

negative regulation of phosphatidylinositol 3-kinase signaling

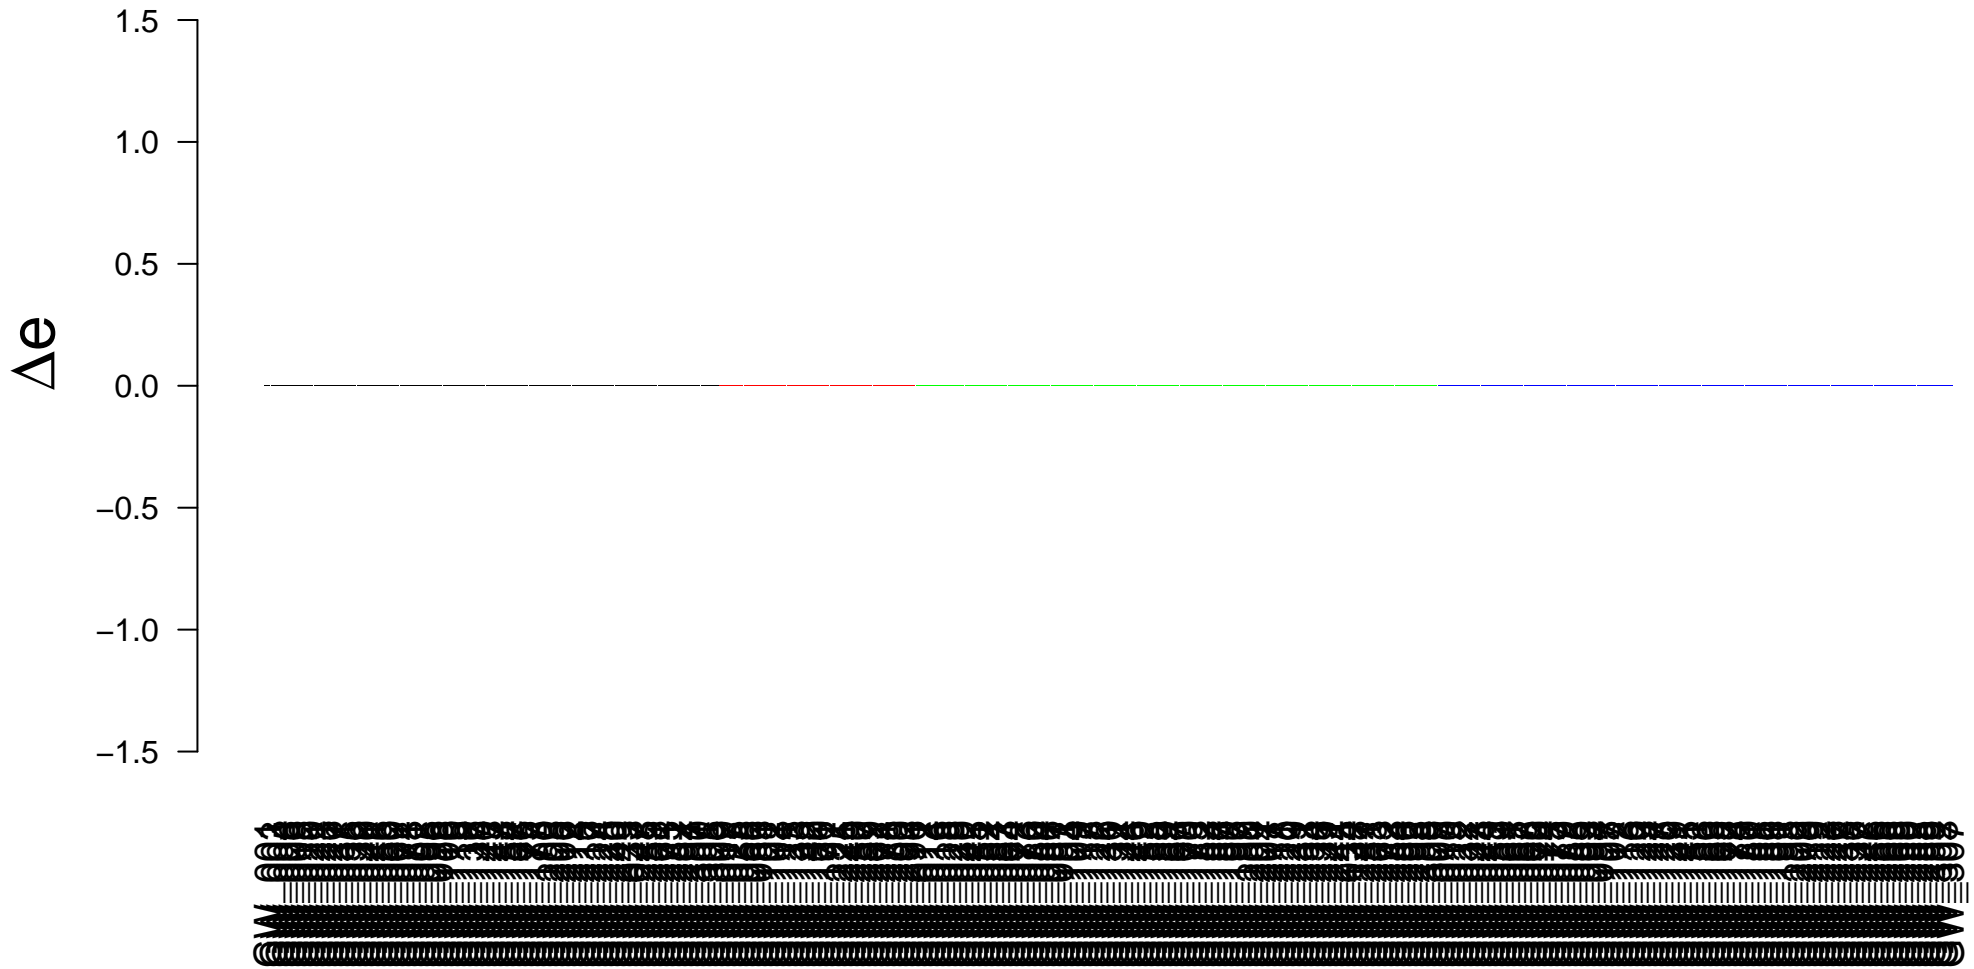

negative regulation of phosphatidylinositol 3-kinase signaling

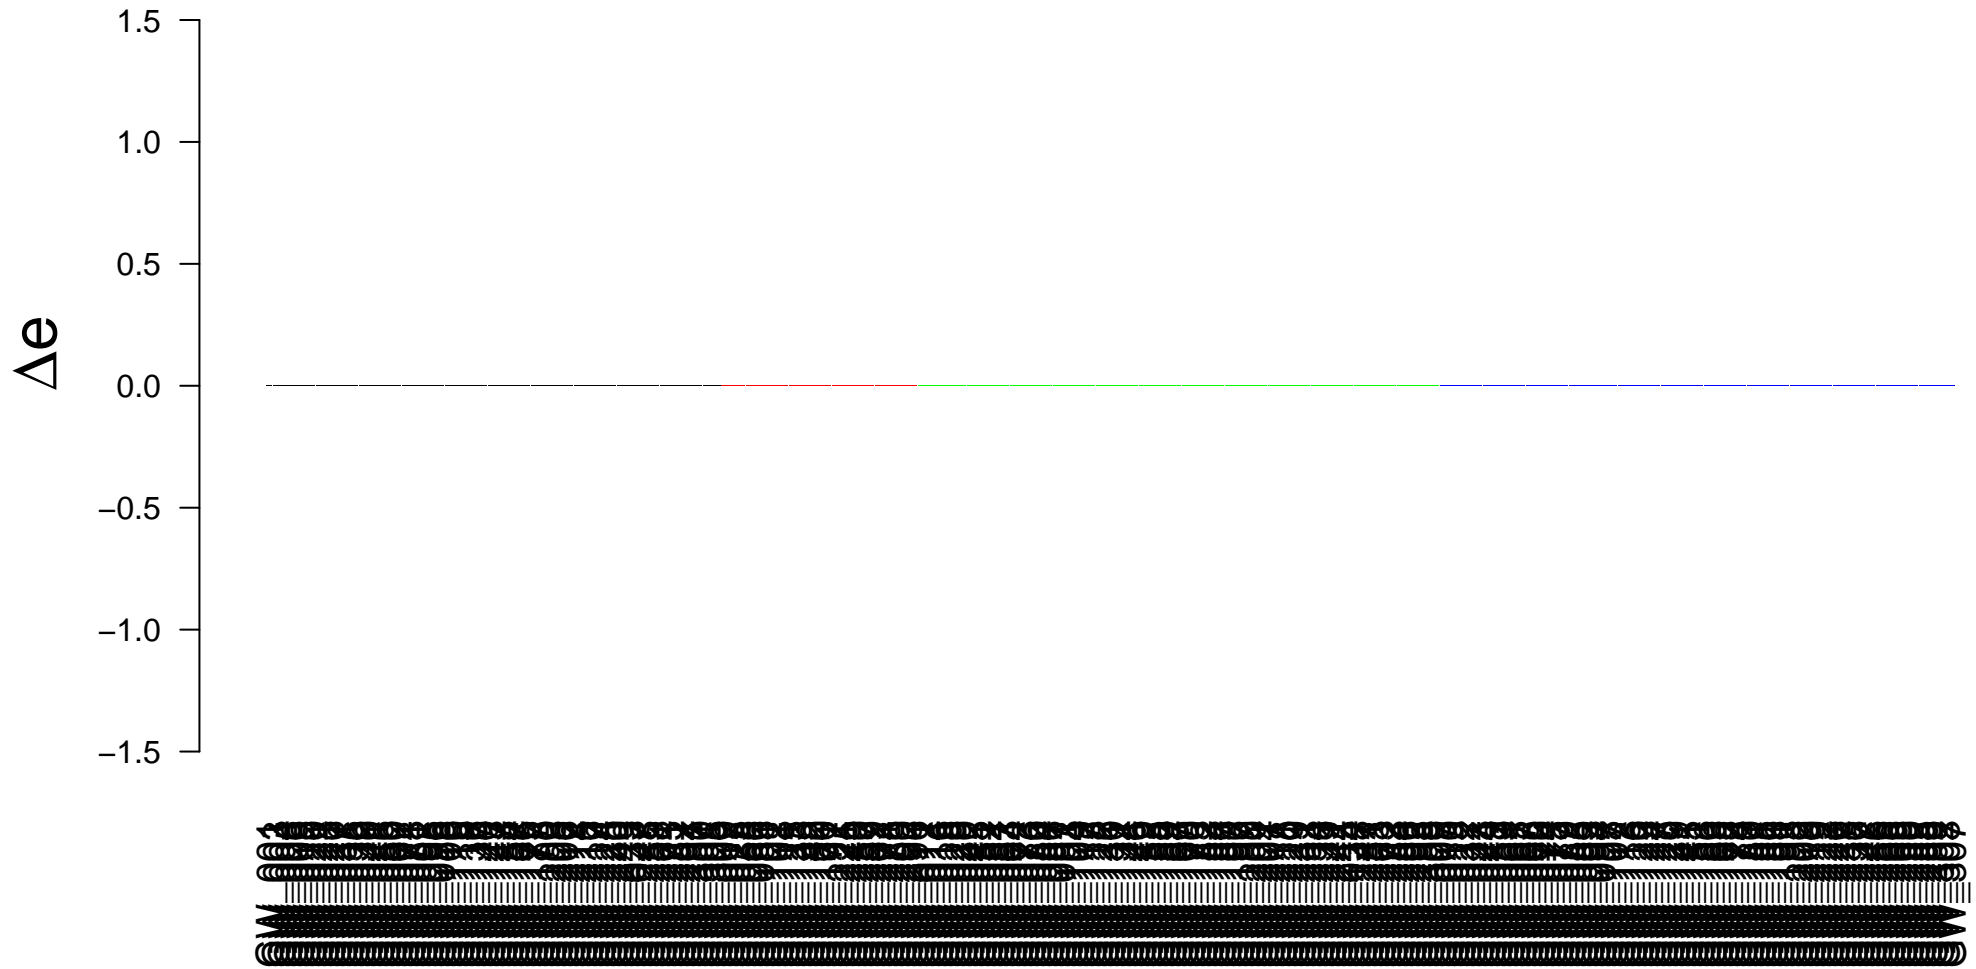

Enrichment in spots: negative regulation of phosphatidylinositol 3-kinase signaling

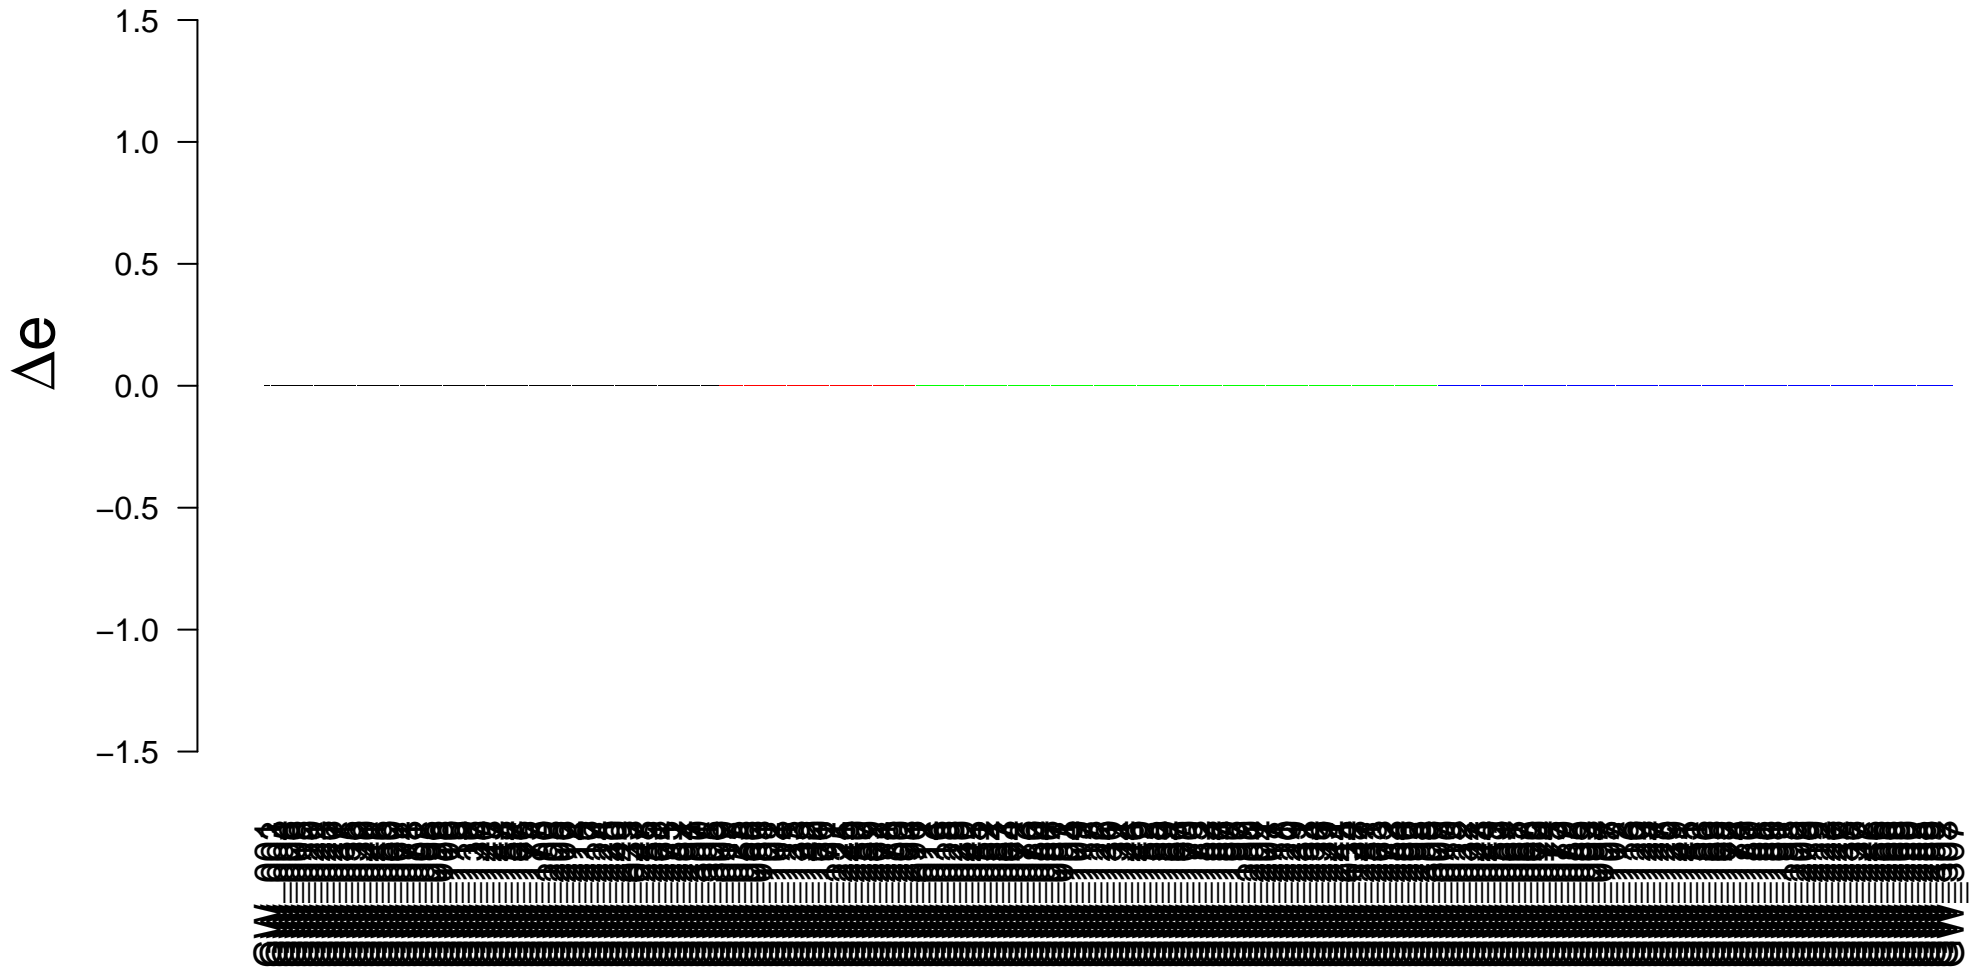

Expression of negative regulation of phosphatidylinositol 3-kinase signaling in Spot A

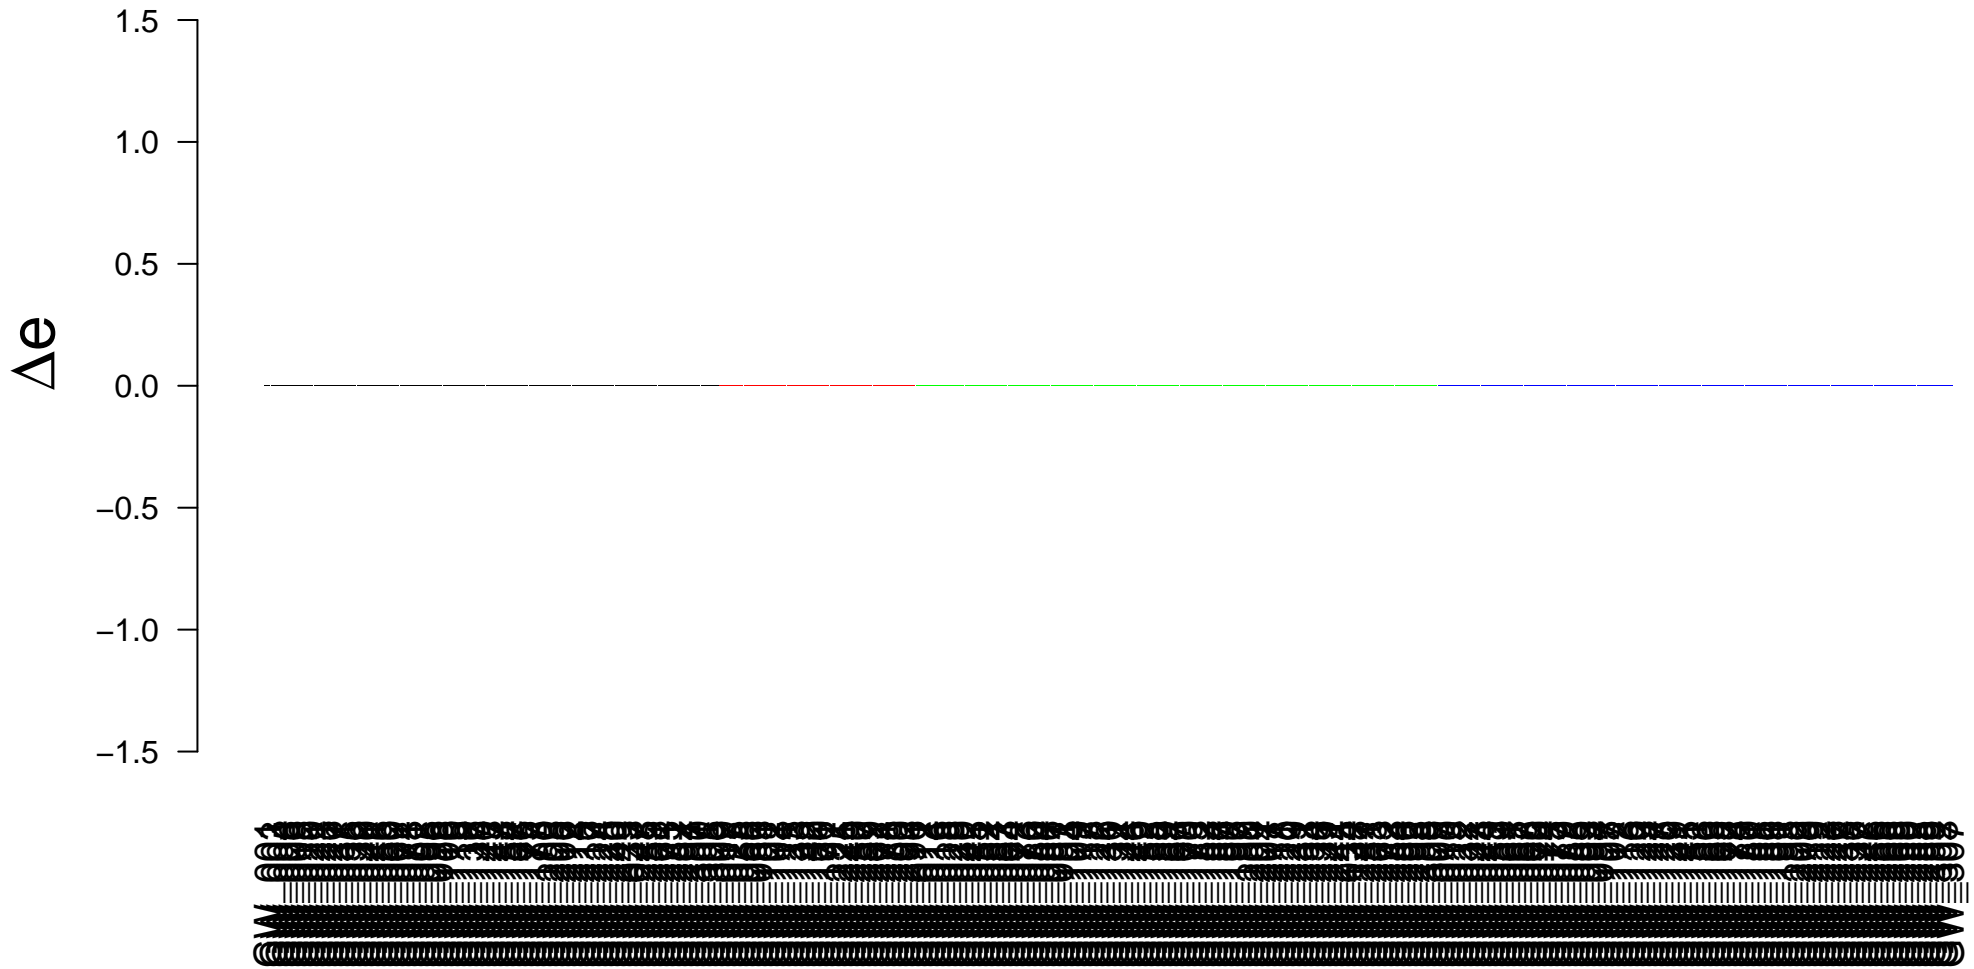

Expression of negative regulation of phosphatidylinositol 3-kinase signaling in Spot B

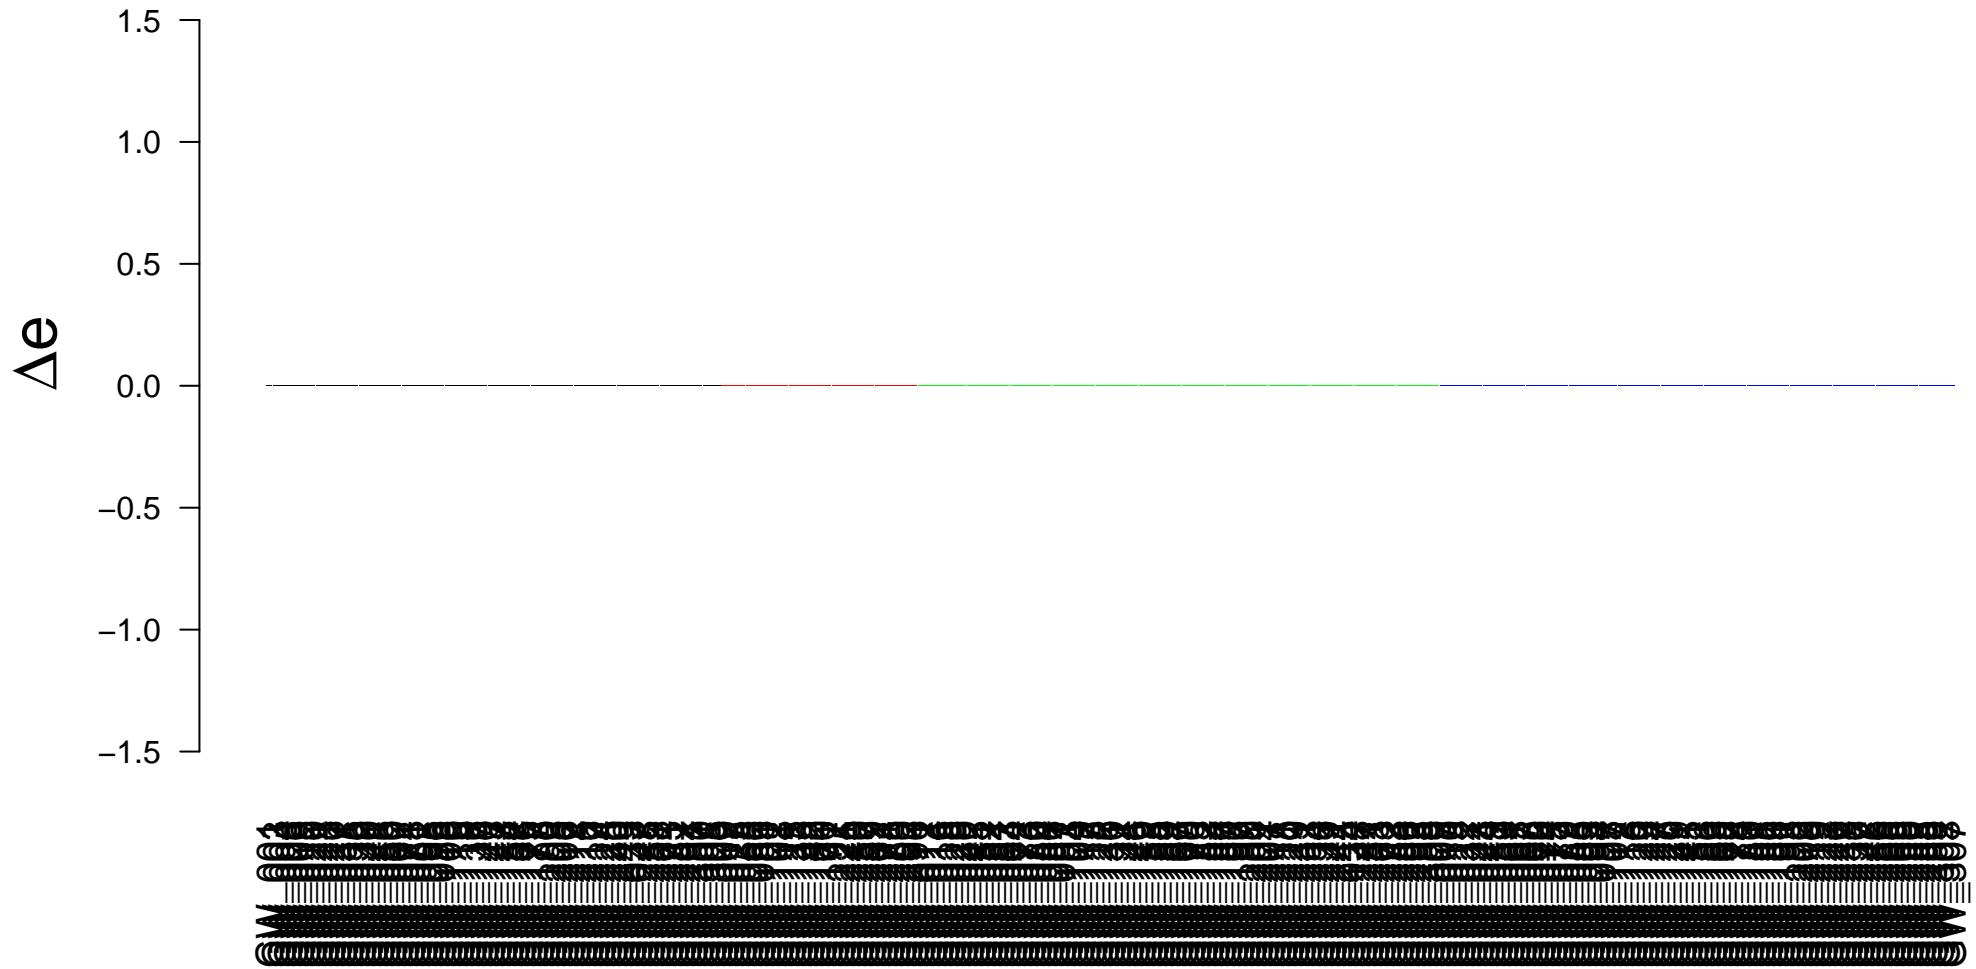

Expression of negative regulation of phosphatidylinositol 3-kinase signaling in Spot C

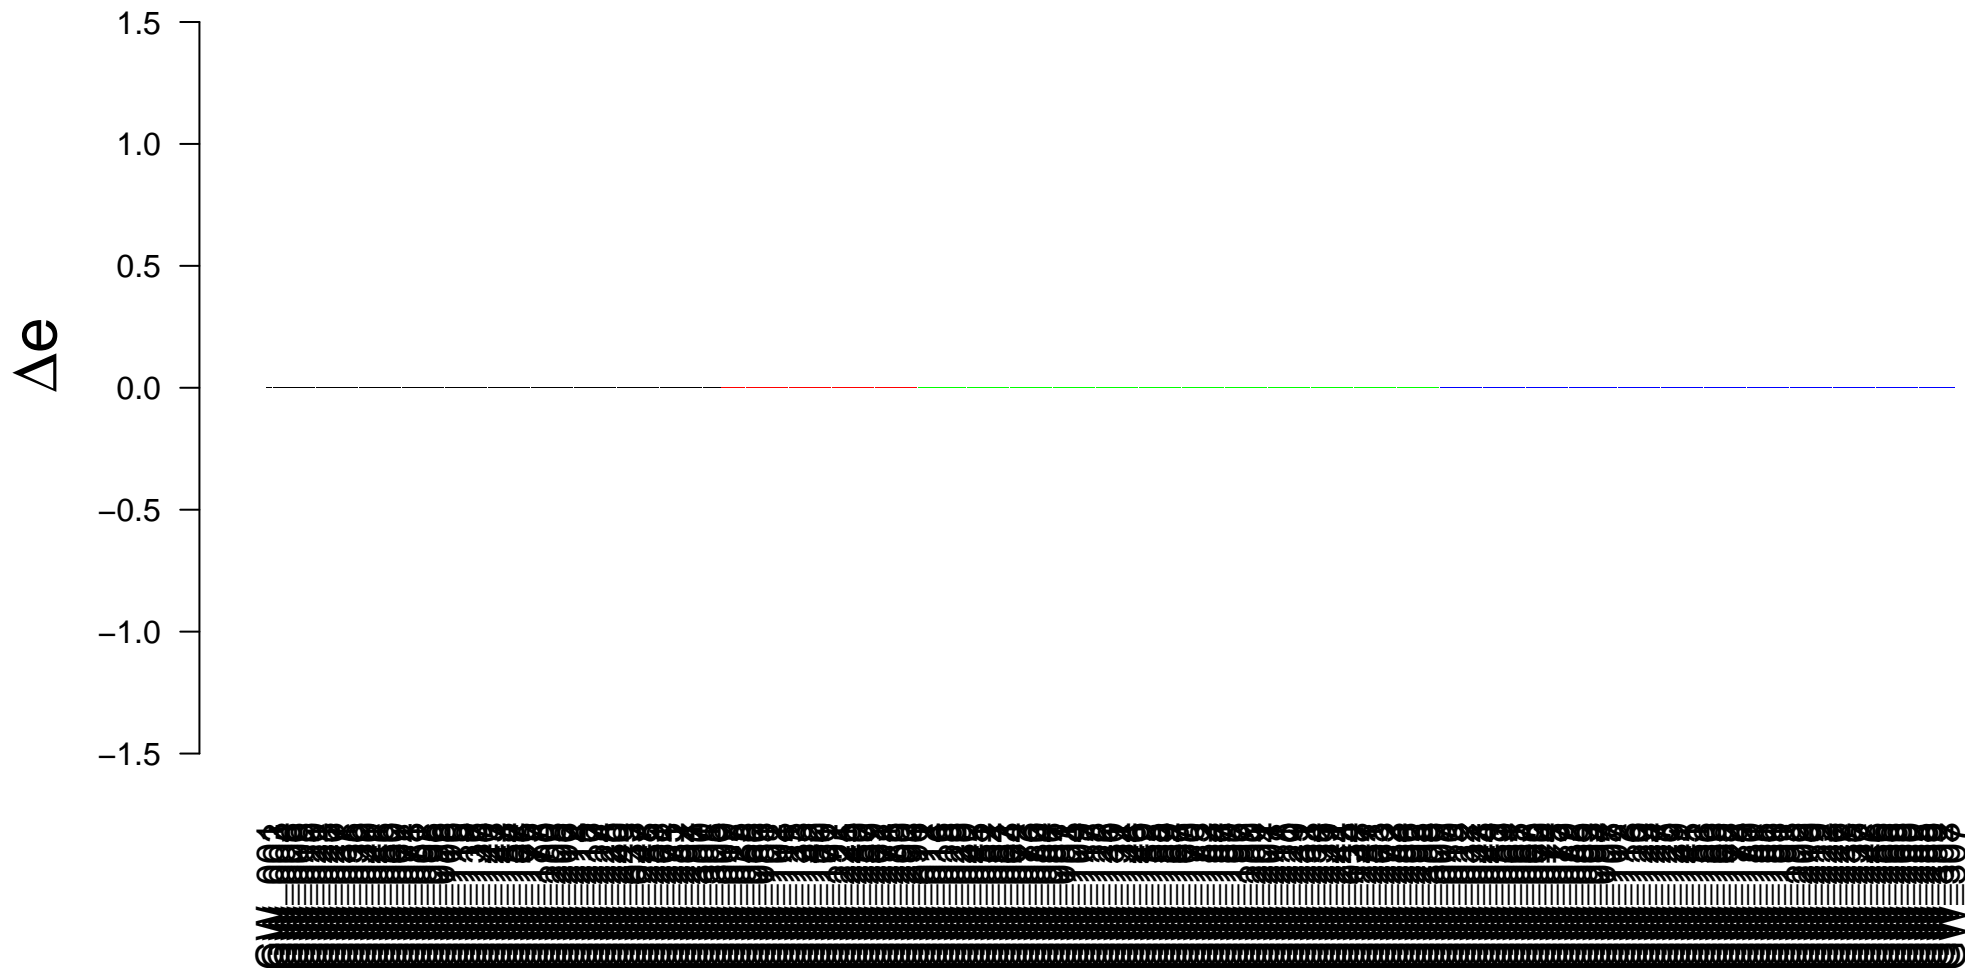

Expression of negative regulation of phosphatidylinositol 3-kinase signaling in Spot D

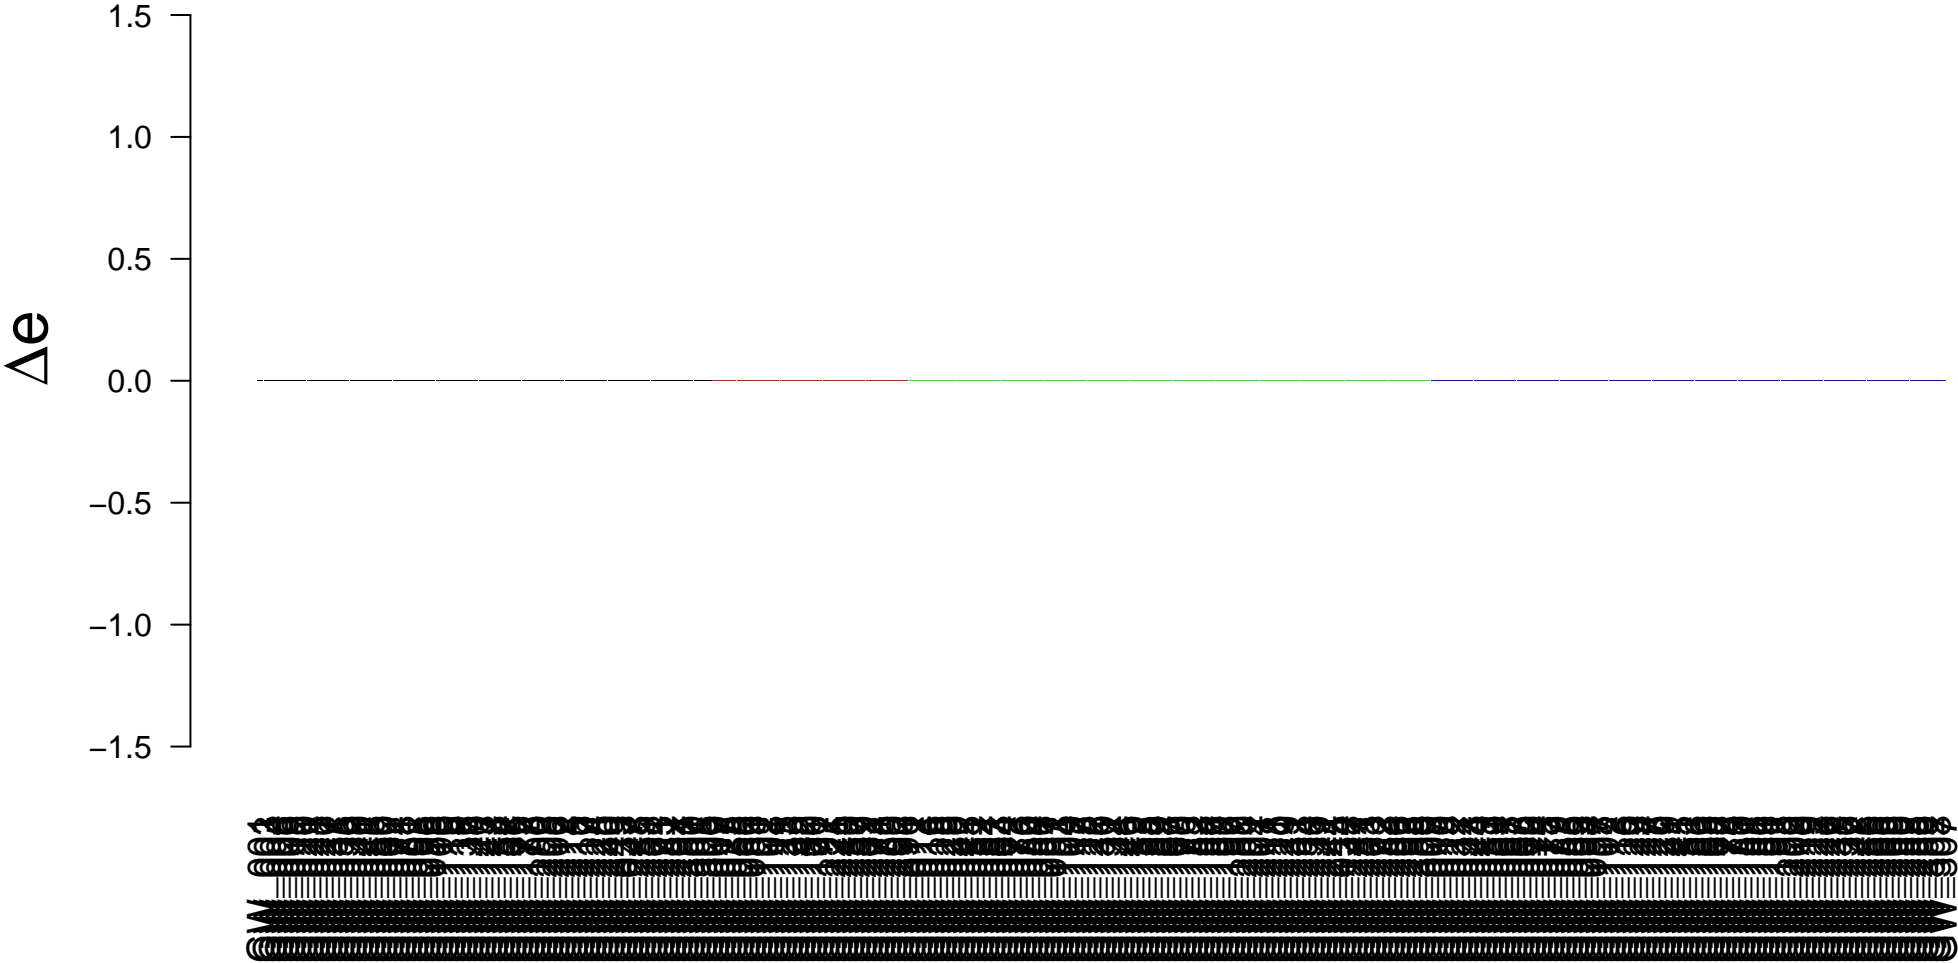

Expression of negative regulation of phosphatidylinositol 3-kinase signaling in Spot E

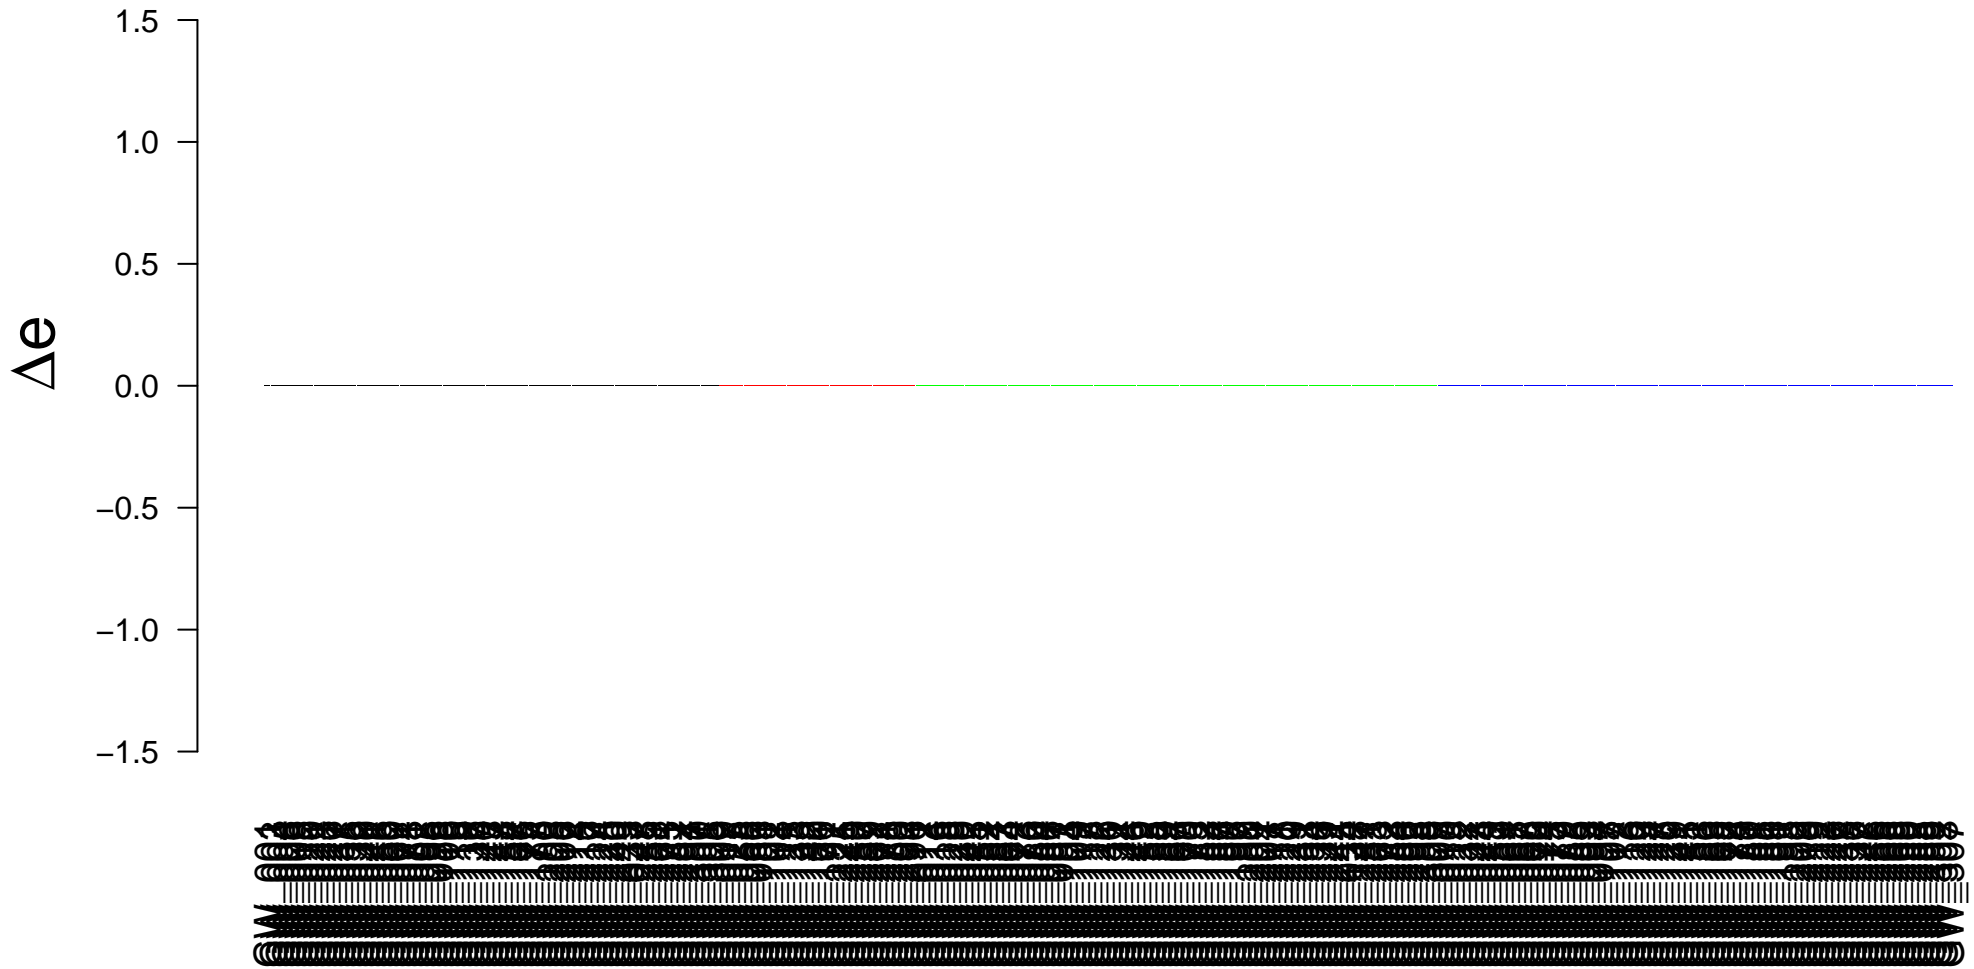

Expression of negative regulation of phosphatidylinositol 3-kinase signaling in Spot F

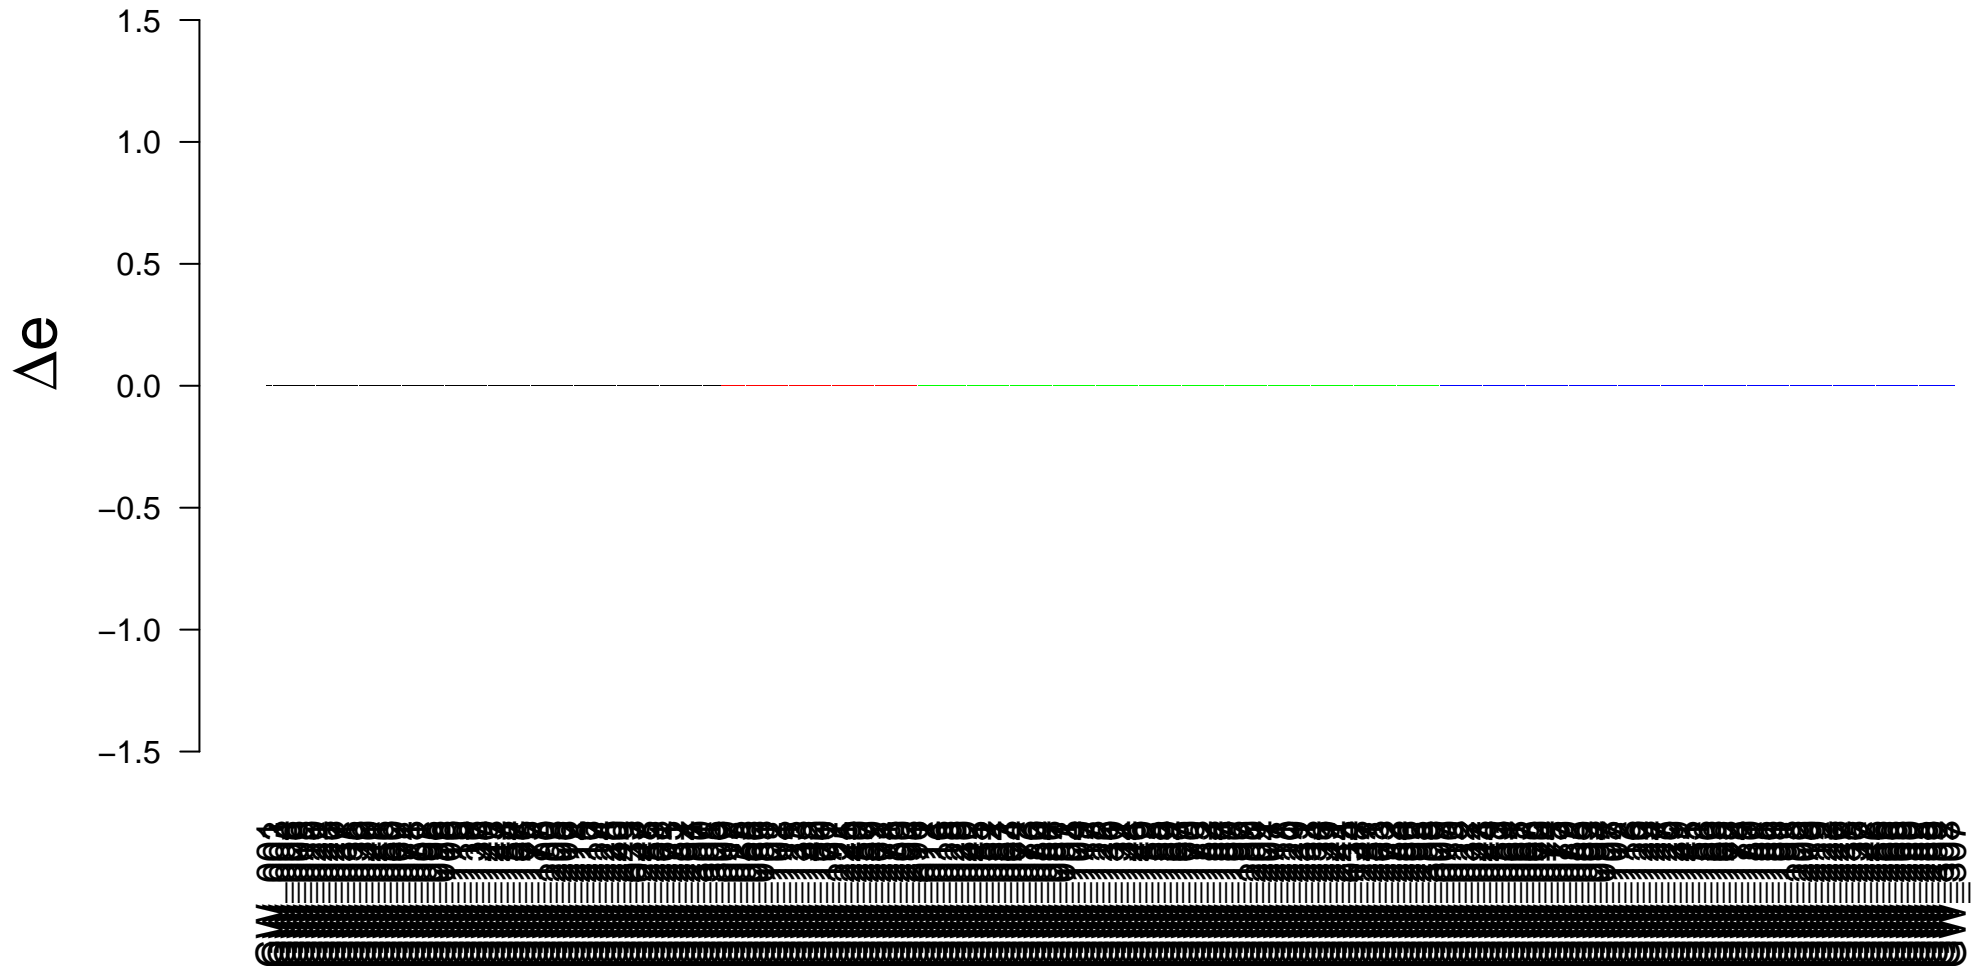

Expression of negative regulation of phosphatidylinositol 3-kinase signaling in Spot G

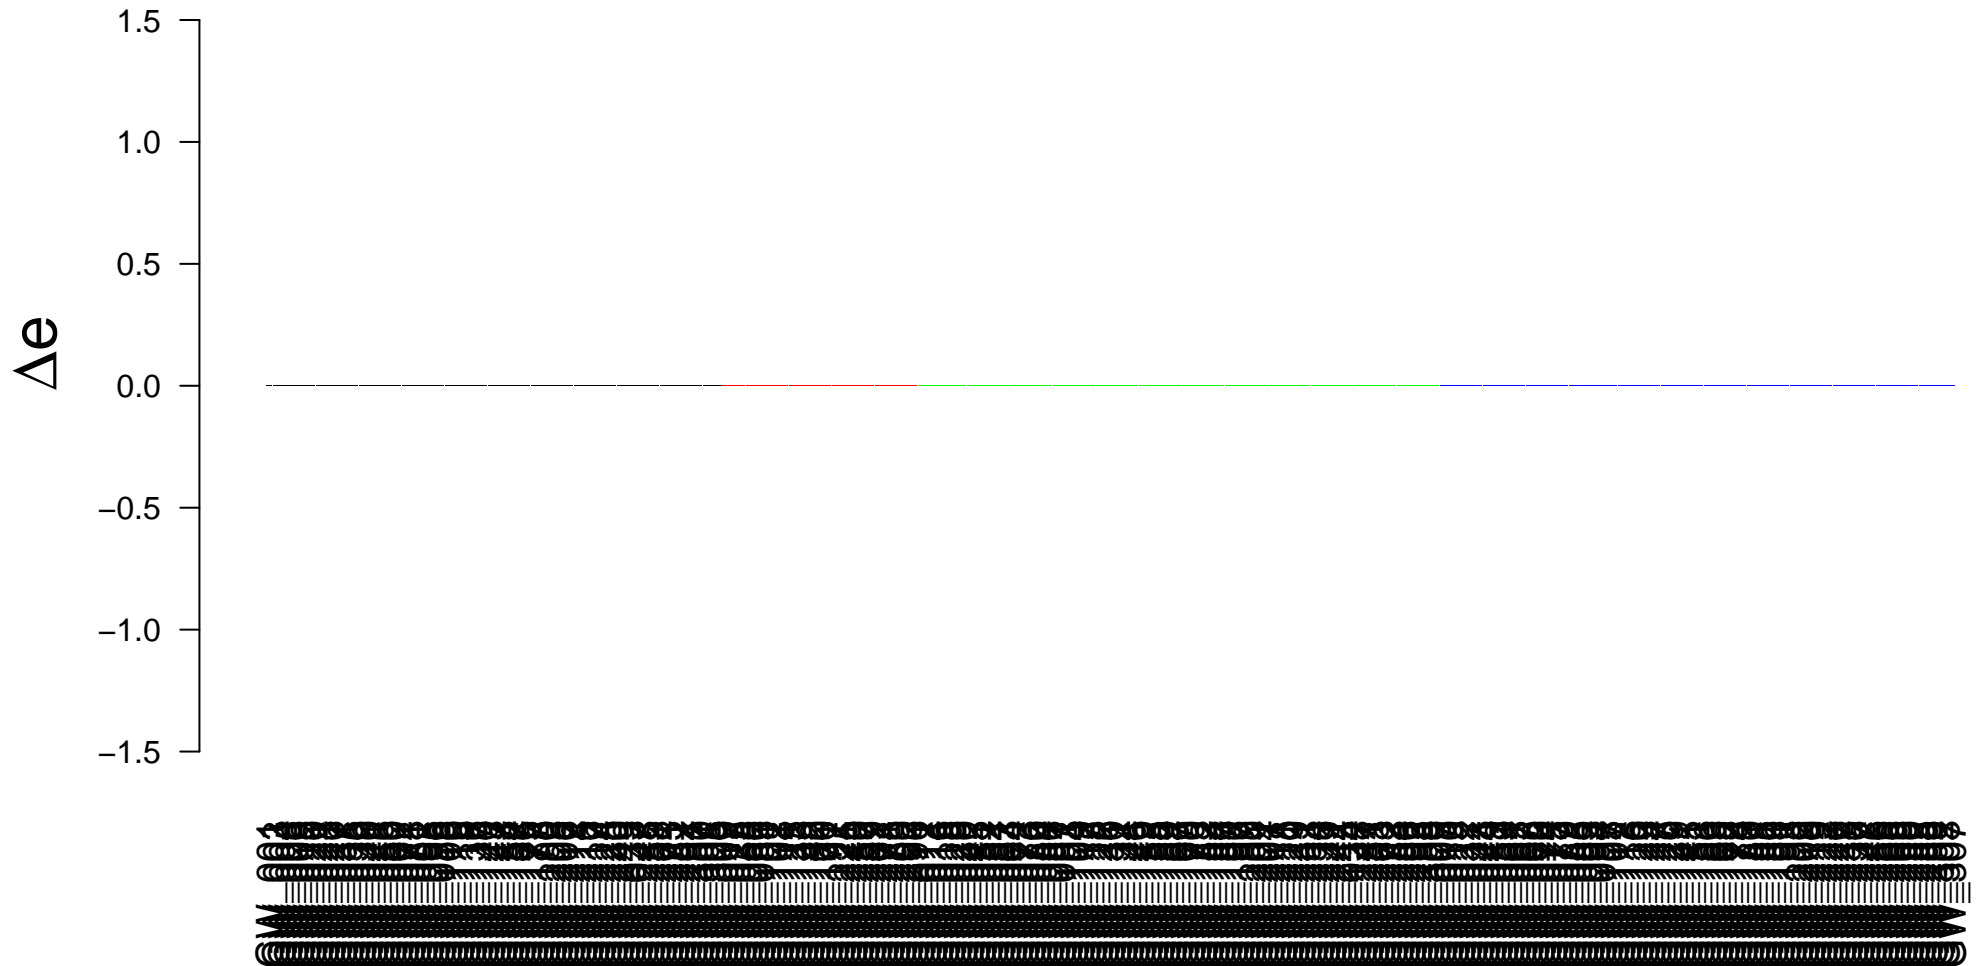

Expression of negative regulation of phosphatidylinositol 3-kinase signaling in Spot H

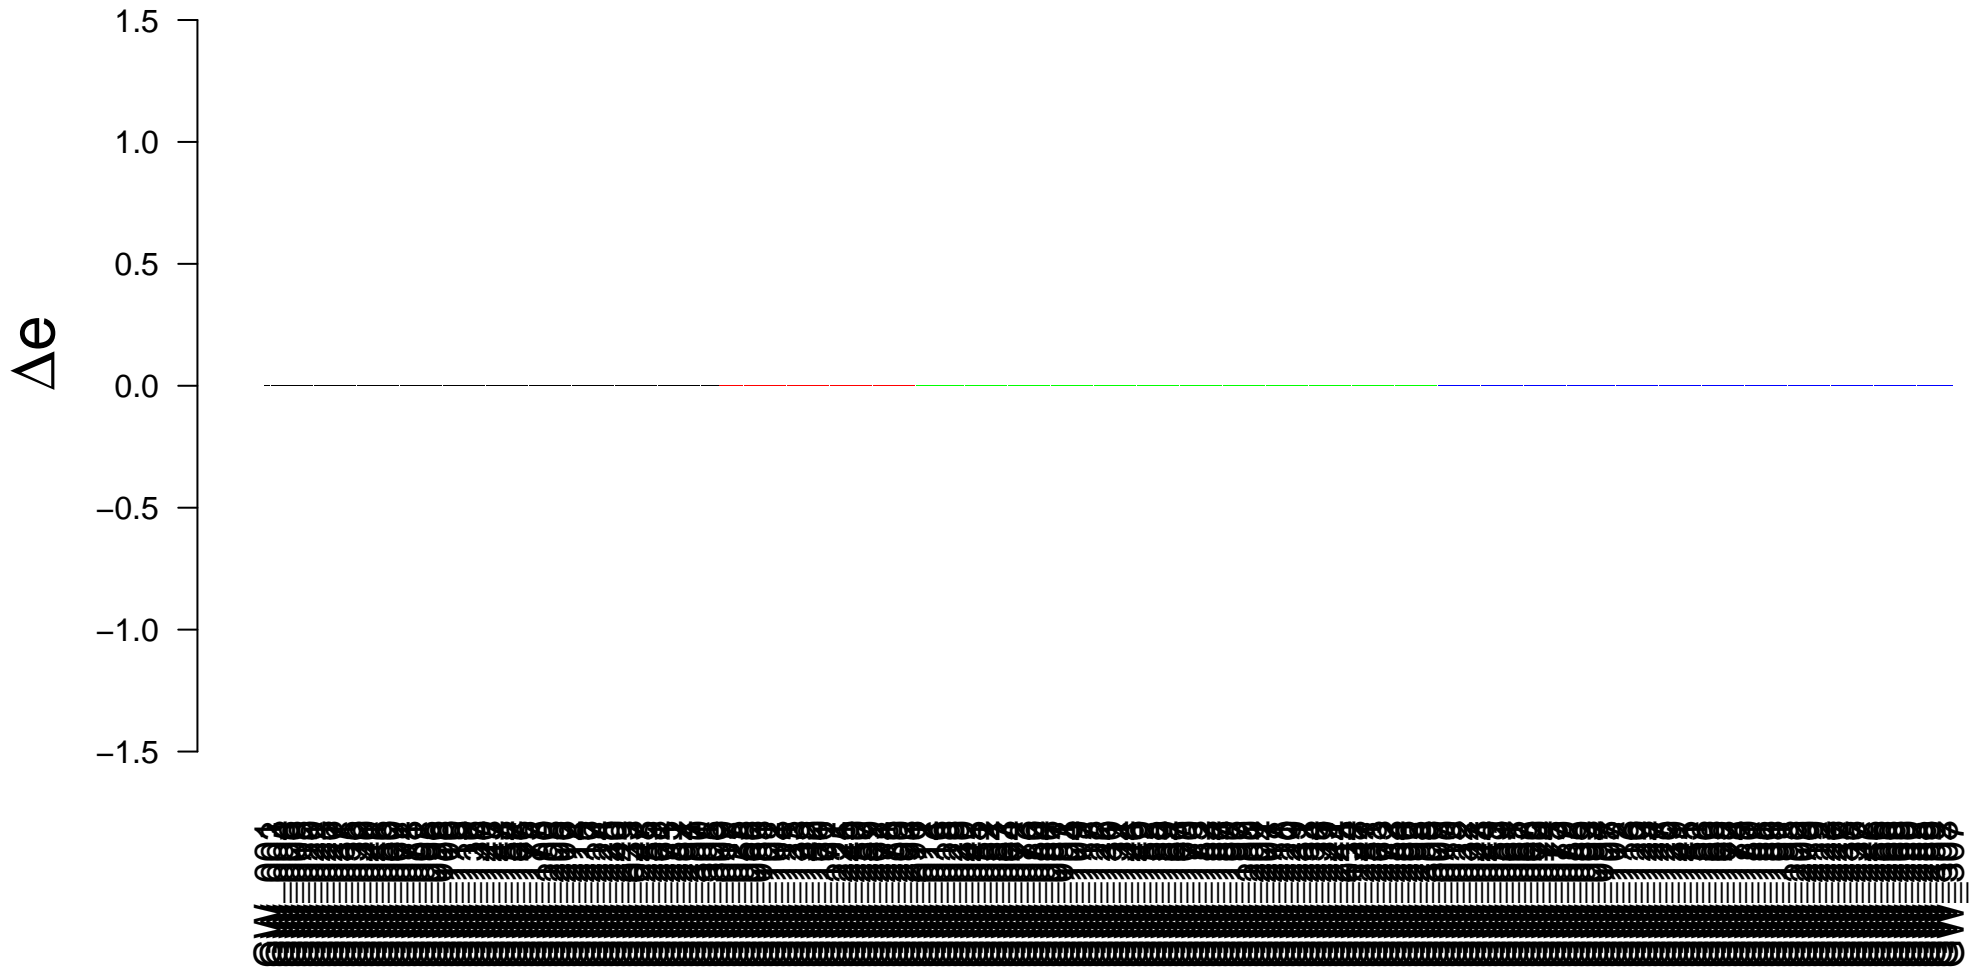

Expression of negative regulation of phosphatidylinositol 3-kinase signaling in Spot I

Expression of negative regulation of phosphatidylinositol 3-kinase signaling in Spot J

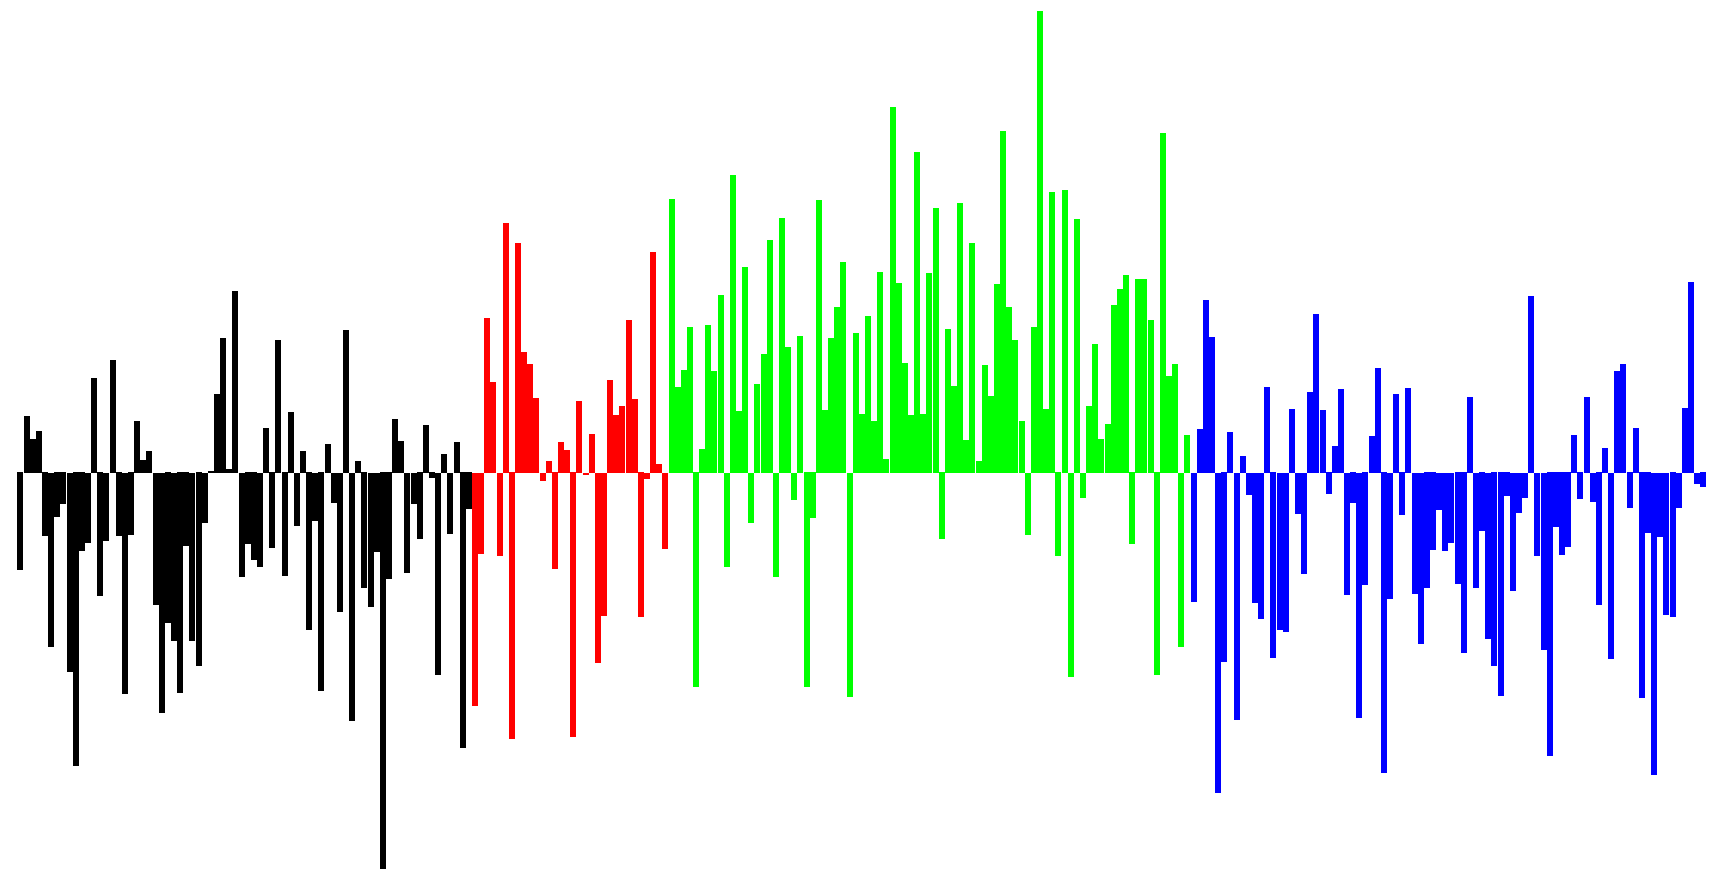

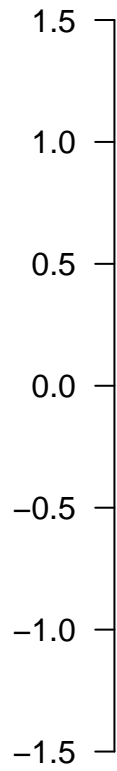

Expression of negative regulation of phosphatidylinositol 3-kinase signaling in Spot K

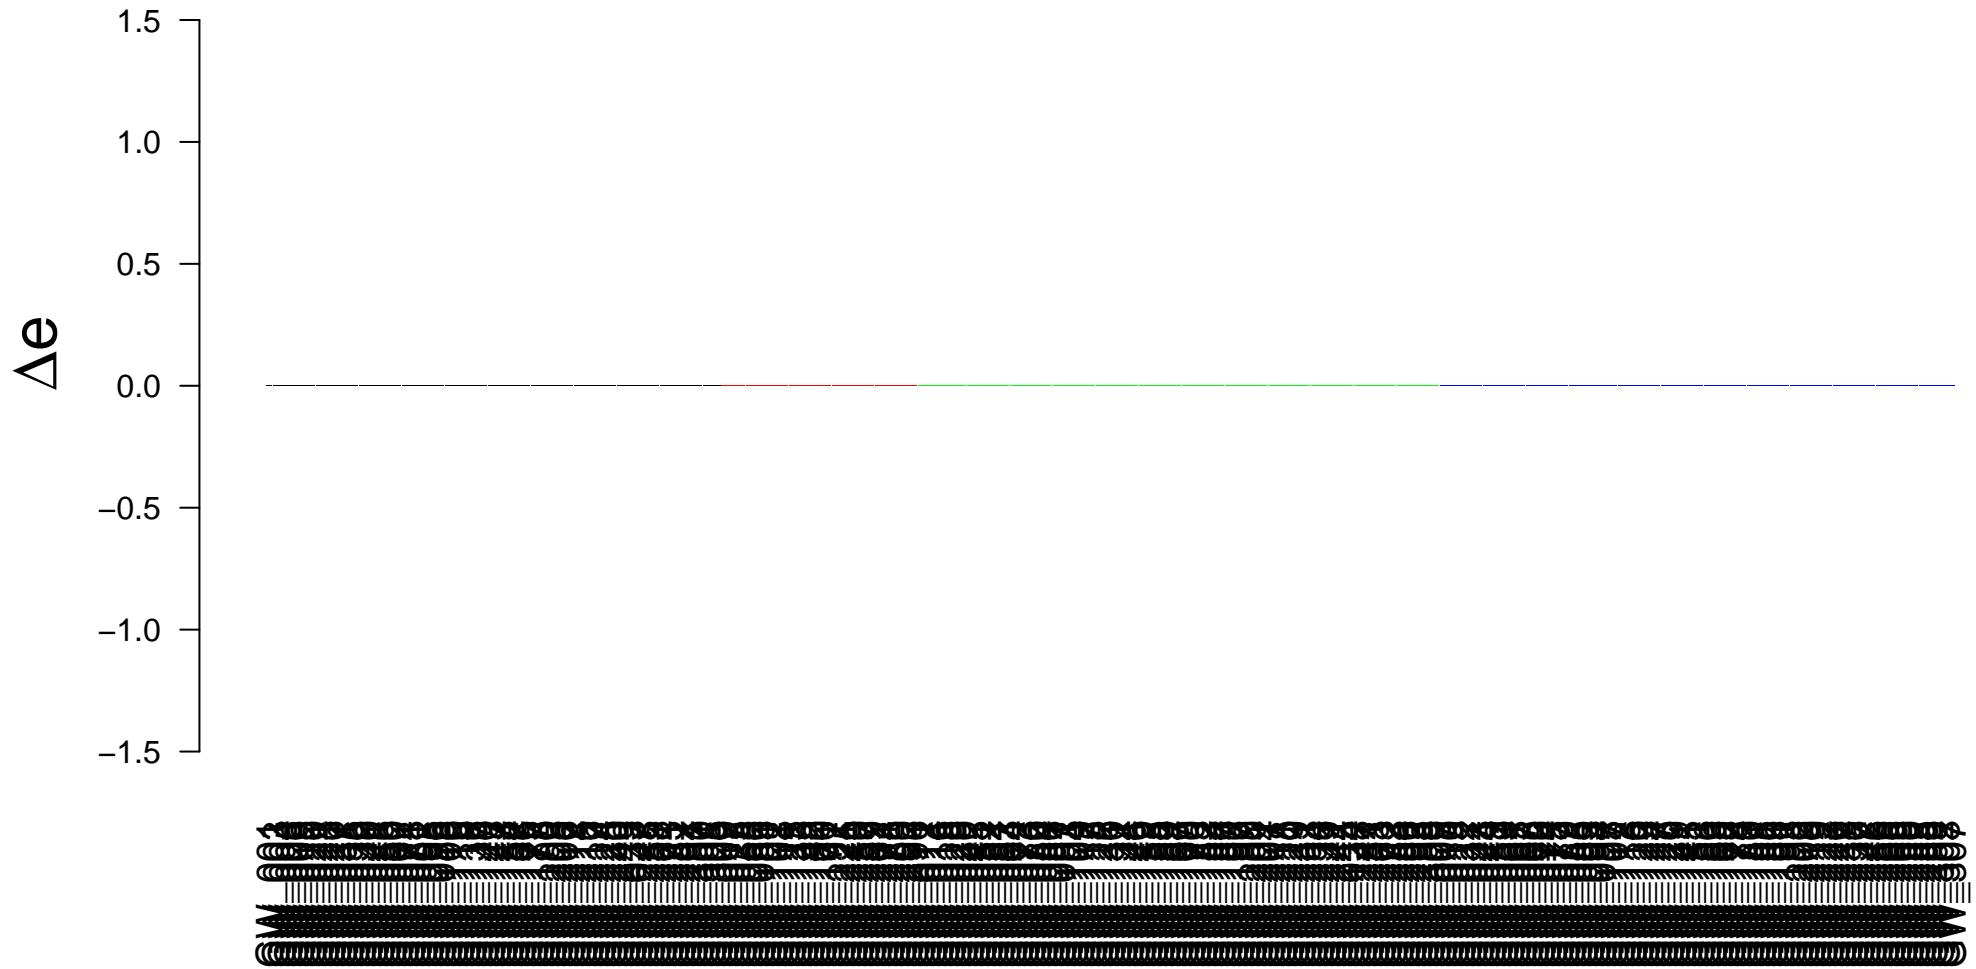

Expression of negative regulation of phosphatidylinositol 3-kinase signaling in Spot L

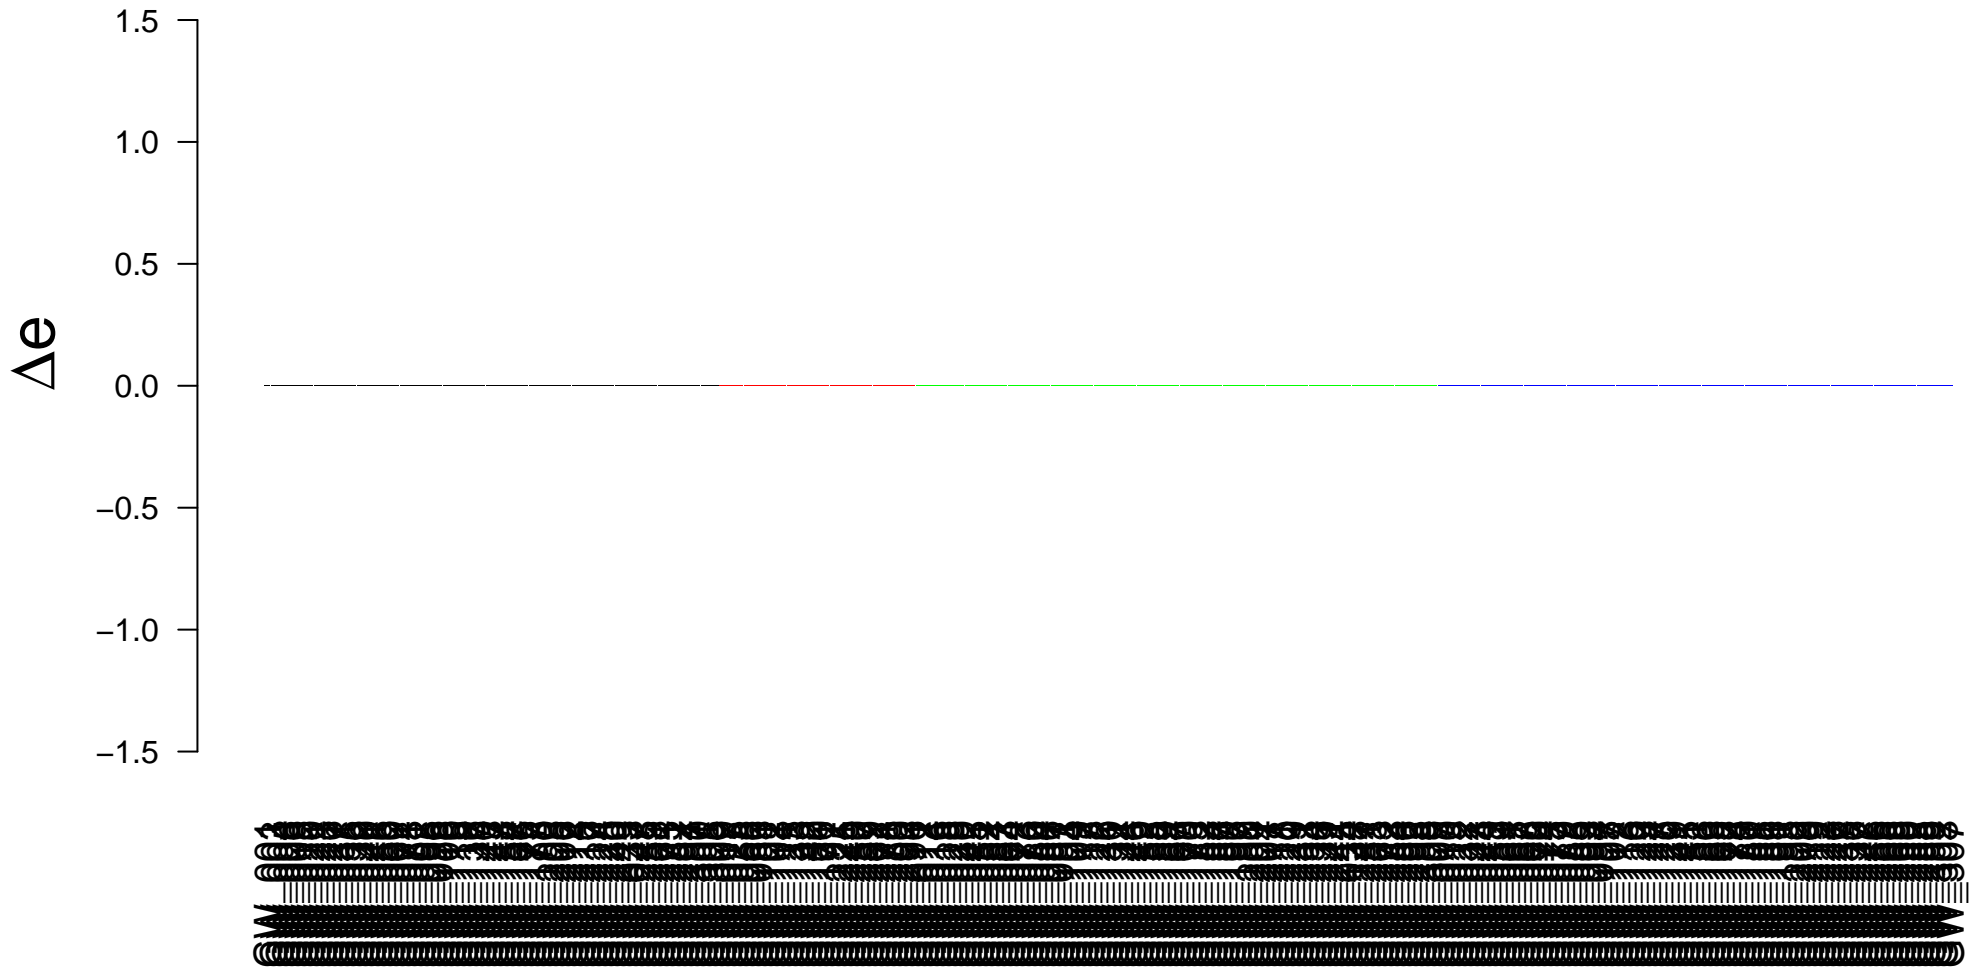

Δe

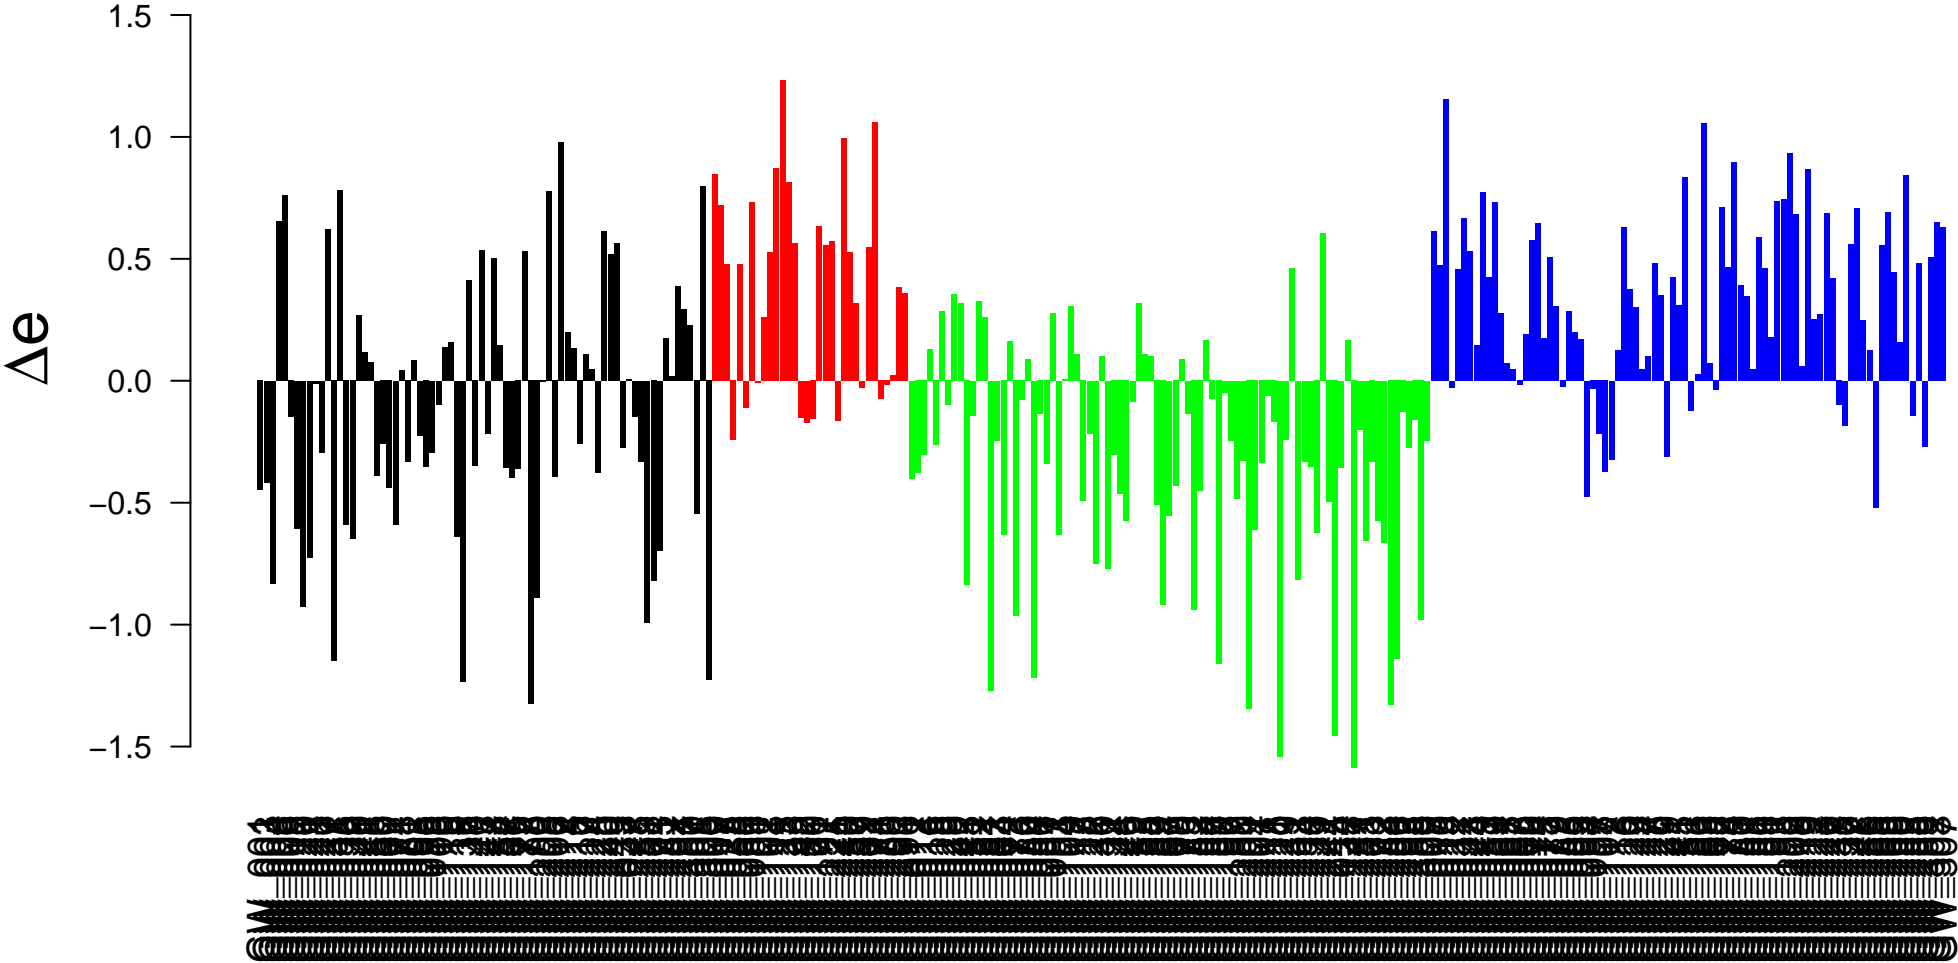

Expression of negative regulation of phosphatidylinositol 3-kinase signaling in Spot M

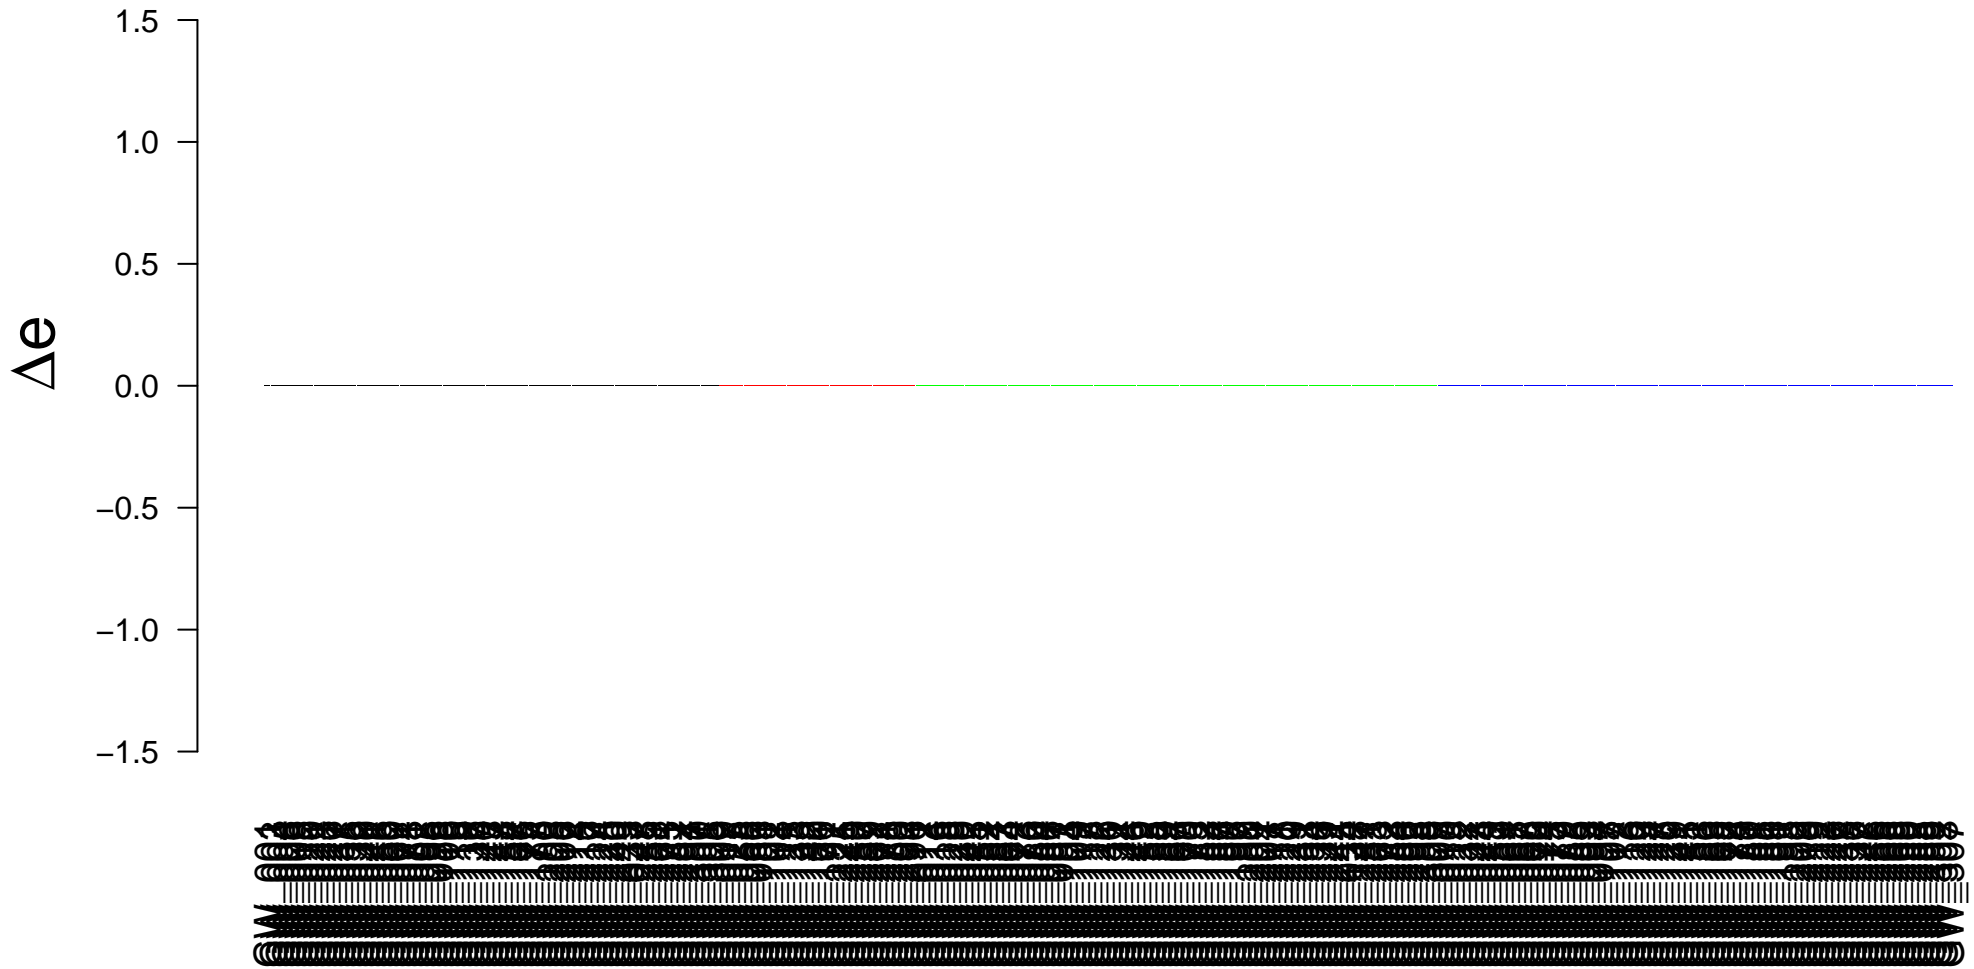

Expression of negative regulation of phosphatidylinositol 3-kinase signaling in Spot N

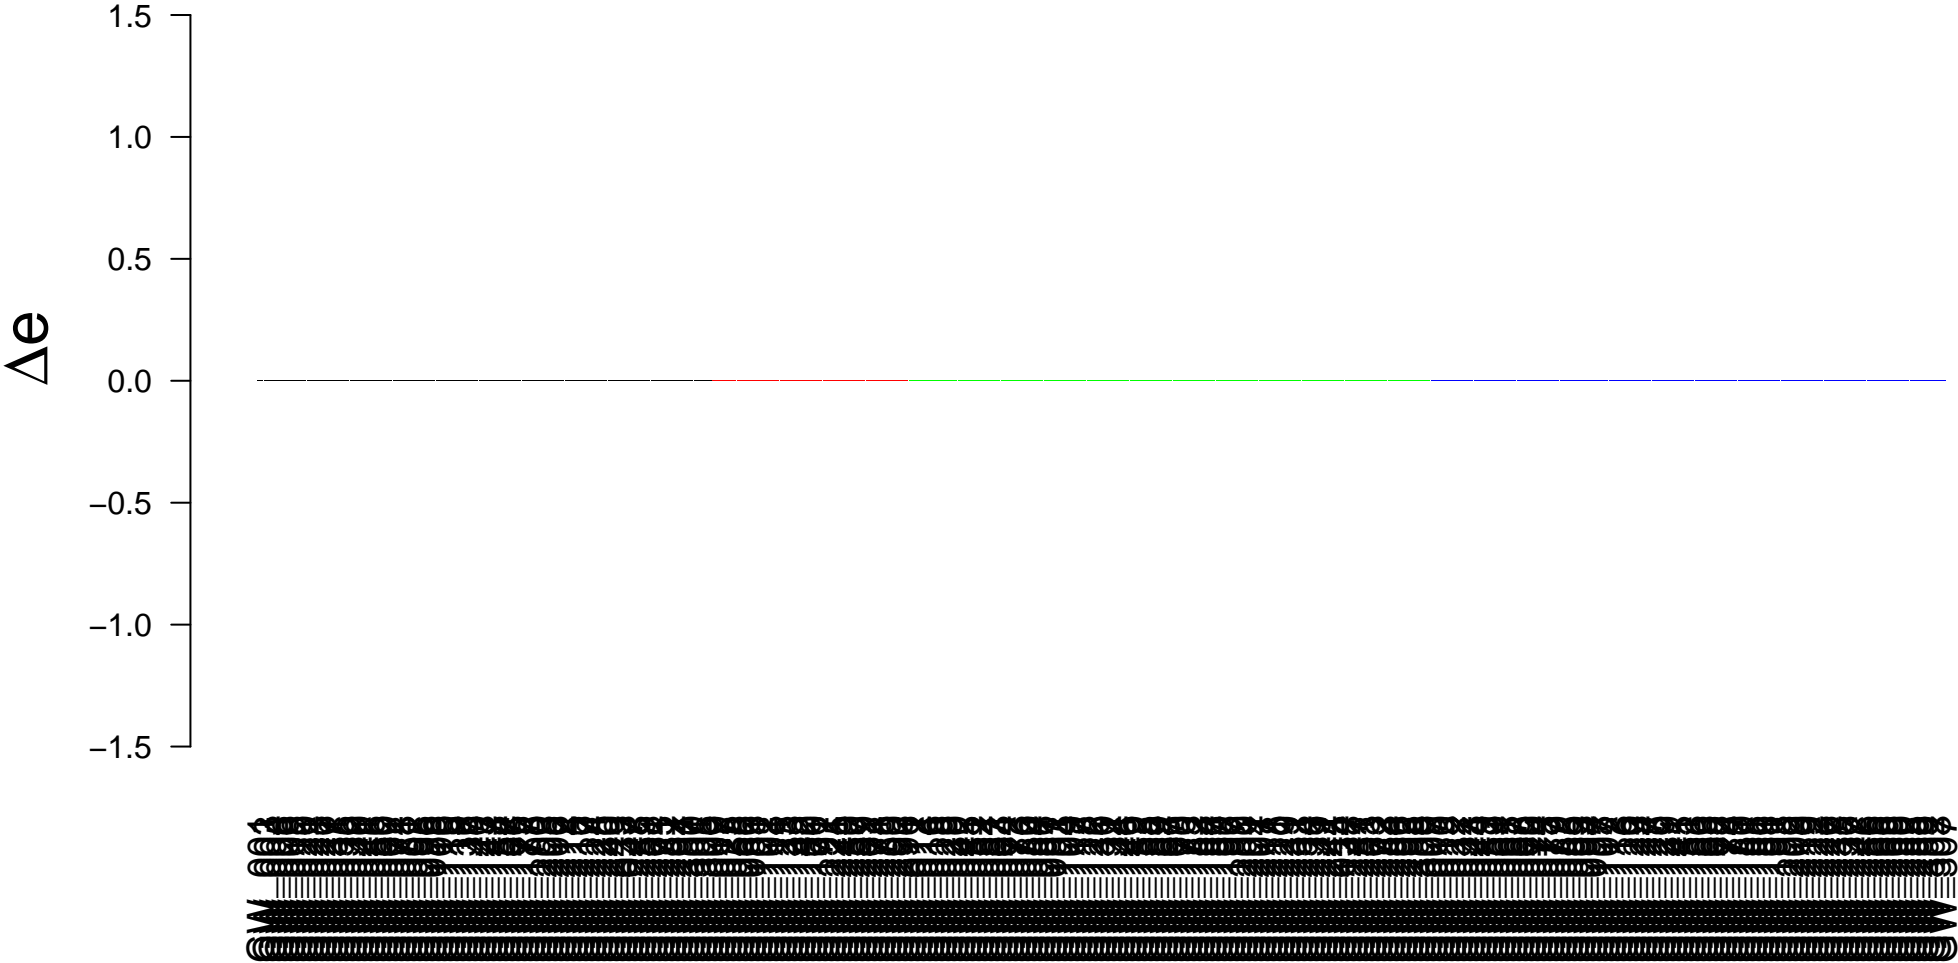

Expression of negative regulation of phosphatidylinositol 3-kinase signaling in Spot O

Expression of negative regulation of phosphatidylinositol 3-kinase signaling in Spot P

Expression of negative regulation of phosphatidylinositol 3-kinase signaling in Spot Q

Expression of negative regulation of phosphatidylinositol 3-kinase signaling in Spot R
