

negative regulation of oligodendrocyte differentiation

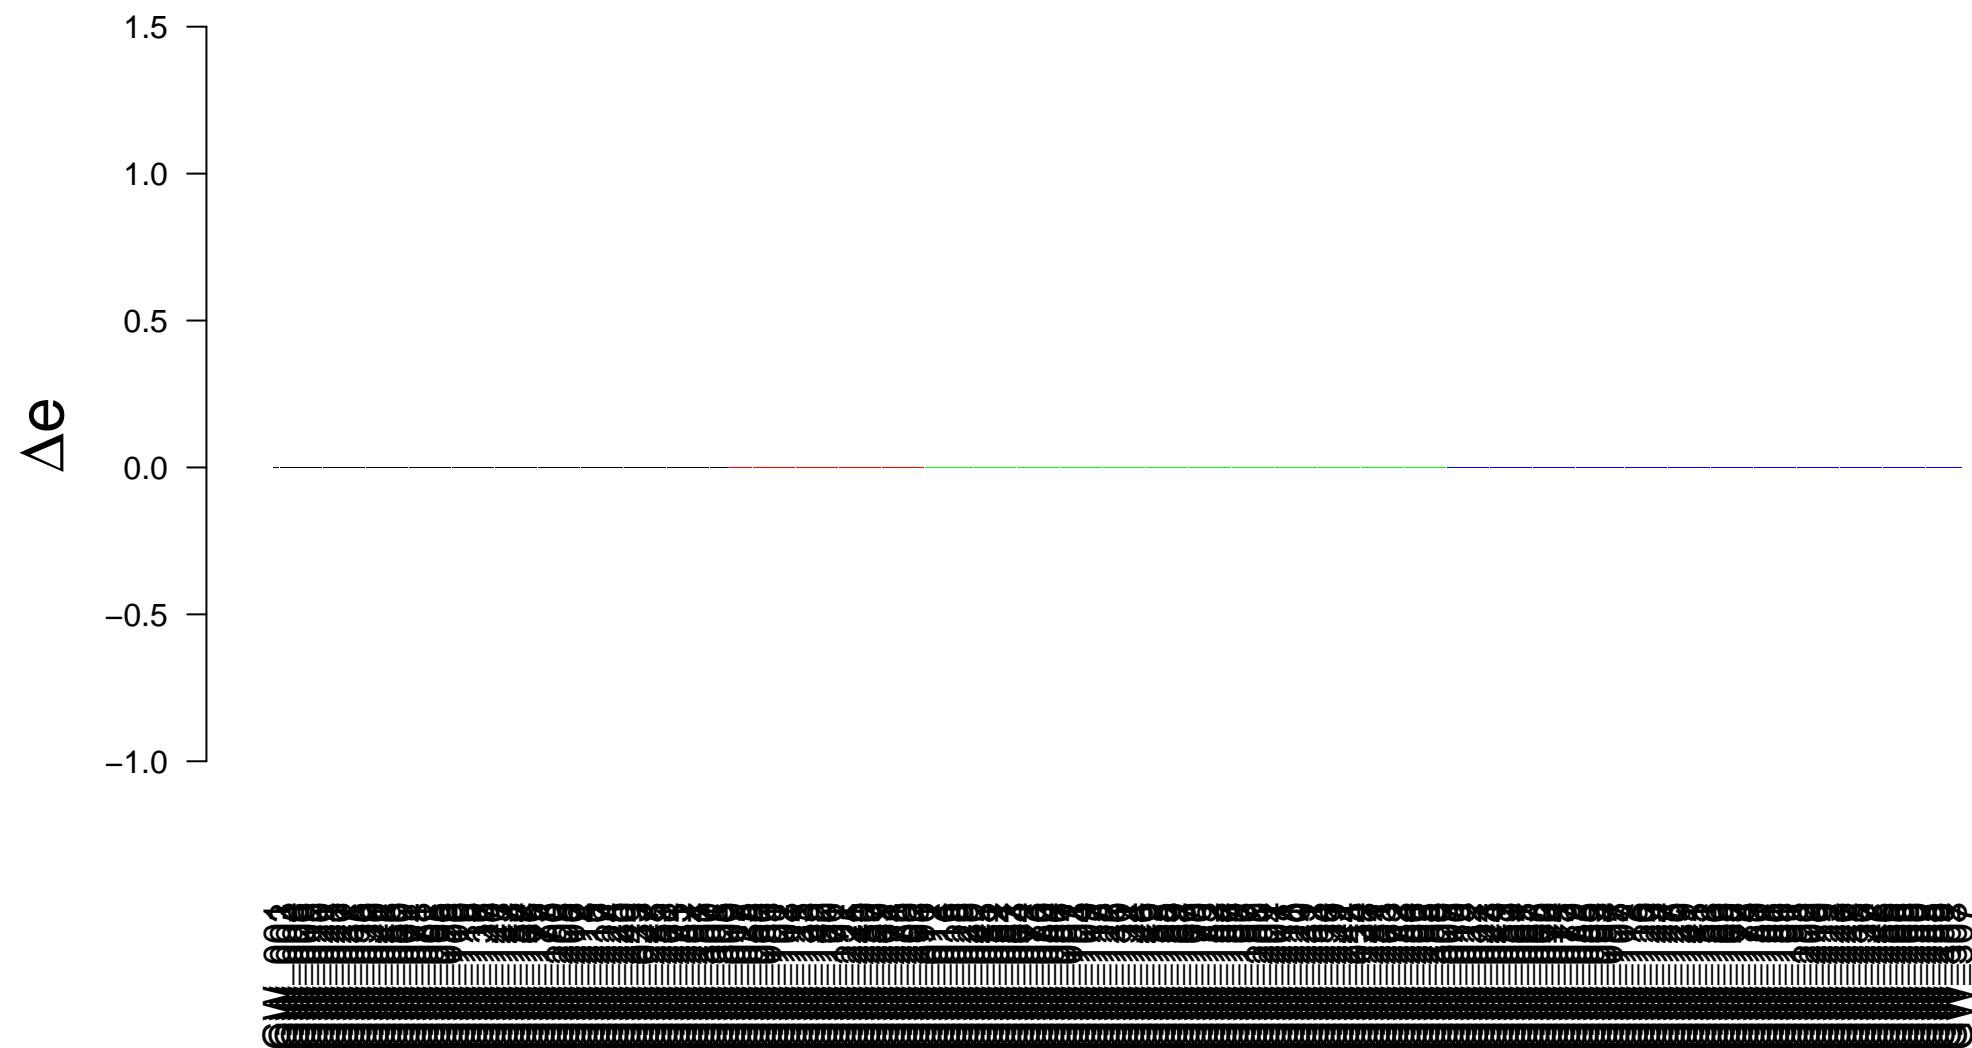

negative regulation of oligodendrocyte differentiation

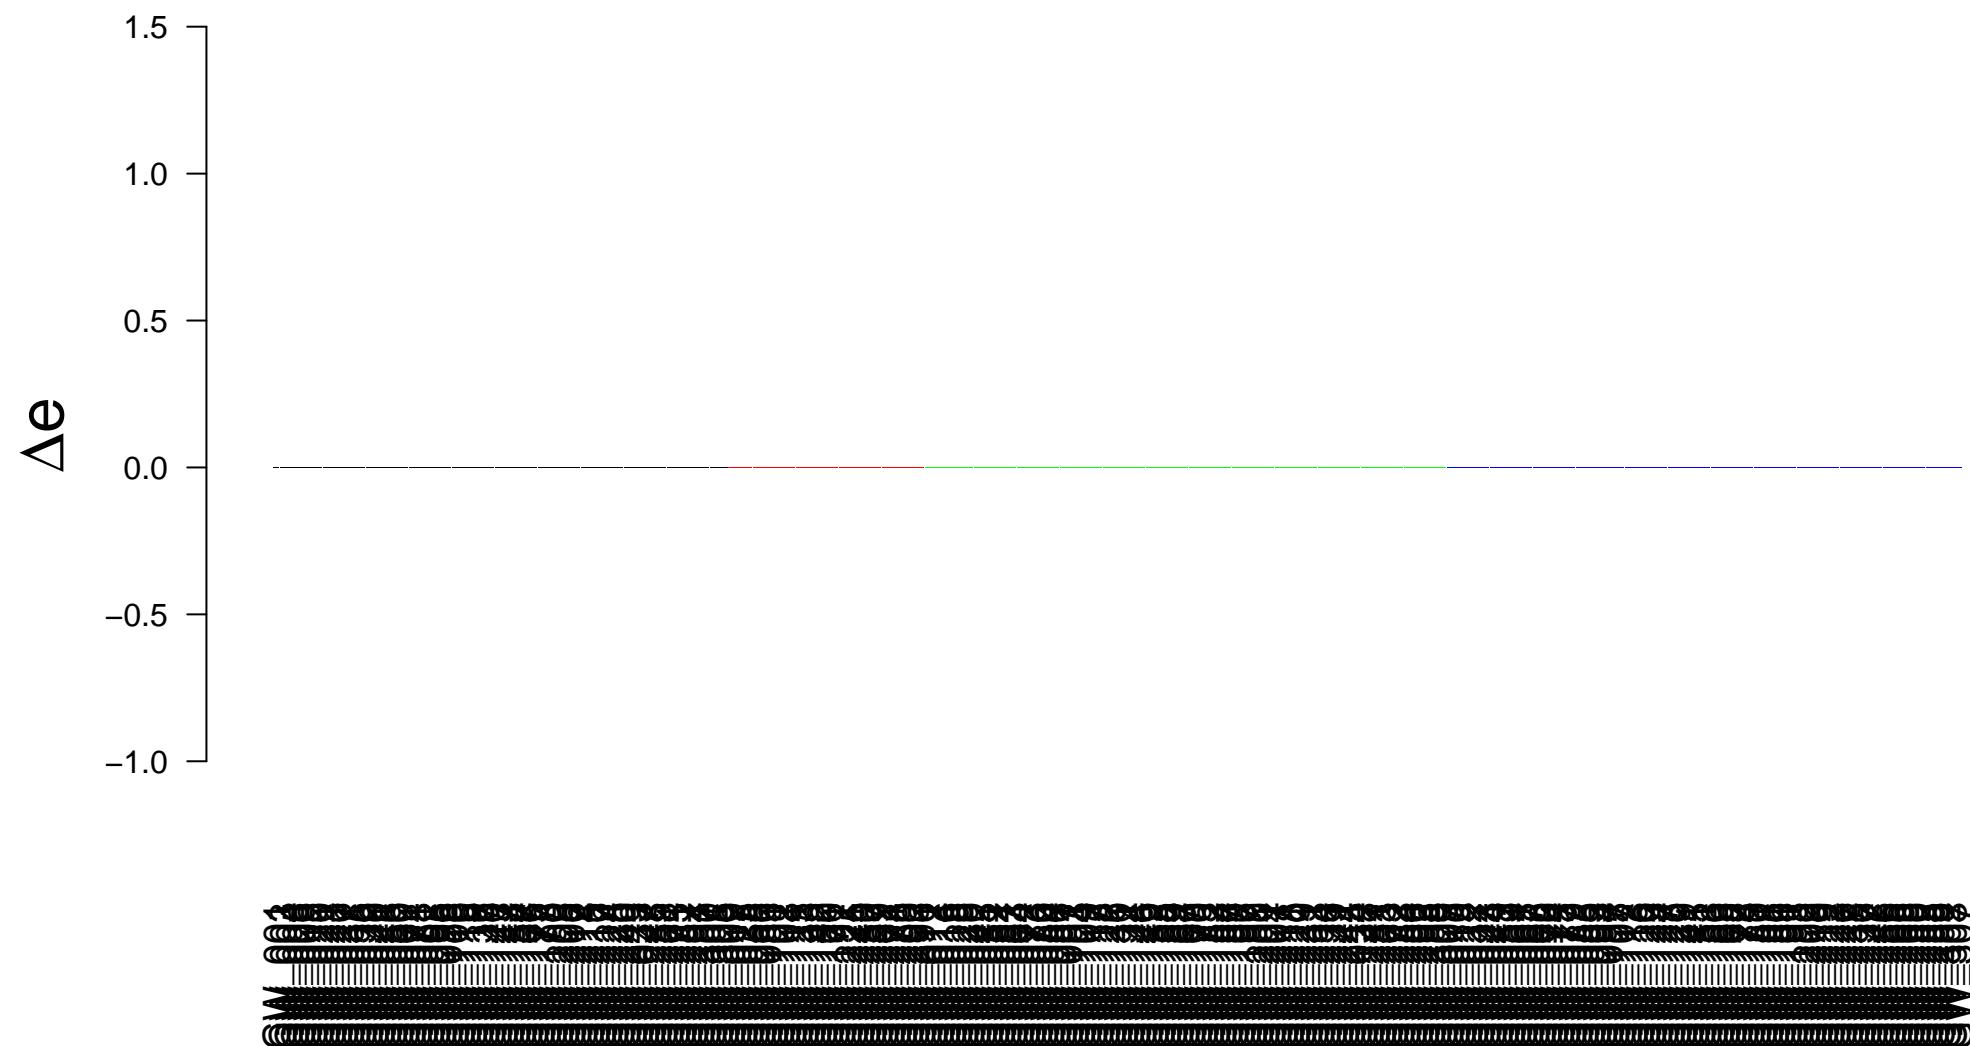

Enrichment in spots: negative regulation of oligodendrocyte differentiation

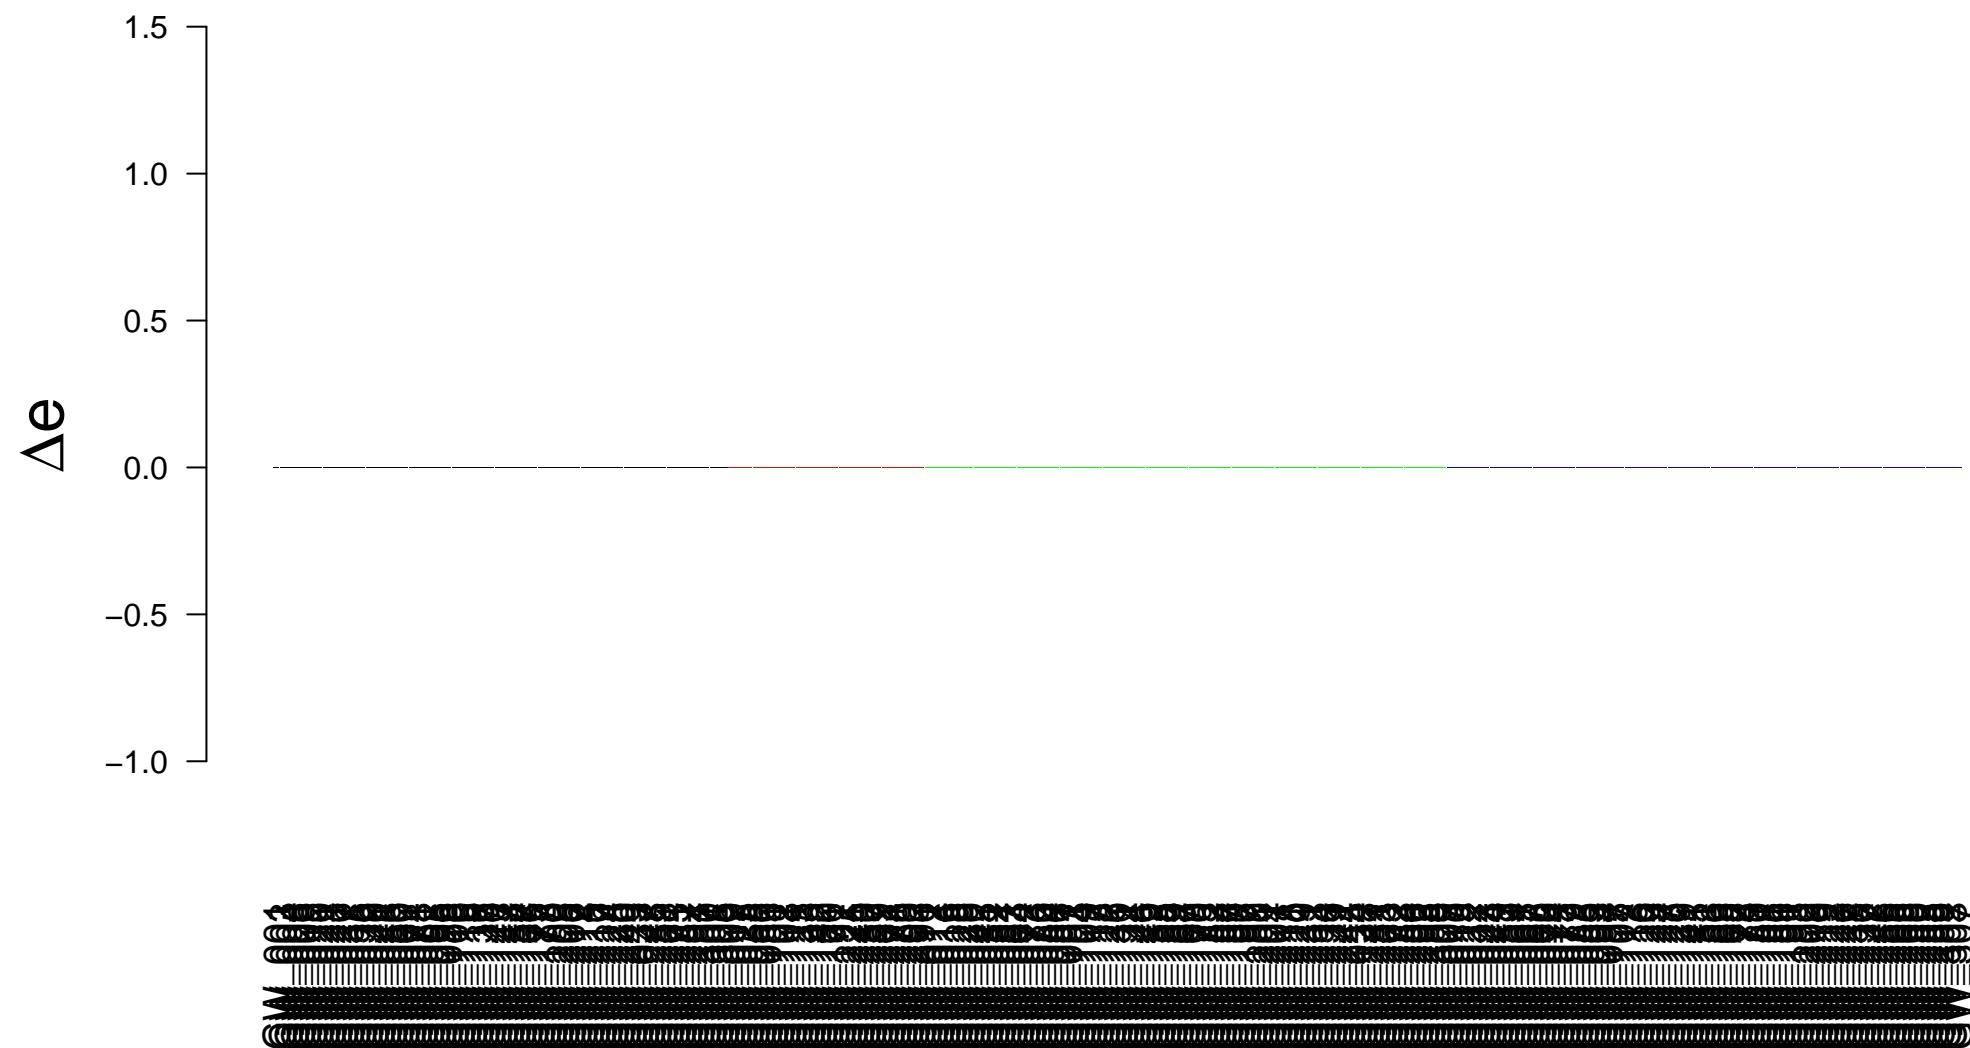

Expression of negative regulation of oligodendrocyte differentiation in Spot A

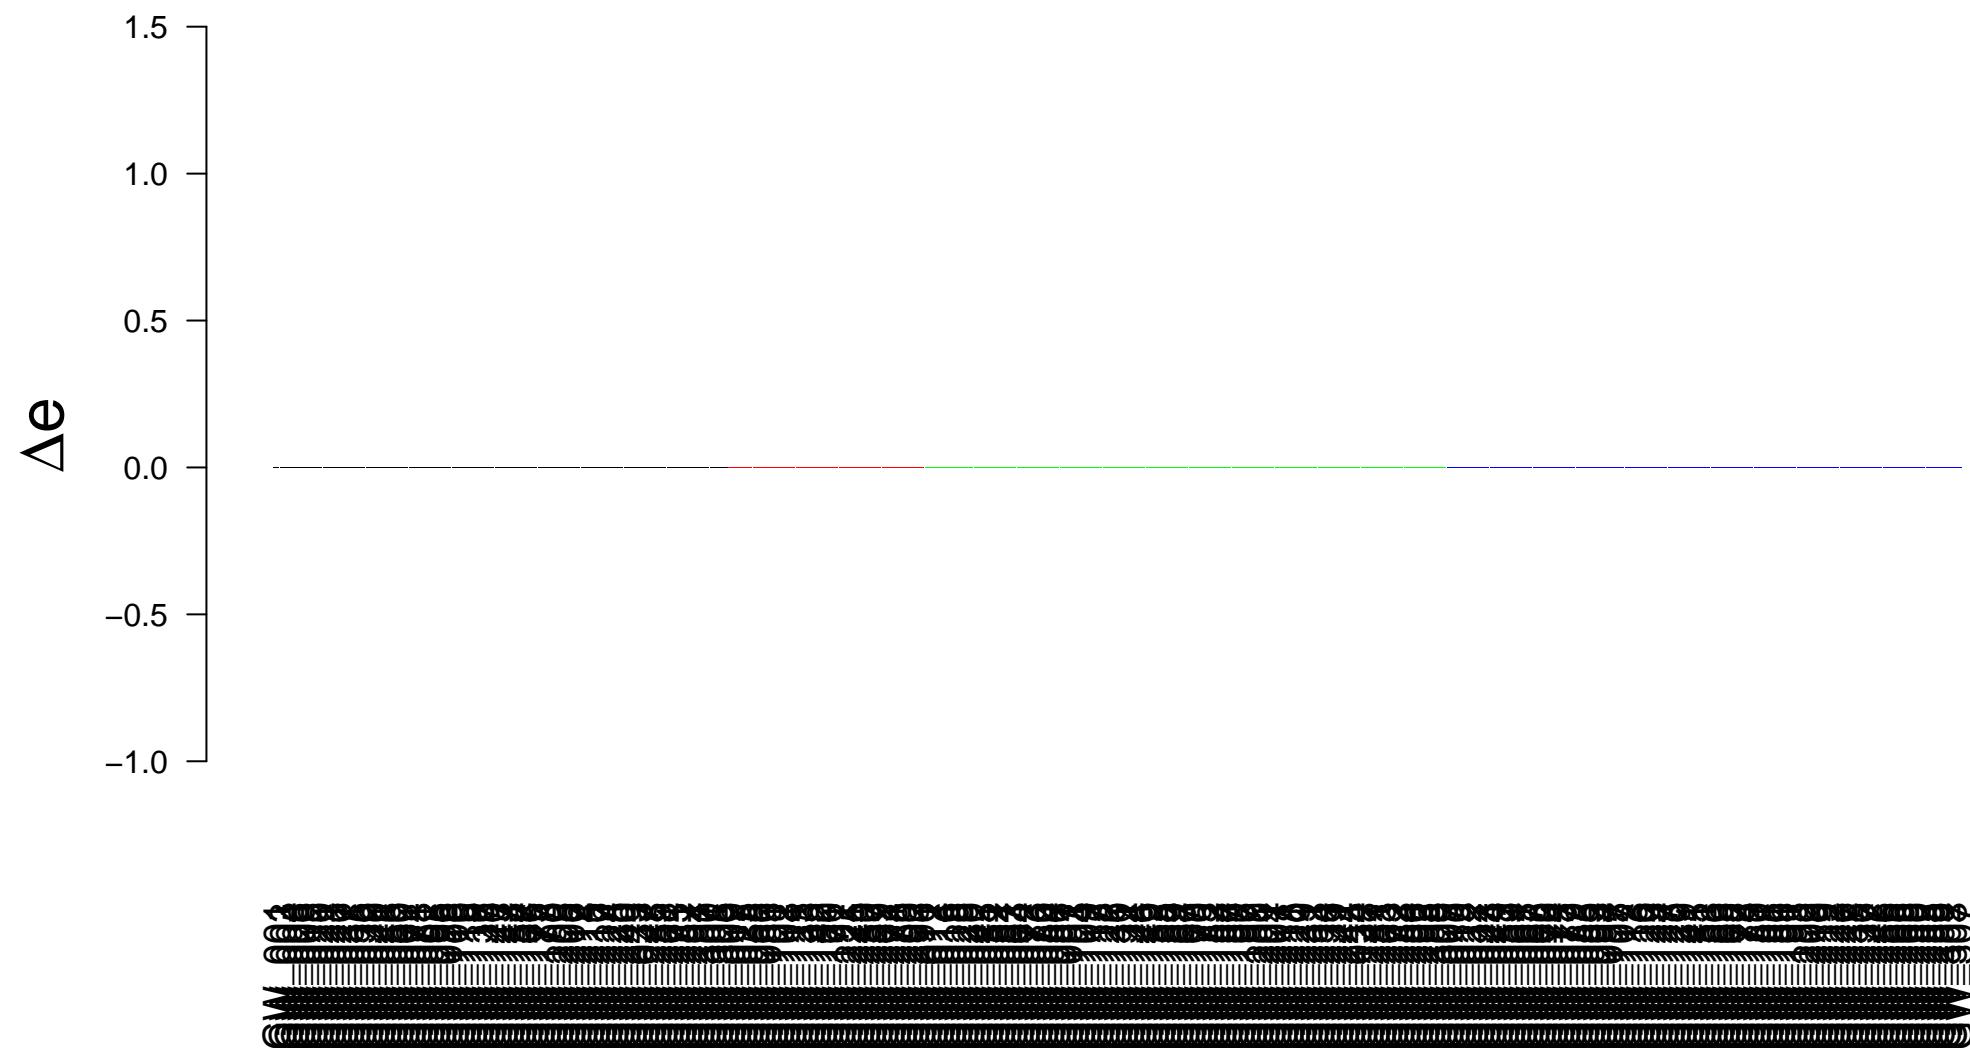

Expression of negative regulation of oligodendrocyte differentiation in Spot B

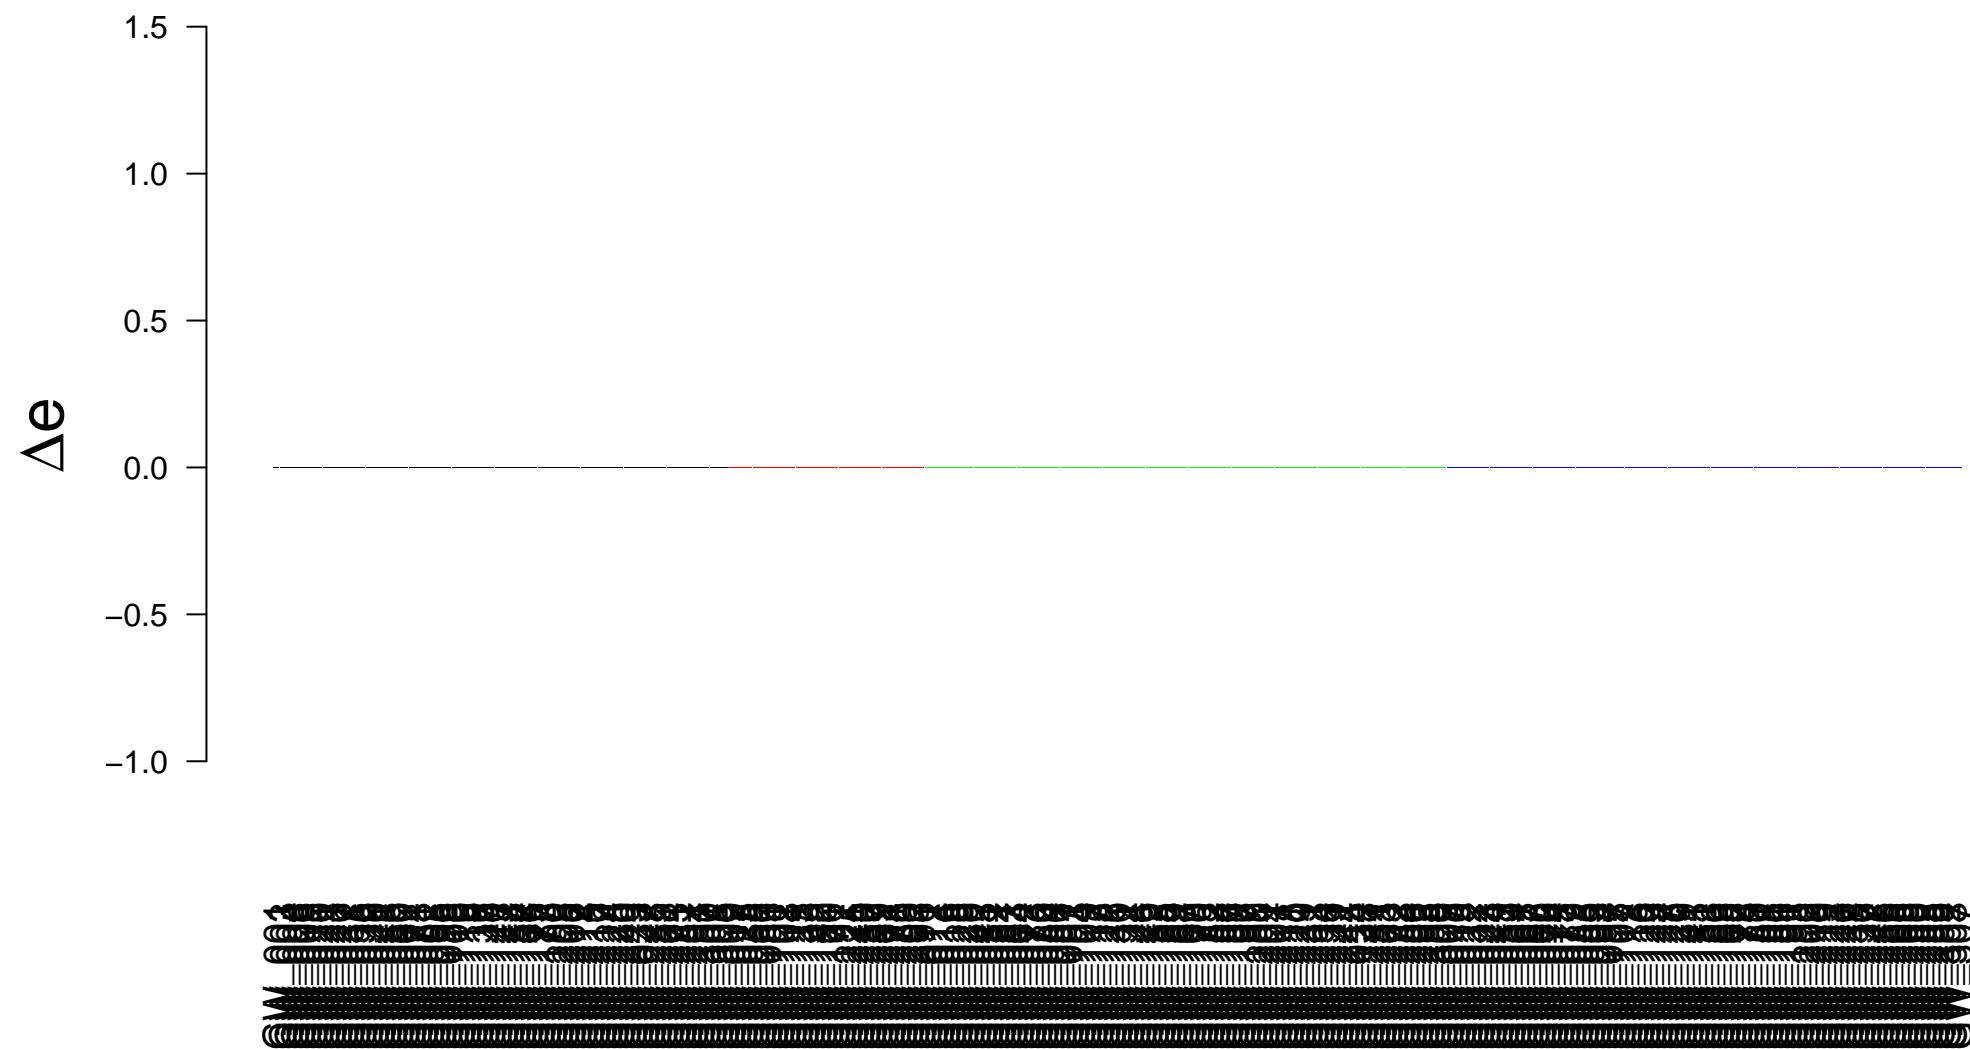

Expression of negative regulation of oligodendrocyte differentiation in Spot C

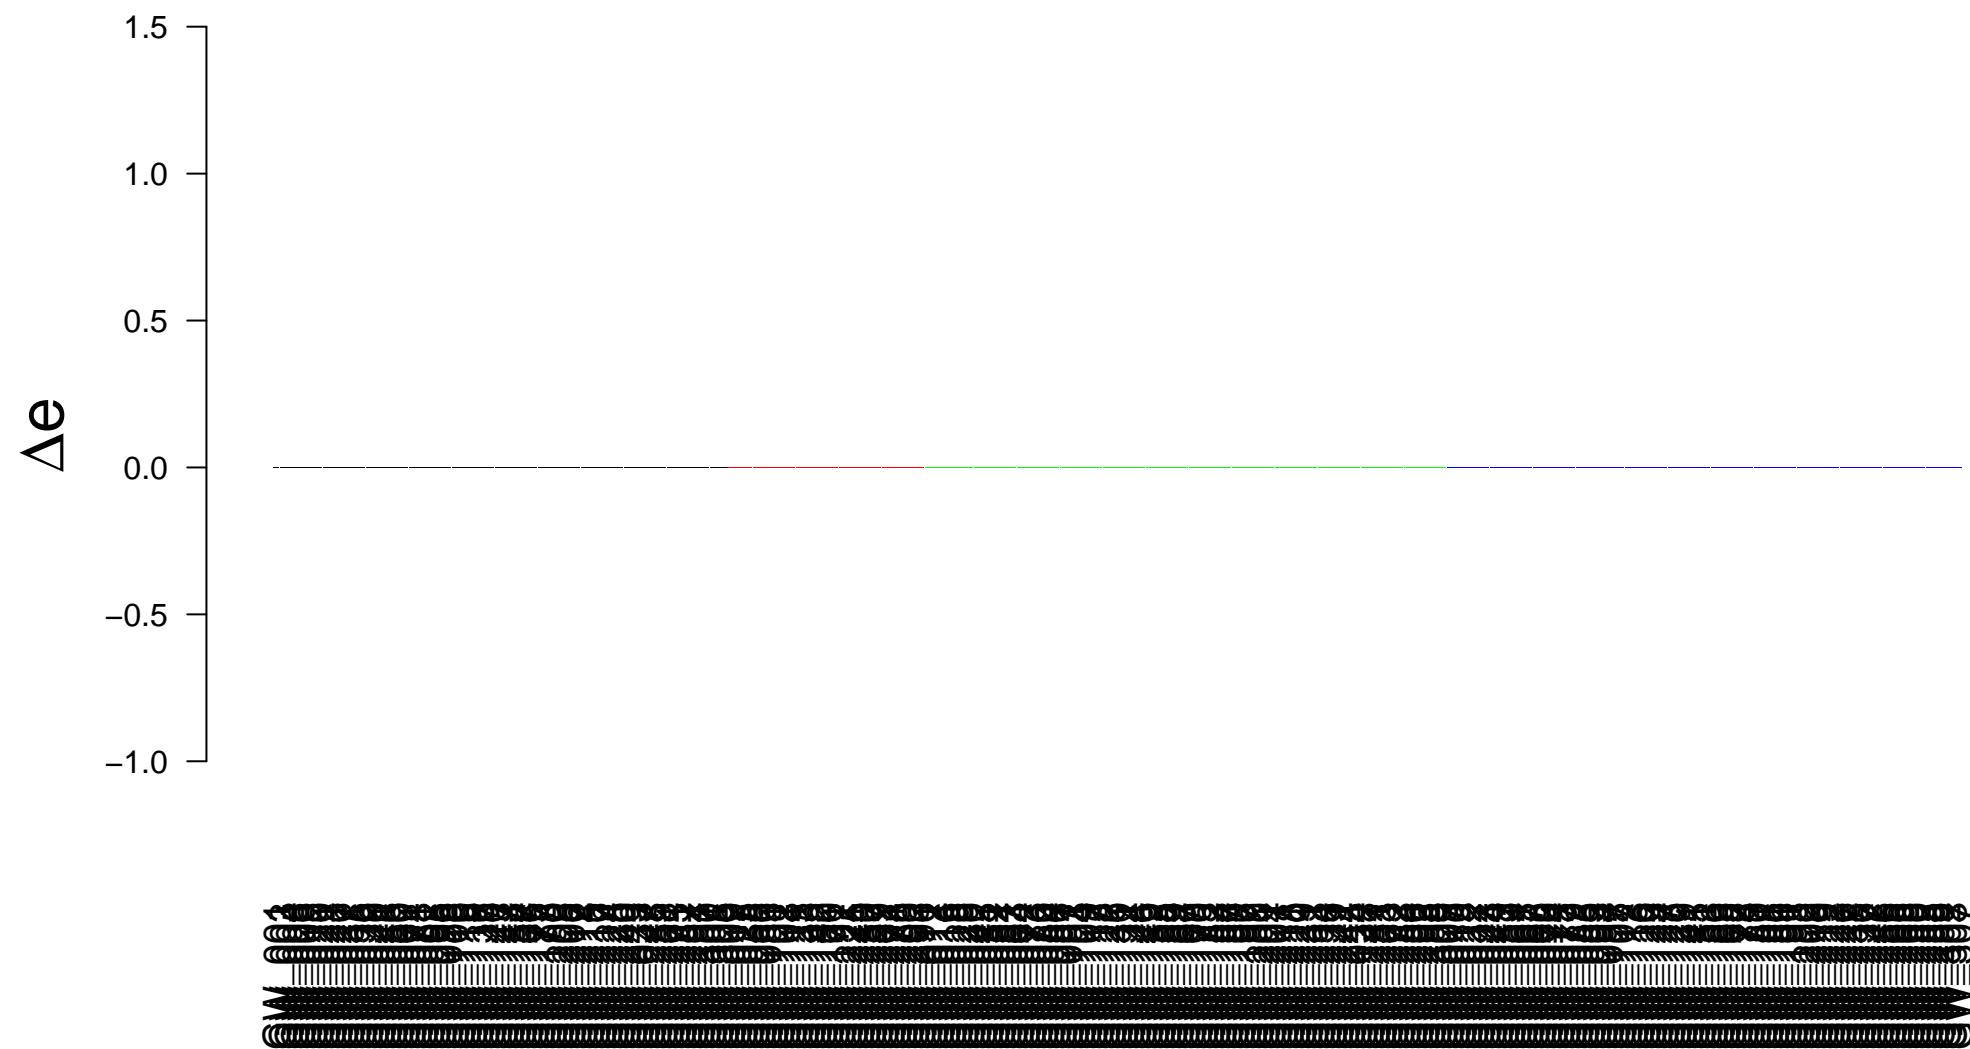

Expression of negative regulation of oligodendrocyte differentiation in Spot D

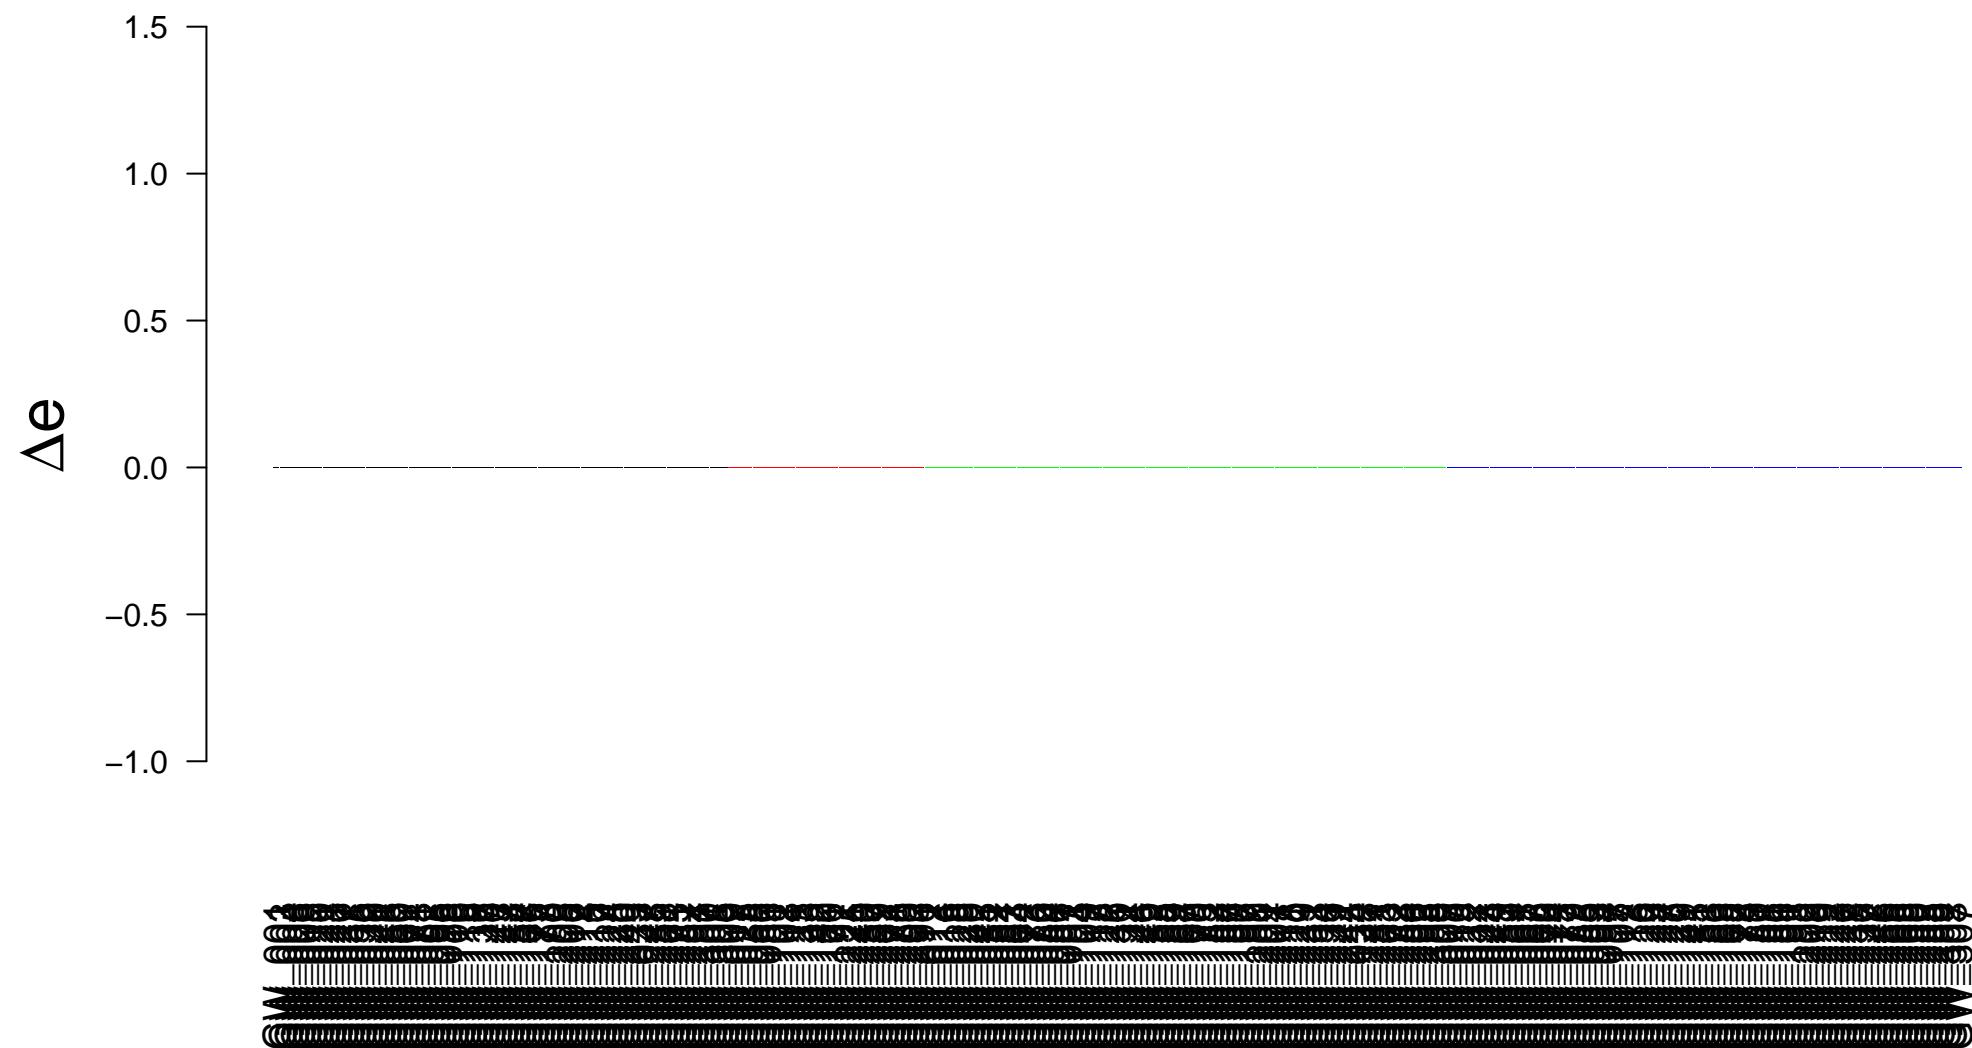

Expression of negative regulation of oligodendrocyte differentiation in Spot E

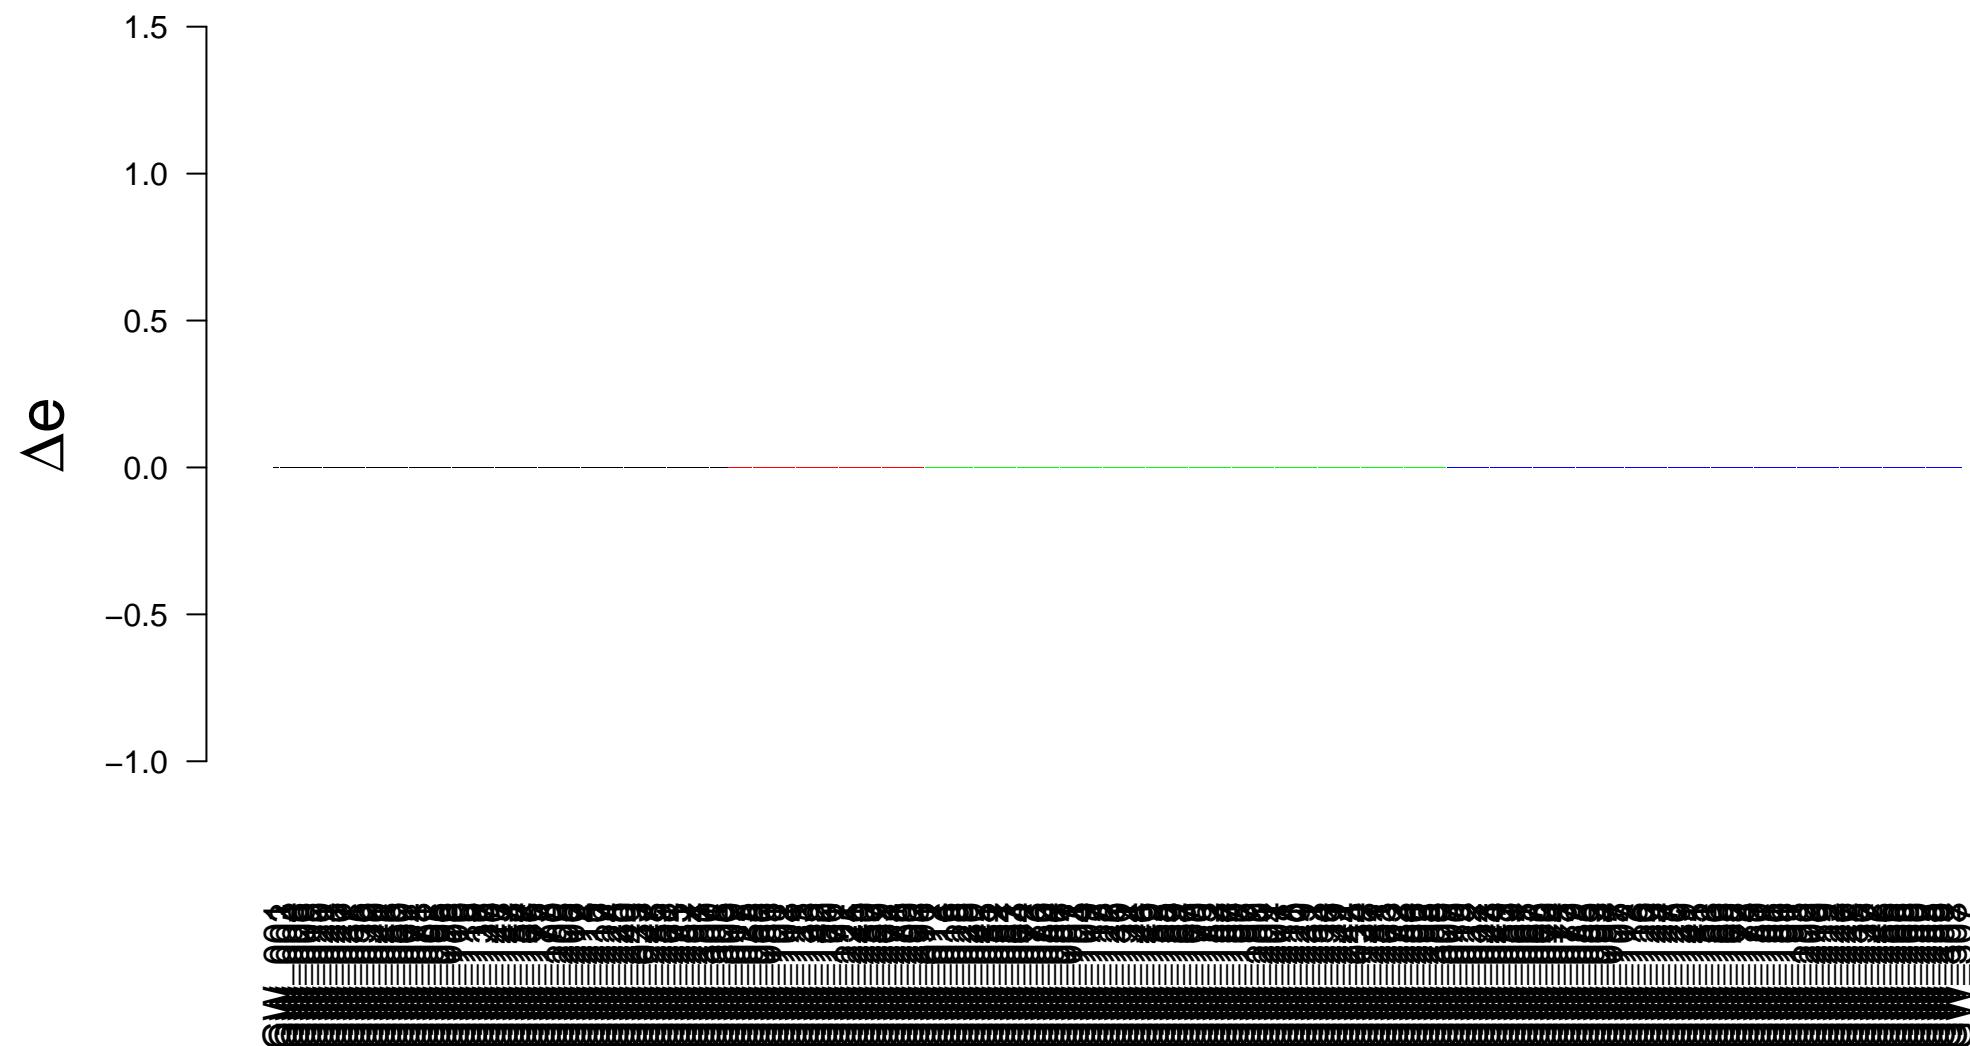

Expression of negative regulation of oligodendrocyte differentiation in Spot F

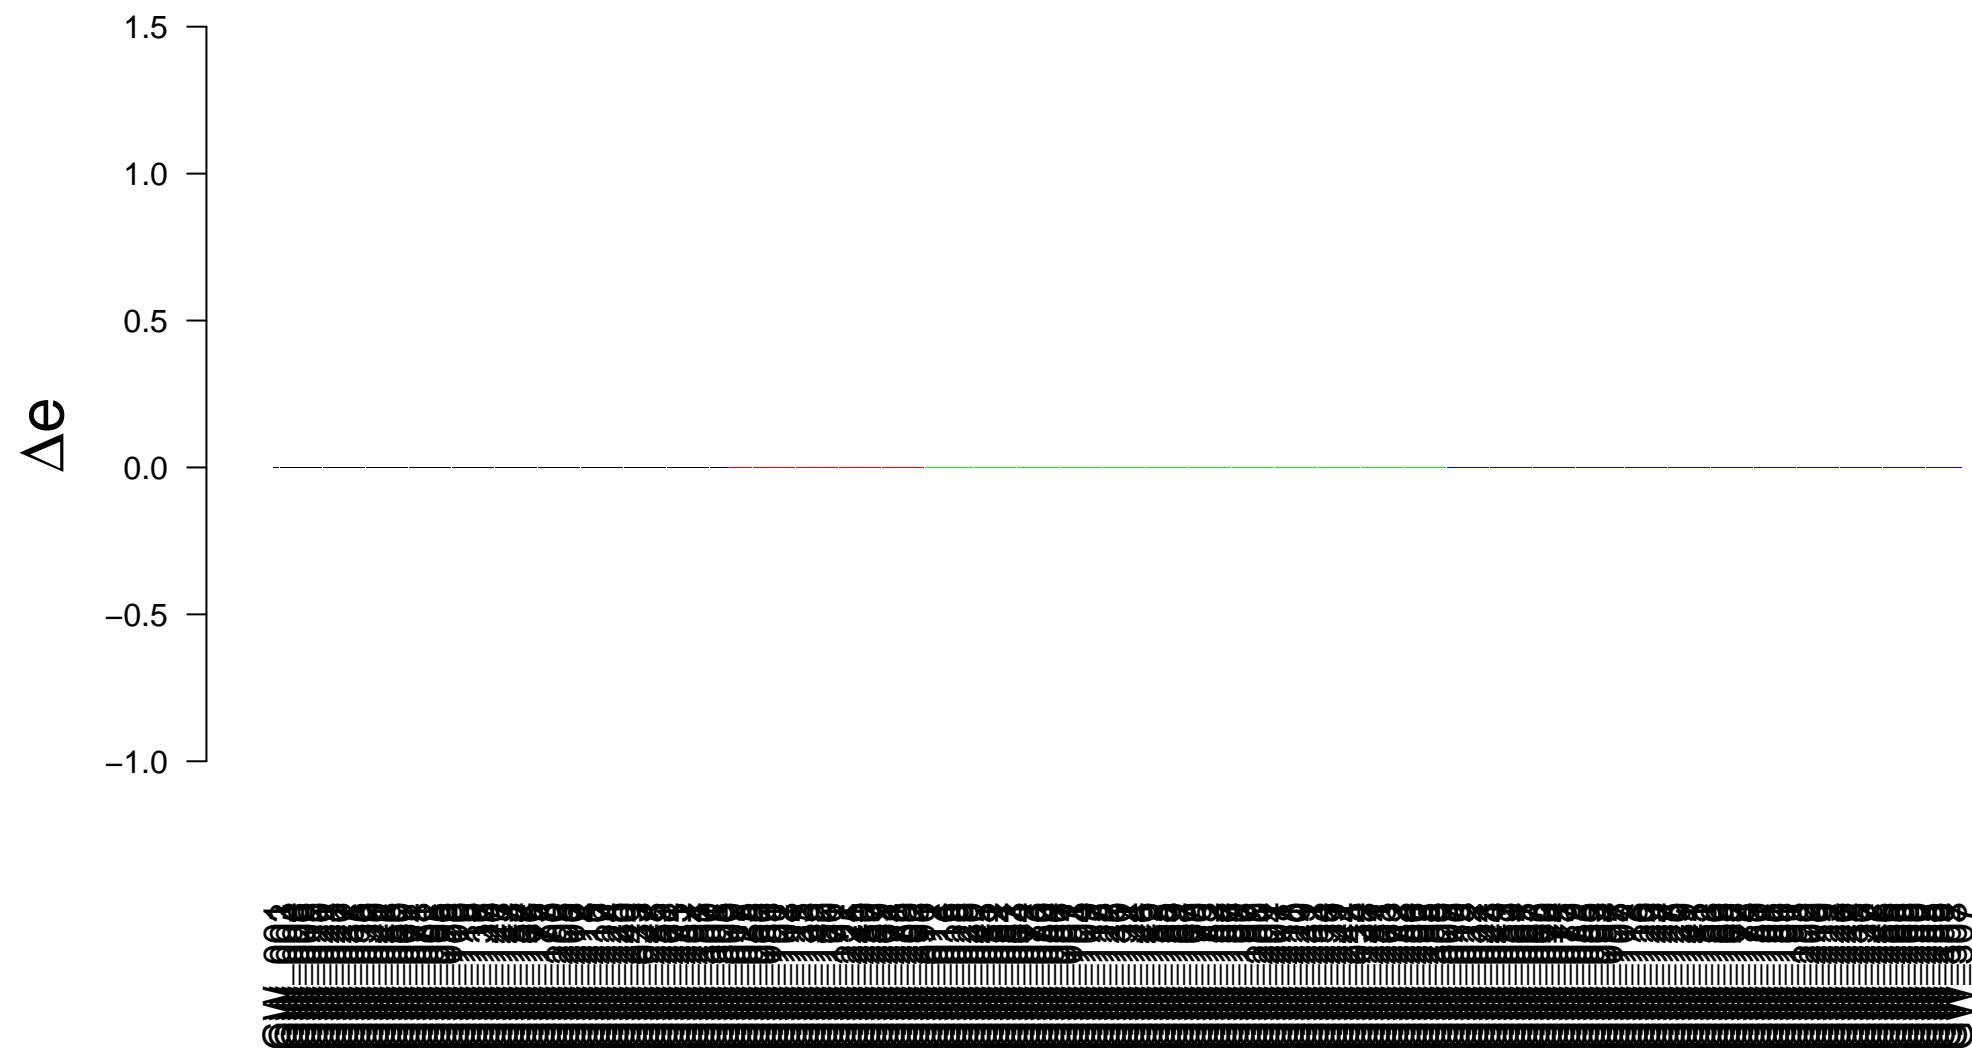

Expression of negative regulation of oligodendrocyte differentiation in Spot G

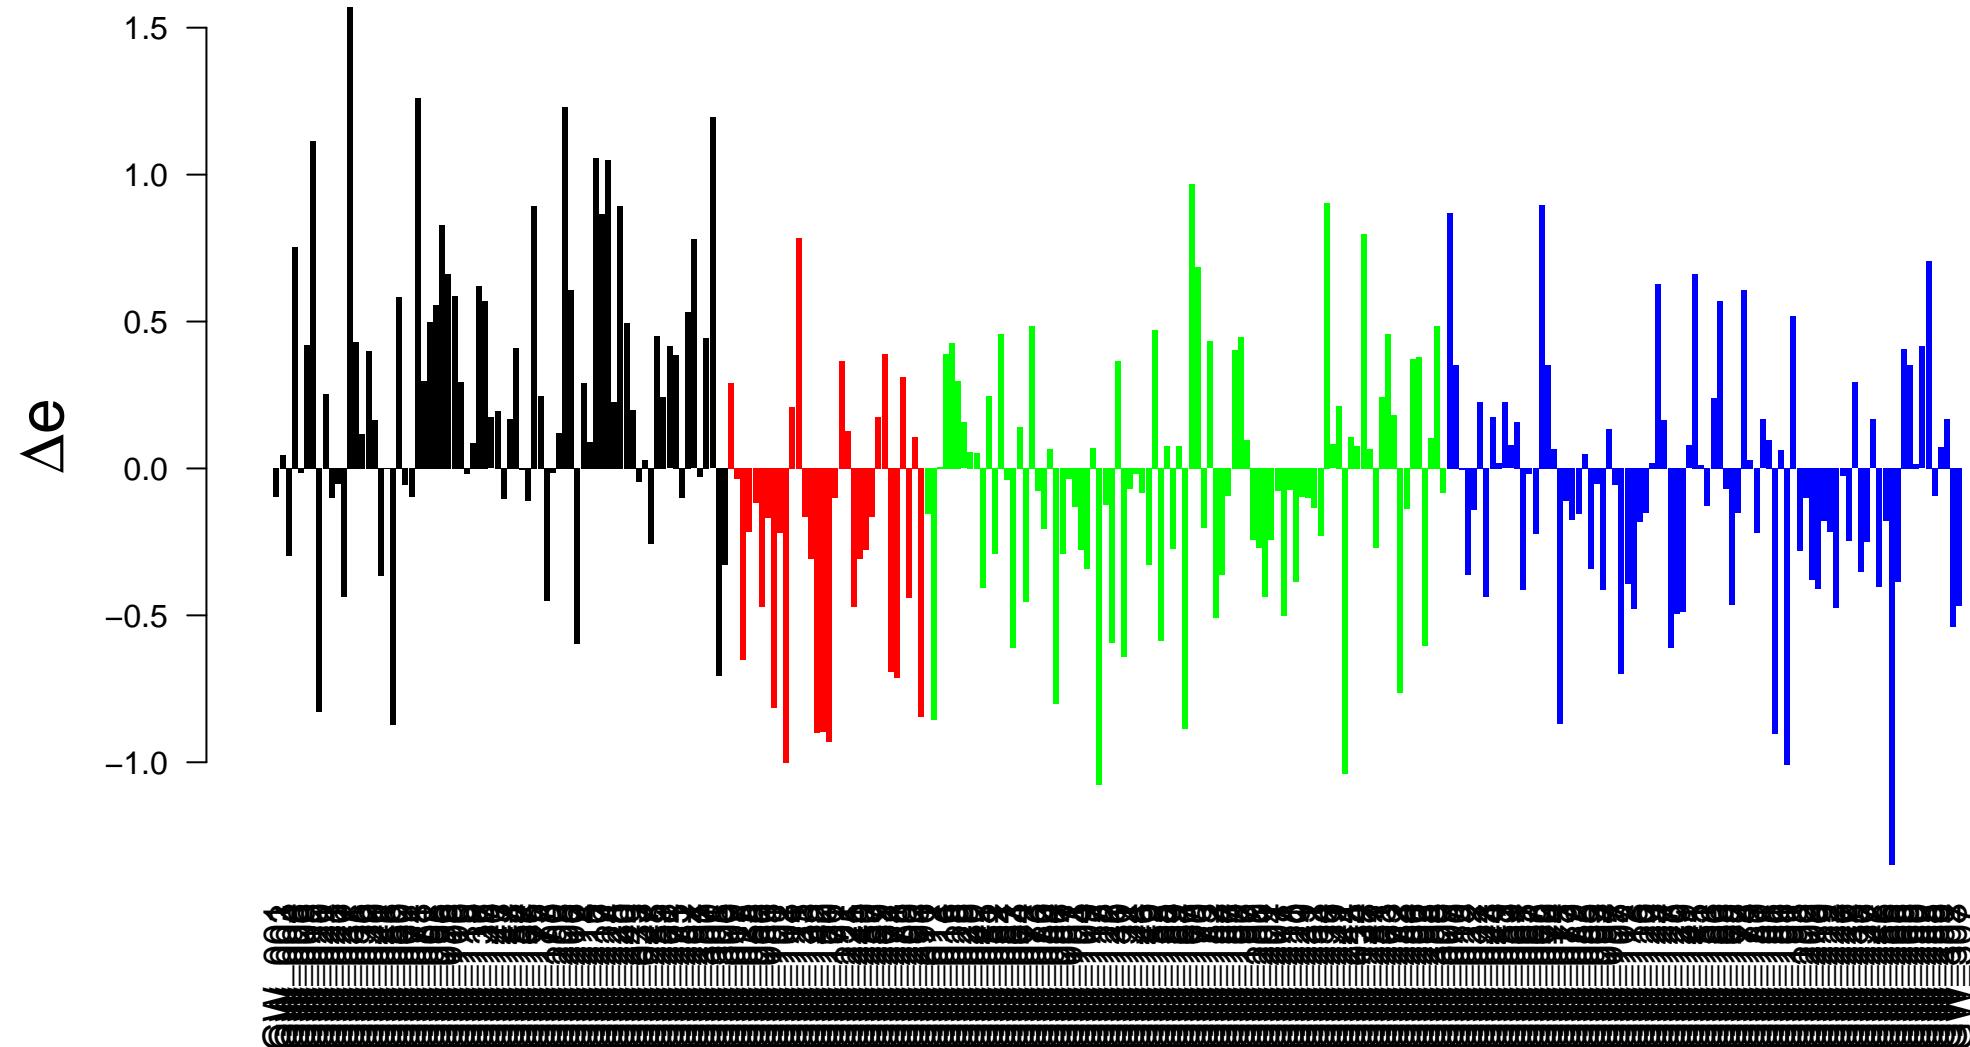

Expression of negative regulation of oligodendrocyte differentiation in Spot H

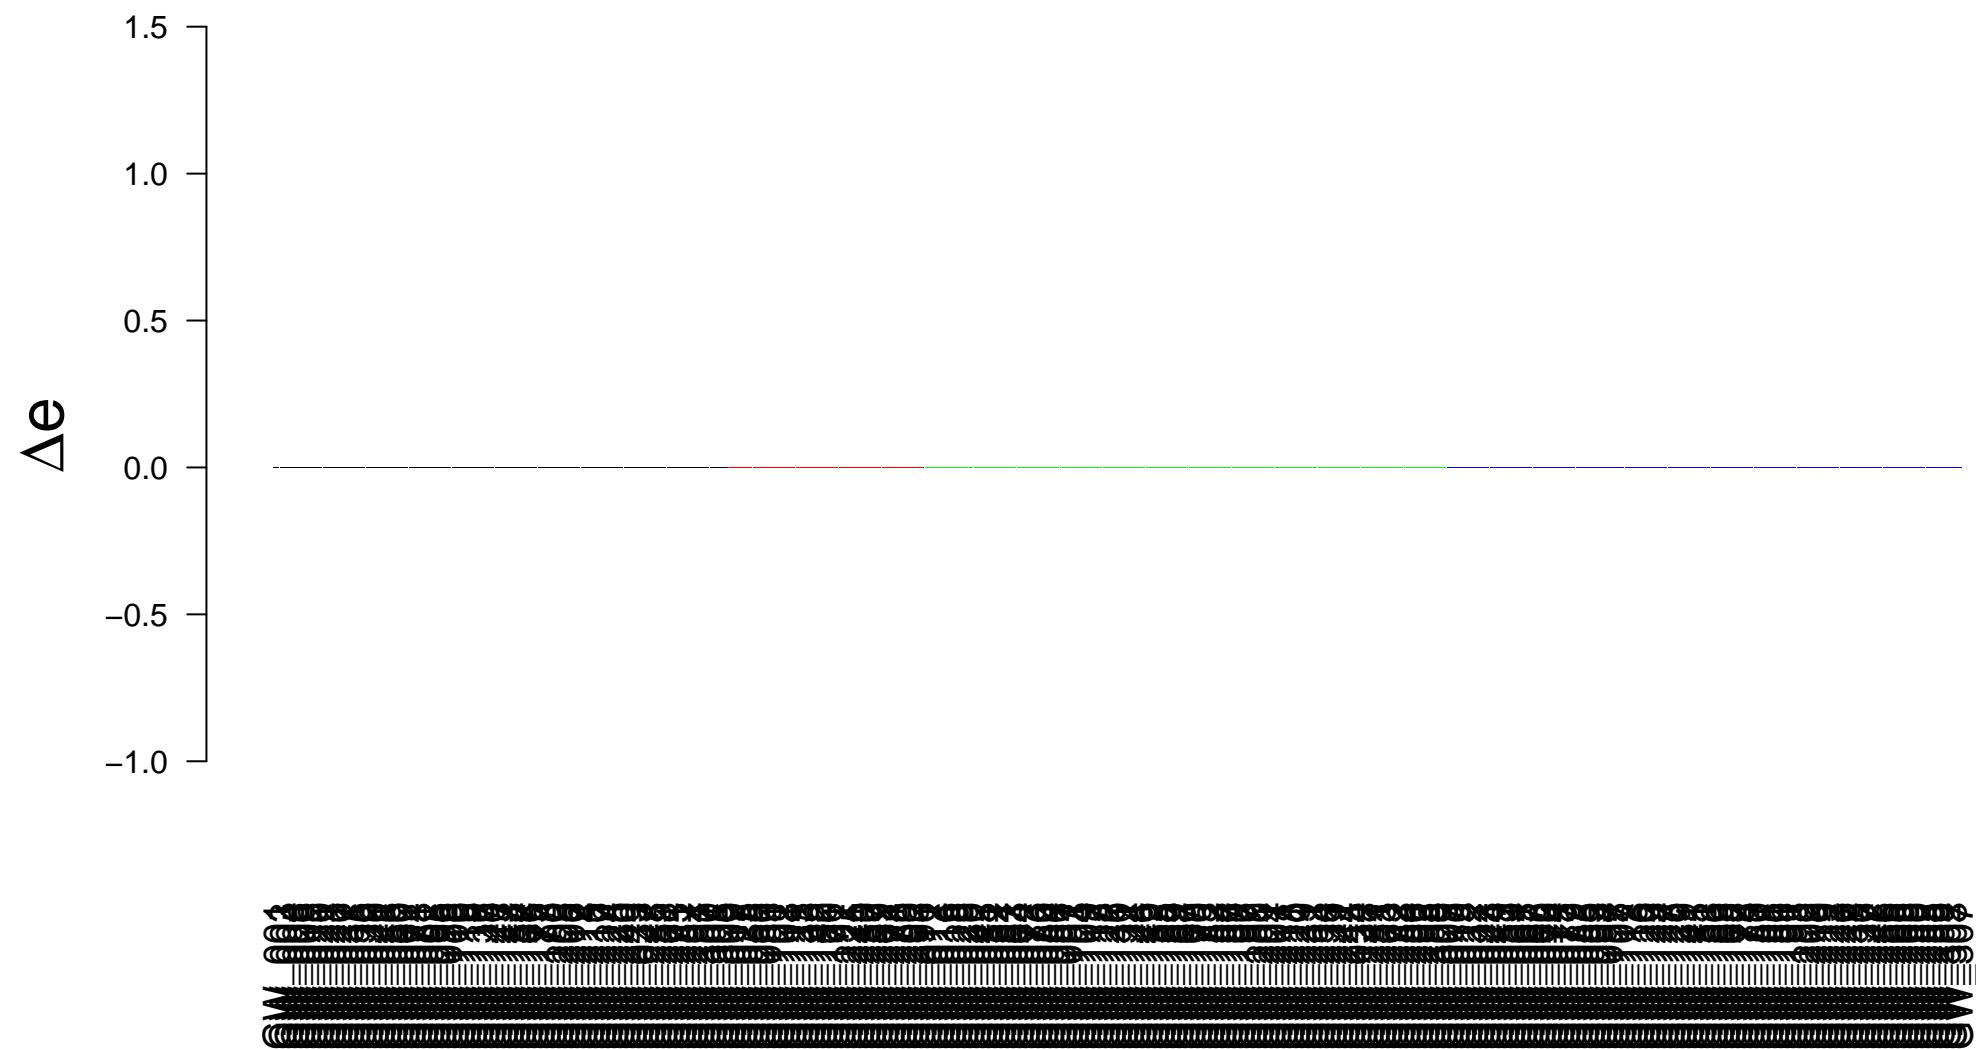

Expression of negative regulation of oligodendrocyte differentiation in Spot I

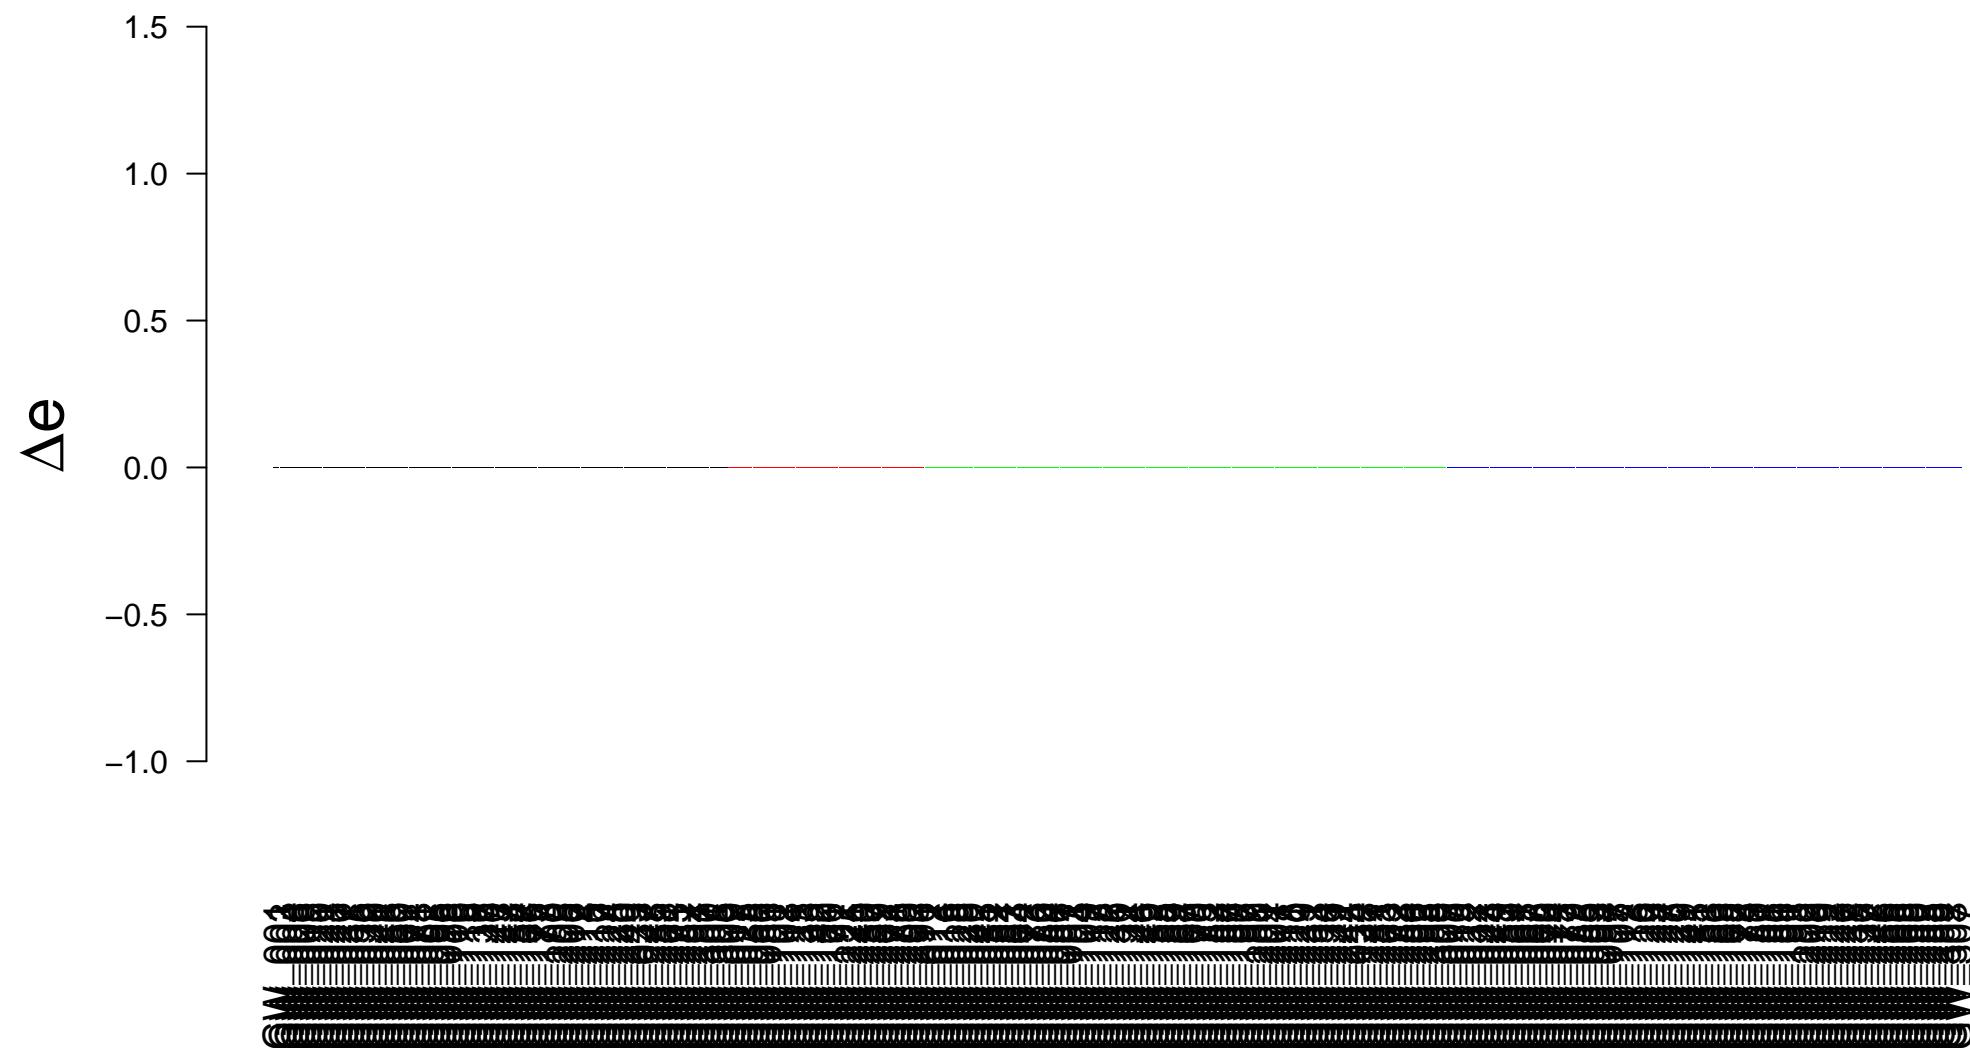

Expression of negative regulation of oligodendrocyte differentiation in Spot J

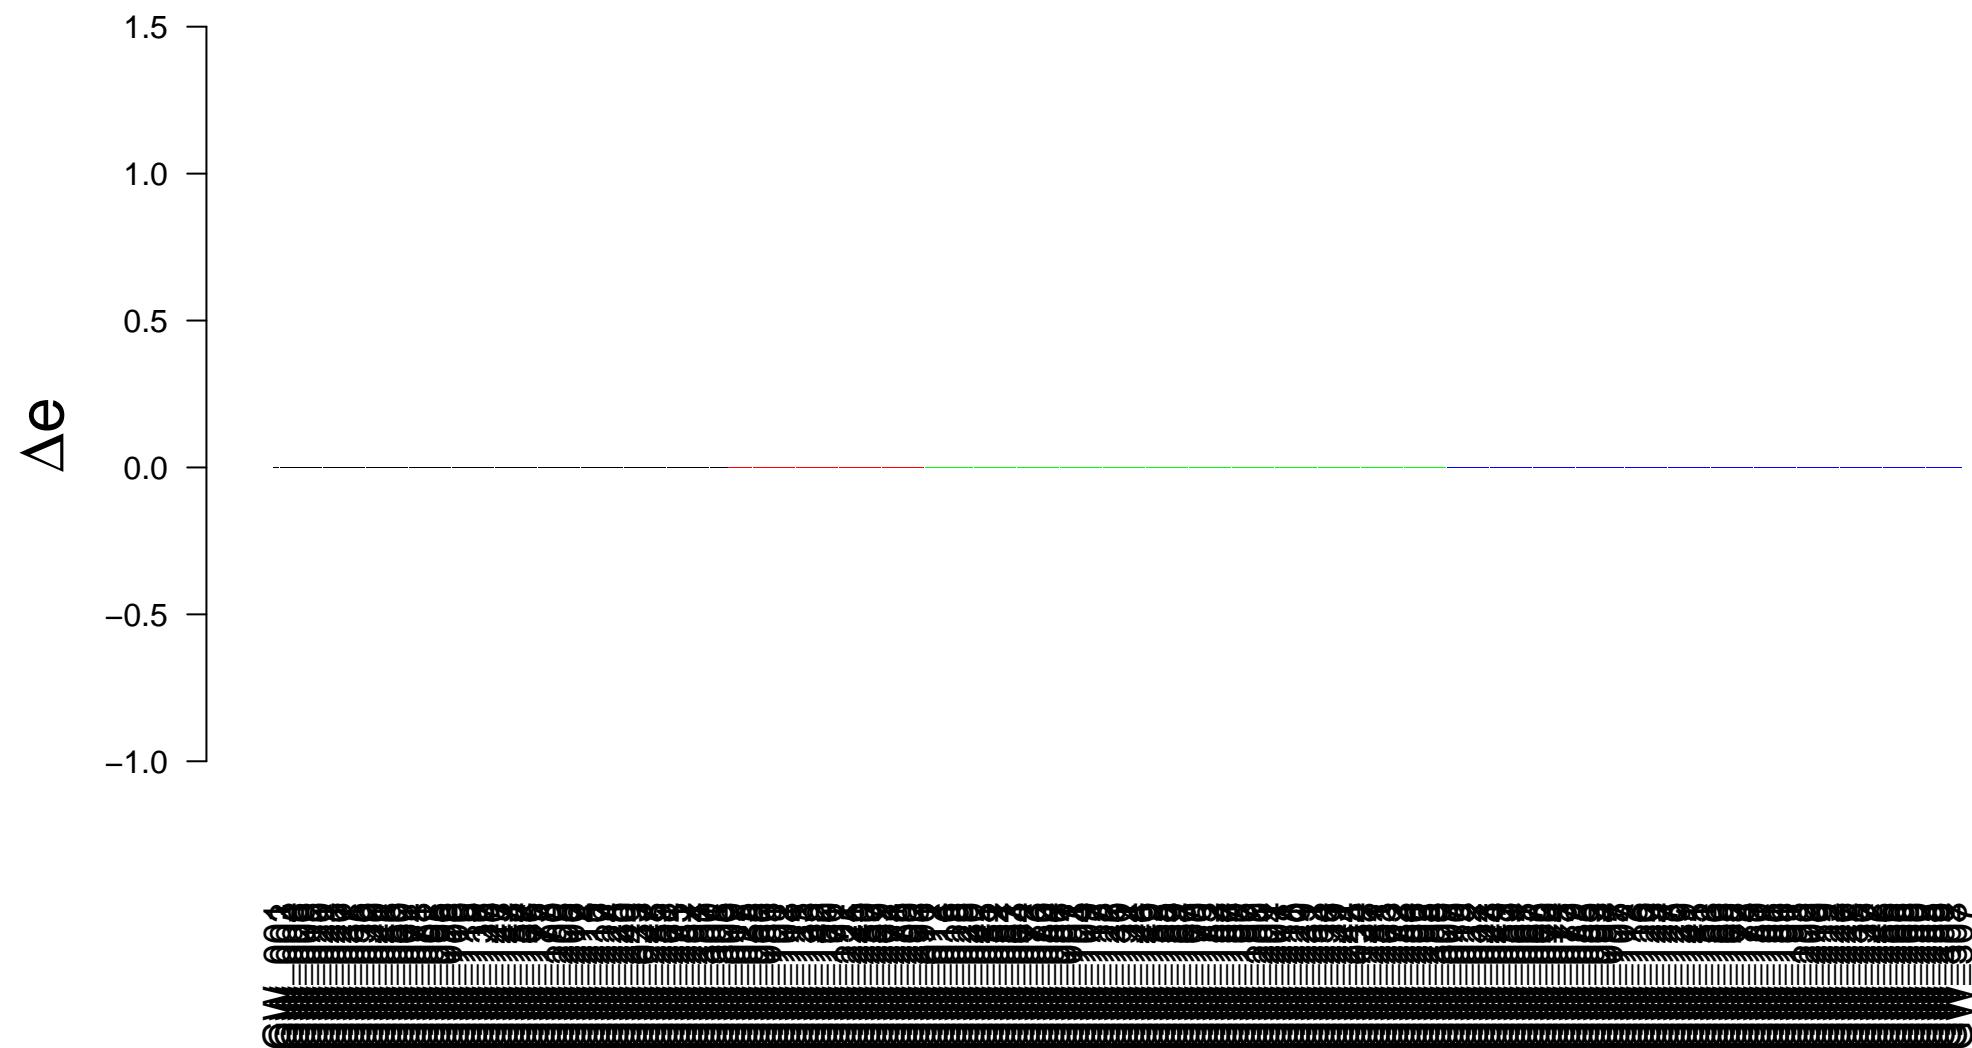

Expression of negative regulation of oligodendrocyte differentiation in Spot K

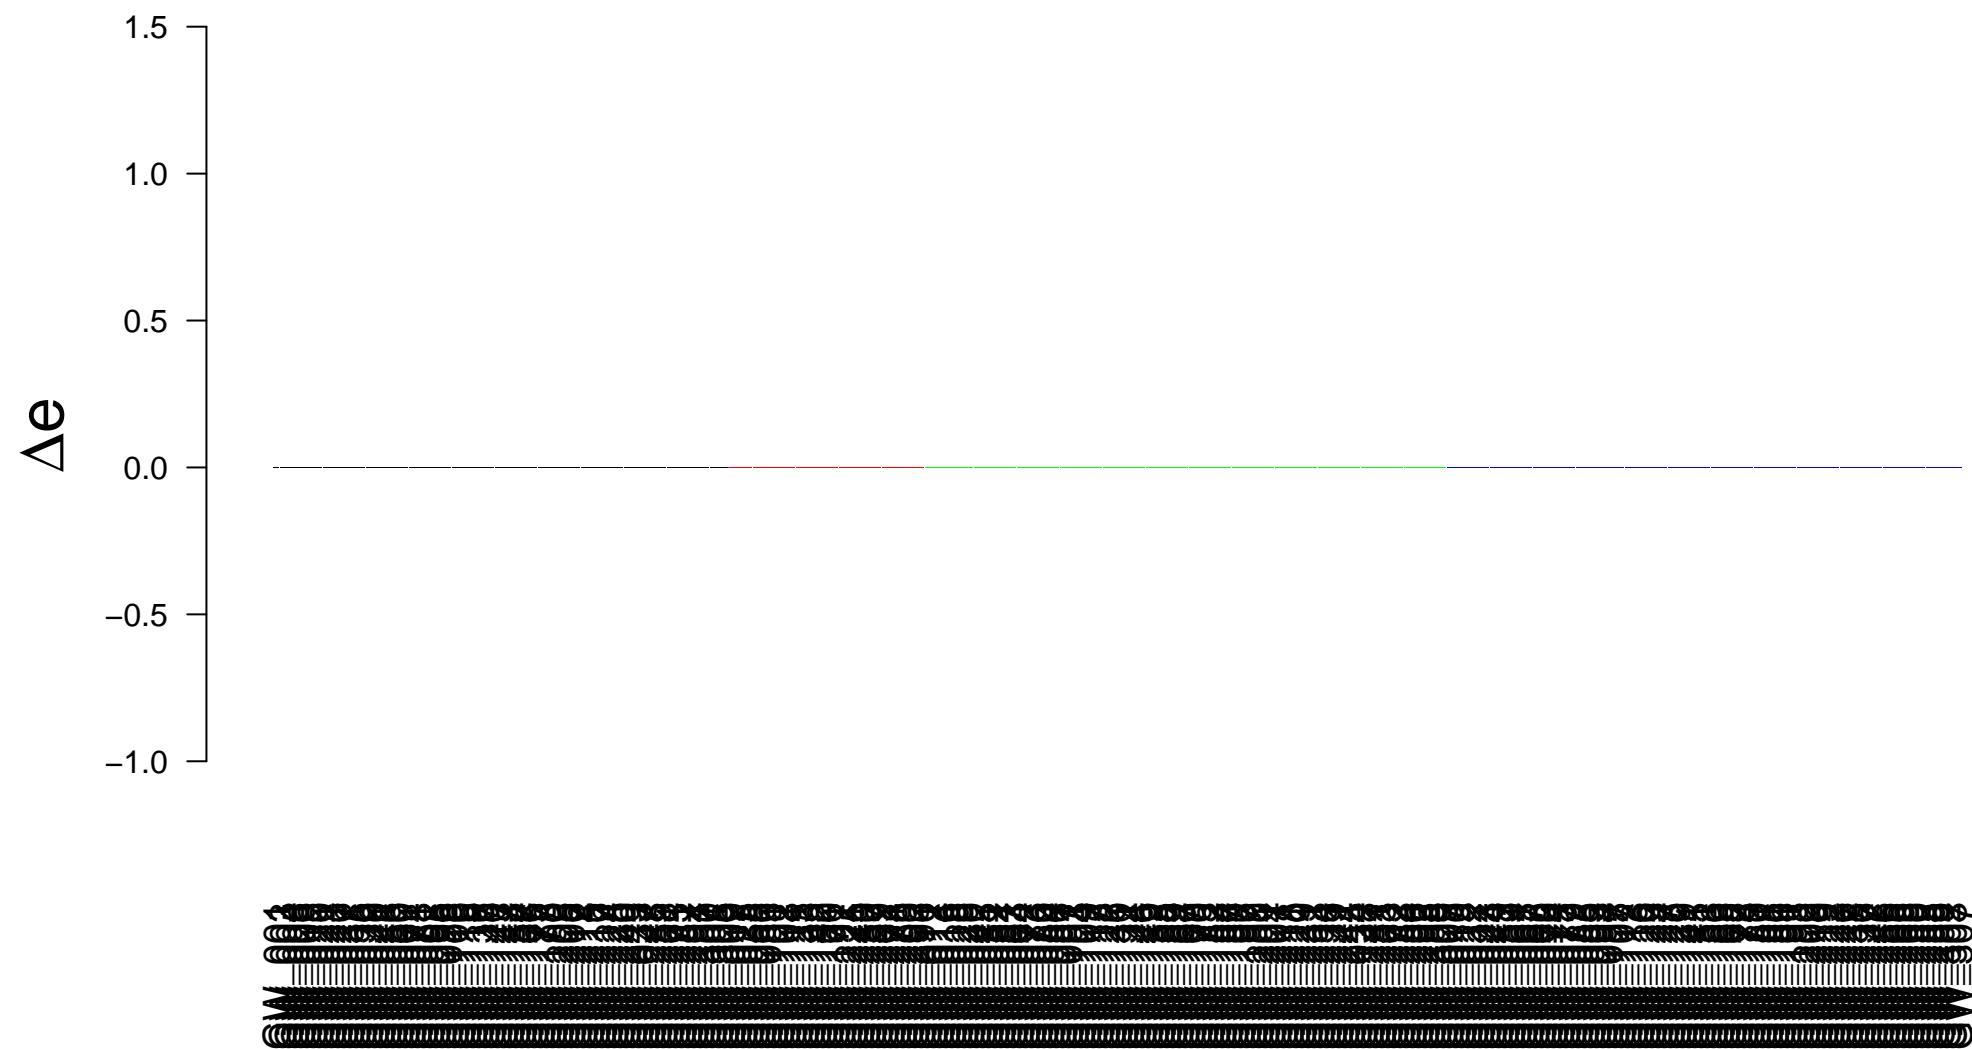

Expression of negative regulation of oligodendrocyte differentiation in Spot L

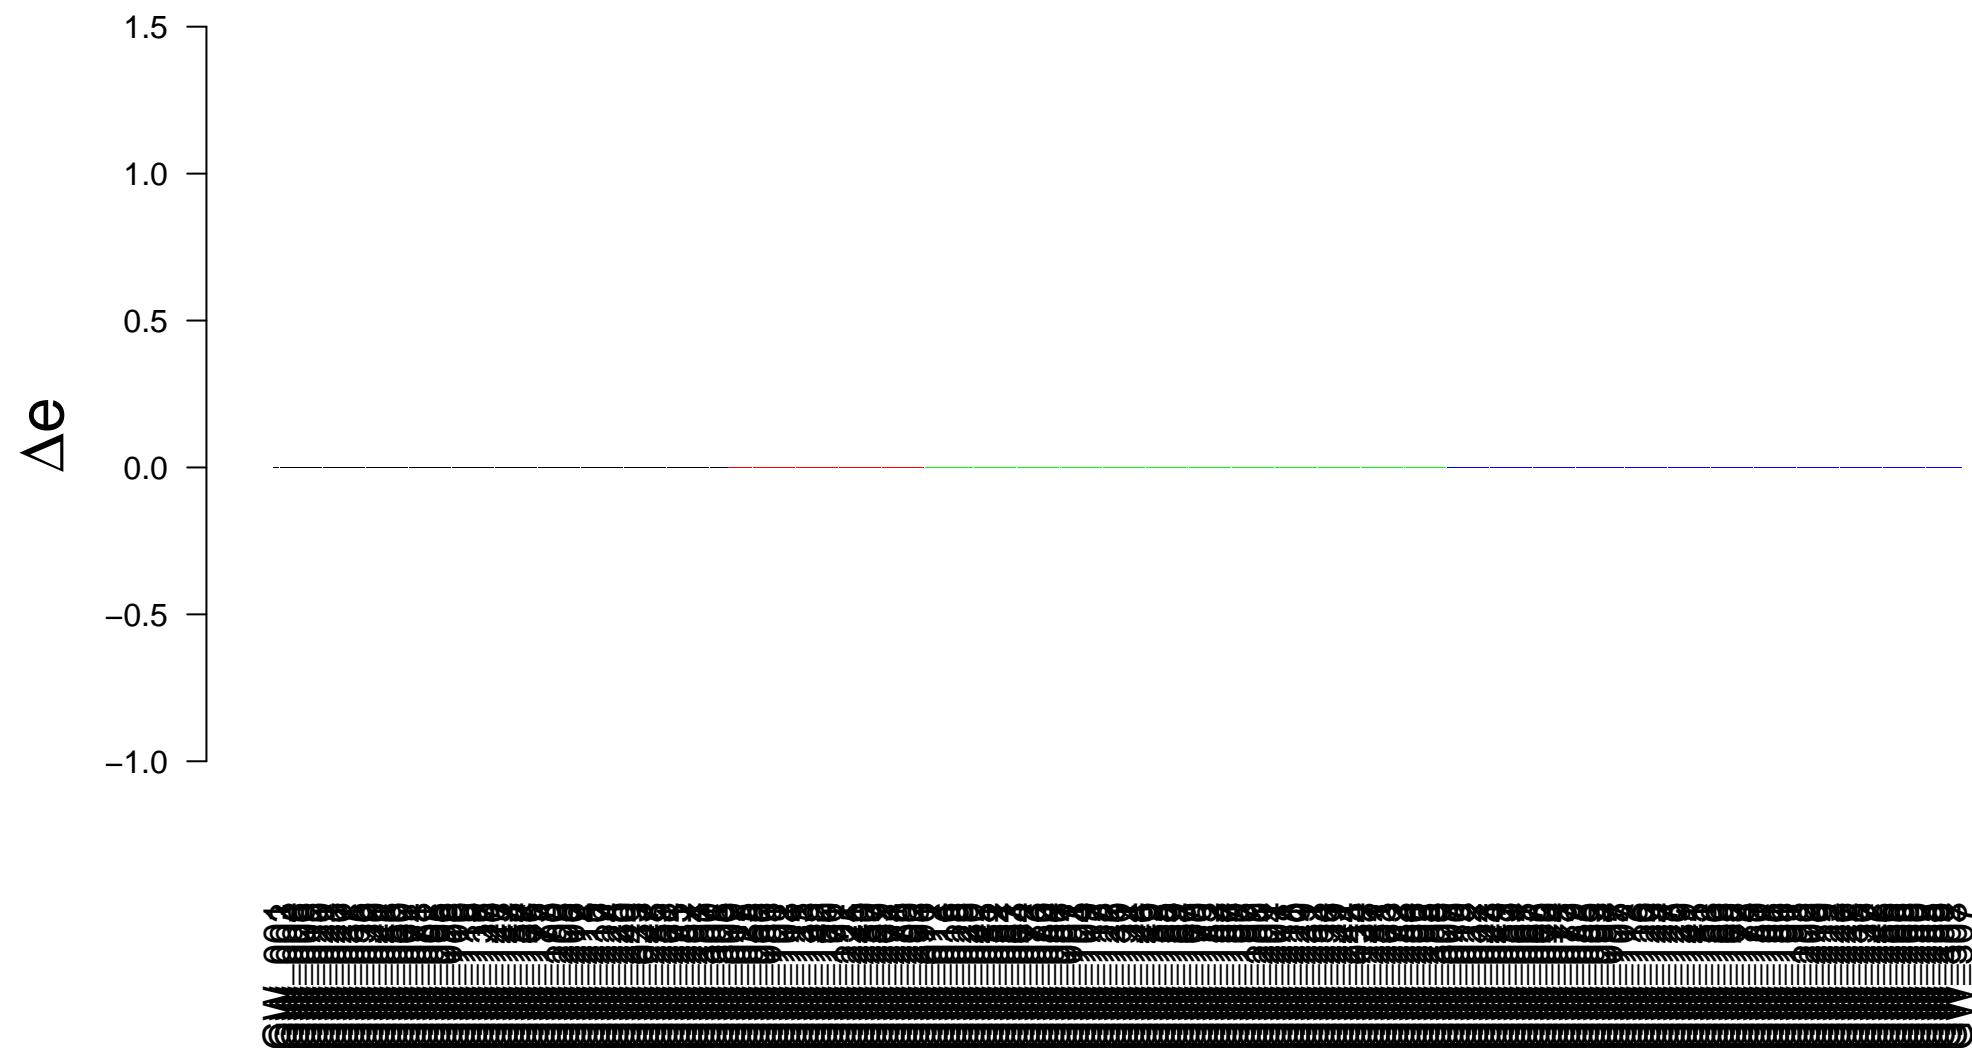

Expression of negative regulation of oligodendrocyte differentiation in Spot M

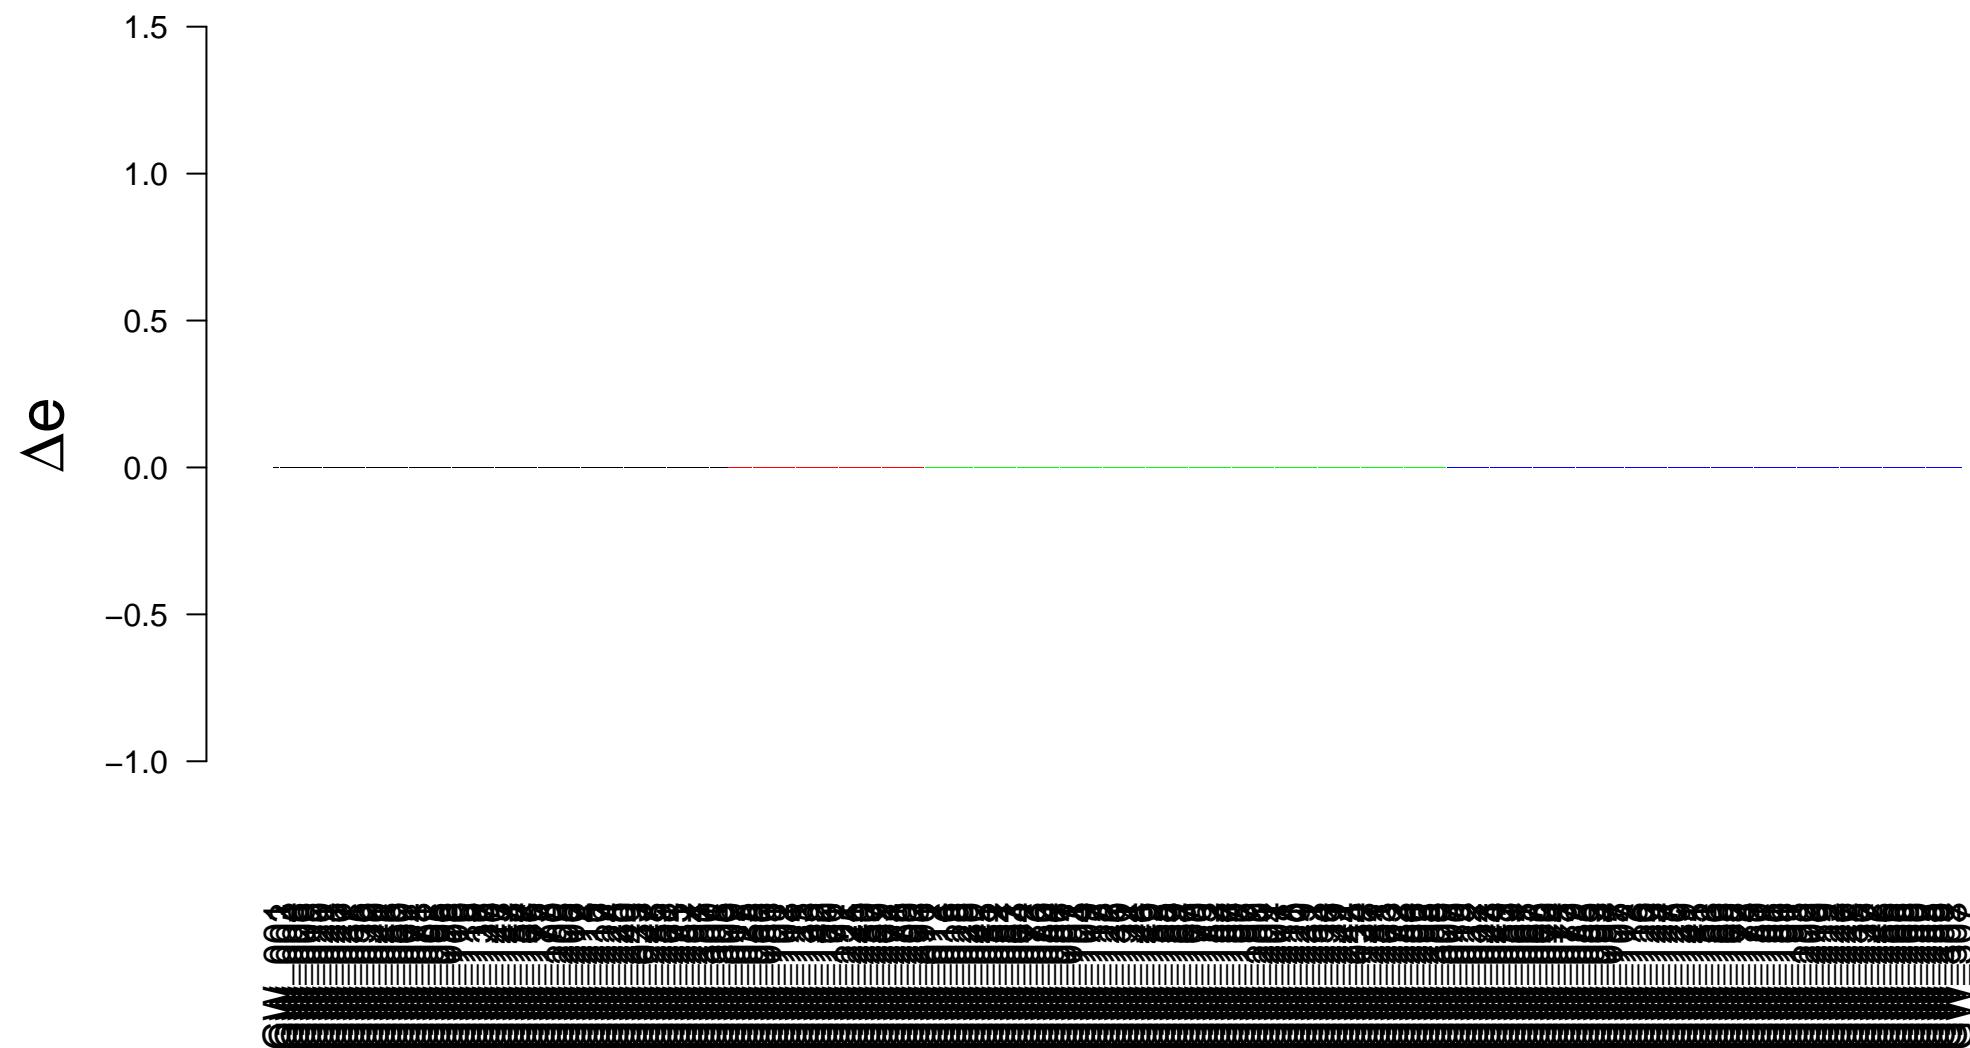

Expression of negative regulation of oligodendrocyte differentiation in Spot N

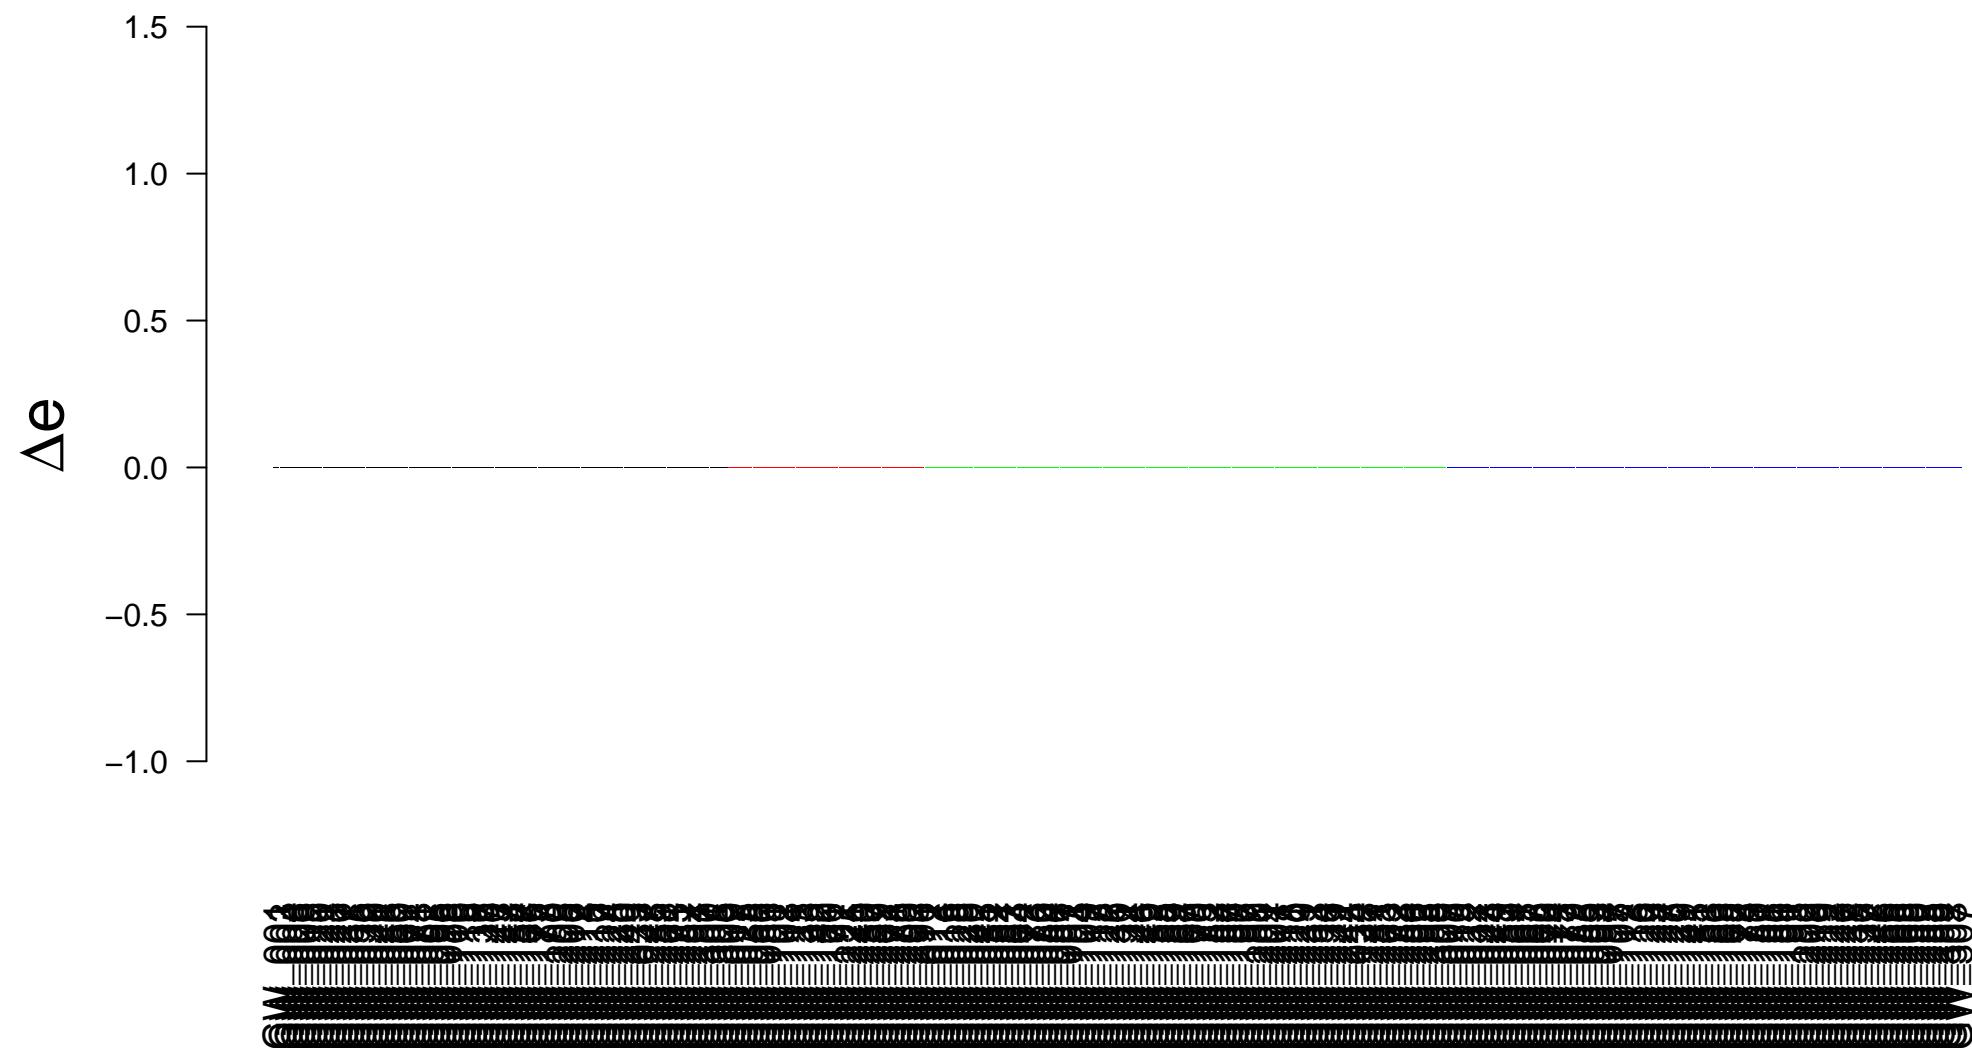

Expression of negative regulation of oligodendrocyte differentiation in Spot O

Expression of negative regulation of oligodendrocyte differentiation in Spot P

Expression of negative regulation of oligodendrocyte differentiation in Spot Q

Expression of negative regulation of oligodendrocyte differentiation in Spot R
