

protein serine/threonine phosphatase activity

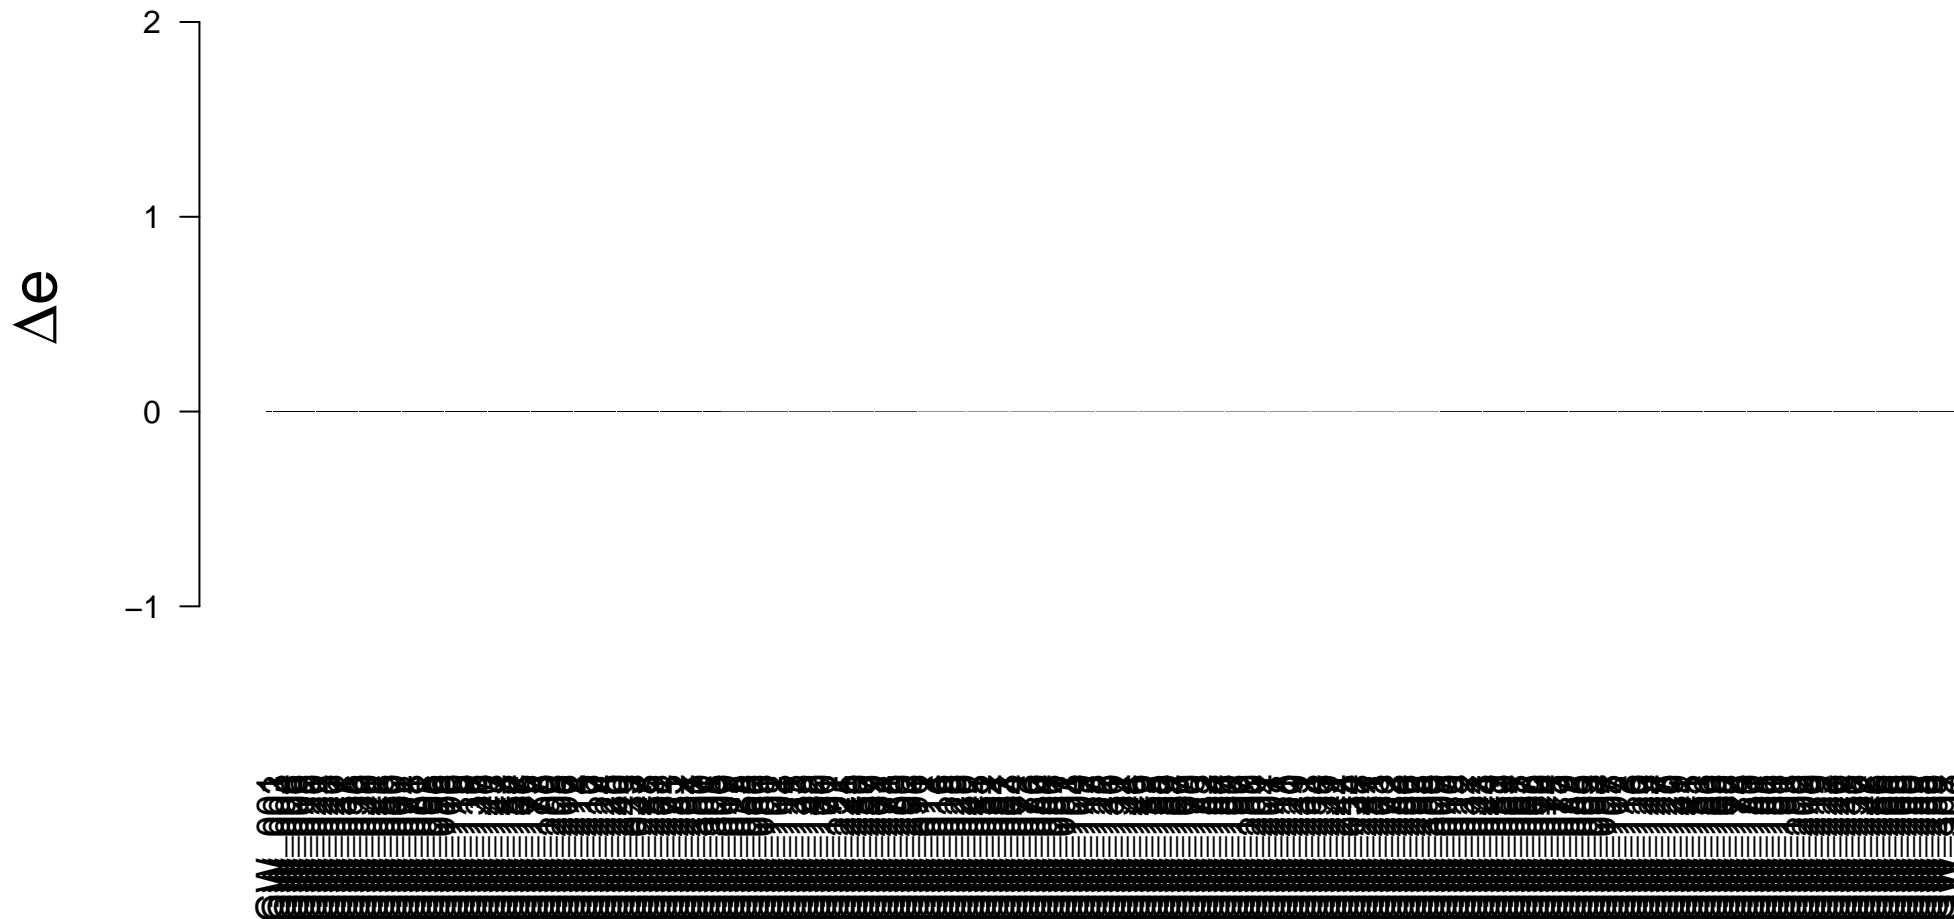

protein serine/threonine phosphatase activity

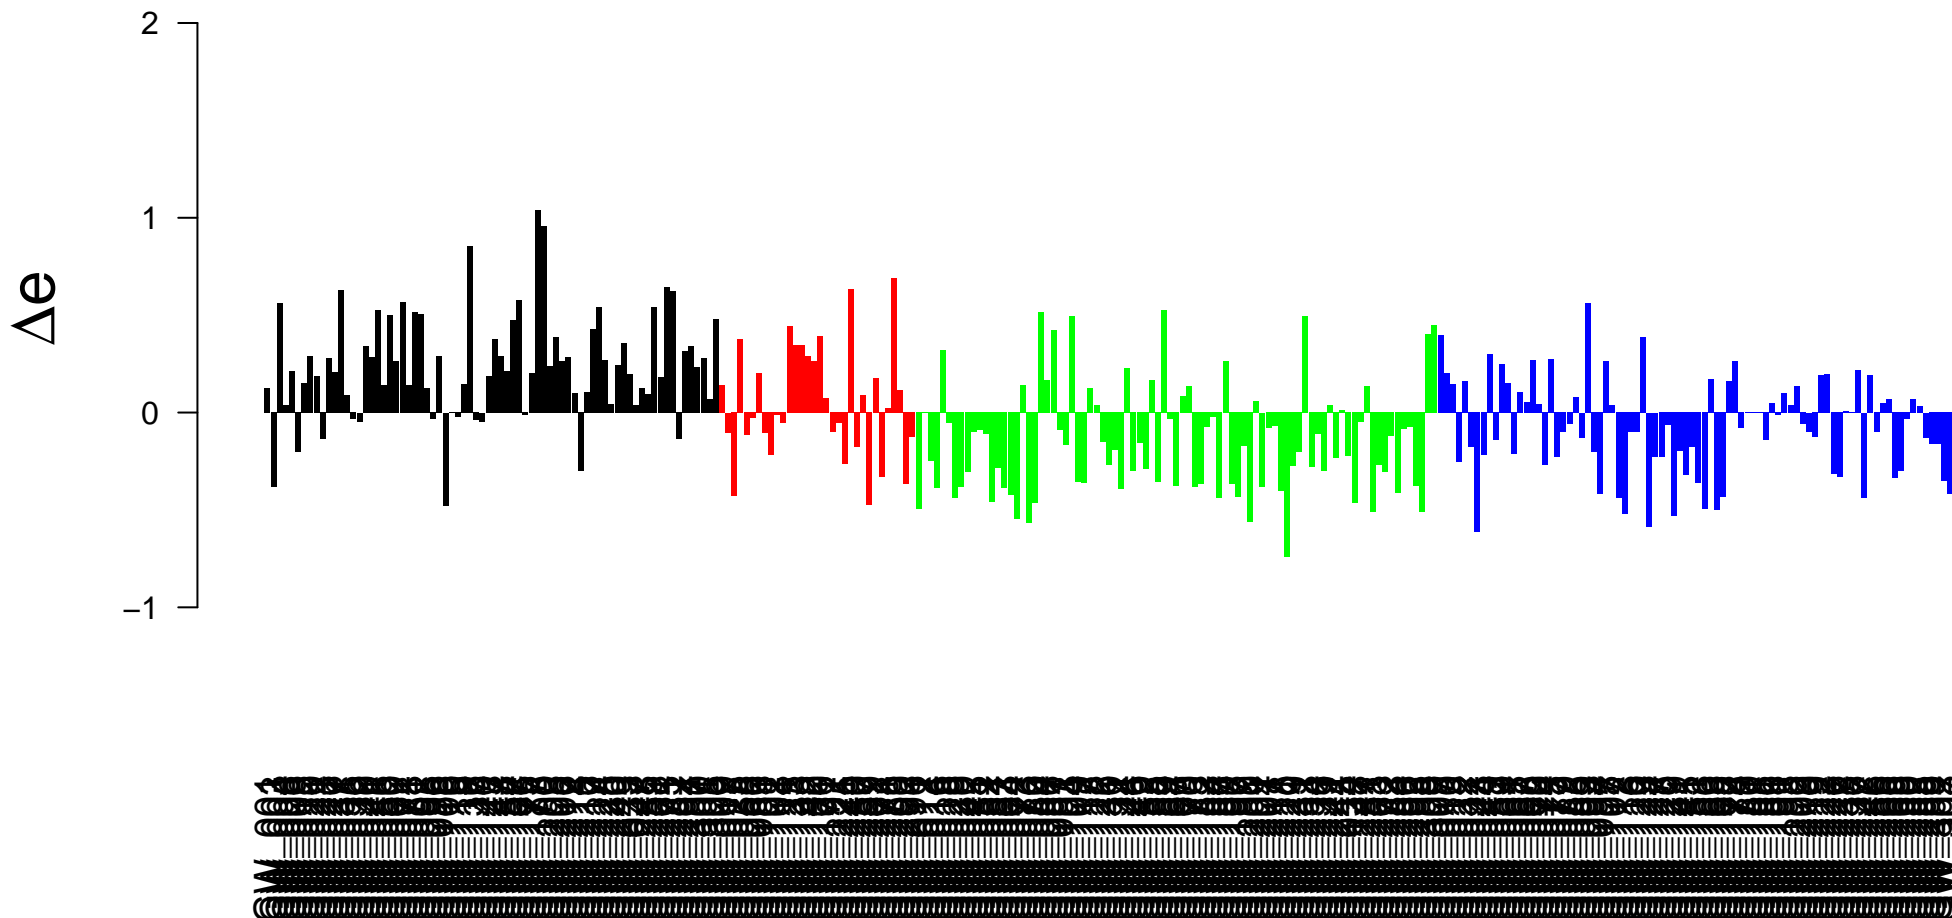

Enrichment in spots: protein serine/threonine phosphatase activity

Expression of protein serine/threonine phosphatase activity in Spot A

Expression of protein serine/threonine phosphatase activity in Spot B

Expression of protein serine/threonine phosphatase activity in Spot C

Expression of protein serine/threonine phosphatase activity in Spot D

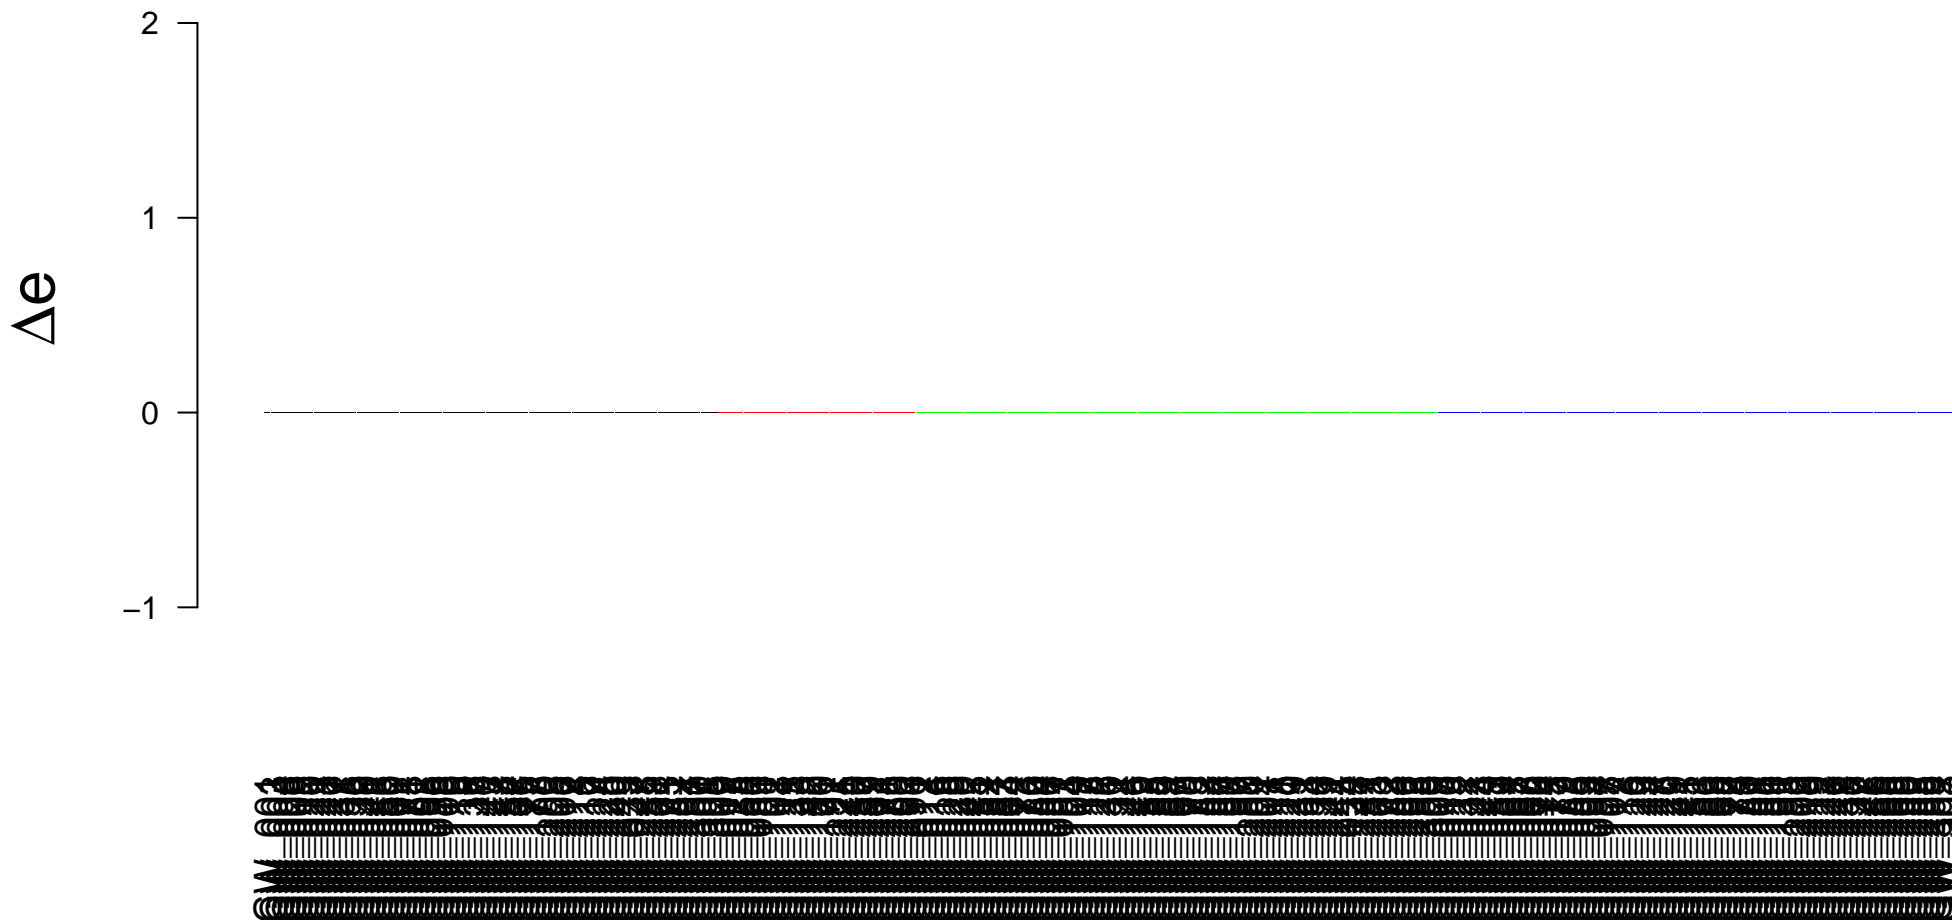

Expression of protein serine/threonine phosphatase activity in Spot E

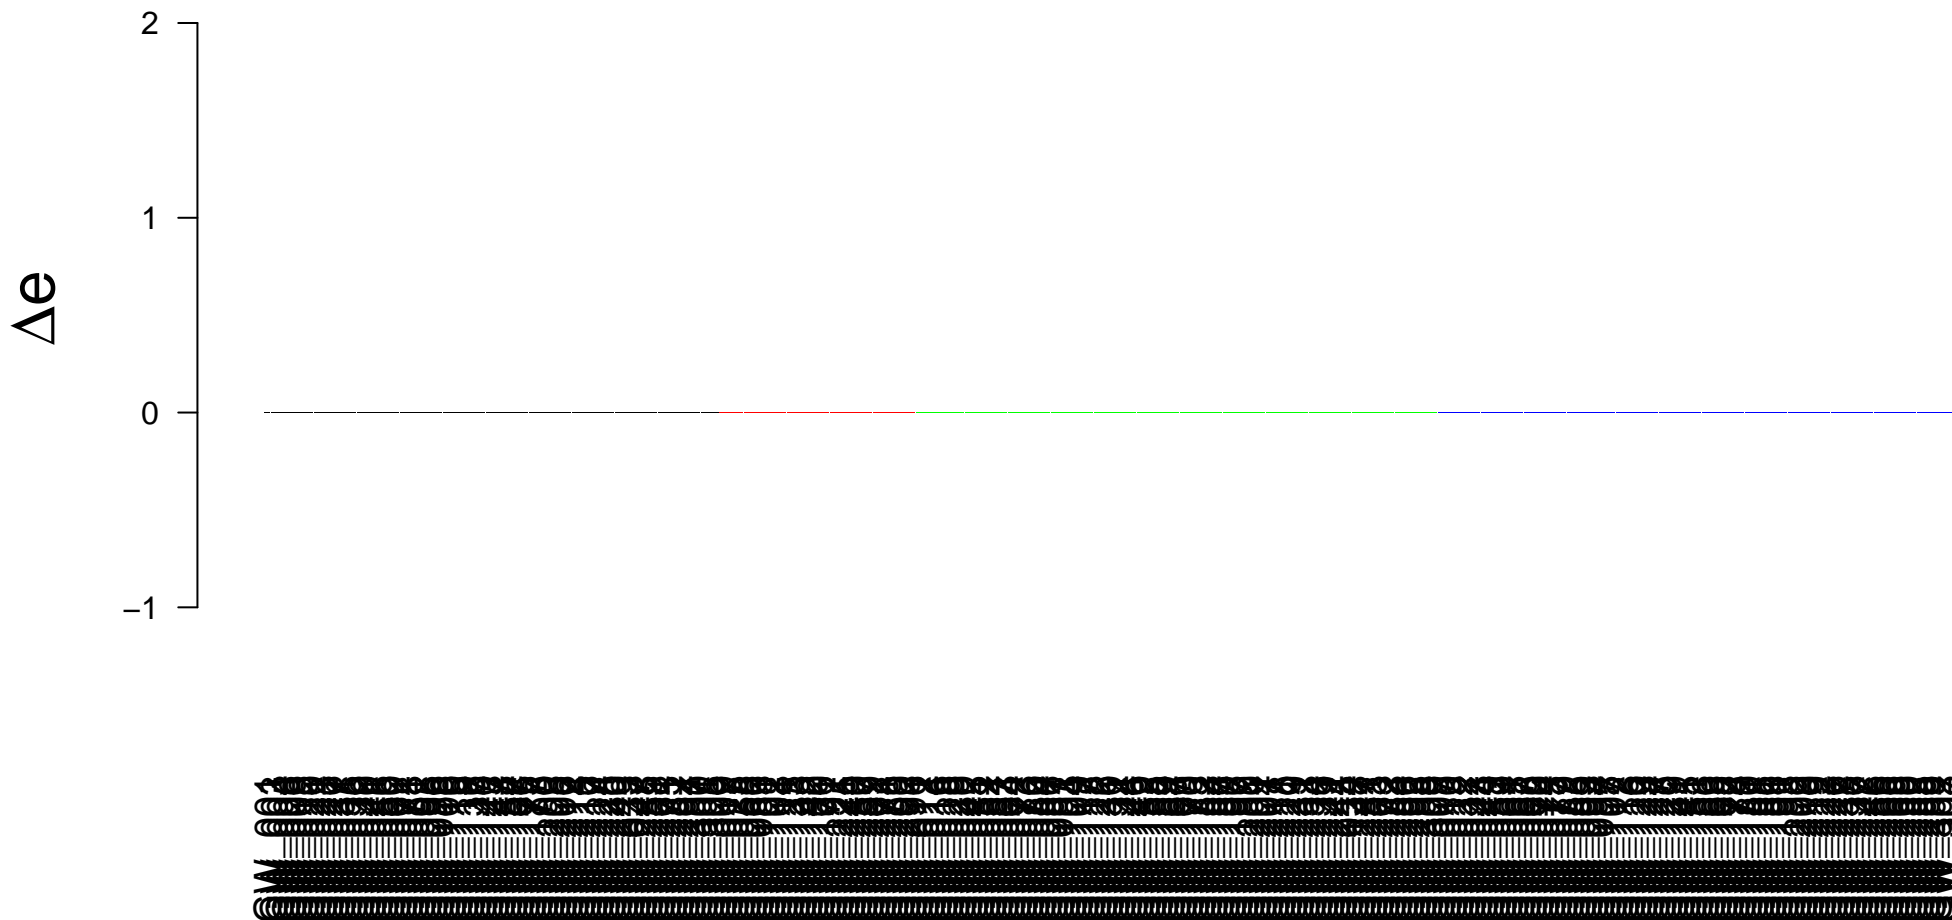

Expression of protein serine/threonine phosphatase activity in Spot F

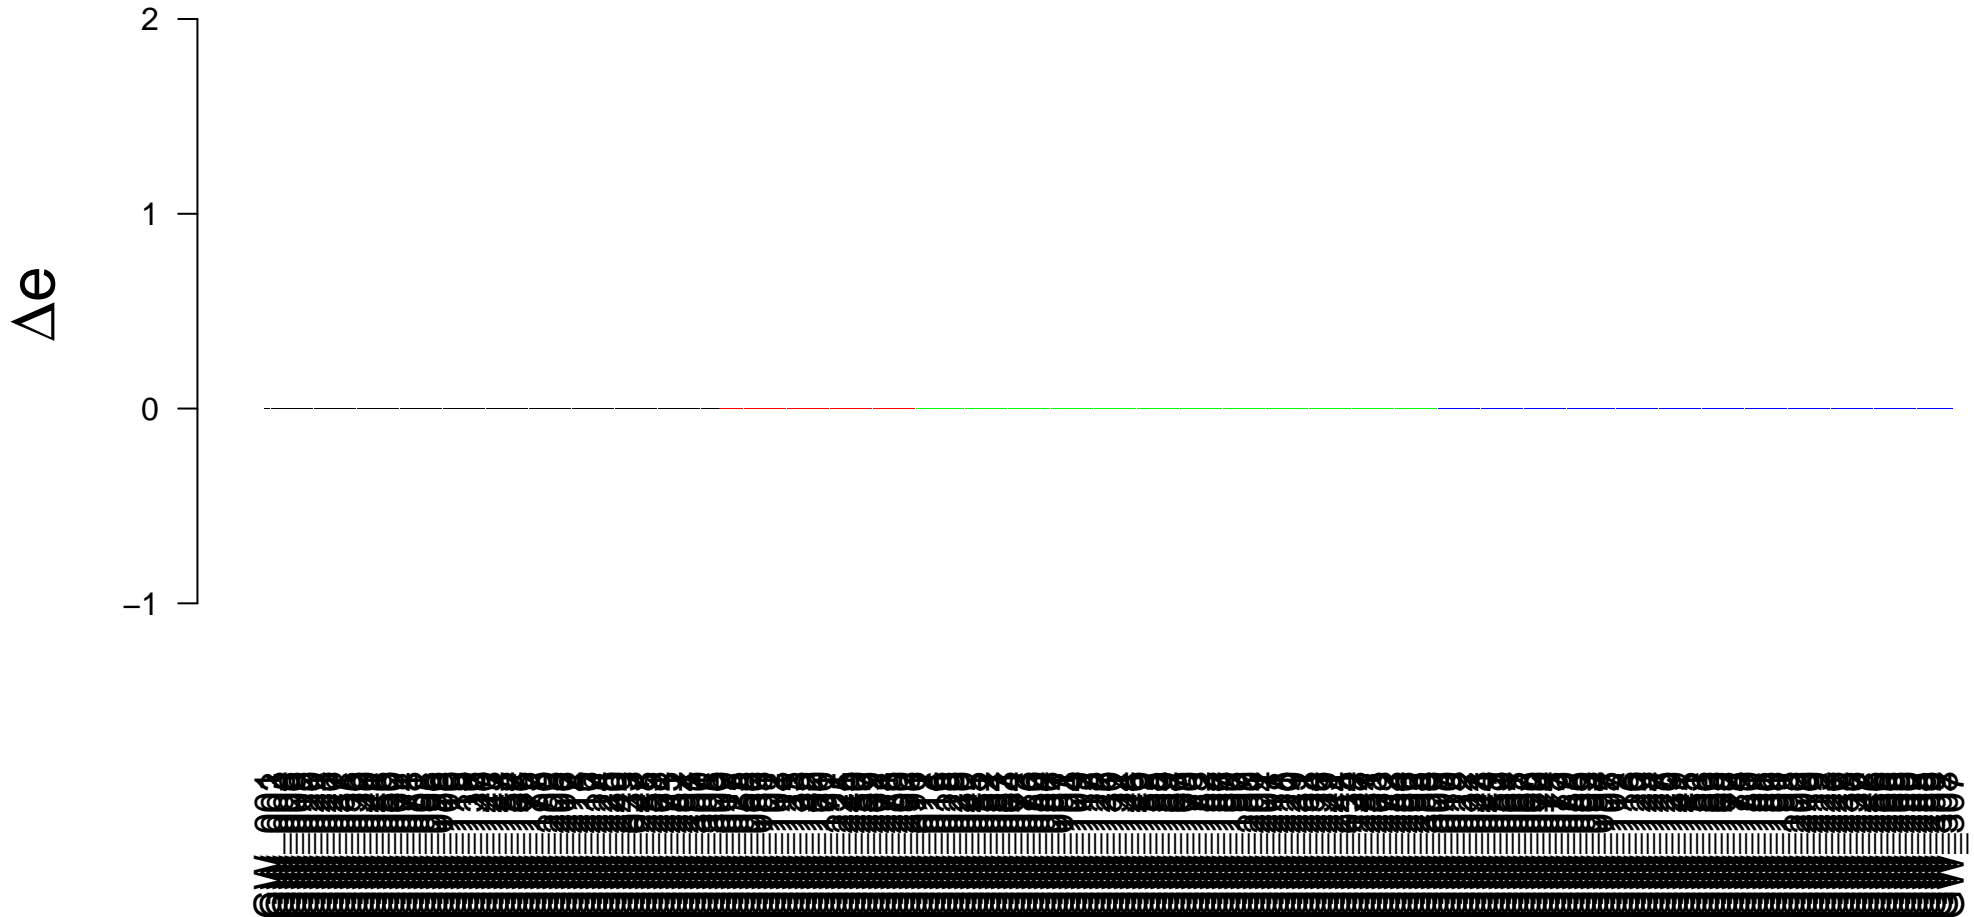

Expression of protein serine/threonine phosphatase activity in Spot G

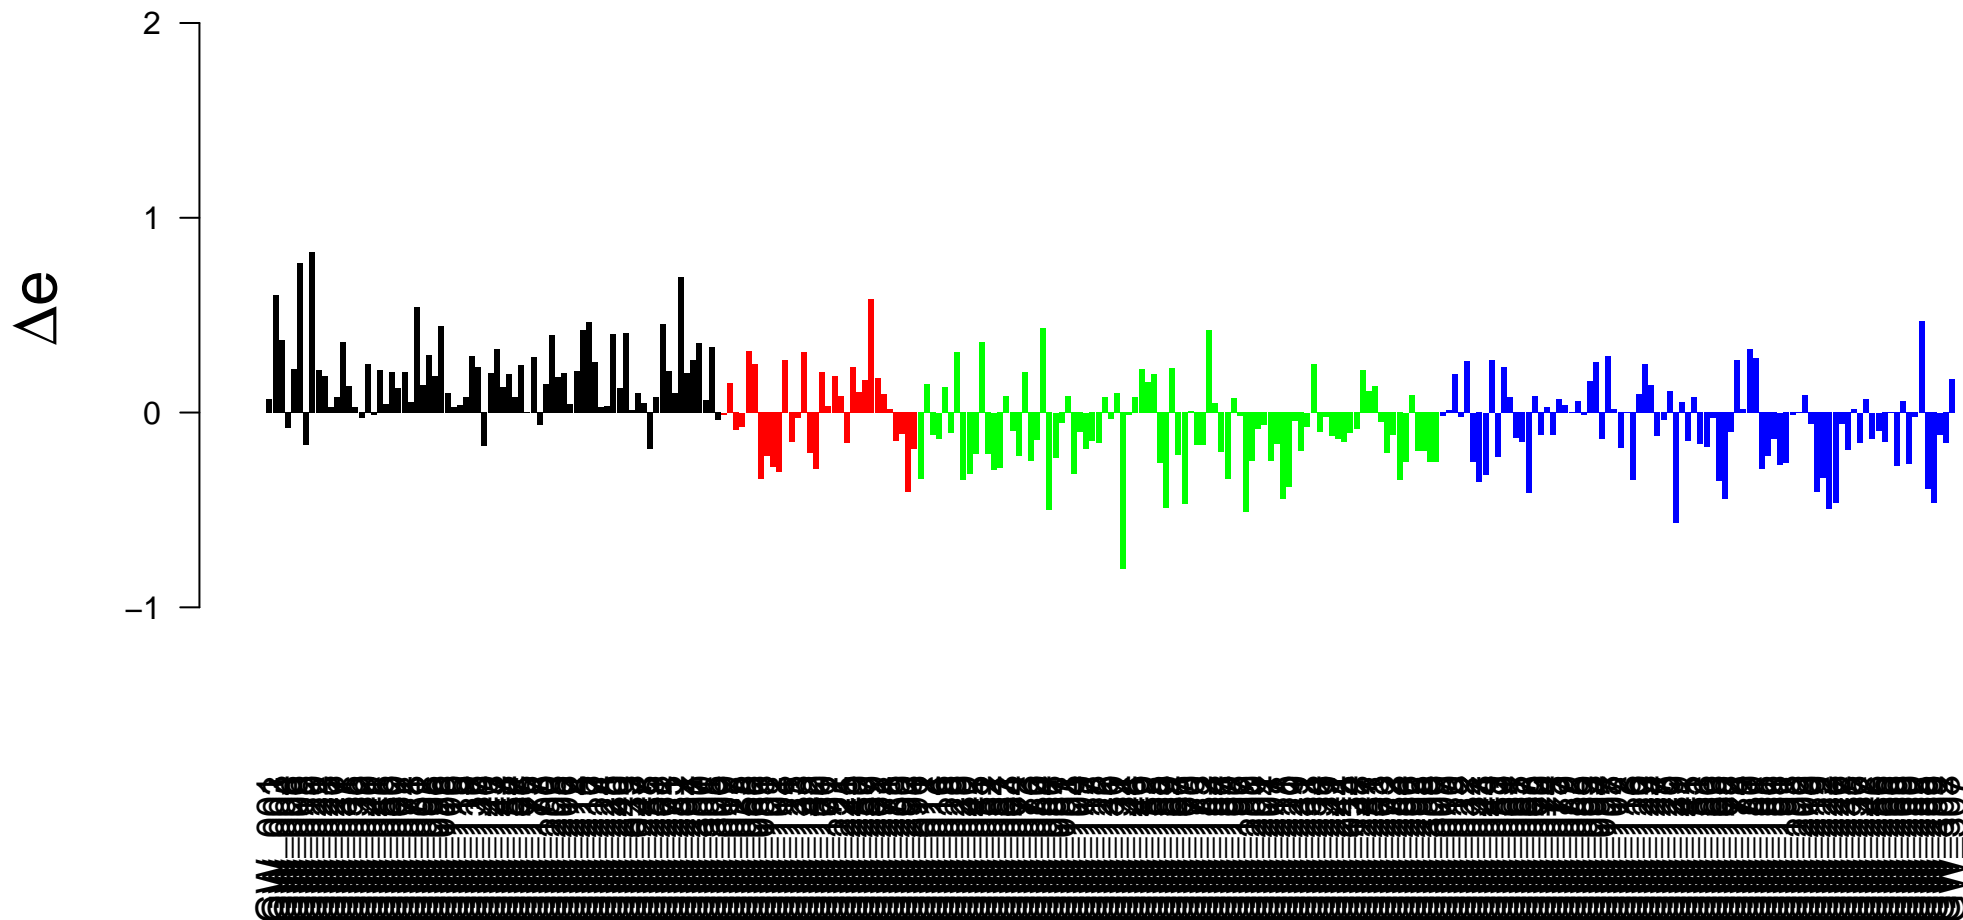

Expression of protein serine/threonine phosphatase activity in Spot H

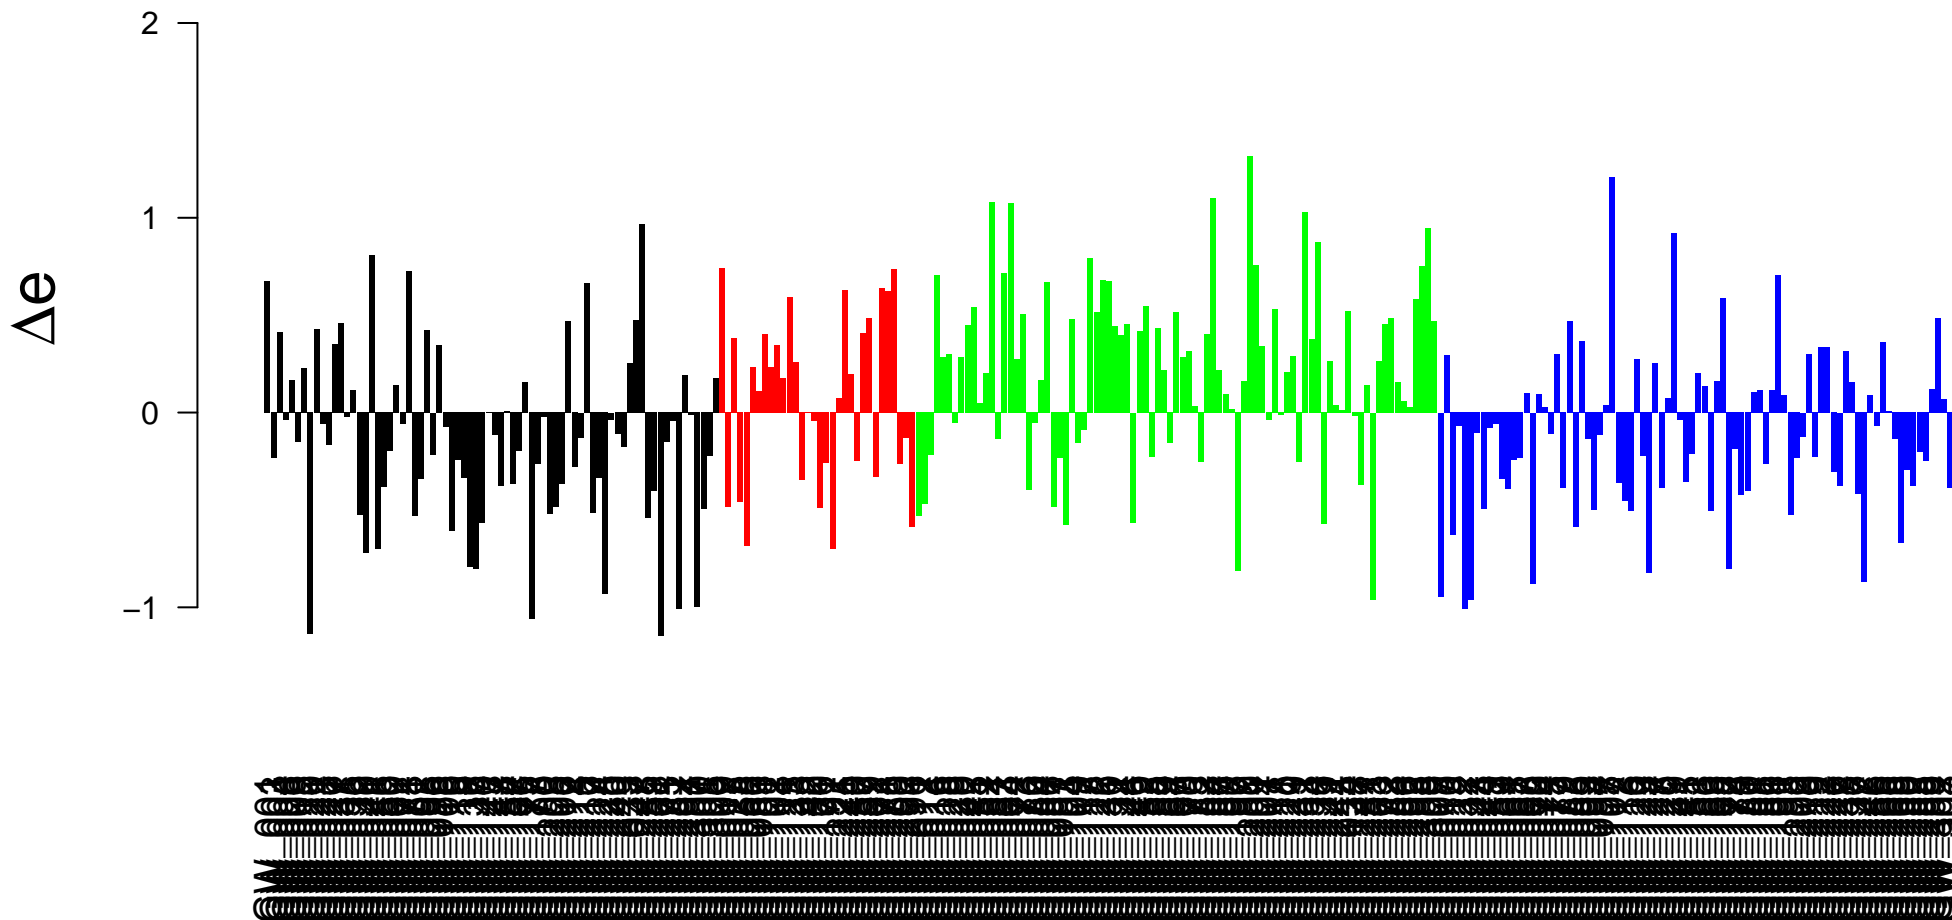

Expression of protein serine/threonine phosphatase activity in Spot I

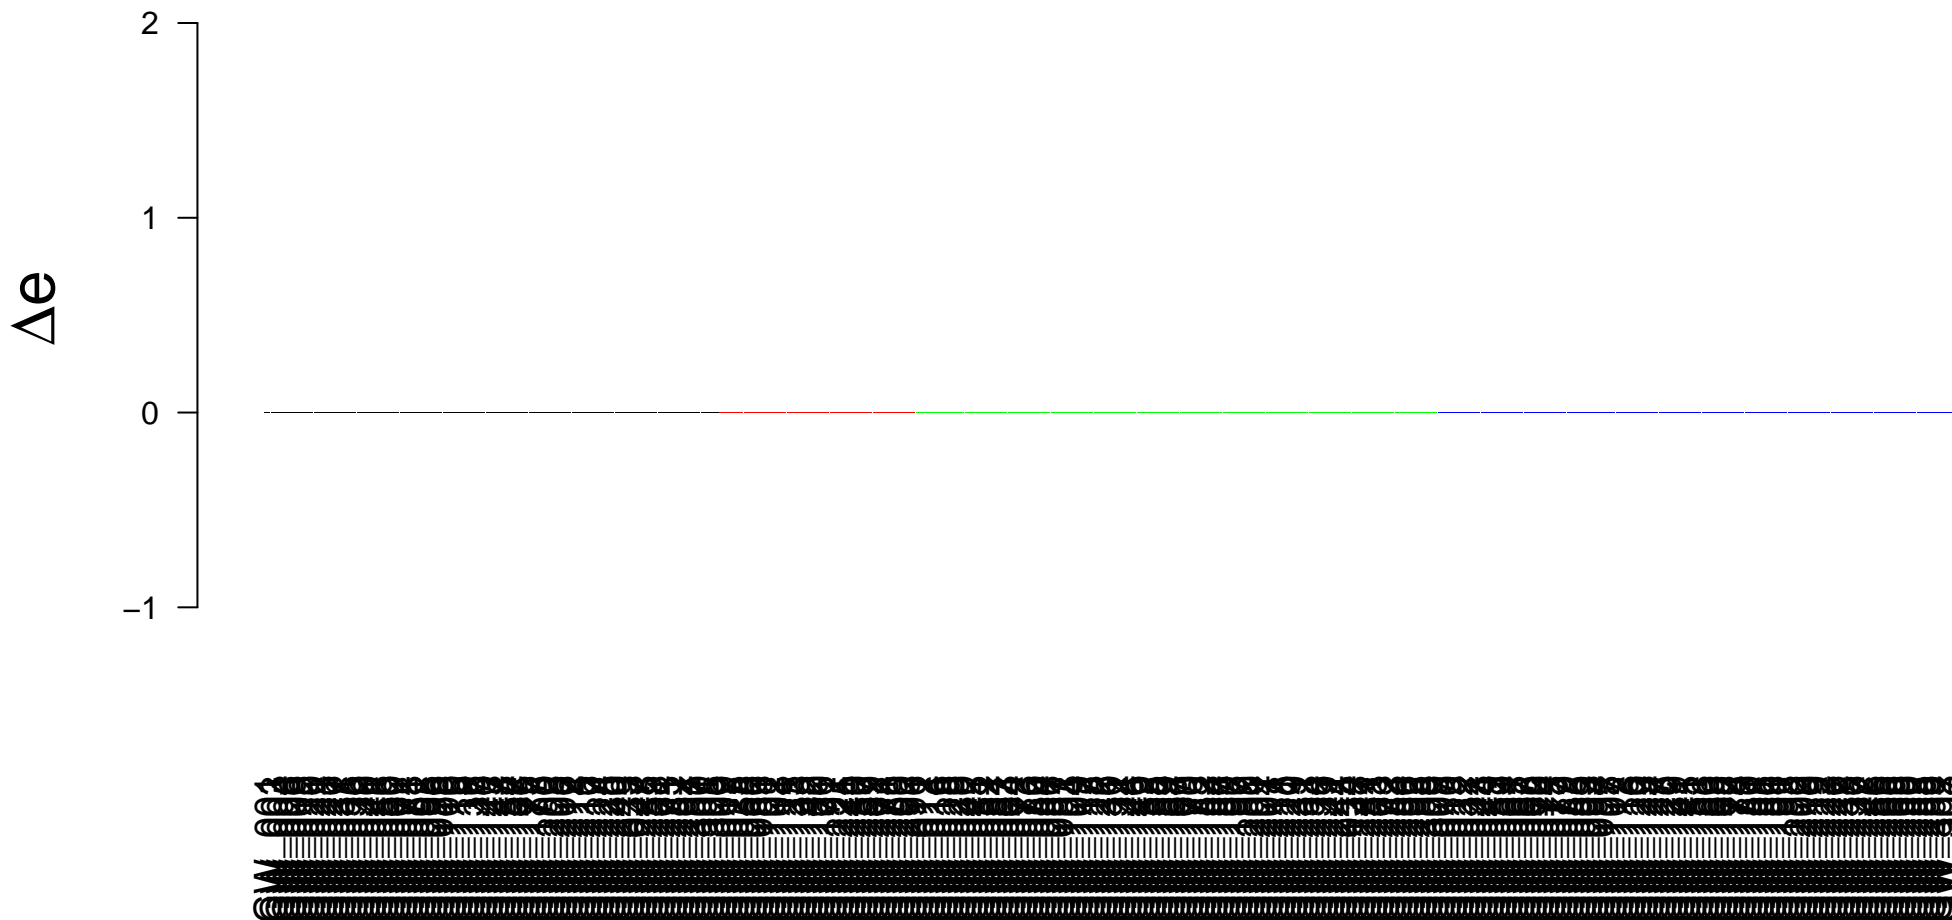

Expression of protein serine/threonine phosphatase activity in Spot J

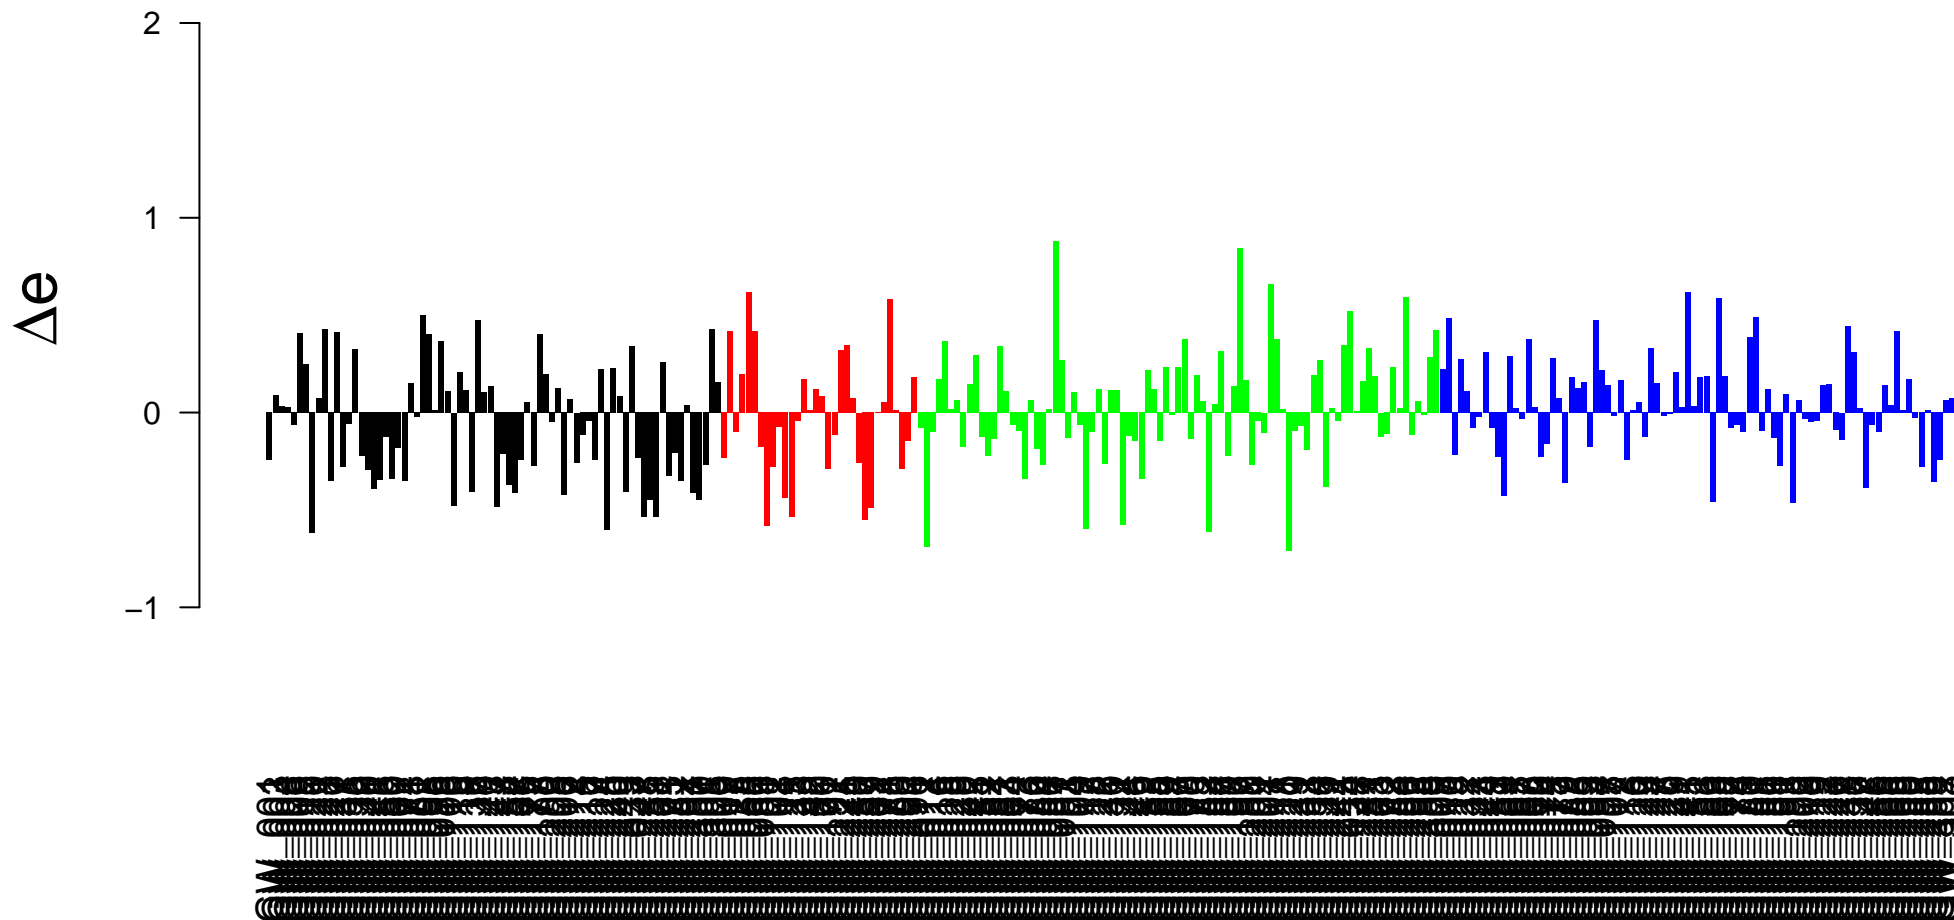

Expression of protein serine/threonine phosphatase activity in Spot K

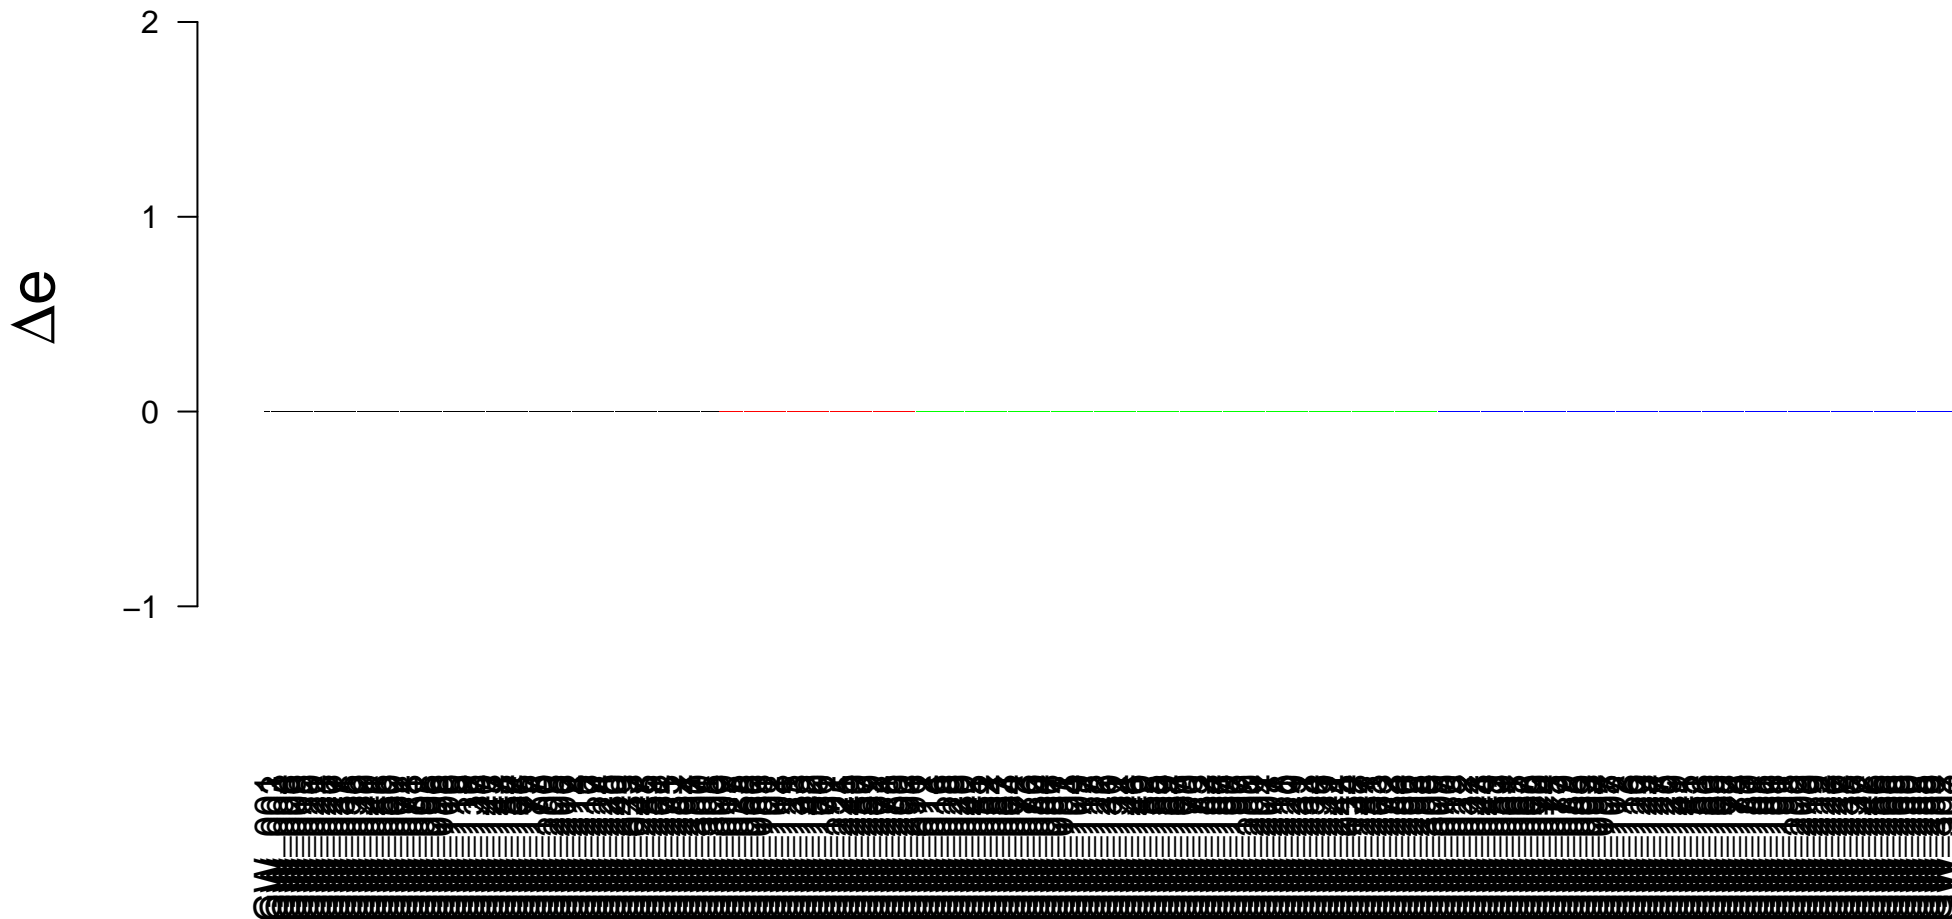

Expression of protein serine/threonine phosphatase activity in Spot L

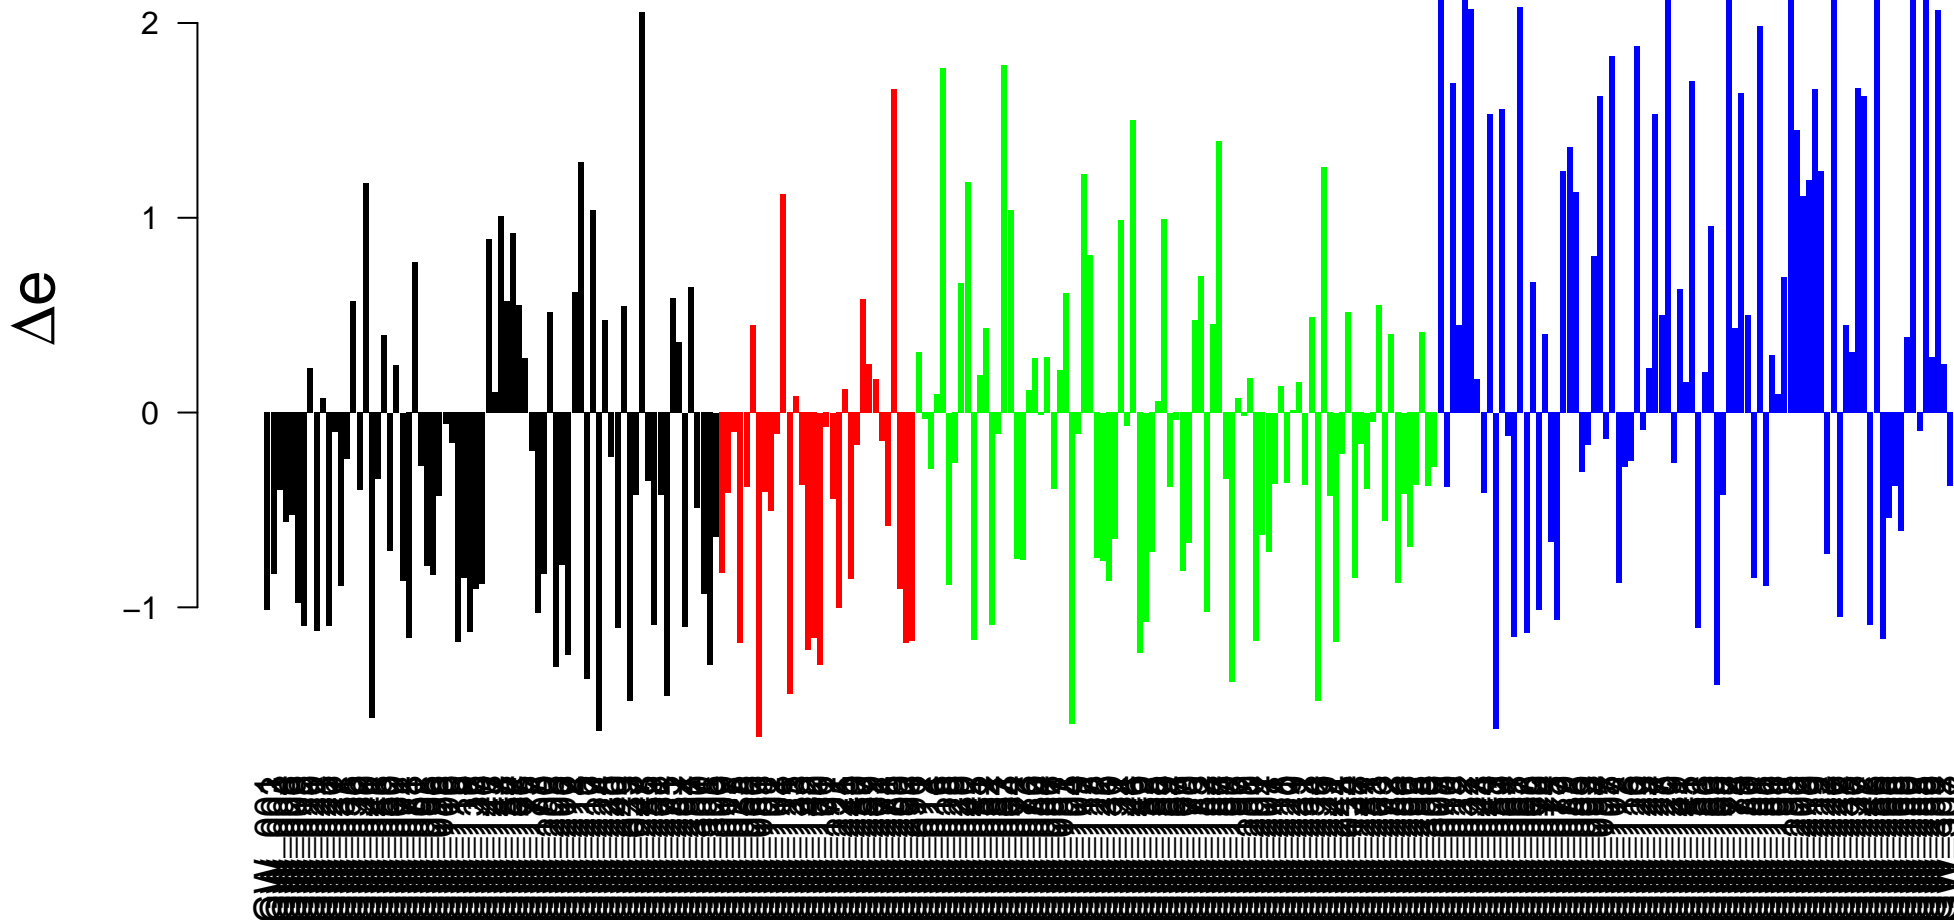

Expression of protein serine/threonine phosphatase activity in Spot M

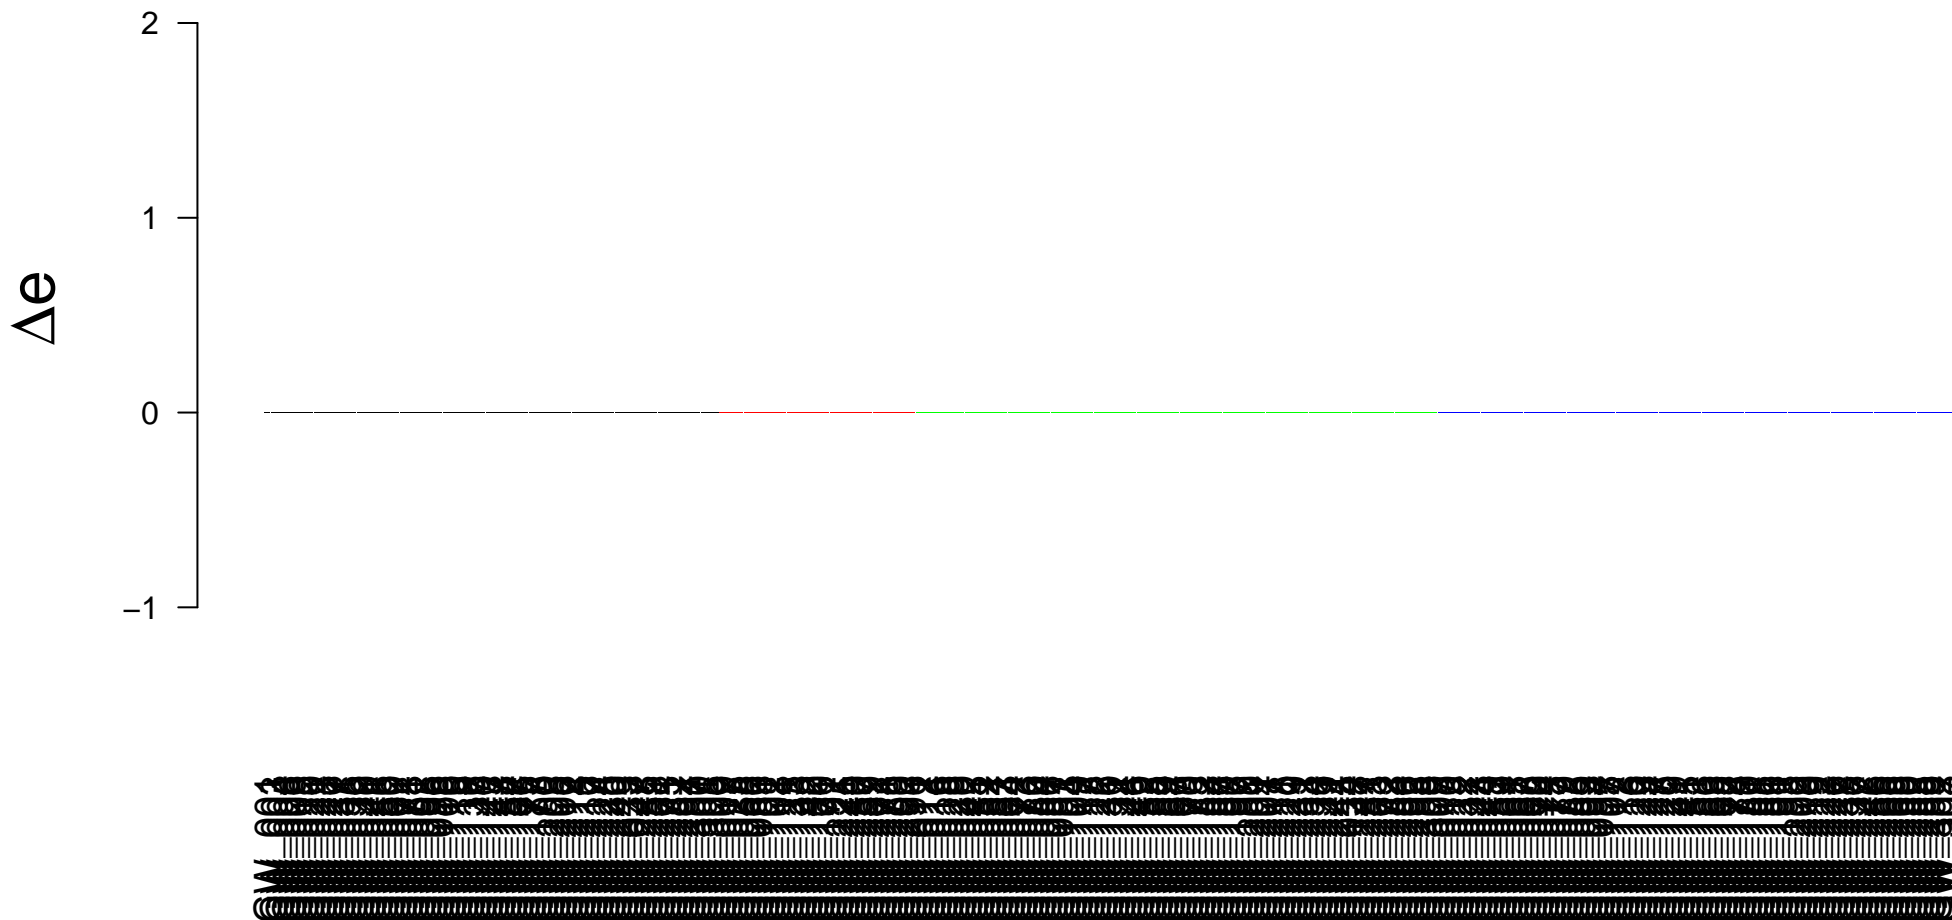

Expression of protein serine/threonine phosphatase activity in Spot N

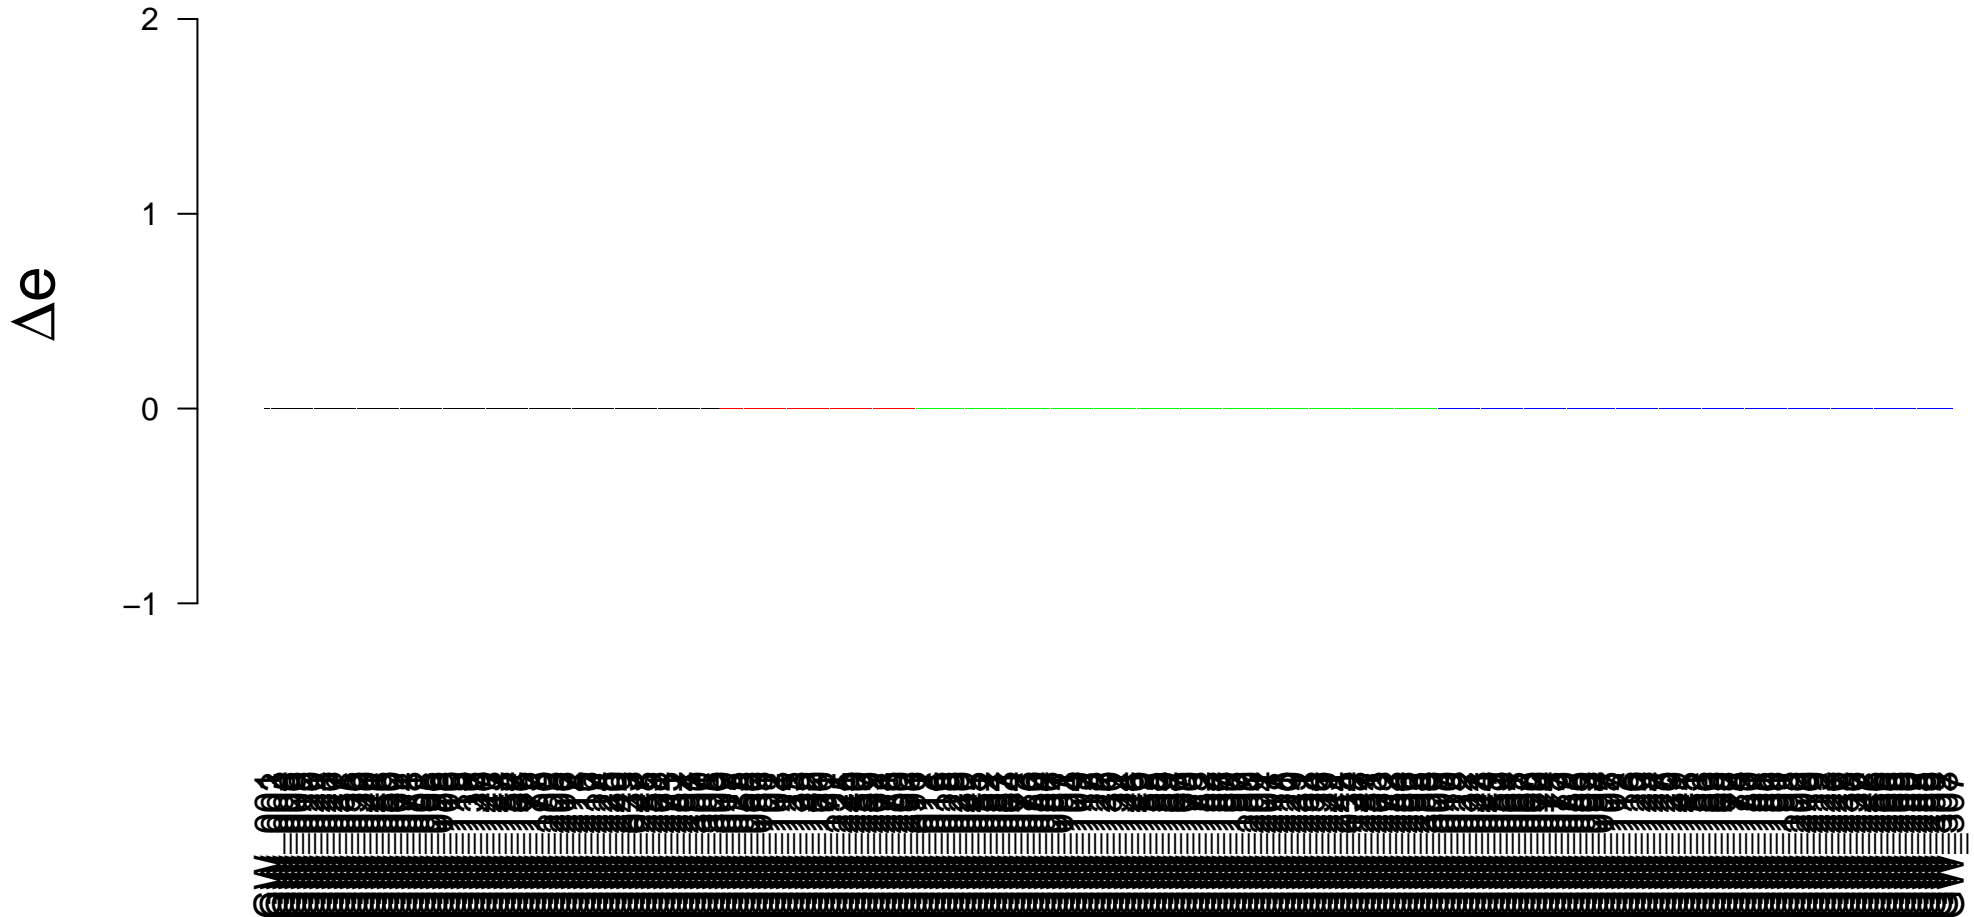

Expression of protein serine/threonine phosphatase activity in Spot O

Expression of protein serine/threonine phosphatase activity in Spot P

Expression of protein serine/threonine phosphatase activity in Spot Q

Expression of protein serine/threonine phosphatase activity in Spot R
