

negative regulation of catalytic activity

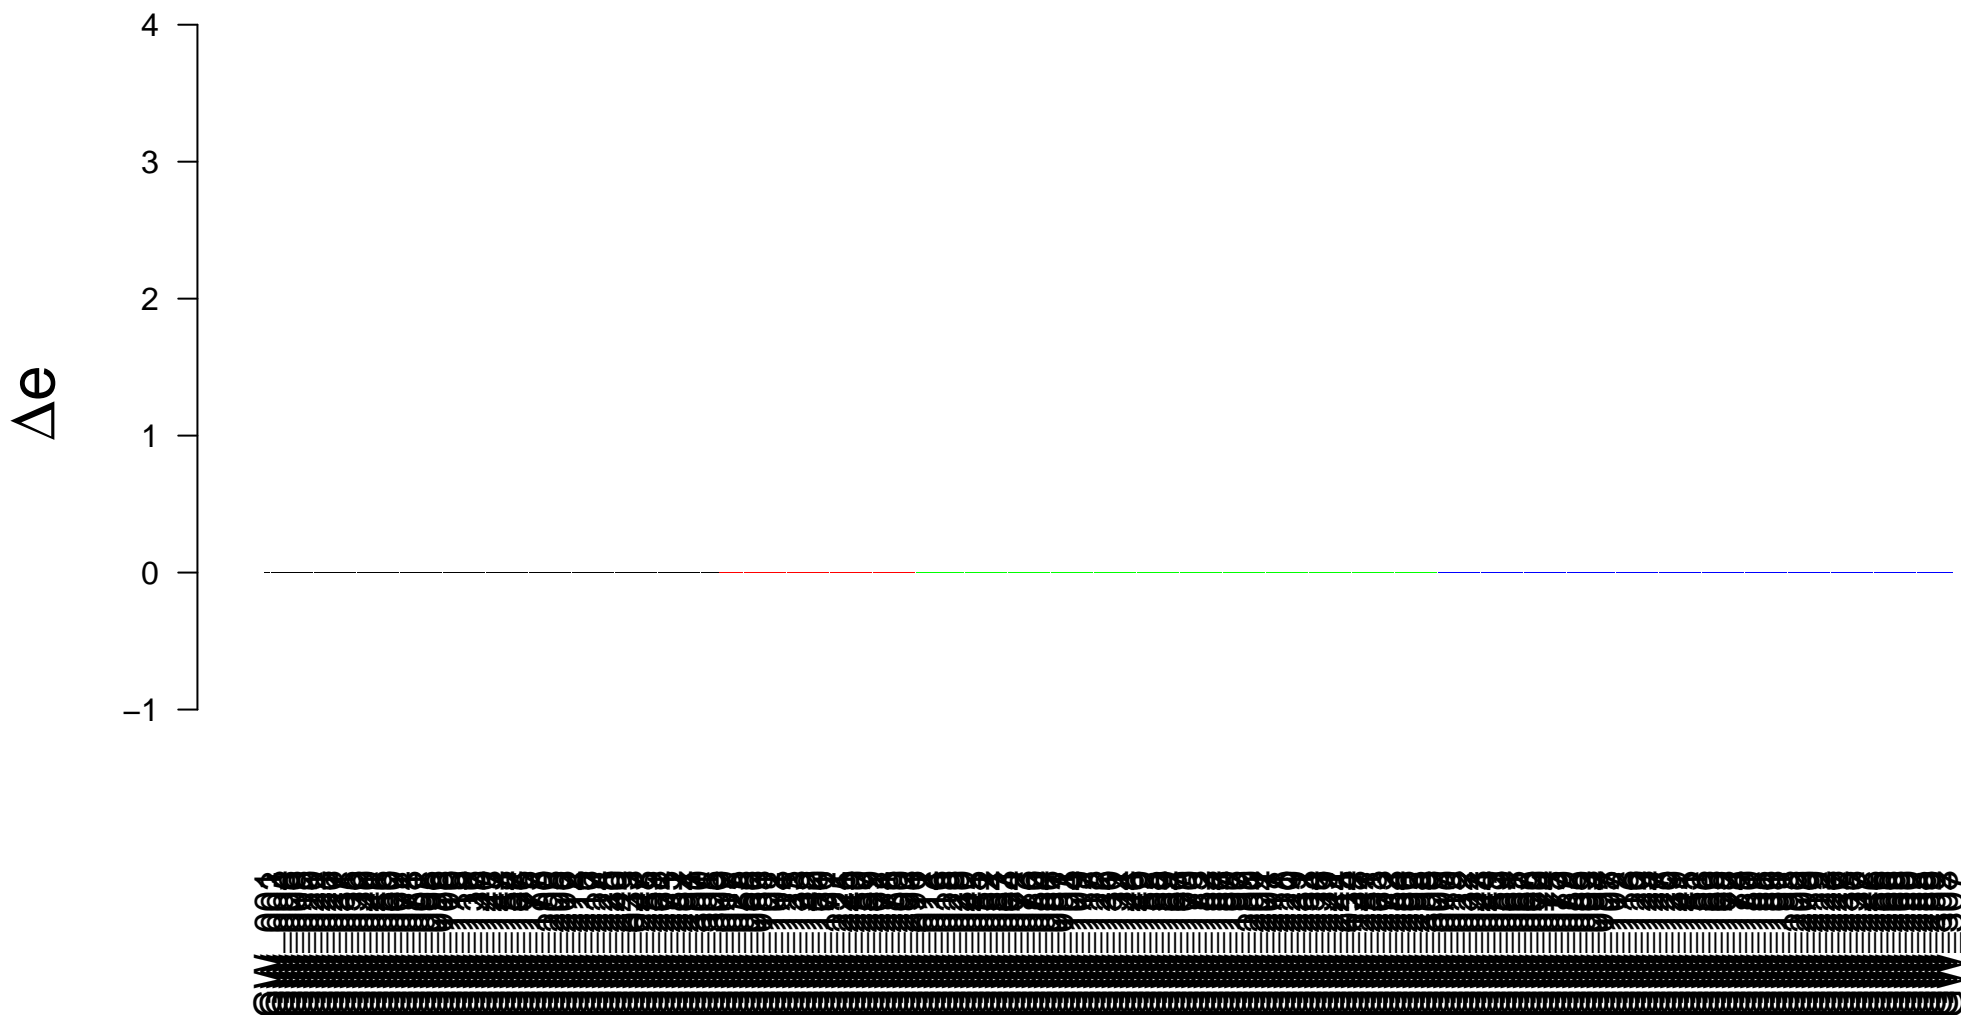

negative regulation of catalytic activity

Enrichment in spots: negative regulation of catalytic activity

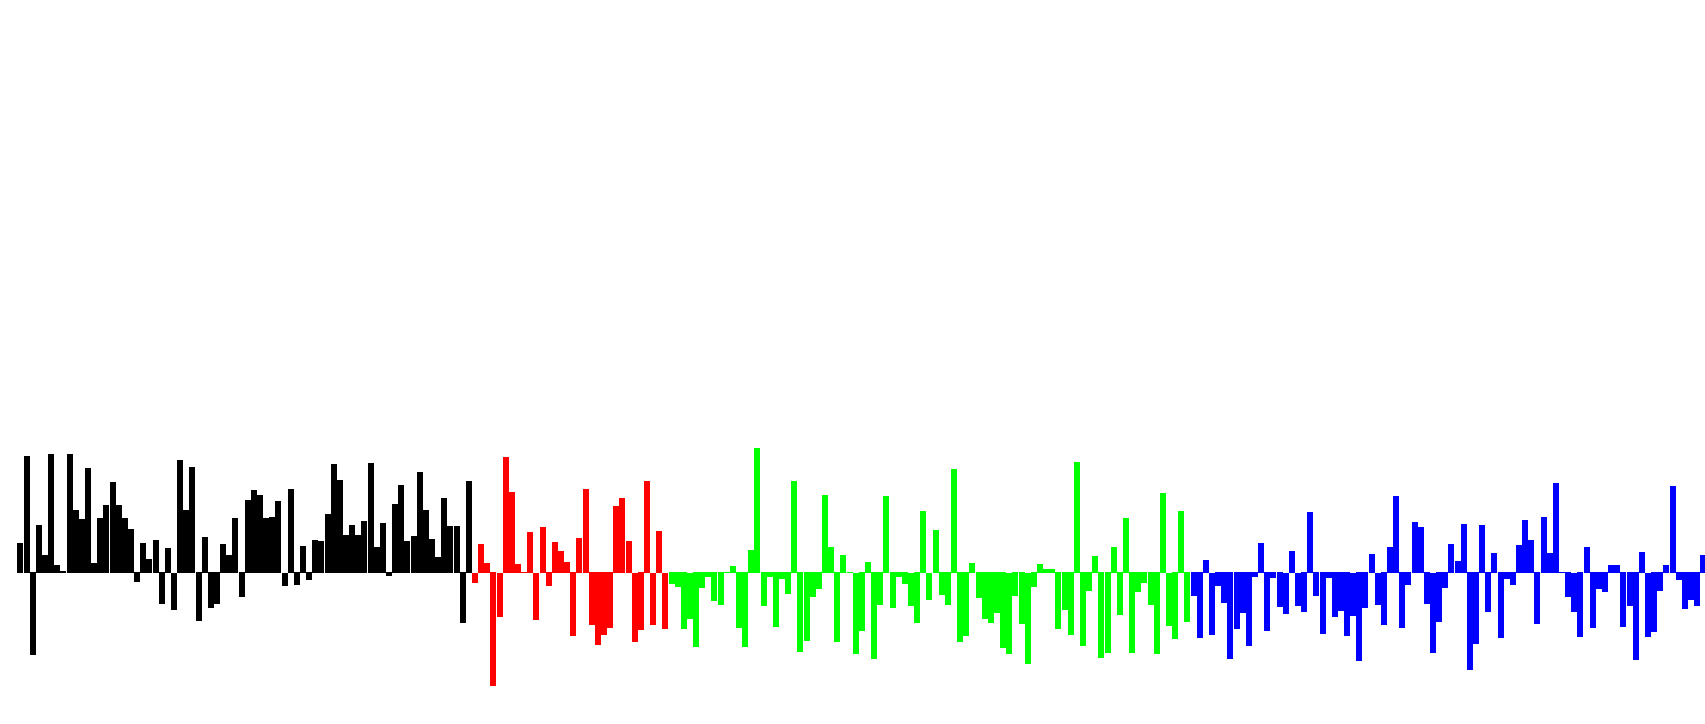

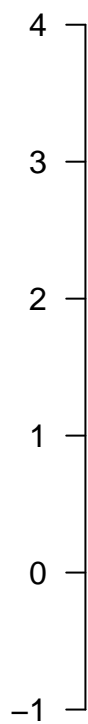

Expression of negative regulation of catalytic activity in Spot A

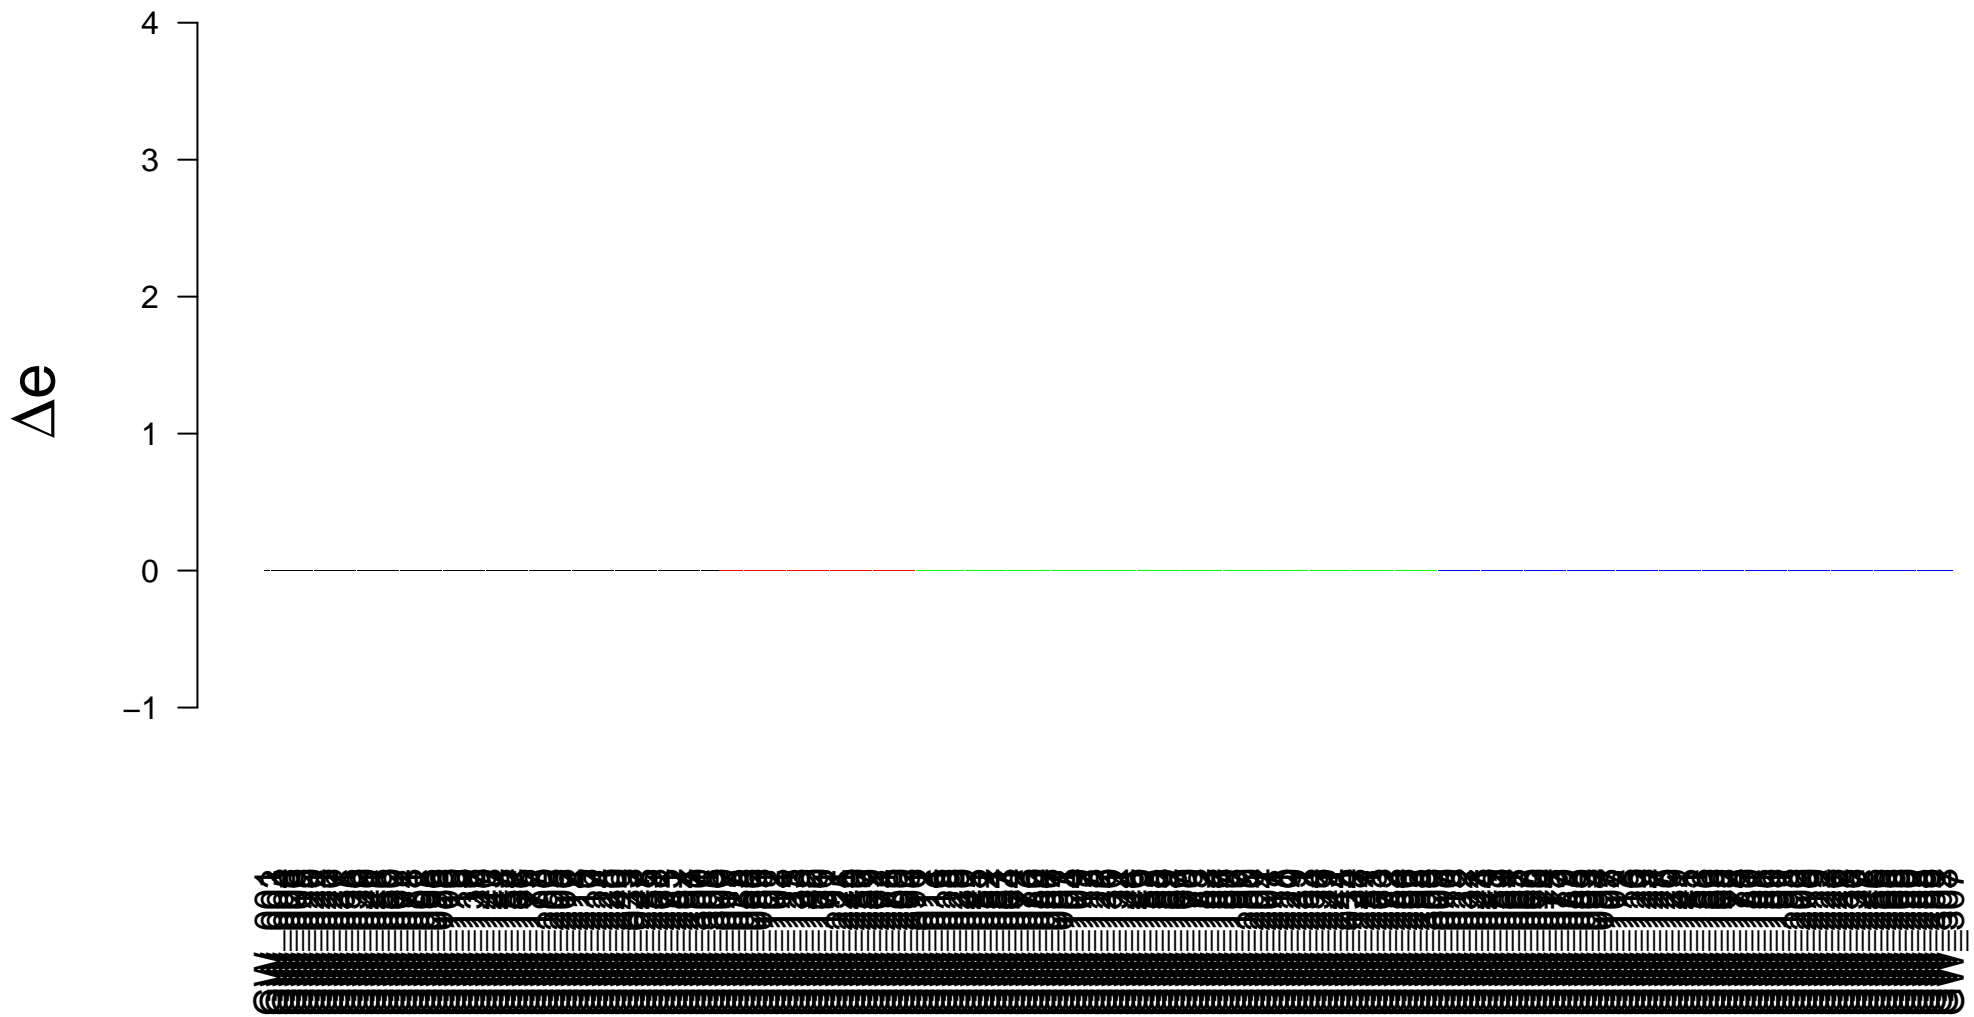

Expression of negative regulation of catalytic activity in Spot B

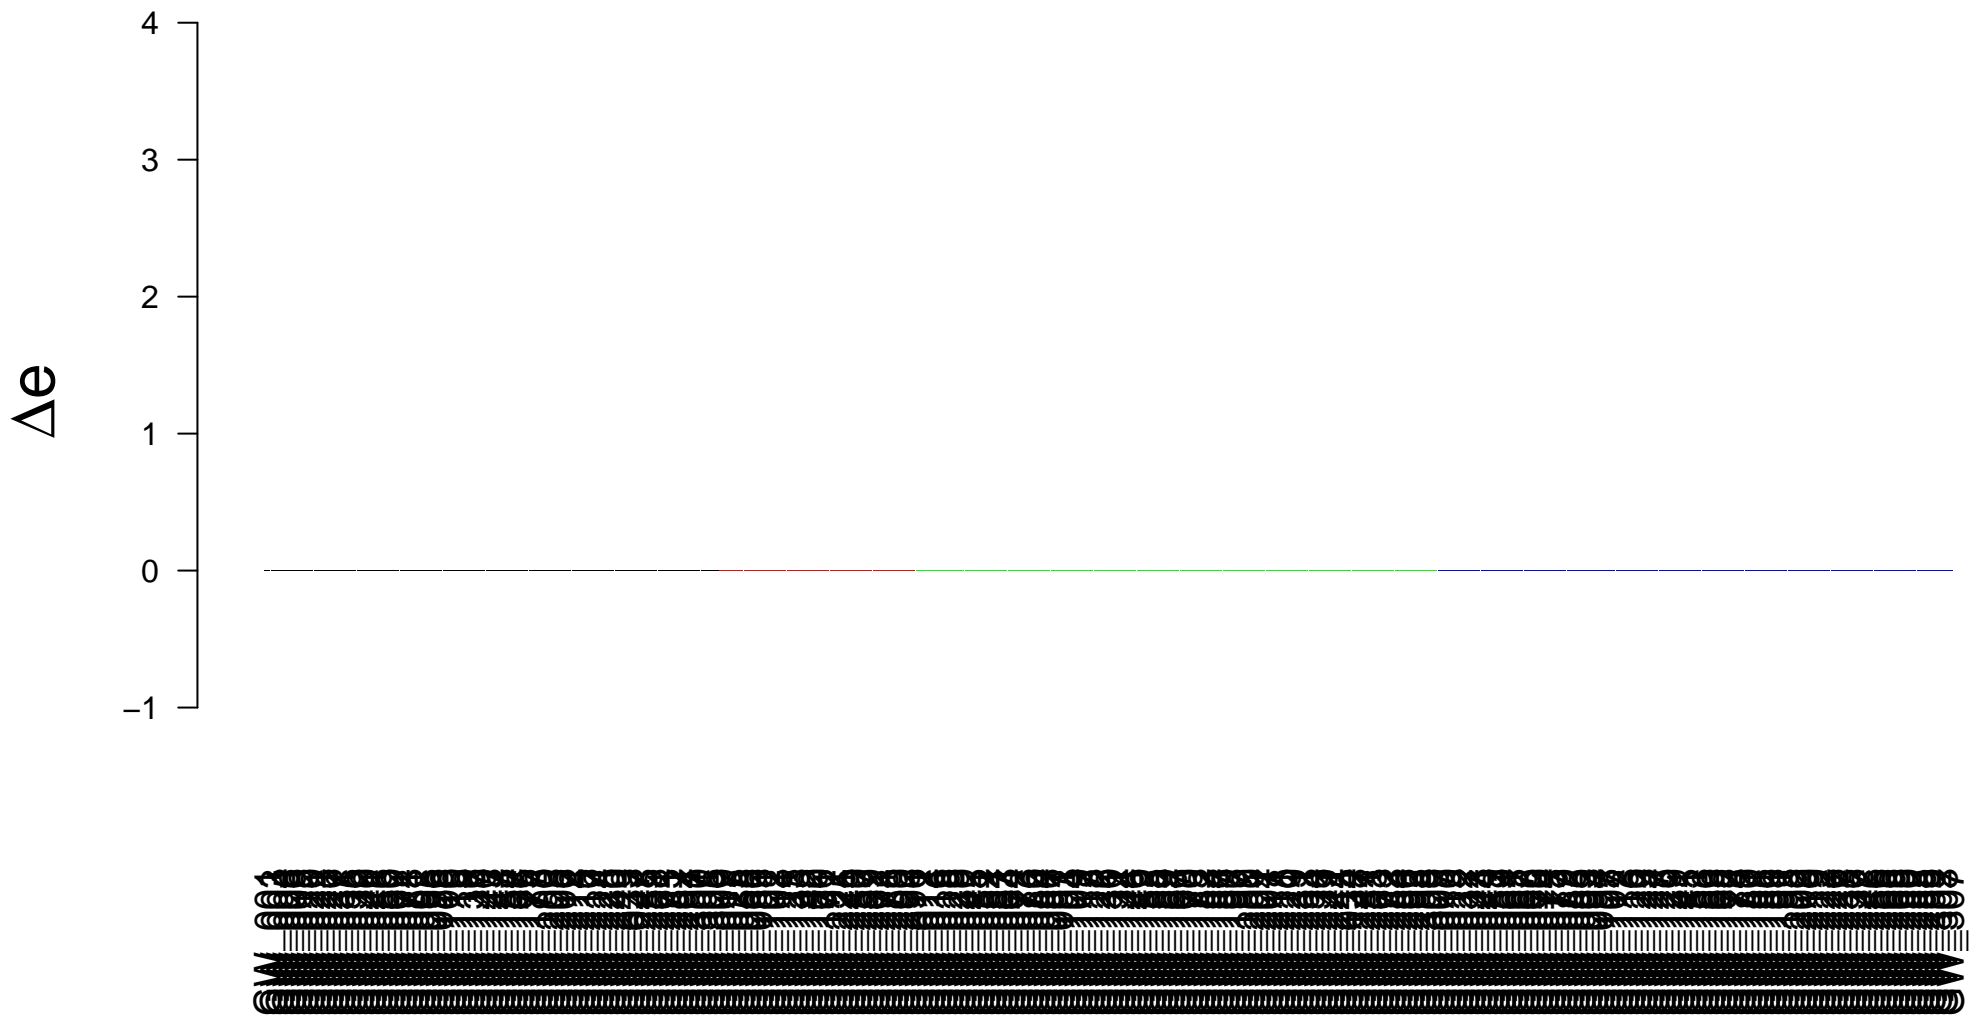

Δe

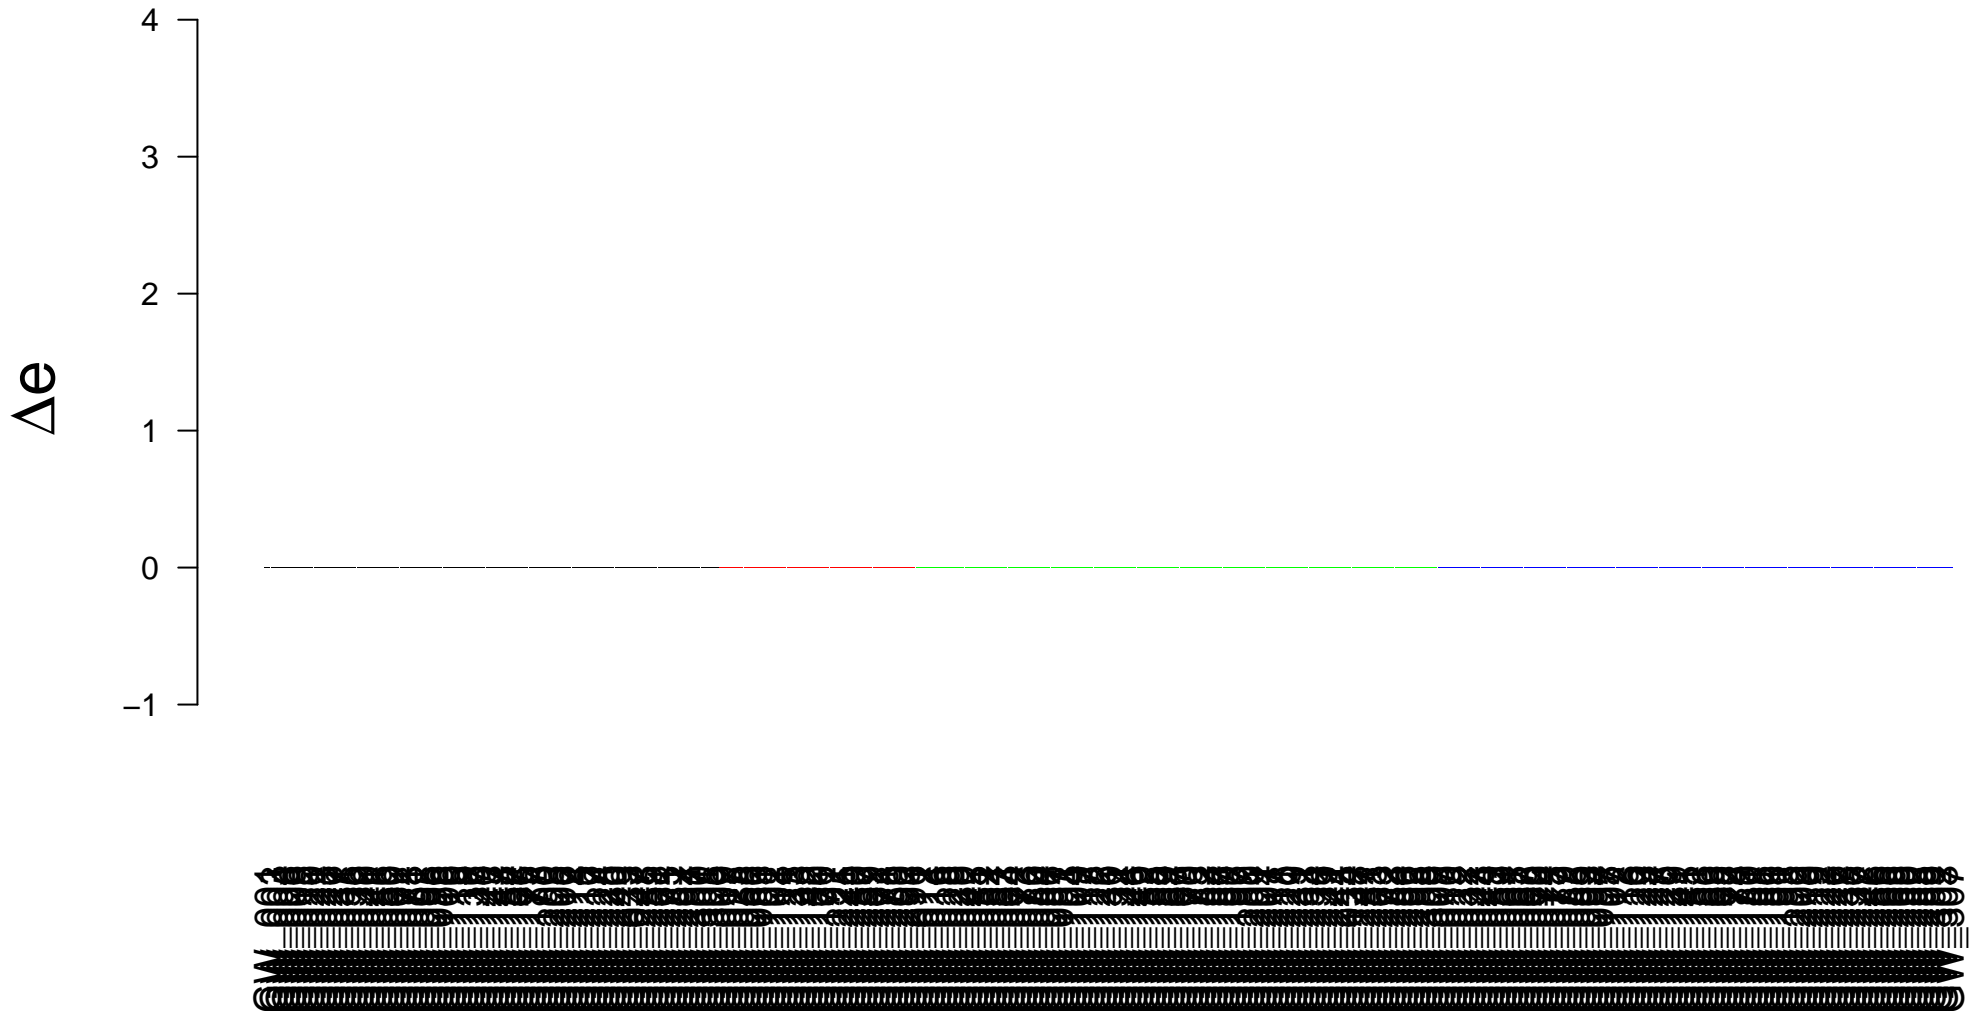

Expression of negative regulation of catalytic activity in Spot C

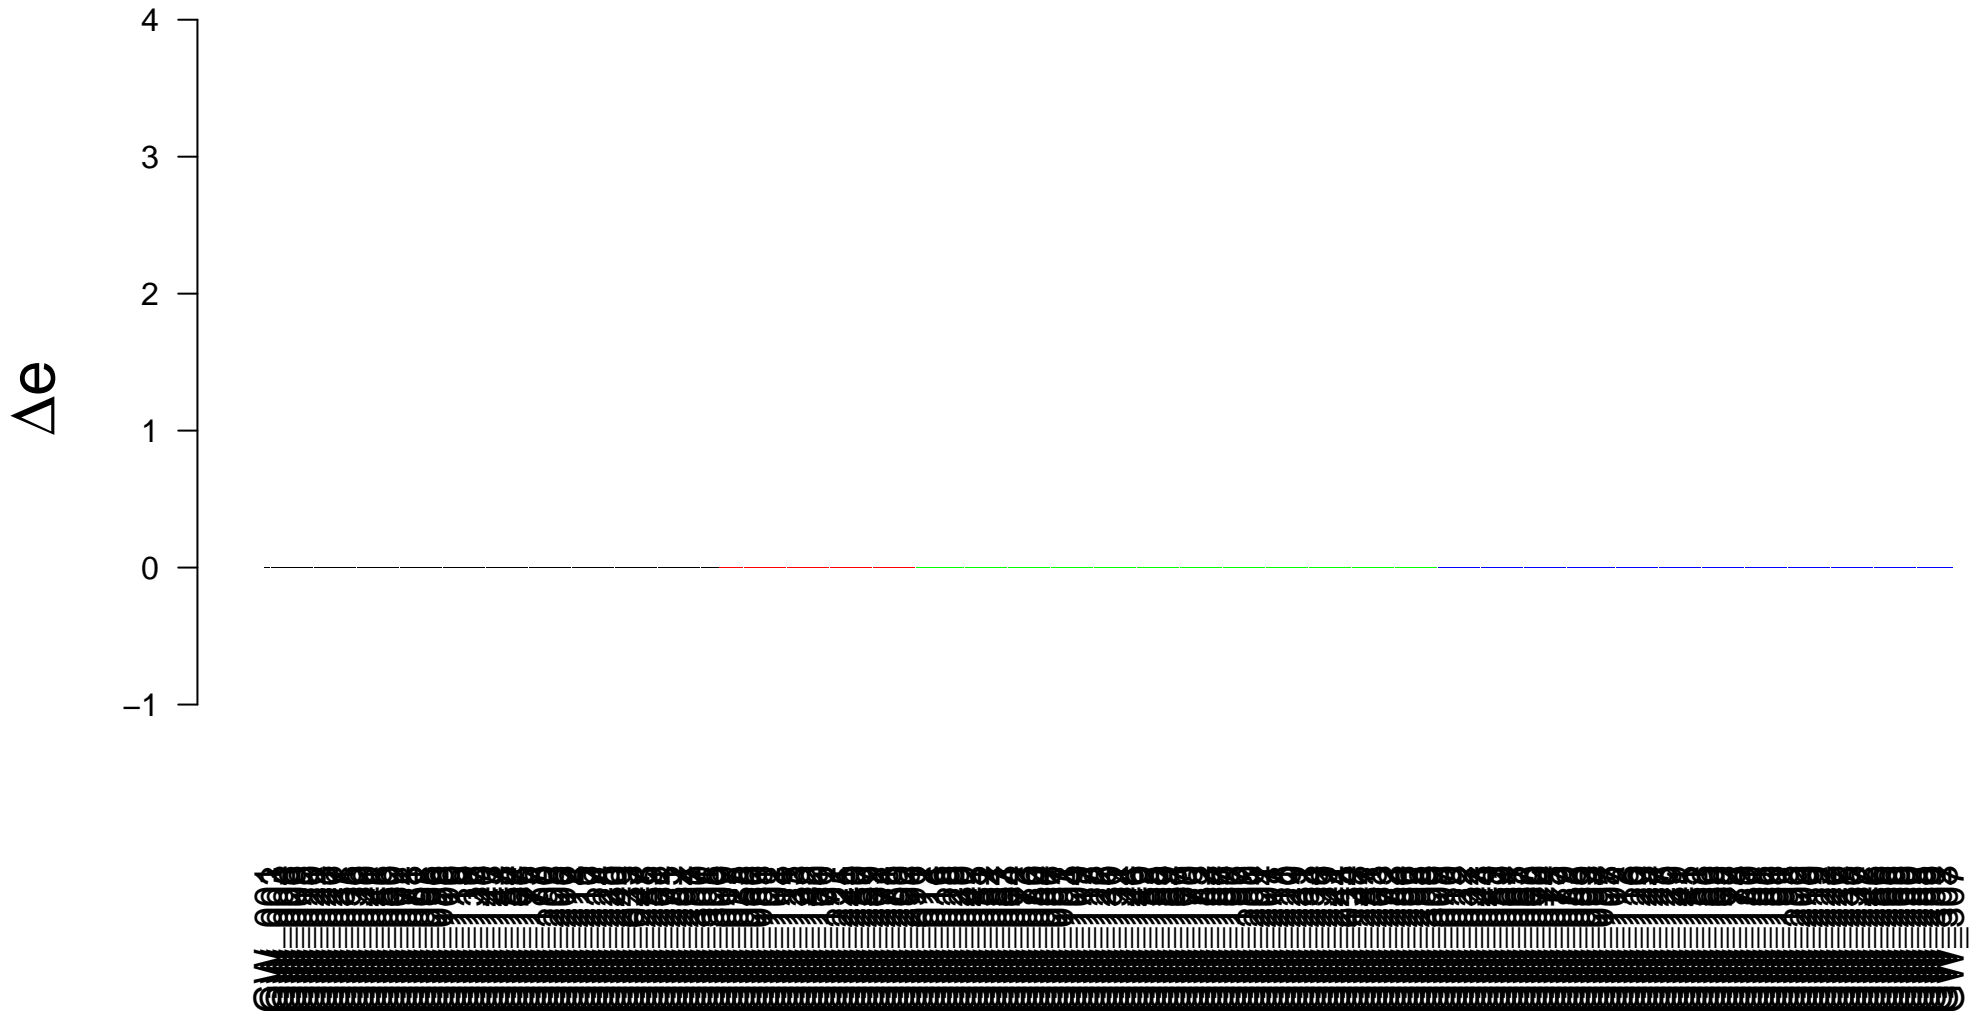

Expression of negative regulation of catalytic activity in Spot D

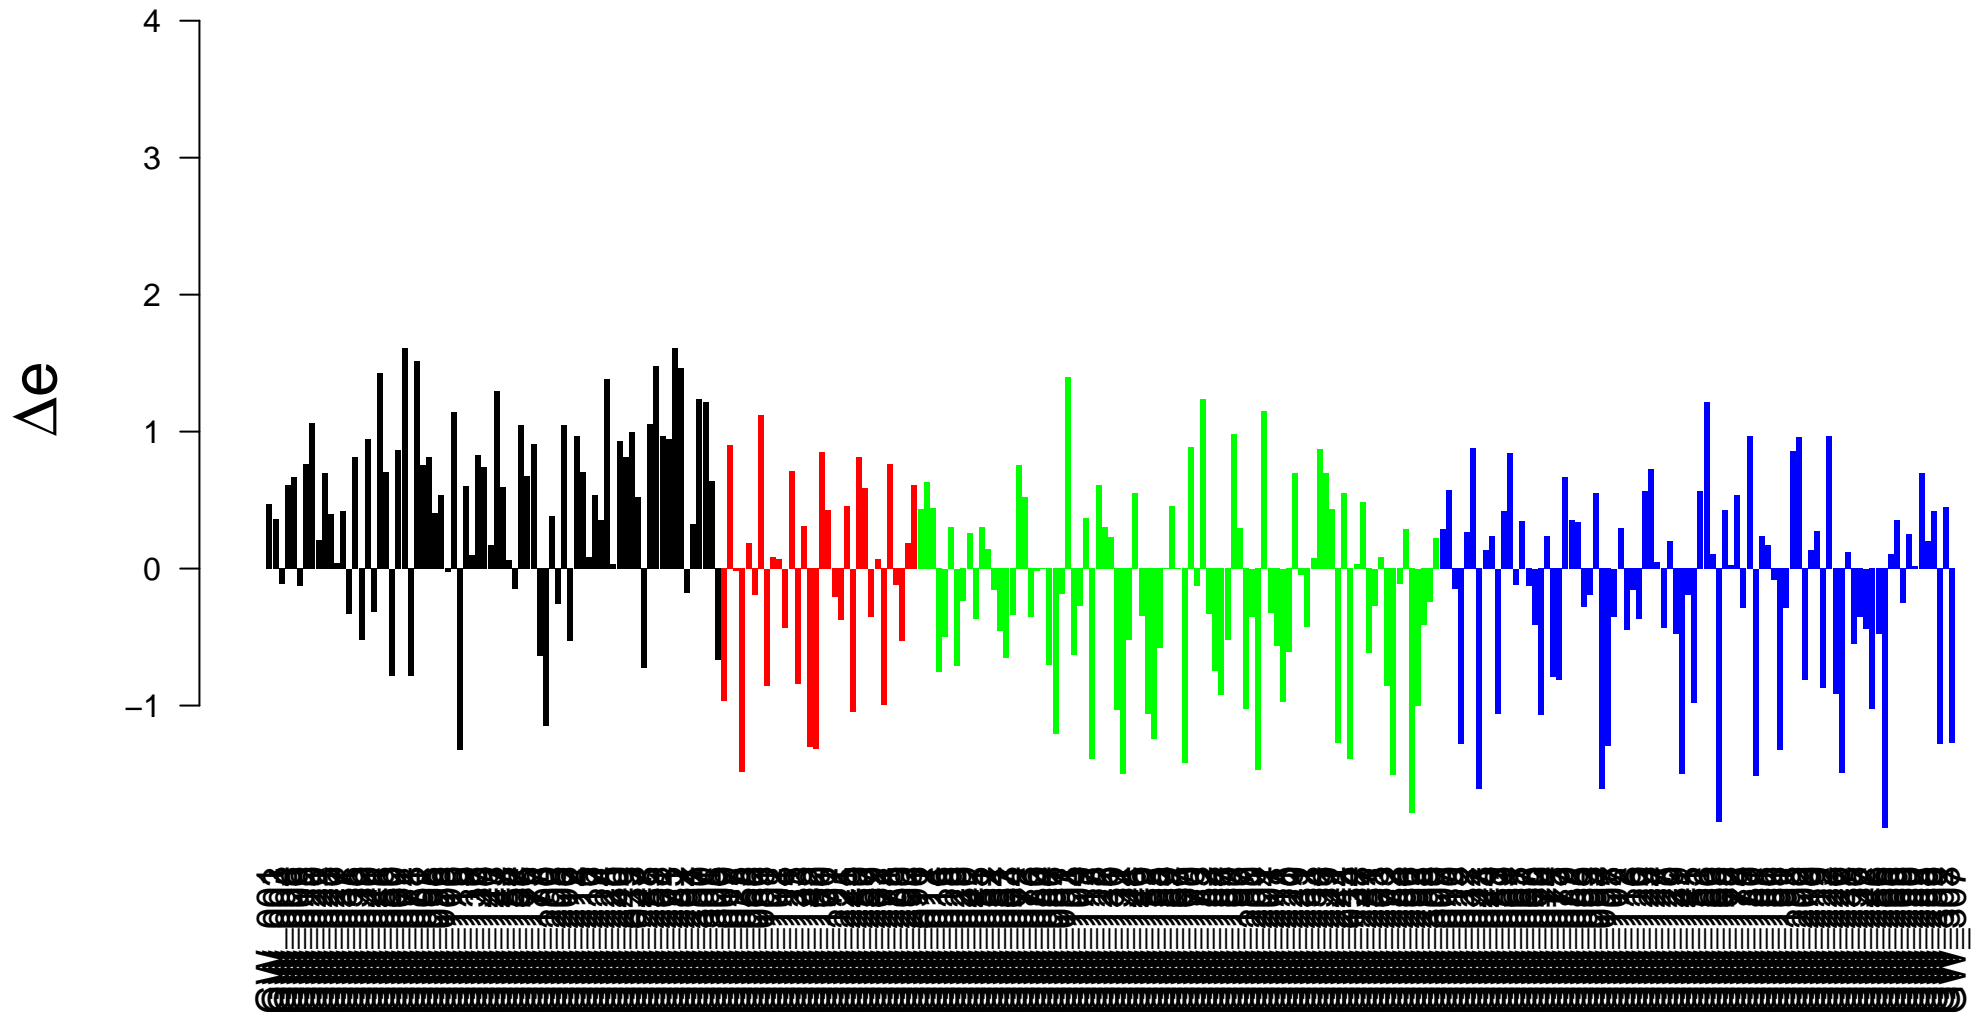

Expression of negative regulation of catalytic activity in Spot E

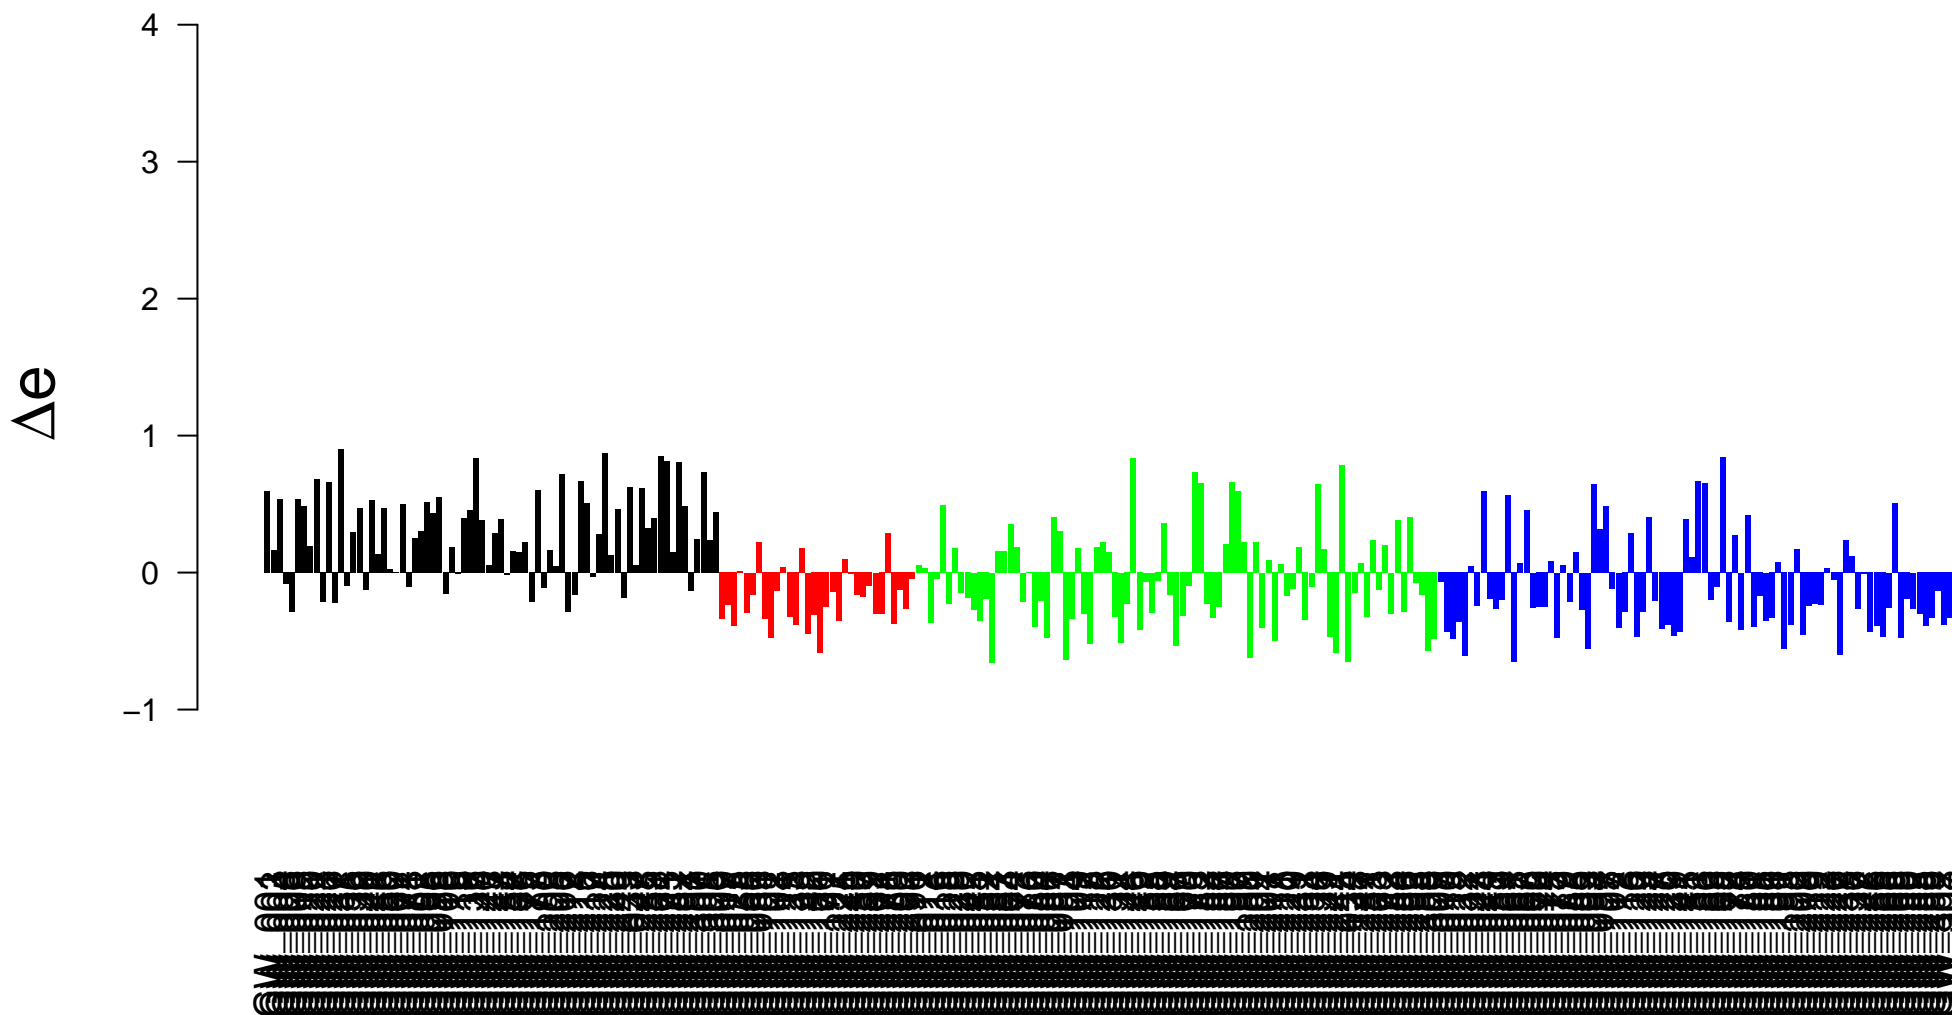

Expression of negative regulation of catalytic activity in Spot F

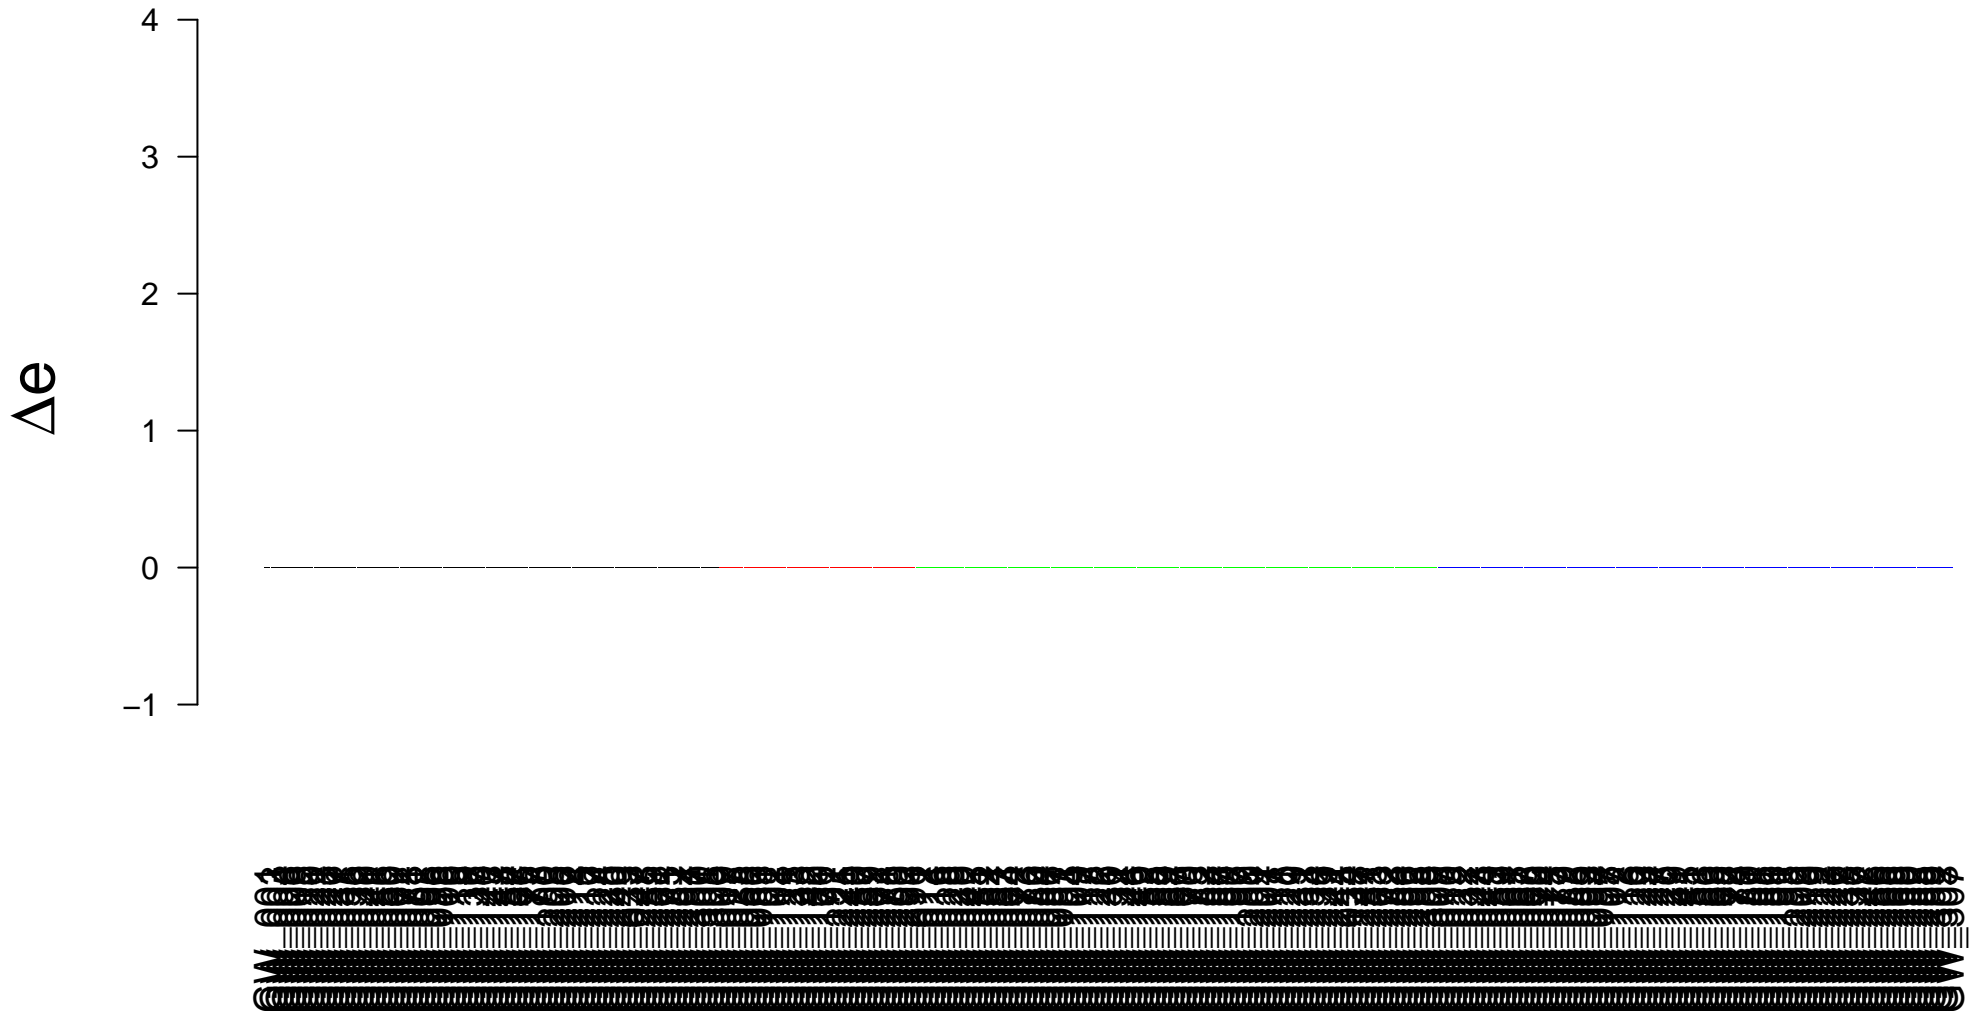

Expression of negative regulation of catalytic activity in Spot G

Expression of negative regulation of catalytic activity in Spot H

Expression of negative regulation of catalytic activity in Spot I

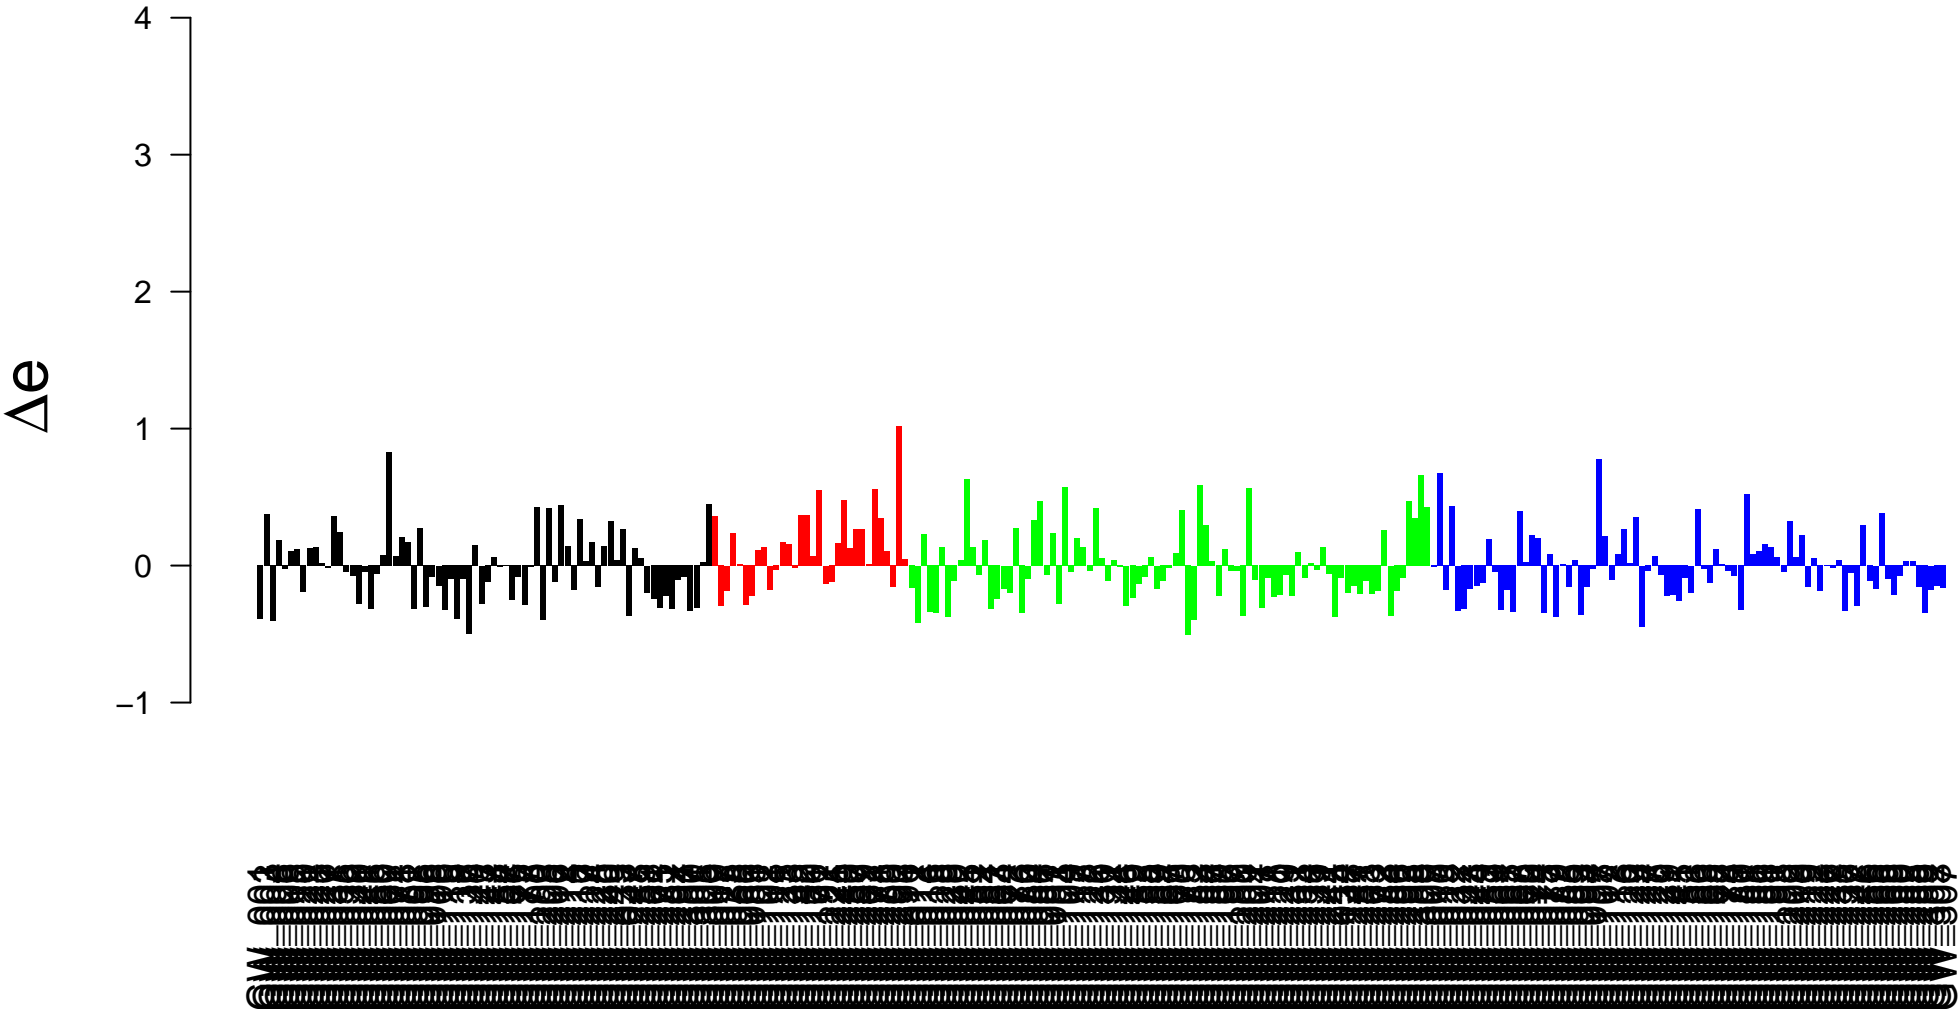

Expression of negative regulation of catalytic activity in Spot J

Expression of negative regulation of catalytic activity in Spot K

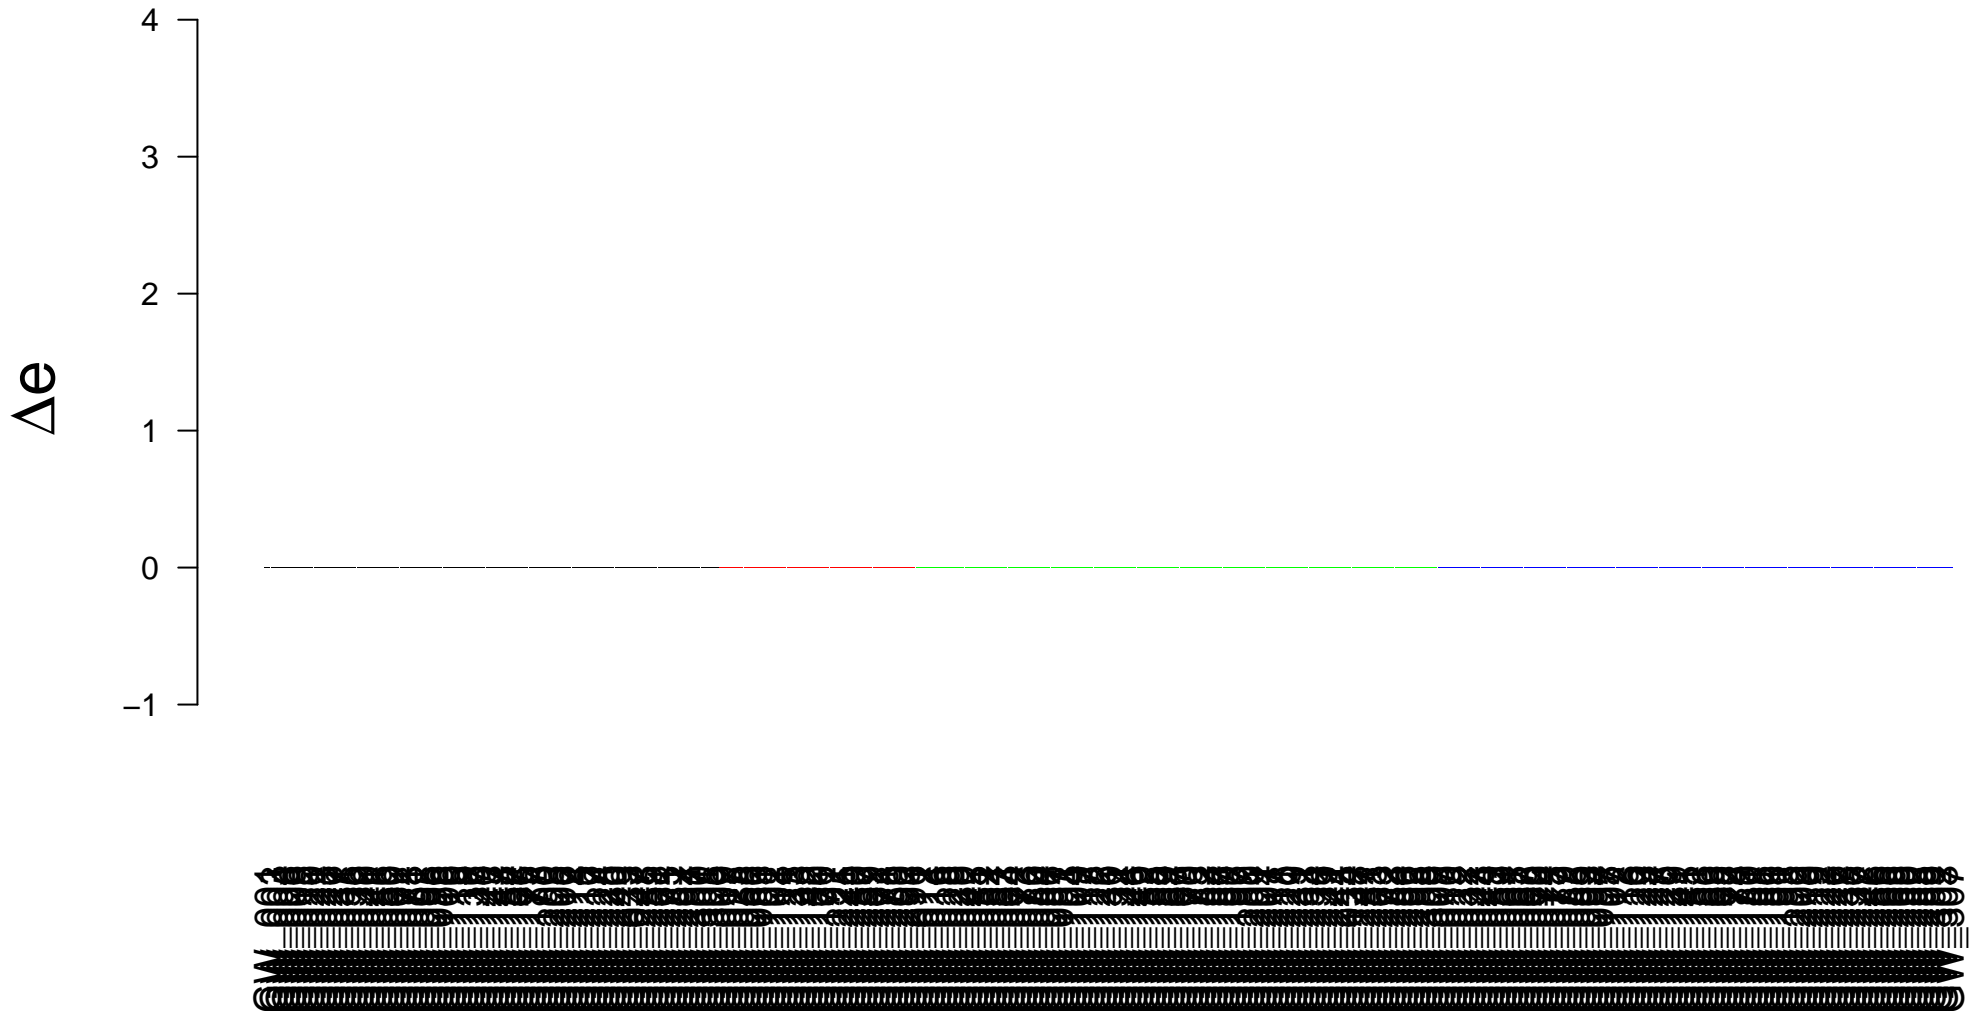

Expression of negative regulation of catalytic activity in Spot L

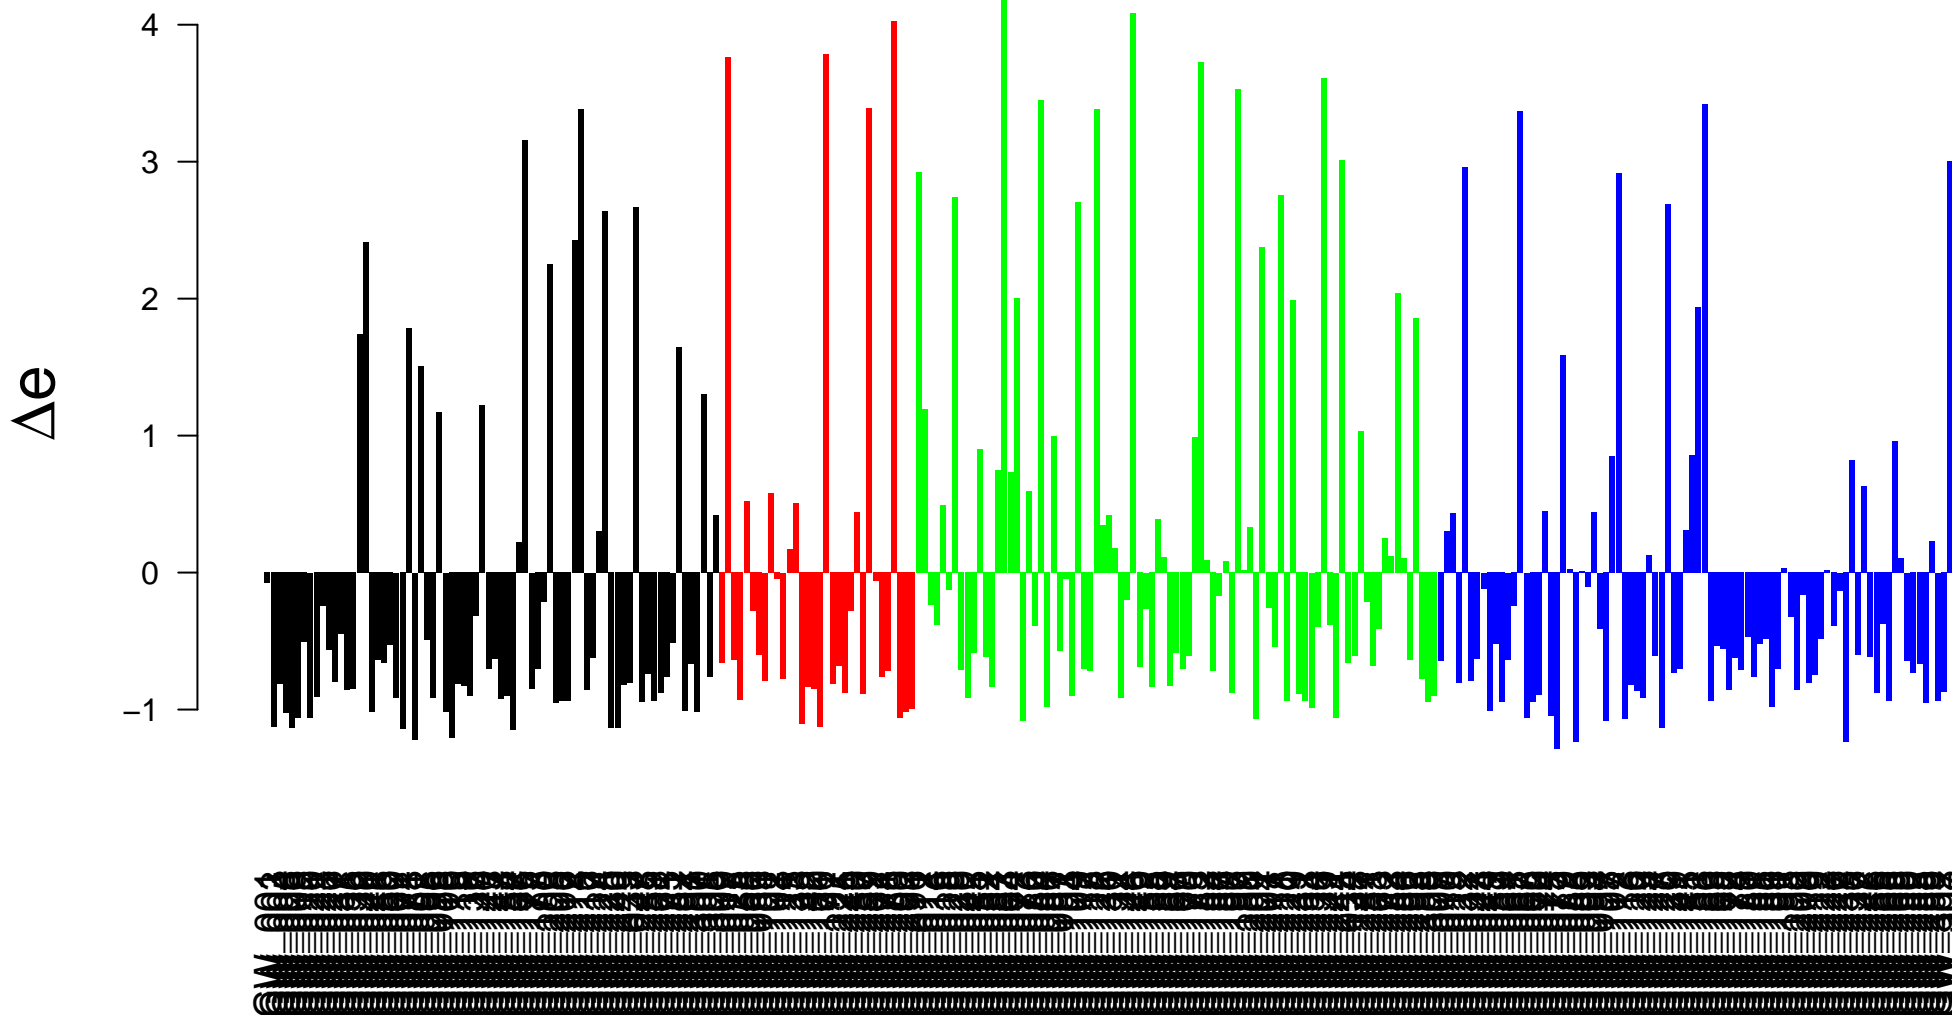

Δe

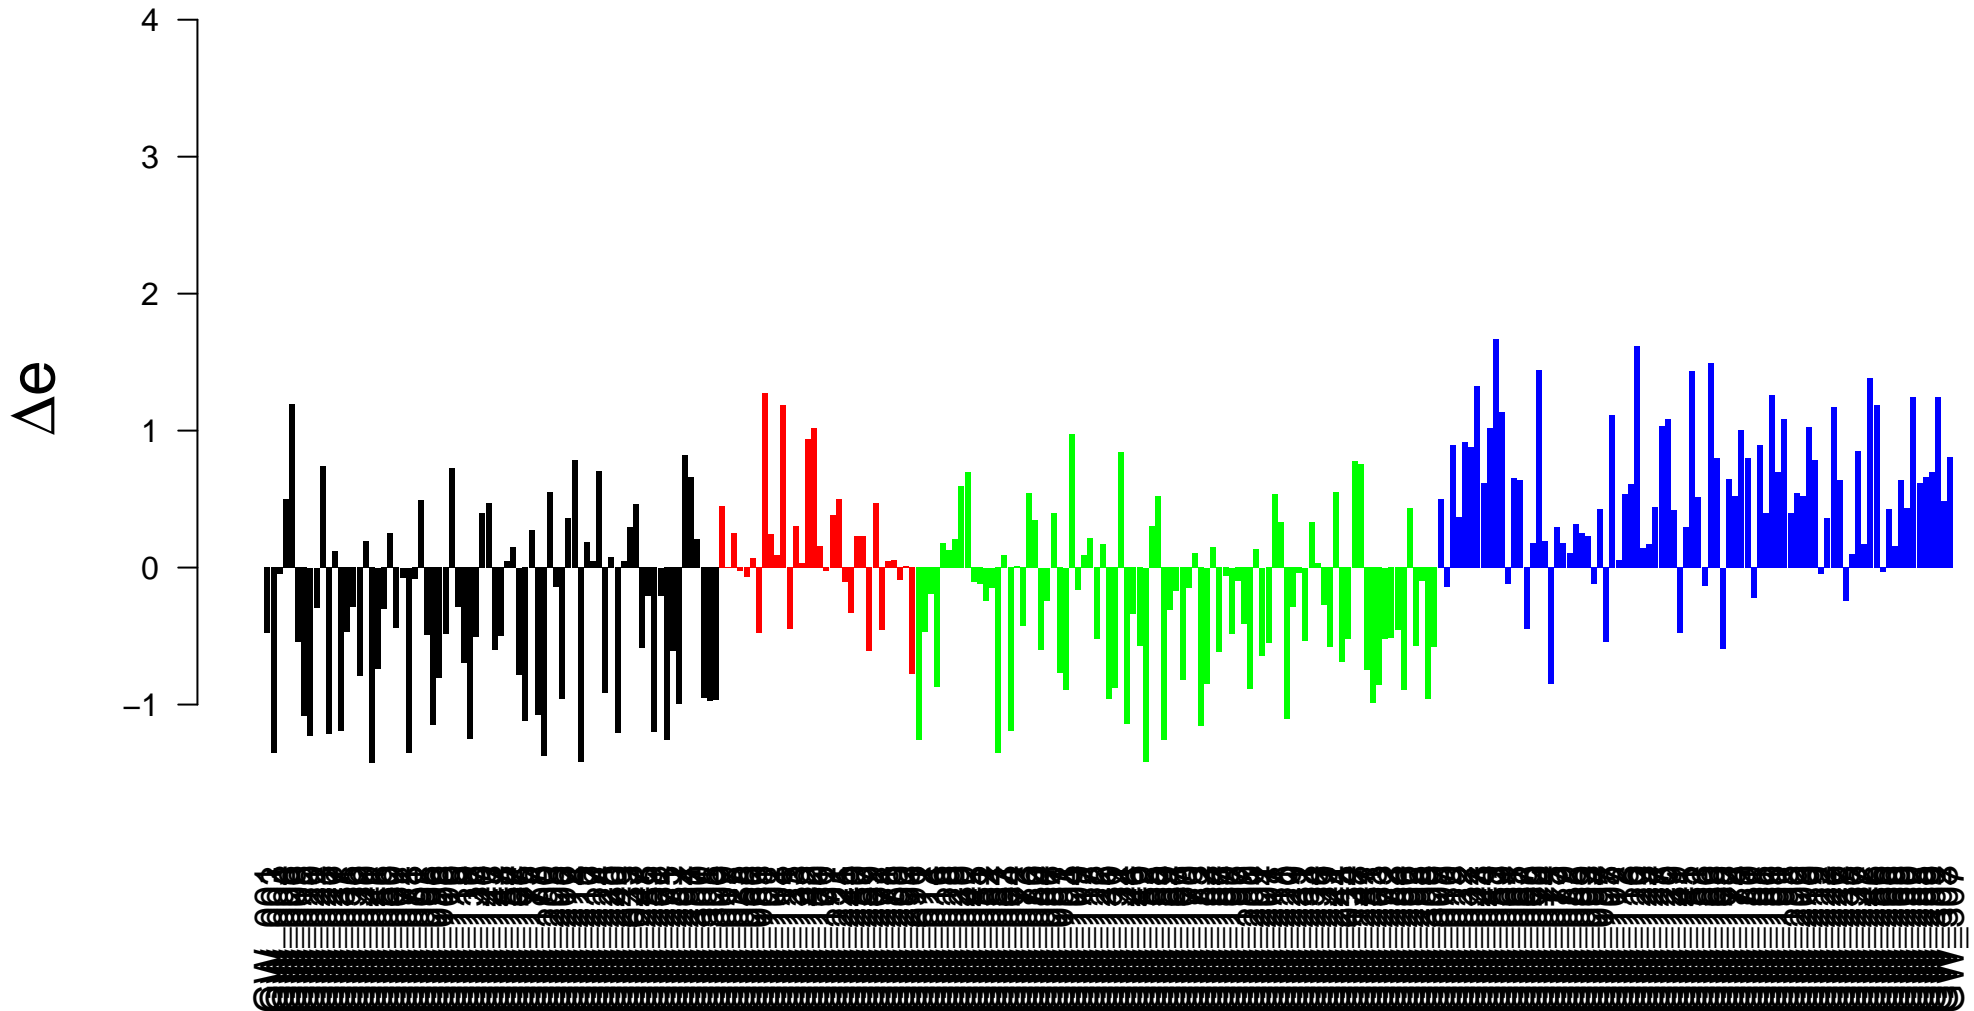

Expression of negative regulation of catalytic activity in Spot M

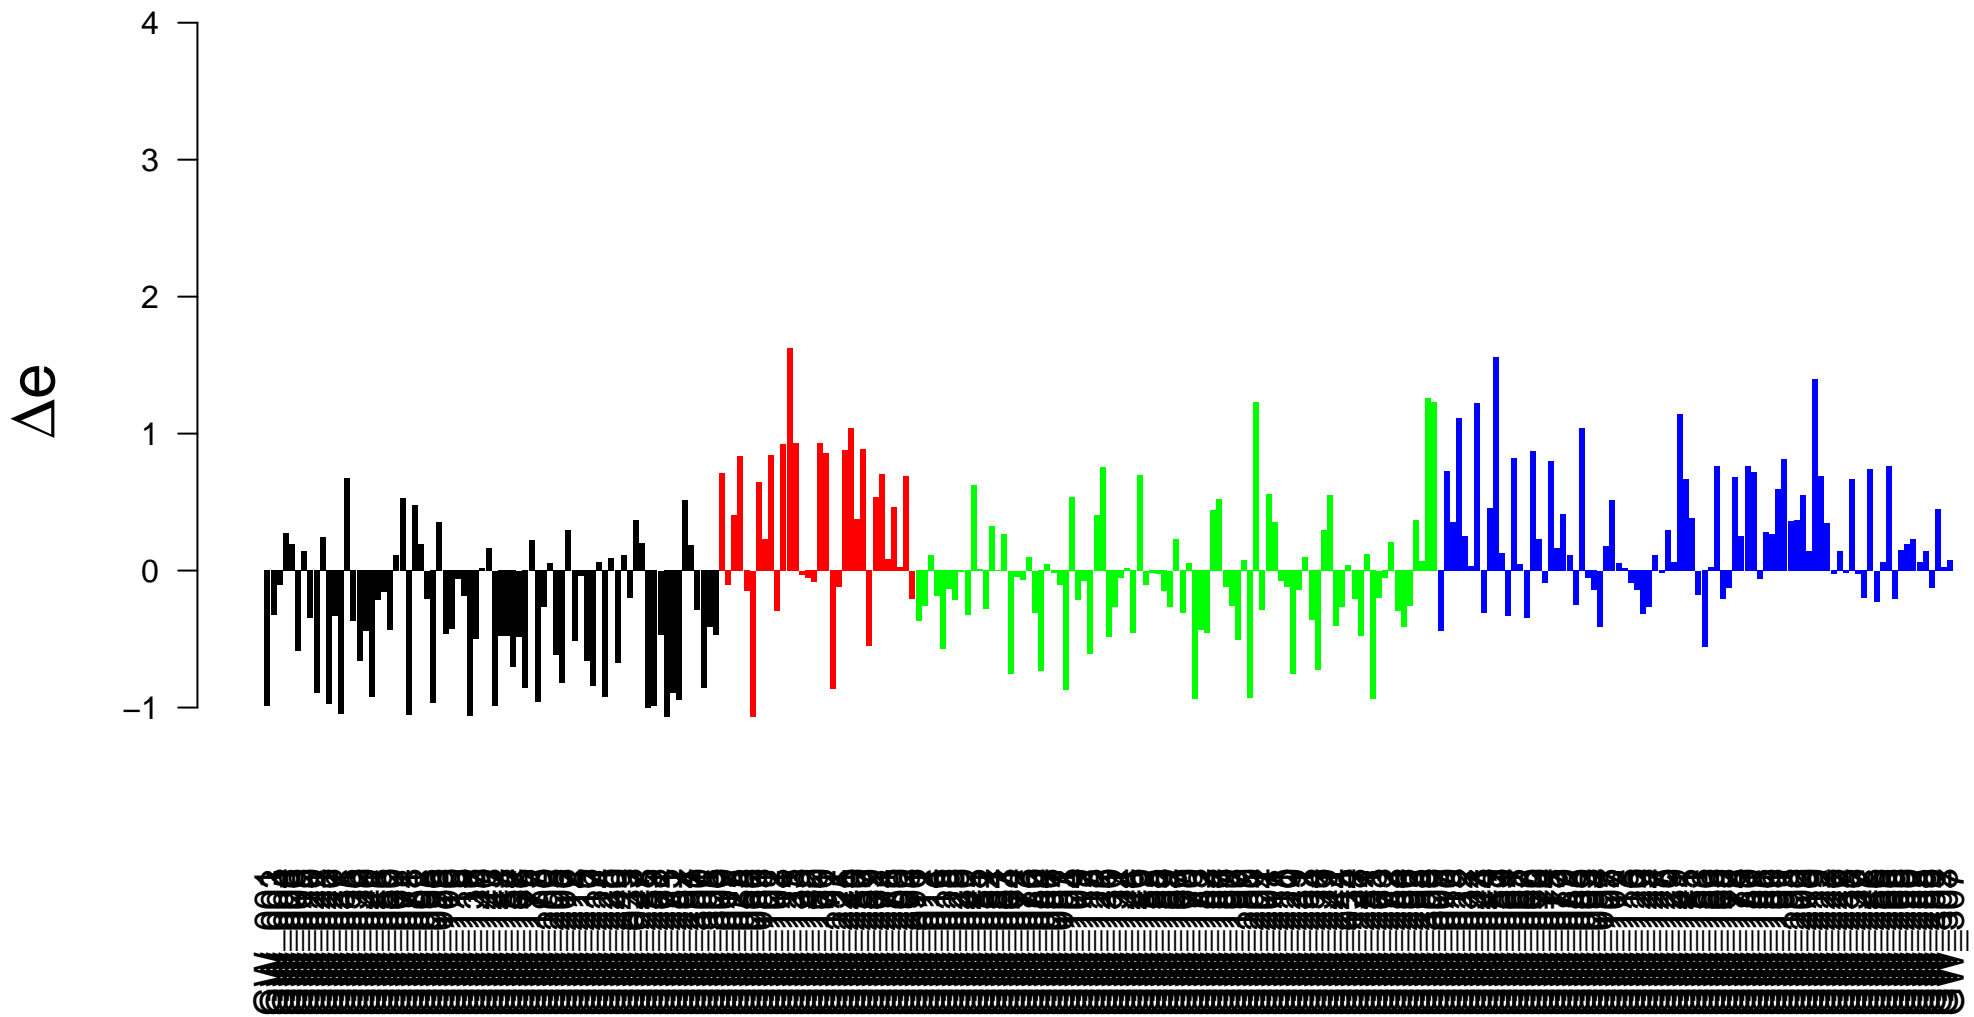

Expression of negative regulation of catalytic activity in Spot N

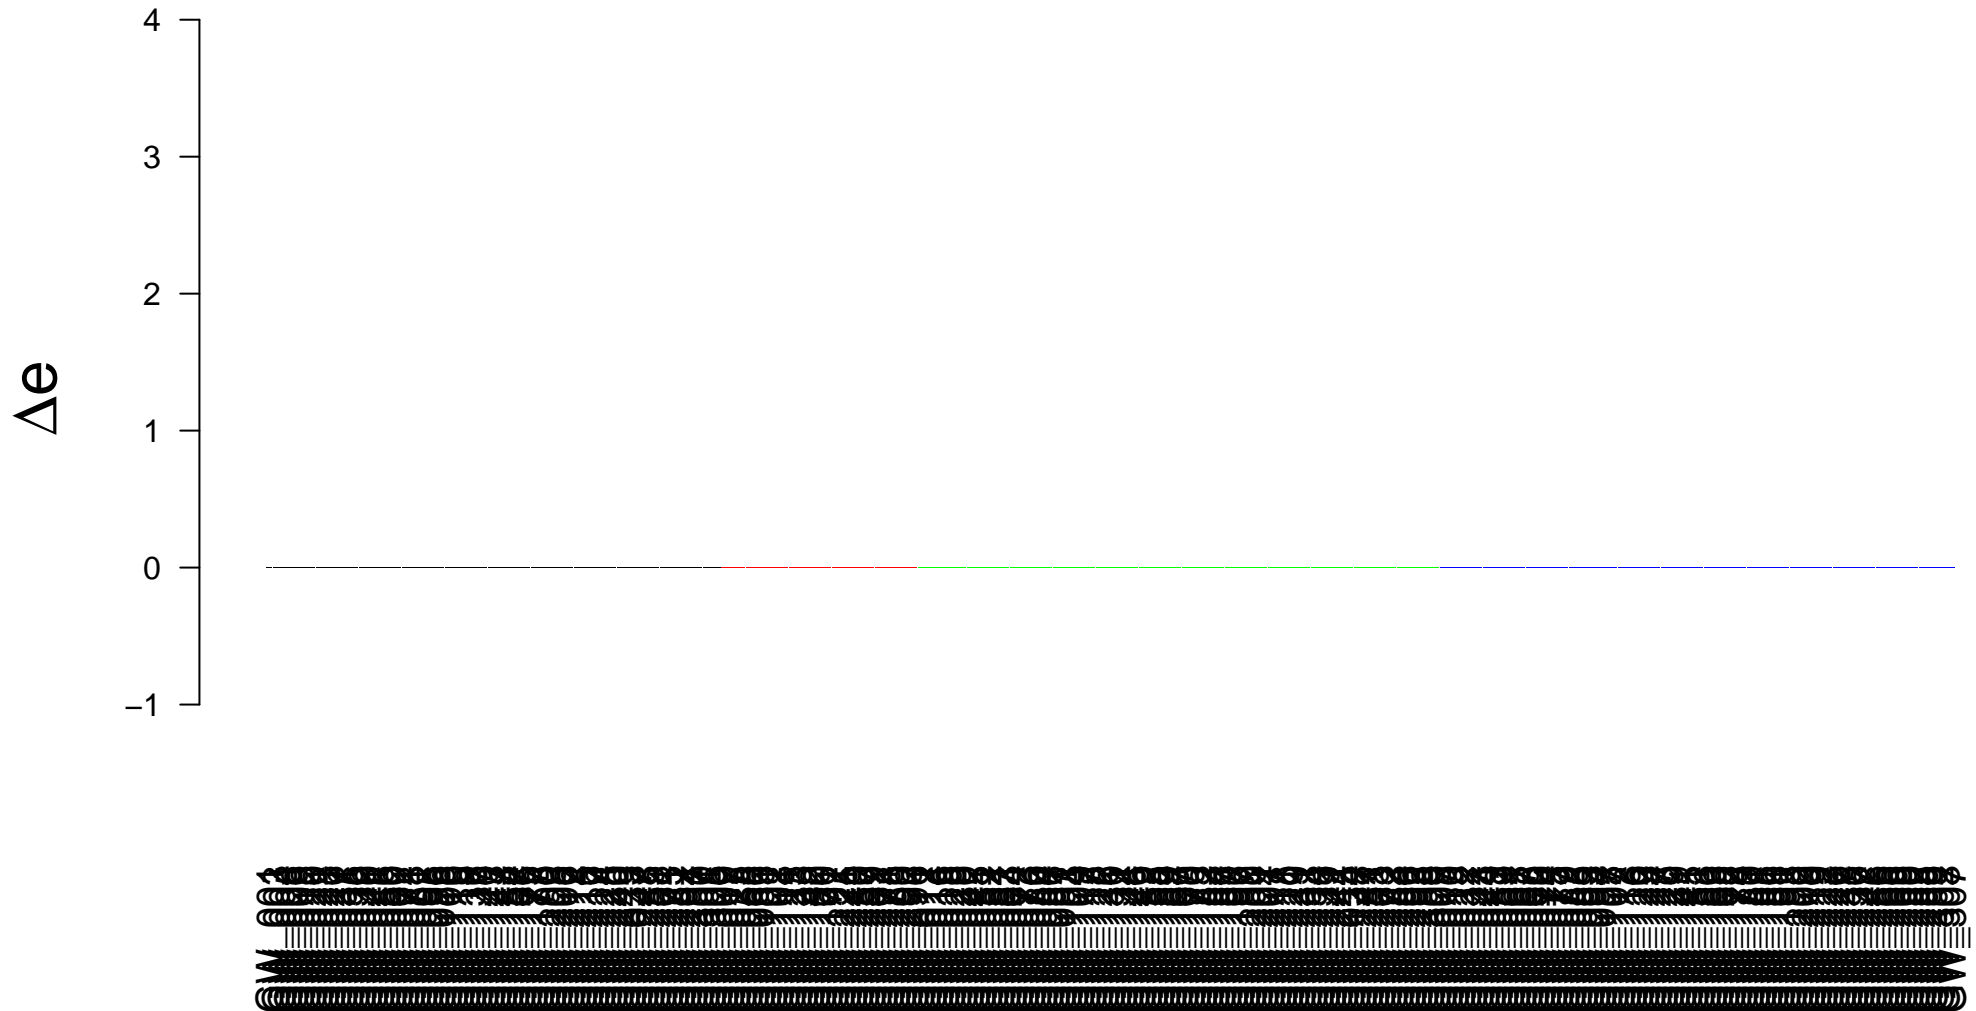

Expression of negative regulation of catalytic activity in Spot O

Expression of negative regulation of catalytic activity in Spot P

Expression of negative regulation of catalytic activity in Spot Q

Expression of negative regulation of catalytic activity in Spot R
