

Expression of negative regulation of intrinsic apoptotic signaling pathway in response to DNA damage by p53 class mediator in Spot A

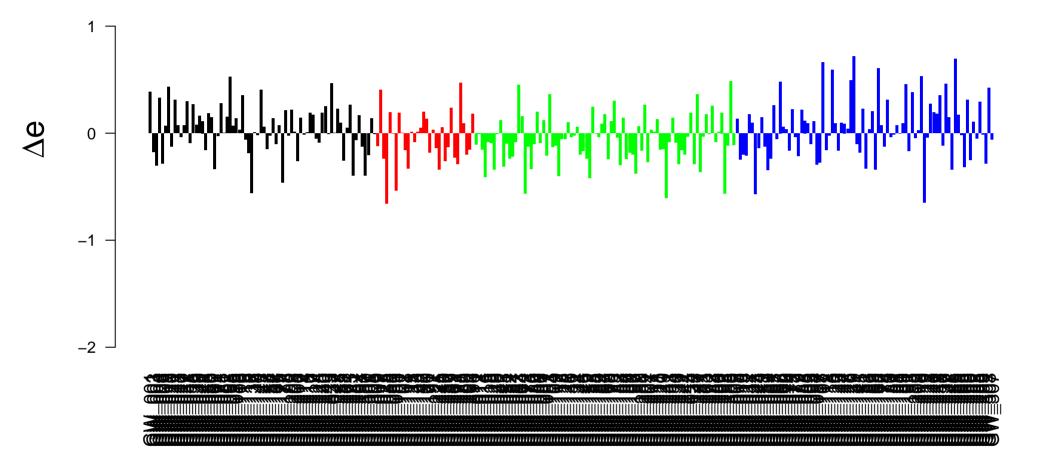

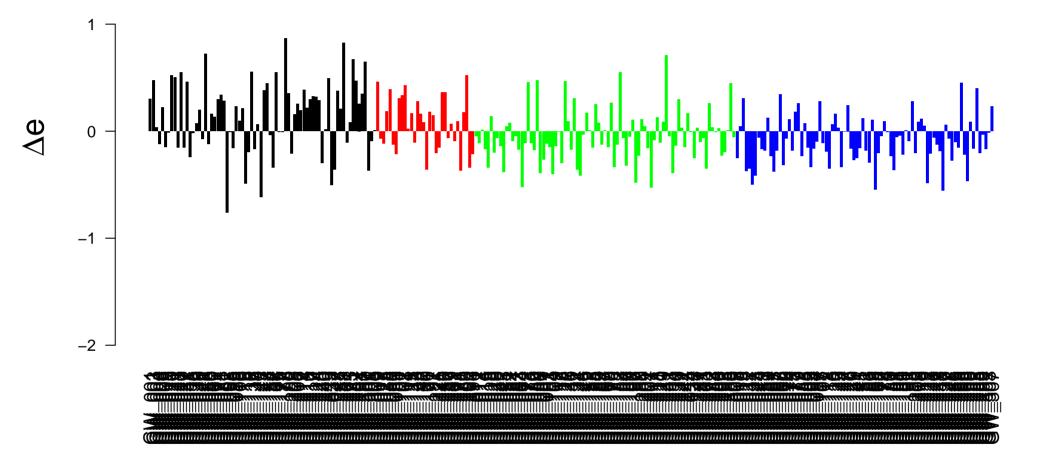

Expression of negative regulation of intrinsic apoptotic signaling pathway in response to DNA damage by p53 class mediator in Spot B

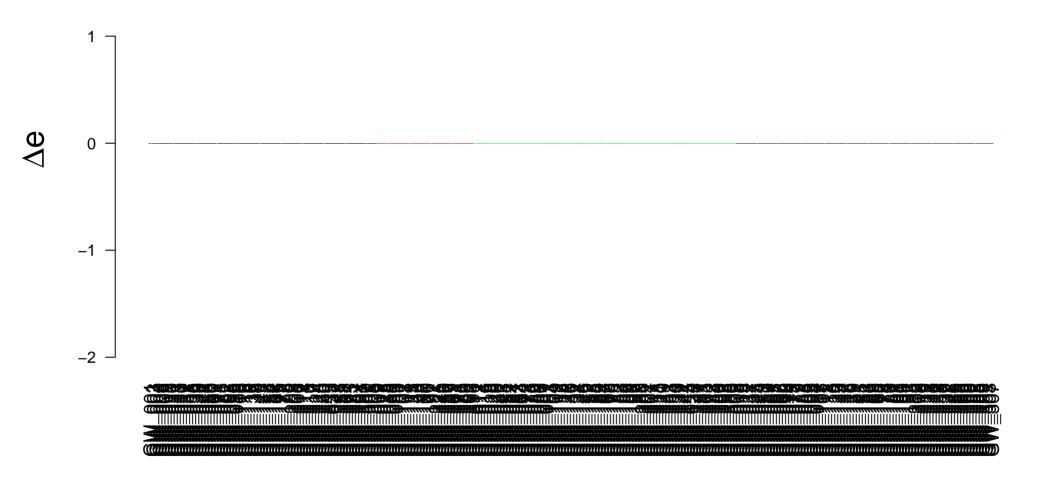

Expression of negative regulation of intrinsic apoptotic signaling pathway in response to DNA damage by p53 class mediator in Spot C

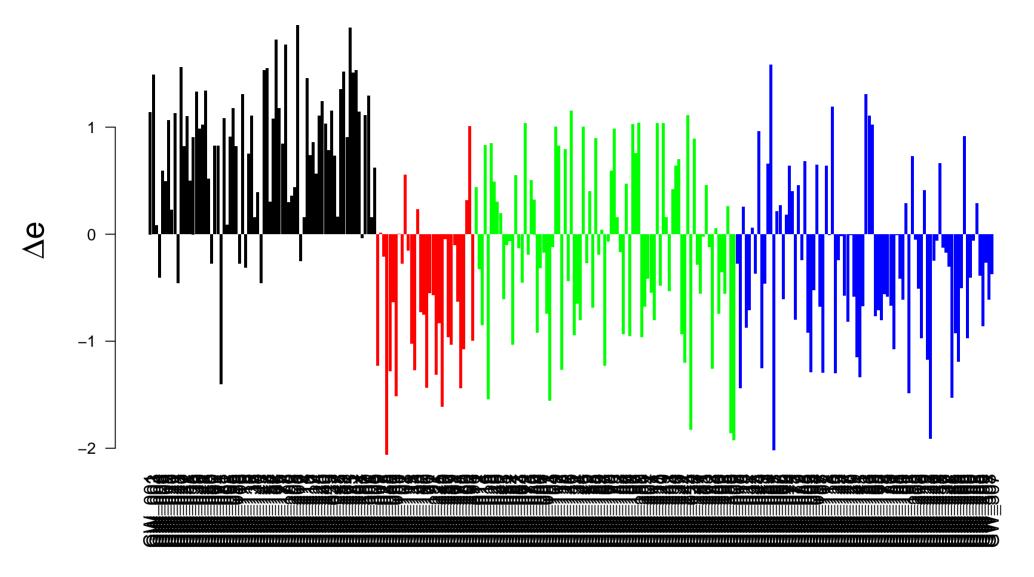

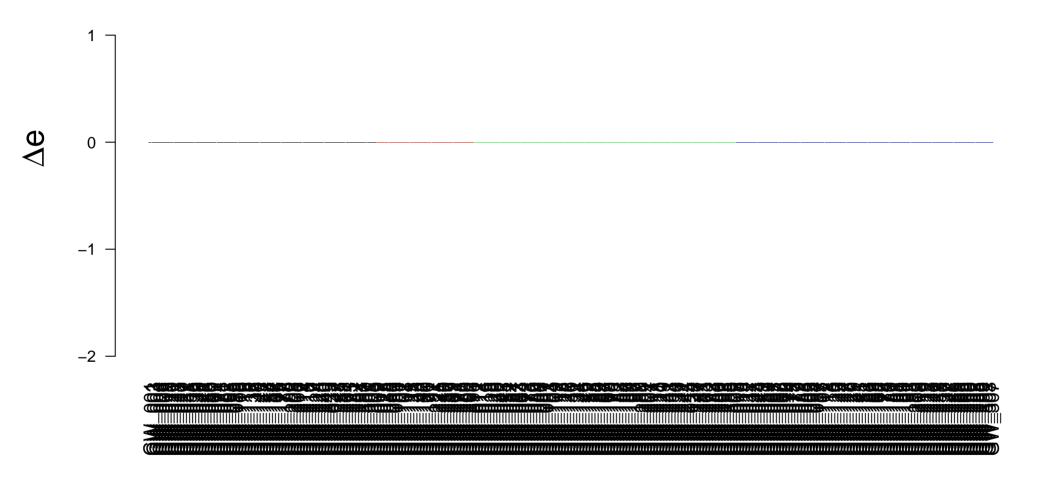

Expression of negative regulation of intrinsic apoptotic signaling pathway in response to DNA damage by p53 class mediator in Spot F

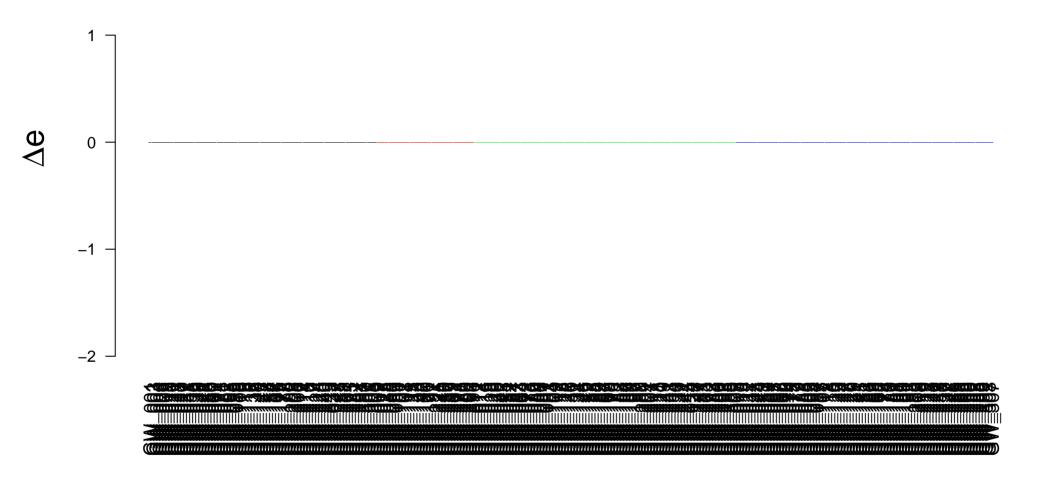

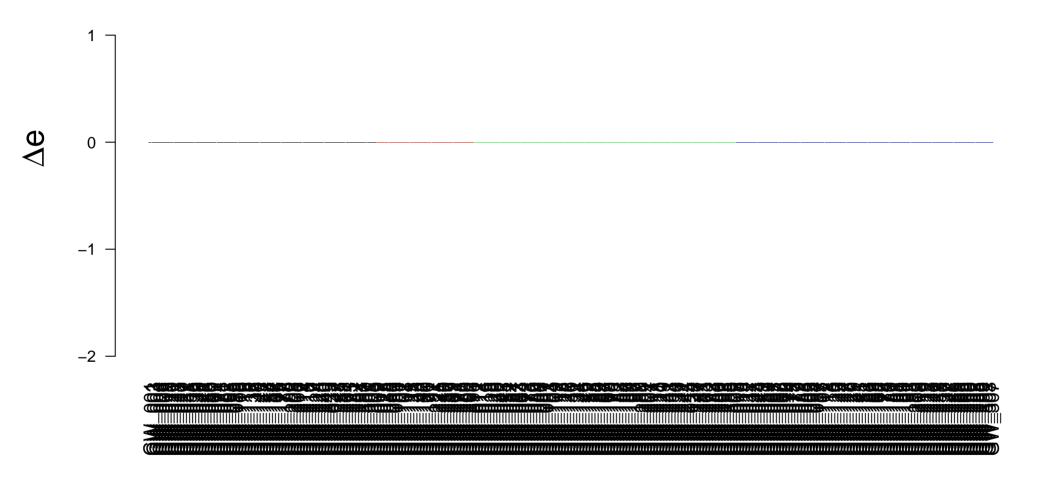

Expression of negative regulation of intrinsic apoptotic signaling pathway in response to DNA damage by p53 class mediator in Spot H

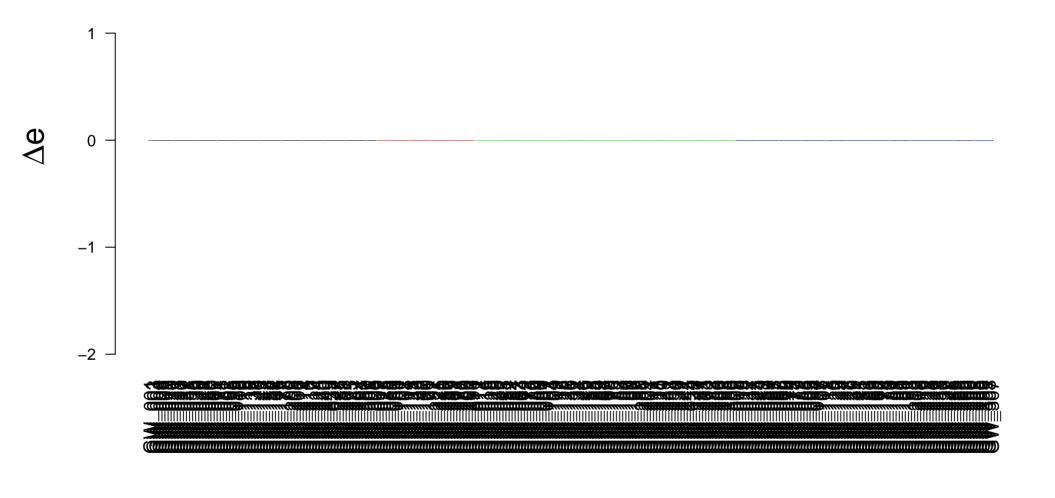

Expression of negative regulation of intrinsic apoptotic signaling pathway in response to DNA damage by p53 class mediator in Spot I

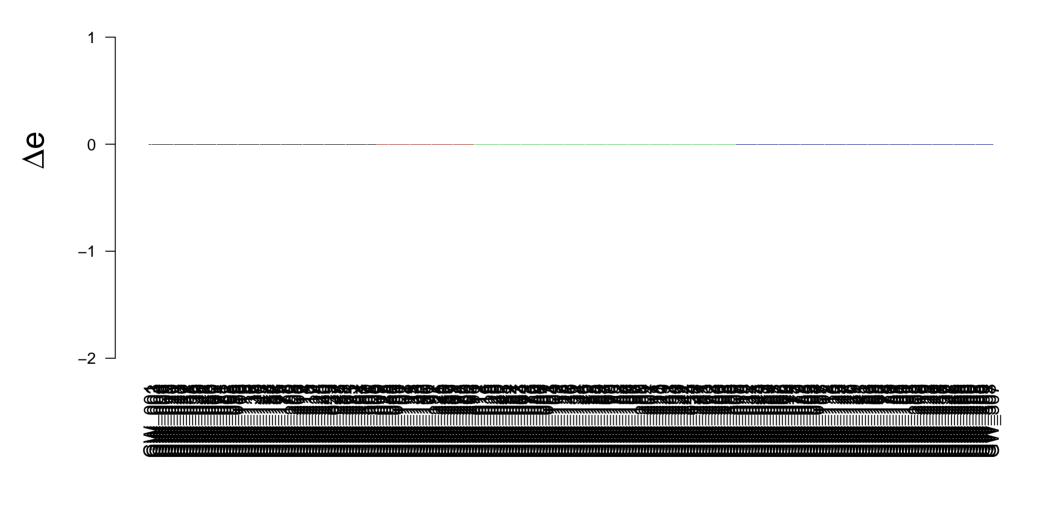

Expression of negative regulation of intrinsic apoptotic signaling pathway in response to DNA damage by p53 class mediator in Spot J

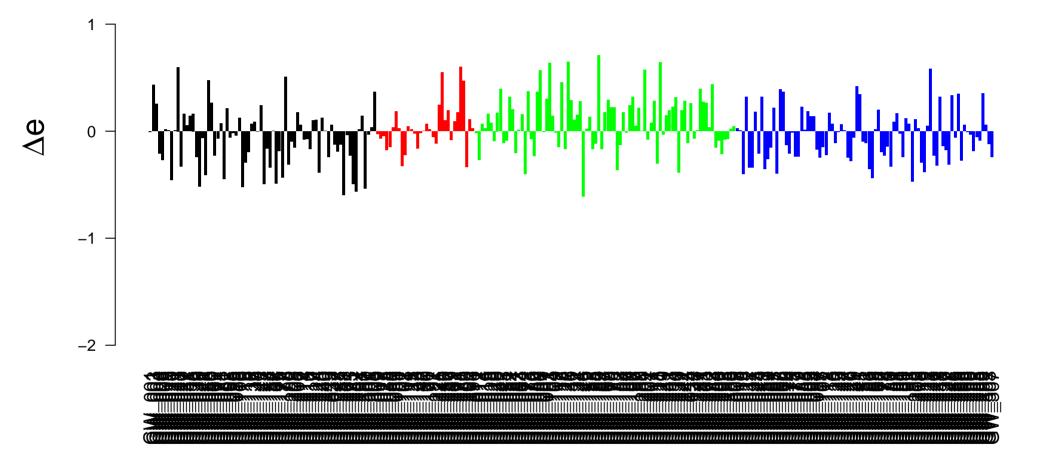

Expression of negative regulation of intrinsic apoptotic signaling pathway in response to DNA damage by p53 class mediator in Spot K

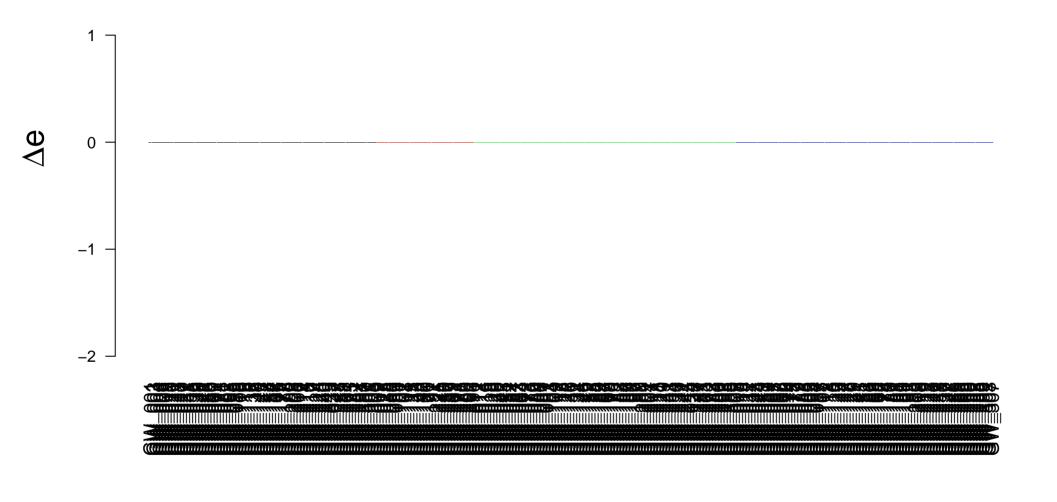

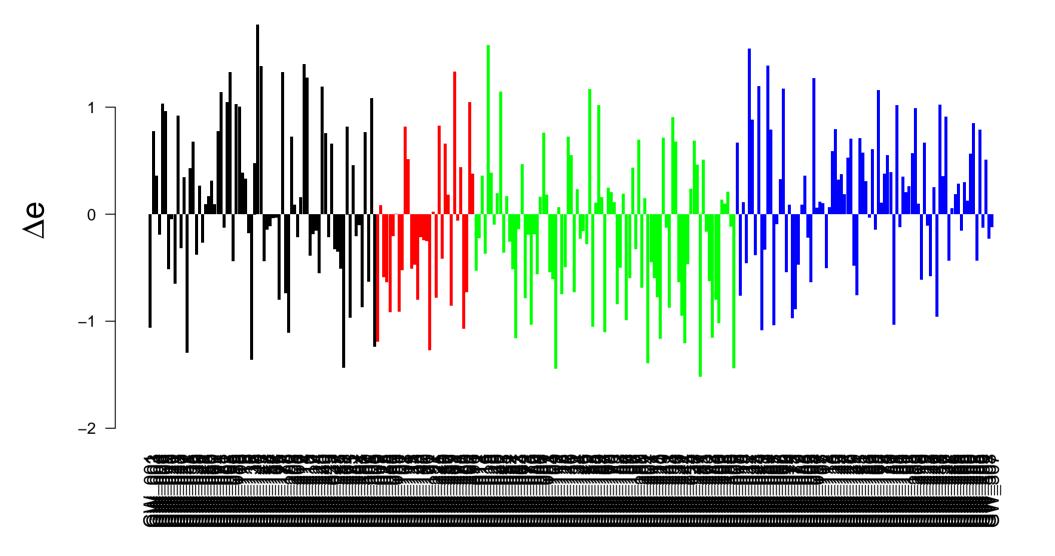

Expression of negative regulation of intrinsic apoptotic signaling pathway in response to DNA damage by p53 class mediator in Spot L

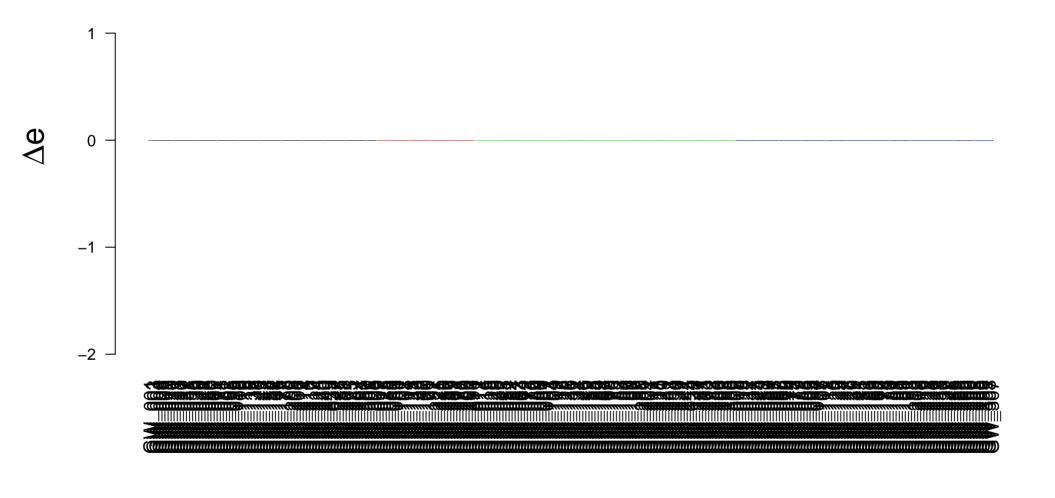

Expression of negative regulation of intrinsic apoptotic signaling pathway in response to DNA damage by p53 class mediator in Spot N

Expression of negative regulation of intrinsic apoptotic signaling pathway in response to DNA damage by p53 class mediator in Spot P

Expression of negative regulation of intrinsic apoptotic signaling pathway in response to DNA damage by p53 class mediator in Spot Q
