

negative regulation of translational initiation

negative regulation of translational initiation

Enrichment in spots: negative regulation of translational initiation

Expression of negative regulation of translational initiation in Spot A

Expression of negative regulation of translational initiation in Spot B

Expression of negative regulation of translational initiation in Spot C

Expression of negative regulation of translational initiation in Spot D

Expression of negative regulation of translational initiation in Spot E

Expression of negative regulation of translational initiation in Spot F

Expression of negative regulation of translational initiation in Spot G

Expression of negative regulation of translational initiation in Spot H

Expression of negative regulation of translational initiation in Spot I

Expression of negative regulation of translational initiation in Spot J

Expression of negative regulation of translational initiation in Spot K

Expression of negative regulation of translational initiation in Spot L

Expression of negative regulation of translational initiation in Spot M
