

positive regulation of cyclin-dependent protein kinase activity

positive regulation of cyclin-dependent protein kinase activity

Enrichment in spots: positive regulation of cyclin-dependent protein kinase activity

Expression of positive regulation of cyclin–dependent protein kinase activity in Spot A

Expression of positive regulation of cyclin-dependent protein kinase activity in Spot B

Expression of positive regulation of cyclin-dependent protein kinase activity in Spot C

Expression of positive regulation of cyclin-dependent protein kinase activity in Spot D

Expression of positive regulation of cyclin–dependent protein kinase activity in Spot E

Expression of positive regulation of cyclin-dependent protein kinase activity in Spot F

Expression of positive regulation of cyclin-dependent protein kinase activity in Spot G

Expression of positive regulation of cyclin–dependent protein kinase activity in Spot H

Expression of positive regulation of cyclin-dependent protein kinase activity in Spot M

Expression of positive regulation of cyclin-dependent protein kinase activity in Spot N

Expression of positive regulation of cyclin-dependent protein kinase activity in Spot O

Expression of positive regulation of cyclin–dependent protein kinase activity in Spot P

Expression of positive regulation of cyclin-dependent protein kinase activity in Spot Q

Expression of positive regulation of cyclin-dependent protein kinase activity in Spot R
