

negative regulation of macrophage derived foam cell differentiation

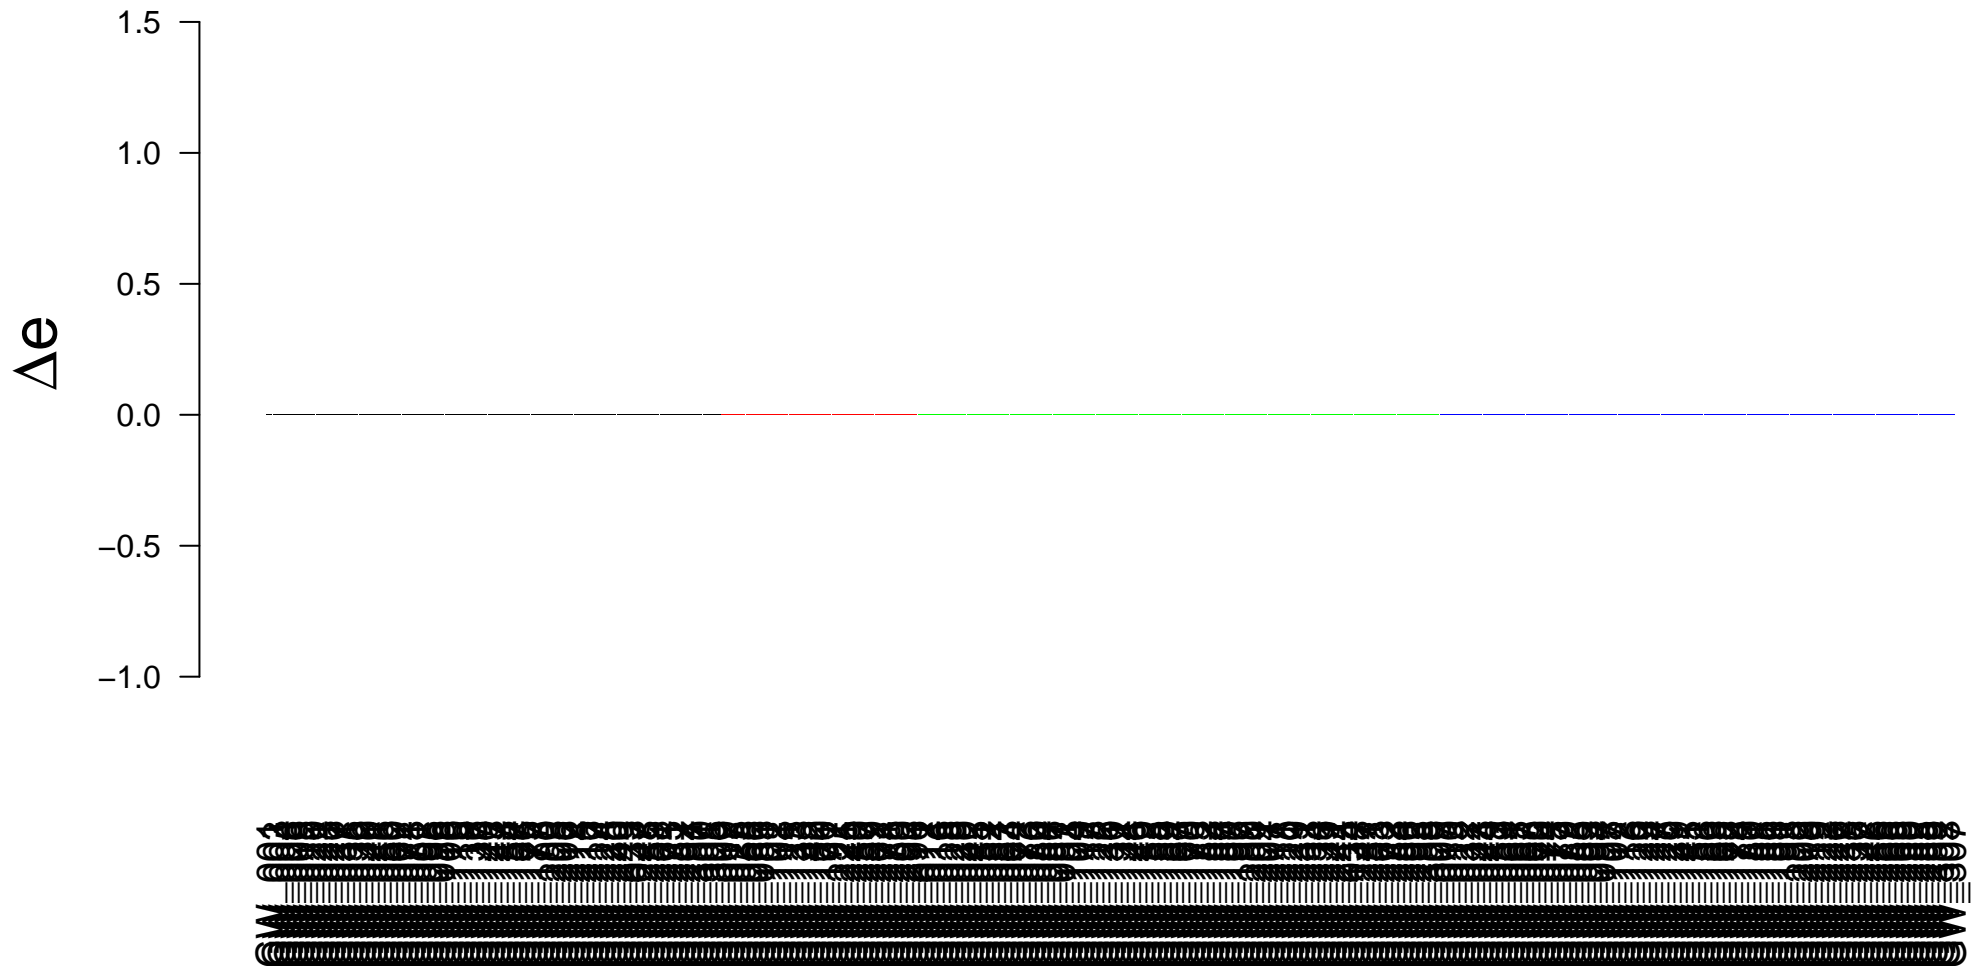

negative regulation of macrophage derived foam cell differentiation

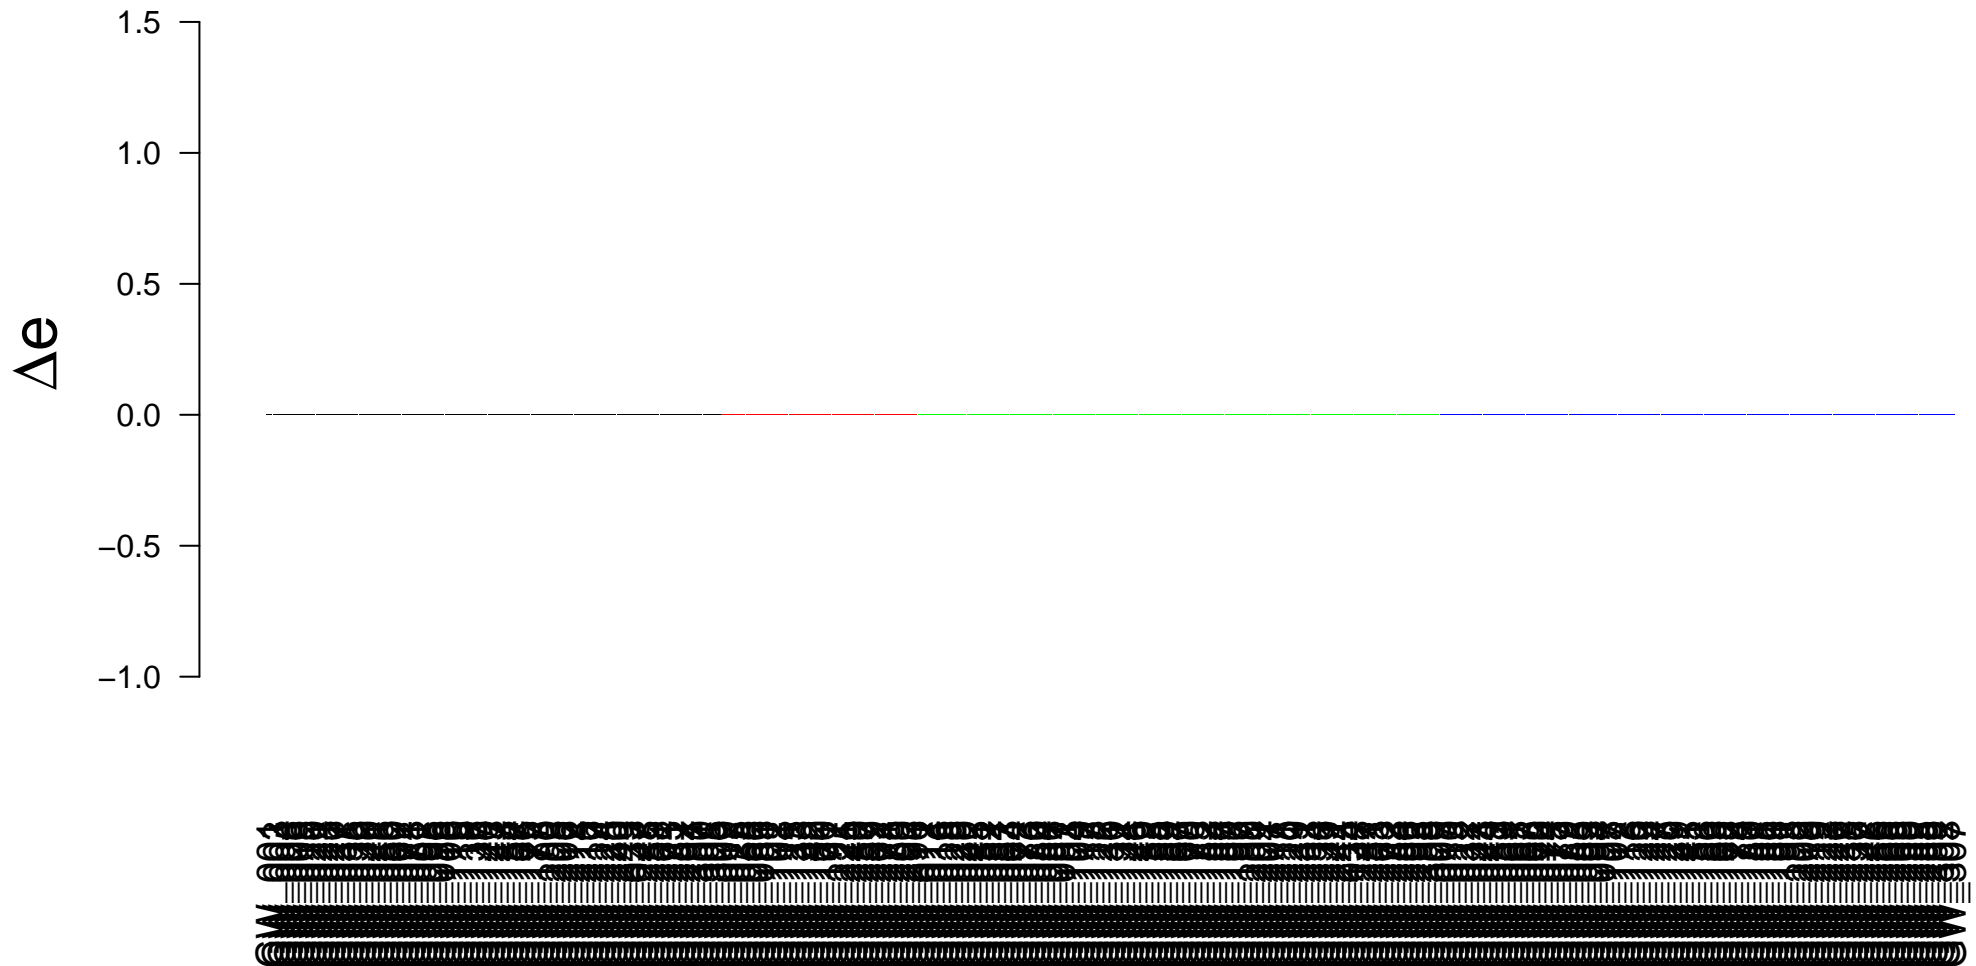

Enrichment in spots: negative regulation of macrophage derived foam cell differentiation

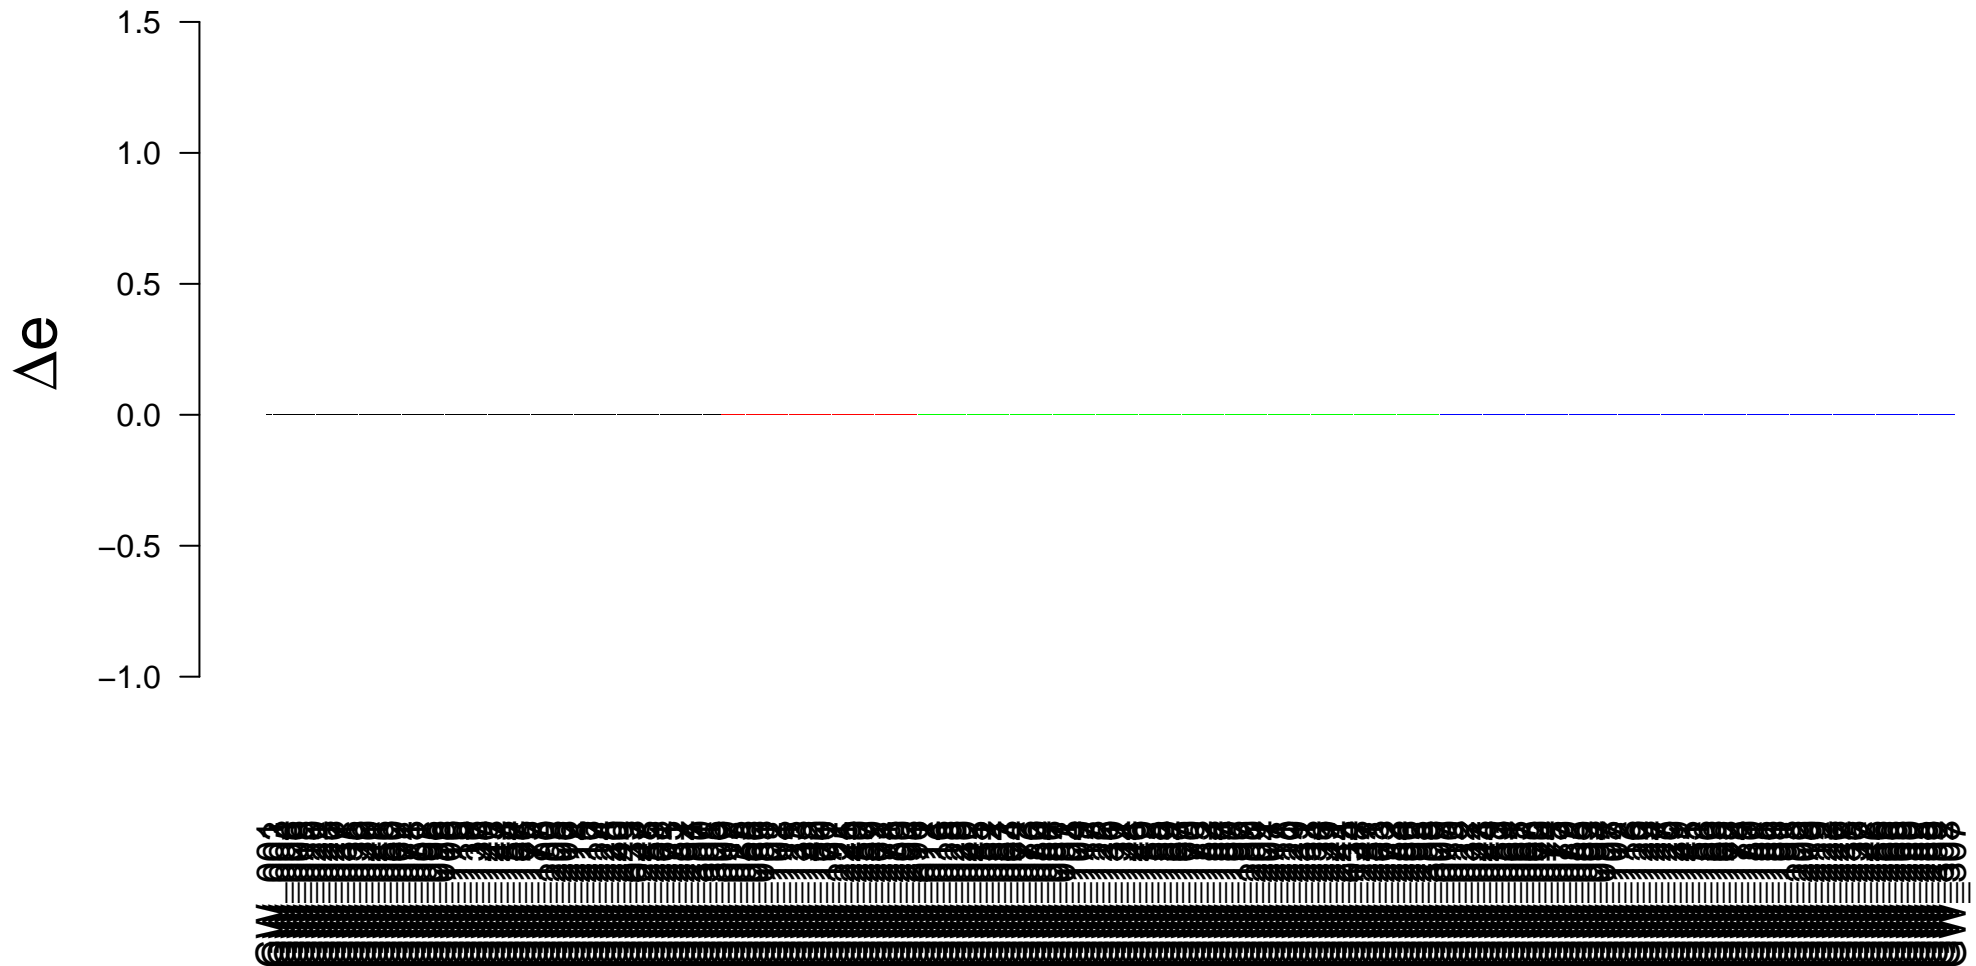

Expression of negative regulation of macrophage derived foam cell differentiation in Spot A

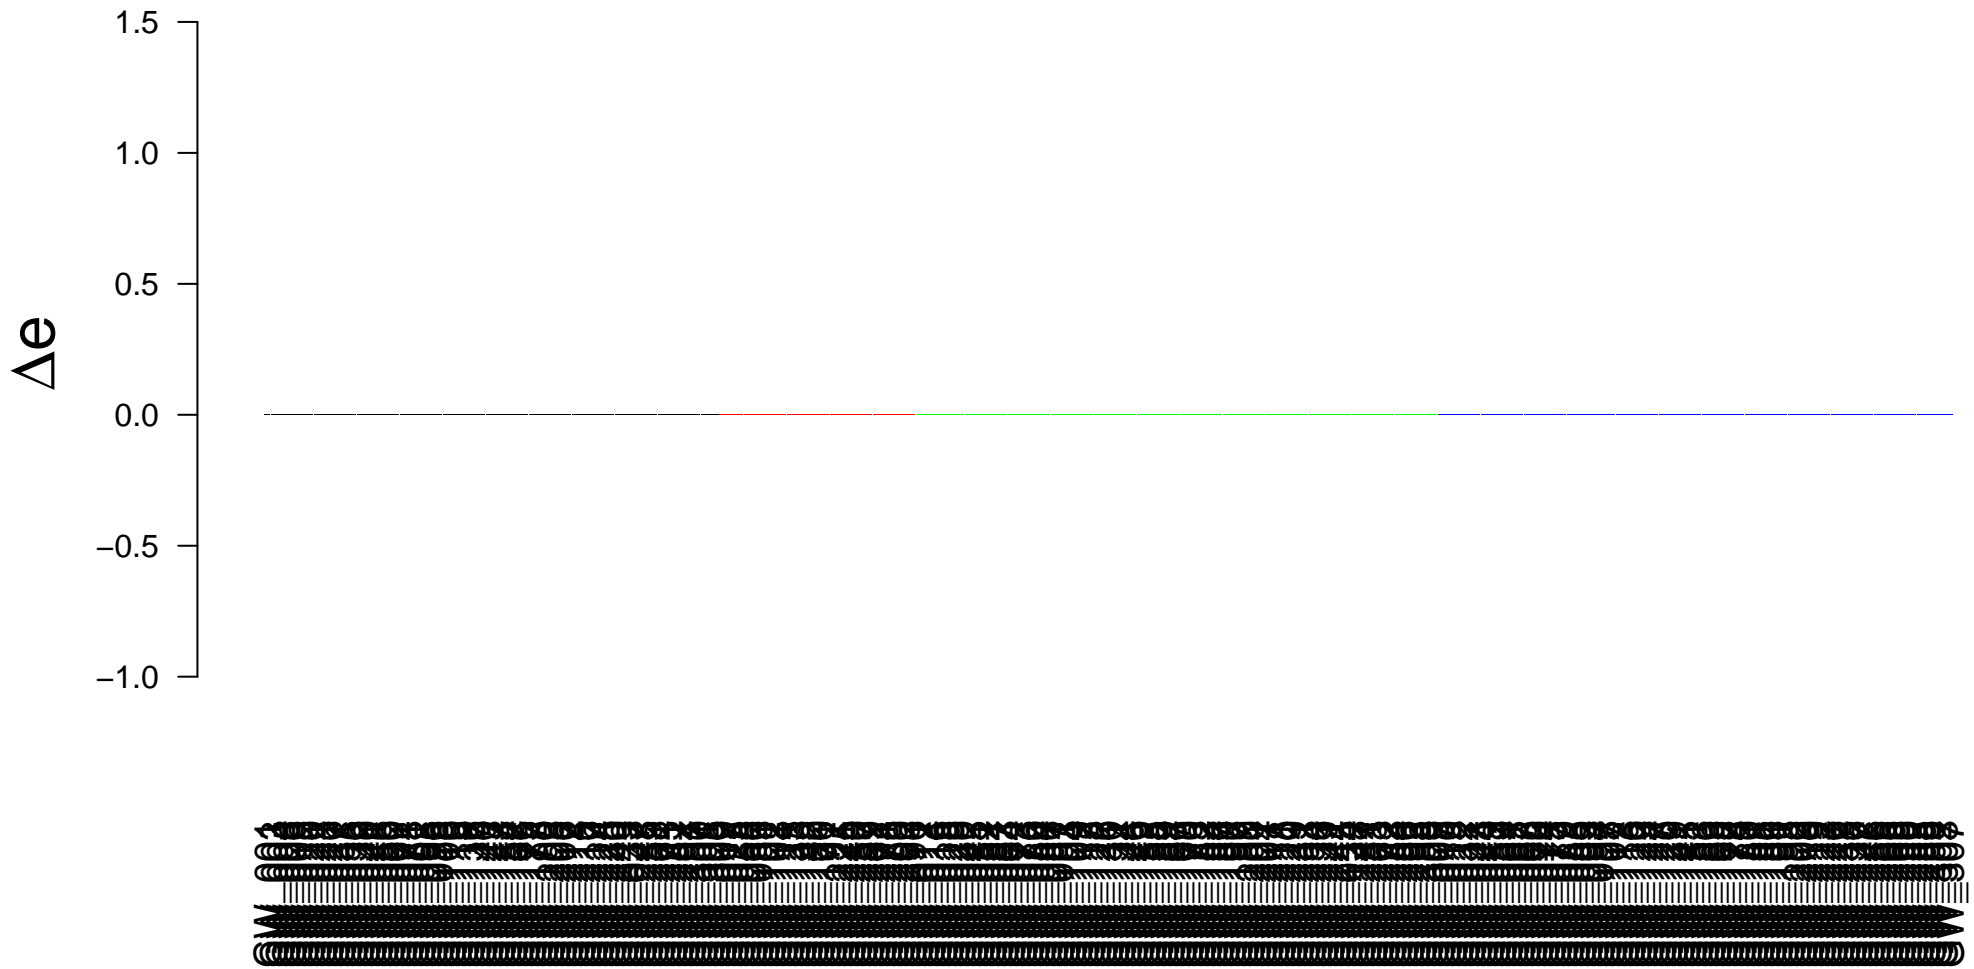

Expression of negative regulation of macrophage derived foam cell differentiation in Spot B

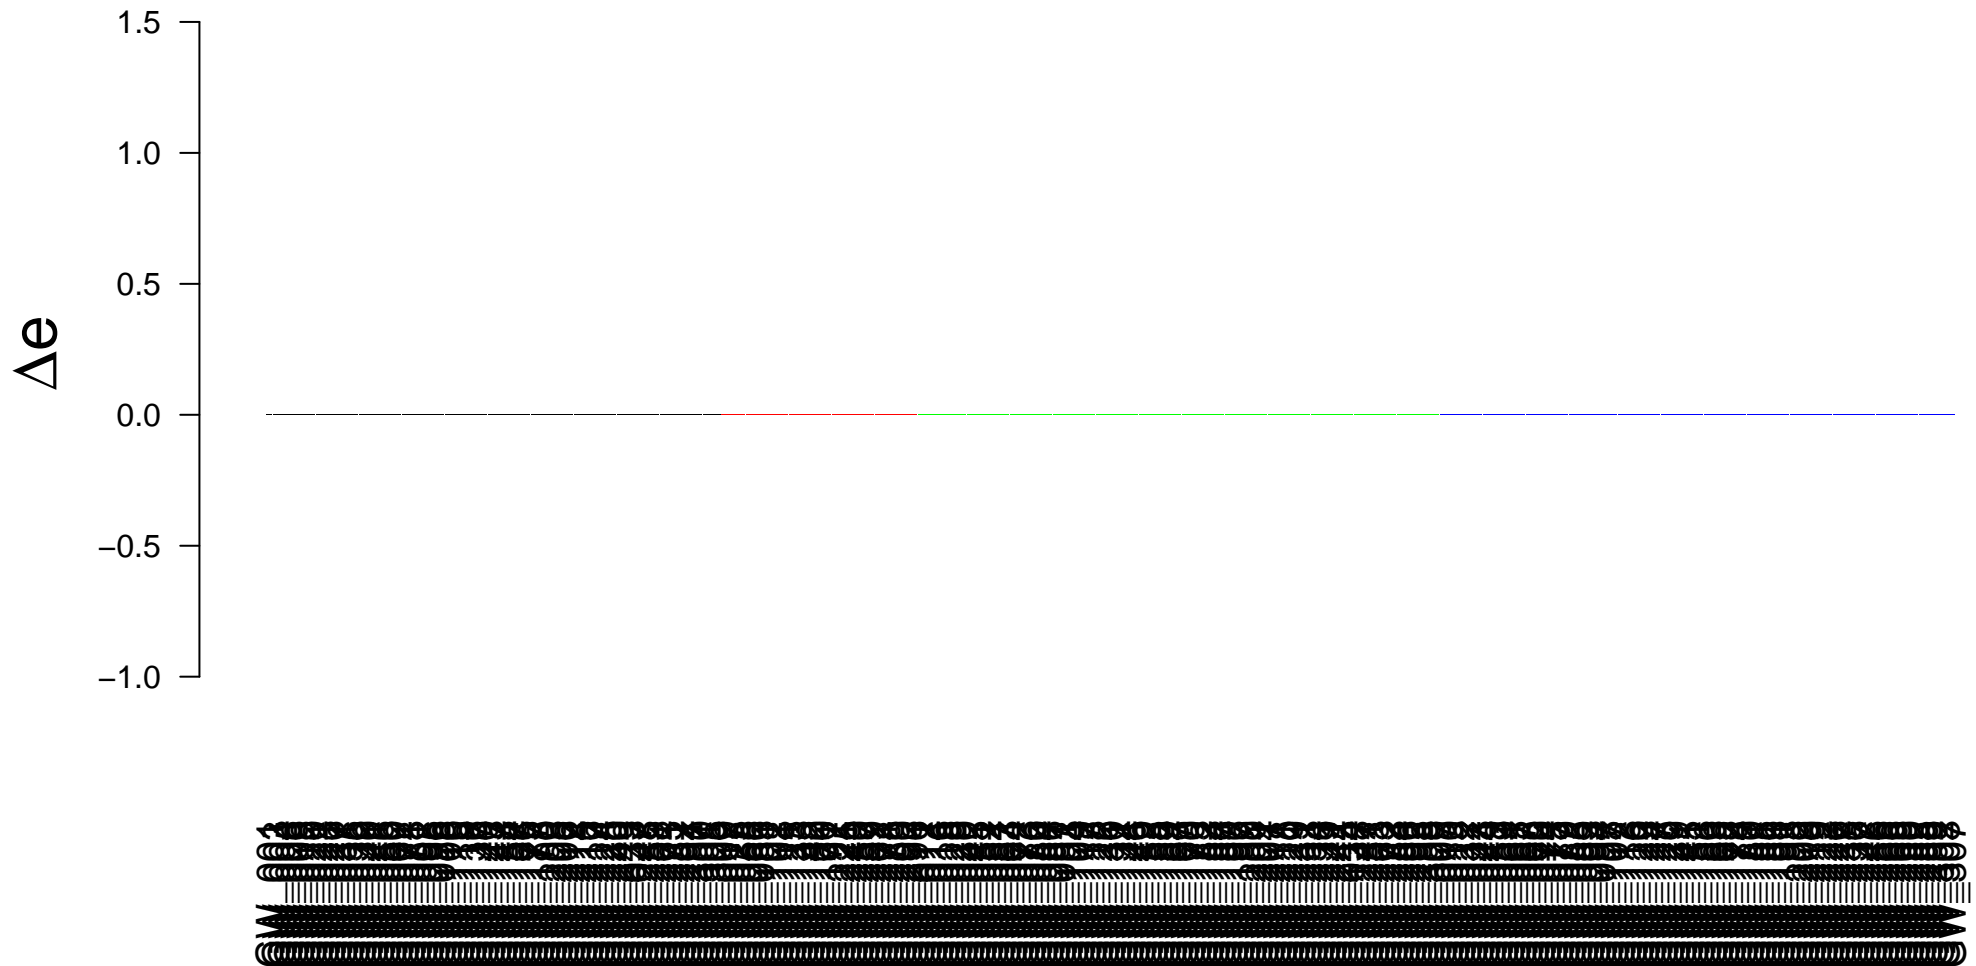

Expression of negative regulation of macrophage derived foam cell differentiation in Spot C

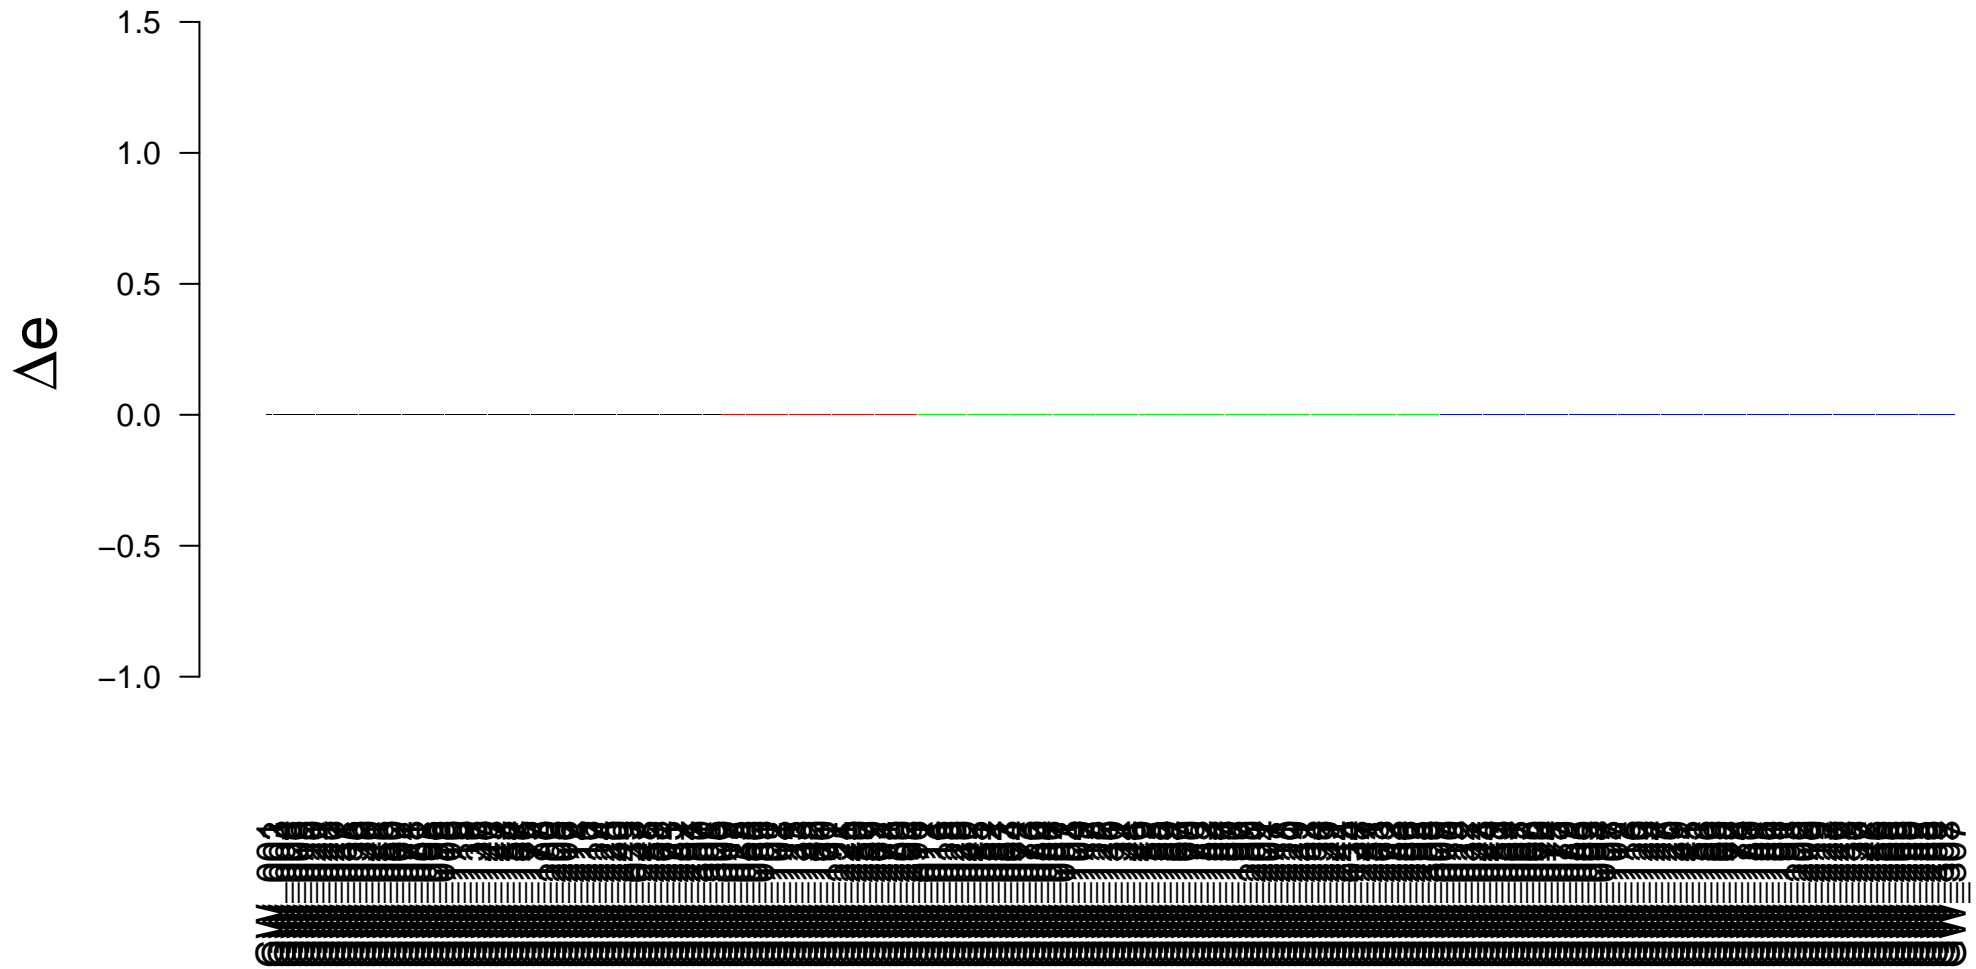

Expression of negative regulation of macrophage derived foam cell differentiation in Spot D

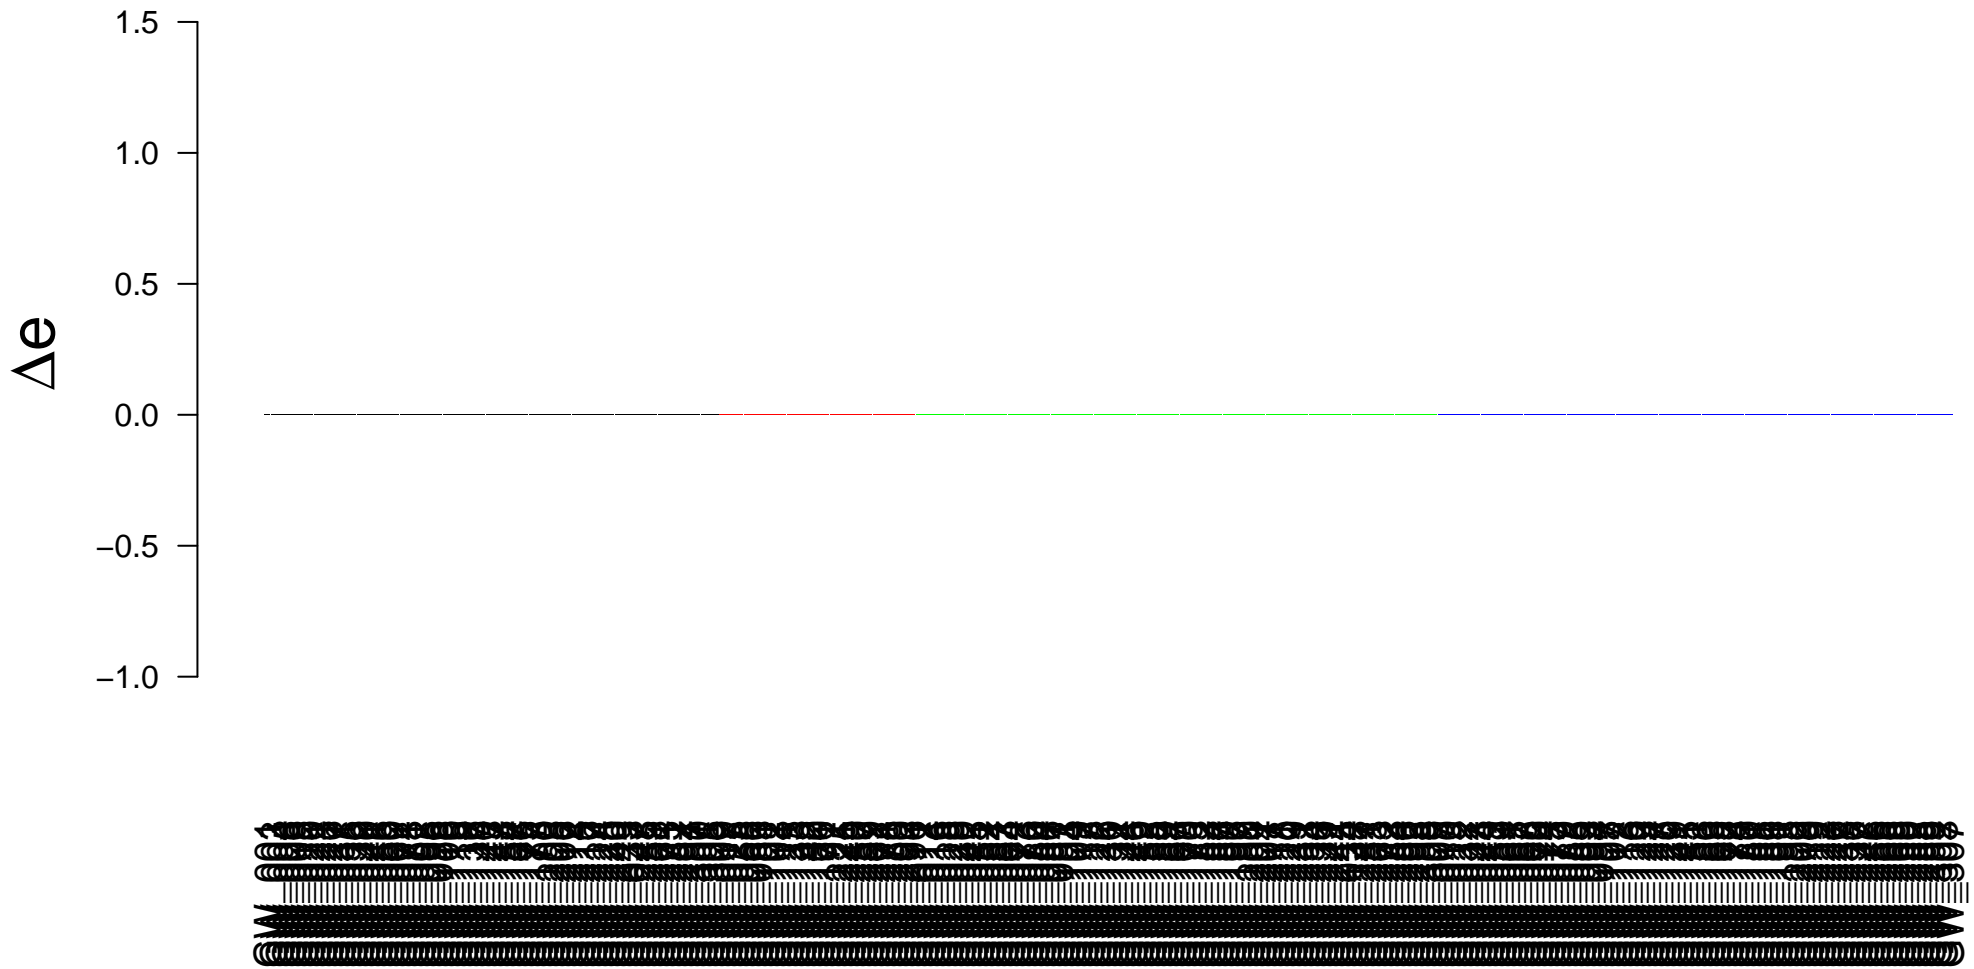

Expression of negative regulation of macrophage derived foam cell differentiation in Spot E

Expression of negative regulation of macrophage derived foam cell differentiation in Spot F

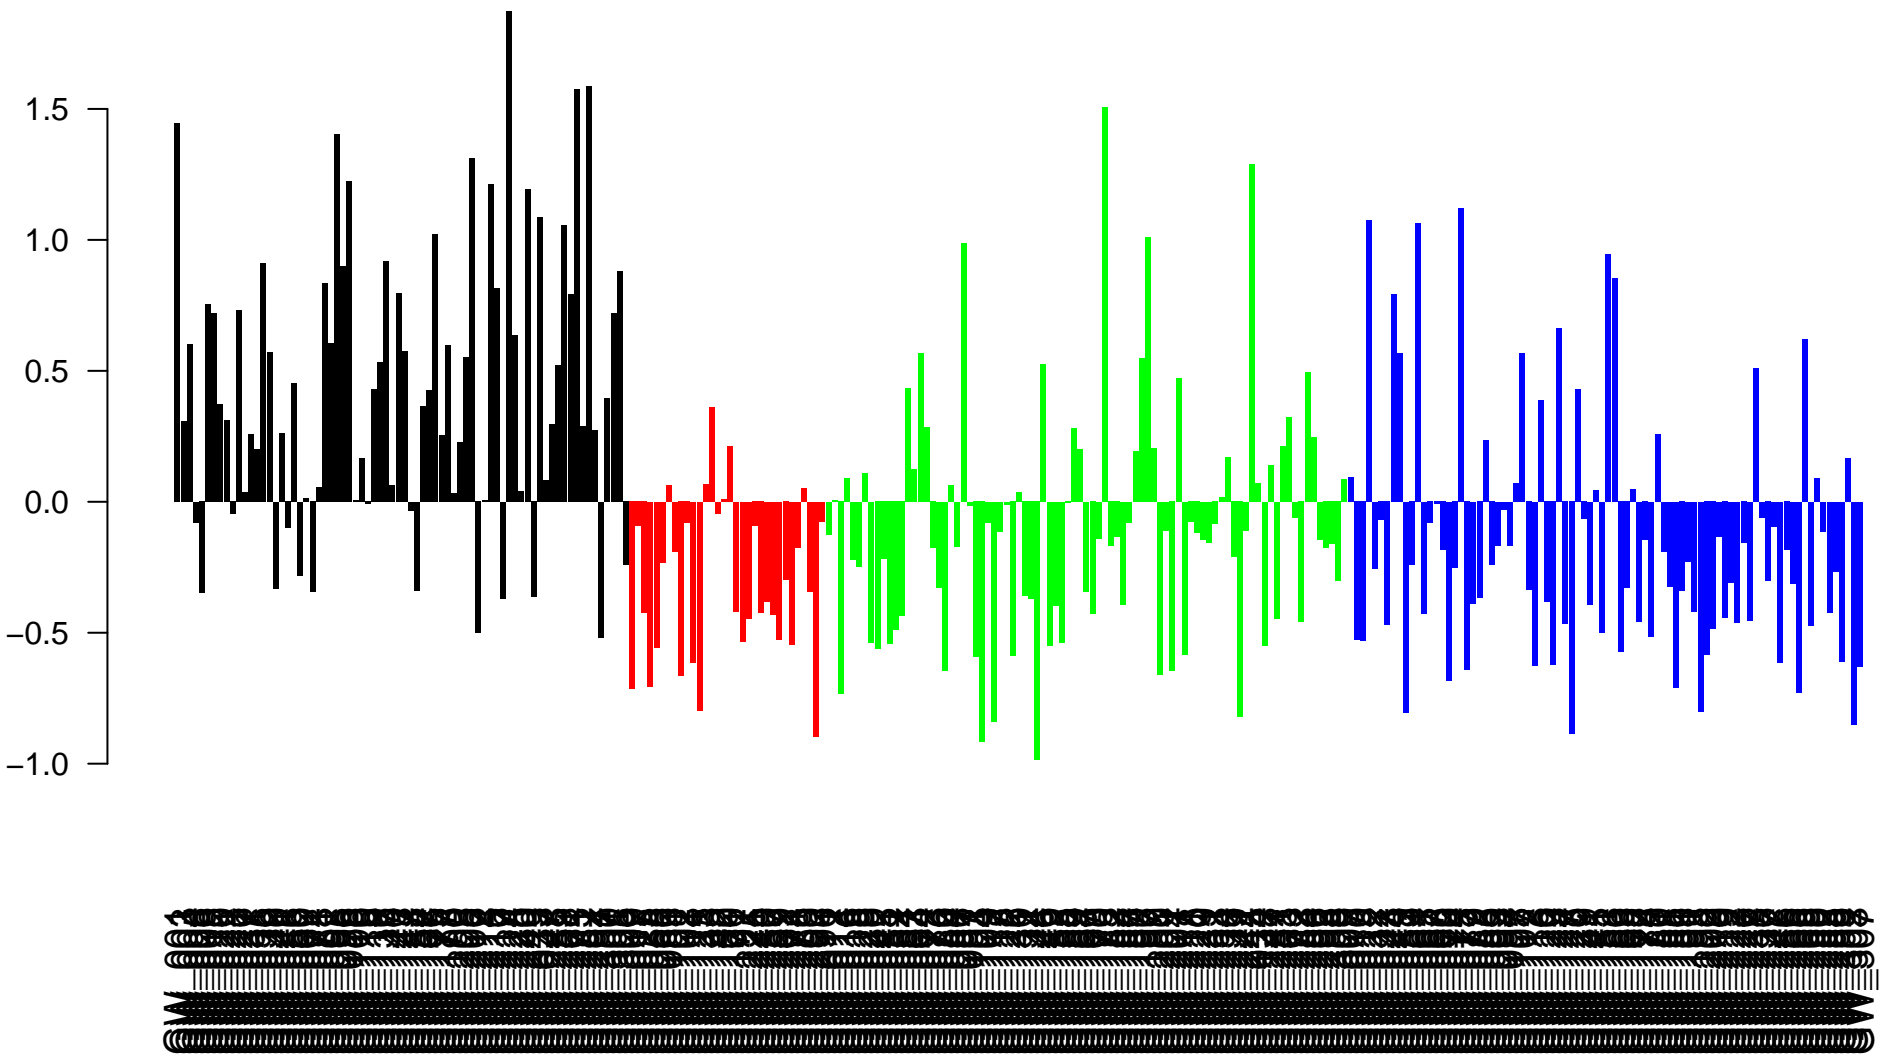

Expression of negative regulation of macrophage derived foam cell differentiation in Spot G

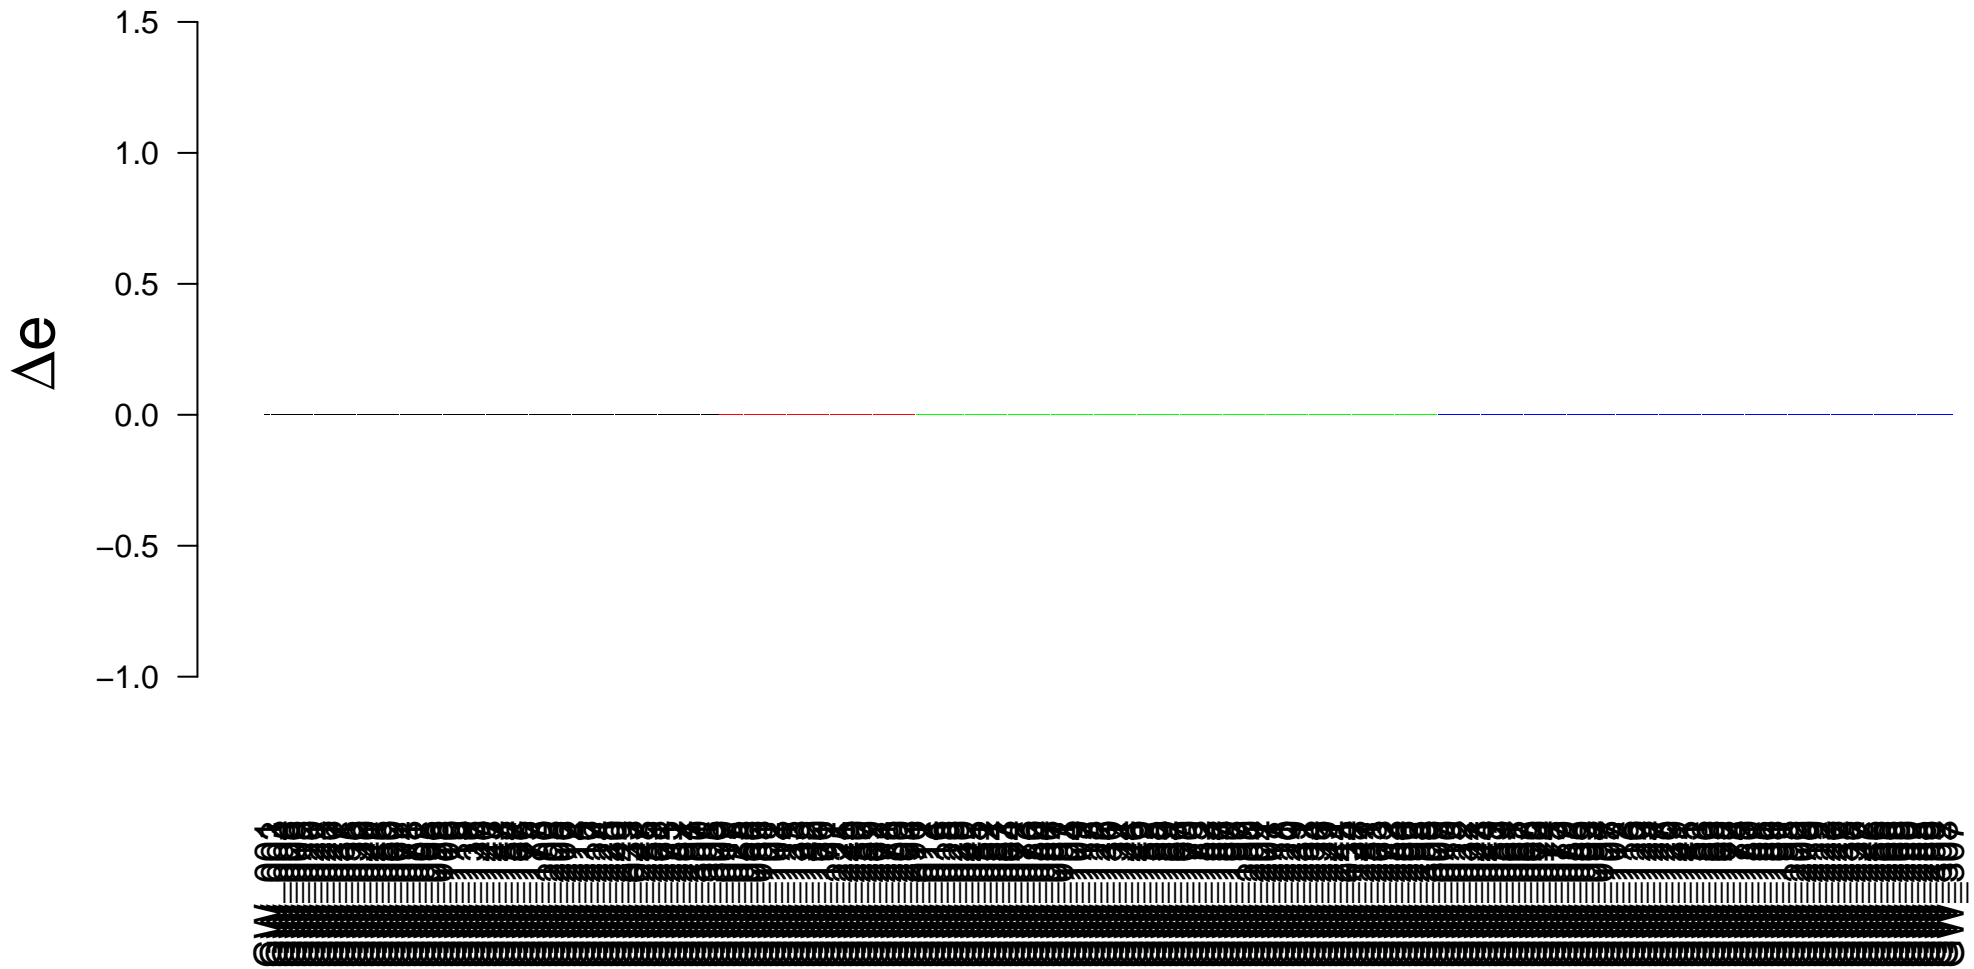

Expression of negative regulation of macrophage derived foam cell differentiation in Spot H

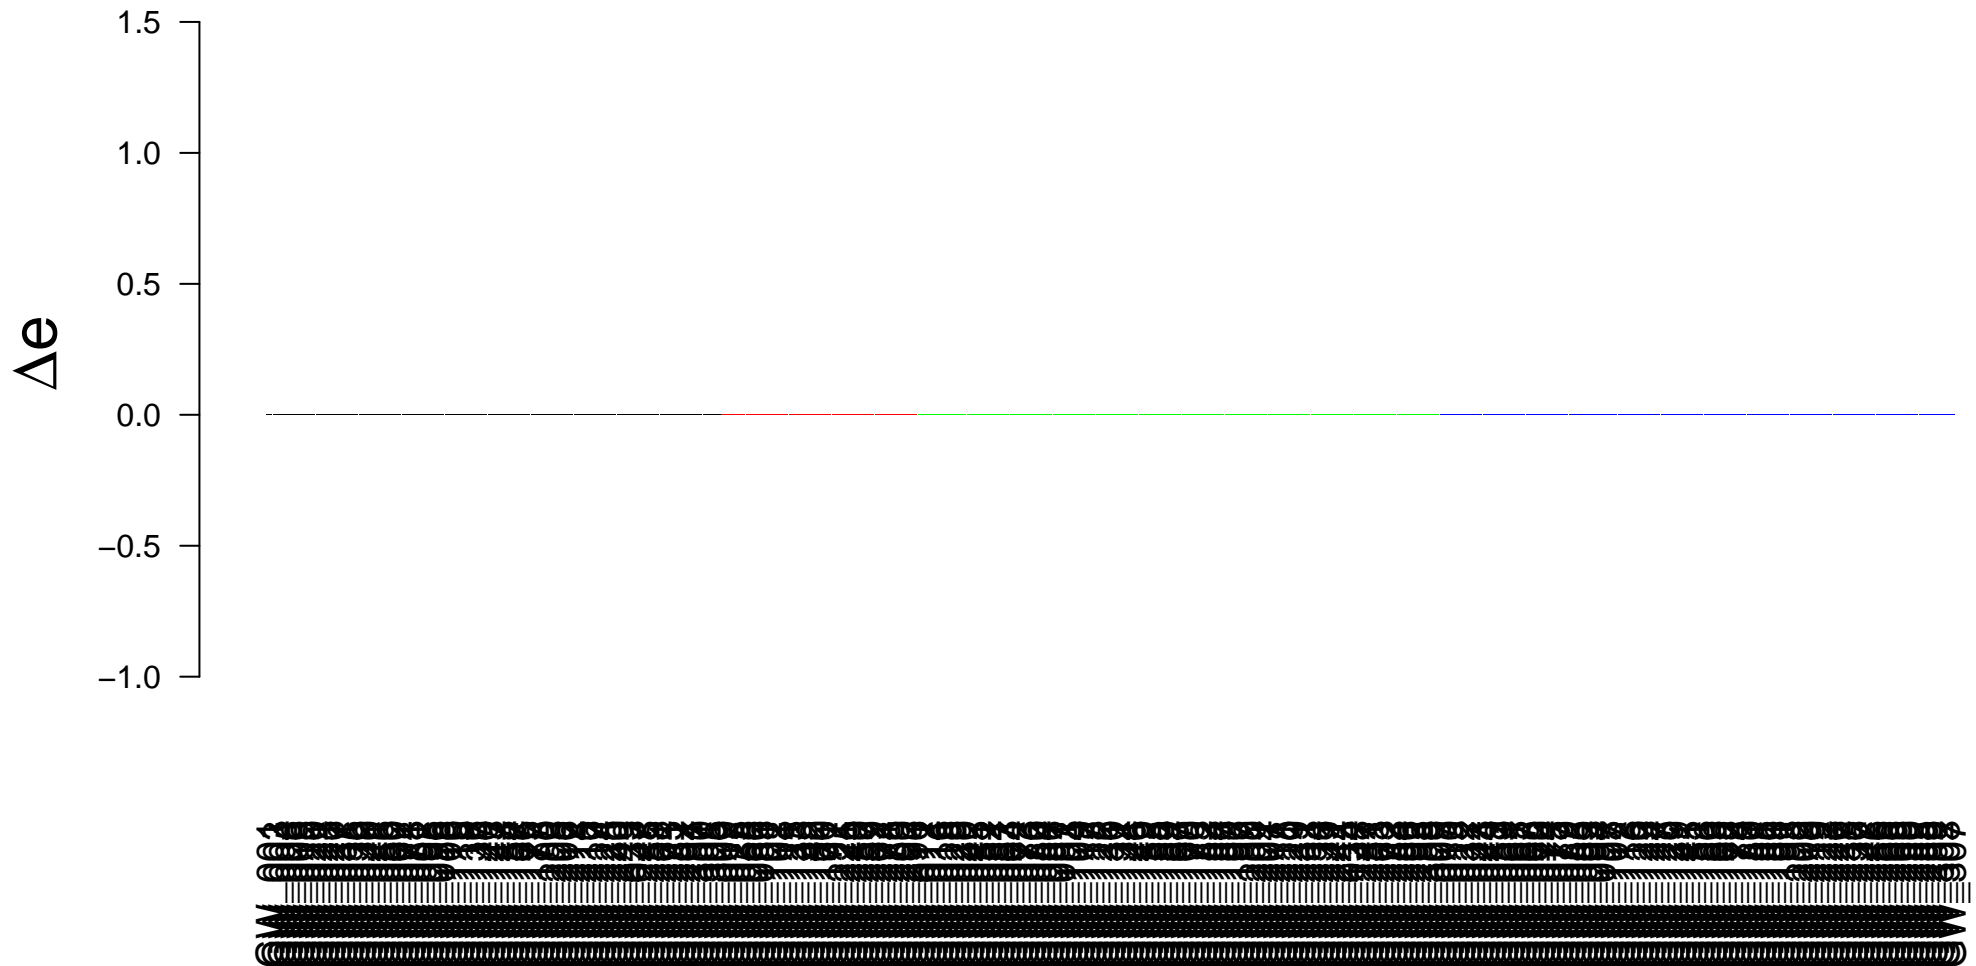

Δe

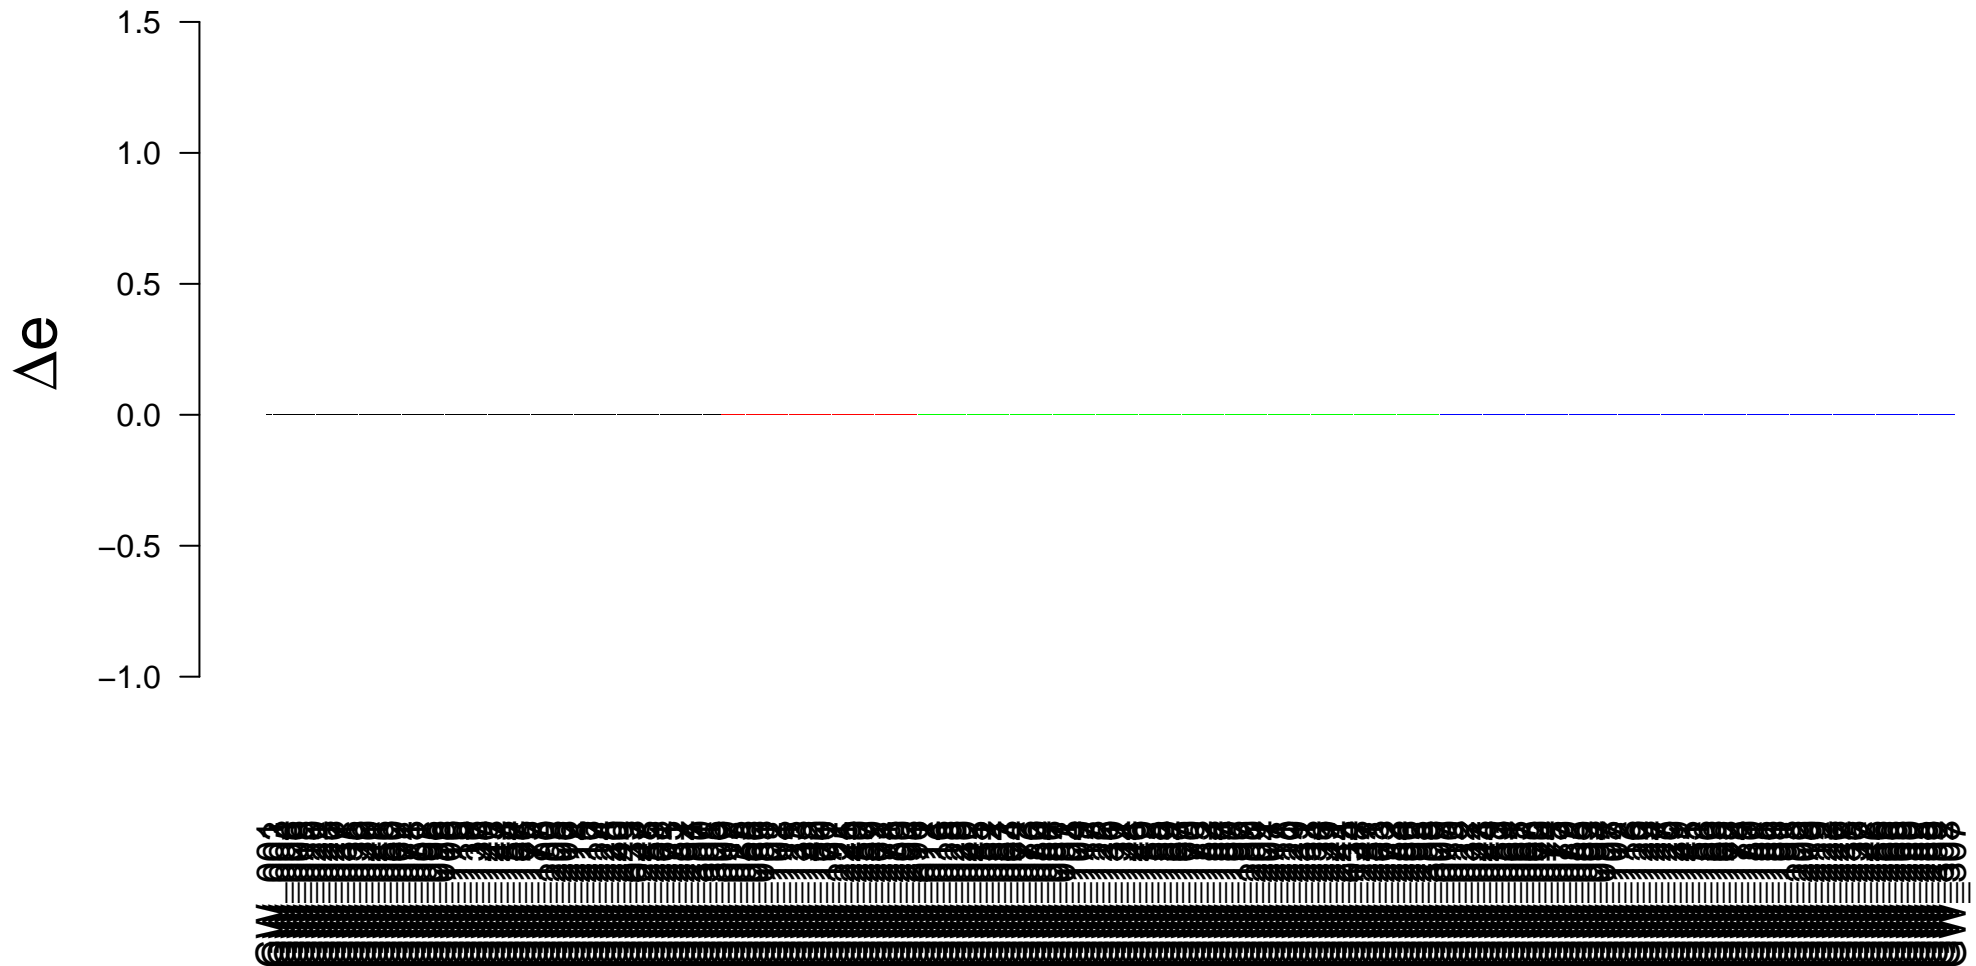

Expression of negative regulation of macrophage derived foam cell differentiation in Spot I

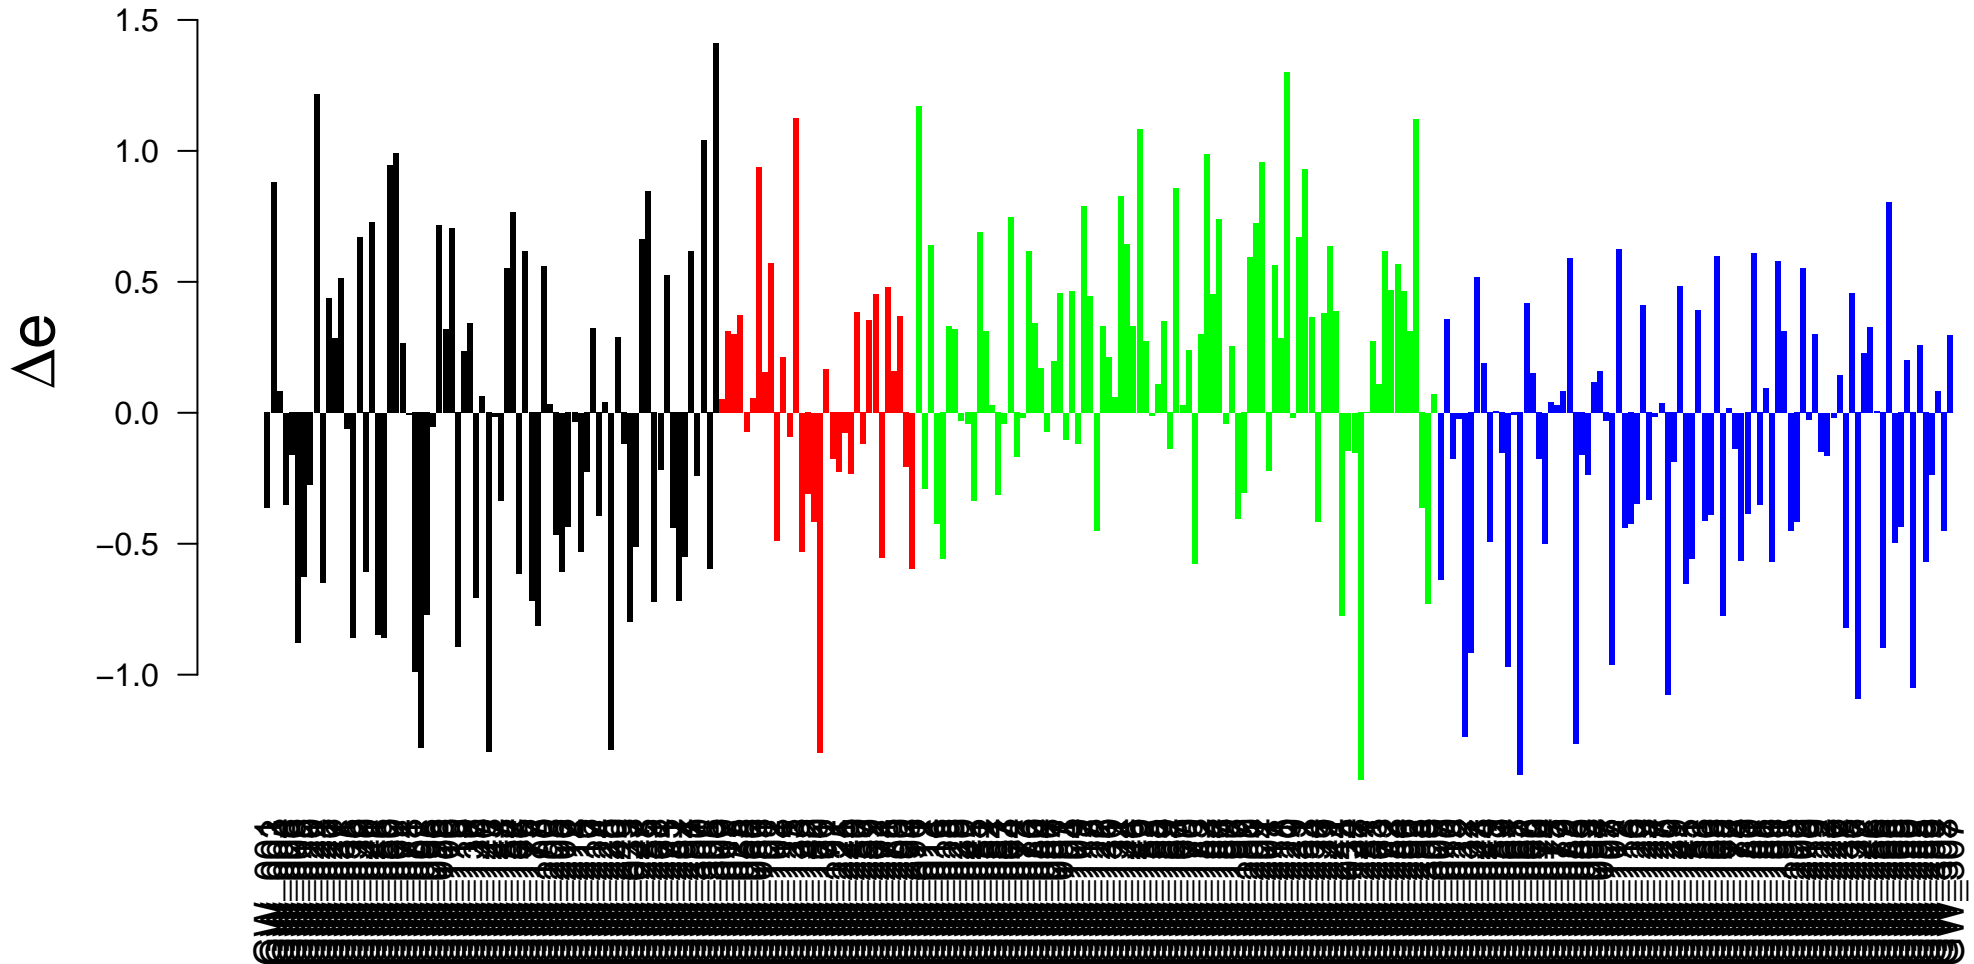

Expression of negative regulation of macrophage derived foam cell differentiation in Spot J

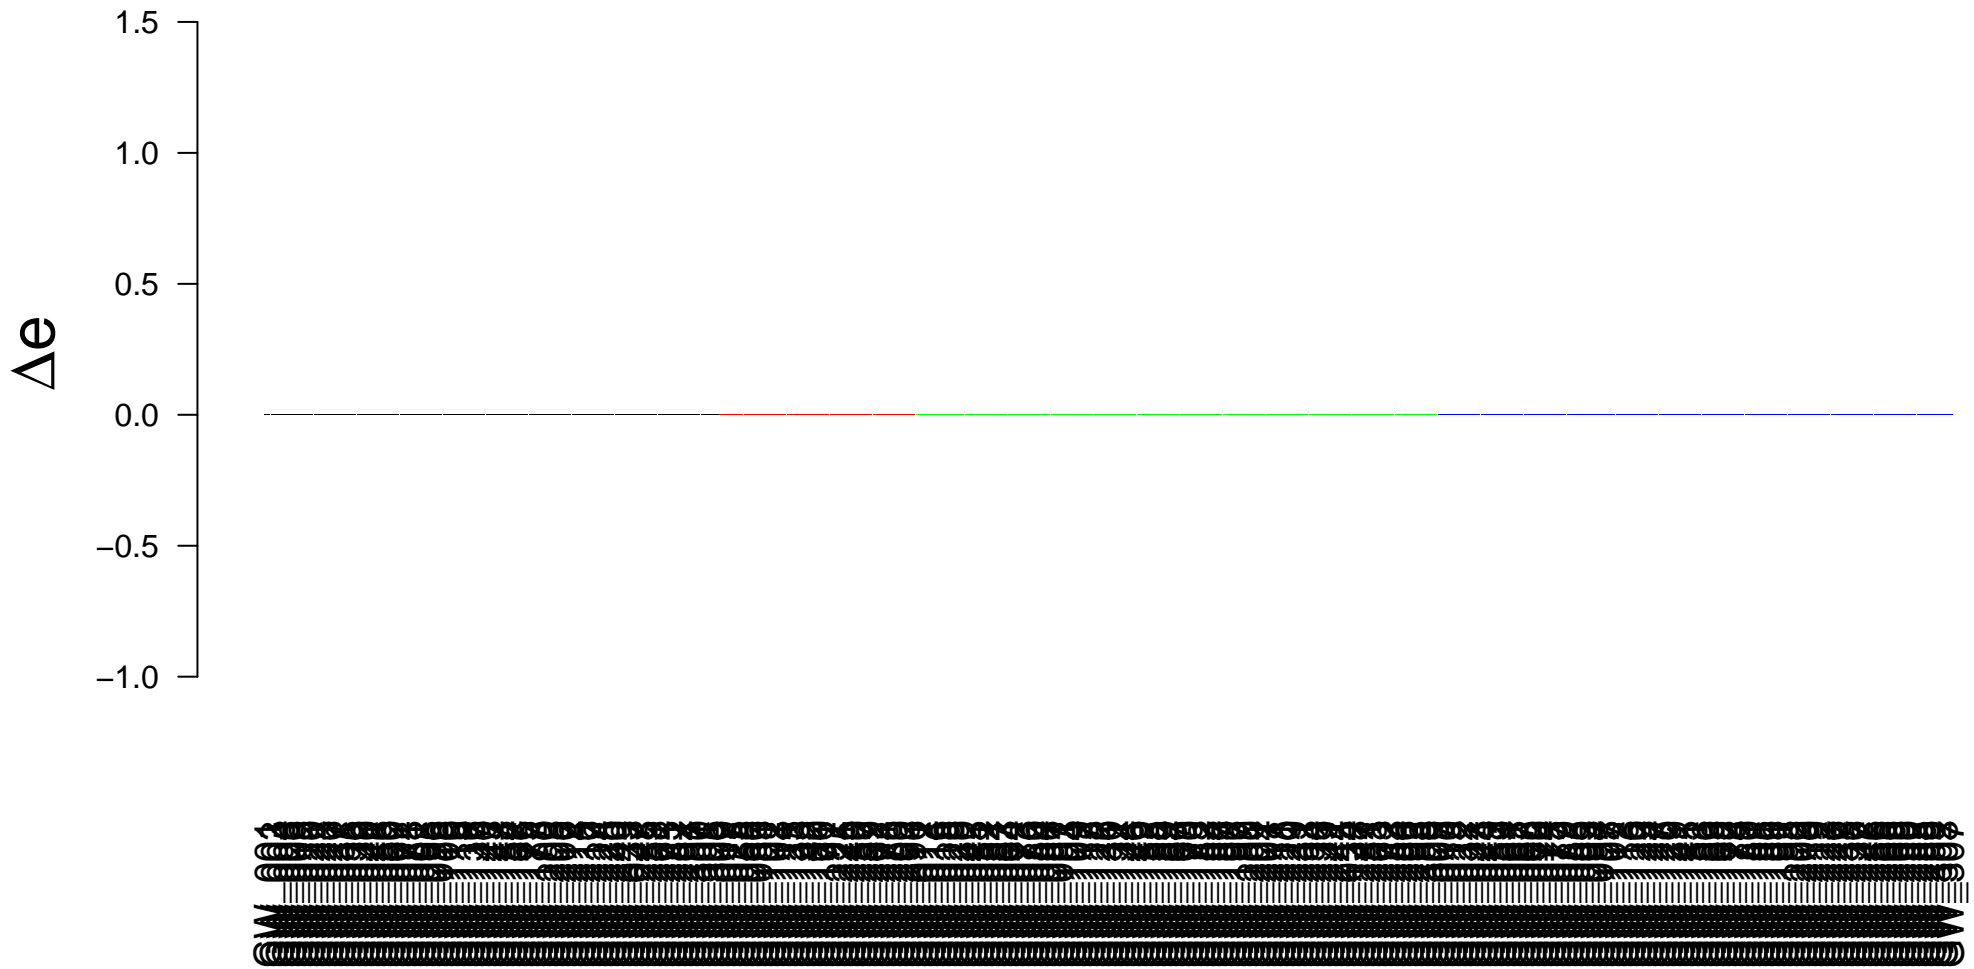

Expression of negative regulation of macrophage derived foam cell differentiation in Spot K

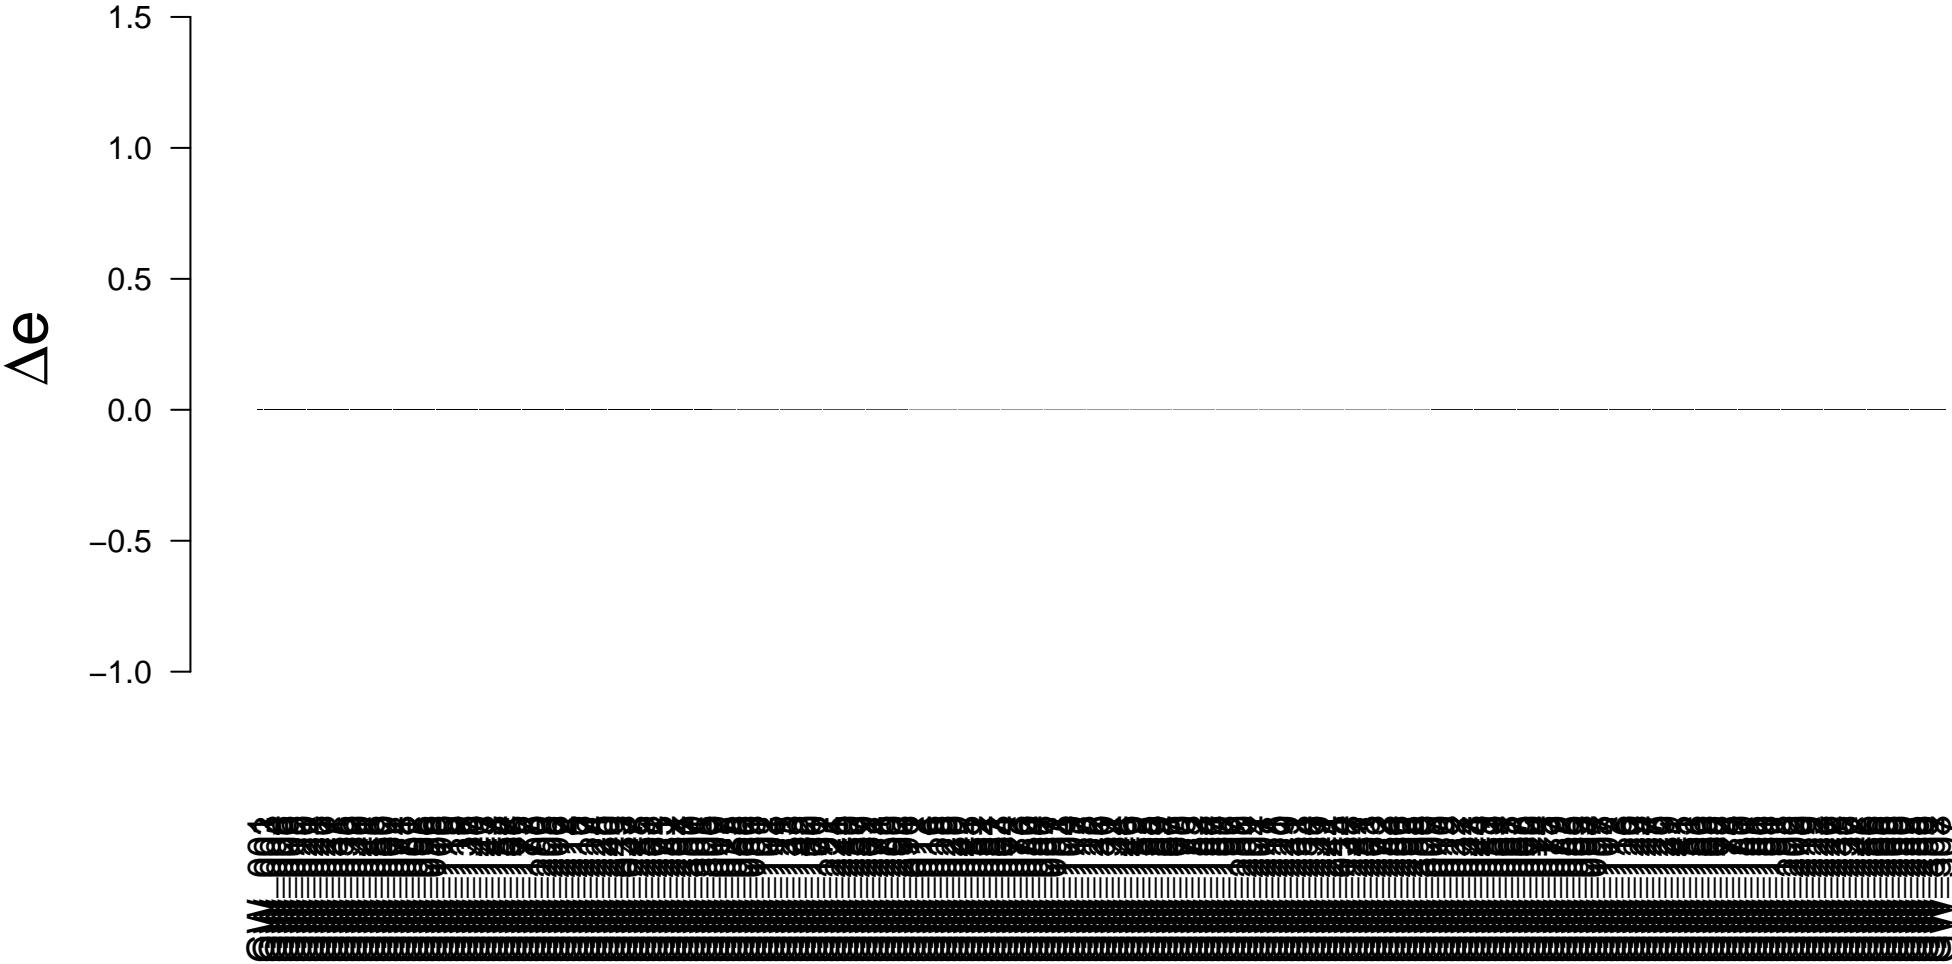

Expression of negative regulation of macrophage derived foam cell differentiation in Spot L

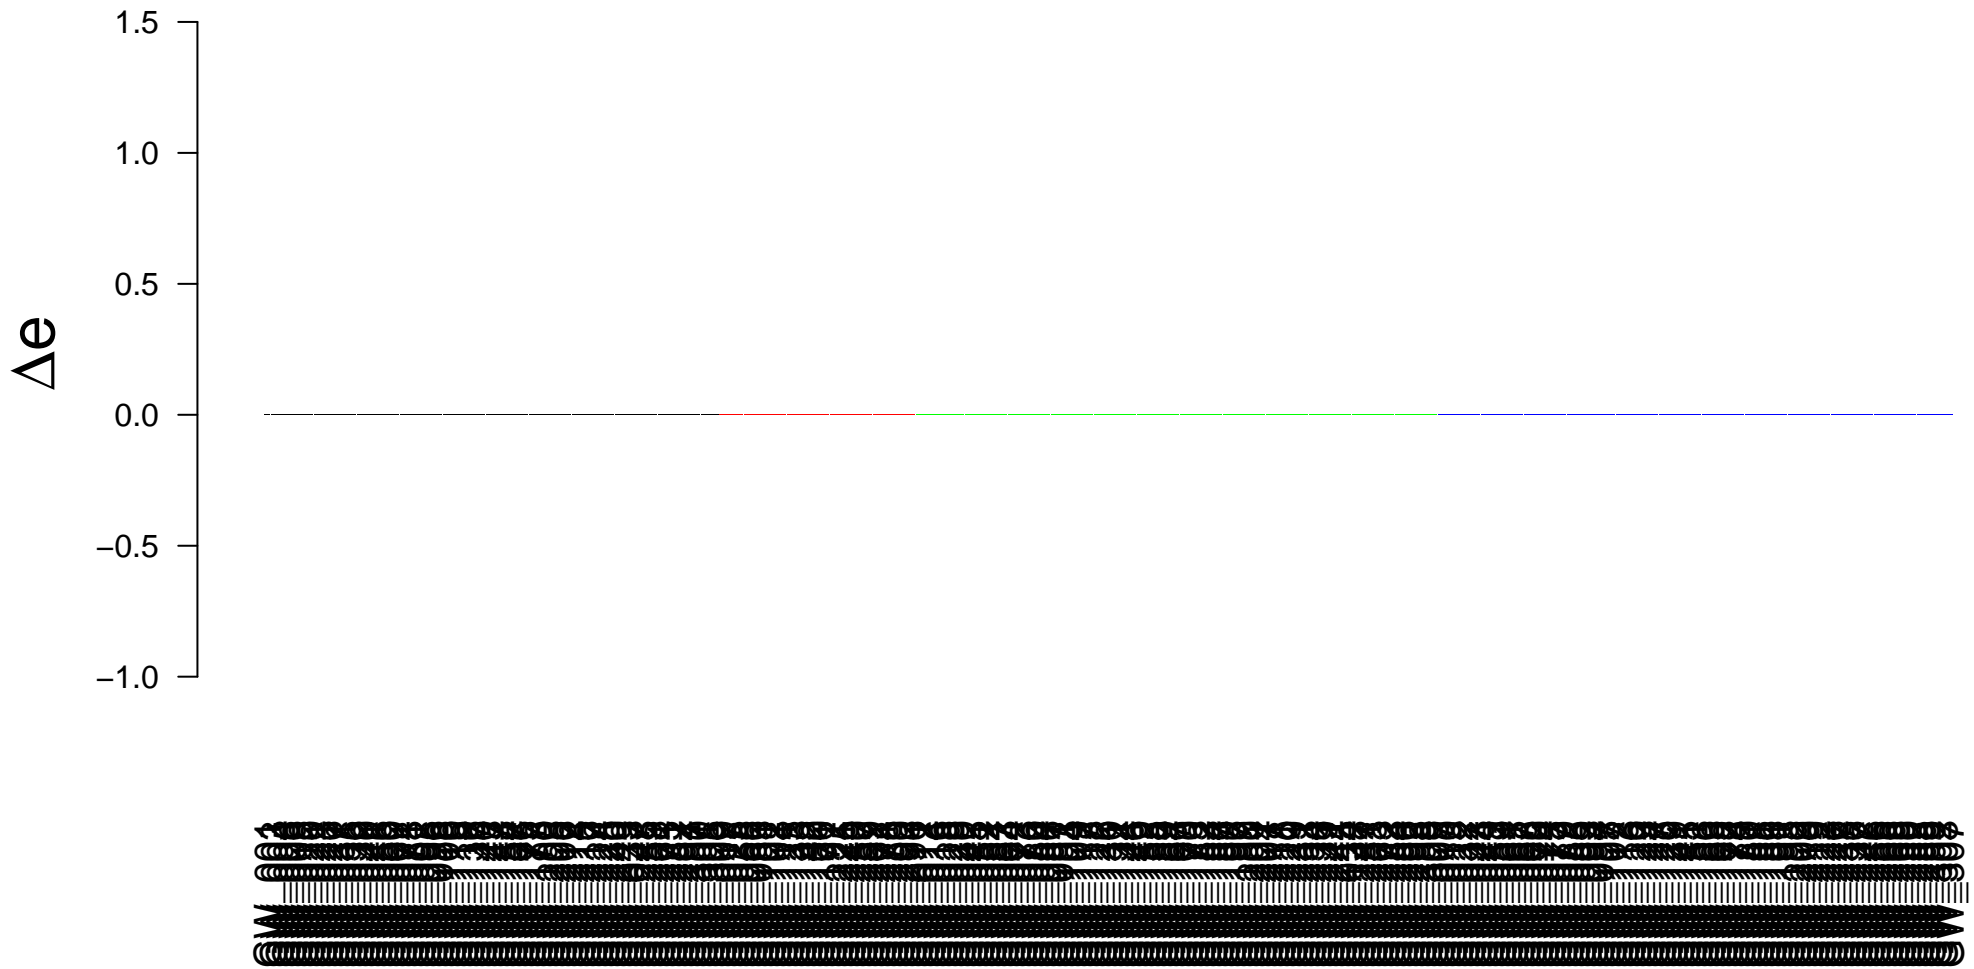

Expression of negative regulation of macrophage derived foam cell differentiation in Spot M

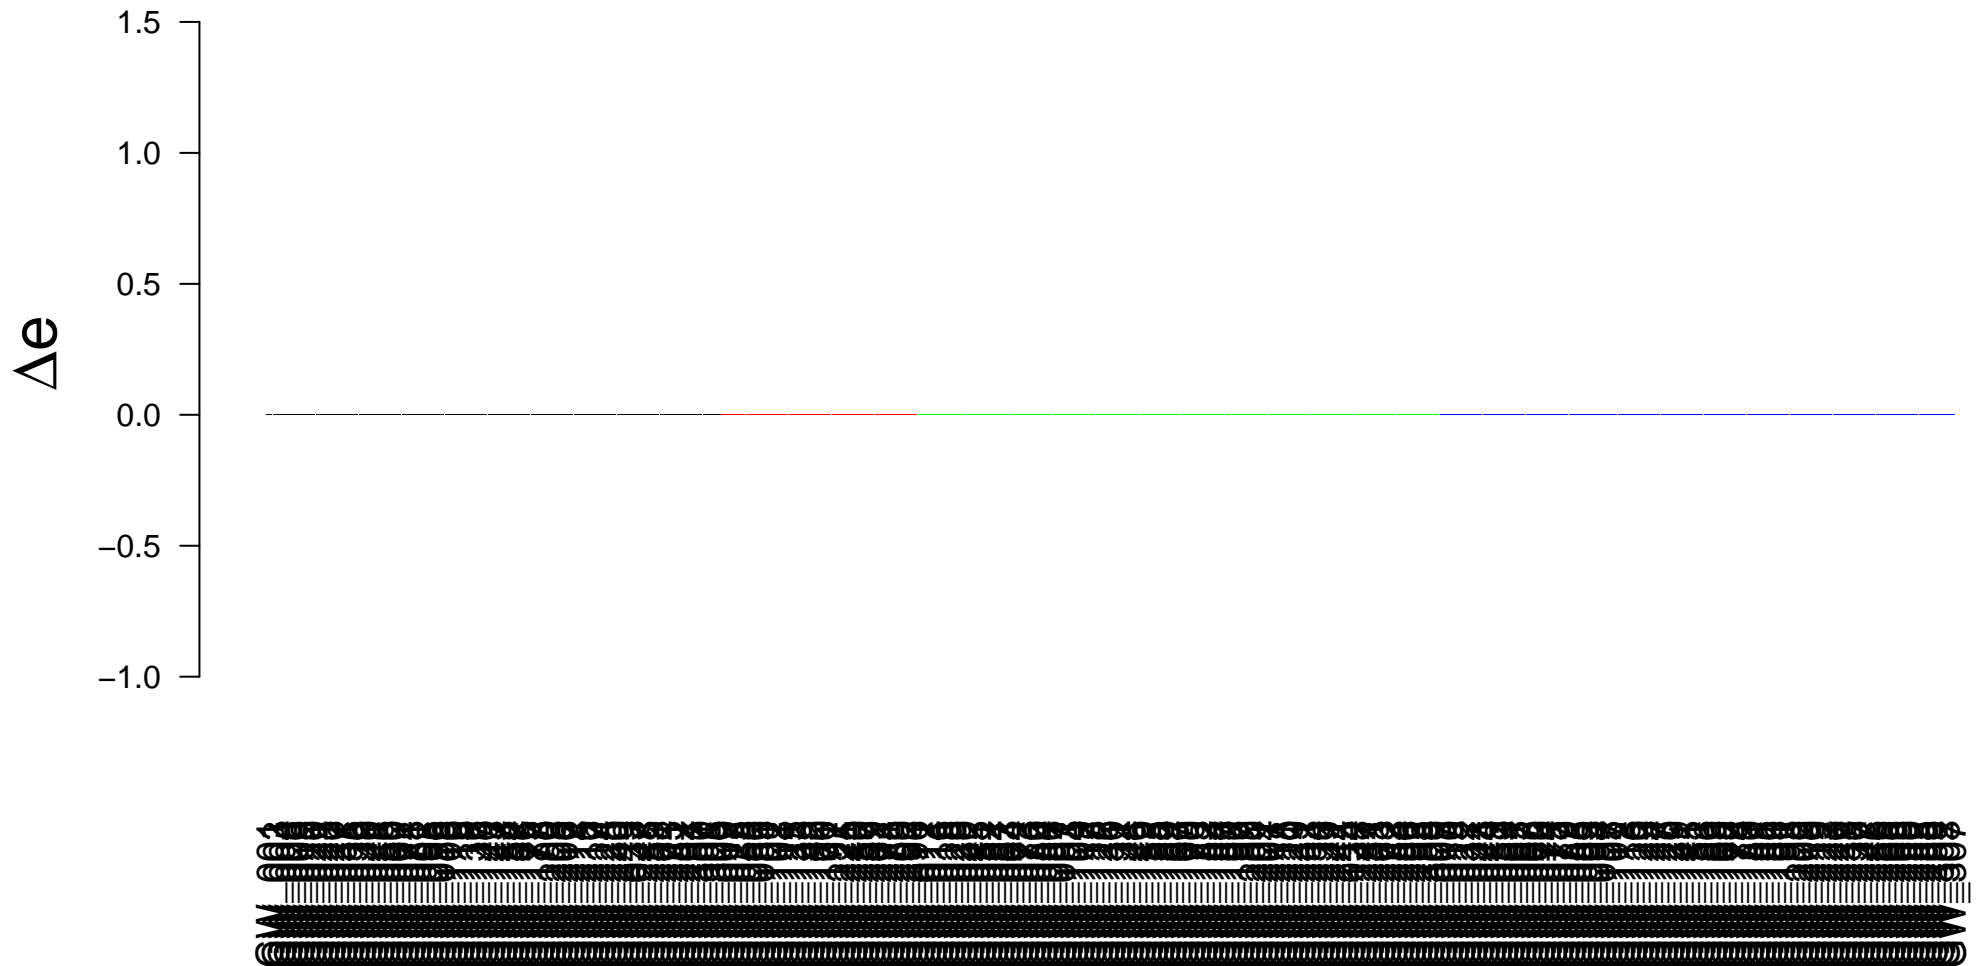

Expression of negative regulation of macrophage derived foam cell differentiation in Spot N

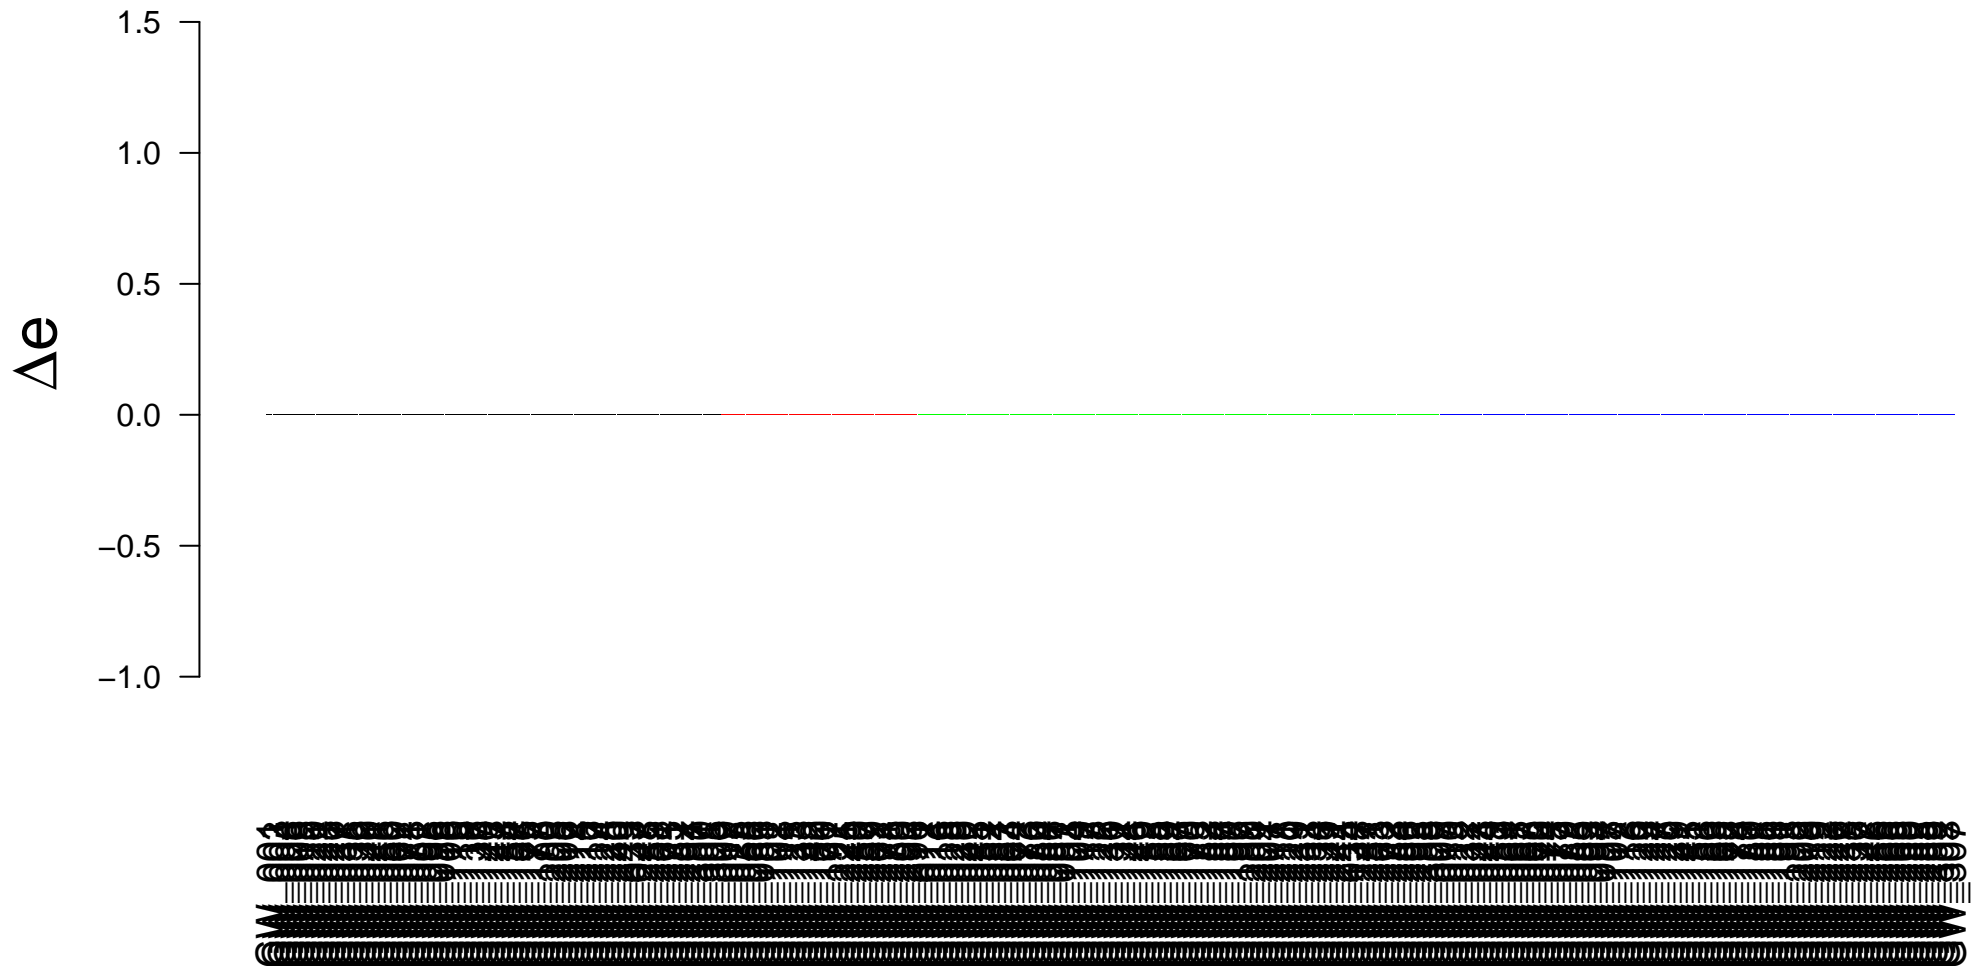

Expression of negative regulation of macrophage derived foam cell differentiation in Spot O

Expression of negative regulation of macrophage derived foam cell differentiation in Spot P

Expression of negative regulation of macrophage derived foam cell differentiation in Spot Q

Expression of negative regulation of macrophage derived foam cell differentiation in Spot R
