

negative regulation of vascular permeability

negative regulation of vascular permeability

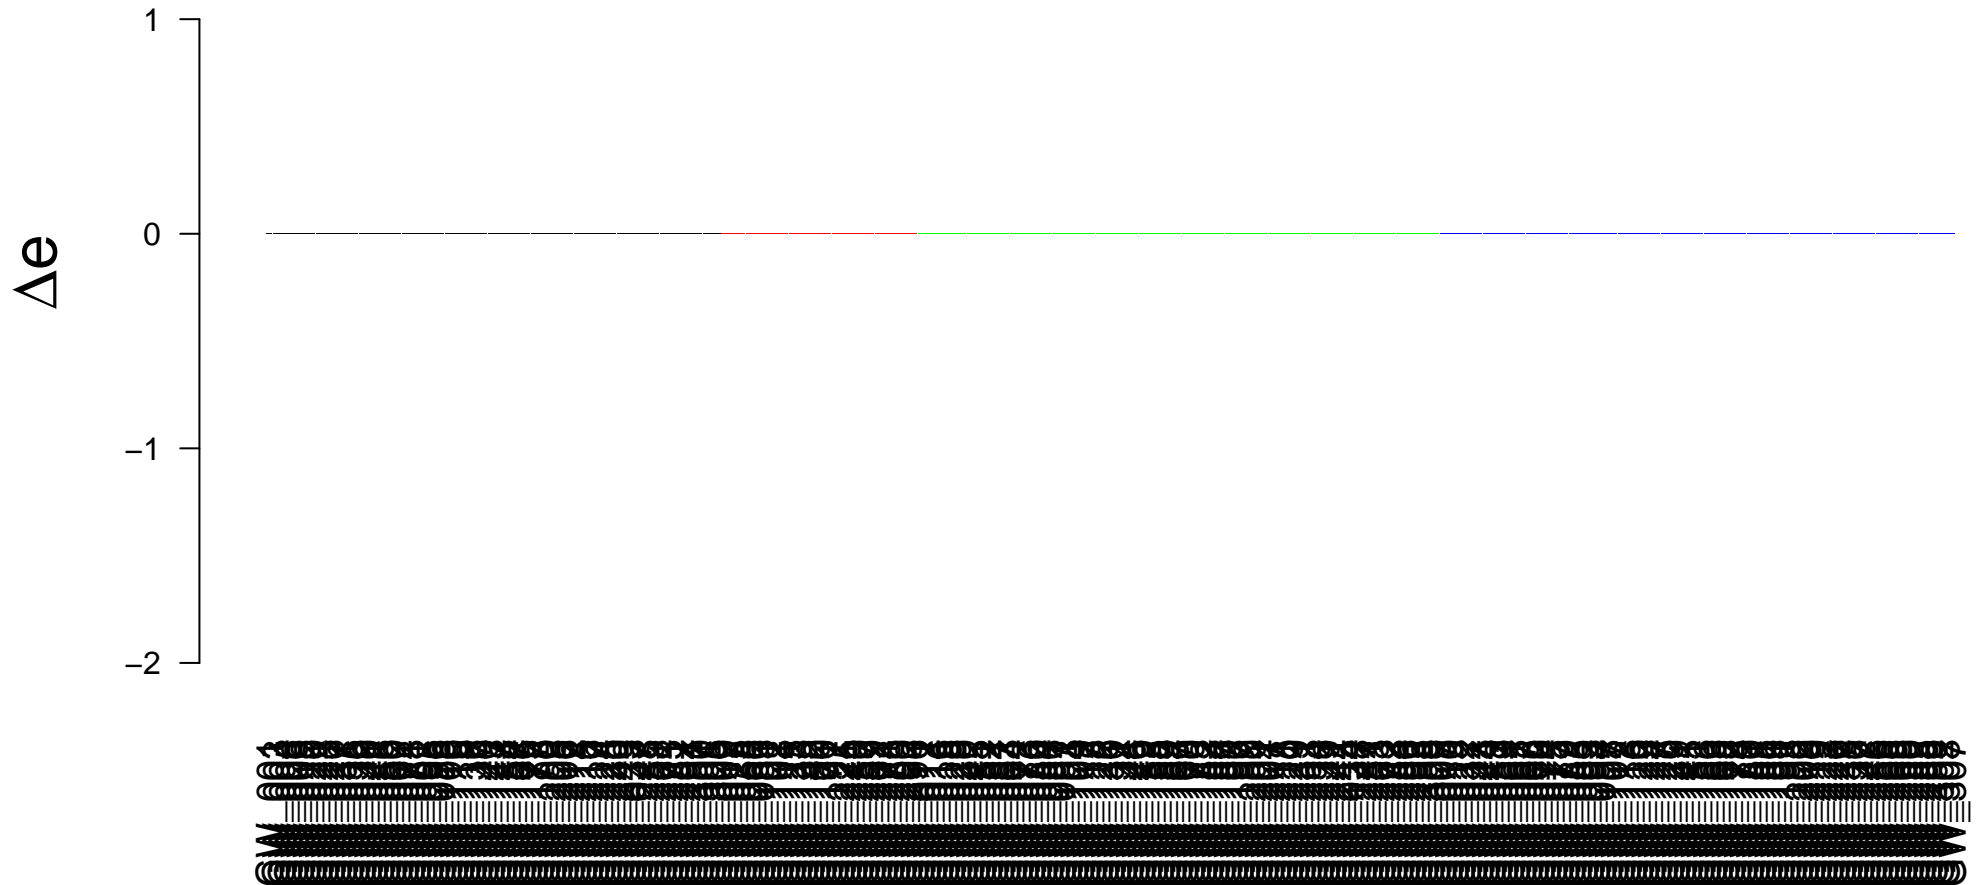

Enrichment in spots: negative regulation of vascular permeability

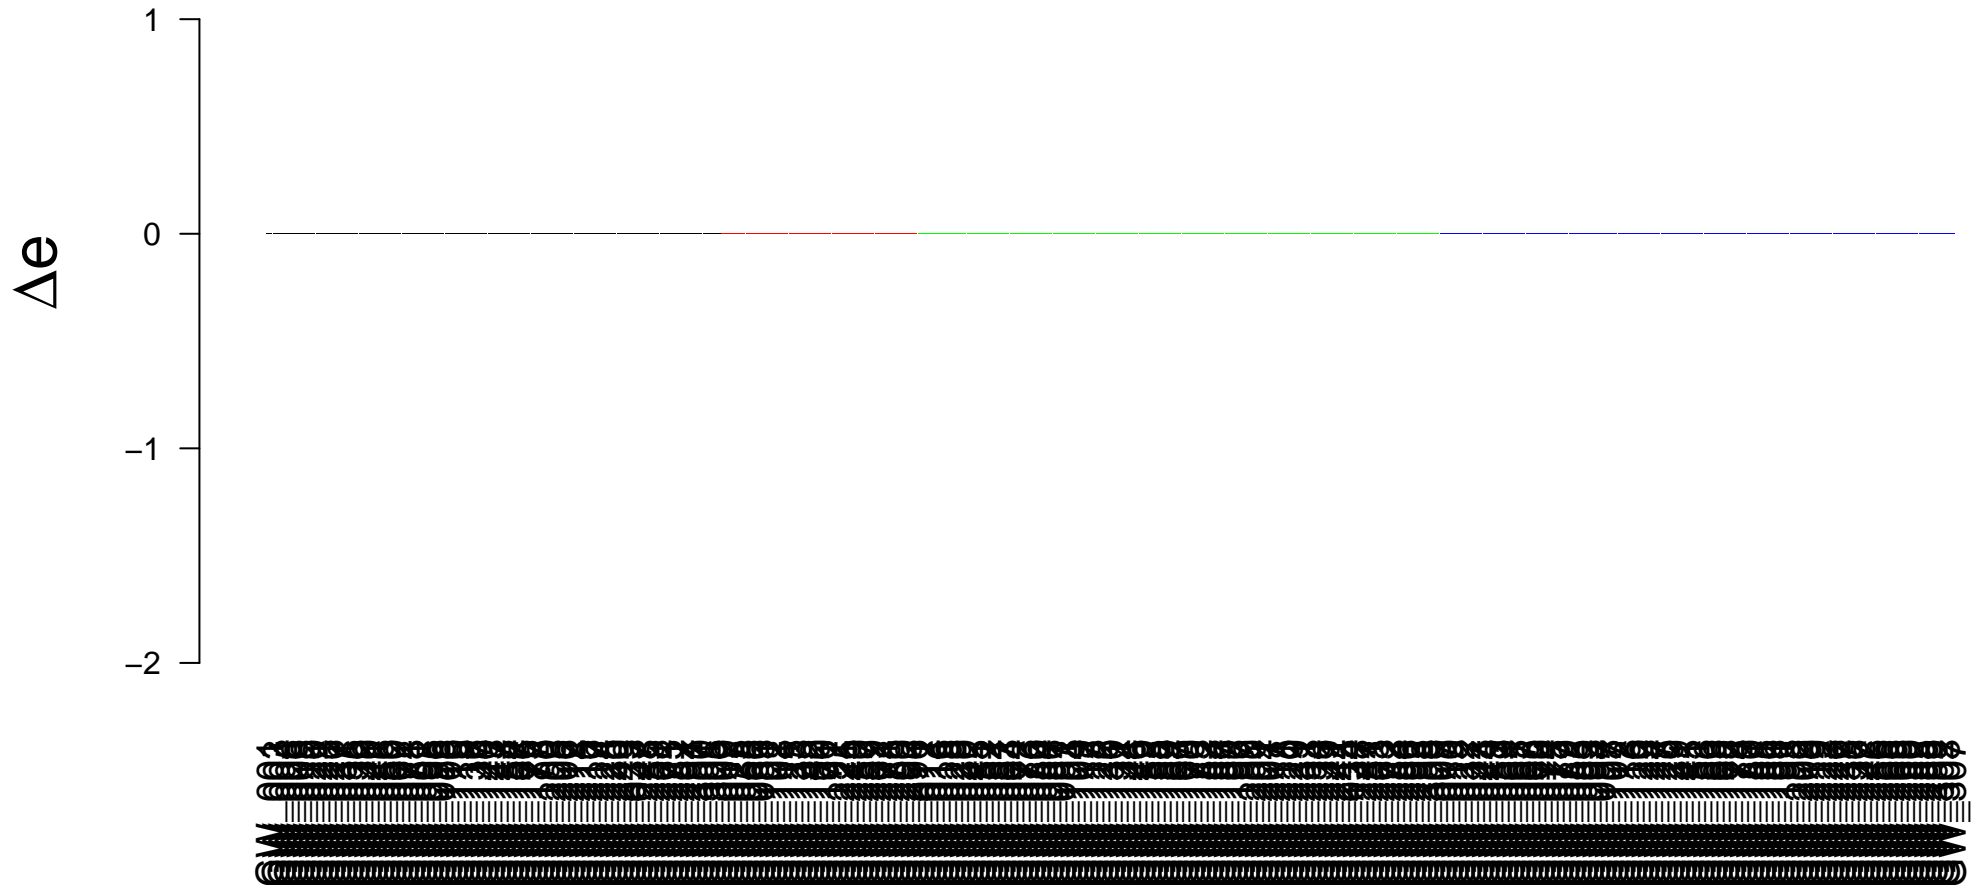

Expression of negative regulation of vascular permeability in Spot A

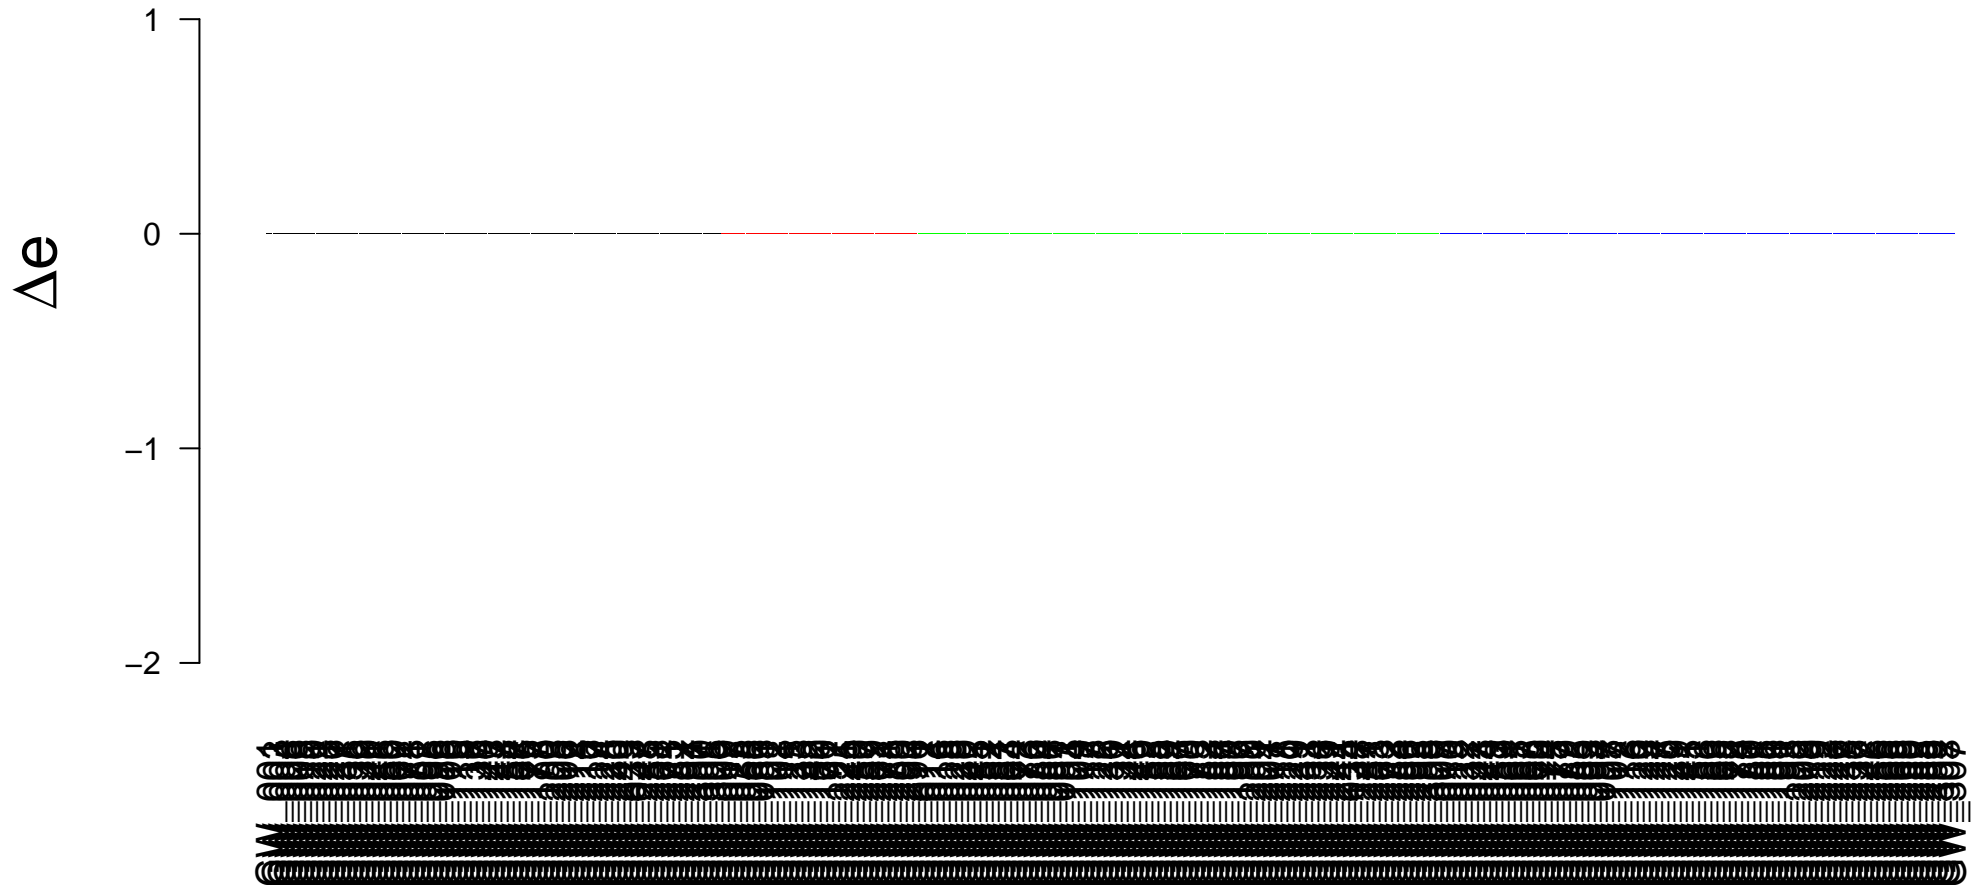

Expression of negative regulation of vascular permeability in Spot B

Expression of negative regulation of vascular permeability in Spot C

Expression of negative regulation of vascular permeability in Spot D

Expression of negative regulation of vascular permeability in Spot E

Expression of negative regulation of vascular permeability in Spot F

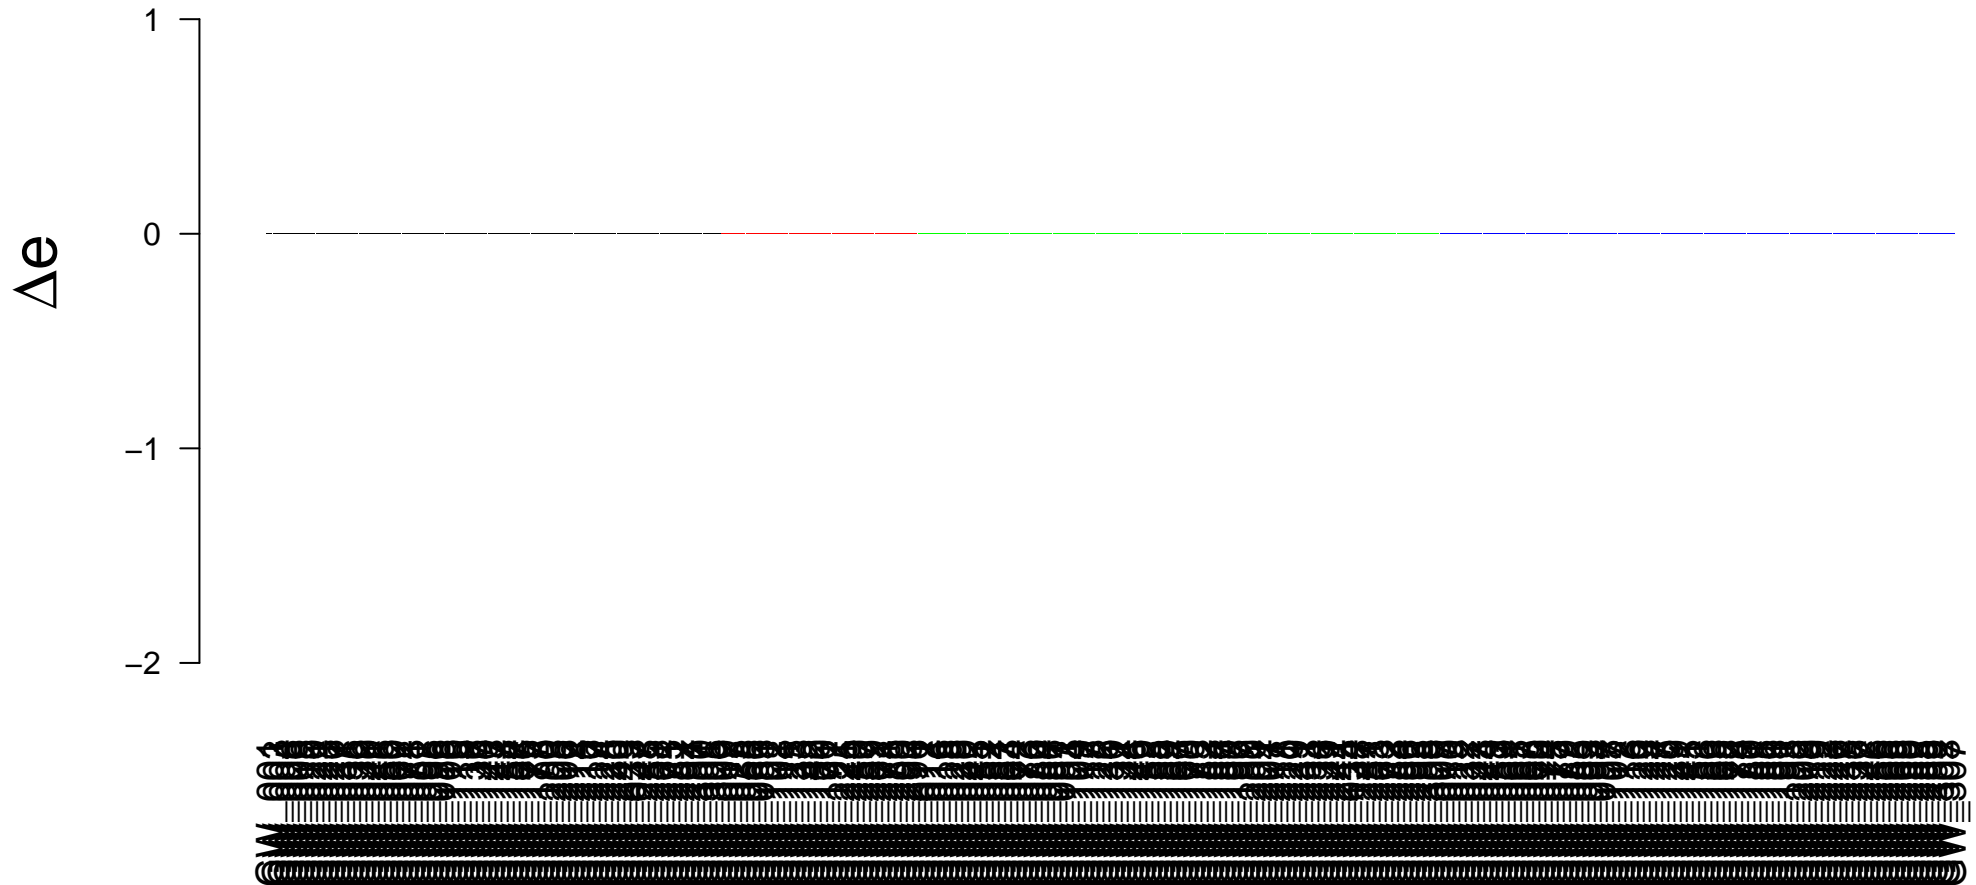

Expression of negative regulation of vascular permeability in Spot G

Expression of negative regulation of vascular permeability in Spot H

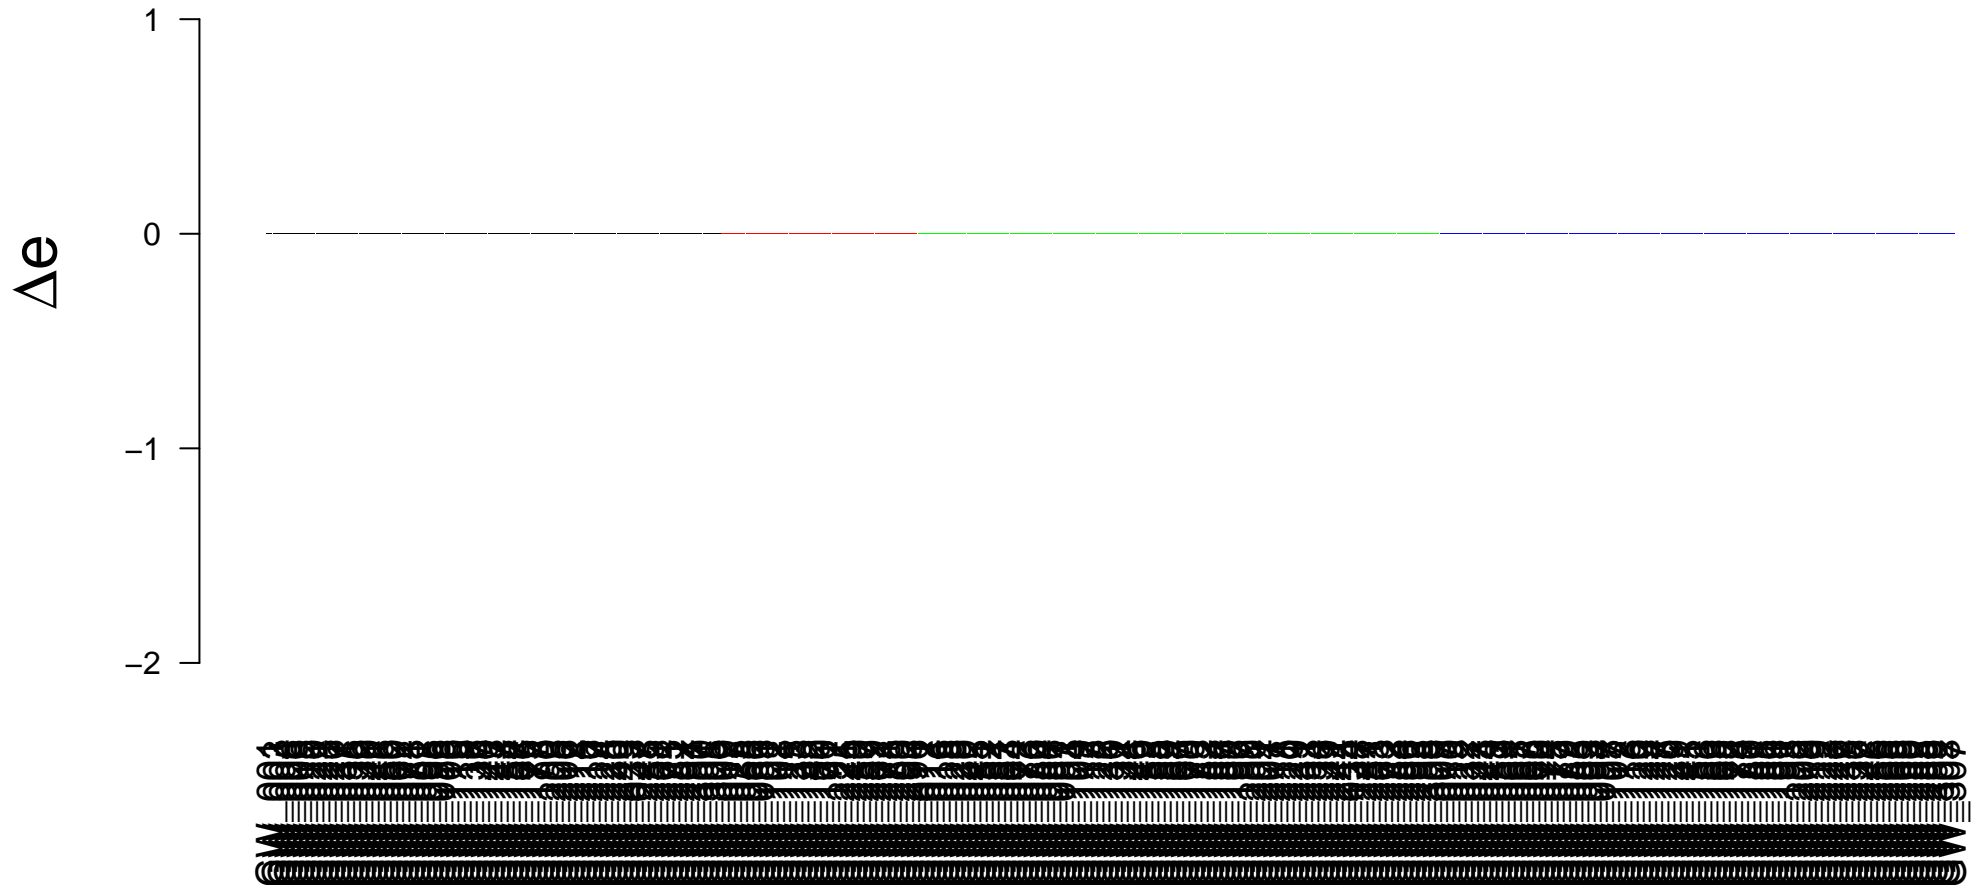

Expression of negative regulation of vascular permeability in Spot I

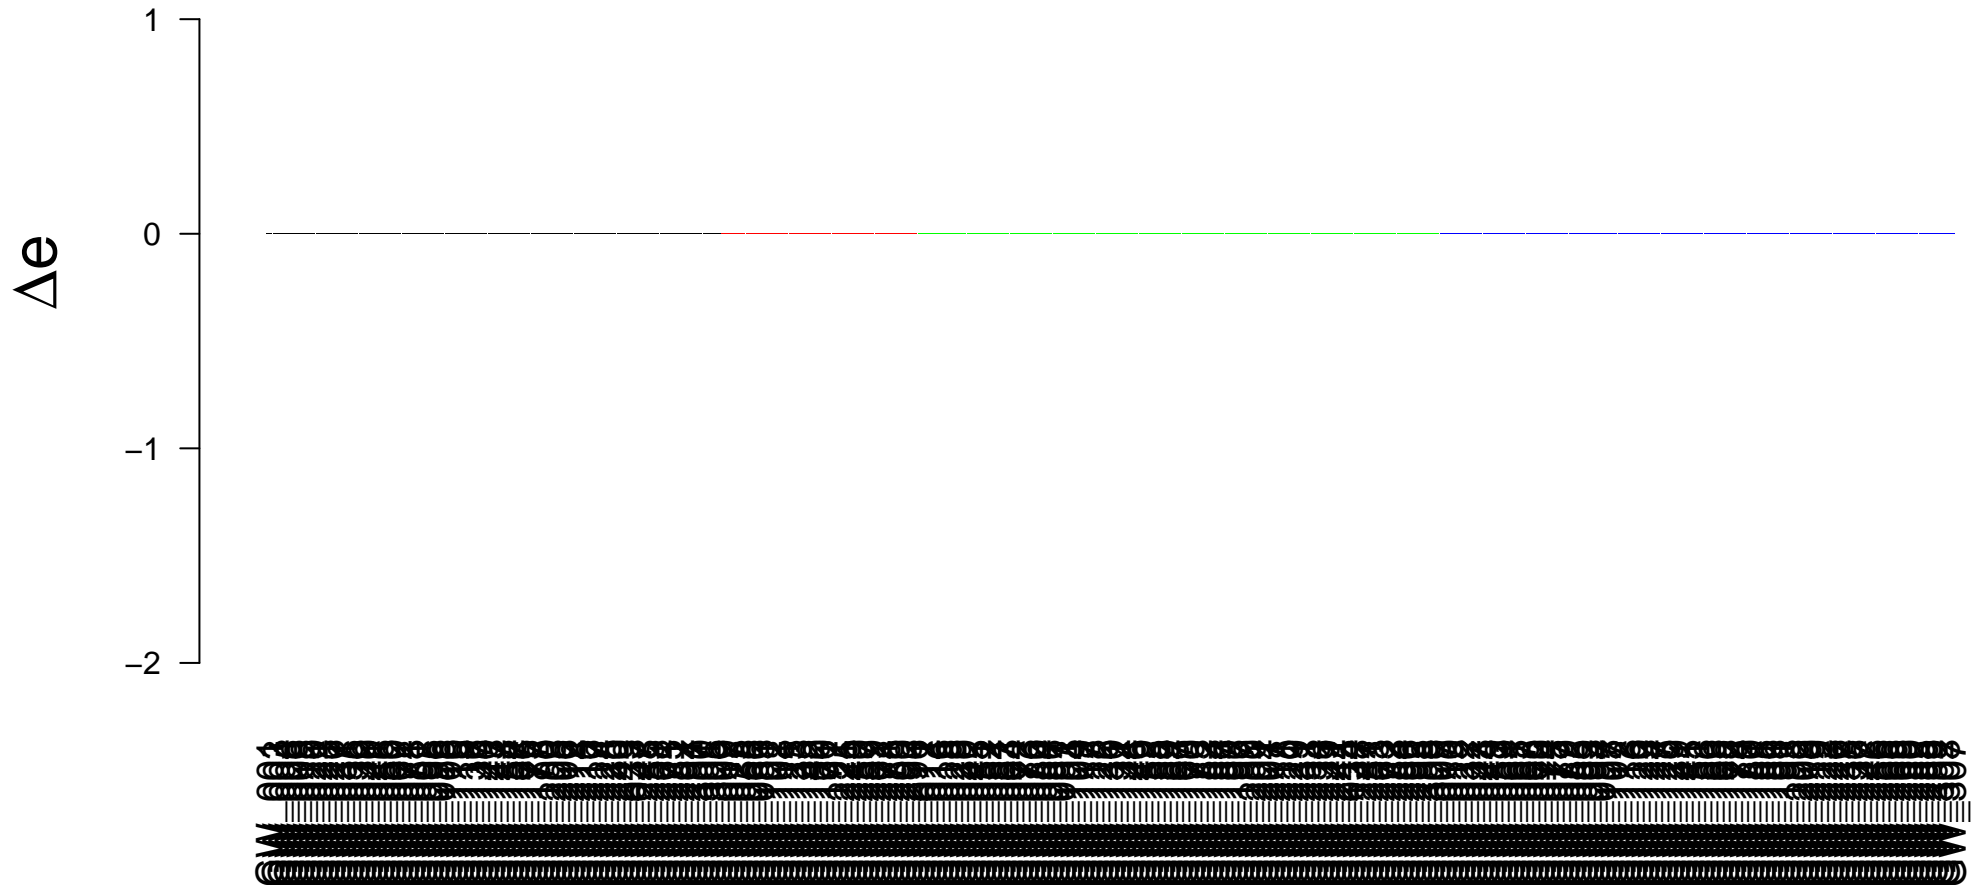

Expression of negative regulation of vascular permeability in Spot J

Expression of negative regulation of vascular permeability in Spot K

Expression of negative regulation of vascular permeability in Spot L

Expression of negative regulation of vascular permeability in Spot M

Expression of negative regulation of vascular permeability in Spot N

Expression of negative regulation of vascular permeability in Spot O
