

negative regulation of intrinsic apoptotic signaling pathway in response to DNA damage

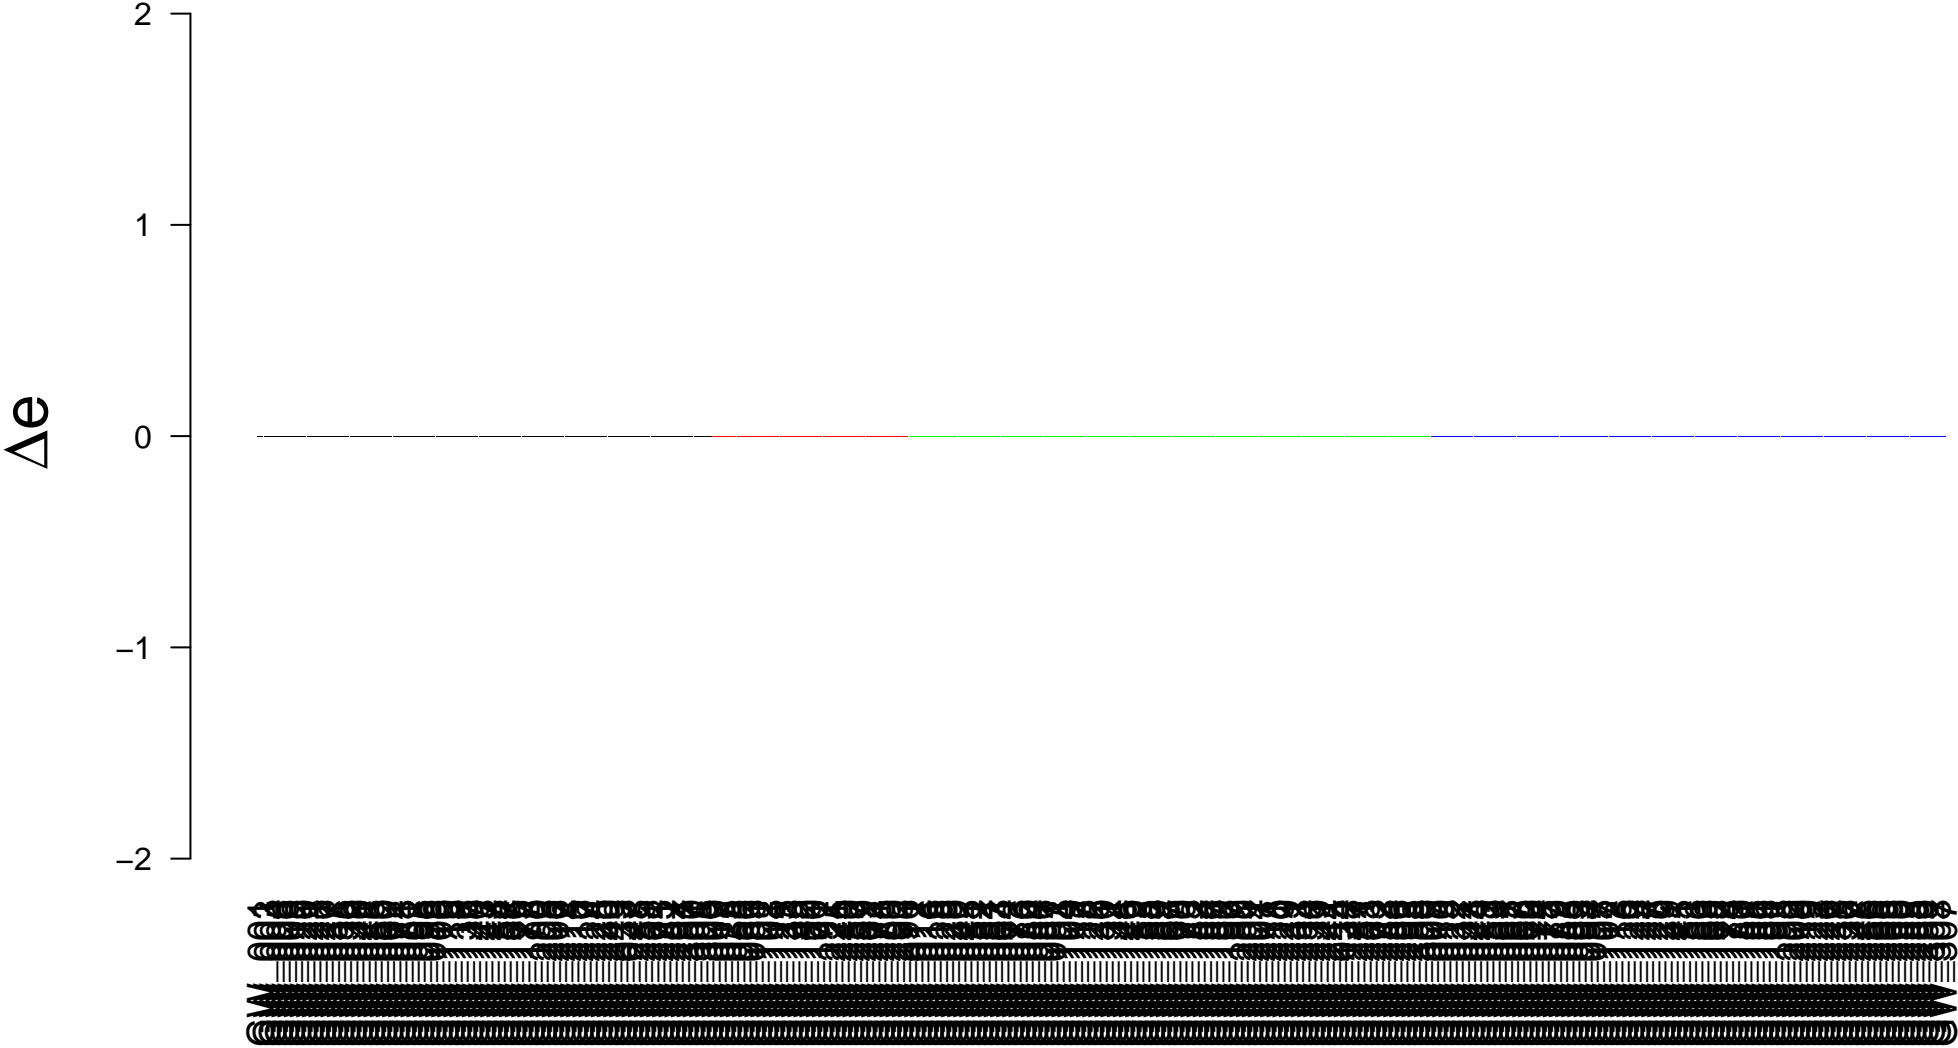

negative regulation of intrinsic apoptotic signaling pathway in response to DNA damage

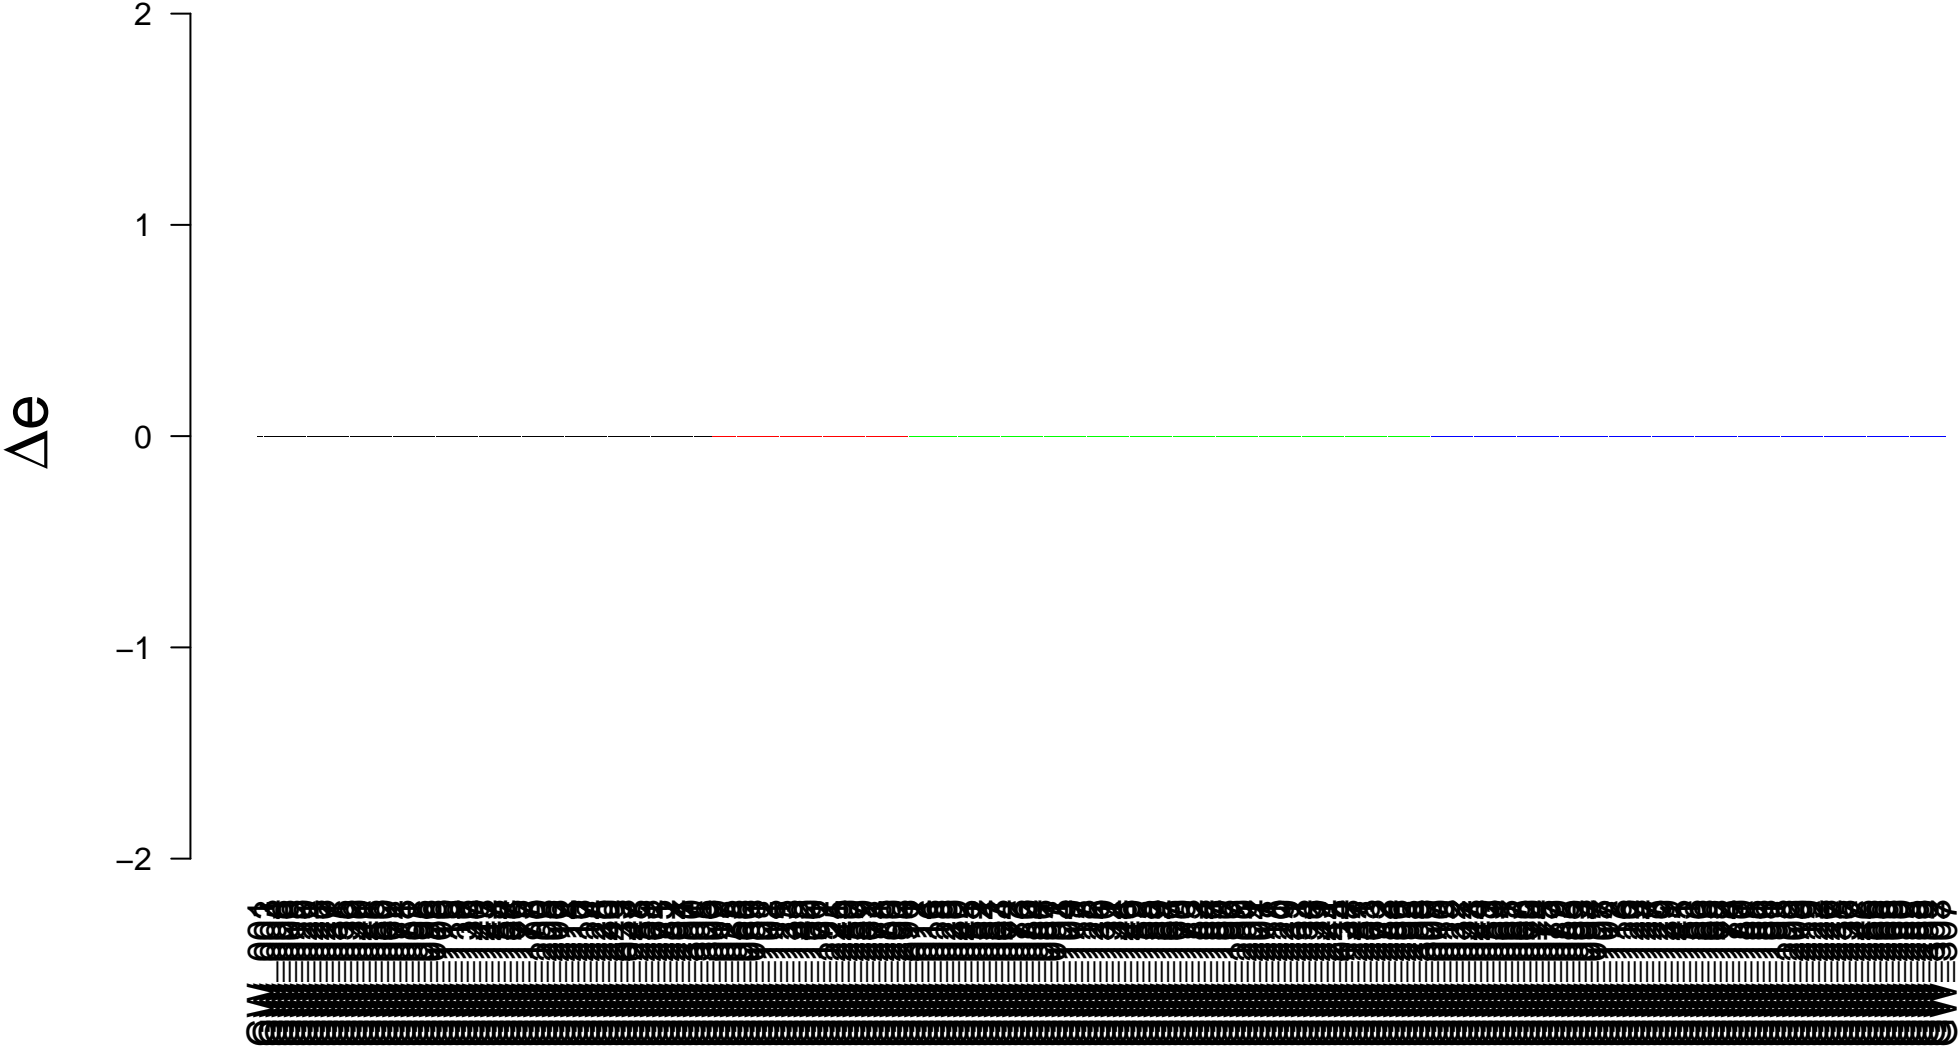

Enrichment in spots: negative regulation of intrinsic apoptotic signaling pathway in response to DNA damage

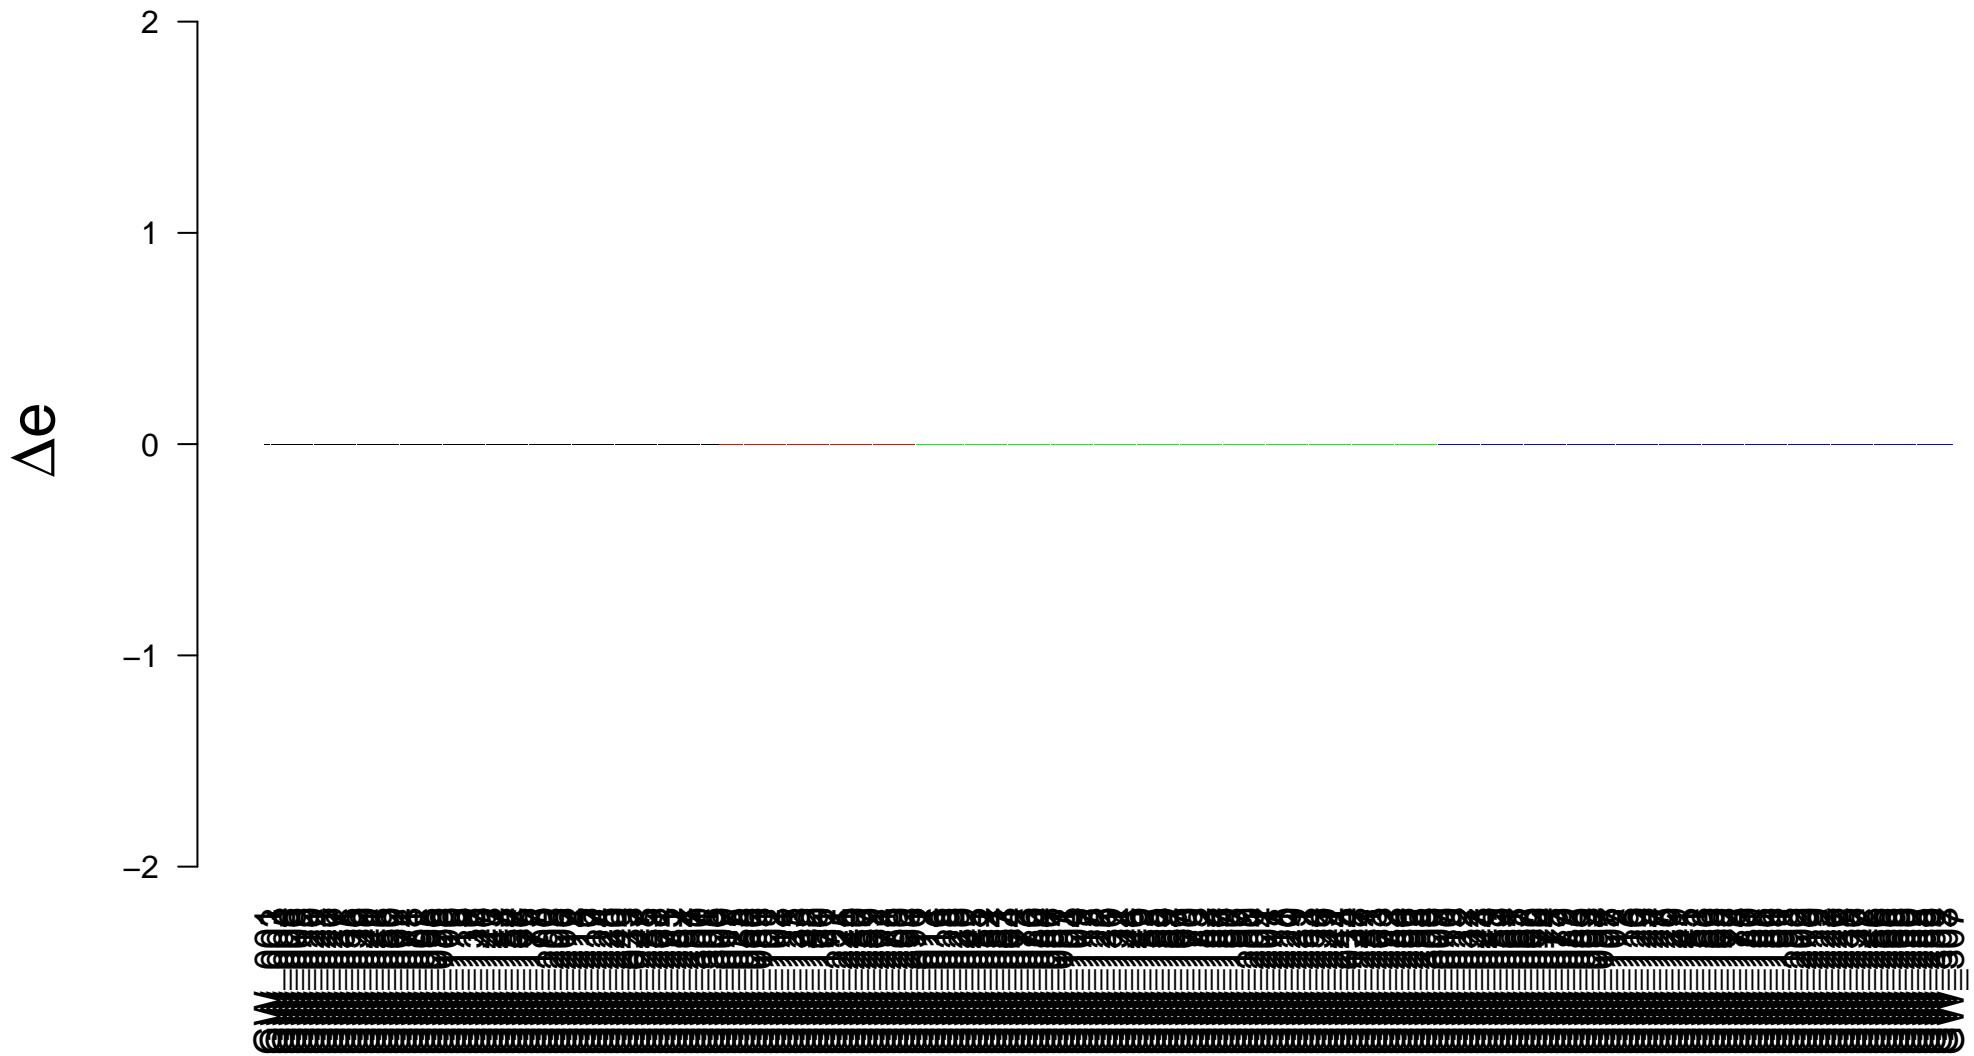

Expression of negative regulation of intrinsic apoptotic signaling pathway in response to DNA damage in Spot A

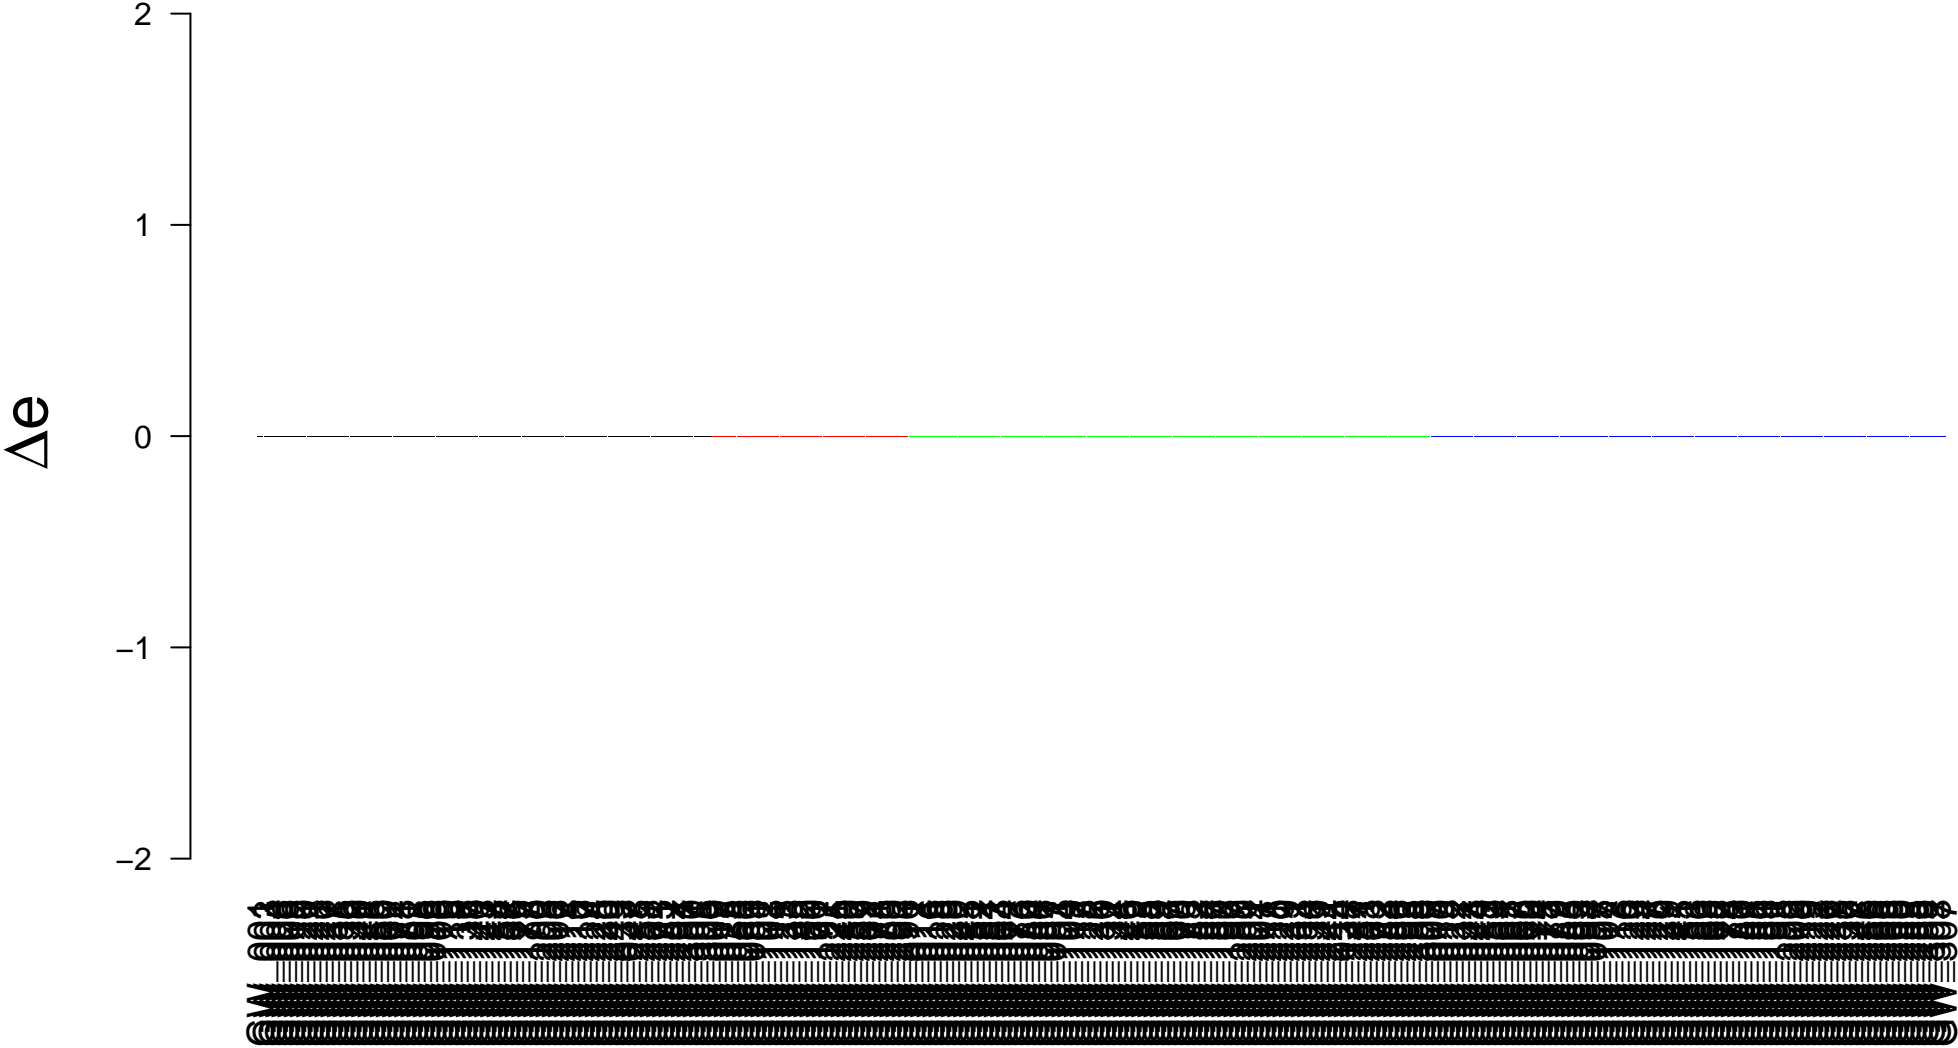

Expression of negative regulation of intrinsic apoptotic signaling pathway in response to DNA damage in Spot B

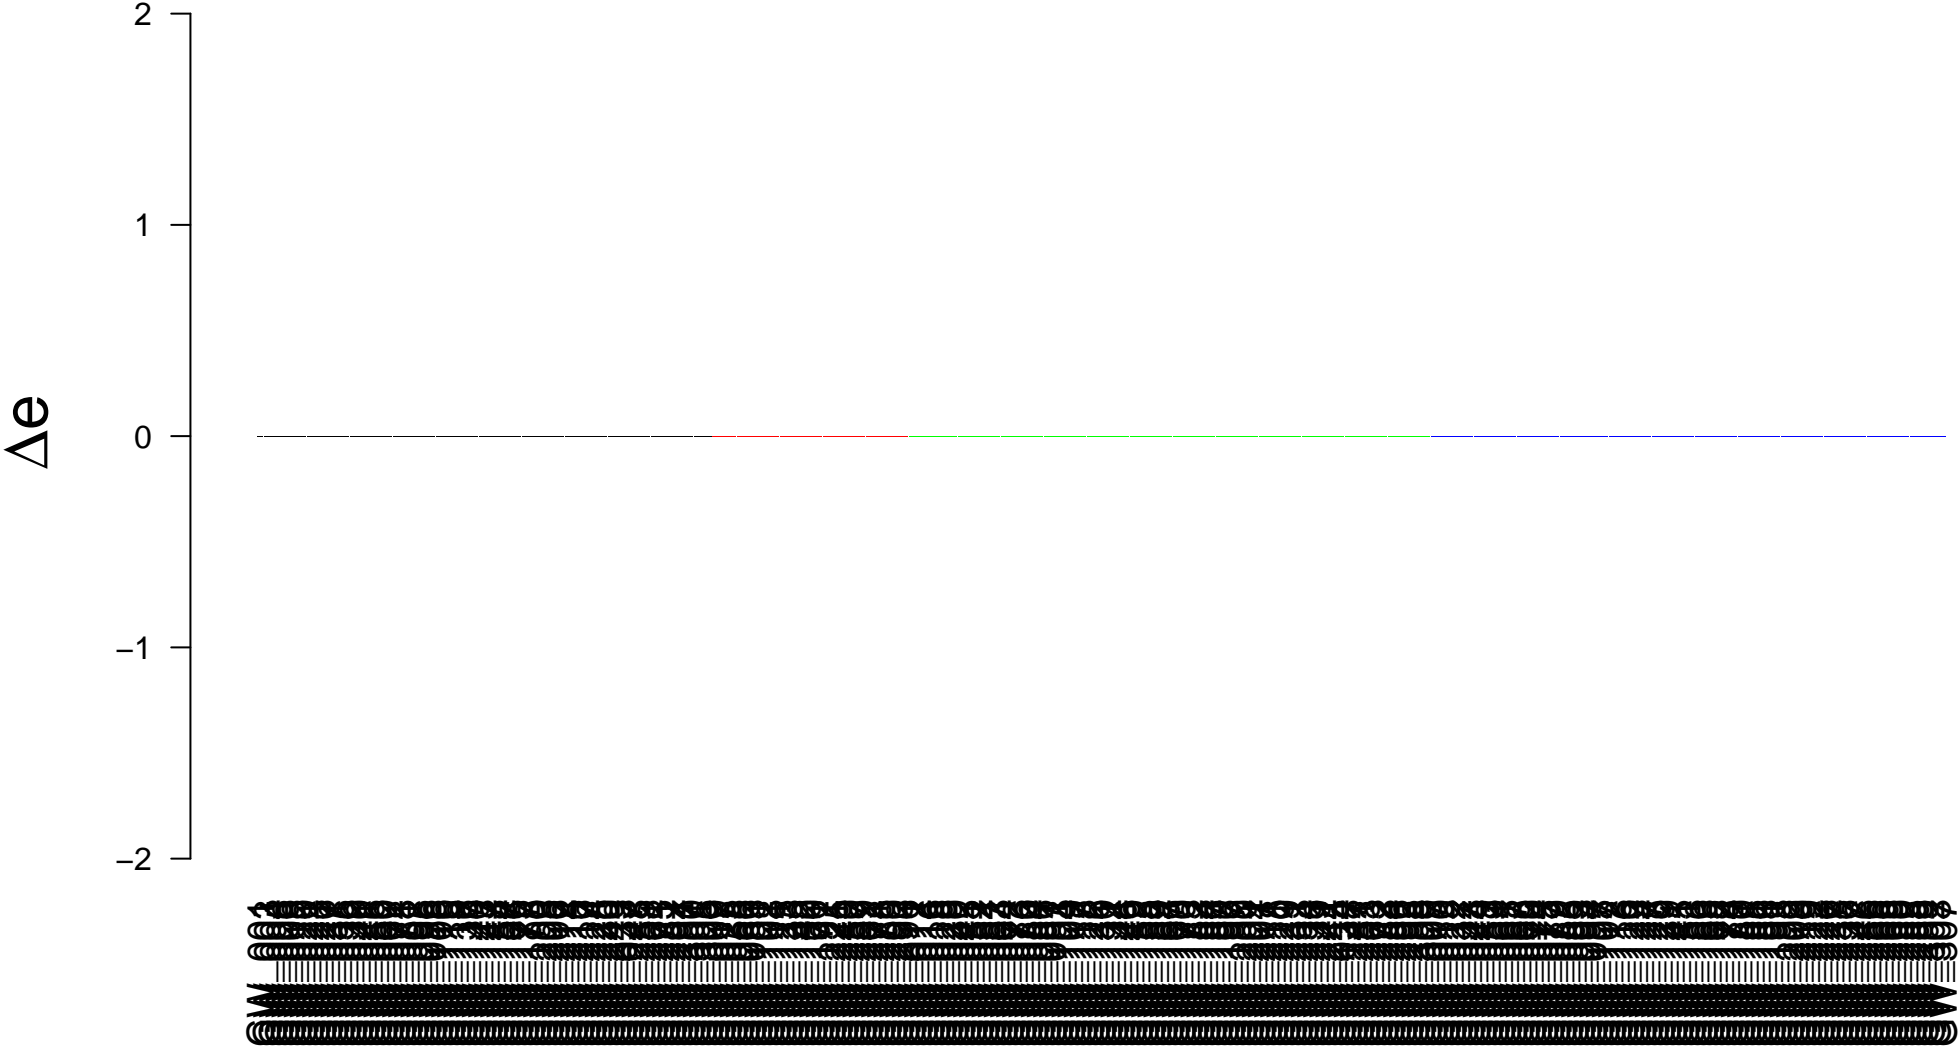

Expression of negative regulation of intrinsic apoptotic signaling pathway in response to DNA damage in Spot C

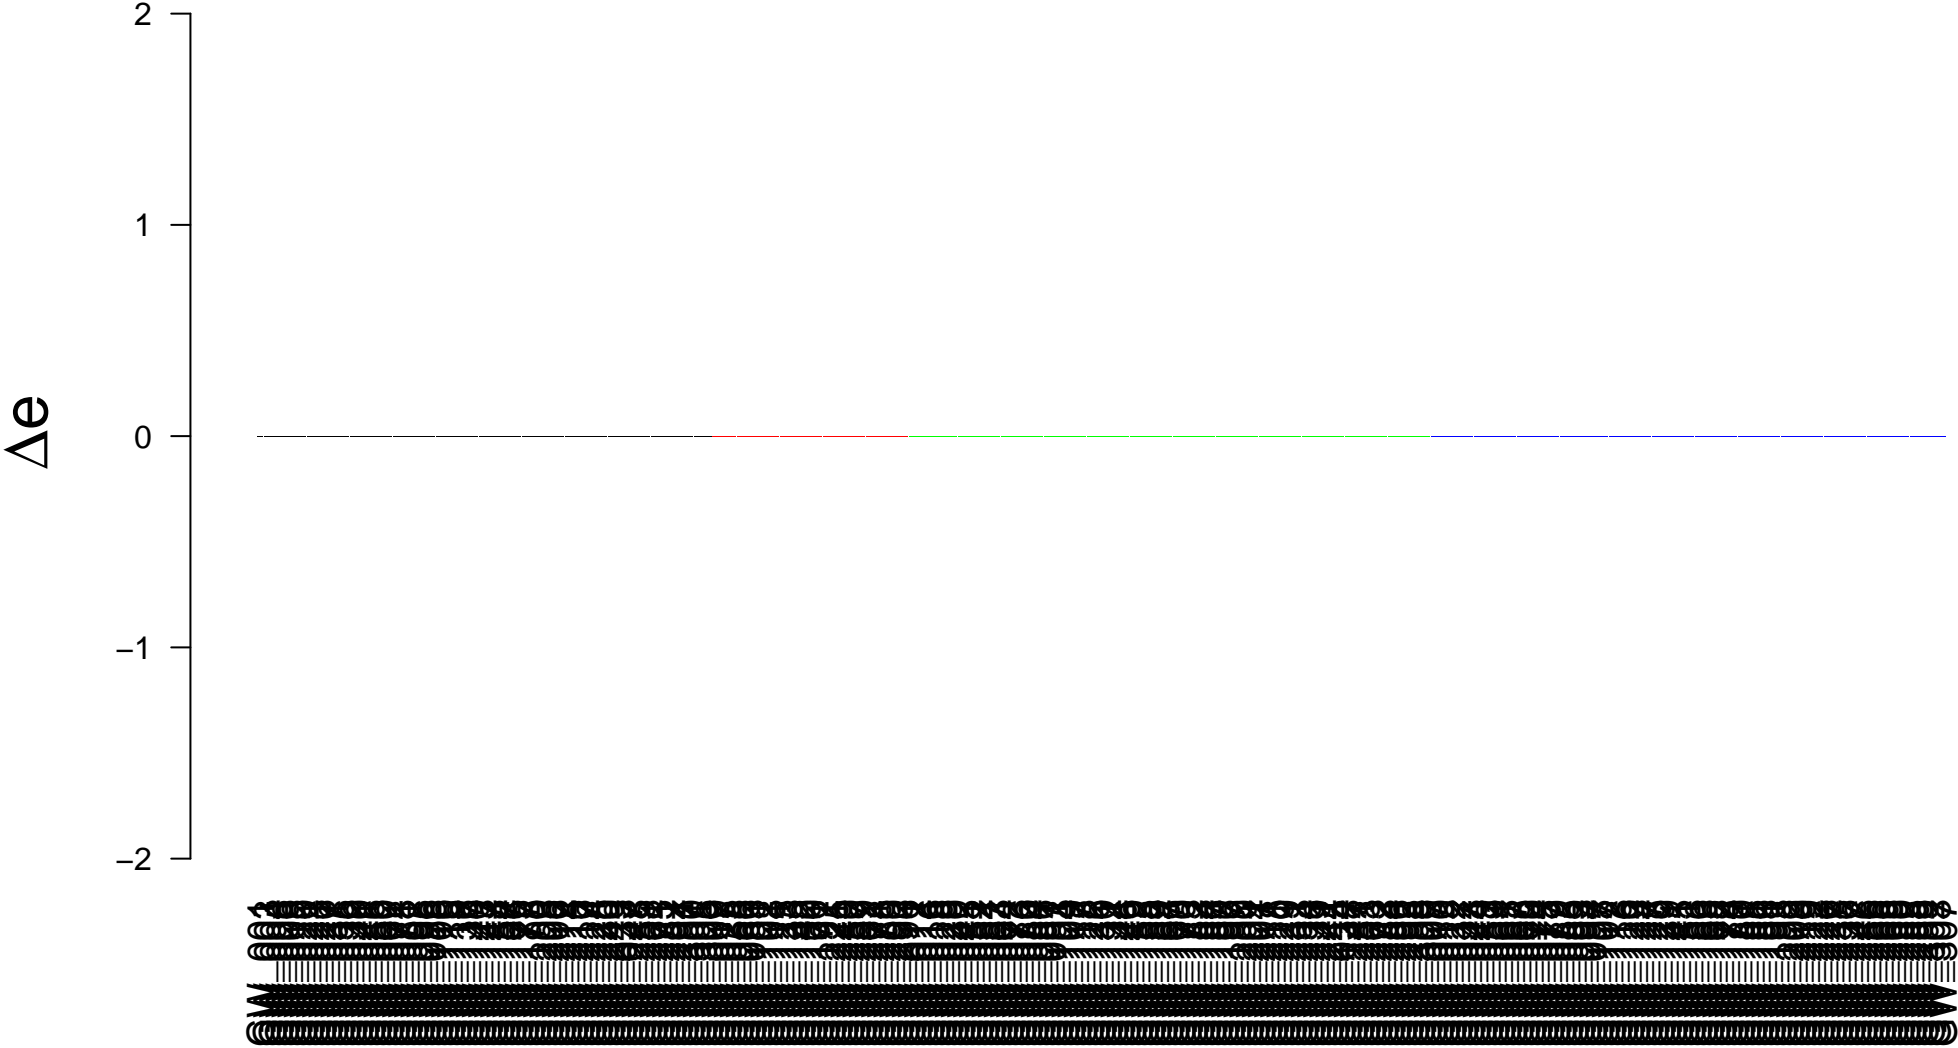

Expression of negative regulation of intrinsic apoptotic signaling pathway in response to DNA damage in Spot D

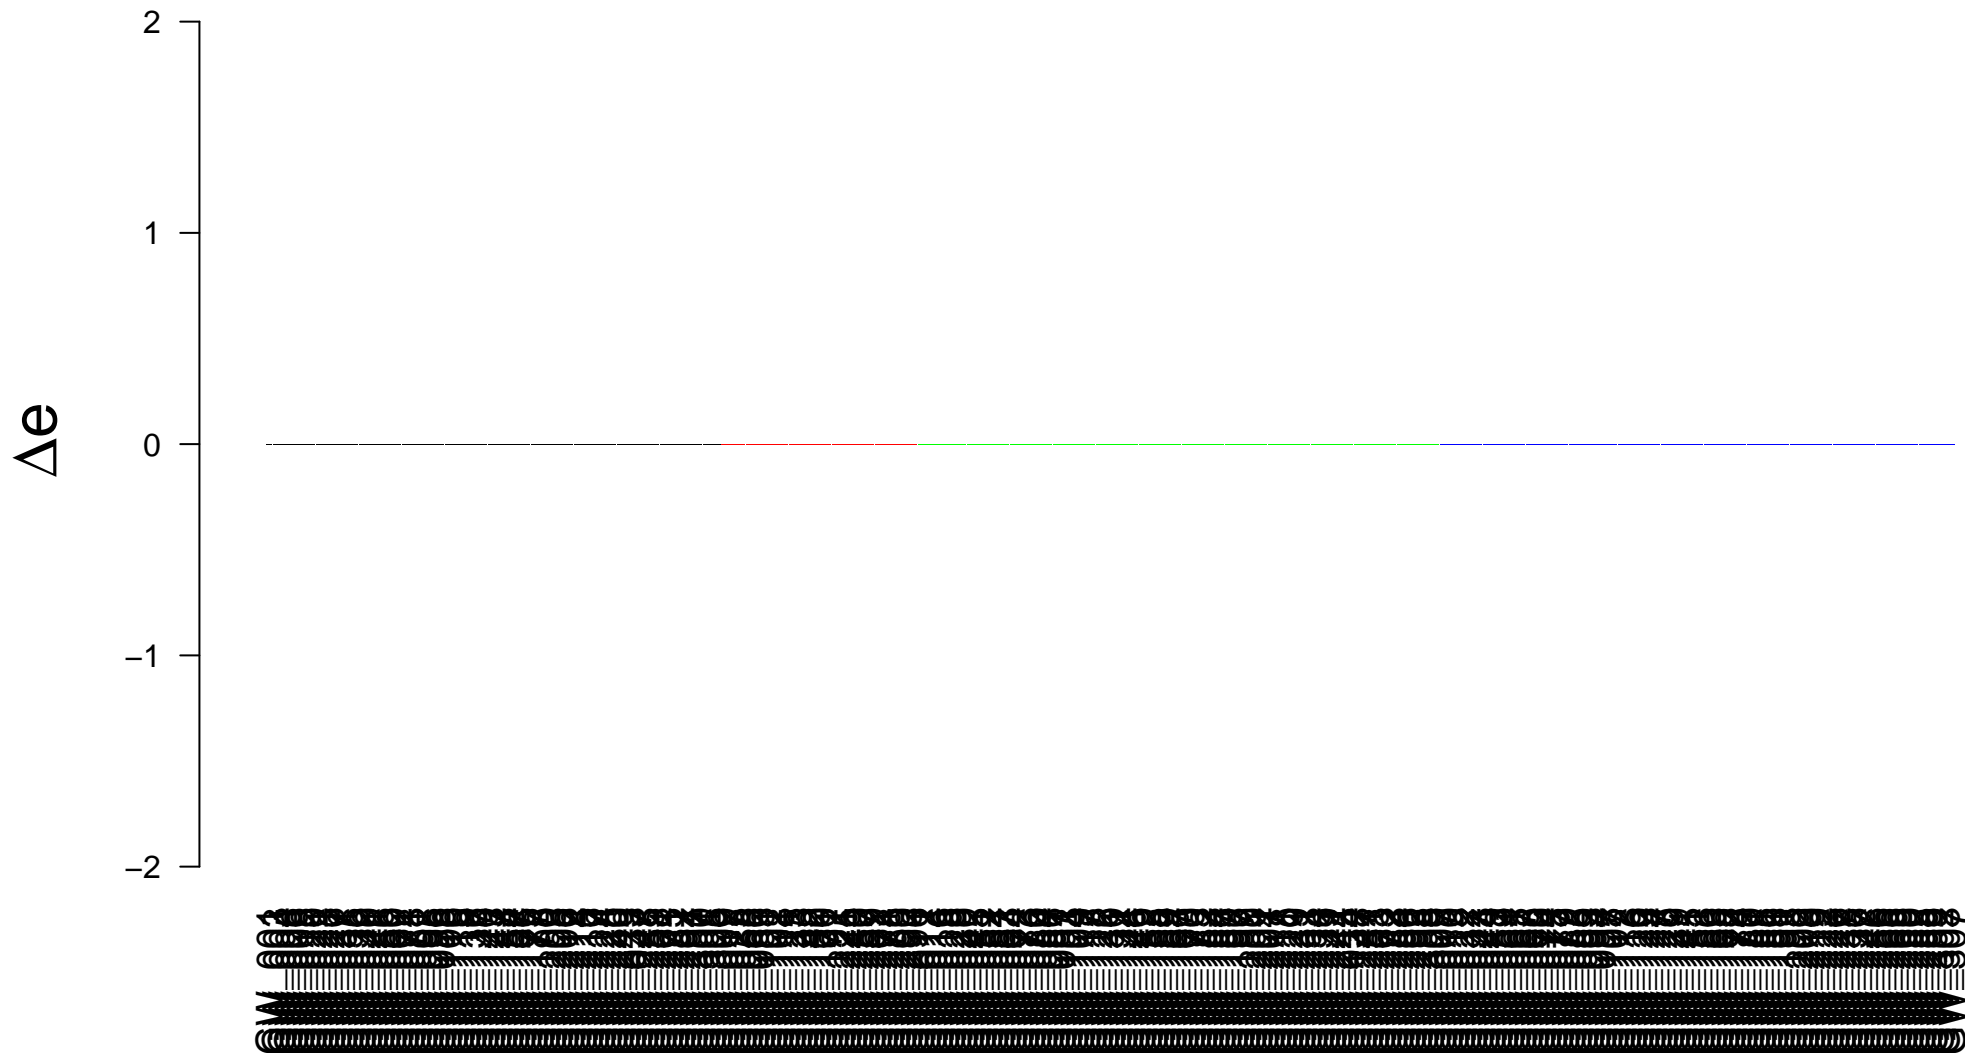

Expression of negative regulation of intrinsic apoptotic signaling pathway in response to DNA damage in Spot E

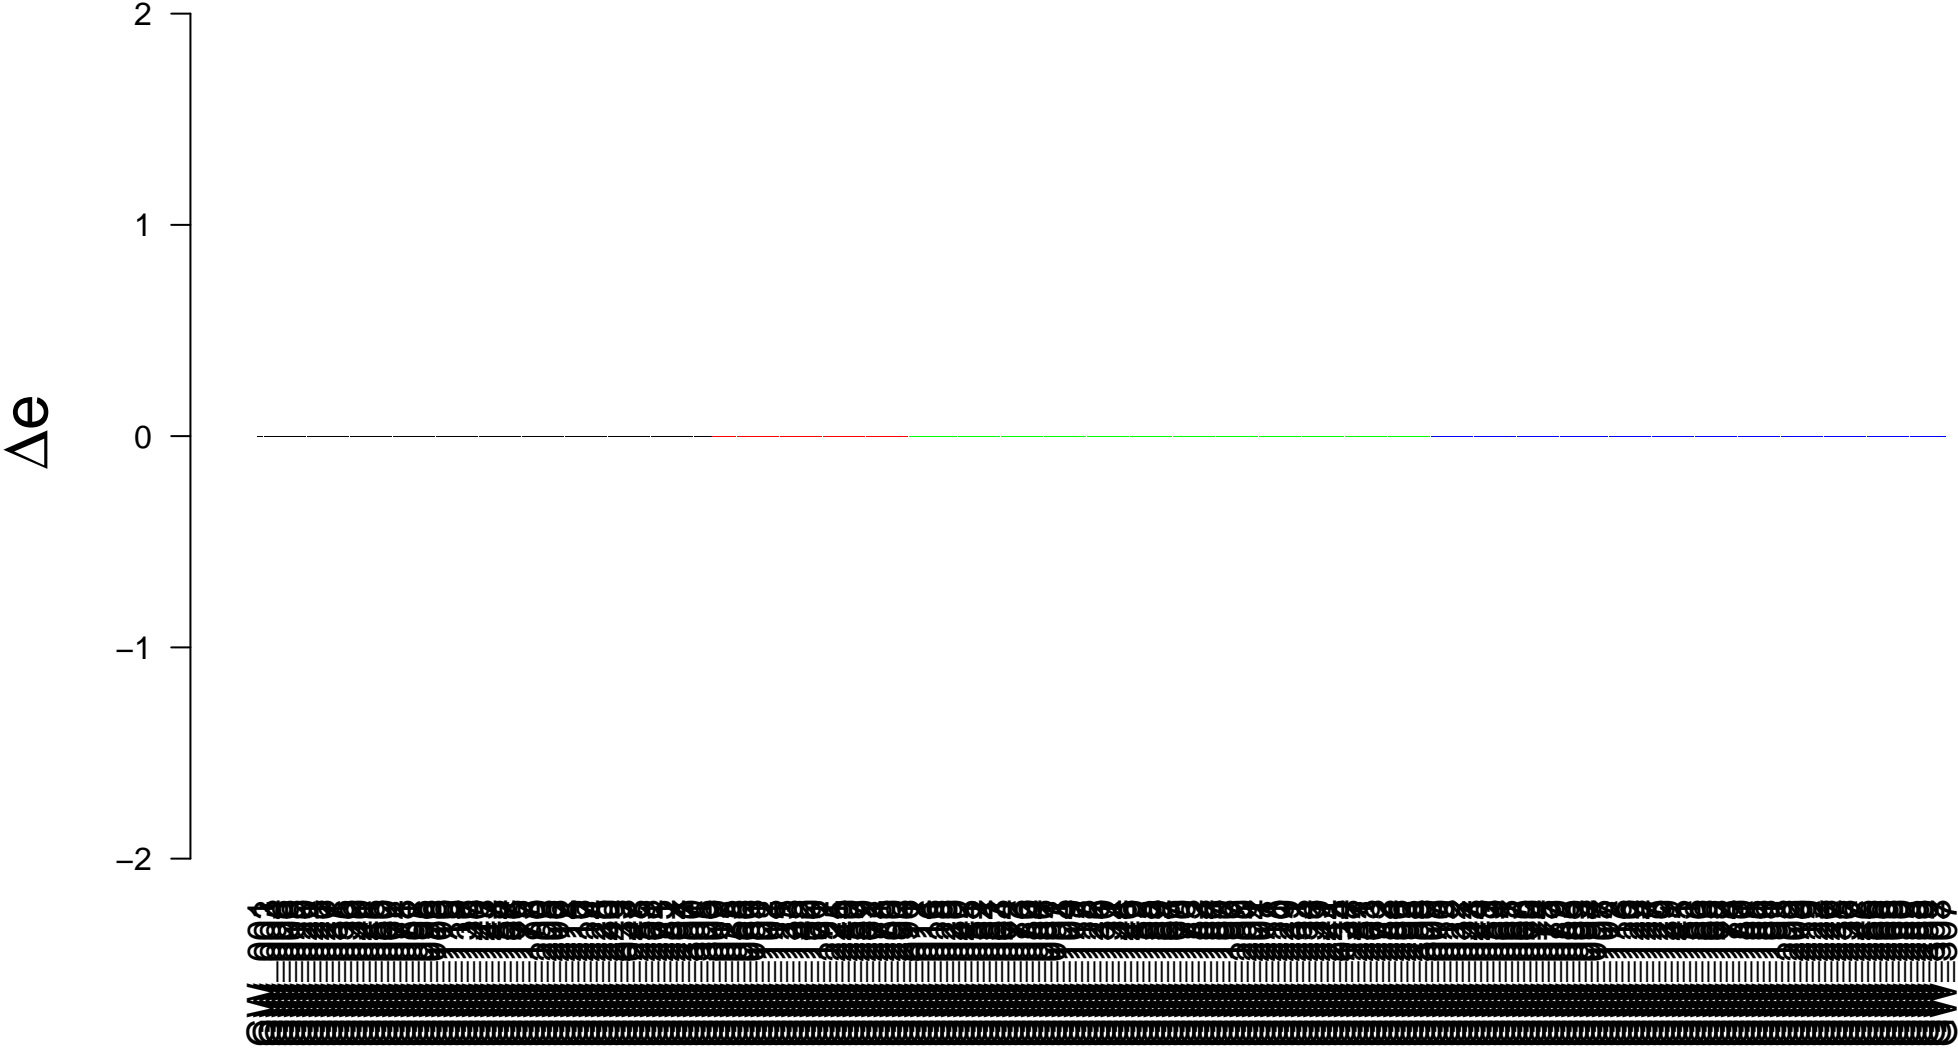

Expression of negative regulation of intrinsic apoptotic signaling pathway in response to DNA damage in Spot F

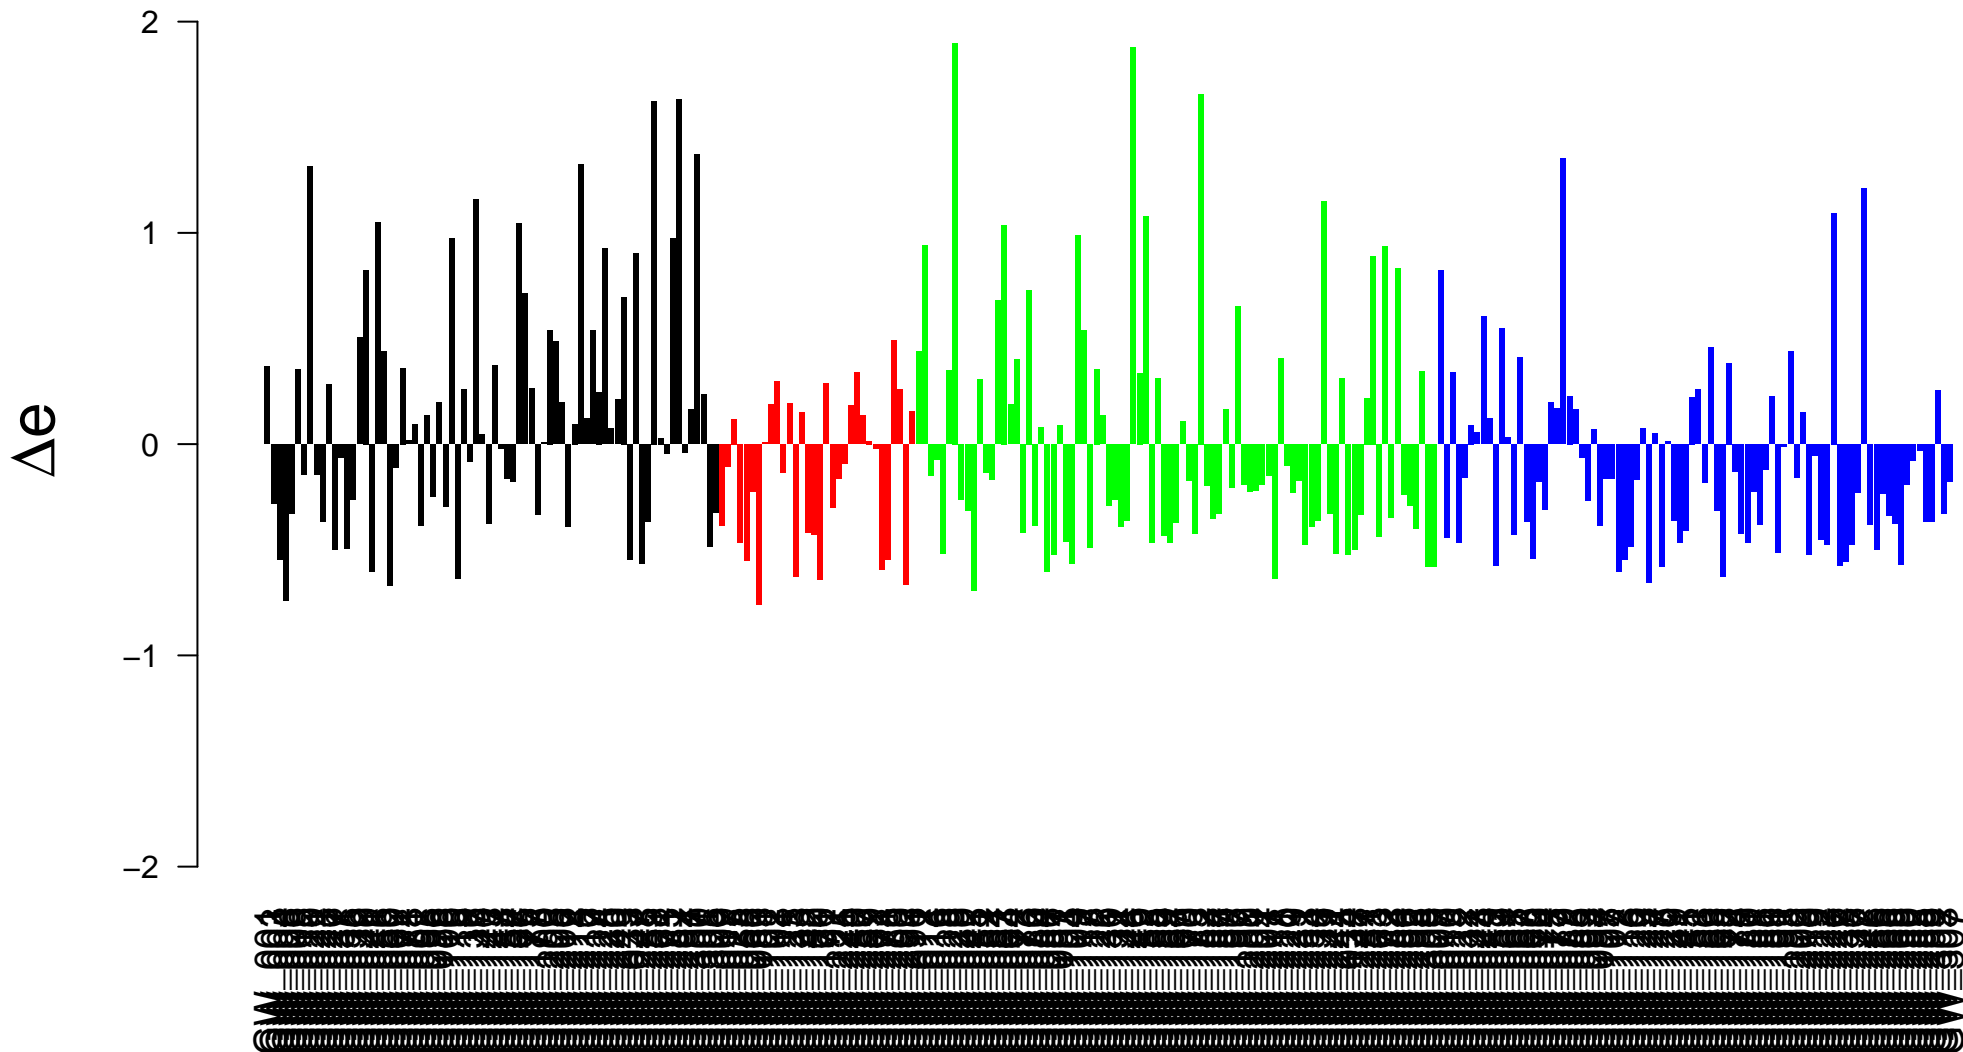

Expression of negative regulation of intrinsic apoptotic signaling pathway in response to DNA damage in Spot G

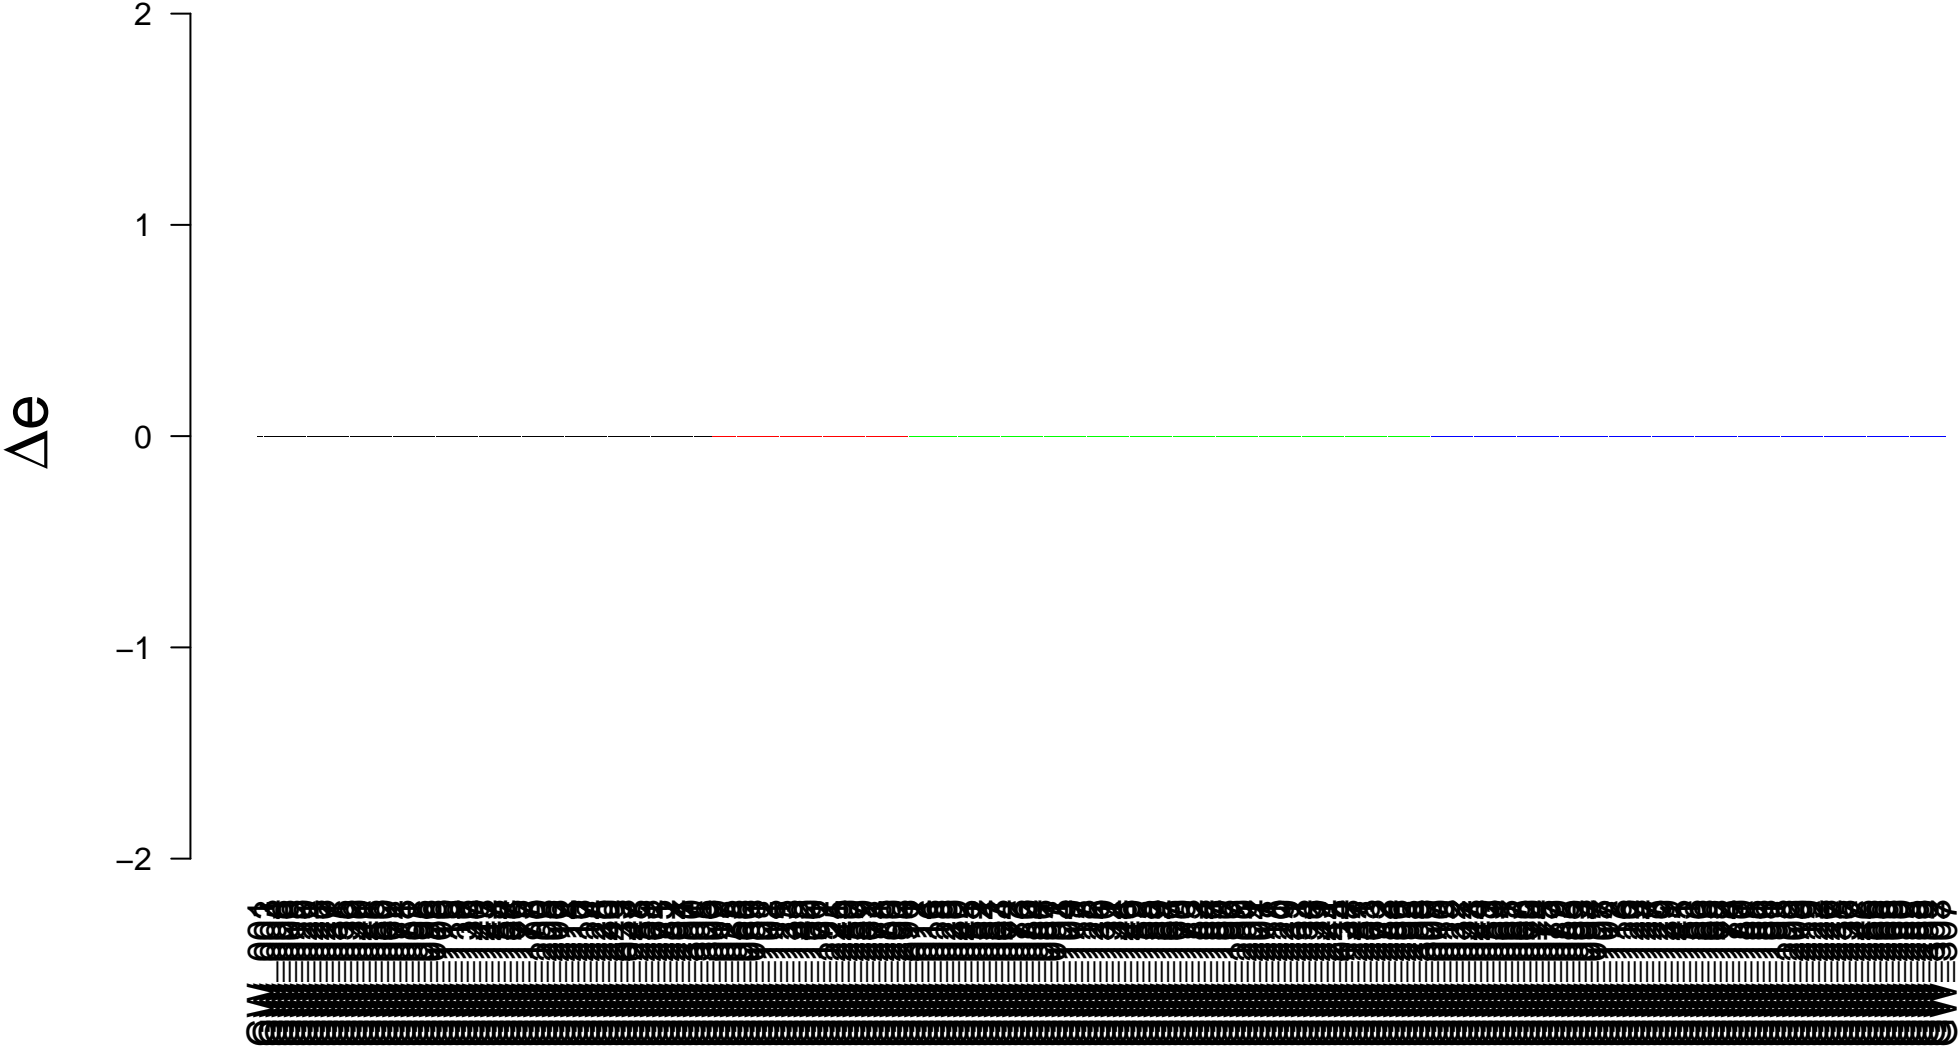

Expression of negative regulation of intrinsic apoptotic signaling pathway in response to DNA damage in Spot H

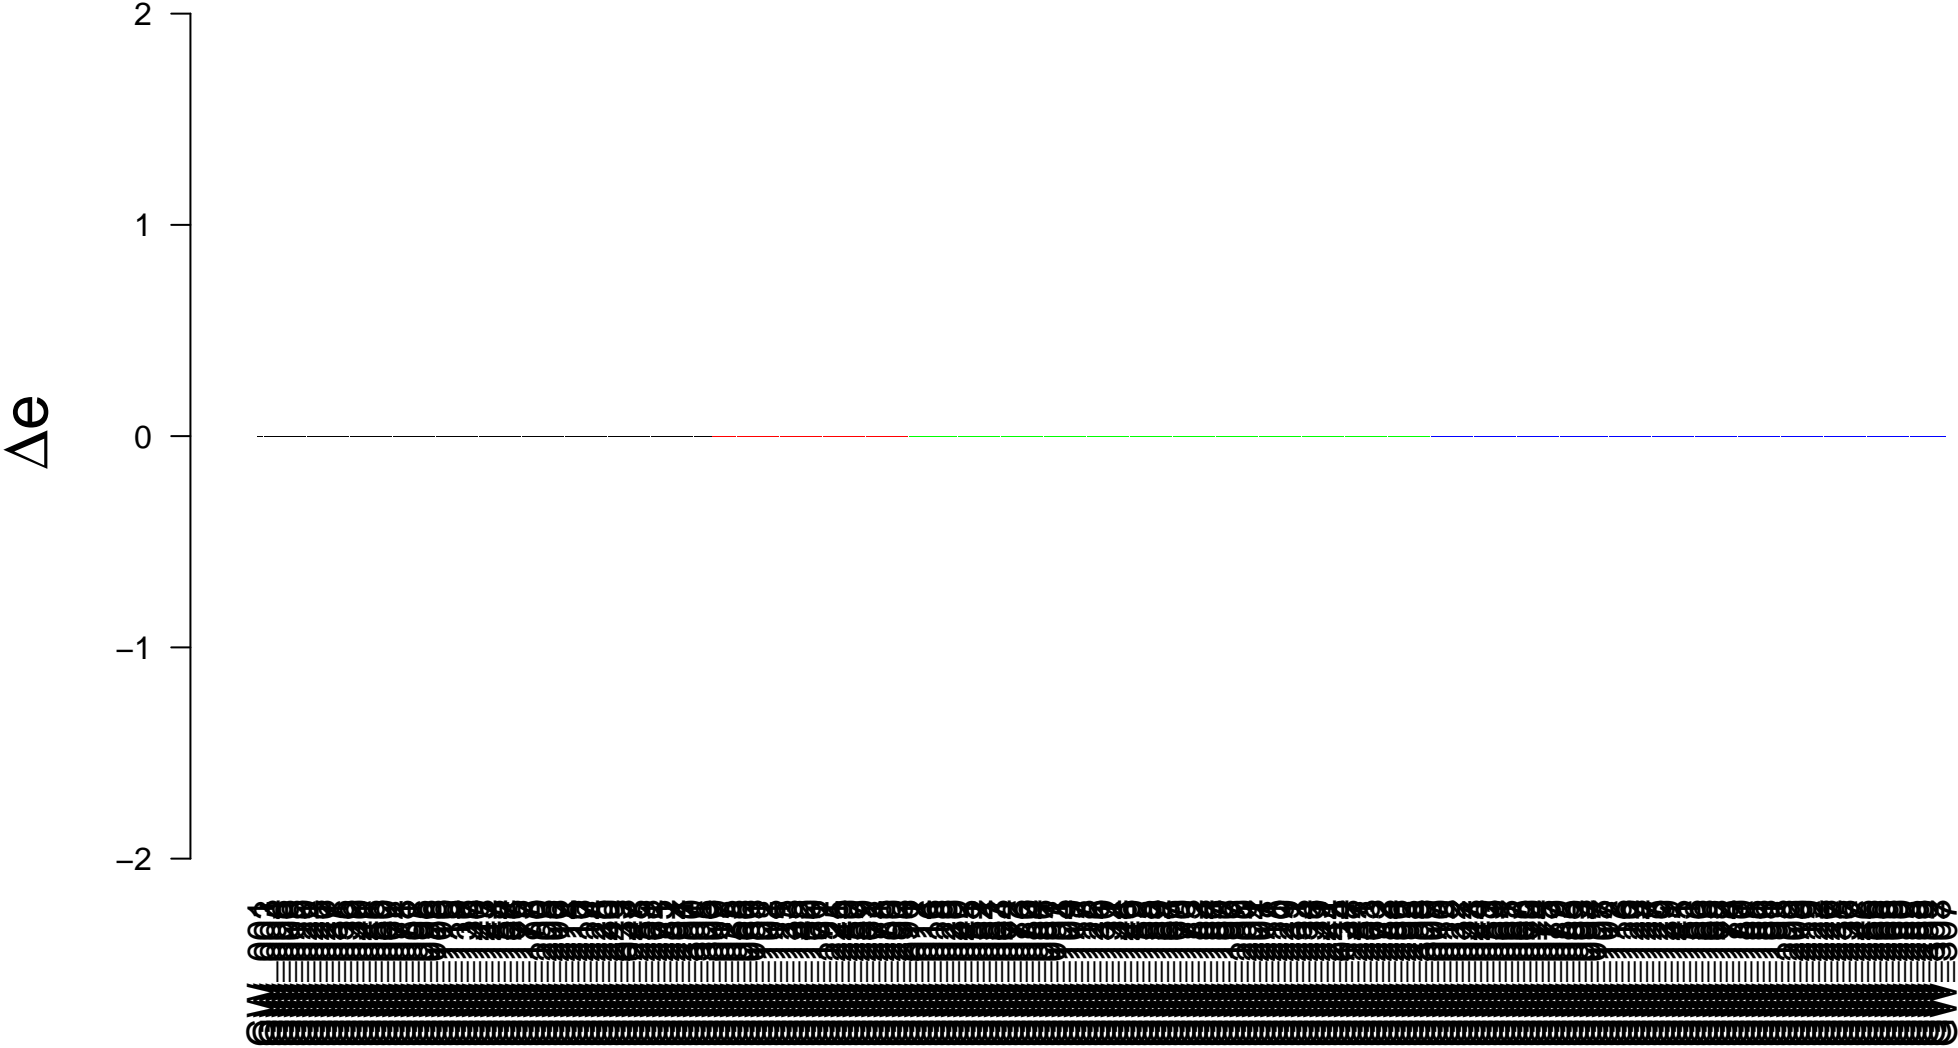

Expression of negative regulation of intrinsic apoptotic signaling pathway in response to DNA damage in Spot I

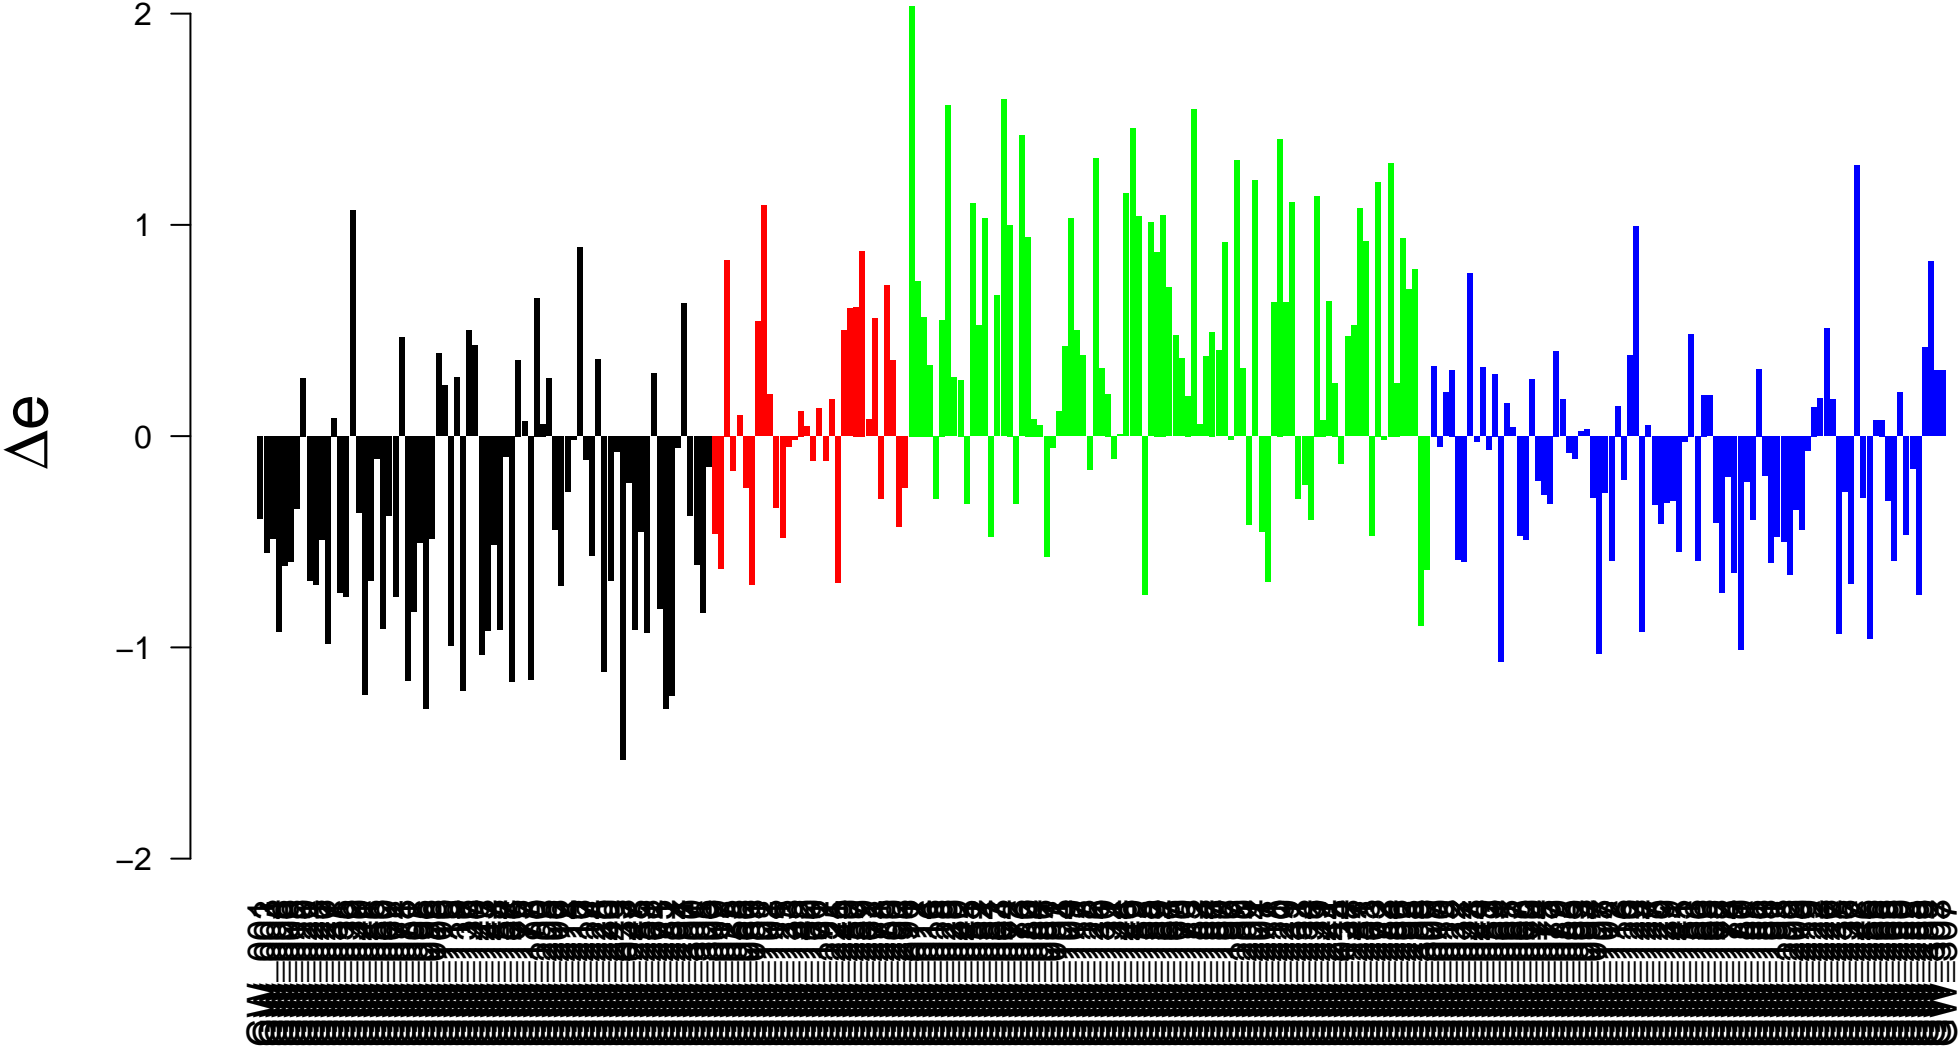

Expression of negative regulation of intrinsic apoptotic signaling pathway in response to DNA damage in Spot J

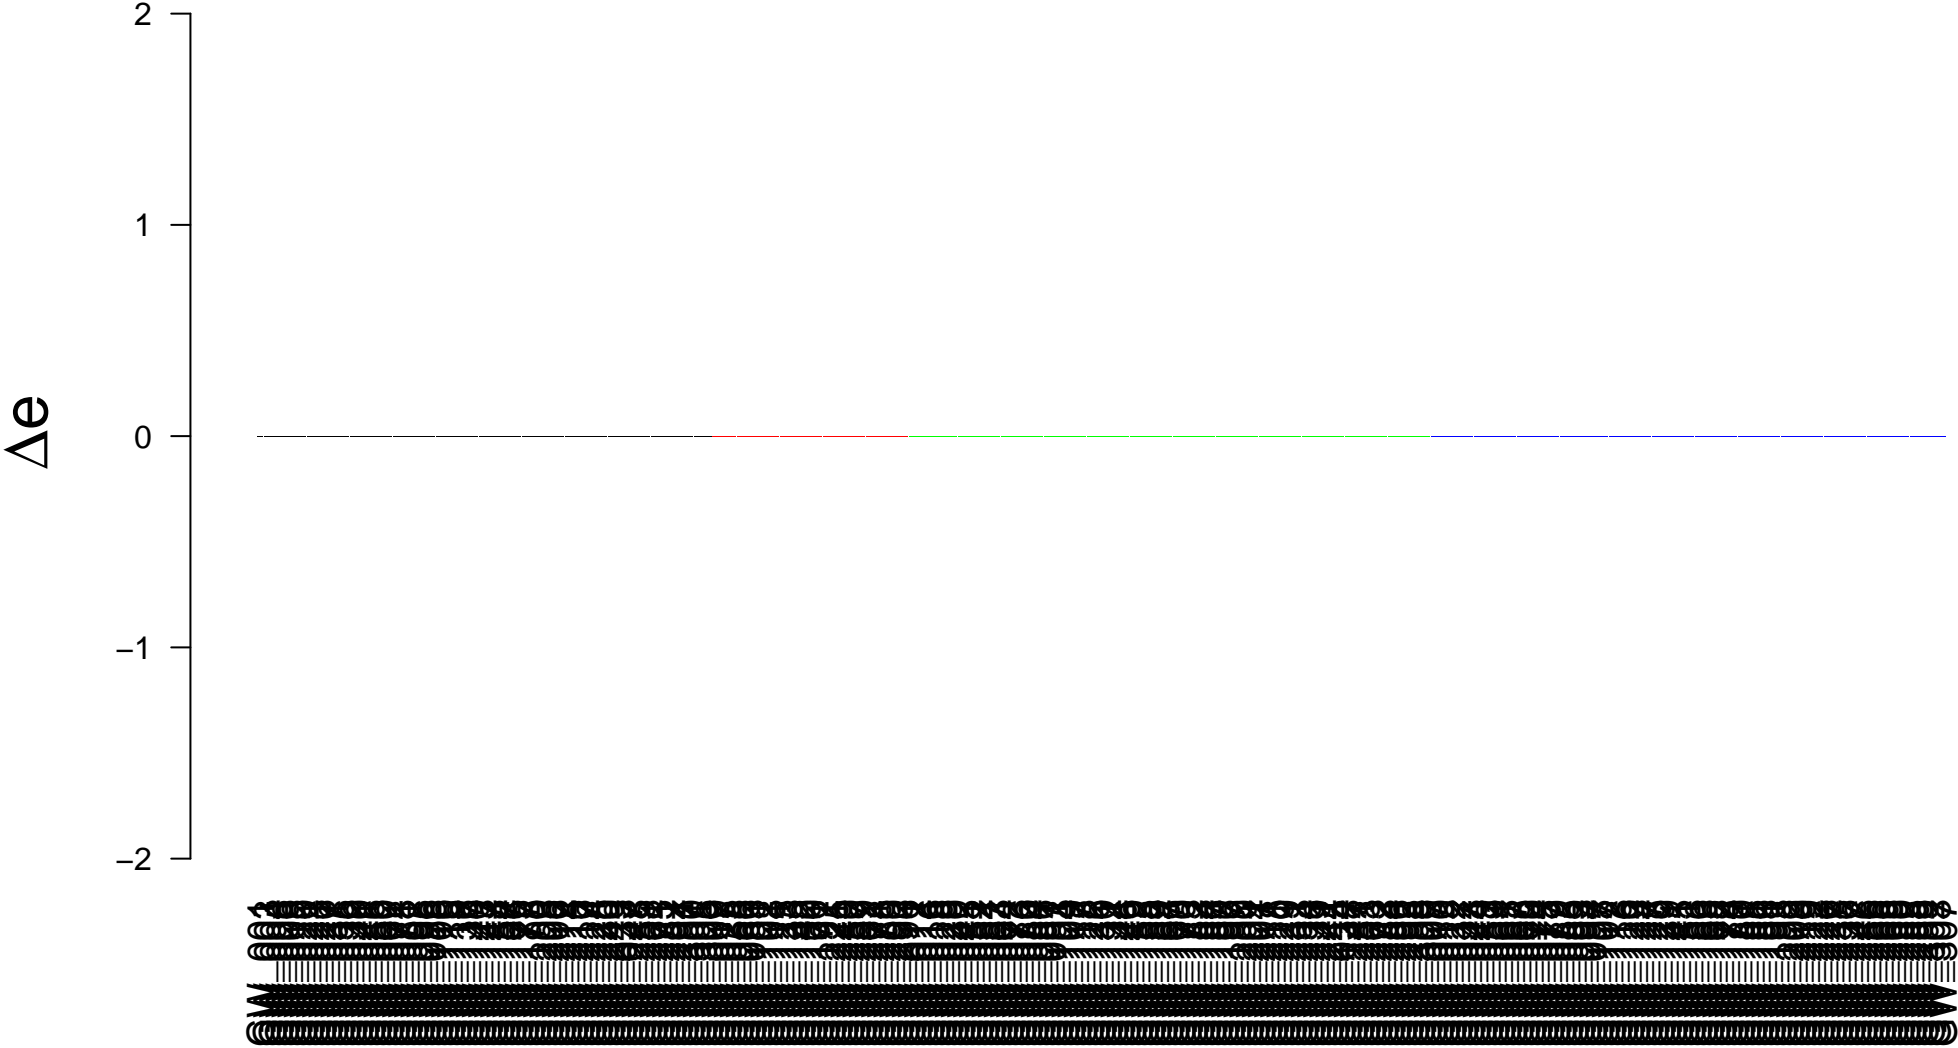

Expression of negative regulation of intrinsic apoptotic signaling pathway in response to DNA damage in Spot K

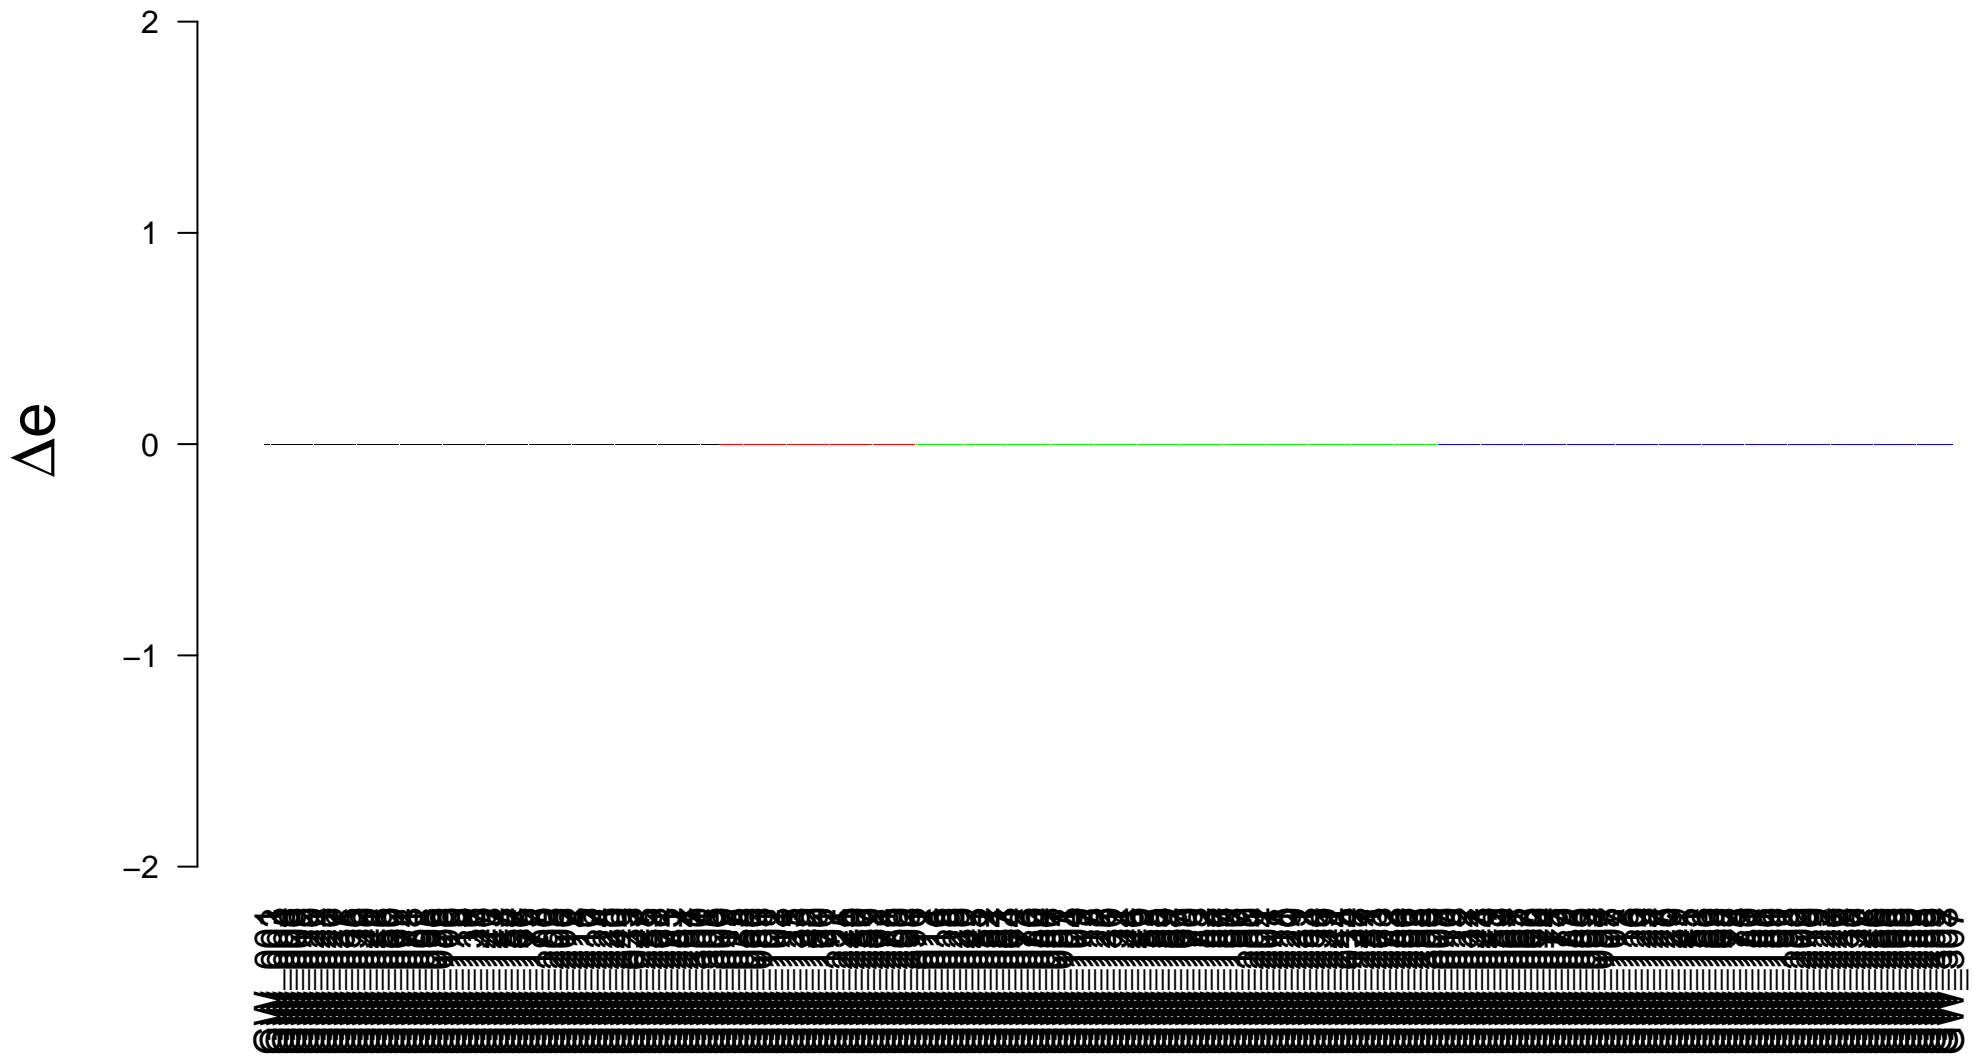

Expression of negative regulation of intrinsic apoptotic signaling pathway in response to DNA damage in Spot L

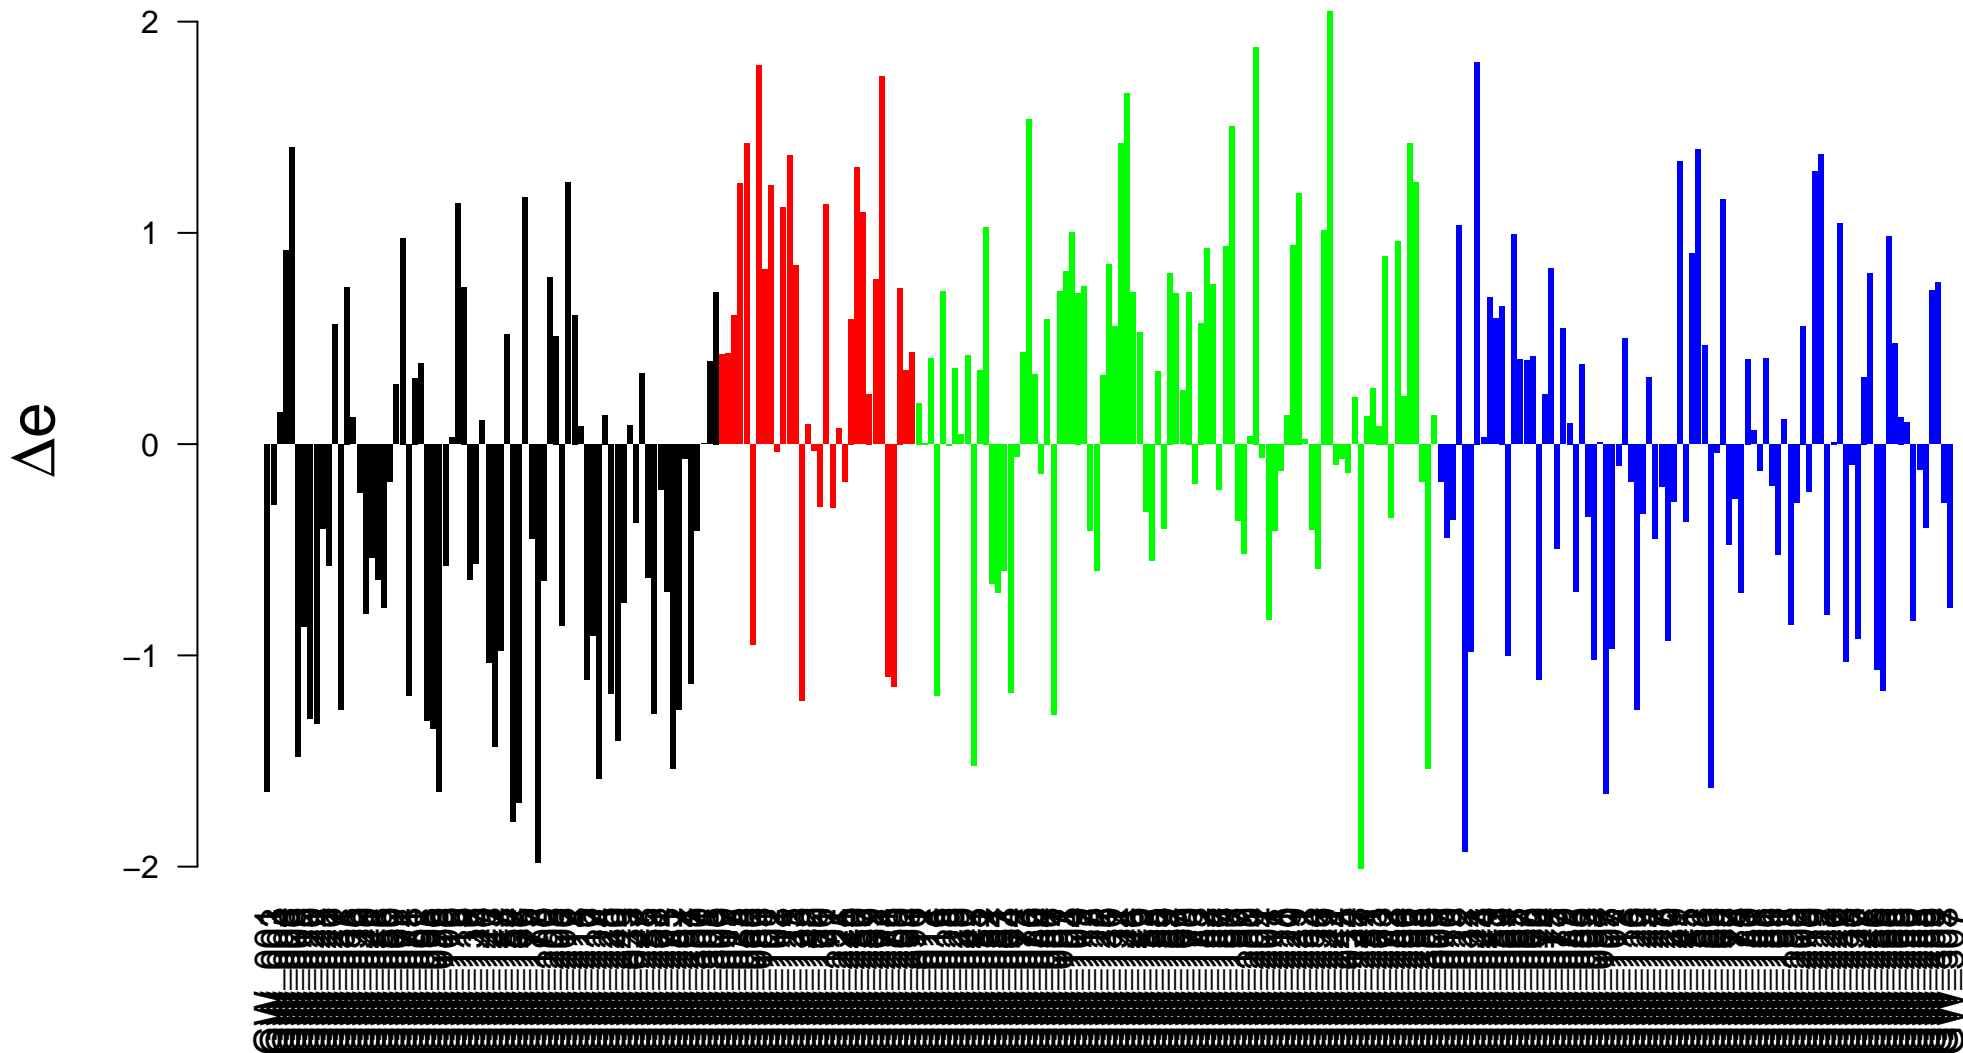

Expression of negative regulation of intrinsic apoptotic signaling pathway in response to DNA damage in Spot N

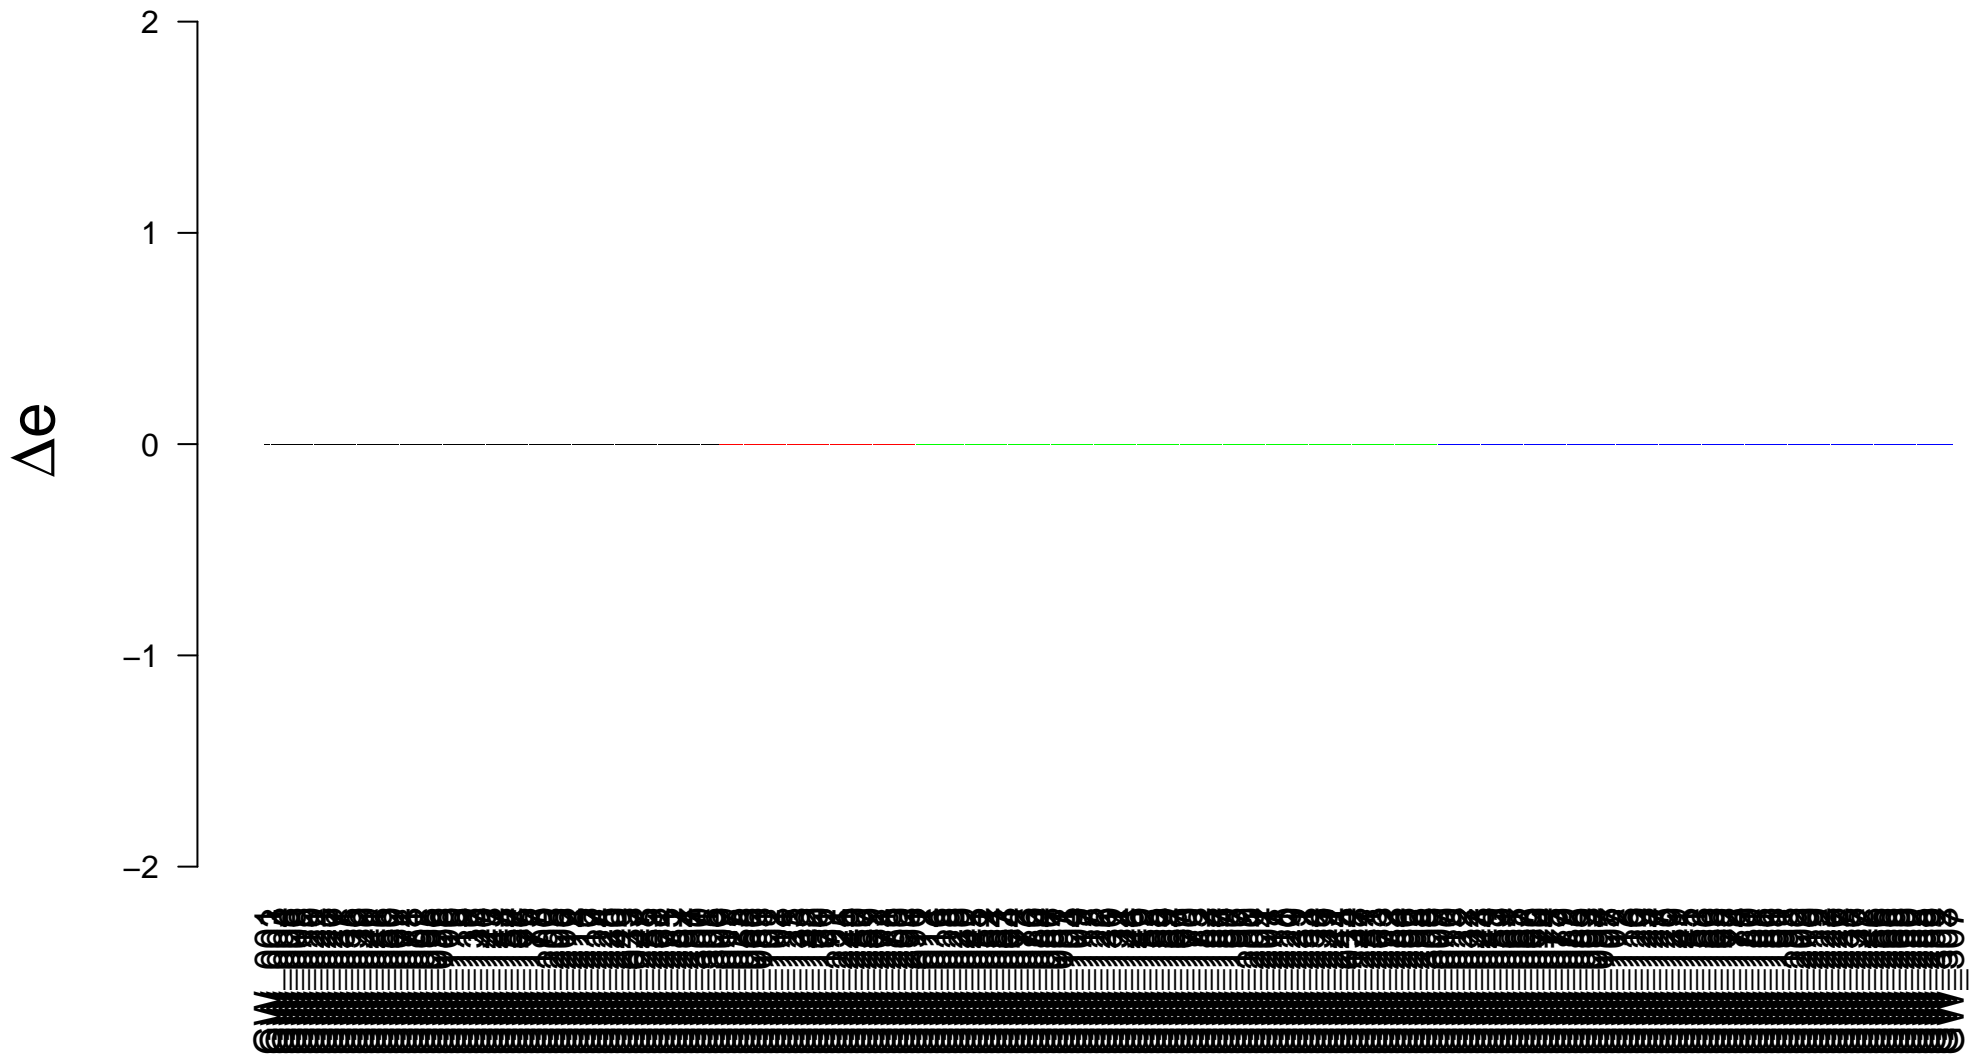

Expression of negative regulation of intrinsic apoptotic signaling pathway in response to DNA damage in Spot O

Expression of negative regulation of intrinsic apoptotic signaling pathway in response to DNA damage in Spot P

Expression of negative regulation of intrinsic apoptotic signaling pathway in response to DNA damage in Spot Q

Expression of negative regulation of intrinsic apoptotic signaling pathway in response to DNA damage in Spot R
