

negative regulation of blood coagulation

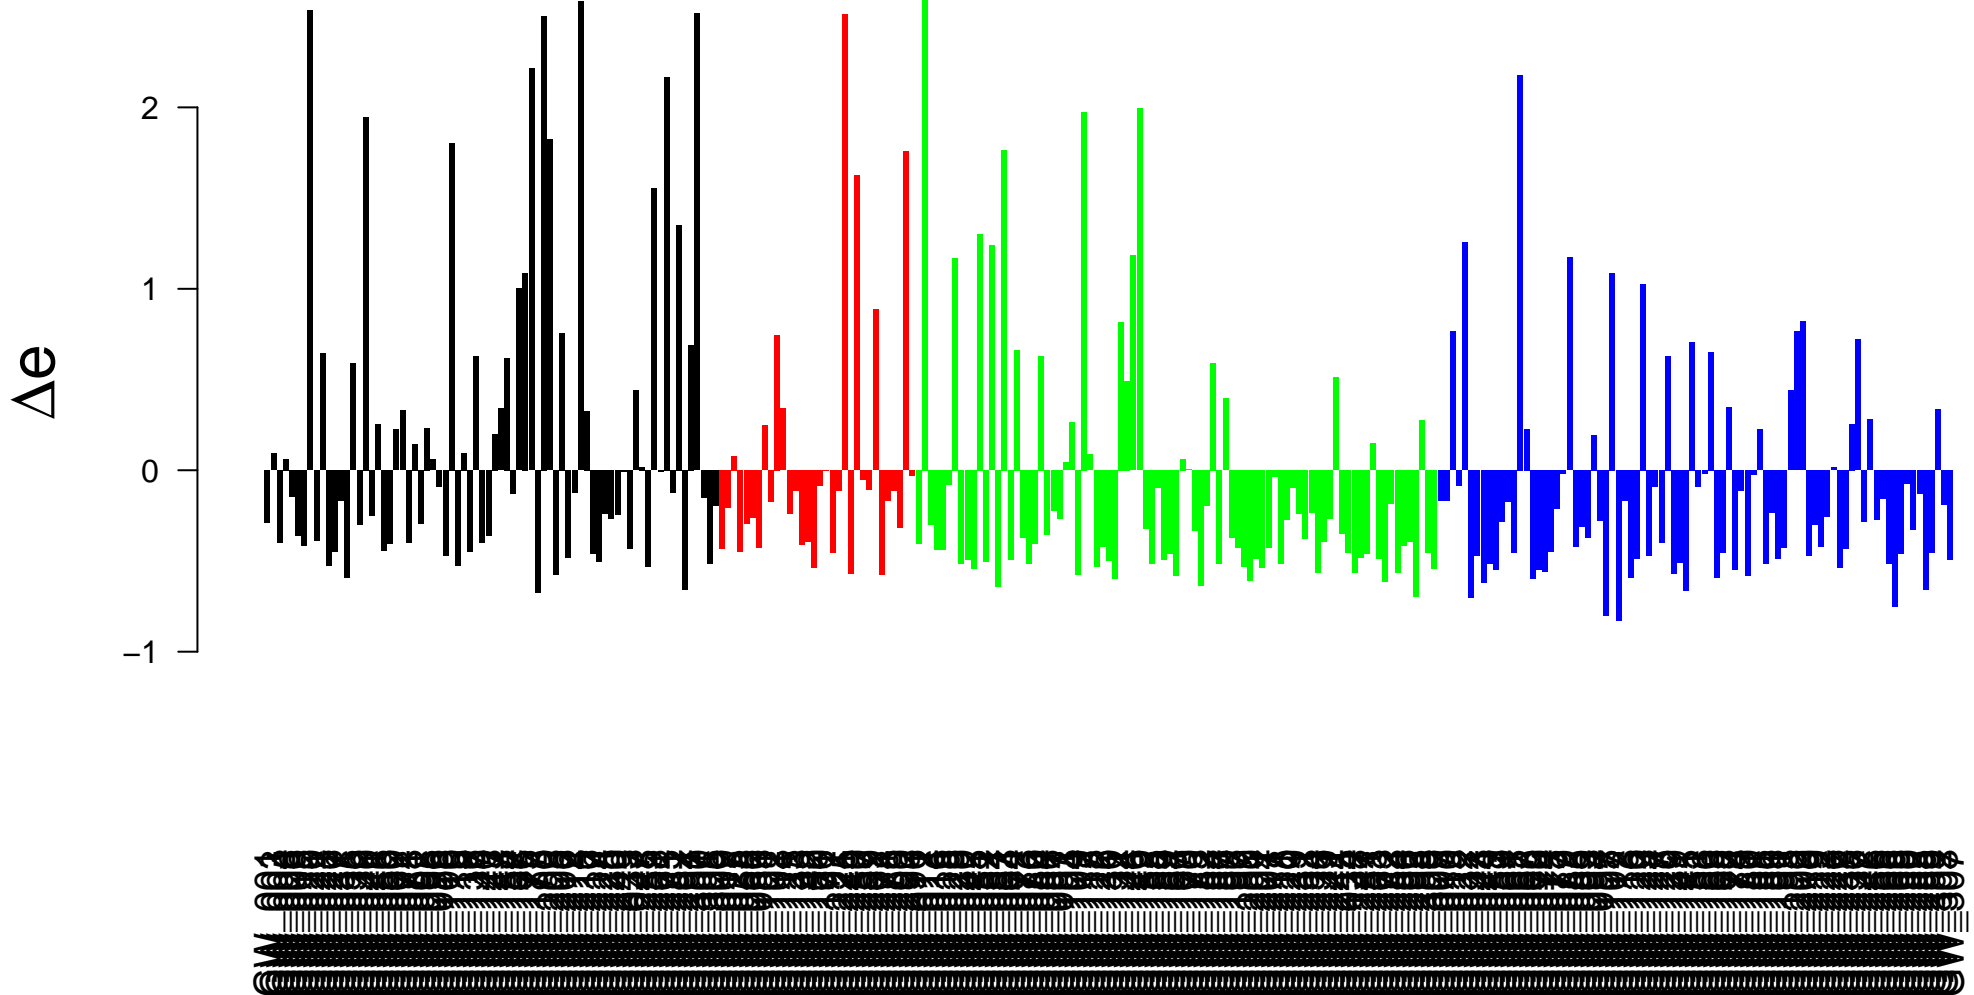

negative regulation of blood coagulation

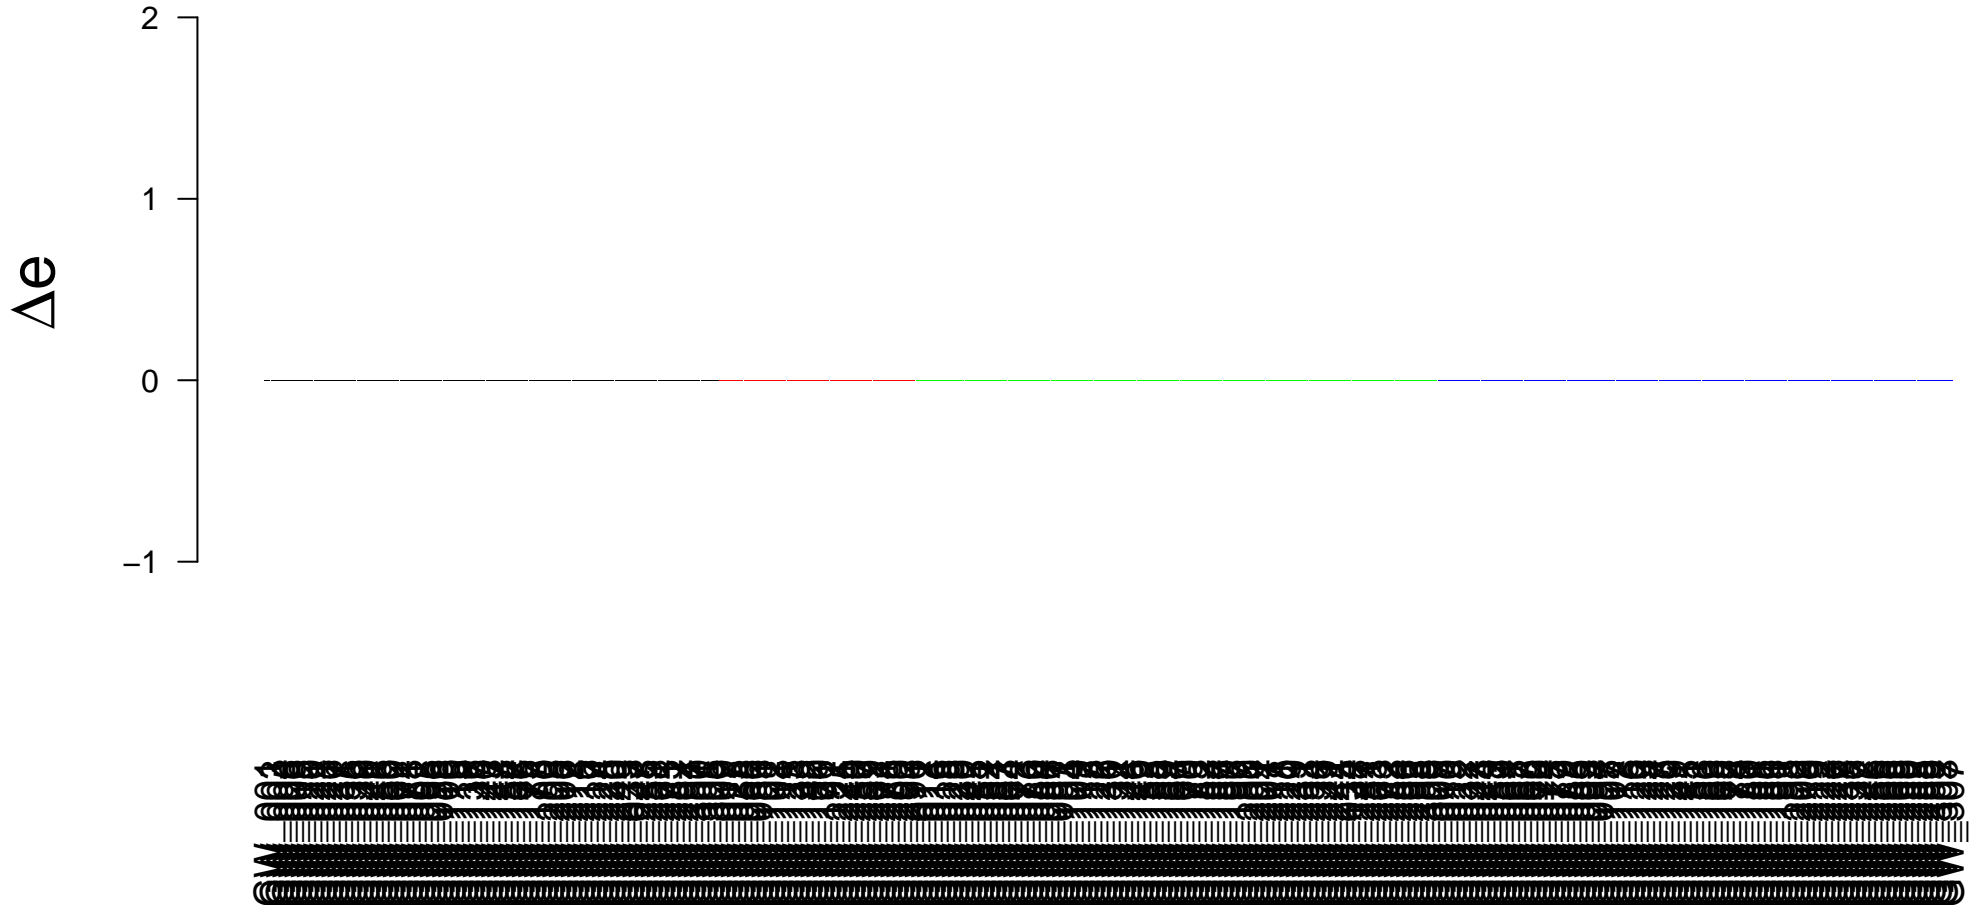

Enrichment in spots: negative regulation of blood coagulation

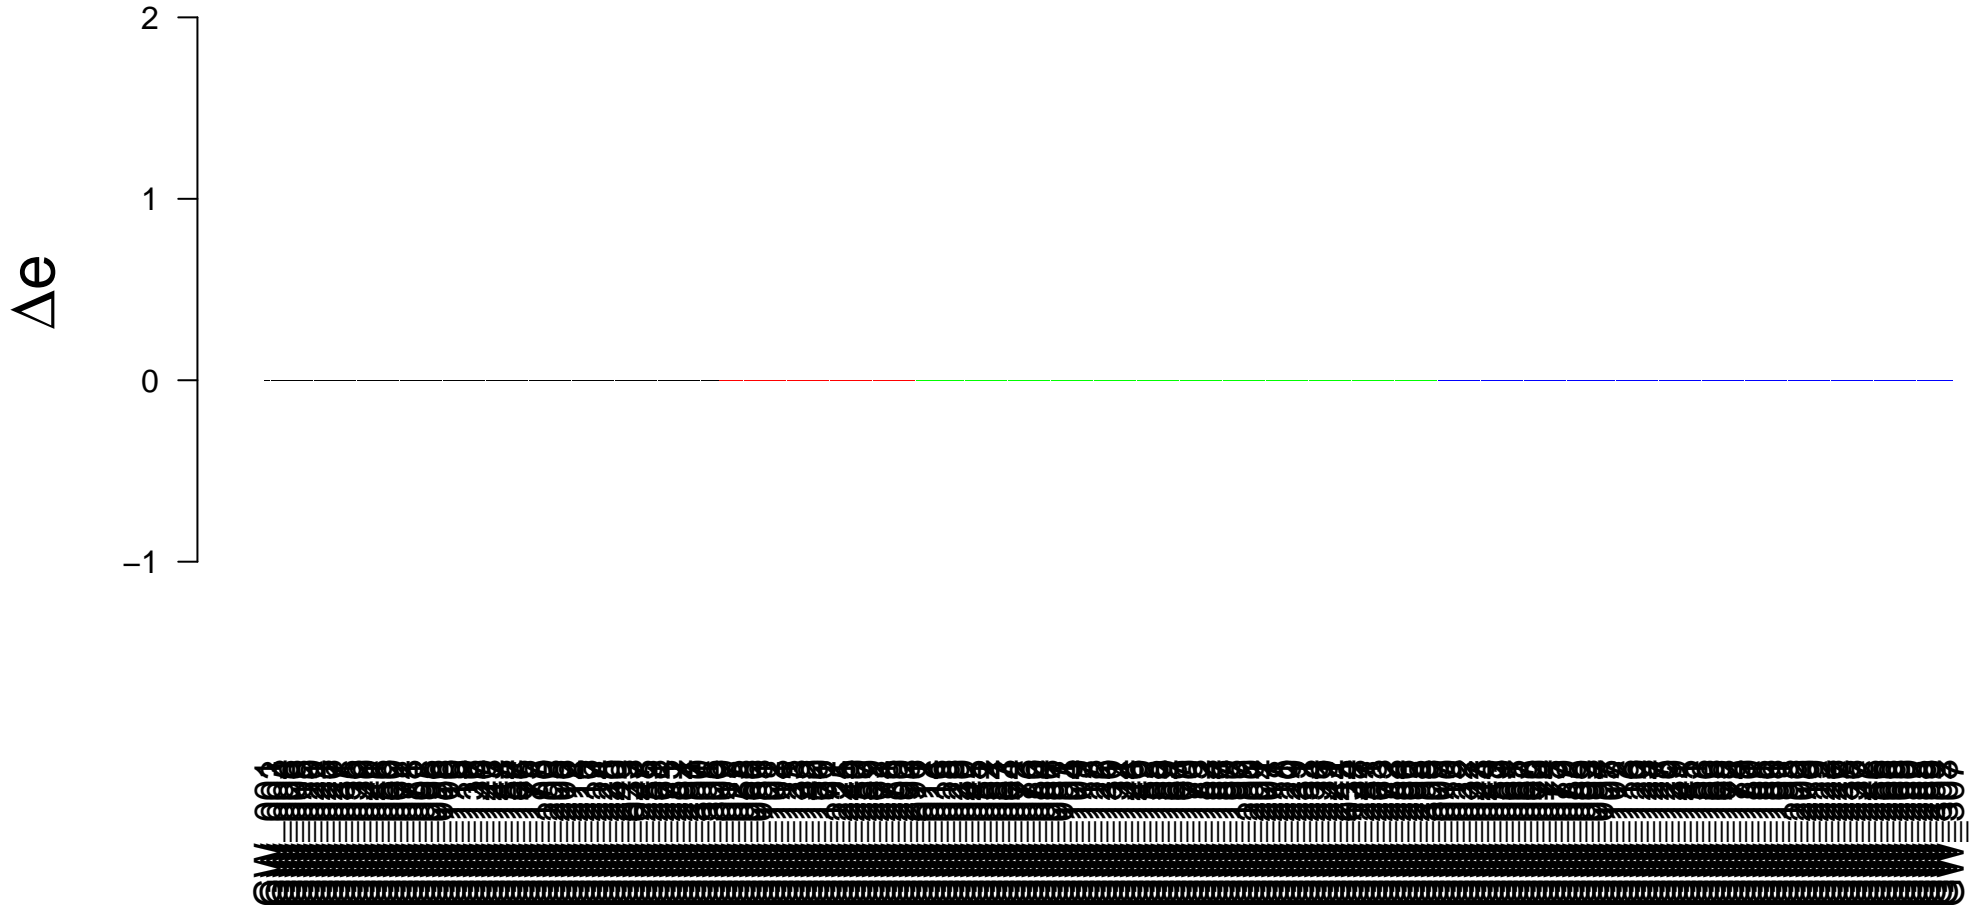

Expression of negative regulation of blood coagulation in Spot A

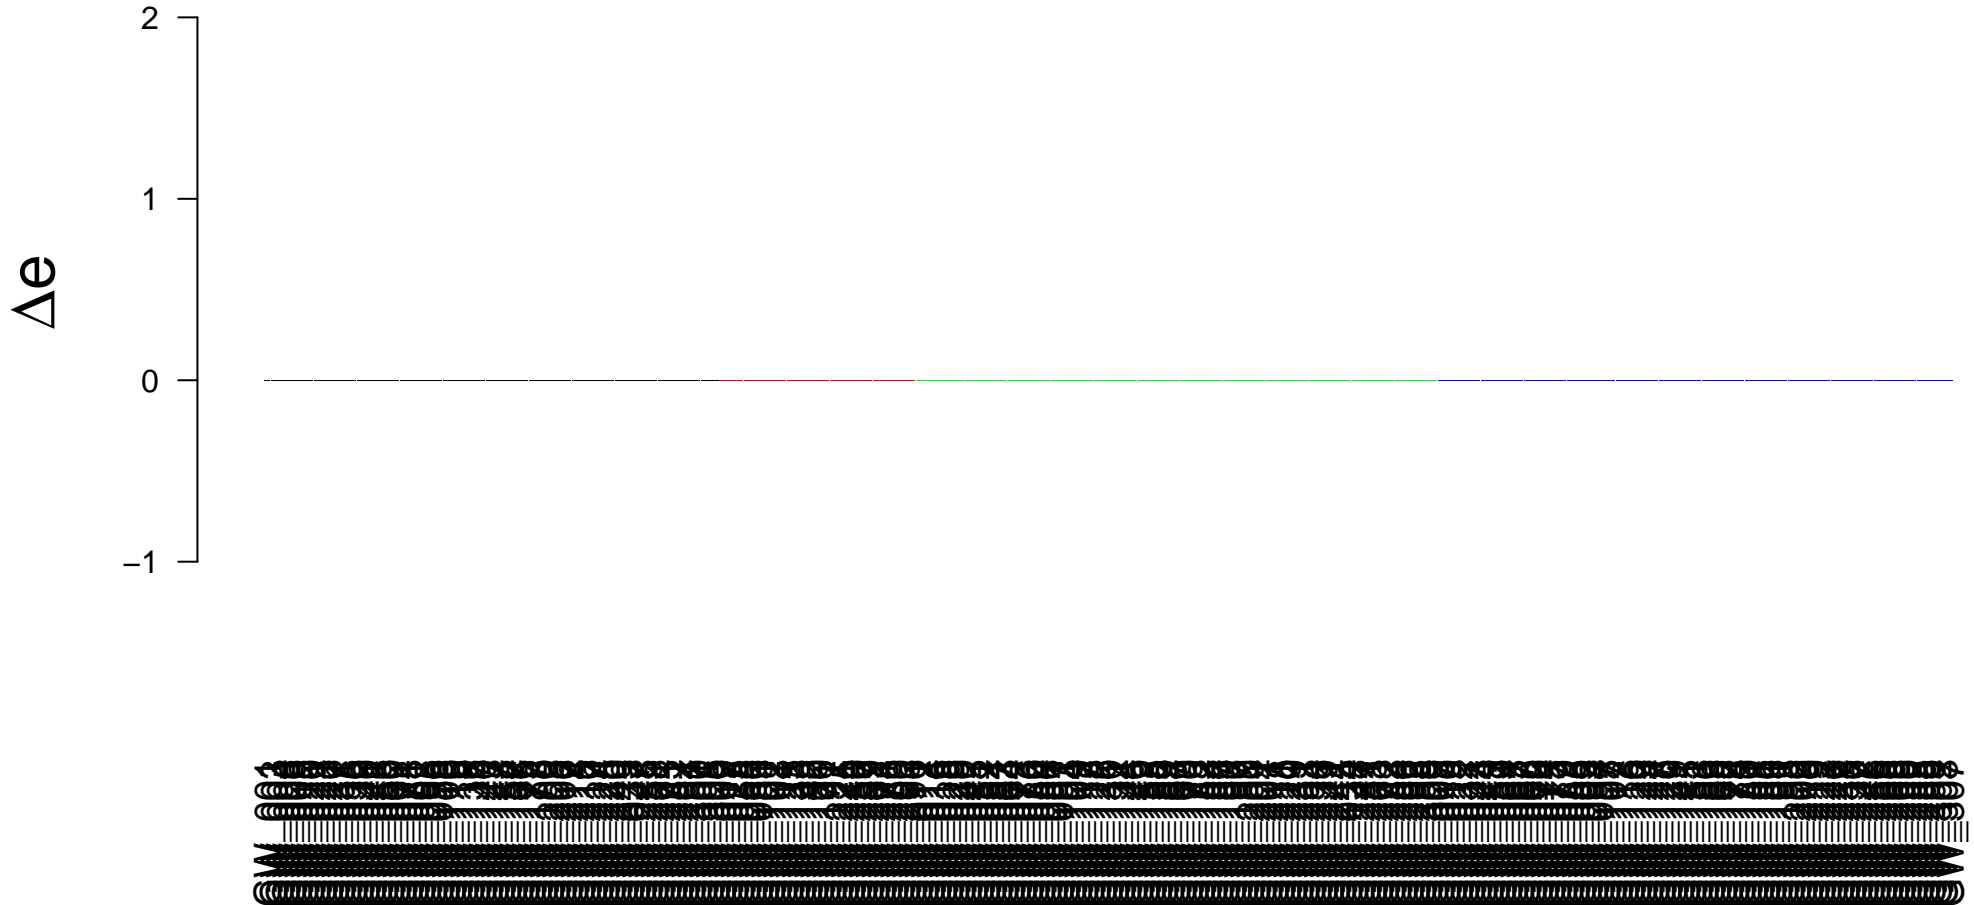

Expression of negative regulation of blood coagulation in Spot B

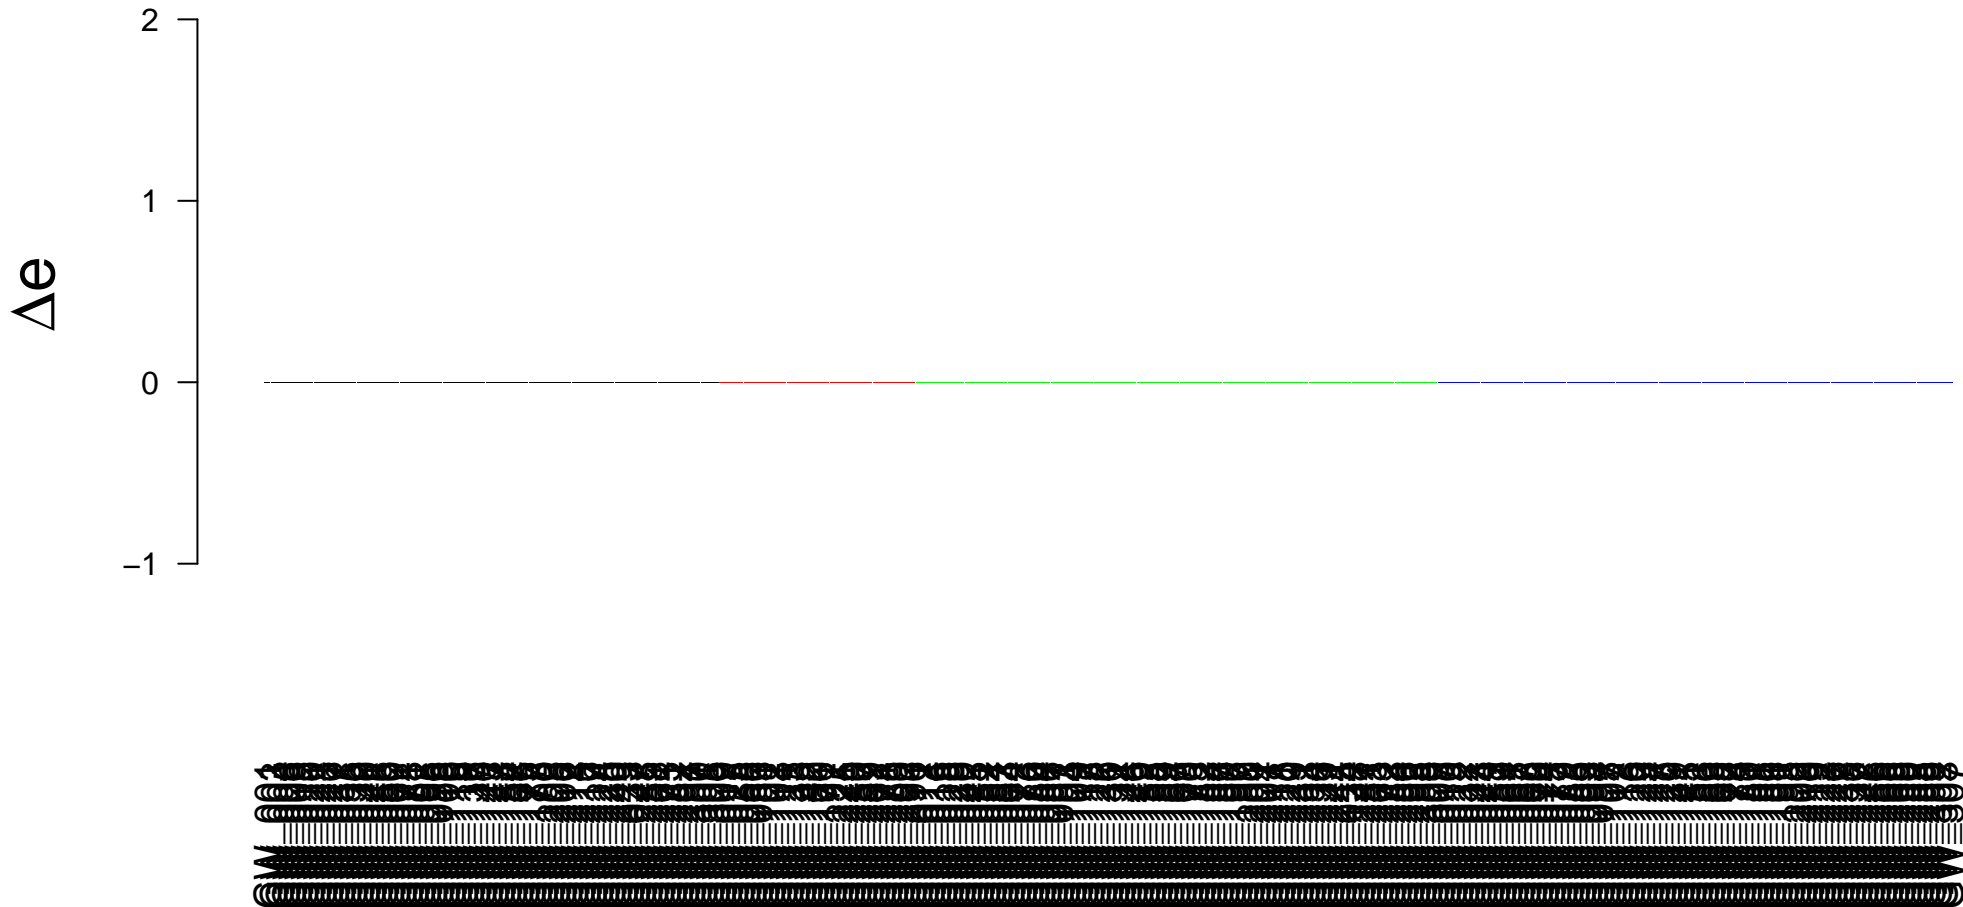

Expression of negative regulation of blood coagulation in Spot C

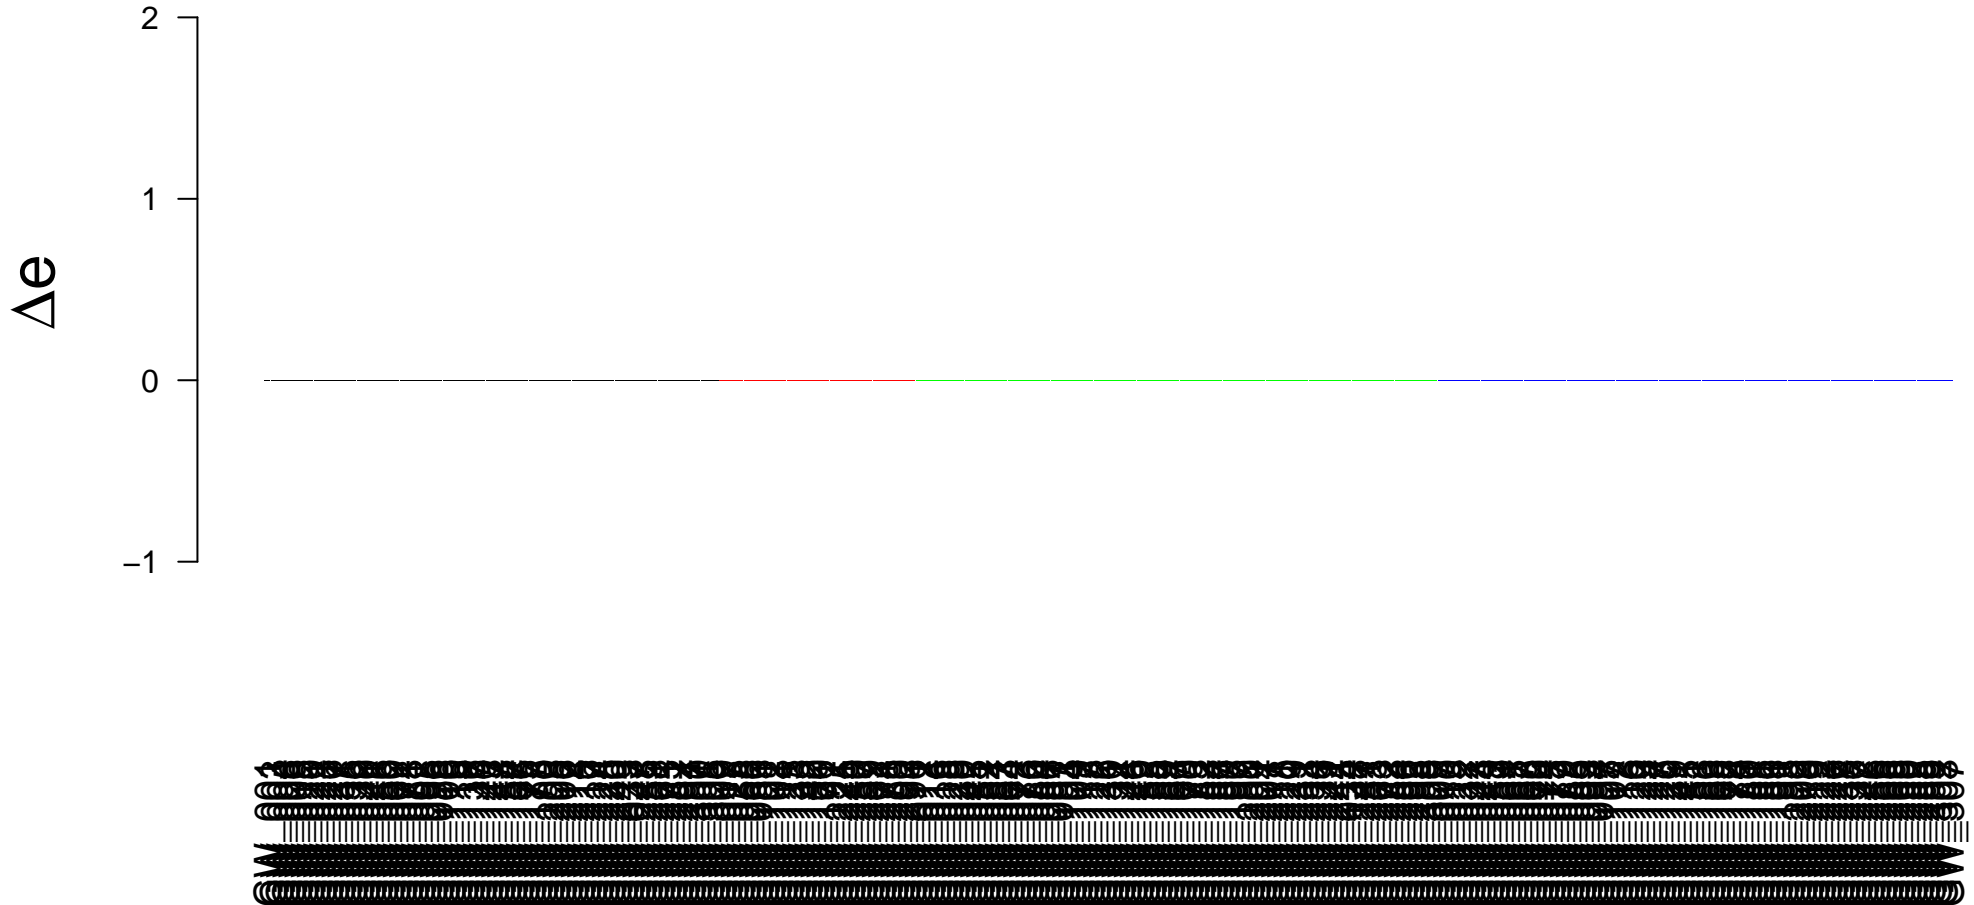

Expression of negative regulation of blood coagulation in Spot D

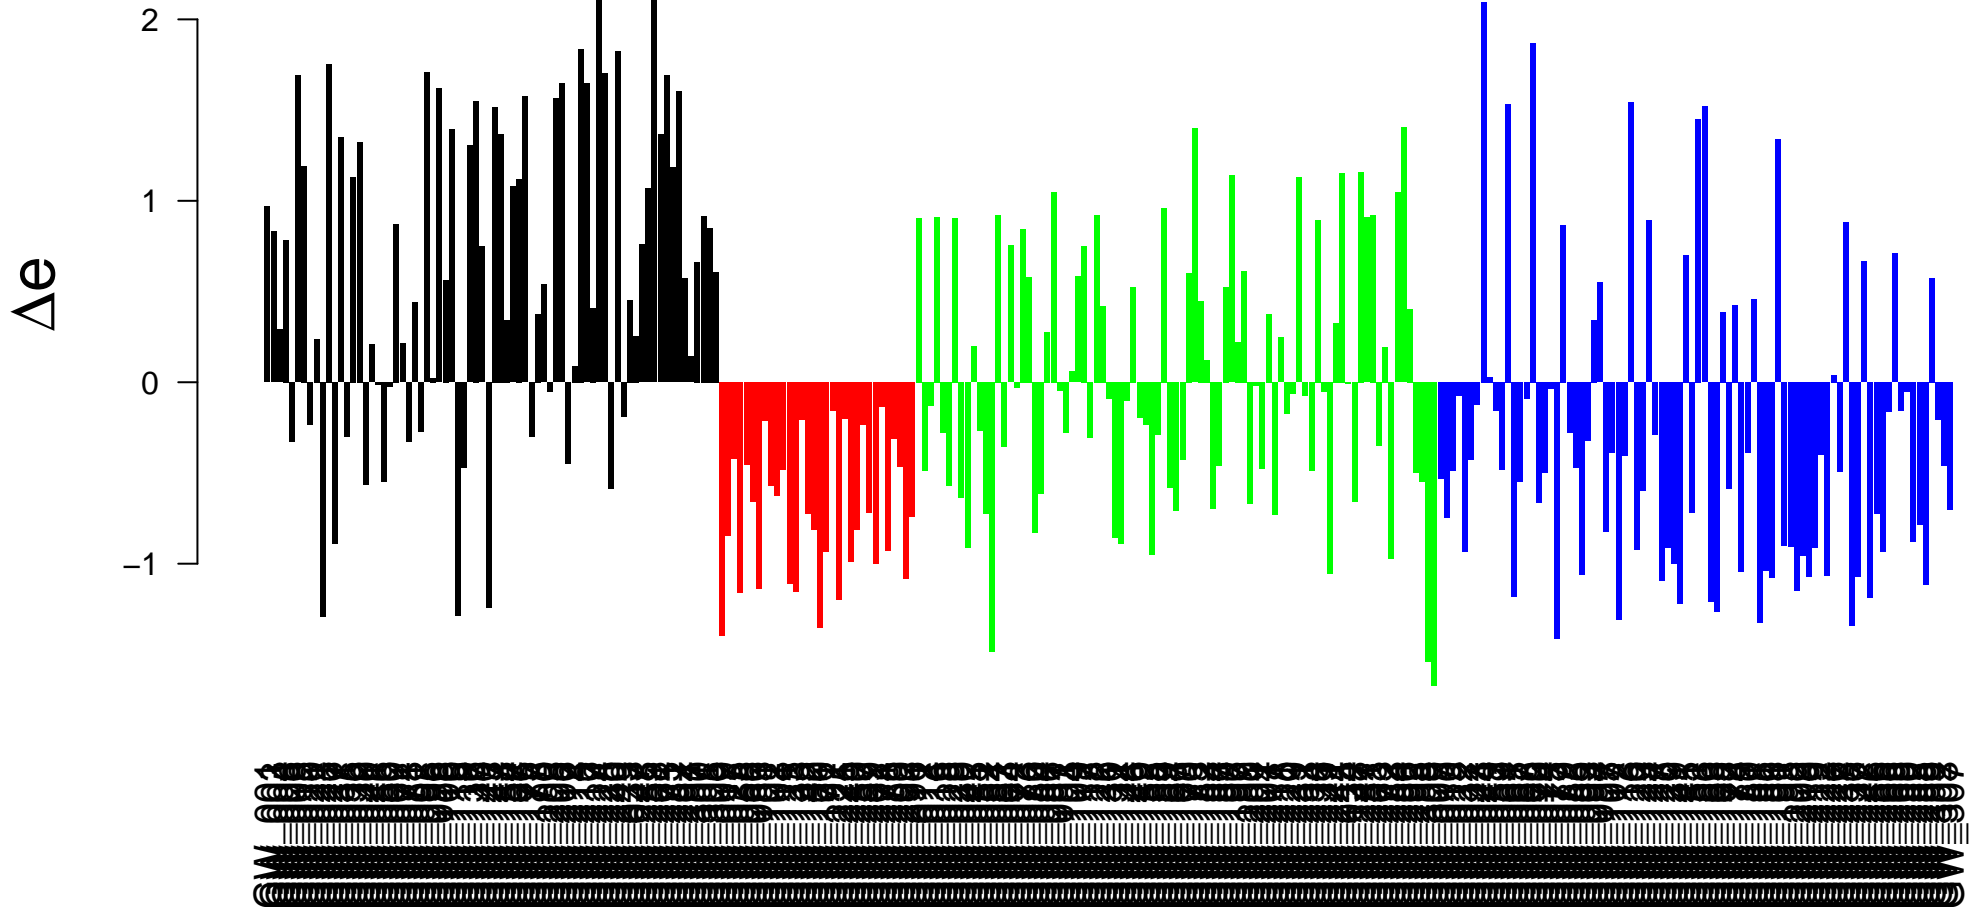

Expression of negative regulation of blood coagulation in Spot E

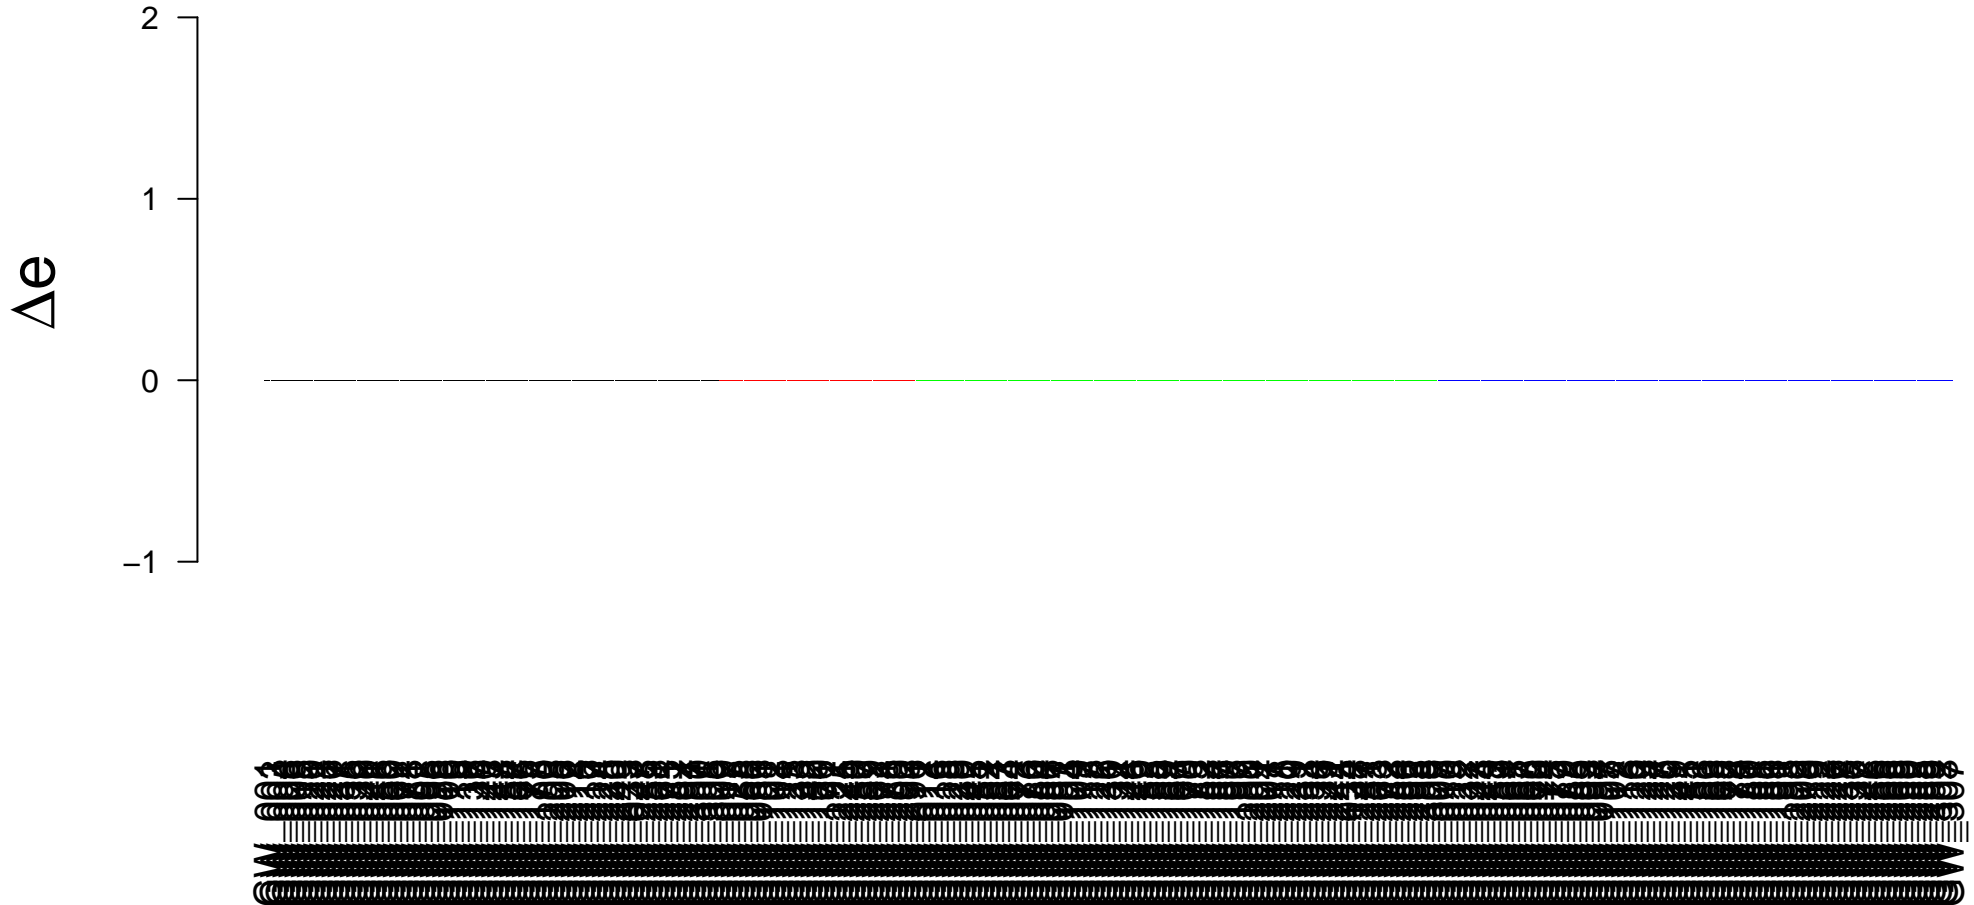

Expression of negative regulation of blood coagulation in Spot F

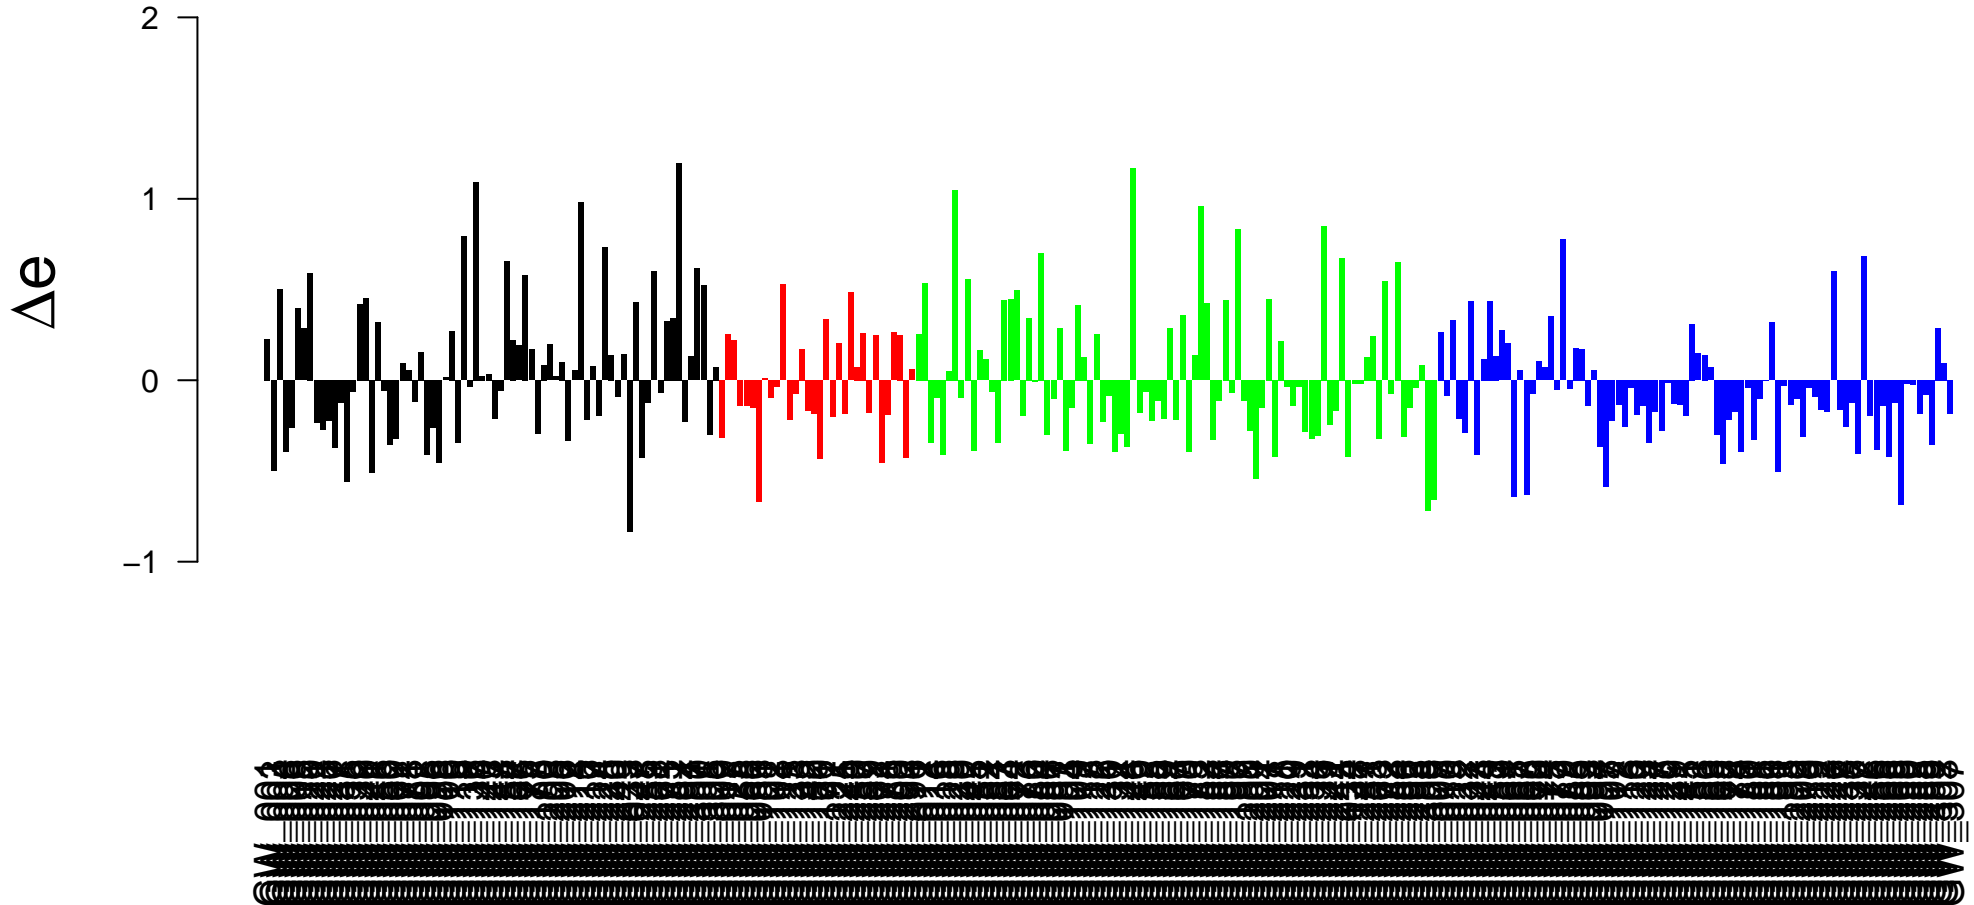

Expression of negative regulation of blood coagulation in Spot G

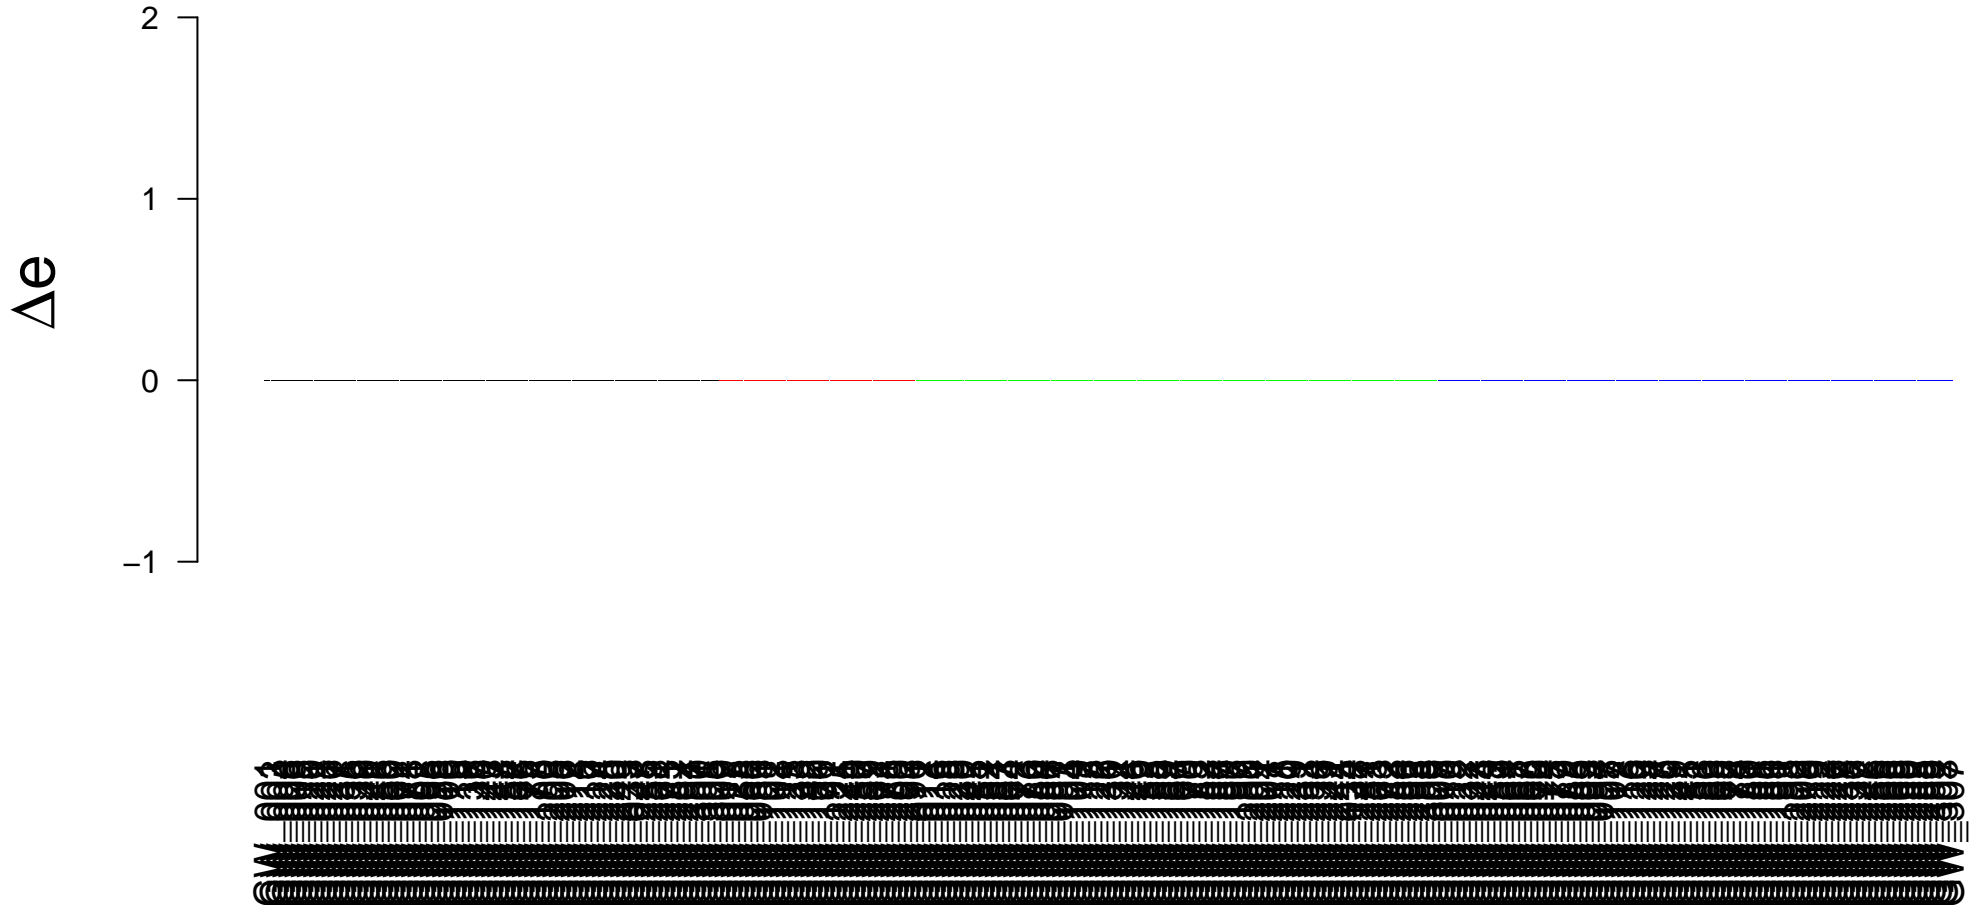

Expression of negative regulation of blood coagulation in Spot H

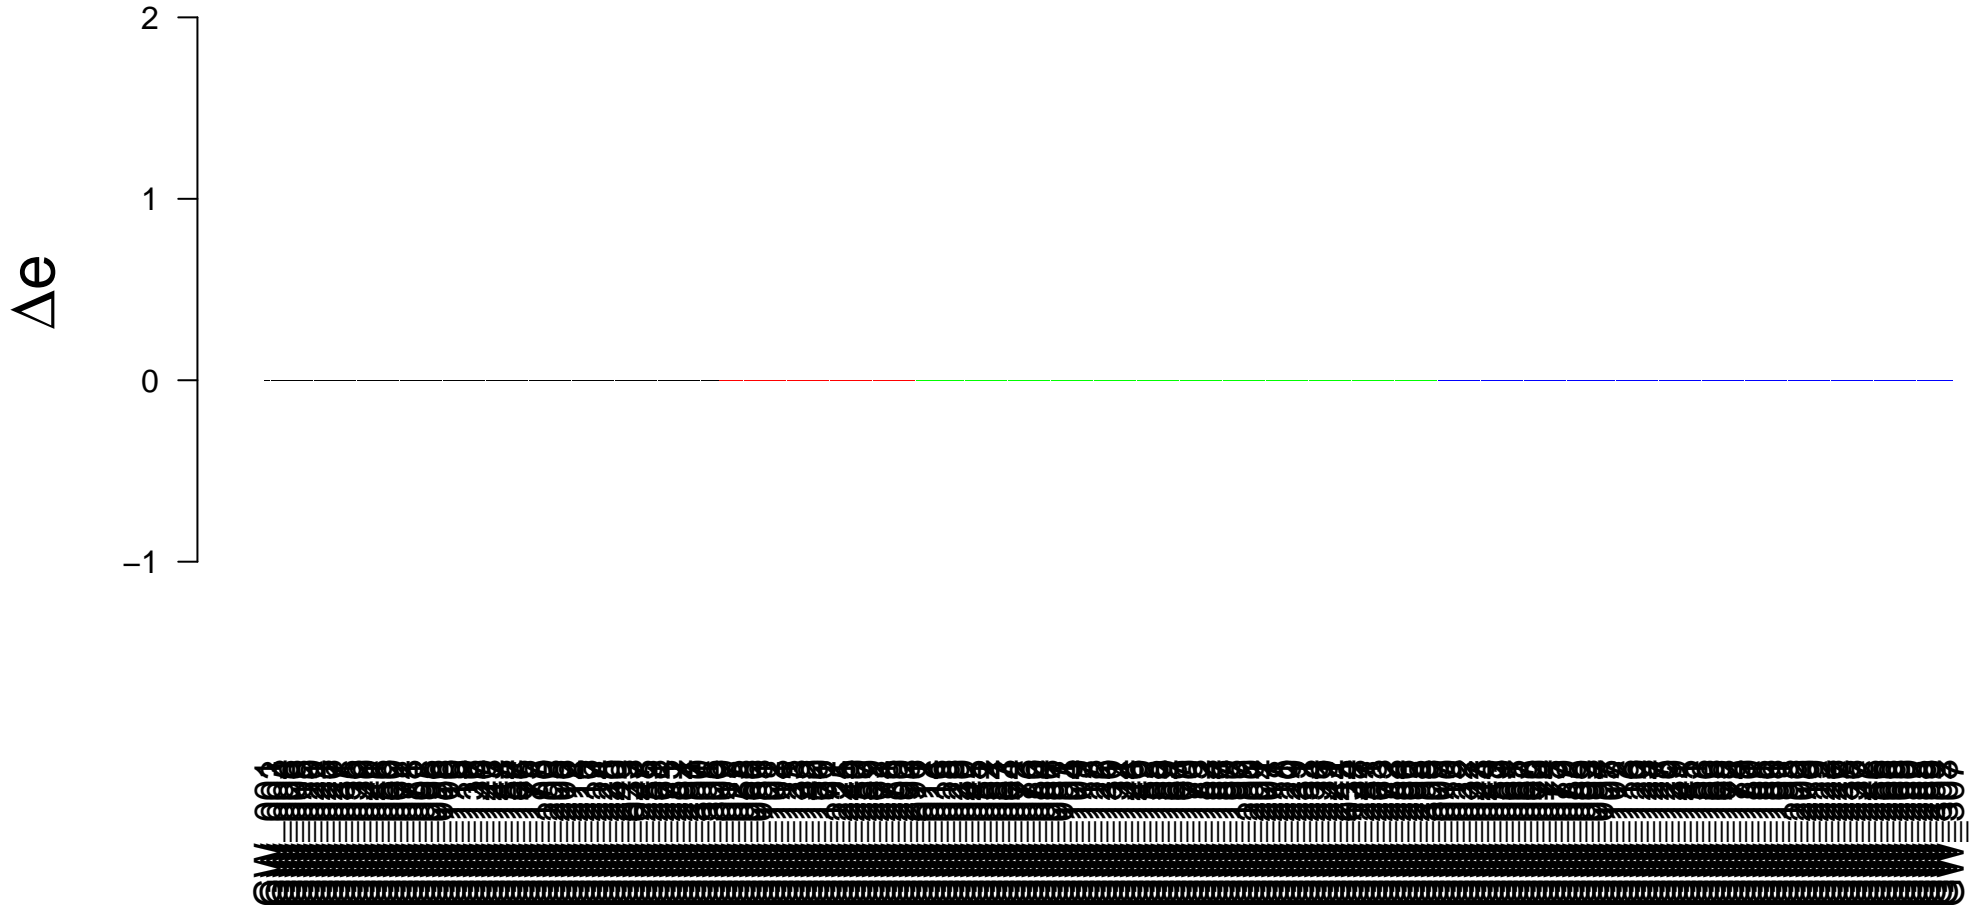

Expression of negative regulation of blood coagulation in Spot I

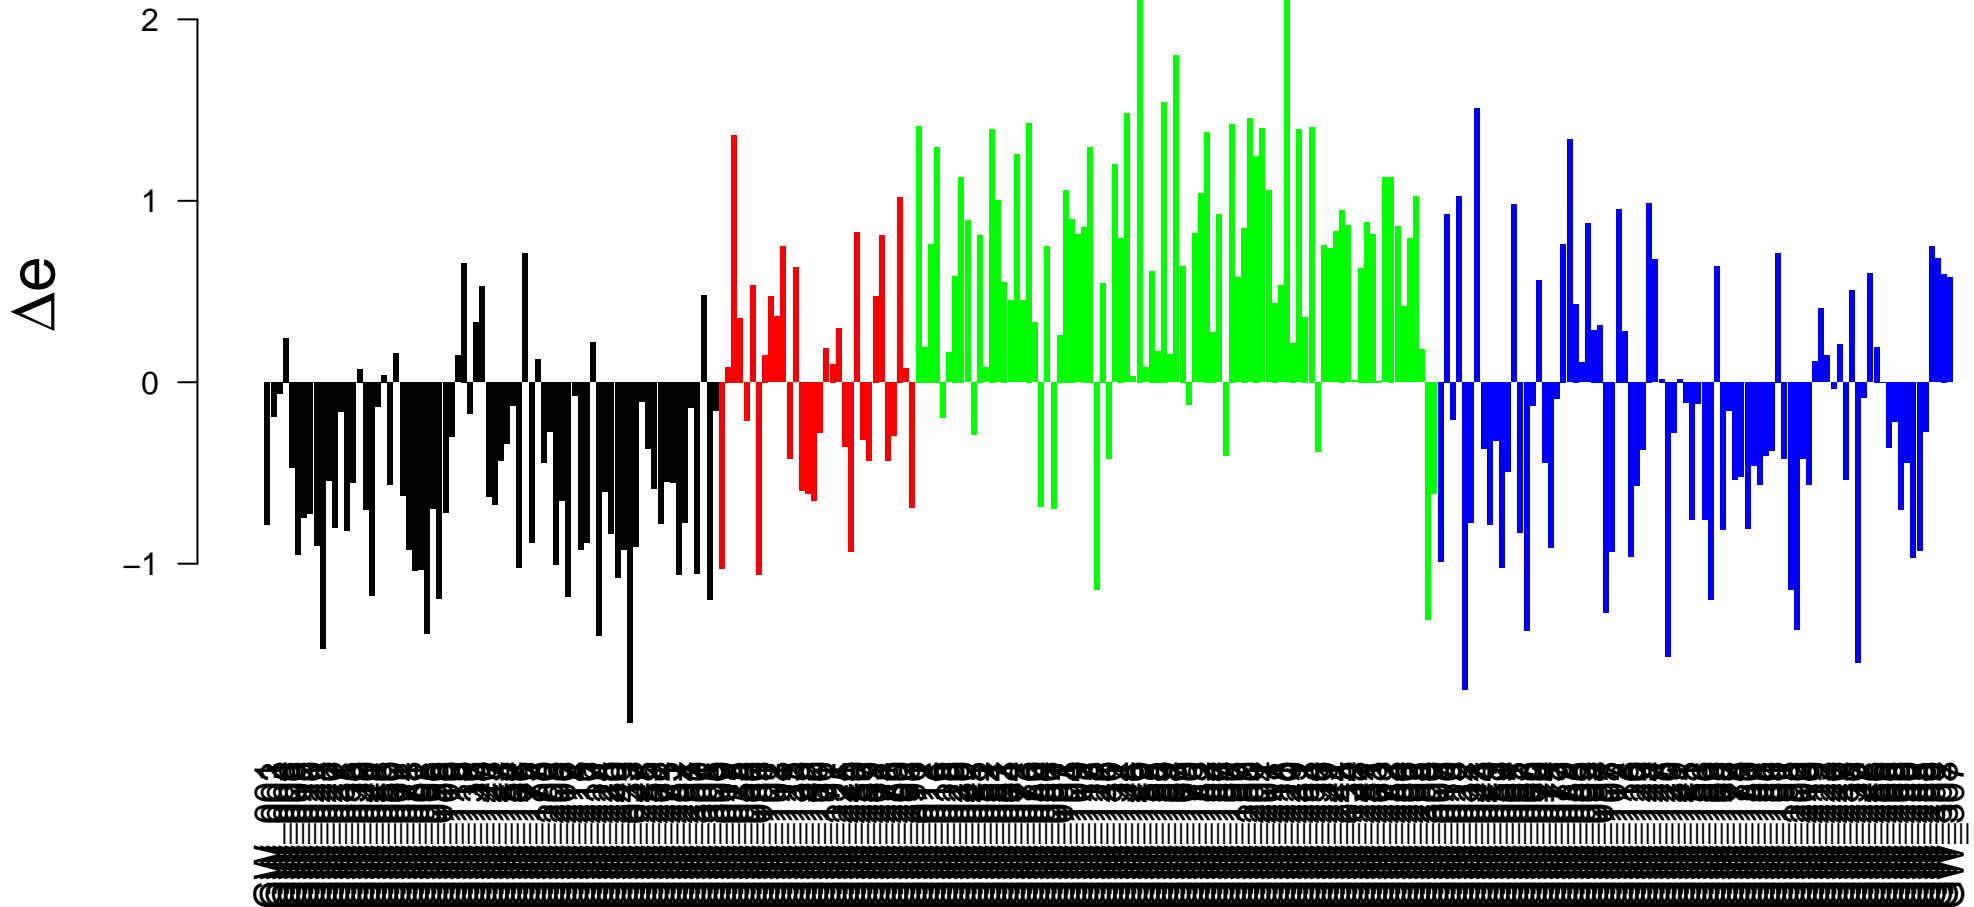

Expression of negative regulation of blood coagulation in Spot J

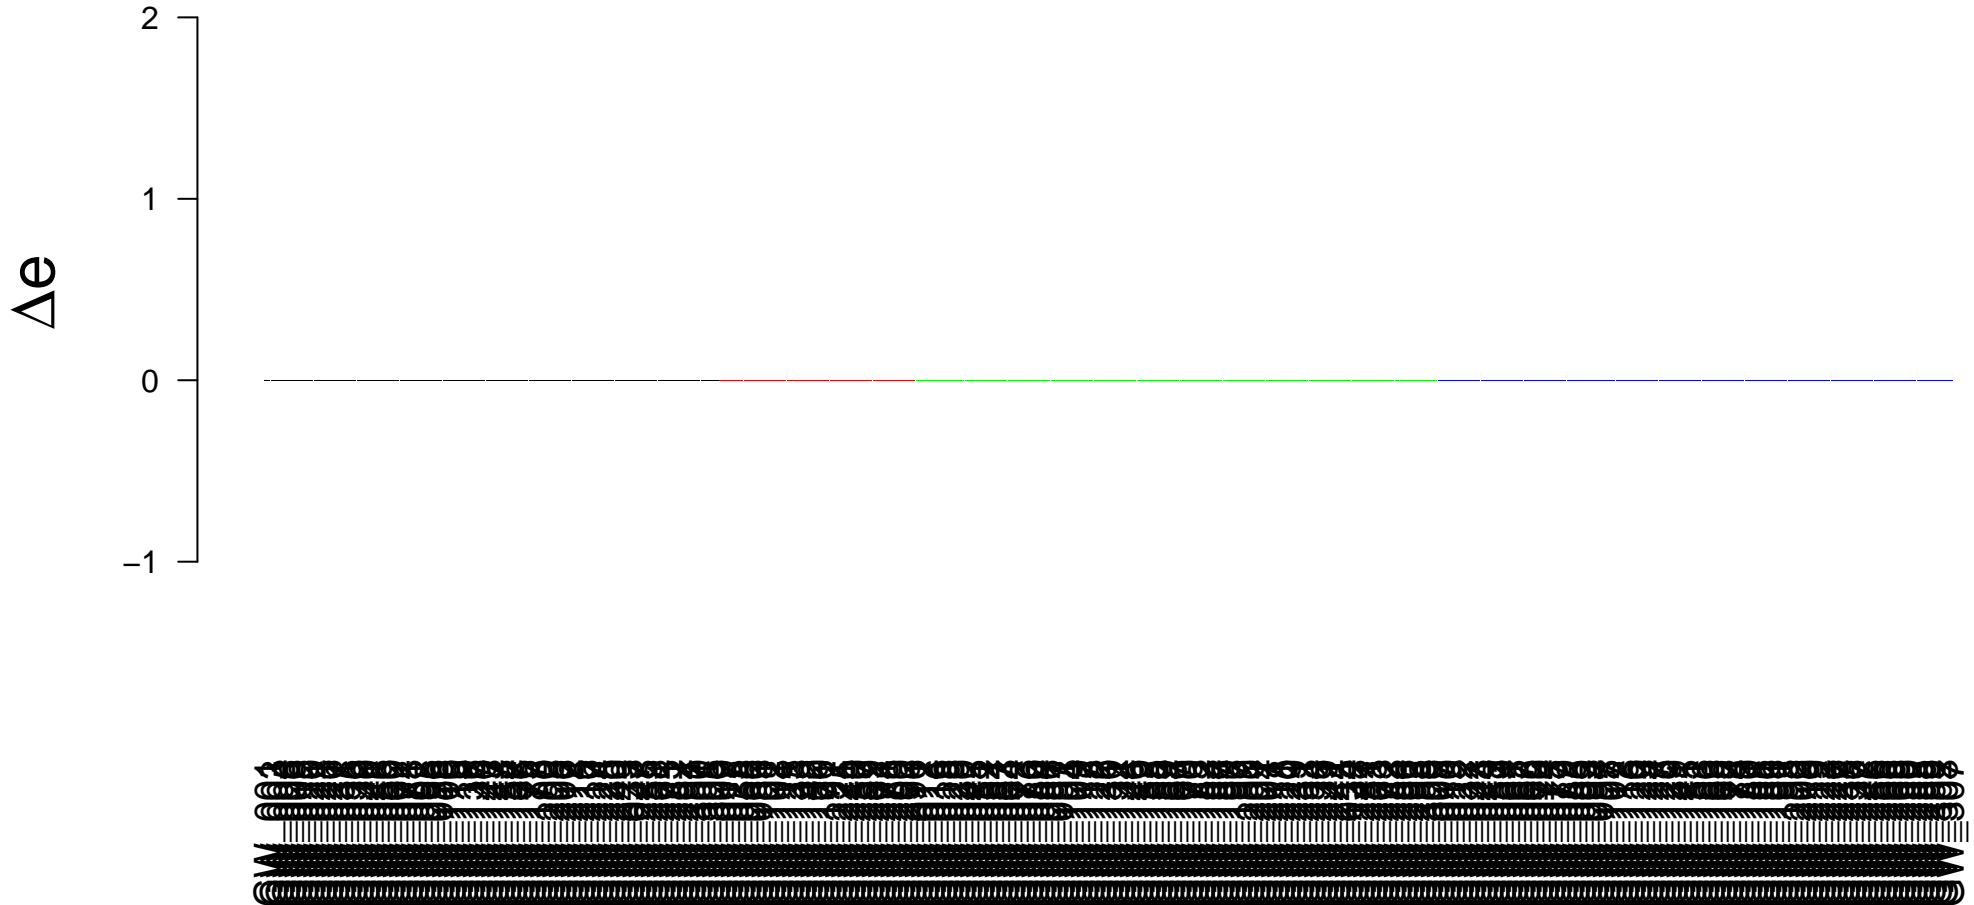

Expression of negative regulation of blood coagulation in Spot K

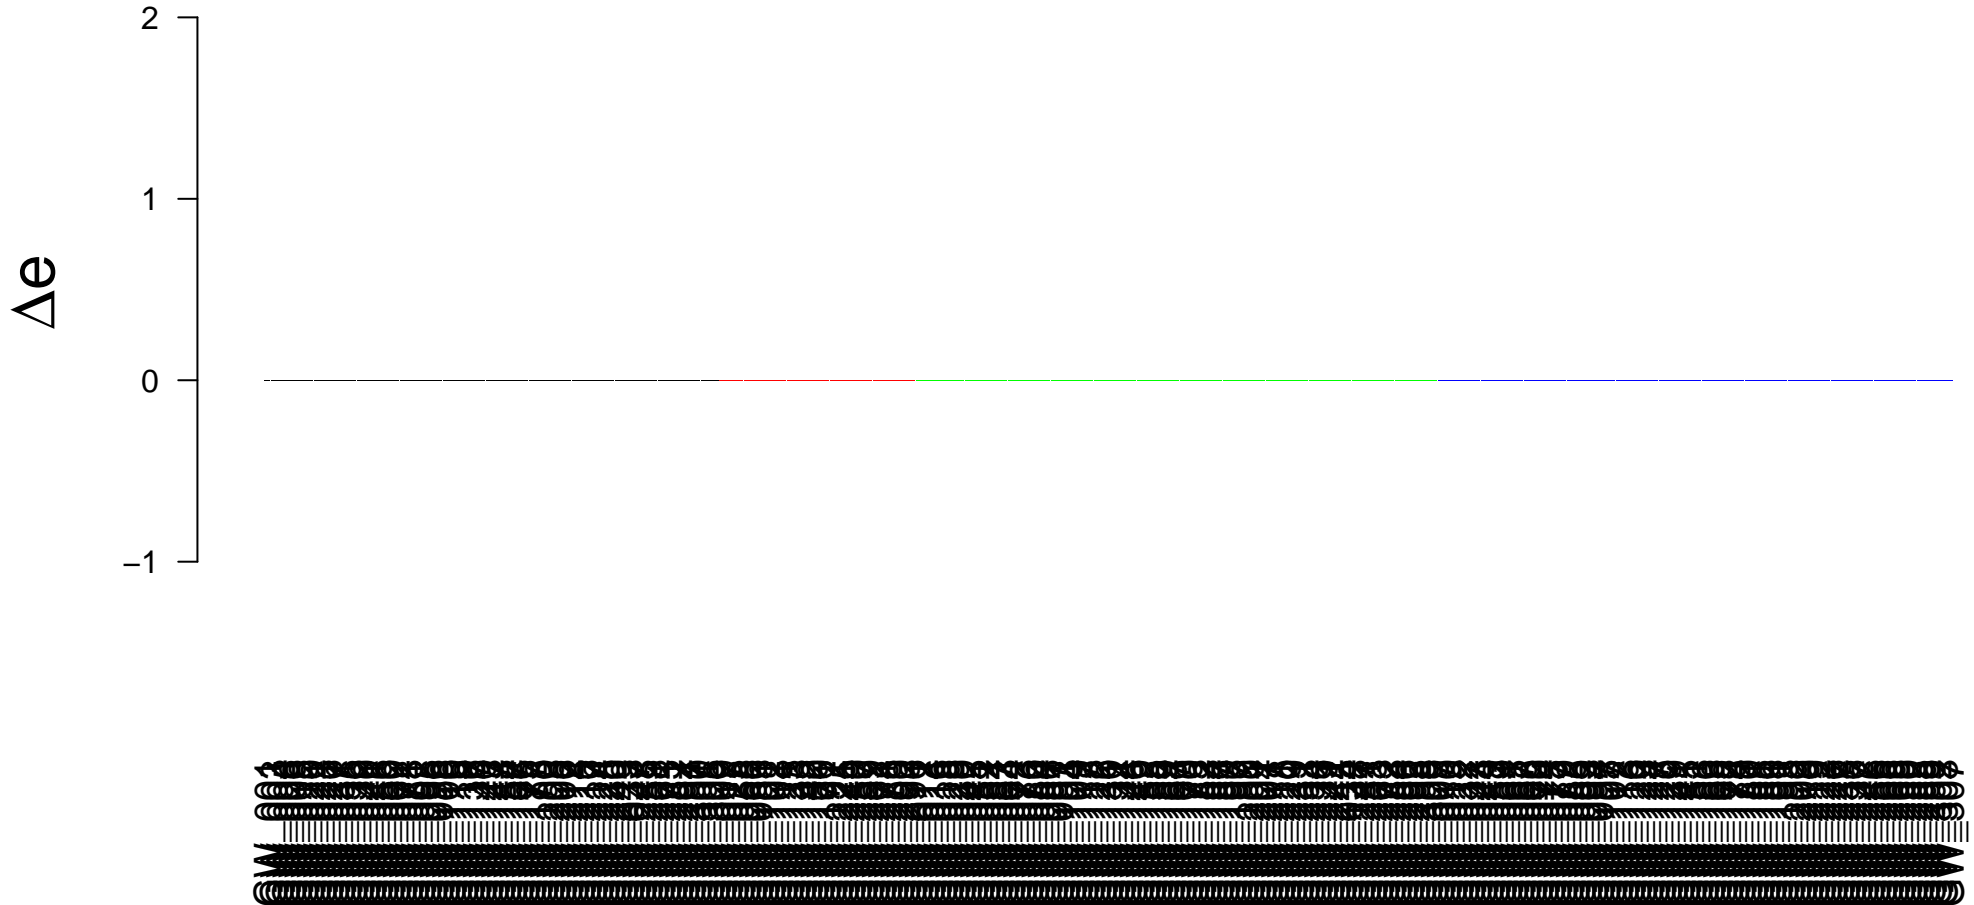

Expression of negative regulation of blood coagulation in Spot L

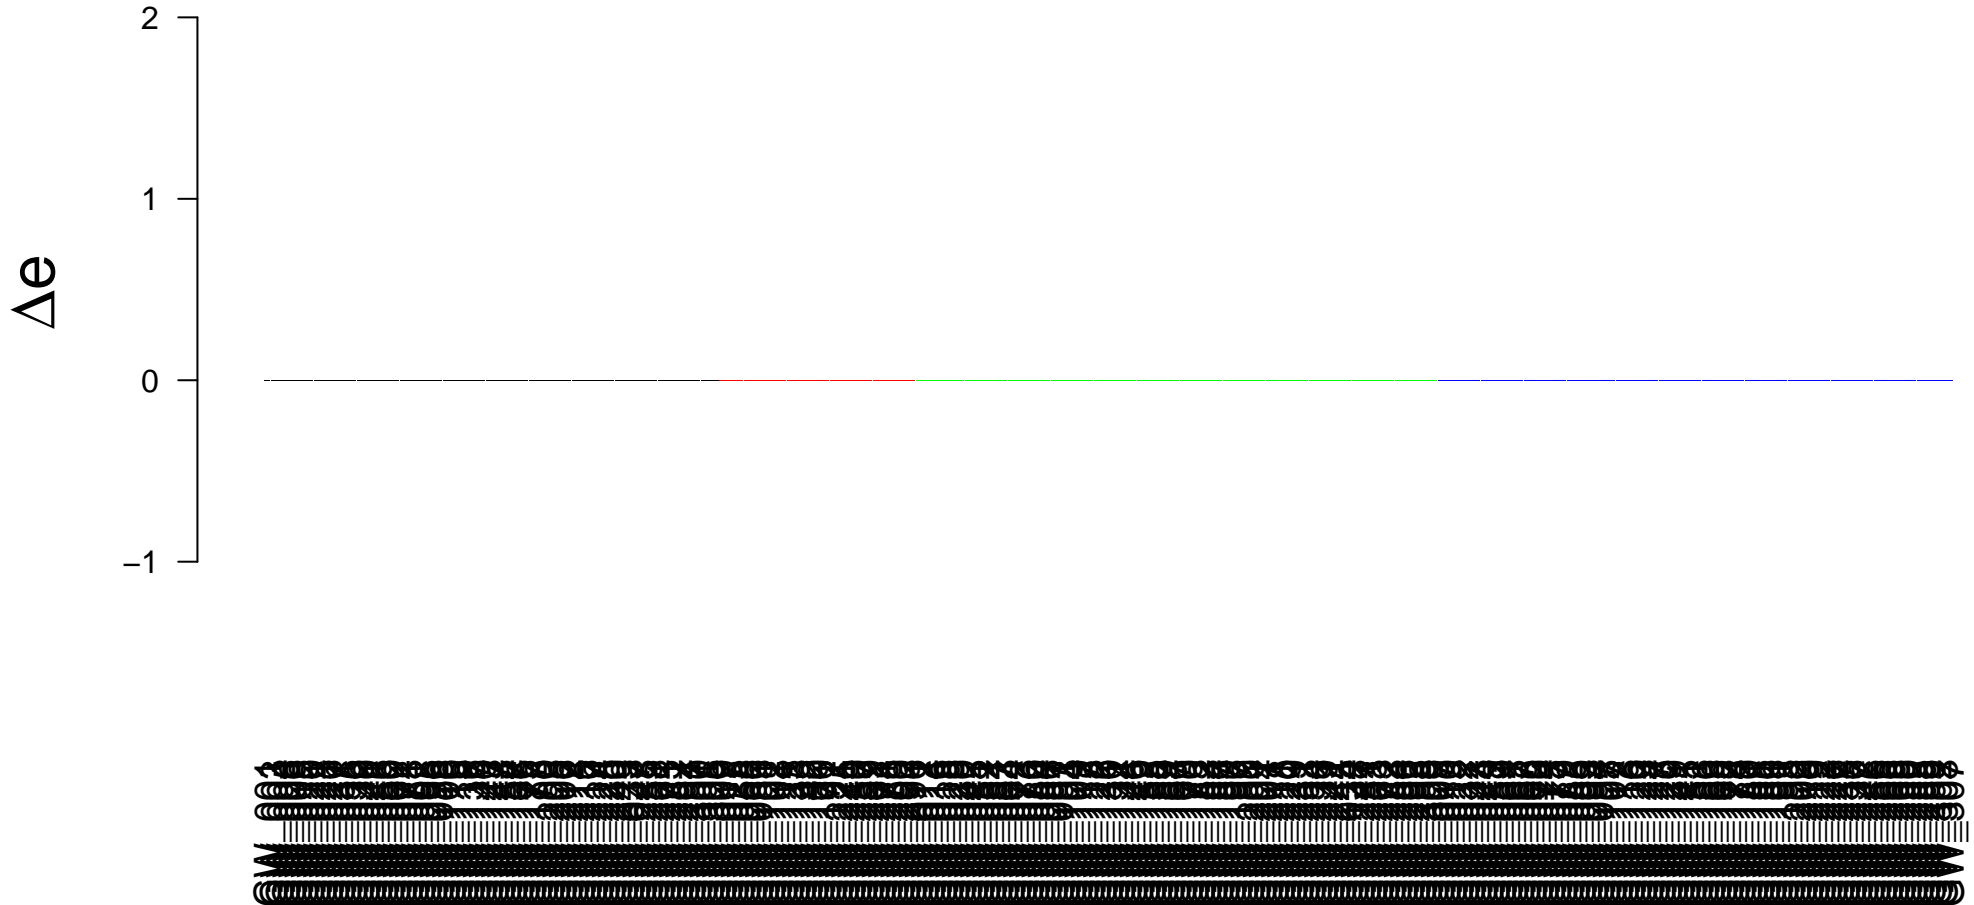

Expression of negative regulation of blood coagulation in Spot M

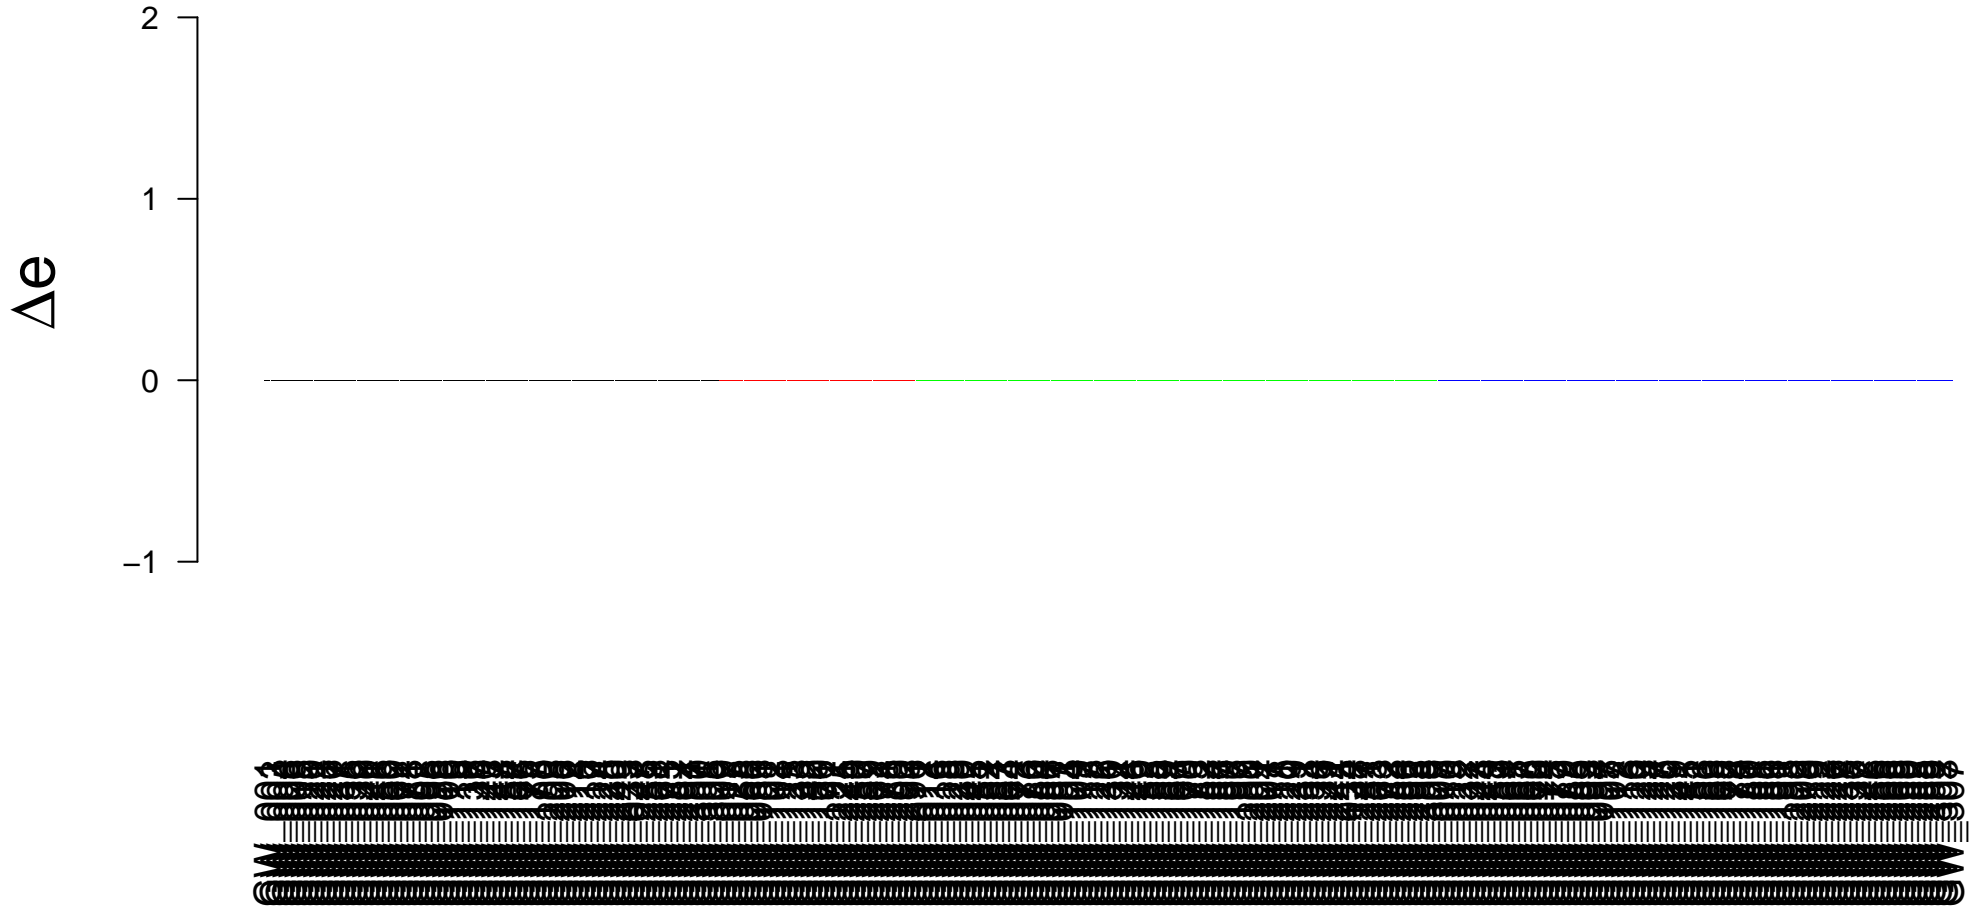

Expression of negative regulation of blood coagulation in Spot N

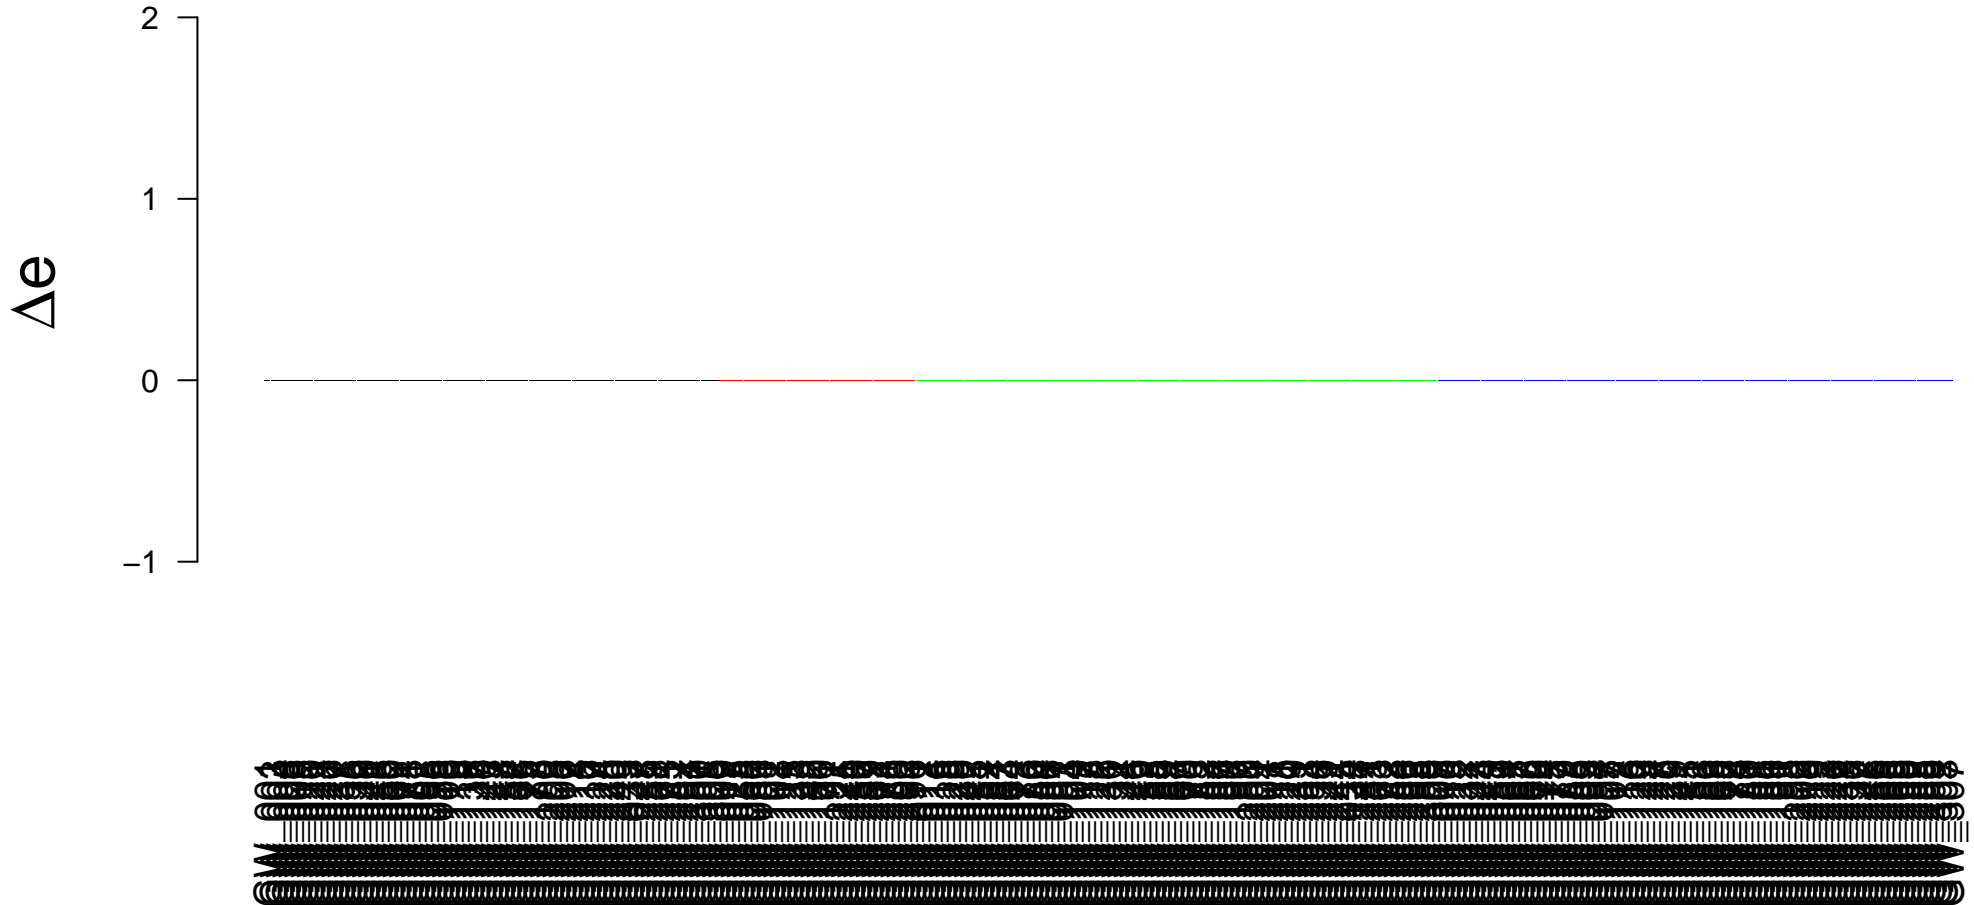

Expression of negative regulation of blood coagulation in Spot O

Expression of negative regulation of blood coagulation in Spot P

Expression of negative regulation of blood coagulation in Spot Q

Expression of negative regulation of blood coagulation in Spot R
