

negative regulation of signal transduction

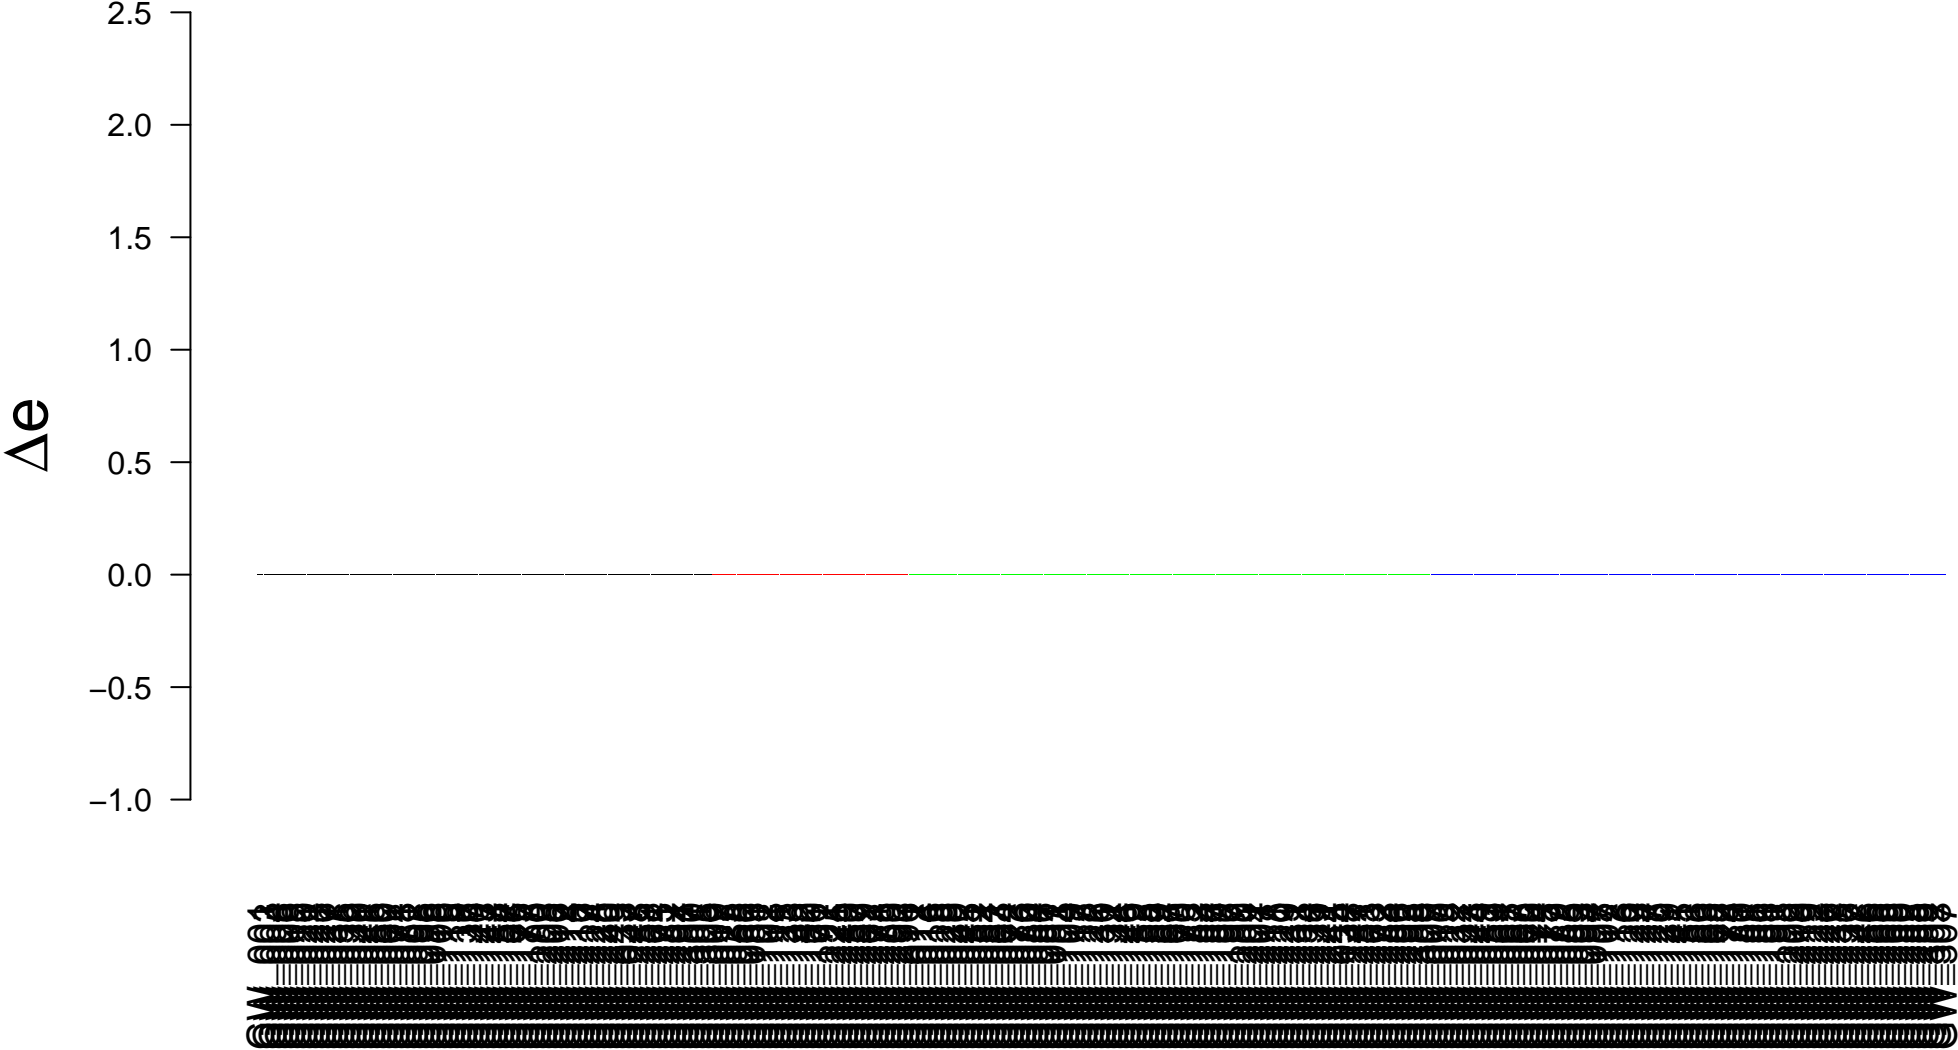

negative regulation of signal transduction

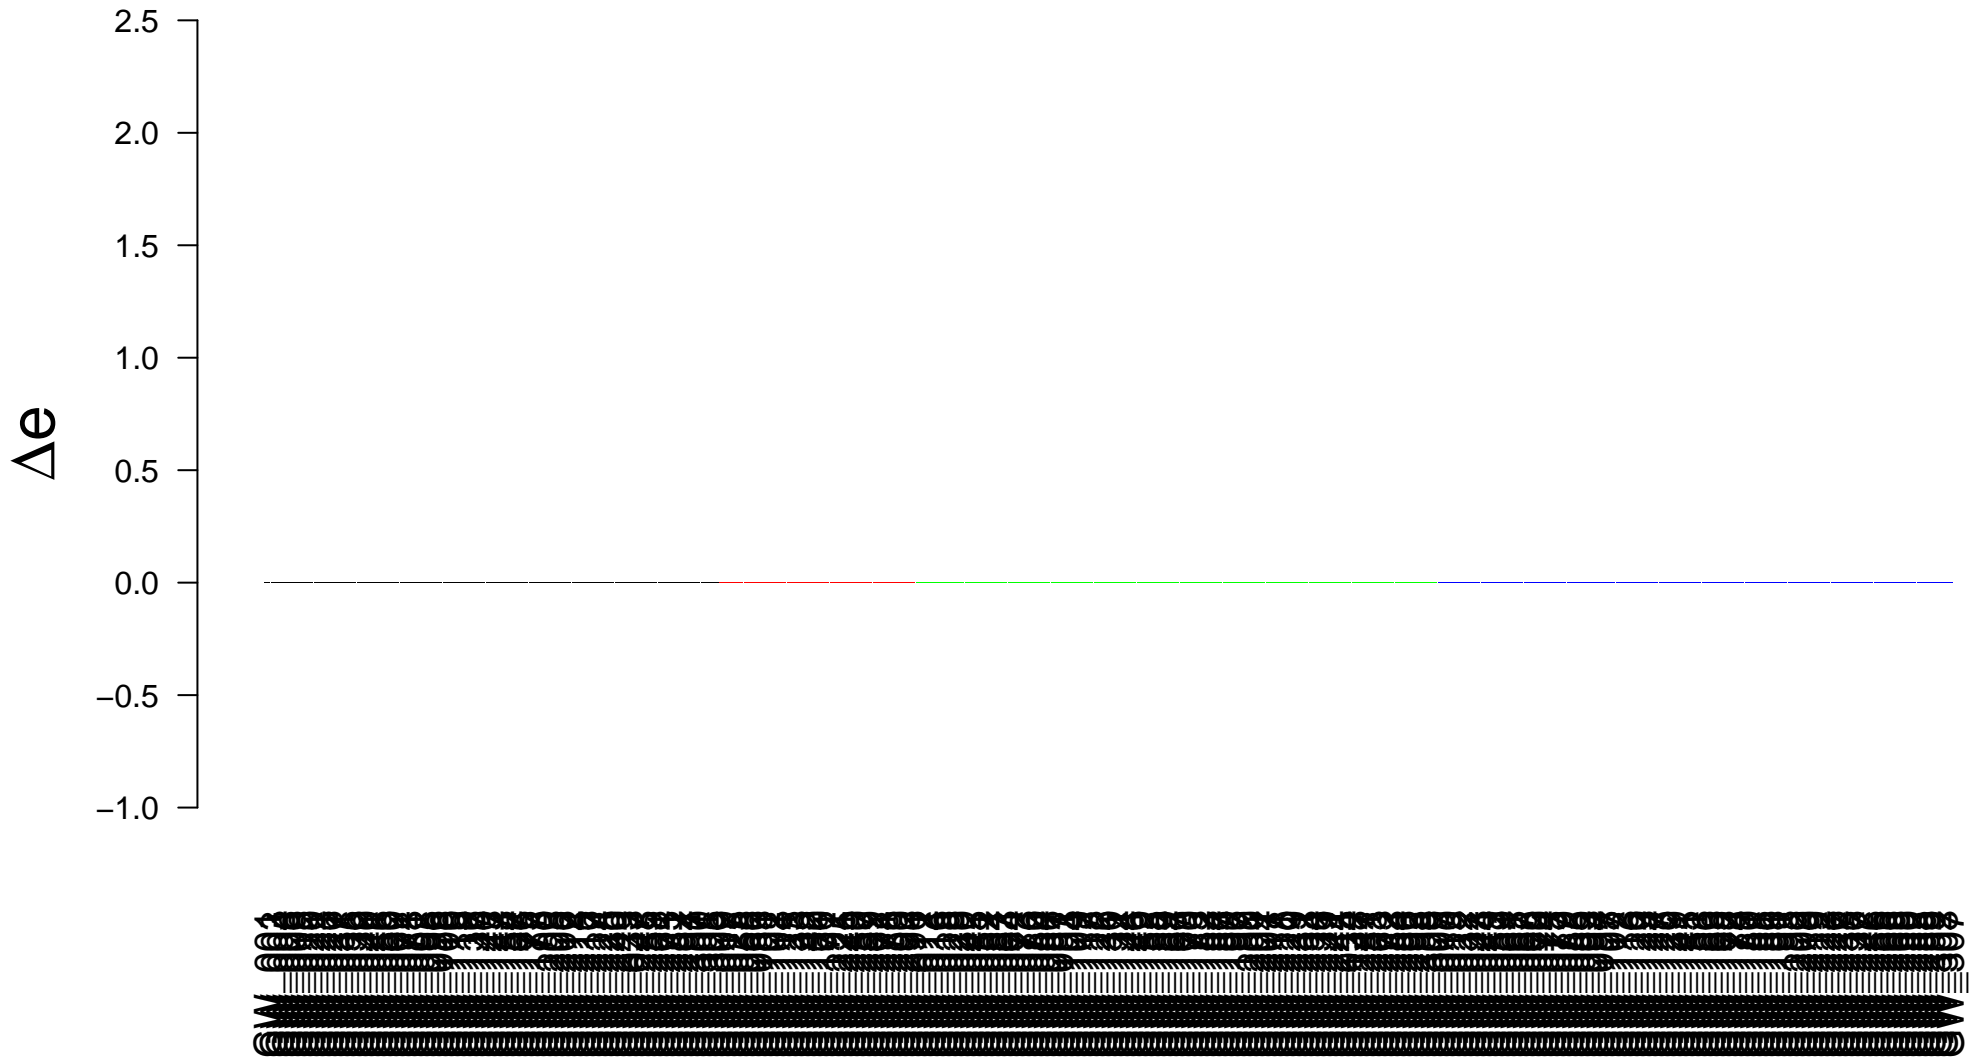

Enrichment in spots: negative regulation of signal transduction

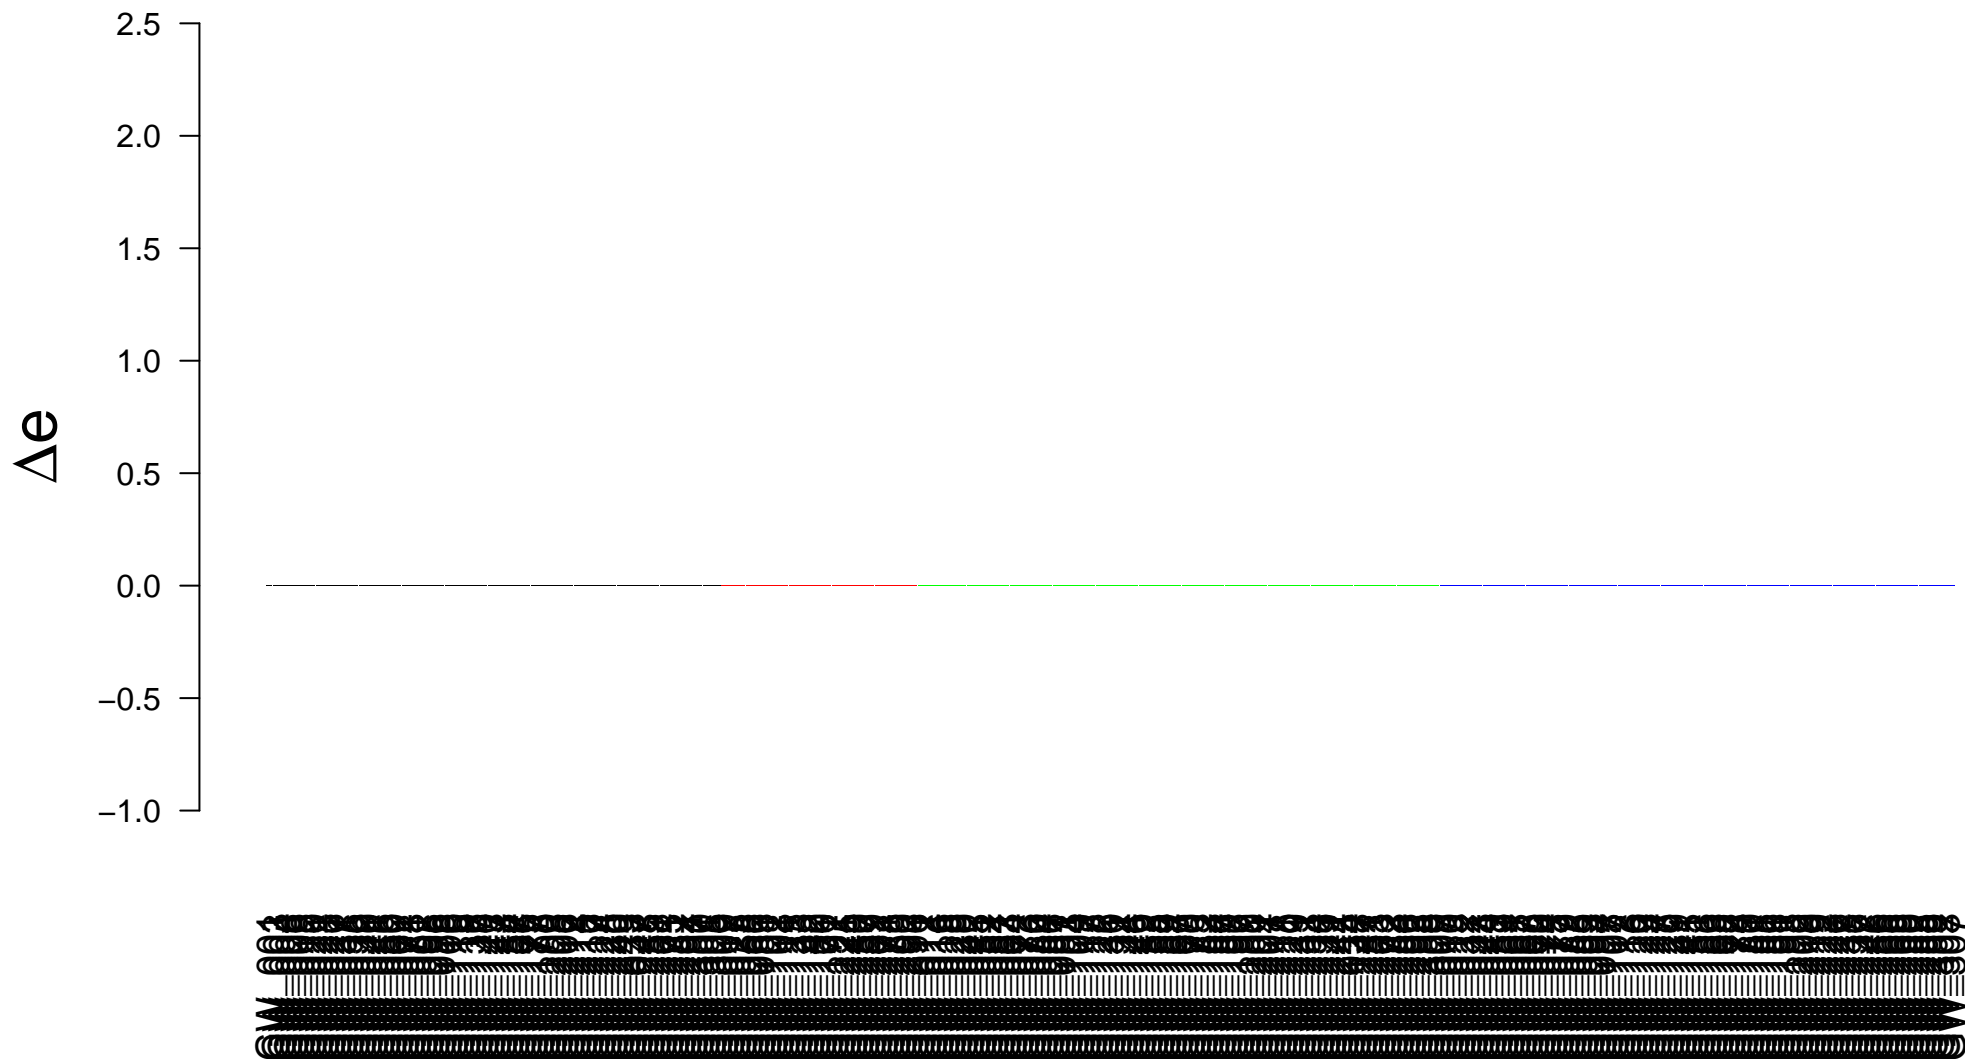

Expression of negative regulation of signal transduction in Spot A

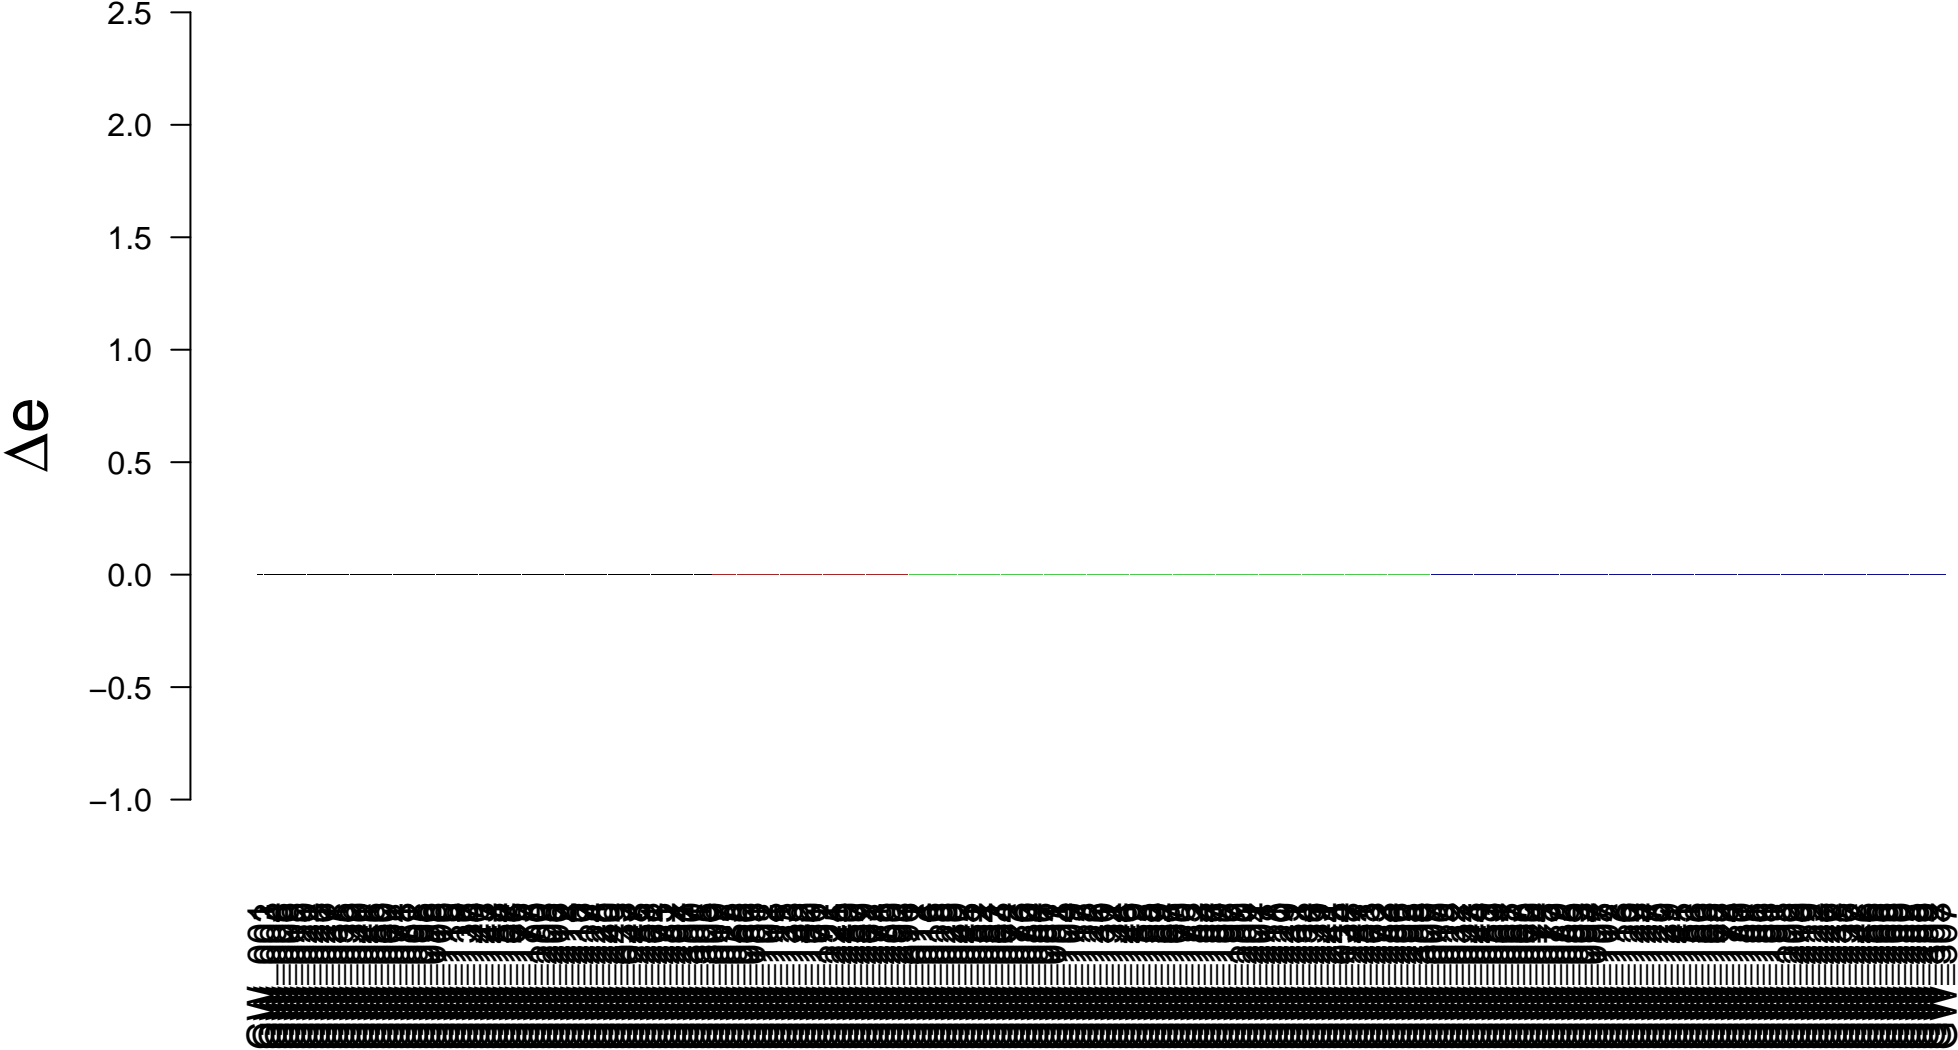

Expression of negative regulation of signal transduction in Spot B

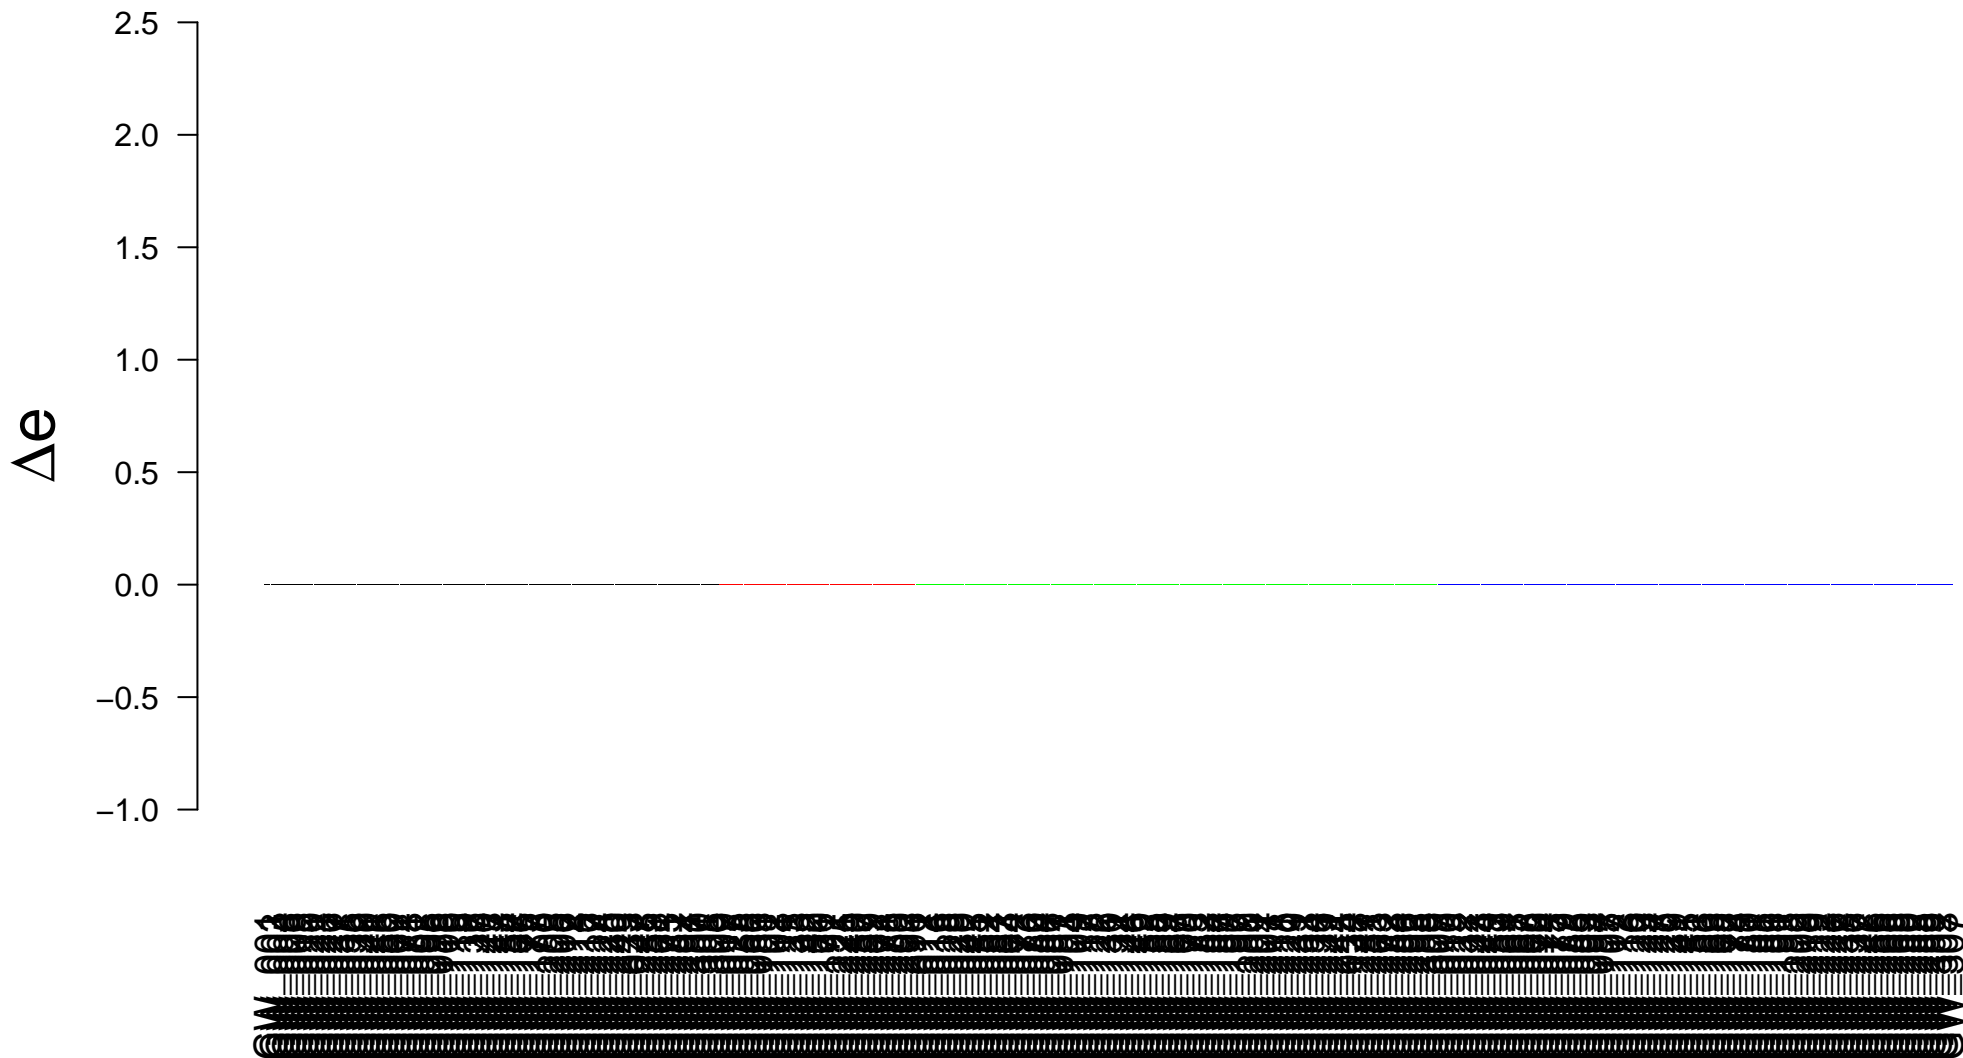

Expression of negative regulation of signal transduction in Spot C

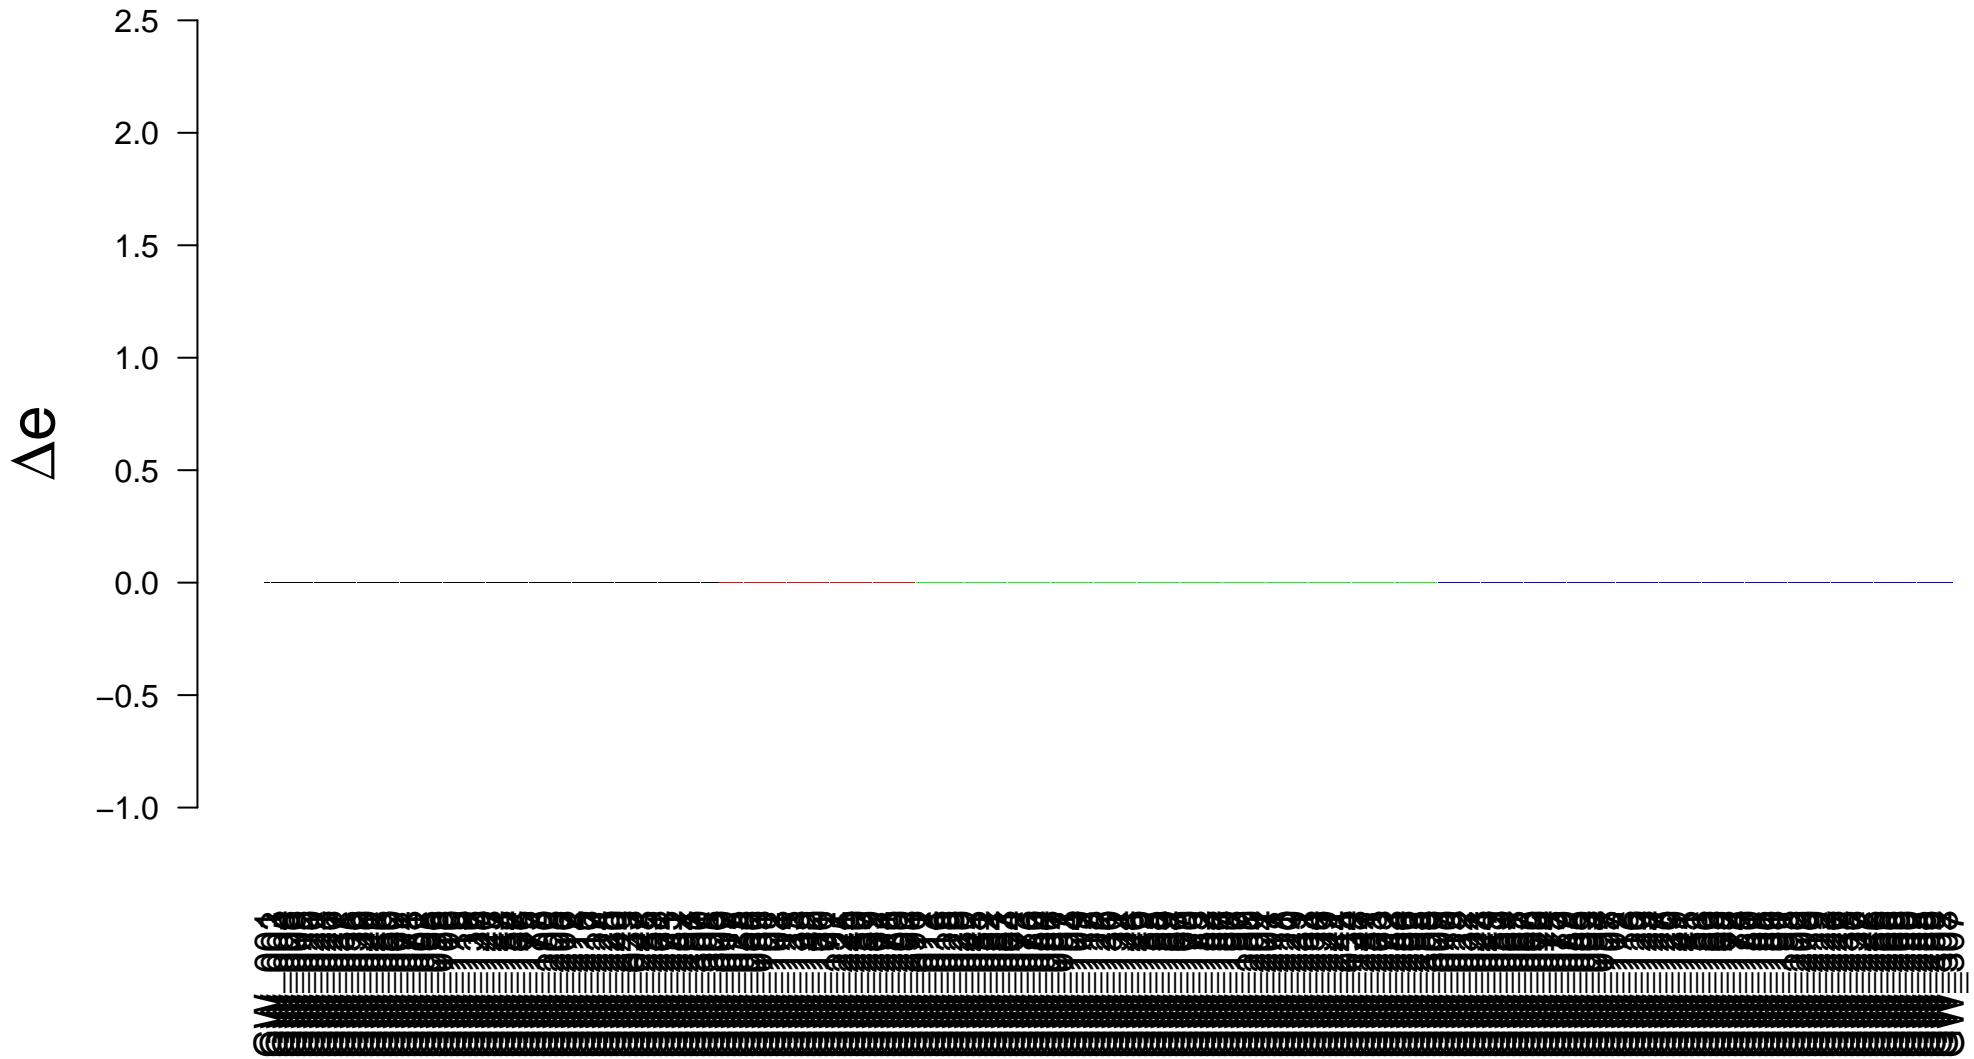

Expression of negative regulation of signal transduction in Spot D

Expression of negative regulation of signal transduction in Spot E

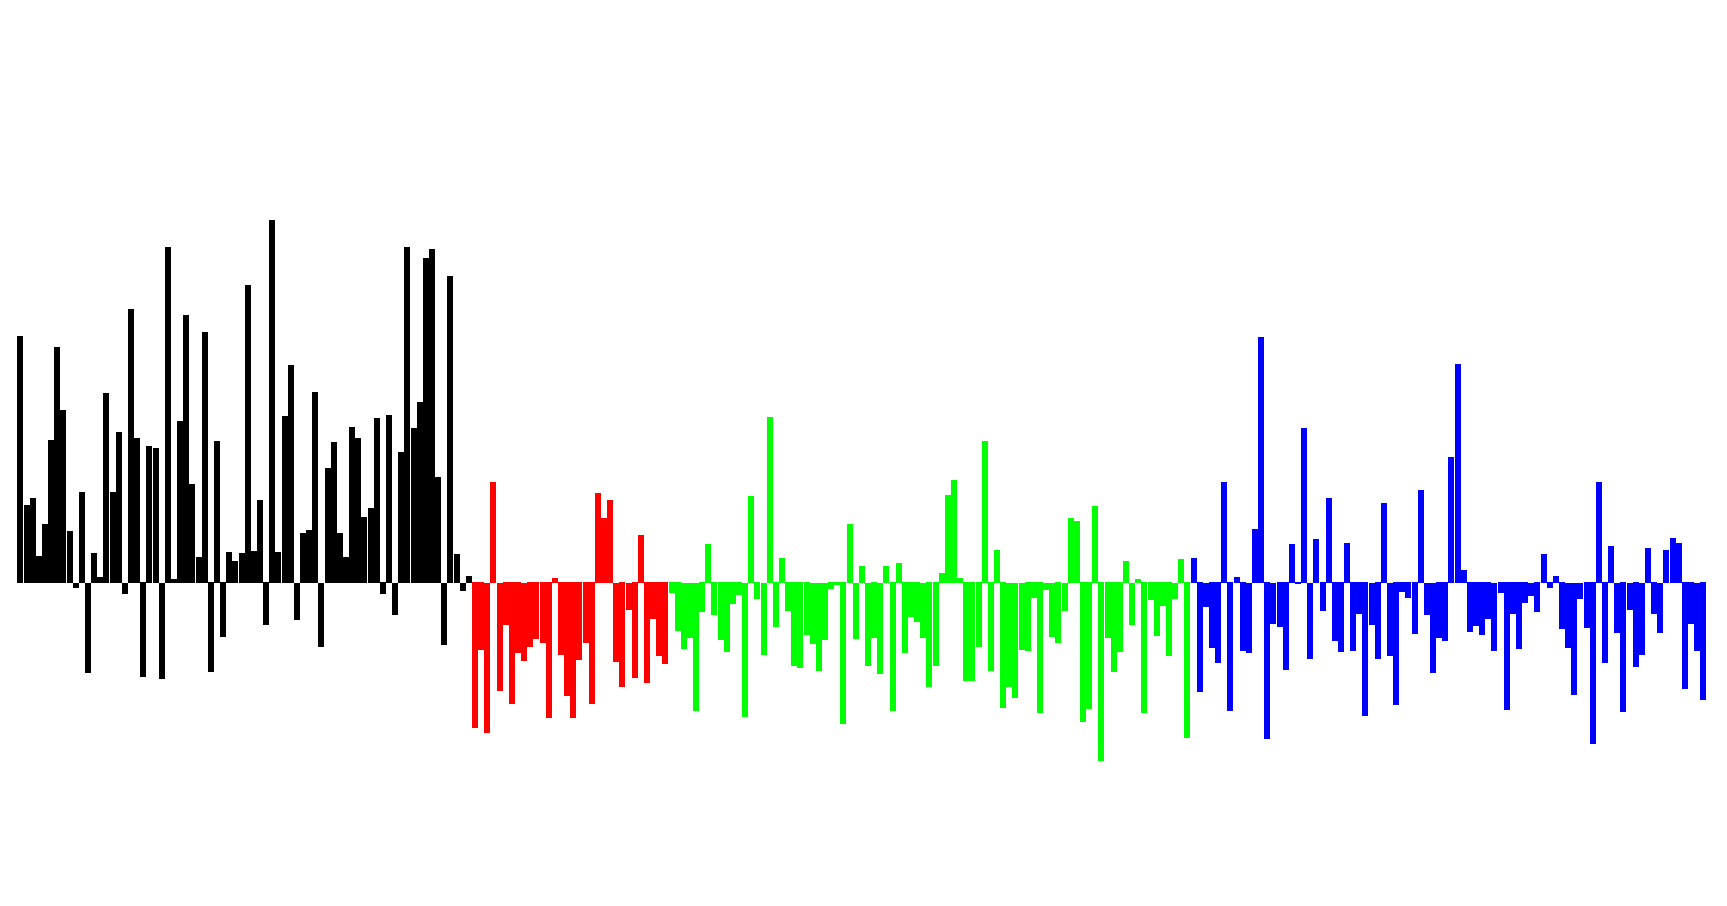

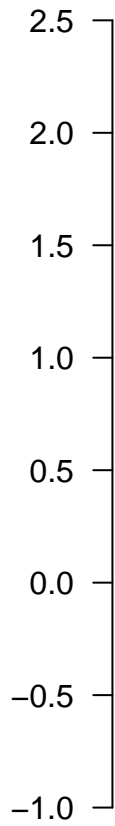

Expression of negative regulation of signal transduction in Spot F

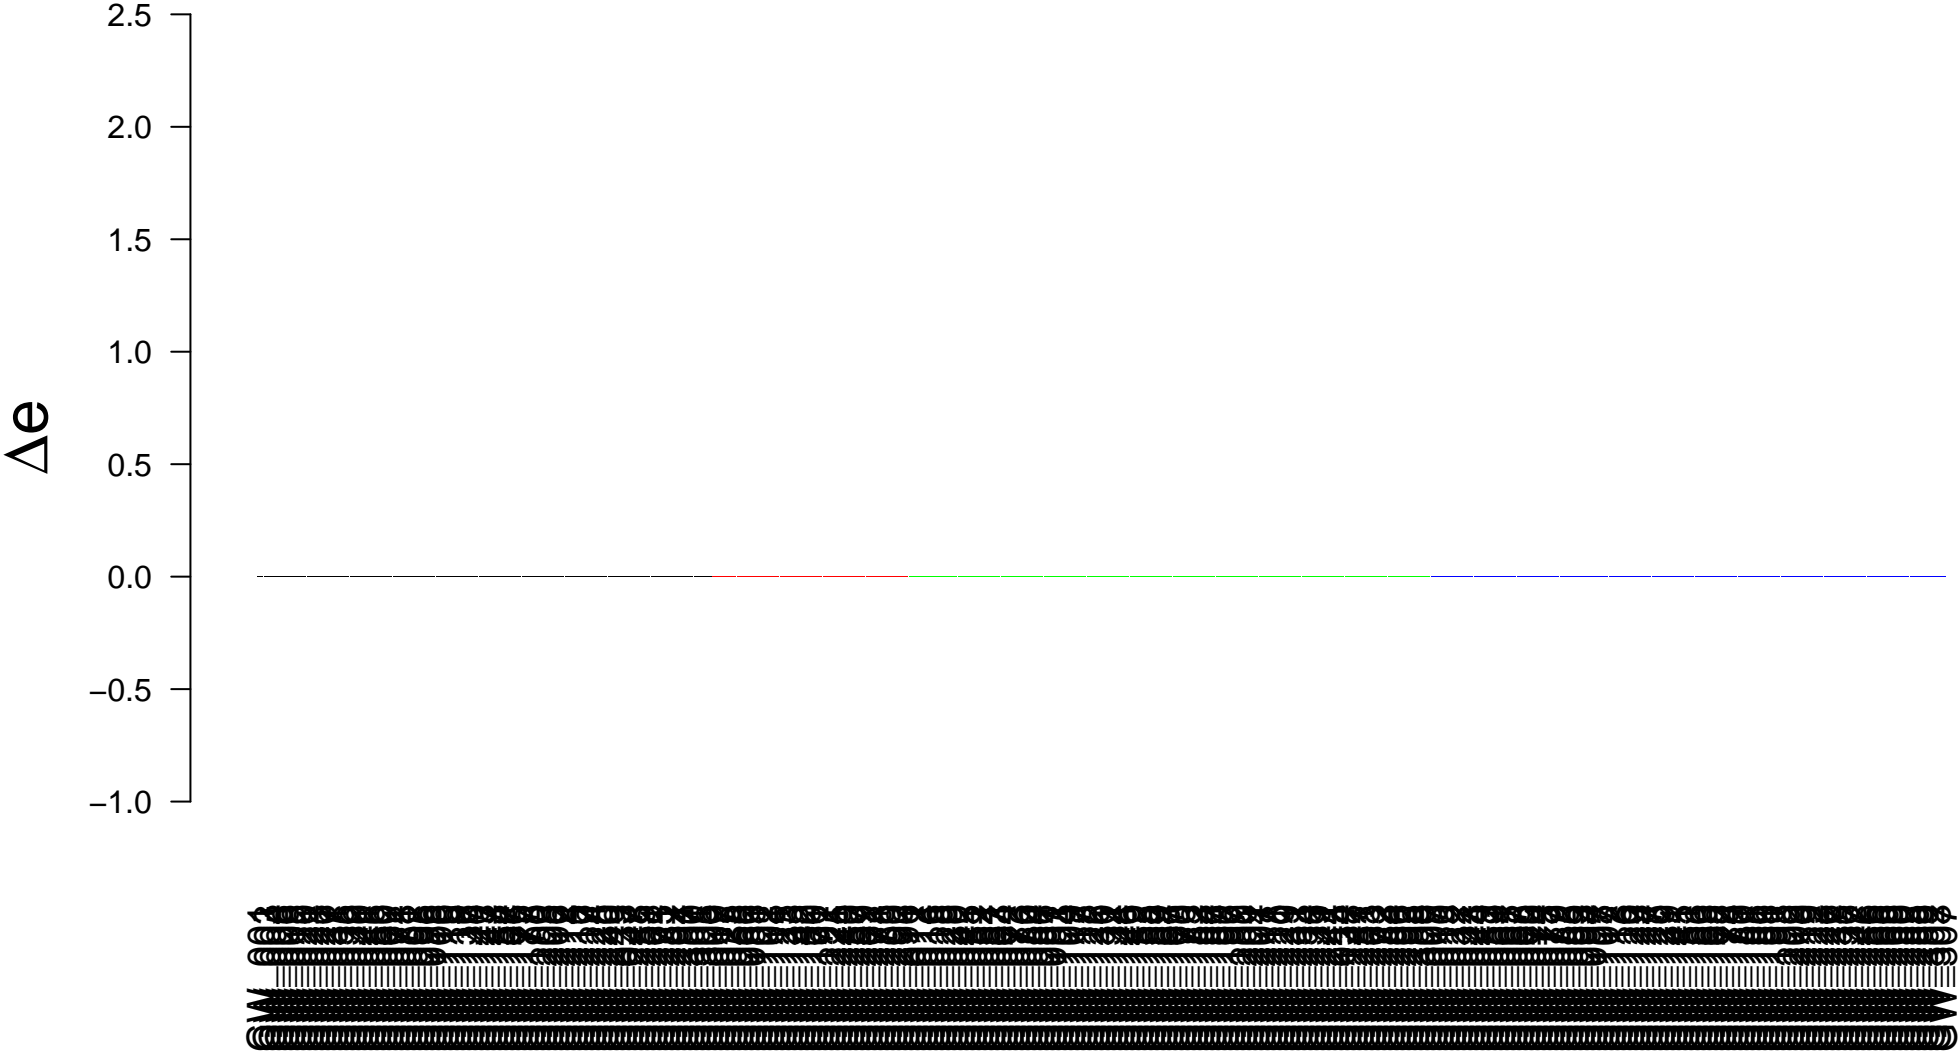

Expression of negative regulation of signal transduction in Spot G

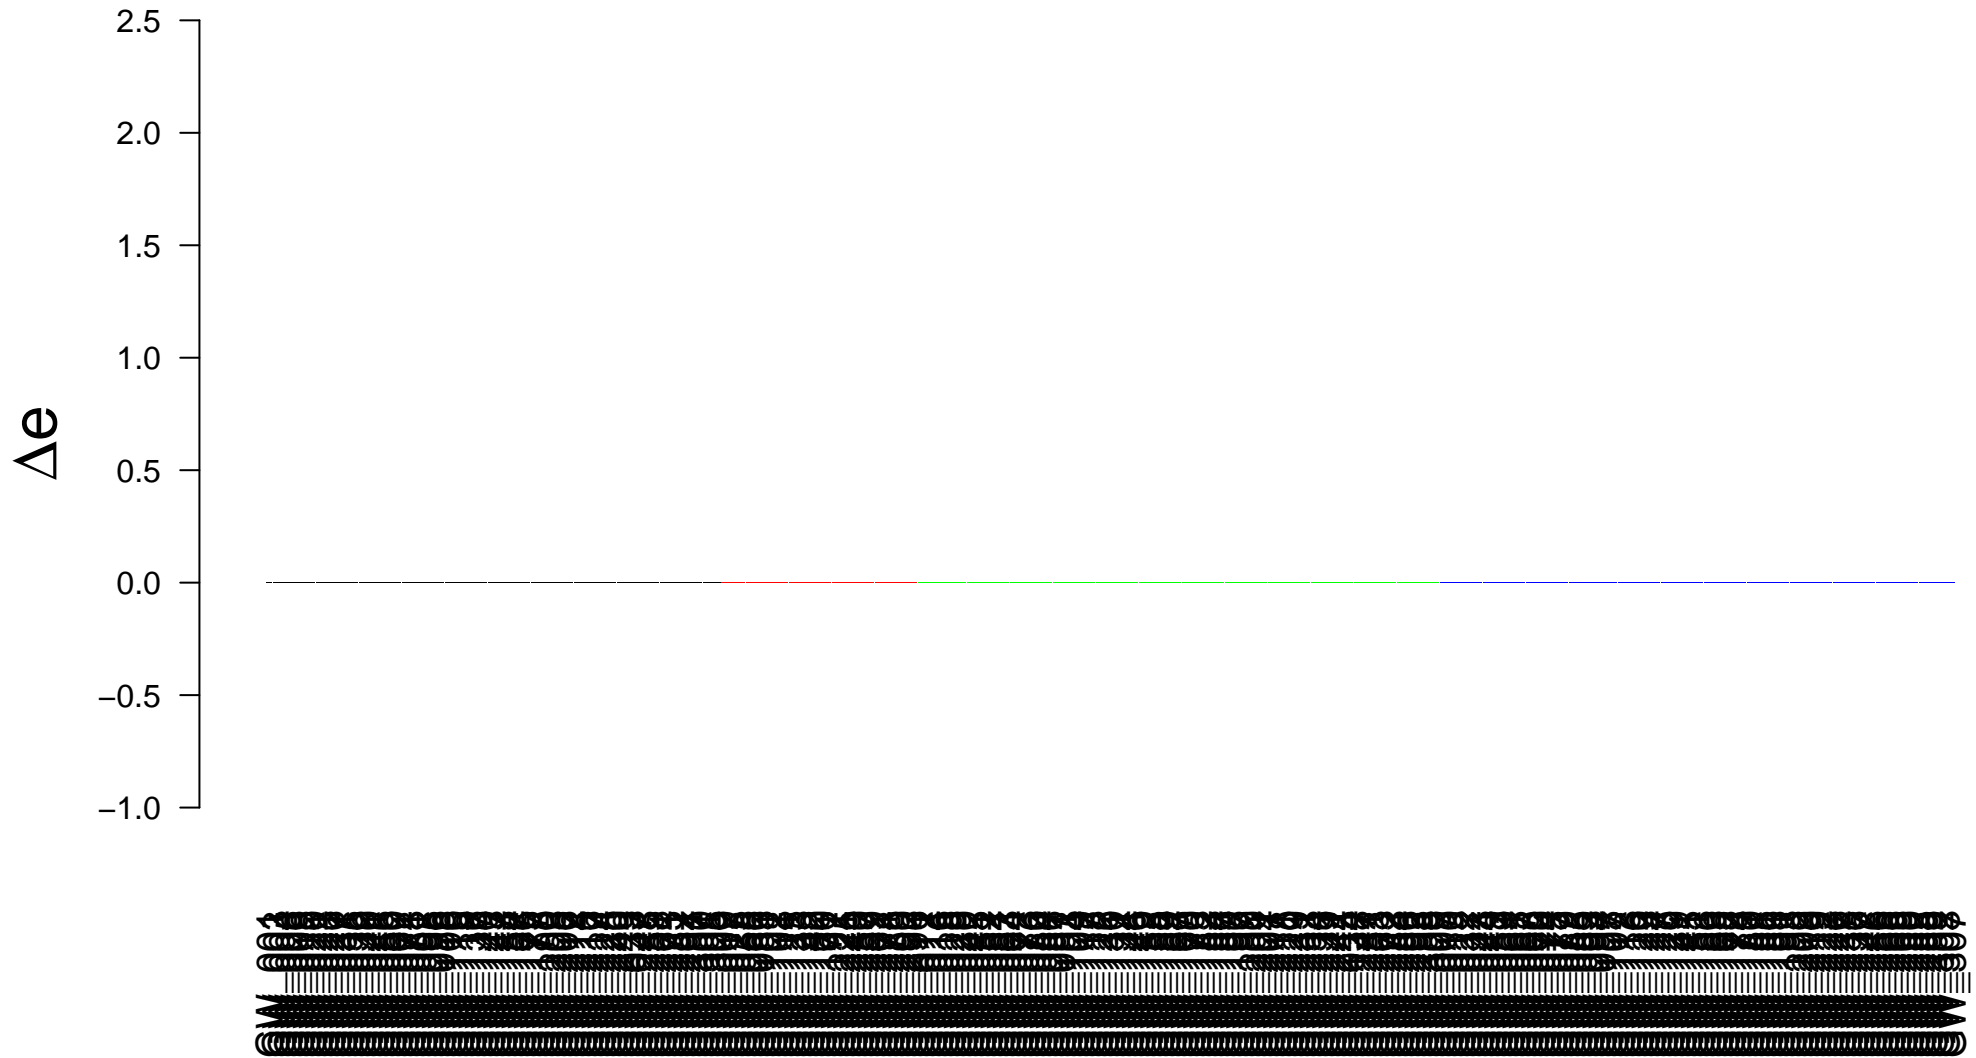

Δe

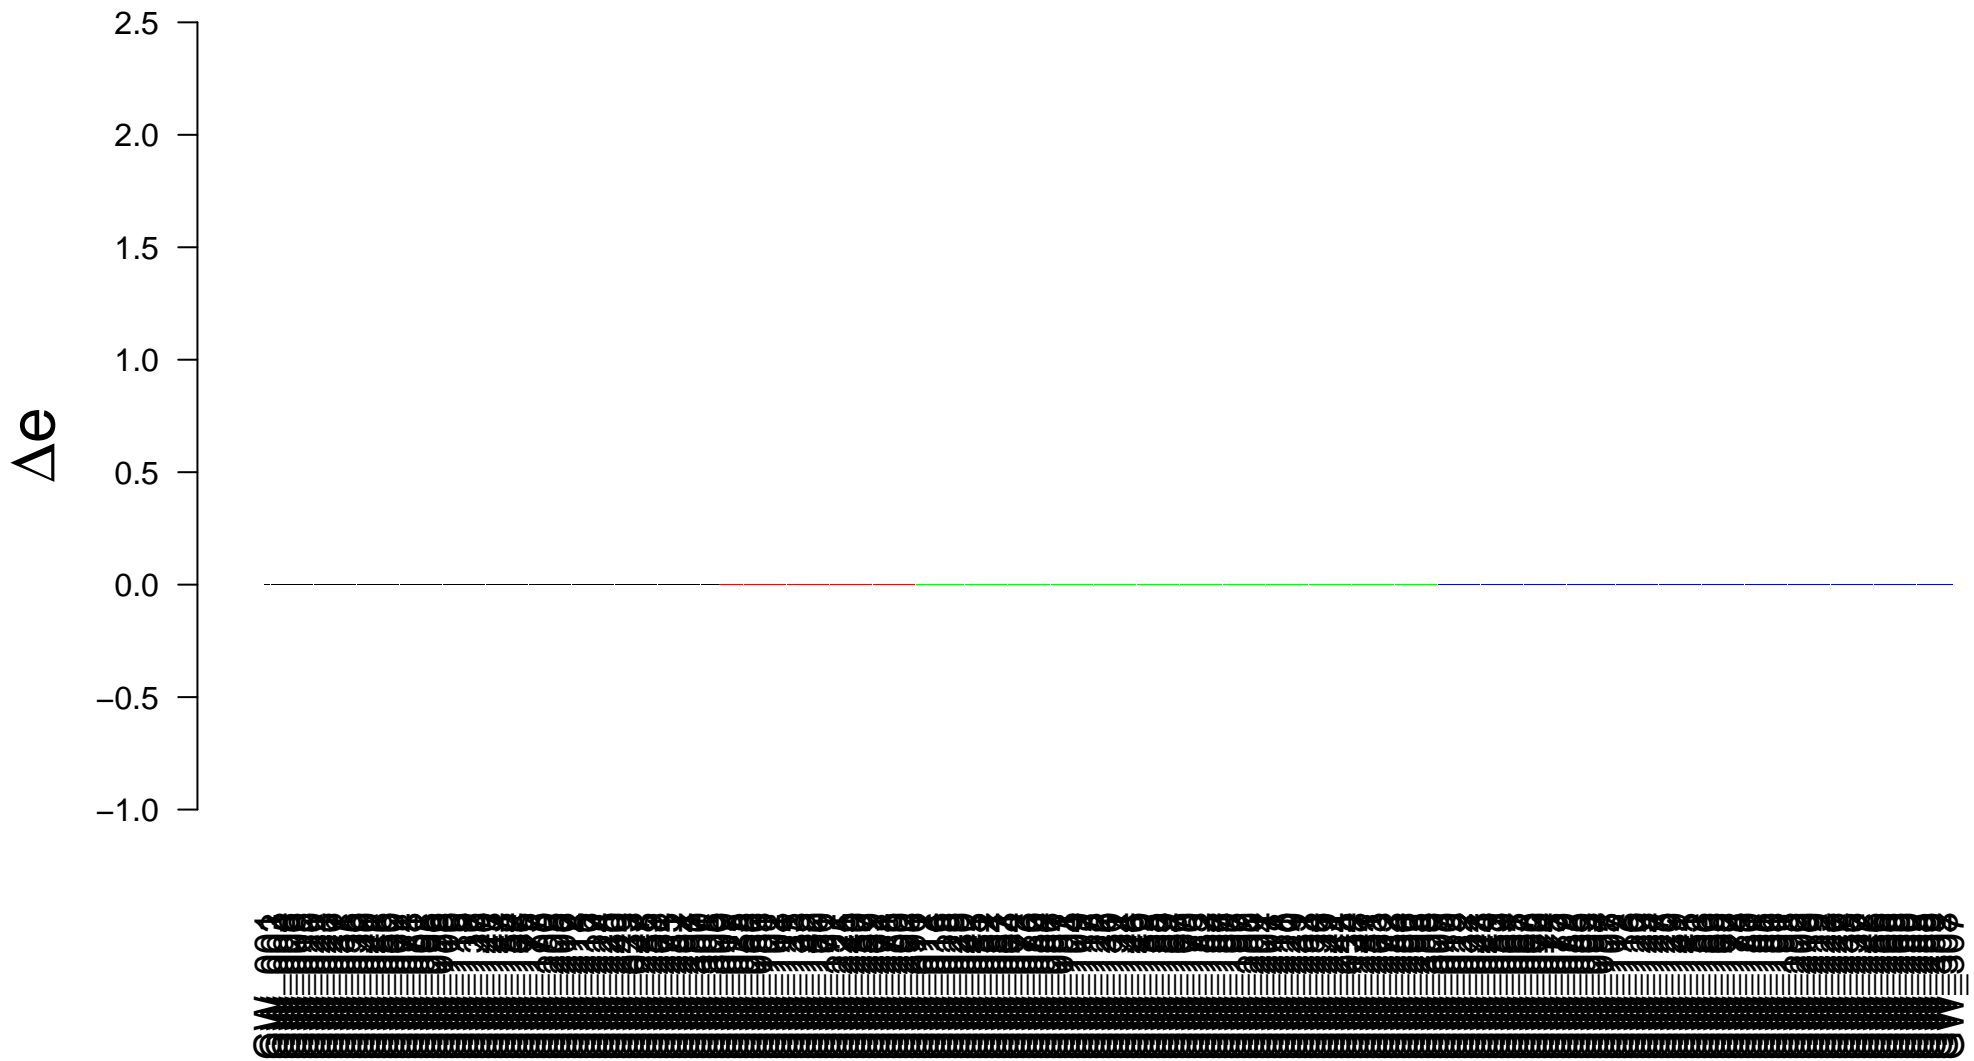

Expression of negative regulation of signal transduction in Spot H

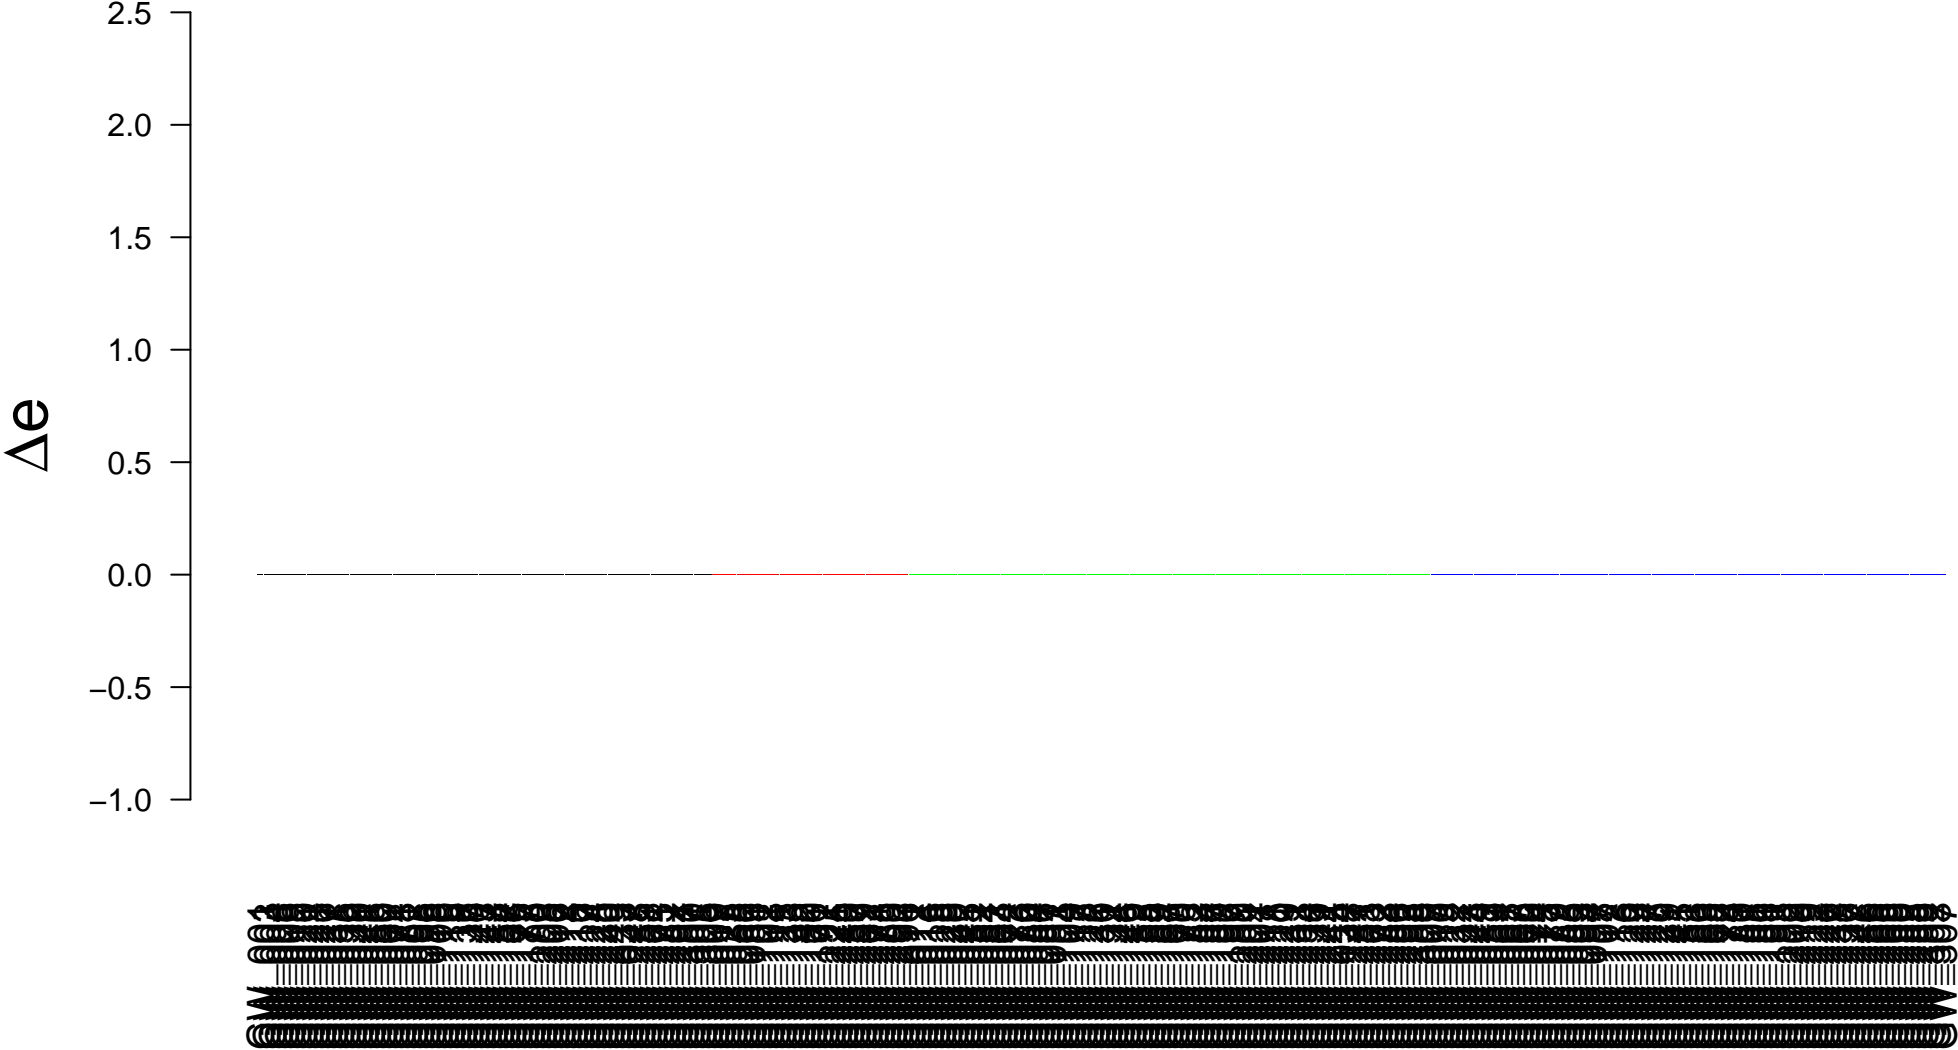

Expression of negative regulation of signal transduction in Spot I

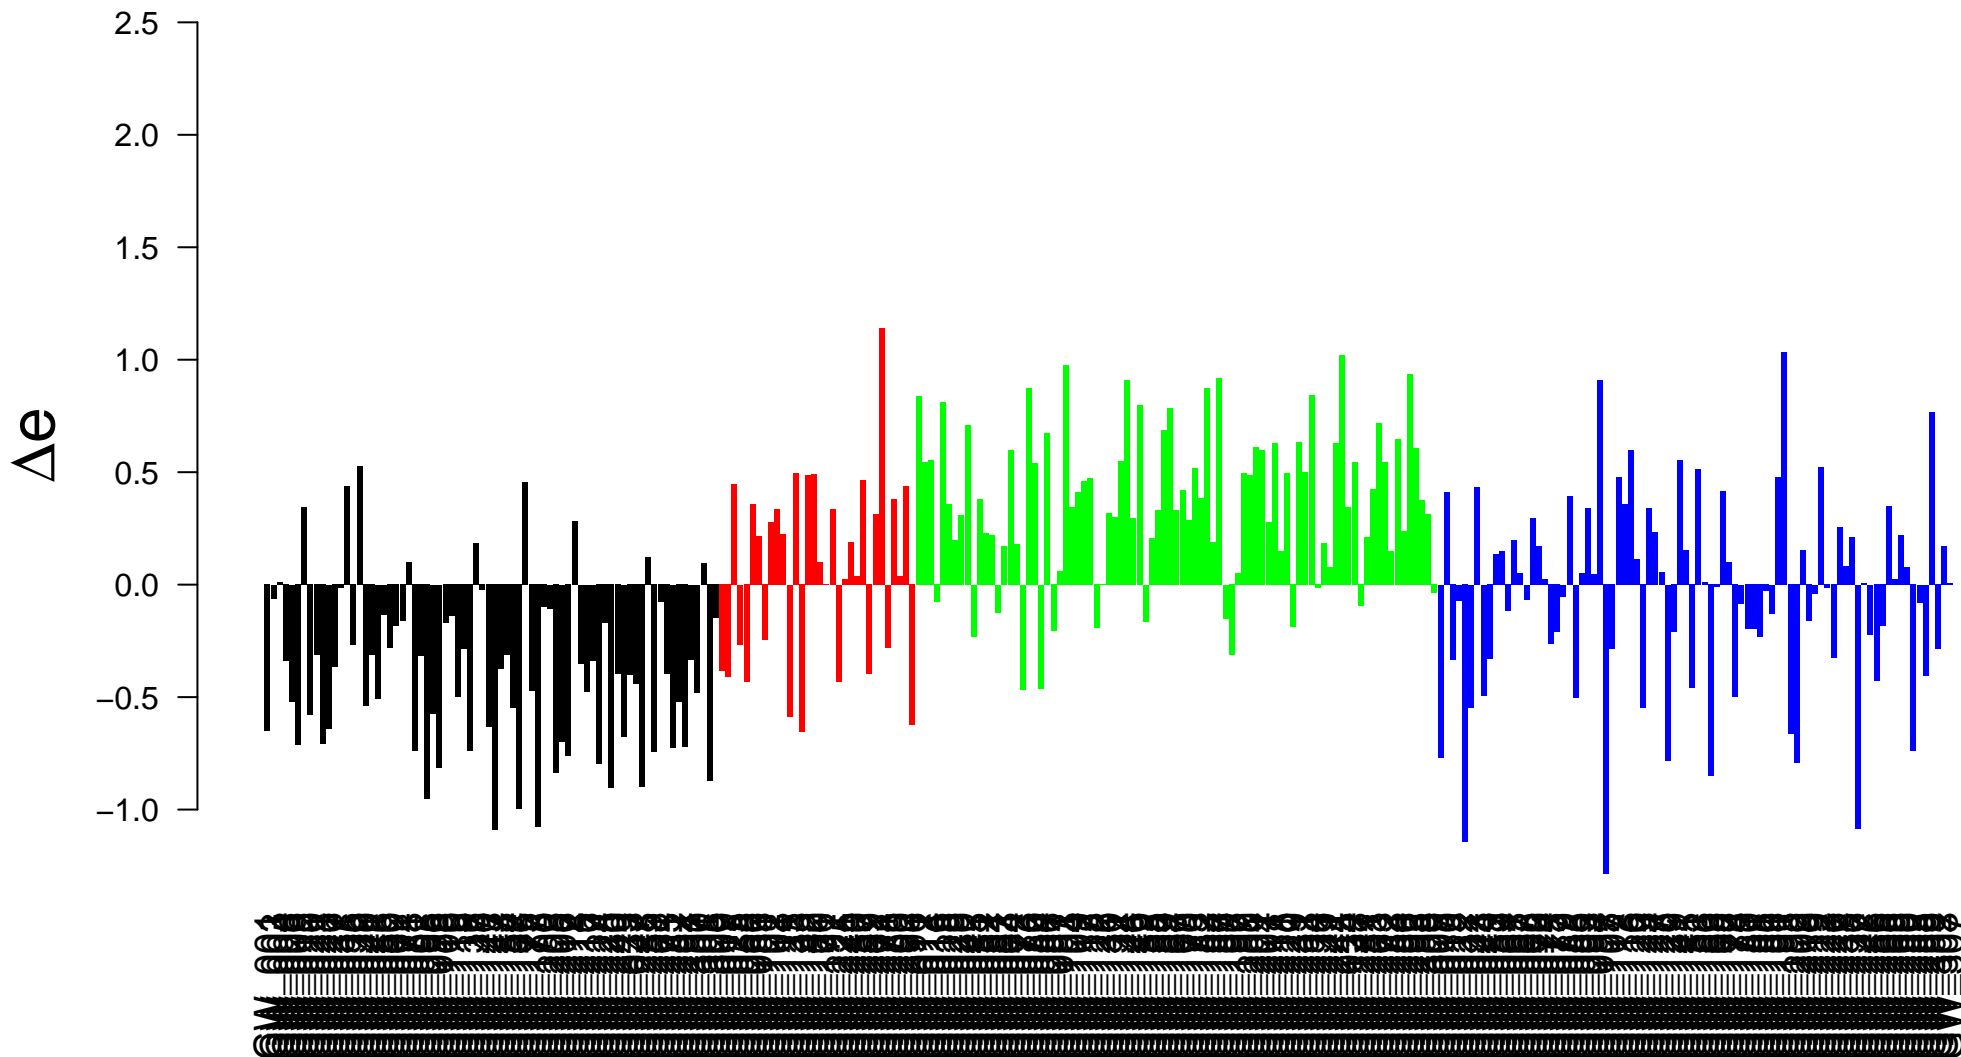

Expression of negative regulation of signal transduction in Spot J

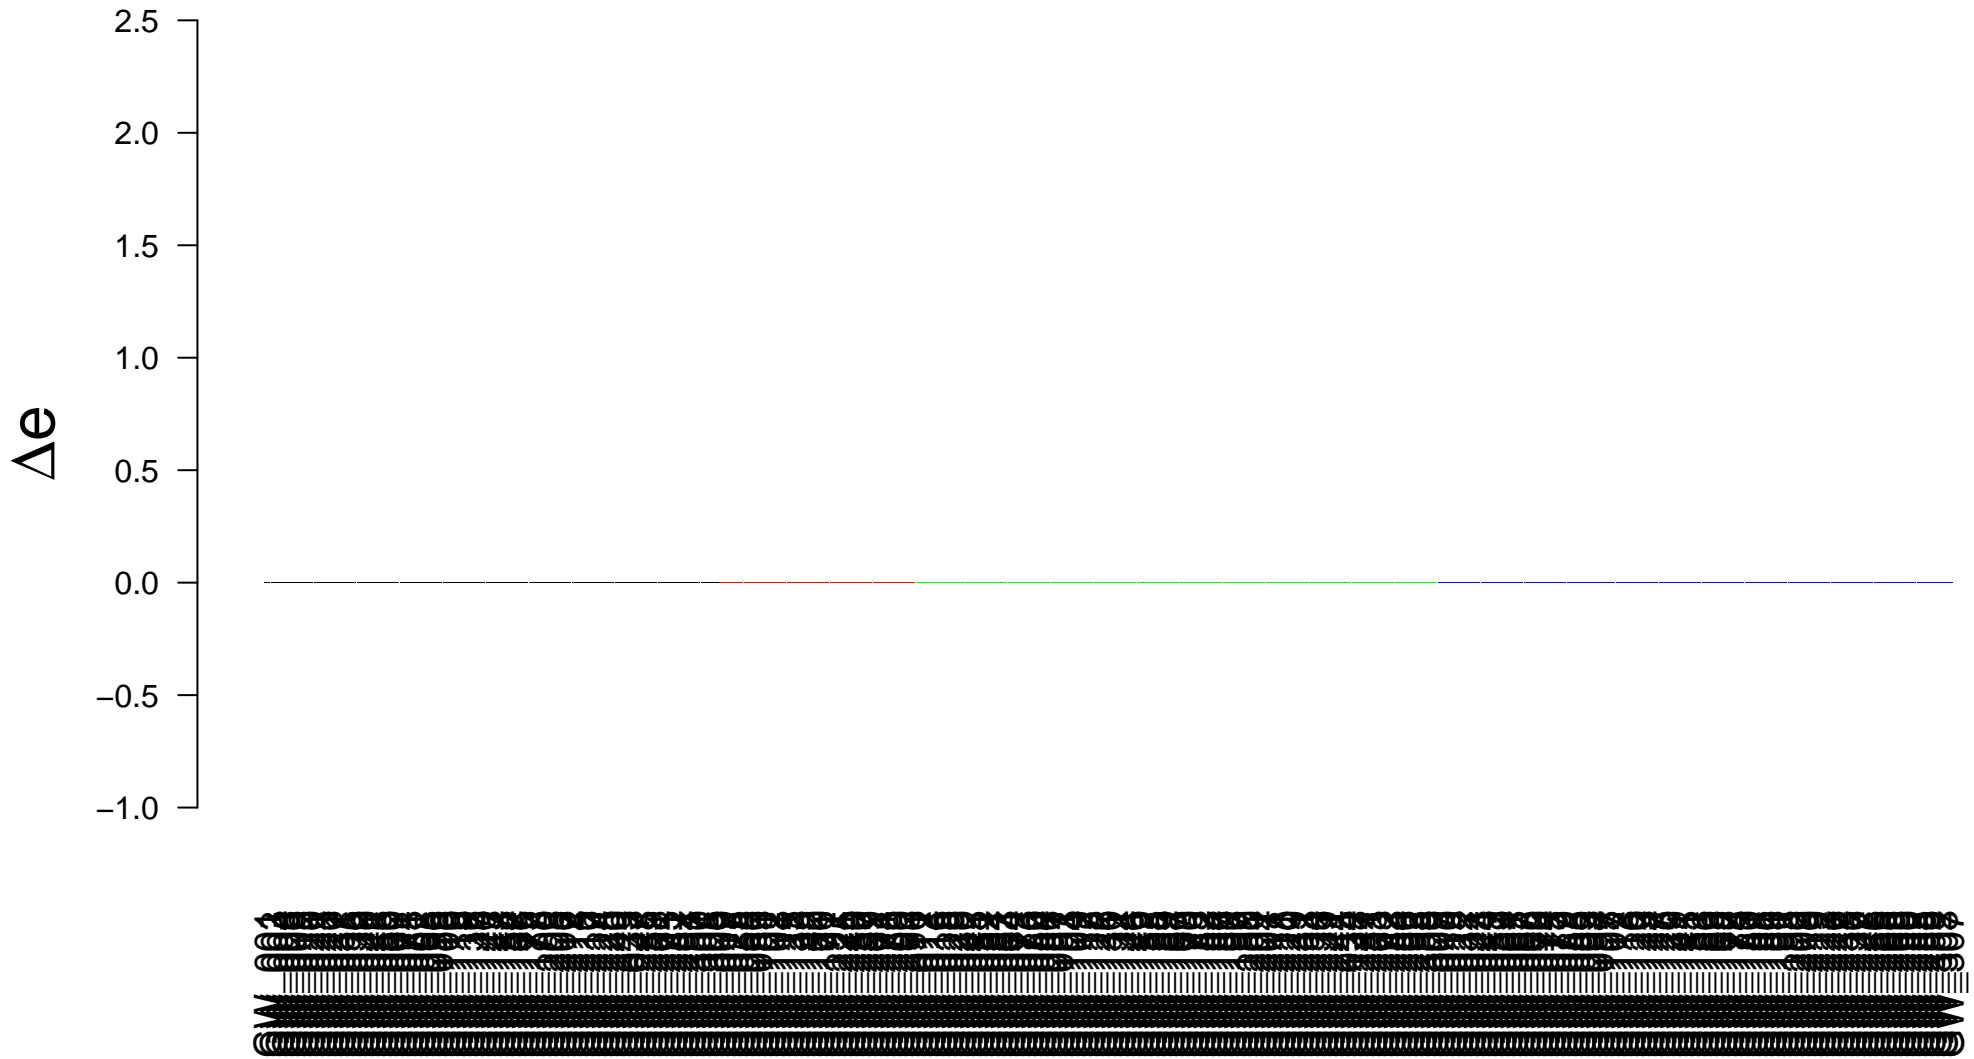

Expression of negative regulation of signal transduction in Spot K

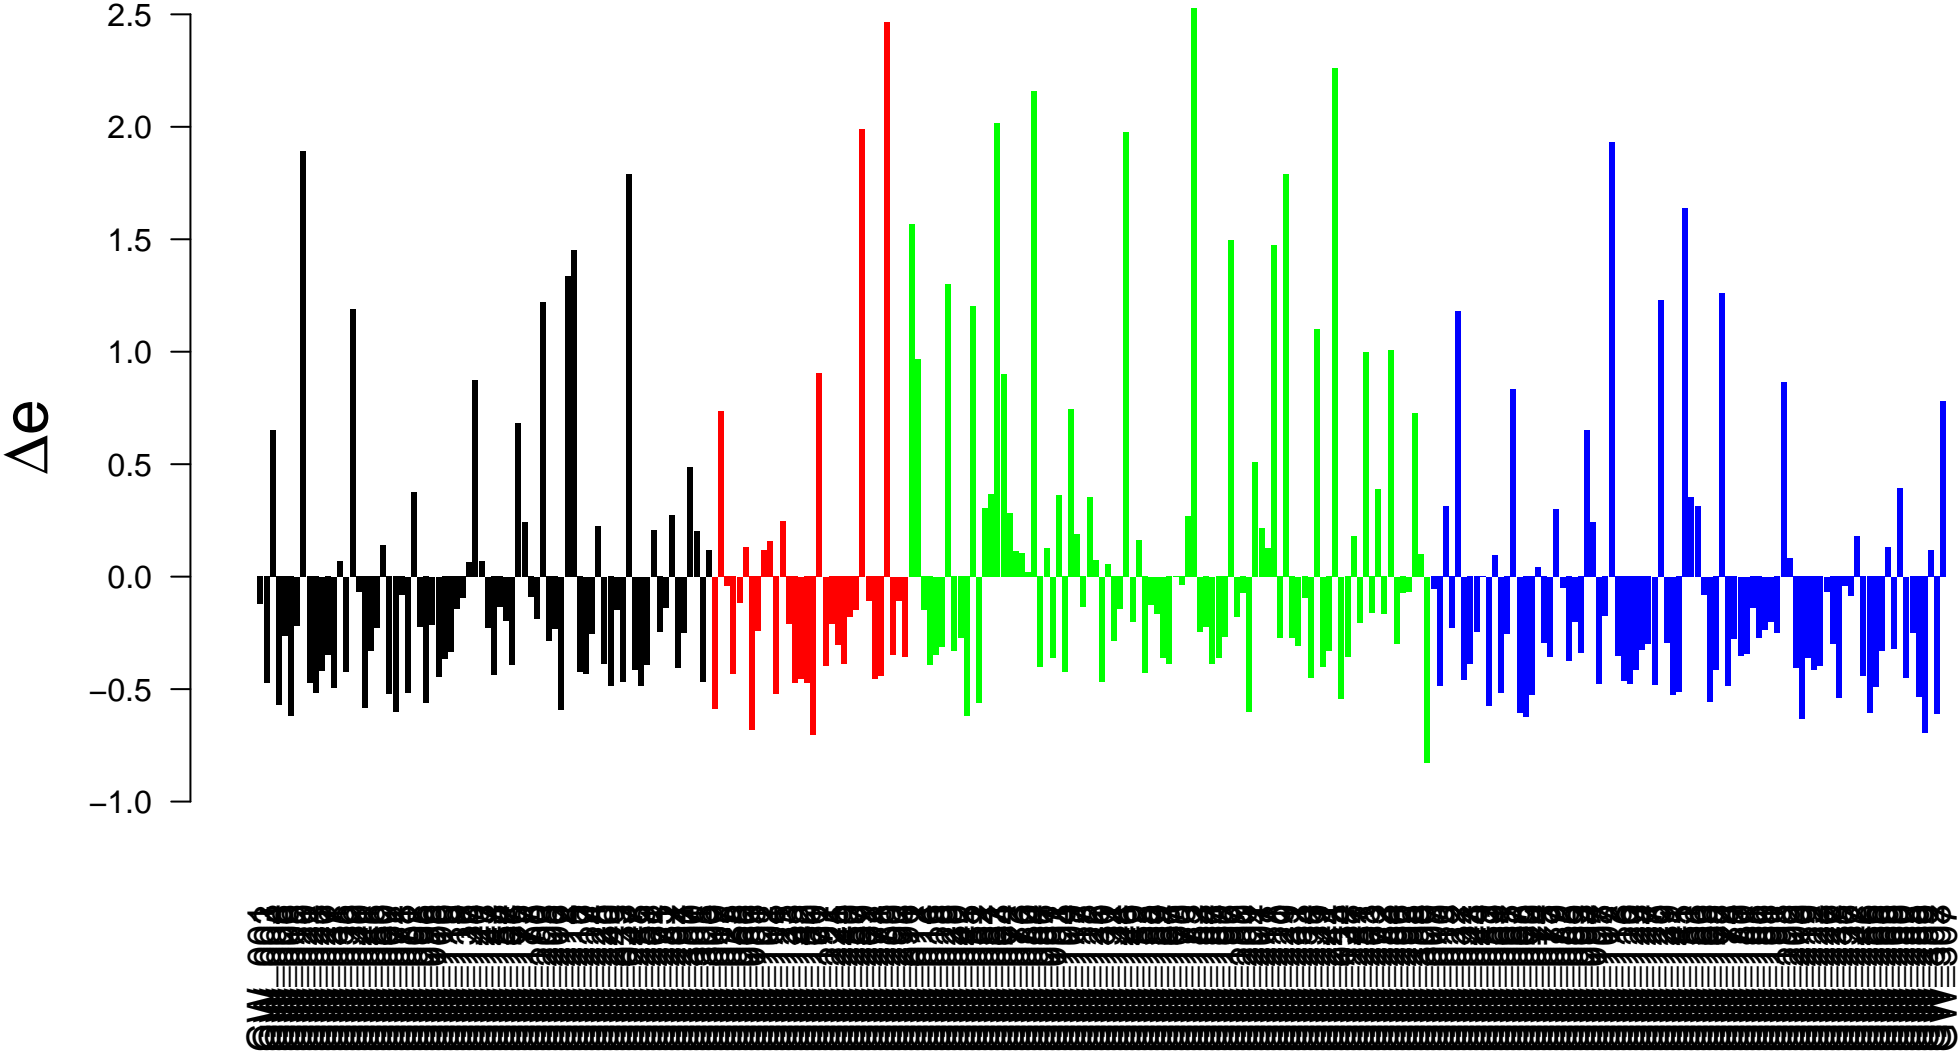

Expression of negative regulation of signal transduction in Spot L

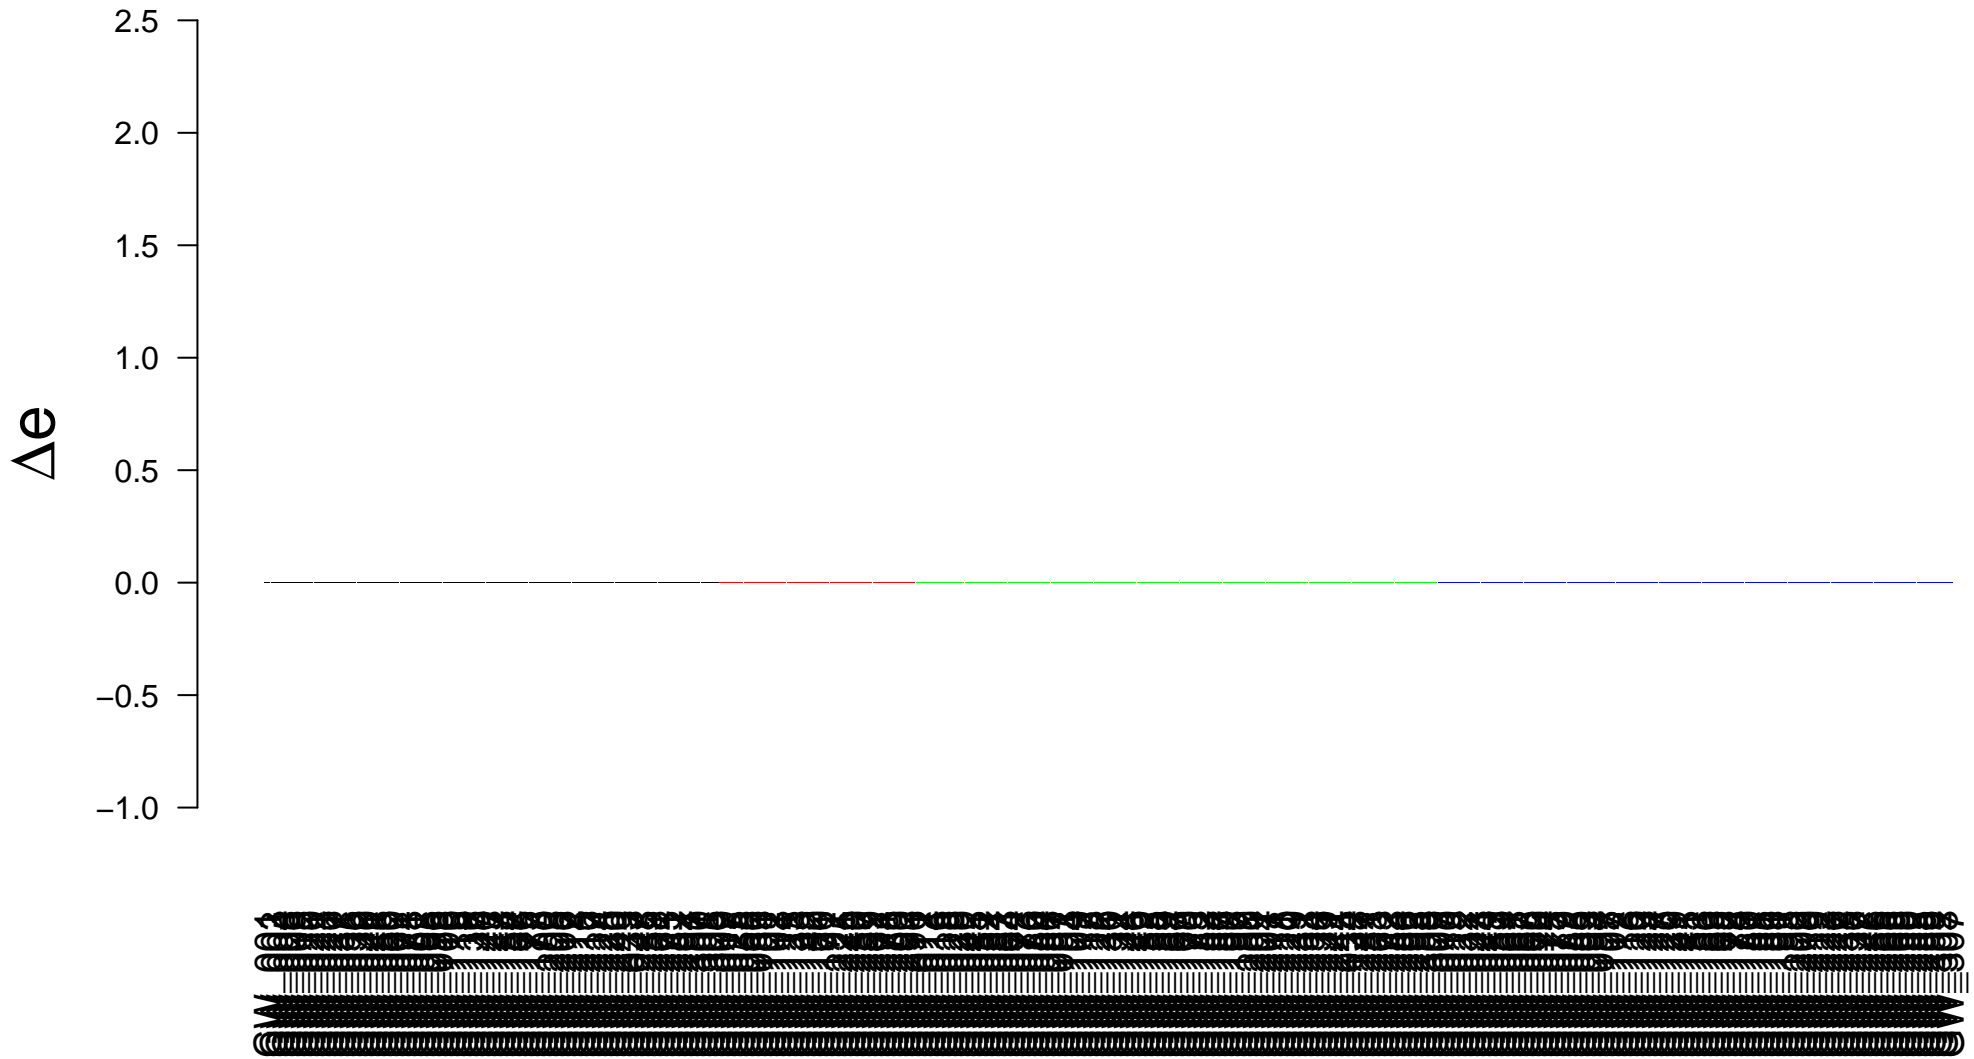

Expression of negative regulation of signal transduction in Spot M

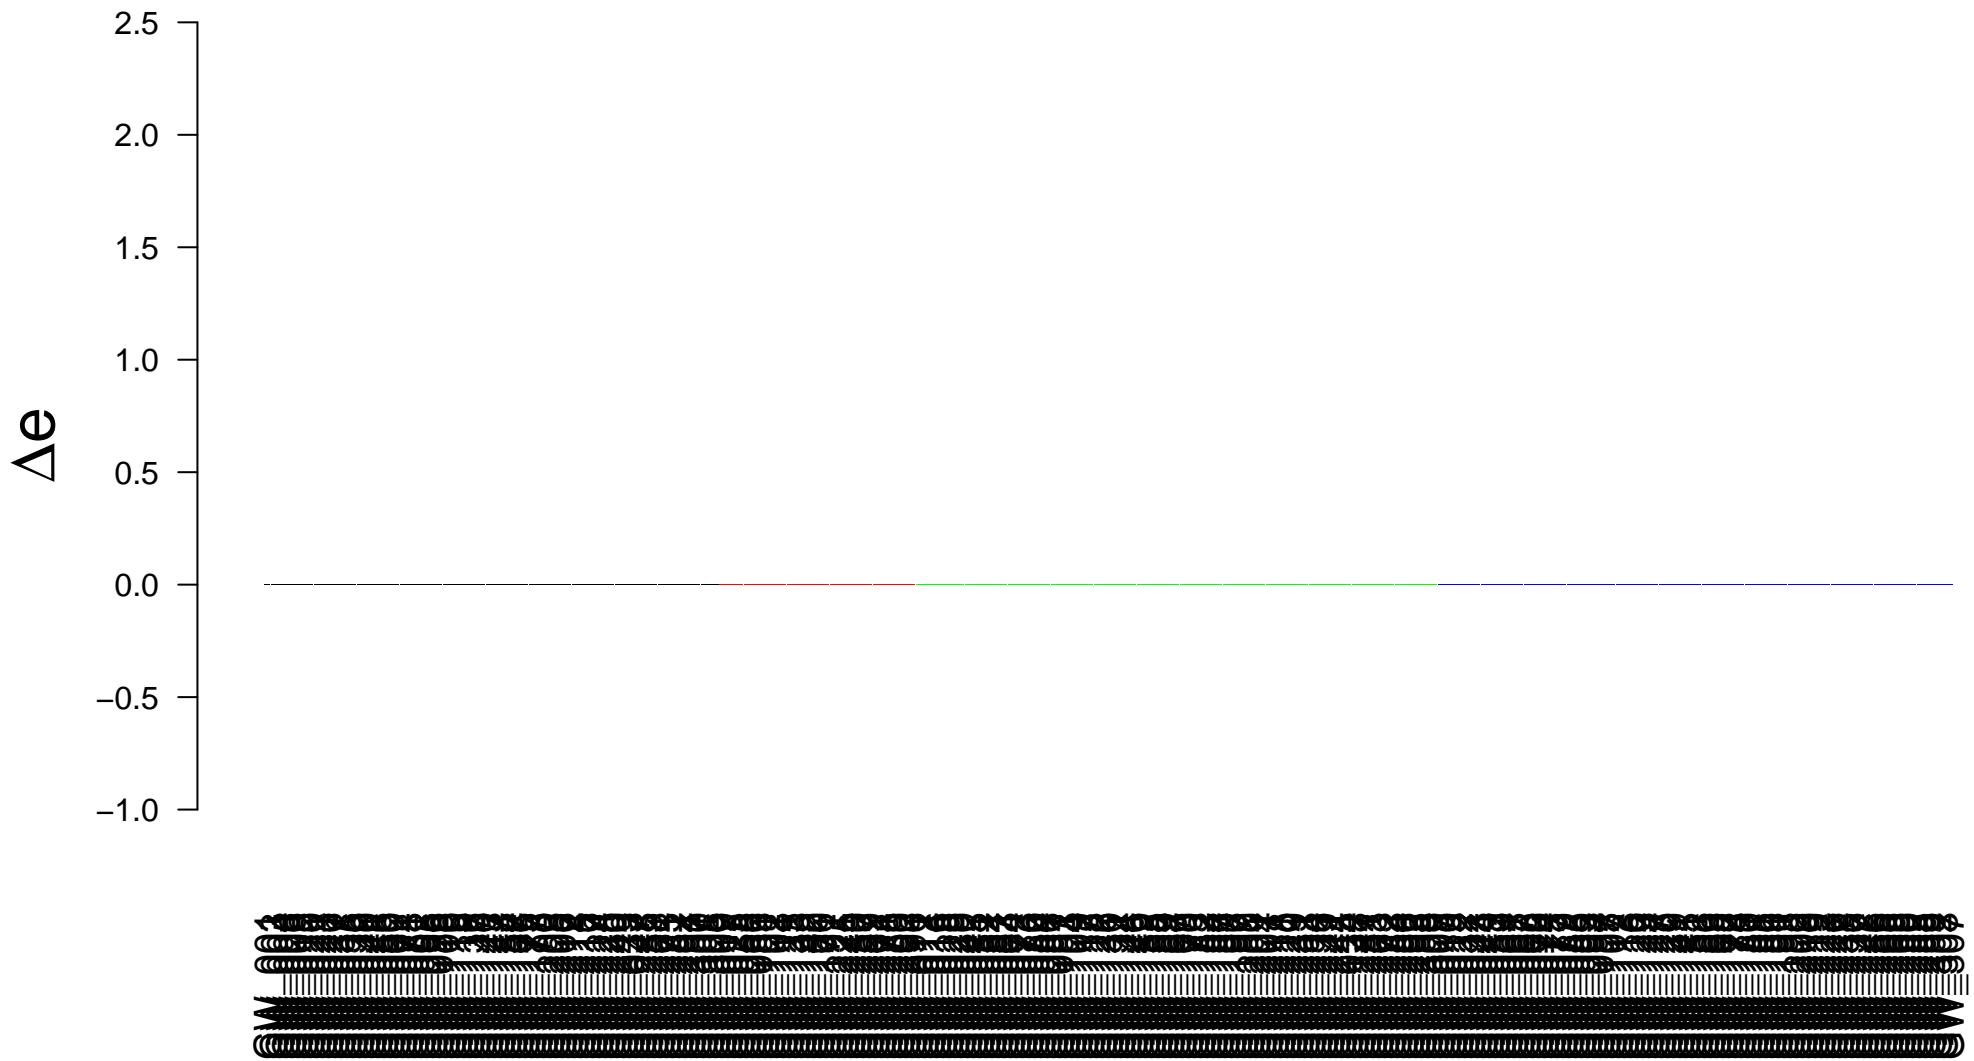

Expression of negative regulation of signal transduction in Spot N

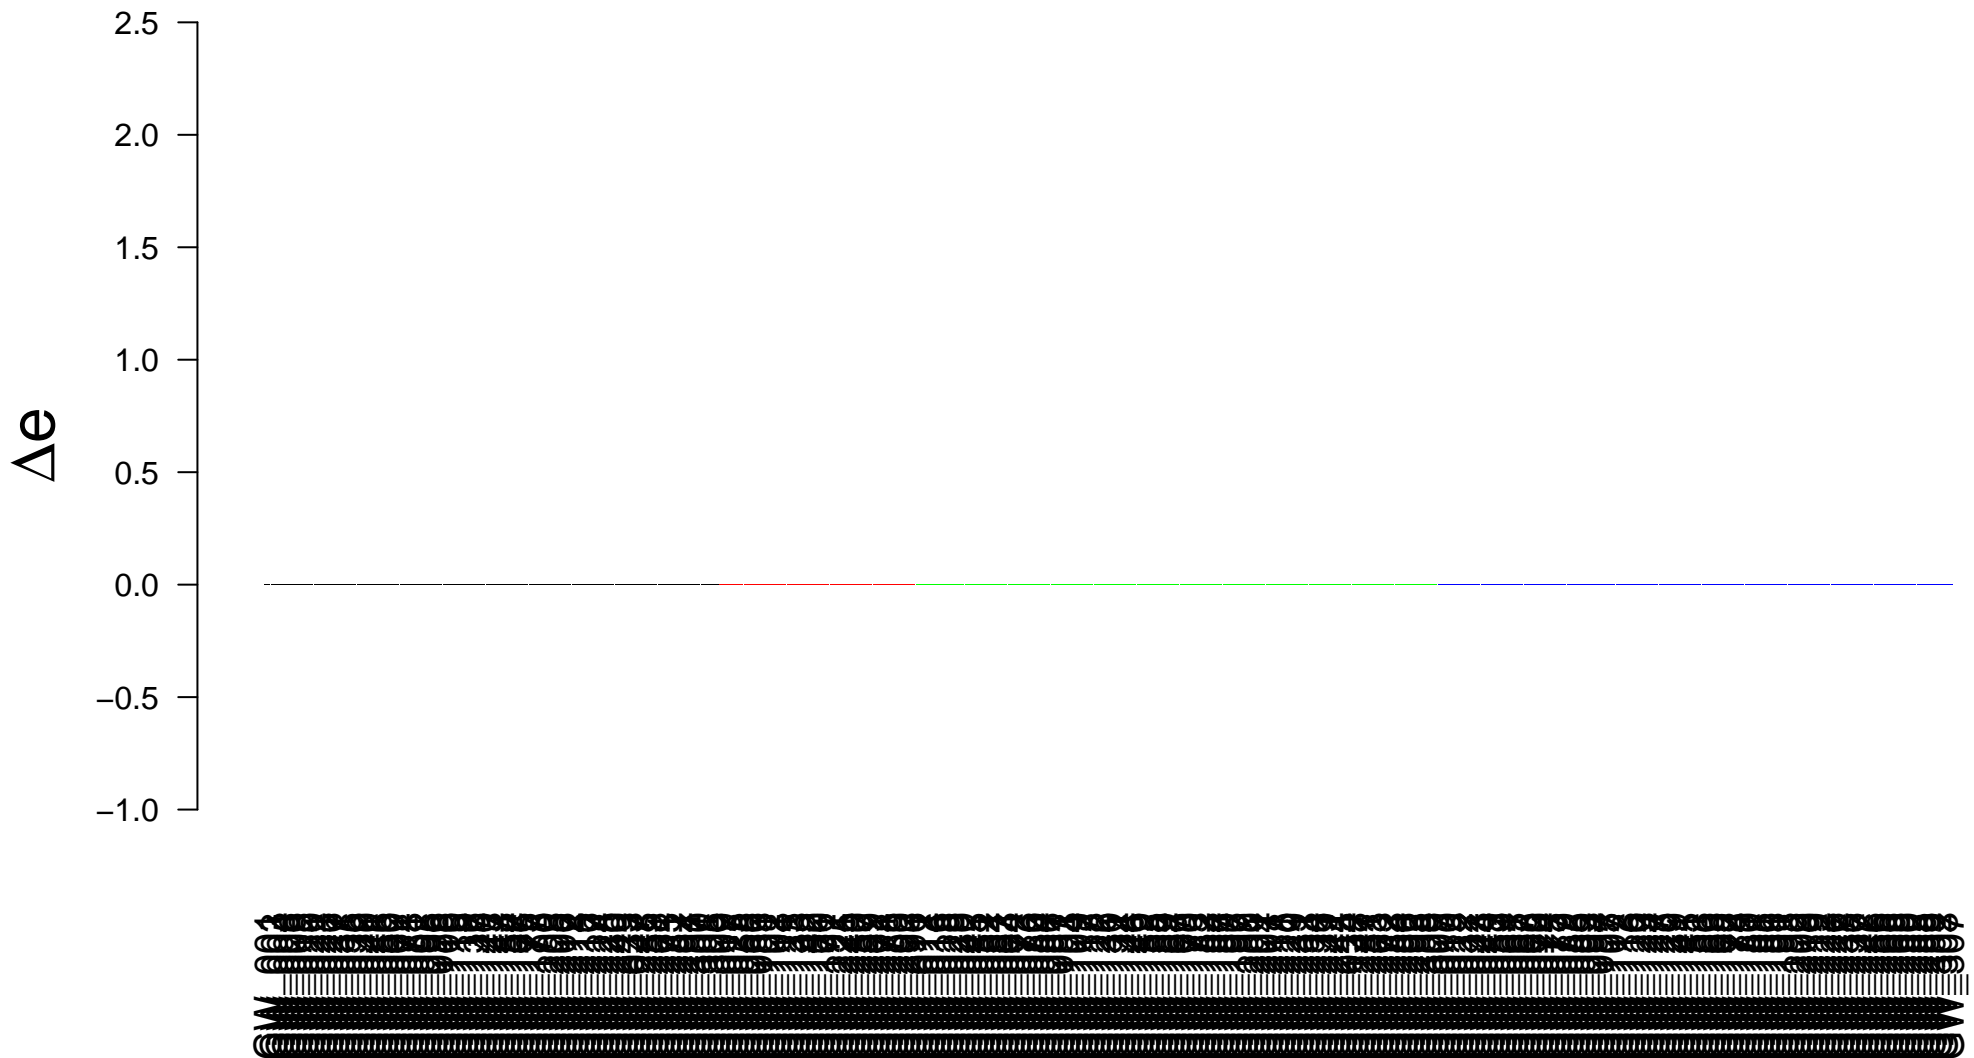

Expression of negative regulation of signal transduction in Spot O

Expression of negative regulation of signal transduction in Spot P

Expression of negative regulation of signal transduction in Spot Q

Expression of negative regulation of signal transduction in Spot R
