

positive regulation of viral genome replication

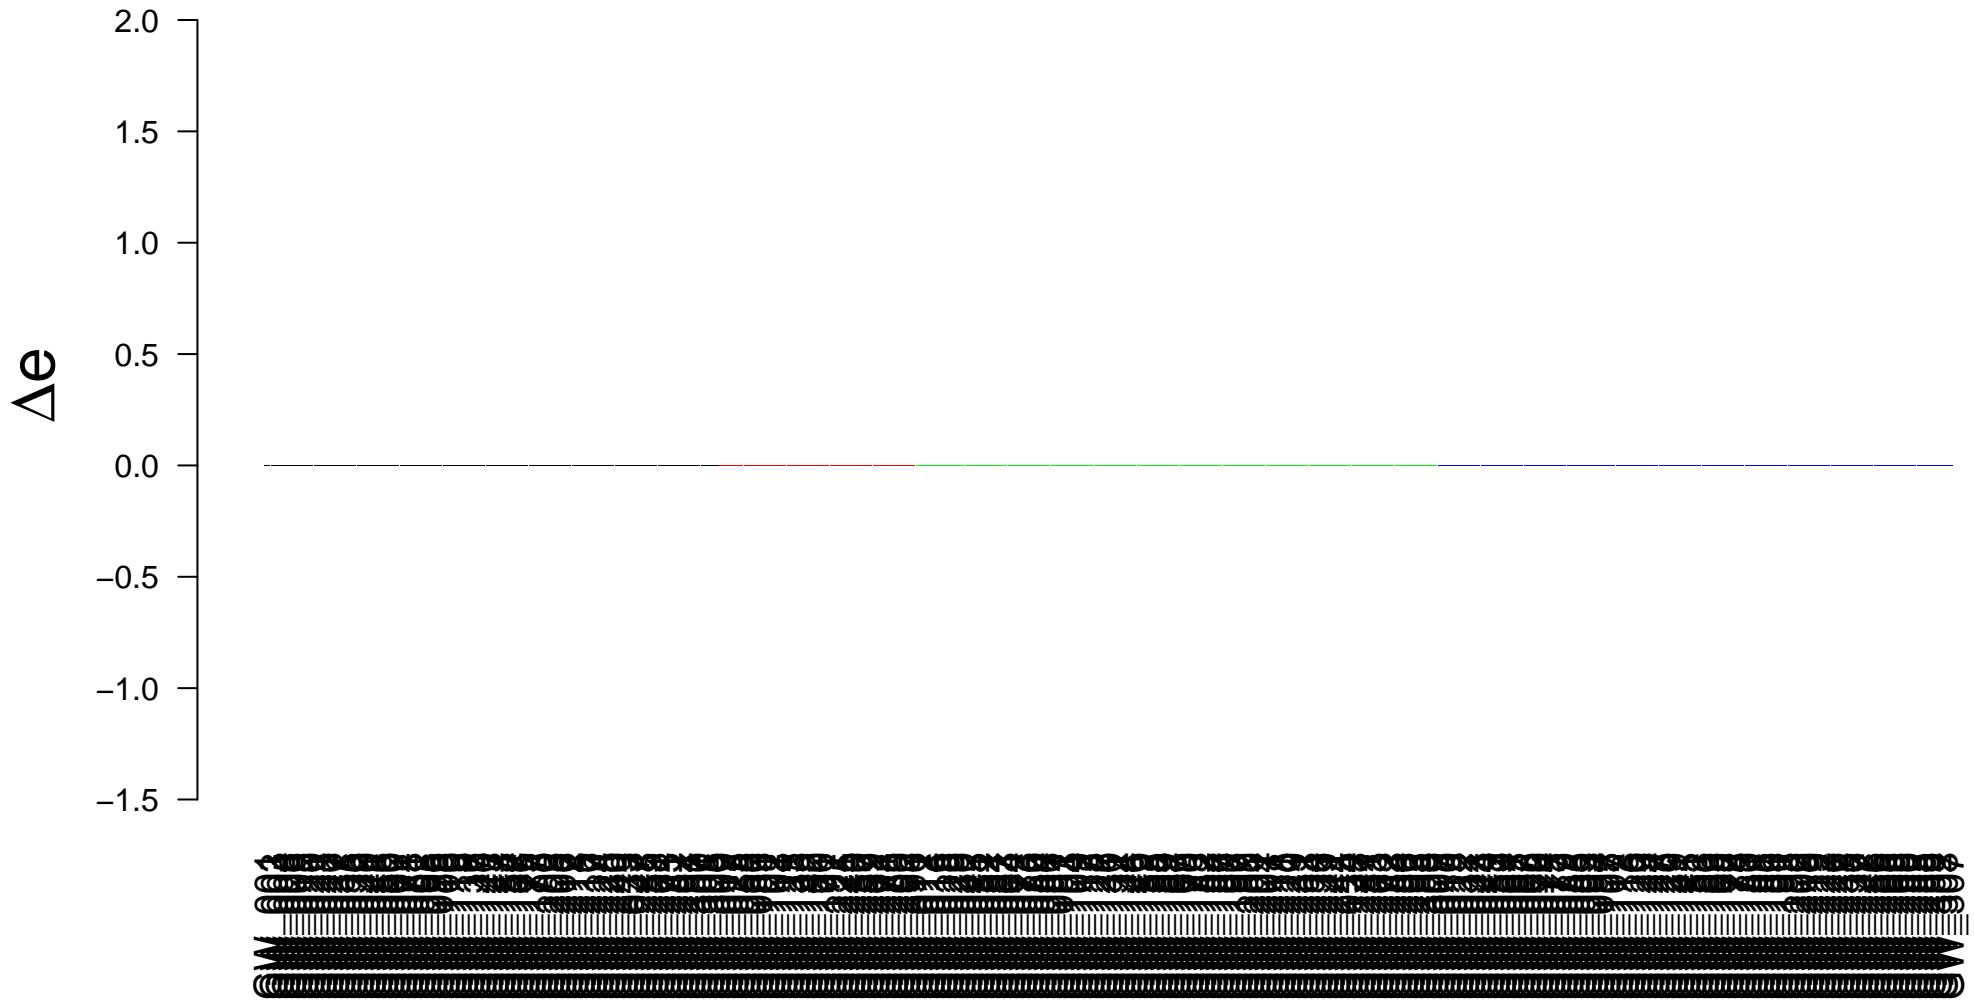

positive regulation of viral genome replication

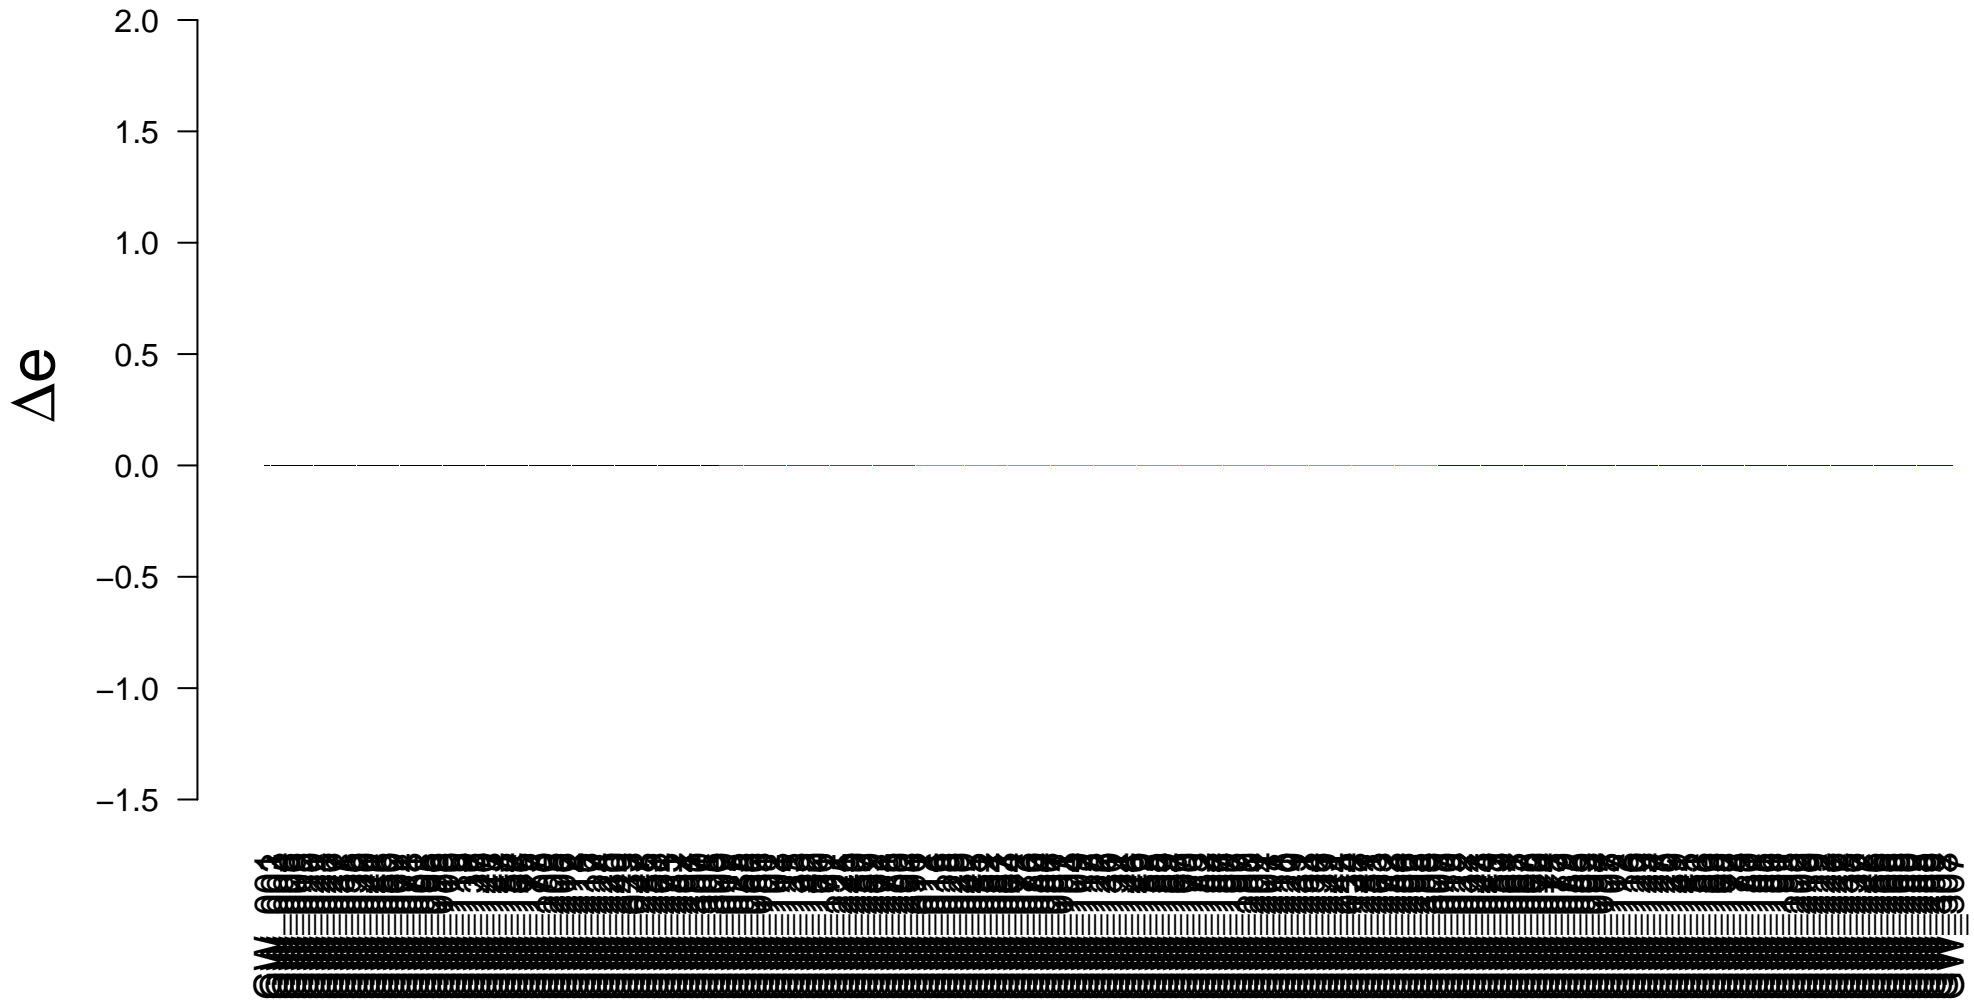

Enrichment in spots: positive regulation of viral genome replication

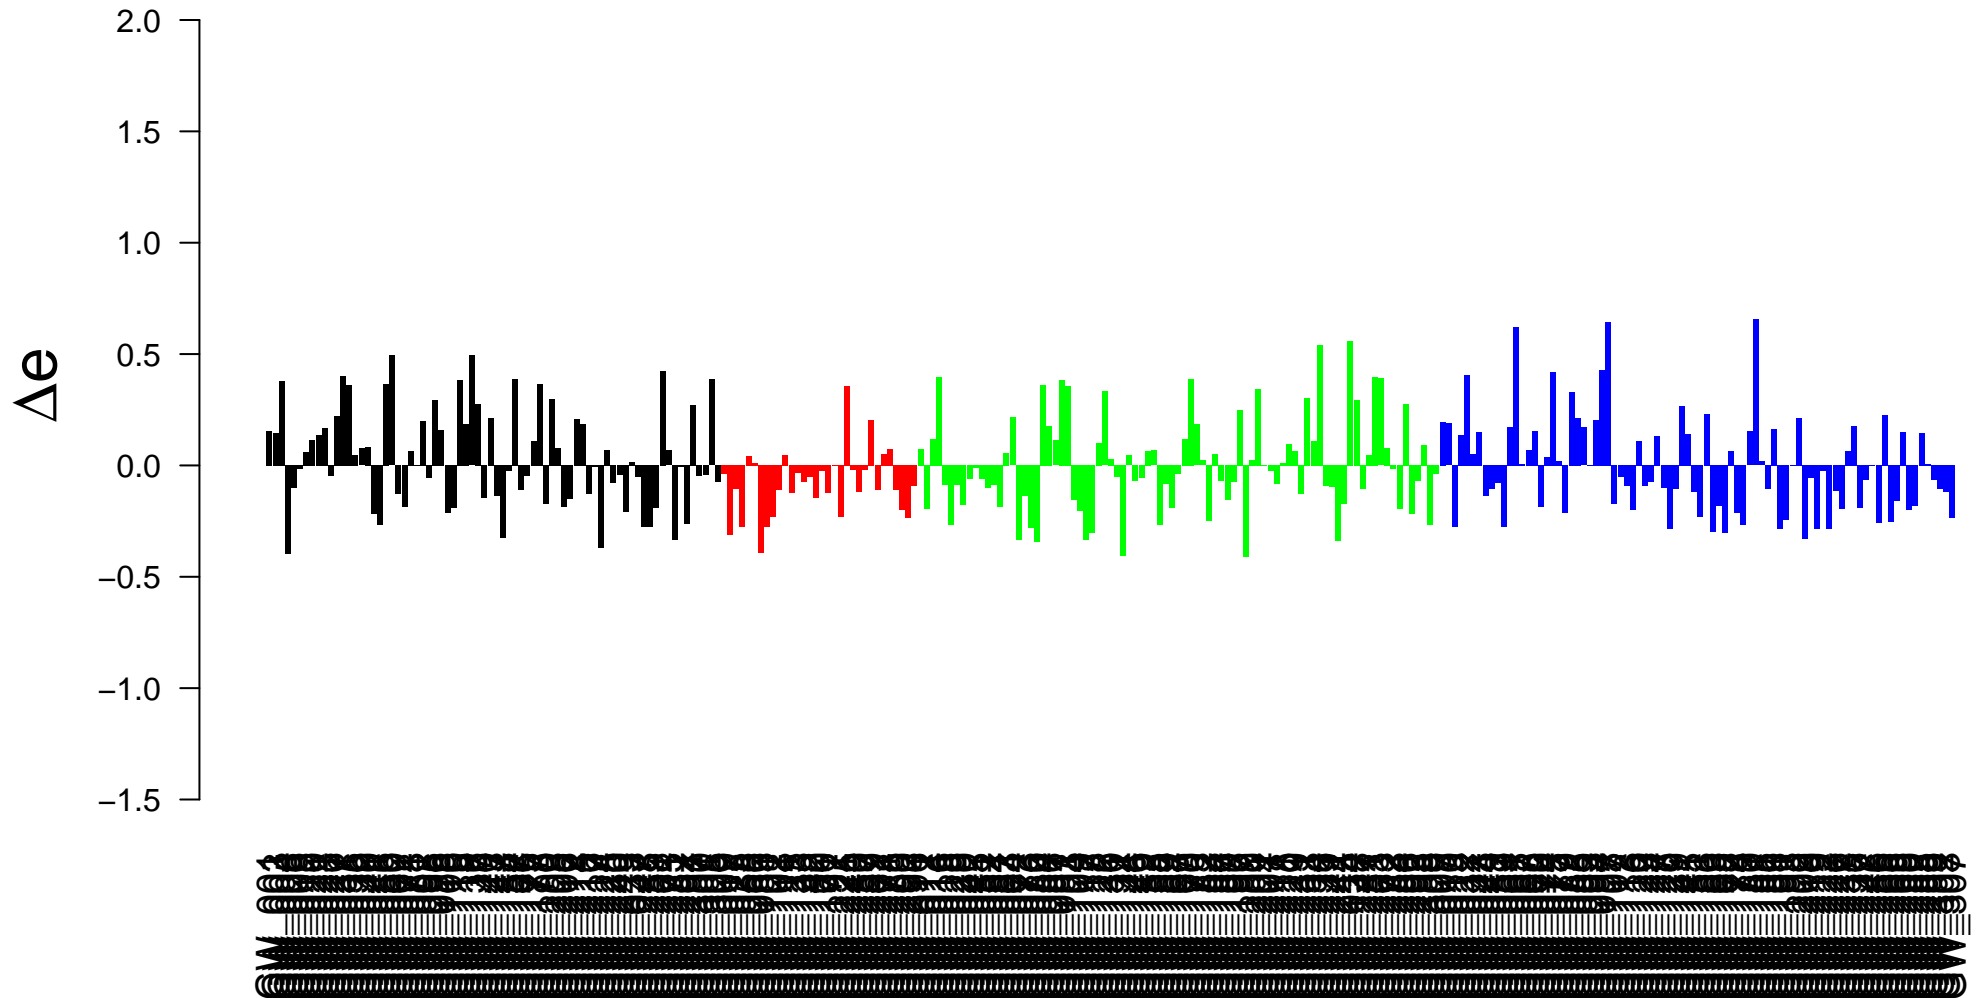

Expression of positive regulation of viral genome replication in Spot A

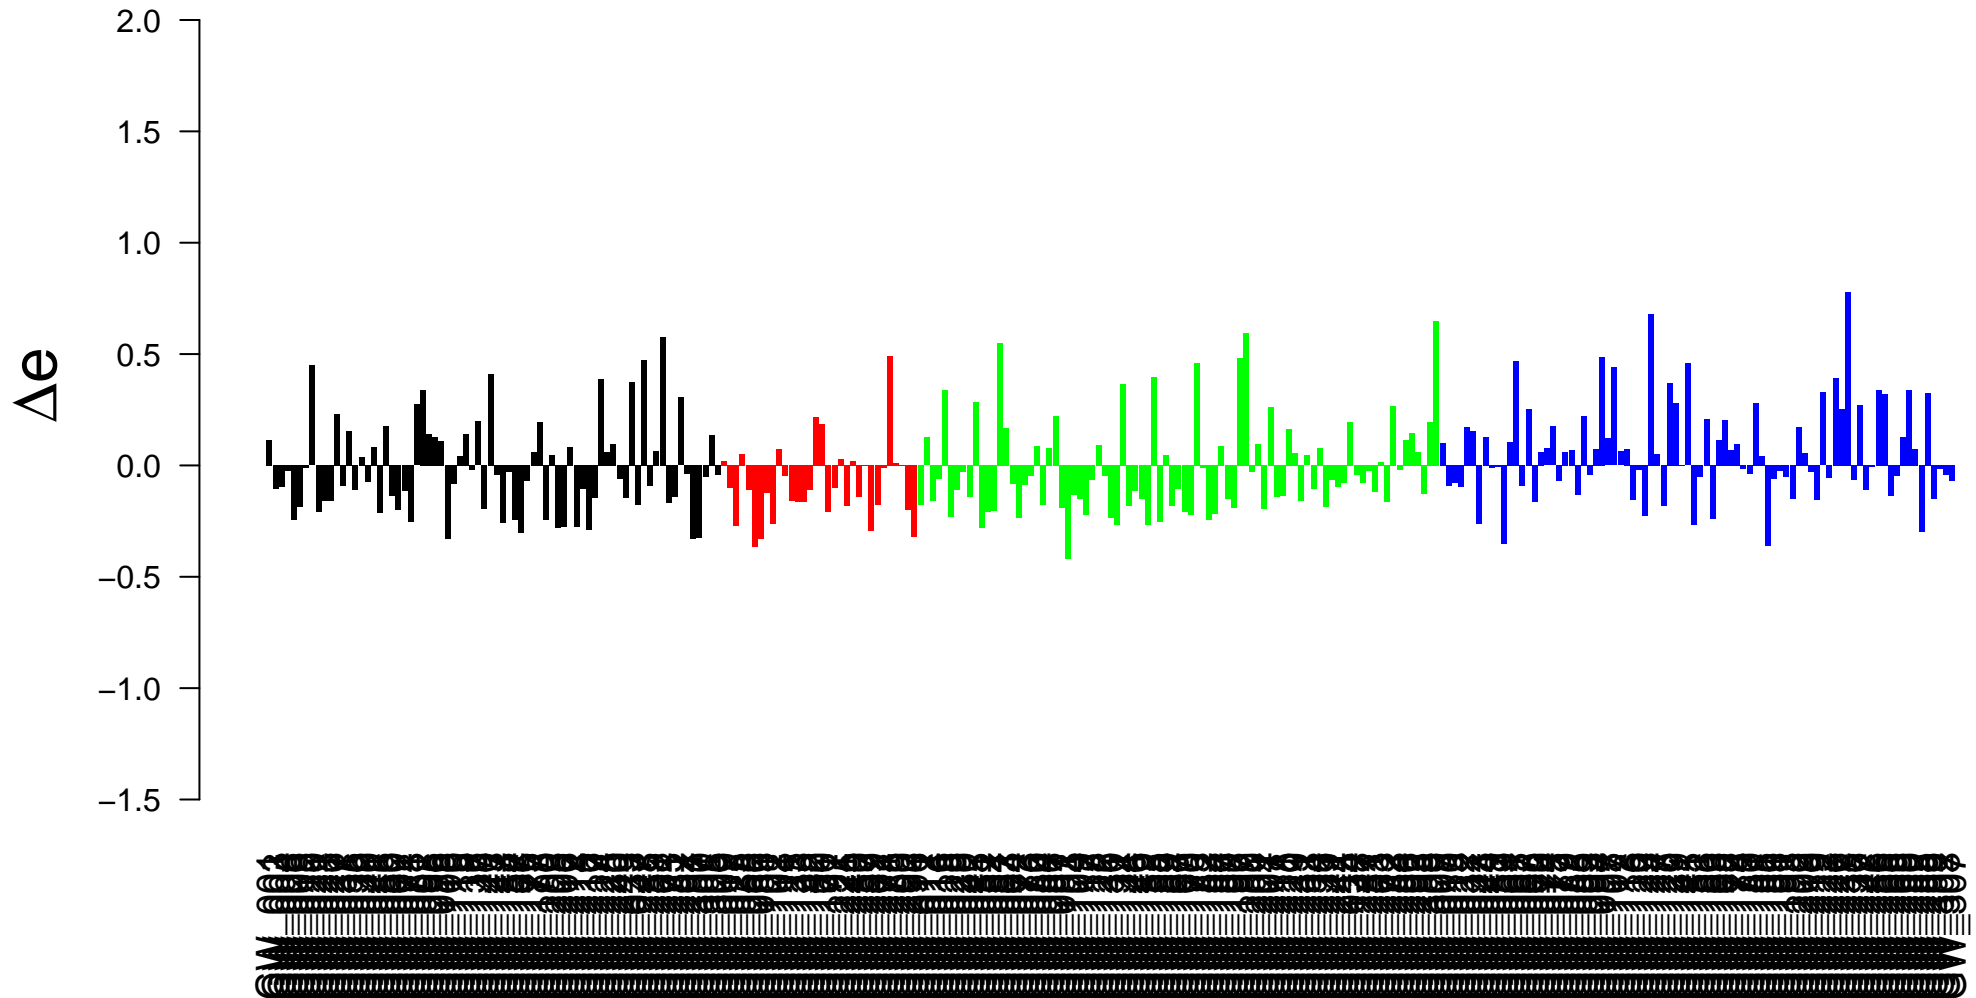

Expression of positive regulation of viral genome replication in Spot B

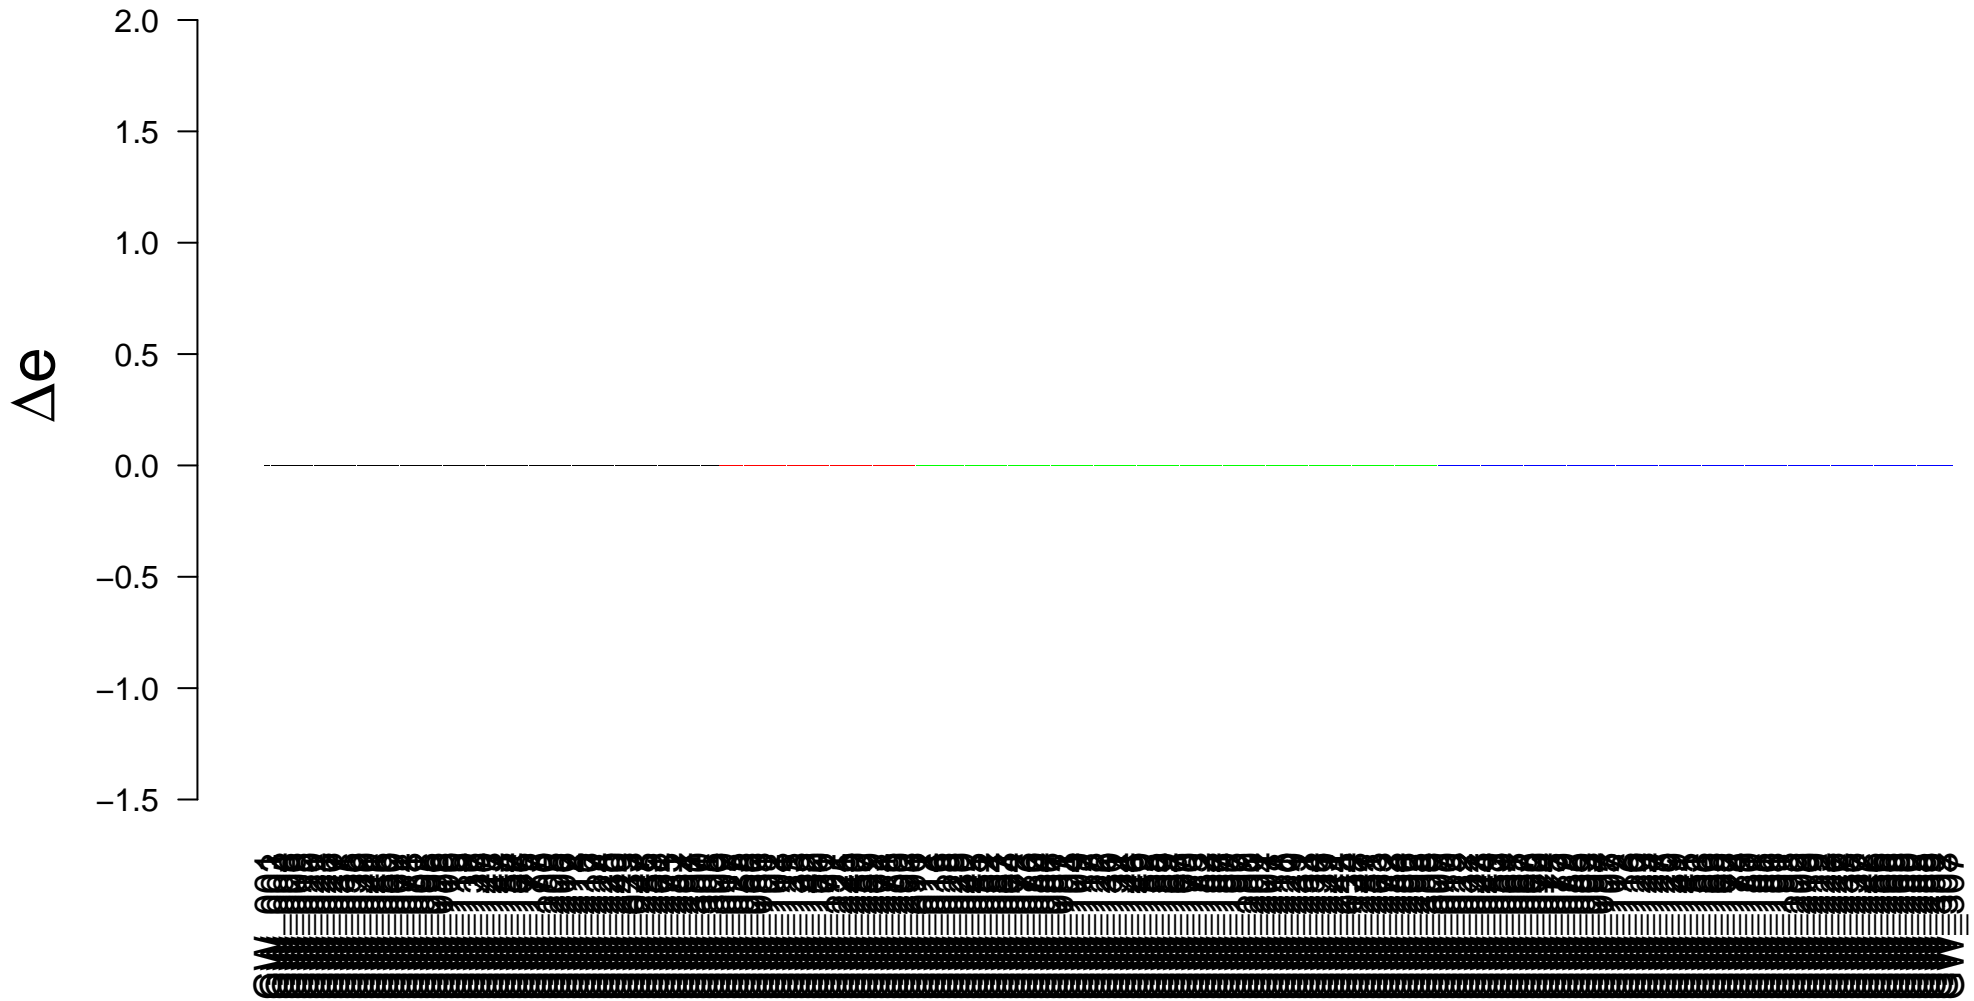

Expression of positive regulation of viral genome replication in Spot C

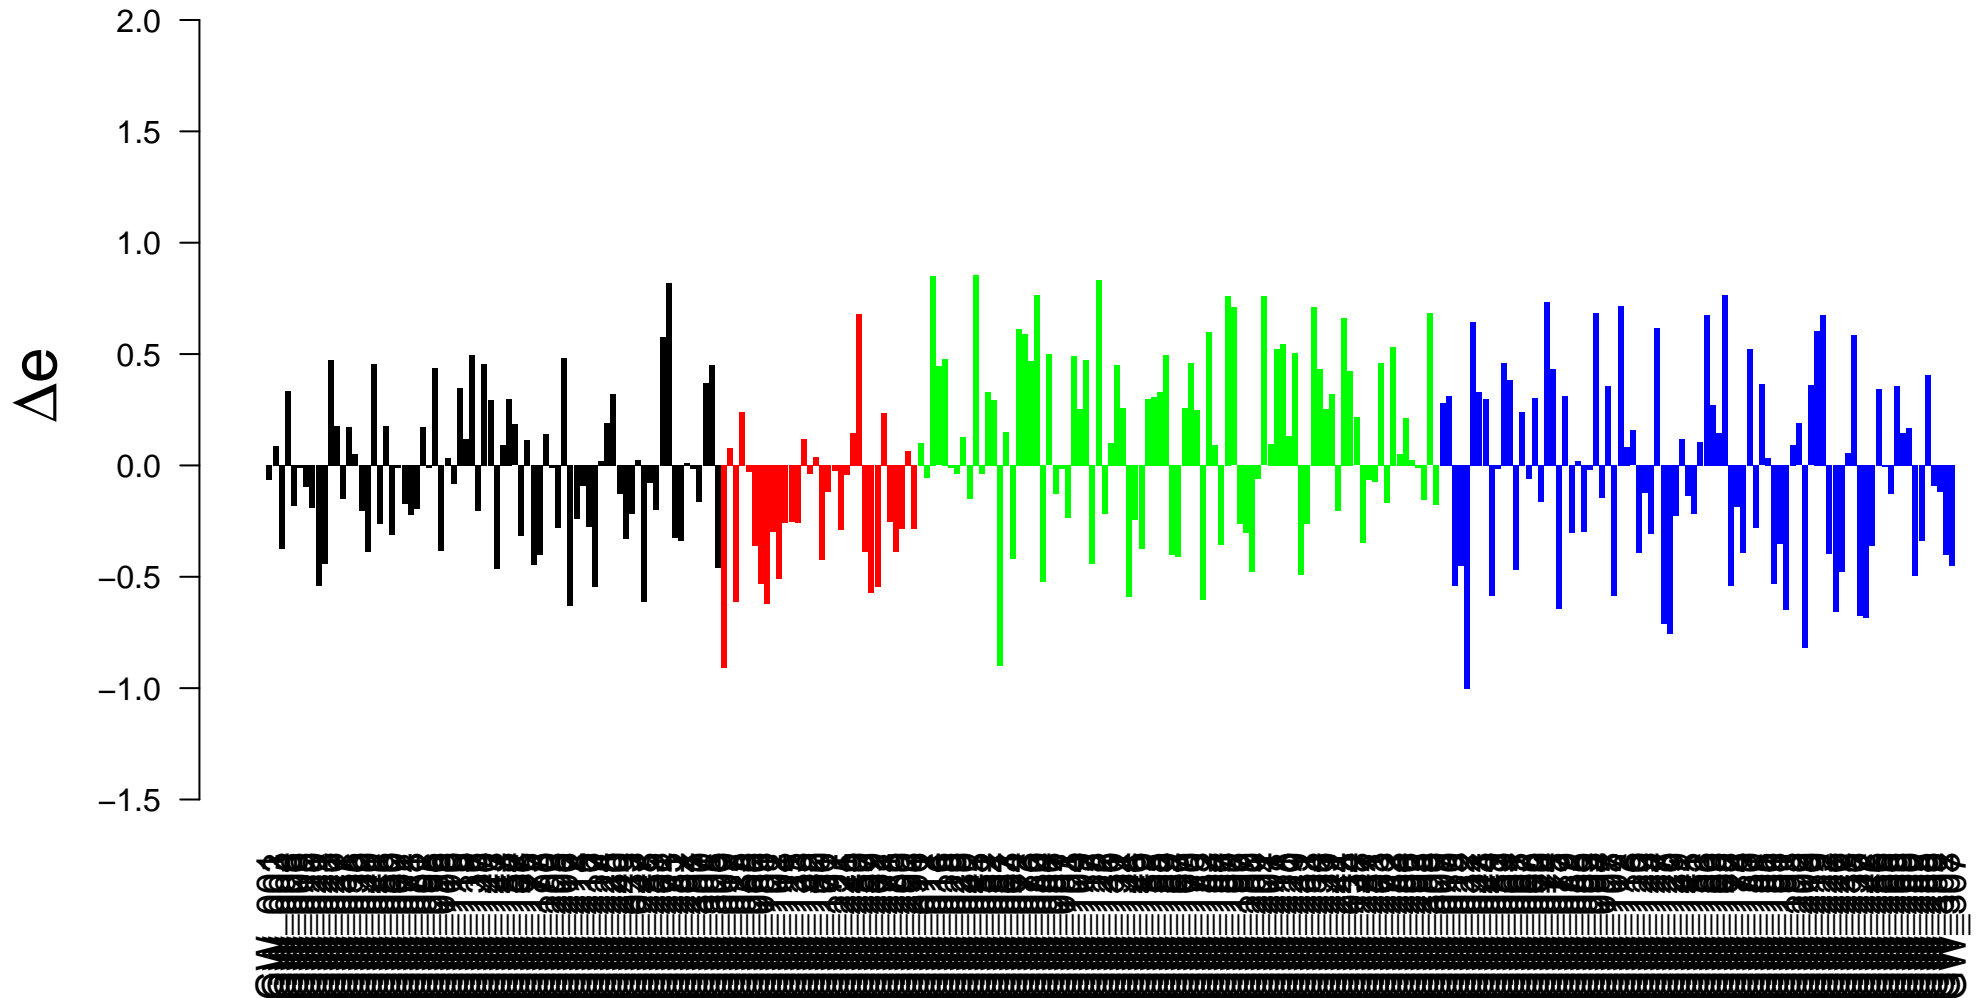

Expression of positive regulation of viral genome replication in Spot D

Expression of positive regulation of viral genome replication in Spot E

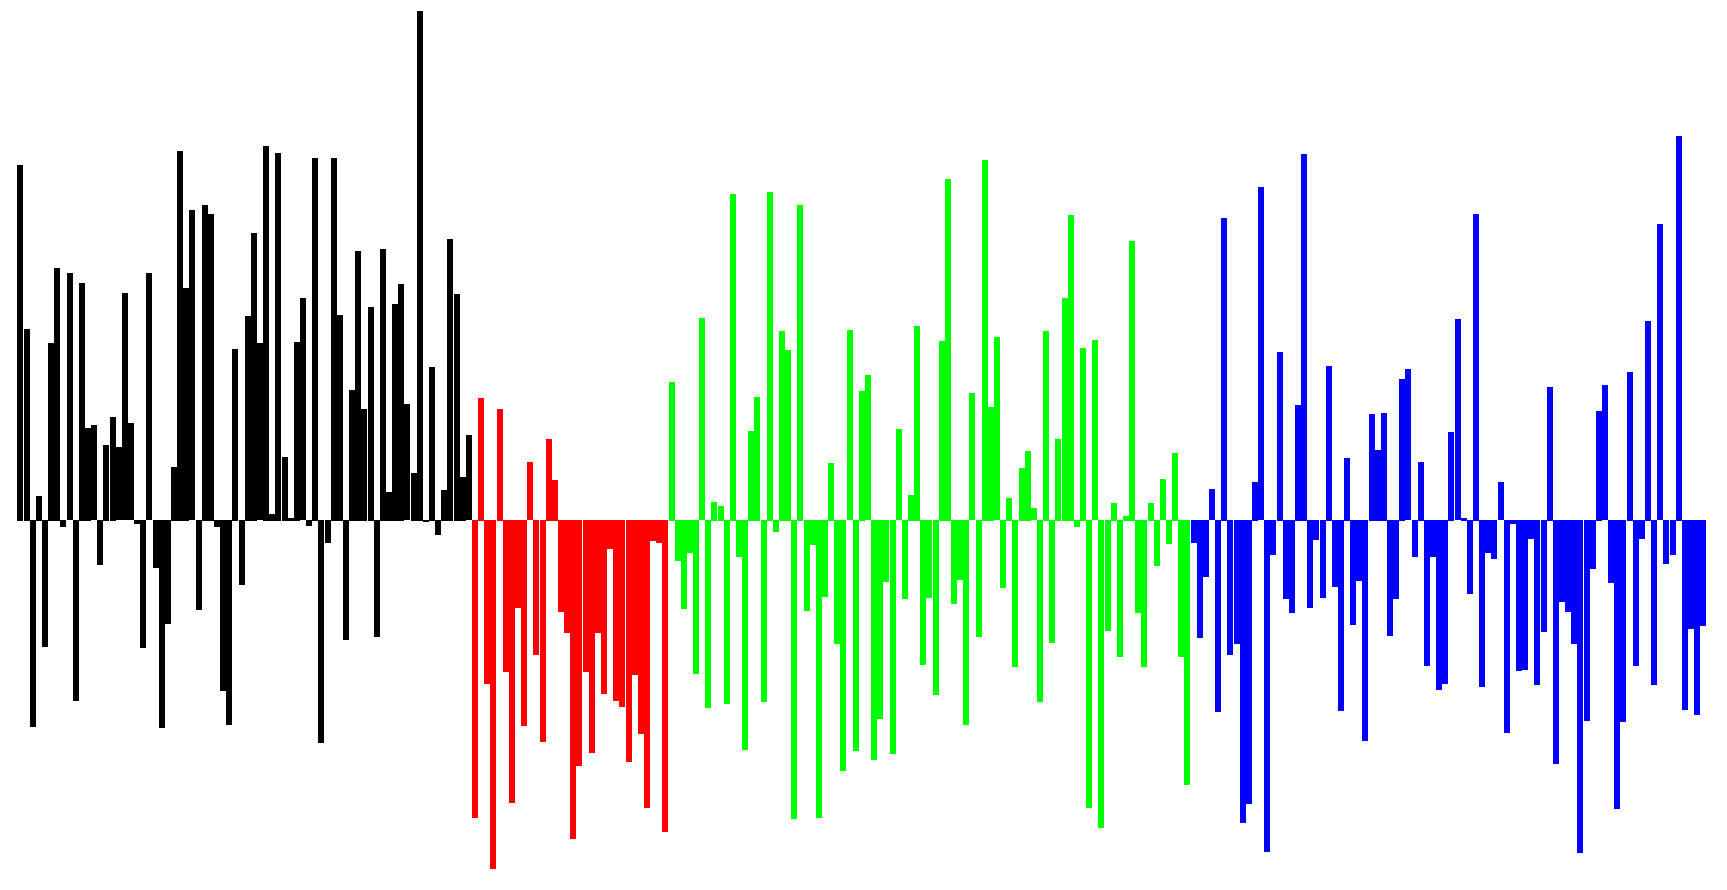

Expression of positive regulation of viral genome replication in Spot F

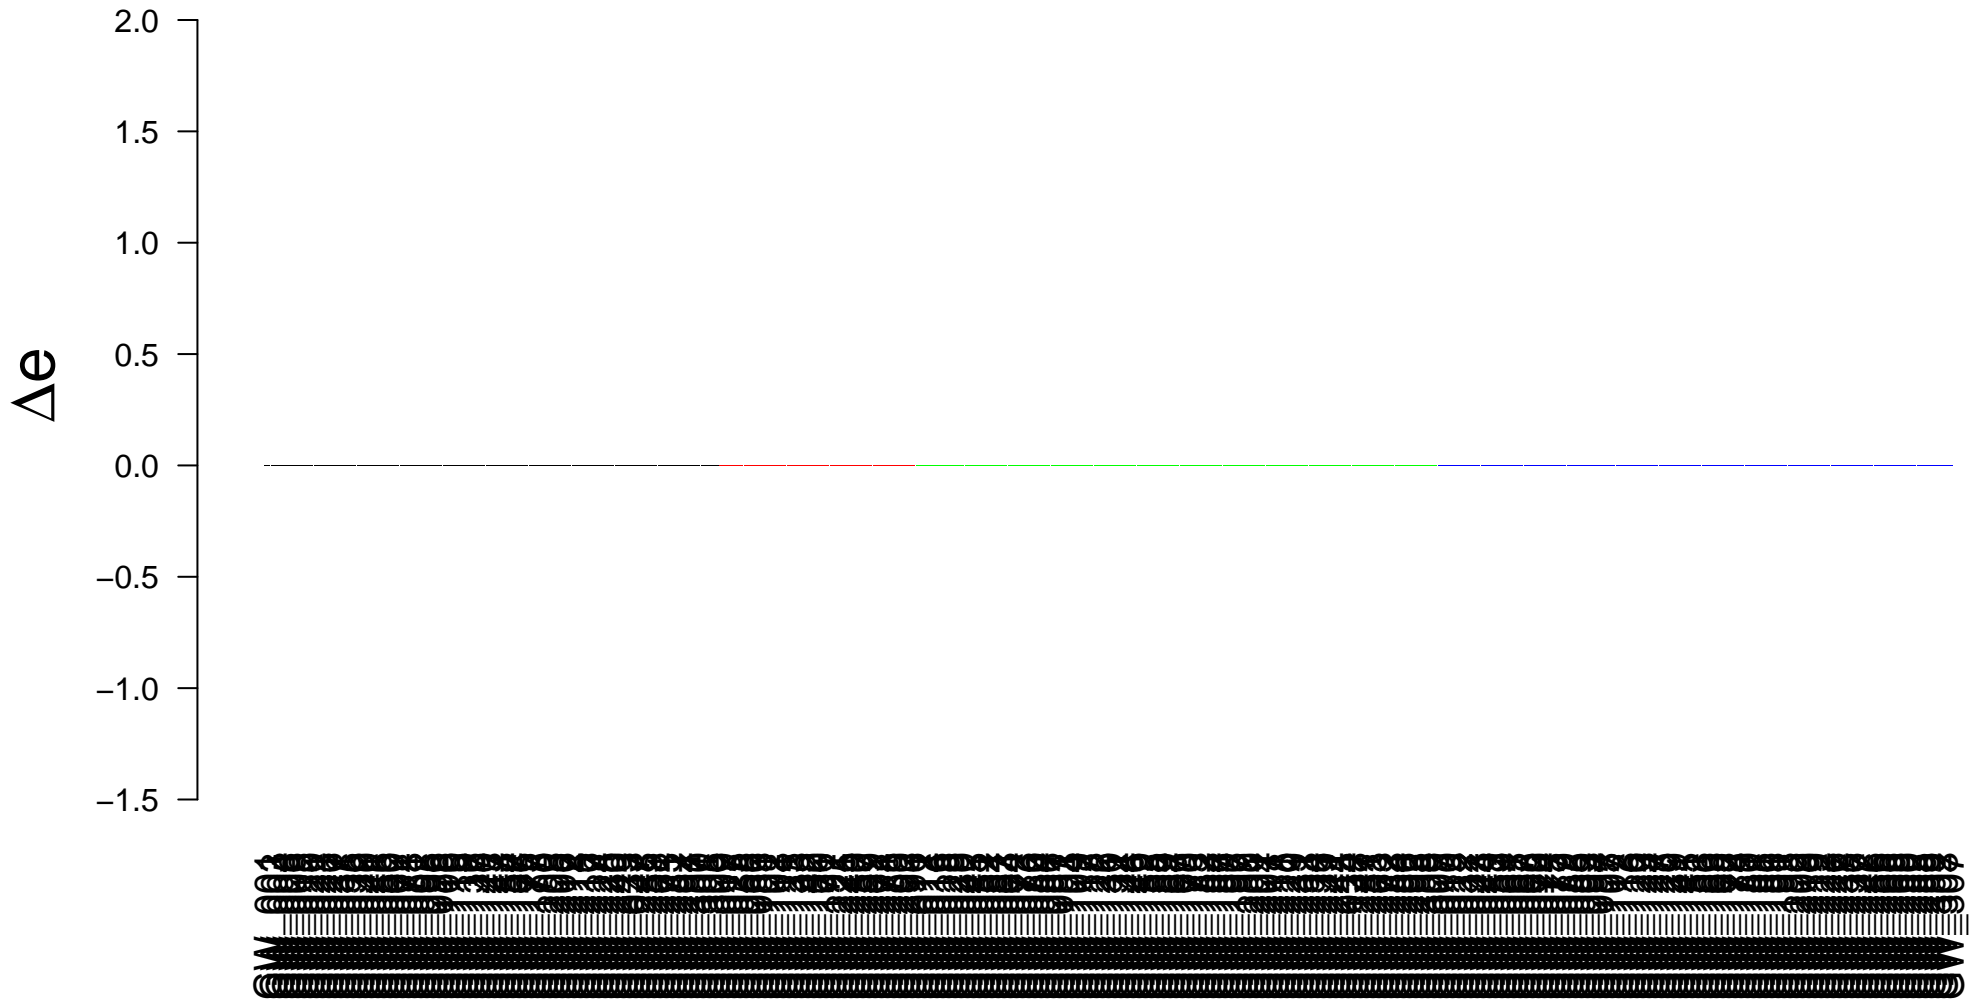

Expression of positive regulation of viral genome replication in Spot G

Expression of positive regulation of viral genome replication in Spot H

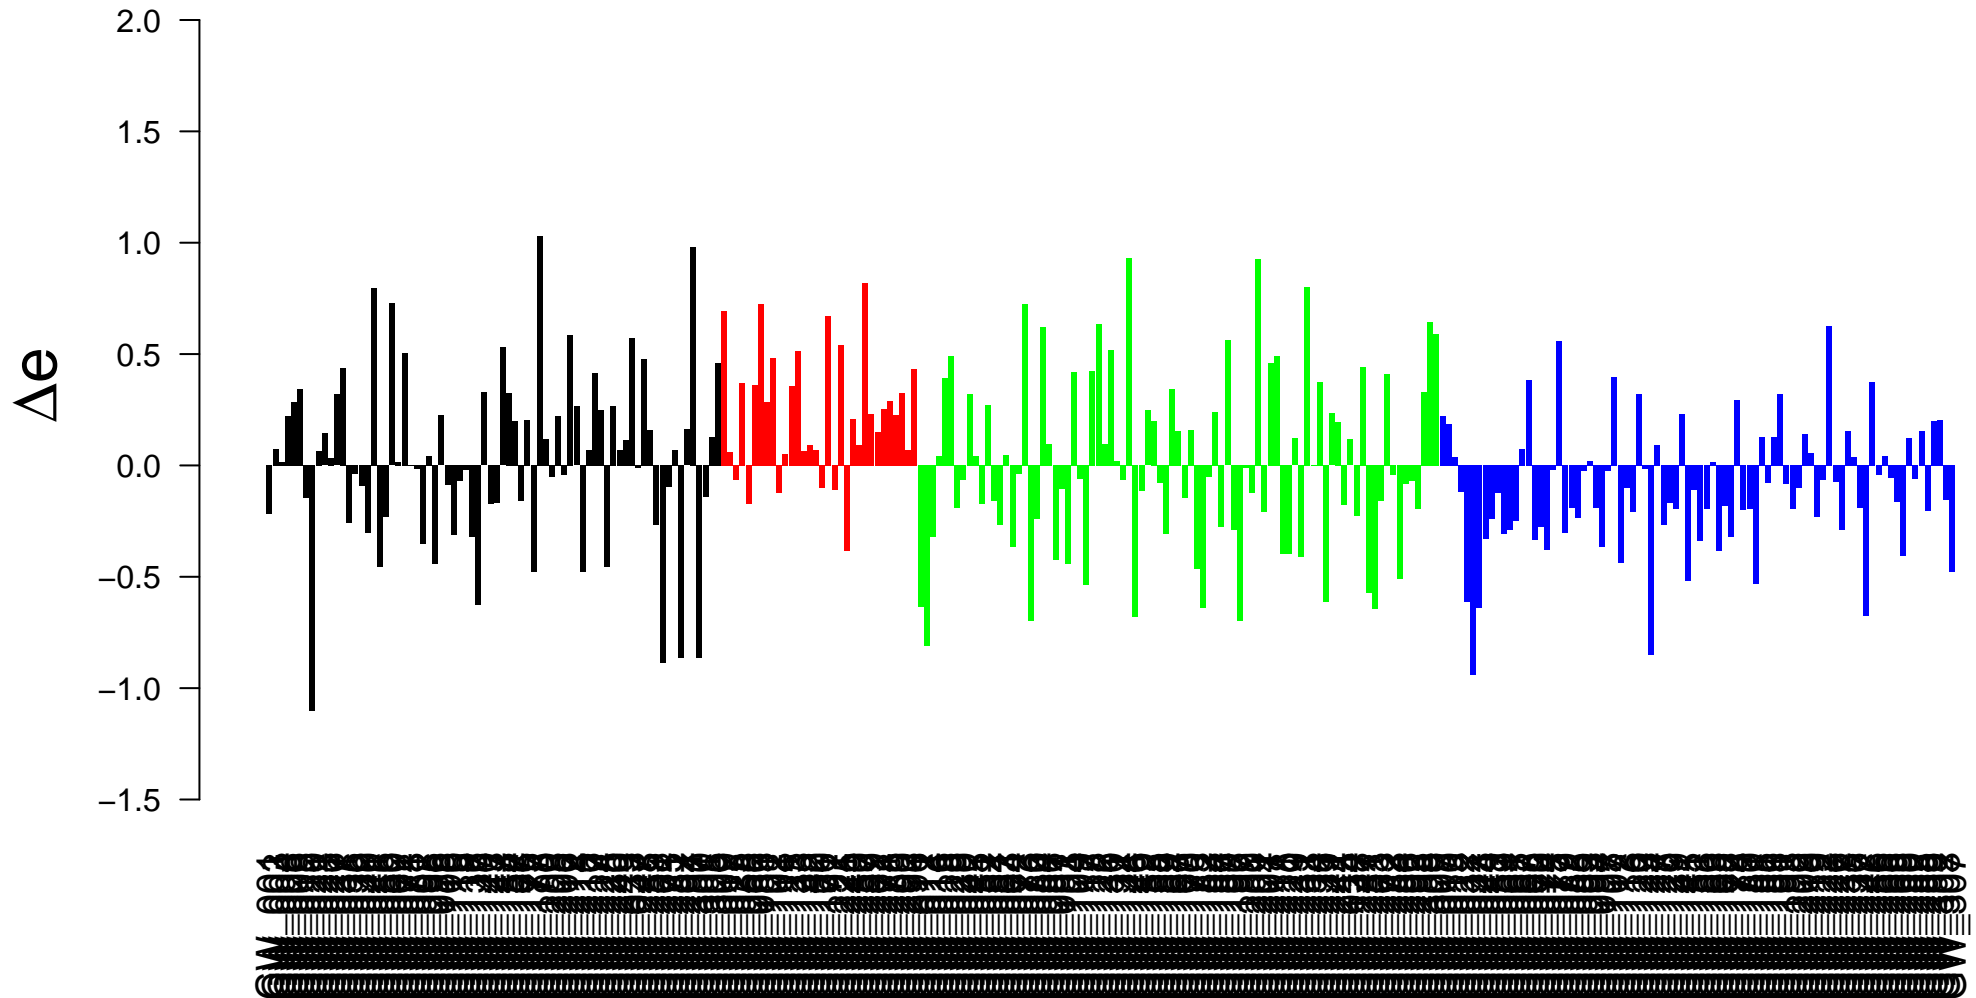

Expression of positive regulation of viral genome replication in Spot I

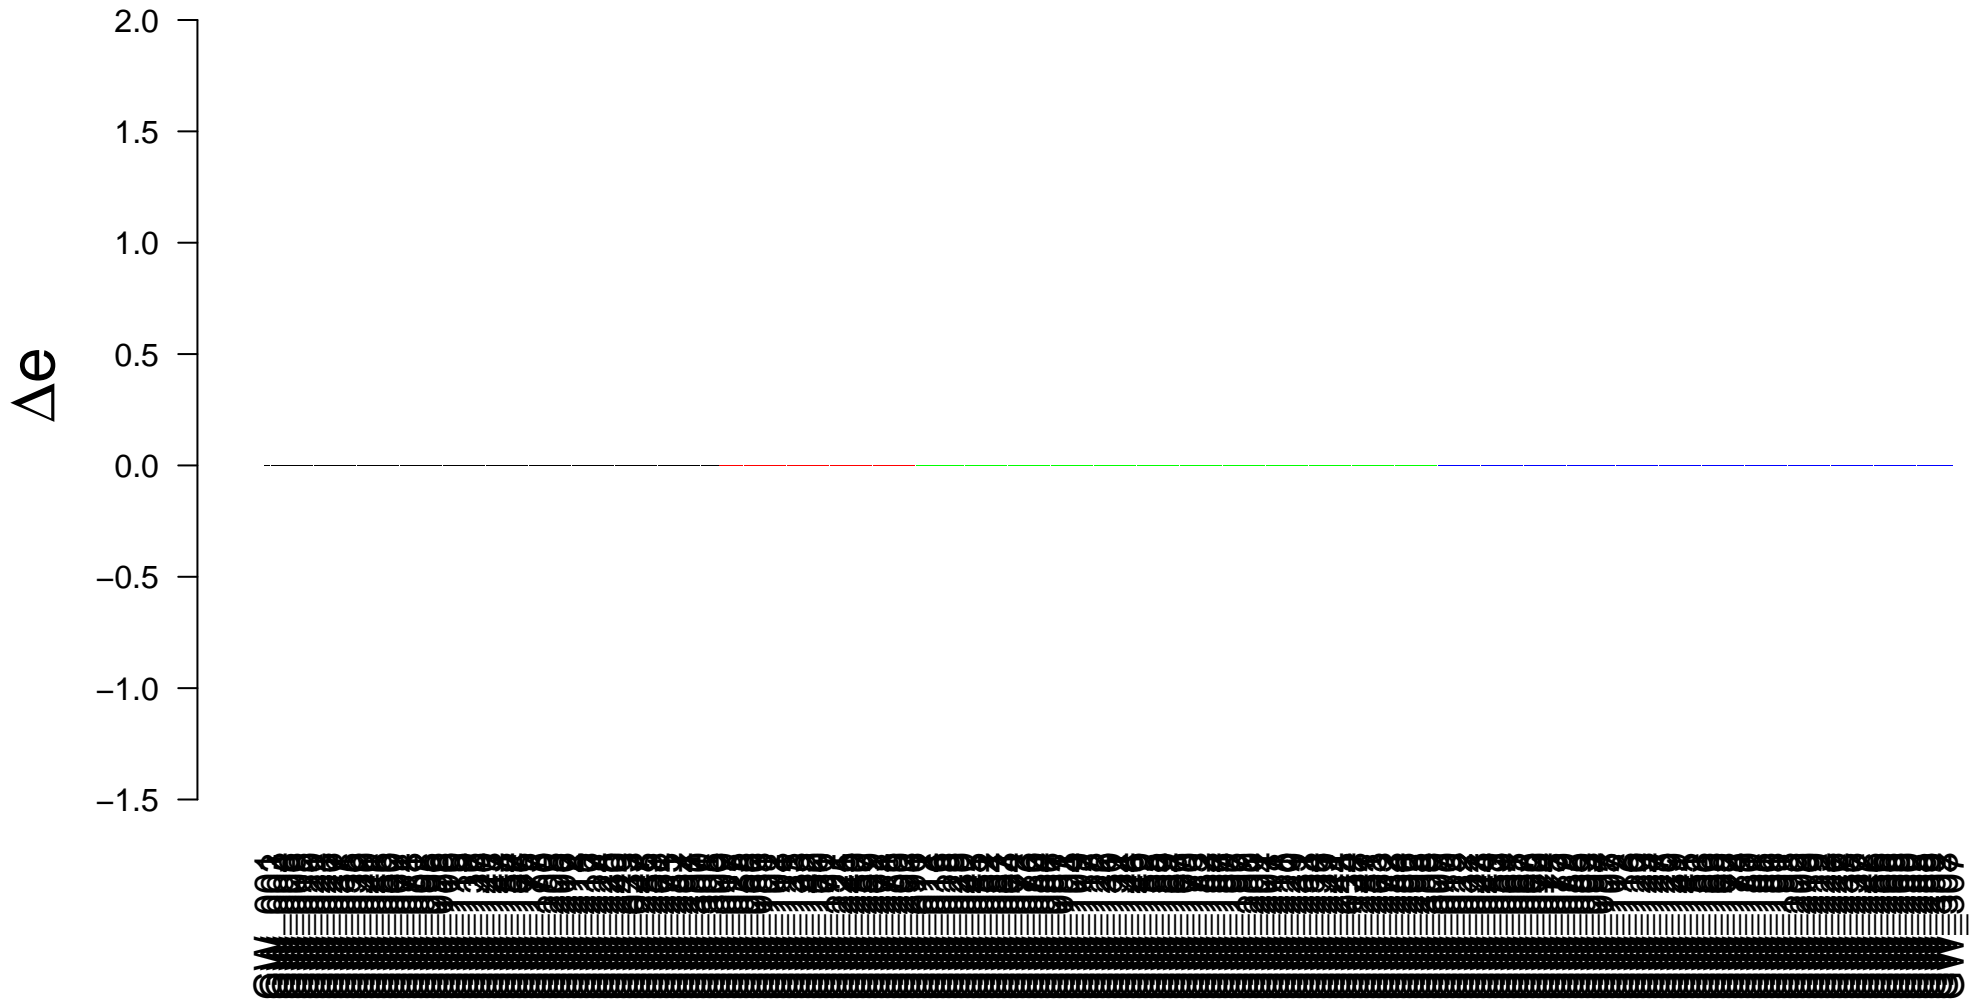

Expression of positive regulation of viral genome replication in Spot J

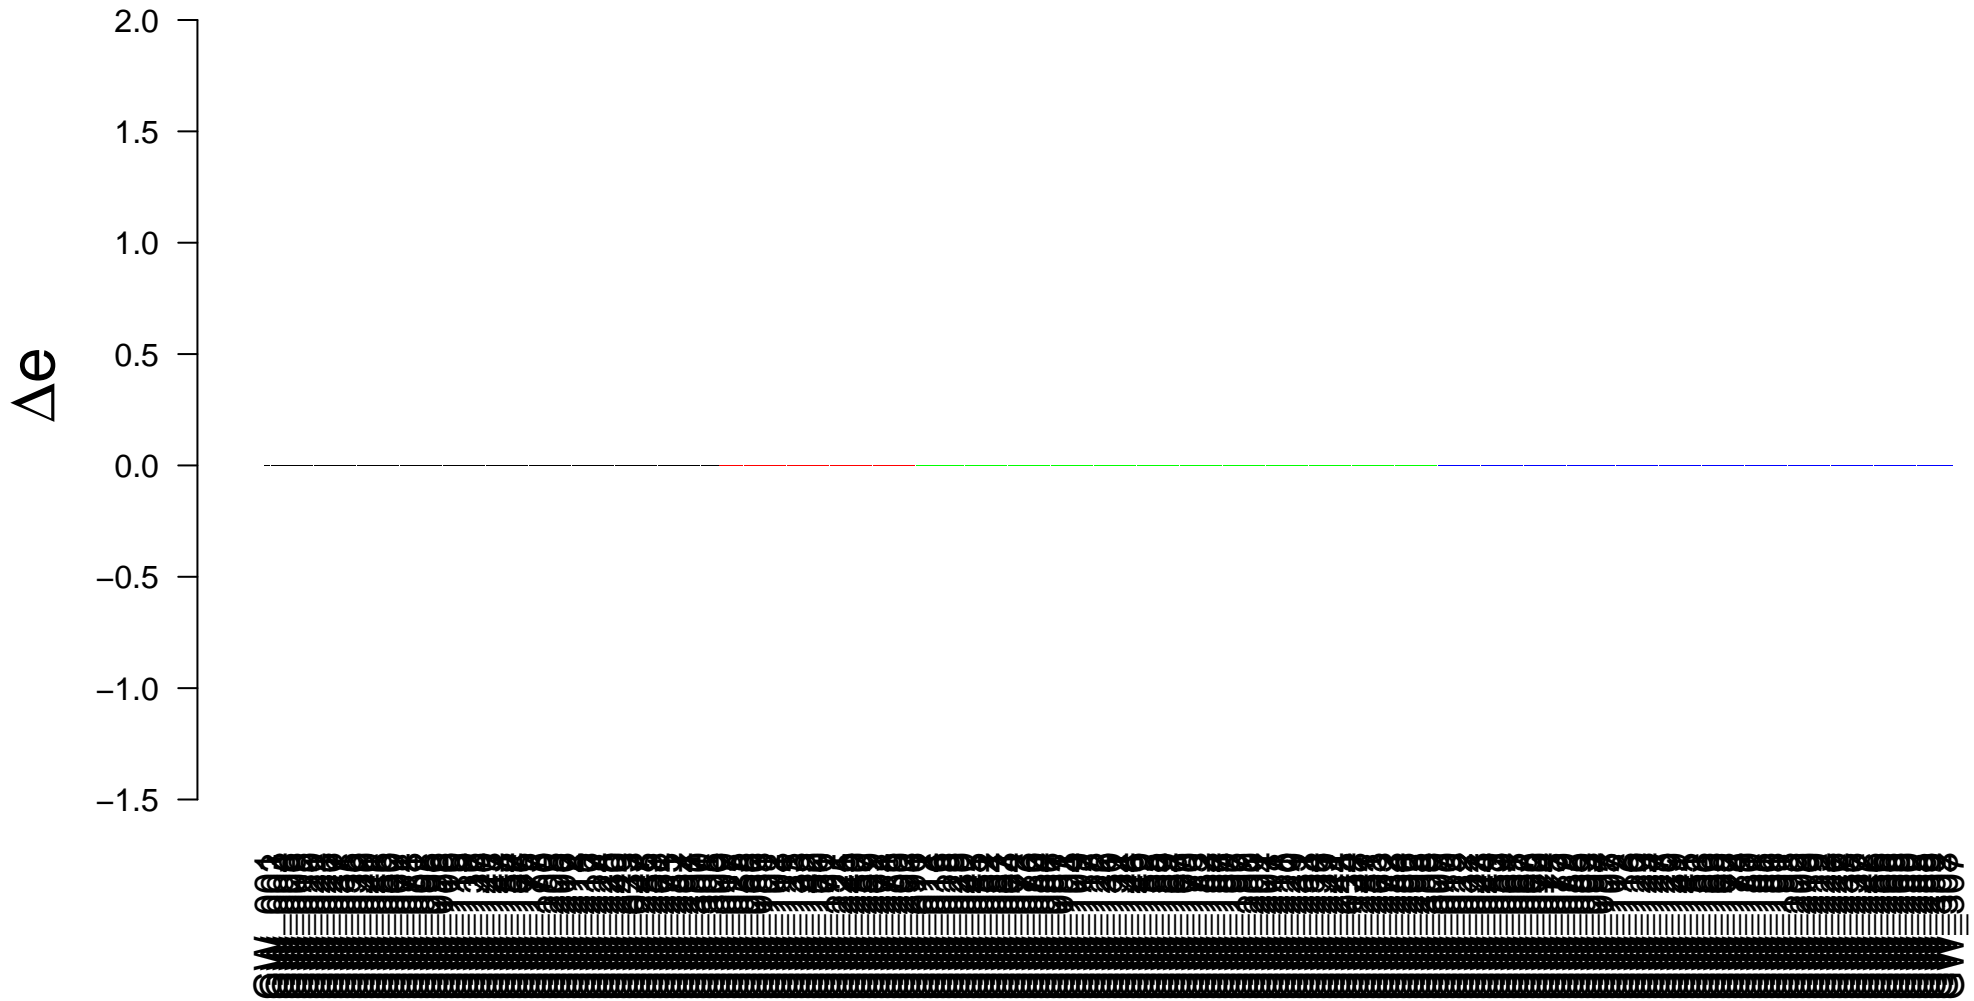

Expression of positive regulation of viral genome replication in Spot K

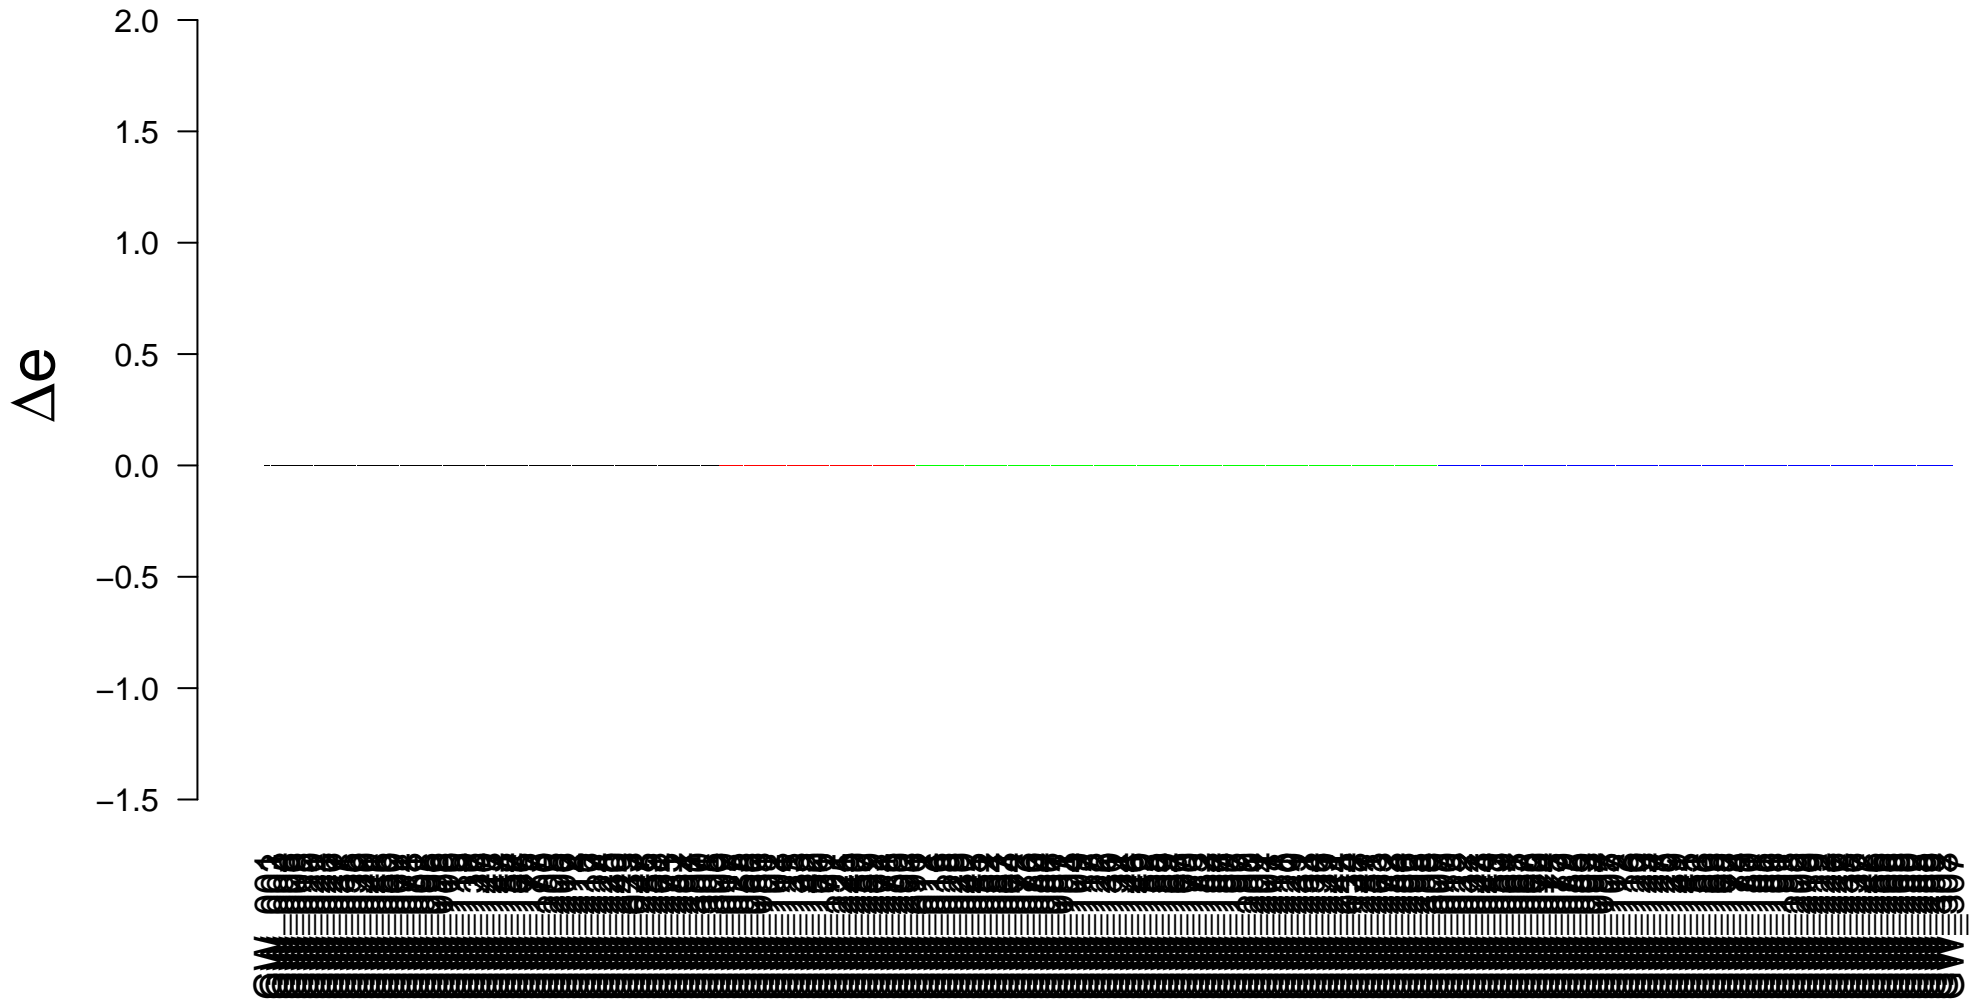

Expression of positive regulation of viral genome replication in Spot L

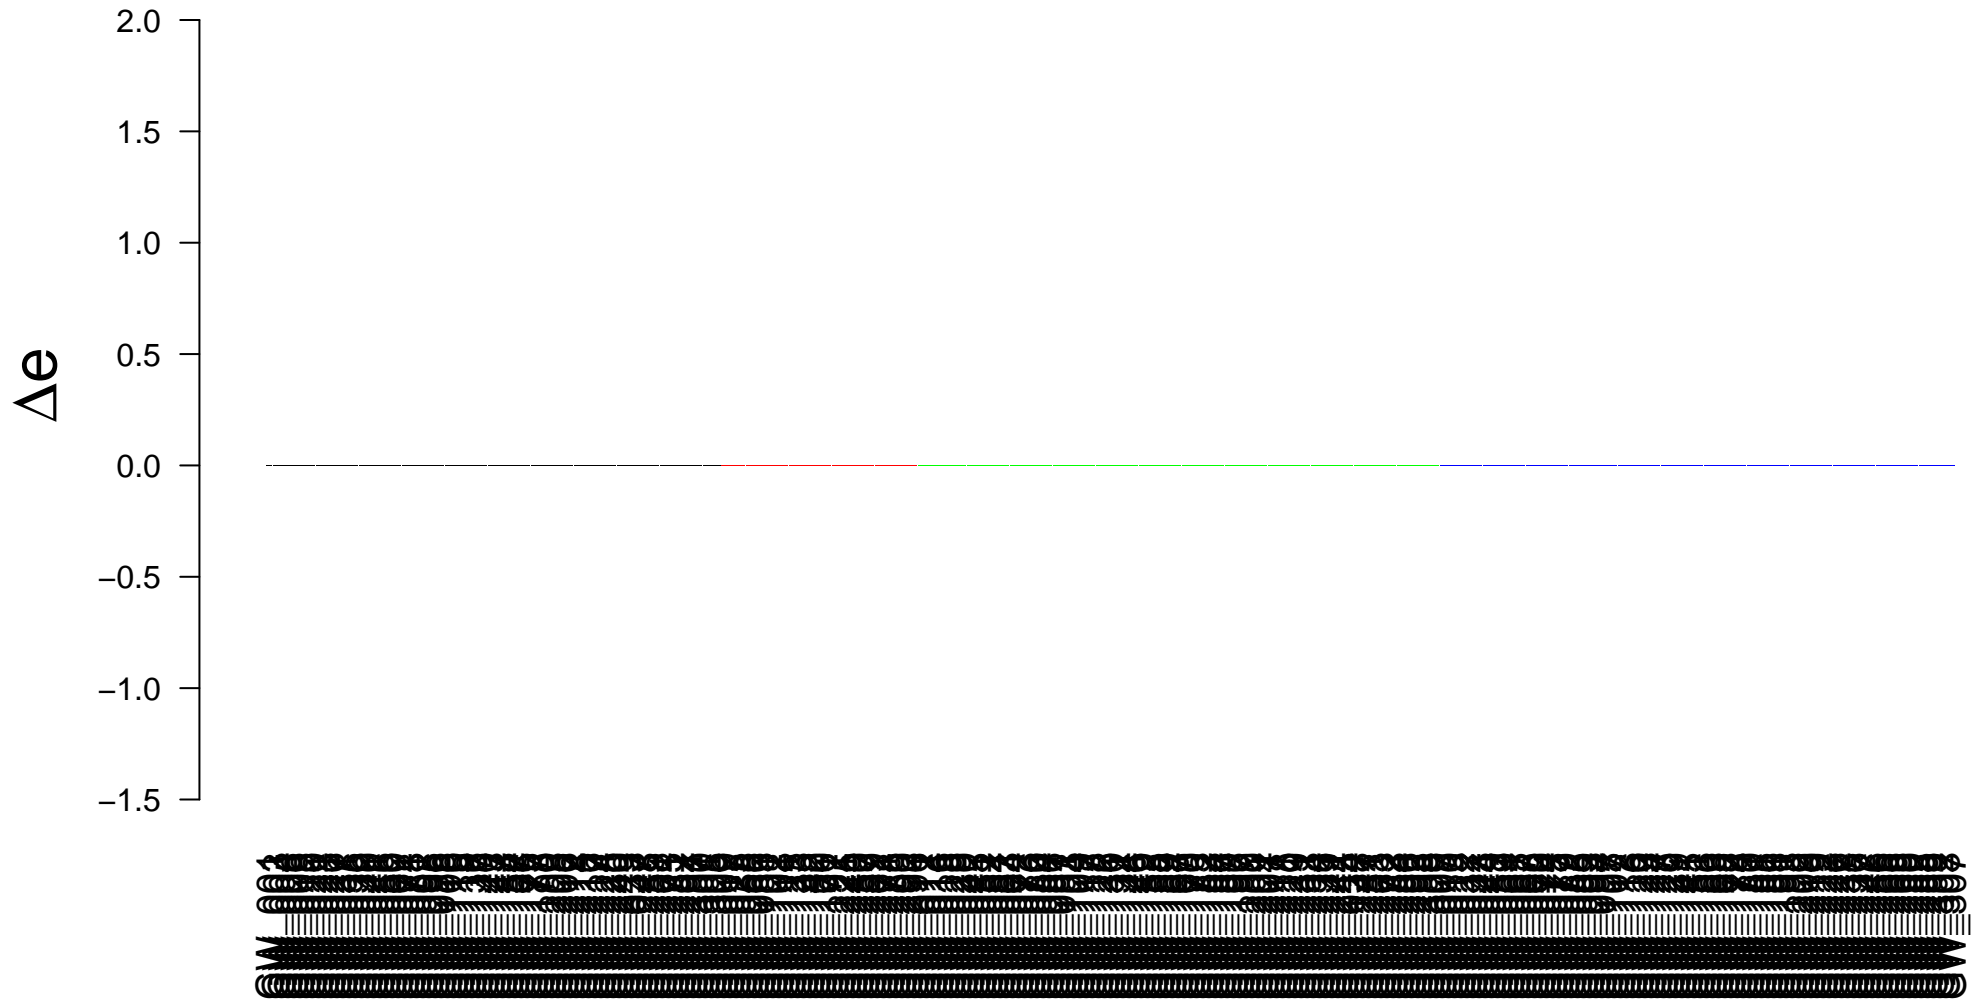

Expression of positive regulation of viral genome replication in Spot M

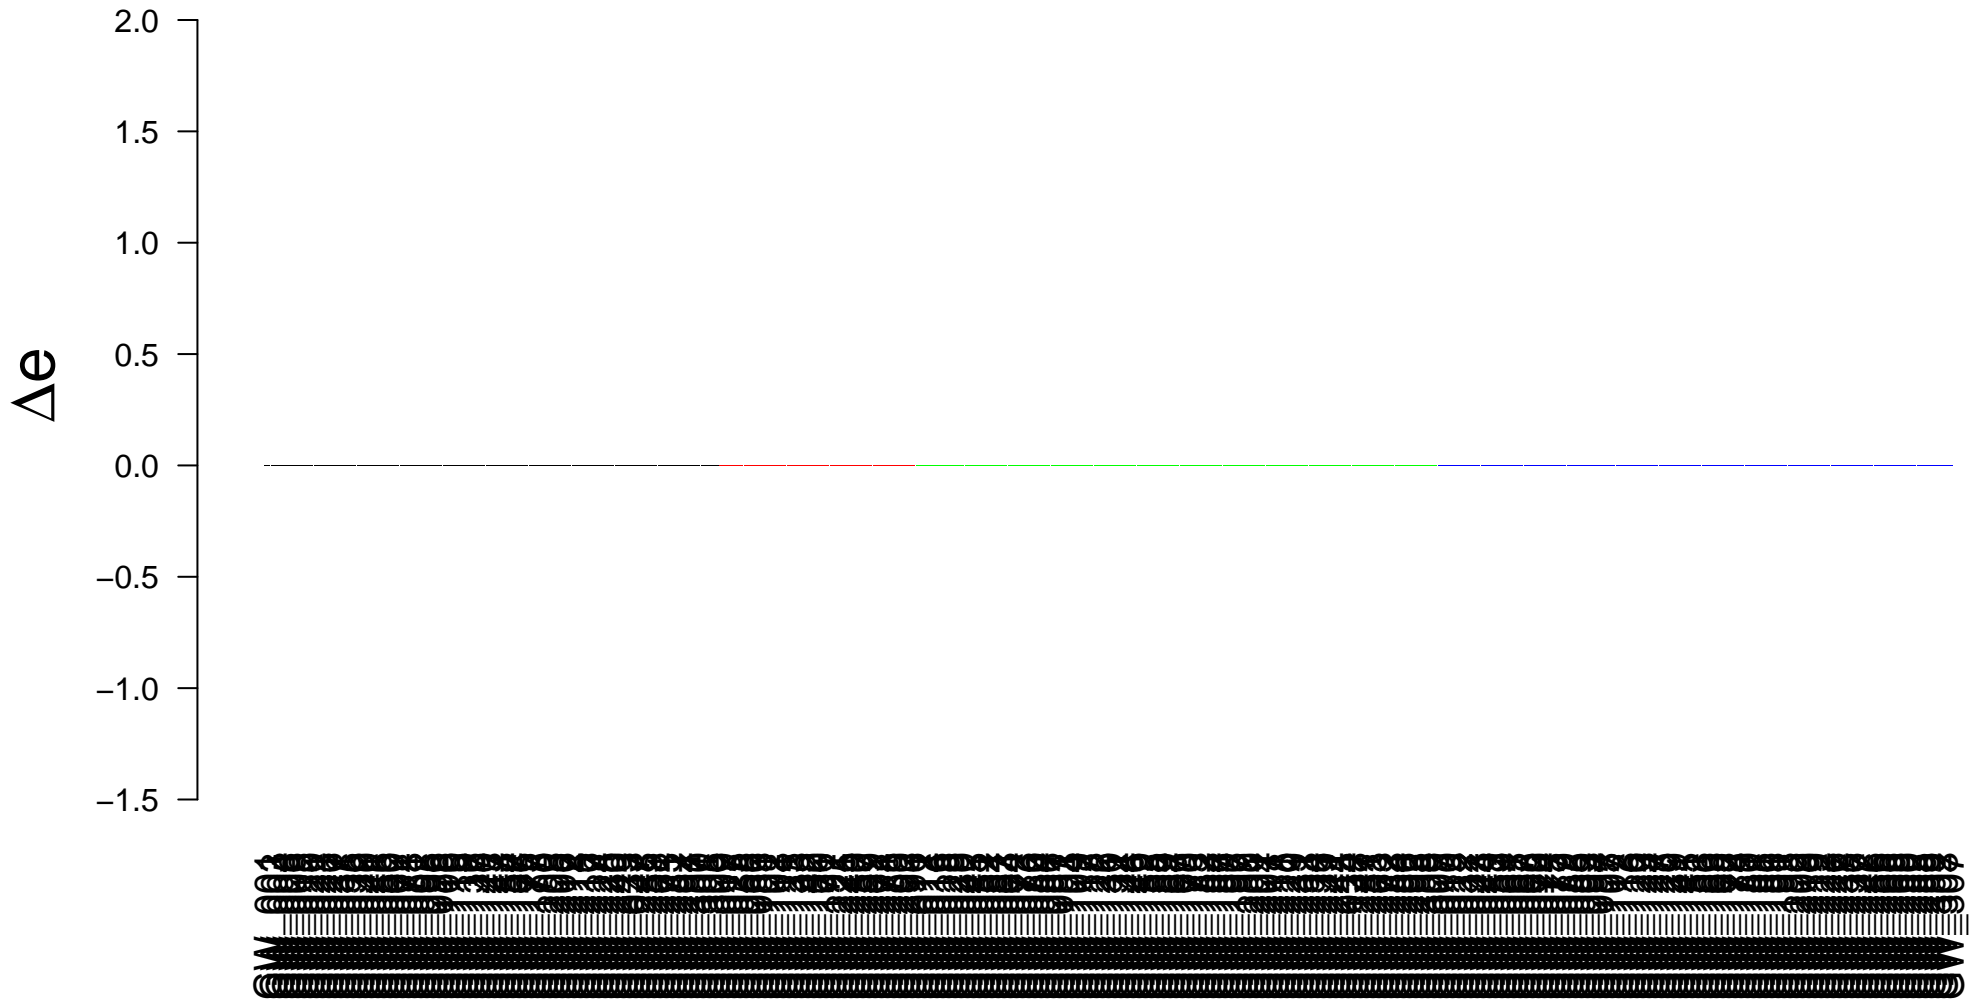

Expression of positive regulation of viral genome replication in Spot N

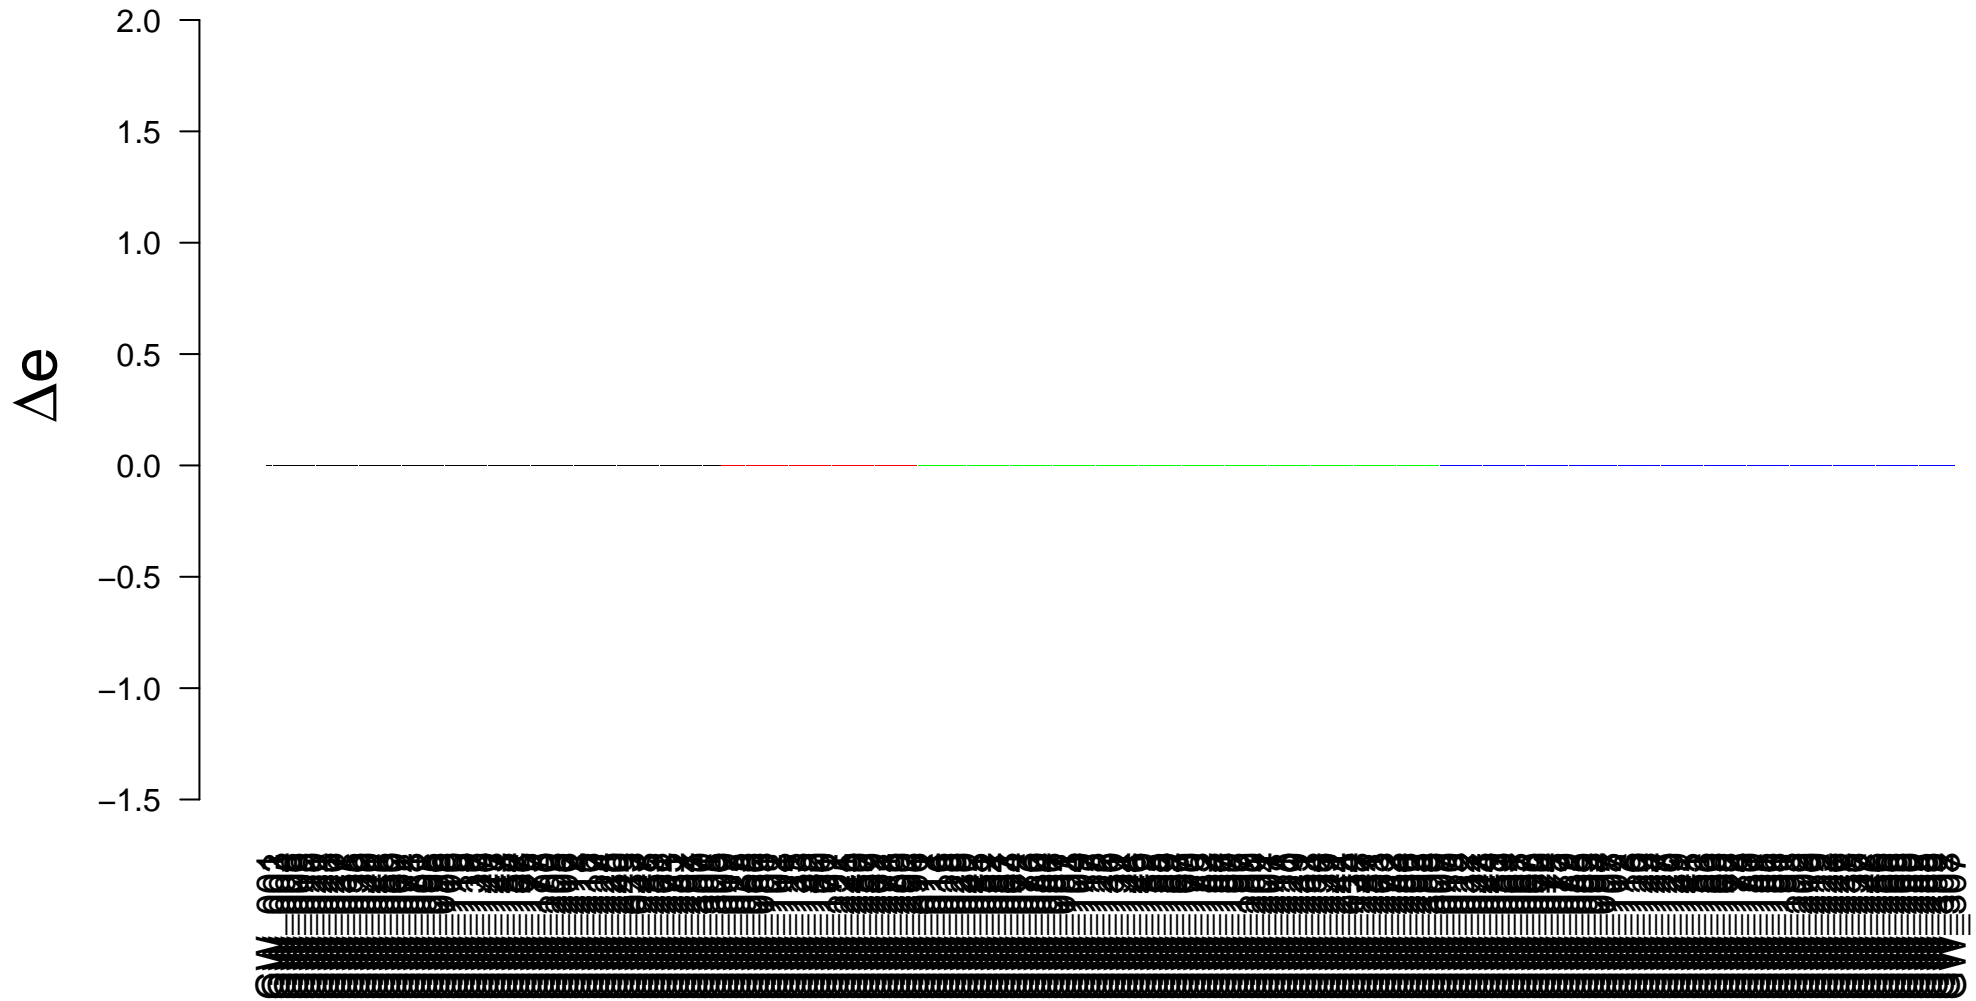

Expression of positive regulation of viral genome replication in Spot O

Expression of positive regulation of viral genome replication in Spot P

Expression of positive regulation of viral genome replication in Spot Q

Expression of positive regulation of viral genome replication in Spot R
