

negative regulation of sequence-specific DNA binding transcription factor activity

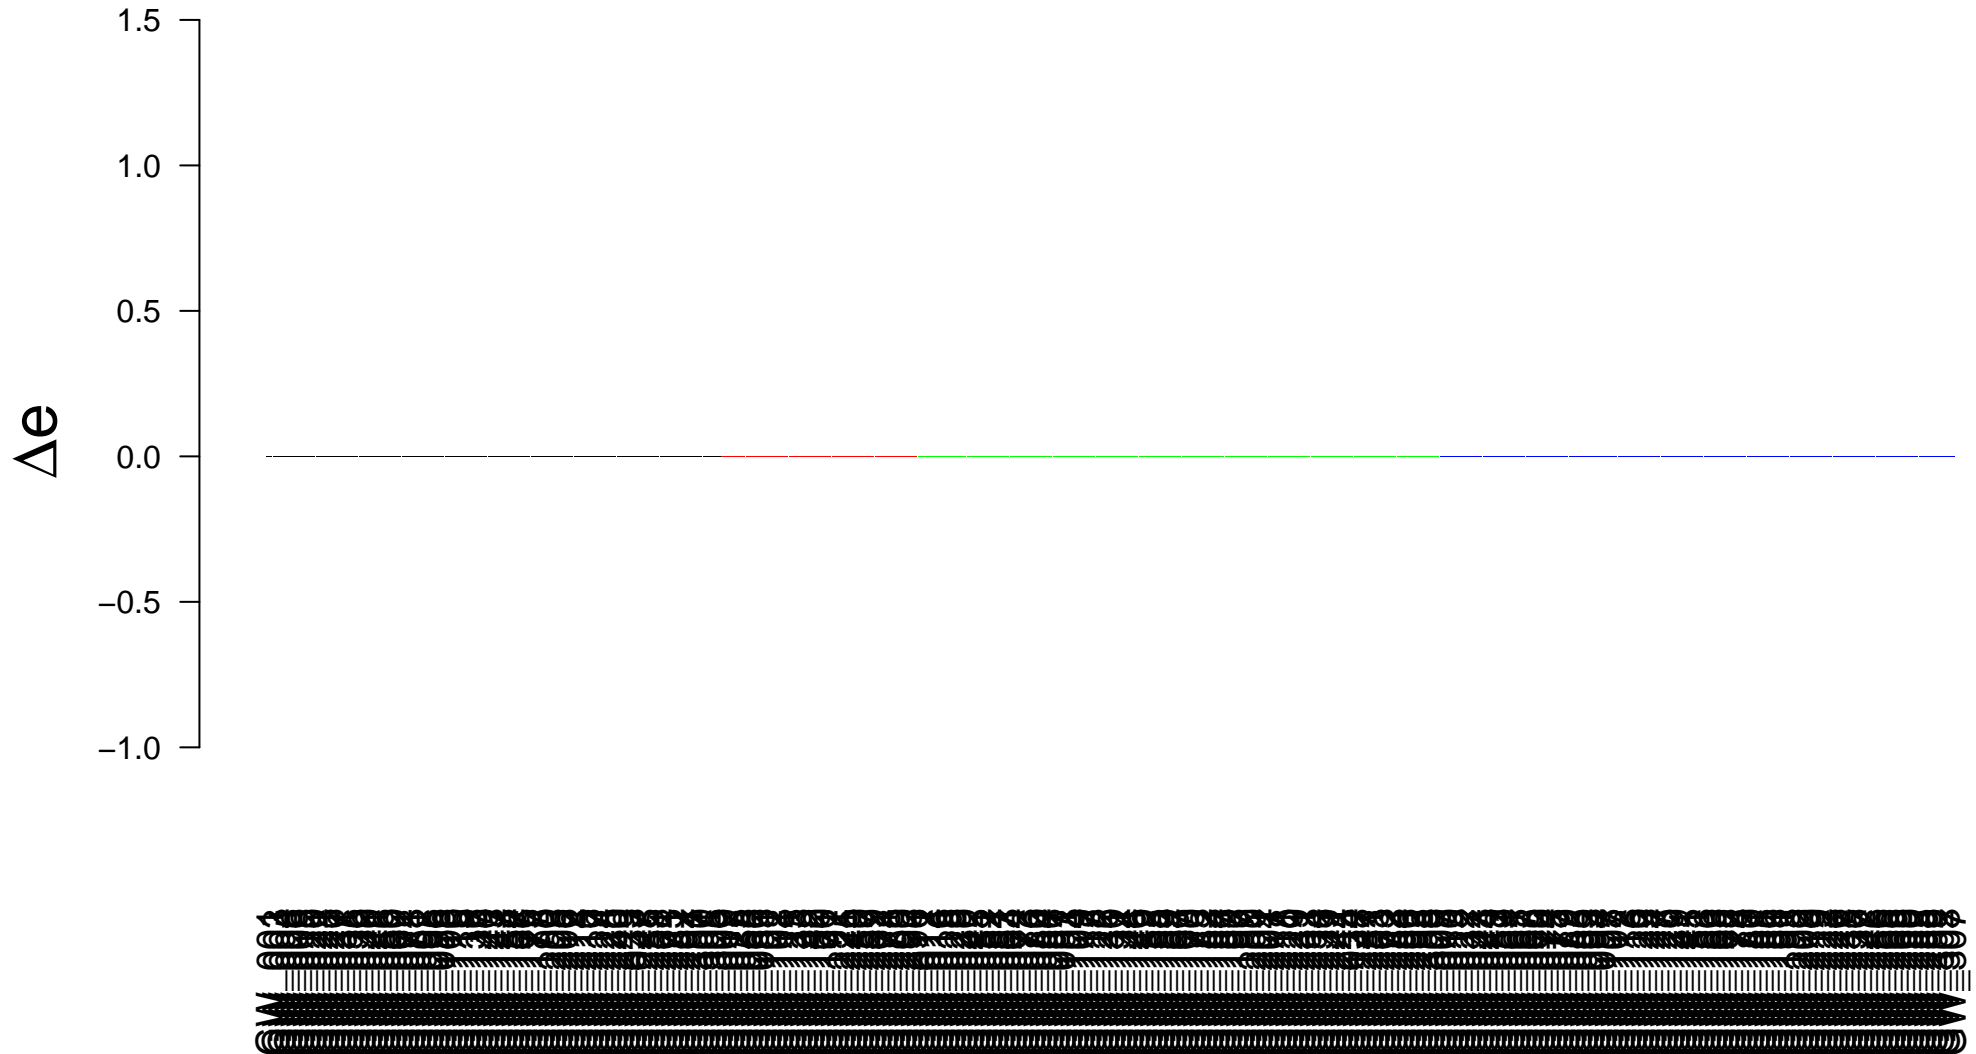

negative regulation of sequence-specific DNA binding transcription factor activity

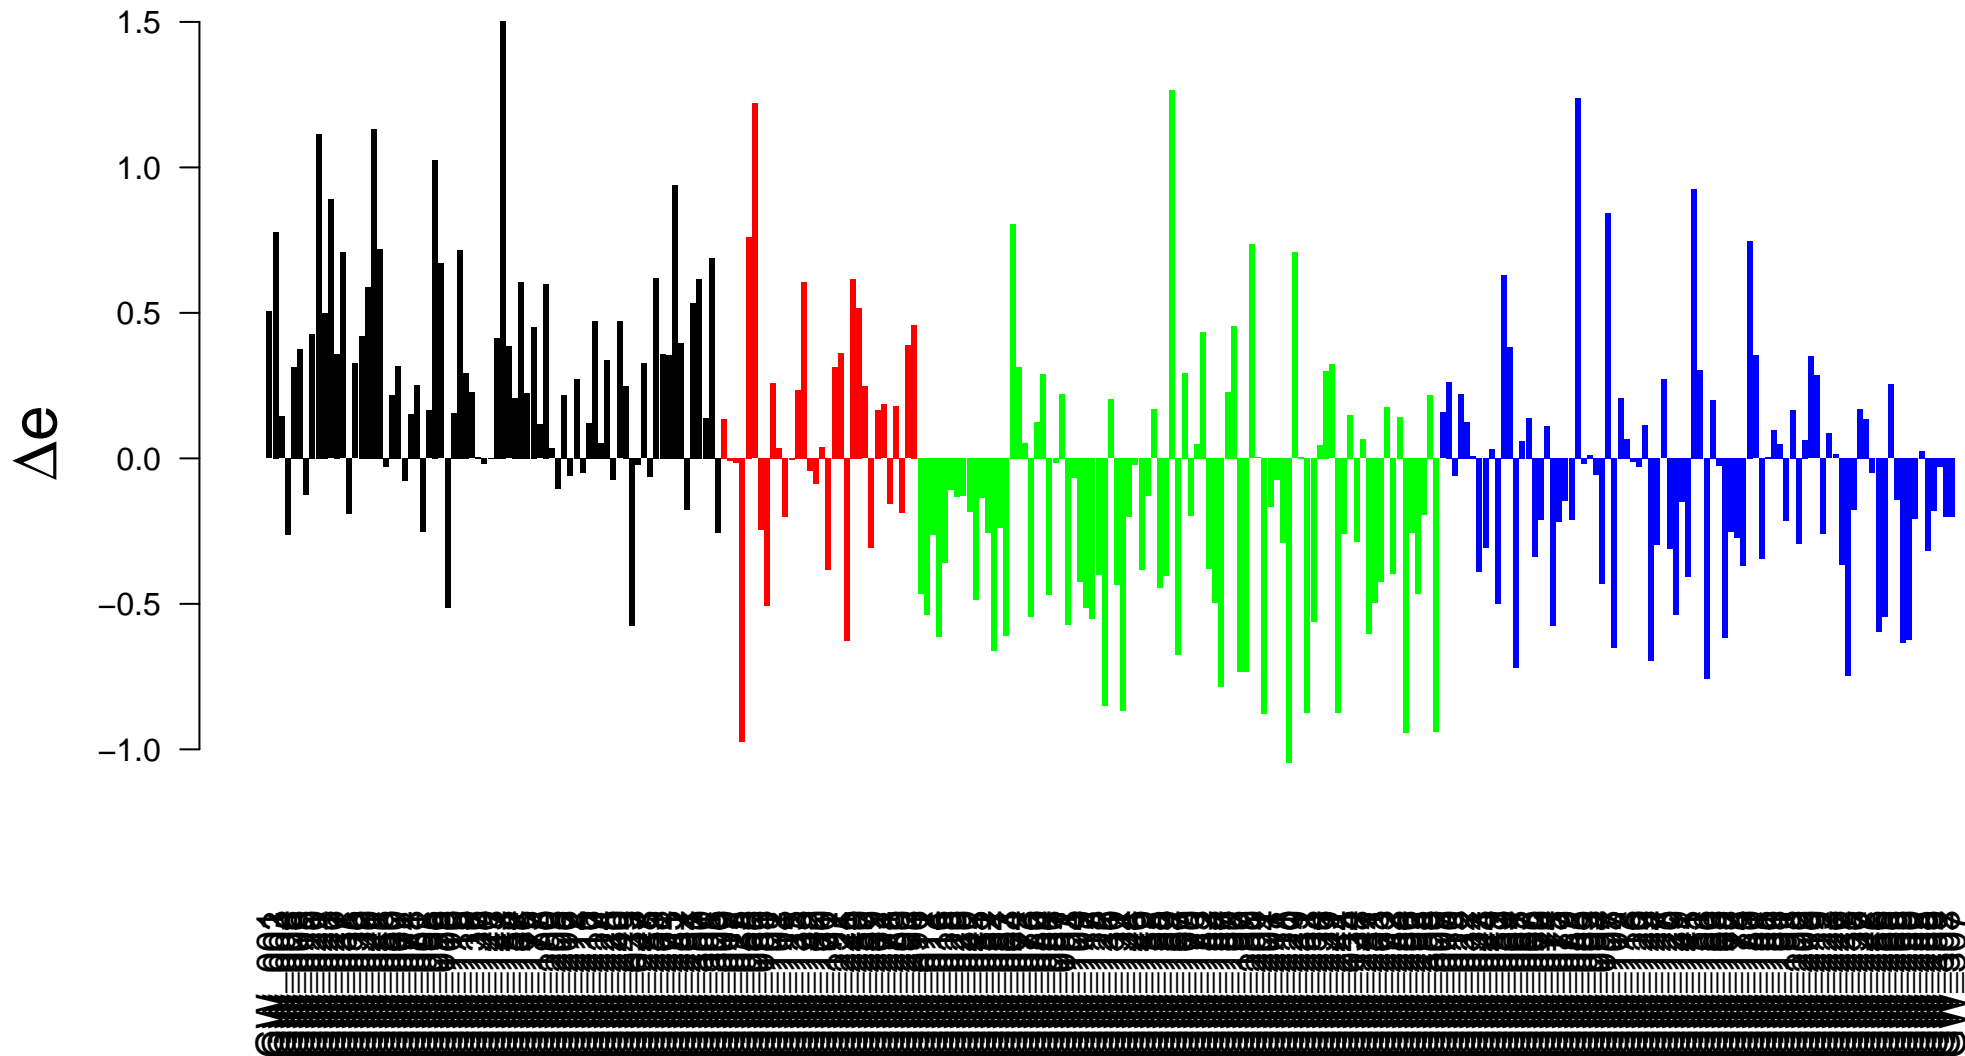

Enrichment in spots: negative regulation of sequence-specific DNA binding transcription factor activity

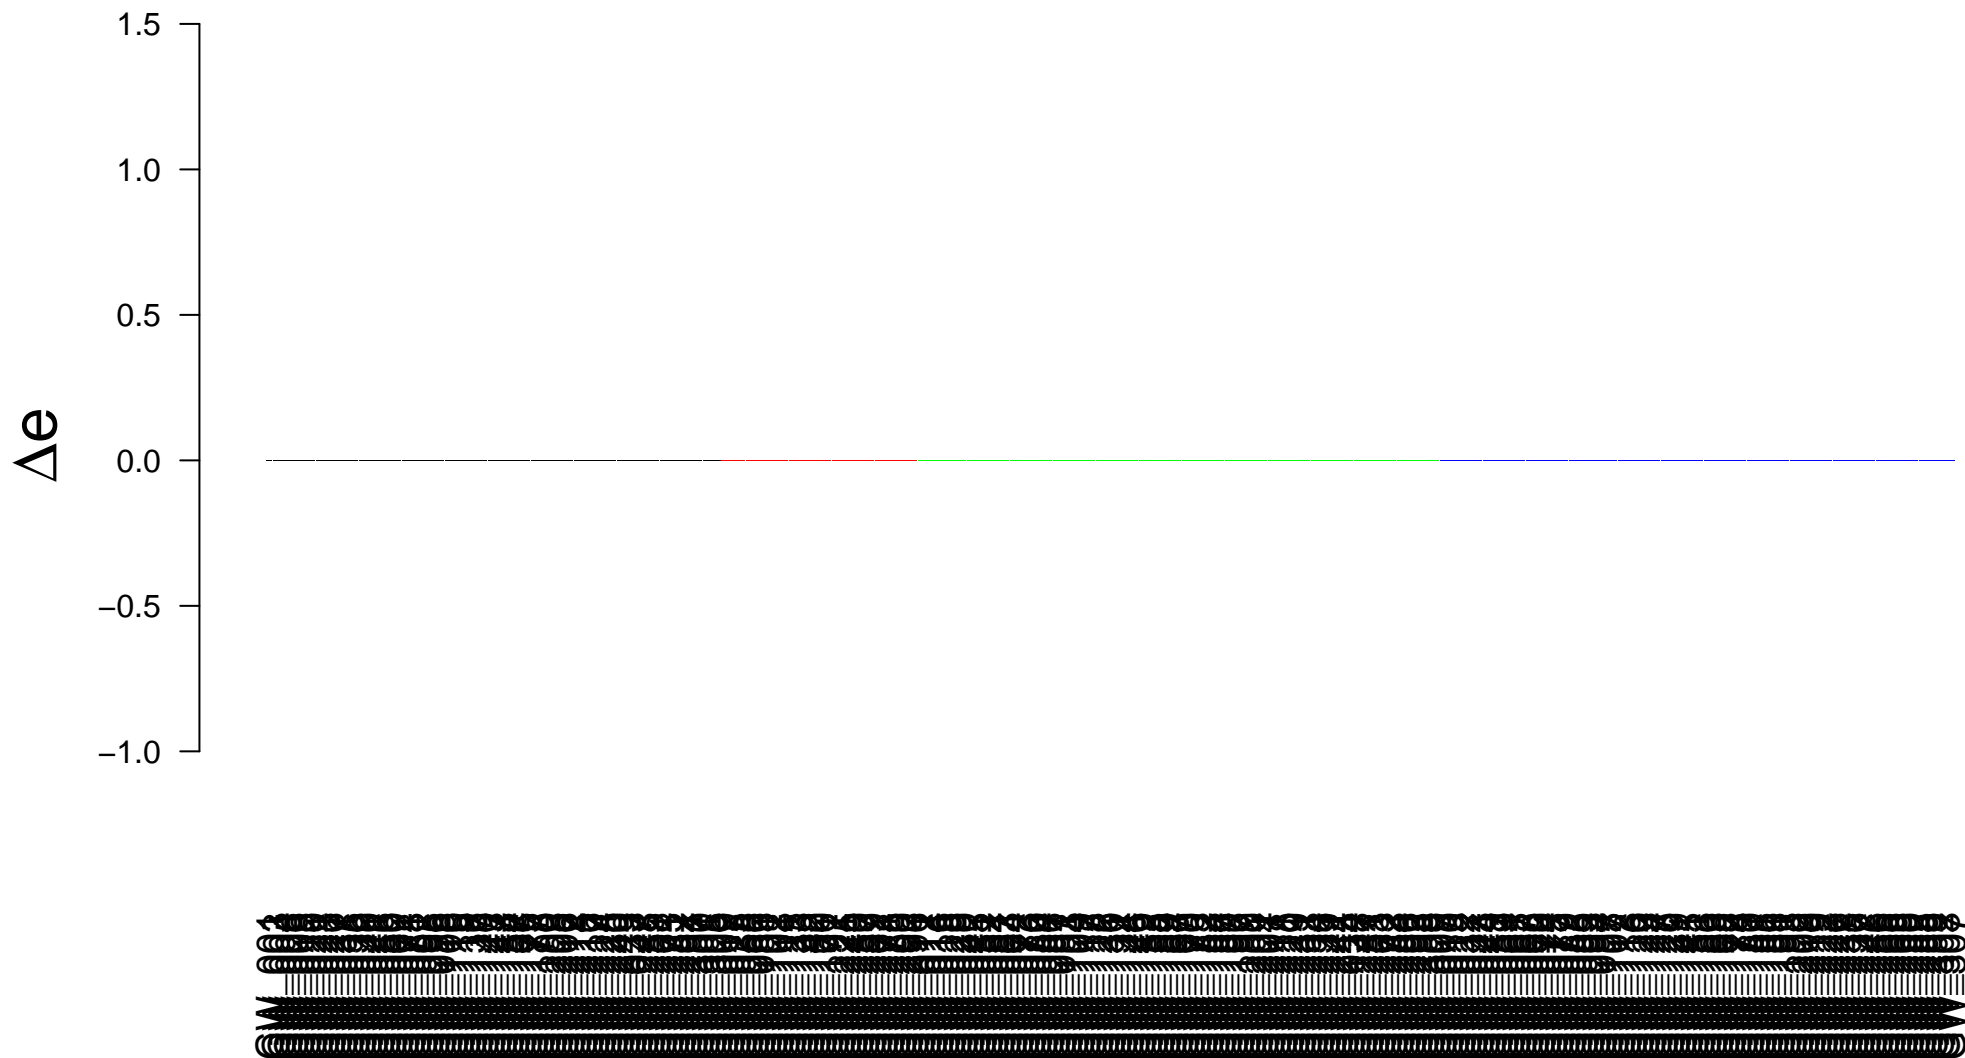

Expression of negative regulation of sequence-specific DNA binding transcription factor activity in Spot A

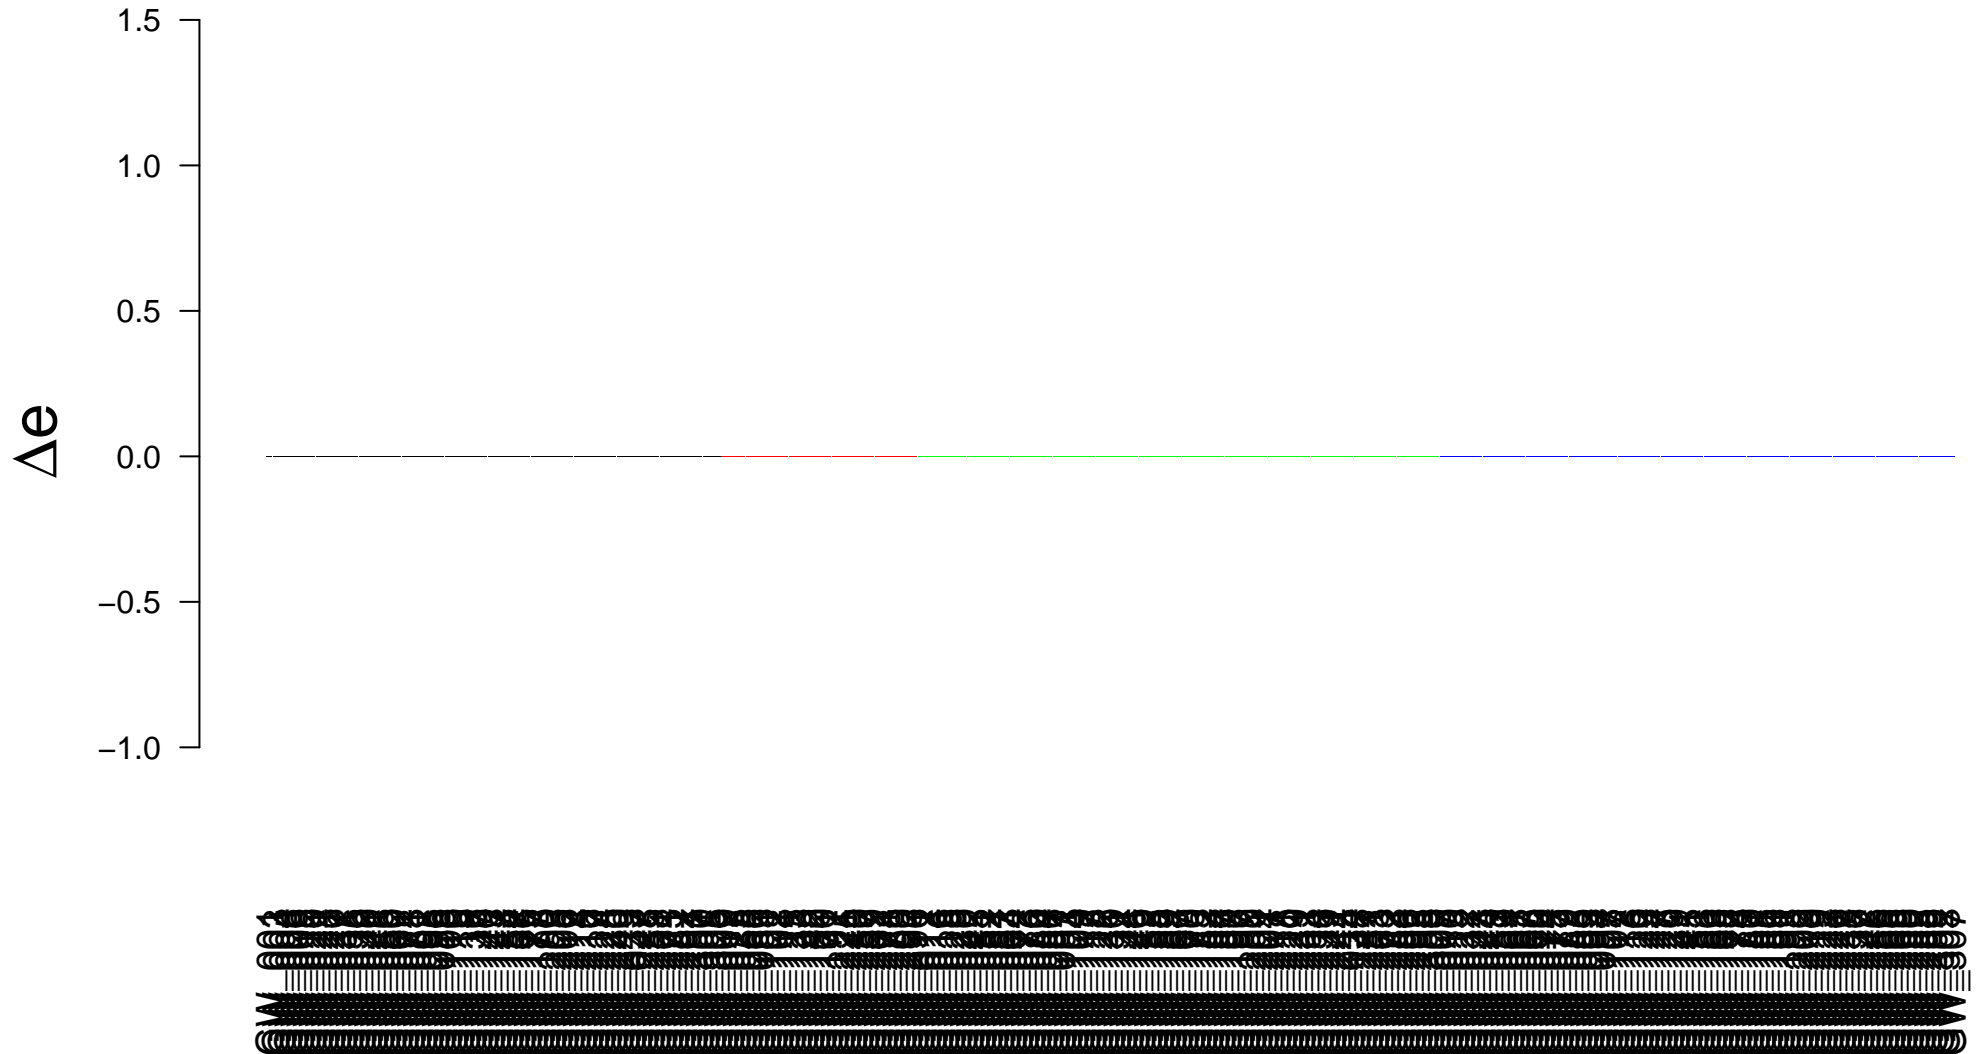

Expression of negative regulation of sequence-specific DNA binding transcription factor activity in Spot B

Expression of negative regulation of sequence-specific DNA binding transcription factor activity in Spot C

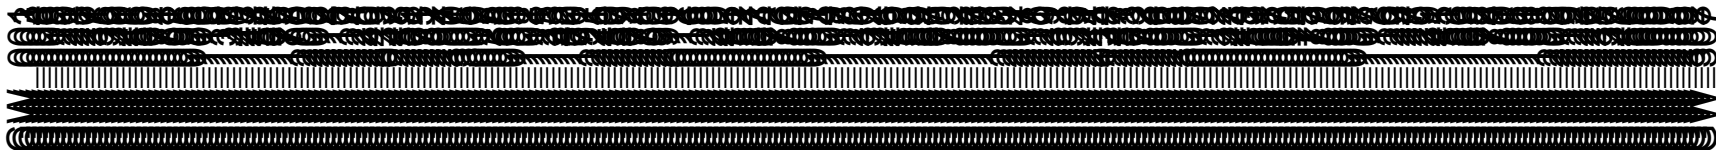

Expression of negative regulation of sequence-specific DNA binding transcription factor activity in Spot D

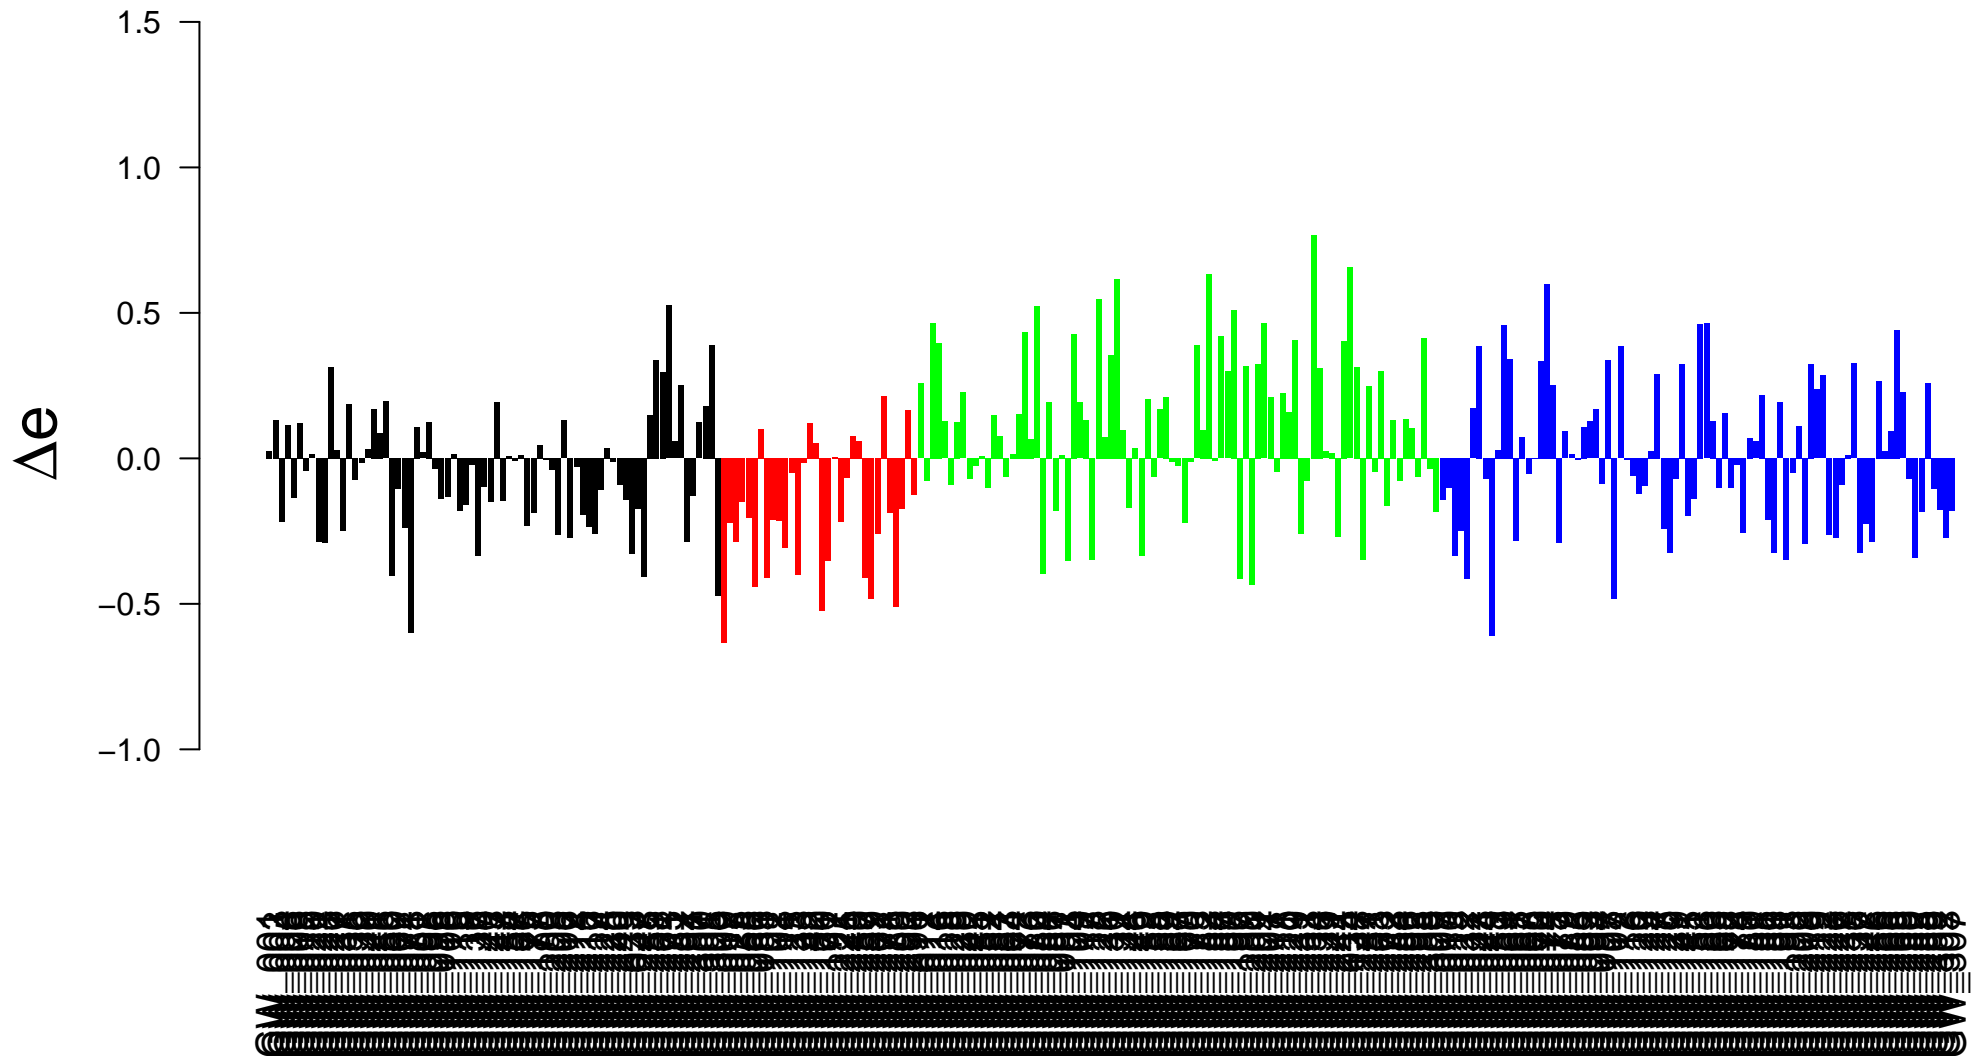

Expression of negative regulation of sequence-specific DNA binding transcription factor activity in Spot E

Expression of negative regulation of sequence-specific DNA binding transcription factor activity in Spot F

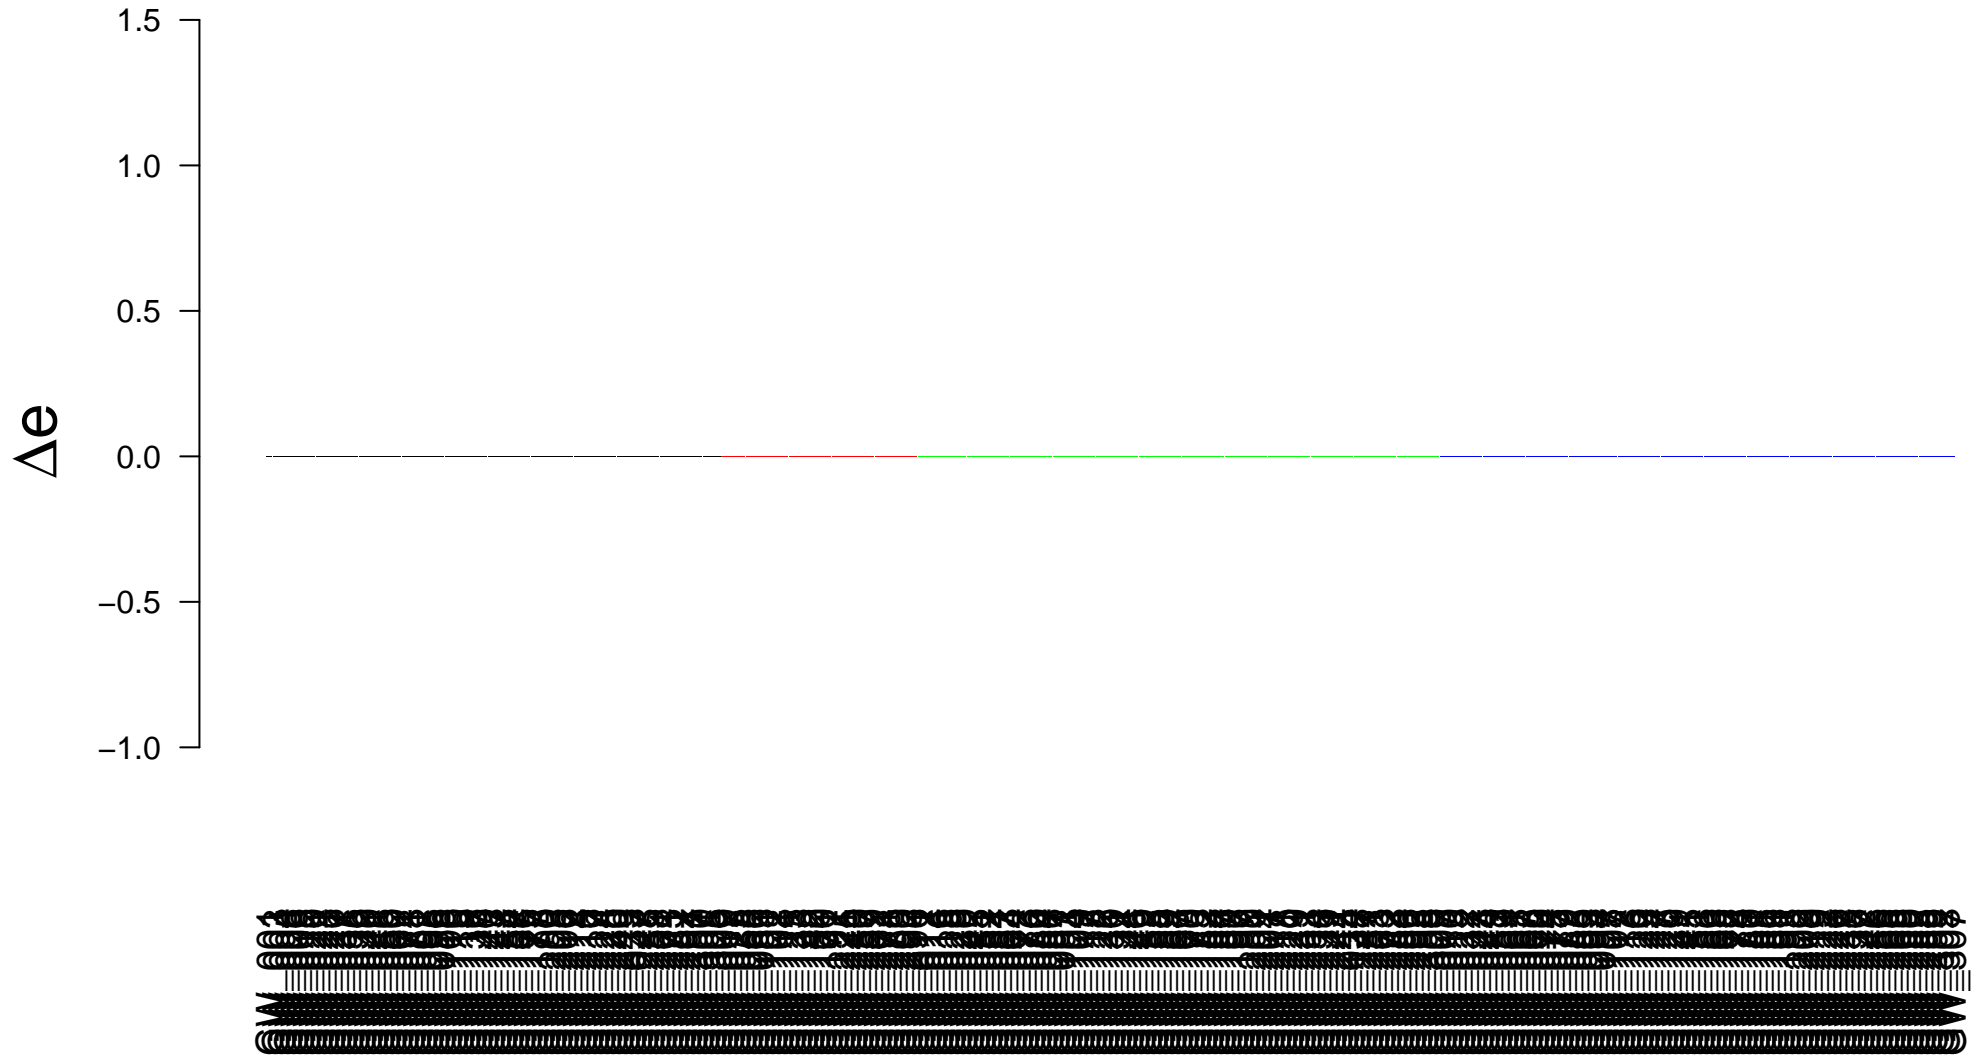

Expression of negative regulation of sequence-specific DNA binding transcription factor activity in Spot G

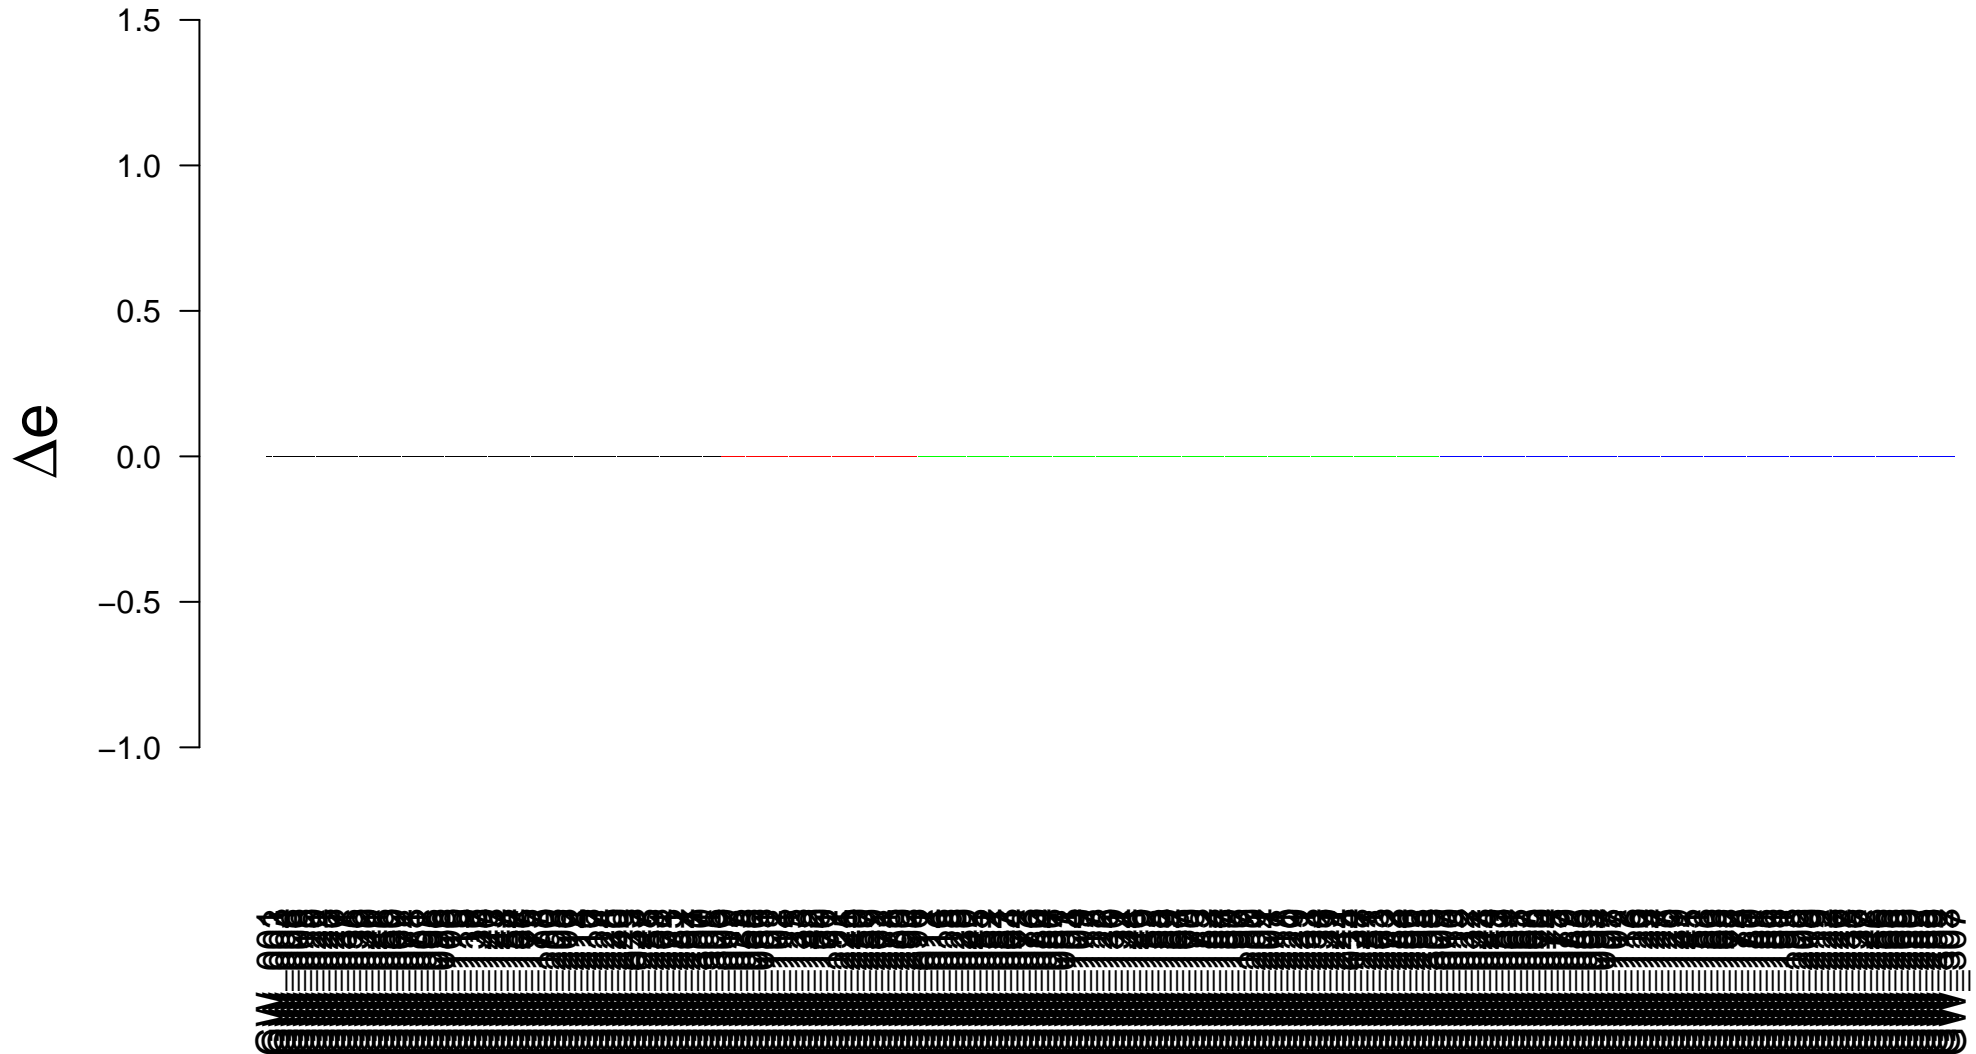

Expression of negative regulation of sequence-specific DNA binding transcription factor activity in Spot H

Expression of negative regulation of sequence-specific DNA binding transcription factor activity in Spot I

Expression of negative regulation of sequence-specific DNA binding transcription factor activity in Spot J

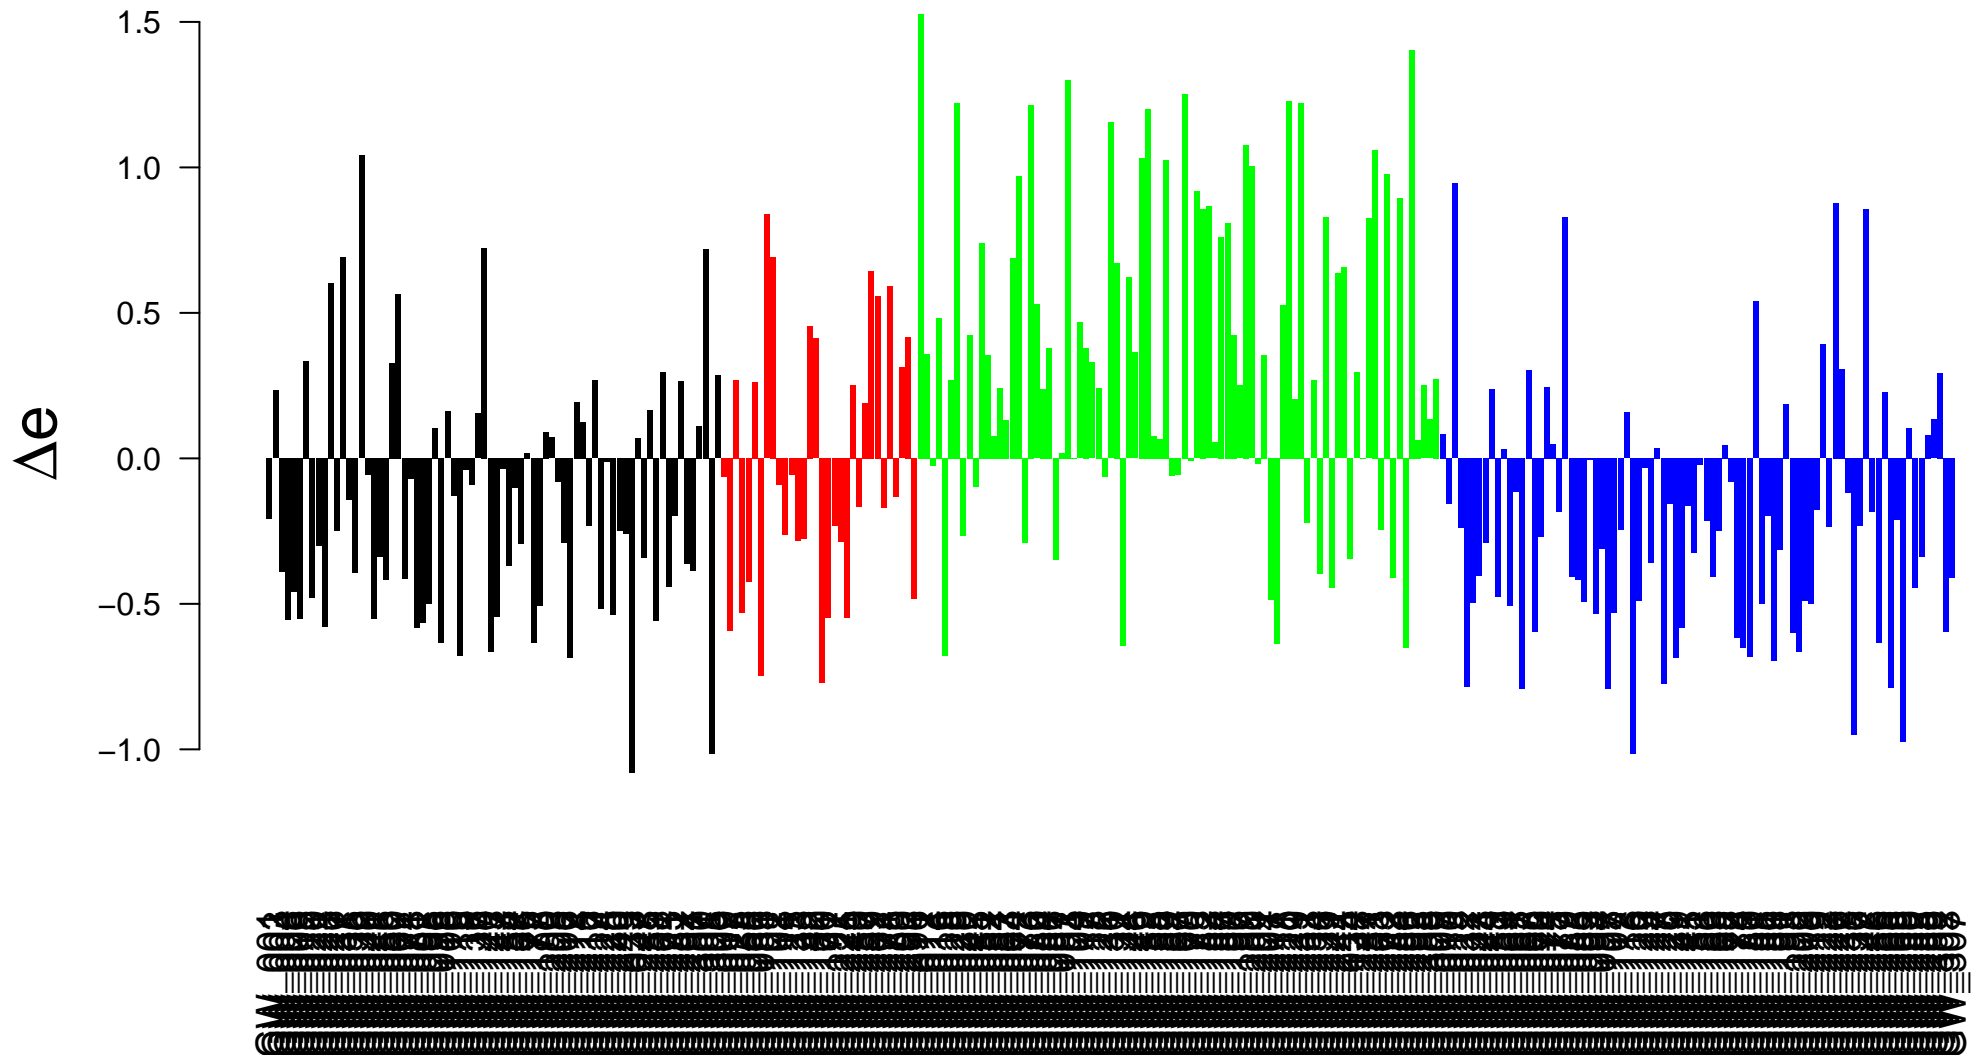

Expression of negative regulation of sequence-specific DNA binding transcription factor activity in Spot K

Expression of negative regulation of sequence-specific DNA binding transcription factor activity in Spot N

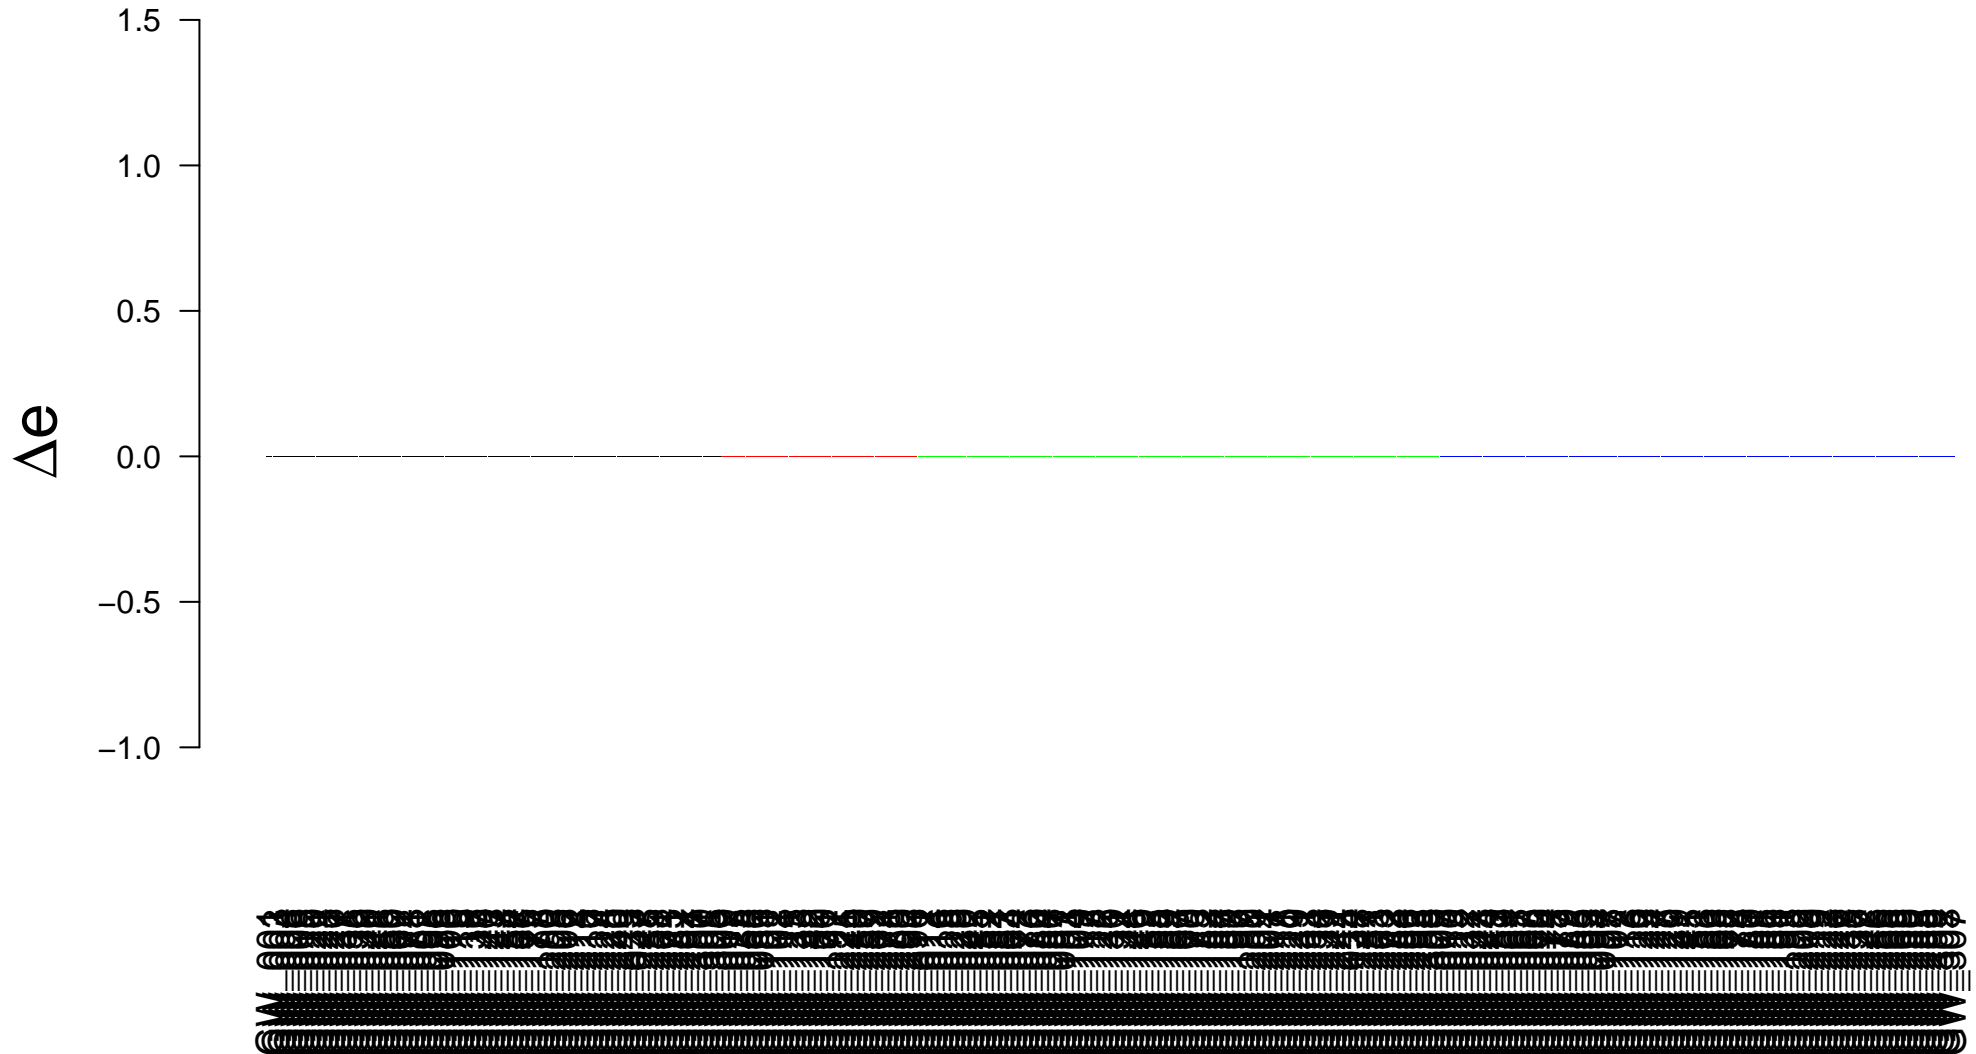

Expression of negative regulation of sequence-specific DNA binding transcription factor activity in Spot O

Expression of negative regulation of sequence-specific DNA binding transcription factor activity in Spot P

Expression of negative regulation of sequence-specific DNA binding transcription factor activity in Spot Q

Expression of negative regulation of sequence-specific DNA binding transcription factor activity in Spot R
