

negative regulation of epithelial to mesenchymal transition

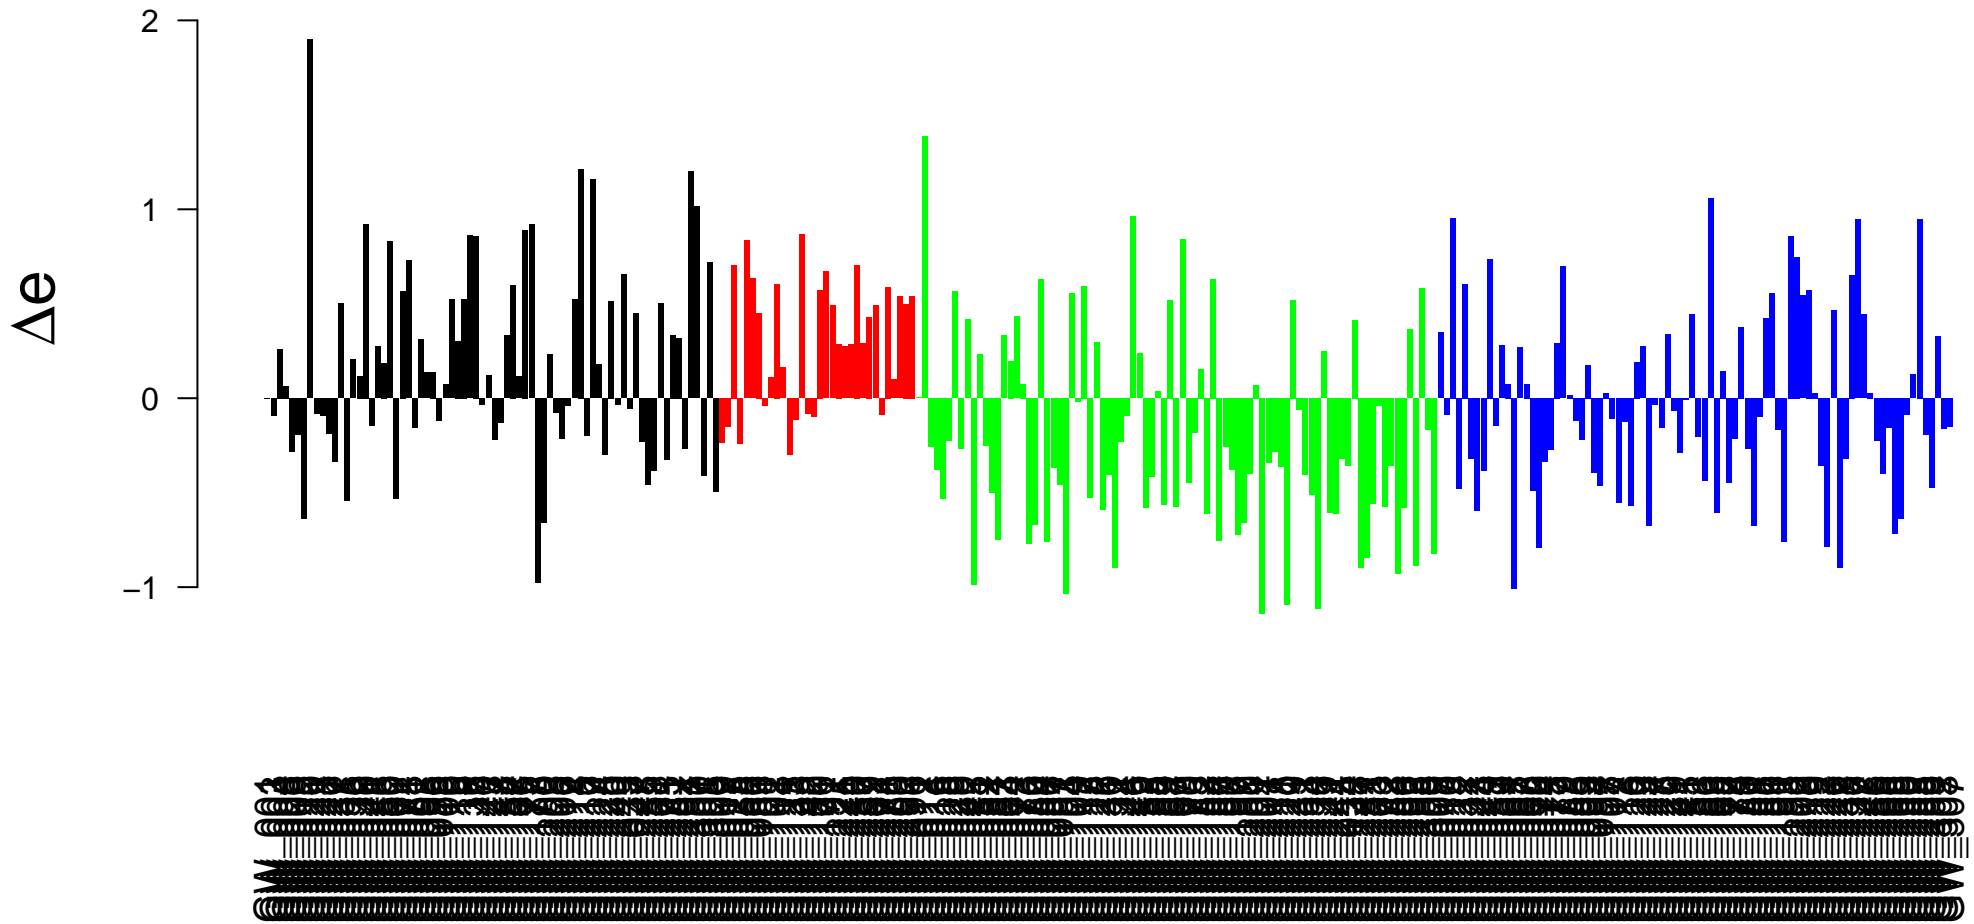

negative regulation of epithelial to mesenchymal transition

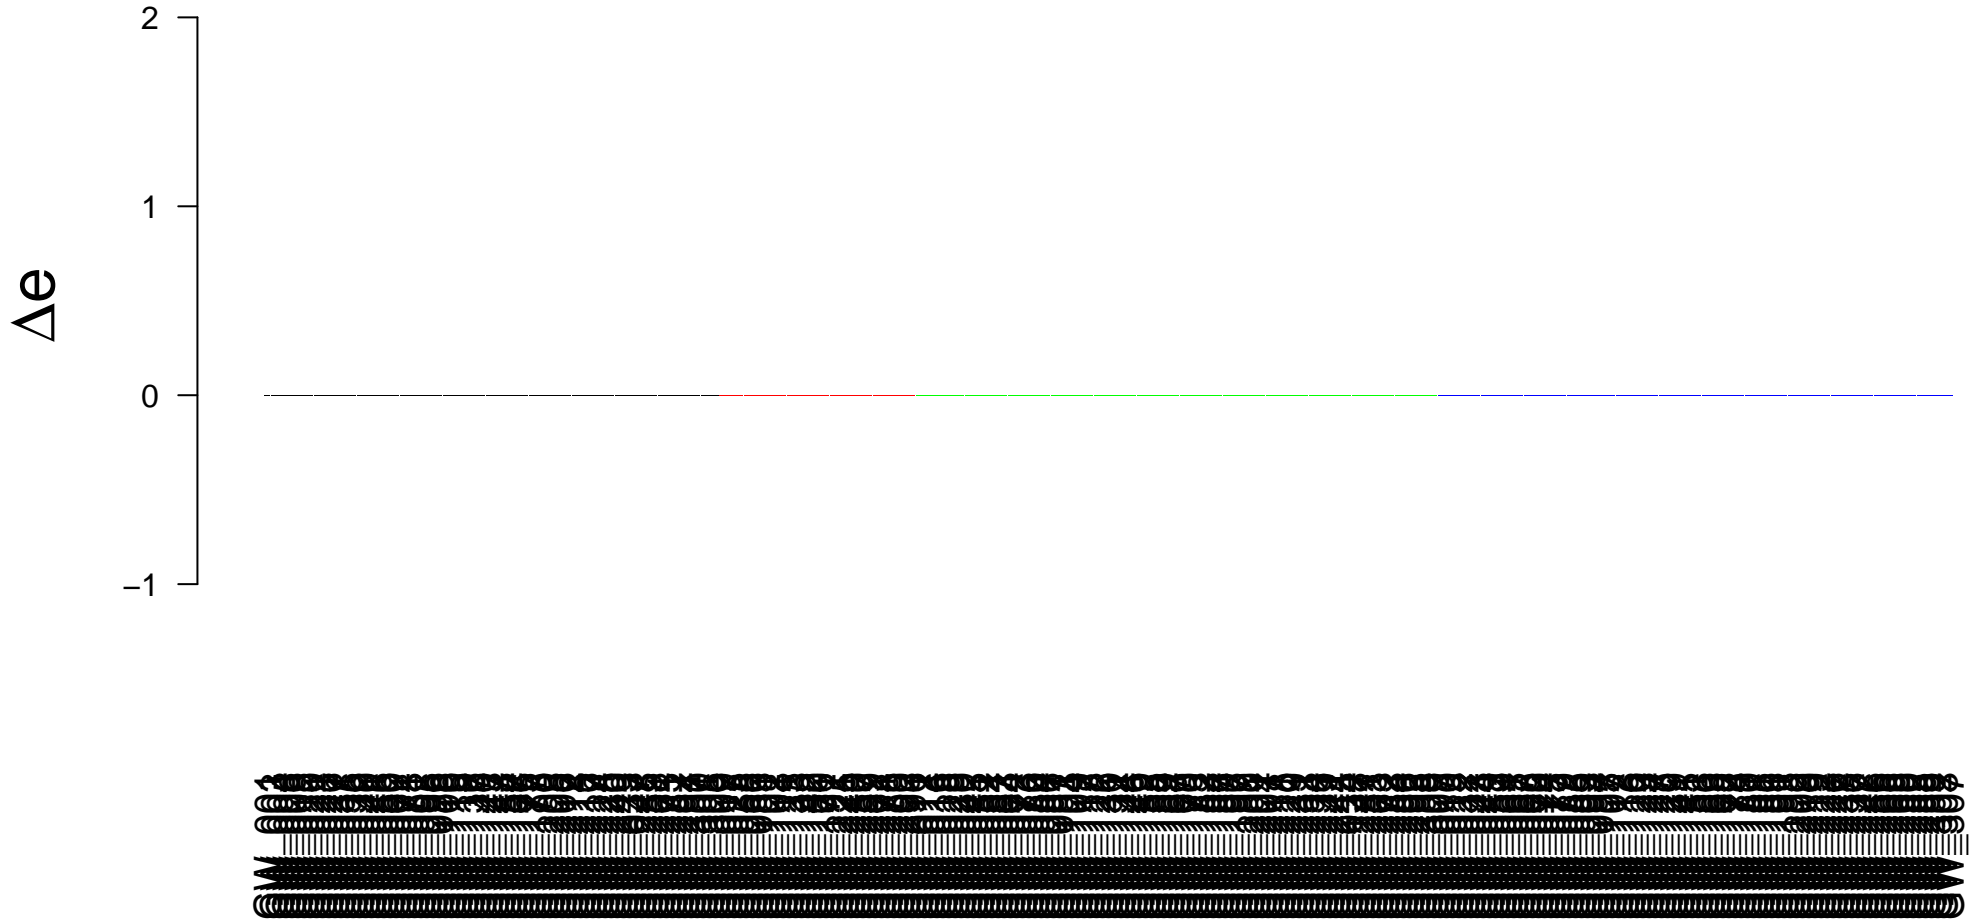

Enrichment in spots: negative regulation of epithelial to mesenchymal transition

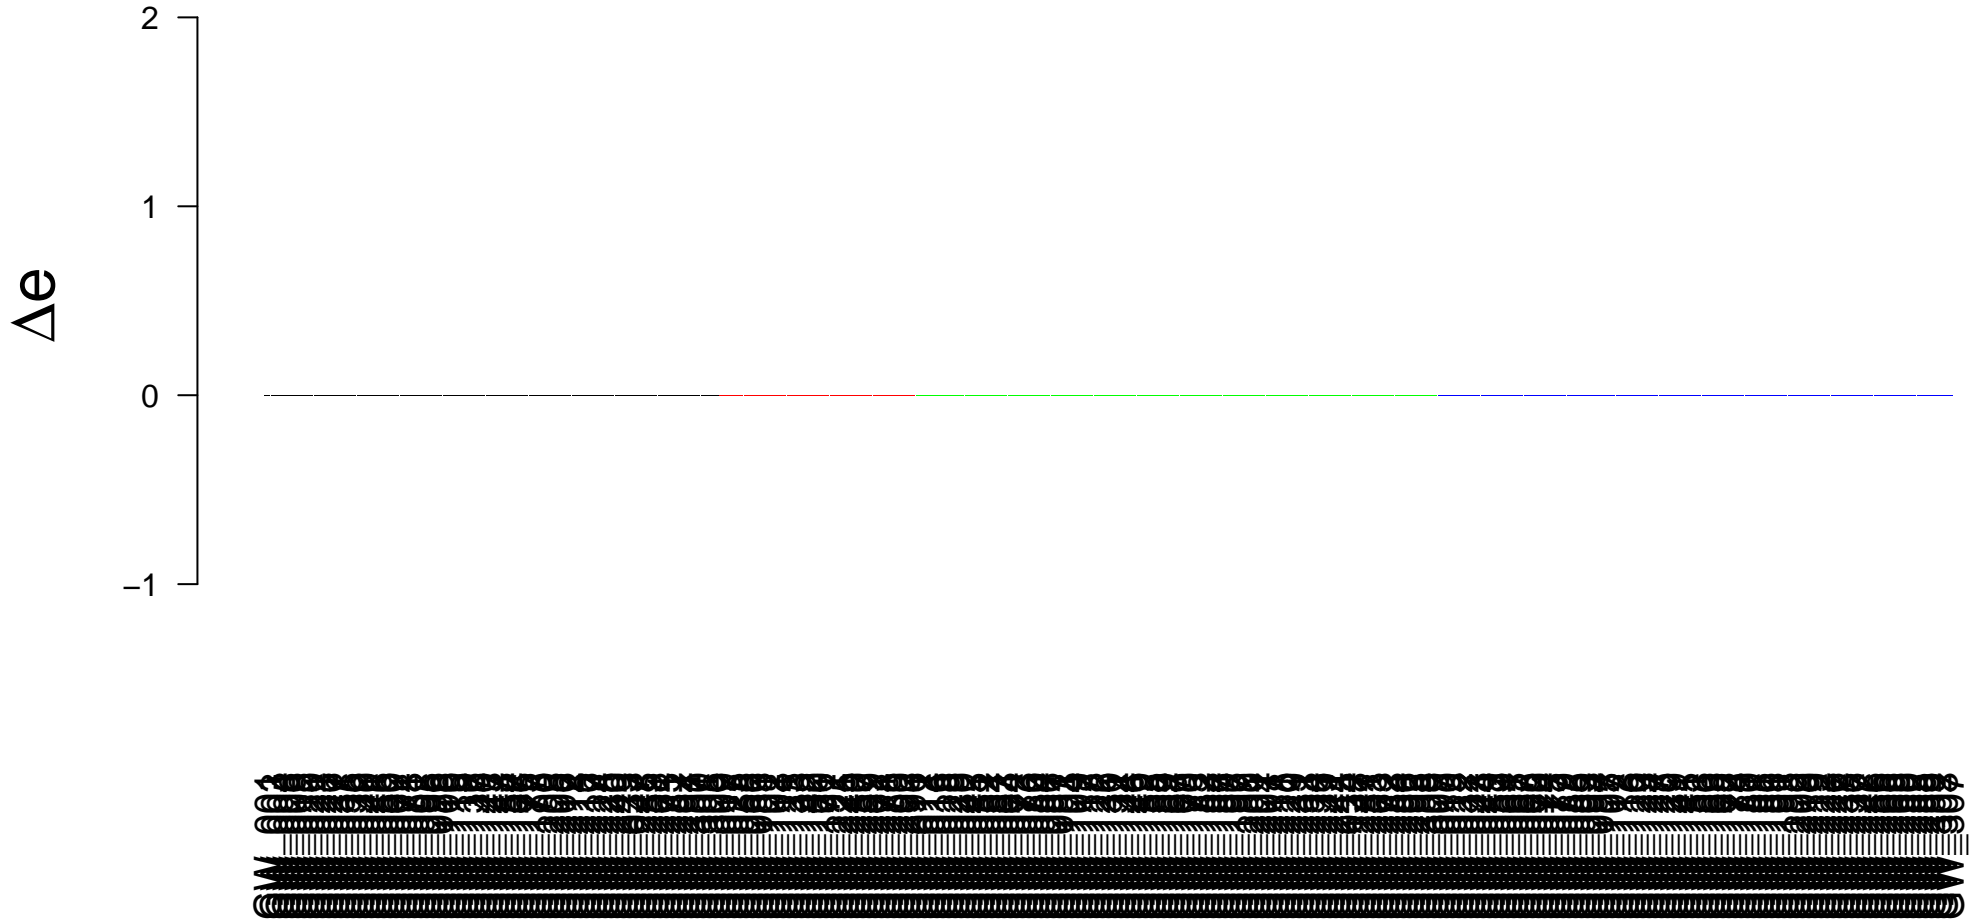

Expression of negative regulation of epithelial to mesenchymal transition in Spot A

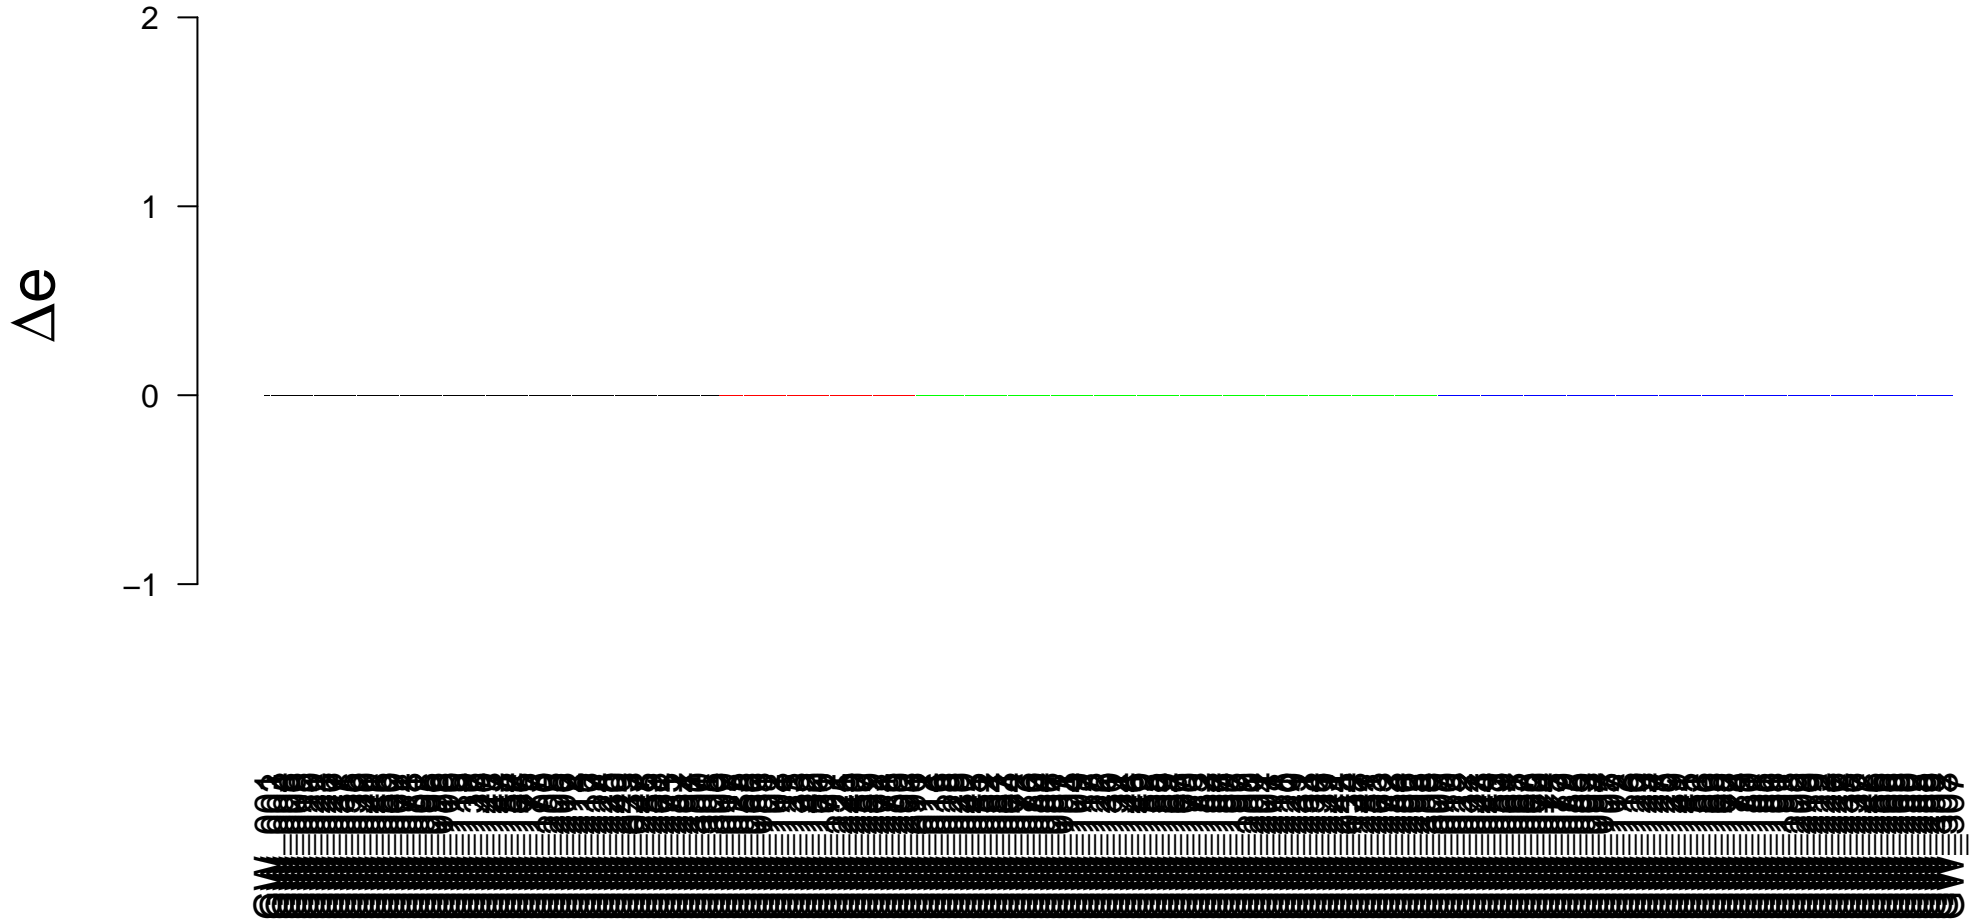

Expression of negative regulation of epithelial to mesenchymal transition in Spot B

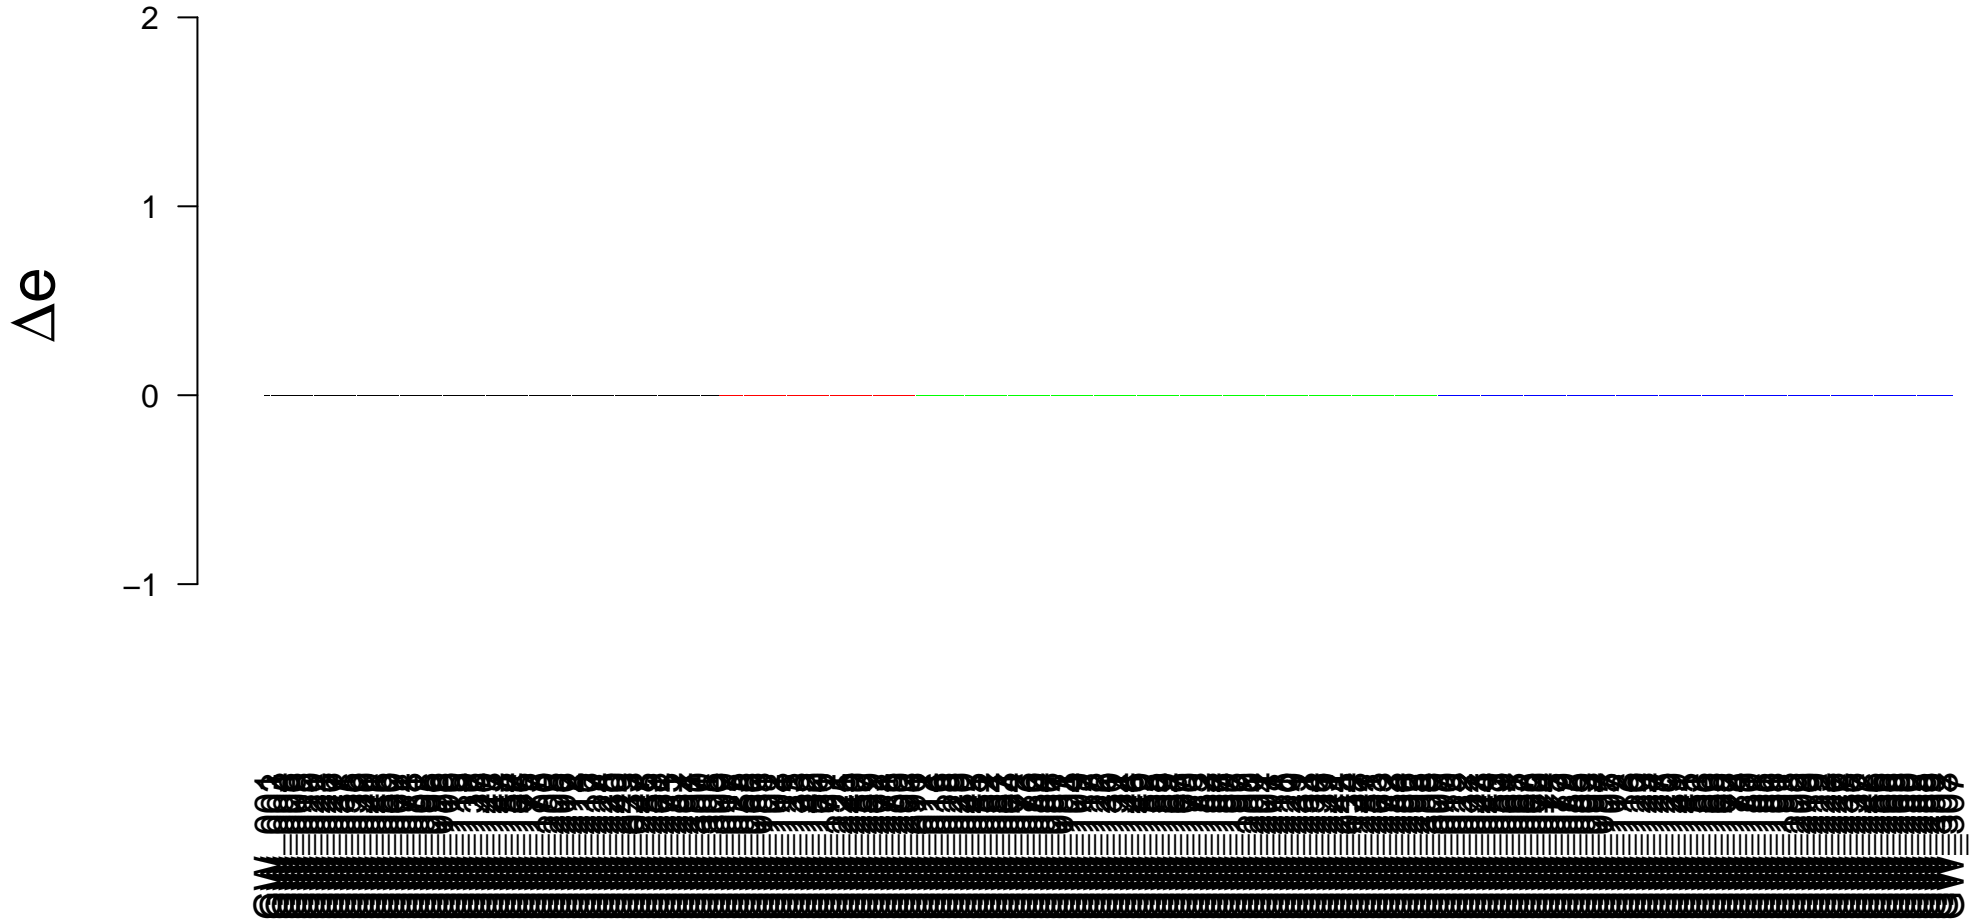

Expression of negative regulation of epithelial to mesenchymal transition in Spot C

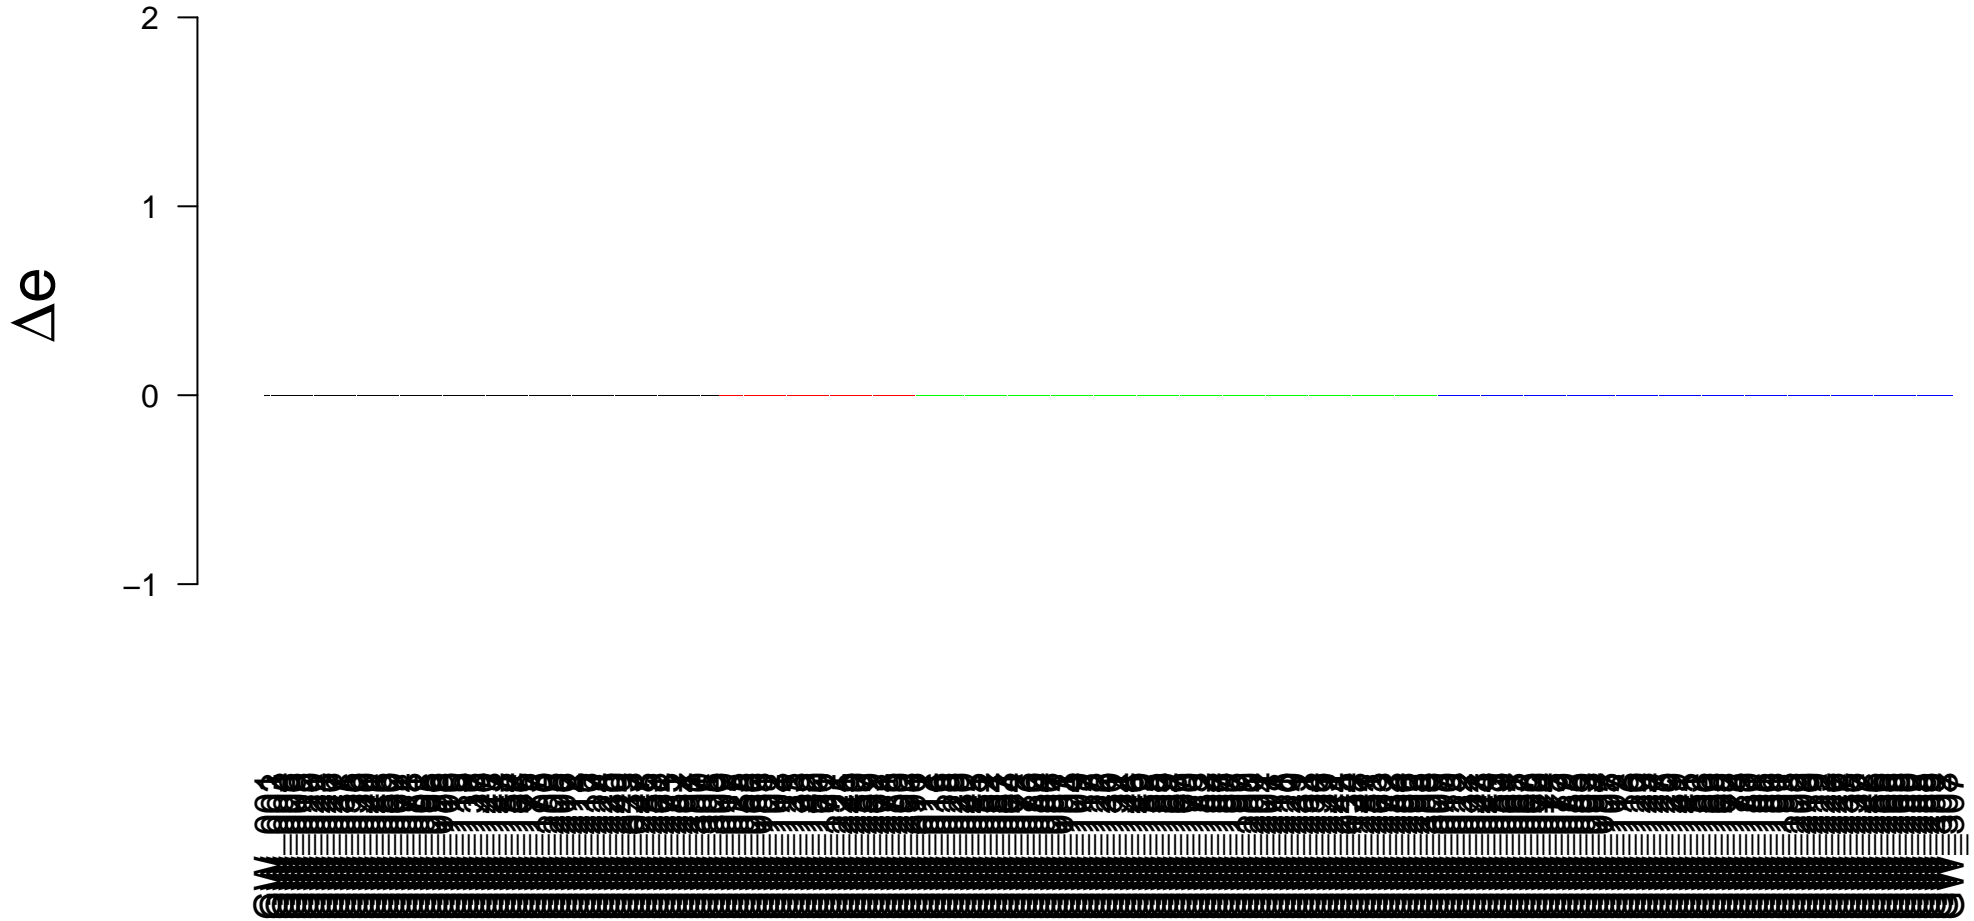

Expression of negative regulation of epithelial to mesenchymal transition in Spot D

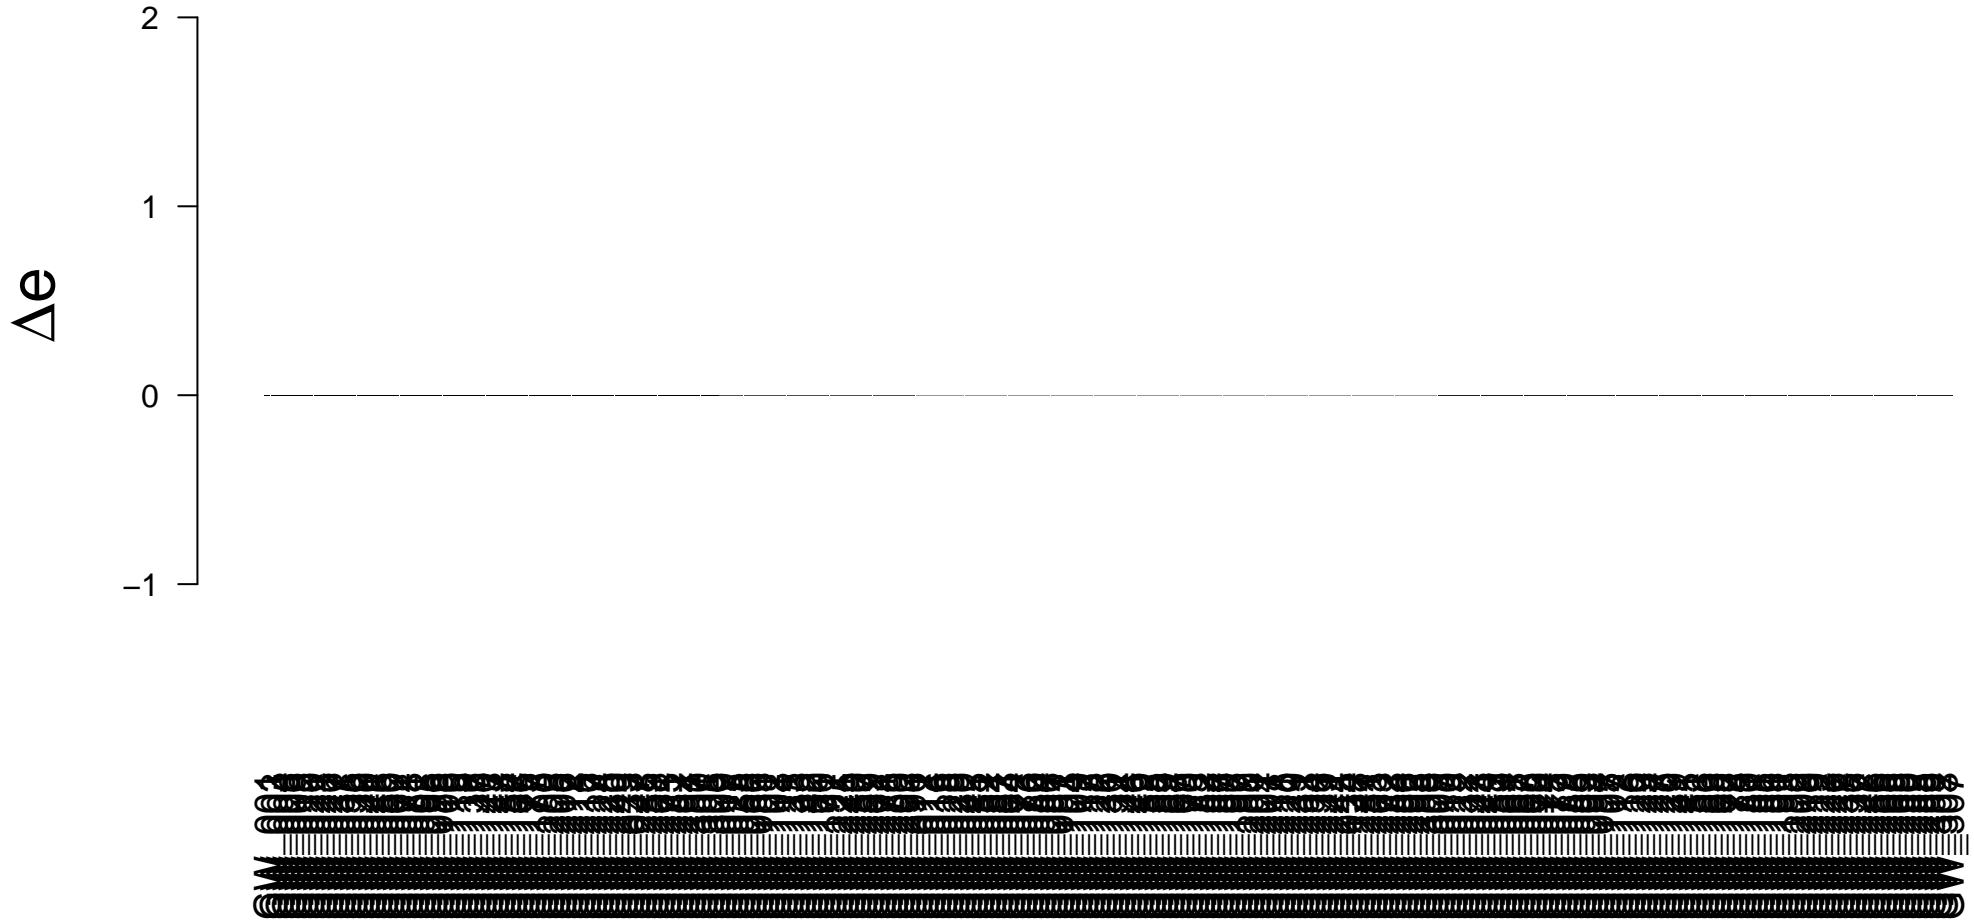

Expression of negative regulation of epithelial to mesenchymal transition in Spot E

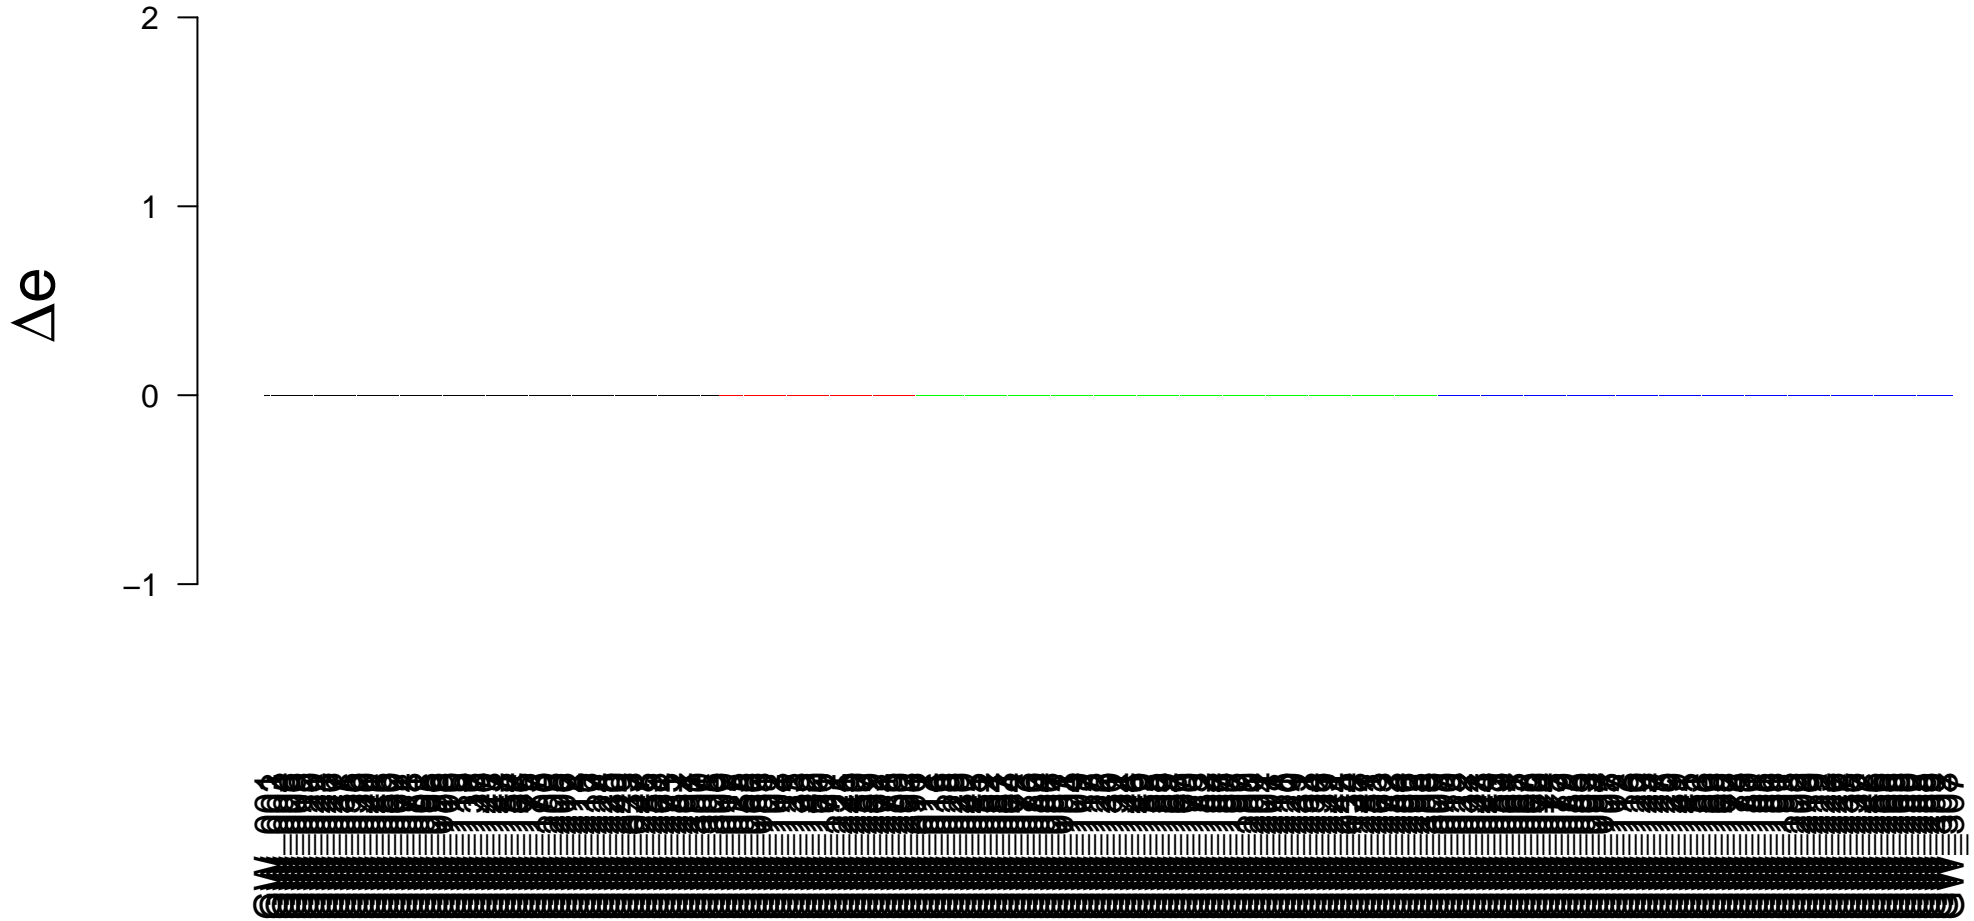

Expression of negative regulation of epithelial to mesenchymal transition in Spot F

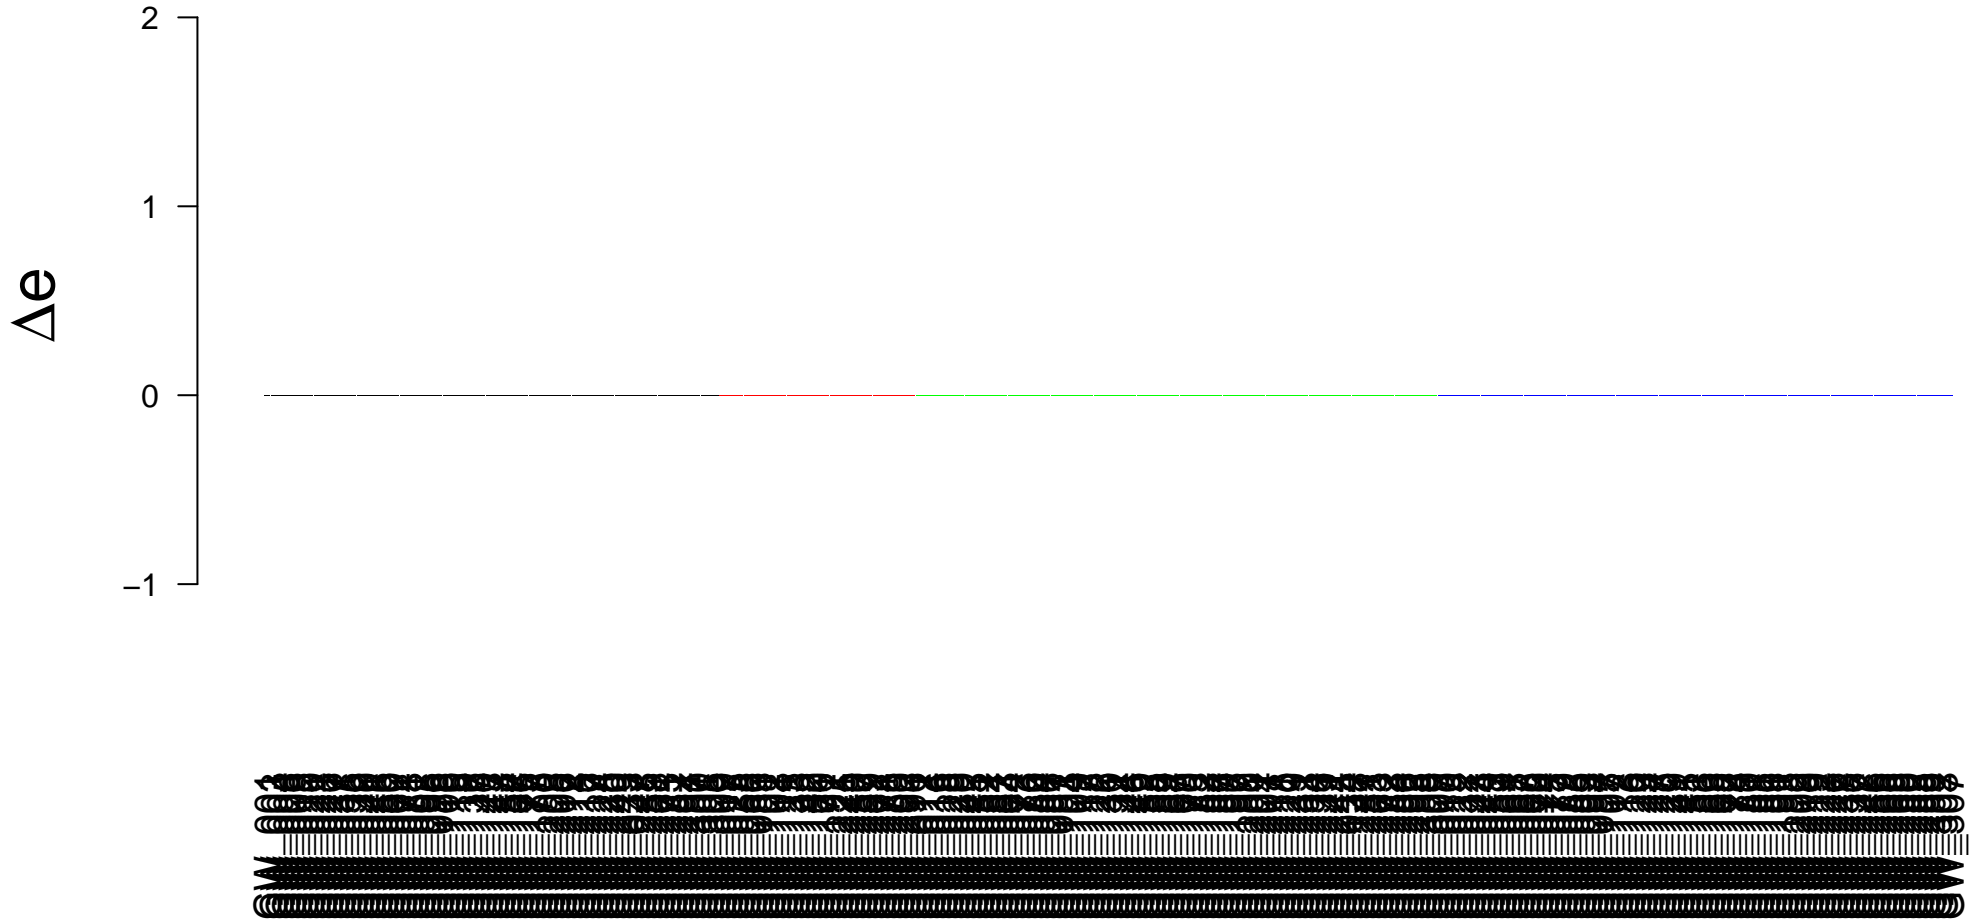

Expression of negative regulation of epithelial to mesenchymal transition in Spot G

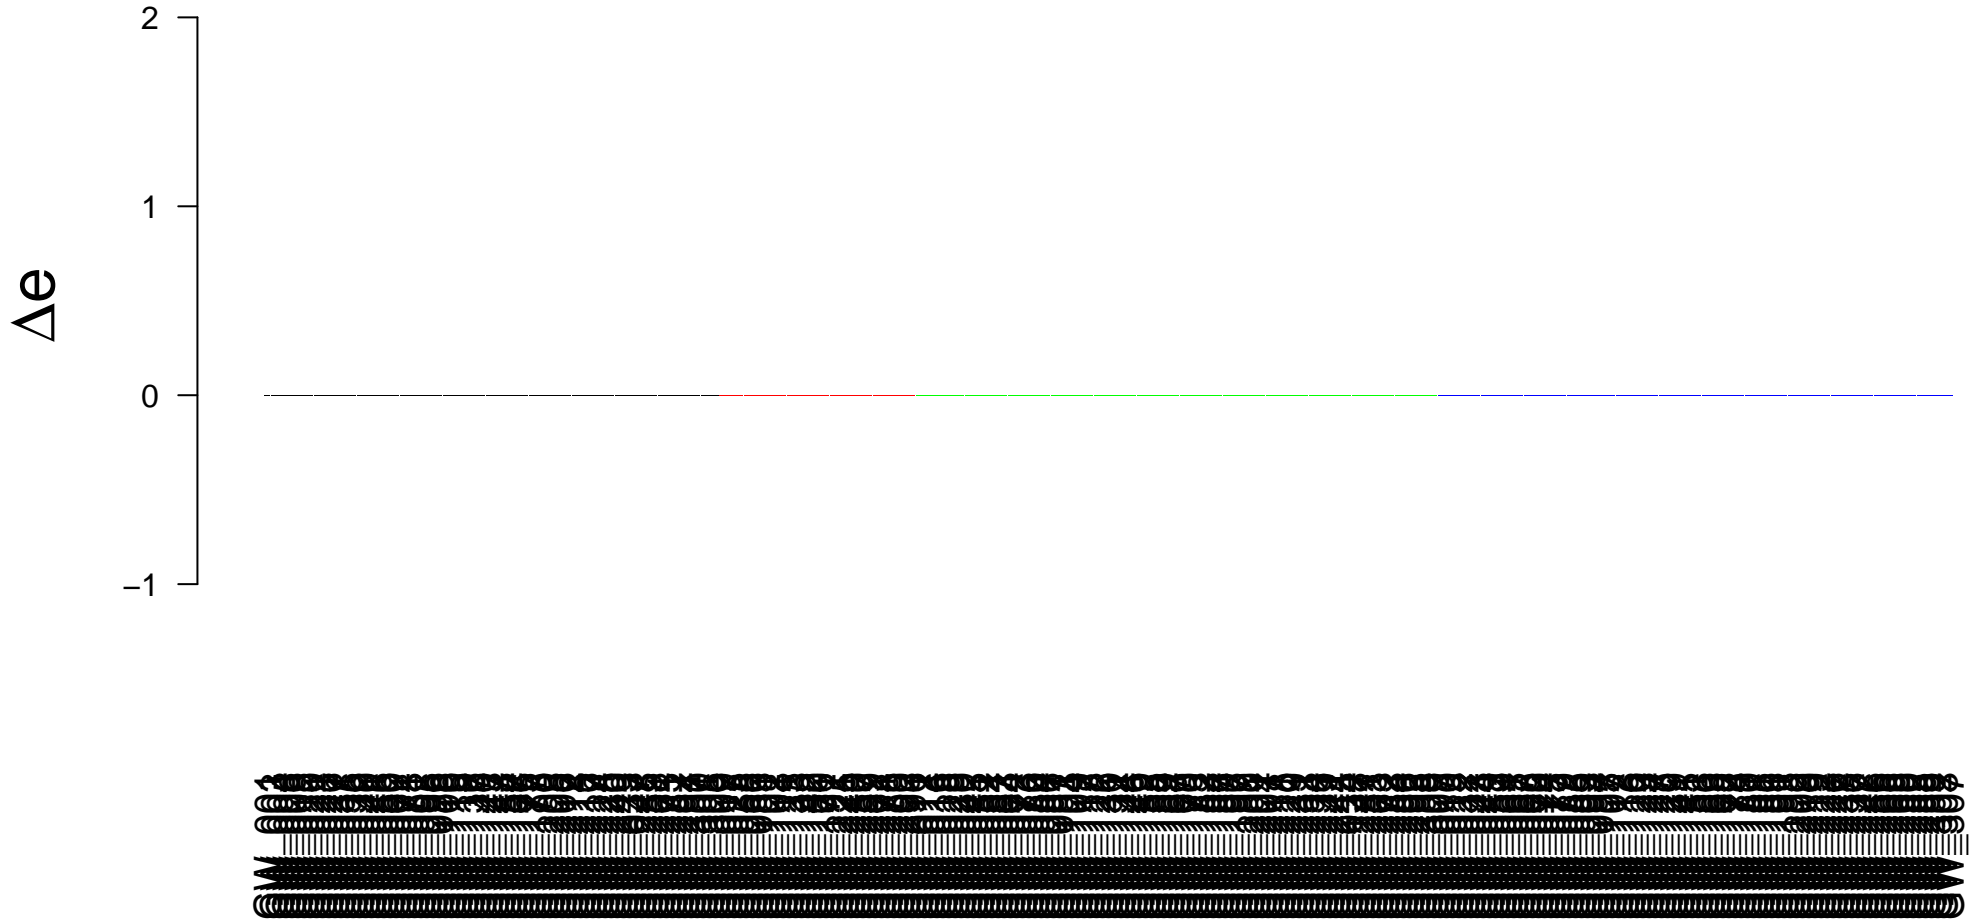

Expression of negative regulation of epithelial to mesenchymal transition in Spot H

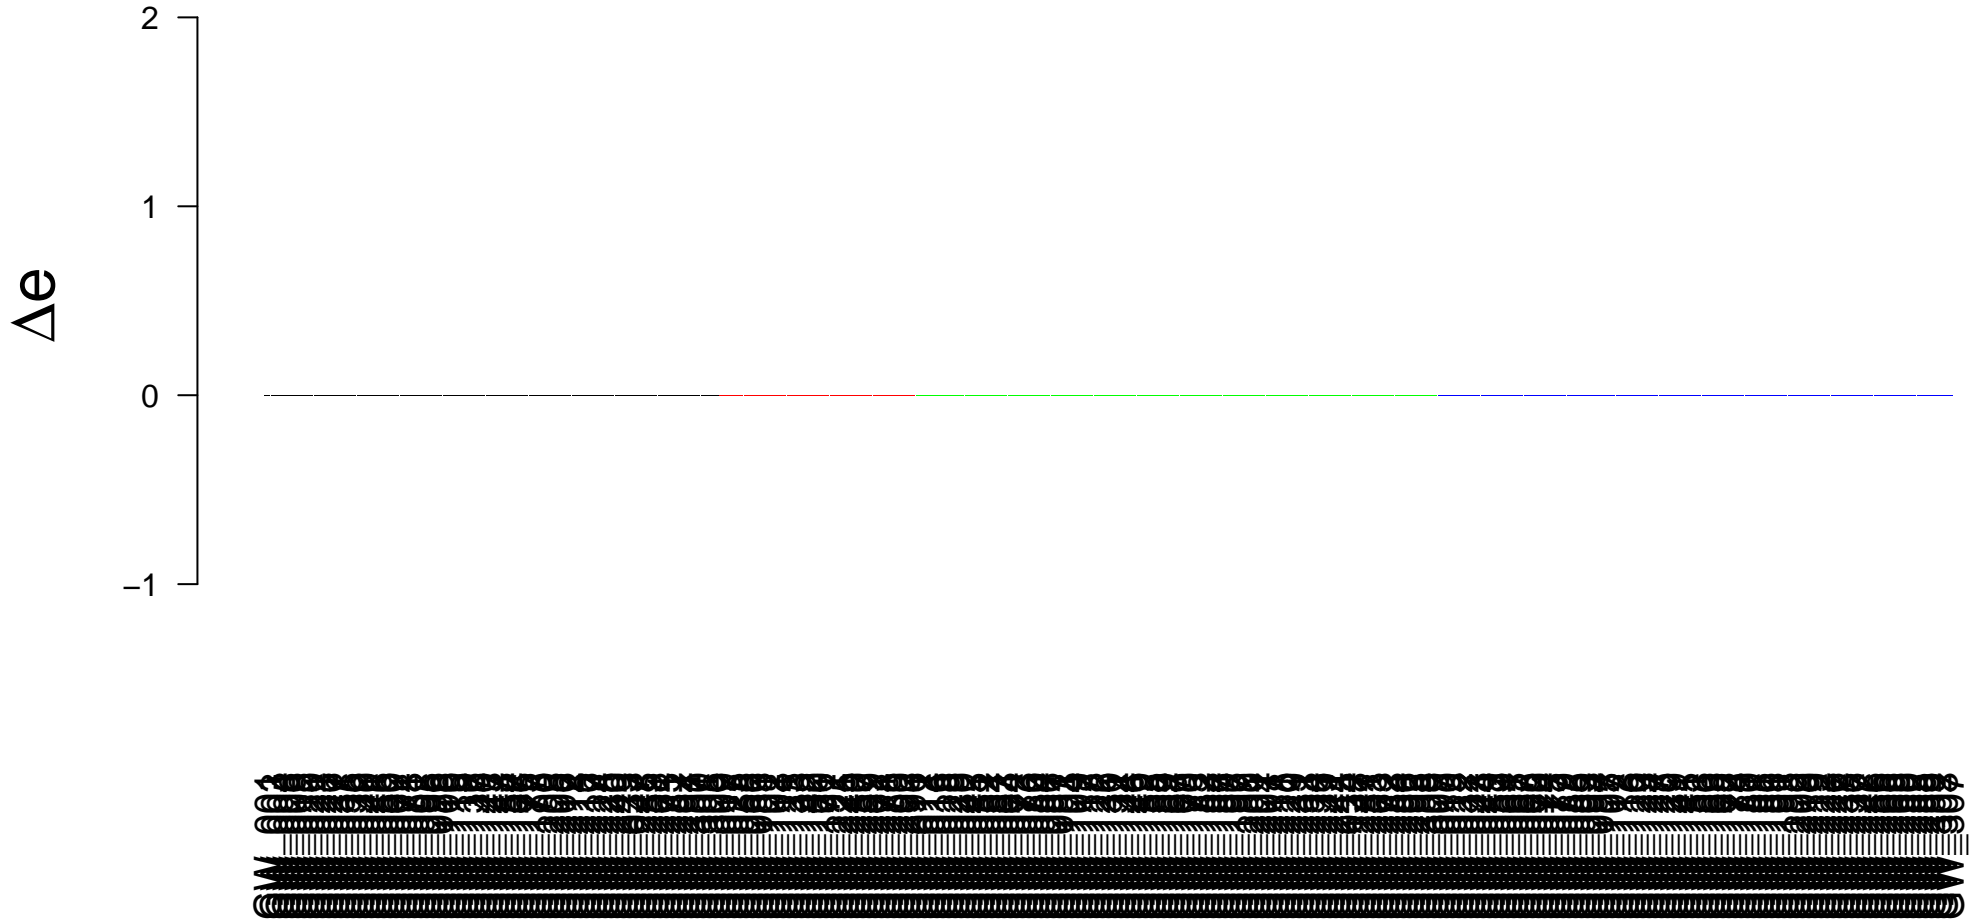

Expression of negative regulation of epithelial to mesenchymal transition in Spot I

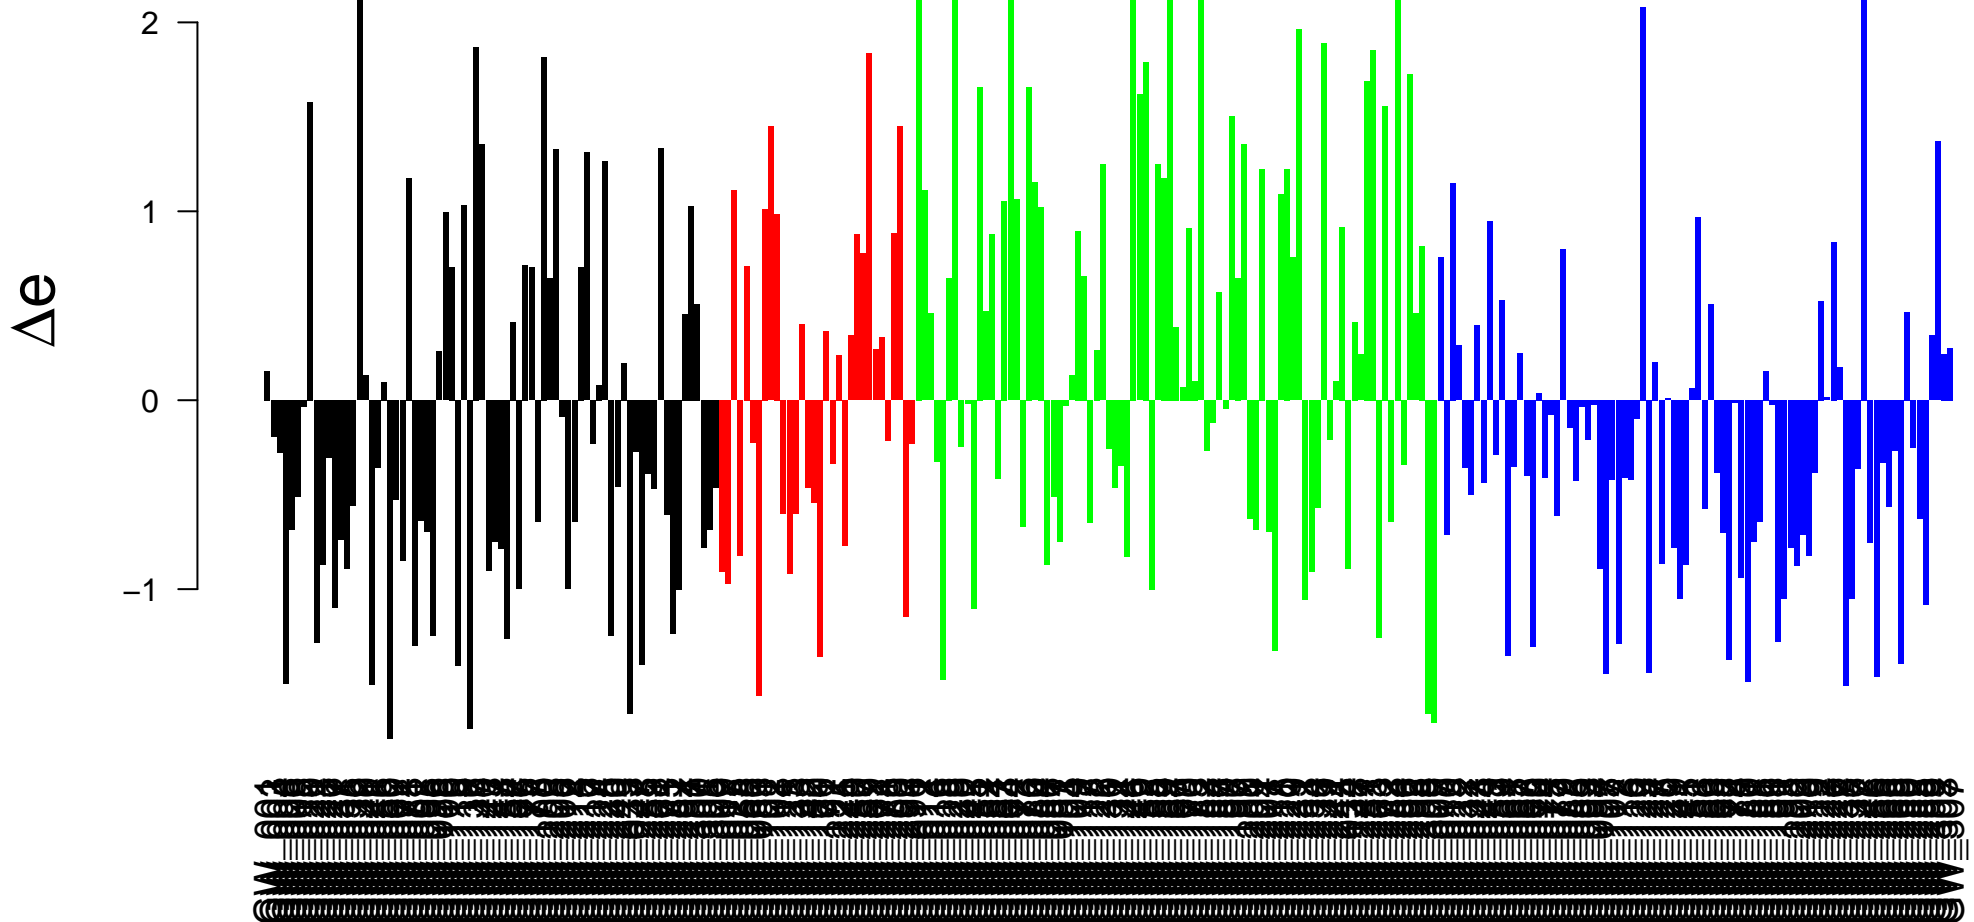

Expression of negative regulation of epithelial to mesenchymal transition in Spot J

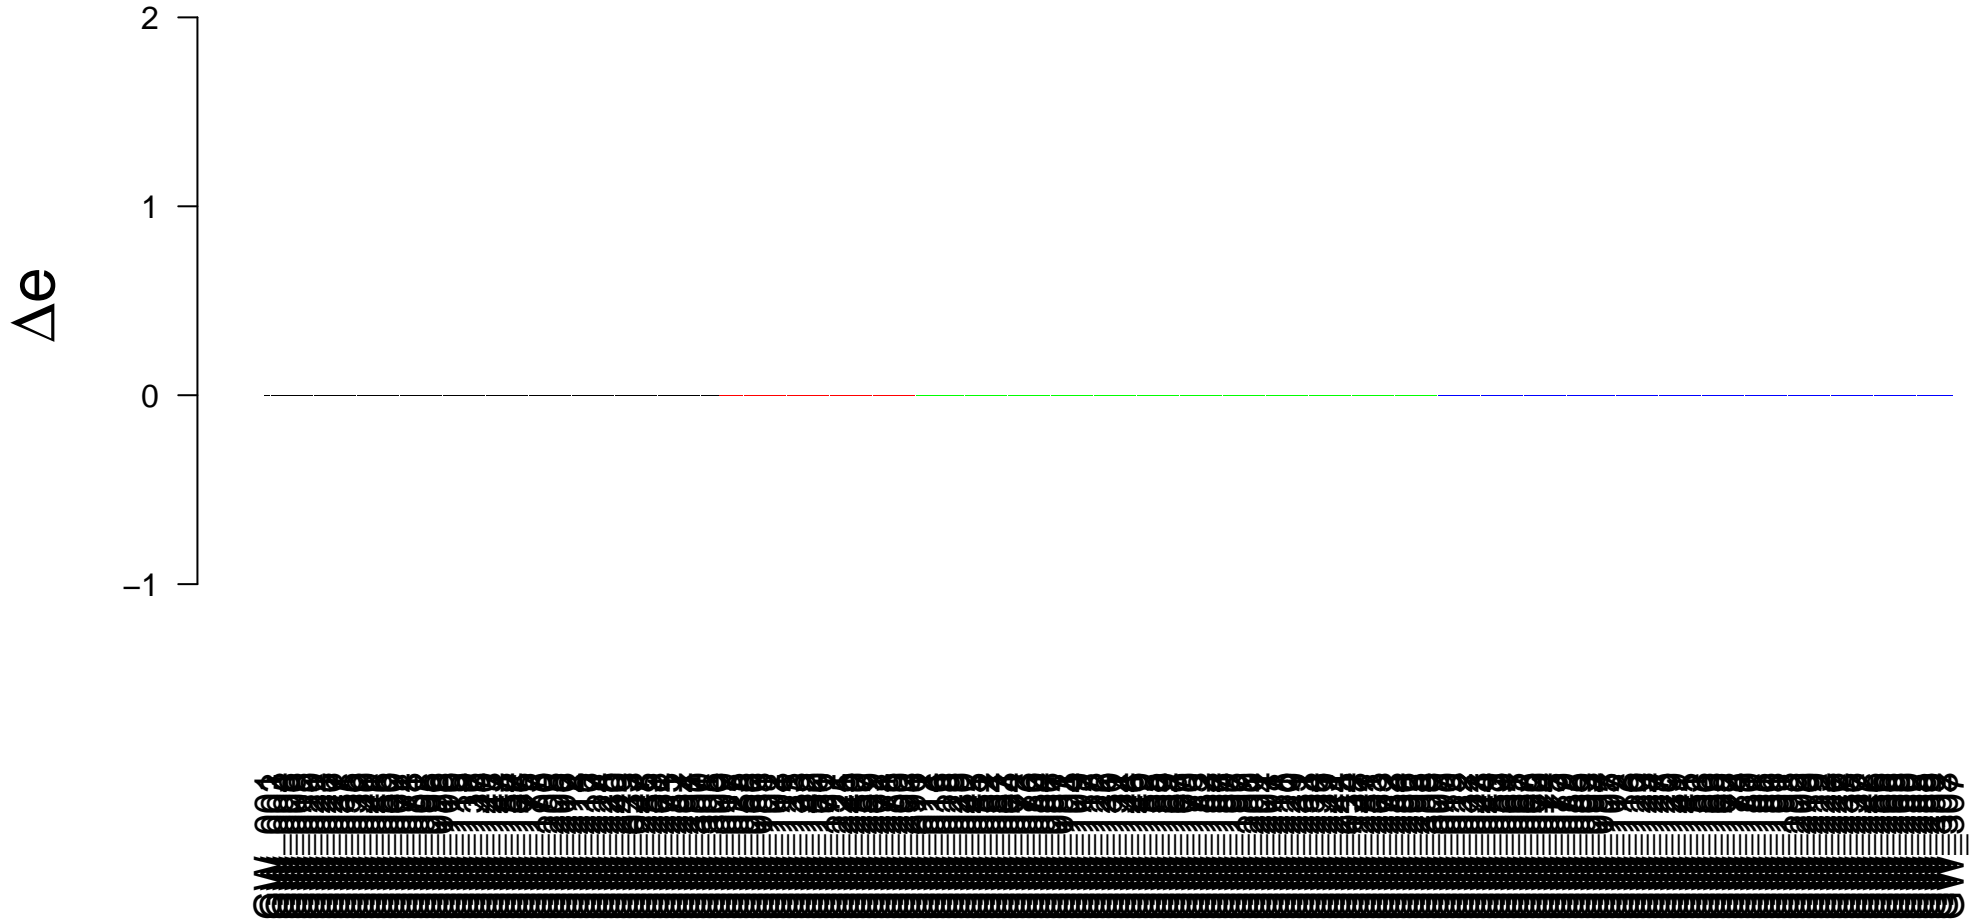

Expression of negative regulation of epithelial to mesenchymal transition in Spot K

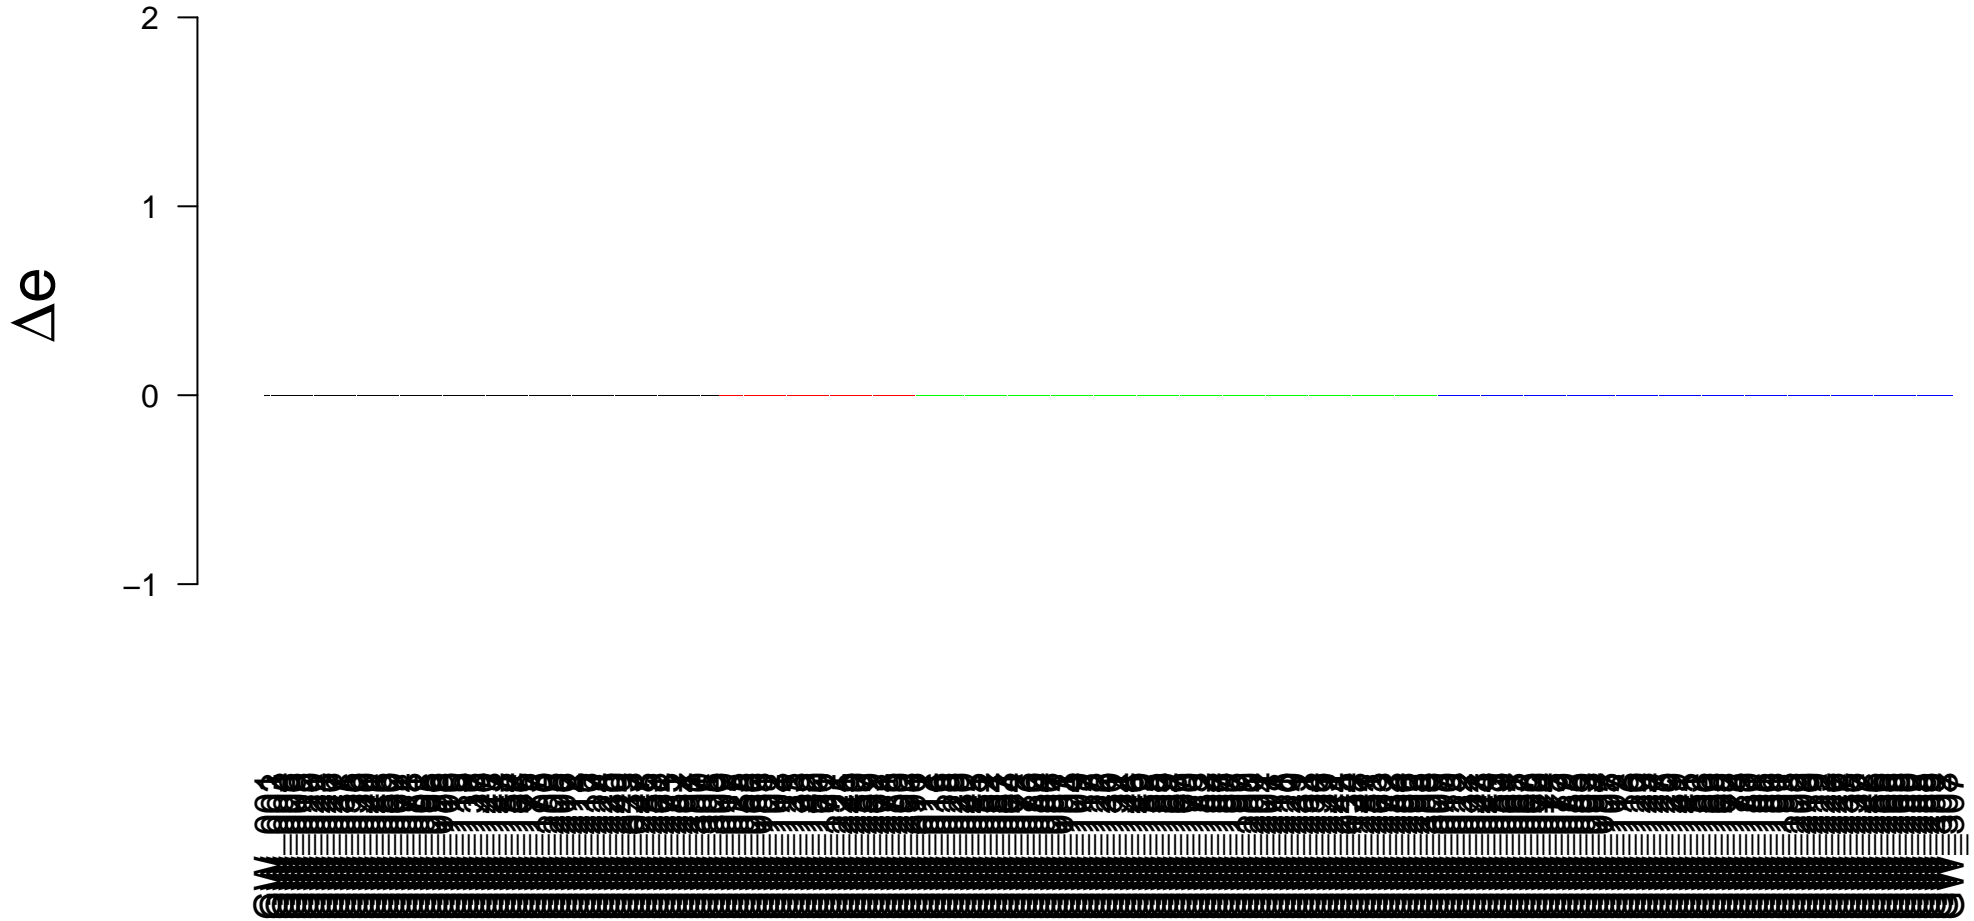

Expression of negative regulation of epithelial to mesenchymal transition in Spot L

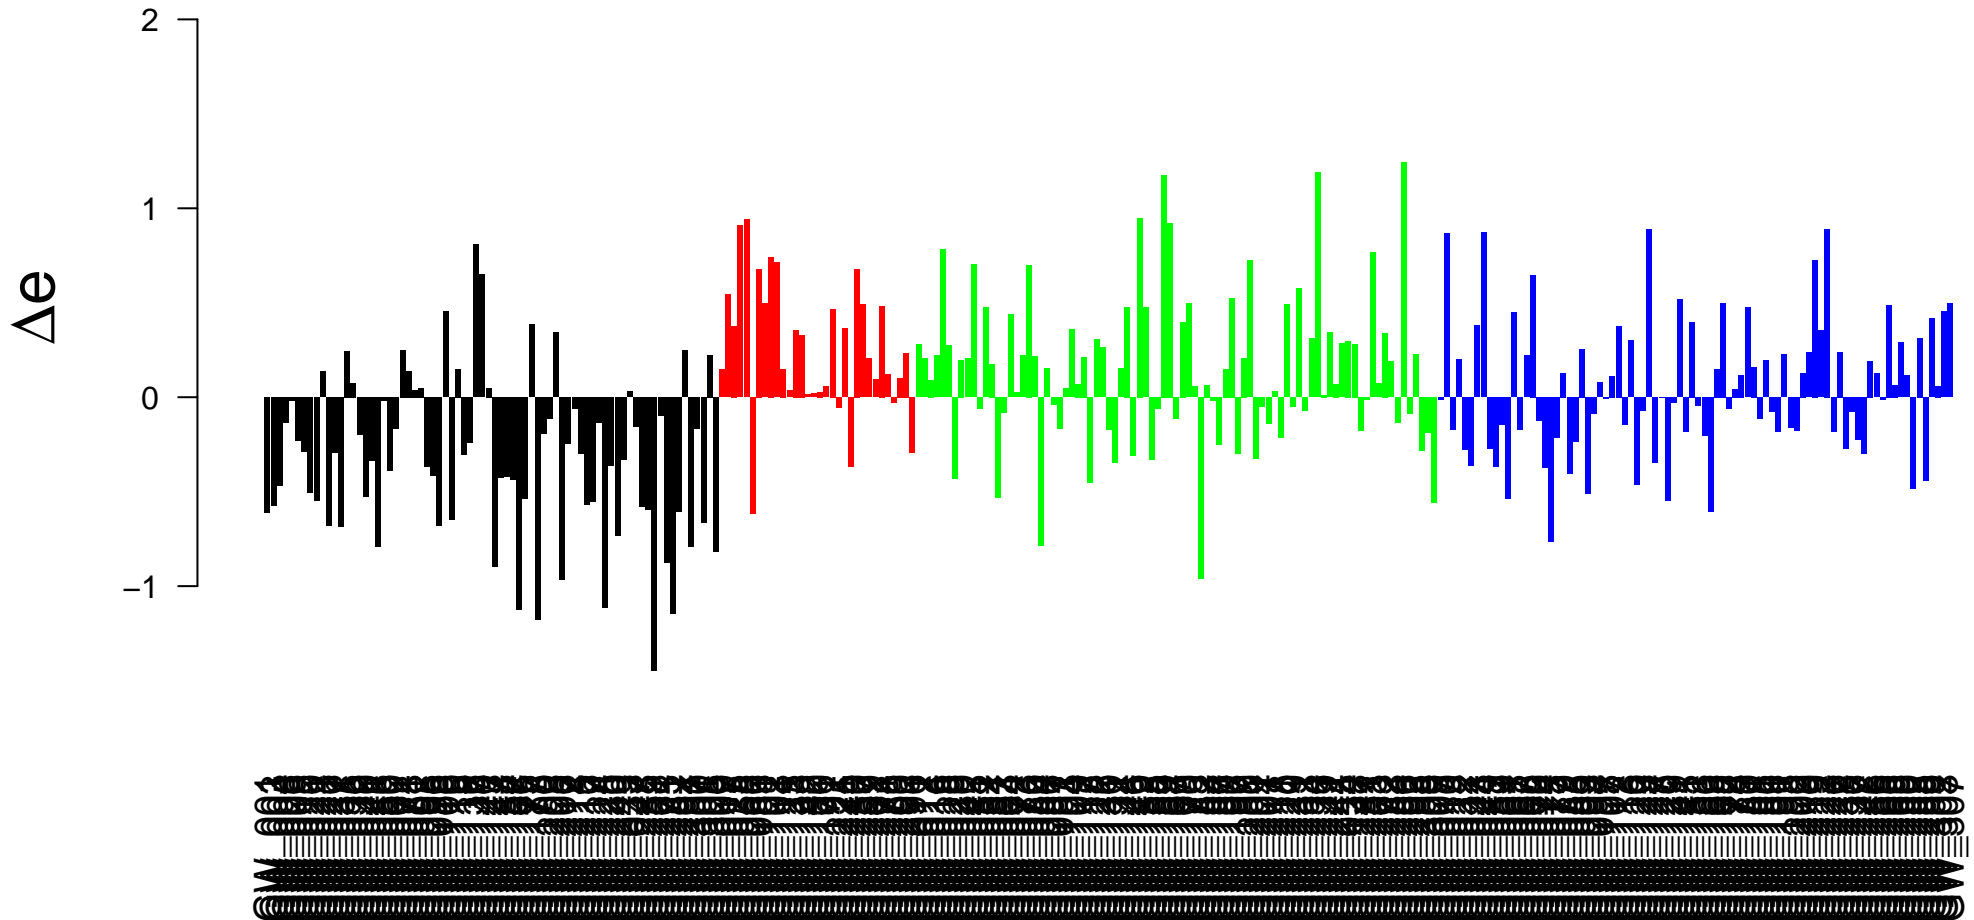

Expression of negative regulation of epithelial to mesenchymal transition in Spot M

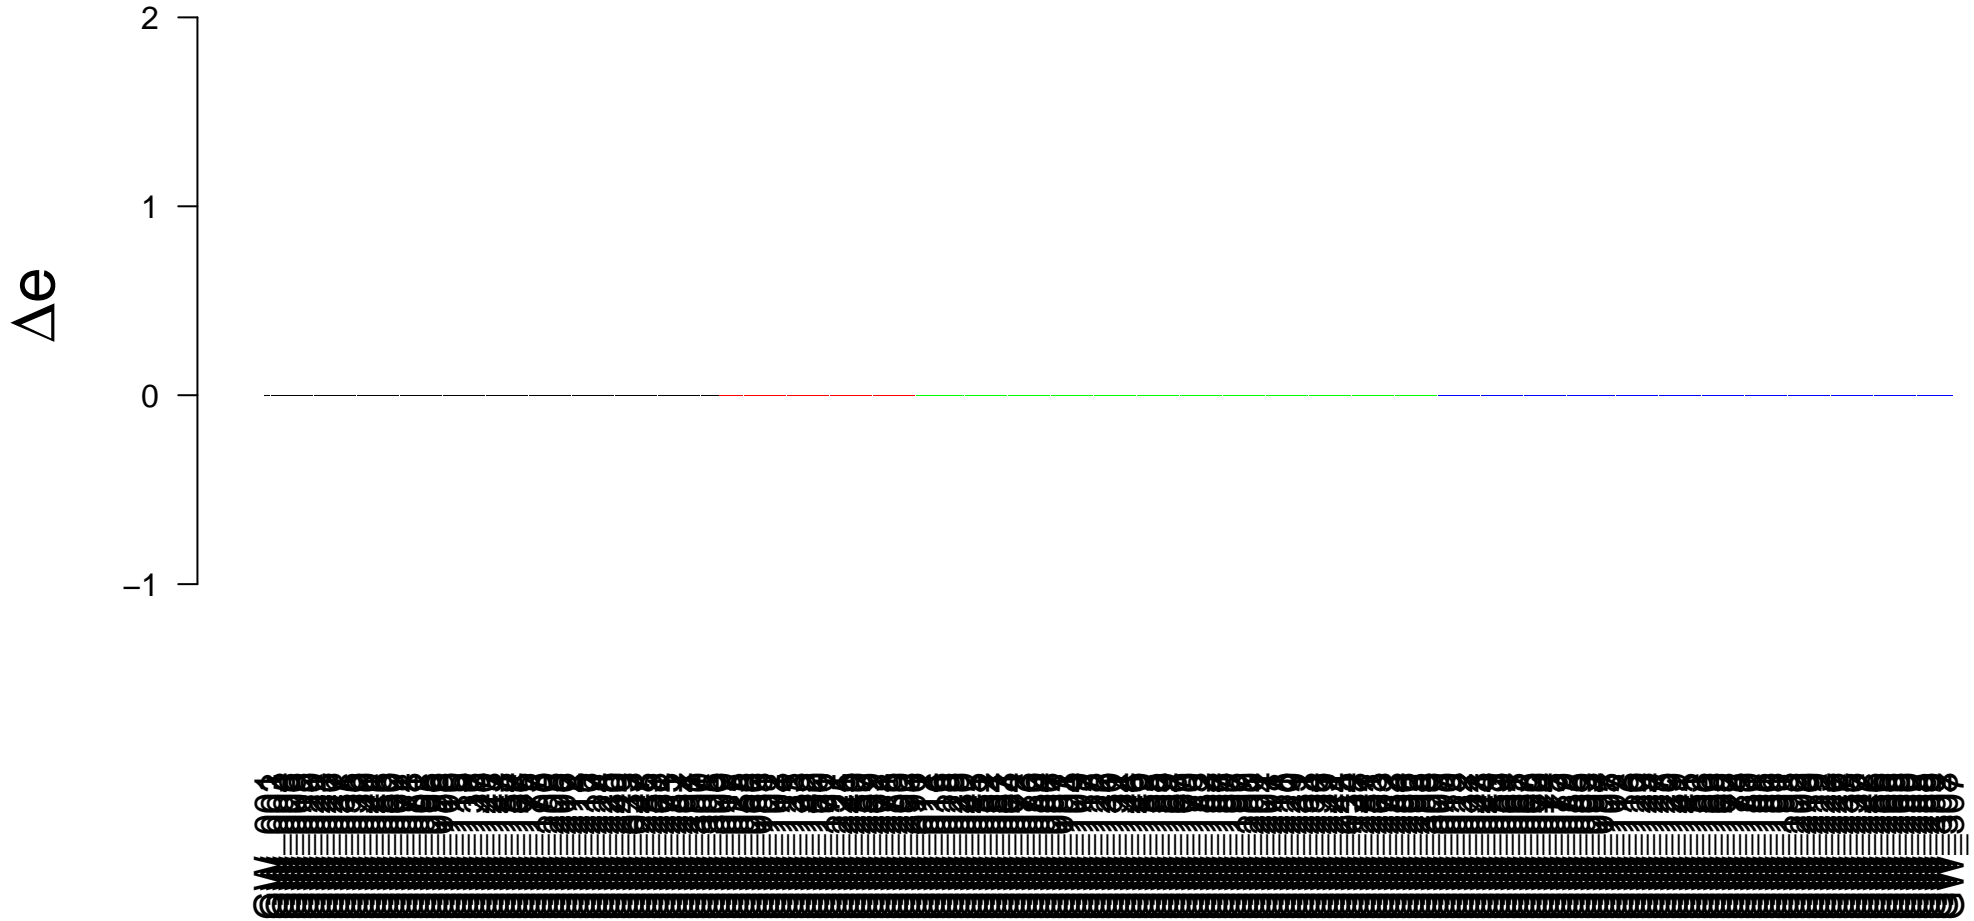

Expression of negative regulation of epithelial to mesenchymal transition in Spot N

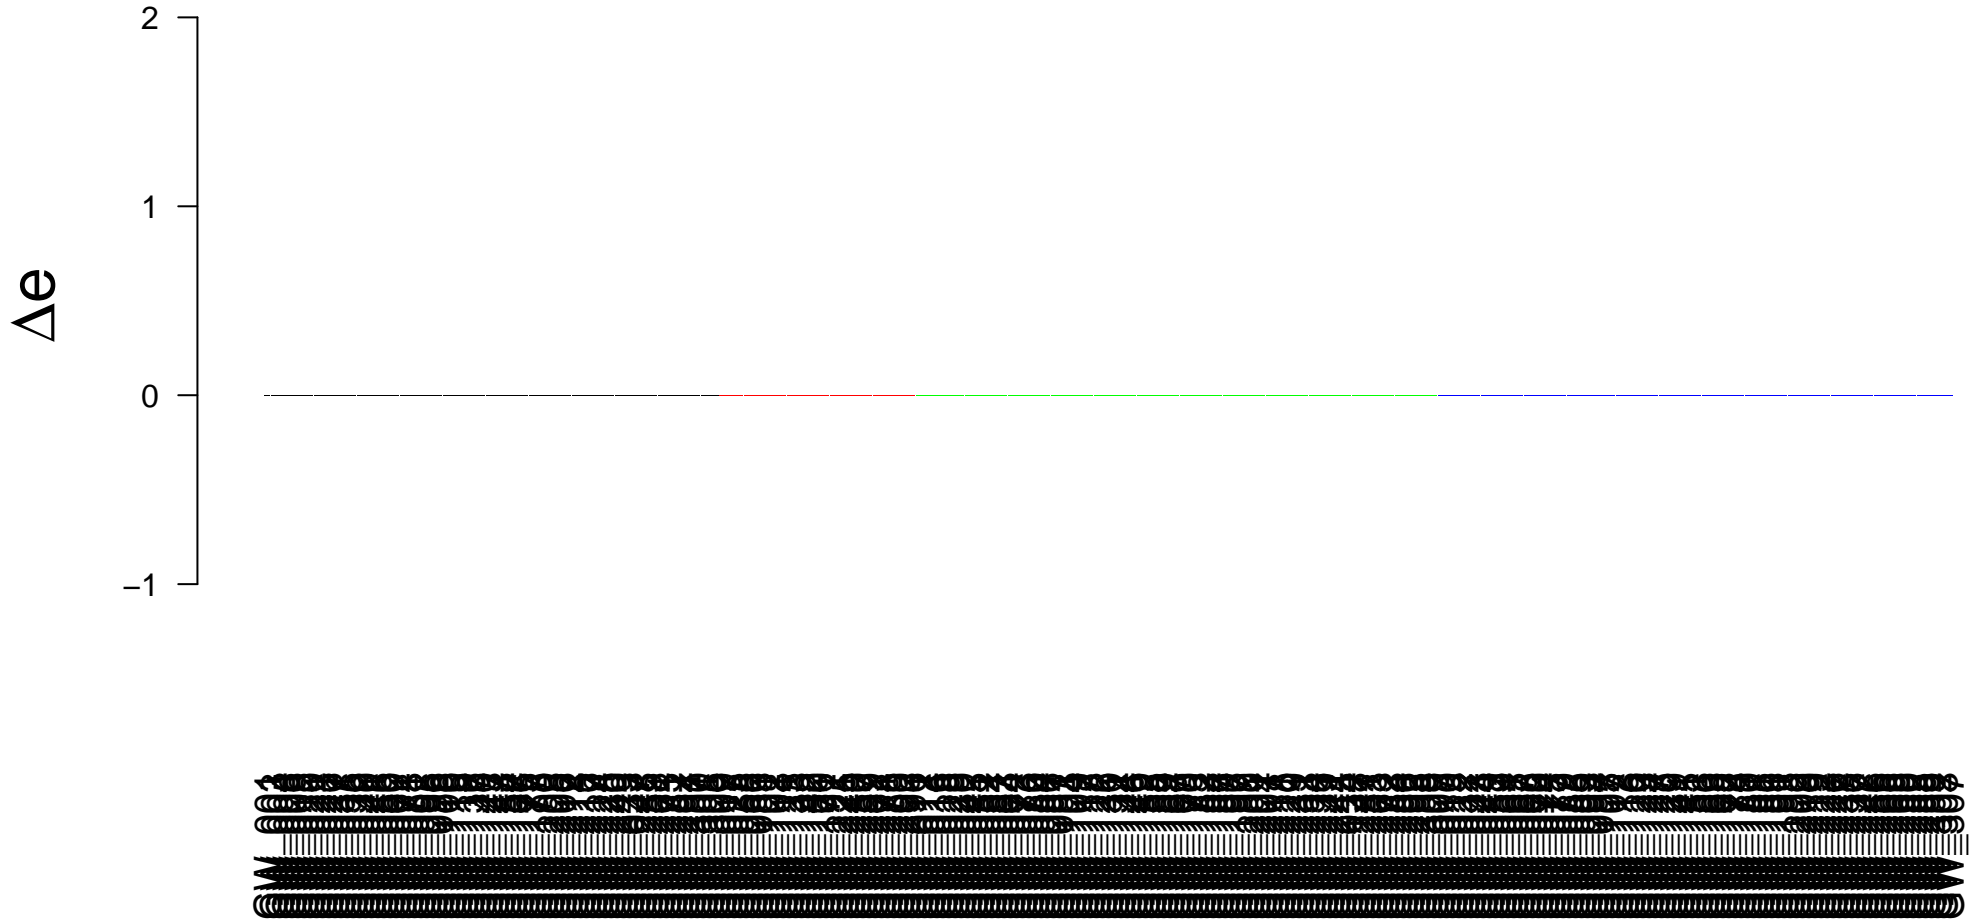

Expression of negative regulation of epithelial to mesenchymal transition in Spot O

Expression of negative regulation of epithelial to mesenchymal transition in Spot P

Expression of negative regulation of epithelial to mesenchymal transition in Spot Q

Expression of negative regulation of epithelial to mesenchymal transition in Spot R
