

negative regulation of neuron projection development

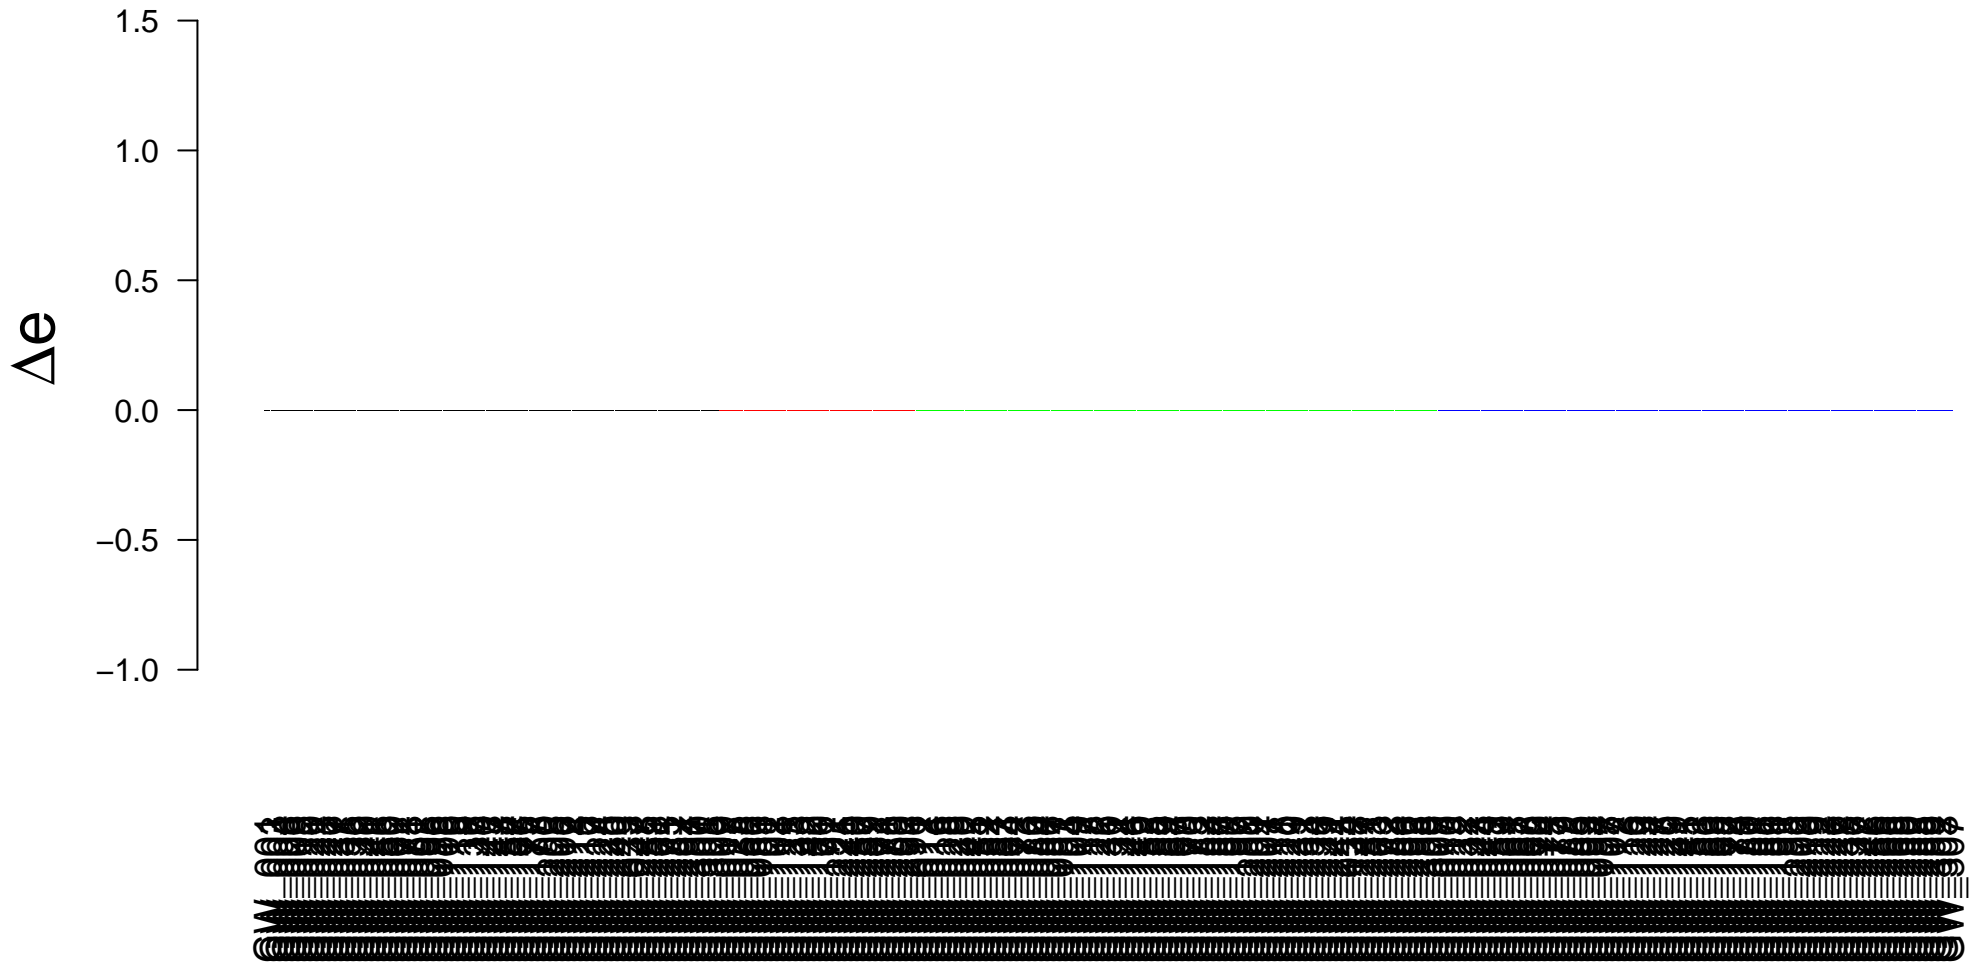

negative regulation of neuron projection development

Enrichment in spots: negative regulation of neuron projection development

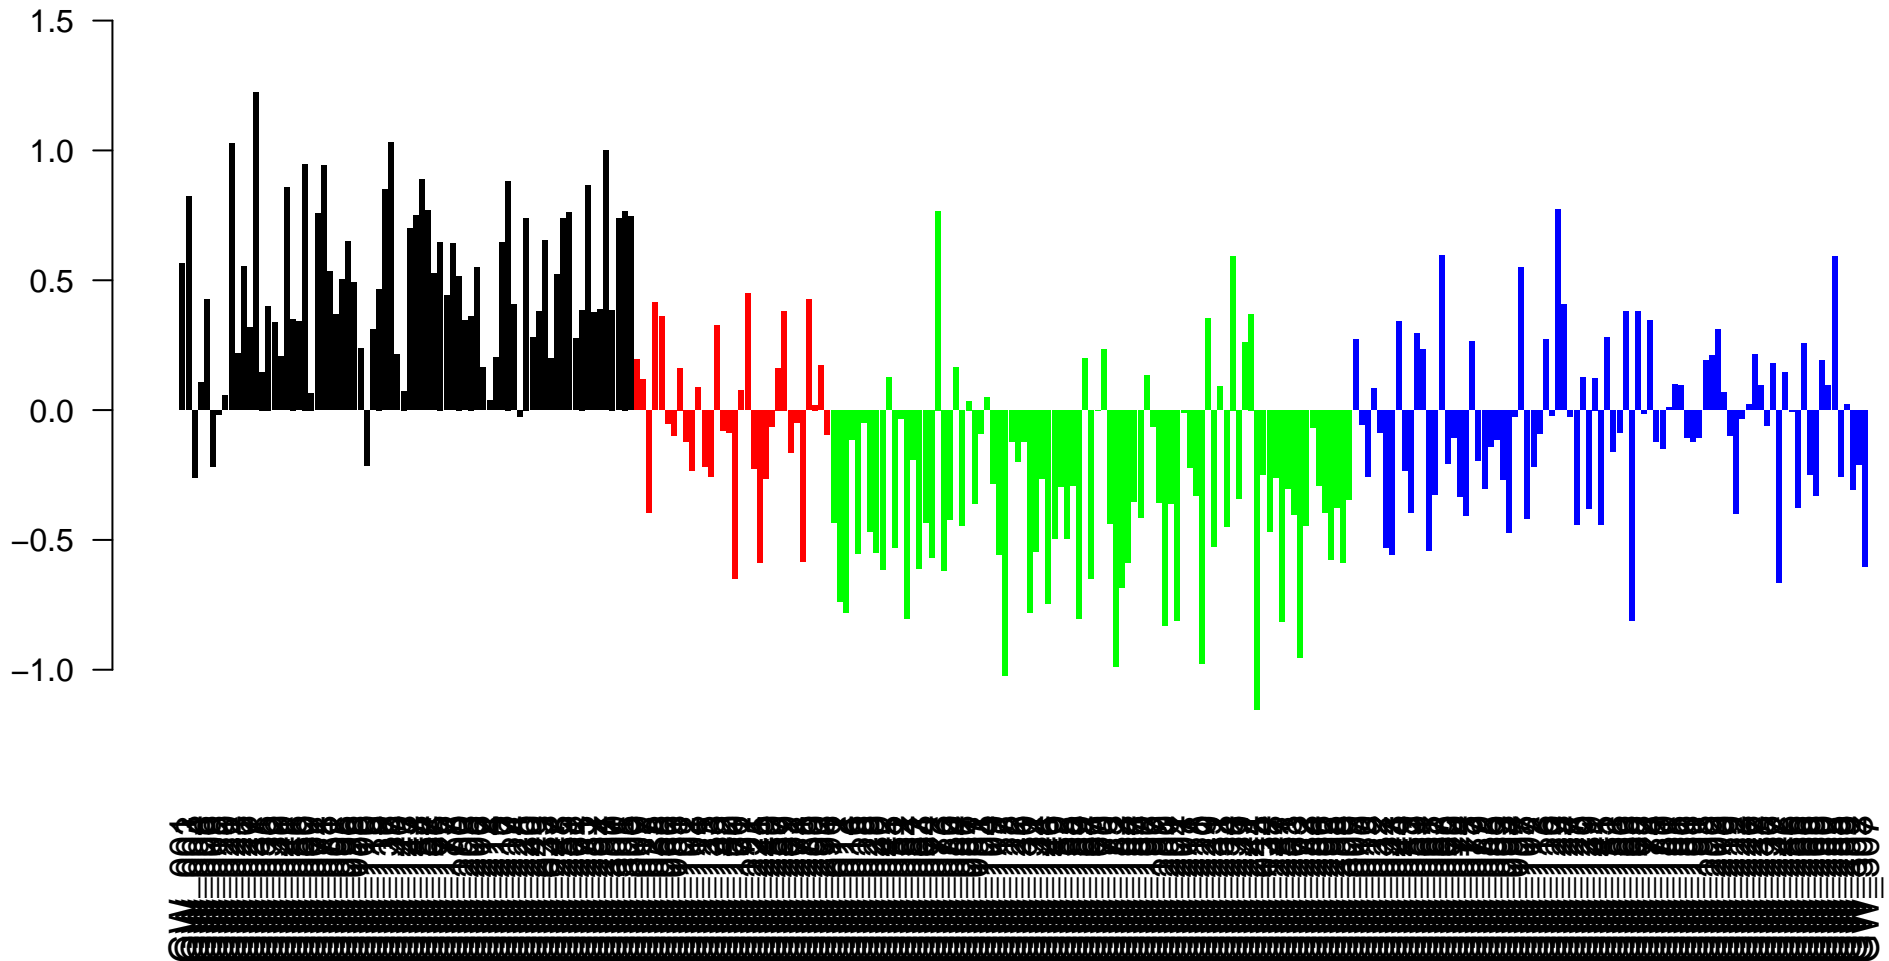

Expression of negative regulation of neuron projection development in Spot A

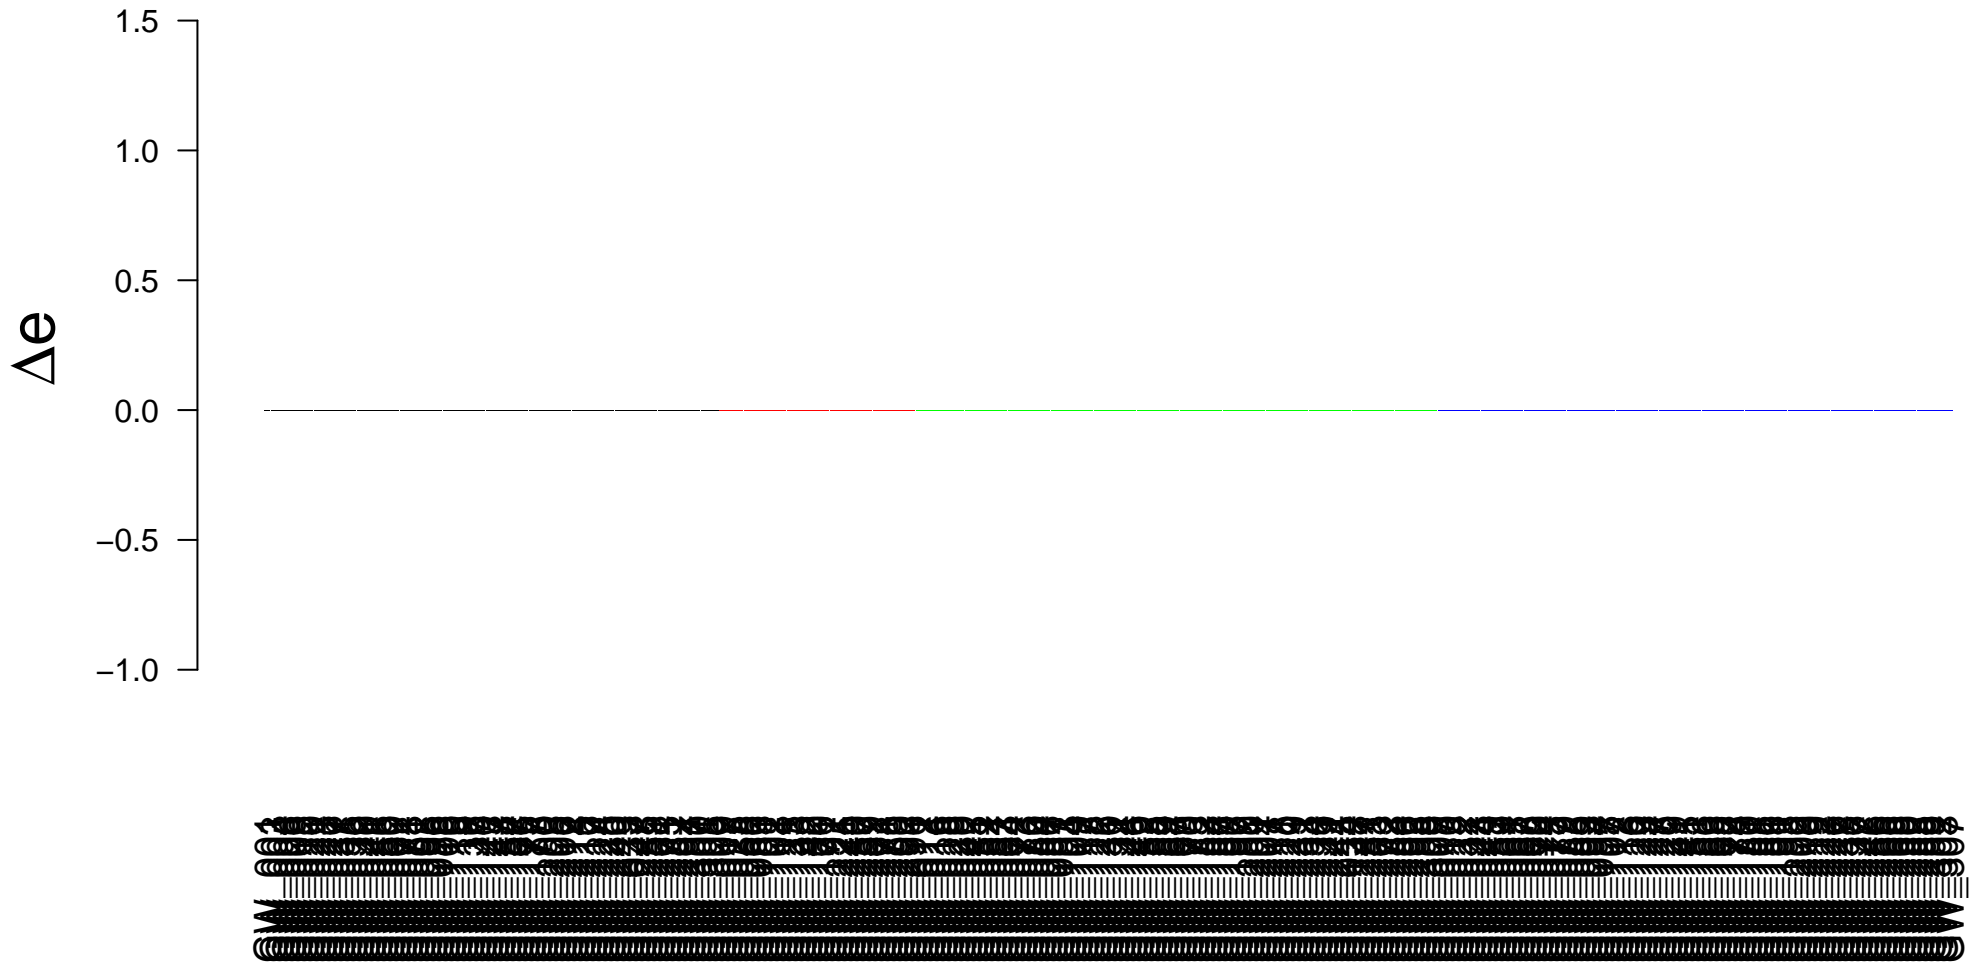

Expression of negative regulation of neuron projection development in Spot B

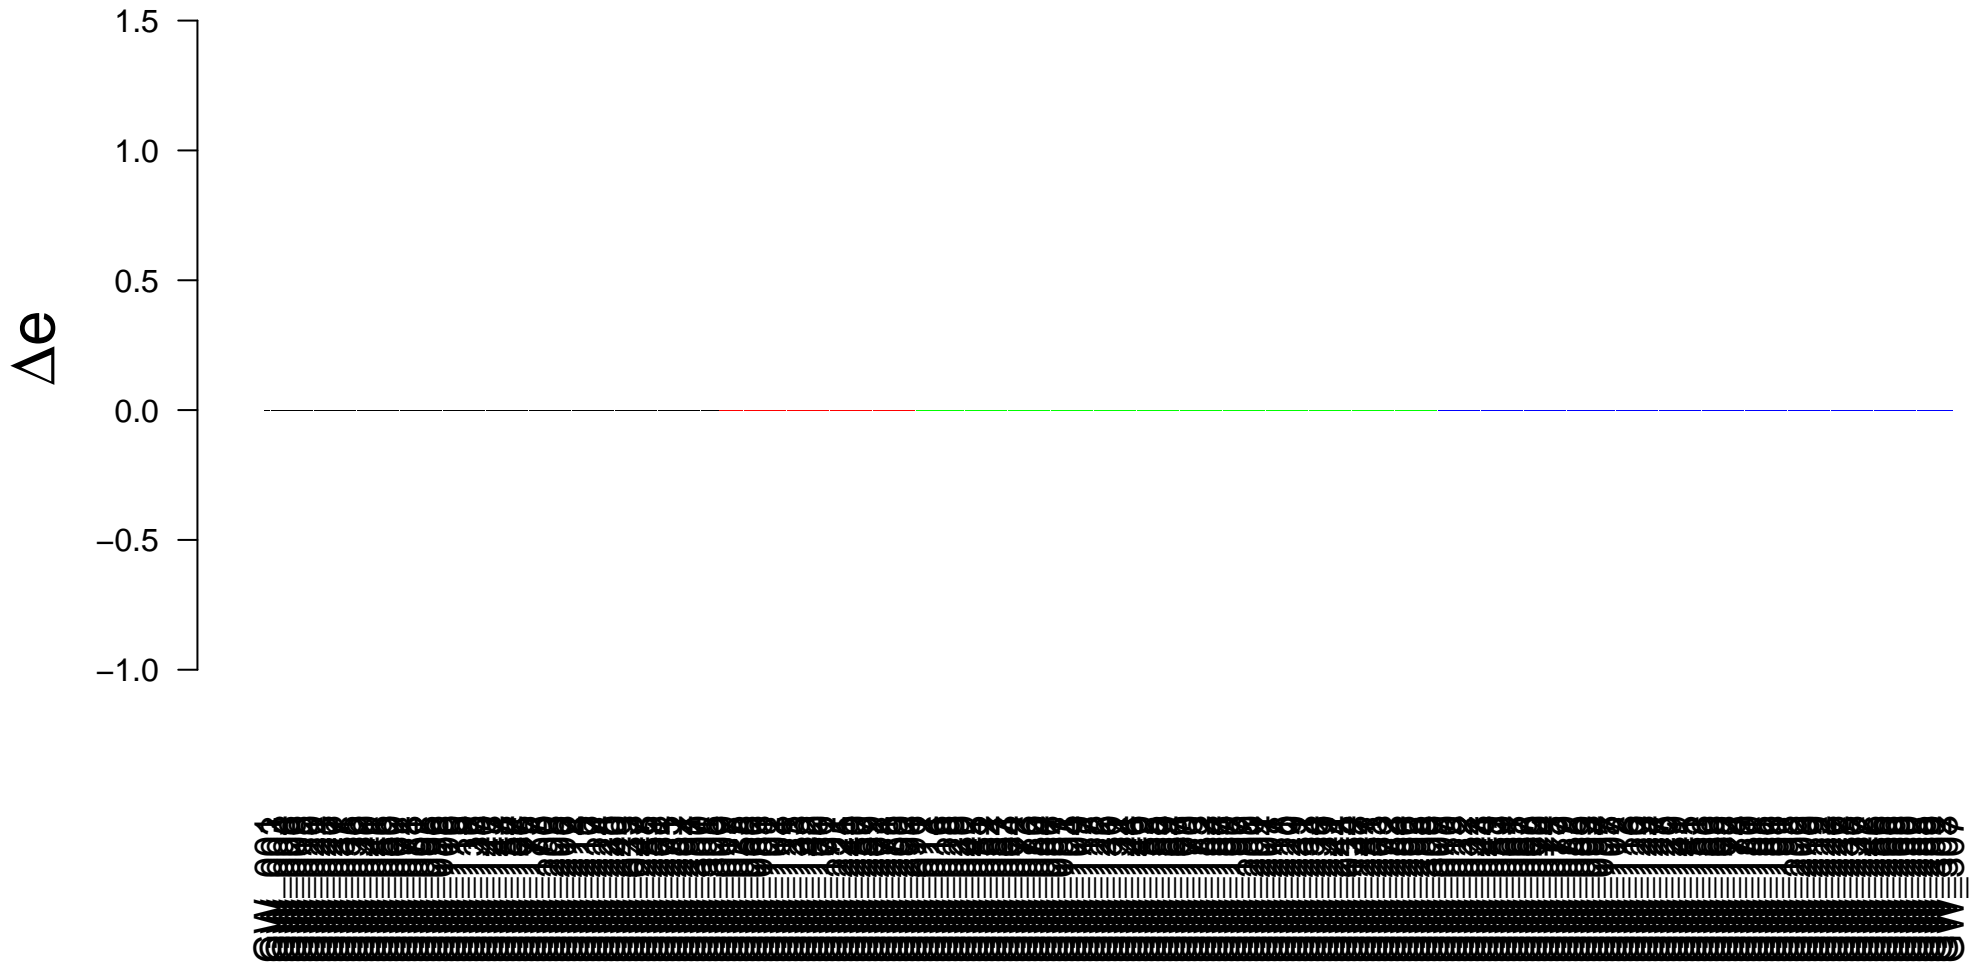

Δe

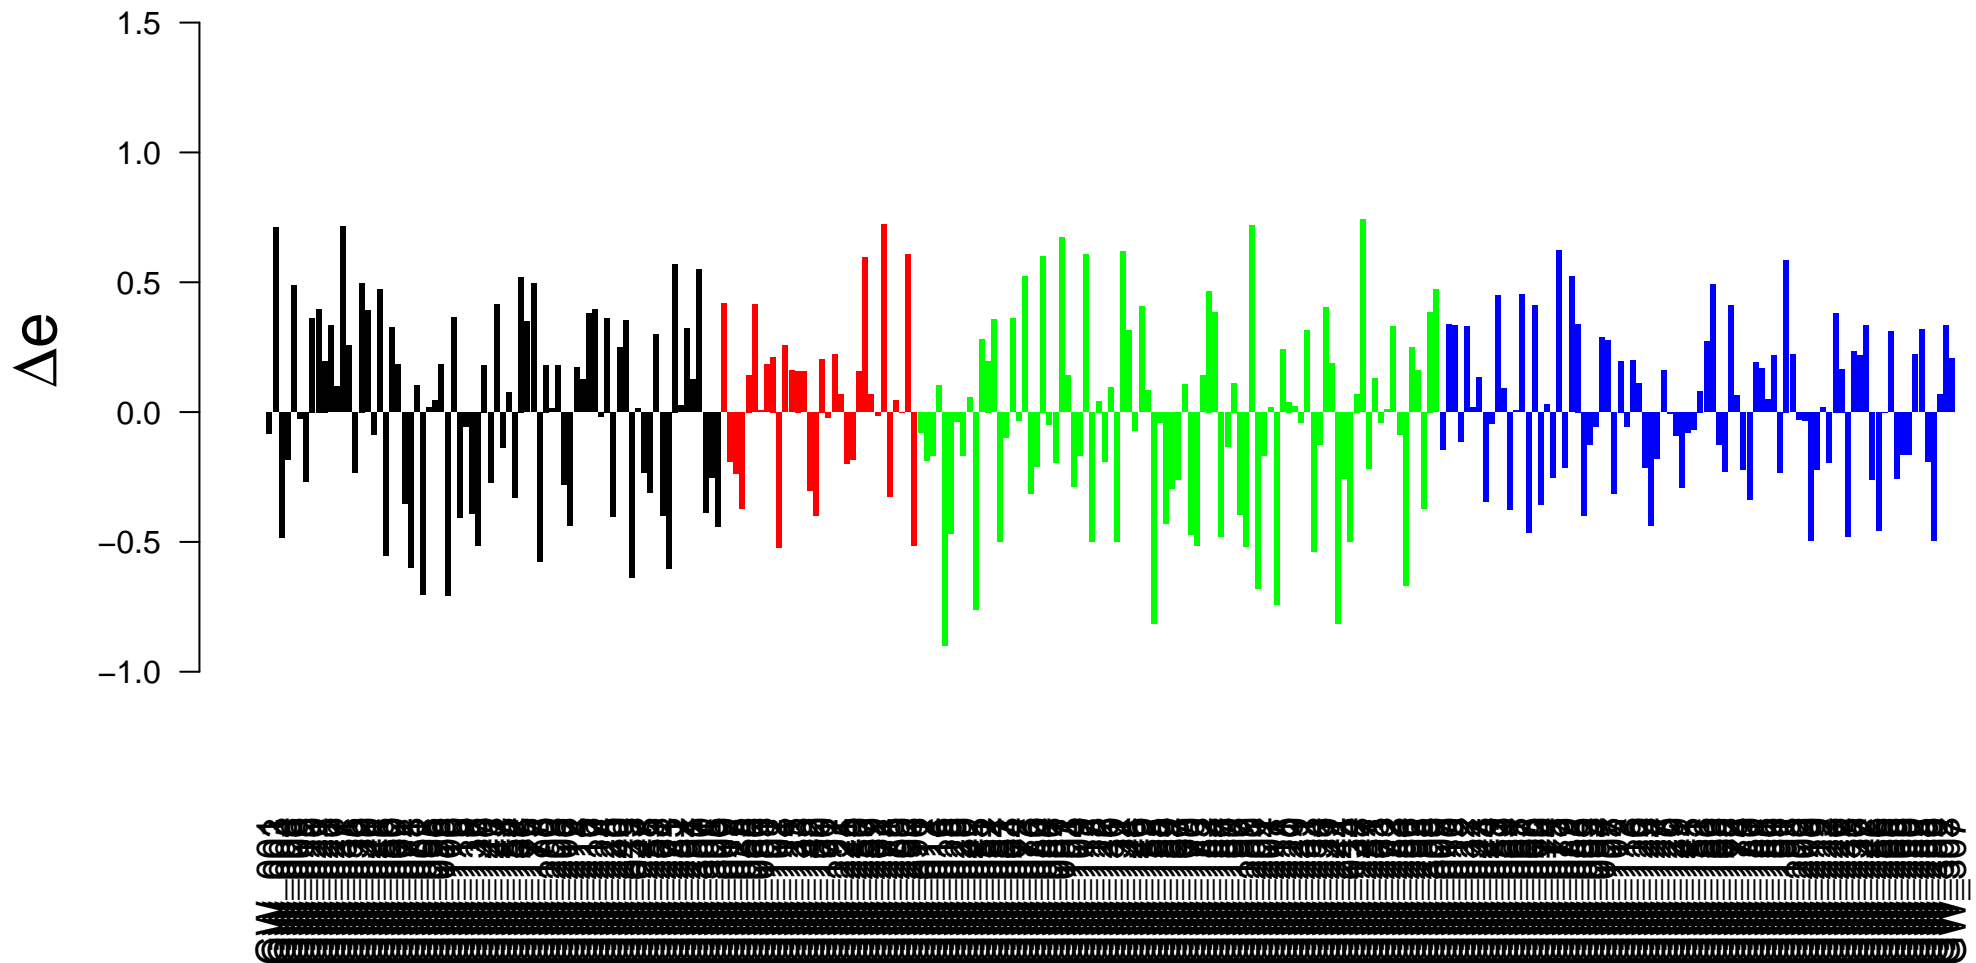

Expression of negative regulation of neuron projection development in Spot C

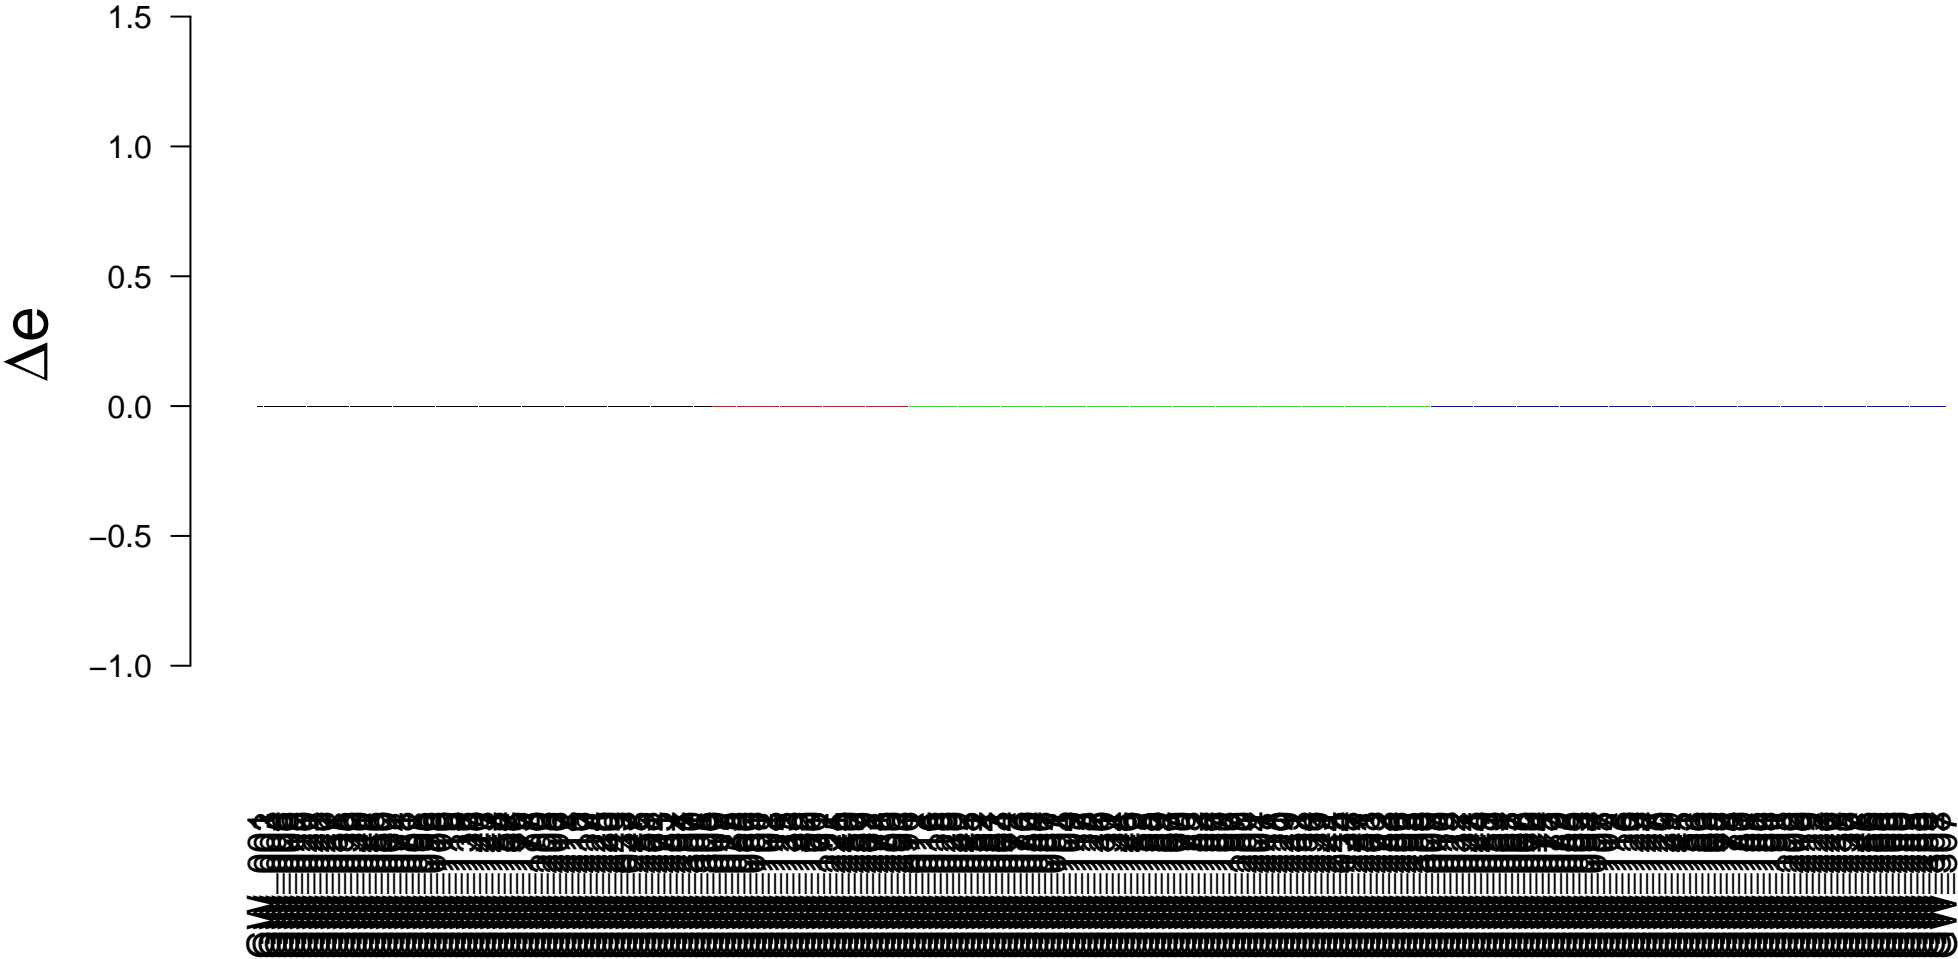

Expression of negative regulation of neuron projection development in Spot D

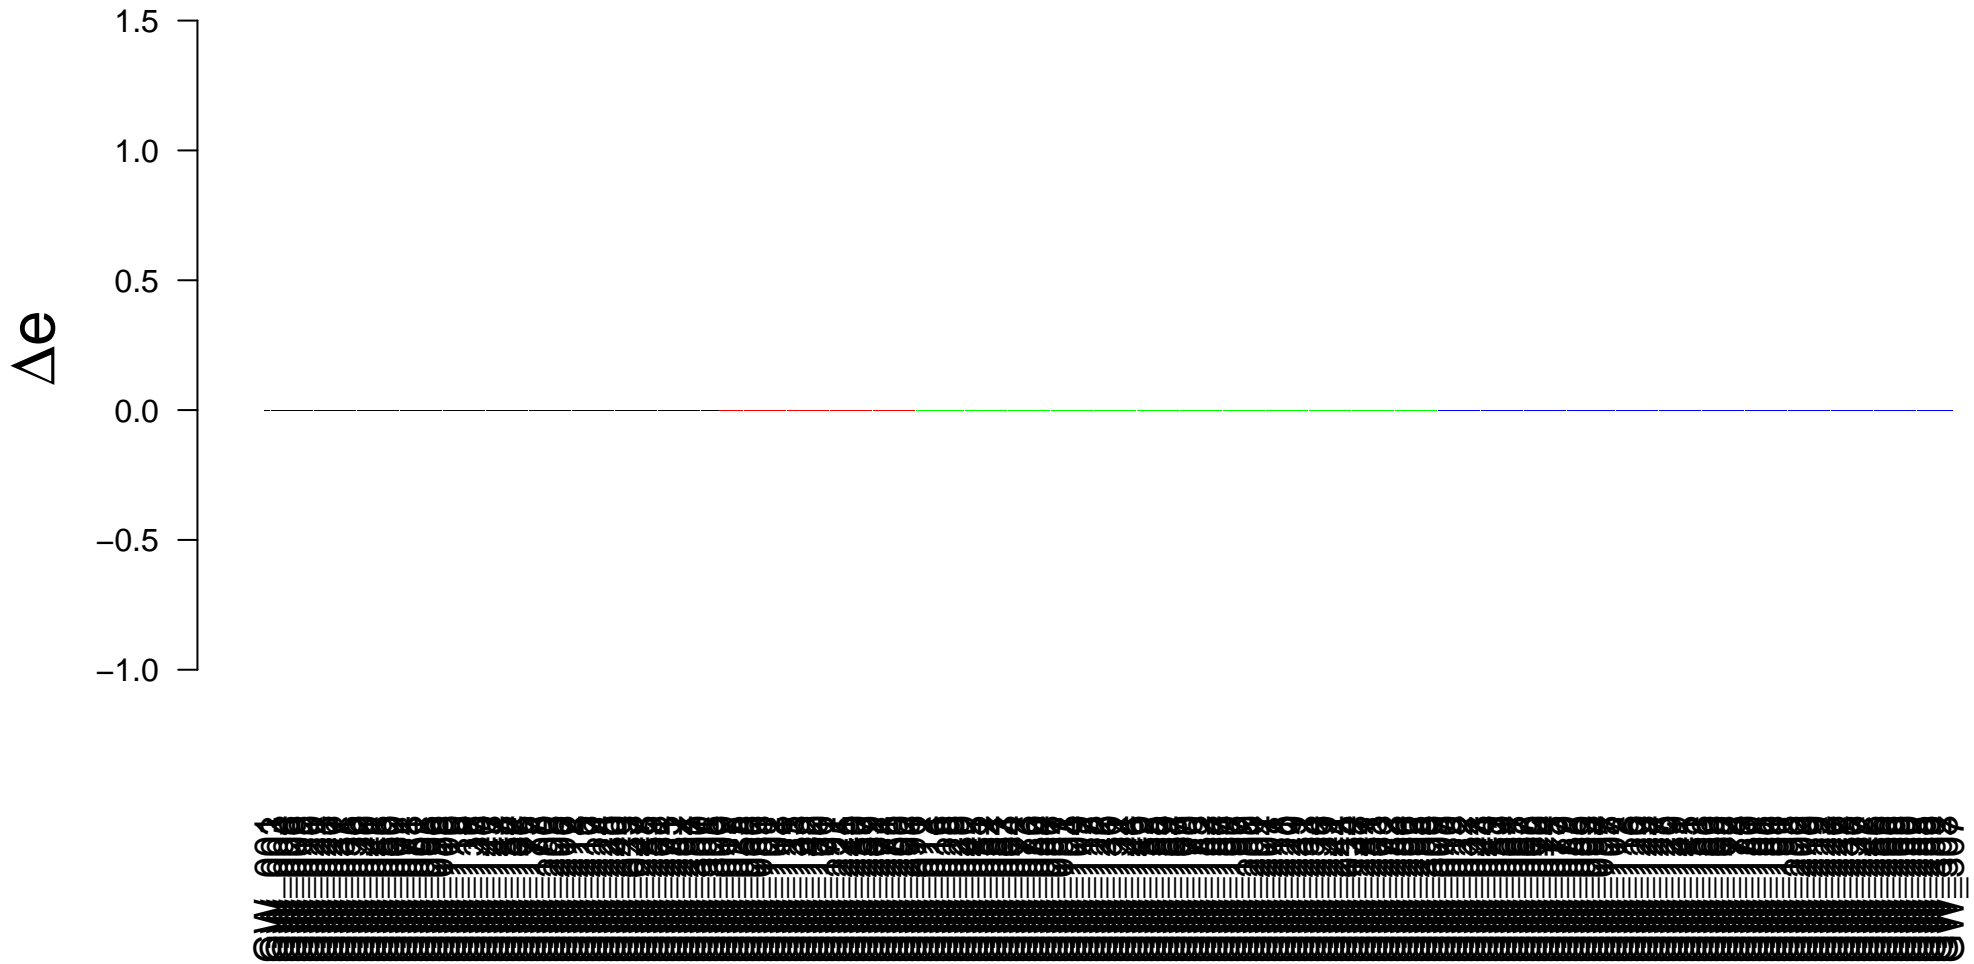

Expression of negative regulation of neuron projection development in Spot E

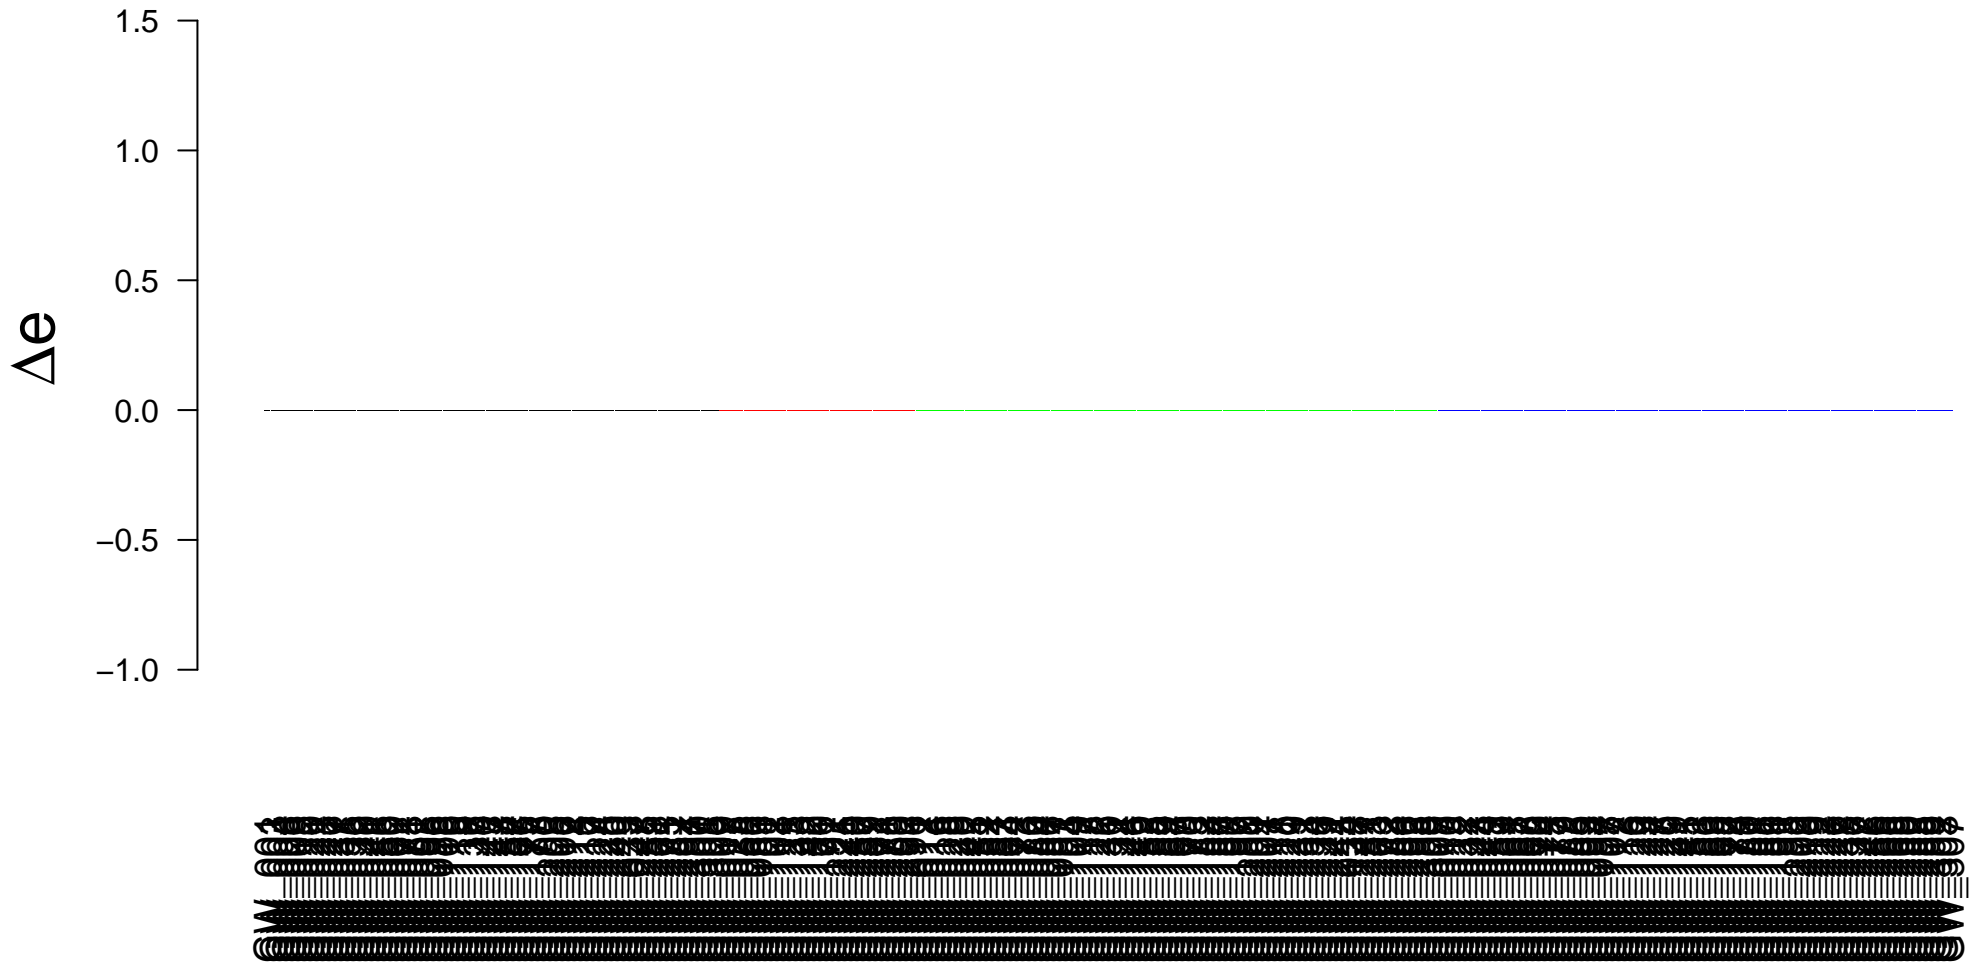

Expression of negative regulation of neuron projection development in Spot F

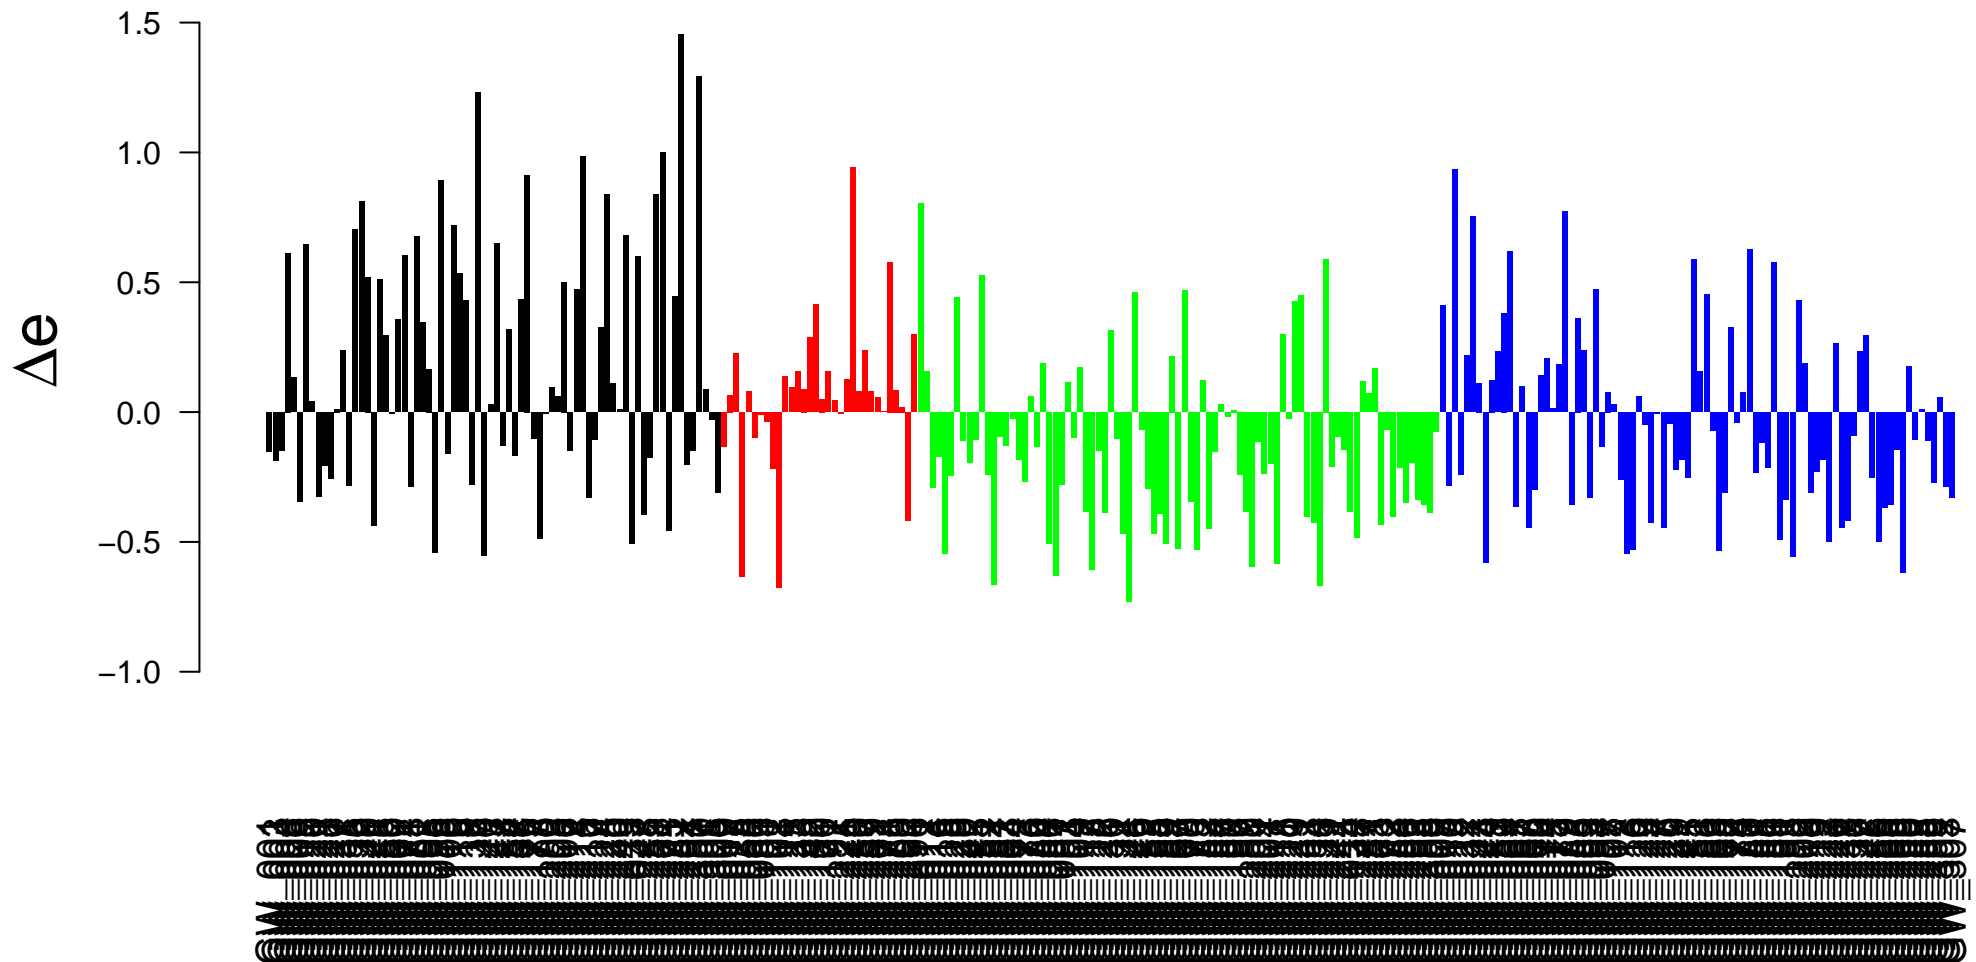

Expression of negative regulation of neuron projection development in Spot G

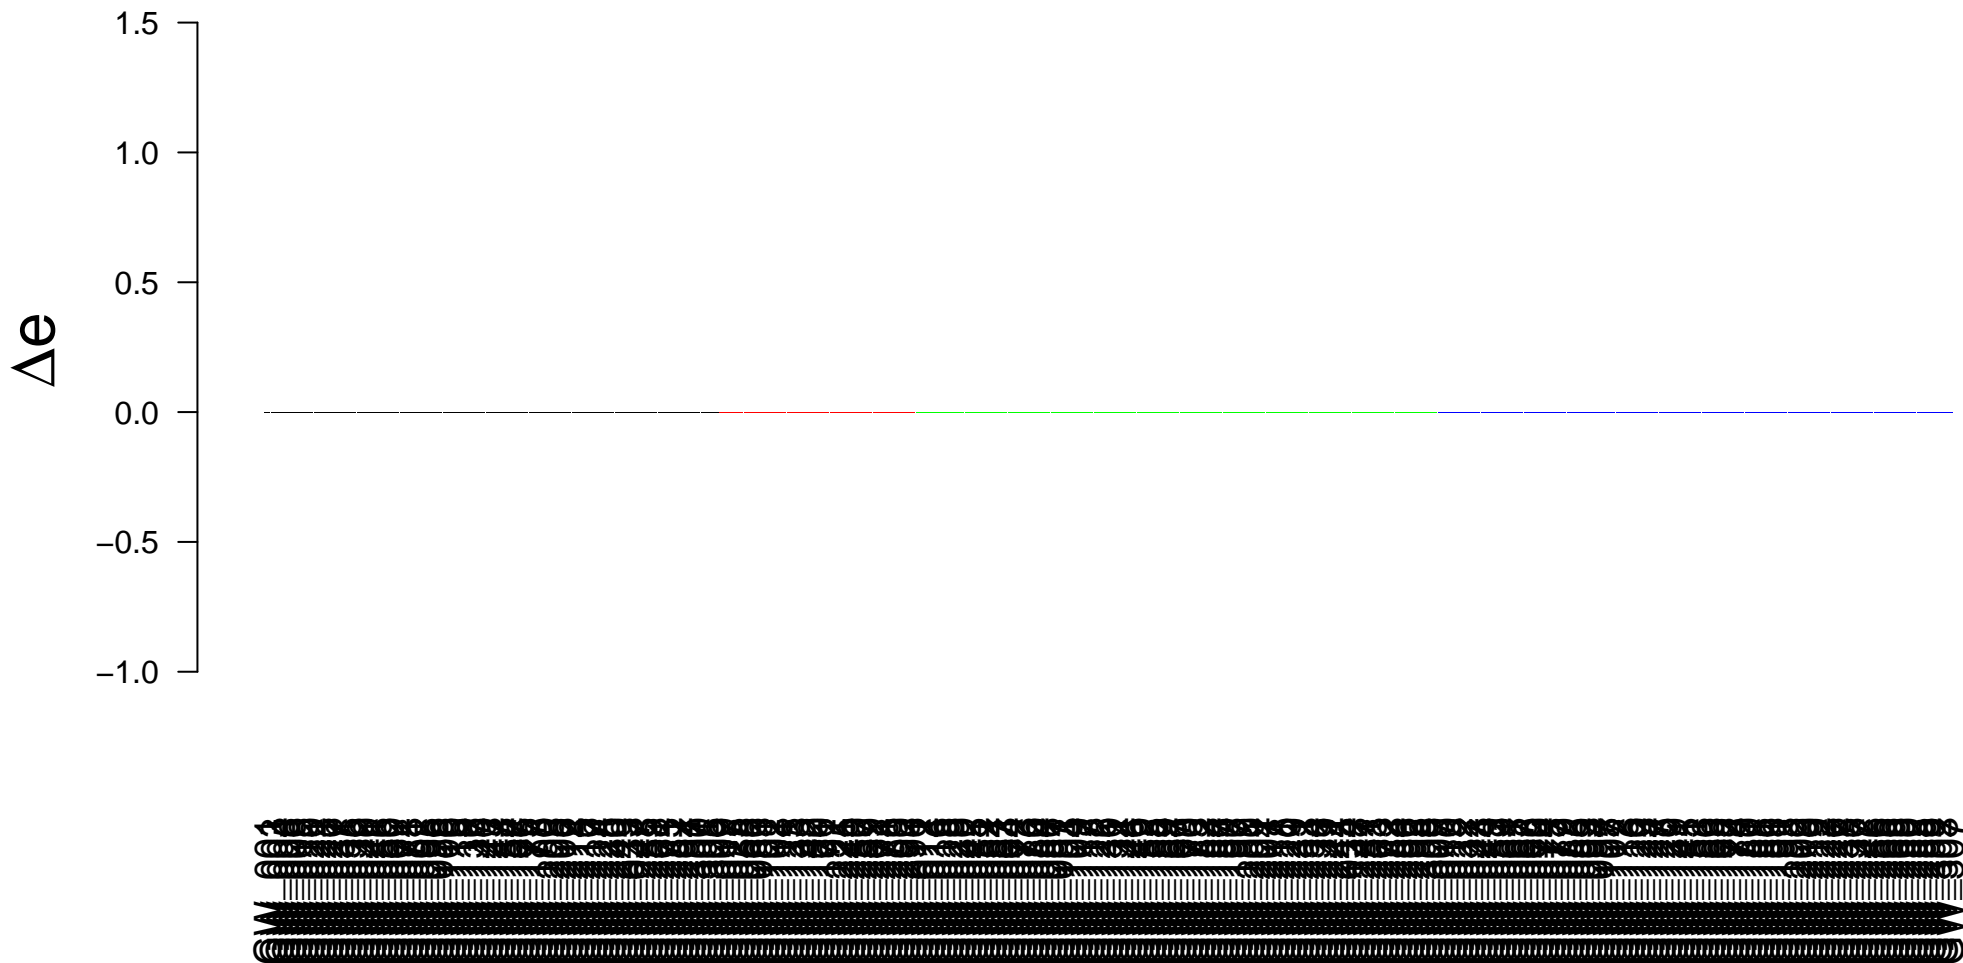

Expression of negative regulation of neuron projection development in Spot H

Expression of negative regulation of neuron projection development in Spot I

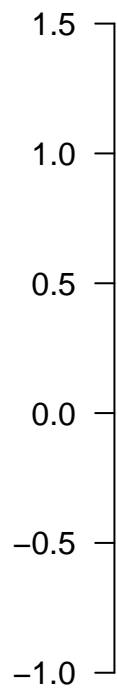

Expression of negative regulation of neuron projection development in Spot J

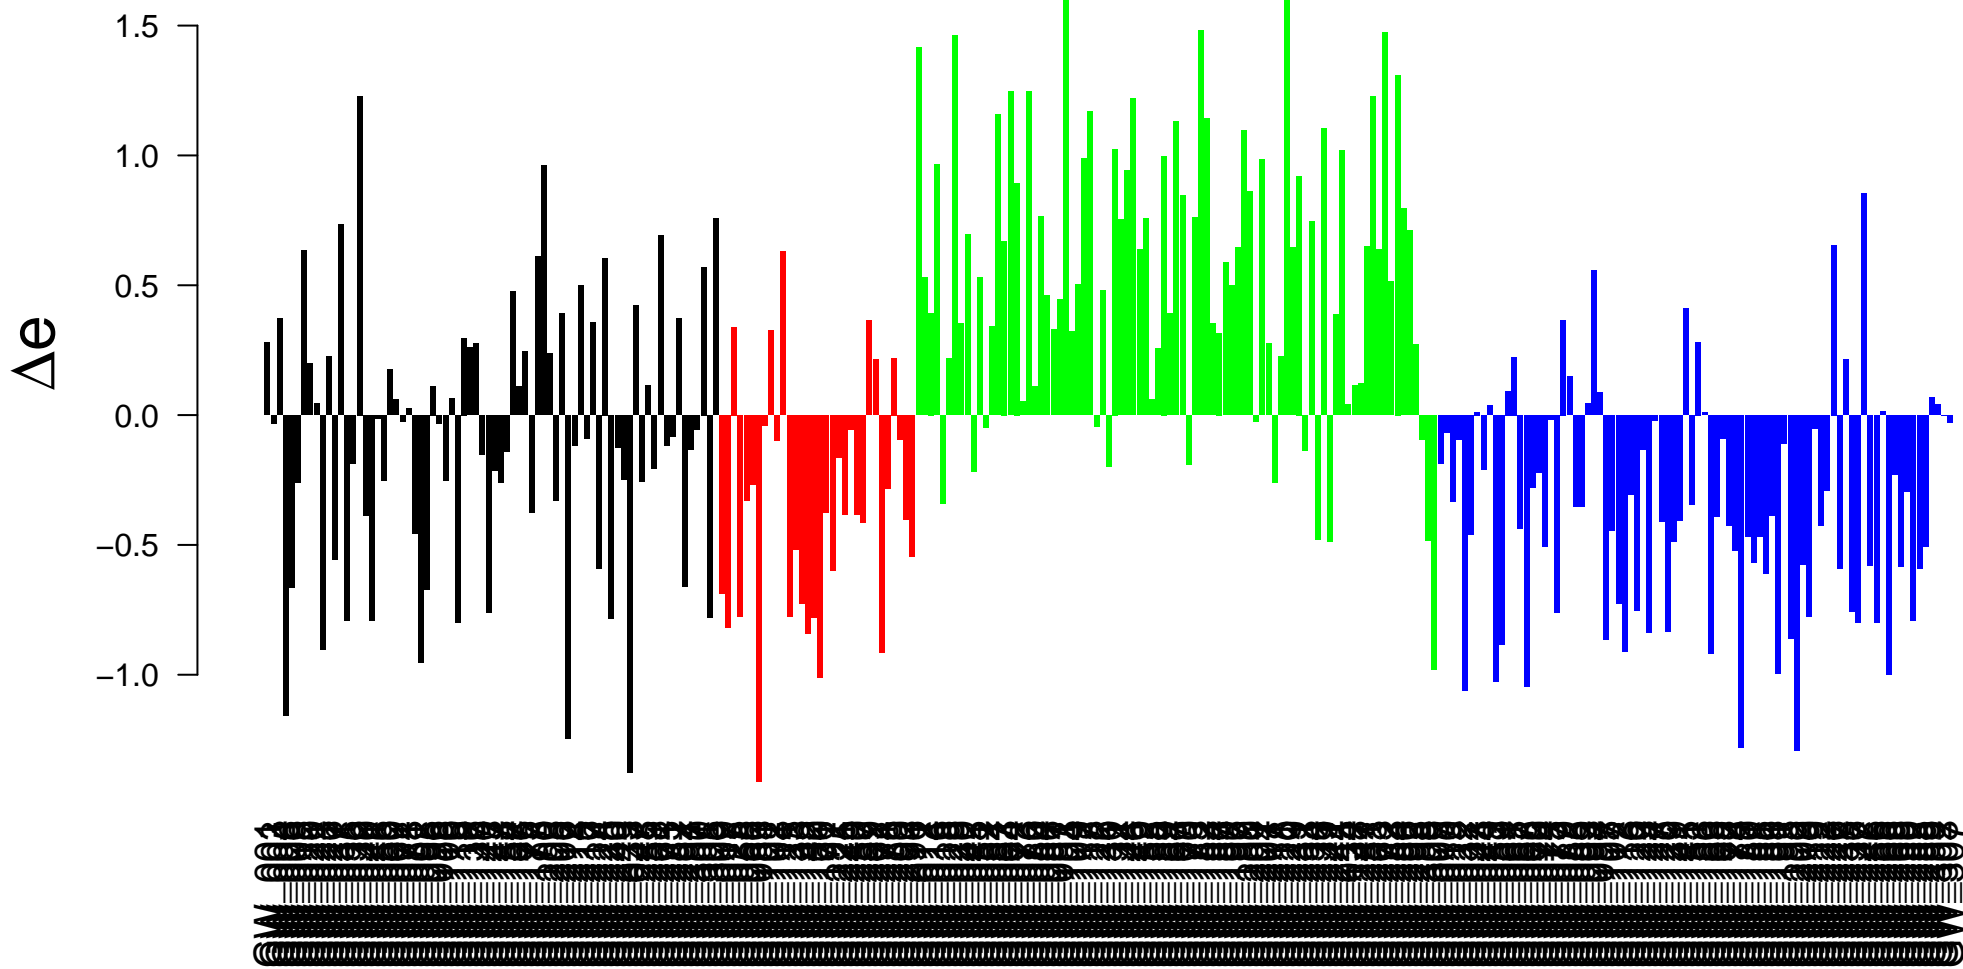

Expression of negative regulation of neuron projection development in Spot K

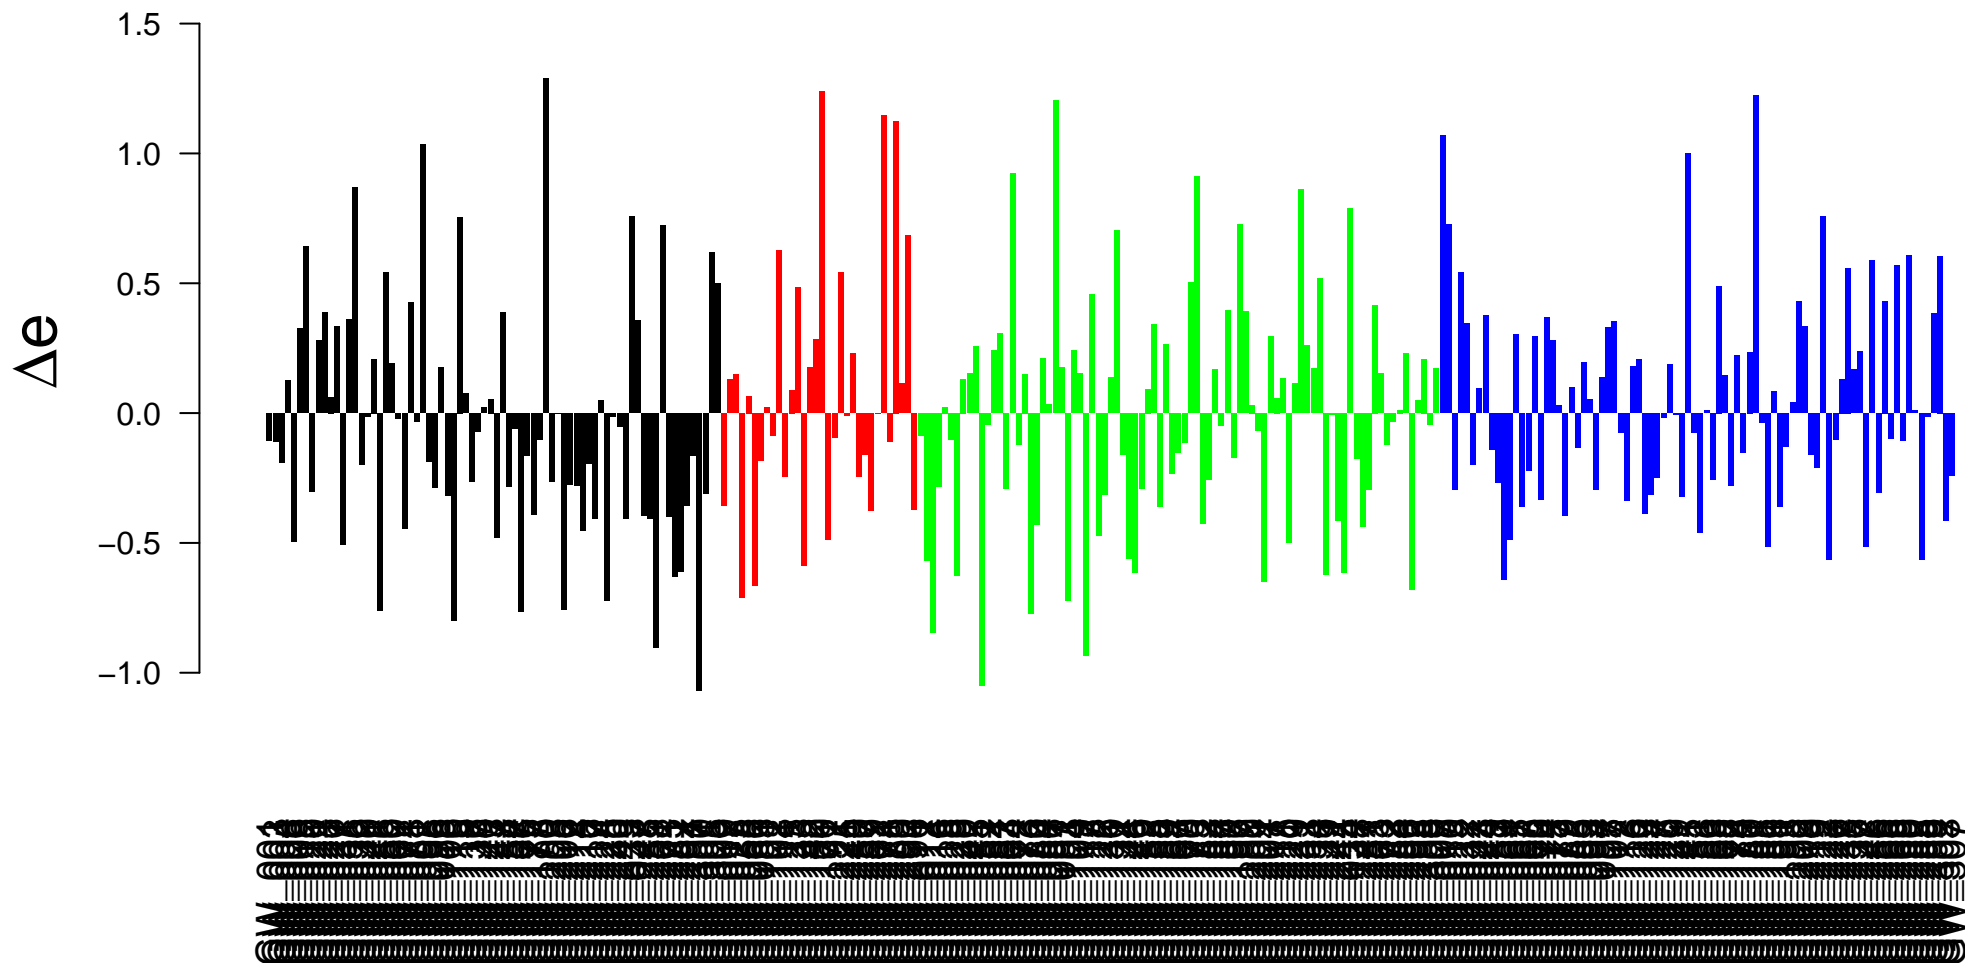

Δe

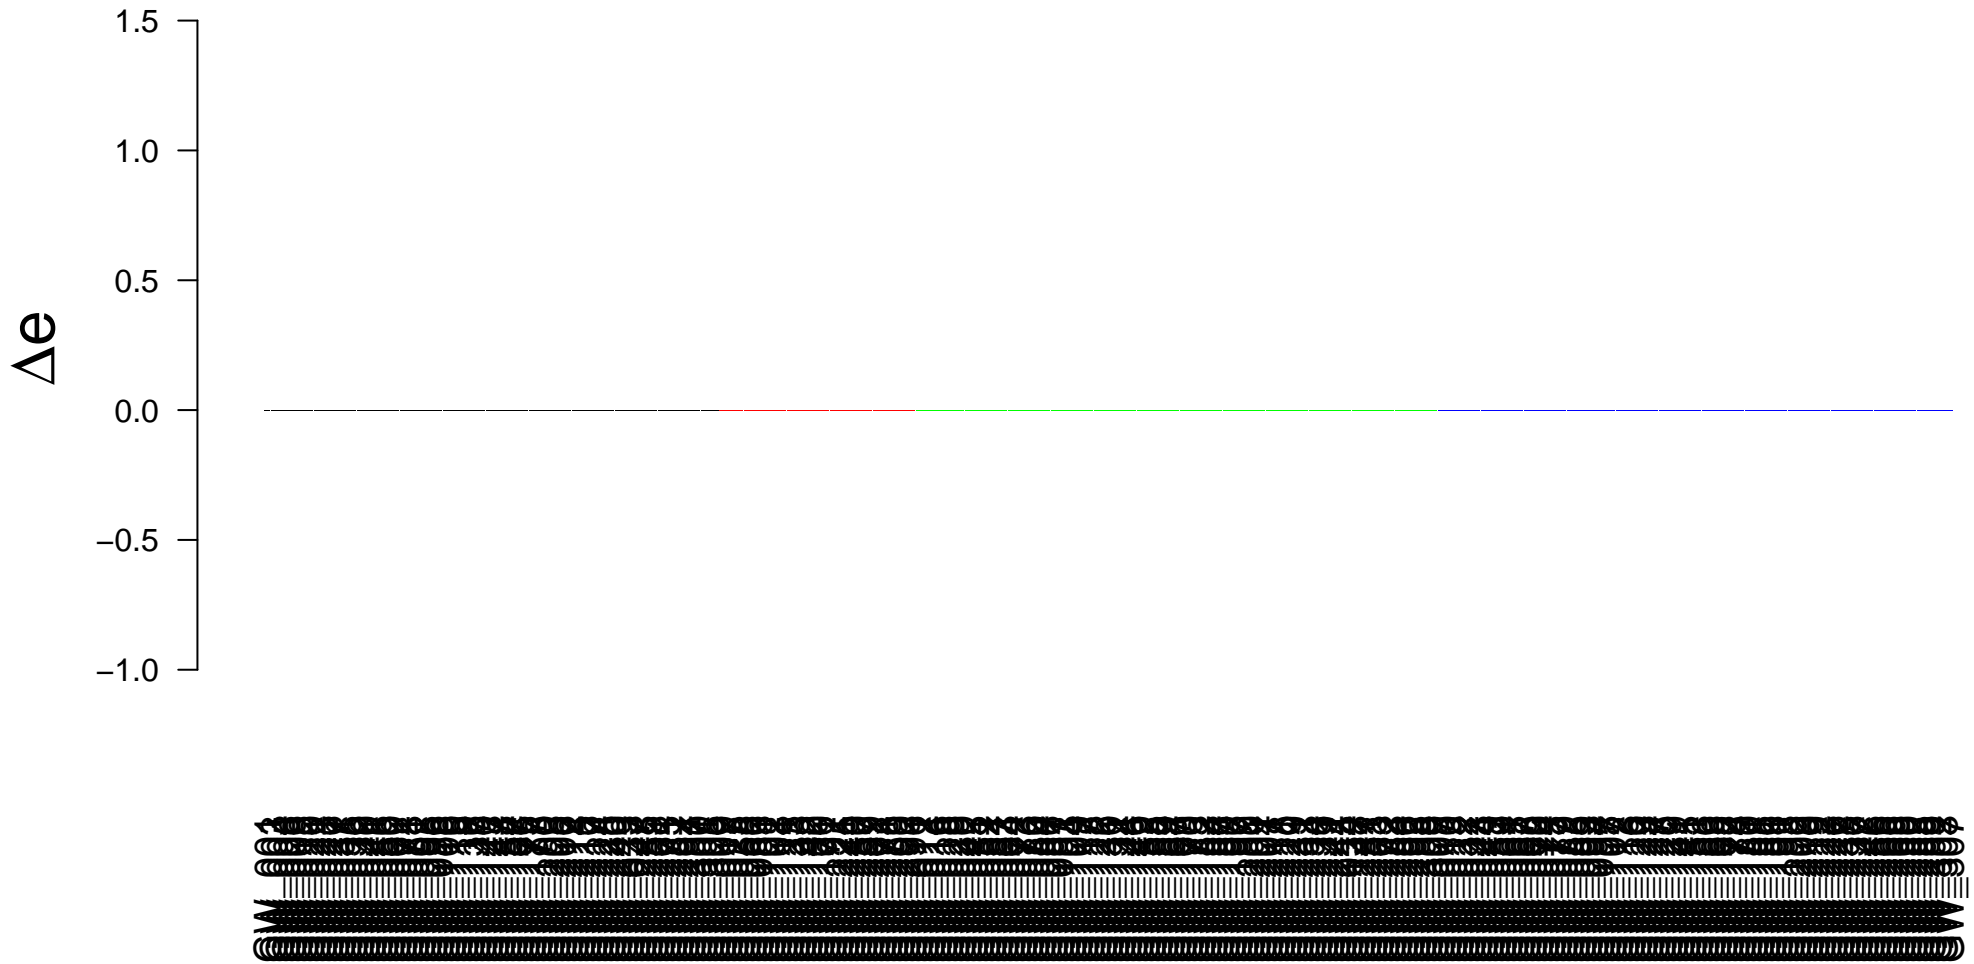

Expression of negative regulation of neuron projection development in Spot L

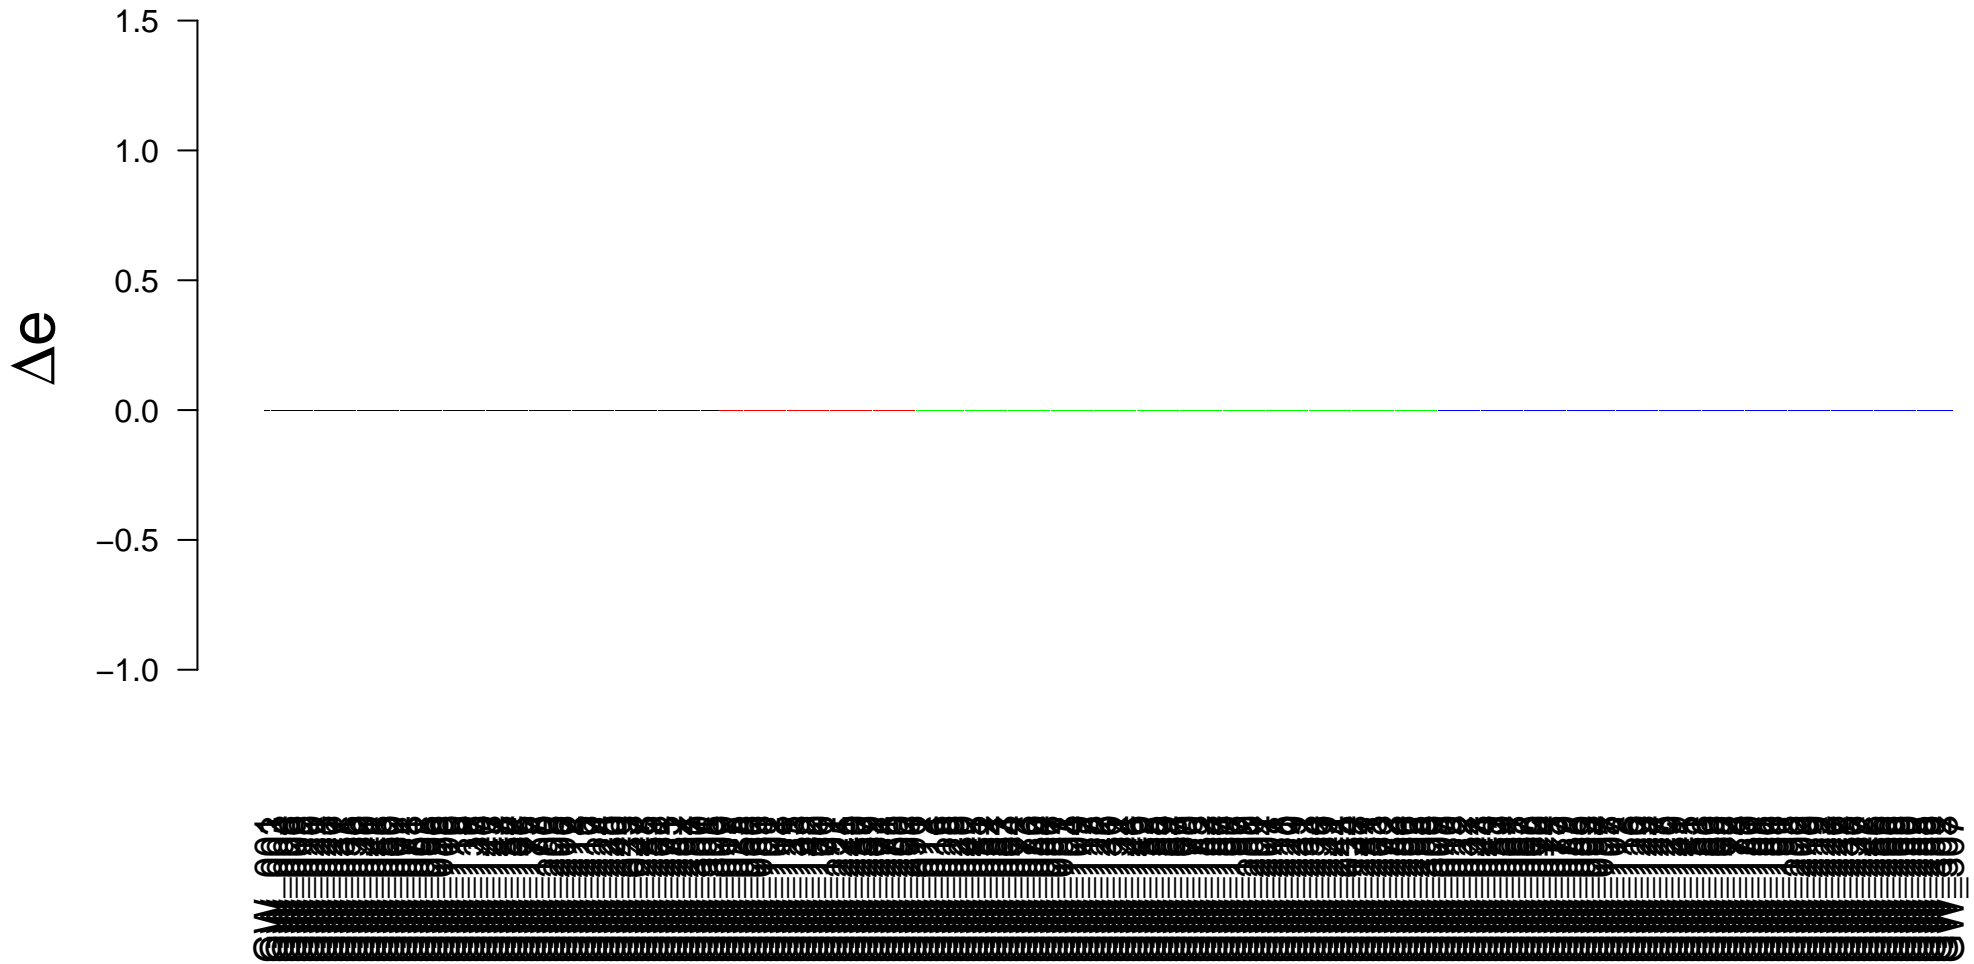

Expression of negative regulation of neuron projection development in Spot M

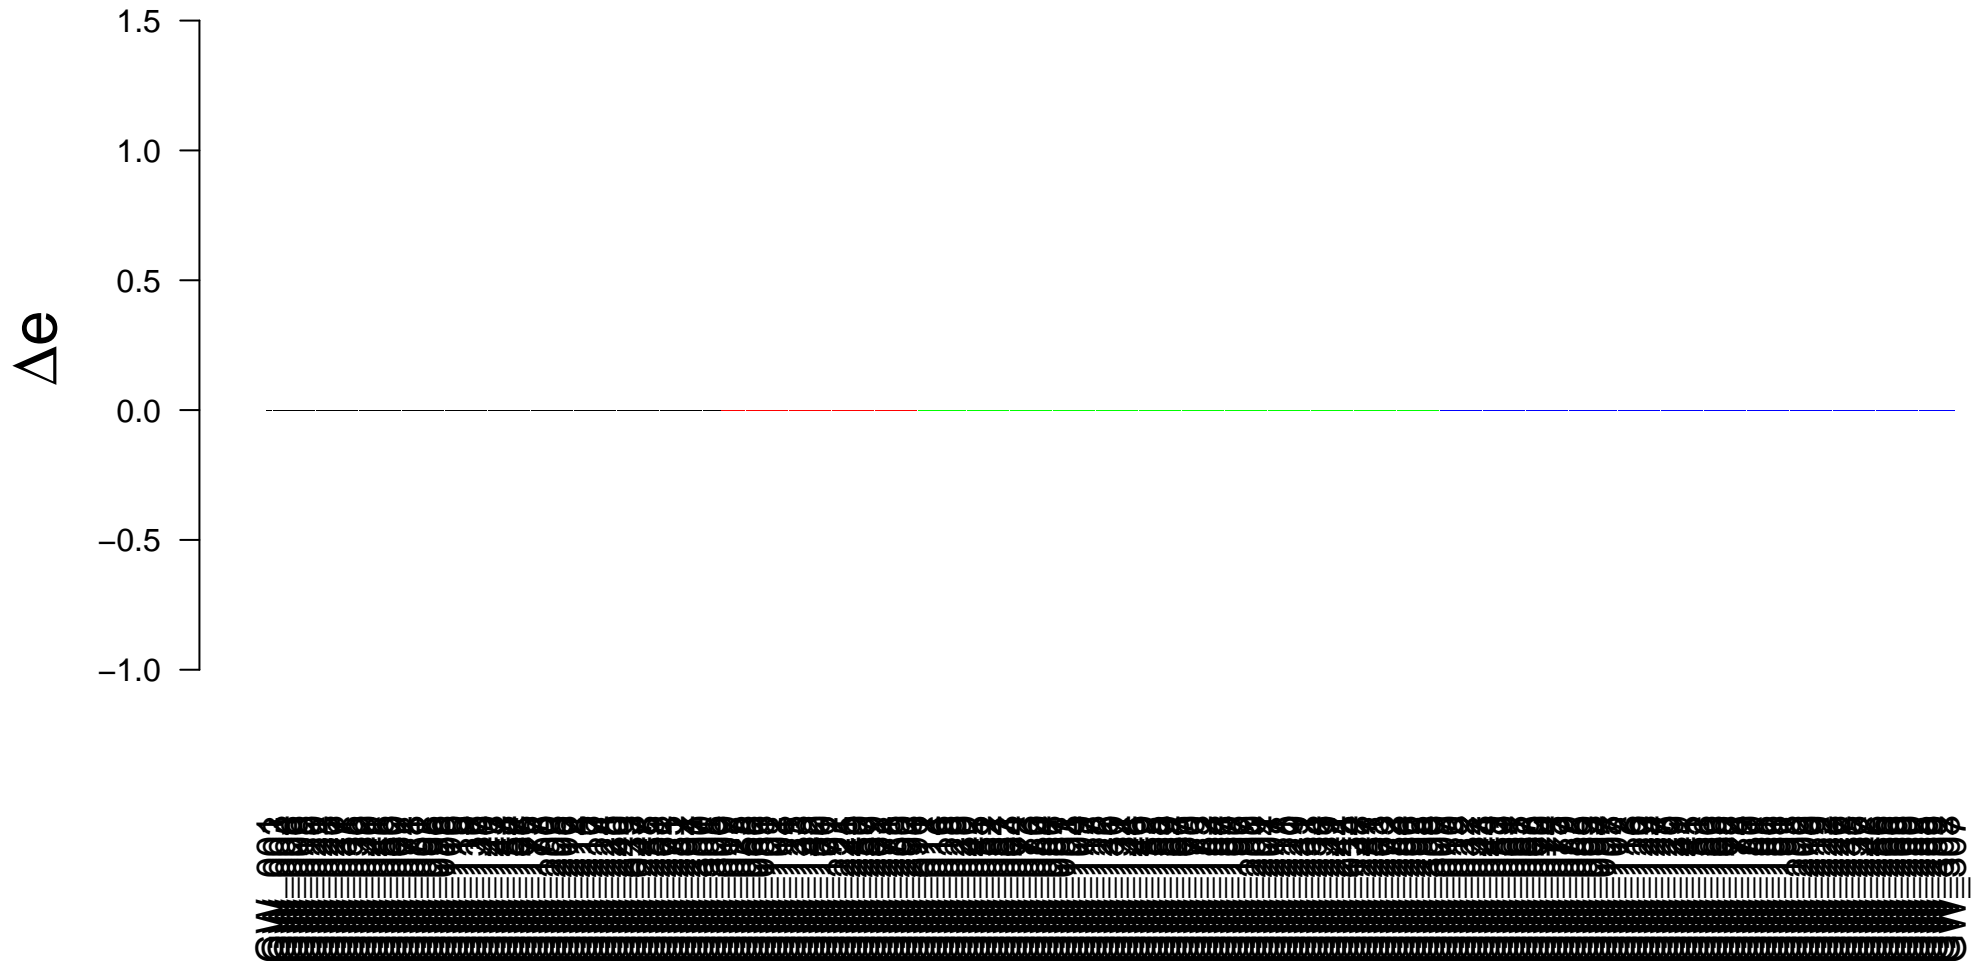

Expression of negative regulation of neuron projection development in Spot N

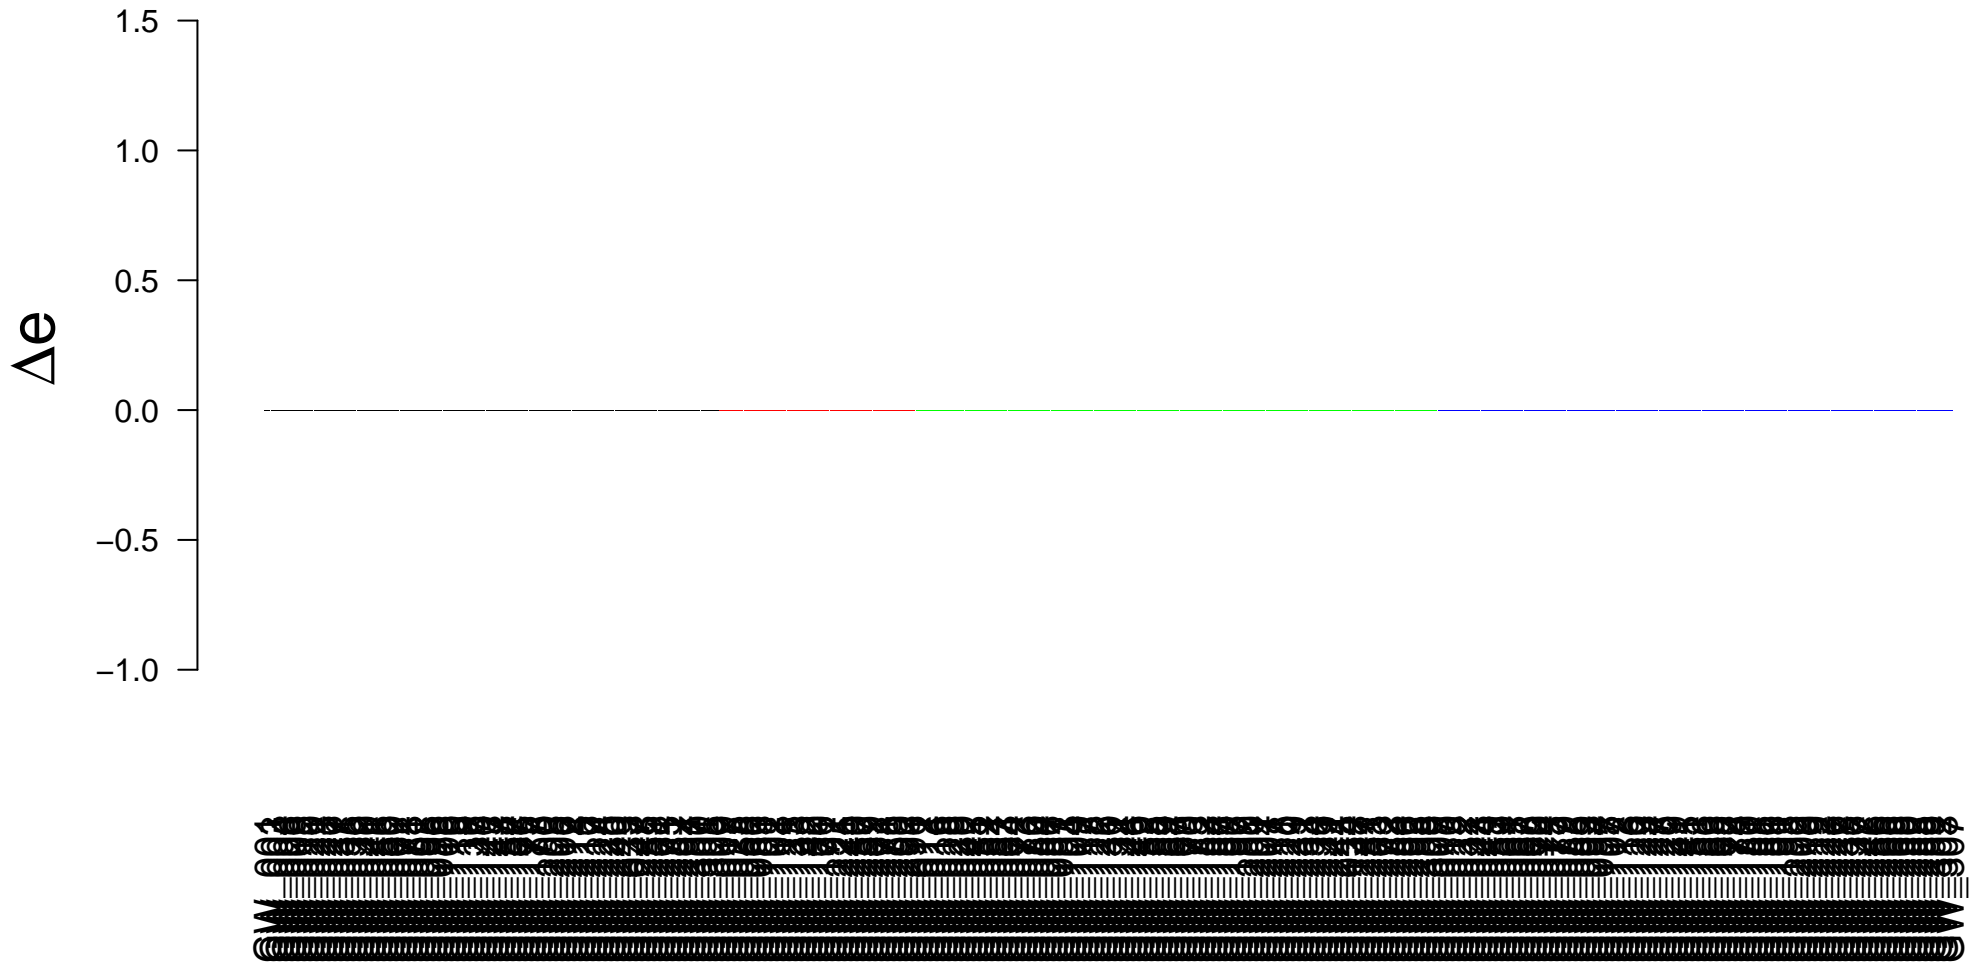

Expression of negative regulation of neuron projection development in Spot O

Expression of negative regulation of neuron projection development in Spot P

Expression of negative regulation of neuron projection development in Spot Q

Expression of negative regulation of neuron projection development in Spot R
