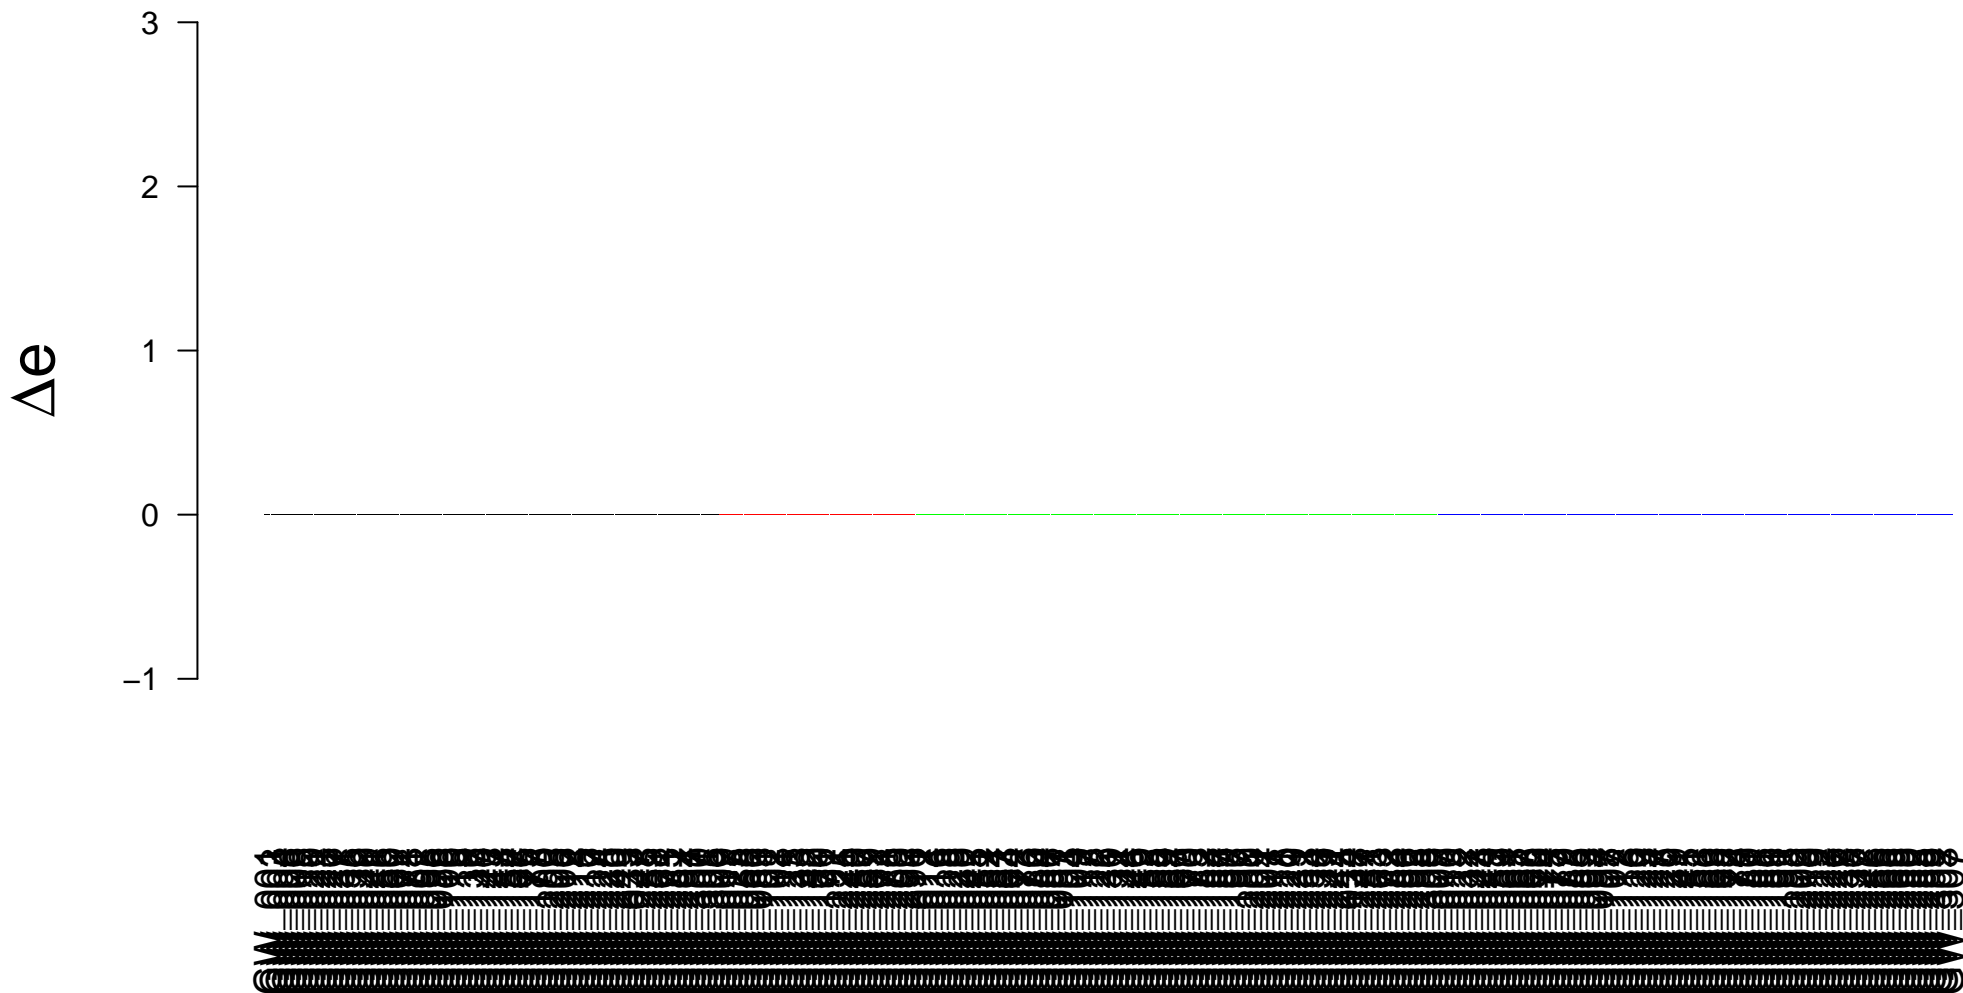

Expression of negative regulation of JUN kinase activity in Spot L

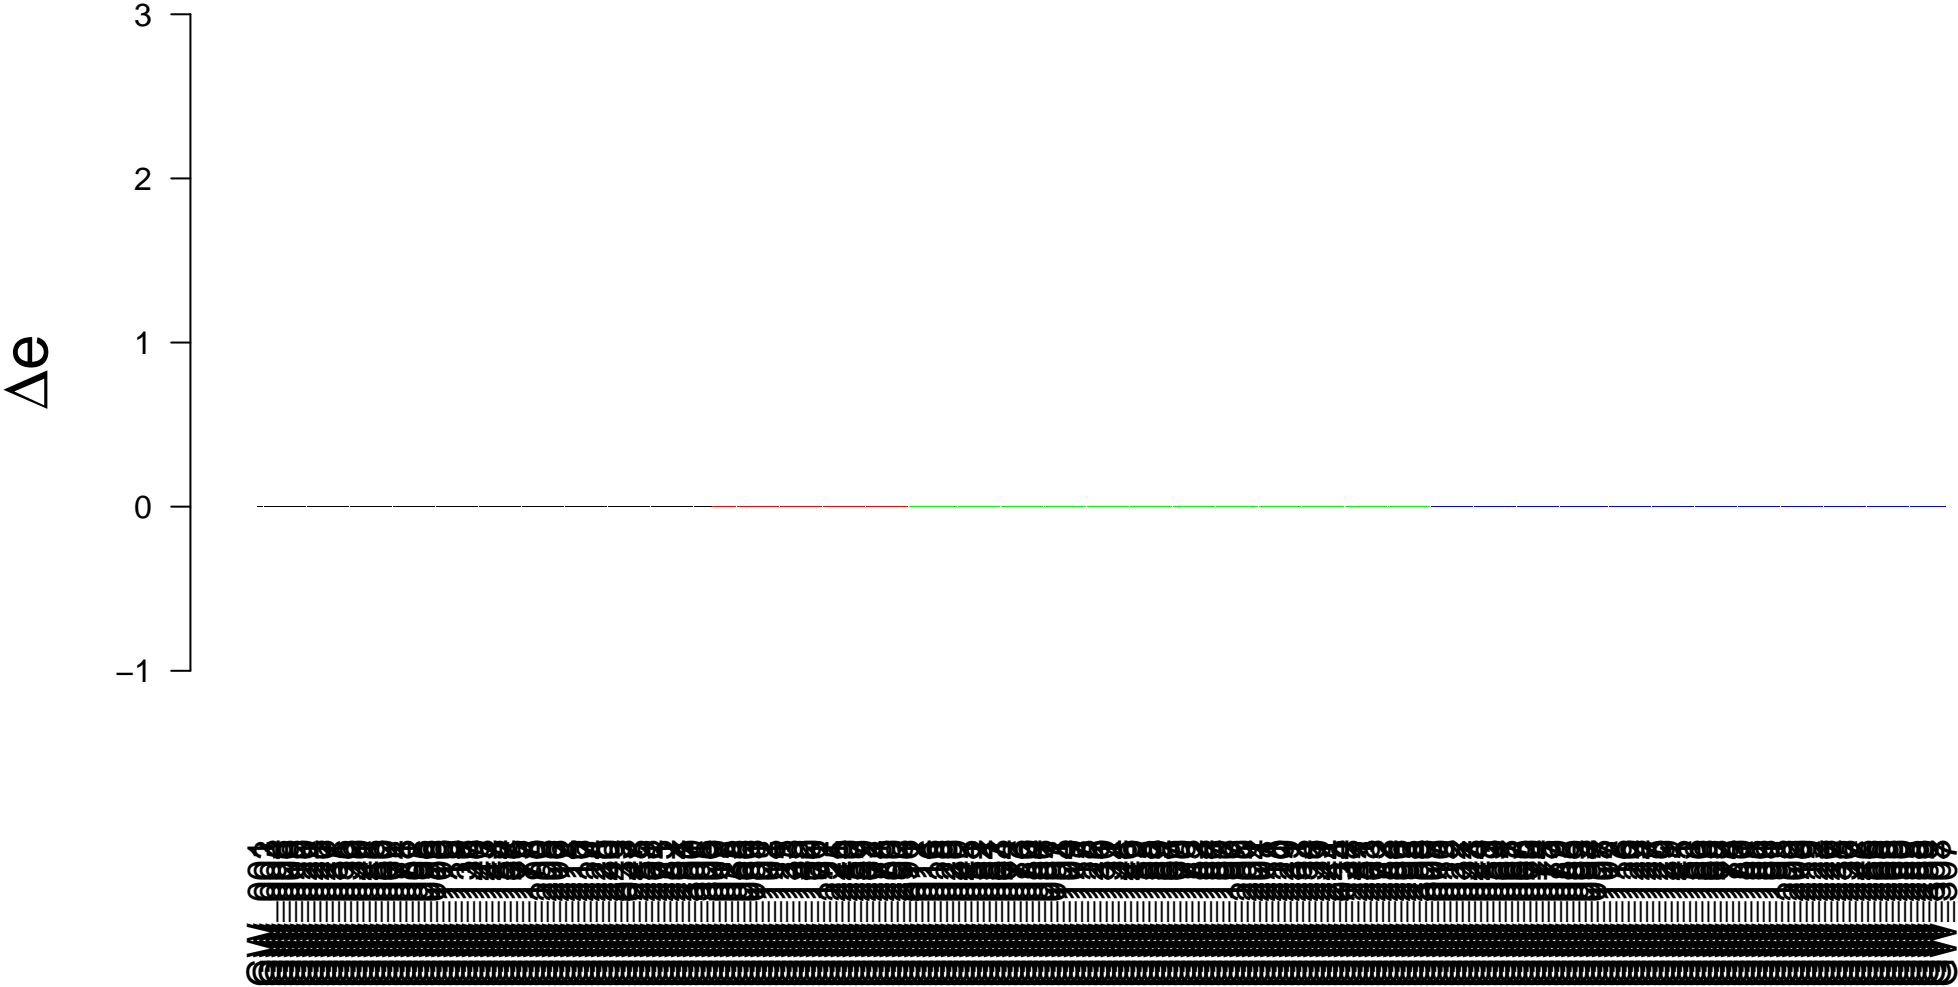

Expression of negative regulation of JUN kinase activity in Spot M

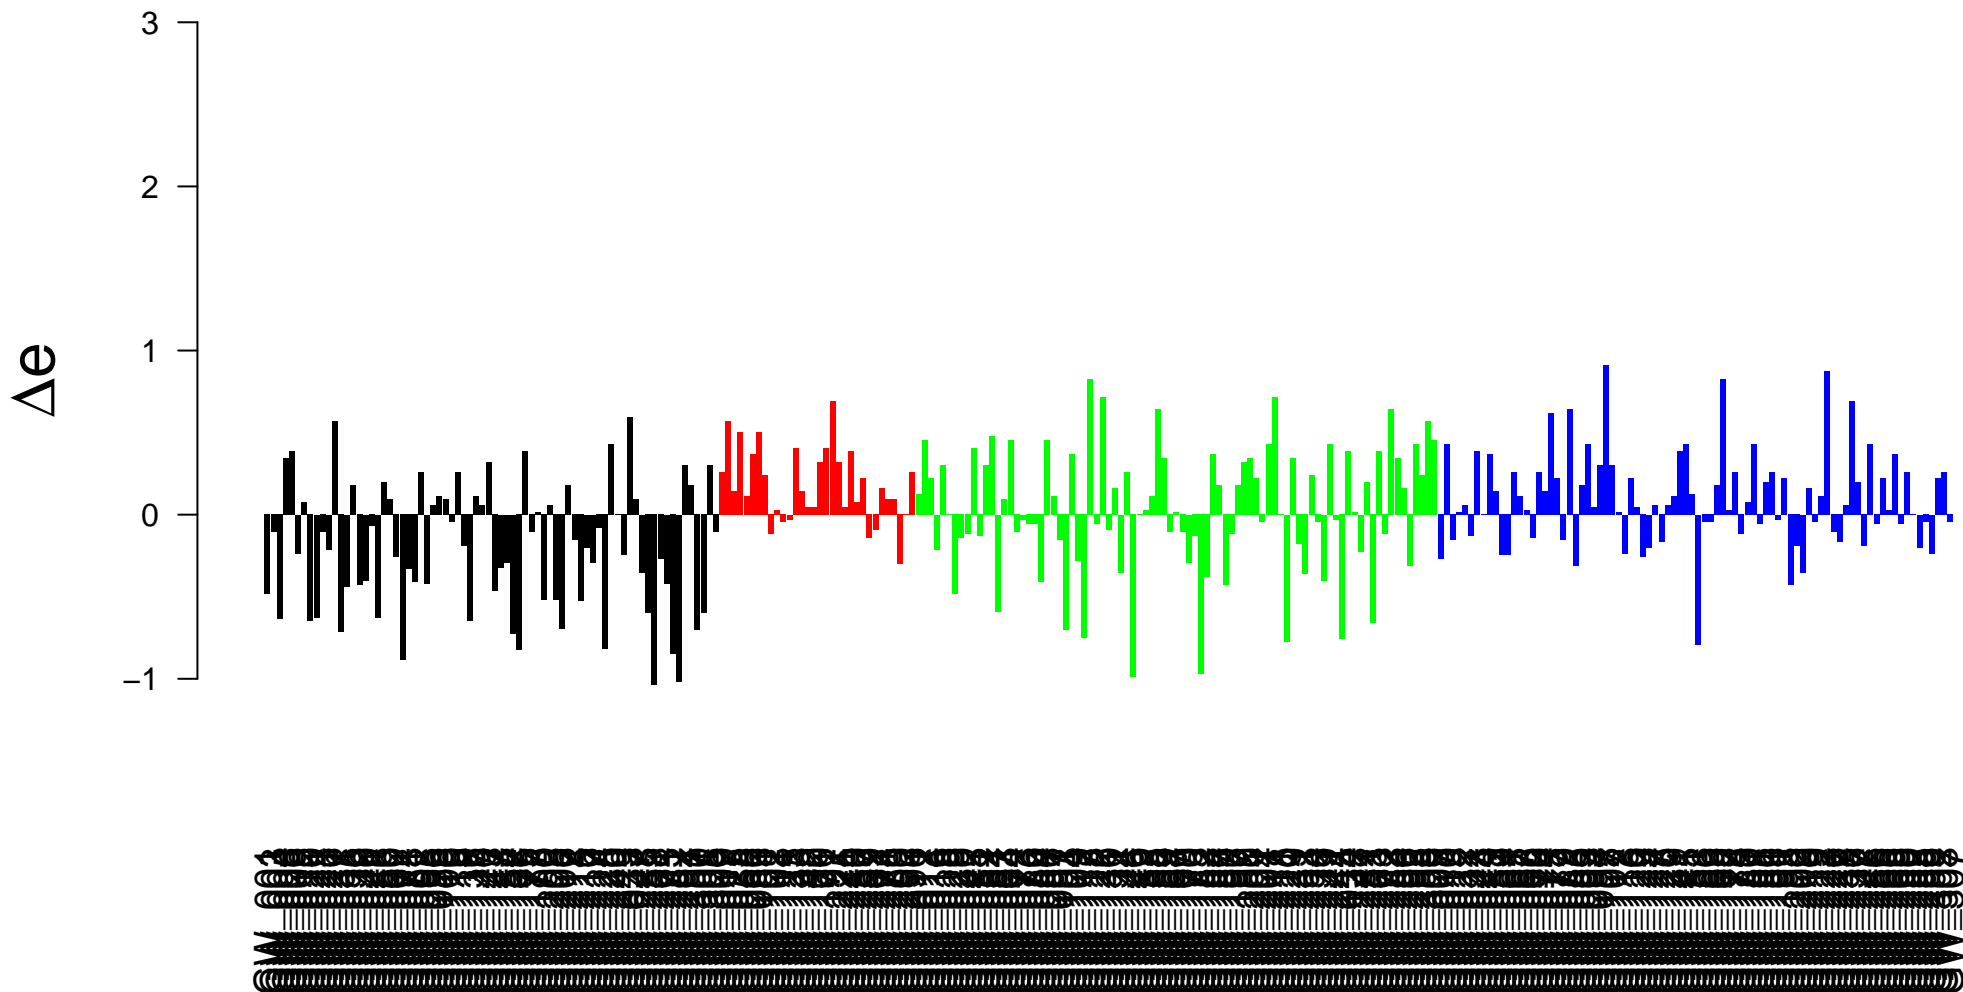

Expression of negative regulation of JUN kinase activity in Spot N

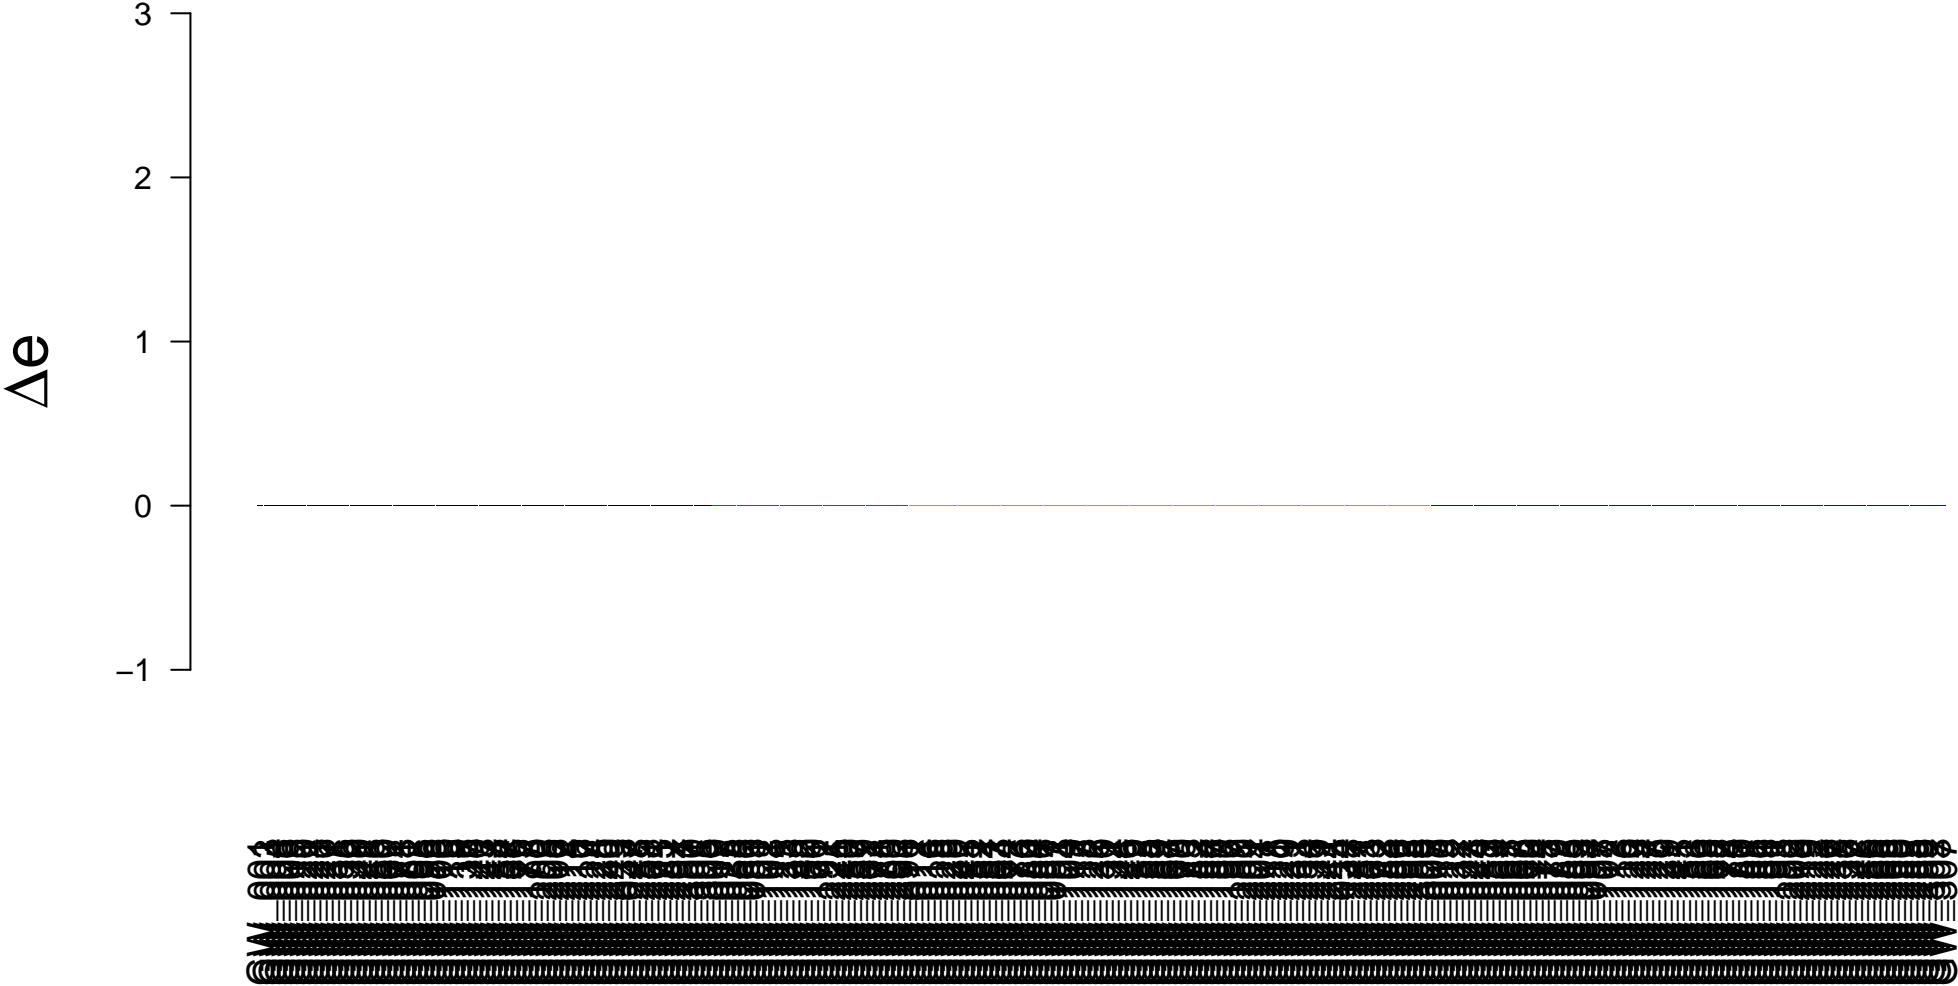

Expression of negative regulation of JUN kinase activity in Spot O

Expression of negative regulation of JUN kinase activity in Spot P

Expression of negative regulation of JUN kinase activity in Spot Q

Expression of negative regulation of JUN kinase activity in Spot R
