

positive regulation of transcription elongation from RNA polymerase II promoter

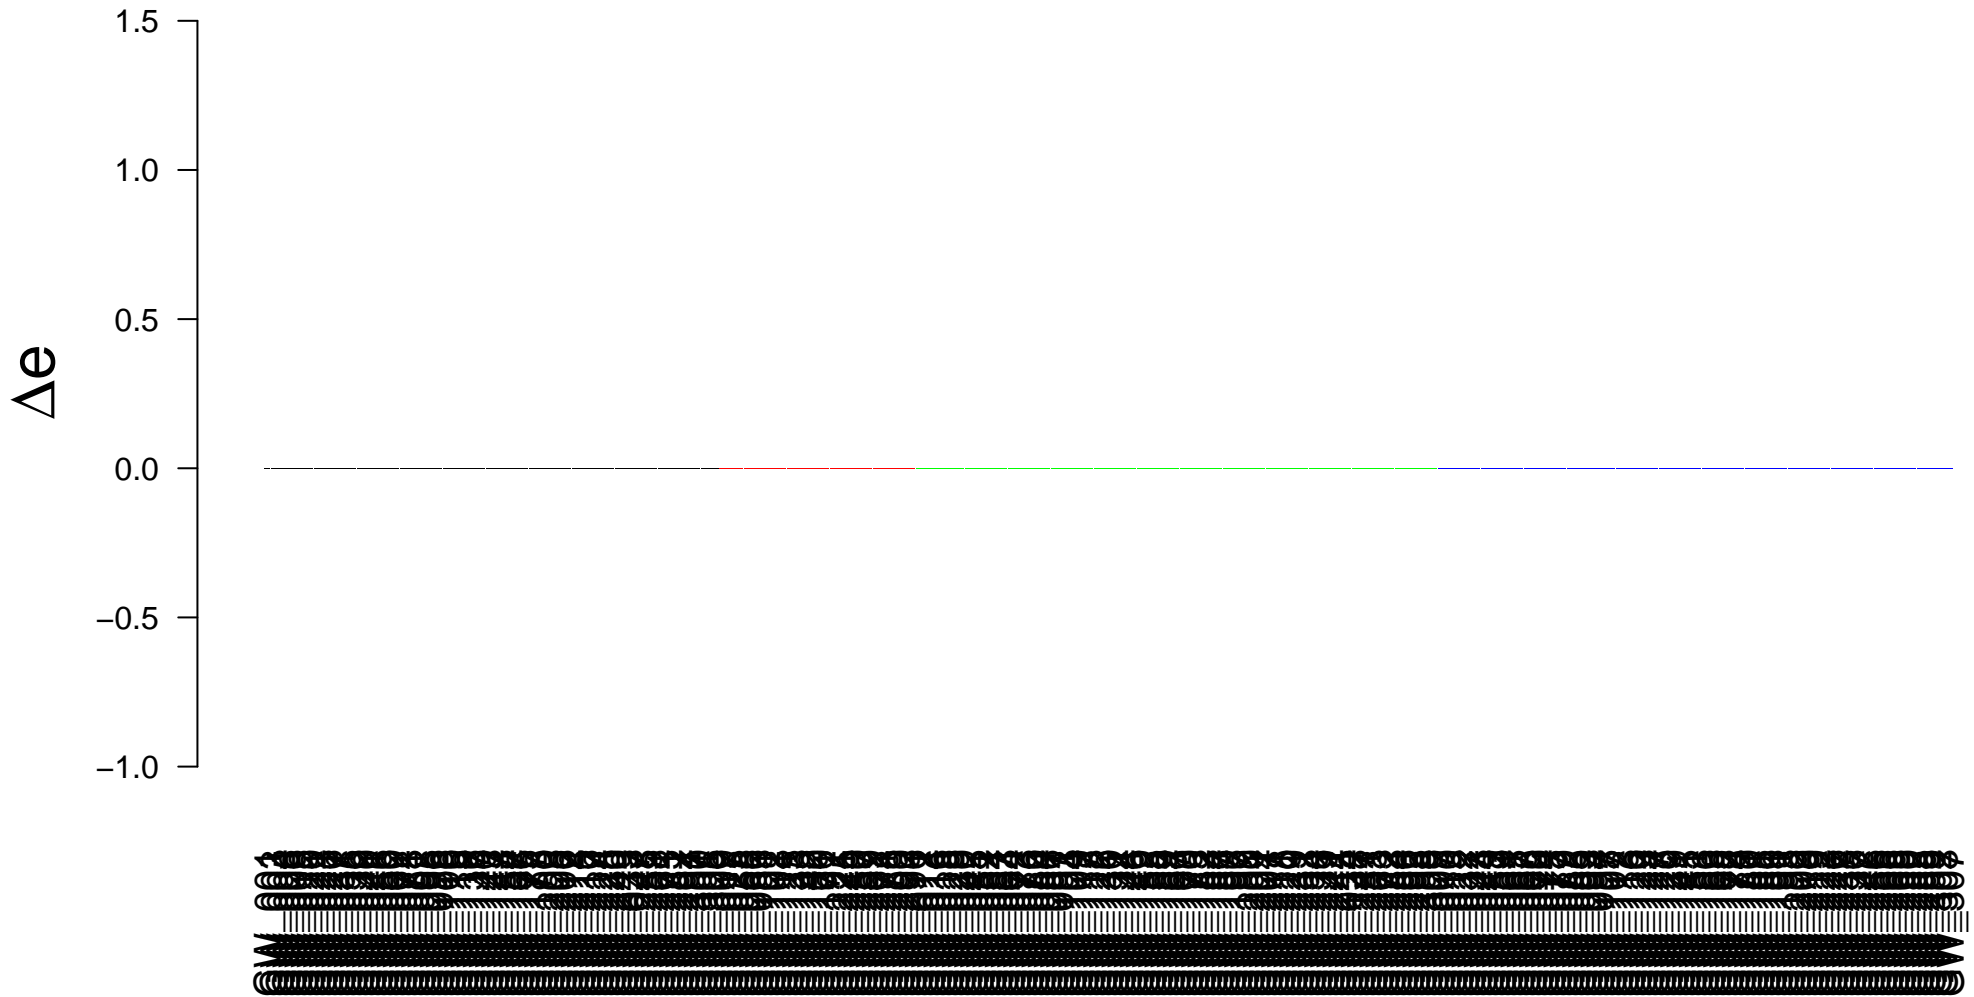

positive regulation of transcription elongation from RNA polymerase II promoter

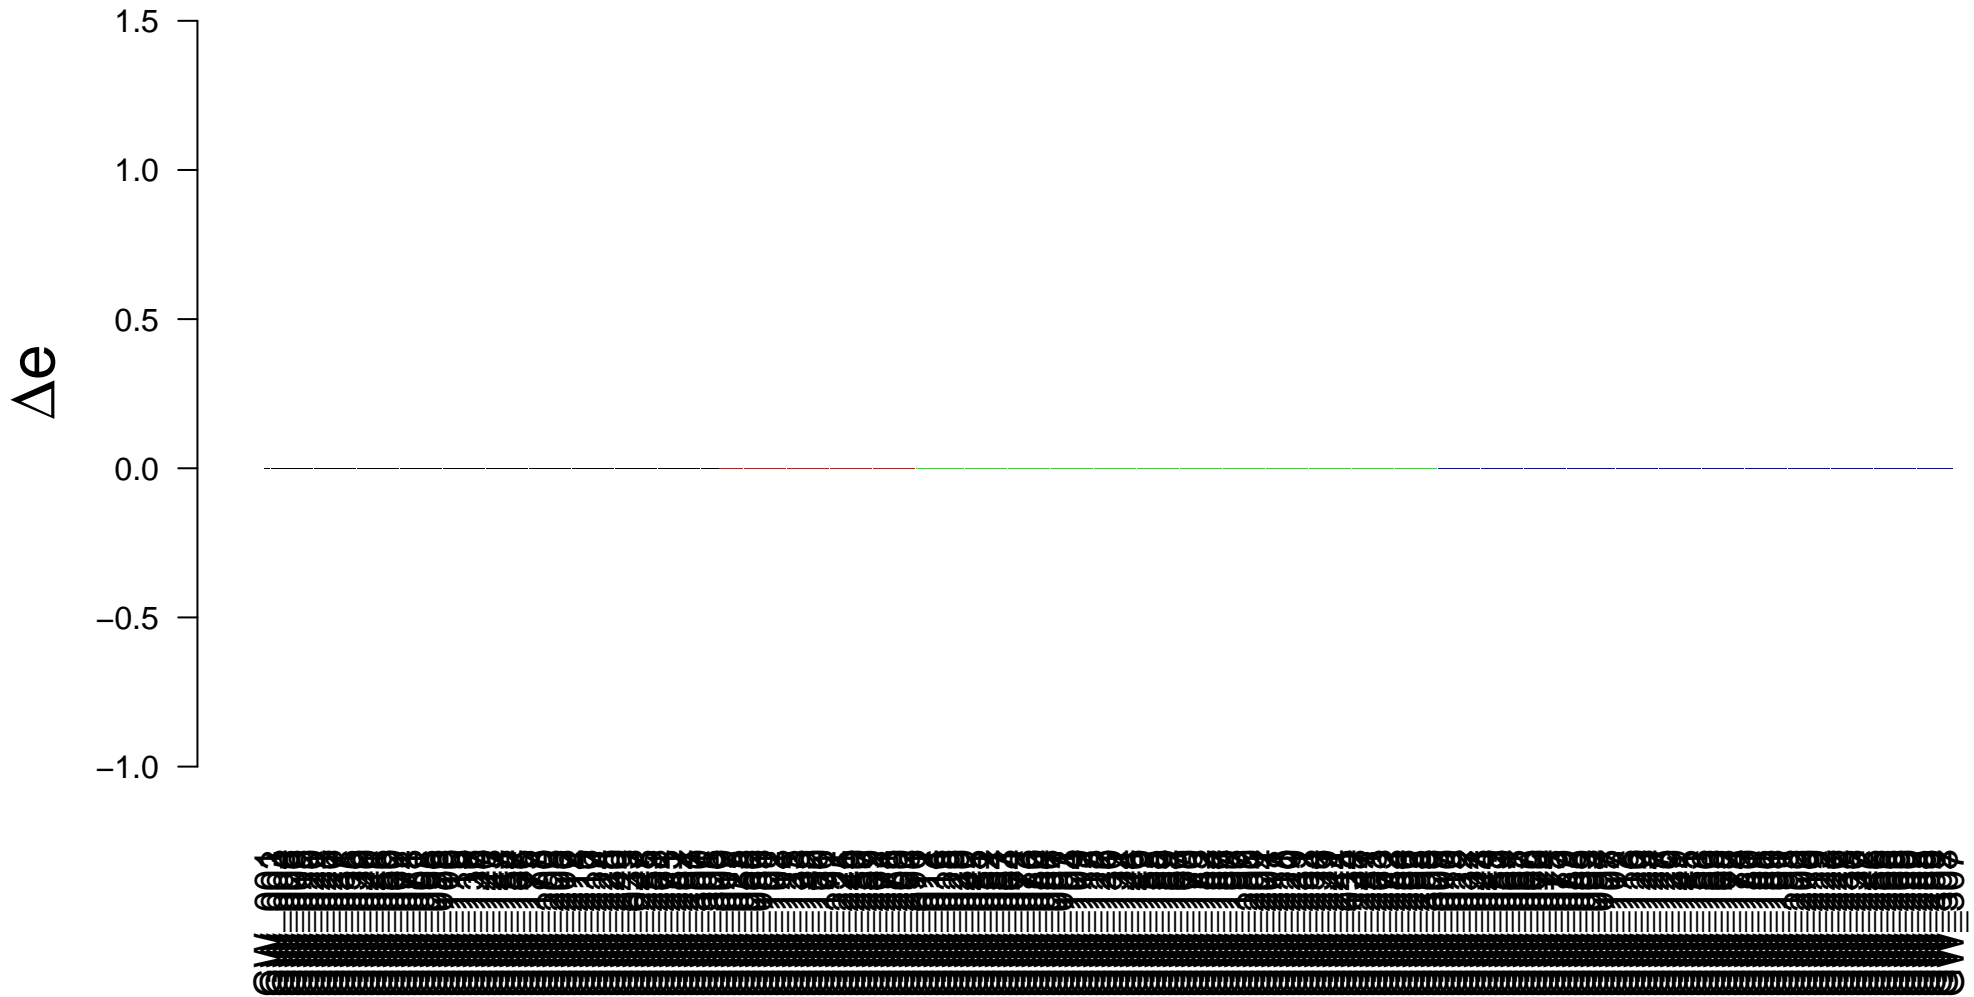

# Enrichment in spots: positive regulation of transcription elongation from RNA polymerase II promoter

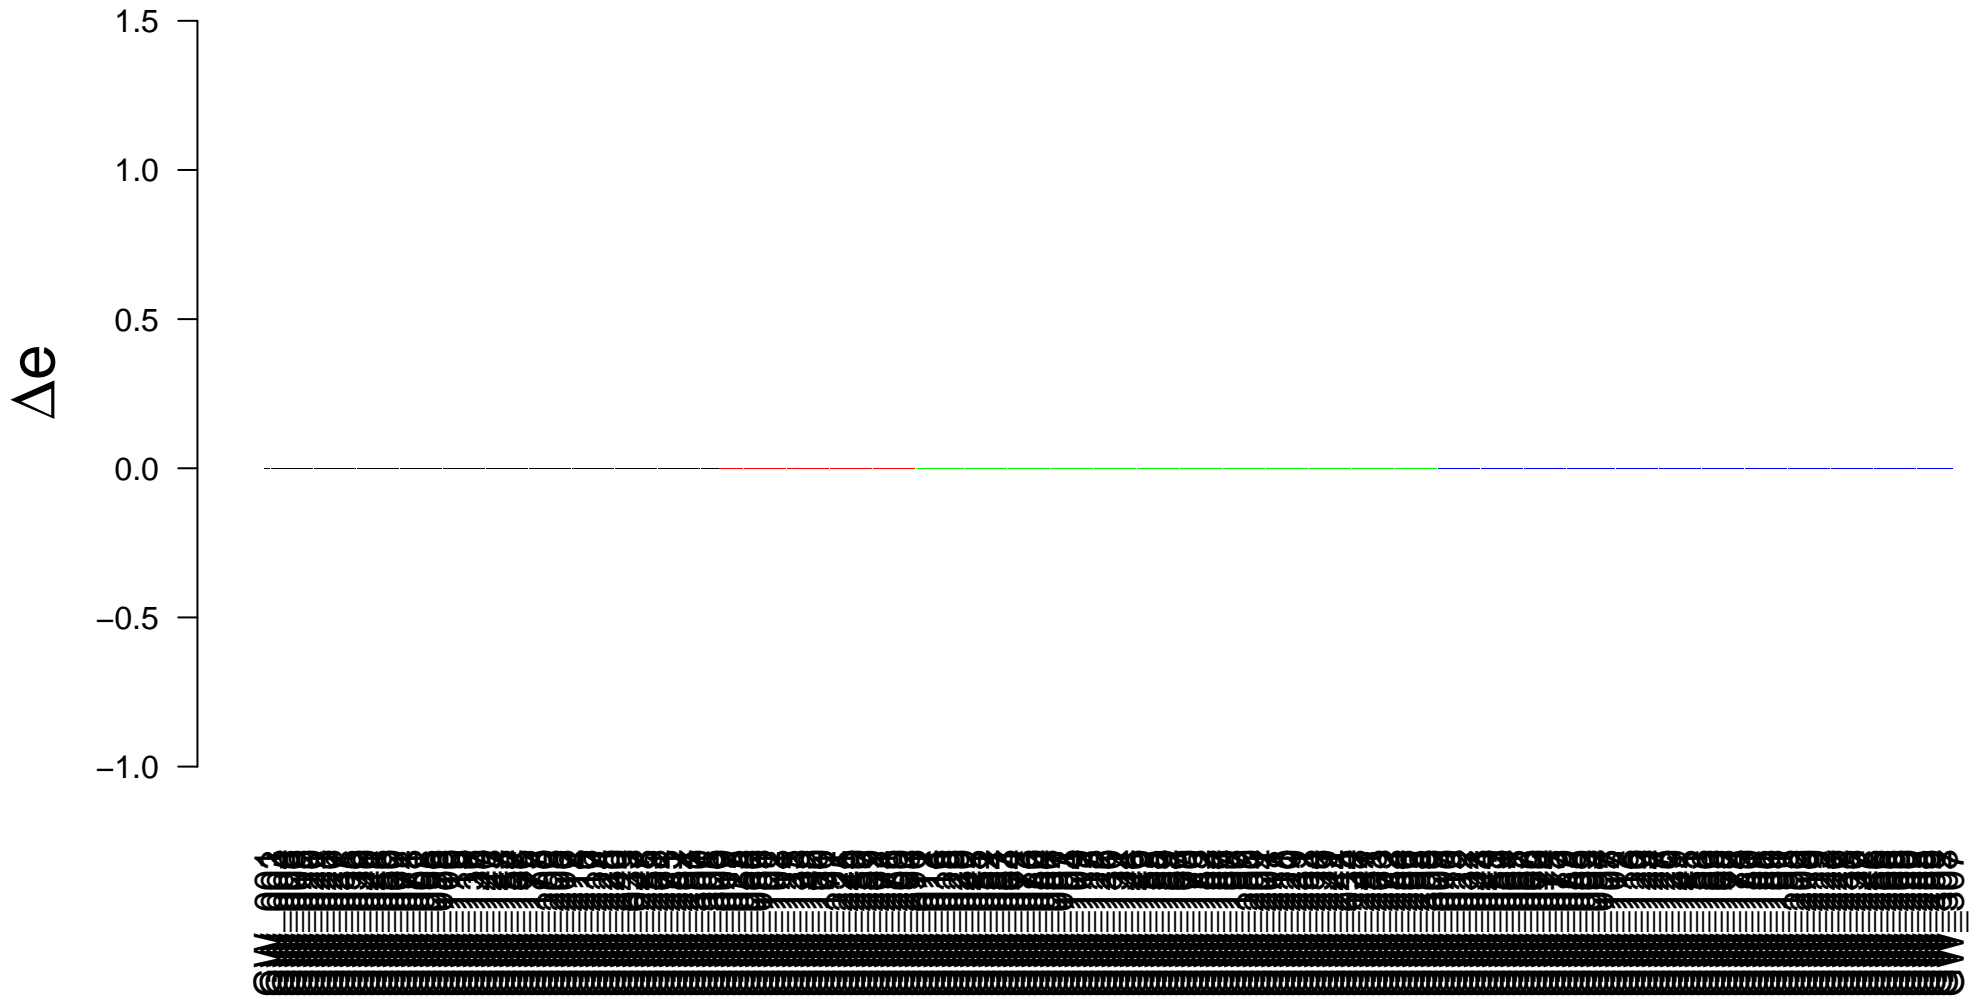

# Expression of positive regulation of transcription elongation from RNA polymerase II promoter in Spot A

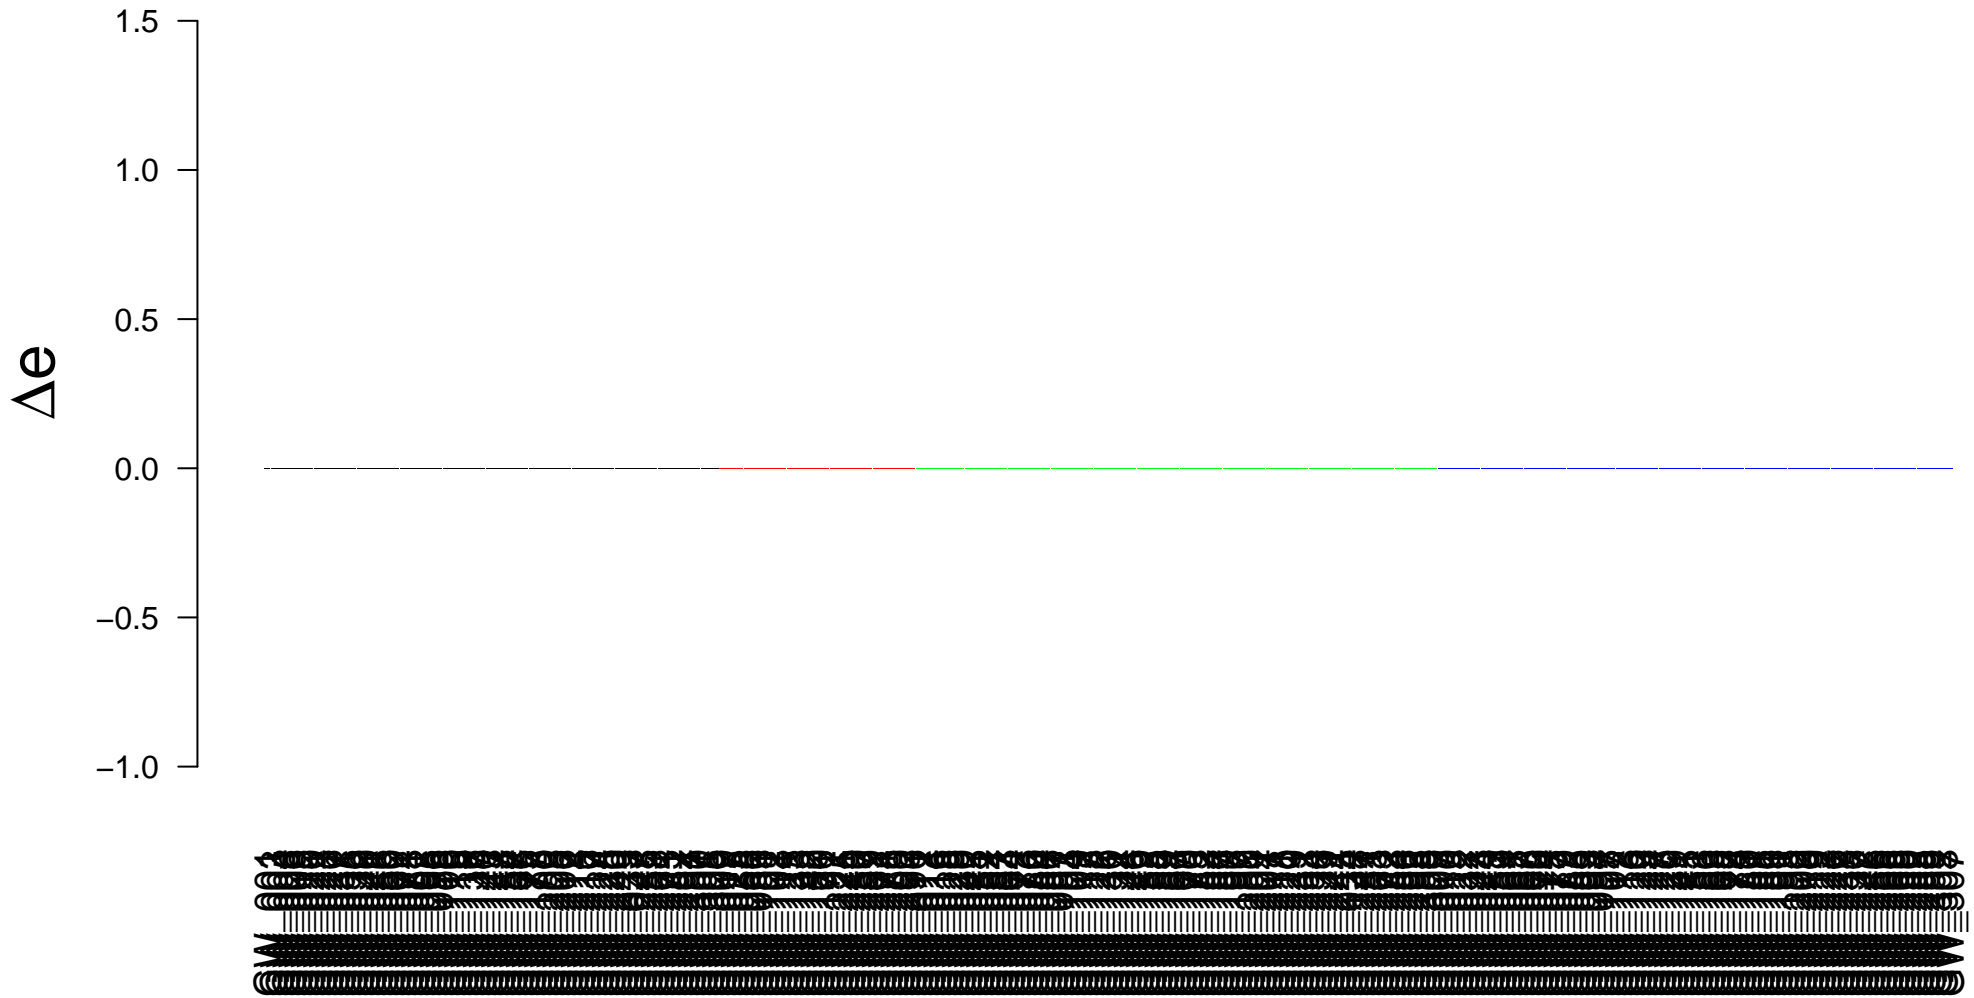

# Expression of positive regulation of transcription elongation from RNA polymerase II promoter in Spot B

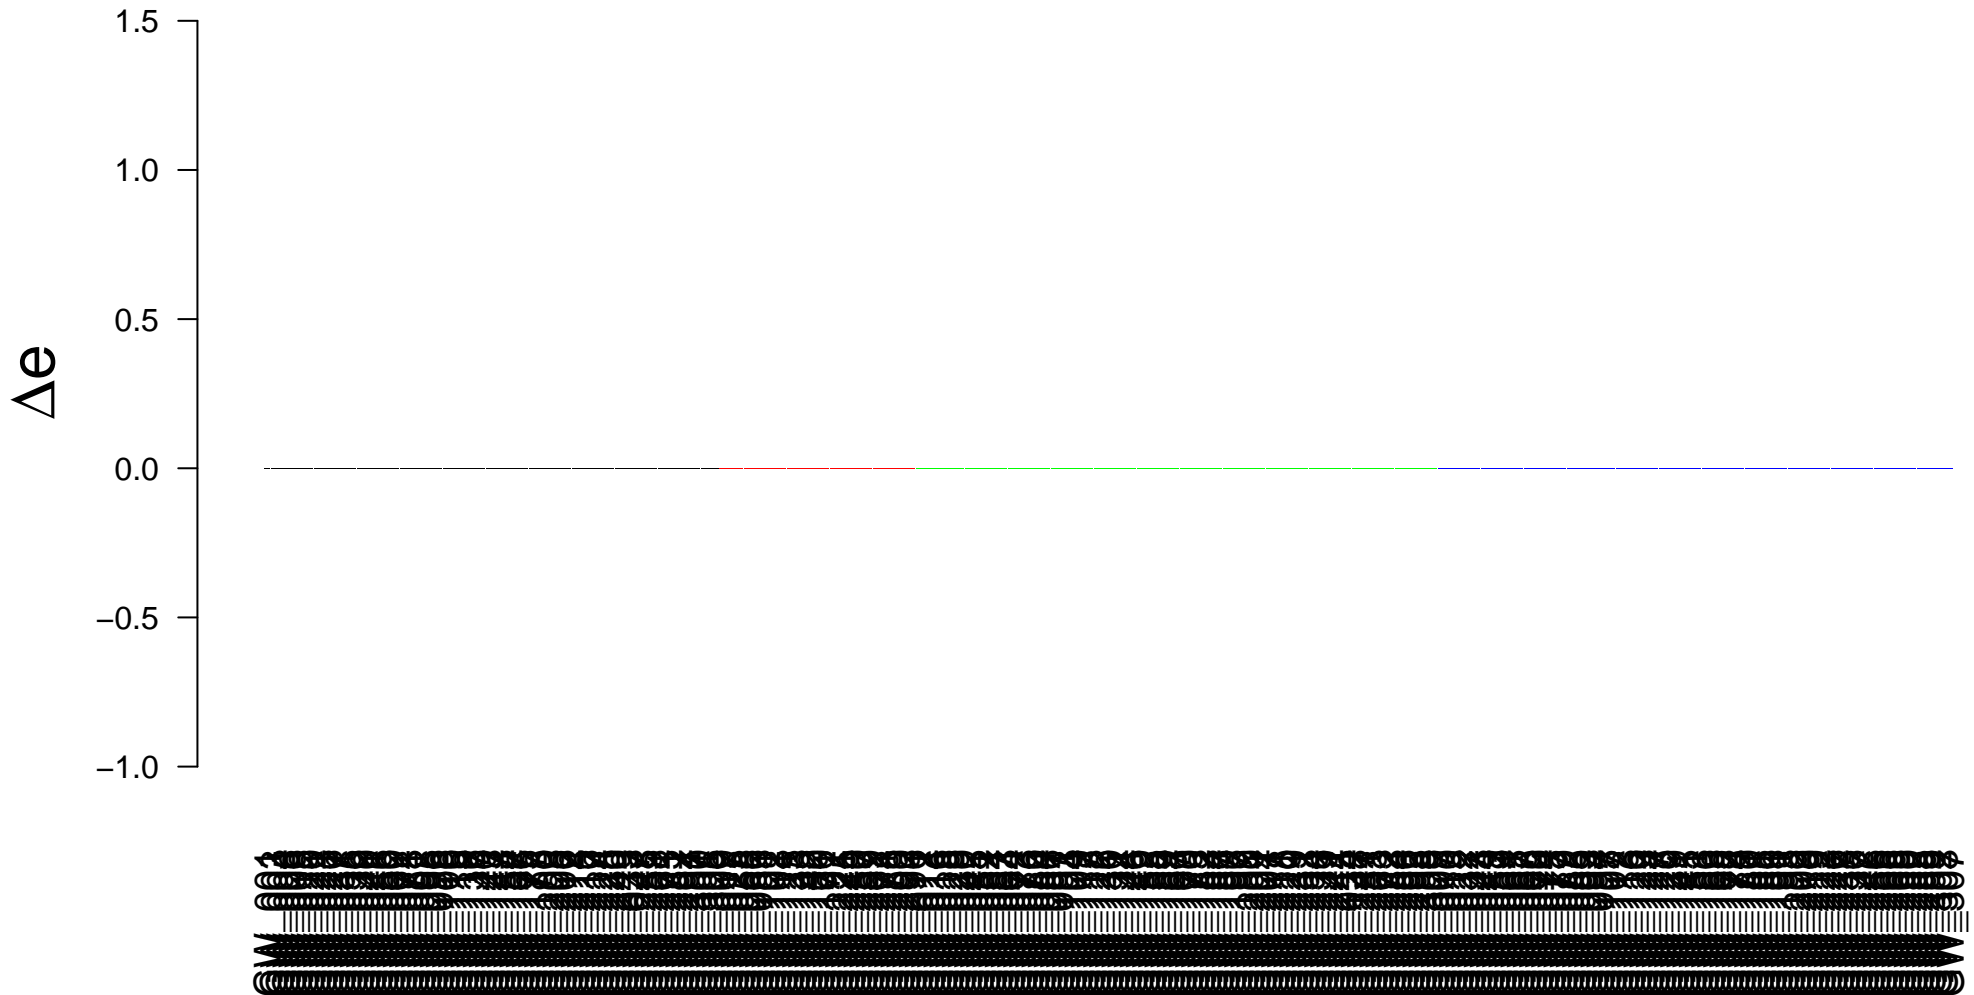

# Expression of positive regulation of transcription elongation from RNA polymerase II promoter in Spot C

# Expression of positive regulation of transcription elongation from RNA polymerase II promoter in Spot D

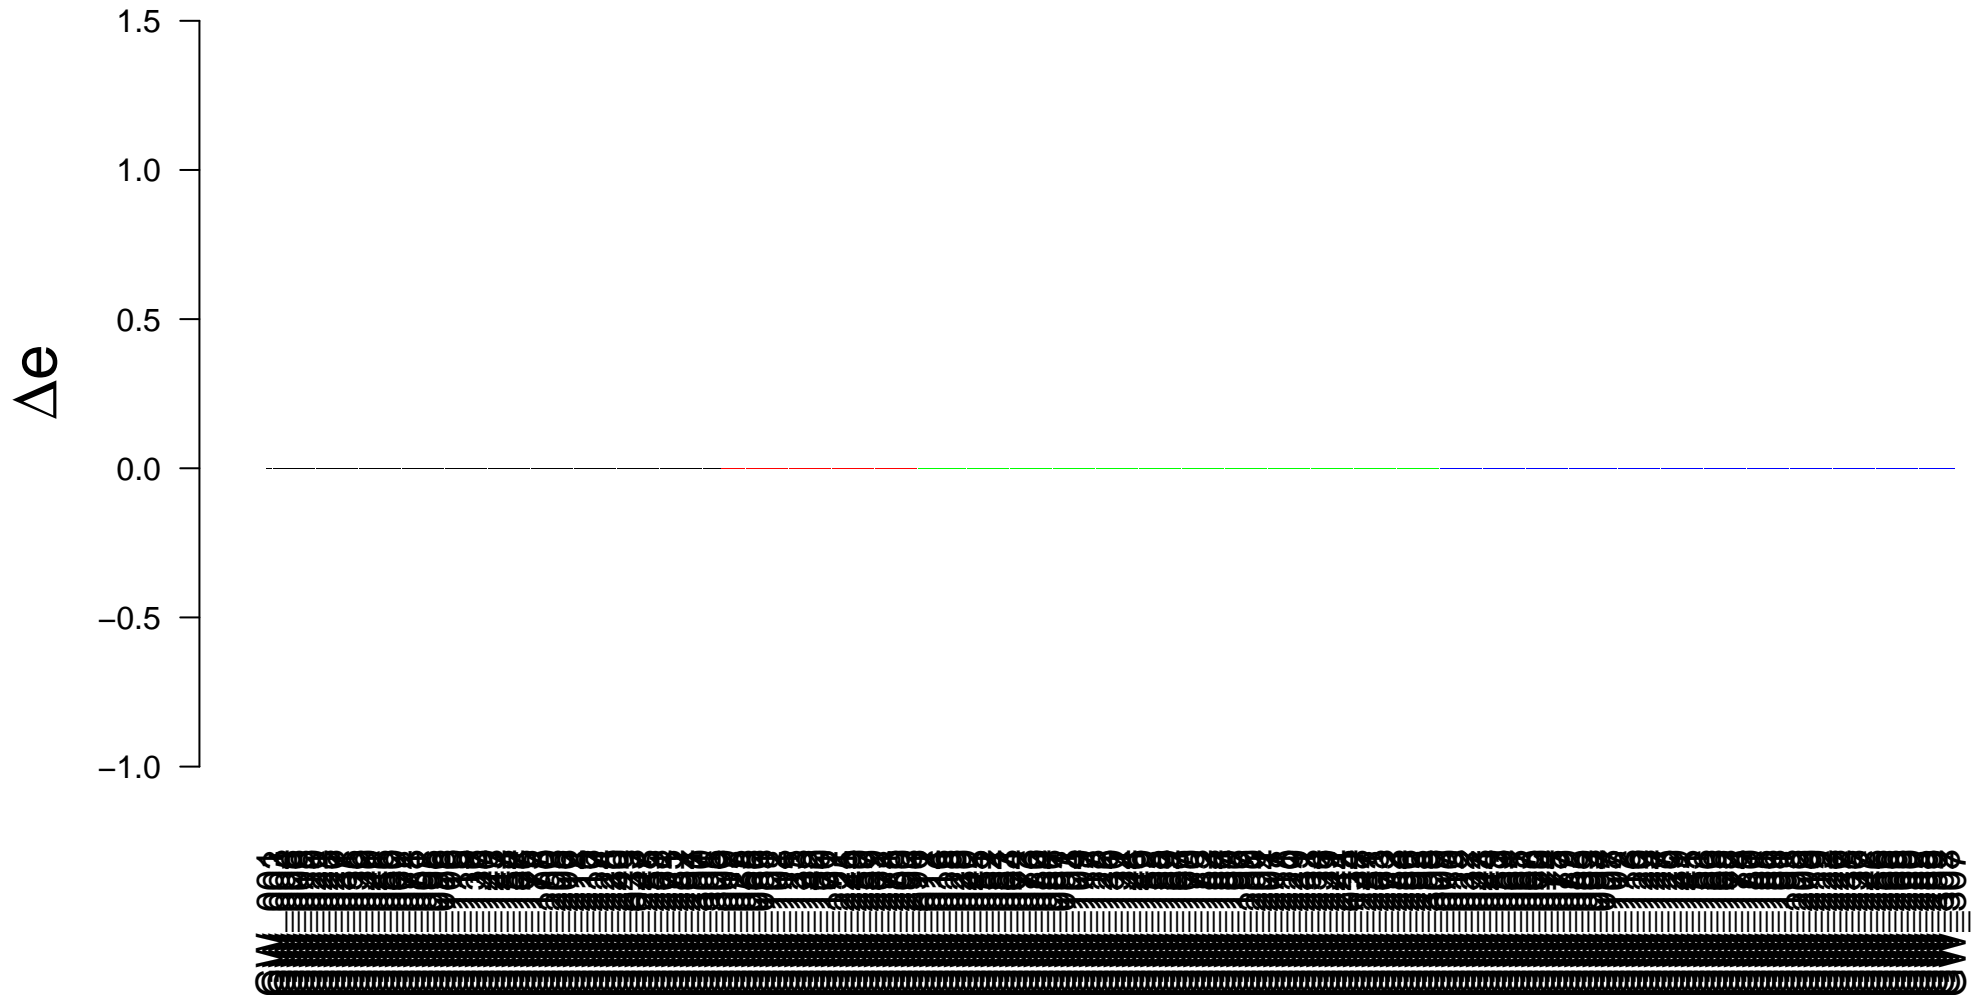

# Expression of positive regulation of transcription elongation from RNA polymerase II promoter in Spot E

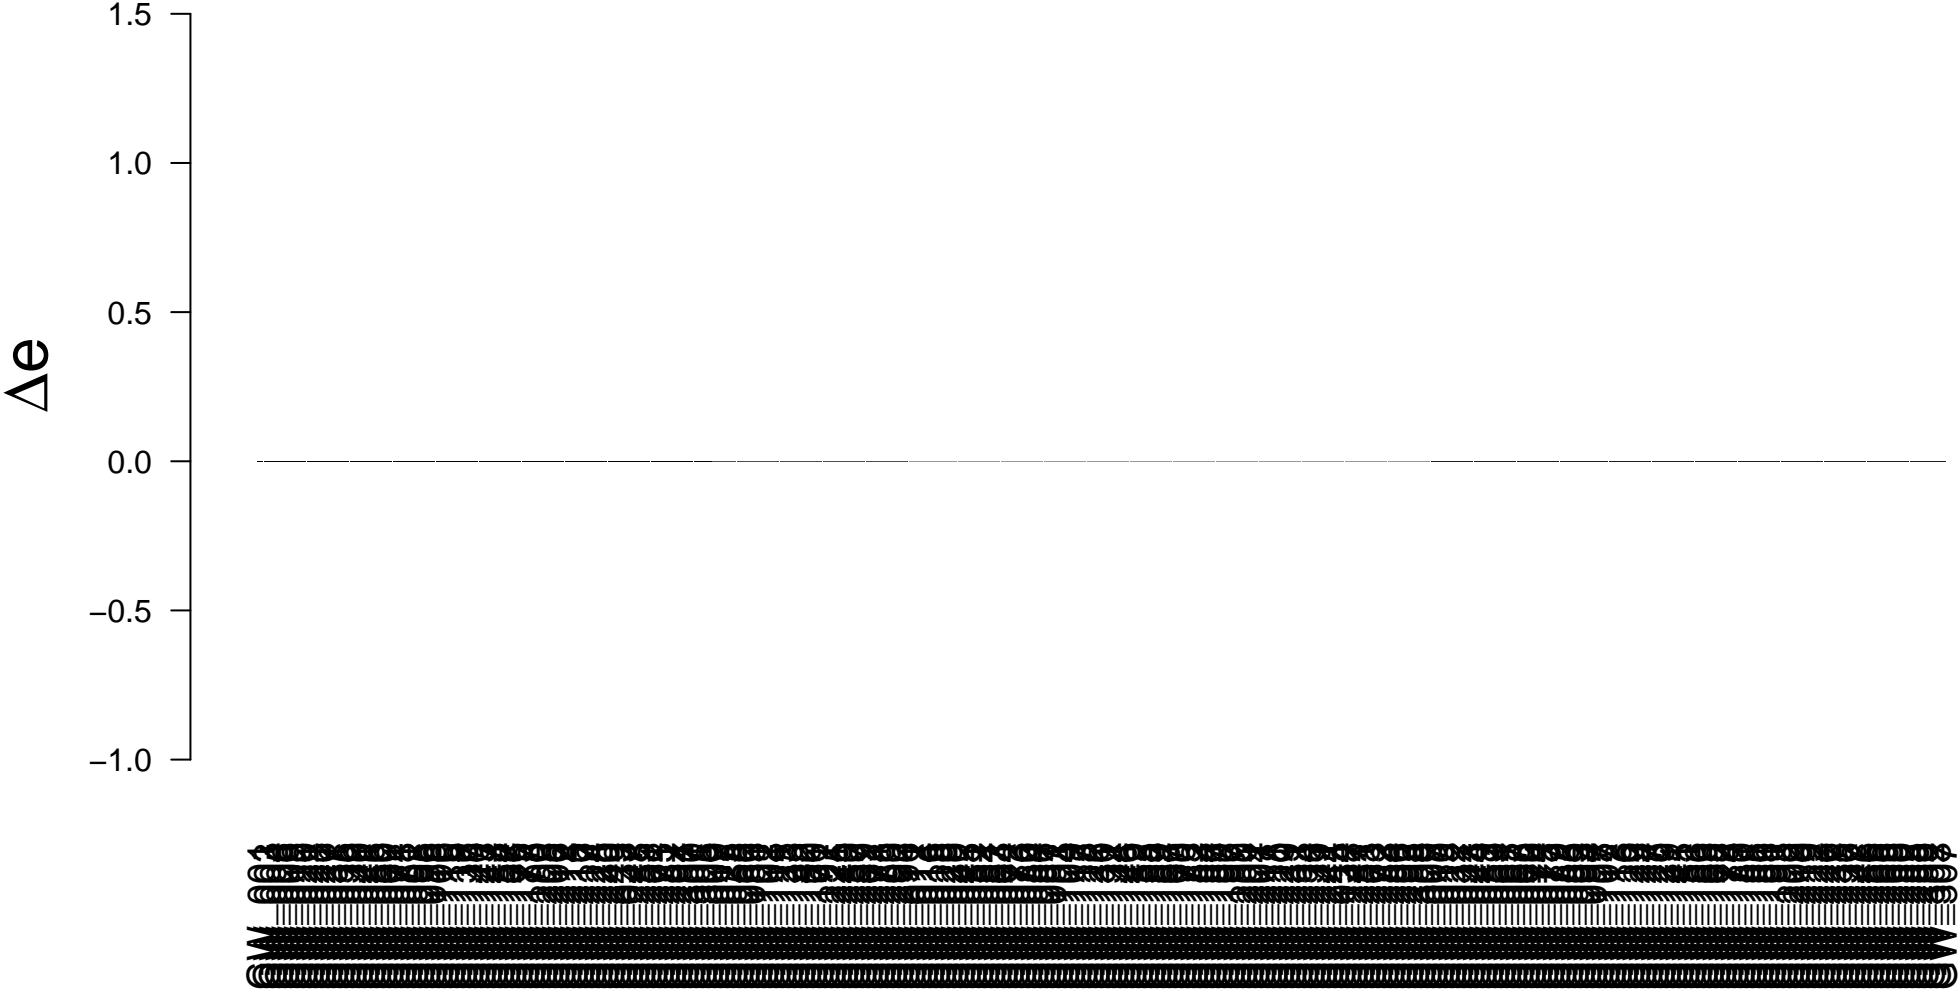

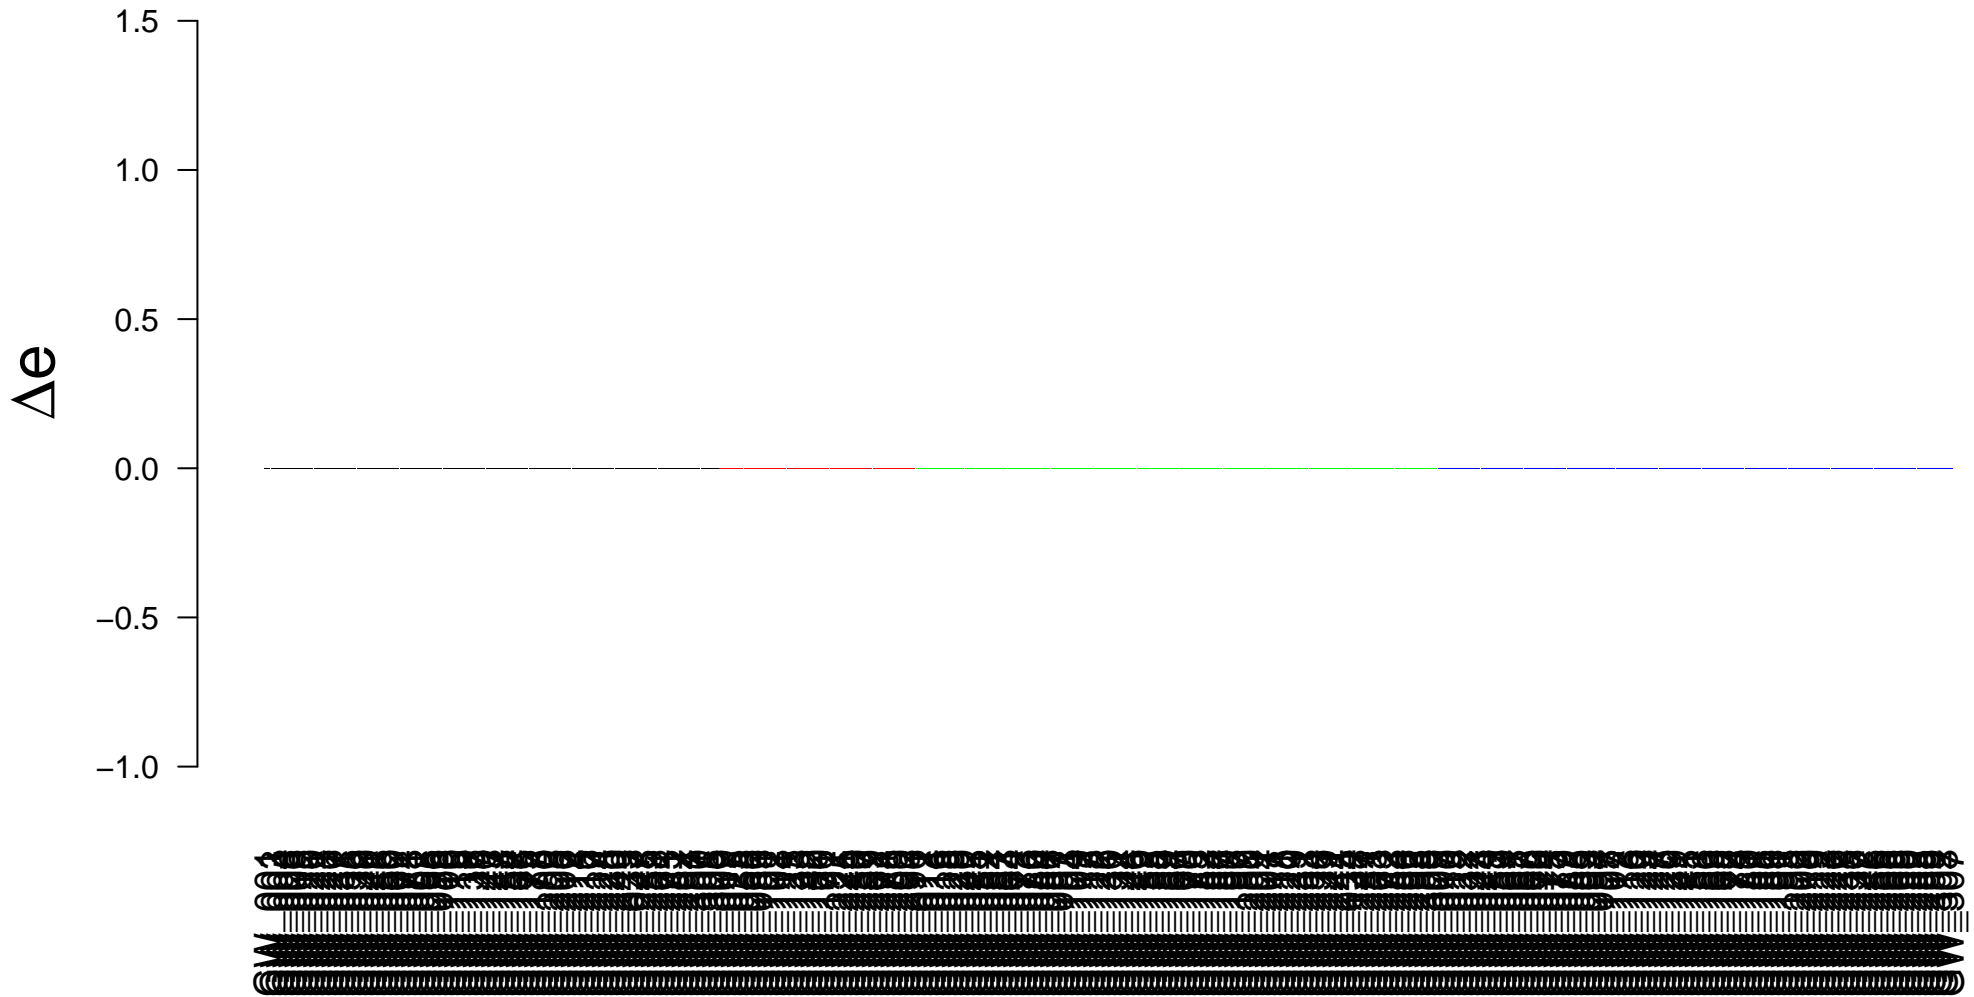

# Expression of positive regulation of transcription elongation from RNA polymerase II promoter in Spot F

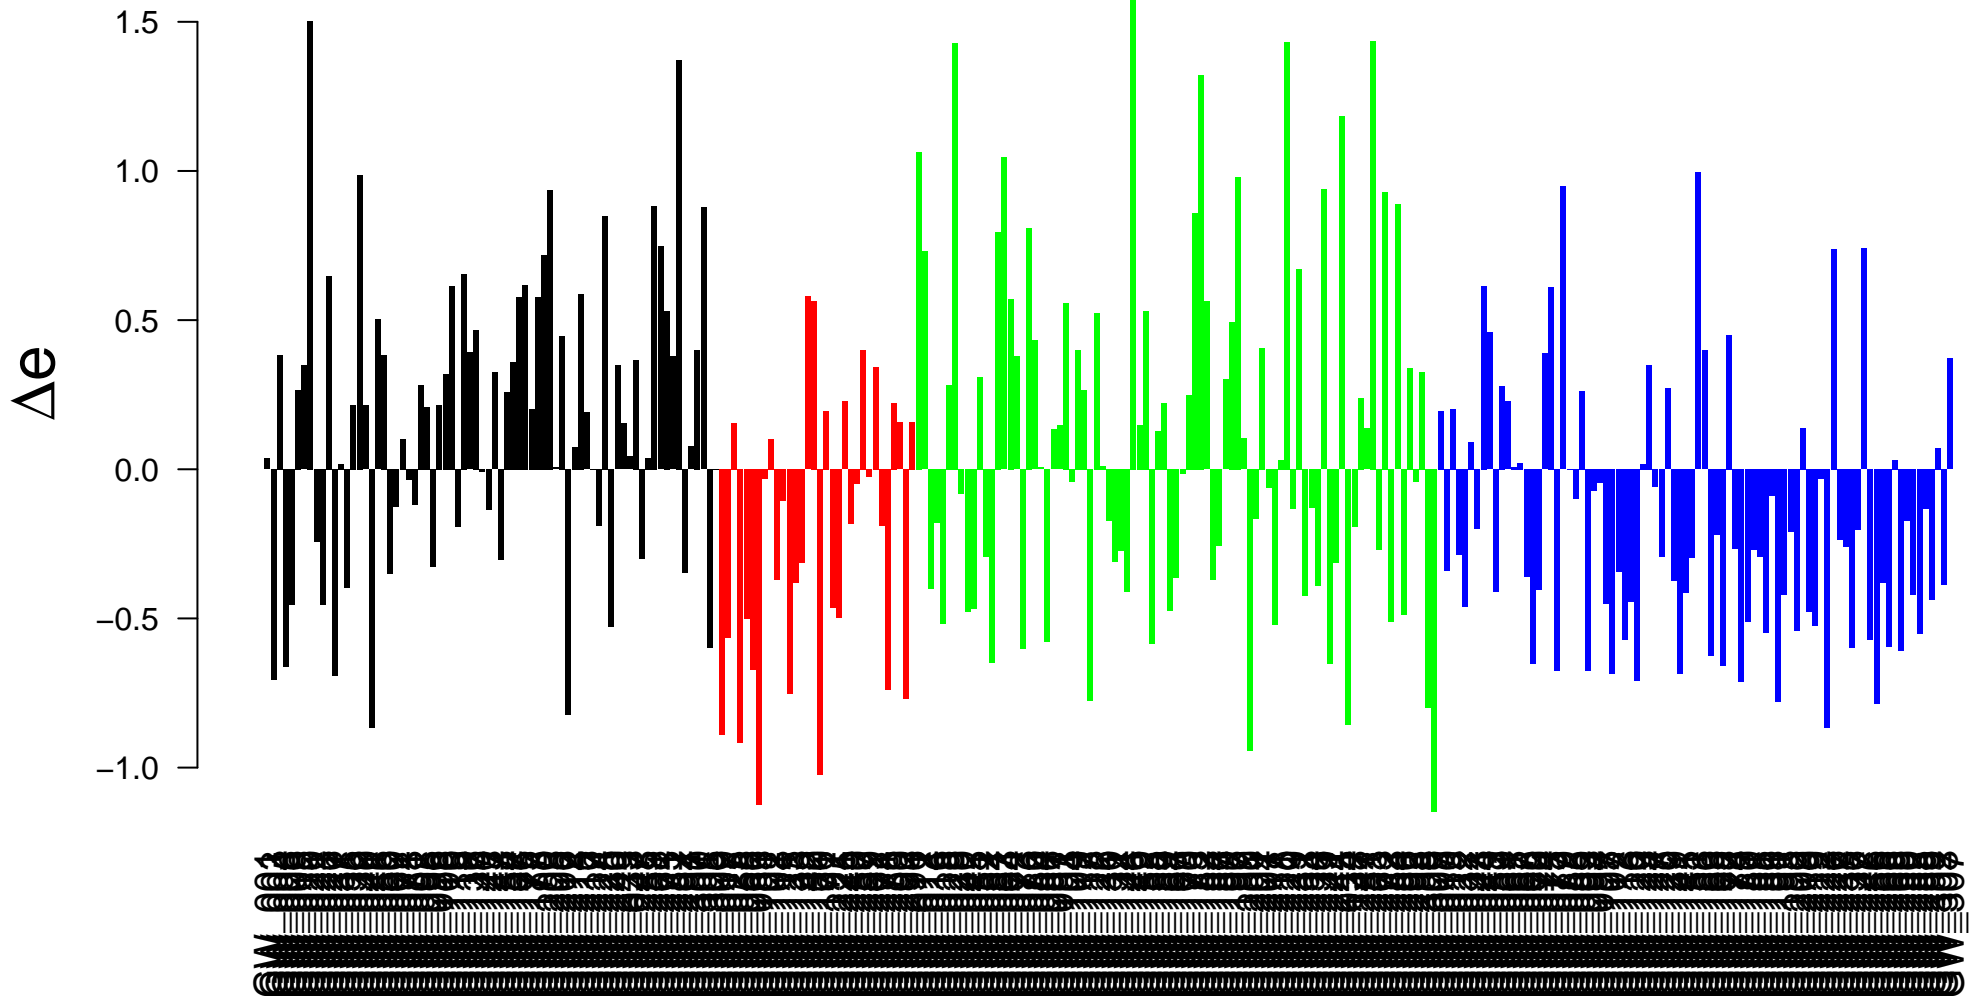

Expression of positive regulation of transcription elongation from RNA polymerase II promoter in Spot G

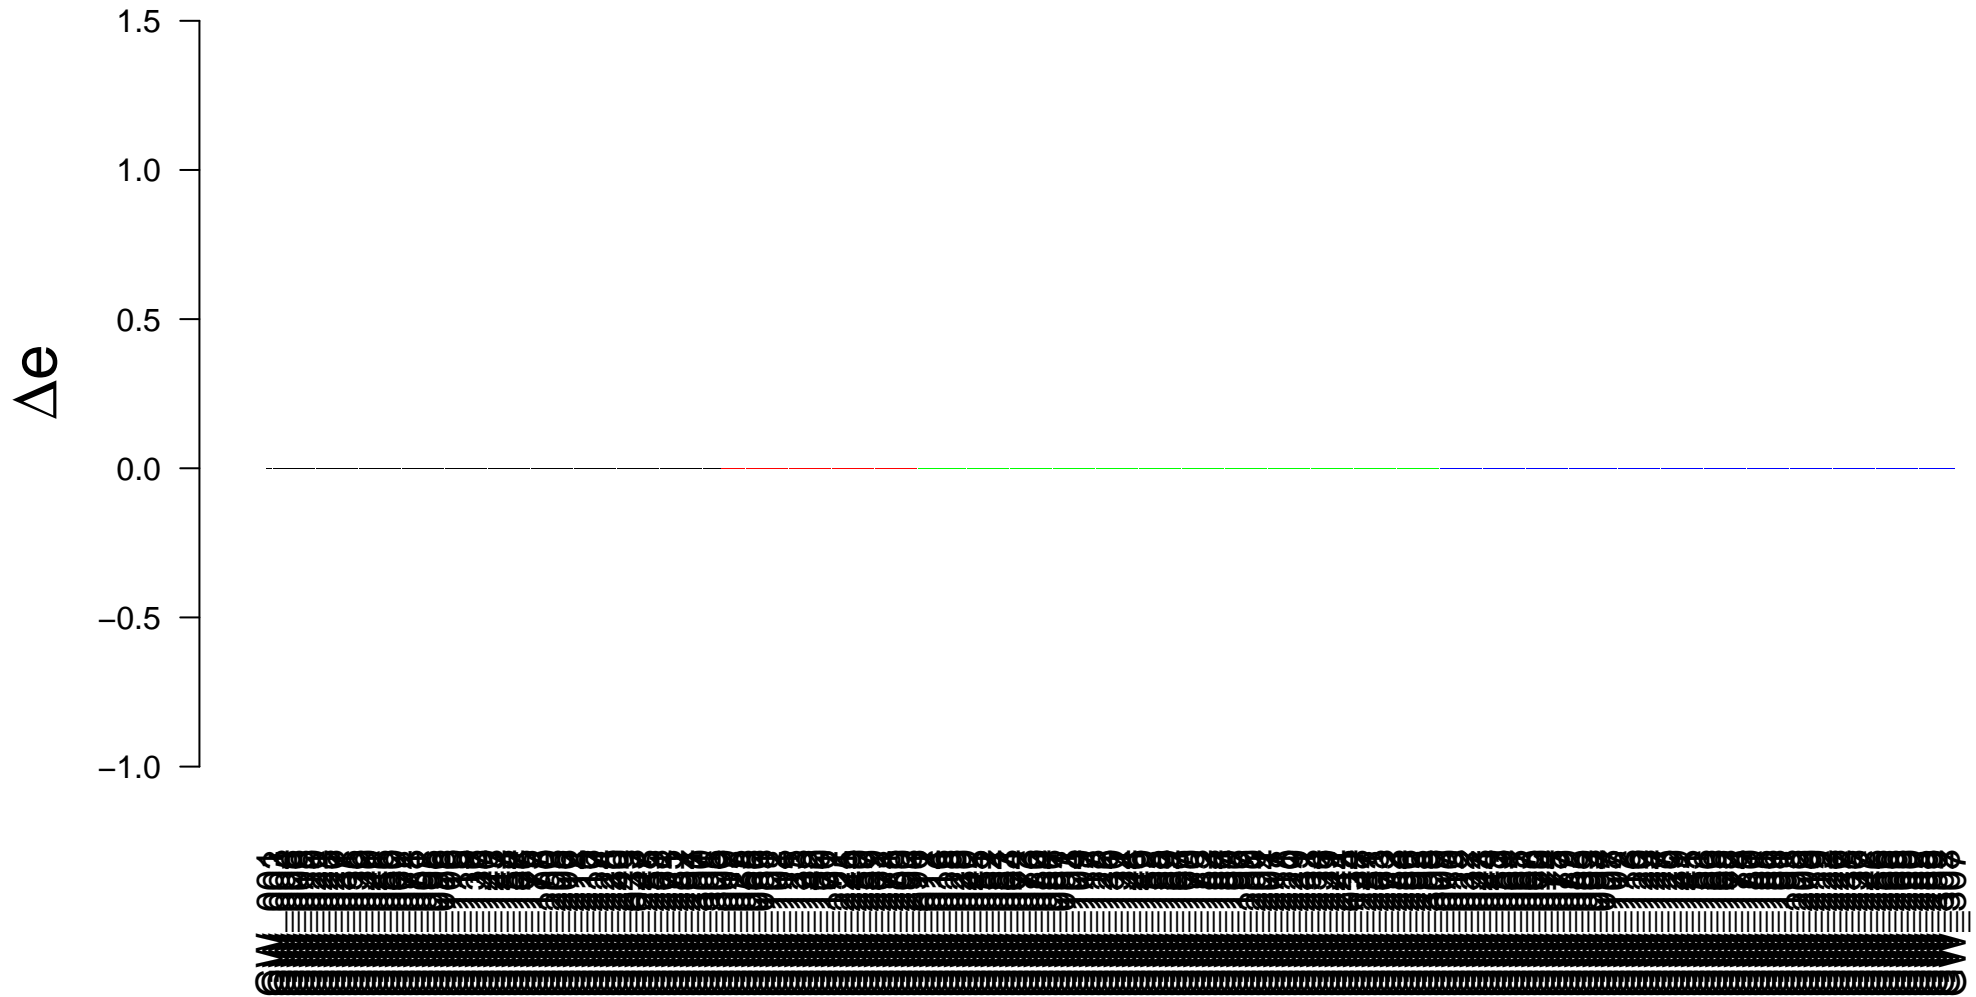

# Expression of positive regulation of transcription elongation from RNA polymerase II promoter in Spot H

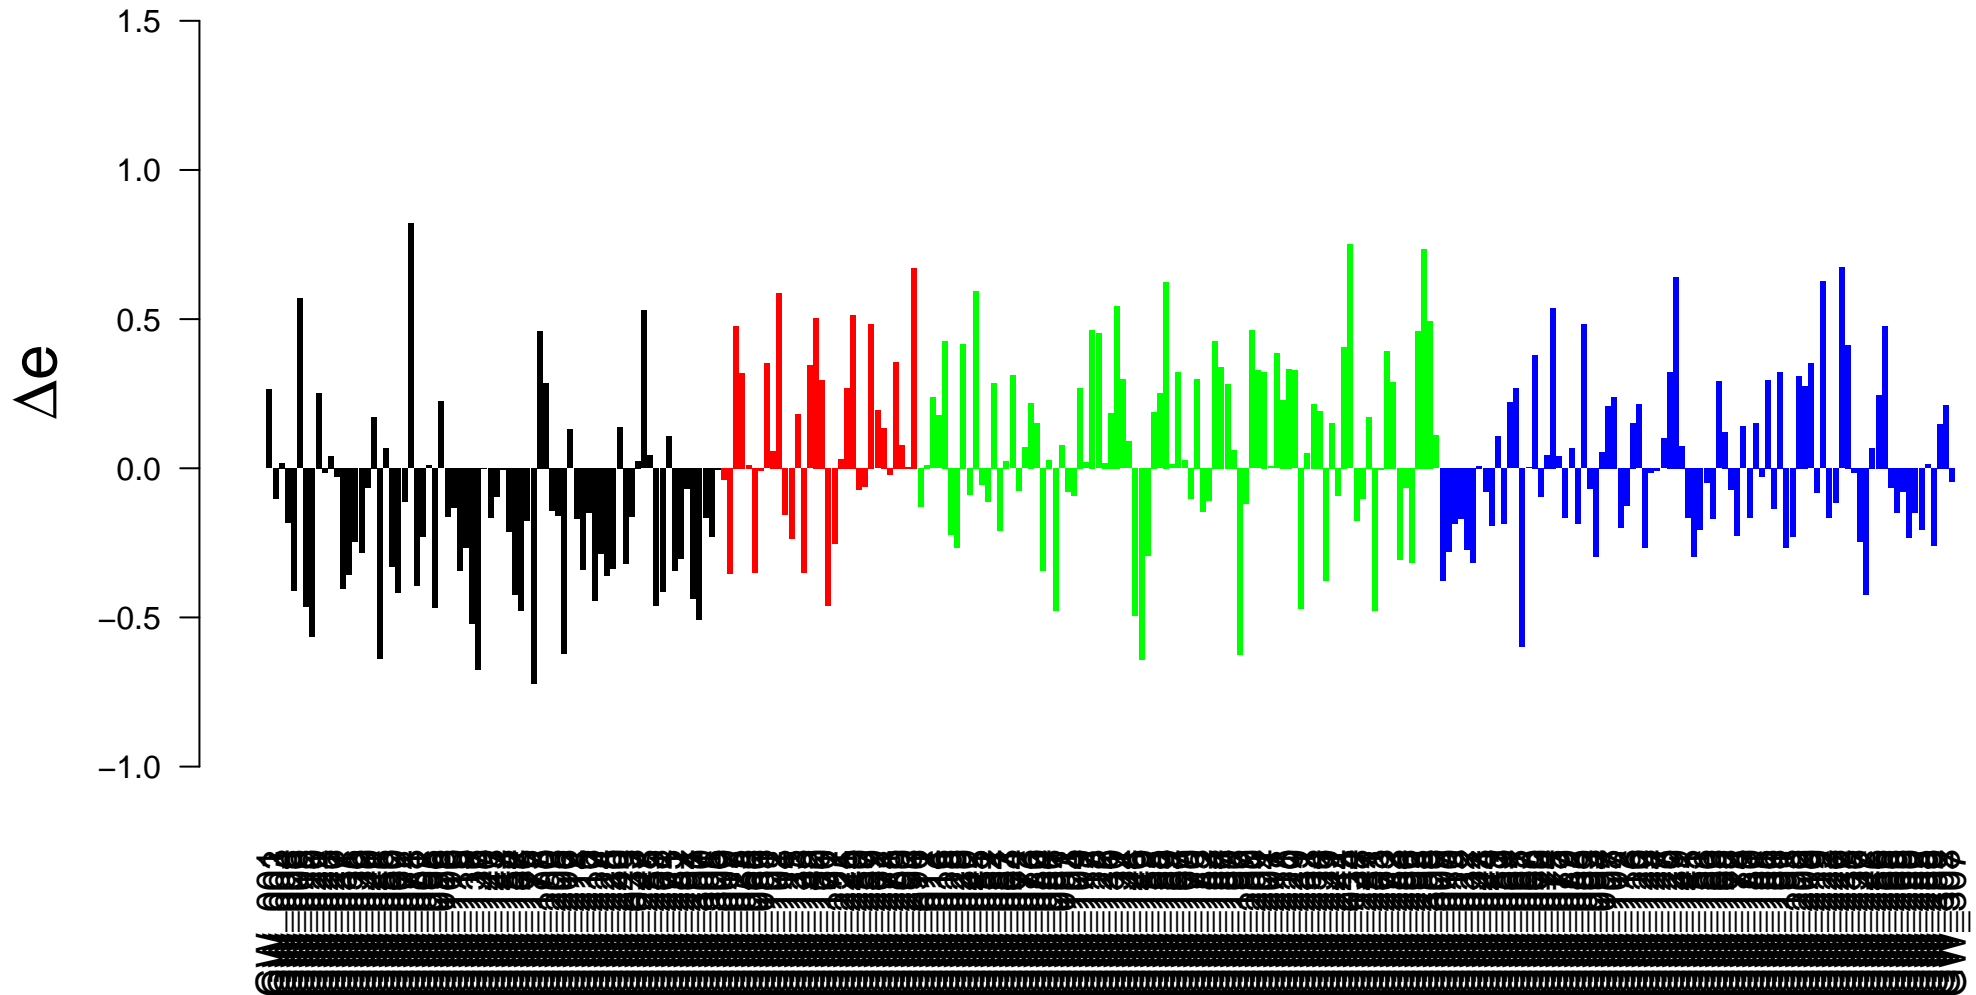

Expression of positive regulation of transcription elongation from RNA polymerase II promoter in Spot I

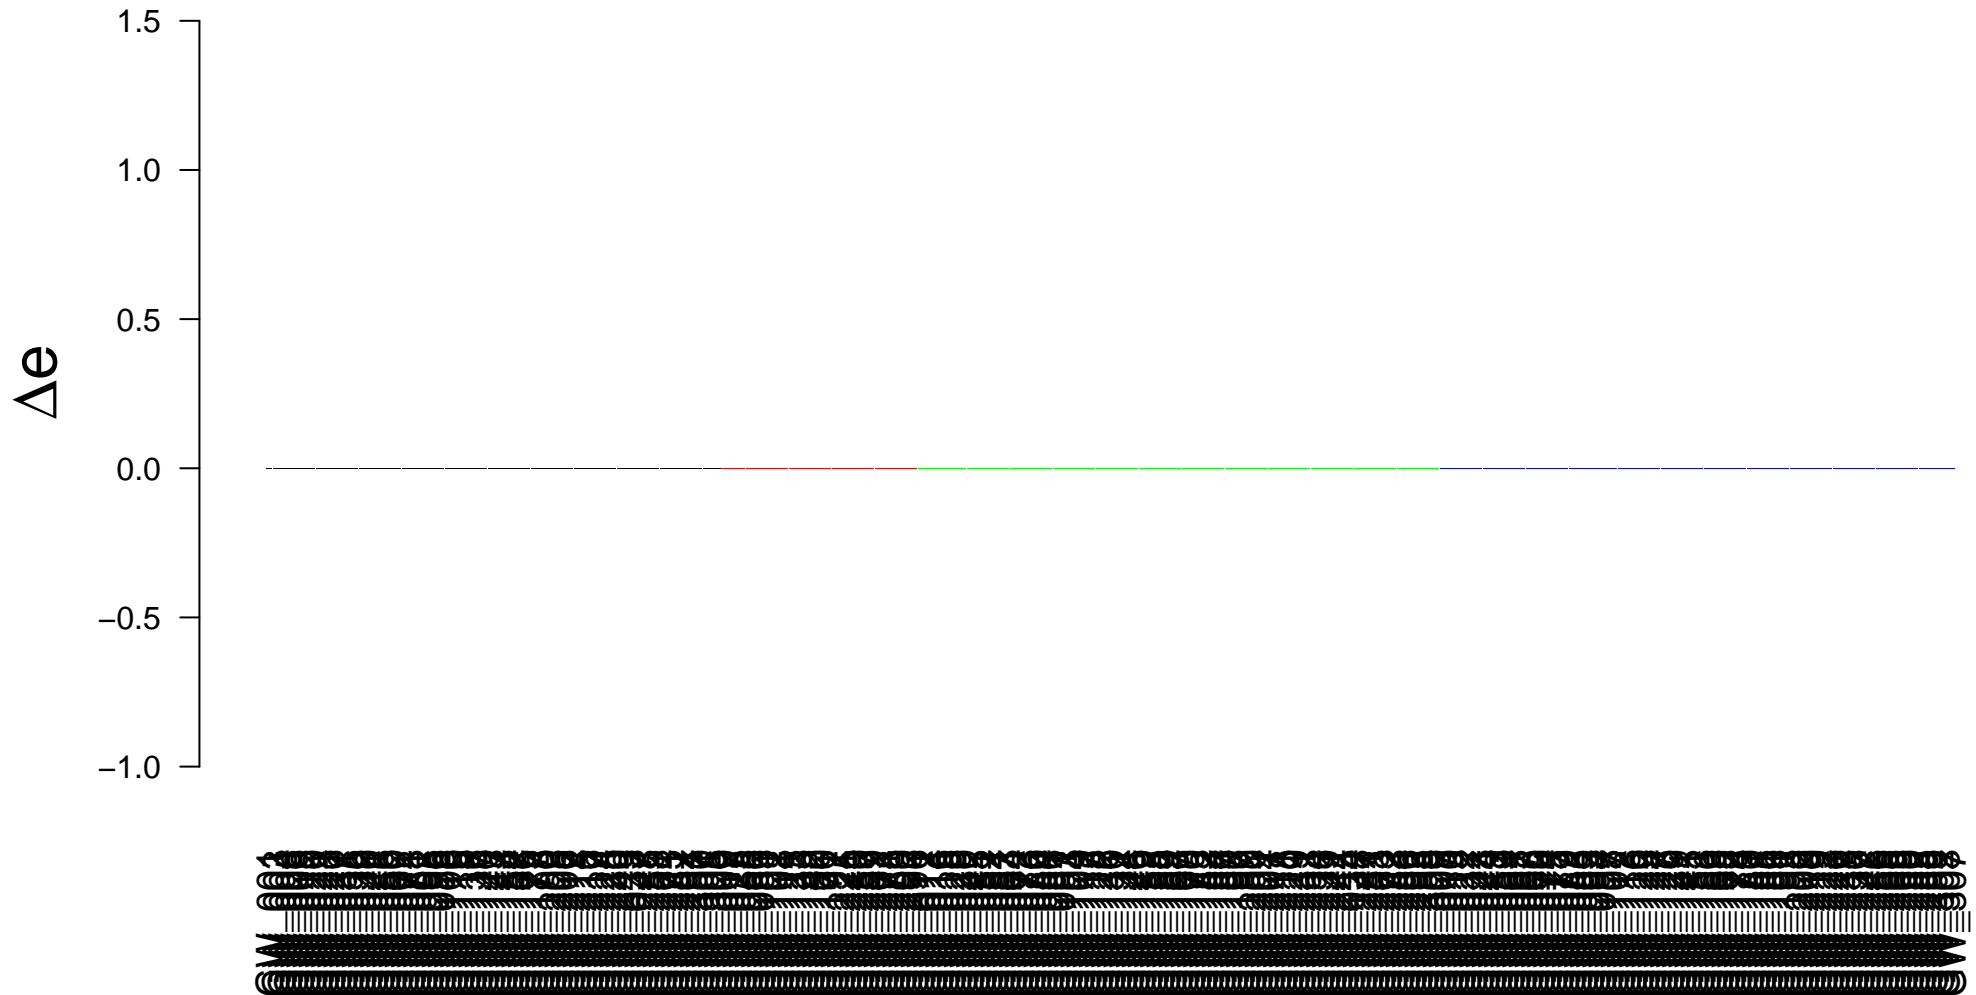

# Expression of positive regulation of transcription elongation from RNA polymerase II promoter in Spot J

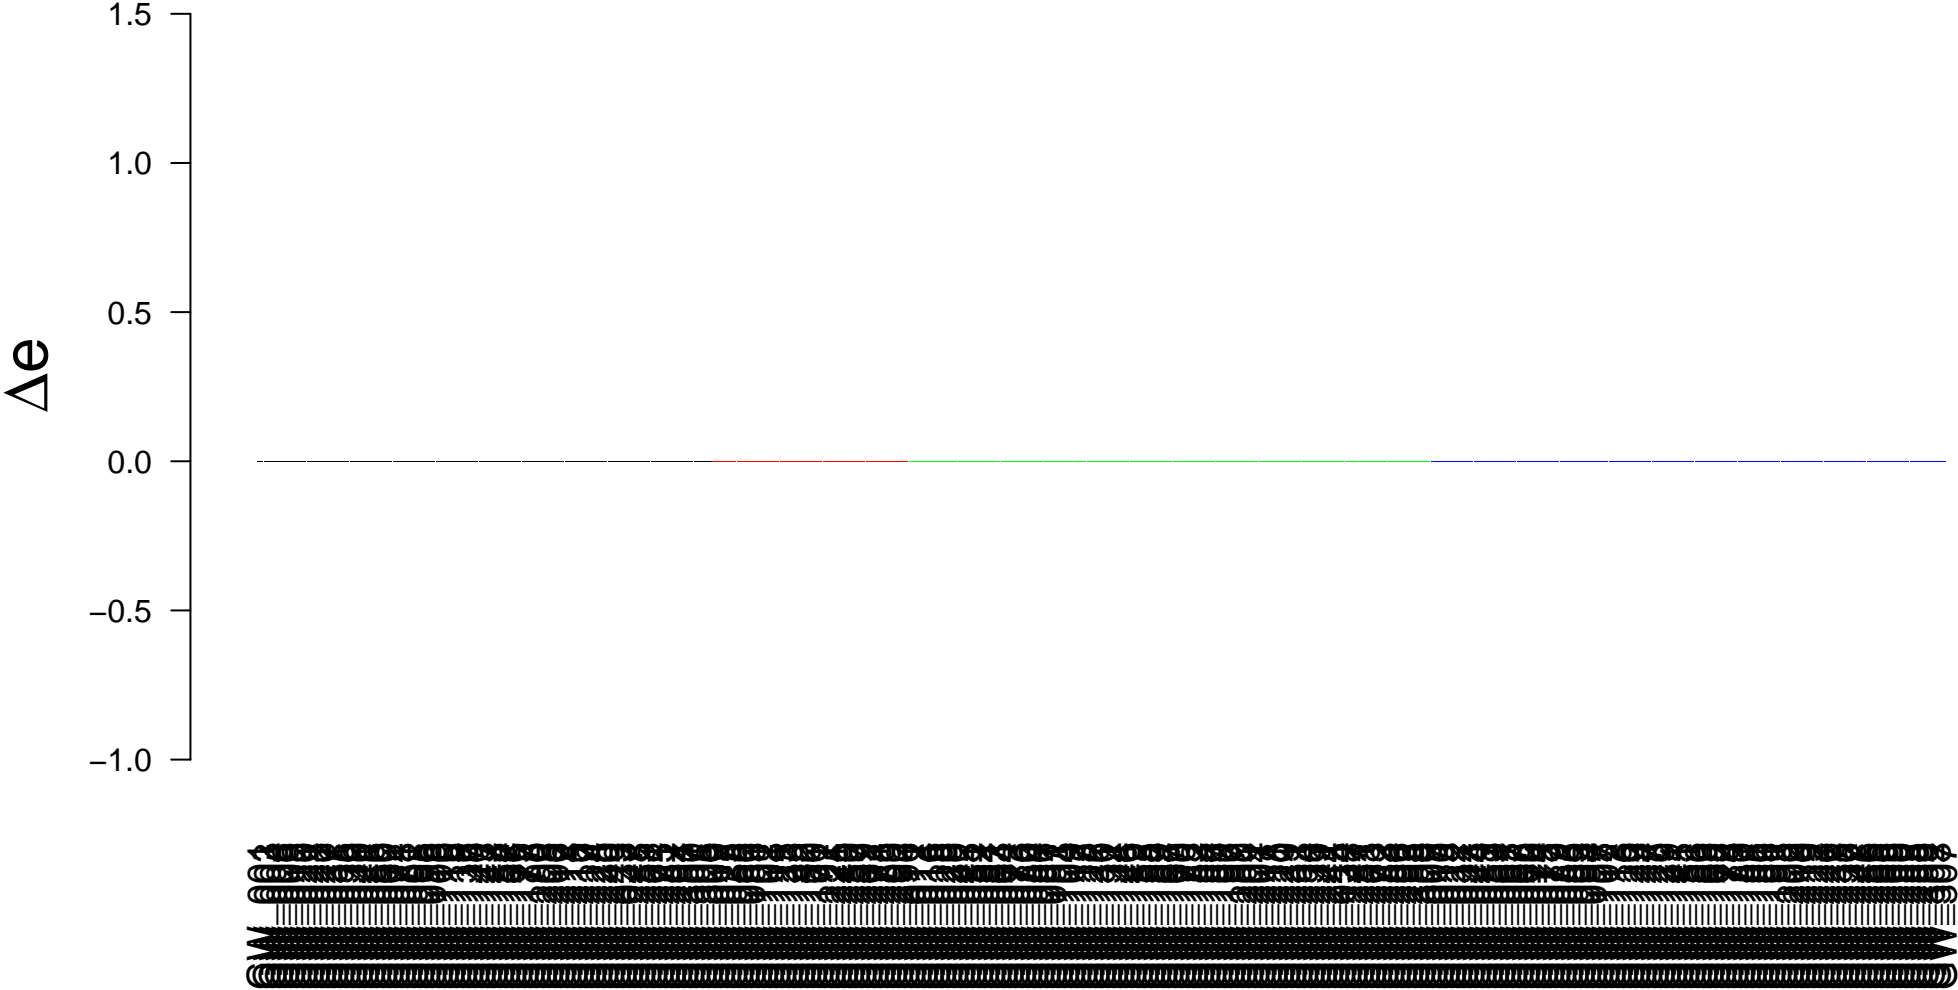

# Expression of positive regulation of transcription elongation from RNA polymerase II promoter in Spot K

# Expression of positive regulation of transcription elongation from RNA polymerase II promoter in Spot L

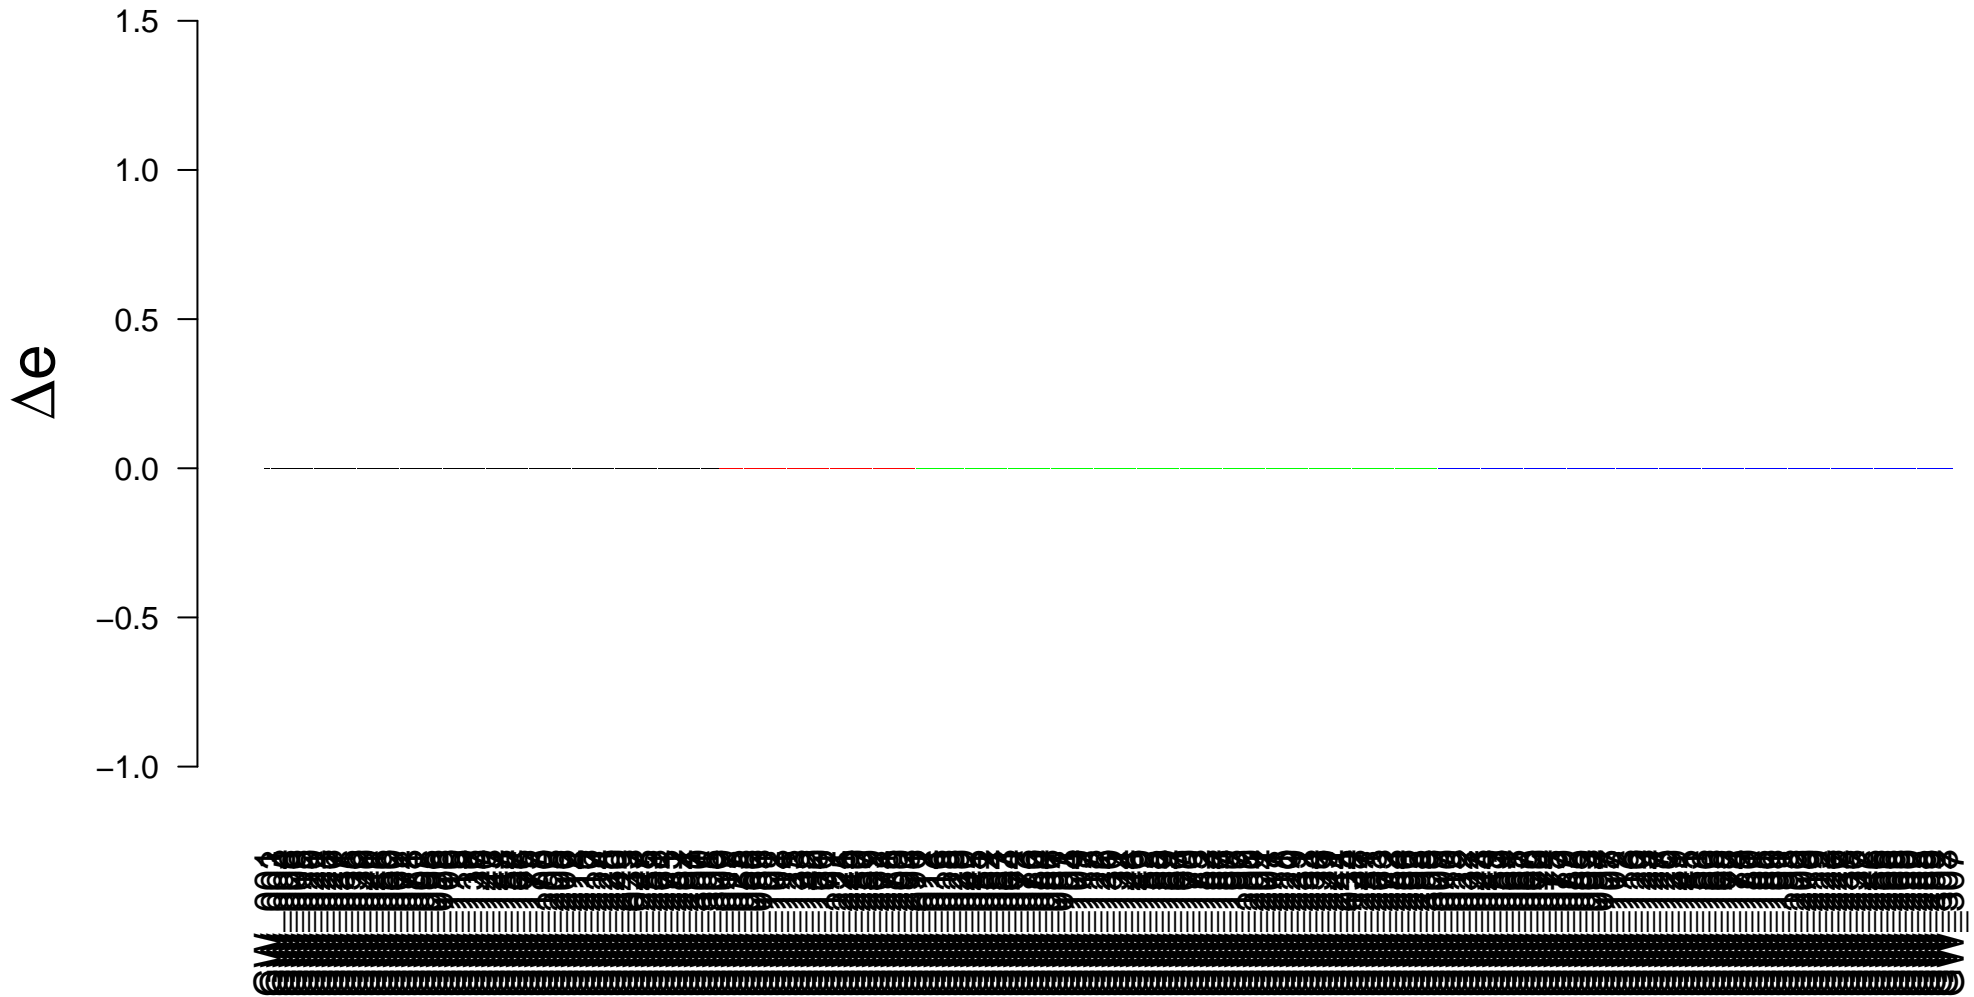

Expression of positive regulation of transcription elongation from RNA polymerase II promoter in Spot M

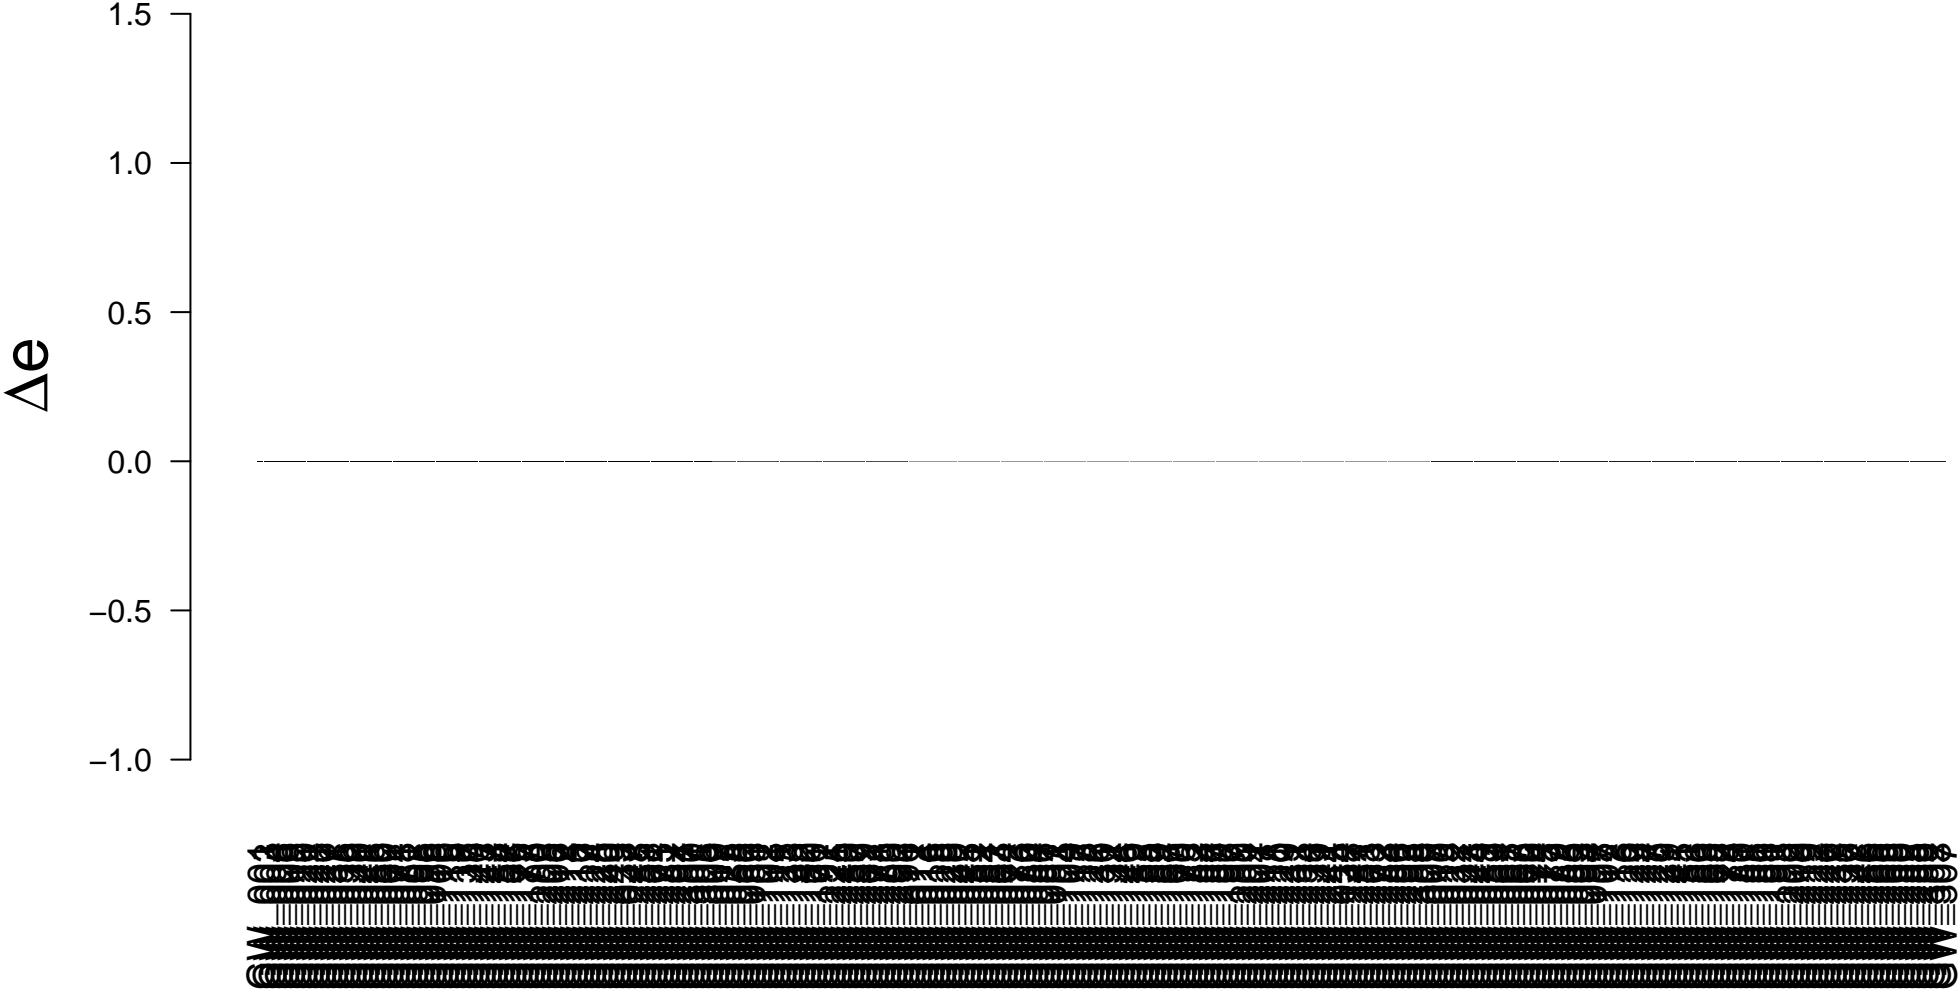

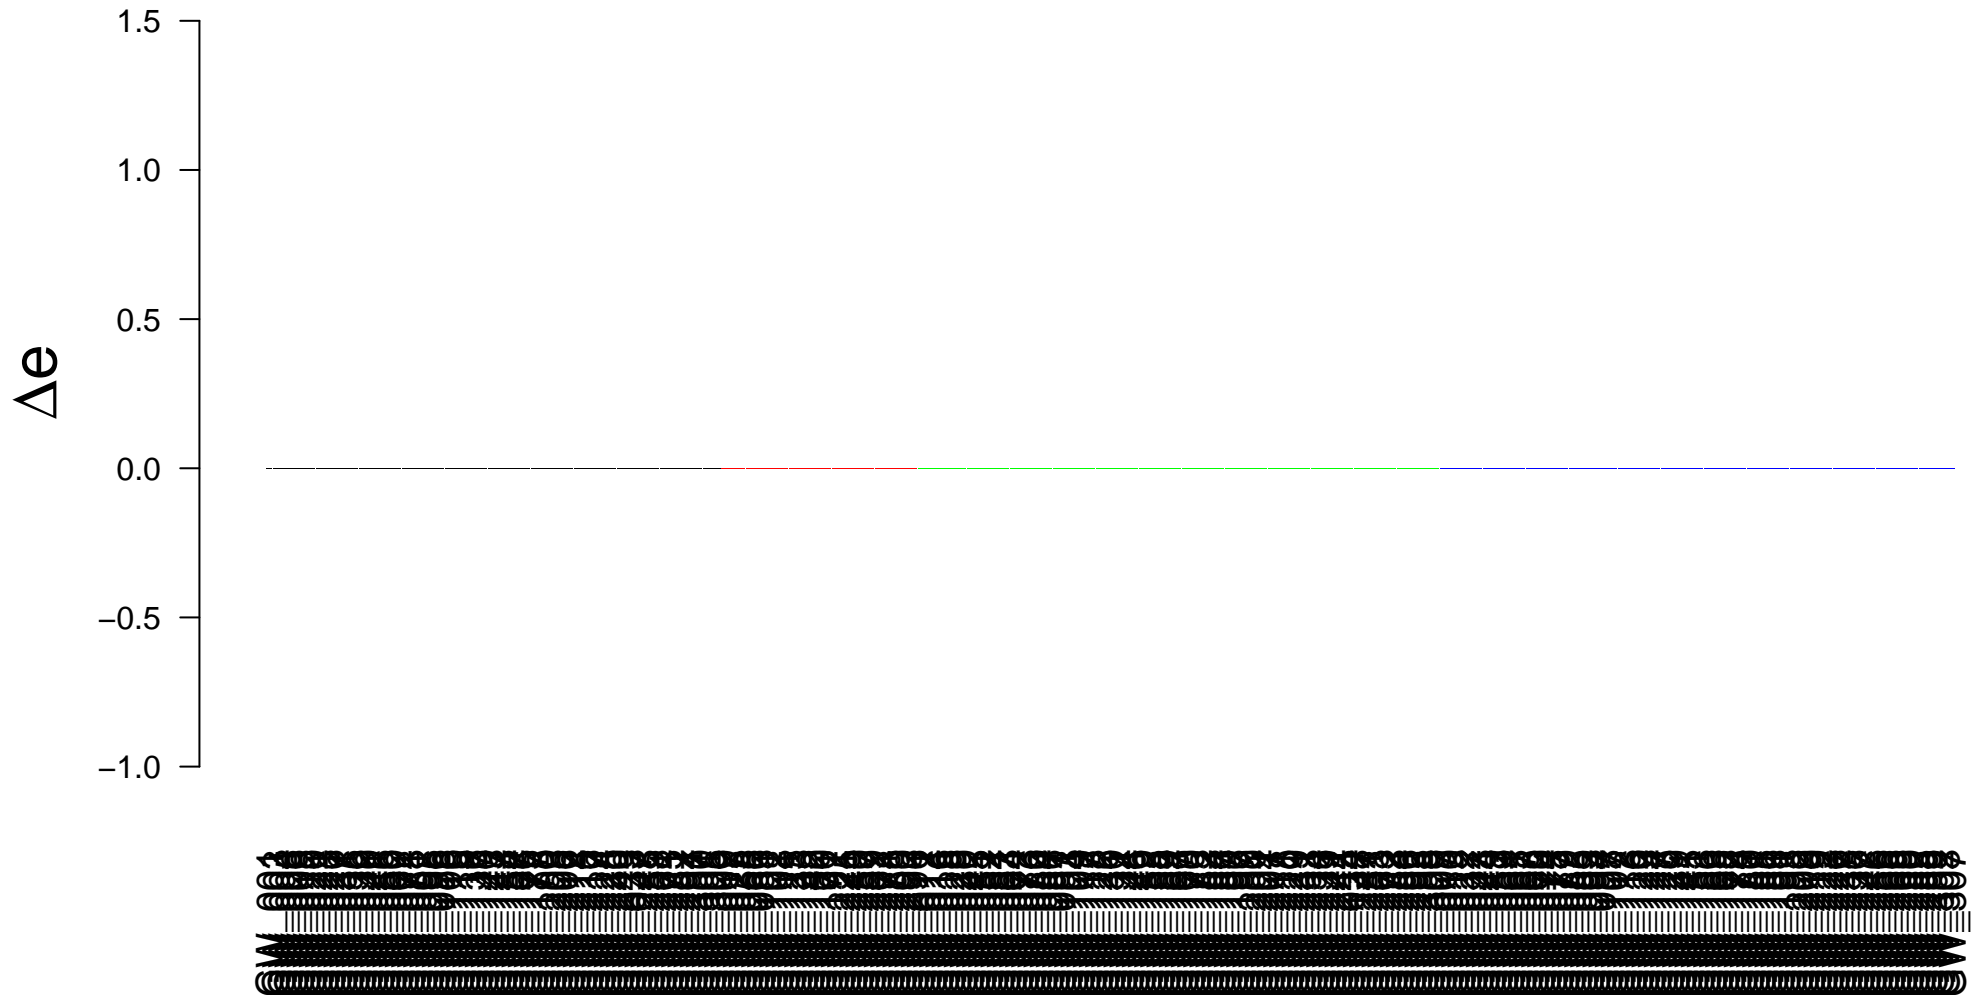

# Expression of positive regulation of transcription elongation from RNA polymerase II promoter in Spot N

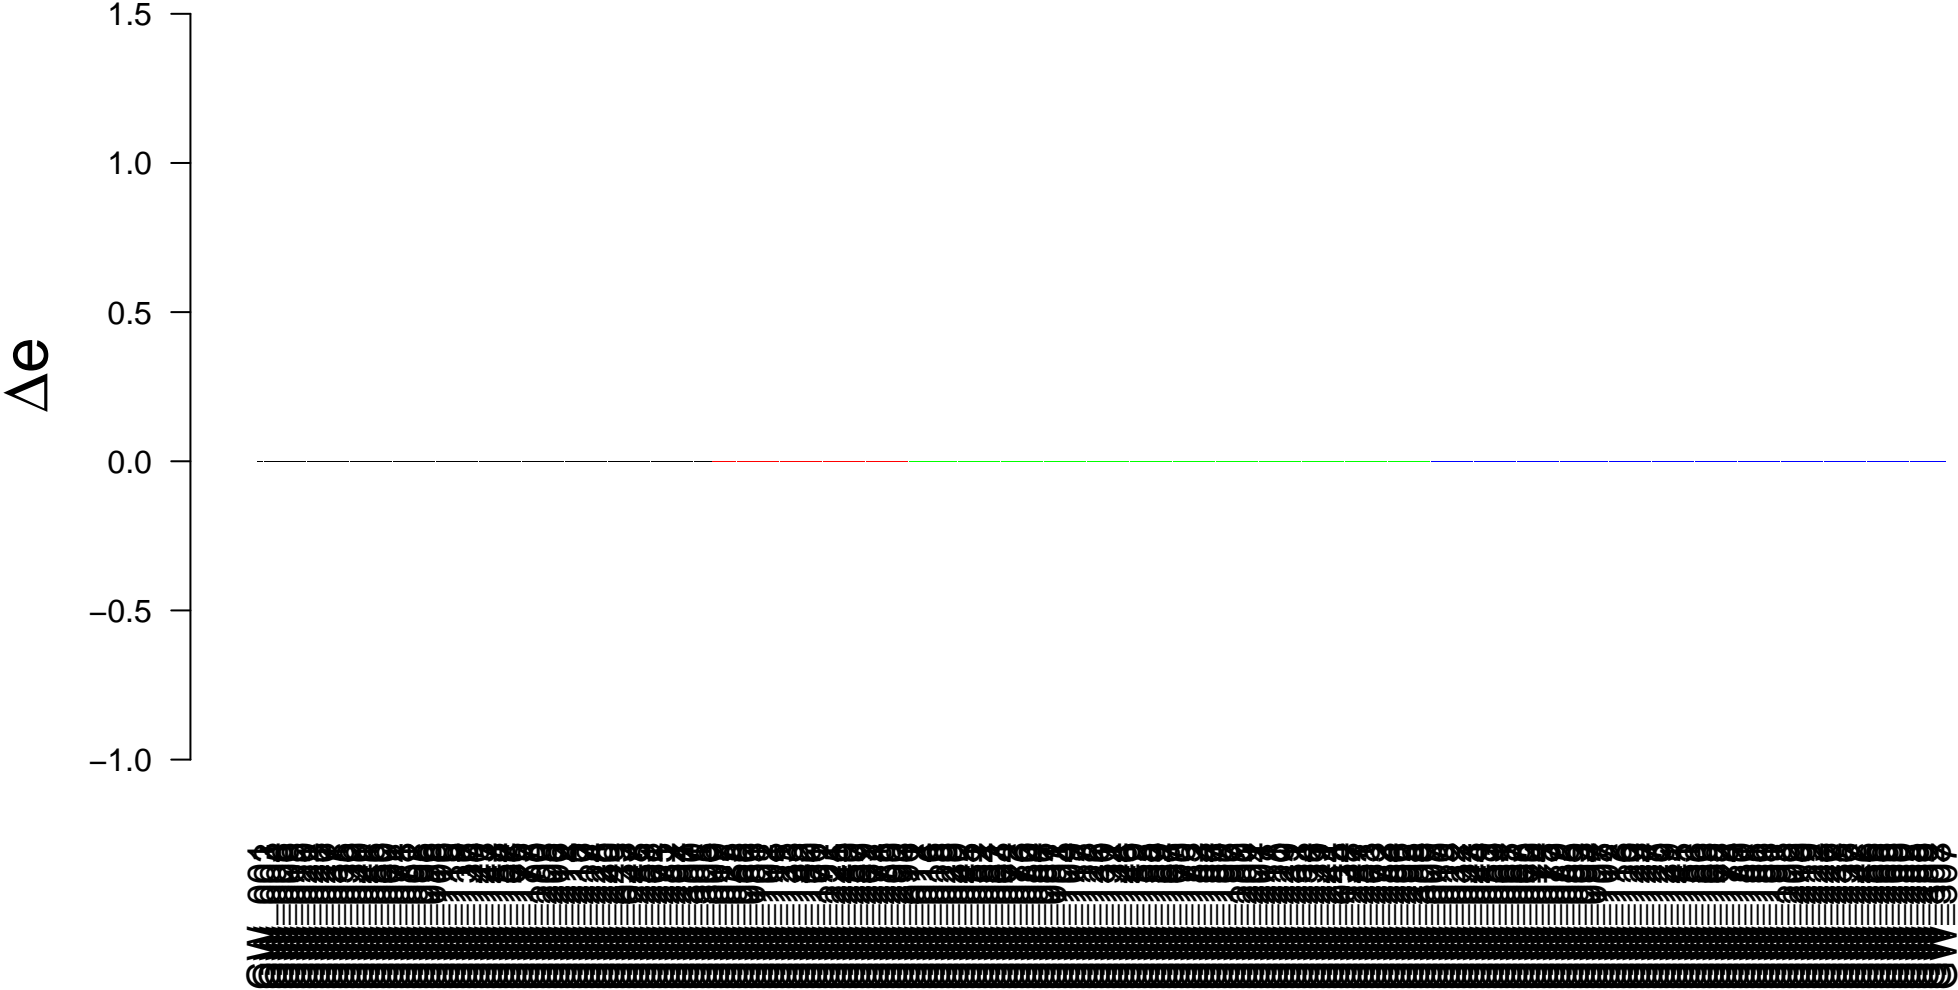

Expression of positive regulation of transcription elongation from RNA polymerase II promoter in Spot O

# Expression of positive regulation of transcription elongation from RNA polymerase II promoter in Spot P

Expression of positive regulation of transcription elongation from RNA polymerase II promoter in Spot Q

# Expression of positive regulation of transcription elongation from RNA polymerase II promoter in Spot R
