

planar cell polarity pathway involved in neural tube closure

planar cell polarity pathway involved in neural tube closure

Enrichment in spots: planar cell polarity pathway involved in neural tube closure

Expression of planar cell polarity pathway involved in neural tube closure in Spot A

Expression of planar cell polarity pathway involved in neural tube closure in Spot B

Expression of planar cell polarity pathway involved in neural tube closure in Spot C

Expression of planar cell polarity pathway involved in neural tube closure in Spot D

Expression of planar cell polarity pathway involved in neural tube closure in Spot E

Expression of planar cell polarity pathway involved in neural tube closure in Spot F

Expression of planar cell polarity pathway involved in neural tube closure in Spot G

Expression of planar cell polarity pathway involved in neural tube closure in Spot H

Expression of planar cell polarity pathway involved in neural tube closure in Spot I

Expression of planar cell polarity pathway involved in neural tube closure in Spot J

Expression of planar cell polarity pathway involved in neural tube closure in Spot K

Expression of planar cell polarity pathway involved in neural tube closure in Spot L

Δe

Expression of planar cell polarity pathway involved in neural tube closure in Spot M

Expression of planar cell polarity pathway involved in neural tube closure in Spot N

Expression of planar cell polarity pathway involved in neural tube closure in Spot O

Expression of planar cell polarity pathway involved in neural tube closure in Spot P

Expression of planar cell polarity pathway involved in neural tube closure in Spot Q

Expression of planar cell polarity pathway involved in neural tube closure in Spot R
