

positive regulation of macrophage derived foam cell differentiation

positive regulation of macrophage derived foam cell differentiation

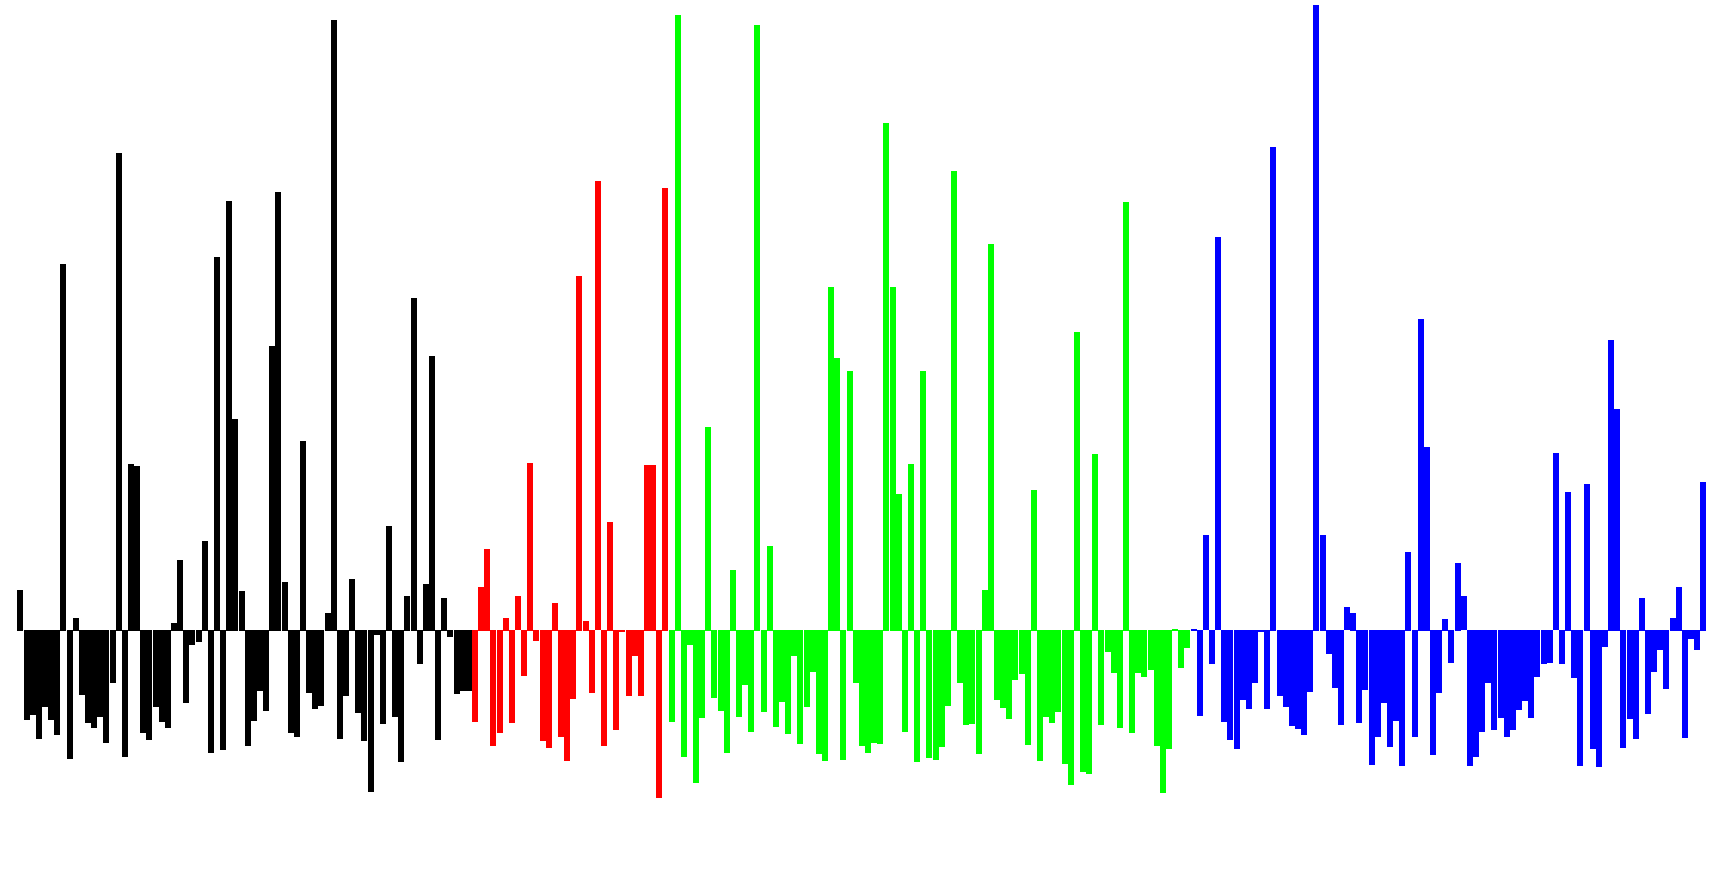

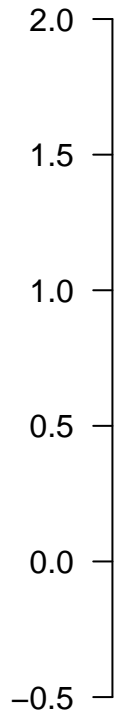

Enrichment in spots: positive regulation of macrophage derived foam cell differentiation

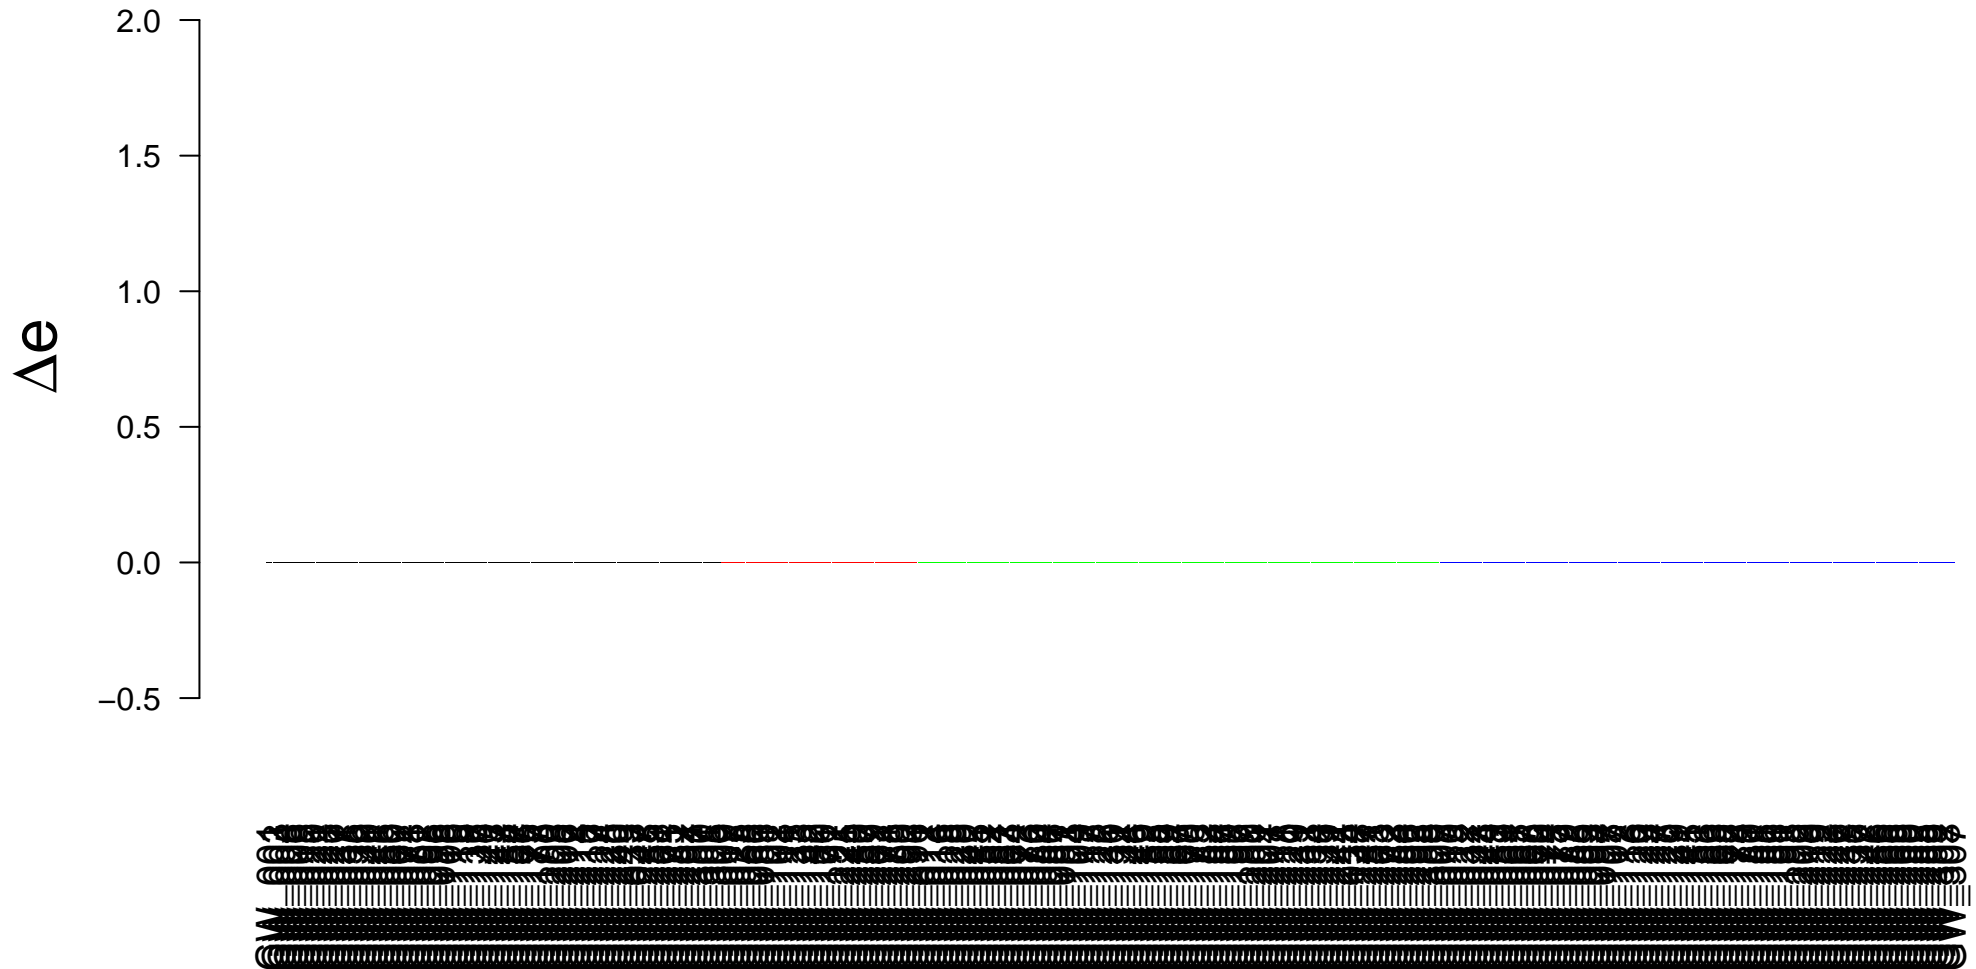

Expression of positive regulation of macrophage derived foam cell differentiation in Spot A

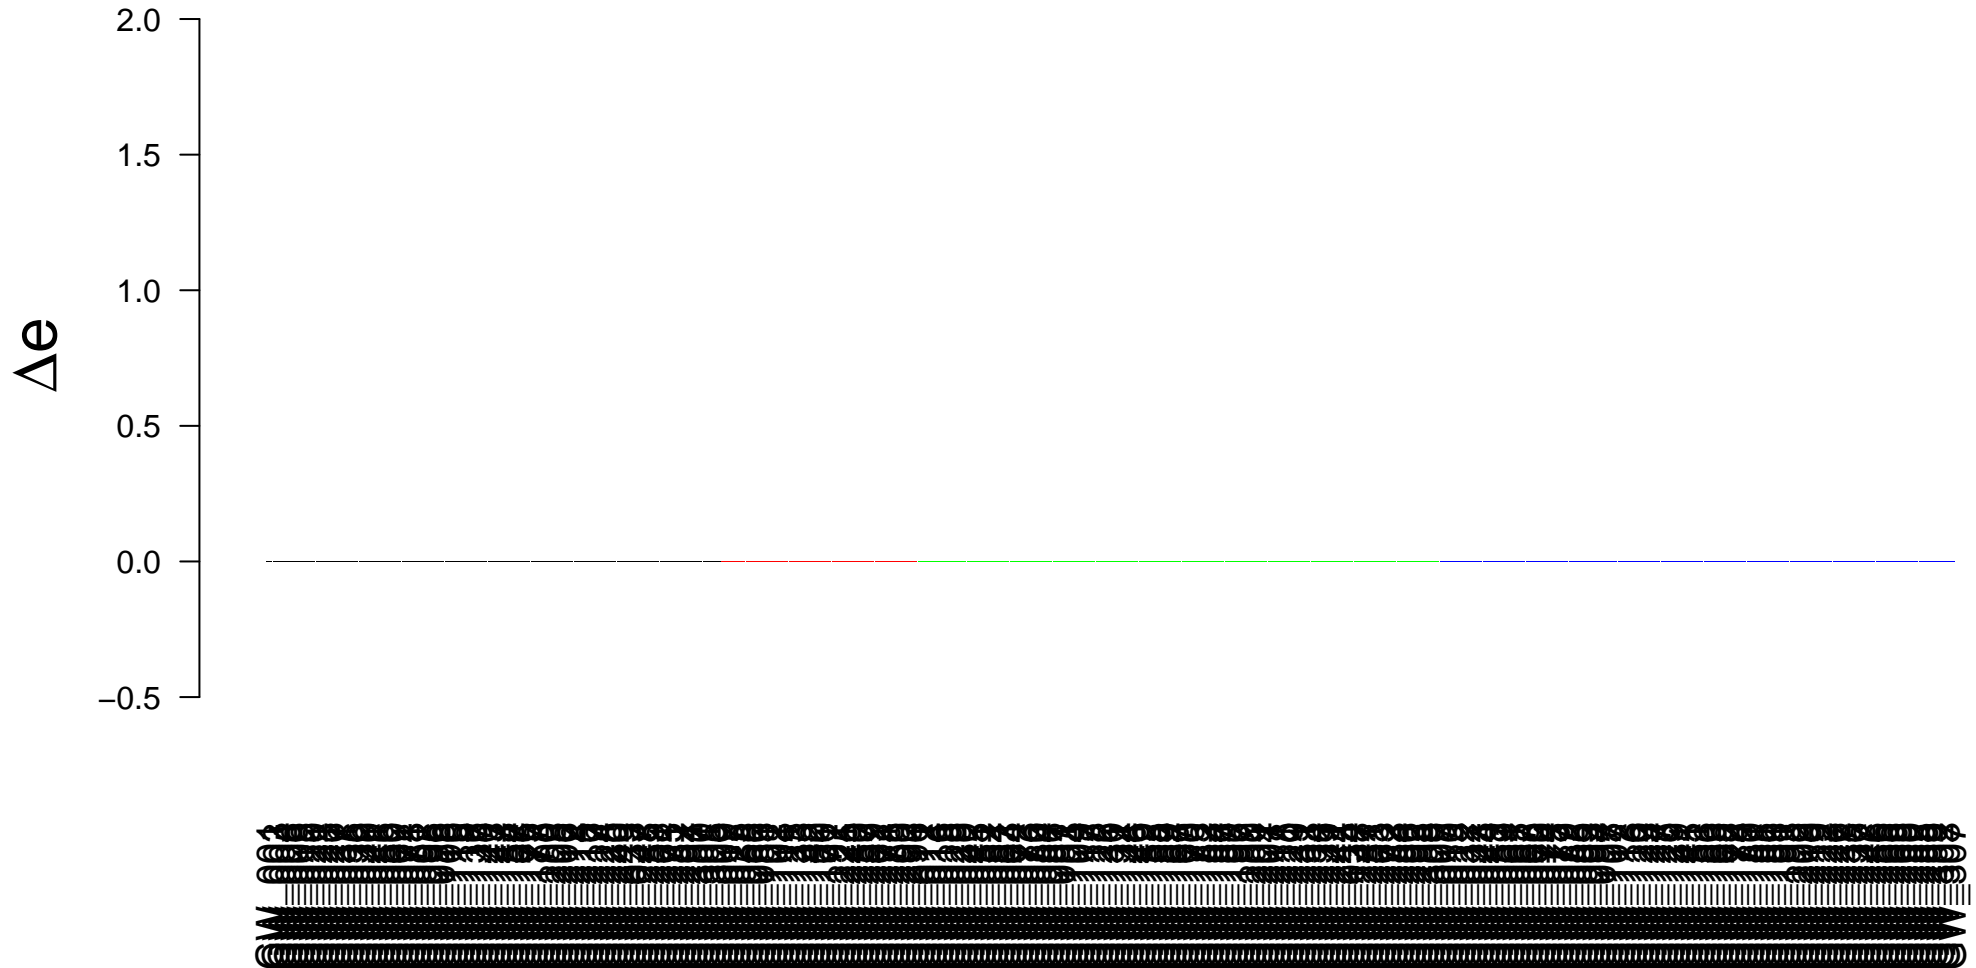

Δe

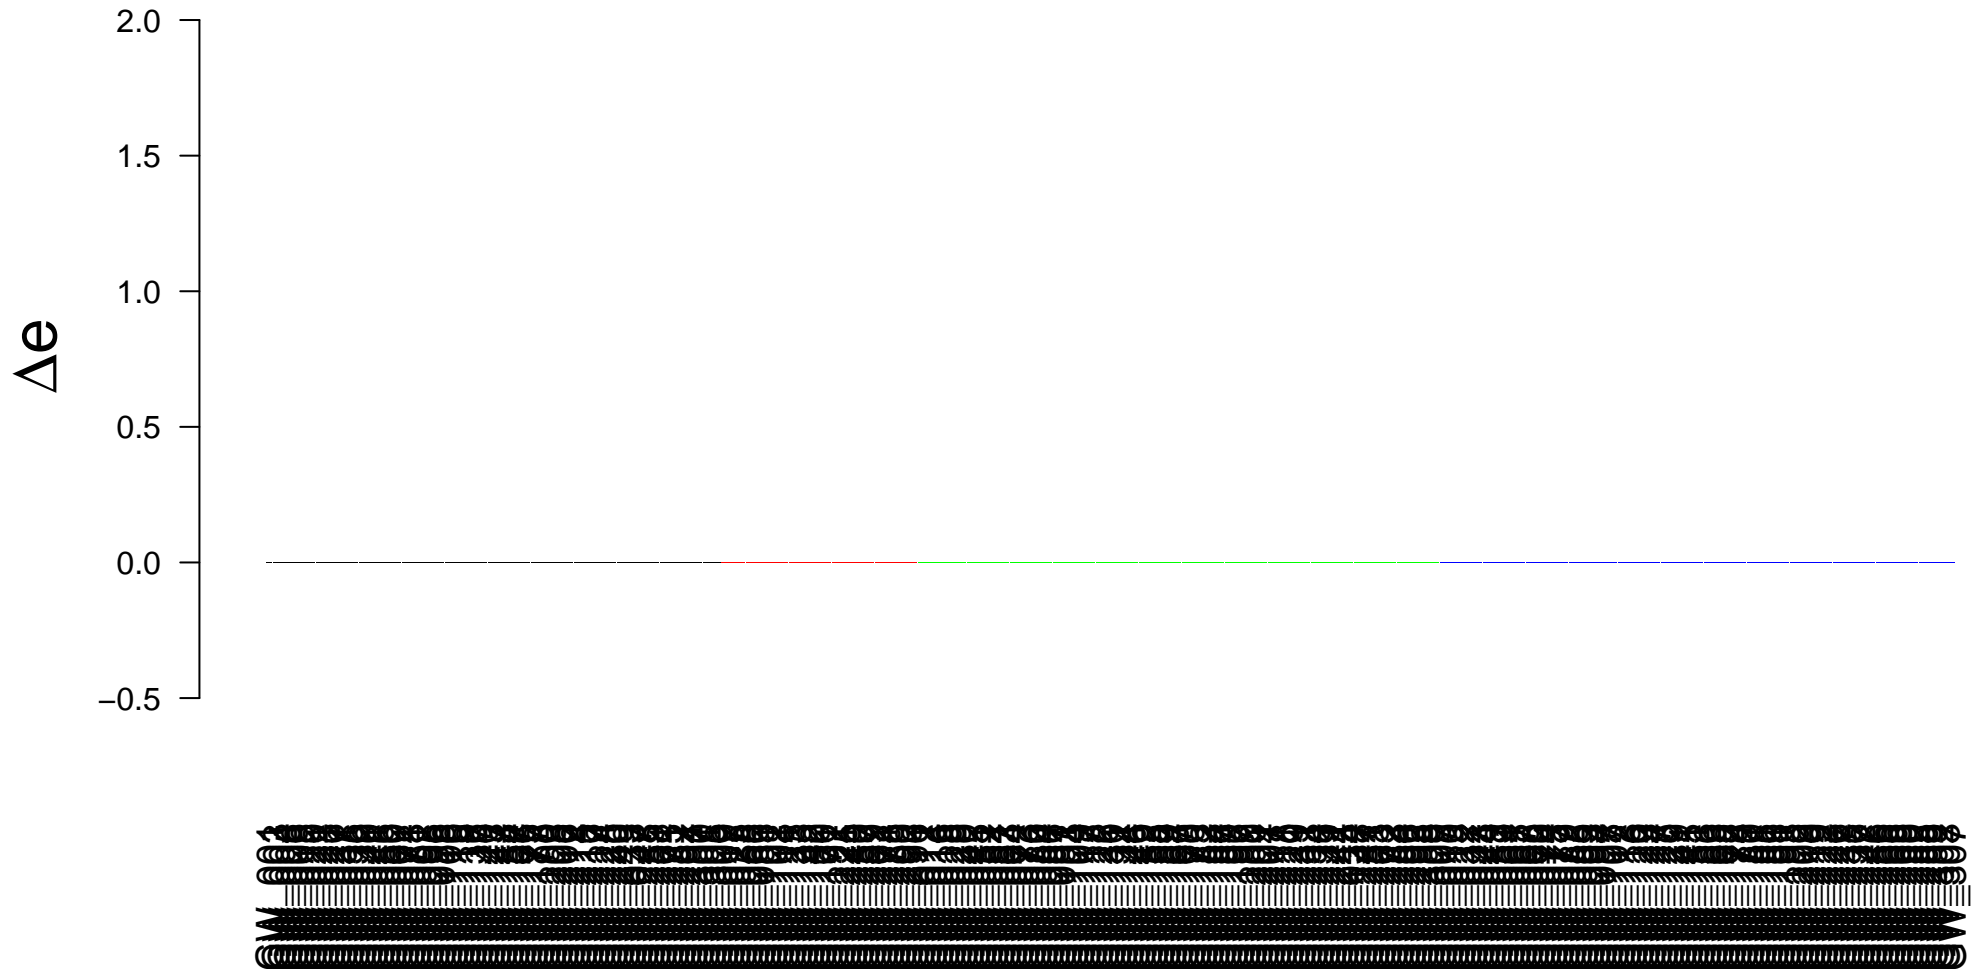

Expression of positive regulation of macrophage derived foam cell differentiation in Spot B

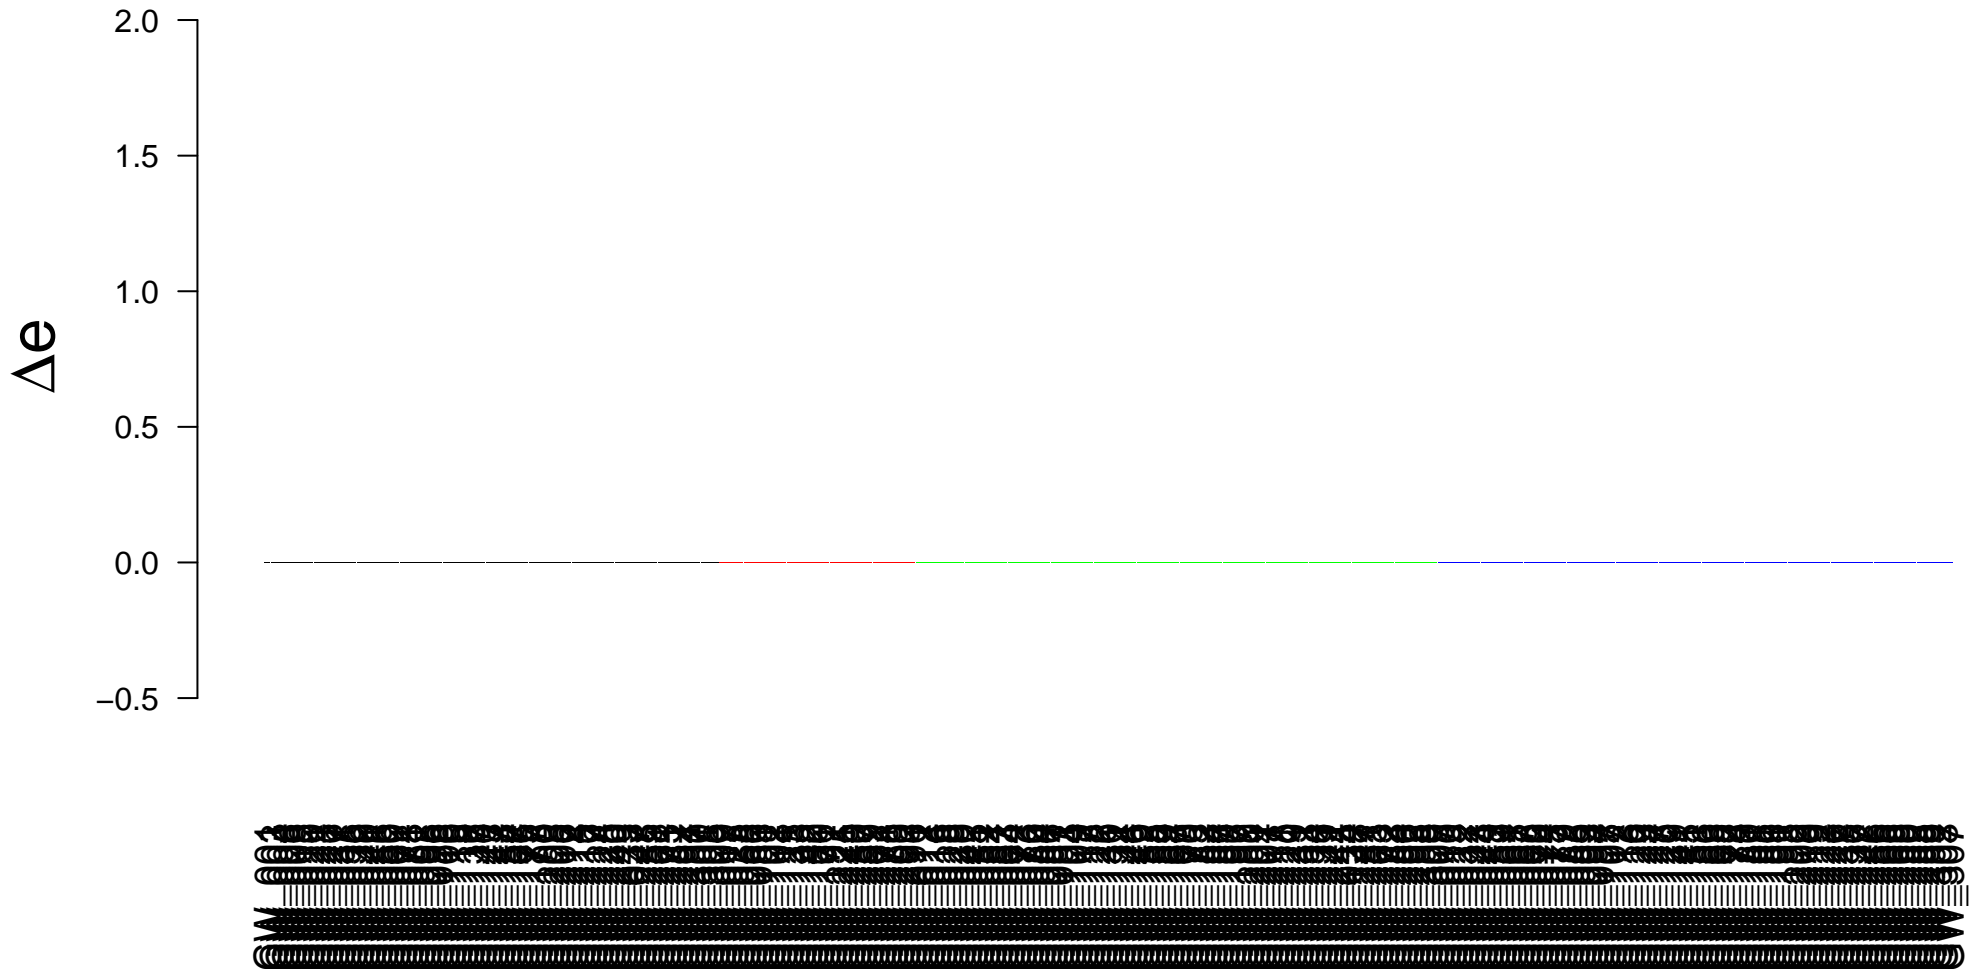

Expression of positive regulation of macrophage derived foam cell differentiation in Spot C

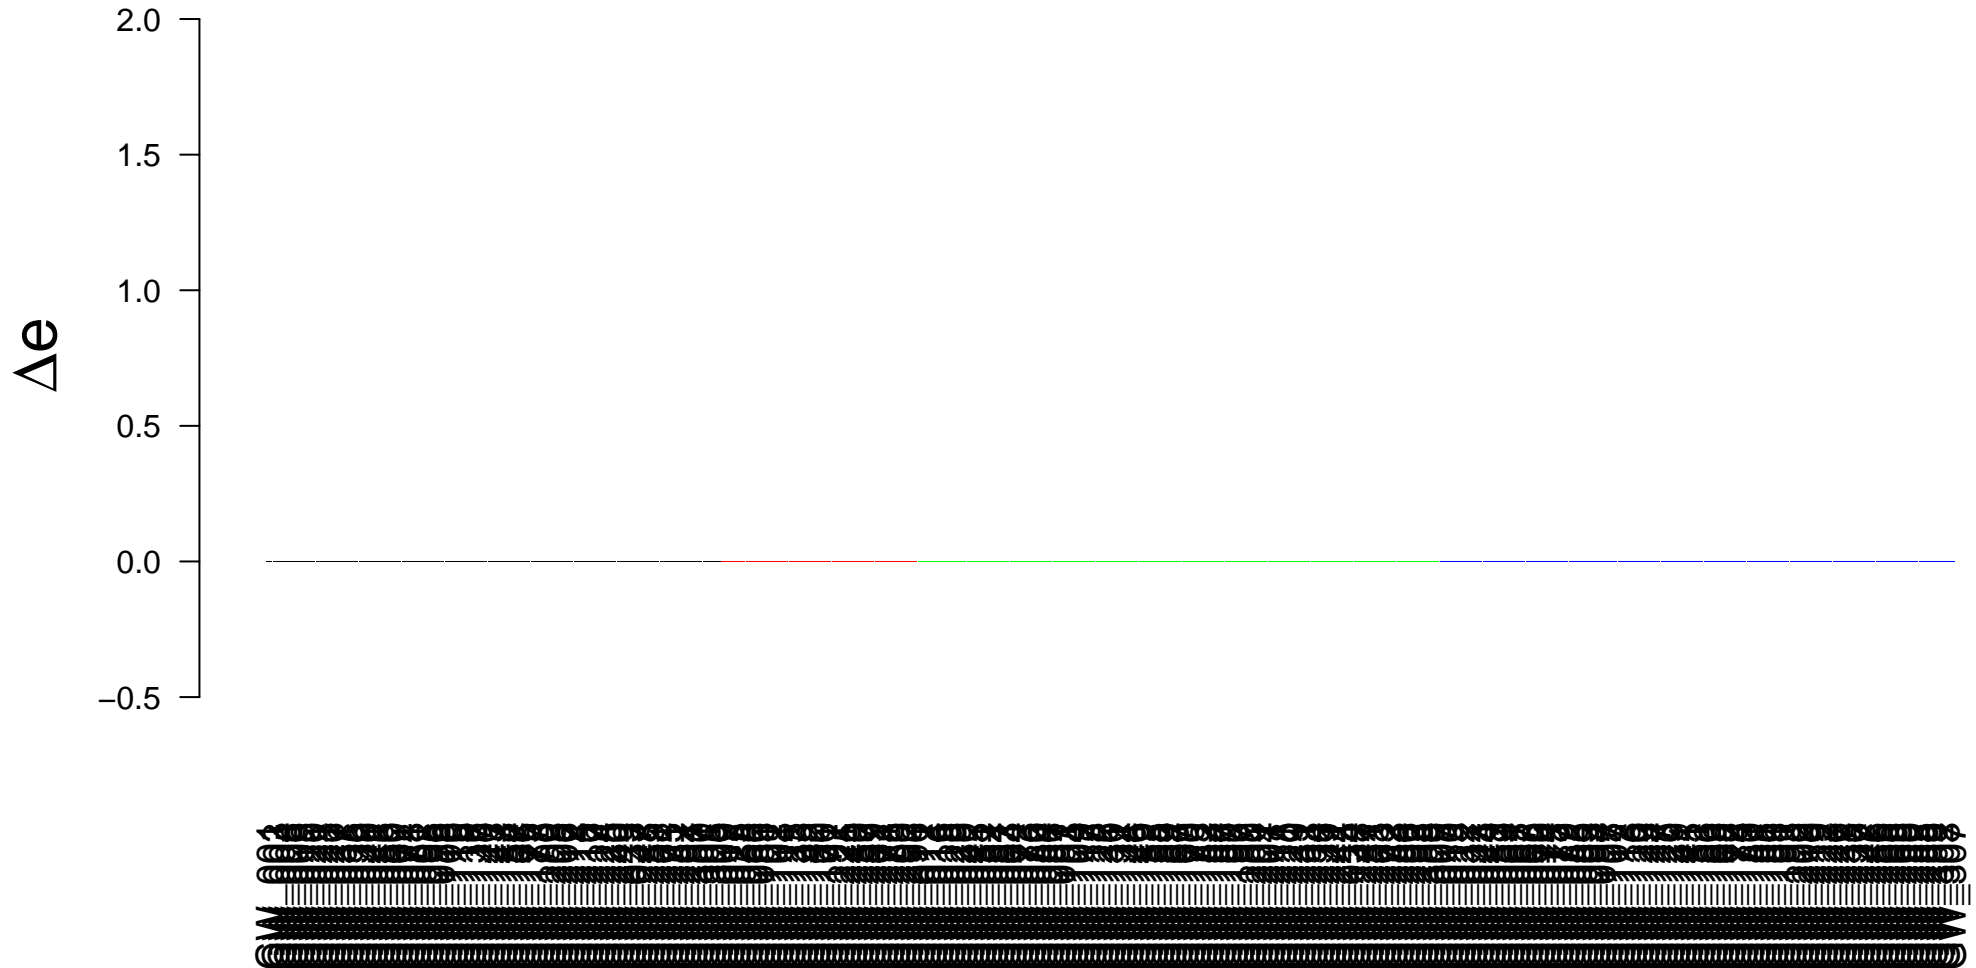

Expression of positive regulation of macrophage derived foam cell differentiation in Spot D

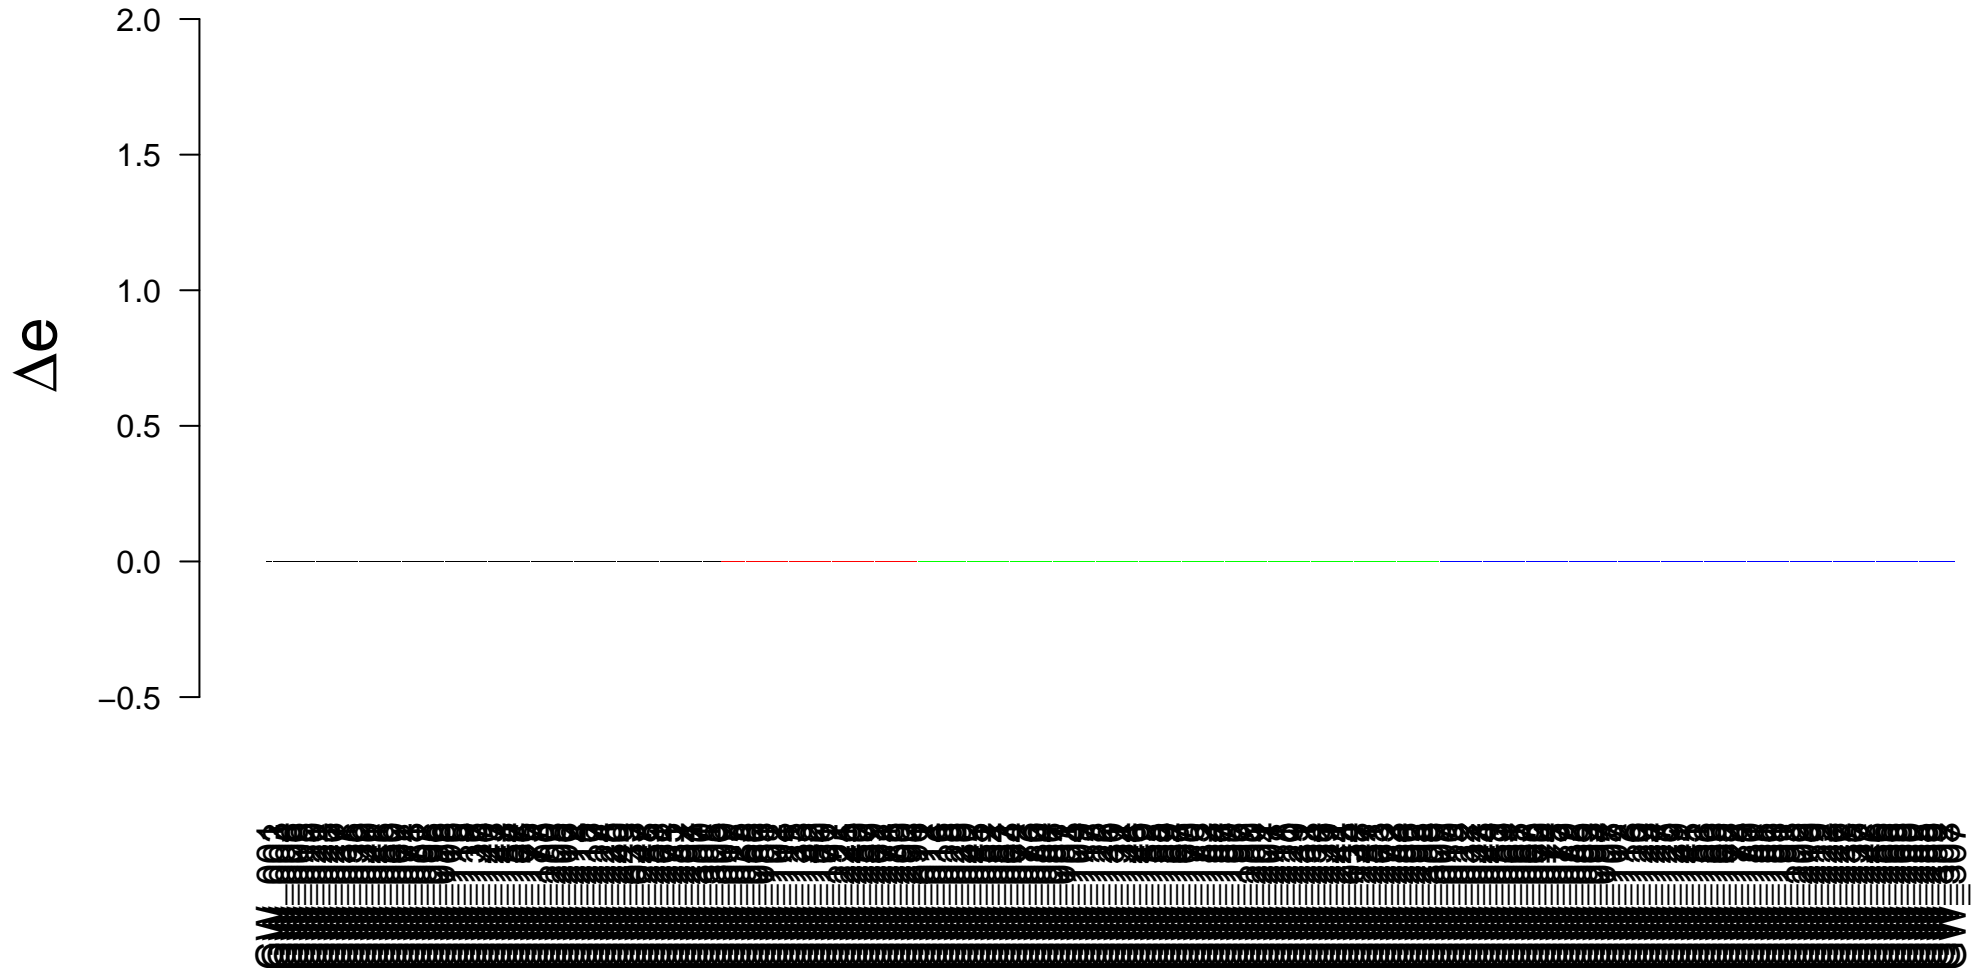

Expression of positive regulation of macrophage derived foam cell differentiation in Spot E

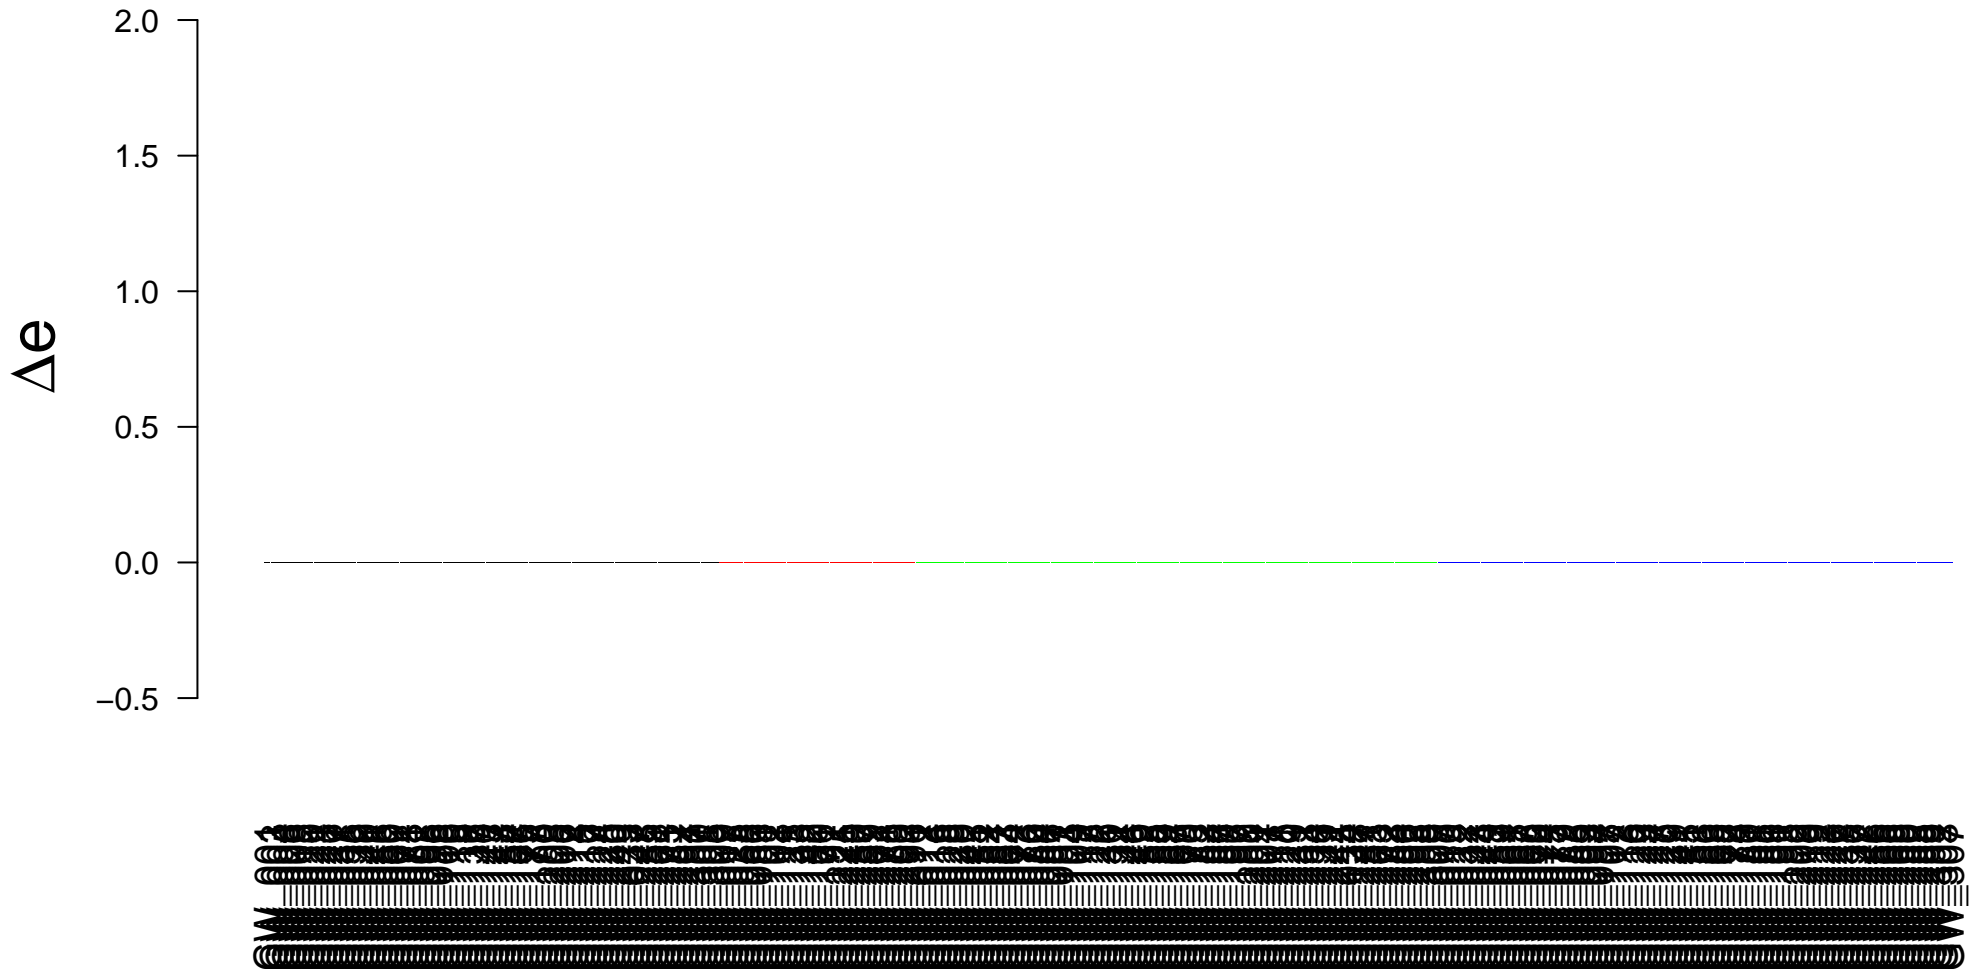

Expression of positive regulation of macrophage derived foam cell differentiation in Spot F

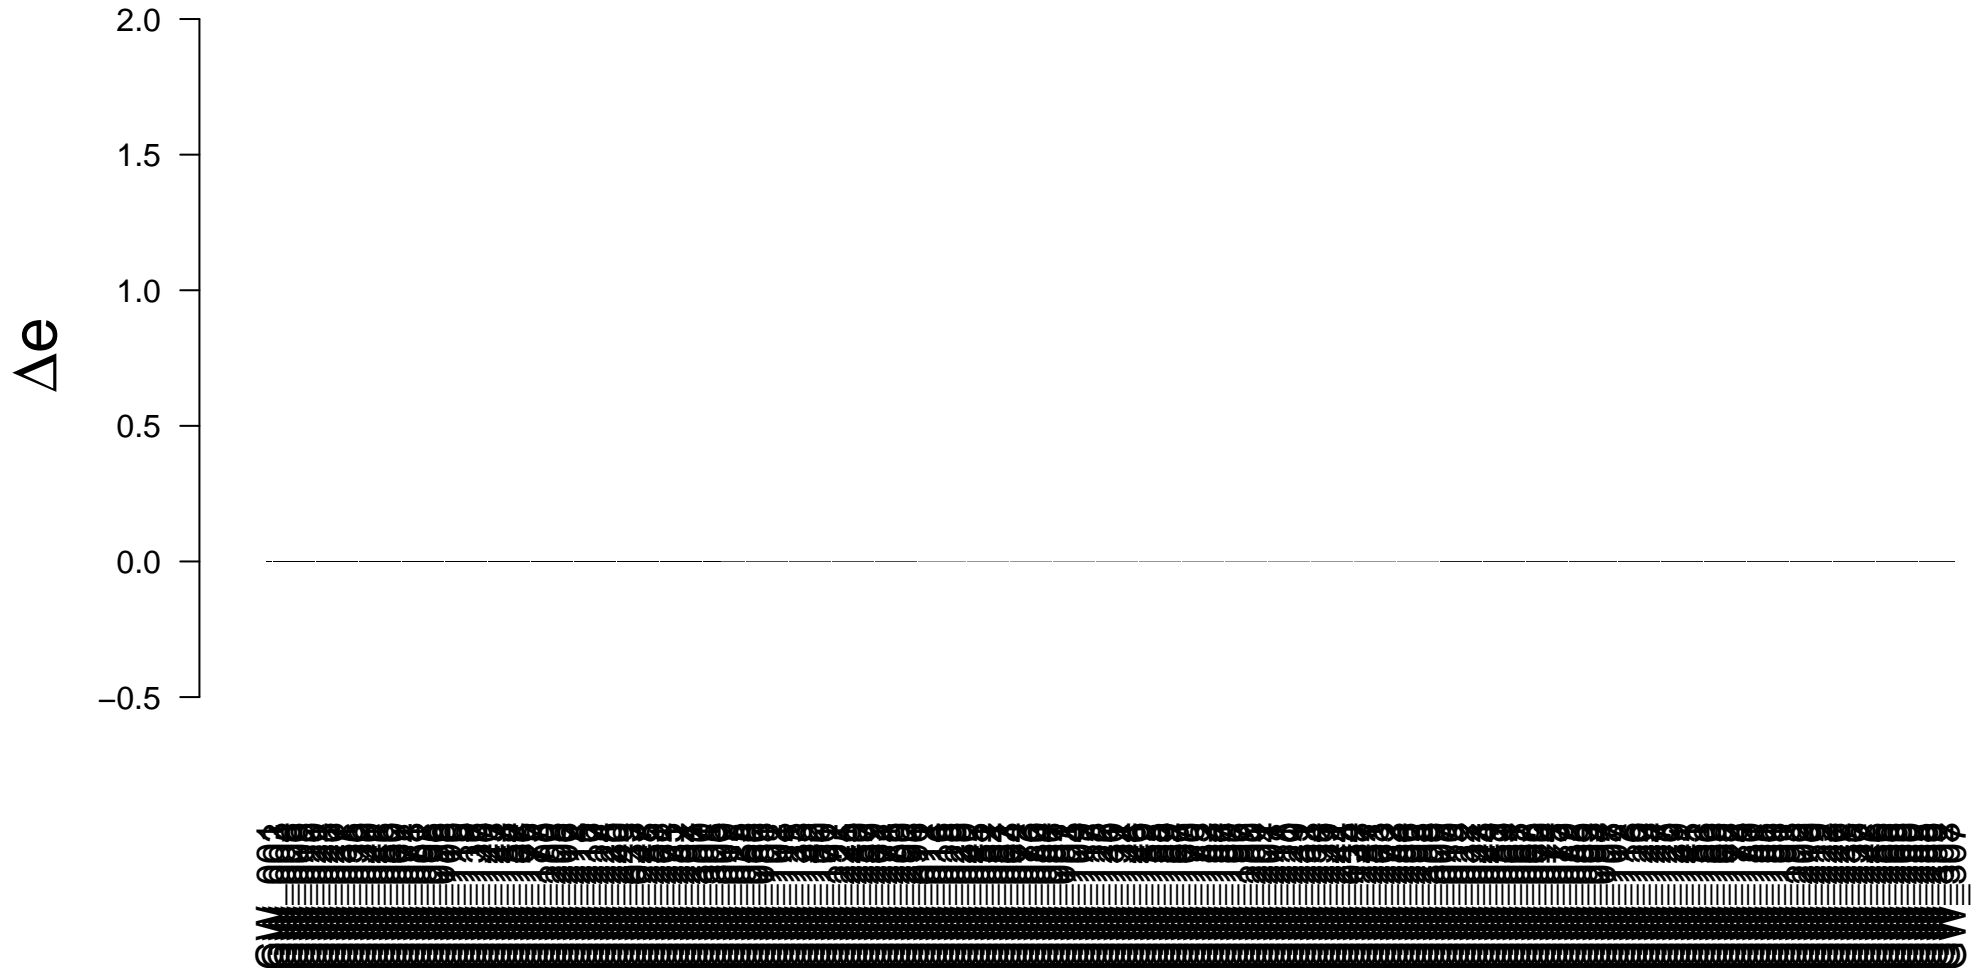

Expression of positive regulation of macrophage derived foam cell differentiation in Spot G

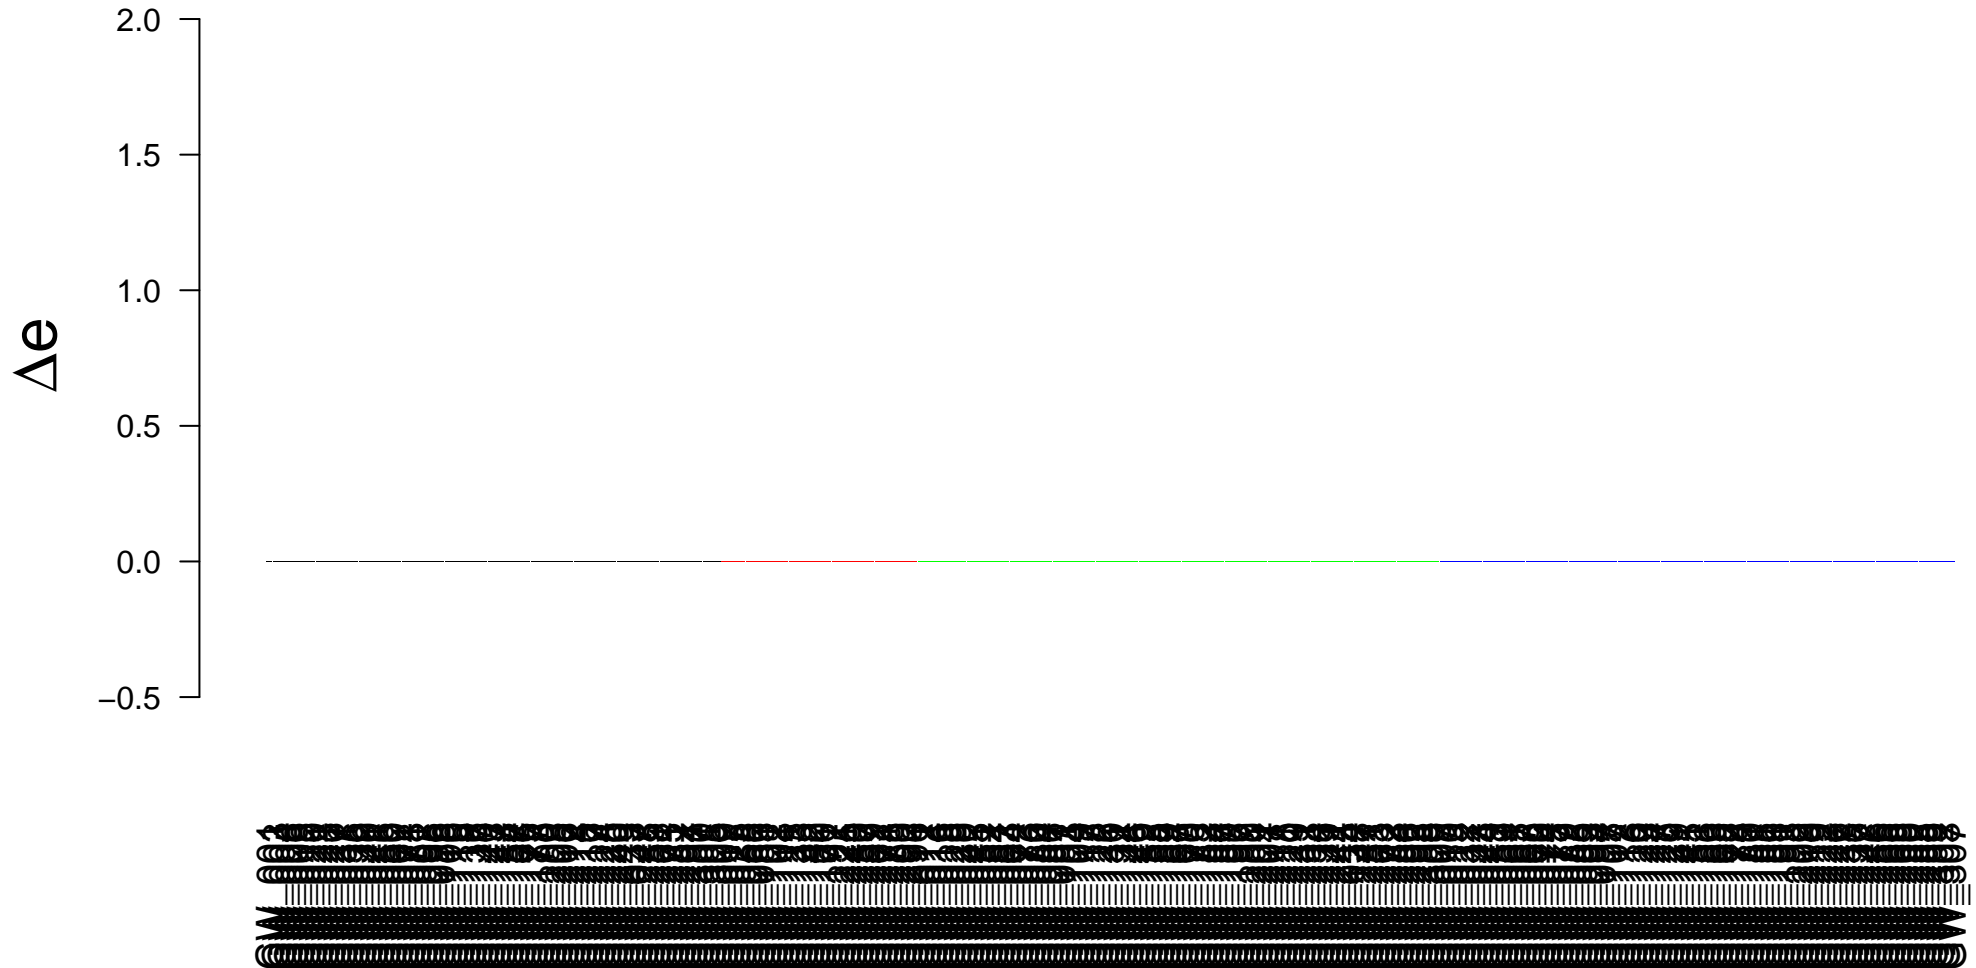

Expression of positive regulation of macrophage derived foam cell differentiation in Spot H

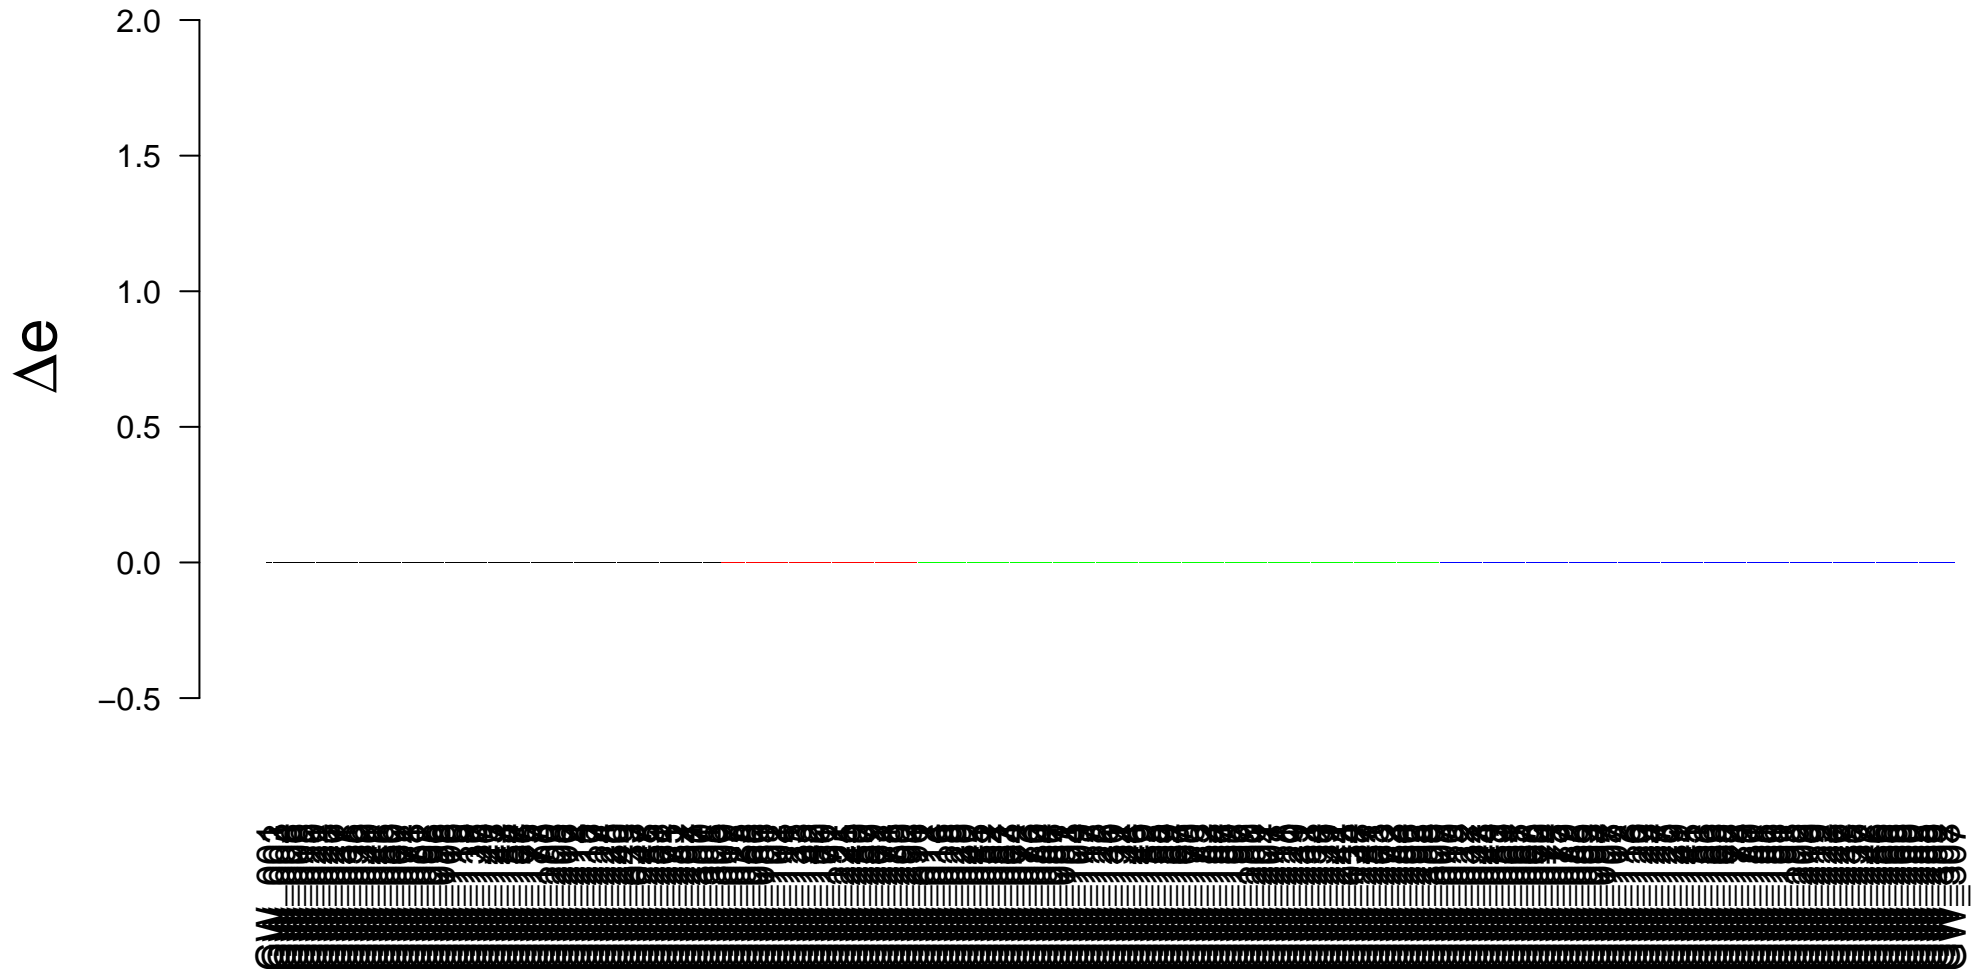

Expression of positive regulation of macrophage derived foam cell differentiation in Spot I

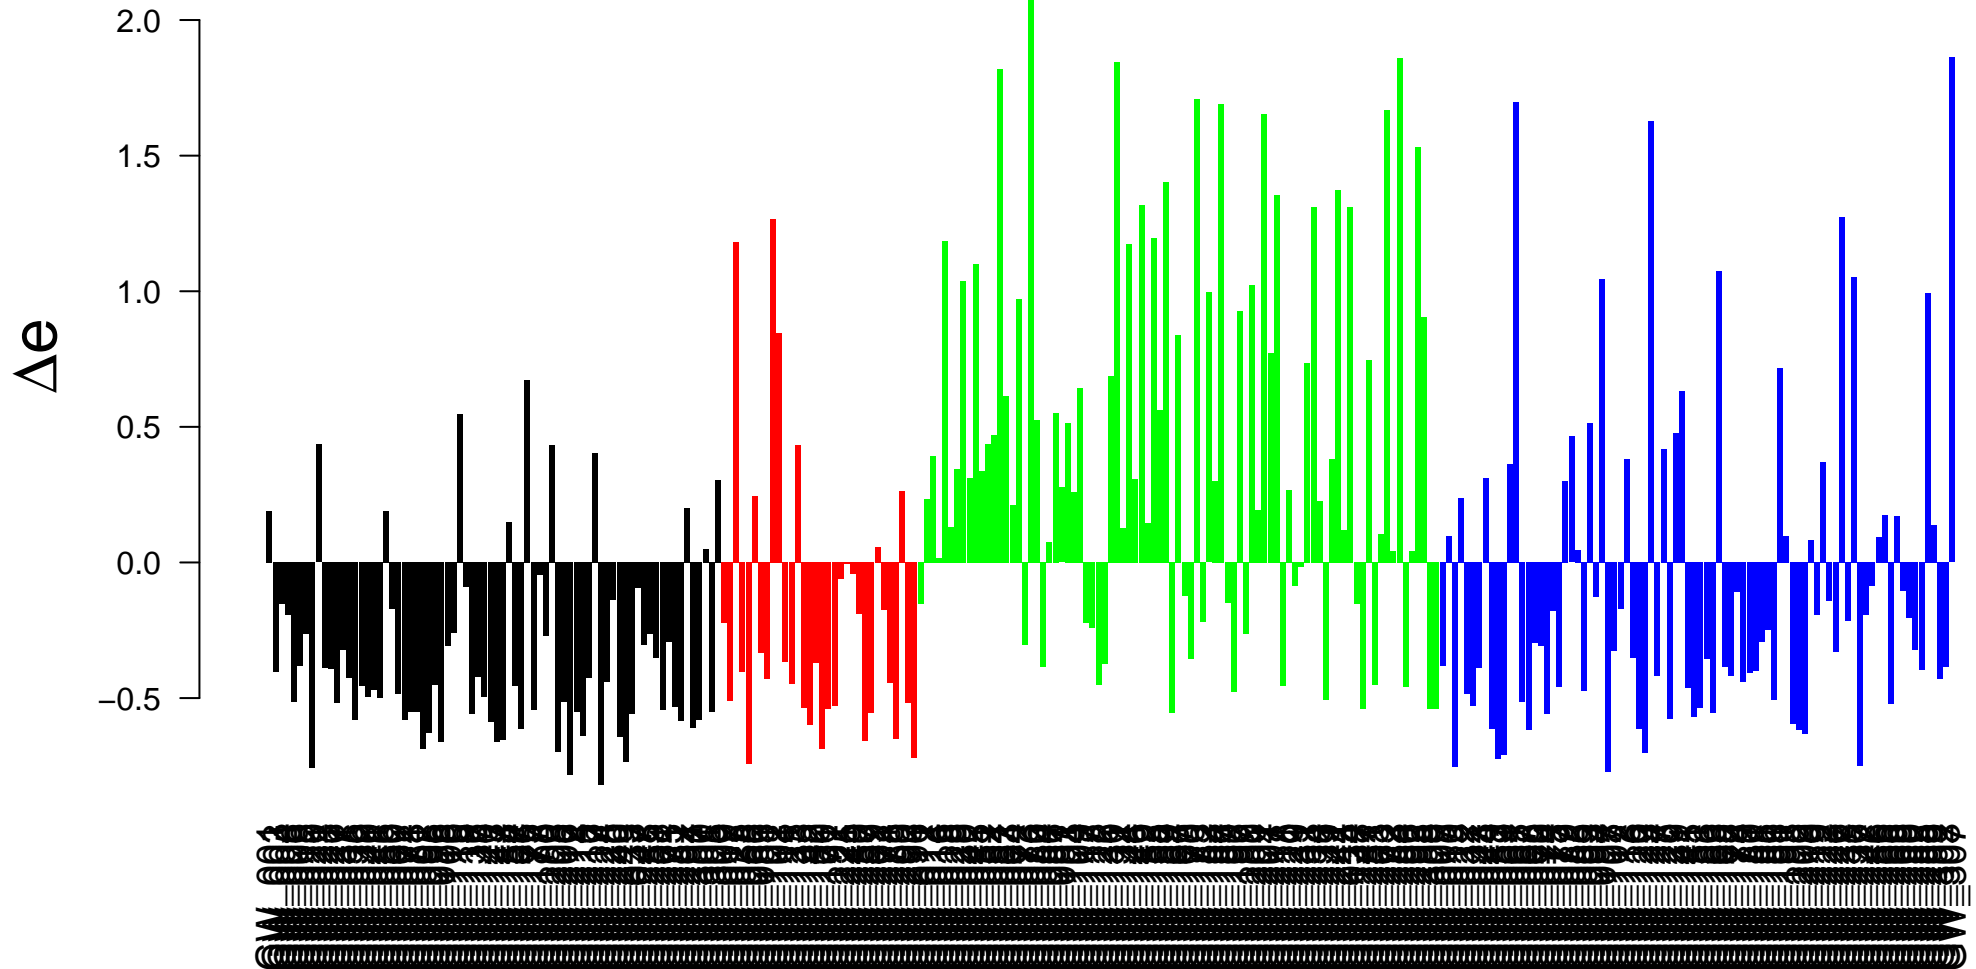

Expression of positive regulation of macrophage derived foam cell differentiation in Spot J

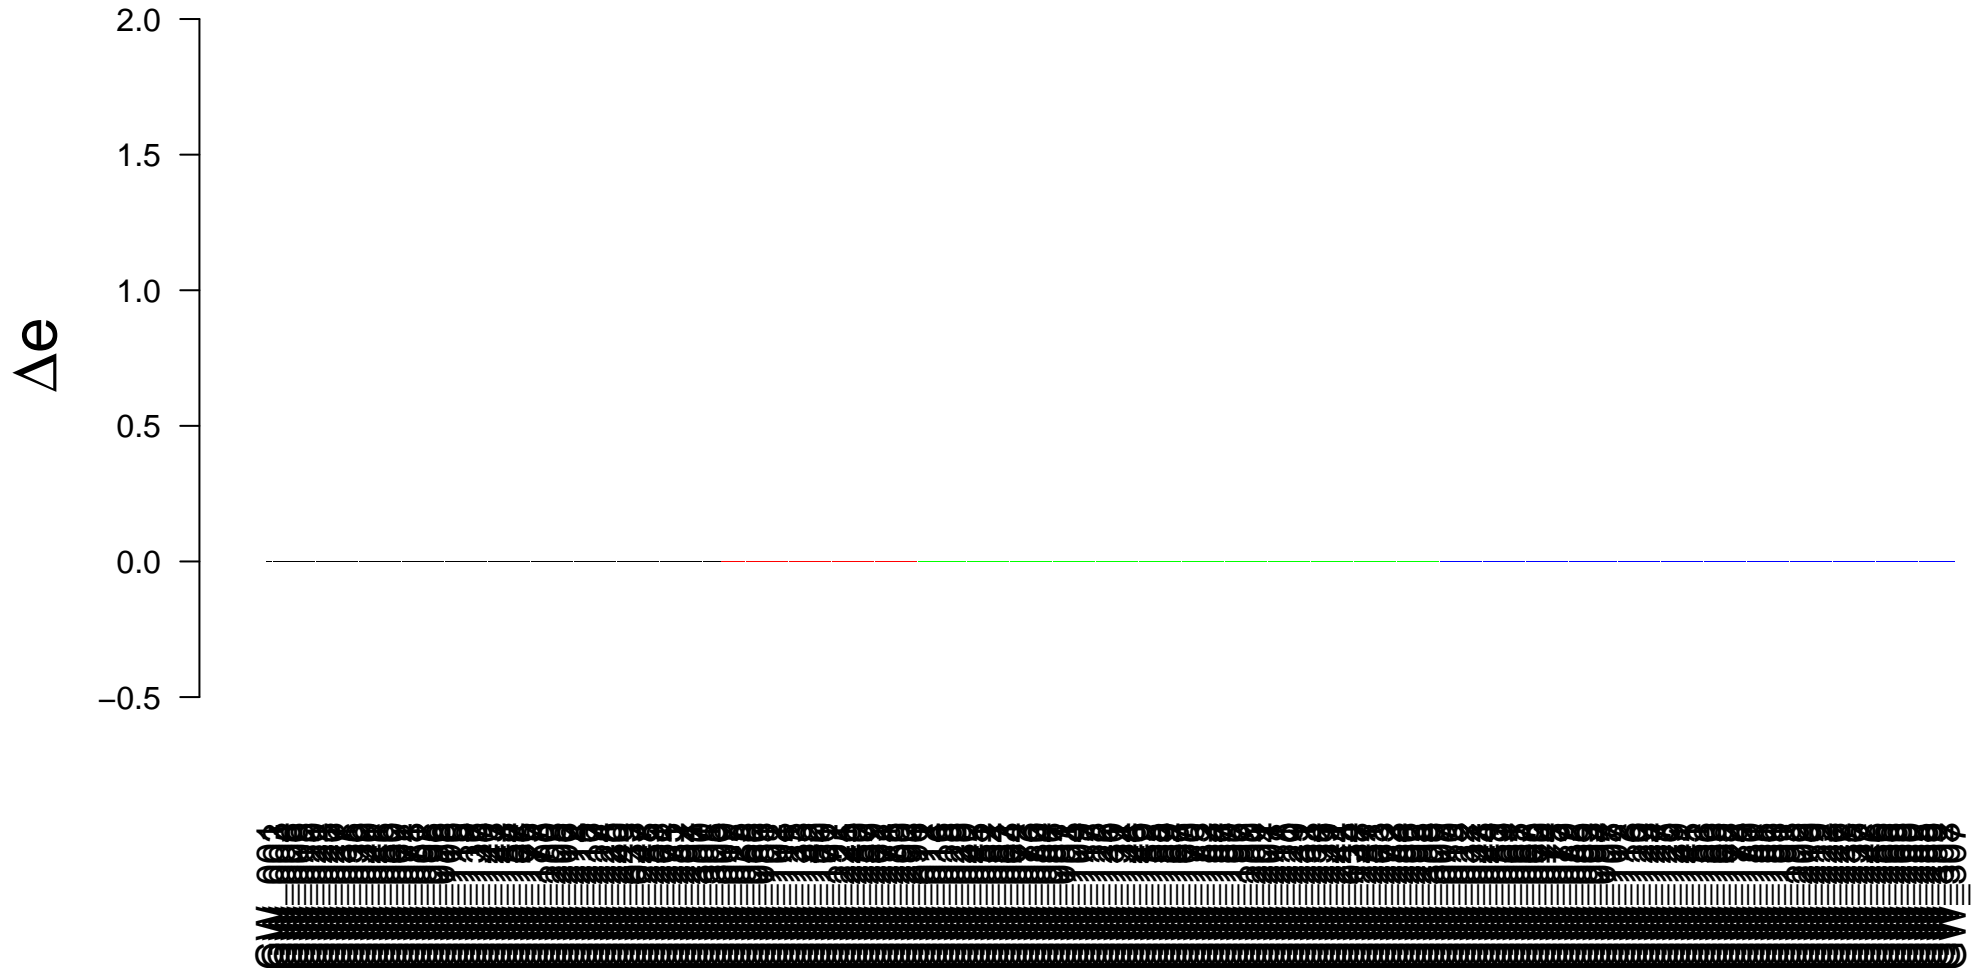

Expression of positive regulation of macrophage derived foam cell differentiation in Spot K

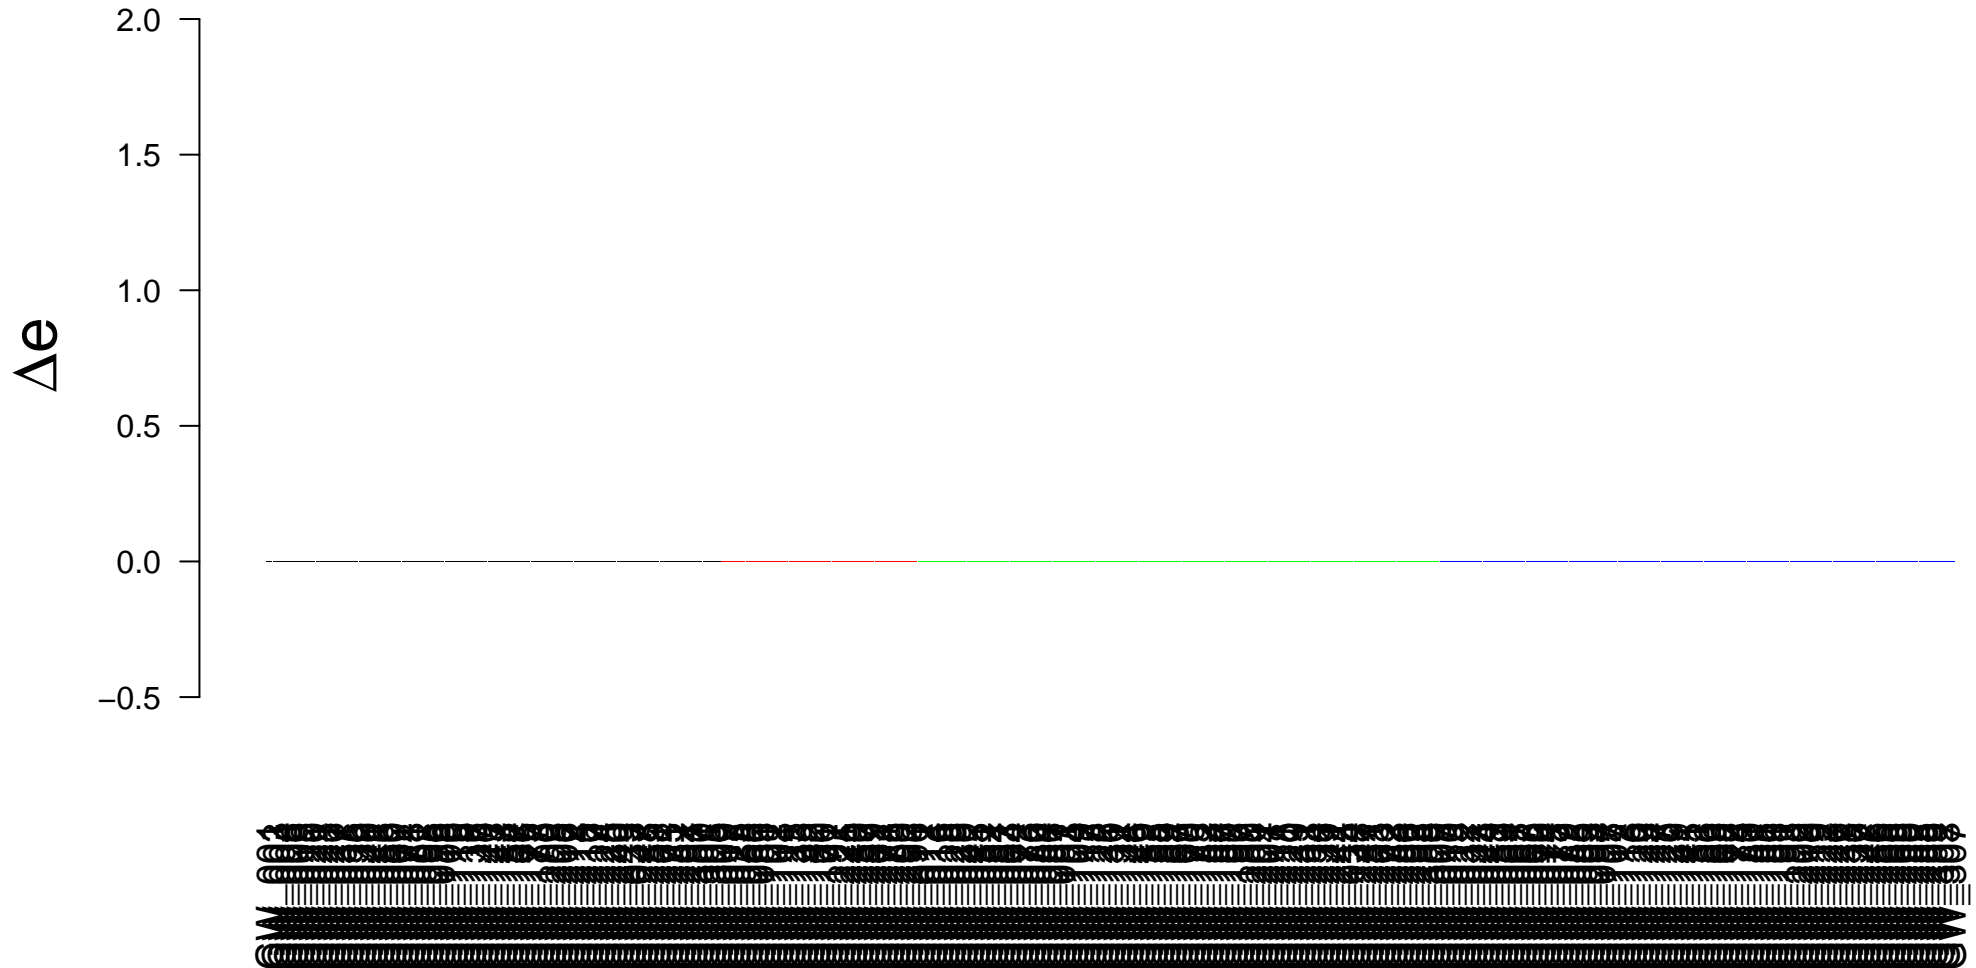

Expression of positive regulation of macrophage derived foam cell differentiation in Spot L

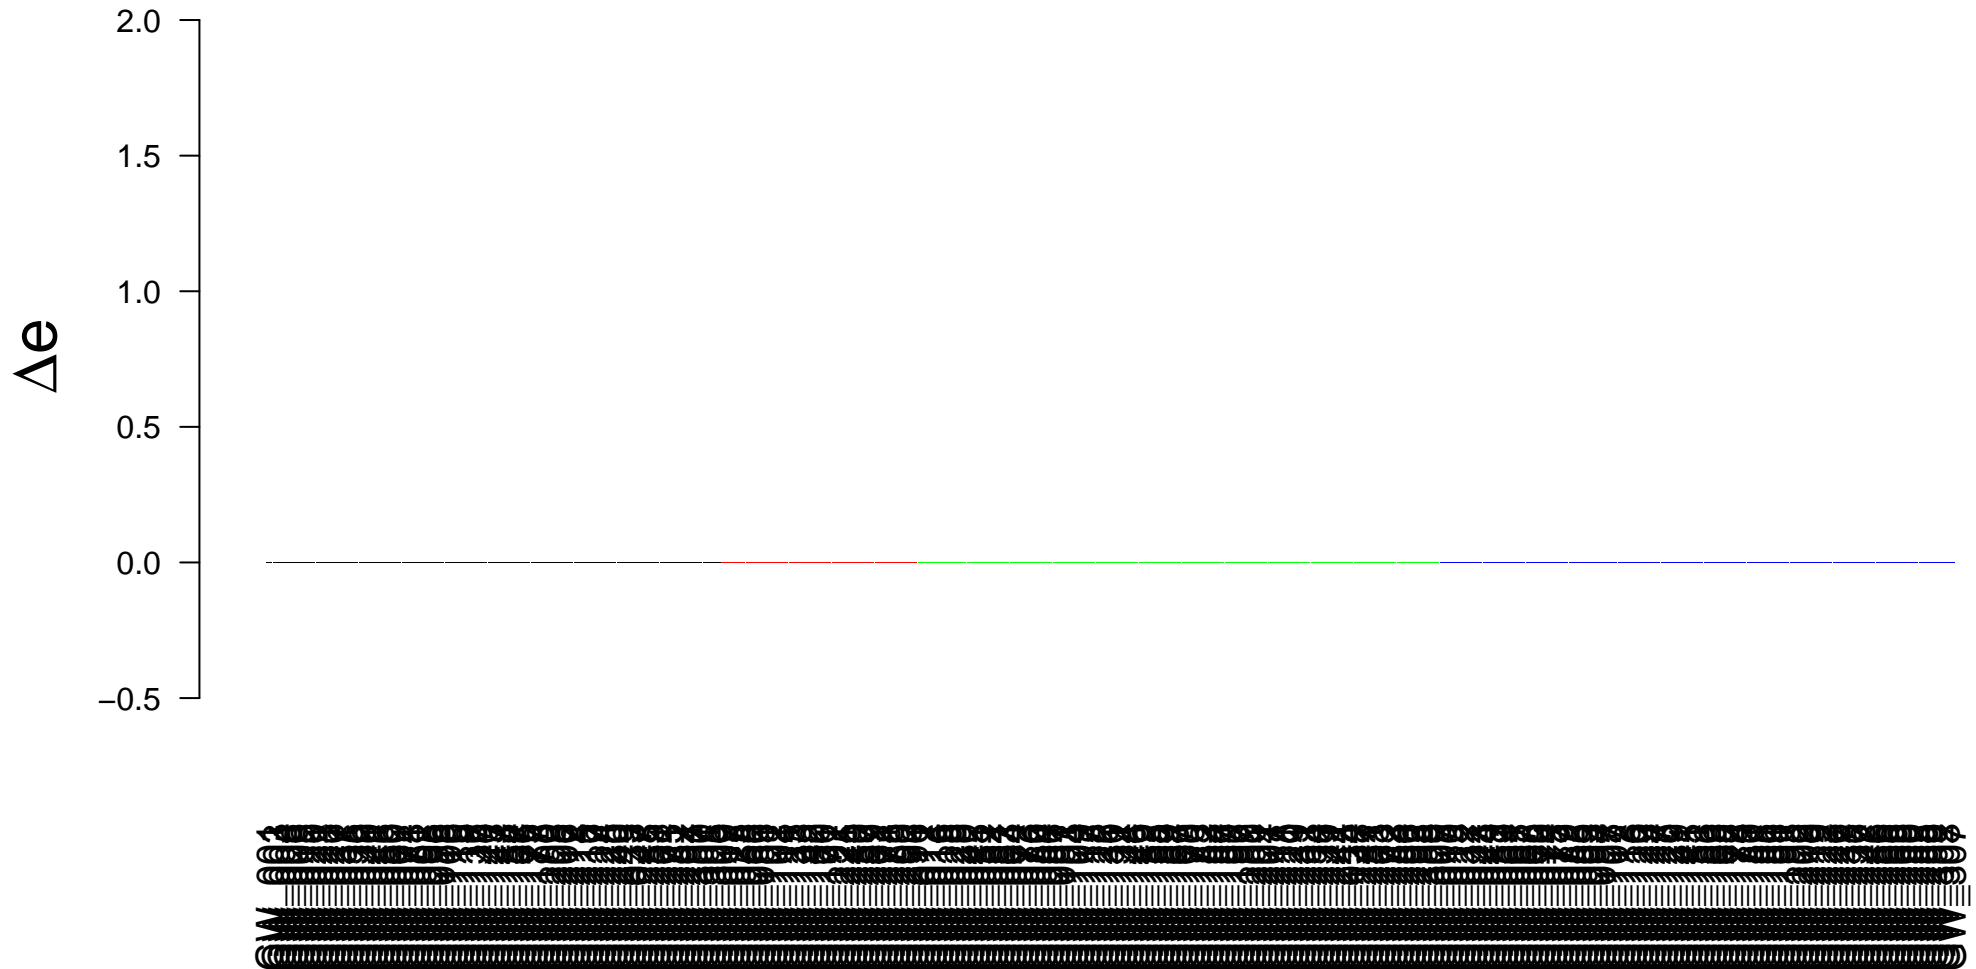

Expression of positive regulation of macrophage derived foam cell differentiation in Spot M

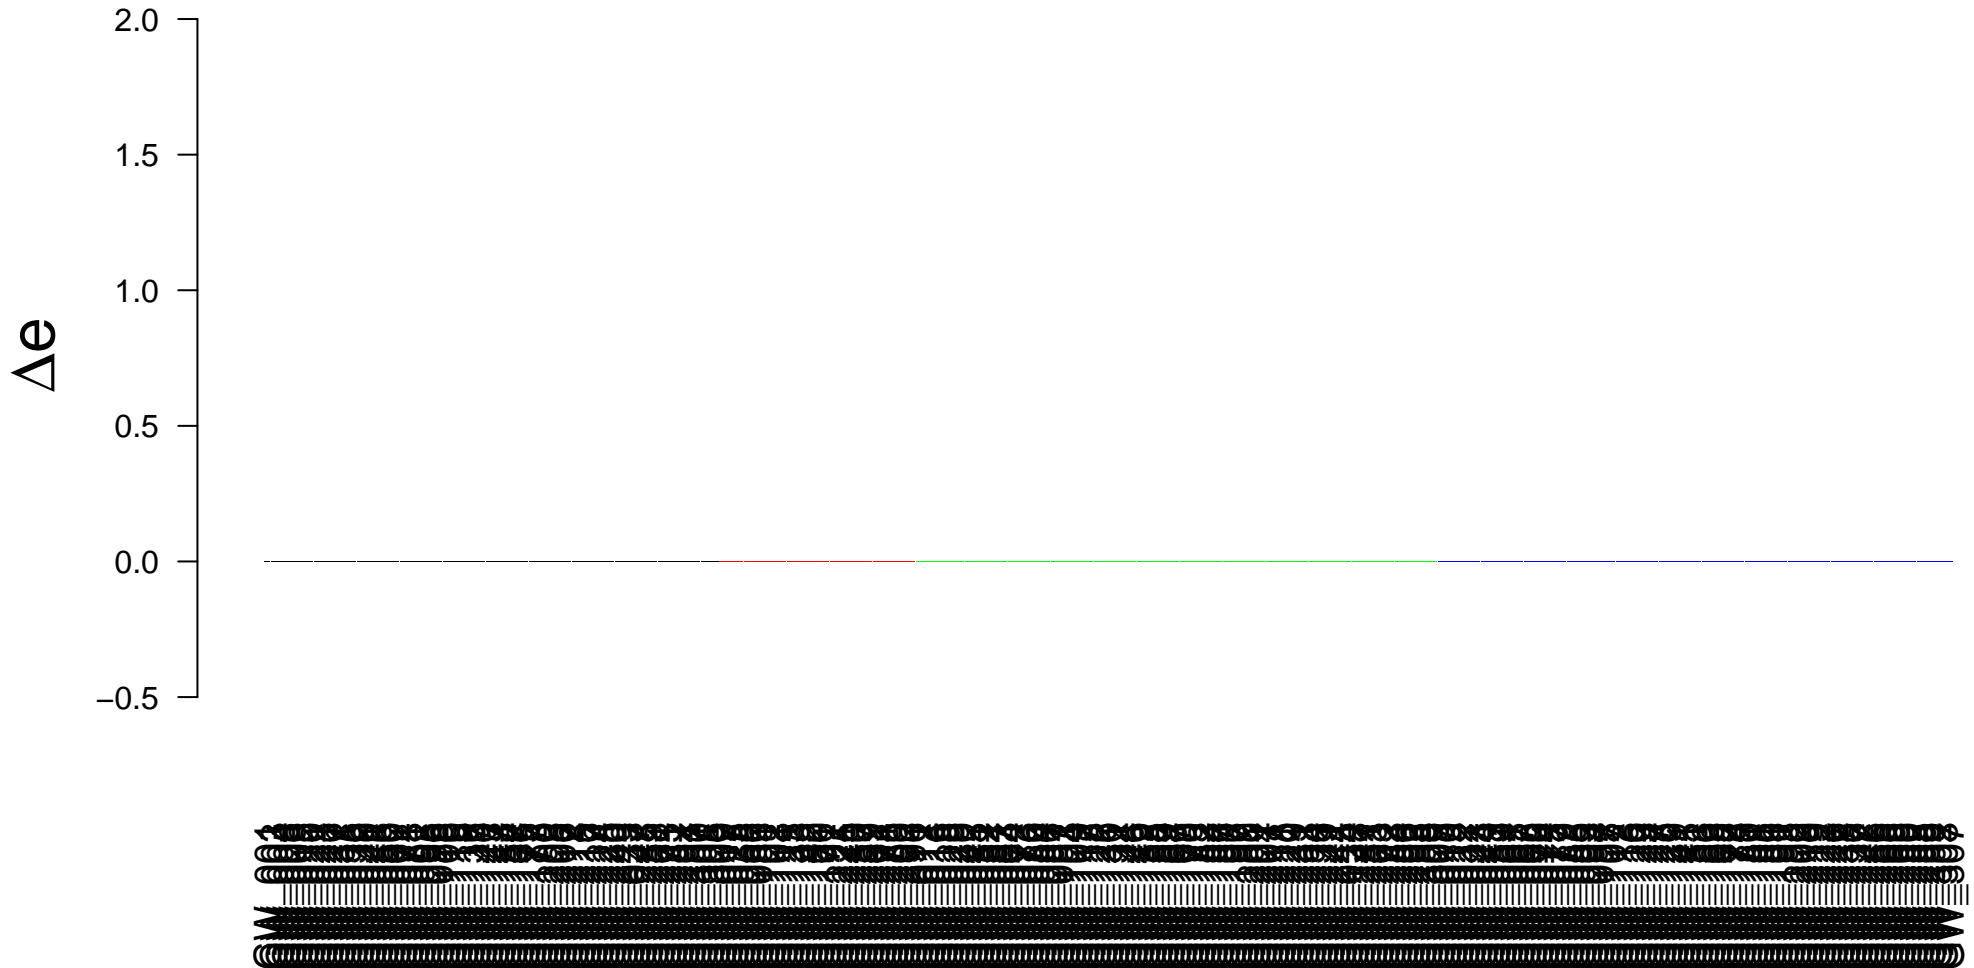

Expression of positive regulation of macrophage derived foam cell differentiation in Spot N

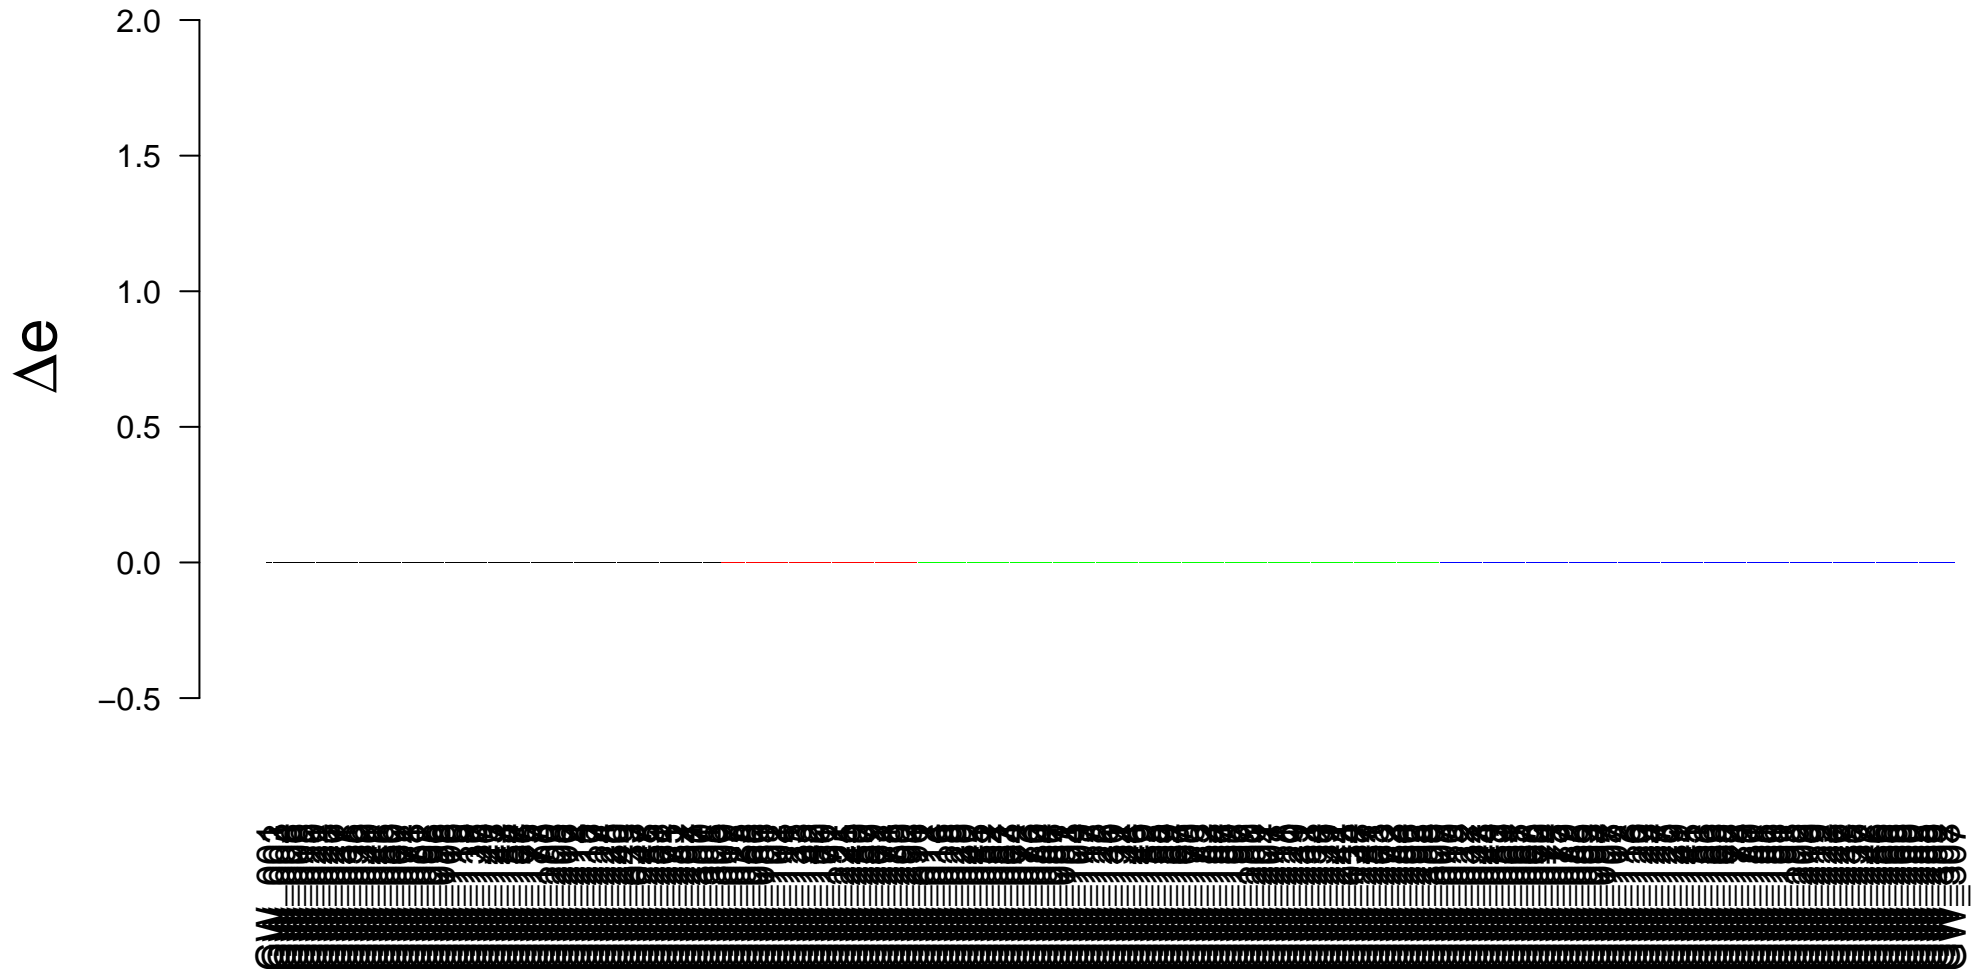

Expression of positive regulation of macrophage derived foam cell differentiation in Spot O

Expression of positive regulation of macrophage derived foam cell differentiation in Spot P

Expression of positive regulation of macrophage derived foam cell differentiation in Spot Q

Expression of positive regulation of macrophage derived foam cell differentiation in Spot R
